Commonwealth of Massachusetts.

OFFICE OF THE COMMISSIONERS OF SAVINGS BANKS, STATE HOUSE, BOSTON, Jan. 4, 1882.

To the Honorable Senate and House of Representatives.

THE Commissioners of Savings Banks respectfully present their Sixth Annual Report for the consideration of the Legislature.

The number of savings banks now doing business in the Commonwealth is one hundred and sixty-five, one more than last year.

The Brockton Savings Bank of Brockton, which was incorporated by the last Legislature, commenced business in May last, under favorable circumstances. The bank supplies an urgent need in this large manufacturing community, which had been deprived of the facilities of a savings bank since the failure of the North Bridgewater Savings Bank, in 1877.

There are now twelve banks in the hands of receivers. The final dividend of ten per cent has been allowed, by decree of the Supreme Judicial Court, in the West Boston Savings Bank of Boston.

There have been six dividends in all allowed by the Court, amounting to eighty-five per cent of the principal of the deposits.

The final account of the receivers of the Rockport Savings Bank has been presented to the Supreme Judicial Court, and a dividend of about fourteen per cent will probably be allowed, which, with the three previous dividends, will return to the depositors about eighty-four per cent of the principal of their deposits.

The receivers of the Mercantile Savings Institution of Boston and the Hyannis Savings Bank expect to present their final accounts to the Court during the winter. The final dividends to the depositors will probably be payable early in the spring.

The receivers of the remaining eight banks expect to close

up their affairs during this year, should there be a fair market for the sale of real estate.

The officers of the Emigrant Savings Bank, who are closing up its affairs, expect to make the final disposition of its assets during this year, completing the list of fifteen savings banks which will have been wound up, under decrees of the Supreme Judicial Court, since the failures began in 1875. They had nominally assets of \$12,271,783.24. The amount due depositors was \$11,958,833.42, and the number of depositors was 37,505. The loss to the depositors on the principal of their deposits will be about \$1,900,000, calculated upon the basis of the estimates of the amount to be realized from the remaining assets made by the receivers in their last returns.

On the opposite page is a table giving some statistics relative to banks in the hands of receivers.

The Foxborough Savings Bank, which had been subject to the provisions of the Act of 1877, regulating and limiting the payments of deposits, was temporarily enjoined by the Supreme Judicial Court at the expiration of that act, as the officers were not confident that the bank could with safety resume in full. It is the expectation of the officers that the bank will be in condition to resume payment in full before July 1, 1882.

The amount of deposits in the savings banks doing business Oct. 31, 1881, was \$230,444,479.10, being \$12,396,556.73 more than at the same date of the previous year.

The surplus was \$4,890,600.67, showing an increase of \$132,-405.79 for the year.

The guaranty fund was \$3,341,062.35, which is an increase of \$670,909.50 for the year.

The number of open accounts was 738,951, an increase of 32,556 for the year; which would make the average of the accounts \$311.85, an increase from the average of the previous year of \$3.17.

The amount of deposits during the year was \$48,223,496.86, —\$5,471,939.43 more than the previous year, and the number of deposits (615,514) increased 82,920. The average of deposits was \$78.35. The average the previous year was \$80.27, being a decrease of \$1.92 for the year. The total of withdrawals was \$40,212,786.44, showing an increase of \$5,809,358.21 from that of the previous year. The number of withdrawals was 419,959, — 30,184 more than the previous year.

^{*} Final dividend allowed by the Supreme Judicial Court Oct. 1, 1880; the receivers have paid the balance due depositors to the treasurer of the Commonwealth, under provisions of chap. 70 of the Acts of 1881.

[†] The receivers of these banks are paying the final dividend.
‡ In addition to this amount is the sum of \$68,091.84 due from the late treasurer, E. Southworth.

[§] This is the balance of assets after paying the dividend of fifteen per cent, Nov. 23, 1881.

^{||} This is the balance of assets after paying the dividend of twenty per cent, Nov. 15, 1881.

The average of the withdrawals was \$95.75, an increase of \$7.49 from the previous year, when it was \$88.26.

Investments in United States bonds have increased \$1,522,-667.21.

State and municipal bonds have increased \$44,895.80. Loans on public funds have decreased \$602,003. Investments in bank stock have increased \$859,222.18.

Loans on bank stock have increased \$108,616.83.

Investments in railroad bonds have increased \$790,852.33.

Loans on mortgages of real estate have increased \$86,083.81, and \$1,169,894.92 have been deducted from real estate acquired by foreclosure, which is \$8,052,450.79.

Loans on personal security have increased \$17,612,461.20. The deposits in banks bearing interest are \$11,770,415.27, a decrease from the previous year of \$4,486,361.71.

The percentage of assets in the various classes of investments is about seventeen and one-sixth per cent in public funds, and loans on public funds; ten and eighty-six one-hundredths per cent in bank stock, and loans on same; three and twenty-six one-hundredths per cent in railroad bonds; thirty-four and one-half per cent in loans on mortgages of real estate; four and forty-three one-hundredths per cent invested in real estate, including foreclosures; twenty and twenty-three one-hundredths per cent in loans on personal security; three and sixty-three one-hundredths per cent in loans to counties, cities, and towns; four and ninety-two one-hundredths per cent in deposits in banks on interest.

The earnings of the banks were \$12,285,345.35, — \$390,634.75 more than the previous year. The amount of dividends was \$8,293,774.37, an increase of \$335,887.28.

Seven banks paid the highest rate of dividend of interest allowed, — five per cent; thirty-two banks paid dividends between four and five per cent; one hundred and ten banks paid four per cent dividends; four banks paid three and three-fourths per cent dividends; three banks paid three and one-half per cent dividends; four banks paid three per cent dividends; two banks paid one dividend of two per cent; three banks paid no dividend of interest, but of these, two were temporarily enjoined by decrees of the Supreme Judicial Court, and the other was organized during the previous year.

The average rate of ordinary dividends was four per cent.

The previous year the average was three and ninety-three one-hundredths per cent. The slight increase of seven one-hundredths of one per cent in the average of dividends is due mainly to the fact that all the banks but one which had been temporarily enjoined were relieved from injunction, and have resumed the payment of ordinary dividends of interest.

The large increase in deposits, while it indicates the complete restoration of the public confidence in savings banks, embarrasses many of them with a surplus of money seeking investment at a time when securities which they are authorized to hold command high premiums.

The last Legislature increased the classes of securities in which investments might be made; but as yet the relief has been small. In our opinion, as suggested in our last Annual Report, the most effectual remedy for this embarrassment is to be found in the refusal of the banks to receive large deposits from persons not properly beneficiaries of these institutions.

Three years ago we called the attention of the Legislature to the doubtful character of the shares of national banks as an investment of the deposits of savings banks, on account of the liability of stockholders, in case of loss, to assessments amounting to one hundred per cent of the par value of the stock; also to the difficulty of convertibility in times of stress, as they were based upon commercial or personal credits, which are liable to be seriously affected by financial disturbances.

Recent events have confirmed us more strongly in this opinion; and, if authority to invest in these stocks is to be continued, we recommend that investments be limited to one-quarter of the deposits of any one bank.

LOAN AND TRUST COMPANIES.

There are now six loan and trust companies doing business in the Commonwealth.

One, the American Loan and Trust Company of Boston, was chartered by the last Legislature, and commenced business in May last, with a paid-up capital of one million dollars.

The trust departments of these institutions are of minor importance. Only three of them have opened such departments, and in only one of them does there appear to be much interest exhibited by the management in extending this class of business.

The business of these institutions is generally such as banks, bankers, or merchandise-brokers ordinarily pursue.

We respectfully renew the recommendation made in our last Annual Report, that a general law be enacted granting the same powers and privileges to each and all of them, and subjecting them to the same duties, liabilities, and limitations.

The last Legislature, in amending the charter of the Massachusetts Hospital Life Insurance Company, made it the duty of the Commissioners of Savings Banks to examine into its affairs, once in each year at least.

It also required an annual return of its affairs to be made by the institution to the Commissioners. The return for last year is published in this Report with the returns of the loan and trust companies.

At the official examination we found its affairs to be in good condition, and prudently managed.

This venerable institution, incorporated Feb. 24, 1818, is more essentially a trust company than any other of these corporations. \$14,717,391.76 of its assets were invested in trust for beneficiaries, to whom it now pays four per cent income per annum. In the past, when higher rates of interest were obtainable, it paid larger rates.

It has also during its existence paid to the Massachusetts General Hospital more than \$400,000, in accordance with a provision of its charter, that it shall pay one-third part of its net profits to said institution.

The original charter required an annual return to be made to the Secretary of State. As there appears to be no necessity for two returns, we recommend that the provision of the act requiring a return to be made annually to the Secretary of State be repealed.

Co-operative Saving Fund and Loan Associations.

There are now eighteen of these associations doing business in the Commonwealth, an increase of two during the fiscal year,— the West Roxbury Association of Boston, incorporated July 1, 1881, and the New Bedford Association, incorporated July 8, 1881.

The assets of all the associations have risen during the year from \$372,462.31 to \$653,142.80, an increase of \$280,680.49, which indicates a marked degree of prosperity.

The last Legislature amended the general law relative to these associations in several of its sections, so as to make the investments more secure, and the division of the profits more equitable.

On the preceding page is a table showing the general condition of each association.

Following these remarks may be found the Public Statutes relative to Savings Banks.

Respectfully submitted.

^{*} An order regulating the payments of deposits for one year, limiting them to an amount not exceeding ten per cent each six months, was issued April 30, 1878, and extended for one year, April 30, 1879, to pay ten per cent of remainder of deposits each six months. This order was so modified April 30, 1880, that from this date until March 21, 1881, the bank was restricted from making any payments to depositors, except those due under the previous orders. The bank was temporarily enjoined by order of the Supreme Judicial Court, March 18, 1881.
