MILLS ASTIN, CHIEF CLERK

United States Senate

COMMITTEE ON
INTERIOR AND INSULAR AFFAIRS

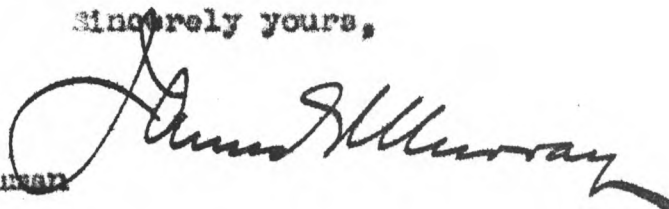

June 17, 1949

Dear Mr. President:

I believe you will be interested in noting the widespread enthusiasm that has been evoked by the draft Economic Expansion Bill of 1949. The comments summarized in the enclosed memo are taken from the large amount of correspondence I have already received from outstanding leaders in all walks of life.

Since most of the features of the draft Economic Expansion Bill are based upon principles that you have long advocated, the warm response that this proposal has received is eloquent testimony to the broad support throughout the country for your program and for the Democratic Party.

Sincerely yours,

Honorable Harry S. Truman
The President
The White House
