Federal Reserve Banks

Dear Sir:

Please furnish the Board as early in January as practicable a statement showing the name of each employee of your bank and its branches (if any) on January 1, 1935, and the salary paid to each as of January 1, 1934 and January 1, 1935. The list should be prepared in accordance with the sample form, B-1036a, attached in order to facilitate checking with the approved personnel classification plan for your bank on file with the Federal Reserve Board.

It is also requested that a summary statement showing the number of employees as of January 1, 1934, and as of January 1, 1935, and salary changes since January 1, 1934, by salary groups be submitted in accordance with attached sample form, B-1036b.

As in the past the schedules should cover all employees on the bank's payroll including those whose salaries are reimbursed to the bank in whole or in part.

Very truly yours,
