Following is the text of a notice issued by the Treasury Department:

The Department of the Treasury, by this public notice, invites tenders for two series of Treasury bills totaling approximately \$8,000 million, to be issued July 17, 1980. This offering will provide \$1,200 million of new cash for the Treasury as the maturing bills are outstanding in the amount of \$6,796 million, including \$1,035 million currently held by Federal Reserve Banks as agents for foreign and international monetary authorities, and \$1,583 million currently held by Federal Reserve Banks for their own account. The two series offered are as follows:

91-day bills (to maturity date) for approximately \$4,000 million, representing an additional amount of bills dated April 17, 1980, and to mature October 16, 1980 (CUSIP No. 912793 5K8), originally issued in the amount of \$3,544 million, the additional and original bills to be freely interchangeable.

182-day bills for approximately \$4,000 million to be dated July 17, 1980, and to mature January 15, 1981 (CUSIP No. 912793 5V4).

Both series of bills will be issued for cash and in exchange for Treasury bills maturing July 17, 1980. Tenders from Federal Reserve Banks for themselves and as agents for foreign and international monetary authorities will be accepted at the weighted average prices of accepted competitive tenders. Additional amounts of the bills may be issued to Federal Reserve Banks, as agents for foreign and international monetary authorities, to the extent that the aggregate amount of tenders for such accounts exceeds the aggregate amount of maturing bills held by them.

The bills will be issued on a discount basis under competitive and noncompetitive bidding, and at maturity their par amount will be payable without interest. Both series of bills will be issued entirely in book-entry form in a minimum amount of \$10,000 and in any higher \$5,000 multiple, on the records either of the Federal Reserve Banks and Branches, or of the Department of the Treasury.
