Subject Index of Volumes 52–71
Monthly Labor Review

January 1941 to December 1950

Bulletin No. 1080

UNITED STATES DEPARTMENT OF LABOR
Martin P. Durkin, Secretary
BUREAU OF LABOR STATISTICS
Ewan Clague, Commissioner
Letter of Transmittal

United States Department of Labor,
Bureau of Labor Statistics,

The Secretary of Labor:

I have the honor to transmit herewith the Subject Index of Volumes 52 to 71, Monthly Labor Review, January 1941 to December 1950. This volume is based on the 6-months indexes which were prepared in large part by Jeannette M. Watson and Mary G. Macomber of the Office of Publications. Elizabeth L. Black, assistant editor of the Monthly Labor Review, had final responsibility for the content and form of this 10-year index.

Previous bulletins in this series are No. 695 for volumes 1-11 (July 1915 to December 1920) and No. 696 for volumes 12-51 (January 1921 to December 1940).

Ewan Clague, Commissioner.

Hon. Martin P. Durkin,
Secretary of Labor.
Subject Index of Volumes 52–71
Monthly Labor Review
January 1941 to December 1950

Absenteeism, United States:
Airframe, engine, and propeller plants, January 1943 to August 1944, by month. 1944—Sept. 480, Nov. 926-927.
Guaranteed employment and wage plans in collective bargaining agreements, effect upon. 1950—Jan. 29.
Long working hours, contributing factor to. 1918. Percentage of, by district, and kind of industry, January 1943; annual rates by size of yard, 1943—May 956, June 1186-1187.

Absenteeism, foreign countries:
Australia. Measures to reduce, including regulation (1942) forbidding, except for specified causes. 1943—Jan. 31.
—— Proportion of time lost and average length of absence, by sex, in 26 factories, 1942; distribution of cases by cause. 1944—Apr. 740-742.
Canada. War industries. Survey by Canadian Department of Munitions and supply, findings. 1943—Apr. 683-686.
Chile. Rates in manufacturing, commerce, and agriculture, 1943, with causes. 1944—Aug. 294-295.
Great Britain. Coal-mining industry. Extent of and probable causes; methods of dealing with. 1941—Nov. 1164; 1942—Nov. 944-945.
—— Percentage over-all, 1936-49. 1950—Jan. 22.
—— Rates, 1940, all workers and workers at coal face. 1949—Mar. 282.
—— Extent, causes and prevention, and relation to long hours and fatigue. 1948—July 26-27.
—— Munitions industry. Methods of dealing with. 1941—Nov. 1164.
—— Women workers, second half of 1942, absences due to sickness. 1945—Sept. 481-482.
—— Inquiry, 1942, into extent and apparent causes. Summary of findings. 1944—June 1195.

Accident and health insurance:
See also Health (or sickness) insurance.
Accident compensation or insurance. See Workmen's compensation.
Accident prevention, general, United States (see also Safety):
Efficacy of, in avoiding disproportionate increase in injuries when long hours are worked. 1944—Oct. 739.
Accident prevention, general, U. S.—Continued

International Association of Industrial Accident Boards and Commissions, proceedings of annual meeting, 1941, 1941—Dec. 1456.

Safety and health unit in Department of Labor recommended by 1941 convention of International Association of Governmental Labor Officials. 1941—Dec. 1456.

Accident prevention, by industry, United States:

Brewing industry. Unsafe working conditions and unsafe acts summarized, with description of preventive measures needed. 1946—July 72-81.

Foundry industry. Injuries, causes and unsafe conditions analyzed. 1944—Dec. 1173-1179.

Lumber industry. Woodworking hazards and preventive methods. 1945—Nov. 962-965.

Lumber products. Causes of injuries, 1940, and preventive measures which should have been used. 1941—Oct. 957-959.

— Finished. Measures which could have prevented injuries sustained in 1941. 1942—Nov. 973-977.

Shipyards. Basic factors of hazards and program for overcoming. 1944—July 13-23.

— Cranes, injuries in use of. Causes and preventive methods that could have been used. 1944—Mar. 531-535.

— Protective measures described. 1944—Jan. 93.

— Faulty handling of materials and equipment, measures recommended to avoid injuries from; description of unsafe acts. 1944—Sept. 533-536.

Accident prevention, foreign countries:

Uruguay. Spinning mills, regulations established by decree of Jan. 9, 1942. 1942—Apr. 993-994.

Accident statistics, general, United States:

Analysis of industrial injuries, basic needs for. 1945—Feb. 183-186.

Severity and frequency rates, accident-cause analysis, and development of data. 1950—Mar. 267-270.

Compilation, BLS. Categories, standardization of methods, and definition and measurements of work injuries. 1950—Mar. 303-304.

Limitations of series, sources and methods of surveys, and computation procedures. 1950—Mar. 304-305.

— Minors, frequency distribution, compared to that of adults. 1945—Dec. 556.

— Severity (or the equivalent) 1945—Mar. 272-274; 1947—Oct. 442.

Employment and hours worked. 1941. Increases in, as related to increases in number of disabling injuries. 1941—Aug. 340-342; 1942—Sept. 512-516.

Frequency rate, by size of plant, 1941. 1943—Apr. 657-661.

Industrial injuries. See Disabling injuries, this section.

Injury incidence rate, effect of long hours on. 1947—July 8.

Safety, greater emphasis on, shown by 1948 work-injury record. 1949—Feb. 178.

— Michigan. Number of closed cases, by occupation, first half of 1944. 1944—Dec. 1235-1236.

Accident statistics, by industry, United States:

Coal mining. See Mining, coal, this section.

Fertilizer industry. Injury-frequency rates, compared with all chemical manufacturing and all manufacturing, prewar years 1938 and 1939, and year 1946. 1948—Dec. 606.
INDEX — JANUARY 1941 TO DECEMBER 1950

--- Work injuries; time, wage, and other losses, causes of accidents; 1946. 1948—Dec. 606-611.

Gas industry. 1944 experience, summary (Dunston). 1946—Jan. 82-84.

--- Select group of plants having positive safety programs, frequency rates, specified years 1913 to 1930, 1935-40. 1941—Sept. 689-690.

--- Shift hour of occurrence, 1,273 injuries, by year. 1941—Sept. 691-692.

Manufacturing. Disabling injuries. See Accident statistics, general—Disabling injuries.

--- Lowest levels in December, years 1943-47. 1945—May 509.

--- Relation to numbers employed, 1936-41, by industry and year. 1945—May 949-954.

--- War production, January 1943, frequency rates compared with 1943 rates. 1945—May 846-848.

--- See also Accident statistics, general—Disabling injuries.

Metalworking plant. Disabling injuries, October 1943, 1944—June 1138.

--- 1943 and earlier years, as reported by United Mine Workers (1944 convention). 1944—Dec. 1196.

Molding occupations. Injury frequency, in foundries and in iron and steel industries, 1942. 1946—Apr. 584.

Plastics products industry. Disabling injuries, 1946, compared with rate for all manufacturing; nature of hazards. 1947—Sept. 296-297.

Shipyards. Cranes, injuries through use of, first 7 months of 1943, and distribution by causes. 1944—Mar. 531-533.

--- Disabling injuries, 1943, by types, by unsafe conditions and acts causing, and by agencies causing. 1943—July 16-23.

--- Falls, causes and prevention of injuries from, first 4 months of 1943. 1945—Sept. 766-772.

--- Fatal injuries, 1943 and 1944, by occupation of worker, kind of accident, and cause. 1945—July 78-77.

--- Faulty handling of materials and equipment, injuries involving, number by unsafe act or agency, nature, and part of body affected. 1944—Sept. 593-597.

--- Frequency rates, first quarter 1943, and causes, 1943—July 6-8.

--- Frequency rates, 1943, by type of vessel construction, type of contract, and area, and by month; disabling injuries, 1943, by kind; summary of causes. 1944—May 1004-1008; 1945—May 1018-1022.

--- Work injuries and accident causes, 1946; time, wage, and other losses. 1948—Nov. 505-506.
Accident statistics. Foreign countries:
Chile. Officially registered injuries, extent of disability, 1932-44. 1941—June 914.
— Factories. Fatal and nonfatal injuries, 1938 and 1939. 1941—May 1212-1215.
— Increase in 1940, and conditions as to ventilation, air raid shelters, hours, and health. 1942—Jan. 134-139.
— Women workers. Frequency increase resulting from excessive overtime. 1941—June 1946.
Accounting. Last-In-First-Out (LIFO) method; retail price indexes used in, designed by BLS in cooperation with Bureau of Internal Revenue and American Retail Federation. 1948—Jan. 58.
Aeronautics. See Air transport.
Age certificates. See Child Labor—Minors, 14-17 years of age.
Age classification of employees. See Age distribution.
Age problems in employment. See Older workers.
Age distribution:
Wartime, extra workers added, by sex and class of population. 1944—Aug. 270-278.
Aged persons, assistance to. See Old-age assistance.
Agreements. See Collective agreements.
Agricultural-machinery industry:
Characteristics; and plan of BLS survey. February-March 1942. 1942—May 1177-1189.
Agriculture, United States:
Changes, 1900-50. 1930—July 6, 18.
Cooperative societies. See Cooperatives.
Cooperatives; resolution on, passed by Congress of Industrial Cooperative Alliance (Prague). 1948—Dec. 600.
Farm labor. Alien workers from other American nations, to be admitted (when qualified) under terms of joint resolution of Apr. 29, 1945. 1945—July 124-125.
— Trends in, wartime and postwar. 1947—Aug. 139-147.
Farm operators, nonwhite. By States and by status of ownership or tenancy, 1940. 1941—Aug. 399-401.
Farm prices, increases from August 1939 to September 1941. 1941—Nov. 1081-1085.
Farmer's cooperatives. See Cooperatives.
Income. See Wages and income, this section.
Manpower and wages, in wartime (Bowden). 1942—Dec. 1111-1124.
Mechanization. See Mechanizations—Agriculture.
Migratory workers, Arizona and California. Association for medical care established by FSA and California State agencies; statistics of operation July 1939 to June 1940. 1942—Nov. 957-959.
— Labor contractor system (Calif. and other States), methods and results. 1947—Feb. 345-348.
Negro families. Aid to, under rehabilitation program of Farm Security Administration. 1941—Feb. 348-349.
Perquisites as component of wages. Declining relative importance of. 1946—July 35, 43-44.
Potato workers, migrant (N. J.). Characteristics and economic conditions, labor-contract system, and proposals for improvement. 1941—Aug. 410-413.

Prosperity of, as related to full industrial employment (summary from annual report of Secretary of Agriculture, 1944). 1945—May 1000–1003.

Veterans. Return to farm work from VE-day to March 1946. 1946—July 93.

Wages and income. Postwar period, problems in. 1946—Aug. 203–204.

— See also Wages and hours—Agriculture.

Wartime wages, income, and wage regulation—Pt. 1, Farm wages and labor cost; Pt. 2, Comparative wages and wage regulation. 1945—July 36–44, Aug. 195–204.

Women workers needed for 1944, and plans for recruiting by various agencies. 1944—June 1248.

Workers, placement of, policies and requirements concerning, War Manpower Commission, statement, June 5, 1944. 1945—July 85–89.

Agriculture, foreign countries:

Argentina (Santa Fe Province). Harvesting and threshing, minimum rates fixed by legislature, 1941–42. 1945—Mar. 722–723.

— Characteristics; scope and method of, November 1942 BLS survey; and characteristics of labor force. 1943—June 1054–1058.

— Downgrading, collective agreement covering. 1945—July 51.

— Expansion to meet war demands. Government aid, location, floor-space extension, labor requirements, potential additions to program, jobs, and labor needs. 1941—Feb. 927–931.

— Labor requirements, estimates of, for 1941. 1941—May 1185.

— Los Angeles, employees hired during June 1942. Distribution by occupation, industries formerly employing, age, race, and marital status. 1942—Nov. 926–931.

— Overtime provisions in collective agreements. 1942—Apr. 842.

— Separate classifications ("Standard BLS" and "Total industry") explained. 1945—May 1106–1108.

— Wartime expansion. Discussion of volume and distribution, labor turnover, absenteeism, hours, earnings, production, and productivity, 1944—Nov. 909–981.

Aircraft workers, wartime, southern California. Employment status in postwar period, and character of activities entered. 1945—Nov. 706–711.

— Wartime expansion. Numbers employed compared with total in other States, January 1940 to August 1945. 1945—Oct. 721–727.

Air transport, U. S.—Continued

— Skilled workers percent of total workers in two skill classes. 1941—Feb. 331.

Workmen’s compensation not applicable to employees in actual flying (decision of Wash. State Sup. Ct.). 1939—Nov. 1140.

Air transport, foreign countries:

— Hawaii. Growth of and effects on economy of Island. 1941—May 489.

Aircraft industry. See Air transport.

Airframe industry. See Air transport.

Alcoholic beverages:

— Expenditures for, by net income group and race, 1941—Jan. 221–222.

— Consumption distribution by type of use, 1939 and 1943; production and consumption, by year, 1913–43; scope and geographic distribution; consumption distribution by type of use, 1939 and 1943; production and consumption, by year, 1913–43; hours and earnings, specified years, 1935–45; working conditions; postwar outlook. 1944—Feb. 299–306.

American Brass Co.:

American Federation of Labor. See Conventions, meetings, etc.; also Labor organizations.

American Woolen Co. Wage chronology. See Wage chronologies.

 Anglo-American Production Council. See Productivity, foreign countries—Great Britain.

Annual earnings. See Wages and hours.

Annual leave. See Vacations with pay.

Annual wage, stabilization plans. See Employment, stabilization of.

Apparel industries (see also Clothing industry): Employment in, as affected by war conditions. 1942—Sept. 449–458.

— Minimum-wage order effective Dec. 15, 1941; coverage of industry. 1942—Jan. 216.

— Quality, wartime restrictions, and changes following removal. See Clothing—Quality.

Apprenticeship, United States:

Programs, increase in, 1948, and apprentices registered; number of registered programs. 1949—Feb. 176.

Servicemen and women, in postwar period. Character of trainees. 1944—Nov. 973.

State legislation. See Legislation, United States, Federal and general; and by States, for specified State.

West Coast (Calif., Oreg., Wash.) Status of programs under State laws, end of 1946. 1947—Apr. 691, 694, 687.

Apprenticeship, foreign countries:

Soviet Union. Industrial training for youth; decrees providing for, summary. 1947—Nov. 569-571.

Arbitration awards. See under specific industry; also Conciliation and arbitration.

Arbitrator’s decision:
Summaries. 1944—Nov. 1026.
Supervisor’s retention by company regardless of union’s complaint, held not arbitrable. 1944—Apr. 791.

Veterans’ rights. 1946—Jan. 88.

Armed services, United States (see also Labor force):

Army Nurse Corps. Full military status accorded by law of June 22, 1944; growth of corps since December 1941. 1944—Dec. 1198.

Demobilization, postwar period. Estimated number of personnel demobilized by State. 1944—Sept. 489.

Manpower requirements for, estimates for 1943-44. 1943—Aug. 204-211.

Members of, Commissioner of Internal Revenue ruling as to payments by employers and reemployment in former status. 1945—May 1016.

Navy officers (2,500) reaching retirement age during World War II, retained in active duty. 1944—July 29.

Pay, total (muster ing-out pay and family allowances shown separately), specified periods to April 1946. 1946—Mar. 504, 507, June 886-887.

—— Increases in numbers compared with increases in civilian employment, April 1940 to April 1944. 1944—Aug. 207.

Release from. Credit points allowed for stated qualifications; procedure of discharge. 1945—June 1208-1209.

WACS and WAVES. Qualifications; types of work; and remuneration, by rank. 1943—Sept. 577-579.

Women members entitled to reemployment rights after honorable discharge. 1945—Sept. 465.

Women’s Army Corps substituted for Women’s Auxiliary Army Corps, July 1, 1943 [footnote]. 1943—Sept. 577.

Women’s branches. Quota set, recruiting rate, and number of members (Army, Navy, Marine Corps, and Coast Guard), April 1944. 1944—June 1247.

Armed services, foreign countries:
Canada. Women in various branches, as of March 1943. 1943—Sept. 503-504.

Great Britain. Leave according to length of foreign service. Plan to provide equality in privilege between classes. 1945—Jan. 44-45.

India. Gratuities, war-service, to be paid to servicemen and women and to veterans. Provisions of plan. 1945—Dec. 1151.

Assignment. See Promotion and assignment.

Atomic energy:
Economic and technological effects of development on electric light and power industry. 1948—Nov. 498-499.
Atomic energy—Continued
Labor-management disputes. See Labor-management disputes.

Austrian Trade Union Federation. See Labor organizations, foreign countries.

Automobile manufacturing industry. See Motor-vehicle industry.

Aviation. Hours of work and earnings, flight personnel and fixed base operations (including Civil Aeronautics Administration). 1948—Aug. 186-194.
Aviation. See Air transport.

Wage increases since date effective. 1948—Mar. 409-410.

Awards. See under specific industry, firm, or labor union.

Bakery industry:
Union scales. See Wages and hours, United States.

Banks, labor. See Cooperatives.

Banks, foreign countries:

Basing point system, cement industry. Supreme Court decision. 1949—Feb. 156.

Beauty shops (see also Court decisions, U. S., and Legislation, U. S., by State):
Minimum weekly wage for all working 4 days or more in week (provision in several State orders). 1941—Sept. 573.
Ohio. Students working in shops where customers pay fees must receive minimum wage under State order. 1941—Sept. 573-574.

Benefits and benefit funds (see also under specific type of benefit):

Bituminous-coal industry. See Mining—Coal (bituminous).

Black markets, foreign countries. See Prices, foreign countries, specified country.

Blind workers:
Number estimated available for industry in 1944. 1944—Oct. 683.

Boards of inquiry. See Labor-management disputes.

Bonus, United States (see also Bonus, nonproduction):
Cost of living. Clauses providing for, in collective agreements, types. 1946—Nov. 742-743.

Bonus, foreign countries:

Bonus, nonproduction, United States:

Scientists, industrial research, late 1949. 1950—Apr. 372.

See also City worker’s family, 4-person, this section.

See also City worker’s family, 4-person, this section.

Prices. See Prices—Consumers’ price index.

Standards of living. Method of determining and pricing of goods and services. 1948—Feb. 133-152.

Cost-of-living figures, seven States, specified period 1947, or first half of 1948, necessary for self-supporting women to maintain herself in health. 1948—Sept. 278.

Living as family members, annual cost for adequate maintenance and protection of health, New York State and by community, September 1947. 1949—Jan. 56-66.

Building and loan associations, U. S.—Continued
Number, membership, and assets. By States, end of 1939, including mortgage loans, surplus and undivided profits. 1942—Jan. 126-127.

Building and loan associations, Great Britain. Changes in assets, 1939 to 1942; liquidity of funds, earnings and dividends, and mortgage-lending policies, 1942. 1945—June 1155-1157.

Building construction (see also Construction; and Housing):
Activity in year 1940, including comparison with 1939 and trends since 1921. 1941—June 1573-1584.

Defense units, publicly and privately financed, by region, specified periods; January 1940 to August 1942. 1942—Dec. 1203-1212.

Materials. Shortages of supplies as of May 1946, and effect upon labor supply. 1946—Sept. 354.

— Defense areas, selected, new units in years 1940 and 1941, summary. 1942—May 1140-1158.
— Years, 1940-41 and 1943-44, estimated valuation by geographic division. 1941—Apr. 1006-1014; 1942—May 1198-1198; 1943—May 1063-1061.
— Time required to complete, estimated actual cost, units started last 4 months 1945 and March 1946. 1946—Sept. 346-354.

Wage stabilization for duration of war provided for by collective agreements as of July 1, 1942; and Wage Adjustment Board established by Secretary of Labor, 1942—July 86-88.

Building construction, Great Britain:
Guaranteed weekly wage provided by amendment to working rules of National Joint Council for Building industry, 1945—July 71-72.

Bargaining with transition. 1944—Sept. 310.

Bargaining and Wage Adjustment Board established by National Joint Council, 1944—July 71-72.

Collective bargaining, level of and its effect on pattern of rates; comparison of union rates by region and city. 1948—Jan. 52-53.

Earnings, weekly and hourly (gross), private building construction workers, wartime and postwar; rise in, compared with rise in consumers' prices, 1949—Jan. 39-40.

Union scales. See Wages and hours—Building trades.

Consumers' price index. See Prices—Consumers' price index.

Fact-finding activities of, summary. 1945—May 927-953.

Program. Change in character from original credo to wider scope and newer methods of recent years. 1950—July 75-78.

Fiscal year 1947-48; basic statistical services to continue, certain new programs added; summary. 1947—Oct. 409-414.

Bureau of Manpower Utilization (U. S. Government):

Candy and other confectionery manufacturing (see also Wages and hours):

- Bonus (nonproduction), group insurance, lunch periods (paid), pensions, life insurance, sick leave and vacations with pay. Extent of provision for, January 1947. 1948—Apr. 397.

Wage incentives, use of, January 1947, and comparison with time workers. 1948—Apr. 397.

Cannes:

Canning and preserving industry:

- Description and sections in which located. 1947—Feb. 435—437.
- Seafood processing, plant workers, selected States, 1948 peak season. 1949—July 22.

Canteens, United States. Manufacturing plants in war work. Cafeterias, lunch counters or stands, stationary or mobile canteens. Extent to which supplied by employers. 1944—Oct. 746.

Canteens, foreign countries:

- Progress in provision of, 1941. 1942—Jan. 79.
- Industrial and staff. Wages board to be established, by order Mar. 13, 1944, of Minister of Labor and National Service. 1945—June 1277—1278.
- Industrial, provision to April 1943, with detailed statistics on canteer canteens. 1943—June 1108—1109.

Capital and labor, United States. Factors in industrial productivity. 1950—July 9.

Capitalism, United States. Role in labor organizations. 1900—50. 1950—July 41.

Cement industry:

Portland. Productivity of labor, factors affecting; characteristics of industry; employment outlook. 1941—Oct. 862—874.

Ceramic engineers, earnings. See Wages and hours, United States.

Chamber of labor, foreign countries. See Labor organizations, foreign countries—Austria, Italy.

Check-off provisions:

- “Basic Steel” decision, National War Labor Board. Continuation or incorporation of agreement clauses ordered. 1945—Jan. 43.

Limits on, under section 302 (c) (4) of Labor Management Relations Act; opinion given by Assistant Solicitor General, May 13, 1945. 1948—July 42.

Prevalence of, in industry, and 1944 increase in proportion of workers under. 1945—Apr. 816—822.

- See Legislation, U. S., by States, for specified State; see also Court decisions.

Union dues. Extent of practice in 1946, by industry, and changes, by year, from 1941. 1947—May 768—769.

Chemical industries, United States:

Industrial. Products included. 1946—Nov. 744.

Wage rates and hourly earnings. See Wages and hours—Chemical industries.

Chemical industries, Dominican Republic. Courses provided in University of Santo Domingo to prepare skilled technicians. 1944—Dec. 1238.

Chemists and chemical engineers:

- Earnings, 1941 and 1943, and factors affecting. 1946—June 879—894.

Salary rates, Chemical Society members, trend 1926—41, and earnings in relation to experience and service. 1948—April 775—780.

Child-endowment, See Family allowances.

Child labor, United States (see also Youth):

California. Wartime relaxation of protective laws. Applications for and policy followed as to permits. 1944—July 121—122.
Child labor, U. S.—Continued

Court decisions. See Court decisions, United States.
Employment certificates. See Minors, 14–17 years of age, this section.

— Provisions governing, enforcement; Administrator’s recommendations for extension of coverage. 1948—Sept. 271–274.

Farms. See Agriculture, this section.

— Order No. 4 extended to include pulpwood, logging, etc. 1948—Apr. 410.

Injuries to minors. Frequency distribution, compared to that of adults. 1948—Dec. 595.

Employment, full. See Employment conditions—Full employment.

Employment outlook, United States:

Air transportation (nonscheduled) and related services. Job prospects, postwar, by type of service and by occupations. 1945–June 1187–1196.

Cement (Portland) industry. Probable changes under wartime conditions. 1941—Oct. 862–874.

Construction, new, in 5-year period following World War II. Site employment. Total man-hours and man-years, and total numbers employed, by type of work, estimated. 1945—July 1–18.

Engineers. 1945—July 14–19.

Foundry occupations. Products and processes; economic characteristics; production, employment, and technological trends; summary. 1945—Dec. 1112–1131.

Industrial-research laboratories. Estimated personnel by July 1942 and increase from April 1941. 1941—Oct. 876.

Mechanics, automobile. Probable increase in demand for, in postwar years. 1946—Feb. 216–221.

Retail stores (Boston), for youth, last half of 1941. 1941—Aug. 314–326.

Teachers, elementary and high-school, 1949. 1950—Feb. 146–149.

— Occupational therapy, need for. Training courses and qualifications required. 1944—Apr. 768–769.

Employment outlook, foreign countries:

Canada. Program proposed for maintaining high and stable level. 1945—July 56–60.

Employment policies, United States:

— War industries. Forbidden, account race, creed, color, or national origin, by Executive order, May 27, 1943. 1942—July 32–33.

Foreign workers. Discontinuance of use after close of war. 1945—Nov. 910.

Older workers. Hiring of urged by President, for National Employment Week, April 1941. 1941—July 1151–1152.

Persons excluded from military areas. Placement procedure of War Relocation Authority. 1944—May 994.

Employment stabilization, foreign countries:
- Employment-service and trade-union facilities recommended by Joint Conference Board of building and construction industry. 1941—Apr. 838.
- Full employment, need for in postwar period, with discussion of measures to attain. 1944—Feb. 322-340.
- Wartime control policies, August 1939 to March 1941, summarized. 1941—May 1079-1089.

Employment Service, United States. See Employment agencies, United States.

Employment stabilization, United States:
- Industrial research scientists, written contracts and dismissal pay, 1949. 1950—Apr. 373.

Employment stabilization, foreign countries:
Employment statistics, U. S.—Continued

Chemists and chemical engineers. Percent employed, 1943, by classification. 1946—June 885.

Civilian labor force. See Labor force.

Estimating employment and unemployment; BLS methods, revision of. 1948—July 51–53.

Exports. Effects of, on employment levels, first half of 1947; basic steps used in preparing estimates. 1946—Dec. 678.

Factory wage earners, by sex, industry group, and geographical region, April 1941 and April 1942. 1942—Nov. 913–916.

Farm, 1948. Estimating methods; comparison of Bureau of Agricultural Economics (BAE) and Census data; BAE interview surveys on farm labor since 1945. 1949—Nov. 549–550, 552. See also Agriculture, this section.

—— Civilian. Total located in each State, specified periods 1936–41; factors affecting distribution; and principal agencies in each State. 1942—Apr. 919–926.

—— — By type of service, number and percent, 1938, 1942, and 1944. 1946—Mar. 384.

—— Employment and average annual salaries, by pay-fixing authority, July 1946 and July 1947. 1948—July 12.

—— Percentage distribution by pay-fixing authority and basic annual salary group, 1946–47. 1948—July 14.
INDEX—JANUARY 1941 TO DECEMBER 1950

Personnel, December 1939 and 1940, by types of work performed. 1941—June 1569–1374.

War and other agencies, August 1939–46, estimated. 1946—Nov. 671.

Federal, State, and local governments. By governmental unit, including percentage distribution. 1941—Nov. 1171.

By month, January 1939 to July 1942; by State, July 1942. 1945—Nov. 935–940.

Foreign workers. Numbers used during World War II. 1945—Nov. 910.

Government and private industry, March 1942 and potential labor supply (Univ. of Minnesota study). 1942—Aug. 203–205.

Government-owned, privately operated war plants, September 1943, by industry group and State. 1944—July 46.

Hawaii. By industries (those which employ women), sex, and class of occupation, 1939. 1941—Feb. 364–365.

Indexes. By industry division, selected years, 1929–47. 1947—Dec. 647.

Key defense industries, by month, January 1939 to September 1941: Blast furnaces, steel works, and rolling mills; foundry and machine-shop products; electrical machinery, apparatus, and supplies; smelting and refining—copper, lead, and zinc; brass, bronze, and copper products; aluminum manufactures; machine tools; machine-tool accessories; abrasives; screw-machine products; aircraft; aero engines; shipbuilding; optical goods; instruments. 1942—Jan.

See also Manufacturing and Nonmanufacturing Industries, this section.

Industrial distribution. Census (1939), compared with census data from Latin American countries. 1945—May 747–748.

Women, and total workers, by industry, May of each year 1940 to 1944. 1945—Dec. 1234–1235.

Jamaicans employed on war work, by industry and occupation (BLS survey of March 1945). 1945—Nov. 848–857.

Far West. Estimated total, by region and branch of industry, August 1944, 1945—July 28.

Trend by months, January 1939 to April 1943; indexes showing increase by region, specified months, 1939–43. 1945—Sept. 484–486.

1936–41, as related to accident frequency. 1943—May 943–954.
Employment statistics, U. S.—Continued

--- Revised estimates and indexes (including payroll) by month and by industry group, January 1944 to December 1946. 1946—Aug. 297-301; 1947—May 296-300.

--- See also Nonagricultural establishments, this section.

Massachusetts. Changes in situation during defense period (to December 1941) and in war period (to December 1943). 1944—Oct. 740-745.

Metalworking employees shifted to ordnance production. Number, April 1943, by industry transferred from and by type of new work; trend of changes, June 1940 to April 1943. 1943—Dec. 1084-1089.

Mining, coal. Anthracite. Average number employed, 1942 and 1943. 1944—Nov. 962.

--- Bituminous. Average number, 1929, 1937, 1938, and 1939, and effect of "share-the-work" plans on totals shown. 1941—Jan. 105-104.

--- Bituminous and lignite, 1943 and earlier years, as reported by United Mine Workers (1944 convention). 1944—Dec. 1195.

Minors aged 14 through 17 years, 1940-43. 1945—Apr. 756-775.

Municipal, in large cities, with payroll data, 1929-38. 1943—June 1097-1108.

Negro workers. By occupation and by sex, 1940. 1944—Apr. 739.

--- Trends, probable, based on 1940 and 1944 occupational and industrial distribution. Summary. 1945—Jan. 5.

--- Revised. By industry group, years and months, 1939-45, and months, January 1939 to December 1946. 1944—July 222-224; 1947—May 921-925.

INDEX — JANUARY 1941 TO DECEMBER 1950

55

— Principal classifications (8), according to 1940 Census. 1944—May 1035.

— Production workers. See Manufacturing, Nonagricultural, and Nonmanufacturing, this section.

— Public houskeeping (California). By occupation, 1940. 1943—May 914–915.

— Section men. Average number, by year, 1929–44. 1945—May 1070.

— West Coast. New workers hired during June 1942. Previous employment, age, color, and marital status. 1942—Nov. 926–931.

— Shipyards, private. By region and month, January to December 1949; percent of women employed, December 1942 and 1943. 1944–June 1178–1182.

Slaughtering and meat packing. Trend by years, 1939–45, and by month first quarter 1946; by region and type of establishment, March 1946–July 46, 53.

— State and local governments, personnel. By type of governmental unit and by function, January 1941; indexes, by quarter, 1940, and January 1941. 1941—Nov. 1168–1171.

— Students, high-school, in 9 New York up-State cities, May 1944. Proportion of total, by sex and age, and conditions of work. 1945—Nov. 996–997.

— Mill products and apparel, by month, 1940–42. 1942—Sept. 446–458.

Employment statistics, U. S.—Continued

— 1940, various classes of industries. 1941—Mar. 533-534.

Veterans. Factory employment. Percentage distribution in major industry groups, proportion of all employees and of all accessions, and turnover rates, December 1945 to July 1946. 1946—Dec. 924-934.

— Percentage distribution of those employed, by status, age, occupational group, and race, March and November 1946. 1947—July 63-65.

Wartime labor. Excess over normal, by age group and sex. 1945-Jan. 7.

White-collar workers. Clerical, sales, and professional classifications, by industry group, 1940. 1944—May 1035.

— Change in percent, September 1939 to October 1940, in identical establishments. 1947—Nov. 1175.

— Changes in wartime, by characteristics and major occupation groups. 1944—Nov. 1029-1030.

— Factory wage earners, April 1941—April 1942, by industry group, and comparison with men employed. 1942—Nov. 913-916.

— Manufacturing, January and June 1943 and trend since October 1939, 1943—Oct. 723-728.

— Percent of total employment, September 1949. 1950—Feb. 150.

— Number and percent of total employment, by industry group, September 1949. 1950—Feb. 150.

WPA projects, by months, July 1935 to December 1940. 1941—Mar. 601-603.

Youth. Number in labor market, 14 through 19 years of age, by age group, October 1946, April 1947. 1947—Dec. 672-673.

— School-age groups, first year following VJ-day. Summary, 1946—Nov. 675-679.

— Teen-age workers, wartime. Sex, school-attendance status, industry employed in, and hours worked, April 1944. 1945—Jan. 6-17.

Employment statistics, foreign countries:

— Belgium. By industrial groups and status, and by sex, 1930; summary of trend prior to German invasion. 1944—Feb. 282-285.

— Mining, coal, by year or shorter period, 1938-46. 1946—July 28.

— Bolivia (LaPaz). Salaried employees and wage earners, by industry and citizenship, status, with total payrolls, 1942. 1944—Mar. 629-630.

— Brazil. Distribution of industrial population, 1940, 1941, and 1944, by industry group, 1945—Apr. 683; 1945—July 113.

— Estocolmo. Number in labor force, 14 through 19 years of age, by age group, October 1939 and April 1940. 1945—July 27.

— Finland. At beginning and at end of World War
INDEX—JANUARY 1941 TO DECEMBER 1950

— Indexes, 1935, 1939, and year of minimum in 1930's. 1946—Feb. 188.
France. Indexes, 1938–47. 1948—July 44.

lective bargaining between employer and employees;

  - major provisions of settlements, 1949-50. 1950—

  - Aug. 218-228.

Surplus war property disposition (outside United States) to be assigned to. 1944—Apr. 769.

Foreign labor conditions. See Working conditions, foreign countries.

Foreign trade. Effect upon employment. Summary of opinions concerning. 1945—Nov. 858-862.

Foreigners. See Aliens; Foreign workers; and Immigration and emigration.

Foremen's Association of America. See Labor organizations.

Foreman's Association of America. See Labor organizations.

Forwage industry (see also Wages and hours): Employment outlook. Products and operations, economic characteristics; trends affecting. 1945—Dec. 1112-1131.

Frictional unemployment. See Unemployment.

Full employment. See Employment conditions.

Furniture industry (see also Wages and hours): Characteristics and method of 1941 BLS survey of hourly earnings; correction in 2 details. 1941—Sept. 741-745; 1942—Jan. 211.

Gas and electricity. See Electric and gas utilities.

Gas industry. Accident experience in 1944. 1946—Jan. 82-84.

Gas utilities:

— Price changes. See Prices—Fuels.

General Motors Corp., United States:

— Dispute with United Automobile Workers of America (CIO). Refusal of National War Labor Board to act before other procedures exhausted. 1942—June 1344.

Glassmaking industry, United States. Progress, technical, of twentieth century compared with former years. 1950—July 6, 13-14.

Glassware industry (see also Wages and hours):

— Bonus, nonproduction; group insurance; paid lunch periods; pensions; shift differentials; sick leave; and vacations, with pay. Extent of provision for, 1947—Nov. 541.

Glycerin manufacturing. See Soap manufacturing.

Gompers' centennial. Tribute by President Truman, labor and government officials, to memory of Samuel Gompers, labor leader, on centennial anniversary of his birth, Jan. 27, 1950. 1950—Feb. IV.

Government, United States:

— Labor-management relations, role in, 1900-50. 1950—July 51-61.

— Federal. Classified positions, salaries. See Wages and hours—Federal employees.

Government employees, U. S.—Continued

— Improvements in status under amendments to Civil Service Retirement Act, 1948. 1948—May 581.

Percentage distribution of pay-fixing authority and basic annual salary group, 1946-47. 1948—July 14.

Government regulations. See Legislation.

Government workers. See Government employees.

Greenbelt communities:

Arbor housing facilities, and cost, FSA program. 1941—Dec. 1374-1376.

Group insurance (see also specific type of):

Chemical (industrial) industry. Extent of provision and benefits offered, January 1946. 1946—Nov. 749.

Dyeing and finishing, textiles. Life, accident or health insurance; extent of provisions for, July 1946. 1947—June 1039.

Electroplating and polishing industry. Extent of provision and benefits offered. 1946—May 774-775.

Employers’ obligation to bargain collectively on; NLRB ruling in W. W. Cross and Co. case. 1948—Sept. 234.

Financial participation. See Cost sharing, this section.

Foundries. Life-insurance provisions most common in plans. 1946—July 66.

Guaranteed wages:

- Guaranteed wages, foreign countries:
  - Wages Councils given power to establish. 1945—July 121.

- Gypsum products:
  - Characteristics of industry; findings based on BLS study, late in 1946, of 18 plants or 40 percent of year’s production. 1947—Oct. 453-456.

- Handicapped workers. United States:
  - Civilian disabled. Rehabilitation and placement under Vocational Rehabilitation Act amendments of 1943. 1945—June 1231-1235.
  - Continuance in employment but at lighter work, after injury and award of workmen’s compensation, required by arbitrator and upheld by court. 1943—July 123-130.
  - Employment in war industries. Reserve available; placements 1940-43; methods of meeting problems involved; social aspects. 1943—Sept. 435-443.

- Jewelry industry. Home work permitted through exception, in minimum-wage order effective Nov. 1, 1941. 1941—Sept. 715.

- Jobs for, through collective bargaining; advocated by AFL. 1947—Aug. 205.

- Rehabilitation and placement of; Federal agencies and private groups, work of. 1948—Sept. 282-285.

- Second-injury funds; new permanent impairments handled under, in certain States; degree of compensation. 1948—Jan. 33.

- Veterans; training and placement. See Veterans. War industry, employment in. Experimental clinic of Connecticut Department of Education. 1943—June 1327-1328.

Health, United States:

- Aging as an industrial problem and factors in maintenance of health. 1941—Sept. 672-674.
- Benefit plans through collective bargaining. See Plans, health and welfare, this section.
- Clothing workers, New York City. Plans of Amalgamated Clothing Workers (CIO) and New York Clothing Manufacturers Exchange; provisions, total workers covered. 1946—Feb. 146.
- Collective agreements. See Plans, health and welfare, this section.
- Food and health services. Results of; factors and cost of programs; survey by National Association of Manufacturers, 1941—Sept. 669-671.
- FSA work, including sanitation, to end of 1940. 1941—Dec. 1385.
- Industrial diseases and poisons, compensation for. See Workmen's compensation.

Lead poisoning. Fatal cases, by States, 1941, 1942, and 1943; by year 1941-42, including rates per million of population; by occupational class and year 1939-42. 1944—Nov. 976-978.

Medical and hospital care. See Medical and hospital care.

- Nonferrous metal, Utah. See Utah, this section.
- Negro youth. NYA programs to promote. 1941—June 1445.

- X-ray workers, hazards to. State inspection, and safeguards provided. 1941—Sept. 678.
- Labor Department (State) public-health activities. Summary of functions and measures adopted. 1941—Sept. 674-678.

- United Mine Workers of America, Working men, conditions, etc. 1946—Jan. 229-233; 1949—Feb. 146.
- Funds, regulation of. 1948—Sept. 233-234.

- Women's Garment Workers' Union, International (AFL), See Labor organizations, U. S.—Garment Workers' Union, etc.

- See also Labor organizations, U. S.—Mine Workers, United.

- Union Health Center, Philadelphia, and Labor Health Institute, St. Louis; summary of provisions and details of operation. 1948—Jan. 34-39.

- Unions having or advocating, January—June 1949. 1949—Sept. 239-240.

- See also Collective agreements—Welfare.

Programs in collective-bargaining agreements. See Plans, health and welfare, this section.

Radium dial-painting hazard. Renewal of industry in 1941, and safety precautions. 1941—Sept. 676.

Rhode Island. Industrial code commission established, 1946. 1946—Nov. 769.

Safety and health unit in Department of Labor recommended by 1941 convention of International Association of Governmental Labor Officials. 1941—Dec. 1454-1455.

Shipyards. Chemical poisoning. Disabling cases reported during first 9 months of 1943, by causal condition. 1944—Apr. 761-763.

Virginia. Occupational diseases (schedule) compensable under workmen’s compensation law, February 1944 amendment. 1944—May 1020-1021.

Welfare. See Plans, health and welfare, this section.

Women’s blouse and waist industry, health and welfare plans; extent of use, January 1947. 1947—Sept. 316.

Health, foreign countries.

Canada. Industrial poisons. TNT (trinitrotoluene). Method of measuring amount in air developed by Division of Industrial Hygiene. Literature concerning, furnished to employers and workers. 1941—Feb. 336-337.

Chile. Preventive-medicine activities of Compulsory Insurance Fund, 1938-41. 1944—May 1009-1010.

--- Preventive-medicine services by social-insurance institutions. Legal provisions, administration, and sources of funds. 1941—Feb. 381-384.

China. Rural conditions and problems, summary. 1943—Sept. 494-495.

--- Excessive overtime, effects of, in war industries. 1941—June 1345-1346.

--- Factories. Conditions early in war. 1941—May 1213-1214.

--- Neurosis (wattism), reasons for; and absenteeism among workers. Study of 30,000 workers in 13 light or medium engineering factories by Industrial Health Research Board, 1945-46. 1946—Apr. 406-408.

--- Industrial Health Advisory Committee, appointment Mar. 11, 1943, and functions. 1948—July 118-119.

--- Medical officers and nurses in industry. 1944—Jan. 98.

--- Occupational diseases (factories). Cases and deaths, by cause, specified years, 1910 to 1939; summary of cases and deaths, 1941-42. 1941—May 1214-1215; 1943—Jan. 79; 1944—Jan. 98.

--- Cotton-mill asthma. Law of November 1940, requiring compensation. 1941—Mar. 629-630.

--- Dermatitis. Increase of, in year 1940. 1942—Jan. 139.

--- Hazards, increase on account of war. 1942—Jan. 138-139.

--- Lung diseases from dust inhalation brought under workmen’s compensation law by February 1943 amendment. 1943—May 908.

--- TNT (trinitrotoluene) poisoning reported for year 1940. 1942—Jan. 138-139.

--- Tuberculosis. Treatment and prevention measures, Government plan announced Apr. 29, 1943; review of conditions since 1939. 1945—Sept. 509-511.

--- Wartime policies 1914-18 and since 1939 compared. Résumé of activities to promote health and welfare of workers. 1941—Apr. 924-927.

Turkey. Development of services under republican government, summary. 1942—Aug. 244-246.

Motor-vehicle industry, United States and selected regions, February 1950. 1950—Sept. 355.

Programs in 1949; compared with 1939. 1950—June 642, 643.
Health (or sickness) insurance, U. S.—Continued

Voluntary. Commercial and cooperative plans described, and summary of operations. 1941—June 1414—1419.

Health (or sickness) insurance, foreign countries:

Brazil. Longshoremen. System established in 1940, coverage, sources of funds, benefits, general provisions. 1941—June 1428—1431.

Germany. Social-insurance pensioners, coverage provided for by November 1941 law. 1942—Feb. 445.

Programs in 1949; compared with 1939. 1950—June 642, 643.

Hiring halls. See Longshoring industry.

Histradur (Labor Federation of Israel). Activities, over-all; background, historical; structure and membership, 1921—50; recent policy actions; international affiliations. 1950—Aug. 230—233.

Holidays, paid, United States:

Bakery workers. Union provisions concerning number per year, July 1, 1944. 1945—Feb. 368.

—— Women's and misses' dresses. Extent of provision for, August 1947 and 1948. 1948—May 520; 1949—Feb. 188.

—— Women's coats and suits manufacture, September 1949. 1950—Feb. 165.

Department and women's ready-to-wear stores. Extent of provision, April 1948, 16 cities. 1948—Nov. 466.

Guaranteed employment and wage plans, provisions for. 1950—Jan. 29.

Motor-vehicle industry, United States and selected regions, February 1950. 1950—Sept. 352, 356.

Saturday holiday. See Saturday, Sunday, and holiday work.

Scientists, industrial research, late 1949. 1950—Apr. 370.

Streetcar and bus operators, New York, provisions for per hour, 1945—Feb. 373.

Holidays, paid, foreign countries:

—— Home conditions. See Living conditions.

—— Home ownership:

—— Housing and fuel expenditures, 1941 and 1944, city families, by family size and income class. 1947—May 868—877.

—— Nonfarm families. Total number, early 1948; relation to income; expenditures, for repairs and additions during 1947; other expenditures. 1948—May—Nov. 516.

—— Wartime increase in, and effect upon supply of rental units. 1946—Apr. 560—565.

—— Homesteads, United States:

—— Federal Security Administration projects. Selection of families, facilities, construction cost and
methods, rentals and purchase tenure, sources of income, food produced for home use, community organization, and activities, advance in living standards, difficulties encountered, and accomplishments. 1942—Feb. 360-383.

Settlements for stranded groups, subsistence projects, farming colonies, and individual scattered farms, status 1941. 1941—Dec. 1376-1379.

Yakima Valley (Washington) Irrigated farm-land tracts opened to veterans, 1947—April. 609.

Home work, United States:

Industrial. Historical background; prohibiting legislation, including Fair Labor Standards Act; relation to public assistance; local-handicrafts promotion, disadvantages of. 1944—June 1145-1158.

New York (State). Conditions in 1942, under control measures, summarized. 1943—July 42.

— Wartime increase in certificates granted, and summary of conditions. 1945—May 1010-1011.

Home work, foreign countries:

Netherlands. 1934 act, provisions. 1944—Jan. 44.

Hosiery industry (see also Wages and hours):

Full-fashioned. Characteristics, rehabilitation program, and union-management cooperation, summary and status, 1941. 1941—Nov. 1180-1185.

— Displaced workers, transferability to other industries discussed. 1942—Oct. 847-848.

— Nylon introduction as raw material and possible labor displacement resulting from use. 1941—Oct. 837-839.

— Production and employment statistics, 1941 and 1942, northern and southern areas; occupational distribution, by sex, 1938; and concentration points, with employment, 1939. 1943—Mar. 429-441.

— Raw material crisis in 1941 and effect upon employment outlook. 1941—Oct. 840-847.

— Technological changes (recent), and reduced labor requirements. 1941—Oct. 829-837.

Seamanship. Definition, characteristics, labor force, unionization, and regional distribution, 1940. 1941—June 1514-1520.

Hospital service. See Medical and hospital care.

Hotels, year-round (see also Wages and hours): Holidays, paid, vacations with pay. Extent of provision for, July 1948. 1949—Jan. 37.

Hours of work, United States (see also Legislation; Wages and hours):

Department and women's ready-to-wear stores. Workweek, length of, April 1948. 1949—Nov. 486.

8-hour day, suspension of. See Legislation, U. S., Federal and general, also by States, for specified States.

8 per day and 48 per week considered optimum by industrial executives (Princeton University survey). 1942—May 1099-1100.

Fertilizer industry. Workweek, length of, March 1948. 1948—Nov. 505.

Hours of work, U. S.—Continued

— War Manpower Commission regulation issued Feb. 28, 1943, and general orders designating 32 local labor-shortage areas and specifying national application to lumber and nonferrous-metal mining. 1943—Apr. 666-668.

— Effects on absenteeism, efficiency, spoilage, and output. Results of BLS study summarized. 1944—June 113-1144.

— Workweek, length of, December 1947, compared with January 1948. 1948—May 516.

— Weekly hours and use of shifts, June 1941. 1941—Oct. 876-879.

Manufacturing industries. By group, and by year, 1932-43; and trend, by year, 1914-43; war and civilian goods industries, by group, 1941-43. 1944—Apr. 838-855.

— By group, October—November 1940. 1941—Apr. 981-987.

Metal-mining industry. Length of workday under Fair Labor Standards Act established, effective May 1, 1941. 1941—May 1254-1255.

Mining, coal (bituminous). Fall of 1945. 1946—Apr. 531, 537-539.

Optimum (8 per day, 48 per week) recommended for maximum production in war plants. 1942—Sept. 459-460.

Rayon and silk industry. Workweek, length of, April 1948. 1948—Sept. 270.

Truck driving. Indexes, weekly hours, union drivers, 1936-47. 1948—Apr. 394.

Weekly. Percentage distribution by size of community and number of hours worked, April 1940 and April 1941. 1941—Oct. 899.

— Specified industries (19). Years 1939 and 1940 compared. 1941—July 17.

— Prewar, wartime, and postwar periods. Study of effects of changes in, on output and other factors. 1941—July 5-14.

— See also specified industry, this section.
Government, for specified kinds of work. 1943—
Oct. 792-793.
— Restriction, to reduce absenteeism and raise output. 1943—Jan. 31.
Belgium. Prior to invasion (1940), summary; measures under German occupation. 1944—Feb. 289-291.
Canada. 40-hour week (without decrease in earnings) adopted by Toronto plant as results of increased efficiency. 1945—Apr. 853.
— Quebec. Plants executing war contracts.
Europe. Indexes and number of hours per week, 1938-47. 1948—July 44.
— Situation prior to World War II; wartime measures; changes under German occupation. 1944—Oct. 718-720.
Great Britain. Average, 1945 and 1947, compared with prewar; changes between July 1945 and May 1, 1948. 1948—Aug. 118-119.
— 52-hour week ruled minimum for industrial labor, by Ministry of Labor, May 20, 1942. 1942—July 42.
— Length of workweek. Relation to lost time and labor wastage. 1943—June 1400-1403.
— Overtime work, results in strain, efficiency loss, and (for women workers) increased accidents frequency. 1940—June 1337-1346.
— Women and young persons, in factories. Control under law re-established, by beginning of 1941, and effect. 1942—Jan. 77-78.
Norway. Law of 1936, provisions; and changes made by German occupational authorities. 1944—Sept. 505.
Panama. Civil-service and bank employees. Continuous working-day period 7 a.m. to 1:30 p.m. instituted Dec. 3, 1940; “Siesta” period abandoned. 1941—Feb. 459.
— Household equipment, United States. Owned by families of varying income classes and in different types of communities, December 1941. 1945—Dec. 1219-1221.

Housing, United States (see also Building construction—Residential; Homesteads):

Characteristics, one-family houses started January-March 1947, selected areas. 1949—Jan. 46-47.

Clothing Workers, Amalgamated, of America. Apartment buildings constructed by Amalgamated Housing Corporation and cooperatively operated. 1941—Sept. 646.

Conditions in 1940, and changes to 1945; probable postwar demand. 1945—Mar. 479-488.

— Definition. 1949—Jan. 44.
— Nonessential, forbidden by order of U. S. War Production Board. 1945—June 1355-1356.

Cooperative. See Cooperatives—Housing.

Defense. Bridgeport area. Purpose and scope of BLS study, extent of program in 1940 and 1941, effect on community, homes vacated and changes in tenure, costs, and size and income of households concerned. 1942—May 1073-1083.

Defense areas (selected). New units provided, by quarter, 1940 and 1941, permit valuation distribution by period and by geographic distribution, 1940 and 1941. 1942—May 1149-1153.

Defense program. Agencies and appropriations for and 1940 and 1941 legislation. 1941—May 1061-1066.
— Contracts for, types and provisions under legislation of 1940. 1941—May 1071.
— Standards and policies followed in projects. 1941—May 1071-1075.
— Status of projects, Apr. 19, 1941, by authorization, construction agency, and purpose. 1941—May 1075-1078.
Housing, U. S.—Continued

Defense program, Steps included, and research surveys required, coordination organization of activities, and planning. 1941—May 1942-1063, 1066-1071.

Economy housing campaign. Sponsorship and purpose; homes for lower-income groups. 1942—Feb. 207.

Expenditures. See Construction—Expenditures; also Expenditures—Housing.

Farm Security Administration. Active projects, by State and type, June 30, 1941. 1942—Dec. 1572-1573.

--- Displaced families, provision for; and permanent and temporary units in defense areas. 1942—Oct. 927-929.

Federal housing policy developments, 1932-50. Summary. 1949

--- Permanent 2-family and multifamily dwellings authorized within housing-market areas, 34 large cities, number, by source of funds, selected periods, 1940-49. 1949—July 46-47.

--- Privately financed dwelling units (all, and number in war-work areas). Trend by month, January 1940 to June 1943. 1949—Sept. 513-517.

--- Wartime needs, and trend of construction 1940-43. 1949—Sept. 513-520.

Prefabricated units. Factory-made units used in lowering existing costs. 1947—Aug. 205.

--- War projects. Man-hour requirements for construction and site work, compared with those for conventional type. 1946—Nov. 721-732.

--- Materials and processes described. 1946—Nov. 724-726.

--- War workers' housing, use of. 1942—June 1267-1268.

--- War workers' units. Interior space arrangements, convenience of. 1942—June 1269-1270.

--- New housing. Percentage distribution, structures containing two or more units, 1948 compared with 1947 and with 1925-29 period. 1949—Feb. 180.

--- See also Rents, United States

--- 1946 and 1947. BLS program to develop better measures of activity (nonfarm); sampling methods and survey techniques used. 1948—Aug. 161-164.

Subsistence homesteads. See Homesteads, United States.

Tenure of dwellings in nonfarm areas, trend 1890–1944. 1946–Apr. 661.

Vacancies, habitable and available for rent, urban areas; Bureau of Census survey, April 1947; comparison with report of November 1945. 1948–Jan. 18.

War program. Extent; public and private participation; costs of accommodations to workers; and occupancy status (Murphy). 1942–June 1257–1277.

Wartime shortages. Effect on home ownership. 1946–Apr. 560–566.

War-work areas (456). Publicly and privately financed dwelling units constructed, by region, January 1940 to August 1942. 1943–Sept. 520.

War-work centers. Expenditure upon residential units, first 9 months 1943. 1944–Dec. 1247.

Housing, foreign countries (see also Legislation): Argentina. Low-cost projects: Social services provided for residents, 1942. 1945–Sept. 508–509.

—— Problems due to war. Plan proposed by Federation of Mayors and Municipalities. 1941—May 1154.

China. Tungsten miners. Project of Bureau of Tungsten and Antimony Control, 1940. 1943–Nov. 950.

—— Postwar. Construction program, including measures to secure material and labor. 1946–July 739–743.

—— Long-term programs, summary of plans; units completed Apr. 1, 1945–Apr. 30, 1948, by category; types of assistance provided by Central Government. 1944–July 104–106; 1948–Aug. 120–121.

—— Statement of Minister of Reconstruction concerning, 1944–Mar. 567.

—— Units destroyed or rendered uninhabitable, damaged, out of total of 18 million dwellings, during Second World War. Number needed to replace. 1948–Aug. 120.

Netherlands. Postwar conditions, rent control, and plans for relief of shortages. 1946–June 70.

Venezuela (Maracaibo). Oil companies' provision of, at specified rentals, for foreign employees. 1945–Aug. 389.

Housing Expediter. See Housing.

Decrease in, 1900–50. 1950–July 15.
Immigration and emigrants:

Canada. By sex, occupational class, and destination. 1944—June 1404.

Impaired workers. See Handicapped workers.

Imports:

Total, year 1948. 1949—Feb. 142.

Incentive pay or wage plans. See Wage-incentive systems.

Income, United States:

— Farm workers (family and hired), by size of enterprise. 1944—Oct. 843-846.

— Percent spent, major groups of goods and services, by families with same average income, 1945 and 1935-36. 1948—June 625.

Ceramic engineers. Median annual income, by years of experience, specified years, 1939-47. 1948—Oct. 381.

— Disposable. Median, all spending units, before and after taxes; proportion allocated to saving, selected durable goods, other consumer expenditures, by spending units within various income groups, 1947. 1948—Nov. 515-516.

— Distribution, by occupation group, 1947; spending units showing increases and decreases; liquid and nonliquid assets, ownership and use. 1948—Sept. 288-287.

— Median, all spending units, year 1947 compared with 1946. 1948—Feb. 185.

— Share received by each tenth of Nation's spending units, ranked by size of income, 1946 and 1945. 1947—Sept. 330.

— Spending units. Money income received; money and liquid assets; median amounts, and percentage distribution, by income groups, 1946 and 1945. 1947—Sept. 331.

— Dentists. Average net, 1929-48 (chart); source; trends; regional and State differentials; size of community influence; age relationship. 1949—Apr. 397-400.

— Indexes showing relationship between size of family and cost of budget; incomes providing same level of well-being for different-size families relative to incomes of four-person families. 1948—Feb. 179-181.

— Percent spent for major groups of goods and services by families with same average income in 1945 and 1933-34, Birmingham, and 1935-36, Indianapolis and Portland (Oreg.). 1948—June 625.

Federal workers. Percent of old and new residents (Washington area) in specified groups. 1941—Nov. 1225-1227.

Fishermen, Boston Fish Pier Fleet, 1948. 1949—Nov. 503-506.

Home owners (Federal employees). Percentages receiving various monthly amounts. 1941—Nov. 1228.

Indianapolis, Ind. Percentage distribution, families, by 1945 income and size, in relation to the city worker's family budget for March 1946. 1948—Feb. 177.

Lawyers. Average net income, 1929-48; source of income; size of firm influence; regional and State differentials; and relationship of age and years in practice. 1950—Apr. 396-398.

Manchester (N. H.) families of two or more. Average money income, savings, and actual and percentage distribution of expenditures, by net income class, 1947. 1949—Apr. 396.

— Surpluses and deficits in relation to income and expenditures, average amount and percentages reporting, 1947. 1949—July 34-36.

— Payments by type, by month and year, 1929 to 1940; by State, specified years, 1929-39. 1941—Jan. 128-133, Apr. 974-977.

— Salaries and wages by main types of enterprise, 1929-40. 1941—Apr. 978.

— Wage and salary (exclusive of military pay). Estimated 1930-44, by year and source; and alternative estimates for postwar period (Myers and Tolles). 1945—Sept. 401-413.

Negroes, San Francisco Bay area, 1941-48. 1950—June 617.

Pacific Coast (Calif., Oreg., Wash.) and entire country. Per capita payments, specified years to 1945; composition of total amounts and percentage distribution. 1947—Apr. 599-609.

INDEX—JANUARY 1941 TO DECEMBER 1950

Income, foreign countries:
Great Britain. National. By year, 1938–40, 1941, and
Government expenditures and taxes. 1942—
July 31–32.

— Personal income. Average before and after
taxes, 1938 and 1947; purchasing power, 1938—
40. American Council of Economic Research.

— Real income, national and per capita, postwar
period compared with 1938. 1948—Aug. 117–118.
Haiti. Distribution of workers by income group,
1943. 1944—Oct. 748.

Italy (Rome). Worker's family, specified periods,
November 1940 to May 1945. 1945—Aug. 387–
388.

Poland, National. Percentage of, to be used for
investment, 1946–49. 1948—Nov. 470.

Switzerland. Percentage increase war and postwar
periods, wage earners and salaried workers,
industry, commerce, and transportation. 1948—
Mar. 297.

Uruguay. Packing and chemical workers.
Average monthly, April 1940. 1942—Aug. 366.

Yugoslavia. National, percentage of, to be used for

Indexes. See specific subject.

Indians:
Alaska. Economic condition and vocational and
welfare among, June 30, 1941. 1948—Mar.
647–649.

Arts and Crafts Board (U. S. Government). Pro-
duction and sales under, progress of. 1941—Apr.
574–576.

Employment and rehabilitation activities of U. S.

Industrial chemical industry. Shift differentials, holi-
days, paid, vacations with pay, January 1948. 1948—
Aug. 142–143.

Industrial conditions. See Labor and industrial condi-
tions.

Industrial disputes, United States. See Labor-manage-
ment disputes.

Industrial equipment industry. Unit man-hours, 1947–
48. Number required, factors influencing; indexes
and trends, by type of product and type of labor.
June 645–648.

Industrial hygiene. Bolivia, Peru, and Chile, summary
of problems and recommendations. 1949—Nov.
538–539.

Industrial mobilization, foreign countries:
Belgium. Law of Mar. 20, 1945, and decrees of
April 1945, provisions. 1945—Aug. 239.

Great Britain. Wartime measures for, summary of,
to April 1942. 1942—July 25–41.

Industrial relations. See Labor and industrial relations;
Labor-management relations; also Legislation, U. S.
Federal and general.

Industrial research:
Laboratories. Professional-personnel requirements.
Findings of BLS survey for Army–Navy Muni-
tions Board summarized. 1941—Oct. 875–876.

Scientists. Employment and opportunities for ad-
vancement, work schedules and related wage

Industrialization, United States. New industrial devel-
opment in South; assets—good markets, available
Industrialization, foreign countries:

- China. Scheme proposed for 7 regions, with data as to area, population, and natural resources. 1944—Feb. 341-342.

India. Plans for postwar period summarized. 1944—Feb. 345.

Industries and services. Classification designations, exact, in United States and Great Britain, compared. 1944—July 160.

Inflation, United States:

- Factors creating pressures to produce. Quarterly report of Council of Economic Advisers to President on Apr. 9, 1948. 1948—June 640.

- Forces at work, end of 1948, outlook. 1949—Feb. 139-140, 142-143.

Inflation, Great Britain. Union attitudes toward government efforts to control. 1948—Oct. 368.

Injunctions (see also Court decisions):

- Injuries, industrial. See Accident prevention; Accident statistics; Workmen's compensation.

- Injury-frequency rates. See Accident statistics.

- Inspection. See Labor inspection, foreign countries.

- Instruments industries. Scientific industrial and laboratory; surgical (and apparatus); dental goods (and equipment); wage determinations effective Sept. 23, 1941. 1944—Nov. 1294.

Insurance (see also specific types of):

- Industrial-research scientists, late 1949. 1950—Apr. 372.

- Intensity of work. Increase in, 1900-50. 1950—July 22.

- Inter-American cooperation:

  - Caribbean region. West Indian Conference, Barbados, March 1944 (representatives from Bahamas, Barbados, British Guiana, British Honduras, Jamaica, Leeward Islands, Puerto Rico, Trinidad, Virgin Islands, and Windward Islands). Objectives discussed. 1944—July 110-111.

  - Latin-America. Participation in meeting to formulate postwar policies; membership and activities of postwar planning bodies, by country. 1944—July 107-109.

  - International Association of Industrial Accident Boards and Commissions. Annual meeting 1941, notice of and officers for coming year. 1941—Dec. 1456.

  - “International Bill of Rights.” Adoption of such bill by United Nations proposed. 1945—July 43.

  - International communications. Methods of and facilities for (State Department outline). 1945—July 41.

  - International Labor Conference. See International Labor Organization—Conferences.

  - International Labor Organization:

    - 1942. London meeting, representatives present and summary of problems discussed (Goodrich). 1942—June 1320-1322.

    - Declaration of Aims and Purposes; resolutions; and recommendations; summary (Goodrich and Gams). 1944—July 1-12.

    - Extraordinary or special session, Columbia University, New York, October-November 1941, summary of proceedings. 1941—Dec. 1448-1450.

    - Goals worked for (as summarized in State Department outline). 1945—June 1184-1185.

    - 1944 elections of members. 1944—July 12.

    - Relationship to. 1946—Dec. 935-936, 940.

International Trade Organization:

- Charter for. Origin of proposal and international sessions leading to completion of document. 1948—Nov. 476.

- Provisions summarized, with emphasis on Chapters II and III on employment and economic development. 1948—Nov. 476-482.

See also Trade, international.

Investments:

- Domestic (gross) and foreign (net) as percentage of gross national product, 9 countries, 1938 and 1947. 1948—Nov. 470.

- Iron and steel industry, United States:

  - Allocations, steel, voluntary, under Public Law No.
INDEX — JANUARY 1941 TO DECEMBER 1950

Composition of the industry and employment trends. 1900—July 120-122.
Employment conditions, as affected by war, and employment outlook. 1943—Feb. 258-267.
Injury experience. See Accident statistics, U. S., by industry.
Rationalization program, United States Steel. 1947—June 967-982.
Strikes. See Labor-management disputes—Steel industry.
Iron (gray) jobbing-foundry industry. Minimum-wage order effective Nov. 3, 1941. 1941—Nov. 1293.
Jewelry industry:
Description of industry and scope and method of wage and hour survey, February 1940. 1941—Jan. 184-186.
Minimum wage order effective Nov. 1, 1941. 1941—Sept. 715.
Jewish Labor, General Federation of. See Labor organizations, foreign countries—Israel.
Job evaluation:
Steel industry. Methods of classification, production and maintenance jobs; factors involved with their maximum weights. 1947—June 977-980.
Western Union Telegraph Co. Plan adopted, including job classification, descriptions, and wage schedules as of Apr. 1, 1948. 1948—Aug. 154.
Joint production committees, Great Britain:
Character, functions, problems, and results of activities (Summary of ILO study). 1942—May 900-903.
Results obtained by use of, as reported by Amalgamated Engineering Union. 1943—June 1100-1112.
Knitted and men’s woven underwear, and commercial knitting industries. Minimum-wage order, effective Nov. 24, 1941; amended, effective Mar. 3, 1942.
1941—Dec. 1577; 1942—Mar. 772.
Knitted-outerwear industry:
Minimum-wage order effective Apr. 20, 1942. 1942—May 1189.
Krug report. See European Recovery Program.
Labor administration, Japan:
Labor and industrial conditions, United States (see also Economic conditions):
Hawaii. Factors affecting, postwar; basic industries, sugar, pineapple and service; employment position, present and prospective; postwar unionization of labor. Summary. 1948—May 488-492.
Technical and economic progress, 1900-50; political influences; effect on worker and home. 1950—July 5-12.
Labor and industrial conditions, foreign countries (see also Economic conditions)
Austria. Trade-union developments, prior to and since liberation. Austrian Trade Union Federation granted legal status, summer 1946; character and organization, activities and accomplishments. 1943—Oct. 244-248.
— Prior to invasion (1940), and under subsequent German occupation; 1946 and early 1946. 1944—Feb. 280-288; 1945—July 26-35.
British Malaya. Summary, including economic and political background, prior to World War II and since Japanese invasion. 1944—Aug. 279-294.
Bulgaria. Summary, including historical background, to 1941. 1943—Oct. 672-688.
Labor and industrial conditions, f. c.—Continued

China. Effects of war and of industrialization; labor and welfare problems; and proposed policy (Tso). 1941—Feb. 322-326.
— Employment; wages, hours, and working conditions; industrial relations; cooperative movement; social insurance. Prewar status and wartime changes. 1945—Jan. 18-40.

Denmark. Summary, period preceding World War II, with some later data. 1944—Nov. 945-961.

Germany. Autumn 1945, summary. 1946—Jan. 72-76.
— Economic background, industrial distribution of population, employment conditions, employment agencies, wages and earnings, labor organizations, labor relations, social insurance, cooperative movement. Summary. 1945—Mar. 498-524.
— Labor Front (creation by Nazis, character, and activities). 1944—Nov. 932-944.
— Position of labor, 1939-41. Manpower situation, legislation and regulation, dilution, training, and transfer of workers, economic situation, hours, union membership, labor disputes and restrictions on strikes. 1942—Mar. 594-615.

India. Measures to improve, to 1944, summary. 1945—Nov. 911-931.

Iran. Employment; wages, hours, working conditions; labor administration and legislation, labor and employer organizations, industrial relations, the cooperative movement, and social insurance. Summary. 1945—Oct. 651-668.

— Labor policies and programs under the occupation. 1947—Feb. 239-254.
— Labor-boss system; history, industries involved, conditions, and legislation designed to eliminate. 1949—Jan. 47-49.

Netherlands Indies. 1920’s to early 1940’s; summary, including historical background. 1944—May 972-992; 1945—Feb. 294 (correction).

Norway. Period prior to German occupation, including historical background. Summary. 1944—Sept. 496-516.

Philippine Islands. Employment conditions, wages and hours, vacations with pay, labor relations, cooperatives, social insurance up to Japanese invasion; effect of invasion on employment, wages and hours, cost of living, labor control, and cooperatives. Summary. 1945—Apr. 776-789.

Poland. Status prior to World War II (including historical background), and changes under Ger­man control. Summary. 1944—July 62-81.

Trinidad and Tobago. Summary, 1942. 1944—Apr. 746-747.

Yugoslavia. Summary to 1940, including historical background of country. 1943—Nov. 895-910.

Coal mining. See Mining—Anthracite and Bituminous coal, this section.

Continental Baking Co. and Bakery and Confectionery Workers (AFL). Dispute submitted to NLRB May 9, 1950—May IV, June 657.

Court decisions concerning. See Court decisions.

Discrimination, illegal, against employees, first decision of NLRB making union, as well as employer, liable for back pay in certain cases, August 1949. 1949—Sept. IV.

—— Wage settlement, July 22, terms of; strike averted. 1948—Aug. 152.

Gas, Coke, and Chemical Workers, United, and Milwaukee Gas Light Co. Fact-finding board's statement as to value of procedure. 1946—Nov. 774–776.

—— Union shop. NLRB elections, 8 to 1 vote authorizing United Auto Workers to bargain for. 1950—Mar. 4.

—— Restraining order obtained by National Labor Relations Board against company for failure to bargain with union over insurance program. 1948—Feb. II, 192.
Labor-management disputes, U. S.—Continued

Hawaii. Longshoremen's strike. Settlement terms; strike effects. 1949—Dec. 653—656.

Sugar industry, 1946, lasting 79 days; issues involved and terms of settlement. 1948—May 492, June 610—611.

Historical summary of; Federal legislation concerning. 1947—May 859—855.

Rock Island and East Moline, Ill., and Farm Equipment Workers Union (CIO). Mid-October strike protesting discharge of union workers; grievances submitted to arbitration. 1947—Nov. 566.

Washington and Oregon, July 1950—Aug. IV.

Mackay Radio and Telegraph Co., Western Union Telegraph Co. (Cable Division), Commercial Cables Co., and All American Cables and Radios, Inc., and American Communications Association (CIO) or All American Cables Employers Association (Ind.). Strike in New York City and San Francisco; issues and terms of settlement. 1948—Mar. 305, May 544.

Maintenance of membership. "Escape" period included in "standard" clause in NWLB decisions. 1943—Jan. 65.

Maritime. Atlantic and Gulf Coast operators. Agreement, Aug. 13, Seafarers International Union (AFL); agreement, Aug. 18, National Maritime Union (CIO); wage settlements, hiring hall provisions. 1948—Sept. 289.

Arbitration of wage demands, agreement to accept. 1948—Apr. 1.

Atlantic, Pacific, and Gulf Coasts; restraining orders, temporary, issued by New York, Cleveland, and San Francisco Federal courts; strike averted. 1948—July 49.

East Coast, dock workers. Board of inquiry appointed by President, Aug. 17, 1948, to investigate dispute; overtime on overtime issue; strike Nov. 12—26; settlement ratified Nov. 27—28, terms. 1948—Sept. 289, Dec. 630.

West Coast. Waterfront Employers Association and International Longshoremen's and Warehousemen's Union (CIO); strike Sept. 2; issues, details of negotiations, employers' insistence upon non-Communist affidavits; settlement, Nov. 25; terms; status of controversies with other unions. 1948—Sept. 289, Oct. 394—395, Nov. 517, Dec. 629.

Hiring practices, declared in violation of the Taft-Hartley Act. Unions signed mutual-aid pact to continue fight to retain, March 1950—May III.

Milk-supply industry, Chicago area, 1932—41, and terms of settlement. 1942—June 1291—1293.

Captive mines, steel companies refusal to accept union-shop provisions in contract; unfair labor practice charges filed against union (UMWA); NLRB intervention; final settlement. 1948—Aug. 151—152.

Captive mines, strike and settlement, 1941, summary. 1942—Jan. 94—97.

Commercial operators and United Mine Workers of America (Ind.) sign new contract on...
June 24, steel companies operating captive mines refraining. Details of negotiation and terms of contract. 1948—July 48-49.

Foremen and other supervisory employees, collective-bargaining rights for and recognition, demanded by District 50 of UMW. 1946—Dec. 874-875.

New contract negotiations discontinued; companies efforts to force union to resume bargaining. 1948—June 645.

1919 strike, developments: West Virginia, United Mine Workers’ organization attempts, 1920-21, violence following; and use of Federal troops. 1941—Sept. 570-571.

UMWA president’s notice to Government of desire to reopen Krug-Lewis agreement of May 29, 1946. 1946—Nov. 777.

Coal, Colorado, strike 1913-14, and use of Federal troops. 1941—Sept. 570-571.

June 1949, over 400,000 workers involved, 1 week. 1949—June 42-43.

“National emergency” disputes. Industries and issues involved, 1948; powers invoked by President in connection therewith. 1949—Feb. 149-150.

1949, general features of strikes and disputes. 1950—May 497-499.

National Labor Relations Board cases handled, etc. See National Labor Relations Board.

National War Labor Board, decisions, functions, etc. See National War Labor Board.

New Jersey Public Service Electric & Gas Co. facilities seized May 15, 1950, under State’s public utility antistrike law following 5-day work stoppage over increased wages. 1950—June 687.

Newspapers (Chicago) and International Typographical Union. Union held in contempt of court for violation of Mar. 27 injunction prohibiting imposition of closed shop and other conditions of employment; ordered to report compliance by Oct. 26. Stay of execution of decision, pending appeal, granted by United States Court of Appeals on Oct. 18. 1948—Nov. 518.

Pipe Machinery Co. Rights of striking employers in collective bargaining relations; procedures for determining voting eligibility; NLRB’s decision. 1948—Mar. IV.

Labor-management disputes, U. S.—Continued

Railroads. Brotherhoods of Locomotive Engineers (Ind.) and Locomotive Firemen and Enginemen (Ind.), and Switchmen's Union of North America (AFL). Efforts to settle; seizure of roads on May 10, 1948; emergency fact-finding board recommendations rejected; settlement terms; return to private operation, July 10, 1948—Apr. IV, May III, June IV, 644-645, Aug. 152.

— Strikes of 1877, use of Federal troops, and States to which sent. 1941—Sept. 564.

Shipping strike (Great Lakes), August 1946. Agreements of workers with 4 of 11 companies summarized. 1946—Sept. 400-401.

Statistics. Analysis, 1940 and 1941; summary by year 1881 to 1941. 1941—May 1090-1116; 1942—May 1107-1129.

— First 6 months of 1945, summary, with statistics for same period of each year, 1939 to 1944. 1945—Aug. 277-278.

— 1943, January compared with December 1942 and year by averages 1935-39; first 3 months compared with first quarters 1942 and 1941; first 4 months, 1943—Mar. 518-519, May 978-979, June 1175.

— 1916 to 1945; by month, 1941 and 1942; by industries, States, and cities, 1942. 1943—May 959-978; 1944—May 270.

Strike restrictions in union agreements, following industries: Aircraft and parts; aluminum; electrical equipment; iron and steel; longshore; machine-tool; marine transport; metal mining; smelting and refining; rubber; shipbuilding; and trucking. 1941—Mar. 540-564.

— Defense industries, during 1940. 1941—Apr. 945-949.

— Developments to prevent, following passage
Labor-management disputes, U. S.—Continued
War work, strikes and lock-outs affecting and total.
Waterfront Employers’ Association of Southern California. Port tie-up Oct. 1, 1947; dispute between Luckenbach Steamship Co. and International Longshoremen’s and Warehousemen’s Union (CIO); demand of dock foremen to recognize union as bargaining agent; arbitration committee appointed; vote by union, Oct. 14, to return to work. 1947—Nov. 567.

Machinery industries (see also Wages and hours).

Machines, office; in use, 1950; results.

Wage incentives. Effects of, on interplant wage differentials; analysis. 1947—Sept. 319.

Machine-tool accessories industry (see also Wages and hours).

Injuries. See Accident prevention, and Accident statistics.

Logging camps (and sawmills), western, labor situation, 1941 and 1942. 1942—Dec. 1125—1128

Minimum—wage order effective Nov. 3, 1941. 1941—Nov. 1293.

Index of BLS survey of August 1944. 1945—May 1140—1141.

Labor force, and scope of BLS study, 1939—40. 1940—July 188—194.

Longshore industry (see also Collective agreements; Wages and hours).

Lumber industry (see also Wages and hours).

Accident prevention, and Accident statistics.

Logging camps (and sawmills), western, labor situation, 1941 and 1942. 1942—Dec. 1125—1128.

Minimum—wage order effective Nov. 3, 1941. 1941—Nov. 1293.

Sawmills in South. See Wages and hours.

Sawmills (and logging camps), western, labor situation, 1941 and 1942. 1942—Dec. 1125—1128.

Lunch periods, paid.

Wartime expansion. Trend in employment, hours per week, and labor turn-over, with geographical distribution, 1939-45. 1943—Sept. 484-487.

Maintenance of membership:

"Basic Steel" decision of National War Labor Board. Continuation of incorporation of clause ordered. 1945—Jan. 45-

Definition of, with other types of union recognition; prevalence of practice in 1946. 1947—May 768.

—— Decisions, May 1 to July 31, 1942. 1945—Sept. 489-496.

Man-hour requirements. See Productivity.

Manpower, United States:

—— Wartime supply of farm labor, and farm wages. 1942—Dec. 1111, 1124.

Armed Forces and munitions industries, requirements for, and sources of supply, 1944, summary. 1945—Dec. 1094-1098.

—— War Manpower Commission, summary of; and relation to reemployment rights. 1945—Mar. 538-536.

—— To prevent "pirating," statement July 1942 by WMC Chairman. 1943—Sept. 460-462.

Deferments. See Selective Service—Deferments.

Employment, analysis for labor-shortage areas. 1945—Mar. 470-471.

—— See also Ceiling program, this section.

"Essential activities" list as revised by War Manpower Commission Apr. 17, 1943. 1945—June 1092-1093.

—— Replacement schedules to include (War Manpower Commission instructions issued June 15, 1943). 1943—Aug. 238-239.

Hiring controls and practices, for labor-shortage areas. War Manpower Commission order of Feb. 1, 1943. 1943—Mar. 470-471.

Hours, weekly, lengthening of by Executive Order 9301 of Feb. 9, 1943; statement by Chairman of War Manpower Commission. 1943—Mar. 471-475.

Industry requirements, effects on proposed withdrawal of young men for military service. 1948—Apr. IV.

Jobs vacant because of labor dispute. War Manpower Commission's statement of policy on. 1943—Dec. 1124.

Labor force. See Labor force.

—— Factors affecting manpower resources as of May 1948. 1948—May IV.

—— Major areas, number, with substantial labor surpluses, by geographic division, selected months, 1948-50 (table). 1950—June 628.

Labor recruiting through scattering of circulars from aeroplane. 1944—July 89.

"Locally needed" activities. Designation of by area manpower director, provided for, Sept. 10, 1943. 1943—Nov. 992.

—— Restricted to 15 trades and services, by War Manpower Commission instructions, May 13, 1944—July 88.

—— Seasonal, important to war production, War Manpower Commission instructions concerning necessary men for. 1945—Dec. 1124-1125.

See also Ceiling program, this section.
Manpower, U. S.—Continued

Occupations. See also Selective Service—Deferments.

Outlook. See Requirements, this section.

Policies after VE-day. Controls, production shifts, wages in converted plants, discharge from Armed Forces. 1945—June 1205-1209.

Potential supply in an urban area (Univ. of Minn. study). 1942—Aug. 203-205.

Reconversion. Release from Armed Forces of limited number of key men and women; for decisions announced in February 1946. 1946—Apr. 591.

WMC program, following end of war with Japan. 1945—Oct. 670, 672-673.

1943-44, estimated for Armed Forces and civilian labor; sources of supply; and changes in problems. 1945—Aug. 204-211.

1945, first half, estimated changes in, and outlook. 1945—Feb. 286-290.

Selective Service. See Selective Service.

Shortages. War Manpower Commission and War Production Board Instructions issued in September 1943, to correct effects of, upon war effort. 1943—Nov. 992-995.

Wage increases. War Manpower Commission policy toward, as stated to regional directors on Oct. 12, 1943. 1943—Dec. 1126.

Established by Executive order Apr. 18, 1942; powers, personnel, and functions. 1942—June 1295-1327.

Labor migration from areas of shortage, program to reduce. 1944—Dec. 1167-1168.

Veterans' placement policies. Labor-market information sent by War Manpower Commission to regional directors. 1944—May 992.

Women with young children, policies regarding employment. 1943—Dec. 1184-1185.

Women's Advisory Committee, recommendations, Mar. 21, 1945, concerning dismissal policies. 1945—Sept. 506.

Women's Policy Committee, appointment and roster of members. 1943—Nov. 924-925.

War Production Board. Labor Advisory Committee, Office of, created June 1944, and committees included. 1944—Aug. 303-304.

Placing and revising war procurements, manpower factor to be observed in, Sept. 18, 1945, statement. 1945—Nov. 923.

Wartime need for college-trained personnel (BLS survey, 1941). 1945—July 60-68.

Wartime programs summarized (West Coast and other sections) to November 1944. 1944—Feb. 317-319.

Workweek. Wartime minimum (48 hours) to be applied to all labor shortage areas by War Manpower Commission instruction of Oct. 13, 1943. 1943—Dec. 1125-1126.

Youth, employment. See Youth—Employment.

INDEX — JANUARY 1941 TO DECEMBER 1950

151

Political contributions, United States. Legislation prohibiting, by corporations and labor organizations. 1947—July 62.

Population, United States:
Censuses. 1790-1940, with percent of increase, each decade; censuses 1930, 1940, percent of increase or decrease, by States and geographic divisions. 1941—Jan. 138-135.

Children under 18, number of, 1940, urban and rural families, and by region. 1943—Dec. 1166-1167.

Civilian. Shifts during World War II, by county and metropolitan area, April 1940 to November 1943. 1944—June 1187-1189.

Family size. Decline since 1930 indicated by 1940, 1941—Apr. 952-954.

Increase, 1930-40, as related to housing facilities (Naigles). 1945—Apr. 869-880.

Regional. By color and type of residence location. 1946—Oct. 491.

States. Changes, wartime (1940-43), and prewar (43 months of 1930-40 decade). 1944—Sept. 486-488.

Total. Estimated, years 1940, 1945, and 1950; number and percent in labor force, by sex and age group. 1941—Nov. 1172-1173.

— Percent change in, prewar and postwar; data for countries participating in European Recovery Program included. 1947—Dec. 679-680.

Population, foreign countries:

Colombia, and Department of Atlantico. 1938 census. 1941—Nov. 1173, 1175-1176.

— Western. Total; percent change in, prewar and postwar, in countries participating in ERP; United States data included. 1947—Dec. 679-680.

Finland. Summary of report (Government committee) suggesting family allowances. 1941—Sept. 719-720.

France. Conditions in spring of 1945, and importance of family allowances. 1945—Nov. 941.

— Total, 1939; industrial, by industry group and class of workers, 1933. 1945—Mar. 499-500.

Guatemala. Distribution, by industry, occupation, and sex, 1940 census. 1945—Jan. 75-76.

Panama. Total; occupational distribution, whole country, canal zone, and cities of Panama and Colon, 1940 census. 1944—June 1185-1196.

Peru. Total, 1940, and number gainfully occupied. 1944—Jan. 61.

South Africa, Union of. Estimated total, and racial distribution, 1940. 1945—Sept. 27.

Postal-to-Postal Act:
Court decisions on. See Court decisions—Postal-to-Postal Act.

Postal Telegraph Cable Co. Dispute with American Communication Association (CIO). National War Labor Board refusal to act in case covered by agreement. 1942—June 1344.

Postwar periods. See specific subject.

Power. See Electric light and power industry.

Power laundries (see also Wages and hours):

Poznau plan. U. S. Supreme Court decision concerning. 1945—Jan. 121-122.

Prefabricated housing. See Housing.

Premium pay (see also types of):

Computation of, for sixth and seventh workdays; types of absences ruled excusable by National War Labor Board. 1944—Oct. 847.

Prohibition of, for week-end work, by Executive order 9240, and decisions of National War Labor Board in specific instances (Feinberg & Dadian). 1944—Aug. 364-373.

Shift differentials, by type of payment and number of agreements and employees affected, 27 manufacturing and 7 nonmanufacturing industries, 1948-49. 1949—July 6-7.

President’s messages to Congress:
President's message to Congress—Continued

Price control. See Prices—Control.

Price stabilization. See Prices—Control.

Prices, United States:

— Actual, selected commodities, retail and primary market levels, selected periods August 1939 to December 1947; highest 1947; lowest 1947. 1948—Mar. 269.

Agricultural. Received and paid by farmers, indexes (1010-14—100) 1939 and 1943. 1944-Jan. 203.

Agricultural machinery and equipment. Indexes, primary market; revision of, summary of methods used by BLS. 1948—Oct. 403-405.

Basing point system. Supreme Court ruling in cement industry, implications. 1948—Aug. III; 1949-Feb. 166.

Budgets. See Budgets, cost-of-living.

— Indexes of, and percentage increases, specified periods from July 1914 to June 1947. 1947—Sept. 312.

— Changes during World Wars I and II. 1943—May 999-1000.

— Collective bargaining, developments at year's end as factor in. 1942—Jan. 7.

Construction machinery. Indexes showing trend August 1939 to December 1945, for combined items and for groups of items. 1946—Mar. 491-493.

— Southern cities and war production centers. Percentage changes, August 1939 to June 1946 or June 1940 to March 1945. 1946—Oct. 529.

— Wartime and postwar; comparison with rise in earnings, weekly and hourly (gross), private building construction workers. 1949—Jan. 39-40.

Consumers' primary markets. Indexes, by month, January 1914 to December 1923. 1945—Nov. 874-875.

— Trend in year 1947; persistent upward movement and reasons for; percent change, by commodity group, specified periods, July 1914 to December 1947. 1948—Mar. 268-278.

— See also Wholesale, this section.

— Essential facts concerning; purpose and meaning, structure, methods of compilation; movement since spring 1940. 1948—July 8-11.
--- Items included and their relative importance in major groups and in total index, December 1948 and 1949 (table). 1948—Aug. 159-160; 1949—Sept. 219-220.
--- By month, and percent changes, June 1941 to April 1947, and by year or month since 1935. --- Fact-finding activities of BLS concerning. 1945—May 945-952.
--- Foods. Average, by item (large cities combined); indexes by commodity group (and all foods combined), by city; November 1940 to April 1947, and trend since year 1913. See articles on Retail Prices of Food, or Food Prices, each issue January 1941-June 1947.
Hides, skins, leather. Percent changes, specified periods, August 1939 to end of March 1948. 1948—May 527.

Hosiery. Average. 33 cities combined, March 1939 to September 1940, and specifications on which based. 1941—Jan. 230–231.

Nonfarm. Location, shifts in, and reasons, 1947 and 1948 compared with 1939 and 1920; average unit cost, first quarter 1948 compared with first and last quarters 1947, and reasons for advances. 1949—Feb. 180.

Housing and fuel, city families, expenditures for 1941 and 1944. 1947—May 868–877.

See also CPI, Food, and Wholesale, this section.

Changes during 1948; consumers' (services and residential rents) and wholesale, by commodity group. 1949—Feb. 166–171.

Milk (Chicago). Trend since 1923 and effects of growth of vendor system. 1942—June 1293–1299.

Primary markets. See Consumers' and primary markets, also Wholesale, this section.

-- Increase March 1941 to July 1943; OPA control regulation; comparison with Continental U. S. 1943—Oct. 808–816.

Index (CPI). Number, total, and selected periods, permanent 2-family and multifamily dwellings and apartments within housing-market areas, 34 large cities, by source of funds, 1940–49. 1949—July 46–47.

See also Rent.

Rents, residential. Changes, second quarter 1947;
changes in Federal law controlling; local advisory boards provided for; their duties. 1947—Sept. 309-310.

Retail. Decline in consumers' price index, May 1949, compared with 1935-39 average. 1949—July IV.

Structural-steel forms. Increases, indirect, by Stabilization of.

Stabilization of. See Control, this section.

Steel products. See Iron and steel, this section.

Steel and iron. Imports, 1941—Jan. 46.

Steel products. See also Retail, this section.

See also Consumers' price index and Wholesale, this section.

Wartime, indirect increases caused by advancing costs and material shortages (Ulmer). 1942—Nov. 903-912.

Carpets and rugs. BLS survey, publication of results. 1941—Mar. 270.

Coal, bituminous. Average per ton as computed for minimum-price schedules, and effect of 1941 wage changes. 1941—Aug. 304-309.

Drugs and chemicals. Indexes October 1941 to December 1944, revised. 1945—May 1096-1097.

Imported articles, as affected by increases in shipping costs, 1939 to 1940. 1944—Mar. 650-655.

Index. Abbreviated, commodities included in, classified by groups in the comprehensive wholesale index. 1949—Sept. 296-298.

Description of, and present methods of revision and correction. 1948—Aug. 153-155.

Stabilization of. See Control, this section.

Steel products. See Iron and steel, this section.

Steel and iron. Imports, 1941—Jan. 46.

See also Consumers' price index and Wholesale, this section.

Prices, U. S.—Continued

Weekly, new index issued on current basis, fall of 1948, in place of weekly index issued since 1932; development of commodity sample, relationship to BLS monthly wholesale price index. 1948–Sept. 290–298.

Lumber, Douglas fir. Trend in relation to labor costs, by year and by item, 1941–46 (primary basis, fall of 1948, in place of weekly index series, by group, January 1942–July 1945, with discussion as to availability quarterly from BLS.) 1946–July 122–123.

War conditions, effect of, and changes August 1939 to September 1941. 1941–Nov. 1071–1102.

Waste and scrap materials. Calculation of weekly indexes for 44 materials from January 1942 to 1945; statement as to availability quarterly from BLS. 1946–July 122–123.

Prices, foreign countries:

Control. And trends since VE-day. 1946–May 777–790.

World War II and postwar periods, summary. (Argentina, Australia, Bolivia, Brazil, Canada, China, Denmark, Egypt, France, Germany, Iran, Italy, Japan, Mexico, New Zealand, Norway, Palestine, Poland, Soviet Union, Sweden, Switzerland, United Kingdom.) 1945–Nov. 882–899.

Comparison of wages and prices in the United States and 18 other countries, methods used and results. 1945–Nov. 457–493.

Family allowances, effect of on earnings and purchasing power in terms of food in 11 countries (table). 1949–Nov. 490.

Purchasing power of hourly earnings in terms of food, food prices, and hourly earnings of industrial wage earners, indexes, 18 foreign countries, selected periods, 1948–49 (table). 1949–Nov. 485.

Retail and wholesale. Indexes. August 1939 to February 1946. (Australia, Canada, China, Denmark, Egypt, Iran, New Zealand, Norway, Palestine, Sweden, Switzerland, United Kingdom.) 1946–May 782–785.

Indexes, specified months 1939–41, and monthly January 1942–July 1945, with discussion of trends. (Argentina, Australia, Belgium, Bolivia, Brazil, Canada, Chile, China, Denmark, Germany, Iran, Japan, Mexico, New Zealand, Norway, Sweden, Switzerland, United Kingdom.) 1945–Oct. 624–637.

Indexes; changes, monthly, August 1947 to April 1948. 1948–July 45–47.

Policy 1938–47; postwar trends; regulations in effect during German occupation; postwar criteria for granting price increases, methods of enforcement; stabilization program adopted, August 1947. 1948–Jan. 20–27.

Food. Sao Paulo, August 1943, and July and August 1944, by item. 1944–Dec. 1280–1281.

Wholesale. Indexes, specified months, August 1939 to November 1946, United Kingdom, Australia, Canada, India (food only), New Zealand, Palestine, Union of South Africa. 1947–Jan. 41.

See also Great Britain, this section.

Government subsidizing of certain foods. 1943–Jan. 32.

Regulations promulgated by Wartime Prices and Trade Board effective Dec. 1, 1941.
1942—Jan. 54-55.

Wartime Prices and Trade Board, powers expanded, Aug. 29, 1941, orders-in-council 6894-6898, Nov. 1941—Nov. 1154-1155.

Retail. Indexes Rural (1926=100) annual, 1913-40; urban, (1935-39=100), annual, 1913-40, monthly 1940. 1941—Apr. 836.

Retail and wholesale. Butter price fixed by Wartime Prices and Trade Board, Dec. 12, 1940. 1941—Mar. 589.

Indexes (1926=100), annual, 1913-40, monthly 1940. 1941—Apr. 836.

China. Control conditions since VJ-day. 1946—May 789.

Denmark. Control conditions after VE-day. 1946—May 780-787.

Wholesale, various items, indexes, 1939 and 1941. 1941—Aug. 368.

Dominican Republic. Food (8 items) November 1944 compared with 1939-40 levels. 1945—Oct. 792.

Egypt. Control conditions since VE-day. 1946—May 789.

Control conditions after VE-day, summary. 1946—May 787-788.

Great Britain and dominions (Australia, Canada, New Zealand, United Kingdom). Control conditions after VE-day, summary. 1946—May 788.

Government subsidizing of certain articles to prevent rise in retail prices. 1943—Jan. 32.

Methods, and penalties prescribed for violation of regulations. 1942—Oct. 782-783.

Subsidy (price) as related to cost-of-living and retail-price indexes, 1939-44. 1944—Sept. 611-612.

See also British Commonwealth, this section. India (Calcutta). Wholesale. Index numbers, selected articles, specified periods, 1914-43. 1943—Oct. 697-698.

Iran. Control conditions since VE-day. 1946—May 789.

Italy. Control. Conditions after VE-day. 1946—May 788.

Foods, specified, official and black-market rates, indexes, May and December 1944. 1945—May 1013.

Japan. Control conditions since VJ-day. 1946—May 789-790.

Latin America. Control (Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Mexico, Peru, Uruguay, Venezuela). Trends after VE-day summarized. 1946—May 779-781.

Retail. Cost-of-living indexes, specified months August 1939 to November 1946. Bolivia (La Paz), Brazil (Rio de Janeiro), Chile (Santiago), Colombia (Bogota), Costa Rica (San Jose), Mexico (Mexico City), Peru (Lima), Uruguay (Montevideo), Venezuela (Caracas). 1947—Jan. 38.

Food and clothing. Indexes, 1945 or 1946 (August 1939 as base), compared with cost-of-living indexes. Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Mexico, Paraguay, Peru, Uruguay. 1946—May 779.

Wholesale. Indexes, specified months, August 1939 to November 1946. Argentina (Buenos Aires), Chile (Santiago), Colombia (Bogota), Costa Rica (San Jose), Mexico (Mexico City), Peru (Lima), Venezuela (Caracas). 1946—May 779; 1947—Jan. 40.

Retail rates, Mexico City, April 1943, compared with ceiling rates, by item (11 markets covered). 1943—Aug. 247.

Palestine. Control conditions since VE-day. 1946—May 789.

Peru. Copper-mine and Lima stores, prices compared, December 1939 and April 1945. 1945—July 54.

South America. Consumers' price index, 6 cities, selected periods, 1941-48, all items and food; method of computing and coverage. 1949—May 548-551.

Prices, f. c.—Continued
Soviet Union. Consumers. Changes in, open market, ration, commercial store (Moscow), as result of Sept. 16, 1946, decree, 1947—July 28-35.

Switzerland. Control. Conditions after VE-day. 1946—May 788.

Uruguay. Food, household articles, rent, clothing, and general expenses, August and September 1946. 1948—July 137-138,

Printers, union. Lengthened life span in 1942 as compared with record for 1892. 1943—Sept. 527-529.

Printing and publishing. See Wages and hours.

Printing trades:
Union wage scales. See Wages and hours.

Prison labor:
Activities, production, value of goods, and conditions summarized from report for 1941. 1942—Mar. 704-705.

Federal and State prisons. Summary of systems, trends in population, employment, and production; employment status by State; productive employment by sex; weekly working hours; percent of prisoners productively employed, by State and by hours per week; types of industry, by State; types of product; sale of goods, and production under public works and ways system, by State, 1940 (Jones). 1941—Sept. 678-606.

Prisoners of war, United States:

— Nonagricultural labor, Man-days worked, June 1945, by Army Service Command and by State, 1945—Nov. 911.

— Priorities in allocation determined by War Manpower Commission. 1944—June 1189.

Hours of work. Regulations issued early in 1945. 1945—July 46.

Prisoners of war, foreign countries:
Canada. Use of labor on farms, 1943. 1944—Jan. 60.

Processed-waste industry. Definition and characteristics, regional distribution, and scope of earnings and hours survey, September 1940. 1941—June 1536-1538.

Product, gross national. See Production.

Production, United States:

— Aircraft industry. Number of units (and total weight) accepted each month, January 1941 to August 1944. 1944—Nov. 930.

Aluminum. Prices and secondary, net domestic consumption by year, 1913-43; and distribution of consumption by type of use, 1944—Feb. 300-302.

Automobiles, electric power and construction at peak levels, June 1949. 1949—July III.

Expansion of, assigned to various agencies by the President, Executive Order No. 10161, Sept. 9, 1950—Oct. 457.

Gross national product. As related to national income, by year, 1939-43. 1944—July 152.

— Percentage of, furnished by construction industry. 1947—Nov. 539.

Indexes, September 1945, June 1947 (1938 = 100), including data for 7 western European countries (Belgium, Denmark, France, Ireland, Netherlands, Norway, Sweden) participating in ERP. 1947—Dec. 678.

Lumber (softwoods and other kinds). West Coast as percentage of whole country, 1925-40. 1941—Oct. 861.

Physical, over-all. Index, selected industries, as measured by the Council of Economic Advisers, 1948. 1949—Feb. 140-141.
INDEX—JANUARY 1941 TO DECEMBER 1950

Postwar adjustment program announced by War Production Board, March 1945. Summary, 1945—June 1211-1212.

Steel and coal industries, reduction of operations, June 1949—July III.

Textiles and leather (shoes), as affected by war, 1943—Sept. 421-434.

Production, foreign countries:
  - Indexes, September 1945, June 1947 (1938 = 100), ERP participating countries (Belgium, Denmark, France, Ireland, Netherlands, Norway, Sweden) and United States, 1947—Dec. 678.
  - Industrial. Indexes, 1947 and first half of 1948 (1938 = 100), specified countries; second quarter 1948 (1937 = 100), specified products. 1948—Nov. 468-469.
  - Canada. Indexes (1928 = 100), annual 1919-40, monthly 1940. 1941—Apr. 336.
  - Indexes (1935 = 100) by industry group, 1930 and 1943. 1946—Feb. 196.
  - Postwar plans for, methods used to expand. 1948—Mar. 278-283.

Production committees. See Joint production committees.

Productivity, United States (see also Labor requirements):
- Agriculture. Increase due to mechanization and improvements in farm methods. 1950—July 15.
- Aircraft industry. Weight per employee in accepted product, each month January 1941 to August 1944. 1944—Nov. 980-981.
- Bituminous-coal mining. See Mining, this section.
- Cement industry. Man-hour requirements per 100 barrels, 1934 and 1945-46; by department and by region, 1945-46; trend by year, 1930-45. 1946—Sept. 355-363.
- Concrete, ready-mixed. Man-hour requirements to batch, mix, and deliver 100 cubic yards of ready-mixed concrete, by major operation and plant size, 1946-47. 1945—June 634-635.
- Construction, house, new. One-family. Man-hours required to build, 18 industrial areas, 1946-47. Occupational distribution, by type of exterior wall material; by construction cost classification; by size of operation; by selected area. 1948—Dec. 611-612.
  - --- Man-hour requirements, 1946-47, distribution by cost, type of exterior wall material, by weeks of operation; and specified occupations, by stage of construction. 1949—May 523-525.
  - --- 1945-47, average per unit, for specific types, by type of labor. 1949—Jan. 24-30.
- Dress shirts, men's. Man-hour requirements per dozen to produce, 1937-47, by price line, plant size, and by type of labor and department. 1948—Sept. 254-256.
- Effects of long hours on output; study of. 1947—July 5-14.
- Footwear manufacturing. Man-hours expended per pair. Indexes, all shoes reported by class and factory price line; trends, by type of shoe, area, and plant size. 1948—Sept. 258-259.
- Gypsum products. Calcined gypsum, man-hour requirements to process into 1,000 square feet of %-inch board or into 1 ton non-sanded plaster, by major department and plant size, 1946. 1948—July 29-30.
Productivity, U. S.—Continued

Increases, general, in recent years, and economic effects. 1941—Mar. 537-538.

Leather manufacturing. Man-hours required to manufacture a pound or square foot, selected types of leather, 1946. Indexes, 1939-46, all reported types combined. 1942—Oct. 383-385.

Selected types. Man-hour requirements, 1939-47; trends, by type of machine tool and by type of labor; establishments having wage incentive systems, compared with plants on hourly wage basis. 1948—Dec. 615-617.

Indexes of man-hours (direct and indirect labor); plant trends and influences causing; factors affecting efficiency. 1947—Aug. 186-192.

Wartime conditions; output per man-hour and unit labor cost, indexes (selected industries), by year, 1939-42. 1943—May 885-887.

Bituminous coal and lignite. 1943 and earlier years, as reported by United Mine Workers (1943 convention), 1941—Dec. 1195.

Coal. Output, per man-shift, year 1938, May 1947; percent change, 1938 to 1947. (Data for United Kingdom, Netherlands, Germany (British and French zones), France, and Belgium included.) 1947—Dec. 681.

Petroleum, gas, and gasoline; iron, copper, lead, and zinc ore. Production and output per man-hour, indexes, 1939-42. 1943—Aug. 255-257.

Radio receivers, home. Unit man-hours expended in manufacture. Indexes of trends, by type of labor, by type of radio receiver, and by size of plant, 1939-47. 1950—May 517-518.

Sand and gravel industry. Man-hour requirements to extract and process 100 tons of sand and gravel, by operation and general type of plant, 1946-47; comparison with 1937 requirements. 1948—June 631-634.

Shipbuilding. Liberty ships, construction of. Man-hour and time requirements, with indexes by month, December 1941 to April 1943. 1943—Nov. 861-864.

Wartime programs. Man-hour and time requirements for various types of vessels, and probable effect upon postwar methods and practices. 1945—Dec. 1132-1147.

Slaughtering and meat packing. 1919-41, résumé. 1942—May 1092-1099.

Standards and speed-up on various operations. Collective-agreement provisions, 1941—Nov. 1134-1136.

Study of, authorized by Congress, 1940. 1941—Mar. 658.

World’s economic income, percent produced by the United States, 1948; effects of annual increases in productivity, 1950—July 8.

Productivity, foreign countries:

Canada. Shorter hours (without decrease in earnings) adopted by Toronto plant through increased efficiency. 1945—Apr. 883.

Mining. Coal. Output, per man-shift (United Kingdom, Netherlands, Germany (British and French zones), France, Belgium) 1938 to 1947; United States data included. 1947—Dec. 651.

Output per man-hour, indexes, 1938-47, by industry, Monet Plan to increase. 1948—July 44-45.

Germany. Ammunition manufacture. Mechanization and its effects on productivity and costs. 1945—Mar. 540-541.

Increases in, through improvement and standardization of machinery; and problems involved. 1944—Mar. 521-523.

Great Britain. Anglo-American Production Coun-
Profits. Ireland. Restrictions on, under emergency

Professional training. Workers having, estimate of

Promotion and assignment. Provisions for, collective

Promotion. Retail stores (Boston). Avenues of, and

Public assistance:

Plan established by the Social Security Act of

Plans changed under discussion and future role of

Social Security, report on to the Senate Committee

Supply to be available.

Estimated changes to December 1942.

Employed, by occupation and sex, July 1942, and

Mining, coal. Methods suggested for increase in. 1944—July 115.

Tonnage produced, average weekly per man-shift, November 1948, year 1948; comparison with 1938. 1948—Mar. 258.

Variation, from outbreak of war to June 1942, and causes. 1942—Nov. 945-946.

Mining, coal and metals. (Prussia and Austria), World War I; (Germany and Japan), since 1933 and World War II. 1943—Aug. 256-257.

Need of raising, and problems in cotton and coal industries. 1945—Mar. 541-545.

War work, selected factories. Effect of shorter hours. Summary of study by Industrial Health Research Board. 1944—Oct. 768-767.

Peru. Copper industry. Mining and milling processes, 1939 and 1944. 1945—July 54.

Professional training. Workers having, estimate of supply to be available. 1942—Aug. 247-250.

Profits, United States:

Corporate. Totals, before and after taxes, 1947 and 1948; relationship to sales and net worth. 1949—Feb. 141.

Overtime pay in relation to. 1944—July 9-17.

Profit sharing, United States:

Large cities, 11, first half of 1950. 1950—Nov. 580.

Profit sharing, foreign countries:

Program changes under discussion and future role of assistance. 1950—Feb. 137-139.

Social Security, report on to the Senate Committee on Finance from the Advisory Council (Senate Doc. No. 204, 80th Cong., 2d sess., Washington, 1948), Summary of recommendations. 1949—Jan. 53-54.

Summary statistics for year 1944. 1945—June 1237.

Public employees. See Government employees.

Public employment service. See Employment agencies, United States.

Public works, United States. Effect upon economic conditions and employment; limitations; stabilization aspects; need for advance planning. 1950—July 109-112.

Publications:

Notes on Labor Abroad. To be made available to public at irregular intervals; instructions for obtaining. 1947—Aug. 174.

Exchange of, between countries (State Department outline). 1945—July 41-42.

Significant books, 1900 to June 1950, on labor. 1950—July 87-103.

Pulp and paper industry. See Paper and pulp industry.

Pulpwood logging:

Racial discrimination. See Discrimination.

Racial distribution:

Contact labor, by entrance wages paid, July 1940. 1951—Jan. 7-11.

Racial distribution—Continued

Radio manufacture (see also Wages and hours): Condition, 1900, 1925, and 1950. 1950—July 6.
Receivers, home. Unit man-hours, requirements and trends; indexes of, by type of labor, by type of radio receiver, and by size of plant, 1939–47. 1950—May 517–519.

Railroads, United States:
Grievance cases docketed, closed, and pending, year ended June 30, 1949, National Railway Adjustment Board. 1950—Apr. 403–404.
Labor disputes. See Labor-management disputes—Railroads.
Mediation Board, National. See Conciliation and arbitration—Railroads.
Pension plans, private, for employees, 1949. Eligibility requirements and benefits; financing; vested rights of employees. 1950—June 639–641.
Railway Labor Act. Supreme Court sanction; developments following. 1950—July 53.
— See also Court decisions.
Selective Service deferment of employees on western lines, on account of Pacific war (June 1945). 1945—Sept. 437.
Sickness compensation, Federal program under Railroad Unemployment Insurance Act, analysis of first 6 months’ operation. 1948—Apr. 402.

Union shop and hourly wage increase asked by 15 organizations, Sept. 25, 1942; report of Emergency Board May 24, 1943, summarized. 1943—July 46–57.
Wage changes. See Wages and hours, U. S. Wage disputes. See Labor-management disputes—Railroads.
Women workers. Employment, by occupational group, January 1943 and 1944, April 1944 and 1945; and comparison with total employment. 1944—Sept. 506–507.

Railroads, foreign countries:
Railways. See Railroads.
Raincoats (men’s) industry. Minimum-wage determination extended to cover all types of rainwear not previously covered, on bids solicited on or after Mar. 6, 1941. 1941—Apr. 968.
Rationing, United States:
— Registration, May 1942, conditions and regulations. 1942—June 1333–1334.
Rationing, foreign countries:
— Price control and rationing, World War II and postwar periods. 1945—Nov. 884–885.
— Commodities affected by, July 1, 1942, and systems governing sugar and gasoline. 1942—Aug. 283–284.
— Meat (system introduced May 27, 1943, under order of Nov. 1, 1941); and summary of other items previously covered. 1943—July 39–40.
— Price control, World War II and postwar periods. 1945—Nov. 885.
INDEX — JANUARY 1941 TO DECEMBER 1950

— World War II and postwar periods. 1945—Nov. 896—897.

— World War II and postwar periods. 1945—Nov. 888—889.

Germany. Food. Development, 1939-41; weekly rations, July 1, 1941; and special rations for certain workers; First and Second World Wars—polices followed. 1941—Aug. 288—289.

— World War II and postwar periods. 1945—Nov. 898.

— Clothing. System effective June 1, 1941, with sample lists for men and for women. 1947—July 73.

— Food and clothing, extension of practice in 1942—1943—May 1292—1293.

Iran. World War II and postwar periods. 1945—Nov. 893.

Italy. Food, additional amounts provided for those performing heavy work. 1941—July 1106—1161.

— World War II and postwar periods. 1945—Nov. 899—890.

Japan. World War II and postwar periods. 1945—Nov. 898—899.

Mexico. World War II and postwar periods. 1945—Nov. 895—894.

New Zealand. World War II and postwar periods. 1945—Nov. 889—884.

— World War II and postwar periods. 1945—Nov. 890—891.

Palestine. World War II and postwar periods. 1945—Nov. 893.

Poland. World War II and postwar periods. 1945—Nov. 892.

— World War II and postwar periods. 1945—Nov. 887—888.

Sweden. World War II and postwar periods. 1945—Nov. 891—892.

Switzerland. World War II and postwar periods. 1945—Nov. 892.

Rayon and silk industry (see also Wages and hours): Characteristics; and scope of BLS studies. 1941—Aug. 482—487; 1947—May 816—823.

Real wages. See Wages, real.

Reconstruction, foreign countries:

— Plans for, including demobilization, and veterans' affairs, and proposed legislation, summarized. 1944—July 95—96.

— Egypt. Government and other agencies provided to deal with problems. 1945—July 62—64.

— Damage, war, extent of (by type of building and department); manpower needs; and legislation during war and after liberation. 1945—Nov. 925—929.

— Land-utilization policies, reports of Scott and Uithwatt committees to Parliament summarized. 1943—Jan. 46—52.

— Minister of Reconstruction, functions of. 1944—Mar. 566—567.

— Postwar training for young persons, under certain circumstances, summary of Government plan. 1945—July 112—118.
Reconversion, f. c.—Continued

India. Hyderabad. Postwar Planning Board to be created, functions. 1944—Feb. 344.

--- Mysore. Rural: 8-year plan to better living conditions. 1944—Feb. 344.

Italy. Problems of, fuel supply, transportation, and rehabilitation of industry. 1945—Sept. 468-464.

Latin America. Membership and objectives of postwar planning boards in Argentina, Bolivia, Brazil, Chile, Colombia, Cuba, Dominican Republic, Ecuador, Haiti, Honduras, Mexico, Panama, Peru, Uruguay, and Venezuela. 1944—July 106-107.

West Indies. Postwar policies discussed and plans made at West Indian Conference (Barbados, March 1944). 1944—July 110-111.

Reconversion, United States:

Recreation, United States:

--- 1942 and 1944 activities, including special war services, summarized. 1943—Aug. 284-286; 1945—Sept. 511-513.

Public housing projects. Tenants' activities. 1942—Jan. 102.

Wage earners. 1900-50, educational and recreational facilities. 1940—July 28-30.

Recreation of labor, United States:

Alaska. Employers recruiting labor from outside the Territory required to pay return transporta-
tion upon termination of employment, 1949. 1950—Jan. 46.

Arkansas. Regulation of employment agents hiring workers in Arkansas for work outside the State provided by legislation. 1950—Jan. 46.

International Recruitment Program of WMC. Numbers referred and placed under, in 1944. 1945—Feb. 290-291.

Workers obtained by scattering of circulars in remote sections from aeroplane. 1944—July 89.

Recreation of labor, foreign countries:

Electrical. By Nazi authorities after German conquest. Methods and numbers obtained. 1944—July 69.

Reemployment, United States:

Veterans. See Veterans—Reemployment.

Regional War Labor Boards (U. S. Government) :

Chicago. Decision involving inclusion of union-shop clause. 1944—May 1024.

Cleveland. Decision concerning veterans' reemployment rights. 1944—May 1026.

Regulations, Federal or State. See Legislation.

Rehabilitation, United States:

Farm families, through loans from Federal Security Administration. 1941—Oct. 930.

Recommendations for improved services at 1950 Workmen's Compensation and Rehabilitation Conference. 1950—May 511-513.

Rural. PSA program for, summary of status, 1941. 1941—Dec. 1379-1382.

Vocational. See Vocational education and training, also Vocational rehabilitation.

Rehabilitation, foreign countries:

Canada. Cabinet committee to consider problems, constituted Dec. 8, 1939. 1941—Jan. 96.

--- Ex-servicemen. Government measures to promote aid to, including employment service. 1941—Mar. 592-593.

Great Britain. Disabled persons, plan for training, and allowances to trainees. 1942—Feb. 407-408.

India. Demobilized men and evacuees from danger zones. Plan for Government aid proposed. 1944—
INDEX — JANUARY 1941 TO DECEMBER 1950

Feb. 345-344.
Korea. Industrial development, 1945-48; number of firms, wages, living costs, and consumption levels. 1949--May 332-336.

1945—Jan. 64-69.

Vocational. See Vocational education and training.

Relief. Recipients, Indiana (Marion County). Family composition, age, race, and employability status of workers, May 1940.

Remington Rand Co.:

Rents, United States:

— Large cities, since September 1939; BLS survey, summer and fall 1947; summary. 1948—Jan. 14-19.

City families. Expenditures for, 1941 and 1944. 1947—May 867.

Contract (average). Changes, compared with changes in CPI rent index, 34 large cities, April 1940 and April 1947. 1948—Dec. 634-635.

— Comparison. 1944 and 1945, with 1940, selected small cities not under rent control; all changes in rental market reflected by comparing contracts. 1948—Dec. 635-636.

— Factor in home ownership increase, during World War II. 1946—Apr. 562-563.

— Factor in keeping down proportion of income spent for rent, 1947; percentages spent, nonfarm families, by income group. 1948—Nov. 516.

— Importance of, as factor in keeping down proportion of income spent for rent during 1947. 1948—Nov. 516.

— Decline in rates under OPA “roll-back” orders. 1943—July 80.

— Extent, large cities, by population and number of cities. February 1940. 1950—Apr. 401.

— Local advisory board recommendation for; actions of Housing Expediter, specific areas. 1948—Jan. 17-18.

Increase (percent and amount) in residential units after Decontrol Rent Act of 1949, by rent and income group, 1949, Knoxville, Dallas, Spokane, Salt Lake City, Jacksonville area, Topeka, and Houston area. 1949—Apr. 401-406.

Index. Compared with BLS consumers’ price index (CPI); basic concepts underlying. 1948—Dec. 631-637.

— Methodology of measurement, problems: size and design of sample; survey procedures; editing and calculating procedures. 1949—Jan. 80-86.

Landlord-tenant agreements, voluntary; number of leases filed under by month, all areas, July 1—Dec. 31, 1947. 1948—Jan. 17.

New rental construction, relative importance of, in 34 large cities. 1949—Jan. 63-64.

Propportion of income spent for, nonfarm families, various income groups, 1947; effects of rent control. 1948—Nov. 516.

Residential. Dwellings and proportion affected by increases, selected large cities, June to October 1947; increases, by region and structure type. 1948—Jan. 15-17.

— Indexes (1935-39=100) and percent changes, selected periods, 34 large cities. September 1939 to October 1947. 1948—Jan. 18-19.

Urban and rural nonfarm areas, United States. Median monthly (average), by type of dwelling, April 1940. 1948—Dec. 638.

Rents, foreign countries:

— Australia. Control regulations effective in July 1945. 1945—Nov. 912.

— Belgium. Allowance (gauged by size of family) to part-time workers. 1941—Oct. 899.

— India. Control order of 1939, provisions. 1944—June 1192.

— Netherlands. Laws enacted 1938 to 1941; wartime and postwar controls. 1948—Jan. 70.

— Peru. Copper-mine and industrial workers, 1945, by size of dwelling. 1945—July 54.

— Reparations. Austria. Soviet claim to “German external assets” as payment of; removal of industrial equipment by Russians. 1948—Jan. 21.

— Reporting time pay; Aluminum Co. of America, 1939-1940. 1948—Feb. 381-384.

— Rest, preventive. Chile. Must be granted by employers when recommended by commission. 1941—Feb. 381-384.
Retirement, United States (see also Pensions):

Railroads. See Railroads.

Retirement, foreign countries:

— Registry, during July 1944, by Retirement Institute, of workers for eligibility under newly established contributory plan. 1944—Nov. 964.

Rubber industry (see also Wages and hours):

Labor turn-over, 1939 and 1940. Rates by branch of industry and size of plant. 1941—Apr. 966–989.

Rubber (synthetic) industry:

Labor requirements. By branch of industry and occupational category, 1944. 1945—May 990–999.

— Estimated number, 1944, by department; processes; recruitment and training. 1945—May 837–845.

Production (U. S. and Canada), by quarter, January 1943 to June 1944. 1945—May 999.

Rubber tire and tube industry:

Boots and shoes, and "other." Scope and characteristics and definitions of various branches. 1941—June 1490–1493, 1501, 1503.

Soldiers experienced in industry furloughed to alleviate labor shortage. 1941—Sept. 516.

Rural Electrification Administration (U. S. Government):

Accomplishments, first 5 years, and statistics (Dec. 31, 1941) of cooperatives financed. 1945—Jan. 91–93.

Rural rehabilitation. See Rehabilitation.

Ryan Aeronautical Co.:

Employees granted wage increase by National War Labor Board decision June 18, 1942. 1942—Sept. 450.

Safety, United States (see also Accident prevention):

Industrial, national. President's conferences. See Conventions, meetings, etc.

Programs in industries, 1900–50, affecting physical aspects of job. 1950—July 22.

Scientists, industrial research, provisions, late 1948. 1949—Apr. 373.

Union agreements, 1950, provisions. Types of
INDEX — JANUARY 1941 TO DECEMBER 1950

167

safety clauses; prevalence of joint committees; jurisdiction and pay of committee members and meeting schedule. 1940—Sept. 342–346.

Safety, foreign countries:
Great Britain. Emphasis on, since nationalization of coal mines, and methods to achieve. 1948—Aug. 120.
St. Louis Smelting & Refining Co. Wage increases granted employees by National War Labor Board decision. 1942—June 1345–1346.
Salary control. See Wage control.
Salaries. See Wages and hours.
Saturday, Sunday and holiday work:
Half-holiday, Saturday, suspension during emergency, civil employees of Coast Guard and War Department within United States and in Alaska, Puerto Rico, and Hawaii; Executive orders, July 5 and Aug. 20, 1941. 1941—Aug. 865, 881–882.

Savings:
Birmingham, Indianapolis, and Portland (Oreg.). Average money income, expenditures, and savings, families and single persons, by income class, 1945; comparison with mid-thirties; correction (p. 624). 1948—June 622–626, Nov. 518.
City families and single persons, 1944, as related to income and expenditures. 1946—Jan. 1–5.
Declining rate during 1947, and reasons for.
Declining rate during 1947, and reasons for; most frequent forms. 1948—Sept. 287, Nov. 515–516.
Hawaii (Honolulu). War bond and other, wage-earner and clerical-worker families, by income class, June 1943. 1944—Apr. 714.
Positive, negative, and net. Proportion accounted for by each tenth of the Nation's spending units when ranked by size of income, 1941 and 1945–48, Federal Reserve estimates. 1949—Dec. 628.

Workers' families in 1940, estimate of by National Resources Committee. 1941—July 62–63.
Savings and loan associations. See Cooperation.
Savings-bank life insurance. See Life insurance.
Sawmills. See Lumber industry.
Seamen, United States:
Great Lakes area. Recruitment instructions issued by War Manpower Commission, Apr. 24, 1944, to regional offices. 1944—June 1199.
Hazards of employment, and practices in recovering damages for injuries. 1946—June 851–857.
Welfare committee for, in Port of London, in accordance with ILO recommendation. 1941—Sept. 613.
Seamen, foreign countries:
Japan. Conscription from occupied territories for merchant marine, under program effective April 1944. 1944—May 1002–1003.
Secondary boycotts. See Court decisions, U. S., also National Labor Relations Board—Decisions.
Second-injury funds. See Legislation, U. S., Federal and general, also by States.
Selective Service:
— Purpose and coverage; grounds for exemption; effects on labor-market situation. 1948—July IV.
Classification policies, occupational, amended, first part of 1944. 1944—July 89–92.
— Critical activities and programs, list submitted by Inter-agency Committee on Occupational Deferment, May 24, 1944. 1944—July 90–92.
Selective Service—Continued

Deferred. Men over 30, local boards requested to liberalize deferrals, May 1945, but to review certain cases in age group 18-25, September 1945—July 46.

— Railroad employees, specified occupations on western lines, June 1945—Sept. 49.

Educational and work plans of young men, as affected by, BLS inquiry, fall of 1940. 1941—May 1146-1147.

Extended-service resolution, 1941, authorizing extension of periods of service under 1940 Selective Service Act. 1942—Mar. 697.

Replacement schedules. Fathers to be included, War Manpower Commission instructions, June 15, 1943—Aug. 238-239.

Self-help associations. See Cooperatives.

Seniority:

Collective-agreement provisions. See Collective agreements.

Service establishments, United States:

Types of payment, number of agreements, and employees affected, 27 manufacturing and 7 nonmanufacturing industries, 1948—49. 1949—July 6-7.

Shift operations (see also Shift differentials):

Defense industries. Utilization of system, March 1941 and June 1941, and factors preventing expansion in certain cases. 1941—Aug. 355-365, Nov. 1140-1147.

Shipbuilding industry. Use of, December 1940. 1941—June 1378-1379.

Split. New York State minimum-wage provisions intended to discourage employment of women on, 1941—Sept. 574.

Shipbuilding and repair:

Employees recently hired. See Workers hired, this section. Employment conditions, 1935-43. Statistics, specified periods, by kind of vessel, occupation, and type of yard. 1941—May 948-966.

Health and safety problems, summary of (from address to annual meeting of Industrial Hygiene Foundation). 1944—Jan. 92-94.

Labor force; regions included, scope, and method
Shut-downs, week-end: Shipyards.

Sick leave, United States:

Sick leave, foreign countries:

- Great Britain. Civil-defense volunteers, full time (paid). Full pay, provided by June 1, 1941, regulations, Jan.—Nov. 1208.

- Panama. Labor code of 1941, provisions. 1948—May 1163.

Sickness and accident benefits (see also Sickness insurance):

Sickness and accident benefits—Continued
Nonoccupational State systems. Provisions of
laws, New York (April 1949) and Washington
Union agreements, 1949. Prevalence and costs;
amount of weekly benefits; length of benefit pe­
period; other provisions. 1950—June 686-683.

- General Agreement on Tariffs and Trade; first multilateral agreement on tariffs ever negotiated. 1945—Nov. 482.
Taxes, income, foreign countries:
- Germany. Increase in, for period ending Jan. 1, 1946, as anti-inflation measure. 1946—Jan. 74.
Teachers:
- Elementary and high school. Supply and demand, 1949, and number trained in 1949 compared with estimated peak need. 1950—Feb. 147–149.
- Trends in number of teaching positions, forecasts of school enrollment, and estimated demand. 1950—Feb. 146–147.
Technical Advisory Committee:
Technical notes:
  - New unit bias. Rent index. Definition, data required, calculation procedures, and limitations of estimate of bias. 1945—July 44–49.
- Construction industry. Hours and earnings, revised series, 1948; public and private projects; on-site and off-site workers. 1949—June 666–668.
- Farm employment and farm wage rate statistics, 1948. Estimating methods; comparison of Bureau of Agricultural Economics (BAE) and Census data; BAE interview surveys on farm labor since 1945. 1949—Nov. 549–552.
- Productivity. Unit man-hour requirements; limitations of measures; methods; sources; and calculation procedures of industry indexes and reports. 1950—Feb. 159–176.
  - See also: Consumers' Price Index, this section.
- Union scales; (baking, building construction, local transit, local trucking, and printing). Definition, use, origin, limitations, survey methods and sources, and calculation procedures. 1949—Nov. 545–548.
  - Sampling procedures, collection of information, compilation of data, weighting, and calculation of sampling error. 1950—Apr. 412–420.
Technical notes—Continued
Technical notes, South America. Consumers’ price index, six cities, all items and food; methods of collecting data and computation; economic classes represented. 1949—May 548-551.
Technological changes:
Hosiery (full fashioned). Extent of, and possible labor displacement. 1941—Oct. 829-837.
Union cooperation in introduction of; selected contract clauses (text). 1948—Nov. 488-490.
Labor dispute settlements between Communications Workers of America (CIO) and associated Bell System companies, June 1950. 1950—July 128.
Television. See Radio and phonograph industry.
Tenant farmers, foreign countries:
Italy. Share of crop due to tenant, and lease tenure. Decrees of October 1944 and April 1945, provisions. 1945—Nov. 923-924.
Textile industries:
Earnings. See Wages and hours.
Employment in, as affected by war conditions (Clem). 1945—Sept. 446-458.
—— Rate increased to 37.5 cents, effective June 30, 1941. 1941—July 170-171.
Wage incentives, use of, April 1948. 1948—Sept. 267.
Textile industries, foreign countries:
Brazil. Plants mobilized to meet war needs. Provisions concerning labor contracts, hours, and working conditions. 1944—Oct. 752-753.
Chile (Concepción Province). Labor relations and production, 1944, 1945—Dec. 1256.
Dominican Republic. “School workshops” established by Government for training of skilled workers. 1944—Dec. 1238.
Textiles:
Costs, increases, since outbreak of European War, and effect of cost increase upon quality (Brown). 1941—Feb. 286-291.
Therapists, occupational. Demand for in Army and Navy; training courses, and qualifications required. 1944—768-769.
Tips. Inclusion as part of wages prohibited by California minimum-wage law; State Supreme Court decision. 1943—Sept. 555-556.
Tobacco industry (see also Wages and hours):
Trade, wholesale and retail, United States: Employment. See Employment statistics.
Fair Labor Standards Act does not cover if 75 percent of dollar sales value is at retail (Interpretation by Wage and Hour Division effective July 1, 1941). 1941—Sept. 716.
Median annual wages, four-quarter workers under old-age and survivors insurance, by industry group and sex, 1944-47 (table). 1950—June 610.
Trade, international:
Factors contributing to maintenance and growth of. 1948—Nov. 477.
Stabilization measures recommended to foster full employment; report to United Nations, December 1949. 1950—Apr. 379-381.
Trade unions. See Labor organizations.
Training, United States (see also Apprenticeship and Workers' education):
- Molders. Qualifications required and types of instruction provided. 1946—Apr. 577-578.
- Older workers. Wartime apprenticeship and university courses, success of. 1944—July 33-34.

    - TNT (trinitrotoluene). See Explosives industry.
    - Trucking industry, United States:
      - Wage rates. See Wages and hours.

Unemployment, United States:

February 1943 to April 1947, monthly by sex and class of employment. See article Labor Force each issue April 1943—June 1947.

Rural-urban differences, age and sex differences, and percent of workers unemployed, by sex and size of place, April 1940 and specified months in 1941 (WPA report). 1941—Oct. 893-899.

Total, employment, and unemployment, 1930-50 (chart); January 1948-April 1950—May 1101-1106.

Compensation. See Unemployment compensation or insurance.

Composition of jobless group, changes from April 1940 to August 1943. 1943—Oct. 700-703.
Duration of, by percent of total unemployed, 1940 and 1945 (chart). 1950—May 488.

Jobless workers, number of, by class, each month April 1940 to August 1943. 1943—Oct. 702.

Males, aged 20-34 years, rates, by veteran status, selected months, 1946-48, and for workers, by occupational group, 1948 (tables). 1950—May 494.

Reconversion plans to mitigate (Report of Director of War Mobilization to President, Sept. 9, 1944, summarized). 1944—Nov. 965-967.

Reconversion and demobilization, problems connected with. 1944—Sept. 494-495.

Prospective trends, April 1950, factors in. 1950—June 628-629.

Rates, by industry, compared with employment changes, 1948 (table). 1950—May 452.

Relief recipients, Indiana (Marion County). Employability status, May 1940, and related factors. 1941—June 1397-1401.

Sources of and characteristics of the unemployed, 1946-48. 1950—May 489-494.

Veterans. Conditions, March 1946, according to sample number interviewed. 1946—Nov. 713-716.

VJ-day to August 1946. Conditions summarized. 1946—Nov. 670-673.

White and nonwhite population. Indications of 1940 census. 1941—May 1181-1184.

Unemployment, foreign countries:
Argentina. Summary of conditions in 1940. 1941—May 1123-1125.

Summary of conditions since 1934; official measures subsequent to German invasion in 1940. 1944—Feb. 283-285.

INDEX — JANUARY 1941 TO DECEMBER 1950

Denmark. Depression conditions in 1930’s and relief measures taken by Government. 1944—Nov. 949.

------- Measures adopted since armistice with Germany (1940), including prohibition of multiple employment and of overtime; restrictions on employment of women; relief work; housing; placement; and assistance. 1941—May 1184-1186.

------- Relief. Summary of provisions prior to and since beginning of World War II. 1944—Oct. 726.

------- Totals, 1935 and 1939, and maximum in 1930’s. 1946—Feb. 189.

------- Decrease from August 1939 to April 1943. 1944—July 20.

------- Evacuated workers without employment required to register by Sept. 18, 1940, order. 1941—Jan. 101.

------- Registrations, by year, 1928-43. 1943—Apr. 866; 1944—Apr. 742.

Hungary. Depression conditions and governmental measures to remedy. 1945—June 1073.

------- Lay-offs following close of World War II, problem created by. 1945—Sept. 368.

------- Italy. Registered unemployed; by year 1922-35 and by industrial group (selected periods) 1946-47. 1943—Nov. 918; 1947—Sept. 337.

------- Trend, by year, 1929-41; Government measures during and after depression. 1944—Jan. 36-38.

------- Totals, 1935 and 1939, and maximum in 1930’s. 1946—Feb. 189.

Poland. Conditions, and Government measures to alleviate, prior to World War II. 1944—July 67-68.

------- Totals, 1935 and 1939, and maximum in 1930’s. 1946—Feb. 189.

Spain. Total, February 1944, by industry, sex, and age group. 1944—Dec. 1165-1166.

Sweden. Number without work reported by labor organizations Nov. 30, 1942. 1943—Apr. 826.

------- Trade-unionists, May and June 1942 and 1943; number and percent, specified periods, 1935-45. 1944—Jan. 10.

------- Number without work and number placed by employment agencies, August 1942, compared with previous periods. 1943—Apr. 826.

------- Emergency situation, 1942, and law granting power to change working standards. 1942—Oct. 741-742.

Yugoslavia. Increase in, from 1929 to 1940. 1943—Nov. 895.

Unemployment compensation, or insurance, United States:

------- Administration by agencies separate from labor departments in certain States. 1946—Oct. 536.

------- Aircraft wartime workers. Percent who received benefits to June 1946, by duration of benefit period. 1946—Nov. 708.

Unemployment compensation, or insurance, U. S.—Continued
Increase in number of claims, in autumn of 1945. 1946—Mar. 388-389.
Operations, first half of 1942; 1948; and 1949 compared with 1939. 1948—Sept. 478-479; 1950—Jan. 11, June 643.
President's recommendations for increased benefits, Apr. 6, 1950. 1950—May III.
Program established by the Social Security Act of 1935 constitutional, U. S. Supreme Court, 1937. 1950—July 33.
State programs, Continuance of systems under State operation with cooperation of Federally operated employment agencies, 1942—Feb. 451.
—— Use, source and derivation of data, comparability with Census estimates, and limitations. 1950—Apr. 382-383.
Wisconsin, Legislative provisions and connection with employment stabilization. 1941—Apr. 890-895.
Unemployment insurance, foreign countries:
General. Programs in 1949 compared with 1939. 1950—June 643.
—— System under law effective July 1, 1941; wartime extension by law of Jan. 7, 1942; provisions. 1941—Sept. 641-643; 1945—July 45-46.
Chile. Coverage, contributions, and benefits, as provided by Jan. 12, 1943, decree. 1945—Dec. 1174.
—— Temporary officers in armed forces (and certain others) given coverage under Dec. 15, 1942, regulations. 1943—Apr. 693.
Unfair labor practices, United States:
National Labor Relations Board. Procedure in handling cases. 1944—June 1208-1209.

Wage chronologies, U. S.—Continued

Wage claims:
State legislation. See Legislation, U. S. by States, for specified State.
Wage collection:
Wage control, United States:
Adjustments, classes of, which may be approved or directed by National War Labor Board irrespective of paragraph 2 of Executive order 9528 (Office of Economic Stabilization directives Mar. 8 and Apr. 24, 1945). 1945—June 1211.
Agriculture. Jurisdiction over rates less than $5,000 per annum given to War Food Administrator Dec. 9, 1943, by Director of Economic Stabilization. 1944—Feb. 321.
— Wartime farm wage stabilization program; and determination of prevailing rates for foreign and interstate workers. 1946—Aug. 200–203.
— Placed on “fringe” adjustments (shift differentials, reclassifications, job evaluations, merit and automatic progression plans, and vacations), Mar. 8, 1945. 1945—April 797.
Exemption from requirements, small employers (8 employees or less). 1943—Jan. 149, 152.
Increases, without obtaining approval, to point not to exceed 50 cents an hour, permitted by National War Labor Board May 1944 ruling. 1945—July 45.
Internal Revenue, Commissioner of. Regulations issued under powers given by Director of Economic Stabilization. 1942—Jan. 149–152.
— Increases above, forbidden by Executive order Apr. 8, 1943. 1943—May 876.
Lumber industry. West Coast Lumber Commission given authority (by National War Labor Board) to establish criteria. 1944—June 1977.
— Summer shortening of workweek without change in pay authorized by May 1946 order. 1946—June 946.
Small employers (8 or less employees) exempted from requirements. 1943—Jan. 149, 152.
— Amendment, 1944, specifying class of wage disputes to be settled under procedures of Railway Labor Act. 1945—Jan. 119.
— Use of, to prevent inflation. 1946—Apr. 537–538.
— State and municipal employees. Adjustment in relation to cost of living, summary of program. 1913—Nov. 885–894.
— Wartime. Effectiveness of, under Stabilization Act
INDEX — JANUARY 1941 TO DECEMBER 1950

185

of October 1942; major factors in changes made, and method of measuring changes. 1944—Oct. 684-691.

— Pre-stabilization period (January 1941 to October 1942) and under stabilization measures (October 1942 to April 1945). Comparative summary of changes in earnings and rates. 1945—Sept. 521.

Wages and salaries. Regulations issued by Director of Economic Stabilization. 1942—Dec. 1142—1144.

Wage control, foreign countries:

— Subsidies. Use of, announced by Prime Minister, July 20, 1943. 1944—Feb. 400.

— Nazi Labor Trustees, powers to control wages, and reasons for failure; policy following liberation. June 1946 agreement, August 1947 stabilization program. 1948—Jan. 34.

— Stabilization program. See Wartime policies, foreign countries—Canada.

New Zealand. Court of Arbitration empowered (June 16, 1944) to deal with certain wage-stabilization applications. 1944—Nov. 970.

— Freeze of rates at levels prevailing Nov. 15, 1942. Legal provisions summarized. 1945—Aug. 251—252.

Wage deductions, United States:

— busineses by hotels and restaurants. Limitations imposed by minimum-wage orders. 1941—Sept. 574—575.

Redcaps. For uniforms, insurance, etc. 1942—June 1389.

— Wages deductions, foreign countries:

Germany. Simplification, by Government order of July 1, 1941. 1941—Nov. 1288—1289.

Wage differentials:

— By occupation, and their importance in industry. BLS analysis of changes since 1907. 1948—Aug. 127—134.

Collective-agreement provisions, summary. 1941—Nov. 1127—1129.

Intercity and interindustry differences. See Wages and hours—Intercity differences.

Wage-incentive systems, United States:

Collective-agreement provisions, summary. 1941—Nov. 1131—1134.

Definition; prevalence; reasons for worker opposition; effects on efficiency, employment, and union participation; collective-bargaining controls, union participation, and adjustments of grievances. 1948—July 1—14.

Effects of, on earnings, comparison with time workers (study of 3 industries). 1945—May 849—857.

Extent and type of plants, plant workers, manufacturing and nonmanufacturing industry groups, 1945—6; 1947—Nov. 536, 537.

Machinery industries. Effects of, on hourly earnings, by occupation and sex, and on interplant wage differences; analysis. 1943—May 851—854; 1947—May 319.

Nonferrous metals. Effect on hourly earnings, by occupation and sex. 1943—May 856—857.

Sawnmills in South. Results of use. 1947—June 1032.

Steel industry (U. S. Steel and subsidiaries). Principles for, as laid down in April 1947 contract; provisions for in review of. 1947—June 973—977.

ings and weekly hours, January 1939 to De-
cember 1944, by month. 1945—May 1108-1111.
--- Hourly rates, November 1942, by occupation
and region, and shift differentials; hourly and
weekly rates and weekly hours, 1941-42, by
region. 1943—July 165-167.
Aircraft—propeller industry. Hourly rates by sex,
shift, occupation, and region, October 1942;
trend, 1941 and 1942. 1943—Apr. 751-757.
Airframe industry. California. Hourly rates, De-
cember 1941, by length of training period, shift,
and occupation, and percentages receiving speci-
ified basic wage rates. 1942—Mar. 574-584.
--- Rates, by grade and occupation, based on
order of National War Labor Board, Mar. 3,
1943. 1943—June 1188-1198.
Airframe industry. Eastern States. Recent history
of rates and factors affecting; hourly rates, April 1942, by length of training period,
--- Hourly earnings by occupation, length of train-
ing, and grade. Midcontinent, Buffalo, and
East Coast, 1942; California, 1941. 1942—Aug.
296, Oct. 782-784.
--- Hourly wage rates, May-June 1949, by oc-
cupation, grade, and region, and related wage
--- Metal. Hourly earnings, 1943, by occupation,
region, and sex; weekly hours; comparison of
1943 and 1942 rates, selected occupations. 1944—
May 1050-1068.
--- Michigan and Buffalo, N. Y. Hourly earn-
ings, May 1942, by occupation, length of training,
and (Buffalo) grade. 1942—Aug. 289-297.
--- Midcontinent. Hourly earnings, June 1942,
by occupation and length of training period.
Aluminum industry. Night-work and shift dif-
ferentials, under union agreements, January
Aluminum—products industry. Hourly earnings,
American Woolen Co. 1939-48, based on agree-
ments with Textile Workers Union of America
(CIO) and directive orders of National War
Ammonition—loading industry. Hourly earnings,
June 1944, shell and bomb, and bag loading
plants, by occupation. 1945—Apr. 844-851.
Annual earnings per full-time employee, 1929—
48, by industry. 1947—Sept. 329.
Annual salaries and wages. Employees covered by
State Unemployment Compensation laws, and
per capita income payments, 1939 and 1943, by
States, 1944—Nov. 1049-1053.
--- Nonagricultural industries, 1939, 1941, and
1945, by industry. 1944—Julv 148-150.
--- Total, recent years. 1939 (Census of 1940,
Army and Navy Women's Corps. WACS, mon-
thly rates, by rank, WAVES, annual and monthly
Automobile industry. General Motors Corp. and
United Automobile Workers (CIO) agreement
based on changes in BLS consumers' price index
and containing "annual improvement factor." An-
--- Increases in, August-September 1946. 1950—
Sept. 111-IV.
--- Night-work and shift differentials under union
agreements, January 1945. 1945—July
135-136, 139.
Automobile mechanics and repairmen. Hourly
earnings, by area, March to October 1945;
weekly hours, 1944. 1946—Feb. 225.
Automobile repair shops. Straight-time hourly
earnings, men, selected occupations, July 1947
and July 1948; supplementary wage practices.
--- Wage structure, including hourly rates for
selected occupations, by region and by wage
area, July 1946, and weekly hours. 1947—May
824-828.
Aviation. Flight personnel and fixed base opera-
tors, by occupation, (including those of Civil
Aeronautics Administration). 1946—Aug. 180-
194.
Baking industry. Indexes, union hourly rates,
weekly hours, annually, June 1, 1939—July 1,
1947. 1948—May 521; 1949—Feb. 192; 1950—
Jan. 34.
--- Union scales. Changes, 1936 to 1941; weekly
hours, overtime rates, and average rates, June
1940 and 1941. 1941—Jan. 194-201; 1945—
Jan. 174-183.
--- Definition, use, origin, limitations, study
methods, sources, and computation procedures.
1950—Nov. 545-548.
--- July 1, 1947-49, and increases over July
1, previous year, union workers, by type of
baking. 1948—May 522; 1949—Feb. 192-194;
--- June 1, 1942-45, by type of baking,
occupation, and city, and weekly hours. 1943—
--- Trend in rates (indexes) 1936-46; average
rates, July 1, 1946, by city, weekly hours, and premium rates. 1947—Mar. 444-452.
Bank employees. Hourly earnings, spring and
summer 1943, by type of work and sex; tellers,
by region, size of city, and sex. 1944—Apr. 817-
821.
Beauty-service industry (New York). 1936, 1939
to 1943. Weekly rates and hours, May 1941—
Beauty shops (Maine). Weekly earnings, 1940.
1941—Mar. 612.
Bituminous-coal mining. See Mining, this section.
Bomber plant (Willow Run, Ypsilanti, Mich.).
Annual wage incomes of workers, by sex, 1943
and 1944; hourly rates and weekly earnings,
Bonus payments (nonproductive); effects of, on
Building trades. Changes, 1914 to 1919 and 1939
to 1944, in union hourly rates. 1945—Oct. 616-
617.
Wages and hours, U. S.—Continued

Pacific Coast. Rate increases, by trade, from June 1, 1941, to Feb. 15, 1947. 1947-Apr. 619-620.

Relationships between union wage scales, journeymen and laborers and helpers, 1907-47. 1947-Aug. 130-132.

Union hourly rates, July 1945, by skill, size of city, and region. 1946-Oct. 520.

Union rates, June 1, 1941, by occupation, size of city, and region; overtime and Sunday rates, and weekly hours, by occupation, June 1, 1941; indexes, by year and occupation, 1907 to 1941.

Rate changes, specified trades, 1937-41, by year. 1941-Nov. 1242-1273.

Bus and streetcar operators. See Streetcar and bus operators, this section.

Candy and other confectionery. Straight-time hourly earnings, selected occupations, by region, January 1947; supplementary wage practices. 1948-Apr. 385-397.

Canners. Fruit and vegetable, hourly earnings. By occupation and region. 1945-Jan. 134-139.

Migrant workers, Delaware, average weekly rates. 1941-Aug. 409.

Fruit and vegetable processing. Percentage distribution of all plant workers, by average hourly earnings, selected States, 1948 peak season. 1949—July 20-22.

Seaweed processing. Percentage distribution of all plant workers by average hourly earnings, selected States, 1948 peak season. 1949—July 22.

Carbon-products manufacture for electrical industry. Hourly earnings, by occupation and size of plant, July-September 1942; and trend 1939 to 1942. 1943-Feb. 332-335.

Case-goods furniture industry. Hourly and weekly earnings and weekly hours, by area, selected periods, 1940-42, hourly earnings, by occupation and area, March-April 1942. 1942—July 126-128.

Ceramic engineers. Median base monthly salary, median annual income, Members Institute Ceramic Engineers, by years of experience, specified years, 1939-47, 1948—Oct. 381.

Night-work and shift differentials under union agreements, January 1943. 1945—July 133-136, 139-140.

Chemical Society members. Trend of salary rates, 1926-41, and amounts earned in relation to experience and sex. 1943—Apr. 776-780.

Chemistry and chemical engineering. Median annual income and median base monthly salary rates, 1943, according to length of service. 1946—June 885-894.

Women's occupations, selected occupations in unit-priced establishments (4 cities), August 1947, by wholesale price range per garment. 1948—May 520.

Women's blouse and waist industry. Straight-time hourly earnings; selected areas and occupations, January 1947, by sex; supplementary wage practices. 1947—Sept. 314-316.

Coal mining. See Mining—Anthracite, and Bituminous, this section.

Steel industry. Rate differentials introduced.
INDEX — JANUARY 1941 TO DECEMBER 1950

189

under inequities program. 1947—June 980.

Community approach to wage studies; pilot studies in 6 cities. 1945—Oct. 386-387.

Women workers. Increase in earnings under minimum-wage law, to November 1942. 1942—July 144-145.

Site workers, ratio of wages to total construction cost, selected housing projects, 1941-47.

Construction machinery. Hourly earnings and weekly hours, selected periods, 1939-42, and by occupation, February-April 1942. 1942—July 119-123.

Construction, public and private. 1948, on-site and off-site workers. 1949—June 666-668.

Cordage and twine industry. Cotton-fiber, soft-fibers other than cotton, and hard-fiber divisions. Hourly and weekly earnings, and weekly hours, September 1940, by sex, skill, and occupations. 1941—Oct. 995-1011.

—October 1942, compared with previous year. 1943—Feb. 355-356.

Cotton-duck manufacture. Weekly and hourly earnings and weekly hours, January 1942 to December 1944, certain areas. 1945—Aug. 226-234.

Men's garments. Hourly rates, by industry, region, occupation, and sex, March 1941, and changes since February-March 1939. 1942—Aug. 335-351.

Northern and southern mills. Hourly and weekly earnings and weekly hours, by month and year, 1939-44; hourly earnings, (18) areas, April 1943 and 1944, and by occupation and wage area, spring and summer of 1943. 1944—Oct. 823-835.

Cotton picking. Piece rates, 1939 and 1945, principal cotton-producing States; increase compared with increase in composite farm rates. 1946—July 41-43.

Rates per 100 pounds, 1929 and 1936-40, by State and by year. 1941—Feb. 451-452.

Cotton-textile industry. Hourly earnings. April-May 1946, percentage distribution of plant workers, selected regions, by type of mill, by size of establishment, and by unionization; hours of work; and shift operation; June 1946—Mar. 454-460.

September 1940, by skill, sex, region, type of mill, and occupation; weekly hours and earnings, by sex and region, 1941—Dec. 1499-1513.

Southern and northern mills. Incentive and time workers, hourly earnings, September 1940, by occupation and sex. 1945—May 855-856.

Straight-time hourly earnings, selected occupations, April 1948 and 1949, by selected areas. 1948—Sept. 267-268; 1949—Sept. 266.

Culinary workers, public housekeeping (Calif.). Summary of rates, 1942. 1943—May 917-918.

Department and women's ready-to-wear stores. Weekly earnings, April 1948, selected occupations, 16 cities; supplementary wage practices. 1948—Nov. 424-427.

Differentials, wage, by occupation, and their importance in industry. BLS analysis of changes since 1907. 1946—Aug. 127-134.

Weekly and annual earnings, 1940. 1942—Feb. 346-351.
Wages and hours, U. S.—Continued

Durable-goods manufacture. Hourly and weekly earnings and weekly hours, specified years, 1922–37, and by month, January 1938 to November 1941. 1942—Feb. 292.

Dyeing and finishing textiles. Hourly and weekly rates and weekly hours, September 1940, by occupation, region, and sex. 1941—Sept. 729–740.

Dyeing and finishing textiles. Wage structure, July 1946. Straight-time hourly earnings, selected occupations, by type of product, and percentage distribution of workers, United States and selected regions; shift differentials; supplementary wage practices. 1947—June 1034–1037.

Electrical-appliances manufacturing. Average rates paid day workers, July 1942, by occupation, skill, and size of plant; shift differentials; trend of hours and earnings, August 1939 to July 1942. 1942—Mar. 528–533.

Elevator operators. In office buildings, stores, etc., 1942. (San Francisco, Oakland, Los Angeles.) 1943—May 918–921.

Enamel-wares industry. Hourly and weekly earnings and weekly hours, August 1940, by occupation, sex, and skill. 1941—Mar. 694–711.

Factory workers. By hourly earnings, summer 1945 and October 1946; percent earning less than specified rates, October 1946, by industry. 1947—July 47–49.

Factory workers. Relative levels, estimated straight-time hourly earnings, October 1946, compared with total cost city workers' family budgets, March 1946, 22 large cities. 1946—June 603–604.

Factory workers. Wage earners receiving less than 65 cents hourly, summer of 1945, by industry, 1945—Sept. 529–530.

Farm workers. See Agriculture, this section.

Federal employees. By location and class of work, October 1942, and comparison (selected groups) with December 1938. 1943—Sept. 566–577.

Federal employees. General survey; Dec. 31, 1938, by occupational groups, age, sex, and salary. 1941—Jan. 66–85.

Federal employees. Pay Act of 1945, and percent of increase; changes under new 40-hour week plan, compared with wartime 48-hour week. 1948—Mar. 375–376.

Civilian and military services, by types of work performed, December 1939 and December 1940, 1941—June 1946—1947.

Weekly take-home pay, 1941 and 1944, compared with that of wage earners in selected private industries, 1946—Mar. 377-378.

Mechanical and positioning methods. Methods of determining rates due, 1944—Nov. 1063-1069.

Overtime pay. Granted by temporary measure, December 1942; and 10-percent increase to employees not earning overtime. 1943—Feb. 263-268.

Payrolls. See Payrolls.

Wage board; changes in rates, Navy Department, March 1946; War Department, April 1946. 1945—July 15.

Fertilizer industry. Hourly rates, by month, January 1939 to April 1943; hourly and weekly rates and weekly hours, by plants, region, occupation, and race. 1943—Aug. 339-348.

Straight-time hourly earnings, March 1948, laborers, by type of plant and size of community; selected occupational groups, by region; supplementary wage practices. 1948—May 502-506.

Fire department employees. Salaries and weekly hours, July 1, 1938, by size of city and region. 1941—July 172-186.

Firemen. Indexes, salary rates and hours, 1924-49; distribution in 91 cities, 1945-49, by increase in salary rate. 1950—June 633-634.

Fishermen; Boston Fish Pier Fleet. Annual earnings, 1948, by occupation and length of workyear; employment. 1949—Nov. 504-506.

Method of determining earnings. 1949—Nov. 503-504.

Fluorspar mines and mills. Wage stabilization measures, 1943, summarized; hourly earnings, September 1948, by occupation and location. 1944—Mar. 588-593.

Food canning and preserving. See Canning and preserving, this section.

Furniture industry. All branches combined. Estimated hourly earnings, February 1941, by region, excluding office workers. 1941—Sept. 750-758.

Household (wood). Hourly earnings, February 1941, by type of product, skill, sex, region, and union status. 1947—Sept. 741-753. (Correction, 2 details. 1942—Jan. 22.)

Glove industry, Factory and home workers. Hourly and weekly earnings and weekly hours, July 1941, by kind of product, occupation, sex, and region. 1942—Mar. 722-726.

Government employees. Federal classified positions. See Federal Employes, this section.

State. Salary adjustments, January 1941 to January 1944. 1944—May 1044-1045.

Wages and hours, U. S.—Continued
Government contract work, wage rates, 36 industries, adjusted to FLSA minimum wage, Janu­ary 1950, by order of Secretary of Labor under the Public Contracts (Walsh-Healey) Act. 1950—Mar. 283.

Guaranteed wage plans. See Guaranteed wages.
Hawaii. Average wage rates, comparative, by racial group. 1948—June 612.
Home work. New York State. Wartime earnings and hours summarized. 1945—May 1010–1011.
Hosiery industry. Full fashioned and seamless. Hourly and weekly average rates and weekly hours, April 1941 to December 1942, by area and month. 1948—Mar. 435–439.
—— Straight-time hourly earnings, selected occu­pations, June 1947 (31 large cities) and July 1948 (16 large cities); supplementary wage practices. 1947—Oct. 450; 1948—Jan. 50–57.
Housing projects, selected, 1931–47; earnings of site-workers. 1949—May 517.
Incentive earnings, 1945–46, compared with earn­ings of time workers, selected industries. 1947—Nov. 538.
Increases. December 1947, industries involved; industries in which negotiations being carried on; later negotiations. 1948—Jan. 2.
—— Effects of various types of wage changes on percentage and cents-per-hour differences be­tween skilled and unskilled occupations. 1948—Aug. 133–134.
Industrial chemical industry. See Chemical indus­try, industrial, this section.
Inter-area wage comparisons, uses; flexibility, utility, and economy of community wage sur­veys. 1949—Oct. 369–370.
Iron and steel industry. See Steel industry, this section.
Lamp (portable) and lamp—shade industries. Hourly rates and weekly hours and earnings, February and March 1940. 1947—Jan. 175–183.
—— — Women workers, weekly rates and hours, since minimum—wage order. 1943—June 1121.
Laundry and dry-cleaning plants (Maine). Women's hourly and weekly earnings, 1940, compared with those of men. 1941—Mar. 612-615.

Laundry—equipment (domestic) manufacture. Rates paid day-shift workers, July—August 1948, by occupation, skill, and size of plant, and shift differentials; trend of hours and earnings, 1939-42. 1943—Mar. 537-541.

— Professional and other employees. Annual salaries, 1949, by size of library system and region; related wage practices; and workers' opinions. 1949—Nov. 529-531.

Local transit operating employees. See Transit industry, local, this section.

Los Angeles. Straight-time hourly earnings by industry, specified months in 1945 or 1946; percent change in selected industries between specified periods, 1943-46; increases, VJ-day to February 1947, in building trades, local transit, and trucking. 1947—Apr. 610-611, 613-620, 626.

— Far West. Hourly earnings, by occupation, region, and division of industry, August 1944; trend of weekly hours and hourly earnings by quarter, 1939-44, and changes, by occupation. 1945—July 25-36.

— See also Sawmills, this section.

— Weekly and hourly earnings, 1947-50, and weekly hours. 1950—June 645.

— Union and nonunion plants. Incentive and time workers, hourly earnings, by occupation, 1942. 1943—May 581-584.

Maid's, hotel (Calif.). Summary of rates. 1943—May 915-916.

Maine. Women workers in service and trade, annual earnings, 1939; weekly and hourly earnings compared with those of men. 1941—Mar. 612-616.

Manufacturing. Average weekly earnings, June 1931 to December 1923, and indexes. 1941—Nov. 1129-1123.

— Factory earnings and rates, 1939-43, changes in and factors causing; analysis and summary. Average money earnings, specified months, January 1939 to September 1943. 1943—Nov. 869-884, Dec. 1205-1206.

Manufacturing. Distribution of 134 industries and corresponding employment according to increase in industry average hourly earnings, October 1947 to October 1948 (table). 1949—Feb. 162-163.

— Hours, October—November 1940, by industry. 1941—Apr. 981-987.

— Median annual wages, four-quarter workers under old-age and survivors insurance, by industry group and sex, 1944-47 (table). 1950—June 610.

Wages and hours, U. S.—Continued

Hours and gross earnings, selected States and areas, monthly, October 1947—September 1950. See Current labor statistics, table C-2, each issue January—September 1949, and table C-5, October—December 1949, February, May, August, and November 1950 issues.

Weekly payrolls. See Payrolls—Indexes.

Rate structure, formal vs. individual determination, single rates vs. rate ranges, 1945-46. BLS wage study, 56 industries employing almost half manufacturing workers in country. 1945—Mar. 223-236.

Regional differentials, long-range movement of; methods employed in BLS study. 1945—Apr. 372-373.

Relationships between earnings, skilled, semi-skilled, and unskilled occupations, 1945-47; skilled and unskilled occupations, selected periods, 1907 to 1947, by region. 1945—Aug. 128-130.

Wage rates, groups of related industries, indexes, war and postwar periods. 1945—Feb. 163.

Wage rates, hourly and weekly earnings, and consumers' price index, percentage change, war and postwar periods. 1945—Feb. 163.

Weekly earnings, by month, and indexes, (1914 = 100). January 1914 to December 1923; hourly earnings, 1915 to 1924, specified industries. 1945—Nov. 864-867.

World War periods, 1914 to 1919 and 1939 to 1944. Changes in weekly and hourly earnings in weeks of tension, monthly, October 1942, selected industries. 1945—May 614-616, 621.

Regional indexes, specified months, 1945 to 1948, annual averages, 1939 dollars, 1947, 1949, each issue.

Urban areas; trends, wartime peak or VJ-day levels to September 1947; real value of increases, 1945—Jan. 45-50.

Mechanics and repairmen, automobile. Hourly earnings, by area, March to October 1943; weekly hours, 1944. 1945—Feb. 225.

Metal—furniture industry. Wage structure, January 1947. Straight-time hourly earnings, selected occupations, United States and selected regions; supplementary wage practices. 1945—Oct. 446-449.

Metalworking plants. Molders, shake-out men, knock-out men, helpers, hourly rates, October 1942, daily and weekly hours. 1944—June 1187-1138, 1139-1144.
INDEX—JANUARY 1941 TO DECEMBER 1950

195

Methods of calculating used in BLS series. See Technical notes.
— Anthracite and bituminous coal. Changes from 1914 to 1919 and from 1939 to 1944 in weekly and hourly earnings in and in weekly hours. 1945—Oct. 614-615, 621.
— Contract approved April 1945; provision. 1945—June 1209-1210.
— Daily and hourly rates provided for by Appalachian agreement June 19, 1941; equalization of day rates. 1947—Aug. 310-312, 379-381.
— Hocking Valley district. Union rates per day, 1908-24, specified periods. 1945—Nov. 869-870.
— Wage structure, fall of 1945. Summary, including explanation of terms. 1946—Apr. 550-559.
— Median annual wages, four-quarter workers under old-age and survivors insurance, by industry group and sex, 1944-47 (table). 1950—June 610.
— Nonferrous metals. See Nonferrous metals, this section.
Mining machinery and equipment industry. Average hourly earnings and weekly hours, selected periods, August 1939 to February-March 1945, and by occupation, February-March 1942—February-March 1945.
— Molders (bench, floor, and machine), in independent foundries, January 1945, 9 cities. 1946—Apr. 583.
— Automotive parts division. Hourly and weekly earnings and weekly hours, May-June 1940, by region and product. 1945—Mar. 737-752.
— Hourly rates, May-June 1940, by geographic division. 1942—Mar. 752-754.
— Increases, 1941-42, summary of amounts granted; and descriptions of plans in St. Paul, San Diego, Columbus, Niagara Falls. 1942—Apr. 1017-1019.
Neckwear industry. Hourly earnings, March 1950, selected occupations, United States and specified regions; and factors contributing to wide differences in average rates. 1945—Sept. 358-359.
— San Francisco Bay area. Median household income, 1948, and source. 1950—June 617.
— Tobacco (leaf) industry (Va. and N. C.). Hourly and weekly earnings and weekly hours, 1935 and 1940. 1941—July 220-221.
— Women workers. December 1943; skilled, highest hourly rates, by occupation; unskilled, rates compared with rates paid men. 1945—June 1245-1247.
Wages and hours, U. S.—Continued
Nonferrous metals. Fabrication. Incentive and time workers, hourly and weekly earnings and weekly hours, August 1941, by occupation, and region. 1942—Aug. 314-334; 1943—May 856-857.

Mining. Hourly rates and weekly earnings, spring 1945; annual incomes, 1943 and 1944; changes in earnings and hours, specified periods. 1947—May 775-776, 779.

Mining and milling. Straight-time hourly earnings, August 1941 and June 1943, by metal, occupation, region, and skill; regional variations. 1942—June 1374-1396; 1943—Nov. 976-984.

Smelting and refining. Hourly earnings, June 1943; copper, zinc, and lead smelting; electrolytic, copper, and zinc refining; secondary smelting, by occupation and region. 1943—Dec. 1206-1218.

Method of payment and hourly and weekly earnings, August 1941, by kind of metal, region, and occupation. 1942—July 135-147.

Indexes, 17 industry classifications, war and postwar periods. 1949—Feb. 164.

Urban areas. Percent changes and changes in real value of rates, selected industries, April 1943 to April 1947, by selected area. 1945—Jan. 48-50.

Nurses. Hospital staff. Median annual rates and proportion of maintenance included, October 1949, by States. 1945—May 986-988.

Medicare scales, 1944, with increases in minima and maxima in 1942-44 period. 1945—Sept. 532-533.

Monthly hours and earnings, and actual hours worked, October 1946; by category and region. 1947—July 22, 25.

Private duty and staff. Comparison of hours and hourly rates of two groups, October 1946; variations, by region and city. 1947—Nov. 546-548.

Public health. Median salaries, by type and size of agency employing. 1943—Apr. 780-781.

Salary levels, working schedules, supplementary wage practices, October 1946. 1947—Sept. 302-303.

Oakland. See San Francisco and Oakland, this section.

Midwestern cities (5); weekly selected occupations, January—May 1949, by sex. 1949—Sept. 255-257.
INDEX—JANUARY 1941 TO DECEMBER 1950

--- New York City. Average salaries and average weekly scheduled hours of work, January–February 1948 and October 1944, selected occupations in selected industry groups; supplementary wage practices. 1944—June 1283; 1948—July 26-29.

--- Salaries and weekly hours, February 1949 and 1950, selected occupations, by sex and industry division. 1949—Aug. 144-147; 1950—Aug. 234-238.

--- New York State. Weekly earnings, by class of worker and manufacturing industry, October 1944; women workers, non supervisory; October 1944 and 1943. 1944—June 1283-1284.

--- Weekly salaries, scheduled occupations, compared with men's. 1942—May 513.

--- Clerk–typists and general stenographers, 17 large cities, weekly salaries, by industry division, January–May 1949; related wage practices. 1949—Nov. 523-528.

--- Median and average wages; indexes of workers covered, 1939-48, by sex, age, and industry group. 1950—June 607-611.

--- Weekly hours and rates, and shifts worked, 1918. 1943—Dec. 1076-1078.

--- Oregon. Average hourly earnings, August to October 1940, selected industries. 1941—Oct. 898.

--- Overtime premium payments. Adjustment factors for eliminating from gross average hourly earnings. 1942—Nov. 1053-1056.

--- Straight-time hourly earnings, by industry, 1918 or 1946 (specified months); principal cities (Los Angeles, San Francisco, Portland, Seattle); region; and entire country. 1947—Apr. 610-611.

--- Paper–products (converted) industry. Average hourly earnings, January 1940, by product, sex, and production units. 1941—May 1267-1276.
Wages and hours, U. S.—Continued

Payrolls. See Payrolls.

Per capita income, wage-earner families, 1939, by size of family. 1942—Dec. 1254.

Perquisites. Farm workers. See Agriculture—Hired farm workers.

Petroleum refineries. Hourly earnings, April 1943, selected occupations in Southwest, Texas, Oklahoma, and Louisiana; earnings in plants with cracking units compared with those of other types. 1944—Jan. 124-129.

Hours and general level of wages, 1939; daily rates, by Province, industry, and occupation, April 1939. 1945—Apr. 779-782.

Pocket-cutlery industry. Hourly and weekly earnings and weekly hours, July 1942, by occupation. 1945—Nov. 1015-1020.

Police departments. Yearly salaries, July 1, 1938, by occupation, size of city, and region. 1941—Apr. 817-826.

Policemen.Indexes of salary rates, 1924-50; distribution in 91 cities by increase in salary scales, 1936-50 (91 large cities)—June 633-634.

Portland. Straight-time hourly earnings, by industry, specified months, 1945 or 1946; percent changes in selected industries between specified periods, 1943-46; increases, V-J-day to February 1947, in building trades, local transit, and trucking. 1947—Apr. 610-611, 618-620, 626.

Postwar increases in basic rates, Aug. 18, 1945, to May 1, 1946, by industry group. 1946—Sept. 342-345.

Pottery manufacture. East Liverpool (Ohio) area, October 1944, hourly earnings, by occupation and sex. 1945—July 105-108.

Premium pay. Types of, and proportion of workers receiving, by industry; BLS study, latter half of 1946, of 437 union agreements, covering over 2 million workers. 1947—Oct. 419-425.

Union scales. Definition, use, origin, limitations, study, and computation procedure. 1949—Nov. 545-548.

Processed-waste industry. Hourly earnings, weekly hours and earnings, September 1940, by sex, skill, and occupation. 1941—June 1539-1543.

Sugar industry. Increase in average rate from 1931 to 1939. 1941—Jan. 107.

Total wages, 1909, 1919, and 1939, specified number of employees, 1941—Dec. 1572-1574.

Earnings of those available for employment
INDEX — JANUARY 1941 TO DECEMBER 1950

Digital for FRASER—http://fraser.stlouisfed.org/—Federal Reserve Bank of St. Louis

Radio broadcasting industry. Weekly earnings and hours, October 1949. Full-time employees, by size and type of establishment; selected occupations by size of community. 1950—Nov. 582-583.

Operating employees. Basic daily rates paid enginemen and trainmen (road and yard service), hostlers, yard foremen and helpers, effective Dec. 1, 1941; hourly earnings of train and engine and yard-service employees, October 1942; changes in straight-time hourly earnings, January 1941 to June 1943; award granted Dec. 27, 1943, 1944—May 296-300.

Section men. Hourly-rate variations between roads; average hourly earnings and hours per month, period 1921-44; by year; history of wage-rate differences. 1945—May 1067-1070.

Weekly and hourly earnings and weekly hours; changes, 1914 to 1919 and 1939 to 1944. 1945—Oct. 614-616, 621.

Rate changes in transition of labor to war economy, 1941. 1942—Apr. 565-566.

Rayon and silk industry. Hourly and weekly earnings and weekly hours, September 1940, by sex, skill, occupation, and geographic district. 1941—Aug. 487-501.

Rayon industry. Straight-time average hourly earnings, selected key occupations, May 1944; weekly hours and hourly and weekly earnings, January 1941 to July 1944, by months. 1944—Dec. 1141-1157.

Redcaps. Increase in earnings, 1938 to 1941, and factors causing; deductions from pay. 1942—June 1389-1399.

Refrigerator-equipment industry. Trend, April 1940 to August 1942; hourly earnings, July—August 1942, by occupation, class, sex, and size of plant, and shift differentials. 1943—Apr. 779-776.

See also specific industry, this section.

Rice mills (including office workers). Hourly and weekly earnings and weekly hours, 1941, by skill, occupation, sex, and region. 1941—Nov. 1274-1287.

Rubber industry. Boot and shoe. Hourly and weekly earnings and weekly hours, May 1940, by sex and class of work. 1941—June 1501-1503.

Mechanical goods. Hourly earnings, August 1942, by plant division, occupation, sex, region, unionization, and weekly hours; shift differentials. 1943—Mar. 547-567.

Miscellaneous goods. Hourly and weekly earnings, May 1940, by kind of product, sex, and class of work. 1941—June 1503-1514.

Night-work and shift differentials under union agreements, as of January 1943. 1944—July 133-136, 142.

School employees. Median salaries (cities of over 100,000), specified years, 1930-31, 1942-43 to 1944-45; percent of change from previous years. 1944-45; percent of change from previous years. 1944-45; percent of change from previous years. 1947—Mar. 100-102, 1950—Sept. 314-316.

Scientists, industrial research. Work schedules, late 1949; related wage practices. 1950—Apr. 369-373.

Wages and hours, U. S.—Continued

Settlements concluded, March 1948; negotiations in progress; hourly earnings, increase since October 1947. 1948—Apr. IV.

Shipbuilding industry. Basic hourly rates established by collective agreements, Atlantic Coast, Great Lakes, and Gulf Coast shipyards. 1941—Oct. 890–891.

— 1942, provisions of. 1942—July 85–86.

Silk-textile industry; hourly earnings, selected occupations and areas, April 1950; related wage practices. 1950—Oct. 466–470.

Slaughterhouse workers. Hourly and weekly earnings, by years, 1939–43; by months, January to March 1946; by region and type of plant, March 1946. 1946—July 45–53.

Soap and glycerin plants. Wage rates and hours, August 1948, selected occupations, United States and selected regions. 1949—Apr. 418–419.

— Hours of work, overtime pay, supplementary benefits, 1948; opinions of workers on salaries and working conditions. 1949—Apr. 400.

— Recommendations of Presidential board appointed to investigate and make recommendations in dispute over wages and other demands, August 1949. 1949—Sept. III–IV.

Bolivia (La Paz). Wage earners and salaried workers. Annual payrolls, total, 1942, by industry; and employment totals, 1944—Mar. 629-630.

Increases during 6 months beginning Nov. 10, 1941, to be classified as allowances, under decree-law same date. 1942—Jan. 219.

Agricultural laborers, daily and monthly rates with and without board, May 16, each year, 1940-42 and Aug. 16, 1940-44. 1945—Jan. 146; 1945—Feb. 388.

Cost-of-living bonuses made part of basic wage rates, effective Feb. 15, 1944, 1944—Jan. 69-70.

Factories, common and miscellaneous labor, indexes, 1911-41. 1943—Jan. 140-141.

Hourly and weekly earnings and weekly hours, 1941, by industry and sex; October 1942, November 1944 and March 1945, by occupation and city. 1944—Nov. 1054-1058; 1945—July 114-115.

Wage rates (1926 = 100), 1913-40; general average (weighted) and specified industries, 1940-41, by year. 1941—Apr. 836; 1943—Jan. 141.

Ottawa, Toronto, Vancouver. Hourly rates and weekly hours, 1938, 1939, 1940, by occupation (building and metal trades, street railways); daily rates and hours, 1939 and 1940 (coal mining); weekly rates and hours, 1938, 1939, 1940, by occupation (printing trades). 1941—Aug. 503-505.

Railways, steam. Annual earnings, 1939, by class of employment; indexes of rates, 1901-41, by year. 1911—June 1547; 1943—Jan. 140.

Trends and policies, 1939-47; wartime and postwar stabilization program, outlining changes in wage structure. 1947—Oct. 426-430.

Wages and hours, f. c.—Continued

— Mining. Coal. Daily rates agreed upon by companies and workers' unions, May 1941. 1941—July 221-222.

— Prior to World War II, and as affected by war. 1945—Jan. 24-32.

— Bogota. Average daily rates by occupation, October 1939, and percent which male workers form of total. 1941—Mar. 713-714.

— Real wages, indexes by year, 1938-44, compared with money wages; daily and weekly rates, 1943 and 1945, specified industries. 1945—July 116-117.

Cuba. General increases, compulsory, provided by law. 1945—Jan. 163-164.

— Increases awarded by Government decrees, to general and to "dead season" workers. 1945—Mar. 769.

— Payrolls, increase in 1940 as indicated by tax returns. 1941—May 1278.

Denmark. Agricultural workers. Seasonal rates, by year, 1937-40; farm hands (by age and sex; daily rates, with and without board); foremen; and cattlemen (with board). 1941—Jan. 213.

— Trend in, 1929-43, compared with money wages. 1944—Nov. 950-951.

Finland. Declaration of policy by Minister of Social Affairs, Feb. 20, 1941. 1941—June 1395-1396.

— Increase to correspond with rise in cost of living. 1942—Nov. 1014.

— Foreign workers during World War II. Deductions made; discrimination between nationalities. 1945—Mar. 513.

— Hourly and weekly earnings, trend 1929-41, specified groups. 1944—Feb. 401-404.

--- Lumber and related industries, daily rates, effective October 1940, by skill and age. 1941—Oct. 1028.

--- Methods of fixing, and trend of rates, prior to and after advent of Nazis; and rates by industry group and sex, December 1938. 1945—Mar. 506—507.

--- Wartime trend of money and real earnings, 1939—43. 1945—Mar. 512.

--- Average earnings, week ended July 12, 1944, and percent of increase over last pay week in October 1938, by industry group. 1942—Feb. 499—501.

--- Coal-mining workers. Earnings per man-shift, September 1939 and 1943. 1944—May 1074.

--- Hourly and weekly rates, and weekly hours, July 1943, by industry and sex. 1944—May 1070—1073.

--- Manufacturing industries (16 combined), July 1941. 1945—Mar. 609—611.

--- Catering industry. Wages commission to be provided under April 1945 law. 1945—July 42—44.

--- Changes in 1940 summarized. 1941—Apr. 830—831.

--- Increases in rates during 1944, summary. 1945—Apr. 795.

--- Manufacturing and nonmanufacturing. January 1944 and 1945, by sex, age group, and industry; earnings and hours, by sex and age group, at specified earlier periods since October 1938. 1944—Nov. 1061—1062; 1945—Nov. 999—1002.

--- Mining, coal. Minimum provided by Greene Tribunal decision, effective July 10, 1942. 1942—Nov. 943.

--- Prisoners of war (Italian) World War II, rates paid under agreement with Italy. 1943—May 894.

--- Rates and earnings, 1938—41; indexes; and trend in relation to cost of living, unemployment, and the war economy. 1942—Apr. 881—894.

--- Sliding-scale adjustment of rates to cost of living, by some industries. Method discussed. 1942—Sept. 602—603.

--- Wartime. Changes, by industry, October 1938 to July 1943, compared with changes in United States. 1944—July 153—160.

--- Weekly hours and earnings, 1938 and 1944, by age and sex group; and weekly hours, July 1944, by industry group and sex. 1945—May 1072—1074.

--- Inadequate increases in rates under enemy occupation. 1943—Aug. 224—225.

--- Haiti. Distribution of workers, 1943, by annual cash wage or salary rate. 1944—Oct. 748.

--- Hourly and daily rates and daily hours, 1929—40, by years. 1948—June 1074—1079.

--- Hourly rates, April 1941, by industry and occupation. 1941—Dec. 1576—1576.

--- Factories (selected), annual earnings, 1939 and 1943, by industry. 1945—Aug. 335.

--- Factory workers' earnings, 1940 and 1939, by industry. 1944—Apr. 856.

Wages and hours, f. c.—Continued

— Weekly hours, weekly and hourly earnings, October 1943, by industry and sex. 1945—Apr. 859-855.

Italy. Hourly and monthly earnings, money and real, by year, 1929-38; hourly earnings and monthly hours, by industry, June 1938; hours fixed by various laws, 1923-41. 1943—Nov. 921-926.

— Northern section. Conditions in May and June 1945, and minimum rates established in early summer, by district and industry. 1945—Sept. 457-458.

— Rate increases of December 1943 and November 1944. 1945—May 1012-1013.

— Rome. Increases in basic wage, 1940-44. 1945—June 1284.

— Low level of wage rates and earnings; discrimination against women; recommendations for elimination of. 1947—Feb. 248-250.

— Textile industries. Increases granted by Presidential resolutions under June 1945 labor-contract law. 1945—Sept. 533.

Netherlands. Earnings, selected years 1929-39, per day in coal mining, per hour in metals industries, and building trades (Amsterdam), per week in harbor work; earnings each year, 1929-41, per day in mining, industry, commerce, transport, and administration (including indexes of money and real wages); summary of prewar agricultural, factory, and seamen's rates; factors affecting; regulation by law (to 1940); weekly hours, 1935-38. 1944—Jan. 40-46.

— German-occupied. Stipulations covering in labor contracts banned by Nov. 28, 1940, ordinance. 1941—Mar. 595.

Netherlands Indies. Daily rates, manufacturing (by area and occupation), agriculture (by sex), 1938; wage cut following Japanese invasion. 1944—May 972, 985-986.

New Zealand. Increases awarded in 1940 and 1942; situations resulting in awards. 1942—Sept. 590-593.

— Daily rate, and indexes showing trend, real and money daily wages by year, 1929-40; hourly or weekly rates, by industry and occupation, specified years, 1929-40; hourly rates, by industry and sex, first and second quarters 1942. 1944—Sept. 501-504.

— Decline in real wages under Nazi occupation and supplementary payments ordered. 1944—Sept. 504-505.

— Hourly, daily, weekly, and monthly rates, 1934, 1937, and 1939, by industry, trade, and occupation. 1941—Apr. 999.

— Increases provided through Government action in May and September 1945. 1945—Dec. 1174.

— Copper mines. Annual earnings, 1939 and 1944, wage earners and salaried employees in mining and milling, 1945—July 82-85.

— Cotton-textile industry. Increases effective, as from August 1940, schedule. 1941—Feb. 459.

— Mineral industries, total wage and salary payments, 1940-42, by branch. 1945—Jan. 78.

— Daily rates, 1932; coal mining, metallurgy, ceramic, chemical, textile, and construction industries, and agriculture. 1943—Apr. 788.

— Farm daily rates, by kind of work, 1938-42; and daily rate of hire of domestic animals, 1938. 1943—Apr. 789-790.

— Machine-shop foremen, monthly rates established by June 27, 1940, decree. 1941—Mar. 605.

— Government and municipal employees granted increases, 1940. 1941—Apr. 942-943.

Sweden. Hourly earnings, adult men (excluding foremen), 1939 and 1945, by cost-of-living areas.
INDEX — JANUARY 1941 TO DECEMBER 1950

— Sliding-scale increases governed by cost-of-living index, agreements of January 1941 and January and December 1942. 1941—Apr. 1001; 1943—Apr. 792.

Switzerland. Daily and hourly rates, 1940, by industries, skill, and sex. 1941—Oct. 1029-1030.

— Hourly earnings in industry, crafts, and commerce, June 1939-October 1946, by industry group, skill, sex, and age; reductions in differentials, various classes of workers. 1946—Mar. 298-299.

— Increases in rates encouraged within limits of cost of living increase, 1944—Dec. 1282.

— Indexes, money and real hourly earnings of wage earners, cost of living, and average number of hours worked, selected periods, 1939-47. 1948— Mar. 297.

— Farmers, annual rates, 1933-34. 1944—June 1175.

Union of Soviet Socialist Republics. See Soviet Union, this section.

United Kingdom. See Great Britain, this section.

Wages and hours, international:

Comparison of purchasing power of an hour's earnings in the United States and 18 other countries; methods used and results. 1949—Nov. 487-492.

Working time (in minutes) required to earn enough to buy various foods, 18 foreign countries and the United States, selected periods, 1948-49 (table). 1949—Nov. 926-930.

Wages, basic. Increases in, Aug. 18, 1945, to May 1, 1946, manufacturing and nonmanufacturing industries. 1946—Sept. 342-345.

Wages, real, United States:

Changes in, January 1939 to July 1943, and factors affecting wages, 1944—Nov. 869-870, 883-884.

Manufacturing. Wartime and postwar movements to August 1946. 1946—Nov. 660-662.

Money and real weekly earnings, selected industries, specified periods 1939 to February 1947, percent changes. 1947—June 899, 896.

Nonmanufacturing, urban areas. Percent changes in, and in real value of rates, selected industries, April and October 1945 to April 1947. 1948—Jan. 48-49.

Wages, real, foreign countries:

Belgium. Postwar levels. Government efforts to restore to prewar levels. 1945—Mar. 299-299.

Great Britain. Comparison of, 1947, with prewar levels; expenditures, personal, for consumers' goods and services, 1938 and 1949, revalued at 1938 prices. 1947—Sept. 266, 287-288.
Wages, real, f. c.—Continued
Great Britain. Income. See Income, foreign countries—Great Britain.

Indexes, weekly and real earnings, before and after direct taxes, July 1945 and October 1947, compared with October 1938. 1948-Aug. 118.

Purchasing power by type of income, selected years, 1938-48; summary of factors affecting. 1950—May 536-534.

Italy. (Rome) Index (1940 = 100), specified periods, July 1943 to May 1945. 1945-Aug. 337-338.

Great Britain. Department established in Ministry of Labor, 1940; regional organization; work inside and outside factories, to 1943. 1943—July 29-30.

Welfare work, United States:

Virgin Islands. Summary of, to June 30, 1940. 1941—Apr. 557.

Welfare work, Great Britain:

Department formed June 1940 in Ministry of Labor and National Service. Work August 1941 to August 1942 summarized. 1943—Apr. 677-680.

Factories Order of 1940, welfare provisions. 1945—Apr. 480.

Outside factories, including transport, housing, nutrition, recreation, and health, of war workers. 1942—Jan. 57-58.

Services, including health promotion, maternity and child care, wartime nurseries, emergency hospital scheme, year ending Mar. 31, 1942. 1943—Jan. 79-83.

White-collar workers (see also Office workers):

Wholesale drugs and allied products. Characteristics of industry; earnings, provisions for group insurance, pensions, sick leave, vacations with pay, and nonproduction bonus. 1947—Nov. 552-554.
Wholesale groceries. See Groceries, wholesale; also Wages and hours—Groceries, wholesale.

Wholesale prices. See Prices—Wholesale.

Womanpower. See Manpower—War Manpower Commission.

Women workers, United States:

Airframe, engine and propeller plants, November 1943 to June 1944. 1944—Sept. 477-478.

Armored services. See Armed services—Women, etc.

Automobile industry. Collective-agreement provisions as to seniority. 1944—Sept. 478.

Budgets. See Budgets, cost-of-living, U. S. — Women workers.

Buffalo area, war work. Proportion of total in May 1944 and estimates as to postwar period. 1944—Dec. 1131-1132.

California. Airframe industry. Number employed and percent of total employment, by month, January 1942-August 1945; comparison with data for all other States. 1945—Oct. 724.

—— Wartime relaxation of protective laws. Applications for and policy followed as to permits. 1944—July 121-122.

Earnings compared with those of men, by industry, October 1940; and changes since September 1939. 1941—Nov. 1777-1779.

Economic responsibility of. Increase in, as result of war casualties. 1946—Feb. 181-186.

Equal pay. Extent of practice in New York State war industries, 1942; support of principle by various organizations. 1945—July 102-104.

—— Opinion in case awarding equal pay for equal work. 1947—Jan. 63-64.

—— Progress made in public service, industry, and teaching profession; legislative provisions. 1946—Sept. 380-389.

—— Rhode Island. Sex wage differentials for equal work prohibited by 1946 law. 1946—Nov. 759.

—— See also Legislation, U. S., by State.

—— Postwar labor turn-over. 1947—Mar. 411-419.

Farmers. Needs for 1944 and plans of various agencies for recruitment. 1944—June 1248.

Gainfully employed, increase in, 1900-50. 1950—July 15.

Hawaii. Industries employed by, racial distribution, hourly and weekly earnings and hours, 1939; annual earnings, 1938. 1941—Feb. 363-368.

Homemaker service as aid to war effort. 1943—May 913-914.

—— Prospects for continued employment in post-war period, with discussion of work processes. 1945—May 978-989.

—— See also Wages and hours—Hosiery industry.

Illinois. Earnings compared with earnings of men, June 1945, by industry. 1945—Nov. 953-954.

—— Number employed July 1944 and March 1940, compared with United States total. 1944—Dec. 1284.

—— Work injuries to, experience summarized; compared with Wisconsin and Pennsylvania. 1945—Feb. 311-312.

Iowa. Number employed May of each year, 1940 to 1944, by industry; comparison with total employment. 1944—Dec. 1234-1235.

Labor force, participation in. See Labor force—Women.

Lawyers, employment opportunities resulting from war. 1943—Sept. 502-503.

Living standard, minimum adequate. See Budgets, cost-of-living, U. S. — Women workers.

Machine-tool-accessories industry, increases in number employed, October 1939 to April 1943. 1944—Feb. 309.

Manufacturing, employment in. See Employment statistics—Women workers.

Metalworking plants. Efficiency in comparison with that of men as related to kind of work. 1944—Oct. 739.

Michigan. Work injuries, first half of 1944; number of closed cases, by occupation. 1944—Dec. 1235-1236.

—— Number employed, January 1943, by class of industry. 1943—July 108.

INDEX — JANUARY 1941 TO DECEMBER 1950

— Employment in skilled defense work; war production training center in Washington, D. C. 1943—Nov. 953.

— Domestic service, wartime changes and post-war outlook discussed. 1946—June 930-931.

— Increased wages in beauty-service, confectionery, and laundry industries under minimum-wage laws. 1941—Feb. 359-363.

— Launderies, improvement resulting since minimum-wage order became effective. 1942—June 1121.

Postwar job plans of war workers in Los Angeles and in New York State. Findings of surveys summarized. 1944—Sept. 589-590.

Professional and technical, employed by construction firms, July 1942, 1943—Nov. 933-934.

— Postwar decrease in employment between two wartime periods and January 1946. 1946—July 90-91.

Remington-Rand, Tonawanda plants, incentive basis. Rate increase granted by National War Labor Board decision. 1945—Sept. 488.

Reserves estimated (from Census data) available for necessary wartime production, 1943-44. 1945—Dec. 1098-1101.

Shipyards. Private. Employment, percent of total, by region, 1946, compared with 1942; and distribution, January 1944, 1944—May 953-954, June 1179-1182.

— Proportion of total employees, 1942; occupations, recruitment, efficiency, and training programs. 1945—Feb. 277-282.

State legislation. See Legislation, U. S., Federal and general; for specified State, see Legislation, by States.

Supply, potential, for war work in St. Paul, Minn. (Yoder and Heneman). 1942—Aug. 204-205.

Training and recruitment policies of petroleum refineries. 1945—Aug. 199-203.

— See also Training.

Turn-over. See Labor turn-over—Women workers.

Union membership. Vote for International Brotherhood of Boilermakers to permit admission to. 1942—Nov. 1006.

Wage and hours. See specific industry or occupation under Wages and hours.

War industries “cut back.” Summary of effect on women’s employment and reactions of women released. 1944—Sept. 585-588, Nov. 1030-1038.

Women workers, U. S.—Continued

— Resolutions adopted by conference called by Secretary of Labor, Mar. 11 and 12, 1943 (text). 1942—June 1120-1121.

— Increase in number employed; training programs; postwar problems (Perkins). 1943—Apr. 681-696.

— Long hours and night work, employers' experience with (New York State). 1945—Sept. 507-509.

— Postwar plans as expressed in replies to questionnaire issued by union (UAW). 1944—May 1030.

— Tendency to leave labor market, as shown by experience in areas where "cut-backs" occurred. 1944—Sept. 585-588, Nov. 1030-1033.

— Trends, mid-1940 to April 1944 and VJ-day to August 1946; summaries. 1944—Aug. 264-277, 1946—Nov. 674-678.

— World War I, summary; and World War II, by industries, 1943—Oct. 650-671.

Work injuries to. See Accident statistics, general, U. S.—Women workers.

Working conditions. See working conditions, U. S.—Women workers.

Women workers, foreign countries:

Austria. Weekly earnings, August 1947 and December 1946, compared with earnings of men; narrowing of differentials. 1948—Jan. 23.

— Farm work. Qualifications for, and working conditions (Ontario). 1941—July 78-80.

— Wartime employment, industrial and other; compulsory registration of 20-24-year-old women not employed. 1948—Sept. 503-505.

Germany. Industrial employment of, to November 1942. 1943—Sept. 496.

— Adjustment to working conditions by those unused to factories, difficulties of. 1942—June 1403.

— Aircraft industry. Greater use of recommended by Select Committee on National Expenditures, 1944—Oct. 901.

— Conscripted, under terms of National Service (No. 2) Act of 1941. 1942—Feb. 385-386.

— Domestic service. Special arrangements by Ministry of Labor to recruit for exceptional cases. 1944—June 1248-1249.

— Training for. Establishment of corpora
tion recommended by Minister of Labor and National Service. 1945—Sept. 509-510.

— Equal pay (wartime), provisions for, in collective agreements; unsuccessful efforts of engineering unions to equalize rates in postwar period. 1947—Sept. 289.

— Liability to call for service in uniformed forces or in war work. 1942—Dec. 1135-1136.

— Married women, reluctance to accept long work schedules and reasons. 1943—Aug. 119.

— Union membership. Vote of Amalgamated Engineering Union granting admission to. 1942—Nov. 1007.

— Women with home responsibilities, plans to promote part-time employment. 1942—May 1089-1091.

— Workers aged 20-25, withdrawal from retail trades (except food) for war work. 1942—Jan. 56.

— War emergency work. Activities summarized. 1942—Mar. 572.

— Italy. Employment conditions since 1939; protective legislation; summary. 1945—Nov. 919-920.

— Service corps for industrial establishments and workshops to be created by Government (announcement of March 1944). 1944—May 1000.

— Panama. Labor code of 1941, provisions. 1942—May 1162-1163.

— Women's clothing industries. See Wages and hours—Clothing industries.

— Women's Bureau (U. S. Government). See Labor, Department of (U. S. Government).

— Women's ready-to-wear stores. See Department and women's ready-to-wear stores.
Wood turnings: shapes, and other wood products.
Definition and size of industry; scope of BLS surveys. February 1941. 1941—July 209–212.

Woolen and worsted textile industry:

Woolen industry. Minimum wage order effective Nov. 24, 1941. 1941—Dec. 15.

Work injuries. See Accident statistics.
Work life expectancy. See Working life.

Rehabilitation work in connection with Farm Security Administration loans. 1941—Oct. 930.
Workers' characteristics, 1940. 1941—Mar. 603.

Work stoppages, United States. See Labor-management disputes.

Workers' education, United States (see also Apprenticeship and Training):

Building Service Employees International Union (AFL), training course (Industrial Relations Center, University of Chicago) provided for officers. 1946—June 906.

Kentucky Federation of Labor, State-wide education service for workers. 1948—Apr. 408.
