To All Banking Institutions, and Others Concerned,  
in the Second Federal Reserve District:

Following is the text of a notice issued by the Treasury Department:

The Department of the Treasury, by this public notice, invites tenders for two series of Treasury bills totaling approximately \$14,000 million, to be issued June 13, 1985. This offering will not provide new cash for the Treasury, as the maturing bills are outstanding in the amount of \$14,007 million. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20239, prior to 1:00 p.m., Eastern Daylight Saving time, Monday, June 10, 1985. The two series offered are as follows:

91-day bills (to maturity date) for approximately \$7,000 million, representing an additional amount of bills dated March 14, 1985, and to mature September 12, 1985 (CUSIP No. 912794 HY3), currently outstanding in the amount of \$7,072 million, the additional and original bills to be freely interchangeable.

182-day bills for approximately \$7,000 million, to be dated June 13, 1985, and to mature December 12, 1985 (CUSIP No. 912794 JJ4).

The bills will be issued on a discount basis under competitive and non-competitive bidding, and at maturity their par amount will be payable without interest. Both series of bills will be issued entirely in book-entry form in a minimum amount of \$10,000 and in any higher \$5,000 multiple, on the records either of the Federal Reserve Banks and Branches, or of the Department of the Treasury.

The bills will be issued for cash and in exchange for Treasury bills maturing June 13, 1985. In addition to the maturing 13-week and 26-week bills, there are \$8,354 million of maturing 52-week bills. The disposition of this latter amount was announced last week. Tenders from Federal Reserve Banks for their own account and as agents for foreign and international monetary authorities will be accepted at the weighted average bank discount rates of accepted competitive tenders. Additional amounts of the bills may be issued to Federal Reserve Banks, as agents for foreign and international monetary authorities, to the extent that the aggregate amount of tenders for such accounts exceeds the aggregate amount of maturing bills held by them. For purposes of determining such additional amounts, foreign and international monetary authorities are considered to hold \$1,440 million of the original 13-week and 26-week issues. Federal Reserve Banks currently hold \$1,590 million as agents for foreign and international monetary authorities, and \$5,410 million for their own account. These amounts represent the combined holdings of such accounts for the three issues of maturing bills. Tenders for bills to be maintained on the book-entry records of the Department of the Treasury should be submitted on Form PD 4632-2 (for 26-week series) or Form PD 4632-3 (for 13-week series).

Each tender must state the par amount of bills bid for, which must be a minimum of \$10,000. Tenders over \$10,000 must be in multiples of \$5,000. Competitive tenders must also show the yield desired, expressed on a bank discount rate basis with two decimals, e.g., 7.15%. Fractions may not be used. A single bidder, as defined in Treasury's single bidder guidelines, shall not submit noncompetitive tenders totaling more than \$1,000,000.

Banking institutions and dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions in and borrowings on such securities may submit tenders for account of customers, if the names of the customers and the amount for each customer are furnished. Others are only permitted to submit tenders for their own account. Each tender must state the amount of any net long position in the bills being offered if such position is in excess of \$200 million. This information should reflect positions held as of 12:30 p.m., Eastern time, on the day of the auction. Such positions would include bills acquired through "when issued" trading, and futures and forward transactions as well as holdings of outstanding bills with the same maturity date as

This Bank will receive tenders for both series prior to 1:00 p.m., Eastern Daylight Saving time, Monday, June 10, 1985, at the Securities Department of its Head Office and at its Buffalo Branch. Tender forms for both series are enclosed. Please be sure to use them to submit tenders and return them in the enclosed envelope. Forms for submitting tenders directly to the Treasury are available from the Government Bond Division of this Bank. Tenders not requiring a deposit may be submitted by telegraph, subject to written confirmation; no tenders may be submitted by telephone. Settlement must be made in cash or other immediately available funds or in Treasury securities maturing on or before the issue date. Treasury Tax and Loan Note Option Depositories may make payment for Treasury bills by credit to their Treasury Tax and Loan Note Accounts.

Results of the last weekly offering are shown on the reverse side of this circular.

E. GERALD CORRIGAN,  
President.
