## PREFACE

This publication is an index of all parts of the *Monthly Labor Review* from January 1951 through December 1960 excepting the statistical series appearing in the department "Current Labor Statistics" and the individual items in *The Labor Month in Review*, the *Chronology of Recent Labor Events*, and *Developments in Industrial Relations*. Two statistical supplements—to the 1959 and 1960 issues—were issued in this 10-year period, but these also are not indexed.

The planning of this index—and much of the work entailed in compiling it—was done by Irene B. Reedy, who is managing editor of the *Review*.

Previous bulletins in this series are No. 695 for volumes 1–11 (July 1915 to December 1920), No. 696 for volumes 12–51 (January 1921 to December 1940), and No. 1080 for volumes 52–71 (January 1941 to December 1950).
