DECEMBER 1990 UNIFORM BANK PERFORMANCE REPORT

*To All Depository Institutions in the Second
Federal Reserve District, and Others Concerned:*

In March, the Federal Financial Institutions Examination Council (FFIEC) announced that it was distributing the December 1990 Uniform Bank Performance Report to all insured commercial banks and FDIC-insured savings banks. In connection therewith, the FFIEC has introduced two new Uniform Bank Performance Report (UBPR) products for the December 1990 edition: the UBPR Peer Group Ratio Distribution Report and the UBPR State Average Ratio Distribution Report. These new reports provide users with a complete ratio distribution ranging from the 1st through the 99th percentiles for all UBPR ratio values. The ratio values are presented for each UBPR group, using the same definitions that are used in the UBPR Bank Report.

Questions about these new reports may be directed to Manuel Schnaidman, Bank Analysis Department (Tel. No. 212-720-6710). UBPR publications may be purchased through the FDIC Disclosure Group (UBPR, Department 4320, Chicago, Illinois 60673). General information concerning UBPR products, and instructions for ordering may be obtained by calling 800-843-1669.

CHESTER B. FELDBERG,
Executive Vice President.
