FEDERAL RESERVE BANK OF NEW YORK

At- Circ. No. 864/ October 20, 1978

REPORTS OF CONDITION AND INCOME Proposed Simplified Version for Small Banks

To the Chief Executive Officer of Each State

Member Bank in the Second Federal Reserve District:

The Federal Reserve System, the Office of the Comptroller of the Currency, and the Federal Deposit Insurance Corporation have been working on the development of a simplified version of the Report of Income and the Report of Condition for "small banks." The proposed simplified version is described in the attached documents, which are being sent to all insured commercial banks for their comments. It is hoped that banks that would be eligible to use the proposed simplified version will find it helpful in reducing their reporting burdens.

Comments on the proposal should be submitted by November 15, 1978 and may be sent to our Banking Studies Department.

PAUL A. VOLCKER,

President.

FEDERAL RESERVE

press release

This announcement has been prepared on behalf of

The Federal Deposit Insurance Corporation
The Office of the Comptroller of the Currency
The Federal Reserve Board

For immediate release

October 11, 1978

The Federal bank regulatory agencies today proposed for comment a simplified version of the Reports of Condition and Income that could be used by over 90 per cent of the nation's commercial banks to reduce their reporting burden.

The agencies $\frac{1}{2}$ asked for comment by November 15, 1978.

The Reports of Condition and Income are the basic financial reports required to be made, in some cases semiannually, in others quarterly, by all Federally insured banks to their Federal bank supervisor.

The simplified version is intended for the use of banks with less than \$100 million in assets that have domestic offices only. However, eligible banks would have the option of using the more extensive standard Condition and Income Reports forms if they prefer. All banks with \$100 million or more assets, or banks that have foreign offices or Edge Act or Agreement subsidiaries, must use the standard Reports of Condition and Income.

^{1/}Office of the Comptroller of the Currency (supervisor of national banks); Federal Reserve Board (supervisor of State chartered banks that are members of the Federal Reserve System) and the Federal Deposit Insurance Corporation (supervisor of State chartered nonmember banks).

The agencies asked particularly for comment as to whether the \$100 million bank asset ceiling providing eligibility for use of the simplified reports is satisfactory or should be higher or lower.

The proposed simplified reports would eliminate about 40 per cent of the reporting over a year's time compared to the standard form. The simplified reports could be used by 13,165, or 91 per cent, of all commercial banks. They would be effective with reports for December 31, 1978.

The proposed reduction of the reporting burden in the simplified basic financial reports of banks to their regulators would result from:

- -- The elimination of numerous specific items from separate reporting, particularly in details as to loans and deposits;
- --The reduction in the frequency (from semiannually to annually) in reporting whole sections and certain items in the Report of Income; and
- -- The broadening of tests of significance to exempt certain items from explicit listing.

The proposed simplified forms and instructions will be mailed shortly by the three agencies to banks they supervise. Copies are available from the agencies.

SIMPLIFICATION OF REPORTS OF CONDITION AND INCOME FOR SMALL BANKS

Earlier this year, the three Federal banking supervisory agencies—the Board of Governors of the Federal Reserve System, the Comptroller of the Currency, and the Federal Deposit Insurance Corporation announced, for December 1978 implementation, revisions in the Reports of Condition and Income required to be submitted by all insured commercial banks. At that time, the agencies also announced that they would be developing a condensed and simplified version of these reports that "small" banks could use instead of the standard forms. The agencies have now developed such a simplified version, described below, and are requesting public comment.

The agencies would particularly appreciate comments from those banks that this proposed version of the reports is intended to benefit. They would also welcome comments from other banks, other banking authorities, analysts, and any other interested parties. Among the features of the proposed simplified version on which comment would be appreciated are the date of implementation and the size of bank to be eligible to file the simplified version, as well as the particular simplifications embodied in the proposal. To be taken into consideration by the agencies in the final decisions on the format and implementation of the simplified version for small banks, comments should be received by November 15.

Office of the Secretary Board of Governors of the Federal Reserve System Washington, D.C. 20551 A draft version of the reporting forms for the Reports of Condition and Income to be used under the proposed small bank simplification are presented in Attachment 1. The differences between the standard report forms for banks with domestic offices only and the proposed simplified forms are indicated in Attachment 2 in terms of changes entered on copies of the recently revised standard forms.

Date of implementation. Under the proposal, the simplified version would be made effective with the reports for December 31, 1978. The earlier announcements of the agencies had indicated an implementation date of March 31, 1979. Since the banks affected will also have some relatively minor adjustments to make in their reporting procedures to take care of the revisions in the standard Reports of Condition and Income already adopted for December 31, 1978, it was thought desirable to introduce the small bank version at the same time so that the banks involved could make both sets of adjustments at the same time.

Applicability. The simplified version would be applicable in any given year to those insured commercial banks that had assets of less than \$100 million as of June 30 of the previous year and that had only domestic offices (that is, that had no foreign branches, no branches in Puerto Rico or U.S. territories and possessions, no Edge Act or Agreement subsidiaries, or no foreign subsidiaries consolidated in the Report of Condition). For the December 1978 implementation, asset size on June 30, 1978, would be controlling; this would cover more than 91 percent of all

insured commercial banks. Banks passing the \$100 million asset mark or acquiring foreign offices would lose eligibility for the simplified report in the next year.

Each bank eligible to file the simplified version would be given the option of filing the full standard forms if for any reason at all, that would be more convenient for the bank. For example, if the State banking supervisor required reports similar to the standard Federal reports, an eligible State member bank might find it more convenient to file the standard forms with the Federal Reserve. The exercise of this option would be set for a full year; banks would not be permitted to shift forms in the middle of a reporting calendar year. Similarly, an eligible bank would have to report either completely on the simplified forms or completely on the standard forms; reporting partly on one basis and partly on the other would not be an option.

The publication requirement for State member banks would apply to whichever reporting option the banks chose.

At the appropriate time for exercise of the option--that is, at the time of the December Call this year and at the time of the March Call beginning in 1980--all eligible banks would be sent the simplified report forms by their supervisory agency. Those eligible banks opting to use the standard forms would specifically request them from the appropriate agency, which would then continue to send them the standard forms for the remainder of that report year.

It would be helpful to the agencies if those eligible banks commenting on the proposal could give a preliminary indication of whether they were likely to opt for the standard forms.

Detailed description of the small bank proposals. The substance of the proposed simplification would consist of (a) elimination of some items from the standard reports, (b) combination of some items that are reported separately in the standard reports, (c) reduction in frequency of some Report of Income items in the standard reports, and (d) extension of materiality tests determining certain reporting requirements.

- a. The major report item eliminations would be:
 - (1) deposit detail by customer shown on the face of the standard Report of Condition (this deposit detail is retained in Schedule F);
 - (2) deposit detail under "deposits of individuals, partnerships and corporations" in Schedule F of the standard Report of Condition;
 - (3) all but one of the 30-day average memoranda items shown on the face of the standard Report of Condition;
- (4) some foreign business related items on the standard

 Report of Income that are inappropriate or inconsequential for banks under \$100 million;
 - (5) the separation of provision of income taxes between current and deferred portions;

- (6) various other items on the face and in the schedules of the standard Report of Condition and on the Report of Income.
- b. The report item combinations would affect:
 - (1) various details on securities throughout the standard Report of Condition and Income;
 - (2) a major part of the details on loans in Schedule A of the standard Report of Condition;
 - (3) a major part of the details on cash and due from depository institutions in Schedule C of the standard Report of Condition;
 - (4) some details on deposits in Schedule F of the standard Report of Condition;
 - (5) some details on borrowings in the standard Reports of Condition and Income;
 - (6) details on deferred income tax liabilities in Schedule H
 of the Standard Report of Condition.
- c. A reduction in frequency is proposed for Sections B through F of the Report of Income which, except for a handful of items, would be reported only annually in December instead of semiannually as in the standard report.
- d. In Schedules G and H ("Other assets" and "Other liabilities") of the Report of Condition and Sections D and E ("Other operating income" and "Other operating expenses") of the Report of Income,

extension of materiality tests would reduce reporting requirements in two ways:

- (1) items that meet the percentage materiality tests of the standard forms would not need to be listed explicitly unless they also exceed specified dollar amounts.
- (2) the materiality test for explicit listing in Sections D
 and E of the Report of Income would be extended to all
 items covered by the sections. (In the standard form some
 items are to be reported regardless of size.)

The net result of these proposed changes would be that the report forms in the simplified version would have 40 percent fewer items of information to be filled in over the year than would the standard forms for the affected banks.

Attachment 2 shows all these differences from the standard reports on copies of the standard report forms. The resulting proposed report forms for small banks are presented in Attachment 1.

Consolidated Report of Income

For a Bank and Its Domestic and Foreign Subsidiaries

PROPOSED REPORTING FORM FOR BANKS THAT HAVE LESS THAN \$100 MILLION IN TOTAL ASSETS

This report may be filed only by banks that have less than \$100 million in total assets. Banks that have \$100 million or more in total assets or that have foreign branches, foreign subsidiaries, Edge Act or Agreement subsidiaries, or branches in U.S. territories and possessions must file an alternative version of this report.
