# FEDERAL RESERVE press release

For use in morning papers  
January 30, 1989

January 27, 1989

The Federal Reserve Board today published a revised list of over-the-counter (OTC) stocks that are subject to its margin regulations, effective February 13, 1989.

This revised List of Marginable OTC Stocks supersedes the List of Marginable OTC Stocks that was effective on November 14, 1988. The changes that have been made to the List, which now includes 3,070 OTC stocks, are as follows:

- 76 stocks have been included for the first time, 61 under National Market System (NMS) designation;
- 53 stocks previously on the List have been removed for substantially failing to meet the requirements for continued listing;
- 64 stocks have been removed for reasons such as listing on a national securities exchange or involvement in an acquisition.

The list includes all over-the-counter securities designated by the Board pursuant to its established criteria as well as all stocks designated as NMS securities for which transaction reports are required to be made pursuant to an

effective transaction reporting plan. Additional OTC securities may be designated as NMS securities in the interim between the Board's quarterly publications and will be immediately marginable. The next publication of the Board's list is scheduled for May 1989.

In addition to NMS-designated securities, the Board will continue to monitor the market activity of other OTC stocks to determine which stocks meet the requirements for inclusion and continued inclusion on the List.

Margin regulations generally limit the amount of credit a person or firm may obtain to buy or carry stock. Stocks on the List of Marginable OTC Stocks are subject to the same margin requirements (currently 50 percent) as stocks listed on national securities exchanges. This means a person or firm buying a stock on credit must make a down payment equal to at least 50 percent of the purchase price of the stock and may obtain credit for the remaining 50 percent. These margin requirements are only applicable to credit extended on OTC stocks after they are placed on the List and the List has become effective or are designated as NMS securities. No credit may be extended by broker-dealers on OTC stocks not on the List or in the NMS group. Credit extended by banks and other lenders on OTC stocks not on the List or in the NMS group need only conform to the good faith lending limitation contained in Regulations G and U.

It is unlawful for any person to cause any representation to be made that inclusion of a stock on this List indicates that the Board or the Securities and Exchange Commission has in any way passed upon the merits of any such stock or transaction therein. Any references to the Board in connection with the List or any stocks thereon in any advertisement or similar communications is unlawful.

#### 7 CFR Part 910

[Lemon Reg. 650]

##### Lemons Grown in California and Arizona; Limitation of Handling

**AGENCY:** Agricultural Marketing Service, USDA.

**ACTION:** Final rule.

**SUMMARY:** Regulation 650 establishes the quantity of fresh California-Arizona lemons that may be shipped to market at 225,000 cartons during the period January 29 through February 4, 1989. Such action is needed to balance the supply of fresh lemons with market demand for the period specified, due to the marketing situation confronting the lemon industry.

**DATES:** Regulation 650 (**§ 910.950**) is effective for the period January 29 through February 4, 1989.

**FOR FURTHER INFORMATION CONTACT:** Beatriz Rodriguez, Marketing Specialist, Marketing Order Administration Branch, F&V, AMS, USDA, Room 2523, South Building, P.O. Box 96456, Washington, DC 20090-6456; telephone: (202) 447-5697.

**SUPPLEMENTARY INFORMATION:** This final rule has been reviewed under Executive Order 12291 and Departmental Regulation 1512-1 and has been determined to be a "non-major" rule under criteria contained therein.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service has determined that this action will not have a significant economic impact on a substantial number of small entities.

The purpose of the RFA is to fit regulatory action to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Agricultural Marketing Agreement Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 85 handlers of lemons grown in California and Arizona subject to regulation under the lemon marketing order and approximately 2500 producers in the

regulated area. Small agricultural producers have been defined by the Small Business Administration (13 CFR 121.2) as those having annual gross revenues for the last three years of less than \$500,000, and small agricultural service firms are defined as those whose gross annual receipts are less than \$3,500,000. The majority of handlers and producers of California-Arizona lemons may be classified as small entities.

This regulation is issued under Marketing Order No. 910, as amended (7 CFR Part 910) regulating the handling of lemons grown in California and Arizona. The order is effective under the Agricultural Marketing Agreement Act (the "Act," 7 U.S.C. 601-674), as amended. This action is based upon the recommendation and information submitted by the Lemon Administrative Committee (Committee) and upon other available information. It is found that this action will tend to effectuate the declared policy of the Act.

This regulation is consistent with the marketing policy for 1988-89. The Committee met publicly on January 24, 1989, in Los Angeles, California, to consider the current and prospective conditions of supply and demand and unanimously recommended a quantity of lemons deemed advisable to be handled during the specified week. The Committee reports that demand for lemons is fair.

Pursuant to 5 U.S.C. 553, it is further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice and engage in further public procedure with respect to this action and that good cause exists for not postponing the effective date of this action until 30 days after publication in the **Federal Register** because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared purposes of the Act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary, in order to effectuate the declared purposes of the Act, to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

##### List of Subjects in 7 CFR Part 910

Marketing agreements and orders, California, Arizona, Lemons.

For the reasons set forth in the preamble, 7 CFR Part 910 is amended as follows:

#### PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

**1. The authority citation for 7 CFR Part 910 continues to read as follows:**

**Authority:** Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.

**2 Section 910.950 is added to read as follows:**

**Note:** This section will not appear in the Code of Federal Regulations.

##### § 910.950 Lemon Regulation 650.

The quantity of lemons grown in California and Arizona which may be handled during the period January 29, 1989, through February 4, 1989, is established at 225,000 cartons.

#### FEDERAL RESERVE SYSTEM

##### 12 CFR Parts 207, 220, 221 and 224

[Regulations G, T, U and X]

##### Securities Credit Transactions; List of Marginable OTC Stocks

**AGENCY:** Board of Governors of the Federal Reserve System.

**ACTION:** Final rule; determination of applicability of regulations.

**SUMMARY:** The List of Marginable OTC Stocks is comprised of stocks traded over-the-counter (OTC) that have been determined by the Board of Governors of the Federal Reserve System to be subject to the margin requirements under certain Federal Reserve regulations. The List is published four times a year by the Board as a guide for lenders subject to the regulations and the general public. This document sets forth additions to or deletions from the previously published List which was effective November 14, 1988, and will serve to give notice to the public about the changed status of certain stocks.

**EFFECTIVE DATE:** February 13, 1989.

**FOR FURTHER INFORMATION CONTACT:** Peggy Wolfrum, Securities Regulation Analyst, Division of Banking Supervision and Regulation, (202) 452-2781. For the hearing impaired only, Earnestine Hill or Dorothea Thompson, Telecommunications Device for the Deaf (TDD) (202) 452-3544, Board of Governors of the Federal Reserve System, Washington, DC 20551.

**SUPPLEMENTARY INFORMATION:** Set forth below are stocks representing additions to or deletions from the Board's List of Marginable OTC Stocks. This supersedes the last List which was effective November 14, 1988. Additions and deletions for that List were published at 53 FR 43678, October 28, 1988. A copy of the complete List incorporating these additions and deletions is available from the Federal Reserve Banks.

The List of Marginable OTC Stocks includes those stocks that meet the criteria in Regulations G, T and U (12 CFR Parts 207, 220 and 221, respectively). This determination also effects the applicability of Regulation X (12 CFR Part 224). These stocks have the degree of national investor interest, the depth and breadth of market, and the availability of information respecting the stock and its issuer to warrant regulation in the same fashion as exchange-traded securities. The List also includes any stock designated under an SEC rule as qualified for trading in the national market system (NMS security). Additional OTC stocks may be designated as NMS securities in the interim between the Board's quarterly publications. They will become automatically marginable at broker-dealers upon the effective date of their NMS designation. The names of these stocks are available at the Board and the Securities and Exchange Commission and will be incorporated into the Board's next quarterly List.

The requirements of 5 U.S.C. 553 with respect to notice and public participation were not followed in connection with the issuance of this amendment due to the objective character of the criteria for inclusion and continued inclusion on the List specified in 12 CFR 207.6(a) and (b), 220.17(a) and (b), and 221.7(a) and (b). No additional useful information would be gained by public participation. The full requirements of 5 U.S.C. 553 with respect to deferred effective date have not been followed in connection with the issuance of this amendment because the Board finds that it is in the public interest to facilitate investment and credit decisions based in whole or in part upon the composition of this List as soon as possible. The Board has responded to a request by the public and allowed a two-week delay before the List is effective.

In connection with the amendments to 12 CFR Part 544 and 552 regarding delegations of authority, the Board also amends the relevant provisions of those Parts regarding filing requirements and procedures for charter and bylaw amendments.

**EFFECTIVE DATE:** January 30, 1989.

**FOR FURTHER INFORMATION CONTACT:**  
Kevin L. Petrasic, Staff Attorney, (202) 377-6452, Corporate and Securities Division, Office of General Counsel, Federal Home Loan Bank Board, 1700 G Street, NW, Washington, DC 20552.

**SUPPLEMENTARY INFORMATION:** Under 12 CFR 544.2 and 552.4, and pursuant to Board Resolution No. 86-719,<sup>2</sup> federal mutual and stock associations, respectively, are required to obtain preliminary approval of charter amendments that differ from the preapproved amendments listed in 12 CFR 544.2(b) and 552.4(b). Likewise, under 12 CFR 544.5 and 552.5, and pursuant to Board Resolution No. 86-719, federal mutual and stock associations, respectively, are required to obtain approval for bylaw amendments that are inconsistent with the provisions of 12 CFR 544.5(b) and 552.6 through 552.6-4. Currently, to obtain such approvals, a federal association is required to file an application to amend its charter and/or bylaws with the association's Supervisory Agent. Immediately upon filing, the Supervisory Agent is required to forward promptly a copy of the application to the Director of the Office of District Banks, who then forwards the application to the Office of General Counsel. Thereafter, the Supervisory Agent is required to make a recommendation on the application, to approve or deny in whole or in part, to the Director of the Office of District Banks. Upon receipt of the application, the Office of General Counsel determines whether the amendment would be in conformity with the provisions of 12 CFR 544.2 or 552.4, if the application involves a charter amendment, or whether it is not inconsistent with the provisions of 12 CFR 554.5 or 552.6 through 552.6-4, if it involves a bylaw amendment. The Office of General Counsel then generally prepares and signs a letter

<sup>2</sup> Resolution No. 86-719 (July 15, 1986), repealing *inter alia* Resolution No. 83-206 (April 8, 1983).

either approving or denying the application that is then returned to the Office of District Banks, which also executes the letter.

In order to streamline this process, the Board is adopting 12 CFR 544.2(d), 544.5(c), 552.4(e) and 552.5(d) so that applications for approval of charter and bylaw amendments may be granted or denied by a federal association's Principal Supervisory Agent, *provided* that they (i) do not have the effect of rendering more difficult or discouraging a merger, tender offer, or proxy contest, the assumption of control by a holder of a larger block of the association's stock, or the removal of incumbent management (hereinafter, "Anti-takeover Amendments"), or (ii) do not involve a significant issue of law or policy. In addition, applications for approval of charter or bylaw amendments that include Anti-takeover Amendments or that involve a significant issue of law or policy may be acted upon by the Office of General Counsel, which will have delegated authority to either approve or deny such proposed amendments. As appropriate, e.g., for amendments presenting policy issues of potentially broad precedential effect, the Office of General Counsel will refer proposed amendments to the Board for a determination.

If an applicant believes its application is eligible to be processed under delegated authority by the Principal Supervisory Agent pursuant to either of these provisions, the applicant should submit to the Principal Supervisory Agent, together with the proposed amendments, a brief description of the proposed charter and/or bylaw amendments including a statement indicating that the amendment does not include any Anti-takeover Amendments and does not involve a significant issue of law or policy. Such statement should be clearly marked "Statement Regarding Eligibility for Processing Under Delegated Authority." Although failure to provide such a statement will not cause the application to be deemed deficient, it may cause delay in processing the application until a determination is made by the Supervisory Agent as to whether the application may be processed under delegated authority. In addition, filing an application with the suggested statement will remove the necessity of concurrently filing the application with the Office of General Counsel. However, if the Supervisory Agent determines that the application includes an Anti-takeover Amendment or involves a significant issue of law or policy, contrary to an applicant's statement of

delegated authority, then the application will be immediately forwarded to the Office of General Counsel to avoid further delays in processing. Failure to file properly with the Office of General Counsel at the outset will cause the applicable time frames for review not to commence until the application is received from the District Bank. Thus, an applicant that is uncertain as to whether a charter or bylaw amendment may include an Anti-takeover Amendment or involve a significant issue of law or policy is strongly encouraged to contact either its Supervisory Agent or the Office of General Counsel for guidance on the issue prior to filing an application so as to avoid unnecessary delays in processing the application.

As a general matter, Anti-takeover Amendments that will cause an application for approval not to be processed under delegated authority include *but are not limited to* (i) establishing supermajority approval requirements for specified corporate transactions, (ii) establishing a supermajority vote to cancel an existing or proposed supermajority provision, (iii) establishing a supermajority vote to amend an association's charter, (iv) reducing an existing or proposed supermajority vote requirement if a transaction involves a related party to the association, e.g., an insider or 5 percent or more shareholder, (v) issuing poison pill preferred stock or establishing shareholders' rights plans, i.e., the creation of a class of stock or the issuance of options to management that will serve to discourage prospective acquiror's of the association's stock, (vi) establishing employee benefit, stock ownership, or stock option plans that provide a means to defend against a takeover attempt, (vii) provisions that unreasonably restrict the ability of the shareholders to remove the current board of directors or that unreasonably restrict the ability of the shareholders to call a special meeting, (viii) establishing a supermajority vote requirement, or requiring the consent of management, for a large shareholder to vote those shares that it owns that exceed a designated percentage of the outstanding stock of the association, (ix) establishing fair price provisions for an association's stock that would make it more expensive for a prospective acquiror of an association's stock to purchase a controlling interest of the association without the cooperation of current management, (x) limiting the shareholders' ability to nominate directors and to introduce new business proposals at a shareholders' meeting,

and (xi) requiring a supermajority shareholder vote to remove a director.

In addition, a charter or bylaw amendment will be considered to involve a significant issue of law or policy if it contains unique, novel, complex, or nationally precedential issues of law or policy. Examples in this area include provisions attempting to limit the liability of directors for breaches of certain types of fiduciary duties, and officer and director indemnification provisions that do not conform to the requirements of 12 CFR 545.121.

The standard of review for applications for approval of charter and bylaw amendments is not changed as a result of these amendments. All routine charter amendments filed with the Supervisory Agent may be granted preliminary approval so long as such amendments do not differ in any material respect from the charter amendments granted preliminary approval under 12 CFR 552.4(b) or other law or regulation, including the indemnification provisions of 12 CFR 545.121. In addition, all routine bylaw amendments that are not materially inconsistent with the provisions of 12 CFR 552.6 through 552.6-4 may be approved by the Principal Supervisory Agent. Thus, for example, an applicant filing an application to adopt an indemnification provision in its charter or bylaws may be eligible to receive approval for the application from the Principal Supervisory Agent, provided, that such provision does not differ *materially* from the requirements of 12 CFR 545.121.<sup>3</sup>

The amendments to 12 CFR Parts 544 and 552 also include an appeal procedure that an applicant may utilize if it feels that the Principal Supervisory Agent has erroneously denied its application. In this regard, if an application delegated to the Principal Supervisory Agent is denied, the applicant may, within 30 days after notification of the Principal Supervisory Agent's decision, file a request for review with the Office of General Counsel. Upon receipt of such a request,

<sup>3</sup> This particular provision is referenced due to the fact that in the past there has been considerable confusion among applicants as to what type of wording is acceptable for an indemnification charter or bylaw amendment. In this regard, although the precise language of 12 CFR 545.121 need not be adopted for a charter or bylaw amendment to be approved by the Principal Supervisory Agent, any such amendment should not exceed the limitations set forth in 12 CFR 545.121, with the exception that officers, directors and employees of wholly-owned subsidiaries also may be included within the scope of permissible indemnification.

which should include a copy of the application and indicate the specific reasons why the Principal Supervisory Agent's denial is contended to be erroneous, the Office of General Counsel will have 60 days to review the application to determine whether to approve or deny the amendment. If the Office of General Counsel does not deny the appeal within such 60 day period, then the appeal request and the amendment shall be deemed to be automatically approved.

Finally, in connection with the aforementioned amendments to 12 CFR Parts 544 and 552, the Board is adopting 12 CFR 554.2(e), 552.4(f) and 552.5(e) regarding the filing requirements for applications for approval of charter and bylaw amendments.

The foregoing changes are effective January 30, 1989 and are applicable to applications filed after such date.

Because this change is nonsubstantive, the Board finds that observance of the notice and comment period pursuant to 5 U.S.C. 553(b) and 12 CFR 508.11 and the 30-day delay of effective date pursuant to 5 U.S.C. 553(d) and 12 CFR 508.14 is unnecessary and contrary to the public interest.

[No. 89-10]

#### Criminal Referrals; Money Laundering Crimes

Date: January 11, 1989.

**AGENCY:** Federal Home Loan Bank Board.

**ACTION:** Final rule; miscellaneous conforming and technical amendments.

**SUMMARY:** The Federal Home Loan Bank Board ("Board"), as operating head of the Federal Savings and Loan Insurance Corporation ("FSLIC"), is amending its regulations in order to correct typographical and other technical errors and to promote consistent use of phrases throughout the regulations.

**EFFECTIVE DATE:** January 30, 1989.

**FOR FURTHER INFORMATION CONTACT:** John Downing, Assistant Director, Office of Enforcement, (202) 653-2604, Federal Home Loan Bank Board, 1700 G Street, NW., Washington, DC 20552.

**SUPPLEMENTARY INFORMATION:** On March 29, 1988, the Board adopted final amendments to its Criminal Referral regulation (12 CFR 563.18(d)) to revise its description of bank bribery, add a requirement to report money laundering related crimes, modify the regulation to ease the filing requirement when no suspect can be identified, and eliminate overlap between the criminal referral requirement and the Board's regulation requiring that records be kept of certain external crimes. 53 FR 11242 (April 6, 1988). In order to achieve consistency throughout and to clarify the regulation, the Board is now amending 12 CFR 563.18(d)(1)(ii), by substituting the term "known factual basis" for "substantial factual basis." In addition, the Board is correcting typographical errors in 12 CFR 563.18 (d)(2)(i) and (d)(4).

Pursuant to 12 CFR 508.11 and 508.14, the Board finds that, because of the minor, technical nature of these corrective amendments, notice and public procedure are unnecessary, as is the 30-day delay of the effective date.
