**\$6,000,000,000 of 91-Day Bills, To Be Issued April 19, 1984, Due July 19, 1984**  
**\$6,000,000,000 of 182-Day Bills, To Be Issued April 19, 1984, Due October 18, 1984**

To All Banking Institutions, and Others Concerned,  
in the Second Federal Reserve District:

Following is the text of a notice issued by the Treasury Department:

The Department of the Treasury, by this public notice, invites tenders for two series of Treasury bills totaling approximately \$12,000 million, to be issued April 19, 1984. This offering will result in a paydown for the Treasury of about \$475 million, as the maturing bills were originally issued in the amount of \$12,463 million. The two series offered are as follows:

91-day bills (to maturity date) for approximately \$6,000 million, representing an additional amount of bills dated January 19, 1984, and to mature July 19, 1984 (CUSIP No. 912794 FN9), currently outstanding in the amount of \$6,429 million, the additional and original bills to be freely interchangeable.

182-day bills for approximately \$6,000 million, to be dated April 19, 1984, and to mature October 18, 1984 (CUSIP No. 912794 FY5).

Both series of bills will be issued for cash and in exchange for Treasury bills maturing April 19, 1984. In addition to the maturing 13-week and 26-week bills, there are \$7,764 million of maturing 52-week bills. The disposition of this latter amount was announced last week. Federal Reserve Banks, as agents for foreign and international monetary authorities, currently hold \$1,479 million, and Federal Reserve Banks for their own account hold \$3,052 million of the maturing bills. These amounts represent the combined holdings of such accounts for the three issues of maturing bills.

Tenders from Federal Reserve Banks for themselves and as agents for foreign and international monetary authorities will be accepted at the weighted average bank discount rates of accepted competitive tenders. Additional amounts of the bills may be issued to Federal Reserve Banks, as agents for foreign and international monetary authorities, to the extent that the aggregate amount of tenders for such accounts exceeds the aggregate amount of maturing bills held by them. For purposes of determining such additional amounts, foreign and international monetary authorities are considered to hold \$1,429 million of the original 13-week and 26-week issues.

The bills will be issued on a discount basis under competitive and non-competitive bidding, and at maturity their par amount will be payable without interest. Both series of bills will be issued entirely in book-entry form in a minimum amount of \$10,000 and in any higher \$5,000 multiple, on the records either of the Federal Reserve Banks and Branches, or of the Department of the Treasury.

Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20239, prior to 1:00 p.m., Eastern Standard time, Monday, April 16, 1984. Form PD 4632-2 (for 26-week series) or Form PD 4632-3 (for 13-week series) should be used to submit tenders for bills to be maintained on the book-entry records of the Department of the Treasury.

Each tender must state the par amount of bills bid for, which must be a minimum of \$10,000. Tenders over \$10,000 must be in multiples of \$5,000. Competitive tenders must also show the yield desired, expressed on a bank discount rate basis with two decimals, e.g., 7.15%. Fractions may not be used.

Banking institutions and dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions in and borrowings on such securities may submit tenders for account of customers, if the names of the customers and the amount for each customer are furnished. Others are only permitted to submit tenders for their own account. Each tender must state the amount of any net long position in the bills being offered if such position is in excess of \$200 million. This information should reflect positions held as of 12:30 p.m., Eastern time, on the day of the auction. Such positions would include bills acquired through "when issued" trading, and futures and forward transactions as well as holdings of outstanding bills with the same maturity date as the new offering, e.g., bills with three months to maturity previously offered as six-month bills. Dealers who make primary

This Bank will receive tenders for both series prior to 1:00 p.m., Eastern Standard time, Monday, April 16, 1984, at the Securities Department of its Head Office and at its Buffalo Branch. Forms for submitting tenders directly to the Treasury are available from the Government Bond Division of this Bank. Tenders not requiring a deposit may be submitted by telegraph, subject to written confirmation; no tenders may be submitted by telephone. Settlement must be made in cash or other immediately available funds or in Treasury securities maturing on or before the issue date. *Treasury Tax and Loan Note Option Depositaries may make payment for Treasury bills by credit to their Treasury Tax and Loan Note Accounts.*
