

*bi At-10470 (A)*

July 30, 1991

To the Addressee:

The Board of Governors of the Federal Reserve System has issued a revised List of Marginable OTC Stocks and a revised List of Foreign Margin Stocks, both effective August 12, 1991; the new lists supersede the lists issued effective May 13, 1991, and are contained in the enclosed booklet. Also enclosed is a copy of the Board's Press Statement announcing the publication of those lists.

Additional copies of the lists may be obtained at a price of \$1.00 per copy, plus postage if you want us to mail them to you; printed below is a schedule showing the current charges. Please make your check payable to the Federal Reserve Bank of New York.

**Requests for additional copies should be directed to the Circulars Division, Federal Reserve Bank of New York, 33 Liberty Street, New York, N.Y. 10045.**

For use in morning papers  
July 29, 1991

July 26, 1991

The Federal Reserve Board today published a revised List of Marginable OTC Stocks (OTC List) for over-the-counter (OTC) stocks that are subject to its margin regulations. Also published today is the List of Foreign Margin Stocks (Foreign List) for foreign equity securities that are subject to Regulation T. The Lists are effective August 12, 1991, and supersede the previous Lists that were effective May 13, 1991.

The Foreign List indicates those foreign equity securities that are eligible for margin treatment at broker-dealers. This was made possible by a 1990 amendment to Regulation T. Twenty companies were added to the Foreign List bringing the total number of foreign equity securities to 295. There were no deletions to the Foreign List.

The changes that have been made to the revised OTC List, which now contains 2,714 OTC stocks, are as follows:

- o 111 stocks have been included for the first time, 106 under National Market System (NMS) designation;

- o 47 stocks previously on the List have been removed for substantially failing to meet the requirements for continued listing;
- o 34 stocks have been removed for reasons such as listing on a national securities exchange or involvement in an acquisition.

The OTC List is published by the Board for the information of lenders and the general public. It includes all over-the-counter securities designated by the Board pursuant to its established criteria as well as all OTC stocks designated as NMS securities for which transaction reports are required to be made pursuant to an effective transaction reporting plan. Additional OTC securities may be designated as NMS securities in the interim between the Board's quarterly publications and will be immediately marginable. The next publication of the Board's list is scheduled for November, 1991.

In addition to NMS-designated securities, the Board will continue to monitor the market activity of other OTC stocks to determine which stocks meet the requirements for inclusion and continued inclusion on the OTC List.

Margin regulations generally limit the amount of credit a person or firm may obtain to buy or carry stock. Stocks on the OTC List and the Foreign List are subject to the same margin requirements (currently 50 percent) as stocks listed on national securities exchanges. This means a person or firm buying a stock on credit must make a down payment equal to at least 50 percent

of the purchase price of the stock and may obtain credit for the remaining 50 percent. These margin requirements are only applicable to credit extended on stocks after they are placed on the Lists and the Lists have become effective or the stocks are designated as NMS securities. No credit may be extended by broker-dealers on stocks that are not traded on a national securities exchange unless they are on the OTC List, the Foreign List, or in the NMS group. Credit extended by banks and other lenders on foreign stocks or OTC stocks that are neither on the OTC List nor in the NMS group need only conform to the good faith lending limitation contained in Regulations G and U.

It is unlawful for any person to cause any representation to be made that inclusion of a stock on the OTC List or the Foreign List indicates that the Board or the Securities and Exchange Commission has in any way passed upon the merits of any such stock or transaction therein. Any references to the Board in connection with these Lists or any stocks thereon in any advertisement or similar communications is unlawful.

*Act No. 10470 (A)*

LIST OF MARGINABLE OTC STOCKS<sup>1</sup>  
AND  
LIST OF FOREIGN MARGIN STOCKS<sup>2</sup>  
AS OF  
**AUGUST 12, 1991**

---

---

The List of Marginable OTC Stocks and the List of Foreign Margin Stocks are published quarterly by the Board of Governors of the Federal Reserve System (the Board).

The **List of Marginable OTC Stocks** is comprised of stocks traded in the United States over-the-counter (OTC) that have been determined by the Board to be subject to margin requirements as of August 12, 1991, pursuant to Section 207.6 of Federal Reserve Regulation G, "Securities Credit by Persons Other Than Banks, Brokers, or Dealers," Section 220.17 of Regulation T, "Credit by Brokers and Dealers," and Section 221.7 of Regulation U, "Credit by Banks for the Purpose of Purchasing or Carrying Margin Stocks." It also includes all stocks traded over-the-counter designated as National Market System (NMS) securities. Additional NMS securities may be added in the interim between Board quarterly publications; these securities are immediately marginable upon designation as NMS securities. The names of these securities are available at the National Association of Securities Dealers, Inc. and at the Securities and Exchange Commission. This List supersedes the previous List of Marginable OTC Stocks published effective May 13, 1991.

The **List of Foreign Margin Stocks** represents all foreign equity securities that have met the Board's eligibility criteria, pursuant to Regulation T, Section 220.17. These foreign equity securities are eligible for margin treatment at broker-dealers on the same basis as domestic margin securities. This list supersedes the previous List of Foreign Margin Stocks published effective May 13, 1991.

**CAUTION:** It is unlawful for any person to cause any representation to be made that inclusion of a security on the List of Marginable OTC Stocks or the List of Foreign Margin Stocks indicates that the Board or the Securities and Exchange Commission has in any way approved such security or transaction therein. Also, any reference to the Board in connection with these Lists or any securities thereon in an advertisement or similar communication is unlawful.

**Any inquiry relating to these Lists or to Regulations G, T, U or X should be addressed to the nearest Federal Reserve Bank.**
