STATE OF ARKANSAS
OFFICE OF BANK COMMISSIONER

Little Rock, December 31, 1921.

TO HIS EXCELLENCY, HON. T. C. McRAE, GOVERNOR OF ARKANSAS:

Agreeable to provisions of sections 9 and 59 of Act 113 of the Acts of the General Assembly of 1913, entitled, "An Act for the Organization and Control of Banks, Trust Companies and Savings Banks," approved March 3, 1913, I have the honor to submit herewith the Eighth Annual Report of the Bank Department of Arkansas for the year beginning January 1, 1921, and ending December 31, 1921.

This report embraces a statement of all receipts and expenditures, the name, officers, directors, domicile, capital, surplus, net profits and deposits of each bank, trust company and savings bank in the State at close of business December 31, 1921; new banks organized, banks closed, liquidated and consolidated, also statement showing progress of those banks now being liquidated by the Department, as well as a statement of all building and loan associations under the supervision of the Department and also a list of the special improvement districts as provided for under section 30, Act 279 of the Acts of the General Assembly of 1909.

GENERAL SUMMARY AND REPORTS

For the first time is given below the result of the administration of the Banking Law, which was passed by the General Assembly of 1913.

By the terms of the law creating the Banking Department the law did not go into full effect until January 1, 1914.

Since the organization of the State Bank Department in 1913 one hundred and fifteen banks have been liquidated, merged or converted into National banks.

Of this number fifteen have voluntarily liquidated without loss to creditors; thirty-five have been liquidated through other banks without loss to their creditors; twenty-two have been merged without loss to creditors; twelve have been converted into National banks.

Nineteen banks have been liquidated through the Bank Department with a loss of 9¼ per cent to creditors; of these, nine paid their creditors 100 per cent.

Twelve are now in process of liquidation by the Department.

The result of the operations of the law illustrated by the above figures seems to more than justify the hopes of those who were instrumental in its passage. It should be remembered that at the beginning of the war in 1914 the country passed through a near panic and the value of many securities and properties suffered a rapid and severe decline. Again, after the high prices of all securities and properties occasioned by the great war, prices and values declined severely. The declines in values, especially in cotton, sorely tried the resources of the banks throughout the country. It is gratifying to this Department and to the people that the Arkansas State Banks have stood the test so well. Elsewhere is given the record of closed banks for the year ending December 31, 1921.

CO-OPERATION GIVEN DEPARTMENT

It is a pleasure to record in this report the fullest and most cheerful co-operation with this Department of the banks under its supervision. It is the policy of this Department to render constructive service, never to be hypercritical. However, the Commissioner knows, and bankers know, that small errors, and small irregularities often grow into larger ones, and it is the policy to point out all errors and irregularities though they may seem trivial.

The cordial co-operation given the Department by the financial institutions of the State is of great assistance in the administration of the law and is freely acknowledged by the Commissioner.

DIRECTORS

It seems that the great aim of my predecessors was to impress on the directors elected to manage the affairs of the banks, their duties and obligations and their liabilities for failure of duty. The present administration of the Bank Department will continue to urge that the best men be selected as directors, and that when selected they shall give sufficient time to the affairs of the bank to intelligently manage its affairs. The one man bank must go.

NEW BANKS

Eight new banks were chartered in the year 1921, with a capital of \$500,000.00, surplus \$130,000.00. Two applications were refused.

DEPARTMENT ACTIVITIES

The work of the Banking Department might well be divided for the purpose of a discussion, into four general heads—Organization, Regulation, Rehabilitation, and Liquidation.

ORGANIZATION

Under the head of organization comes the work in connection with the establishment of new banks, the consolidation and transfer of the assets from one bank to another and the increasing of capital stock.

During the year ended eight State banks were chartered by the Department. A careful examination of each application was made in accordance with law. An investigation as to the financial responsibility of the proposed stockholders, the fitness of the officers and directors, and an examination as to the necessity for the establishment of the bank, together with a close scrutiny as to compliance with all State laws.

It will be seen by this report that twenty-two banks increased their capital stock. This increase of capital amounted to \$325,000.00.

The work considered under the head of organization requires great care on the part of the Department in order that the interests of depositors and stockholders may be safeguarded.

REGULATION

The Department is called upon to supervise the operation and management of every State bank to the extent that is necessary to enforce compliance with the laws governing them and the regulations of the Banking Department.

Under this head comes the big work performed by our force of examiners. On the reports of these examinations we must base our judgment as to whether the officers and directors are managing the institution in their charge in accordance with the law and according to safe banking principles.

REHABILITATION

Under this comes those subjects which, although of the greatest important, can not be openly discussed and published to the world lest injury be done.

The work which we call rehabilitation calls for banking skill, tact, good judgment, and a knowledge of the law.

Perhaps the Department has accomplished as much along this line for the good of the State as in any other phase of its activities.

In a number of cases the capital of a bank has been seriously impaired by poor management or by defalcations, and with the aid and council of the Department and the co-operation of the directors, the bank has been put in a sound and safe condition.

LIQUIDATION

This subject has been discussed in another part of this report. The Commissioner has thought best wherever it is possible to liquidate closed banks through other institutions.

The Department has no more important duty than to see to it that estates of the defunct banks shall be liquidated as early as possible, consistent with the conservation of the assets and at as small an expense as possible.

SPECIAL IMPROVEMENT DISTRICTS

Act No. 279 of the General Assembly of 1909 placed certain special improvement districts under the Bank Commissioner.

This act provides that the books and accounts of these special improvement districts, of which there are now seventy, shall be audited by the Bank Examiner. The Department did not have the appropriated funds to make these examinations during the year 1921, and for the same reason can not do so for the year 1922.

BLUE SKY DEPARTMENT

An Assistant Commissioner is in charge of the administration of the Blue Sky laws. To discriminate between the good and the bad companies applying for permits to sell stock is a most difficult task.

The policy of this Department will be to exercise the utmost caution in granting permits to sell stock.

The Blue Sky Department has been considerably handicapped on account of the limited appropriation made by the Legislature of 1921, out of the funds received as fees for permits and examinations.

It will be noted from the report of the Blue Sky Department that these fees amounted to \$11,327.70 in 1921. Yet only the salary of the Assistant Commissioner, \$3,000.00, and the sum of \$1,950.00 was appropriated. Out of the \$1,950.00 all of the expenses of the office must be met, including as it does, the expense of examining fifty-four building and loan associations.

There were a number of other examinations and investigations that should have been made but were not made for the lack of funds.

To properly carry out the intent of the law, and to discriminate between the good companies seeking permits and those which would work a fraud on the public, the Assistant Commissioner often should conduct exhaustive investigations. The company seeking permits under the law must pay for these examinations and investigations, but the Department can not order them unless the funds are appropriated by the Legislature.

Respectfully submitted,

CHAS. McKEE,
Bank Commissioner.
