

# FEDERAL RESERVE BOARD

WASHINGTON

X-3548

October 31, 1922.

SUBJECT: Biographical Sketches.

Dear Sir:

An examination of the Board's files shows them to contain little or no information of a biographical nature concerning the directors of the Federal Reserve Banks and branches, the governors, deputy governors, assistant Federal reserve agents and branch bank managers.

The Board would like to have such information on file available for ready reference whenever occasion requires and, therefore, requests you to obtain and forward to it a biographical sketch, reciting fully the past and present principal business connections of each director of your bank and branch and of each officer above named.

Very truly yours,

Vice Governor.
