Offering of $7,750,000,000 of 364-Day Treasury Bills

Dated April 21, 1983

Due April 19, 1984

FEDERAL RESERVE BANK
OF NEW YORK
Fiscal Agent of the United States

Circular No. 9479
April 8, 1983

Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20423, up to 1:30 p.m., Eastern Standard time, Thursday, April 14, 1983. Form PD 4632-1 should be used to submit tenders for bills to be maintained on the book-entry records of the Department of the Treasury.

Each tender must be for a minimum of $10,000. Tenders over $10,000 must be in multiples of $5,000. In the case of competitive tenders, the price offered must be expressed on the basis of 100, with three decimals, e.g., 97.920. Fractions may not be used.

Banking institutions and dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions in and borrowings on such securities may submit tenders for account of customers, if the names of the customers and the amount for each customer are furnished. Others are only permitted to submit tenders for their own account. Each tender must state the amount of any net long position in the bills being offered if such position is in excess of $200 million. This information should reflect positions held as of 12:30 p.m., Eastern time on the day of the auction. Such positions would include bills acquired through "when issued" trading, and futures and forward transactions. Dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions in and borrowings on such securities, when submitting tenders for customers, must submit a separate tender for each customer whose net long position in the bills being offered exceeds $200 million.

Payment for the full par amount of the bills applied for must accompany all tenders submitted for bills to be maintained on the book-entry records of the Department of the Treasury. A cash adjustment will be made on all accepted tenders for the difference between the par payment submitted and the actual price as determined in the auction.

No deposit need accompany tenders from incorporated banks and trust companies and from responsible and recognized dealers in investment securities for bills to be maintained on the book-entry records of Federal Reserve Banks and Branches. A deposit of 2 percent of the par amount of the bills applied for must accompany tenders for such bills from others, unless an express guaranty of payment is obtained from a bank or trust company accompanying the tenders.

Public announcement will be made by the Department of the Treasury of the amount and price range of accepted bids. Competitive bidders will be advised of the acceptance or rejection of their tenders. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders, in whole or in part, and the Secretary’s action shall be final. Subject to these reservations, noncompetitive tenders for $500,000 or less without stated price from any one bidder will be accepted in full at the weighted average price (in three decimals) of accepted competitive bids.

Settlement for accepted tenders for bills to be maintained on the book-entry records of Federal Reserve Banks and Branches must be completed at the Federal Reserve Bank or Branch on April 21, 1983, in cash or by other immediately available funds or in Treasury bills maturing April 21, 1983. Cash adjustments will be made for differences between the par value of the maturing bills accepted in exchange and the issue price of the new bills.

Under Section 454(b) of the Internal Revenue Code, the amount of discount at which these bills are sold is considered to accrue when the bills are sold, redeemed, or otherwise disposed of. Section 1232(a)(4) provides that any gain on the sale or redemption of these bills that does not exceed the ratable share of the acquisition discount must be included in the Federal income tax return of the owner as ordinary income. The acquisition discount is the excess of the stated redemption price over the taxpayer’s basis (cost) for the bill. The ratable share of this discount is determined by multiplying such discount by a fraction, the numerator of which is the number of days the taxpayer held the bill and the denominator of which is the number of days from the day following the taxpayer’s date of purchase to the maturity of the bill. If the gain on the sale of a bill exceeds the taxpayer’s ratable portion of the acquisition discount, the excess gain is treated as short-term capital gain.

Department of the Treasury Circulars, Public Debt Series—Nos. 26-76 and 27-76, and this notice, prescribe the terms of these Treasury bills and govern the conditions of their issue. Copies of the circulars and tender forms may be obtained from any Federal Reserve Bank or Branch, or from the Bureau of the Public Debt.

Tenders will be received up to 1:30 p.m., Eastern Standard time, Thursday, April 14, 1983 at the Securities Department of this Bank’s Head Office, at our Buffalo Branch, or at the Bureau of the Public Debt. The enclosed form should be used for submitting tenders through a financial institution. Forms for submitting tenders directly to the Treasury are available from the Government Bond Division of this Bank. Tenders not requiring a deposit may be submitted by telegraph, subject to written confirmation; no tenders may be submitted by telephone. Payment for the Treasury bills cannot be made by credit through the Treasury Tax and Loan Account. Settlement must be made in cash or other immediately available funds or in Treasury securities maturing on or before the issue date.

ANTHONY M. SOLOMON,
President.
