

FEDERAL RESERVE BANK  
OF NEW YORK

At-Cir. No. 9849(a)

May 1, 1985

LIST OF MARGINABLE OTC STOCKS  
As of May 14, 1985

To All Persons Extending Securities Credit  
in the Second Federal Reserve District:

The Board of Governors of the Federal Reserve System has published a revised list of marginable over-the-counter (OTC) stocks that are subject to its margin regulations, effective May 14, 1985. The following is quoted from the text of the Board's announcement of the revision:

The list includes all over-the-counter securities designated by the Board pursuant to its established criteria as well as all securities qualified for trading in the national market system (NMS). This list includes all securities qualified for trading in Tier 1 of the NMS through May 14 and those in Tier 2 through April 16, 1985. Additional OTC securities may be designated as NMS securities in the interim between the Board's quarterly publications and will be immediately marginable. The next publication of the Board's list is scheduled for August 1985.

This List of Marginable OTC Stocks supersedes the revised List of Marginable OTC Stocks that was effective on February 12, 1985. Changes that have been made in the List, which now includes 2,406 OTC stocks, are as follows:

- 175 stocks have been included for the first time, 149 under NMS designation.
- 20 stocks previously on the List have been removed for substantially failing to meet the requirements for continued listing.
- 33 stocks have been removed for reasons such as listing on a national securities exchange or involvement in an acquisition.

In addition to NMS-designated securities, the Board will continue to monitor the market activity of other OTC stocks to determine which stocks meet the requirements for inclusion and continued inclusion on the List.

Margin regulations generally limit the amount of credit a person or firm may obtain to buy or carry stock. Stocks on the List of Marginable OTC Stocks are subject to the same margin requirements (currently 50 percent) as stocks listed on national securities exchanges. This means a person or firm buying a stock on credit must make a down payment equal to at least 50 percent of the purchase price of the stock and may obtain credit for the remaining 50 percent. These margin requirements are only applicable to credit extended on OTC stocks after they are placed on the List and the List has become effective or are designated as NMS Securities. No credit may be extended by broker/dealers on OTC stocks not on the List or in the NMS group. Credit extended by banks and other lenders on the remaining OTC stocks need only conform to the good faith lending limitation contained in Regulations G and U.

It is unlawful for any person to cause any representation to be made that inclusion of a stock on this List indicates that the Board or the Securities and Exchange Commission has in any way passed upon the merits of any such stock or transaction therein. Any references to the Board in connection with the List or any stocks thereon in any advertisement or similar communication is unlawful.

The List is published by the Board for the information of lenders and the general public.

Enclosed is a copy of the revised *List of Marginable OTC Stocks*. Any questions regarding the list may be directed to our Regulations Division (Tel.No. 212-791-5914). A limited number of additional copies (maximum of 50) of the list will be furnished upon written request addressed to either the Regulations Division or the Circulars Division of this Bank.

E. GERALD CORRIGAN,  
*President.*

*At-List no 9849(a)*

**LIST OF MARGINABLE OTC STOCKS  
AS OF  
MAY 14, 1985**

---

---

This List of Marginable OTC Stocks is published quarterly by the Board of Governors of the Federal Reserve System (the Board) as a guide for lenders subject to the regulations and for the general public. It is comprised of stocks traded over-the-counter (OTC) that have been determined by the Board to be subject to margin requirements as of May 14, 1985, pursuant to Section 207.6 of Federal Reserve Regulation G, "Securities Credit by Persons other than Banks, Brokers, or Dealers," Section 220.17 of Regulation T, "Credit by Brokers and Dealers," and Section 221.7 of Regulation U, "Credit by Banks for the Purpose of Purchasing or Carrying Margin Stocks." It also includes all securities qualified for trading in Tier 1 of the national market system (NMS) through May 14, 1985 and those in Tier 2 through April 16, 1985. Additional NMS securities may be added in the interim between publications and are immediately marginable upon designation as an NMS security. The names of these securities are available at the Board and at the Securities and Exchange Commission. This List supersedes the previous List published as of February 12, 1985.

**CAUTION:** It is unlawful for any person to cause any representation to be made that inclusion of a security on this List indicates that the Board or the Securities and Exchange Commission has in any way approved such security or transaction therein. Also, any reference to the Board in connection with this List or any securities thereon in an advertisement or similar communication is unlawful.

**Any inquiry relating to this List or to Regulations G, T, U or X should be addressed to the nearest Federal Reserve Bank.**
