

FEDERAL RESERVE BANK
OF NEW YORK

{Circular No. 4002}
July 30, 1953 }

NEW LIST OF SECURITIES SUBJECT TO REGULATION U

*To all Banks, and Other Interested Persons,
in the Second Federal Reserve District:*

Enclosed is a copy of "List of Stocks Registered on National Securities Exchanges," as of March 31, 1953, published by the Board of Governors of the Federal Reserve System. This list includes a list of "redeemable securities" issued by "open-end investment companies," as defined by the Investment Company Act of 1940, to facilitate compliance by banks with Amendment No. 12 to Regulation U, effective August 1, 1953 (see our Circular No. 3985, June 9, 1953). The principal provision of the amendment is that a loan by a bank to purchase or carry a "redeemable security" issued by an open-end investment company, whose assets customarily include stocks registered on a national securities exchange, shall be deemed a loan for the purpose of purchasing or carrying a stock so registered.

In determining whether or not a security is a "redeemable security" that is subject to the Regulation, the amendment also provides in section 3(c) that a bank may rely upon any reasonably current record of such securities that is published or specified in a publication of the Board of Governors of the Federal Reserve System. The enclosed list answers this purpose and at the same time continues to provide a means of determining, for the purposes of Regulation U, whether or not any other security is a "stock registered on a national securities exchange."

Additional copies of the list will be furnished upon request.

ALLAN SPROUL,
President.

**List of Stocks Registered
on
National Securities Exchanges
and of
Redeemable Securities of Certain
Investment Companies**

As of March 31, 1953

(PREPARED FOR PURPOSES OF REGULATION U)

**BOARD OF GOVERNORS
OF THE FEDERAL RESERVE SYSTEM**

WASHINGTON

June 1953

Foreword

This list is divided into two parts:

Part I—"Stocks registered on a national securities exchange." p. 3

Part II—"Redeemable securities" issued by "open-end" investment companies whose assets customarily include stocks registered on a national securities exchange p. 35

The purpose of the list is to facilitate compliance by banks with the provisions of Regulation U of the Board of Governors of the Federal Reserve System, entitled "Loans by banks for the purpose of purchasing or carrying stocks registered on a national securities exchange."

Regulation U applies to all banks in the United States, including both members and non-members of the Federal Reserve System. Any inquiry relating to the regulation should be addressed to the Federal Reserve Bank of the district in which the inquiry arises.

Sections 3(b)(2) and 3(c) of Regulation U provide as follows:

"(2) A loan for the purpose of purchasing or carrying a 'redeemable security' (i.e. a redeemable proportionate interest in the issuer's assets) issued by an 'open-end company', as defined in the Investment Company Act of 1940, whose assets customarily include stocks registered on a national securities exchange, shall be deemed to be for the purpose of purchasing or carrying a stock so registered.

"(c) In determining whether or not a security is a 'stock registered on a national securities exchange' or a 'redeemable security' described in section 3(b)(2), a bank may rely upon any reasonably current record of such securities that is published or specified in a publication of the Board of Governors of the Federal Reserve System."

A security admitted to unlisted trading privileges on a national securities exchange in accordance with the provisions of the Securities Exchange Act of 1934 is considered, as provided by section 12(f) of the that Act, a "security registered on a national securities exchange." Certain other securities, however, which are listed on an exchange but which are exempted from registration, either by the Act or temporarily by the Securities and Exchange Commission, are not "securities registered on a national securities exchange" within the meaning of the Act.

This list was compiled as of March 31, 1953. Additions and changes will be indicated in supplementary lists which will be issued from time to time.

Acknowledgement is made to the Securities and Exchange Commission for assistance in preparation of this list. A bank may rely upon the list in determining, for the purposes of Regulation U, whether or not a security is a "stock registered on a national securities exchange," and whether or not it is a "redeemable security" of an "open-end" investment company whose assets customarily include stocks so registered, but the Board of Governors of the Federal Reserve System does not otherwise assume any responsibility for the list.

Each registered stock is followed by abbreviations of the names of national securities exchanges on which it is listed or is admitted to unlisted trading privileges, as follows:

AMS—American Stock Exchange*	NYS—New York Stock Exchange
BSE—Boston Stock Exchange	PBS—Philadelphia-Baltimore Stock Exchange
CBT—Chicago Board of Trade	PIT—Pittsburgh Stock Exchange
CIN—Cincinnati Stock Exchange	SLS—Salt Lake Stock Exchange
DSE—Detroit Stock Exchange	SFM—San Francisco Mining Exchange
LAS—Los Angeles Stock Exchange	SFS—San Francisco Stock Exchange
MSE—Midwest Stock Exchange	STS—Standard Stock Exchange, Spokane
NOS—New Orleans Stock Exchange	WSE—Washington Stock Exchange

In cases in which a registered stock is not listed on an exchange but is admitted to unlisted trading privileges thereon, the abbreviation of the name of the exchange is followed by an asterisk (*).

Where the name of an issuer is not followed by the designation of any particular issue of its stock, it is the common or capital stock of the issuer.

* On January 5, 1953 the name of the New York Curb Exchange was changed to the American Stock Exchange.
