Dear Sir:

In accordance with the usual practice, please furnish the Board with a summary statement showing the number and salaries of officers and employees of your bank (including branches, if any) as of December 31, 1938, made out in accordance with the attached form. The figures, which should not include any changes in either the number or salaries of officers or employees that become effective on January 1, 1939, will be published in the Board's 1938 Annual Report.

Very truly yours,

- (a) Should represent aggregate of fractional amounts in the case of employees whose salaries are only partly reimbursed to the bank. For example, if 25% of the salary of an employee receiving \$1,200 a year is reimbursed to the bank, .25 should be included in the computation of the "number" of employees, and the amount of salary reimbursed, \$300, should be included in the computation of the annual salaries.
- (b) In the case of part-time employees, i.e., employees who are regularly engaged for less than a full day, the "number" reported should represent the portion of the full day worked. For example, if any employee is regularly engaged for one-half of the usual working day, .50 should be included in the computation of the "number" of employees.
