The Department of the Treasury, by this public notice, invites tenders for two series of Treasury bills totaling approximately \$11,200 million, to be issued October 21, 1982. This offering will provide \$925 million of new cash for the Treasury, as the maturing bills are outstanding in the amount of \$10,272 million, including \$865 million currently held by Federal Reserve Banks as agents for foreign and international monetary authorities and \$1,635 million currently held by Federal Reserve Banks for their own account. The two series offered are as follows:

91-day bills (to maturity date) for approximately \$5,600 million, representing an additional amount of bills dated July 22, 1982, and to mature January 20, 1983 (CUSIP No. 912794 CG7), currently outstanding in the amount of \$5,529 million, the additional and original bills to be freely interchangeable.

182-day bills (to maturity date) for approximately \$5,600 million, representing an additional amount of bills dated April 22, 1982, and to mature April 21, 1983 (CUSIP No. 912794 CB8), currently outstanding in the amount of 5,269 million, the additional and original bills to be freely interchangeable.

Both series of bills will be issued for cash and in exchange for Treasury bills maturing October 21, 1982. Tenders from Federal Reserve Banks for themselves and as agents for foreign and international monetary authorities will be accepted at the weighted average prices of accepted competitive tenders. The bills will be issued on a discount basis under competitive and non-competitive bidding, and at maturity their par amount will be payable without interest. Both series of bills will be issued entirely in book-entry form in a minimum amount of \$10,000 and in any higher \$5,000 multiple, on the records either of the Federal Reserve Banks and Branches, or of the Department of the Treasury.
