## OFFERING OF TWO SERIES OF TREASURY BILLS

**\$1,300,000,000 of 92-Day Bills, Additional Amount, Series Dated May 31, 1963, Due November 29, 1963**

**(To Be Issued August 29, 1963)**

**\$800,000,000 of 182-Day Bills, Dated August 29, 1963, Due February 27, 1964**

To All Incorporated Banks and Trust Companies, and Others  
Concerned, in the Second Federal Reserve District:

Following is the text of a notice issued by the Treasury Department, released for publication today at 4 p.m., Eastern Daylight Saving time:

The Treasury Department, by this public notice, invites tenders for two series of Treasury bills to the aggregate amount of \$2,100,000,000, or thereabouts, for cash and in exchange for Treasury bills maturing August 29, 1963, in the amount of \$2,102,530,000, as follows:

92-day bills (to maturity date) to be issued August 29, 1963, in the amount of \$1,300,000,000, or thereabouts, representing an additional amount of bills dated May 31, 1963, and to mature November 29, 1963, originally issued in the amount of \$801,296,000, the additional and original bills to be freely interchangeable.

182-day bills, for \$800,000,000, or thereabouts, to be dated August 29, 1963, and to mature February 27, 1964.

The bills of both series will be issued on a discount basis under competitive and noncompetitive bidding as hereinafter provided, and at maturity their face amount will be payable without interest. They will be issued in bearer form only, and in denominations of \$1,000, \$5,000, \$10,000, \$50,000, \$100,000, \$500,000 and \$1,000,000 (maturity value).

Tenders will be received at Federal Reserve Banks and Branches up to the closing hour, one-thirty p.m., Eastern Daylight Saving time, Monday, August 26, 1963. Tenders will not be received at the Treasury Department, Washington. Each tender must be for an even multiple of \$1,000, and in the case of competitive tenders the price offered must be expressed on the basis of 100, with not more than three decimals, e.g., 99.925. Fractions may not be used. It is urged that tenders be made on the printed forms and forwarded in the special envelopes which will be supplied by Federal Reserve Banks or Branches on application therefor.

Banking institutions generally may submit tenders for account of customers, provided the names of the customers are set forth in such tenders. Others than banking institutions will not be permitted to submit tenders except for their own account. Tenders will be received without deposit from incorporated banks and trust companies and from responsible and recognized dealers in investment securities. Tenders from others must be accompanied by payment of 2 percent of the face amount of Treasury bills applied for, unless the tenders are accompanied by an express guaranty of payment by an incorporated bank or trust company.

Immediately after the closing hour, tenders will be opened at the Federal Reserve Banks and Branches, following which public announcement will be made by the Treasury Department.

This Bank will receive tenders for both series up to 1:30 p.m., Eastern Daylight Saving time, Monday, August 26, 1963, at the Securities Department of its Head Office and at its Buffalo Branch. Tender forms for the respective series are enclosed. Please use the appropriate forms to submit tenders and return them in an envelope marked "Tender for Treasury Bills." Tenders may be submitted by telegraph, subject to written confirmation; they may not be submitted by telephone. *Payment for the Treasury bills cannot be made by credit through the Treasury Tax and Loan Account. Settlement must be made in cash or other immediately available funds or in maturing Treasury bills.*

Results of the last offering of Treasury bills (91-day bills to be issued August 22, 1963, representing an additional amount of bills dated May 23, 1963, and maturing November 21, 1963; and 182-day bills dated August 22, 1963, maturing February 20, 1964) are shown on the reverse side of this circular.

ALFRED HAYES,  
President.

 Please note that the Treasury bills maturing November 29, 1963, will be 92-day bills.

Average .....	99.152	3.355% <sup>1</sup>	98.250	3.462% <sup>1</sup>

<sup>a</sup> Excepting two tenders totaling \$415,000.

<sup>b</sup> Excepting two tenders totaling \$200,000.

<sup>1</sup> On a coupon issue of the same length and for the same amount invested, the return on these bills would provide yields of 3.43 percent for the 91-day bills, and 3.57 percent for the 182-day bills. Interest rates on bills are quoted in terms of bank discount, with the return related to the face amount of the bills payable at maturity rather than the amount invested, and their length in actual number of days related to a 360-day year. In contrast, yields on certificates, notes, and bonds are computed in terms of interest on the amount invested, and relate the number of days remaining in an interest payment period to the actual number of days in the period, with semiannual compounding if more than one coupon period is involved.

(51 percent of the amount of 91-day bills  
bid for at the low price was accepted.)

(32 percent of the amount of 182-day bills  
bid for at the low price was accepted.)
