REVIEW OF DECEMBER—COMMERCIAL AND FINANCIAL EVENTS.

The event of the closing month of the year was of course the assembling on Dec. 7 of the new Congress in regular session and the submission of the President's annual message, along with some supplementary messages. There were two of these supplementary messages, one the budget message, which, like the annual message, has become a regular thing, and another message dealing with the country's foreign relations, but more particularly with the one-year moratorium arranged the previous June by Mr. Hoover with the other countries of the world concerned, in the matter of the payment of German reparations and of intergovernmental debts. While the subject of the messages dealt with the condition of the country and of the national finances, together with its foreign relations, the burden of what the President had to say concerned chiefly relief measures for assisting the country in its dire business distress, and the moratorium was of course also in the nature of a relief measure. All these relief measures occupied the time and attention of Congress during the brief period in which it remained in session before adjournment on Dec. 22 for the Christmas holidays.

THE PRESIDENT'S RELIEF MEASURES.

In his relief program the President recommended for enactment mainly measures which he had previously indicated would be proposed by him, and therefore what he said contained no surprises or anything not well known before. Some of these proposals were outlined in a statement which he issued Oct. 6, at which time his plans for the mobilization of the country's banking resources (through the National Credit Corp. subsequently created) were made known. In his annual message the President, after noting that the chief influence affecting the country during the past year had been the continued world-wide economic disturbance, and saying that "our national concern has been to meet the emergencies it had created for us and to lay the foundations for recovery," urged the establishment of "an emergency Reconstruction Corp. of the nature of the former War Finance Corp." "Its functions," he said, "would not overlap those of the National Credit Corp." With regard to the functions of the proposed Reconstruction Corp., the President remarked:

> The Treasury should be authorized to subscribe a reasonable capital to it, and it should be given authority to issue its own debentures. It should be placed in liquidation at the end of two years. Its purpose is that by strengthening the weak spots, to thus liberate the full strength of the nation's resources. It should be in position to facilitate exports by American agencies; make advances to agricultural credit agencies where necessary to protect and aid the agricultural industry; to make temporary advances upon proper securities to established industries, railways and financial institutions which can not otherwise secure credit, and where such advances will protect the credit structure and stimulate employment.

"The establishment of a system of home-loan discount banks as the necessary companion in our financial structure of the Federal Reserve banks and our Federal Land banks" was also among the President's recommendations to Congress. An extension, "during emergencies," of the rediscount provisions of the Federal Reserve Act was likewise one of the proposals to Congress which the President had heretofore announced he would make. The President said that the need of a sounder banking system "is plainly shown by the extent of bank failures." He added:

> I recommend the prompt improvement of the banking laws. Changed financial conditions and commercial practices must be met. Congress should investigate the need for separation between different kinds of banking; an enlargement of branch banking under proper restrictions, and the methods by which enlarged membership in the Federal Reserve System may be brought about.

The recommendation was also made in the message that Congress authorize the subscription by the Treasury of further capital to the Federal Land banks to be retired as provided in the original act, or when funds are available, and that repayments of such capital be treated as a fund available for further subscriptions in the same manner. The message observed that "the railways present one of our immediate and pressing problems." On that subject the President said:

> The well-maintained and successful operation and the stability of railway finances are of primary importance to economic recovery. They should have more effective opportunity to reduce operating costs by proper consolidation. As their rates must be regulated in public interest, so also approximate regulation should be applied to competing services by some authority. The methods of their regulation should be revised. The Inter-State Commerce Commission has made important and far-reaching recommendations upon the whole subject, which I commend to the early consideration of the Congress.

The President renewed his recommendation of a year ago for a "Congressional inquiry into the economic action of the anti-trust laws." In expressing his opposition to "any direct or indirect Government dole" the President had the following to say in part on unemployment:

> We must avoid burdens upon the Government which will create more unemployment in private industry than can be gained by further expansion of employment by the Federal Government. We can now stimulate employment and agriculture more effectually and speedily through the voluntary measures in progress, through the thawing out of credit, through the building up of stability abroad, through the home loan discount banks, through an emergency finance corporation and the rehabilitation of the railways and other such directions.

While the President dealt with the Government's finances in his budget message, issued later in the week, he made reference thereto in his annual message. Indicating the necessity of an emergency taxation measure, he said:

> During the fiscal year ending June 30 last we incurred a deficit of about $903,000,000, which included the statutory reduction of the debt and represented an increase of the national debt by $616,000,000. Of this, however, $153,000,000 is offset by increased cash balances.
>
> In comparison with the fiscal year 1928 there is indicated a fall in Federal receipts for the present fiscal year amounting to $1,683,000,000, of which $1,034,000,000 is in individual and corporate income taxes alone. During this fiscal year there will be an increased expenditure, as compared to 1928, on veterans of $255,000,000, and an increased expenditure on construction work which may reach $520,000,000. Despite large economies in other directions, we have an indicated deficit, including the statutory retirement of the debt, of $2,123,000,000, and an indicated net debt increase of about $1,711,000,000.
>
> The budget for the fiscal year beginning July 1 next (1932), after allowing for some increase of taxes under the present laws and after allowing for drastic reduction in expenditures, still indicates a deficit of $1,417,000,000. After offsetting the statutory debt retirements this would indicate an increase in the national debt for the fiscal year 1933 of about $921,000,000.
>
> Several conclusions are inevitable. We must have insistent and determined reduction in Government expenses. We must face a temporary increase in taxes. Such increase should not cover the whole of these deficits or it will retard recovery. We must partially finance the deficit by borrowing. It is my view that the amount of taxation should be fixed so as to balance the budget for 1933, except for the statutory debt retirement. Such Government receipts would assure the balance of the following year's budget, including debt retirement. It is my further view that the additional taxation should be imposed solely as an emergency measure terminating definitely two years from July 1 next.

The President urged a return to the income tax schedules of 1924. This meant that the surtaxes were to run to a maximum of 40% on incomes over $500,000 instead of a maximum of 20% as at present and applying to incomes over $100,000. This would be in addition to a normal tax of 6%, making 46%, or in addition to a corporation tax of 12½c where the income is derived from the profits of corporations, in which latter event the total tax levied by the Federal Government on amounts over $500,000 would be 52½%. But there are the State income taxes also to be taken into

gitized for FRASER
p://fraser.stlouisfed.org/

account. In this State there is a corporation income tax of 4½% and a graded personal income tax to a maximum of 3% on amounts of income over $50,000. In other words, there is 7½% to be added for State taxes in addition to the 52½% which the Federal Government proposes to take, making no less than 60% on extra large incomes entirely independent of any real estate and/or other taxes that the individual or the corporation may have to pay.

In his budget message the President, though the country is beset with shrinking revenues and budget deficits running into billions, asked Congress to give approval to the agreement he entered into with the other governments for a one-year moratorium on German reparations and intergovernmental debt payments, but had further concessions of the same kind in mind, saying:

As we approach the new year it is clear that a number of the governments indebted to us will be unable to meet further payments to us in full, pending recovery in their economic life. *It is useless to blind ourselves to an obvious fact.* Therefore it will be necessary in some cases to make still further temporary adjustments.

In order that we should be in position to deal with the situation I recommend the re-creation of the World War Foreign Debt Commission, with authority to examine such problems as may arise in connection with these debts during the present economic emergency and to report to the Congress its conclusions and recommendations.

On Tuesday, Dec. 8, companion bills, designed to give effect to the recommendations of President Hoover, and providing for the creation of a "Reconstruction Finance Corp.," were introduced in the Senate by Senator Walcott of Connecticut and in the House by Representative Strong of Kansas. It appeared from these bills that this corporation was to have an initial Government subscribed capital of $500,000,000. It was also to have authority to issue debentures, or like obligations, to a maximum of $1,500,000,000.

OPENING OF CONGRESS AND ELECTION OF A DEMOCRATIC SPEAKER OF THE HOUSE OF REPRESENTATIVES.

The opening of the first session of the Seventy-second Congress at noon on Monday, Dec. 7, was marked by the election of Representative John N. Garner (Democrat), of Texas, as Speaker of the House, Mr. Garner having the distinction of being the first Democrat since 1919 to preside over either the House or Senate. Out of a total of 430 votes cast for the Speaker, Mr. Garner received 218; Representative Bertrand H. Snell (Republican), of New York, received 207 votes; George J. Schneider, a Representative-elect from Wisconsin (Progressive Republican), received five votes. The Washington correspondent of the New York "Herald Tribune" remarked that in several respects the opening session of this House was probably without precedent since the earliest days of the Union. Only one member was absent, Representative J. Will Taylor, of Tennessee, a Republican, who was critically ill. The first roll call of the session showed 433 of the 435 authorized membership present, the First New Hampshire District being vacant. . . .

PRESIDENT HOOVER APPEALS FOR UNITED SUPPORT OF TWELVE-POINT NON-PARTISAN PROGRAM FOR ECONOMIC RECOVERY EMBODIED IN HIS ANNUAL MESSAGE.

In a statement issued at his conference with newspaper men on Dec. 11, President Hoover appealed to the nation for support of his program embodied in his annual message to Congress on Dec. 8, "for starting the country upon the road to recovery." "A part of the program," said the President, "requires legislation. It is a non-partisan program. . . . I appeal for unity of action for its consummation." He added that "the major steps that we must take are domestic." The principal parts of the program comprise 12 points, which include "provision for distress among the unemployed by voluntary and united action of local authorities in co-operation with the President's unemployment relief organization," assistance to home owners, enlargement of discount facilities of Federal Reserve banks, creation of emergency Reconstruction Finance Corp., assistance to the railroads, &c. The President outlined his 12-point program as follows:

1. Unemployment relief by voluntary organization and united local action.
2. Continuance of part-time work to spread employment.
3. Strengthening of the Federal Land bank system in the interest of the farmer.
4. Assistance to home owners through renewals of mortgages, strengthening banks and creating a home loan discount bank system.
5. Development of a plan to return to depositors money in closed banks.
6. Liberalization of Federal Reserve bank discount facilities.
7. Creation of an emergency reconstruction finance corporation.
8. Assistance to all railroads through restriction of unregulated competition, formation of a credit pool for weaker roads and other measures.
9. Revision of the banking laws better to safeguard depositors.
10. Support of banks through the National Credit Association.
11. Maintenance of public finance on a sound basis through drastic reduction of Federal expenditures and a temporary tax increase.
12. The maintenance of the American system of individual initiative and individual and community responsibility.

HOUSE PASSES BILL AMENDING FEDERAL FARM LOAN ACT TO PROVIDE $100,000,000 ADDITIONAL CAPITAL FOR FEDERAL LAND BANKS—A SENATE AMENDMENT ADDS $25,000,000 MORE.

In accordance with the recommendation in the annual message of President Hoover, and likewise in the annual report of Secretary of the Treasury Mellon, a bill amending the Federal Farm Loan Act so as to provide $100,000,000 additional capital for the Federal Land banks was passed by the House of Representatives on Dec. 19 by a viva voce vote. All amendments were voted down, and a motion to recommit was rejected by a vote of 192 to 165. According to a Washington dispatch, Dec. 19, to the New York "Times," the bill was carried after the conservative Republicans, joined by several Democrats, including the Tammany delegation, defeated by a vote of 195 to 160 a farm bloc amendment providing for a one-year moratorium on all unpaid loans held by the Federal Land banks. An additional $25,000,000 to be used in granting postponements on farm mortgage payments was attached to the bill by a Senate subcommittee on banking. Associated Press advices from Washington, Dec. 26, further said:

The bill as passed by the House calls for the Government to subscribe $100,000,000 to the capital of the Land banks and authorizes the banks at their discretion to allow postponements of mortgage instalments due and their payment over a five-year period.

The Senate sub-committee, headed by Senator Robert D. Carey (Rep.), of Wyoming, voted to add the $25,000,000 in order to finance the so-called moratorium for farmer borrowers. The $25,000,000 is to be repaid to the Federal Treasury by the banks when their need for the money has passed. Senator Carey believes the amendment will permit a moratorium and, at the same time, avoid weakening the banks.

A favorable report on the measure with the amendment was decided upon by the Committee, which will approve the final language of the re-draft at another executive session. Mr. Carey said the bill would be reported promptly to the full Committee and probably would be laid before the Senate soon after Congress reconvened.

BILL FOR CREATION OF HOME LOAN DISCOUNT BANKS INTRODUCED IN HOUSE.

A bill to carry out the recommendation of President Hoover for the creation of 12 home loan discount banks was introduced in the House on Dec. 9 by Representative Robert Luce, Republican, of Massachusetts. With regard thereto, the New York "Times" said:

Capital stock, supplied by an appropriation of $150,000,000, but which would ultimately be returned to the Federal Treasury as private investors purchased the stock, is proposed in the Luce bill.

The measure embraces the principal features of the program recently outlined by the President in which he described the proposed home banks as "the necessary companion of our financial structure of the Federal Reserve banks and the Federal Land banks."

Early creation of the proposed home loan system, Mr. Luce said, would relieve many banks and building loan companies which now have difficulty in meeting requests for withdrawal of funds, for renewal of mortgages, loans and new mortgages.

With the opening subscription by the Government of $150,000,000 capital stock, the 12 banks could finance from $1,500,000,000 to $2,000,000,000 for the borrowing institutions, raising funds by means of bond or note issues.

Bonds and notes to be issued under the Luce bill would be of a type to appeal to conservative investors, it was said. The security offered would be first mortgages on homes and would represent from 167 to 200% of the amount of the securities sold to the public.

A board consisting of five members appointed by the President would have general supervision over the system and would be authorized to appoint four of the proposed seven directors of each regional bank.

APPROVAL BY PRESIDENT'S CONFERENCE ON HOME BUILDING AND HOME OWNERSHIP OF PROPOSAL FOR HOME LOAN DISCOUNT BANKS—PROVISION FOR CONTINUANCE OF WORK OF CONFERENCE.

Adoption by the President's Conference on Home Building and Home Ownership of a resolution endorsing President Hoover's plan for a system of home loan discount banks and provision for a continuing committee to carry on its work marked the closing sessions of the organization's conference at Washington, D. C., which ended Dec. 5. President Hoover on that date suggested another similar conference in about a year, according to the "United States Daily" of Dec. 7, from which the following is also taken:

The Conference stated that establishment of such a bank system would "relieve the present financial strain upon sound savings banks, trust companies, and building and loan associations" and would be of permanent value in promoting home ownership in the future. It pledged its support of the plan in Congress.

The Secretary of the Interior, Ray Lyman Wilbur, on Dec. 5, transmitted to the Conference a "personal message" from President Hoover, in which the President promised to provide for the continuing committee suggested by the Conference and declared he "hoped to see you again in about a year in a second conference." He pledged also a continuation of the housing "war" until every home is "clean, convenient, wholesome, sanitary, and a fit place for a mother and father to bring to maturity young citizens who will keep our Nation strong, vigorous, and worthy."

The Real Estate Board of New York, Inc., on Dec. 6, after a careful study of the proposed system of home loan discount banks, pointed out that its approval of the project was limited to that feature of the plan that purposes to

Digitized for FRASER
http://fraser.stlouisfed.org/

relieve the strain upon sound building and loan associations, savings banks, deposit banks and farm loan banks. It was made plain in the announcement that the Board could not at the present time extend its approval to cover any broadening of the plan that would lend further encouragement to a wide residential building movement without a more extensive survey of the number of private dwellings on the market throughout the country. The Realty Board's announcement, in part, follows:

Realizing that the emergency value of the Hoover plan depends upon its speedy application, the Real Estate Board is urging its members to write to their Congressmen or directly to the White House urging immediate passage of the requisite Federal legislation. If the law is enacted the Board will probably take similar steps to bring to the attention of members o. the State Legislature the advisability of instant consideration of whatevef State legislation is necessary for the adequate functioning of the systemr

Under date of Dec. 2, Associated Press advices from Syracuse, N. Y., reported that disapproval of the proposal for nation-wide promotion of home-building as a means of relieving depression was voiced in a statement sent to President Hoover by the Syracuse Society of Architects. The proposal, they said, would be "an aggravation of an acute disease and simply defer a greater misery to a future time." The architects said that the need at present is not financing for new home building, but aid for present overburdened home owners to place their financing on a sounder basis.

BILL FOR CREATION OF RECONSTRUCTION FINANCE CORPORATION INTRODUCED IN SENATE AND HOUSE BY SENATOR WALCOTT AND REPRESENTATIVE STRONG—PROPOSAL FOR DISCOUNTING SECURITIES BY FEDERAL RESERVE BANKS.

As noted above, companion bills, designed to give effect to the recommendations of President Hoover for the creation of a "Reconstruction Finance Corp.," were introduced in the Senate and House on Dec. 8 by Senator Walcott, Connecticut, and Representative Strong, Kansas, respectively. The New York "Journal of Commerce," indicating this in a Washington dispatch, further said:

This corporation, with an initial Government subscribed capital of $500,000,000, would do substantially what was undertaken by the former War Finance Corp. Authority would be given the body to issue debentures, or like obligations, to a maximum of $1,500,000,000.

The bill is understood to have been drafted by the Administration and Walcott and Strong selected to pilot it through Congress.

The new formula of the White House to combat financial depression will meet with vigorous opposition in both branches of Congress, it was indicated immediately. While declaring he did not wish to engage in a political controversy in the matter of Government finance arrangements, Senator Glass of Virginia, ranking Democrat on the Banking and Currency Committee, expressed the opinion the Walcott measure would fail of passage.

Glass already has made known his opposition to extension of Federal aid to the banks, asserting that "if the United States was going to the people for funds with which to help these financial institutions when they make mistakes, there would be no end to mistakes made."

Principal objection to the bill among Banking and Currency Committee members in the Senate will be based upon the belief that the Administration has not given the half billion dollar National Credit Corp. a chance to prove its worth before launching the plan for the Reconstruction Finance Corp.

Establishment of the Reconstruction Finance Corporation, proposed by President Hoover in his message to the Congress, was urged at a hearing before the Banking and Currency Committee of the House and a subcommittee of the Senate Banking and Currency Committee, Dec. 18, by Eugene Meyer, Governor of the Federal Reserve Board, as the one thing which will, in his opinion, do more than any other to reassure the people who are dominated by fear at the present time. "The very knowledge of its existence," Mr. Meyer told the Committee, "would do more to reassure people in fear than any other one thing." The foregoing is from the "United States Daily" of Dec. 19, from which we also quote as follows:

Governor Meyer told the House Committee that he prefers not to make predictions as to the result of the creation of the Corporation, because of the many factors influential in shaping economic events, but stated that he was "hopeful" that a higher price level for commodities and securities might result from its activities. "It would contribute strongly in that direction," he stated in reply to a question by Representative Goldsborough (Dem.), of Denton, Md.

Real Estate Situation.

He referred to the fact that there was a rise in the price level during the period of activity of the War Finance Corp., after which the proposed Corporation is modeled.

The most important unfavorable economic factor at the present time, in Mr. Meyer's opinion, is the real estate situation, with the condition of the railroads also of prime importance. Building and loan associations, he said, are suffering from depression and demoralization of values, which have been carried in many cases to an extreme.

Foreign conditions are also a factor in the situation, he stated, entirely apart from the matters of investments, loans reparations, and other intergovernmental relationships, in that reduced buying power abroad, intensified by disturbed exchanges, interrupts normal foreign trade activities.

Availability of Funds.

The main value of the Reconstruction Finance Corp., according to Governor Meyer, will lie in the availability of funds, if needed. While loans will be made, and perhaps in some volume, the Corporation will be of fundamental importance in removing the fear that grows out of uncertainty as to whether funds can be obtained or not.

Mr. Meyer referred to his recommendation of 10 years ago that the War Finance Corp. be formed. "I said then and feel now that it is a sound principle of government in exceptional circumstances involving the national interest to depart from the ordinary governmental activities and ordinary governmental participation in the financial operations of the country and to provide temporary and exceptional institutions and measures to deal with them."

He reviewed briefly the history of the War Finance Corp., particularly its operations under the non-war or reconstruction powers. Not much money was loaned under the war powers, he told the Committee, but the support to financial institutions was of great importance. "It was a confidence-inspiring institution," he said, "and figures do not show its full value effectively. On occasions there were industries which needed financing, and when the support of the War Finance Corp. enabled the bankers to finance the requirements of the concerns in question through the regular investment market, such transactions were of better effect than the actual lending of money by the Corporation."

Fear Is Dominant.

"We have a situation now where fear is dominant, just as it was in 1921," he continued. "The fear, now as then, is not fear of the borrower of good character, and standing, or of his securities, but fear of the general situation. In many cases it is the fear of the weak in the minds of the strong, not the weak fearing the strong."

On Dec. 19, George L. Harrison, Governor of the New York Federal Reserve Bank, appearing before the Senate Subcommittee on Banking and Currency, urged prompt action on the bill providing for the creation of the Reconstruction Finance Corporation. A Washington dispatch on that date to the New York "Times" went on to say:

He explained that the National Credit Corporation, representing a pool of banking interests, could not be employed in the general situation and had not done so much as desired in relieving frozen credit in the banks.

He said that the banks associated in the pool had not been called upon to pay their debentures in full because thus far aid had been furnished to weak banks through loans.

Both he and Ogden L. Mills, Under-Secretary of the Treasury, said that the formation of the National Credit Corporation had had a splendid psychological effect in re-establishing confidence of depositors. Neither witness, however, told the Committee how much money had been borrowed to aid distressed banks.

Mr. Mills insisted that immediate need existed for the Reconstruction Finance Corporation, saying that "if it is not created it will be a matter of regret to every member of the subcommittee."

He agreed with Senator Glass that there would be no objection to excluding foreign securities as collateral for loans with the proposed corporation.

Senator Glass objected to the provisions in the bill which make paper of non-member banks eligible for rediscount. On this point Eugene Meyer, Governor of the Federal Reserve Board, said it was necessary to assist Federal Reserve members as well as non-member banks.

Senator Glass replied that this was a dangerous practice, opening the door of the Reserve System in respect to the rediscounting of paper and even to unlimited rediscounting of government bonds. He declared that the "Federal Reserve System was organized to respond to demands of commerce and industry," and not to make investment securities eligible. The rediscount privilege, he said, had already been "frightfully abused."

NATIONAL CREDIT CORPORATION NOT FUNCTIONING UP TO EXPECTATIONS.

Disclosures came that the National Credit Corp., so prominently brought into view only a little over two months before, had failed of its purpose or was proving entirely inadequate to accomplish the ends for which it was established. This revelation came in the testimony given before a sub-committee of the Senate Committee on Banking and Currency. It will be remembered that the basis for the National Credit Corp. was laid at a conference at the White House at Washington late on the night of Oct. 6, and, according to President Hoover's official announcement, "the purpose of this institution is to be the rediscounting of banking assets not now eligible for rediscount at the Federal Reserve banks in order to assure our banks, being sound, that they may attain liquidity in case of necessity." The New York Clearing House banks pledged themselves to contribute $150,000,000, or 2% of their net demand and time deposits, and all the other banks in the country were to do the same thing, thereby providing a fund of at least, it was estimated, $500,000,000. The Credit Corp. also was to have authority to issue up to $1,000,000,000 of debentures. Now came eminent banking men to express disappointment with the outcome. Melvin A. Traylor, President of the First National Bank of Chicago, went on record to express the view referred to. Mr. Traylor's testimony was given at the hearing on the proposal recommended by President Hoover in his annual message that a $500,000,000 Reconstruction Finance Corp. be established with the idea of extending aid generally and to assist the railroads and various other undertakings badly in need of funds. Mr. Traylor gave it as his opinion that the taking over, through the National Credit Corp., by banks which are in most liquid condition of slow-moving assets from less fortunate banks meant only a transfer of undesirable loans from bank to bank and eventually would mean that banks would find themselves with $500,000,000 invested in such paper. Relief work of that description, Mr. Traylor contended, is the function of an organization

gitized for FRASER
p://fraser.stlouisfed.org/

outside of the banks themselves, under present conditions, and he pronounced the proposed Reconstruction Corp. as the proper agency.

With reference to the defects of the National Credit Corp., of which he is Committee Chairman in his own Federal Reserve District, and the need of replacing it by some institution like the proposed Reconstruction Finance Corp., Mr. Traylor said:

"The National Credit Corporation was formed voluntarily by the banks of the country to meet an emergency that they felt clearly existed at the time. That emergency arose because of the believed inability for solvent banks to borrow against their collateral.

"As a matter of fact, banks had two avenues open, either their Federal Reserve membership or their correspondent relations, but there was a general public feeling that a number of banks had assets that were good, but too slow to meet requirements. This Corporation was formed, therefore, for the purpose of making loans against slow assets.

"What it meant was that the pooled assets of the banks would be loaned to borrowing banks against assets that were slow. The result is that to the extent that this pool loans against frozen assets they are taking into their own portfolio assets that, at the moment they come in, are subject to criticism as slow. To pursue this policy to the end would mean tieing up $500,000,000 in slow assets. Therefore, I believe this bill should be enacted at the earliest possible moment to relieve the banks from further tieing up their assets."

The resumption of public confidence in banks would be sufficient reason for the adoption of the bill embracing the new organization, Mr. Traylor said, asserting that "if the confidence in our central banking institutions fails, then everything else fails."

Immediate action for the establishment of the $500,000,000 Reconstruction Finance Corp. was also urged before the Senate Sub-committee on Banking and Currency as an aid to the railroads. Among those appearing on behalf of the railroads on Dec. 22 were Ezra Brainerd, Jr., Chairman of the Inter-State Commerce Commission; Frederick H. Ecker, President of the Metropolitan Life Insurance Co., and Morgan B. Brainard, President of the Aetna Life Insurance Co.

PRESIDENT HOOVER'S WAR DEBTS MORATORIUM RATIFIED BY CONGRESS IN AMENDED FORM AND BECOMES A LAW.

In his special message to Congress on foreign affairs, submitted Dec. 10, President Hoover, as already noted, discussed in detail his moratorium proposal of the previous June and requested that a law be passed before the following Tuesday (Dec. 15) authorizing the postponement of payments due the U. S. Treasury from foreign Governments in the year ending June 30 1932, and providing for their payment over a 10-year period beginning July 1 1933. As a majority of the members of Congress had committed themselves in advance to the proposal, the passage of the ratifying Act was a foregone conclusion, but not by the date set, and yet very rapid progress was made in pushing the measure through, especially considering the decided opposition to any general debt cancellation. The measure finally passed with a rider attached expressing the opposition of Congress to any debt cancellation. The House Ways and Means Committee on Dec. 17 approved the ratifying resolution by a vote of 21 to 4, but with an amendment declaring it "against the policy of Congress that any of the indebtedness of foreign countries to the United States . . . be cancelled or reduced." The amendment against cancellation or reduction had first been adopted by the Committee by a vote of 16 to 9. The declaration against debt curtailment was offered by Representative Heartsill Ragon, Democrat, of Arkansas. As adopted, it read as follows:

Sec. 5. It is hereby expressly declared to be against the policy of Congress that any of the indebtedness of foreign countries to the United States should be in any manner cancelled or reduced, and nothing in this joint resolution shall be construed as indicating a contrary policy, or as implying that favorable consideration will be given at any time to a change in the policy hereby declared.

Two days were set aside for consideration of the joint resolution, namely, Friday, Dec. 18, and Saturday, Dec. 19, with night sessions. The House, however, did not need the two days allowed. It was rushed through with great speed and was ratified Friday night, Dec. 18, by a vote of 318 to 100. Congress on Dec. 22 completed action on the joint resolution. On that date the Senate approved the resolution at 10 p.m. by a vote of 69 to 12. The President signed the resolution on Dec. 23, and with the signing of the bill issued the following statement:

I have signed the Act authorizing the foreign debt postponement for one year. I am gratified at the support it received in the Congress as indicated by the approval (including those absent, yet who expressed their views) of 79 Senators as against 15 opposed, and the approval of 317 members of the House of Representatives as against 100 opposed. [The Congressional Record gives the House vote as 318 to 100.—Ed.] It is further gratifying that both political parties strongly supported this proposal.

The suggestion of our Government for the year's postponement of intergovernmental debts among all principal nations, of which ours is only a part, averted a catastrophe, the effects of which would have reached to the United States and would have caused the American people a loss of many times the amount involved. No part of the debt owing to us has been cancelled or reduced; the postponed amounts are repayable over a period of about 10 years with interest at 4%.

In saving the collapse of Germany by the year's postponement, the American people have done something greater than the dollars and cents gained from the maintenance of our agricultural markets, the prevention of panic and unlimited losses. They have contributed to maintain courage and hope in the German nation, to give opportunity for the other European countries to work out their problems.

ADVISORY COMMITTEE OF BANK FOR INTERNATIONAL SETTLEMENTS AT BASLE RENDERS ITS REPORT SAYING GERMANY CANNOT MEET REPARATIONS PAYMENTS UPON EXPIRATION OF PRESIDENT HOOVER'S MORATORIUM—GOVERNMENTS URGED TO TAKE IMMEDIATE ACTION FOR DEALING WITH CRISIS.

The special advisory committee appointed at the instance of the Bank for International Settlements to examine into German's ability to pay reparations as provided in the Young Plan presented its conclusions in a report signed at Basle on Dec. 24. They reached the conclusion that Germany would be unable to meet the required payments with the expiration of the year's moratorium on July 1 1932. The special advisory committee after some preliminary exchanges of views on Sunday, Dec. 6, began its formal meetings on Monday, Dec. 7. Professor Alberto Beneduce of Italy was promptly named Chairman, after Walter W. Stewart of the United States had declined the honor. Other members were Sir Walter T. Layton of Great Britain, Charles Rist of France, Dr. Carl Melchior of Germany, Emile Francqui of Belgium and Daisucke Nohara of Japan. The right of the committee to name four additional members was exercised and the body was increased to 11 members through the addition of Dr. Rudolph G. Bindschedler of Switzerland, Hendryk Colijn of Holland, Otto Rydbeck of Sweden, and George Djouritch of Yugoslavia. The co-operation of the four additional members was expected to speed up the work, and so it did. The report of the committee headed by Alberto Beneduce of Italy, and running to more than 8,000 words, and agreed on unanimously, expressed the conclusion derived from "its survey of the facts" that "Germany would be justified in declaring, as she is entitled to under the Young Plan, that in spite of the steps she has taken to maintain the stability of her currency, she will not be able in the year beginning in July next (1932) to transfer the conditional part of her annuity." But the report really went considerably further than this. The larger part of the report naturally is given over to an elaborate analysis of Germany's financial and business condition, particularly during 1931 down to the date of the report. The committee find that the recent heavy surplus of exports "is in part the result of certain abnormal factors," among them the sale of goods, "in many cases at a loss," to obtain needed cash, some exceptional sales to Great Britain in anticipation of tariff duties, and a decline in imports due to unemployment, lower wages, high taxation, and a fall in the world price level. The committee are doubtful if this export surplus can be kept up in the face of hostile tariffs, import and export restrictions, exchange control measures, and competition occasioned by the depreciation of sterling and other currencies. On the other hand, "the decline of economic activity, the fall of profits resulting from the fall in prices, and the lower yield of the taxes on wages due to increased unemployment and lower wage rates, have seriously reduced the yield of taxation." To meet the decline in receipts from taxation, taxes have been greatly increased, at the same time that the expenditures of the Reich "on all objects other than service of the debt, transfers to the Federal States external war burdens, and emergency unemployment relief," have been reduced 22% from 1929 to 1932. "In view," however, the report continues, "of the measures taken in the four decrees relating to taxation and expenditure issued in the last two years, and in particular in that of Dec. 8 1931, the committee is of the opinion that the burden of taxation has become so high that there is no margin for a further increase." The receipts of the German Railway Co. fell off 28% in 1931 as compared with 1929, and in both 1930 and 1931 the surplus of receipts was heavily below the amount which the railways must contribute to the reparations payments.

Without attempting to examine all of the underlying causes of the present world-wide depression, the committee note that the circumstances and conditions which have led to the present crisis are in part peculiar to Germany and in part international. The extreme fall in prices, unparallelled in any crisis for the past hundred years, "has deeply affected all economic activity." "The sharp reduction of the purchasing power of the large masses of consumers has involved

Digitized for FRASER
http://fraser.stlouisfed.org/

in the last two years a reduction or the complete disappearance of industrial profits, serious unemployment and an uninterrupted slump in stock exchange securities." The consequent banking crisis "has provoked a general lack of confidence and involved a withdrawal of foreign capital from countries which hitherto have had the use of it"; the exchange value of a number of currencies has been maintained on a nominal basis only by government decrees or the partial suspension of foreign payments; a fresh disturbance has been occasioned by the abandonment of the gold standard, and tariffs have cut down international trade. "Attempts to maintain the international balance of payments by means of larger and abnormal movements of gold have weakened the monetary foundations of many countries." In Germany particularly, obligated to transfer large sums annually to its creditors, the inability to obtain further foreign loans has produced a situation, "clearly pointed out" by the Dawes committee, in which international payments "can be made only in the form of goods." Regarding the large short-term credits obtained because of Germany's "demand for capital to fill the gap left by the war, the aftermath and the inflation," the committee point out that "a substantial part . . . . have proved to be immobilized in long-term investments. Withdrawal of these credits must therefore threaten not only the exchange but also the liquidity of banks themselves."

The committee accordingly conclude that "it is evident . . . that Germany would be justified in declaring—in accordance with her rights under the Young Plan—that in spite of the steps she has taken to maintain the stability of her currency she will not be able in the year beginning in July next to transfer the conditional part of the annuity." The committee have felt it their duty, however, to "draw the attention of the Governments to the unprecedented gravity of the crisis, the magnitude of which undoubtedly exceeds the 'relatively short depression' envisaged in the Young Plan, to meet which the 'measures of safeguard' were designed. . . . Action is most urgently needed in a much wider field than that of Germany alone. . . . The year 1931 has not yet ended, and already the crisis has taken formidable dimensions, shattering the exchanges of many countries one after the other and accumulating difficulties which, if not dealt with, will only prove the forerunners of further catastrophies." Further, the economic decline has produced "a general political instability from which an anxious world is suffering more and more"—a condition which has been aggravated by the political considerations which have "often been allowed to influence the treatment of economic problems by the Governments, thus preventing the latter from viewing these problems in their true light and from dealing with them on their merits."

The report concludes by emphasizing three considerations which the committee regard as "of great importance." "The first is that transfers from one country to another on a scale so large as to upset the balance of payments can only accentuate the present chaos. It should also be borne in mind that the release of a debtor country from a burden of payments which it is unable to bear may merely have the effect of transferring that burden to a creditor country, which, in its character as a debtor, it in turn may be unable to bear. Again, the adjustment of all inter-governmental debts (reparations and other war debts) to the existing troubled situation of the world—and the adjustment should take place without delay if new disasters are to be avoided—is the only lasting step capable of re-establishing confidence. . . . Finally, although the German Government is energetically defending the stability of its currency, steps are necessary to assure that these measures shall have a permanent effect."

It should be observed that while the report is silent on the specific question of the unconditional part of the German annuities—a subject which the committee, mainly because of the opposition of France, was debarred from considering—and deals only incidentally with the question of German short-term credits regarding which a report from another committee of bankers will shortly be forthcoming, the reference to transfers in the first of the committee's concluding observations appears comprehensive enough to admit of including both matters among those which the conference may consider. The report is further silent on the question whether the moratorium to be accorded to Germany should be limited to the two-year period contemplated by the Young Plan or should be given a greater extension. There is nothing in the report to indicate an opinion on the part of the committee adverse to the further payment of reparations or war debts, the only recommendation being that such payments should be adjusted "to the existing troubled situation of the world."

Cable advices stated that the most important annex to the report of the Advisory Committee of the Bank for International Settlements was that of the sub-committee on German Assets Abroad which revealed that no accurate estimate could be made of Germany's foreign investments. This sub-committee estimated that short-term credits, long-term investments and bank claims abroad amounted to 8,400,000,000 reichsmarks in July and 8,100,000,000 in November. A Basle cablegram Dec. 24, to the New York "Times" gave the handicaps as follows:

> The object of the foreign indebtedness committee was to establish Germany's net income, but because of insufficient information on German assets abroad it was obliged to give merely a rough estimate of what the income from investments might be. The concealed investments were closely connected with the flight of capital from Germany since the Hoover moratorium was announced, and this flight of German capital, together with withdrawals of credits by foreign investors, was declared by the experts to be one of the principal causes of Germany's critical condition.
>
> The fact that the proceeds from Germany's favorable trade balance are mostly contained in these hidden assets, which are chiefly the property of private individuals and not of the German State, makes it impossible for Germany to use this favorable balance in extricating herself from indebtedness.

The issuance of the report by the Advisory Committee on the inability of Germany to meet reparations payments was followed by a movement on the part of Great Britain and France to bring about a conference on war debts and reparations. The first reports with regard thereto, which came from London Dec. 25, indicated that those two Governments were addressing notices to the nations interested to meet at The Hague on Jan. 18. It has been indicated since that the conference will be held at Lausanne on that date. The initiative in calling the conference was taken by Great Britain on Dec. 30, according to a London cablegram on that date to the New York "Times," which said:

> No formal invitations were issued, but instead the curiously indirect procedure was adopted of giving the Government of Switzerland the responsibility for issuing them. Instructions were given to the British Ambassadors and Ministers abroad "to suggest to the Governments of ten foreign countries that they should ask Switzerland to allow the conference to meet at Lausanne on Jan. 18."
>
> The ten countries mentioned are the creditors of Germany—France, Italy, Belgium, Portugal, Greece, Poland, Japan, Czechoslovakia, Rumania and Jugoslavia.

PRIVATE BANKING COMMITTEE ON EXTENSION OF GERMAN SHORT-TERM CREDITS ALSO MEETS, BUT DOES NOT CONCLUDE ITS LABORS.

Representatives of the banking interests of the United States, Great Britain, France, Holland, Sweden and Switzerland began their consideration of the extension of the "Stillhaltung" aggreement on German private short-term credits at Paris, Monday Dec. 7, (the same day as the Advisory Committee of experts appointed at the instance of the Bank for International Settlements began its deliberations) at a meeting that was preliminary to the scheduled conference at Berlin which began on Thursday, Dec. 10, but no official conclusions or report was forthcoming during December. According to a Berlin cablegram, Dec. 17, to the New York "Times" the bankers at that time were busy cataloguing the two categories of German credits, commercial or reimbursement credits and the non-commercial credits, that is those not granted for certain business transactions. The chief problem the cablegram stated, was what should be done with the non-commercial credits which definitely are frozen while the reimbursement credits are self-liquidating. The Bankers' Committee, therefore, split up into two subcommittees, of which one was to catalogue the credits as to their categories, while the other one discussed the fundamental stabilization problems.

RAILROAD SITUATION DOES NOT IMPROVE AND WABASH RY. IS PUT INTO THE HANDS OF RECEIVERS—PLANS FOR MODERATE ADVANCES IN FREIGHT RATES PERMITTED BY INTER-STATE COMMERCE COMMISSION COMPLETED, BUT WAGE QUESTION STILL UNSETTLED AND MAKING NO PROGRESS.

The plight of the railroads remained one of the worst sore spots in the general economic situation and little progress was made in carrying out measures of relief during December. Losses in revenues continued of frightful proportions, notwithstanding comparisons were with very poor returns in the corresponding periods of the previous year. Numerous additions were made to the dividend reductions and dividend omissions by leading railroads which have so long been a feature of affairs among the railroads in all parts of the country, testifying how serious was the situation of the roads.

gitized for FRASER
p://fraser.stlouisfed.org/

As if this were not enough, a new chapter was now opened in the beginning of railroad receiverships on a large scale, evidence that a stage had been reached where even the ability to earn interest payments was in question. One of our big railroad systems, the Wabash Railway, situated in the very heart of the country, passed into the hands of receivers on the first day of the month, marking the climax of the troubles with which the railroads have been affected for the past 18 months and affording new testimony to the seriousness of these troubles and how urgent the need of relieving or removing them. Very naturally the bond market, and especially railroad bonds, which were weak before, suffered a new break more disastrous than any yet encountered in the whole of the long lane of depression. Another bad piece of news came about the same time. The news was to the effect that the New York Central RR. had filed application with the Inter-State Commerce Commission for authority to issue $100,000,000 of refunding and improvement mortgage 5% bonds series C, to be dated Oct. 1 1921 and maturing Oct. 1 2013, but subject to call at 105 in 1951. There was nothing remarkable about an application for such a large new issue in the case of a railroad system of the size of the New York Central and nothing that need occasion the slightest concern on that account. The west side improvement alone in this city which the Central is carrying on and which is freighted with such decided advantages to the city, as well as to the System itself, will entail expenditures of $150,000,000 or more, not to speak of the other projects in which the System is engaged.

There was nothing strange, therefore, in a petition asking approval for such a large amount of new capital. What did, however, command attention and what was highly significant as illustrating prevailing unfortunate conditions, was that it was expressly stated in the application that there was no present intention of selling the bonds, but that the purpose was that they be authenticated and delivered so that they might be pledged and repledged from time to time as collateral security for short-term notes to be issued. In other words, things reached such a pass that it is not possible for a system of the strength and commanding position of the New York Central to dispose of new bond issues in the market except on prohibitive terms. The new issue, we were told, would be pledged in a ratio not to exceed $125 of bonds at current market prices for each $100 face value of the notes to be secured thereby—that is, the collateral to be pledged for bonds of apparently indubitable safety must be greatly in excess of the face value of the notes representing the money to be obtained. In its application the company stated that it had expended for betterments and additions in the 10 years ended June 30 1931, $205,505,230 which has not been capitalized and which is available for use as a basis for the bonds proposed to be issued. It is understood that the company has borrowed some $50,000,000 or more from banks on short-term notes to date and that the management has been awaiting a favorable opportunity to refund these obligations through a bond issue, but as prices of high-grade railroad bonds have steadily shrunk in value this is now considered out of the question and certainly the Central's own experience in floating new bonds during 1931 went to prove that a long-term bond issue at the present time could hardly be undertaken with any assurance of success. In March 1931 the Central brought out $75,000,000 of 4½% refunding and improvement bonds due in 2013. These bonds were sold at par, but in common with other railroad securities suffered such great depreciation in the interval since then that at the time of the application they were quoted on the Stock Exchange at only 61½, though the close on Dec. 31 1931 was slightly better at 68.

In the face of all this the movement for lowering wage scales so imperatively demanded, made little progress. Many leading railroad systems in different parts of the country in their returns for the 11 months ending Nov. 30 showed net earnings for the period in 1931 only about one-half to one-fifth or one-sixth of the net earnings for the corresponding 11 months two years before in 1929. Thus the net operating income of the New York Central for the 11 months of 1931 was only $27,511,513 as against $98,-167,812 in the 11 months of 1929; that of the Pennsylvania only $48,136,625 as against $129,432,504; the Atchison $30,504,313 against $65,339,450; the Southern Pacific $21,616,331 against $56,656,938; the Chicago Milwaukee St. Paul & Pacific $7,740,175 as against $24,978,406; the Southern Railway $7,931,306 against $27,957,905 and the Illinois Central System $10,316,839 against $25,089,712, &c.

SLOW STEPS IN THE ADJUSTMENT OF RAILROAD MEASURES TO A LOWER BASIS.

Fifteen hundred general chairmen of the 21 standard railway unions representing 1,500,000 members, decided at Chicago on Dec. 11 to propose to the railroads that they appoint a committee with full power to negotiate a settlement of the roads' demands for a 10% decrease in wages and the unemployment program proposed by the unions. The policy was adopted as the general chairmen accepted unanimously and with tremendous applause the report of the sub-committee which had been laboring since the previous night. According to the report, the joint committee of union and railway executives was to have power to lower wages and to agree upon any other terms of an unemployment program without recourse to the machinery of the railway labor act, which would involve months of delay.

This looked promising, but the labor chiefs proceeded with the utmost deliberation. Acting in response to the invitation of the railway labor unions, the presidents of the Nation's railroads on Dec. 18 appointed a committee empowered to "negotiate to a conclusion" with the Railway Labor Executives' Association on wages and employment. At the same time, however, the executives agreed to serve notice on the unions "of a desire to revise the existing contracts so as to effect a 15% reduction in wages of all classes of employees." The Railway Labor Executives' Assn., on its part, comprising 21 brotherhoods and unions, met in Cleveland Dec. 29 and set Jan. 14 as the date for meeting in Chicago with the committee of nine railroad presidents to discuss the unions' proposals for unemployment relief and the railroad's proposed 15% wage cut. Thus the whole of December had been frittered away and at least half of January was to be lost in the same manner.

SPEED IN RAIL AID URGED BY HOOVER—SAYS RECONSTRUCTION CORPORATION COULD ACT IN EMERGENCY "IF NECESSARY"—TALKS TO HOUSE LEADERS.

Expressing the belief that the plight of American railroads is only temporary and that they will be able to work themselves out of the depression "trough" in which they find themselves, President Hoover in talking to newspaper correspondents at Washington on Friday, Dec. 18, declared that only 16% or 17% of all the roads, excluding those in receiverships, are earning less than their fixed charges. Various agencies are ready to function for railroad rehabilitation, the President said, and these agencies will, if the situation makes it necessary, include the proposed Reconstruction Corporation. The President's discussion of the railroad bond situation took place at his conference with the correspondents in the afternoon.

INTER-STATE COMMERCE COMMISSION APPROVES PLAN OF THE RAILROADS TO APPLY THE FUNDS TO BE DERIVED FROM THE INCREASES IN RATES AUTHORIZED BY THE COMMISSION IN AID OF FINANCIALLY WEAK ROADS—ADVANCES TO BE CONSIDERED LOANS RATHER THAN GIFTS OR GRATUITIES.

The Inter-State Commerce Commission, Dec. 7, permitted the railroads to put into effect their plan to provide for the needs of financially depressed railroads through the medium of loans administered by a credit corporation from moneys realized from the freight rate increases authorized by the Commission. The Commission acted on the petition of the Association of Railway Executives asking certain modifications in the plan suggested by the Commission for restoring railroad credit and preventing receiverships. The executives objected particularly to the inference in the Commission's plan that funds resulting from the increases recommended should be distributed as gratuities to the roads in need of assistance. The Commission declared that it could "neither approve nor disapprove either the loaning plan or the agency the carriers say they expect and intend to use in making the plan effective." The executive's plan, the Commission said, would not be "pooling" within the meaning of the Inter-State Commerce Act, and that Congress had not given it jurisdiction to act on proposals such as that made by the executives. However, it was asserted, in order to avoid delays "which will be injurious to the general public, including the carriers, we hereby modify our original report to the extent of relieving the carriers from the necessity of complying with the "pooling plan" therein described. This will leave them free to apply in the premises their own loaning plan."

The majority report was dissented from by Commissioner Joseph B. Eastman, who was joined in his dissenting opinion by Commissioners Frank McManamy, Claude Porter and

Digitized for FRASER
http://fraser.stlouisfed.org/

Charles D. Mahaffie. "If our plan had been accepted in the spirit in which it was suggested, and put promptly into effect, certain recent and unfortunate developments in the railroad financial situation might have been averted," says the dissenting opinion. The Commission further modified its original report so as to provide a cents-per-ton basis instead of a dollars-per-car basis on certain commodities slated for increases. Lighterage charges was included with switching charges in a proposed increase of 10%, while less-than-carload rates were given an advance of 2 cents per 100 pounds. The Commission's report was the outgrowth of an application of all the railroads in the country for a 15% increase in all freight rates and charges. In refusing the carriers' plea for a 15% horizontal advance, the Commission asserted it would permit certain increases on specified commodities on the condition that the moneys accruing from such increase be placed in a "pool" to be distributed to those carriers which could not meet their interest payments on maturing securities. The railroads, in answer, asserted that such a plan was unlawful, and suggested a substitute which provided for "loans" rather than "gifts" to the weaker lines. In giving the roads permission to go ahead with the loan feature, the Commission declares: "We rely on them (the railroads) to apply the funds to be derived from the authorized increases in rates in aid of financially weak railroads in accordance with the purpose expressed in our original report."

The Railroad Credit Corp., which will administer the loans to financially depressed railroads from revenues derived from freight rate increases permitted by the Inter-State Commerce Commission, filed articles of incorporation at Wilmington, Del., according to a statement of the Association of Railway Executives transmitted to the Commission Dec. 14. The railroads of the country, on Dec. 11, by unanimous vote of their executives in session at Washington, accepted the modified Inter-State Commerce Commission project for an increase in freight rates of $100,000,000 to $125,000,000, the extra earnings to be set aside for loans to financially weak lines. The Inter-State Commerce Commission, Dec. 24, authorized the railroads of the country to increase freight rates on five days' notice to the general public. Immediately after the Commission made known its decision, it was announced by representatives of the railroads that the rates would be posted on Dec. 30 to become effective Jan. 4.

TRADE DEPRESSION UNRELIEVED—IRON AND STEEL PRODUCTION AT A LOW LEVEL.

There was no change for the better in the business situation during December and exceedingly gloomy views prevailed in all lines of trade and industry. The Guaranty Trust Co. of New York in its "Monthly Survey," published Dec. 28, remarked that the end of the year found business activity at the lowest ebb since the beginning of the depression, adding: "Altogether this country, and the world outside, face one of the great dramatic moments of history, whose outcome is still too crowded to be forecast and only as men's minds rest back upon the assurance that sound methods will eventually produce sound results and that the course of events is always upward in the long run is there any great ground for present optimism. Hard work, economy, and balanced production and budget, will be important factors in any recovery and, if their lessons are learned, may speed it more rapidly than is now anticipated." The Guaranty "Survey" also said: "The year 1931, like 1930, has been one of swift and rather steady recession in the volume of business and in prices, punctuated by temporary rallies that created false hopes for recovery. In the early months of both years there were fairly well defined increases in industrial output and in trade volumes that could not be traced entirely to seasonal causes, and these upturns were regarded in some quarters as the beginnings of business revival. All such favorable interpretations were discredited by the actual course of developments." In the automobile industry and in the iron and steel trade, the depression was especially pronounced. The output of motor vehicles in the United States for the calendar year 1931 is estimated at only 2,378,000 against 3,355,986 in the calendar year 1930 and 5,358,420 in the calendar year 1929, showing that 2,980,420 cars less were turned out in 1931 than two years before in 1929. The "Iron Age" in its issue of Dec. 24 reported that holiday shutdowns had reduced the rate of ingot production for the week to 21% of the country's capacity, which was 4% lower even than at the close of 1930, when the mills were working at an average of 25% of capacity. But the "Age" in its issue of Dec. 31 reported that a partial resumption of steel plant operations had occurred at Pittsburgh, Youngstown and Wheeling, but that the Chicago district, which had had no sharp curtailment the previous week, was down to a 15% ingot output largely offsetting the gains elsewhere. Nevertheless the average for the country was at 22% of capacity, against 21% the previous week, and a gain was indicated for the first week of January. Prices were exceedingly weak, though at the end of the year steel companies were making a determined effort to check the decline. Chicago mills announced an advance of $2 a ton on bars, plates and shapes to 1.70c. a lb., but meanwhile Pittsburgh and Youngstown bar makers were taking business at 1.50c., Pittsburgh, a reflection of the weakness that had developed in plates and shapes. Hot roll stripped steel, the "Age" reported, was being widely offered at 1.45c. a lb., Pittsburgh, for the wide and 1.55c. for the narrow, but automobile companies had obtained prices $1.00 a ton lower. There was continued weakness in sheets, particularly automobile body stock, and in cold rolled fender stock, tin mill, black plate and long ternes. Recent maximum prices on sheets had virtually disappeared, it was stated, even on small lots. Semi-finished steel in the form of billets, slabs and sheet bars, it was added, had been marked down $1 a ton, but the recently announced advances of $2 a ton on wire rods and $1 a ton on some merchant wire products were now in effect and firmly held. Price declines extended to pig iron. Buffalo producers having reduced quotations $1 a ton for deliveries within their district, though elsewhere pig iron quotations were reported fairly steady, "though largely untested." The "Iron Age" reported the composite price for finished steel on Dec. 29 as down to 2.052c., the lowest figure since April 1929. The high for 1931 was on Jan. 13 at 2.142c. The composite price of pig iron was reported Dec. 29 at $14.79 a gross ton against $15.90 on Jan. 6 1931. Steel scrap was reported as down to $8.50 a gross ton Dec. 29 as against $11.33 on Jan. 6 1931.

The "Iron Age" reported the make of iron for the calendar year 1931, 18,275,165 tons against 31,399,105 tons in 1930, and 42,286,000 tons in 1929. The American Iron & Steel Institute estimates the production of steel ingots at 24,900,195 tons for 1931, against 39,286,287 for 1930 and 54,312,279 tons in 1929.

THE COURSE OF THE NON-FERROUS METALS.

The first increase in copper prices in many months occurred on Dec. 16 when the quotation was marked up ¼c. to 6¾c. delivered in Connecticut. Later in the month there was a further advance to 7¼c. The export price of copper was raised ½c. a lb. to 7½c. on Dec. 18. The increase followed a reported agreement of leading British, Belgian and American producers to cut output by 40%, or to approximately 26½% of their potential capacity. The agreement came after long negotiations, first with the Belgian producers and then with the Phelps Dodge copper group which meantime had resigned from Copper Producers, Inc., and later was induced to rejoin and make a pact possible. In the New York market electrolytic copper was advanced from 6.25c. to 6.75c. on Dec. 17 and to 7c. Dec. 18; Lake copper was advanced on Dec. 16 from 6.87½c. to 7.37½c. The price of lead at New York was reduced from 3.85c. to 3.75c. Dec. 14. Tin prices continued to move downward the early part of the month and touched 20.55c. on Dec. 9, but after that moved up to 21.95c. Dec. 23, with the close Dec. 31 at 21.62½c. From its Paris bureau the "Wall Street Journal" on Dec. 19 reported that the minimum release price for the International Tin Pool's holdings had been raised to £165 a long ton from £150 under the revised quota control scheme agreed to by participating members of the pool. At £165 only 5% of the holdings are releasable, and then only provided that the average spot price at London has remained higher during any preceding calendar month. At £176, the next price of the revised sliding scale, 10% of the holdings become releasable. Members of the pool agreed, it is stated, to abide by the scheme for a period of 3 years from Aug. 12 or until the pool has been liquidated.

PETROLEUM AND ITS PRODUCTS—VOLUNTARY REDUCTION IN TEXAS.

In petroleum and its products, an important development during December was the action of leading oil companies operating in Texas in voluntarily shutting down both producing and refining activities one day a week, beginning with Sunday, Dec. 20. thereby automatically cutting down production 15%. As a result of this let down daily average gross crude oil production was reduced from 2,430,300 barrels in the week ending Dec. 19 to 2,292,000 barrels in the

gitized for FRASER
p://fraser.stlouisfed.org/

week ending Dec. 26 and to 2,209,100 barrels in the week ending Jan. 2. As to price changes the following shows the leading changes of the month, both in the case of crude oil and in the refined products:

Crude Oil.

Dec. 1.—Joseph Seep Purchasing Agency of the South Penn Oil Co. announces 10c. per barrel reduction in Pennsylvania grade crude oil in Buckeye Pipe Line Co. lines. New price $1.40 per barrel. All other Pennsylvania prices unchanged.

Dec. 1.—Vacuum Oil Co. posts prices for Cameron Meadows, La., crude as follows: Below 26 gravity, 60c. a barrel, with 1c. advance for each higher gravity to 40 degrees and above, with 75c. per barrel top.

Dec. 11.—Primrose Refining Co. announces a reduction of 20c. per barrel for all crude oil purchased in the north Texas area, retroactive to Dec. 1. The new price is 65c. per barrel for 40 gravity and above.

Dec. 15.—A 15c. reduction in all grades of Bradford and Allegheny crude oils was announced to-day by purchasing agencies, the new prices for Pennsylvania crude being: Southwest Pennsylvania pipelines, $1.55; Eureka Pipeline Co. lines, $1.45; Buckeye Pipeline Co. lines, $1.25; the Tidewater Oil Co. reduced Bradford and Allegheny crude 15c. to $1.85. Corning was unchanged.

Gasoline and Kerosene.

Dec. 1.—Richfield Oil Corp. of New York advances bulk gasoline ¼c. to 6½c. tank car, at refinery.

Dec. 2.—Sinclair Refining Co. advances U. S. Motor gasoline ½c. to 6½c., tank car; Sinclair white gasoline, ½c. to 7c., tank car; 41-43 water white kerosene, ½c. to 6c., tank car.

Dec. 3.—Standard Oil Co. of New Jersey advances U. S. Motor ½c. to 6½c., tank car, for below 65 octane, and 7c. for above 65 octane, tank car at refinery; advances 41-43 water white kerosene ½c. per gallon to 6c., tank car.

Dec. 3.—Atlantic Refining Co. advances U. S. Motor ½c. per gallon to 6½c., tank car, for below 65 octane, and 7c. for above, tank car.

Dec. 3.—Warner-Quinlan Co. advances U. S. Motor ½c. to 6½c., tank car, for below 65 octane, and 7c. for above.

Dec. 4.—Standard Oil Co. of New York advances U. S. Motor ½c. per gallon to 6½c., tank car, for below 65 octane, and 7c. for above; 41-43 water white kerosene advanced ½c. per gallon to 6c., tank car.

Dec. 8.—Standard Oil Co. of New York announced reduction, effective immediately, of 2c. per gallon in tank wagon and service station prices on gasoline in New York City, Westchester County and Long Island.

Dec. 22.—Standard Oil Co. of New York reduces tank wagon prices 1c. per gallon in Buffalo and Rochester; same company reduces kerosene prices 1½c. per gallon, tank wagon and service station, in Buffalo and Rochester.

Dec. 26.—Standard Oil Co. of New York reduces tank wagon and service station gasoline prices 2c. per gallon in Yonkers, N. Y.

Dec. 31.—Continental Oil Co. reduces tank wagon and service station gasoline prices 1c. per gallon throughout the State of Oklahoma. This was brought about by 1c. reduction in State tax, reduced from 5c. to 4c. per gallon.

THE COURSE OF THE TEXTILE MARKETS.

The textile markets were quiet, as is usually the case during the closing months of the year. In the case of cotton the price of the raw material tended upward, as is indicated by the fact that spot cotton at New York, after touching 6.00c., Dec. 9, sold up to 6.55c. Dec. 29, with the close Dec. 31 6.50c. Print cloths at Fall River for 28 in. 64 x 60, after being marked down from 2⅝c. to 2 9-16c. Dec. 5, was marked up again to 2⅝c., Dec. 29. The advance in raw material occurred notwithstanding that the Department of Agriculture in its report issued on Dec. 8 made a further slight increase (15,000 bales) in its estimate of the 1931 crop raising the total to 16,918,000 bales, of 500 lbs. as against a crop the previous season of only 13,932,000 bales, and putting the crop second in size only to the bumper crop of 1926 when the yield was 17,977,370 bales. However, planters were withholding their cotton from market on account of the low price prevailing and the receipts from the plantations from August 1 to December 31 in 1931 were only 7,548,269 bales, as against 8,024,019 bales in 1930 and 7,902,355 bales in 1929. Besides this, exports rapidly increased during December, mainly however because of the large takings by Japan and China, bringing the export shipments for the season up to 3,927,109 bales on Dec. 31 against 3,900,043 bales in the previous season. The United States Census report, issued Dec. 14, showed that 428,870 bales of lint and 52,687 bales of linters were consumed in the United States during November 1931, against 415,315 bales of lint and 54,173 bales of linters in November 1930, and made the consumption for the four months ending with November 1,780,418 bales of lint in 1931 against 1,604,615 bales in 1930, and the consumption of linters 238,525 bales as against 241,751 bales. The Association of Cotton Textile Merchants of New York, in its statement made public Dec. 14, and covering four weeks of November, reported production during the month at 231,446,000 yards or at the rate of 57,861,000 yards per week. This was 1.9% more than the rate of production during the month of October. Sales during November were 224,207,000 yards, equivalent to 96.9% of production. Shipments during the month were 213,889,000 yards, equivalent to 92.4% of production. Stocks on hand at the end of the month amounted to 273,390,000 yards, representing an increase of 6.9% during the month. Unfilled orders on Nov. 30 1931, were 354,957,000 yards, representing an increase of 3% during the month. Both sales and shipments during November 1931 were greater than in November 1930—sales being 22.5% greater and shipments 6.6% greater. The Board of Managers of the New York Cotton Exchange voted on Dec. 11 to set the maximum limit of interest on future contracts for delivery in any one month by any member, firm or corporation and his or its affiliations at 1,000,000 bales for delivery in Dec. 1931 and in all months up to and including Nov. 1932. In the woolen trade a development of the month was the action of the American Woolen Co. in reduc ng wages 10% and going back to a 54-hour week schedule, compared with 40 hours previously. Prices averaging 10% to 15% under previous levels were named by the Bigelow-Sanford Carpet Co. in opening spring 1932 floor covering lines in New York City at the beginning of December.

Raw silk prices further sharply declined during the month, the putting of an embargo on gold exports by Japan and the decline in yen exchange having been a contributing factor. Even before this, however, in the early part of December silk futures dropped to new low levels on the New York Silk Exchange. On Dec. 31 Japanese double extra 13-15 deniers were quoted at $1.85@$1.90, against $2.20@$2.25, on Nov. 30 and also on Oct. 31, and comparing with $2.25@$2.30 Sept. 30; $2.50@$2.55 on Aug. 31; $2.30@$2.40 on July 31; $2.35@$2.40 on June 30; $2.22½@$2.27½ May 29; $2.35@$2.40 April 30; $2.55@$2.65 March 31; $2.70@$2.75 Feb. 28; $2.85@$2.95 Jan. 31; $2.60@$2.70 Dec. 31 1930; $2.35 @ $2.45 Sept. 30, 1930, and $4.70 @ $4.75 on Jan. 31 1930. In the 20-22 deniers, Japanese crack double extra were quoted at $1.85 Dec. 31 against $2.30 @ $2.32½ Nov. 30; $2.10 @ $2.15 Oct. 31; $2.25 @ $2.35 Sept. 30; $2.45@$2.55 Aug. 31; $2.25@$2.30 July 31; $2.40@$2.50 June 30; $2.07½@$2.12½ May 29; $2.25@$2.30 April 30; $2.50@$2.60 March 31; $2.65@$2.70 Feb. 28; $2.85@$2.90 Jan. 31; $2.70@$2.75 Dec. 31 1930; $2.25@$2.30 Oct. 31 1930, but comparing with $4.60@$4.65 on Jan. 31 1930.

RUBBER PRICES CONTINUE TO RULE LOW—REPORTS REGARDING RESTRICTION PLANS.

Crude rubber continued to rule low except that reports that rubber restrictions plans were making progress sent the spot price over the 5c. level on Saturday, Dec. 19, though prices subsequently dropped back again. In the New York market ribbed smoked sheets for spot delivery were quoted 4 13-16c. bid and 4 15-16c. asked a pound Dec. 31, which compares with 4 5-16@4⅜c. on Nov. 30; 4 9-16@4⅝c. Oct. 31; 4½@4⅝c. Sept. 30; 5@5⅛c. Aug. 31; 5⅝@5¾c. July 31; 6 13-16@6 15-16c. June 30; 6½c. bid May 29; 5⅞@6c. April 30; 6⅞@7c. March 31; 7⅝@7¾c. Feb. 28; 7¾@8c. Jan. 31; 8⅜@8½c. Dec. 31 1930, and 15¾@15⅞c. Feb. 28 1930. As expected, the mail order houses followed the action of the tire companies in making reductions in tire prices to the lowest level in history. Both Sears Roebuck Co. and Montgomery Ward & Co. cut tire prices between 5 and 15%.

NEWSPRINT PAPER PRICES CUT BY INTERNATIONAL PAPER AND OTHER LARGE COMPANIES.

Following a cut of $2 a ton in the price of newsprint paper for 1932, announced on Dec. 1 by the Great Northern Paper Co., reducing the price from $57 to $55, it was stated on Dec. 6 that a further reduction of $2 would be made by that company, lowering the price to $53. The International Paper Co. announced on Dec. 7 that the price of newsprint in New York and Chicago had been reduced, effective Jan. 1, to $53 a ton, a cut of $4 a ton having been made by it in the price.

COURSE OF GRAIN, COFFEE AND SUGAR PRICES.

Grain prices during December moved within narrow limits, though fluctuating irregularly up and down. The December option for wheat in Chicago ranged between 52¾c. and 55c. on Dec. 31, as against 52⅝@56c. on Dec. 1. The range for March wheat in Chicago on Dec. 31 was 55@56⅛, against 54¼@57½ on Dec. 1. At Winnipeg December wheat ranged at 59⅛@60 Dec. 31 against 57⅞@60¾. Dec. 1 December corn in Chicago, after declining from 39¼c. Dec. 2, to 34c. Dec. 14, recovered, and ranged Dec. 31,

igitized for FRASER
ttp://fraser.stlouisfed.org/

between 36½ and 37⅝. December oats at Chicago after falling from 25c. Dec. 1, to 23c. Dec. 10, sold up to 25½c. Dec. 31. The United States Department of Agriculture on Dec. 16, made public its final estimates of the 1931 crops, and these did not differ materially, as far as the yield of the leading cereals is concerned from the figures given out the previous month, total wheat production in the United States being estimated at 892,271,000 bushels against 858,160,000 bushels in 1930, but with the winter wheat yield 787,465,000 bushels against 601,840,000 bushels, and the spring wheat yield only 104,806,000 bushels against 256,320,000, with the corn crop put at 2,556,863,000 bushels against 2,060,185,000 the previous year, (the 1930 corn crop having been decidedly short) and with the oats crop put at 1,112,142,000 bushels against 1,277,764,000 bushels. The report, however, served to indicate in a striking way how seriously the agricultural classes were suffering by reason of the great decline in the market value of agricultural products, inasmuch as the report placed the total farm value of all agricultural products in 1931 at only $4,122,850,000, as compared with $5,818,820,000 in 1930 and $8,088,494,000 in 1929. In other words the 1931 farm crop is valued at $1,695,970,000 less than in 1930 and $3,965,644,000 less than in 1929. It appeared from another report of the Agricultural Bureau that the acreage planted to winter wheat in the autumn of 1931 had been only 38,682,000 acres, a reduction of 4,467,000 acres, or 10.4% from the area sown in the autumn of 1930.

On Dec. 14 the Federal Farm Board announced the receipt of a report from the Farmers' National Grain Corp., in which it is stated that the corporation during the first two years of its existence (to Oct. 31 1931) had purchased and handled more than 390,000,000 bushels of grain and "that this vast amount of grain has been handled at a cost of less than 1c. a bushel, including a total cost for salaries and wages in all departments and branches of not to exceed 1-5 of 1c. on all bushels bought, handled and(or) sold." Sugar prices took a further downward plunge, and it appeared as if faith in the Chadbourne plan was disappearing. Cuban raw sugar, as against 1.25c. at the close of November, sold as low as 1.05c. on Dec. 14, but the latter part of the month recovered with sales on Dec. 31 at 1.20c. The wholesale price of refined sugar in this market was reduced on Dec. 10 from 4.40c. to 4.20c. Thomas L. Chadbourne, author of the international sugar agreement, in company with Manuel Perdomo as expert statistician, Marcelino Garcia and J. M. Casanova sailed on Dec. 5 to attend the International Sugar Conference, which opened in Paris on Dec. 14. They were joined by Everett Smith, sales manager of the Nationa Sugar Export Corp. After four days of negotiations in Parisl to readjust the Chadbourne plan to regulate world sugar production the International Sugar Council adjourned on Dec. 17 until early in January. Considerable opposition to the Chadbourne plan and to restriction developed all over Cuba. Representatives of the National Union Labor Federation, the Railroad Brotherhood of the Island and the Maritime Unions of the cities of Santiago, Cienfuegos, Matanzas and Havana at a meeting on Dec. 12 at Havana resolved to join the cane planters in their fight against restriction of the coming sugar crop. H. H. Pike Jr., President of the New York Coffee & Sugar Exchange, in his annual review in referring to the sugar market during 1931, said:

> The early part of the year saw a steady sugar market, with a background of hopefulness generated by the Chadbourne Plan. This agreement, signed on May 9 this year by seven of the principal sugar exporting countries of the world—Cuba, Java, Czechoslovakia, Germany, Belgium, Poland and Hungary, and just recently joined by Peru—contemplated a strict limitation of exports by the signatory nations over a period of five years. It further provided for the segregation of present surpluses and the adjustment of production during the five-year period to permit the release of the segregated stocks and to prevent the building-up of any further excess.
>
> The plan has failed to improve prices, partly because of the increased production of non-exporting countries and partly because of reduced world consumption and distribution. As is invariably the case with attempts at artificial regulation, the buying public, whether for consumption, for stock, or for speculative purposes, sat back in the traces when the control started and left the producer with additional stocks to carry. . . .
>
> In both coffee and sugar, two of the world's largest and most interesting schemes for artificially bringing equilibrium back to supply and demand are being tried. There has never been a plan for limitation of production so ambitious, nor with so many participants, as the Chadbourne Plan. Similarly, in coffee, history knows no such contemplated wholesale destruction of merchandise—another method, but the same end in view. The whole world will be awaiting with intense interest the outcome of these two efforts.

Coffee prices, unlike sugar prices, registered a still further slight improvement in prices following that recorded in November and October. No. 7 Rio for spot delivery was quoted at 7@7¼c. Dec. 31, against 6½@6⅝c. Nov. 30; 5¾@6c. Oct. 31; 5½c. Sept. 30; 5½@5¾c. Aug. 31; 5⅞@6c. July 31; 6⅞@7c. June 30; 6⅝c. May 29; 6½@6¾c. April 30; 5½c. Mar. 31; 5½@5⅝c. Feb. 28; 6¾c. Jan. 31, and 7¼@7½c. Dec. 31 1930. No. 7 Santos was 8@8¼c. Dec. 31, against 7¼@7½c. Nov. 30; 7¼c. bid Oct. 31; 6⅞@7c. Sept. 30; 6⅝@6⅞c. Aug. 31; 7½@7⅞c. July 31; 8½@9c. June 30; 8½@8¾c. May 29, and the same figures for Apr. 30; 7¾@8c. Mar. 31; 7¾@8c. Feb. 28; 8¾@9c. Jan. 31; 8¾@9¼c. Dec. 31 1930, and 11¼c. Oct. 31 1930. On Dec. 8 it was stated that the National Coffee Council of Brazil had announced plans the previous day for the stabilization of coffee prices, including the destruction of 12,000,000 bags in the next twelve months and the placing of an additional tax of five shillings a bag on coffee exports from the country, according to a cable dispatch to the New York Coffee & Sugar Exchange. The coffee that is pledged against foreign loans, it was stated, is to be safeguarded, the cable said. The decision to destroy the 12,000,000 bags was reported as unanimous. The Brazilian Government increased the export tax on coffee to 15 shillings gold per bag (60 kilos), according to a cablegram dated Dec. 11 to the Department of Commerce from Commercial Attache Carlton Jackson, Rio de Janeiro. It was noted that the export tax on coffee was heretofore 10 shillings gold plus an additional tax of 3 shillings gold per bag.

GERMANY'S DRASTIC MEASURES TO RESTORE ECONOMIC EQUILIBRIUM.

Measures of extreme gravity were announced at Berlin, Dec. 8, by the Government of Chancellor Bruening with a number of objects in view, not the least important being that of setting the German house in order as a preliminary to the reparations discussion which had now been re-opened. In a sweeping emergency decree signed by President Paul von Hindenburg under Article 46 of the Weimar Constitution, new taxes were imposed in order to achieve a balanced budget. The decree provides also for severe price and rent reductions and for lowered interest rates throughout Germany, as it is believed that the nation will thus be enabled to cope to better advantage with the effects of the current world-wide economic depression and compete in foreign markets for orders. It aims, moreover, at a more rigorous rule in order to meet the rising tide of Fascism, under the leadership of Adolph Hitler. Some of the provisions of this fourth general emergency decree of the Bruening regime, were, indeed, obviously provoked by a series of statements made by Herr Hitler on German politics and international relations. In explaining the decree to the press, Chancellor Bruening emphasized the importance of balancing the National budget in view of the reparations negotiations. "In the past," he said, "we entered negotiations without the backing of strong finances at home, but I did not feel that I could bear the responsibility of international negotiations in this historic hour before the public treasuries were safe, even if they could be safeguarded only by stringent measures. The moment has finally come when even the closest examination of our budget fails to afford evidence for criticism abroad. The budgets now are scaled down to such an extent that, disregarding the expenditures on war cripples, it can well stand comparison with the smallest pre-war budgets."

The Chancellor discussed the measures broadly in a radio address to the German nation Dec. 8, and in this address he also replied to some of the previous declarations of Herr Hitler on German policy. He denounced bitterly what he called the attempt of the National-Socialist, or Fascist, leader to "create the impression abroad that Germany was not only divided within herself, but that there was in Germany a Government of to-morrow that assumed to speak for the German people." Hereafter, as heretofore, the conduct of the Reich and the representation of its interests abroad will rest exclusively in the hands of the Reich's President and the Constitutional Government, he declared. "While the leader of the National-Socialists proclaims his adherence to legality, his responsible aides are allowed to go forth preaching subversive doctrines and scattering schisms and distrust in the ranks of the people," Chancellor Bruening continued: "However widely they may spread among the people, the Government must not and will not shrink from opposing them with iron energy. The Government admits no power save the Constitutional one. The Reich's President and the Reich's Government alone control the power of the State, and this will be used with

gitized for FRASER
p://fraser.stlouisfed.org/

relentless severity—if need be through declaring a state of siege—against any attempt to interfere with the Constitutional authorities." The popularity of Hitlerism was explained by the Chancellor as a natural inward protest against Germany's fall from her former heights and against her harsh fate to-day. "Growing numbers of our people are taking refuge in dream visions," he said, "but these constitute no political program. Germany's salvation will be possible only if those responsible for her policy do not also enter the realm of illusion, but on the contrary remain governed by sober reflection and clear consideration of available ways and means."

In his discussion of "The President's Fourth Decree for safeguarding the economic life and finances and for the protection of domestic peace," the Chancellor added little to his press statement. The measures, he said, marked the conclusion of the post-war period when the billions in gold flowing into Germany temporarily prevented the people from realizing that they had lost the war. He described them as representing the last stages in the process of deflation and added that the program of economic measures now completed after weary months of searching must also be viewed as a prelude to the Government's preparations for the impending international financial negotiations. "As the Basle negotiations have just begun, I must refrain from discussing the reparations question," he said, "but once more I most fervently appeal to all the interested governments to allow the principle of understanding and the solidarity of cooperation so often proclaimed on all sides to be translated into concrete action at this eleventh hour." Enforcement of the measures, the Chancellor stated, would make possible the maintenance of German currency on a gold basis and insure the solvency of the Reich through permanent budgetary equilibrium. The emergency decree, which covers 46 pages of the Federal legal gazette, is a quite remarkable document. In order to balance the budget, it provides for a reduction of 9% to 10% in the salaries and wages of all Government employees, whether of the Reich or the States and municipalities. For the Reich Government alone this step, which is effective Jan. 1 1932, will mean a saving estimated at $20,000,000 a year. In addition the turnover tax is raised from 0.85% to 2%, and this will bring in an estimated $40,000,000 for the remainder of the current fiscal year. Numerous economic provisions are contained in the decree, and these, to be effective Jan. 1, are intended to bring about a 10% reduction in the general price level within Germany. The office of a Reich Price Commissioner is created for this purpose, and Mayor Carl Coerdeler of Leipzig was appointed to the post. Wages in industry are to be reduced to the level prevailing Jan. 1 1927, while salaries of corporation officials receiving 15,000 marks or more yearly also are liable to reduction. Physicians' fees are to come down with other forms of compensation, while house rents are to be cut 10% in the case of buildings put up before the war, and 15% in the case of newer structures. Prices charged by cartels are to be lowered 10%, and iron, coal, gas, water and electricity prices are to be reduced similarly. Railway rates are to come down approximately 10%, although in the case of some goods the reduction will be as much as 26%.

Of exceptional gravity is a provision for the lowering of interest rates on virtually all classes of fixed-interest bearing obligations, whether Government, State or municipal securitures, industrial obligations or mortgages. In an Associated Press report it was stated that the rate will be lowered to 6% where it was as high as 8%, while levels above the 8% figure will be cut from one-quarter to one-half. German bonds floated abroad are specifically exempted from this provision. The rate on Lombard loans was ordered lowered from 10% to 9%, while the Reichsbank followed Dec. 9 with an announcement of a reduction in the discount rate from 8% to 7%. The decree also strengthens measures against the flight of capital by providing various degrees of confiscation. Issuance of new 4-pfennig coins is provided for, and Germans living abroad are enjoined to deliver to the Government 25% of their funds invested in Germany. Landowners are protected against forced auction sales by a provision that no bid under 70% of the value of property need be accepted at such sales. In order to insure domestic peace the decree prohibits the wearing of political uniforms and emblems throughout the Reich. The States, moreover, are empowered to enact legislation compelling the registration of all firearms sold to private citizens. Imprisonment up to three months is ordained for all who defame public officials.

HUNGARY FORCED TO DECLARE A PARTIAL MORATORIUM.

Difficulties experienced by the Hungarian Government in obtaining sufficient foreign exchange to meet the service on external debt in full occasioned a long anticipated announcement, Dec. 22, of a partial moratorium. This action is considered due, in large part, to the general financial crisis afflicting all the world. The suspension will mean the deposit in pengoes, within Hungary, of sums due for interest and amortization on approximately two-thirds of the external debt of about $715,000,000. An attempt will be made to meet, in the currencies in which they are payable, the sums due on the remaining one-third of the foreign debt. Preference is to be given to the League of Nations, or reconstruction, loan of 1924, on which some $4,000,000 is due annually, while if additional foreign exchange is available payments will be met similarly on the secured relief loan, the secured Treasury bills, the Caisse Commune obligation, the Austro-Hungarian State Railway and the Danube-Save-Adriatic Railway loans, the payments to be made under the London protocol of Aug. 11 1931, and the pre-war city of Budapest loan, in the order stated. Payments due on the obligations named were estimated in a Budapest dispatch to the New York "Times" at $20,000,000 annually, while the remaining service on foreign debt is said to be approximately $40,000,000 annually. Service on the latter obligations, and also on the former in so far as they cannot be met in foreign exchange, will be deposited in pengoes at the rate quoted the day before sums are due, in an account at the National Bank of Hungary for the benefit of bondholders. This partial or "transfer" moratorium was foreshadowed by the application for relief made by the Hungarian Government to the League of Nations Finance Committee and by recent pronouncements of leading Cabinet Ministers. The announcement thus occasioned little comment in international financial centres. American investments in the country were estimated at the end of 1930 at $118,878,000. In the official statement of the Hungarian Government it was indicated that the suspension would be made effective Dec. 23. The action was attributed to "the exceptional decline in the prices of the principal Hungarian exports and the consequent difficulty, in present circumstances, of obtaining sufficient exchange for foreign debt remittances." The National Bank of Hungary will receive authorization, it was further stated, to sell to Hungarian nationals foreign exchange for the purpose of meeting interest or discount and commission on short-term debts to bankers and others, and of giving effect to appropriate standstill arrangements which the Government intends to propose to short-term creditors in foreign currencies for a period of six months. Any interest earned by the pengo account at the national bank will be applied for the benefit of the creditors, less expenses incidental to administration. "The Hungarian Government," the announcement concluded, "will request the foreign governments concerned to accept temporarily similar arrangements as regards the outstanding clearing office payments. In the event of any monopolies or other public assets being disposed of abroad, the proceeds of such disposal will be applied to lightening Hungary's existing burden of external indebtedness."

THE DECEMBER FINANC NG OF THE U. S. TREASURY.

The quarterly financing of the United States Treasury during December was for a large total and was, on the whole, no easy task, considering the firmer tendency of the money market, the great depreciation of United States obligations of every kind, due to the knowledge that large additional United States issues of one kind or another would be forthcoming in the near future, to take care of the Treasury budget deficit estimated for the current Government fiscal year as likely to run in excess of two billion dollars, and also to provide the means for the heavy capital outlays that were being sponsored by the Administration at Washington in order to extend aid to suffering industries or to supply new credit facilities with the idea of bringing about a revival in trade. However, Mr. Mellon, the Secretary of the Treasury, was equal to the occasion, and by his customary cleverness in dividing up the maturities and confining them entirely to short-term obligations, was able to carry his proposals to success, though it is understood that the banks needed considerable urging to send in subscriptions for the requisite amounts so that the Treasury might not trip up on any portion of the total loan.

The Treasury program embraced an aggregate offering of $1,300,000,000. Of this total, $600,000,000 consisted of one-year 3¼% Treasury notes, dated and bearing interest from Dec. 15 1931. The offering also included two issues of Treasury certificates of indebtedness, one for amount of $300,000,000, running for six months and bearing 2¾% interest, and the other for amount of $400,000,000, due in nine months

Federal

and carrying 3% interest. It will be seen that the issues all consisted of short-term obligations, they running for six months, nine months, and 12 months, respectively. It was necessary for the Secretary to proceed with considerable caution, inasmuch as the $800,000,000 3% Treasury bonds offered as part of the Treasury's September financing, with a maturity date of Sept. 15 1955, but redeemable at the option of the United States on and after Sept. 15 1951, almost immediately after the offering dropped heavily below par and sold on the Stock Exchange during the week of the December offering at as low as 88 23/32, and later in the month sold down to 82 24/32; even United States Treasury 3⅛s of 1946-1949 at the time of this December offering were selling at only a little above 90, and later in the month got as low as 84 20/32. The Treasury's problem was to sell $600,000,000 of one-year 3¼s at par, though of course these 3¼% notes running for so short a time had the saving grace of falling within the short-term class, and short-term obligations, as is known, have been selling at a much lower interest cost than long-time issues. Besides, in limiting the notes to a year the Secretary was able to offer them as exempt from the surtaxes as well as from the normal income taxes, exemption from which surtaxes longer term issues do not enjoy. In addition, there was the further advantage that the greater part of the whole $1,300,000,000 of new issues was intended to take up old issues, and these old issues could be tendered in exchange for the new issues. Six months previously the Treasury had called for redemption on Dec. 15 1931, one year in advance of maturity, 3½% Treasury notes of Series C-1930-1932, of which $452,000,000 remained outstanding. In addition, about $543,000,000 of old Treasury certificates of indebtedness became due and payable on Dec. 15 1931. It was provided in the new offering that subscriptions for which the maturing Treasury notes or the maturing certificates of indebtedness were tendered in payment would be given preferred allotment up to the amount of the offering. Moreover, any qualified depository was permitted to make payment by credit for notes allotted to it for itself and its customers up to any amount for which it should be qualified in excess of existing deposits when so notified by the Federal Reserve bank of its district. Thus payment was to a great extent by credit on the bank, involving little transfer of cash. The effect of such credits is to establish a large line of Government deposits, and as against Government deposits, as the reader knows, the banks are not required to hold any reserves, while against ordinary deposits the customary legal reserves are obligatory. Thus there were especial considerations calculated to induce subscriptions, even though other considerations might serve to repel them. At all events, while the subscription books were opened on Monday, Dec. 7, the Treasury Department was able to report subscription books closed at the close of business on Thursday, Dec. 10. To be sure, the rates of interest in the certificates were much higher than those in the September offering, the December rates being, as already stated, 2¾% for the six months issue and 3% for the nine months issue, while the September offering included a 12 months issue of certificates for $300,000,000 bearing only 1⅛% interest.

Aggregate subscriptions for the $1,300,000,000 Treasury notes and Treasury certificates of indebtedness reached $1,784,068,000, with the amount allotted $1,323,483,700. Almost the whole of the oversubscription, however, was in the case of the $300,000,000 six months certificates bearing 2¾% interest, for which the subscriptions reached $619,715,500 and the allotments were $324,578,500; in the case of the offering of $400,000,000 of nine months certificates bearing 3% interest the subscriptions were $460,650,000 and the allotments $398,355,000, showing only a moderate oversubscription, while in the case of the offering of $600,000,000 3¼% Treasury notes aggregate subscriptions were $703,703,400, showing also only a moderate oversubscription. The exchange subscription on the three issues combined, all of which were accepted, footed up $581,094,300. The amount of the subscriptions paid for with member bank credit, and which, accordingly, became Government deposits to that extent, was $698,544,000, of which $358,547,100 was in the New York Federal Reserve District. The Treasury almost immediately began to send out notices to the depositaries for the repayment of portions of such deposits, a call being issued on Dec. 18 for the repayment of $86,187,000 on Dec. 21, and a like amount on Dec. 22, and on Dec. 23, of which $44,220,000 in each case were in the New York Reserve District, these figures representing 37% of the combined amount on deposit, and further calls came on Dec. 28, and Dec. 30, these latter for payment on Jan. 4 and Jan. 5, respectively, after which there still remained on deposit in the New York Federal Reserve District $188,618,500, and in the entire country $367,033,600.

Announcement also came on Dec. 22 of a new issue of 91-day Treasury bills, to be sold on a discount basis, to the amount of $100,000,000, "or thereabouts." Tenders were received up to 2 p. m. Eastern Standard time on Monday, Dec. 28. These bills were dated Dec. 30, and mature on March 30 1932. The bids totaled $190,072,000, of which $101,332,000 were accepted. The average price on the bids accepted was 99.178, or an average rate on a bank discount basis of about 3¼%. This was a further increase in interest rates, and served further to emphasize the steady rise in cost to the Government of this class of borrowing. At the last sale in November, when $100,490,000 of 93-day bills was placed, the average rate to the Government on a bank discount basis was only 2.59%. Back last July the Government disposed of $51,806,000 of bills on a discount basis of only 0.46%. The proceeds of the December offering of bills evidently went to take up about the same amount of old bills which were about to mature, as newspaper accounts stated that $102,979,000 of bills would have to be taken care of during January.

NEW SECURITY ISSUES AND DIVIDENDS IN DECEMBER.

New financing in the domestic market for the month of December was again on a very limited scale and consisted chiefly of public utility issues. The largest offering of the month was the $3,000,000 issue of the Kansas City Power & Light Co. 1st mtge. gold bonds, 4½% series, due Feb. 1 1961, followed by the $2,500,000 offering of the Super-Power Co. of Illinois 1st mtge. 6% gold bonds, series of 1931 at 91 and int., to yield about 6.70% and due Dec. 1 1961. Below we give the month's financing, which consisted of the following offerings:

PUBLIC UTILITY FINANCING.

$3,000,000 **Kansas City Power & Light Co.**—1st mtge. gold bonds, 4½% series due 1961. Price on application. Bonds mature Feb. 1 1961. By a group comprising the Guaranty Co. of New York; Chase Harris Forbes Corp.; Bonbright & Co., Inc.; Halsey, Stuart & Co., Inc.; The Union Trust Co. of Pittsburgh; Continental Illinois Co., Inc., and Otis & Co., Inc.

2,500,000 **Super-Power Co. of Illinois.**—1st mtge. 6% gold bonds series of 1931, at 91 and int., to yield about 6.70% and due Dec. 1 1961. By Halsey, Stuart & Co.

1,500,000 **Central Maine Power Co.**—1st & gen. mtge. gold bonds, series F, 5½% at 99 and int., to yield about 5.57% and due Dec. 1 1961. By a banking group headed by Chase Harris Forbes Corp. and including Coffin & Burr, Inc., Hill, Joiner & Co. and the N. W. Harris Co., Inc.

590,000 **Old Colony Gas Co.**—1st mtge. 5% gold bonds, series A, at 102½ and due Dec. 1 1961. By F. S. Moseley & Co. and Brown Bros. Harriman Co.

500,000 **Consumers Natural Gas Co.**—6% coll. trust serial gold bonds at prices to yield from 5% to 6¼%, according to maturity. To mature semi-annually May 1 and Nov. 1 1932-1936. By Mercantile Securities Co., Dallas, Texas.

500,000 **Subway Terminal Corp., Los Angeles.**—3-year 7% gold notes at 100 and int., due Oct. 1 1934. By James R. Martin & Co., Los Angeles.

400,000 **Keystone Public Service Co.**—1st mtge. gold bonds, 5% series, at 81 to yield 6¼% and due Nov. 1 1978. By Halsey, Stuart & Co., Inc., New York.

MUNICIPAL FINANCING.

$5,000,000 **Detroit, Mich.,** 6% bond anticipation notes, due on or before Dec. 31 1933, were sold as follows: $4,000,000 to the city sinking fund and $1,000,000 to United States Senator James Couzens of Michigan.

2,750,000 **California (State of)** 4½% veterans' welfare bonds, due from 1936 to 1953 incl., awarded to a syndicate headed by R. H. Moulton & Co., of Los Angeles, at a price of par. Re-offered at prices to yield 4.35%.

1,800,000 **Boston, Mass.,** bonds, of which $900,000 4¼s, due from 1932 to 1951 incl., were purchased at a price of par by the City Retirement Board, and $900,000 4½s, due from 1932 to 1946 incl., were awarded to a group headed by the Chase Harris Forbes Corp., of New York, at 100.02, a basis of about 4.49%. Re-offered at prices to yield 4.30%.

1,500,000 **Kearny, N. J.,** 5½% water supply bonds, due from 1933 to 1970 incl., sold at a price of par to a group composed of B. J. Van Ingen & Co., of New York, Adams & Mueller, of Newark and Charles P. Dunning of Newark. Re-offered at prices to yield 4.80 to 5%.

1,000,000 **Fort Wayne, Ind.,** 4¼% water works plant impt. bonds, due $40,000 annually from 1933 to 1957 incl., awarded to a group headed by the Harris Trust & Savings Bank, of Chicago, at 100.063, a basis of about 4.24%. Re-offered at prices to yield from 4.00 to 4.10%.

1,000,000 **Mercer Co., N. J.,** road, bridge and county bldg. bonds were sold as follows: $250,000 6s, due Dec. 1 1932, to Barr Bros. & Co., Inc., of New York and $250,000 5½s, due Dec. 31 1933, both at a price of par to the First National Co., of Trenton, which also purchased $250,000 5½s, due Dec. 31 1937, at 100.63, a basis of about 5.38%. The remaining $250,000 5½s, due July 1 1937, were sold to George B. Gibbons & Co., Inc., of New York, at 100.59, a basis of about 5.385%.

Changes in dividend declarations in December were again numerous and again included many of an unfavorable nature. The following table, divided into two sections, namely, "Favorable Changes" and "Unfavorable Changes," gives the more important of the changes:

FAVORABLE CHANGES.

Alaska Juneau Gold Mining Co.—Quar. div. of 12½c. a share on the common stock as against 10c. a share paid previously.

American Factors, Ltd.—Extra div. of 20c. a share in addition to the usual monthly div. of 15c. a share.

American Public Welfare Trust.—Semi-annual div. on the no par class B stock increased from 12½c. a sh. to 25c. a share.

Associates Investment Co.—Stock div. of 6% in addition to the quar. div. of $1 a sh. on the common stock.

Automatic Signal Acceptance Corp.—Bi-monthly dividend on common stock increased from 50c. a sh. to 60c. a share.

Automobile Banking Corp., Phila.—Extra div. of 50c. a share on the common stock.

Bucyrus-Monighan Co.—Extra dividend o 120c. a share on the class A stock.

Buffalo & Susquehanna RR. Corp.—Resumes dividend payments on common stock by declaration of a div. of 4% payable Dec. 30 1931.

(Godfrey L.) Cabot, Inc.—Dividend of $15 a share payable Jan. 30 as compared with an initial div. of $10 a share paid on Oct. 31 last.

Case, Lockwood & Brainerd.—Extra div. of $7 a share in addition to the usual semi-annual div. of $5 a share. A year ago an extra div. of $5 a share was made.

Chicago Mail Order Co.—Div. of 50c. a share payable Dec. 15, out of earnings for year 1931. The company last paid a dividend on Dec. 15 1929.

Cleveland Builders Supply & Brick Co.—Resumes dividend on the common stock by payment of 5c. a share on Dec. 24 1931.

Columbia Vise & Mfg. Co.—Extra div. of 25c. a share in addition to the usual quar. div. of 37½c. a share on the common stock.

Donahues, Inc.—Quar. div. of 1½% on the 6% cumul. conv. pref. stock resumed by payment on Dec. 21.

Eastern Investors, Inc.—Initial div. of $4 a share on the common stock.

gitized for FRASER
p://fraser.stlouisfed.org/

Emerson's Bromo-Seltzer, Inc.—Extra divs. of 50c. a share in addition to the reg. quar. div. of 50c. a sh. on both the class A and B common stocks.

Enamel Products Co., Cleveland.—Dividend on common stock resumed by payment of 5c. a share. The last dividend paid on this stock was in Oct. 1929. when a quar. div. of 50c. a sh. was paid.

Equity Savings & Loan Co., Cleveland.—Extra dividend of $6 a share on the capital stock.

Ewa Plantation Co., Hawaii.—Extra div. of 10% ($2 a share) on the capital stock.

(C. M.) Hall Lamp Co.—Dividend of 10c. a share on the common stock. Three months ago the dividend was omitted.

Hamilton Woolen Co.—Extra div. of $2.75 a share in addition to the reg. quar. div. of $2 a share.

Hershey Chocolate Corp.—Quar. div. on the common stock increased from $1.25 a sh. to $1.50 a share.

Hygrade-Sylvania Corp.—Extra div. of $1 a share on the common stock in addition to the reg. quar. div. of 50c. a share.

Kellogg Co. of Delaware.—Dividend of $5 a share on the common stock as compared with $3 a share paid on Oct. 1 last.

Lamson & Sessions Co., Cleveland.—Div. of 5c. a share on the common stock paid on Dec. 28. The last previous payment was made on Sept. 15 1930.

Lock Joint Pipe Co.—Extra dividend on the common stock of $5.50 a share paid on Dec. 31 1931 as compared with an extra div. of $2 a share on May 15 last.

(P.) Lorillard Co.—Dividend on common resumed by the declaration on Dec. 2 of a quar. div. of 30c. a share.

Lowell Gas Light Co.—Dividend on the capital stock increased from 75c. a sh. to $1 a share.

National Oil Products Co., Inc.—Extra div. of $1 a share on the common stock.

National Share Corp.—Extra dividend of 31¼c. a share on the class A common stock.

New Process Co.—Special dividend of 50c. a share on the no par common stock. This dividend is the first ever made by the company on its common stock.

Noranda Mines, Ltd.—Dividend on the common stock resumed by payment of 50c. a share.

Norwood Gas Co.—Dividend on the common stock increased from $1.50 a share to $2 a share.

(The) Noxema Chemical Co.—Dividend of $1.50 a share as compared with $1 a share paid in July.

Oahu Ry. & Land Co.—Extra dividend of 20c. a share on the common stock.

Ohio Leather Co.—Special dividend of 25c. a share on the no par common stock. This dividend is the first to be paid on the common stock since July 1 1920.

Pacific American Fire Insurance Co., Los Angeles.—Initial dividend of 40c. a share on the capital stock.

Pacific Finance Corp. of Calif. (Del.).—Special dividend on the common stock of one share of common stock of the Los Angeles Industries, Inc. for each share of Pacific common stock held.

Packard Electric Co.—Extra dividend of 75c. a share on the common stock.

Parke, Davis & Co., Detroit, Mich.—Special div. of 20c. a share. In each of the first three quarters of the present year an extra div. of 10c. was paid.

(G. E.) Prentice Mfg. Co.—Extra div. of 55c. a share in addition to the reg. quar. div. of $1 a share.

Printz Biederman Co., Cleveland, Ohio.—Quar. div. on the common stock resumed by payment of 25c. a share.

Randolph & Holbrook Power & Electric Co.—Div. on the common stock increased from 56c. a share to 71c. a share.

Selected Shares Corp.—Initial div. of 23.283c. a share payable Jan. 1 1932 on the selected cumulative shares.

Servel, Inc.—Initial div. of $7 a share on the preferred stock. Divs. on this issue do not become cumulative until Jan. 1 1933.

(E. R.) Squibb & Sons.—Extra dividend of 25c. a share on the common stock.

(A. E.) Staley Mfg. Co.—Semi-annual div. of 3½% on the 7% cum. pref. stock resumed by payment made on Dec. 24 1931.

Title Insurance Corp. of St. Louis.—Extra div. of 25c. a share on the capital stock.

Twin State Gas & Electric Co.—Quar. div. on the common stock increased from 2% to 2½% a share.

Universal Cooler Co.—Dividend on the class A common stock resumed by payment of 15c. a share.

Washington Oil Co.—Resume divs. on the common stock by payment of 75c. a share on Dec. 20 1931.

Westmoreland, Inc.—Extra dividend of 30c. a share on the common stock.

(F. W.) Woolworth Co., Ltd.—Initial divs. of 17.8 cents on the American depositary receipts for ordinary registered shares and 5.2 cents on the American depositary receipts 6% preferred stock.

UNFAVORABLE CHANGES.

Abitibi Power & Paper Co., Ltd.—Quar. div. of 1¾% on the 7% cumul. pref. stock omitted.

Acme Steel Co., Chicago.—Quar. div. on the capital stock reduced from 50c. a sh. to 40c. a share.

Administrative & Research Corp.—Quar. div. of 25c. a sh. on the no par class B stock omitted.

Alabama Fuel & Iron Co.—Quar. div. on the common stock reduced from $1.50 a sh. to $1 a share.

Alexander Hamilton Institute, N. Y. City.—Semi-annual div. of 4% on the 8% cum. pref. stock omitted.

(A. S.) Aloe Co., St. Louis.—Div. of 13c. a sh. on the common stock as compared with 62c. a sh. paid on Oct. 1 1931.

American Bank Note Co.—Extra dividend of $1 a share in cash paid on the common stock in Dec. 1928, 1929 and 1930 omitted.

American Brake Shoe & Foundry Co.—Quar. div. on the common stock reduced from 60c. a sh. to 40c. a share.

American Capital Corp.—Quar. div. of 75c. a share on the $3 cumul. pref. stock omitted.

American Car & Foundry Co.—Quar. dividend of 25c. a share on the no par common stock omitted.

American Cities Power & Light Corp.—Dividend on the class B stock omitted. In March a div. of 5% in class B stock on the class B stock was paid.

American Composite Trust Corp.—Semi-annual div. on the American Composite Trust shares of $0.15786 a share as compared with a div. of $0.20933 a share paid in the preceding six months' period.

(The) American Insurance Co., Newark, N. J.—Quar. div. on the capital stock reduced from 25c. to 20c. a share.

American Lace Mfg. Co.—Quar. dividend of 25c. a share on the common stock omitted.

American National Co., Toledo, Ohio.—Quar. div. of 37½c. a share on the common stock omitted.

American Salamandra Corp.—Quar. div. of 50c. a share on the capital stock omitted.

American Screw Co.—Quar. div. on the common stock reduced from $1 a share to 50c. a share.

American States Public Service Co.—Quar. div. on the class A stock of 40c. a share omitted.

American Steam Pump Co., Battle Creek, Mich.—Quar. div. on the common stock reduced from 50c. a sh. to 25c. a share.

American Title & Guaranty Co.—Quar. div. of 15c. a share on the capital stock omitted.

American Type Founders Co.—Quar. div. on the common stock of 2% a share omitted.

Ansbacher-Siegle Corp.—Quar. div. of 60c. a sh. on the $2.40 cumul. pref. stock omitted.

Appalachian Gas Corp.—Quar. div. of $1.75 a share on the $7 cumul. pref. stock series A of no par value omitted.

Arrow-Hart & Hegeman Electric Co.—Quar. div. on the common stock decreased from 50c. a sh. to 40c. a share.

Art Metal Construction Co.—Quar div. on the common stock, par $10, reduced from 20c. a sh. to 10c. a share.

Associated Gas & Electric Co.—Quar. div. on the class A stock of 1-80th of one share of class A stock, or, at the holder's option, in $5 div. series pref. stock at the rate of 1-800th of one share of said pref. stock. Previously 1-50th of a share of class A or 1-200th of a share of $5 pref. stock, or 25c. in cash was paid on this issue.

Athol Mfg. Co.—Quar. div. of 50c. a sh. on the no par common stock as compared with $1 a sh. paid previously.

Atlas Acceptance Corp.—Quar. div. of 75c. a share on the preferred stock omitted.

Atlas Drop Forge Co.—Quar. div. of 25c. a share on the common stock omitted.

Austin, Nichols & Co., Inc.—Quar. div. on the prior A stock reduced from 75c. a sh. to 37½c. a share.

Baltimore & Ohio RR.—Quar. div. of $1 a sh. on the common stock omitted.

(Joseph) Bancroft & Sons Co.—Quar. div. of $1.75 a sh. on the 7% cumul. pref. stock omitted.

Bastian Blessing Co.—Quar. div. on the common stock reduced from 50c. a share to 25c. a share.

Bayuk Cigars, Inc.—Quar. div. on the no par common stock reduced from 75c. a share to 37½c. a share.

Bituminous Casualty Co. (R. I.).—Quar. div. of 50c. a share on the common stock omitted.

Boott (Cotton) Mills.—Quar. div. on the capital stock reduced from $2 a share to $1 a share.

Borden Co.—Extra dividends of 3% each paid in 1929 and 1930 omitted for the year 1931.

Boston Herald Traveler Corp.—Quar. div. reduced from 20c. a share to 10c. a share on the common stock.

Boston & Maine RR.—Quar. divs. of 1¼% on the 5% cum. 1st pref. stock, class A; of 2% on the 8% cum. 1st pref. stock, class B; of 1¼% on the 7% cum. 1st pref. stock, class B; of 1¾% on the 7% cum. 1st pref. stock, class C; of 2½% on the 10% cum. 1st pref. stock, class D; of 1⅛% on the 4½% cum. 1st pref. stock, class E, and of 1¼% on the 6% non-cum. plain pref. stock all omitted.

Briggs Mfg. Co.—Quar. div. on the common stock of 25c. a share as compared with 37½c. a share paid previously..

Broad Street Investment Co., Inc.—Quar. div. on the capital stock reduced from 30c. a sh. to 25c. a share.

(The) Broadway Market (Detroit).—Quar. div. of 20c. a share on the common stock omitted.

(E. L.) Bruce Co.—Quar. div. of 1¾% on the 7% cumul. pref. stock omitted.

Brunswick-Balke-Collender Co.—Quar. div. of 1¾% on the 7% cumul. pref. stock omitted.

Budd Wheel Co.—Quar. div. of 25c. a share on the common stock omitted.

Bulkley Building Co., Cleveland.—Quar. div. of 75c. a sh. on the 7% cumul. pref. stock omitted.

Burco, Inc.—Quar. div. of 75c. a share on the 6% cumul. pref. stock omitted.

(F.) Burkhart Mfg. Co., St. Louis.—Quar. div. of 55c. a sh. on the $2.20 cumul. pref. stock omitted.

Calhoun Mills, Calhoun Falls, S. C.—Quar. div. of $1 a share on the common stock omitted.

Cambridge Investment Corp.—Quar. divs. on the class A and class B stock decreased from 35c. a sh. to 25c. a share.

Canada Dry Ginger Ale, Inc.—Quar. div. on the common stock reduced from 75c. a sh. to 30c. a share.

Canadian Bakeries, Ltd.—Quar. div. of $1 a share on the $7 cumul. 1st pref. stock omitted.

(L. A.) Young Spring & Wire Corp.—Quar. div. on the common stock reduced from 50c. a share to 25c. a share.

THE COURSE OF THE STOCK MARKET DURING DECEMBER 1931

December again proved a period of great gloom in the stock market, and thus the year 1931 closed in a manner characteristic of that for which it will ever be distinguished in Stock Exchange history. It has been a period of almost constant depression, and it seems no exaggeration to say that for magnitude and extent of depreciation and its all-pervading nature, no class or group of share property being exempt, and bond prices having suffered even greater collapse than share properties, the year will stand as the most dismal ever known. And additional significance attaches to the further breakdown during 1931, because of the antecedent huge declines during the closing months of 1929 and during the calendar year 1930, these antecedent declines having themselves been of huge proportions and such as to make a very exceptional record in price declines all by themselves. As a matter of fact, in our review of the stock market for 1930, we described it as probably the most disastrous in Stock Exchange history, not imagining that anything worse would or could come the very next year. Without question this period of 27 months, extending through the last quarter of 1929 and the whole of 1930 and 1931, will ever stand as the bluest and blackest in the annals of security movements, bonds as well as stocks.

It was hoped that the year would redeem itself by some substantial rally or recovery in the closing month, so as at least to inspire hope of better things to come in the near future, leaving the outlook not altogether devoid of promise. There was some upward reaction in the closing days of the month and year, but it was of minor size, was fitful and irregular, and came only after heavy further declines in the early part of the month. Additional severe declines characterized price movements in both stocks and bonds during the first half of the month, and for some days thereafter, the low figures of the month and year being generally recorded on or about the 17th of the month. The average in the case of 50 stocks kept by the New York "Times," 25 of these being railroad shares and 25 industrial properties, all of them considered typical of the better grade of share issues and many of them classed in the past as gilt-edged, touched a low of 67.61 on Dec. 17, which compares with 173.07 on Feb. 24 1931, the high for the year, showing a decline of 105.46 points, and the recovery was only to 72.35 at the close on Dec. 31. These same stocks sold at a high of 245.60 on April 10 1930 and a high of 311.90 on Sept. 19 1929. A drop from a high of 311.90 in 1929 to 67.61 in December 1931 certainly constitutes a record of collapse which will always remain memorable. During December 1931 the range was from a high of 83.46 on Dec. 7 to a low of 67.61 on Dec. 17, with the close on Dec. 31 at 72.35, as already stated. In the case of the 25 industrial stocks the range was from 134.23 on Dec. 7 to 110.73 on Dec. 17, with the close Dec. 31 at 118.12. These 25 industrial properties, as against 110.73 on Dec. 17, sold at a high in 1931 of 251.22 on Feb. 24, a high of 358.16 on April 10 1930, and of 469.49 on Sept. 19 1929. The plunge, it will be seen, was from 469.49 in 1929 to 110.73 in December 1931, with a rally in the last few days of the month to 118.12, on Dec. 31. In the case of the 25 railroad stocks the range in December 1931 was from 33.77 on Dec. 1 to 24.49 on Dec. 17, with the close Dec. 31 at 26.59. The average of these 25 railroads was at a high in 1931 of 94.93 on Feb. 25, showing the extraordinary drop of over 70 points during this period and which reflects the desperate plight to which the railroads were reduced, and the recovery in the closing days of the year was only to 26.59, on Dec. 31, as just stated. In 1930 the average of these 25 railroad stocks reached a high of 136, on March 29, and in 1929 a high of 158.71, on Sept. 3.

In addition to the many general depressing influences which marked the course of the whole calendar year, and nearly all of which were closely related to or had their

gitized for FRASER
tp://fraser.stlouisfed.org/

origin in trade depression of unparalleled extent, there were some special depressing developments (having their origin, however, in the same set of circumstances and the same set of conditions) that served to send prices on a new downward plunge, with the result that the previous low of the year, established about Oct. 6, was once more broken through and a still lower level of prices established—as a rule on Dec. 17, as noted above. Among these special developments referred to foremost place must unquestionably be given to two events which occurred at the beginning of the month. Overnight on Tuesday, Dec. 1, came the startling announcement that the Wabash Ry., situated in the heart of the country, had been placed in the hands of receivers. This piece of news completely demoralized the bond market, which suffered perhaps greater depreciation than on any other occasion in recent years. Not only the Wabash issues, but bond issues of many other companies suffered declines running as high as 10 or 15 points. The stock market itself, while weak, did not fare so badly except in the case of the Wabash stocks and a few other low-priced shares. The Chicago Rock Island & Pacific omitted dividends on both issues of preferred stock about the same time, yet interest in the case of the stocks seemed to center more upon another piece of news, namely, that the Board of Conciliation in the case of the Canadian Railways had by a majority vote sustained a reduction of 10% in the wages of all classes of railroad workers. This, it was thought, would have an important bearing upon the negotiations for lower wages on the railroads in this country. Unfortunately, however, while this proved a temporary sustaining influence on the stock market, expectations built upon it were not realized and the whole month passed without any indication of definite progress having been made in getting wage schedules lowered, a step which in general estimation was considered an indispensible prerequisite to the rehabilitation of the railroads. Another event which came about the same time and which dealt a new blow to values was an announcement from Washington saying that the New York Central RR. had filed application with the Inter-State Commerce Commission for authority to issue $100,000,000 of refunding and improvement mortgage 5% bonds series C, to be dated Oct. 1 1921, and maturing Oct. 1 2013, but subject to call at 105 in 1951. It was not the size of the proposed new issue of bonds that created a new feeling of uneasiness, since the West Side improvement in this city alone, which the Central is carrying on, will entail expenditures of $150,000,000 or more, not to speak of the other projects in which the system is engaged, but that the company asked permission at the same time to pledge and repledge these new bonds from time to time as collateral security for short-term notes, and that the purpose was to pledge not to exceed $125 of bonds for each $100 face value of the notes thus to be secured. This meant that a railroad of such commanding position as the New York Central could not dispose of new bonds in the ordinary way, by a public sale, but was obliged to resort to the banks for temporary accommodation. At the same time it appeared that the $75,000,000 of 4½% refunding and improvement bonds due in 2013 which the Central had brought out the previous March at par were now selling on the New York Stock Exchange at only 61½.

As the month progressed there came further unfavorable developments which played their part in accentuating and continuing the downward course of prices. Not the least of these was a further recession in sterling exchange to a new low level since 1920 for the British pound sterling, attended also by further dividend reductions in a host of different corporations. In the railroad list the suspension of dividends by the New York New Haven & Hartford RR. attracted special attention, and this was followed later in the month by other dividend reductions. The Baltimore & Ohio RR. on Dec. 16 omitted declaration of its usual quarterly dividend, though it was pointed out that the company had already declared dividends the current year aggregating 3½% on the common shares. Missouri-Kansas-Texas passed the quarterly dividend on its 7% cumulative preferred shares. Towards the close of the month the Reading Co. reduced the quarterly dividend on its common stock, par $50, from $1 a share to 50c., and the Delaware Lackawanna & Western suspended dividends altogether for the first time since 1880. The President's message to Congress earlier in the month, indicating that Federal taxes would have to be heavily increased also served to accentuate the decline, while anxiety prevailed regarding the outcome of the conferences in Germany relating to German reparations payments and the further extension of Germany's short-term banking loans. The placing of an embargo upon gold exports by Japan, on Dec. 13, with the resulting collapse of the market value of the Japanese yen, naturally did not tend to brighten things. The further sharp decline in bond prices all around proved distressing as well as additionally depressing. Matters were made still worse by the fact that United States Government obligations shared in the general depreciation, all issues of United States obligations, with one single exception, selling at below par. Municipal obligations also fell into disfavor, and New York City, on temporary borrowing in the shape of $60,000,000 short-term issues, had to pay 5½% interest; last September, when $51,000,000 in three months' loans were negotiated, the borrowing was at a record low of 1⅞%. On top of it all, returns of railroad earnings for November showed frightful losses, the same as for previous months, while trade reports found business depression unrelieved.

Sales of stocks on the New York Stock Exchange for December aggregated 50,158,818 shares against 58,764,397 shares in December 1930 and 83,861,660 shares in December 1929. On the New York Curb Exchange the sales were 10,196,569 shares in December 1931, against 15,897,300 shares in 1930 and 26,816,900 shares in 1929. On the New York Stock Exchange no less than 935 stocks established new low records for the year in December, and 1,024 bonds were distinguished in the same way. On the New York Curb Exchange 678 stocks and 439 bonds reached new lows for 1931 in the closing month.

The general course of the stock market during the month has been indicated in the averages used above from the New York "Times." The drop in the case of many separate stocks deserves also to be indicated, at least for a few speculative issues. New York Central kept recording new declines almost every day, and on Dec. 9 touched a low of 24⅞, which compares with a high for the year of 132¼ on Feb. 24. In 1930 this stock sold as high as 192¾, and in 1929 at 256½. United States Steel fell from 55¼ Dec. 2 to 36 Dec. 18, and closed Dec. 31 at 38⅜, and this compares with a high for 1931 of 152⅝ on Feb. 26. In 1929 this stock sold at 261¾. American Tel. & Tel. declined from 131¾ Dec. 7 to 112⅛ Dec. 28, and closed Dec. 31 at 116¾; the previous February this stock sold at 201¾. Allied Chemical & Dye sold down from 78¼ Dec. 4 to 64 Dec. 17, and closed Dec. 31 at 68⅝. On Feb. 24 1931 the stock sold at 182¾; in 1929 it sold at 354¾. American Can sold down from 69½ Dec. 1 to 58⅛ Dec. 28, which compares with 129¾ the previous March.

In the case of bonds, the declines, as already remarked, have been as noteworthy as in the case of stocks, and in many instances even more so. It is to be observed, however, that very substantial recoveries ensued the latter part of the month, especially in the case of the high-class issues. One instance of the kind is seen in the Atchison general 4s; these dropped from 89¼ Dec. 1 to 81½ Dec. 16, and closed Dec. 31 at 87¾. These bonds sold as high as 101 May 23, and the decline from that figure to 81½ Dec. 16 furnishes a striking illustration going to show how in the general collapse even gilt issues suffered enormous depreciation. Of course the second grade issues fared worst of all, and there the record of collapse in values is a startling one. Some of these, now rated as second or third class issues, would hardly have been designated as such two years ago, when they still ranged high, particularly the railroad issues. Southern Railway general 4s series A dropped from 88¾ Feb. 19 to 27 Dec. 15, though they recovered to 41½. St. Louis-San Francisco consol. 4½s series A, as against 86 last January, touched 14¼ Dec. 2, with the close Dec. 31 at 19. Southern Pacific Co. 4½s of 1981, as against 94⅞ May 8, fell to 53½ Dec. 15, and Missouri Pacific general 4s, which in January sold at 75, touched 23 Dec. 15 and closed Dec. 31 at 34. And similar instances all through the list could be cited almost without number. The table below shows the fluctuations for the month of December in the case of a large number of separate issues:

Government Bonds.	*First Sale Dec. 1.*	*Range During December 1931.* Lowest.	Highest.	*Last Sale Dec. 31.*

THE MONEY MARKET DURING DECEMBER 1931.

A condition of considerable strain developed in the money market during December, the closing month of the year, though as far as rates are concerned this found reflection only in a slight rise in the call loan rate on the Stock Exchange, which, however, possessed greater significance owing to the fact that Stock Exchange borrowing has been reduced to moderate levels, and during December kept shrinking even still further. For a variety of reasons credit conditions became deeply disturbed and recourse to the Federal Reserve banks became a noteworthy feature of affairs. It seemed impossible to arrest the decline in security values and renewed weakness developed in both the stock market and the bond market, and especially the latter, where prices dropped lower even than the low figures recorded during October. The Government bond market in particular was depressed, both because of the unfavorable situation of Government finances, evidence of which appeared in greatly emphasized form with the convening of the new Congress in December, and also because the country was confronted with the necessity of frequent appeals to the money and the investing markets by the United States Treasury. Confidence, too, in things generally, owing to the lack of any signs of early recovery in trade, also had a disquieting effect, creating a disposition to take a very gloomy view of prospects, which sporadic new outcroppings of bank failures in different parts of the country served greatly to intensify. Then, also, constant demands for further credit inflation, with imperious demands in and out of Congress for new credit inflation as a possible remedy for the ills from which the country is suffering, tended to conjure up new doubts and uncertainties as to whither all this was to lead, and what the eventual outcome would be. At all events, anxieties began to crop up afresh in all directions and to create a state of great bewilderment, and the Federal Reserve banks were called upon for a great deal of additional assistance, and seemed inclined at the same time to add to the volume of Reserve credit outstanding in the purchase of Government securities and bankers' acceptances in the open market. The "Monthly Review" of the New York Federal Reserve Bank, issued under date of Jan. 1, points out that the amount of Federal Reserve credit outstanding increased over $300,000,000 between Dec. 9 and Dec. 30. In the first week of this period the increase was in the form of special day-to-day cerificates of indebtedness, representing temporary borrowing by the United States Government pending the collection of the income tax receipts. Following the repayment of these certificates, in the week ended Dec. 23, Reserve bank discounts for member banks increased more than $200,000,000, about half of which was in New York and the remainder in other parts of the country, and at the year-end there were substantial offerings of bills and Government securities to the Reserve banks, and also a further temporary increase in member bank borrowings in anticipation of year-end statements. The New York Reserve Bank explains this situation by saying that during December there were the usual demands upon the banks incident to the holiday trade and the year-end, including a demand for approximately $225,000,000 of currency, fourth quarter income tax collections, and preparations for the year-end corporation and bank statements. These requirements, we are told, assumed somewhat more than their usual significance because a large number of member banks throughout the country entered December with a substantial amount of indebtedness at the Reserve banks, due to the gold and currency withdrawals of the early autumn.

Underlying all this, however, there were many unusual and exceptional conditions betokening a highly unsettled state of things growing out of the period of stress through which the country has been passing, and these are discussed as follows by the New York Reserve Bank:

"During the past month there has been a continued decrease in the volume of bank credit in use. In the second week of December the total loans and investments of weekly reporting member banks of the Federal Reserve System declined to a volume $2,500,000,000 smaller than a year previous, and the deposits of these banks showed an accompanying decline of about $3,000,000,000. These weekly reporting banks, which are located in the larger cities and have approximately half of the total deposits of all commercial banks in the United States, showed little decline in their credit advances until the movement had been in progress in country banks for some time. Their loans and investments have now shown, however, an almost continuous decline since last March. In fact, their loans have been declining since the autumn of 1930, but the decline in loans was offset for several months by an increase in investments.

"Since September the tendency toward credit reduction has been accelerated, as a decrease of investments has been added to the reduction in loans. This accelerated decline started with heavy withdrawals of deposits from the banks, a considerable part of which represented the funds of foreign depositors, following the suspension of gold payments by Great Britain in September. The ensuing rise in money rates was accompanied by a decline in the prices of high grade securities, and this decline in security values, together with the loss of deposits, appears to have set in motion a cycle of credit reduction which continued after the immediate cause ceased to operate. Individual banks sold bonds or reduced their loans in order to strengthen their position. The result, however, was a further decline in the market value of investment securities and a loss of deposits by other banks, so that those banks also considered it necessary to strengthen their position by selling securities or reducing their loans. This action, in turn, while strengthening for the time being the position of individual banks, merely passed the burden along to other banks and tended to perpetuate and make progressively larger the losses of deposits and the decline in market value of bank assets for the banking system as a whole.

"At the middle of December this movement was interrupted by subscriptions to new issues of Government securities, which resulted in a net increase during the week ended Dec. 16 of $340,000,000 in the Government security holdings of the reporting member banks, but part of this increase was lost in the following week. Prices of long-term United States Government bonds declined in December to levels about 10% below those prevailing a few months ago; and corporation bonds showed still larger declines. With year-end and holiday demands for funds impending and a general feeling of caution prevailing, the demand for investment securities was limited so that the security markets did not show their usual ability to absorb offerings, and prices reacted to any liquidation of investment holdings. Trading was in such small volume, however, that quoted prices were purely nominal."

Call loans on the Stock Exchange remained unchanged at 2½% (this being the figure both for renewals and for new loans) until Friday, Dec. 18, when, after renewals had again been put through at 2½%, the rate for new loans advanced to 3%. The following Monday, Dec. 21, all loans were at 3%, including renewals, and there was no deviation from that figure thereafter until Wednesday, Dec. 30, when, after renewals had again been effected at 3%, the charge for new loans was raised to 3½%. On Thursday Dec. 31, all loans were at 3½% including renewals. In the early part of the month when the prevailing rate on the Stock Exchange was 2½%, banking house funds were available every day at 2% or a concession of ½ of 1% from the official rate. When the Stock Exchange rate moved up to 3% loans for a day or two were obtainable outside

gitized for FRASER
tp://fraser.stlouisfed.org/

the Stock Exchange at 2¼%. After that, however, there were no offerings at any time at concessions from the Stock Exchange rate. Time money on security collateral remained inactive with little or no demand for this class of accomodation. In the first two weeks of the month rates for time loans for all dates from 30 days to 6 months were at the uniform figure of 3@3½%. Beginning on Dec. 14, the quotation for all dates was 3@4%. These quotations, however, were entirely nominal and in the absence of any demand for this class of accomodation every transaction received individual treatment, though all appeared to have been within the range given. Quotations for commercial paper remained unchanged. The demand for prime paper the latter part of the month was extremely light and while there was very little paper available the supply then was adequate for all requirements. Quotations for choice names of 4 to 6 months maturity continued at 3¾@4¼%. Names less well-known were 4½%. On some very high class 90-day paper an occasional transaction at 3½% continued to be noted. The New York Reserve Bank says that during December the bank investment inquiry for open market commercial paper continued in small volume and was concentrated on choice material of short maturities. This class of paper remained scarce, it is stated, as in fact were all drawings of paper, reflecting in part at least the usual seasonal tendency toward a reduction in the outstanding amount of paper on the approach of the year and statement date. On Nov. 30 outstandings of commercial paper amounted to $174,000,000, according to reports received from dealers by the New York Reserve Bank. This total, it is stated, was 17% smaller than the amount outstanding at the end of October and 61% less than in November 1930.

There was no change during the month in the rates for bankers acceptances which remained at 3⅛% bid and 3%asked for bills running 30, 60 and 90 days; 3¼% bid and 3% asked for bills running 120 days and 3⅜% bid and 3⅝% asked for bills running 5 and 6 months. There was a good demand for acceptances on the part of foreign central banks who do their buying through the Federal Reserve institutions, but nevertheless the market for acceptances was quite slow most of the time and especially the latter part of the month when the small supply of paper proved sufficient to meet all demands. The bill buying rate of the New York Reserve Bank remained unchanged at 3% on maturities up to 45 days and 3⅛% on maturities of 46 to 90 days. The New York Reserve Bank has the following to say with reference to the conditions prevailing in the acceptance market during the month.

"The supply of bankers bills offered to the discount market increased somewhat in the first part of December, and dealers' portfolios of bills tended to expand, though they remained of comparatively small volume up to the middle of the month. During this period, foreign buying of bills was accelerated, the Federal Reserve Banks' holdings of bills for foreign correspondents increasing $80,000,000 between December 2 and 16, but investment demand from domestic sources declined considerably. In the third week of the month, slightly firmer conditions in the money market were reflected in a further increase in offerings of bills to dealers and a smaller aggregate investment demand, and dealers' holdings of bills consequently showed a considerable rise. The dealers felt it unnecessary, however, to raise their rates for bills, which were offered throughout December at 3% for maturities up to 120 days and 3⅝% for five and six-month maturities.

"Holiday and year-end demands for credit and currency reached their peak in the last week of the month, and, for the first time since October, bills were offered in volume to the Reserve Banks. Bills were sold by the banks directly to the Reserve Banks and also to the dealers, who by tendering the bills to the New York Reserve Bank under repurchase agreement supplied Federal Reserve credit to the money market indirectly; consequently, the System's total portfolio of acceptances increased $70,000,000 in the week ended December 30, after having shown a continuous decrease totaling $512,000,000 in the previous 9 weeks."

The American Acceptance Council in its monthly statement issued Dec. 15, showed a reduction again in the volume of acceptances outstanding, the amount Nov. 30 being reported at $1,002,304,705 as against $1,039,784,979 Oct. 31, and as against $1,571,417,674 12 months before on Nov. 29 1930. Robert H. Bean, Executive Secretary of the American Acceptance Council, in his analysis of the figures remarks that "of particular note is the reduction for the month of $32,117,851 in the market volume of bills against credits based on goods stored in or shipped between foreign countries. A large proportion of these bills, he says, are from German credits and the steady drop in total in recent months, from $493,643,884 on June 30 to $298,365,420 on Nov. 30, indicates how rapidly the problem of frozen credits is being solved so far as this concerns the bills in the open market."

THE RETURNS OF THE FEDERAL RESERVE AND MEMBER BANKS—BROKERS' LOANS.

The weekly returns of the Federal Reserve Banks during December showed that Federal Reserve credit was being freely employed and extended, and that, indeed, decided inflationary tendencies were developing, in sharp distinction from the improvement in that particular which appeared to be in evidence during November. The 12 Reserve institutions greatly increased their holdings of discounts, enlarged their holdings of acceptances purchased in the open market, and also added materially to their holdings of U. S. Government securities. The result altogether was a huge expansion in the volume of Reserve credit outstanding. The underlying reasons for all this have already been indicated in our discussion of the money market a little further above and accordingly all that it is necessary here is to cite the figures. The discount holdings, representing member bank borrowing, as against $686,401,000 Nov. 25 and $717,567,000 Dec. 2, increased to $1,024,133,000 Dec. 30. How different in that respect the situation was from that at the end of 1930 will appear when we say that as against $1,024,133,000 on Dec. 30 1931, these discounts 12 months before, on Dec. 31 1930, aggregated no more than $251,398,000. The holdings of acceptances during December first continued their downward courses decreasing from $479,798,000 Nov. 25, to $257,351,000 Dec. 23, but from this there was an increase to $326,975,000 on Dec. 30. The holdings of U. S. Government securities increased from $717,021,000 Dec. 2 to $803,228,000. The result altogether was that total bill and security holdings, which constitute a measure of the volume of Reserve credit outstanding, stood at $2,185,216,000 Dec. 30 as against $1,888,227,000 Dec. 2. The expansion was the more noteworthy as the bulk of the increase occurred in the last week of the month, when the bill and security holdings jumped from $1,957,221,000 Dec. 23 to $2,185,216,000 Dec. 30. Here again the contrast with a year ago is noteworthy, the aggregate of the bill and security holdings for Dec. 31 1930 having been only

gitized for FRASER
http://fraser.stlouisfed.org/

$1,351,852,000 thus showing an expansion for the 12 months in the large sum of $833,364,000.

Gold reserves increased somewhat during the month, rising from $2,941,570,000 Dec. 2 to $2,987,564,000 Dec. 30, but this was not sufficient to offset the increase in deposits and Federal Reserve notes and deposit liabilities and accordingly the ratio of total reserves to Reserve note liabilities combined dropped Dec. 30 to 61.9% as against 66.1% Dec. 9 and 65.6% Dec. 2. Twelve months before, on Dec. 31 1930 this ratio was 73.7%. The amount of Federal Reserve notes in circulation increased from $2,478,130,000 Dec. 2 to $2,661,206,000 Dec 23 and was $2,613,104,000 Dec. 30, which latter was not far from a billion dollars in excess of the amount 12 months before on Dec. 31 1930, when the amount of Reserve notes in circulation was reported as only $1,663,538,000. As already noted further above in our discussion of the money market, foreign holdings of acceptances steadily increased as appears from the fact that the Federal Reserve returns show a contingent liability by the Federal Reserve banks on bills purchased for foreign correspondents of $248,529,000 Dec. 30 1931, as against only $117,650,000 Nov. 25. Simultaneously deposits of foreign banks were reduced from $145,656,000 Nov. 25, to $77,259,000 Dec. 30.

Changes in brokers loans call for little comment as the amount borrowed is now down to very low figures and the amount still keeps decreasing. For Dec. 30 the reporting member banks in New York City show brokers loans as only $591,000,000, against $720,000,000 Dec. 2. The monthly statement of Stock Exchange borrowings as compiled by the New York Stock Exchange itself, in like manner shows further contraction, the total of such borrowings by Stock Exchange members for Dec. 31 being reported at $587,159,813 against $730,151,908 on Nov. 30; $796,268,768 on Oct. 31; $1,044,407,879 on Sept. 30 and $1,354,067,350 Aug. 31.

COURSE OF STERLING EXCHANGE DURING DECEMBER.

Sterling exchange moved erratically during December and touched new low figures, partly as the result of seasonal influences, but chiefly because of uncertainty regarding the stabilization of the pound sterling, now so greatly depreciated. On Tuesday Dec. 1, cable transfers on London which during November had declined from $3.83½ on Nov. 10 to $3.39 Nov. 30 dropped still lower and touched $3.29½. This brought the rate close to the post war low figure of $3.18 touched on Feb. 4 1920. A brisk upward rebound brought the rate the next day (Dec. 2) back to $3.45. The recovery however did not hold and on Monday Dec. 7, the rate dropped still lower, touching $3.24¼. These declines were traced to a number of different causes. Primarily December is normally the time of year when pressure on sterling increases, owing to large imports of foodstuffs and raw materials, particularly from the United States. Inasmuch as gold, owing to Great Britain's passing off the gold standard, is not employed automatically to ease the exchange situation through gold exports, such seasonal imports of goods exert an unusual influence on exchange rates. The weakness of sterling exchange was also due to heavy imports movement of goods in anticipation of the higher British tariffs. Such imports, it is believed, were largely instrumental in depressing sterling rates. In addition sales of sterling on a considerable scale were being made by holders inclined to withdraw funds from London even at a great sacrifice, because of Great Britain's suspension of the gold standard and the resulting great depreciation in the price of the pound. One instance cited as an example of that kind was the case of the Bank of the Netherlands in Holland. This bank in referring to its statement as of Sept. 27, stated that after negotiations with the Bank of England it was found that the latter was not inclined to make good the depreciation in sterling exchange held by the Netherlands bank. As a result, the Netherlands bank was unwilling to take risks of further declines in sterling and started negotiations with the Dutch government with the result that the Government took over a part of the Netherlands Bank sterling exchange for use in the redemption of the Dutch East Indian Sterling loans at a later date. Transactions of that kind found their parallel in many other similar instances. In other words, the pound sterling was sold in all markets by many large holders of sterling anxious to realize even at a great loss. Another factor depressing sterling has been general apprehension over the Central European situation and the outcome of the Franco-German negotiations as well as the parleys regarding German reparation payments and the renewal and extension of German short term loans. The course of sterling exchange was irregularly upward after the break to $3.24¼ on Dec. 7, and on Dec. 16 cable transfers sold as high as $3.46¾ but on Friday Dec. 18 took a sudden plunge downward again to $3.33¾. After that there was improvement again owing, it was believed, to considerable transfers for gift remittances usual at the Christmas season. It was also indicated that some of the banks called funds home from abroad for window dressing purposes in order to make a good showing in their statements at the end of the year.

But these proved only temporary sustaining influences and the overuling consideration remained the uncertainty regarding the stabilization of the pound sterling. Cable transfers Dec. 31 were quoted at a range of $3.38@$3.39¾. Prime Minister Ramsay MacDonald made it plain that there would be and could be no haste in the attempt at stabilization. He informed the House of Commons on Dec. 9 that it would be madness to attempt stabilization of sterling before adjustment of the international factors which controlled exchange values. He referred hopefully to the conference of governments which was to follow the Basle meeting of the Advisory Committee of the Bank for International Settlements. "We regret the delay in bringing the nations together at a conference table to settle the question of international debts that lies at the basis of our currency position" the Prime Minister said. "We are convinced that any move to hasten the matter on our own initiative would be fruitless. But we are sure the able experts now sitting at Basle (these experts later rendered their report showing that Germany was unable to make the reparations payments required of her) are fully aware of the urgency of their task and will produce a report with the greatest expedition possible. Thereafter a conference of governments will be held, and in the opinion of this government immediate action should be taken after the report of the experts is received. That conference must approach its task in a spirit of realism, examine all the facts and reach an agreement not merely to tide over the difficulties temporarily but to link the whole world in a hopeful effort."

The British Treasury decided on Dec. 1, to maintain its fiduciary issue—that part of the note issue not covered by gold—at £275,000,000. The authority of the Bank of England to issue fiduciary bank notes to that amount was extended until Dec. 14. The issue had been increased by £15,000,000 on Aug. 1. The announcements set at rest rumors that the Treasury intended increasing the fiduciary issue in view of the Christmas demand for currency. London advices Dec. 14 stated that the British Treasury had extended the maintenance of the fiduciary issue at £275,000,000 until Jan. 31 1932. The Bank of England continued to show small losses in its gold holdings from week to week. For the week ending Dec. 9 the loss was £82,104; for the week ending Dec. 16, £88,876; for the week ending Dec. 23 £75,096; and for the week ending Dec. 30 £4,547. There seemed to be expectations of considerable arrivals of gold from India. According to one estimate quoted in a dispatch to the New York "Herald Tribune" on Saturday Dec. 26, as much as £75,000,000 may be shipped in 1932. Some amounts of the metal were received during December. The gold from India, however, did not stay in London upon its arrival, but was immediately sold and transhipped just as are receipts of South African gold when sterling exchange is too low to permit the Bank of England to compete in the open market. $3,000,000 of gold from British India reached the United States during December.

The gold movement during December to and from the United States is summarized as follows by the Federal Reserve Bank of New York.

"The monetary gold of the United States continued to increase during the first three weeks of December, and showed only a moderate net reduction in the final week, with the result that a total increase of about $40,000,000 was reported for the month. As the diagram indicates [We omit this.—Ed.], the increase in the gold holdings of this country that occurred in the first nine months of the year has been resumed following the large outflow of late September and October, so that the net loss of gold for the year 1931 has been reduced to about $135,000,000.

"The month's gain in the gold stock reflected principally further imports from Japan at San Francisco, which amounted to $68,000,000, thereby increasing to $168,000,000 the total received from that country since mid-October. In addition, $1,000,000 was received from Australia and $500,000 from China at San Francisco. At New York, imports amounted to $17,700,000, of which $4,600,000 came from England, $4,000,000 from Canada, $2,000,000 from Colombia, $3,000,000 from British India, $1,800,000 from Cuba, and $900,000 from Mexico. Exports totaled $32,200,000, of which $15,000,000 went to France, $10,200,000 to Holland, $5,700,000 to Belgium, and $800,000 to Switzerland, and there was a net increase of $22,800,000 in the amount of gold held under earmark for foreign account.

"During December a total of over £1,000,000 of gold arrived in the London market principally from South Africa, of which £440,000 was taken for the United States, £485,000 for the Continent, and the balance for an undisclosed destination at varying prices."

Canadian exchange ruled at a severe discount all through the month of December and, what is more, the discount kept steadily increasing, checks on Canada here at New York being quoted at a discount as high as 20½ cents Dec. 15 which compares with 13⅞ cents on Dec. 1; on Dec. 31 the discount ranged from 17¼ cents to 16 11/16 cents.

THE CONTINENTAL AND OTHER FOREIGN EXCHANGES.

Outside of sterling exchange there were two outstanding developments in the foreign exchanges during December. One of these was the declaration of a moratorium on about two-thirds of its foreign debt by Hungary and the other was the virtual abandonment of the gold standard by Japan through the placing of an embargo on further gold exports. However, attention was mainly concentrated on the situation in Germany, where, as related in the earlier part of this article, two important committees were at work in determining Germany's financial condition,

gitized for FRASER
p://fraser.stlouisfed.org/

(1) The Advisory Committee appointed by the bank for International Settlements under the Young plan to determine Germany's ability to continue reparations payments after the expiration of the Hoover moratorium on July 1 1932 and the other the committee of private bankers headed by Albert H. Wiggin for arranging an extension of the short term indebtedness of Germany embraced in the so-called "stillhaltung" or "freezing agreement" which expires Feb.29. The Advisory Committee of the Bank for International Settlements made its report during the month, just before Christmas, placing a very low estimate on the capacity of Germany to make reparations payment, the details of which appear in the early part of this article, but the private bank Committee was still holding the short term debt question under consideration at the close of the month. The German Government and bankers manifested every indication of a desire to meet the foreign obligations. Complete repayment, immediately, however, of the short term debt was considered an impossibility and it was apparent that payment would have to be spread over a period of time. The task of the private bank committee was largely that of formulating a procedure of gradual liquidation which would best meet the requirements of both debtor and creditor. Chancelor Bruening's Government issued a very drastic new series of decrees on December 8 having an important bearing on the business and economic affairs of Germany such as cuts in rents, commodity prices, wages, salaries, interest rates &c., all with the purpose of exercising complete control of financial movements.

As a result of the decrees, or in keeping with their spirit, the Reichsbank on Dec. 10 reduced its discount rate from 8% to 7% and its Lombard rate (or interest on security loans) from 10% to 8%. The private banks in turn reduced overdraft charges from 12% to 10% and the interest credit from 5% to 4%. One decree also provided for the issuance of new 4-pfennig coins worth approximately one cent. A new Germany coinage program calls for the minting of 100,000,000 marks of silver coin requiring 8,000,000 ounces of metal. The silver was reported as already on hand.

The Bank of Germany showed a gain in gold and bullion for the first quarter of December of 188,000 marks, but reported losses in the succeeding quarters, that of the second quarter being 2,942,000 marks, that of the third quarter 17,288,000 marks and that of the final quarter 931,000 marks. This brought the gold holdings down to 983,955,000 marks, or the lowest figure of the year. On May 30, before the bank became involved in its difficulties, the amount of these gold holdings was 2,390,327,000 marks. Reserves in foreign currencies, however, increased in the last half of the month. For the first quarter of December there was a trifling increase in these reserves, namely 196,000 marks, but followed by a decrease in the second quarter of 12,111,000 marks, while in the third quarter there was an increase of 11,461,000 marks and in the final quarter an increase of 2,482,000 marks. Note circulation decreased 49.027,000 marks in the first quarter, 53,439,000 marks in the second quarter and 26,006,000 marks in the third quarter, followed however, by the usual big increase in the fourth quarter, this increase reaching 263,645,000 marks. The demand for money in the holiday season, which money is expected to flow back to the bank in short order, was held largely responsible for the size of the expansion and there was of course also an extra demand incidental to the close of the month and the close of the year. The ratio of reserve to outstanding circulation was down to 24.2% at the end of the year. Exchanges rates on Berlin fluctuated more or less during the month, but not within a wide range, and the fluctuations were not considered of any great consequence, since the market for marks continued to be more or less a nominal affair, owing to the severe restrictions on exchange and on financial operations generally in Germany. Cable transfers on Berlin were quoted at 23.73@23.80 on Dec. 31 as against 23.74@23.78 Dec. 1. After three months suspension members of the Berlin Boerse were permitted for the first time on Dec. 17 to meet for an hour, but they were pledged not to engage in deals.

Hungarian exchange is at all times of minor importance in the New York market. Special interest, however, attached to it in December because of the declaration of a moratorium on two-thirds of the Hungarian foreign debt, as already referred to on Dec. 22. Hungary will pay most foreign debts in pengos (Hungarian currency) instead of in foreign currency, but will continue to pay, it was announced, the interest amortization in foreign currency on the League of Nations loan of 1924, so far as exchange supplies allow. Baron Koranyi, the new Finance Minister of Hungary, declared a few day previously that Hungary would maintain the gold standard instead of pegging the currency to sterling or letting it drift. This latter point was considered to be a victory for France, which has been active in resisting the tendency to abandon gold wherever it arises. The market for Hungarian currency is largely nominal. It has been steady for a long time around 17.50. The par of the pengo is 17.49. Officials of the Bank for International Settlements on Dec. 16 notified the Hungarian Government that the $20,000,000 loan granted by a consortium of ten Governments to Hungary, which was to fall due Dec. 18 would be extended to a certain date, but which was not made public. Because of the difficult situation of Hungary, however, Basle advices said that it was feared that this extension would be insufficient to make any material difference in the status of Hungarian finances which were known to be very precarious. The Federal Reserve Bank of New York on the same day announced that it had renewed its participation in the $20,000,000 credit extended to the Central Bank of Hungary.

French francs showed a rising tendency and moved above the gold export point from this country and the Federal Reserve Bank of New York reports that $15,000,000 gold was exported to France during December, besides which there was a net increase of $22,800,000 in amount of gold held under earmark for foreign account, which presumably also was largely for French account. An abrupt decline, however, in the rate of the franc on Dec. 29 would appear to have put an end to the French takings of gold at New York at least for the time being. Cable transfers on Paris, as against 3.91 Dec. 1 sold as high as 3.93¾ on Dec. 18 and hovered above 93 for every day thereafter until the day after Christmas, when it began to move downward again and on Dec. 29 touched 3.91¾, with the range on Dec. 31 at 3.92⅛@3.92 9/16. The market in French exchange has been thin for some weeks and the gold shipments from New York served to force the rate below par very readily. Most of the gold coming to the London open market, according to cable advices, is being reshipped to Paris for French account. The greater part of the gold comes from either South Africa or India.

The French Chamber of Deputies on Dec. 15 approved the Government's project for reimbursing the Bank of France for its losses in sterling exchange resulting from the decline in the pound after Great Britain abandoned the gold standard. It was stated that in its year-end report of Dec. 24 the Bank of France was expected to account for a loss of $100,000,000 suffered by it during the autumn from the slump in sterling. Unable longer to ignore the loss, and facing Great Britain's reluctance to stabilize sterling, the French bank was obliged to ask the French Treasury to share in the responsibility. It was to help the Treasury that the Bank of France bought foreign currency on a large scale in 1927 and 1928. At the moment of stabilization these French purchases of foreign currencies totaled approximately, it is stated, $1,720,000,000. A large part was later transformed into gold or otherwise liquidated. When sterling went off the gold basis the Bank of France still held £62,000,000 upon which the loss is estimated at 2,500,000,000 francs. The French Senate passed the measure on Dec. 23 after a heated debate and after making some amendments. The Bank of France declared a dividend of 150 francs net for the second half of the year, which, together with 235 francs for the first half, made a total dividend of 385 francs for the entire year, compared with 620 francs in 1930; 529 in 1929 and 350 in 1928. The Bank of France in its statement for the week ending Dec. 4 reported an increase in gold holdings of 109,442,390 francs, a further increase of 39,939,696 francs in the week ending Dec. 11, of 70,188,167 francs in the week ending Dec. 18, of 417,477,969 francs in the week ending Dec. 24 and of 382,000,000 francs in the week ending Dec. 31.

In view of the constant reports that other countries contemplated suspension of gold payments, it seems important to note that Baron Maurice Houtart, the Finance Minister of Belgium, said on Dec. 23 that the Belgium cabinet never had considered and did not intend to consider devalorization of the Belgium franc. The gold standard was the beginning and end of Belgium's financial policy, he said. Cable transfers on Antwerp fluctuated much in the same way as French francs. As against 13.88 Dec. 1 cable transfers on Antwerp reached 13.94½ Dec. 24 but dropped to 13.89 Dec. 30 and was 13.89½@13.90 on Dec. 31.

Italian exchange fluctuated rather widely the latter part of the month when considerable weakness developed. Cable transfers on Italy Dec. 31 were down to 5.07@5.10 as against 5.15½ on Dec. 1. However, there appeared to be no special reason for this and the Government expressed a determination to hold down the note issue of the Bank of Italy to the lowest level possible, and, as a matter of fact, nearly every return of the Bank of Italy showed a small decrease in note circulation. While exchange on Czechoslavakia continued quiet and unchanged, as for a long time previously, it deserves to be noted that the National Bank of Czechoslavakia on Dec. 22 reduced its rate from 6½% to 6%, this being the only change in any central bank rate in Europe during the month aside from the reduction in the rate of the Bank of Germany.

Exchange on the countries neutral during the war moved somewhat erratically. Both Swiss francs and Holland guilders moved lower the latter part of the month after having shown increasing firmness during the early portion. Cable transfers on Switzerland, as against 19.42 Dec. 7 sold as high as 19.54 on Dec. 26 but dropped back to 19.48 Dec. 30 and were 19.50@19.53½ Dec. 31. Cable transfers on Amsterdam after selling up from 40.27 Dec. 1 to 40.46 Dec. 11 dropped to 39.99 Dec. 15 and were 40.09@40.12 Dec. 31. The Bank of the Netherlands announced at the opening of the month that no dividends would be paid for 1931 because of heavy losses through the fall of the pound. This, Amsterdam advices said, had seldom, if ever, happened in the history of the Netherlands Bank. To liquidate its considerable

gitized for FRASER
http://fraser.stlouisfed.org/

holdings of pounds without weighing too heavily upon the market, the Bank, it was stated, had made an agreement with the Dutch Government whereby the Government would take over the holdings at a fixed rate for amortization of a Dutch-Indian loan quoted in pounds sterling.

Exchange on the Scandinavian centers was disturbed by the suspension of a number of Norwegian private banks. Announcement from Washington on Dec. 16 reported that two of the largest private banks in Norway had been forced to suspend payments the day before and that the Norwegian Government had granted the banks a three months moratorium. Norwegian exchange dropped sharply as a result. The suspension of the Norwegian banks also led to a drop in Dutch exchange and reports were current in Wall Street that Holland would soon pass off the gold standard, though there appeared to be no basis for the rumor. It was declared in banking quarters that other European countries had drawn heavily on Holland in fear that Dutch funds were being tied up in Norway. Sharp recoveries ensued, however, when it appeared that the different rumors were baseless. The early part of the month the Scandinavian exchanges were weak because of the break in sterling. Cable transfers on Norway, as against 18.59 Dec. 1 was down to 17.92 Dec. 8 owing to the decline in sterling and then sold up to 19.20 Dec. 14 but dropped back to 18.36 Dec. 18 on the bank failures and was 18.55@18.75 Dec. 31. Swedish exchange went through similar gyrations, cable transfers on Sweden dropping from 18.90 Dec. 2 to 17.95 Dec. 7; the rate then mounted to 19.50 Dec. 14, after which it moved irregularly downward again with the rate Dec. 31 18.90@19.01. Exchange rates on Denmark pursued the same irregular course. It will be remembered that the currencies of Norway, Sweden and Denmark all followed the pound sterling in going off the gold standard. Spanish exchange after further weakness the early part of the month showed recovery the latter part, though the improvement was not fully retained. On cable transfers the peseta as against 8.40c. Dec. 1 dropped as low as 8.22⅝ Dec. 8, but then rebounded to 8.52½ Dec 17, with the close Dec 31 at 8.45½@8.47½. There were reports that the Spanish authorities were considering the withdrawal of the Central Control Bureau from foreign operations.

Exchange on the South American countries continued inactive. All are hampered by interference on the part of government exchange control offices. Most of the South Americans are only nominally quoted, with practically no transactions of any kind except surreptitious trading outside the law. Professor Edwin W. Kemmerer, of Princeton University, returned to New York on Dec. 28 from Lima, Peru, where he had attended a conference of the Central banks of Peru, Bolivia, Ecuador, Chile and Colombia. Professor Kemmerer said: "The conference dealt only with central bank problems. All the countries represented reaffirmed the use of the gold standard and passed resolutions pleading for greater world co-operation in maintaining its usage." Peru and Ecuador, he said, are actually on a parity, but Colombia, Chile and Bolivia are only nominally on the gold standard. Advices from Buenos Aires continue to discuss a temporary stabilization of the peso at around 25.00, compared with the present par of the paper peso at 42.45. The stabilization, it is admitted, is merely a de facto stabilization pending legal measures to make the level permanent, should events in the future indicate the wisdom of stabilization de jure at this point. In the meantime it is believed that the Government will limit note circulation to 1,200,000,000 paper pesos and at the same time limit the minimum gold reserve to 250,000,000 gold pesos. On Dec. 14 the Argentine note circulation amounted to 1,212,675,832 paper pesos, against which was a gold reserve of 269,326,878 gold pesos and rediscounts of 315,830,223 paper pesos. With the new limit to the gold reserve the Government will have available, based on the report of that date, 19,326,878 gold pesos (par of the gold peso is 96.48) for service on the external funded debt. This, it is estimated, will be sufficient to last for the next six months, but local banking circles do not believe that the Government will permit shipment of gold for service on State obligations. This belief is based on the fact that upon the exhaustion of the surplus stocks in the Caja de Conversion above the legal minimum, the Government will be compelled to depend upon purchases of exchange in the open market, which will complicate the problem of holding the paper peso stable at 25.00. The probable course of events hinges largely upon the Argentine crops and world grain prices. Any improvement in the price of grain will automatically provide the Government with more exchange and relieve the pressure upon the peso. Brazilian customs duties are now collected entirely in gold and banking circles regard this as the first step toward the gradual building up of a Brazilian gold reserve

which has been completely depleted through service on foreign obligations. The contemplated central bank of issue, as outlined by Sir Otto Niemeyer in his report on Brazil, would require a 30% gold reserve against notes in circulation and other demand liabilities. There were no striking changes in any of the South American exchanges during December, but the Argentina pesos developed growing firmness, with the pesos or cable transfers quoted at 25.75@26.00 Dec. 31 against 25.50@26.00 Dec. 1.

In exchange on the Far East the feature was the decline in the Japanese yen following the change in the Japanese ministry and the placing of an embargo on gold export from Japan. The resignation, on Dec. 11, of the Japanese Cabinet headed by Premier Baron Reijiro Wakatsuki in response to the criticism of its policy on foreign affairs and its financial policy, was followed on Dec. 13 by the issuance of a decree placing an embargo on exports of gold. Stating that the embargo on gold exports meant in effect the suspension of the gold standard, a cablegram from Tokio, Dec. 13, to the New York "Journal of Commerce" also said:

Despite the embargo the Yokohama Specie Bank, Inc., is shipping an additional $15,000,000 to New York. The balances to be created by these shipments will be used to meet debts payable in foreign currencies. The new Premier, Tsuyoshi Inukai, is understood chiefly to represent an industrial group.

A statement issued by the Japanese Financial Commissioner and cabled to New York yesterday stated that obligations of Japan payable in dollars will be serviced as in the past. The decree issued in Japan prohibits the shipment of gold coin leaving Japanese notes convertible internally into gold.

The fact that the Yokohama Specie Bank is shipping another $15,000,000 to the United States was taken to indicate that debts payable in domestic currency would be discharged promptly and in full. It was pointed out in local banking circles that the Yokohama Specie Bank already holds large dollar balances.

Yen exchange declined sharply as a result of the gold embargo, and the last few days of the month completely collapsed, so that the rate for checks on Yokohama Dec. 31 was down to 35.06@35¼ as against 49 9/16@49¾ on Dec. 1. The Chinese exchanges, on the other hand, the latter part of the month moved upward, presumably on the recovery in the price of silver. The Hong-Kong dollar, from 24.44 Dec. 9, advanced to 26 5/16 on Dec. 17, and was 25.31@25⅜ Dec. 31. The tael for checks on Shanghai, after dropping from 32.50 Dec. 1 to 31¾ Dec. 3, rose to 34.63 Dec. 17, and was 33.19@33.63 Dec. 31. Rupees on Bombay moved irregularly up and down, and were 25.81@26.00 Dec. 31 against 25.06@25.75 Dec. 1, after having sold as high as 26.81 Dec. 15 and as low as 24.69 Dec. 7. The price of silver in London, as against 18 13/16 Nov. 30, sold as high as 20 11/16 Dec. 8, and after dropping back to 19 13/16 Dec. 14, and then advancing to 20 7/16 Dec. 19, was 20 3/16 Dec. 31.

New York Stock Exchange

MONTHLY AND YEARLY RECORD

RANGE OF BOND PRICES DURING DECEMBER 1931.

Bond Sales.	1931.	1930.	*Stock Sales.*	1931.	1930.
December	$332,458,950	$263,444,400	December *Shares*	50,158,818	58,764,397
Jan. 1 to Dec. 31	3,050,608,850	2,763,567,550	Jan. 1 to Dec. 31	576,818,412	810,038,161

The tables on pages 16 to 38 furnish a complete record of the transactions on the New York Stock Exchange during December and range for year 1931. They need no extended introduction, as they are self-explanatory. The tables embrace every security dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. The black-faced letters in the column headed "*Interest Period*" indicate in each case the month when the bonds mature.

In accordance with the rule adopted by the New York Stock Exchange in 1909, all quotations for interest-paying bonds are at a price to which accrued interest must be added. The exceptions to the rule are income bonds and bonds on which interest is in default. A few other bonds, like the Holland-American Line 6s, for special reasons, are also quoted "flat," but where this is the case the quotation "*flat*" will be found against the name of the issue. This method of quoting bonds became effective Jan. 2 1909.

For footnotes to tables see last page of bonds and last page of stocks.

General Quotations

OF BONDS AND STOCKS

In the earlier part of this publication complete records of the dealings on the leading stock exchanges of the country, for the latest month and for the calendar year to date, are furnished. In this department of General Quotations we combine in one comprehensive whole, securities of all classes and descriptions, not only those dealt in on the exchanges, but also leading unlisted and inactive securities. The following is an index to the different classes of securities quoted:

	Page
Steam Railroad Bonds	77
Steam Railroad Stocks	81
Joint Stock Land Bank Bonds	99
Joint Stock Land Bank Stocks	99
Federal Land Bank Bonds	100
Real Estate Bonds	108
Investment Trust Stocks and Bonds	82
Public Utility Bonds	83
Public Utility Stocks	88
Industrial & Miscellaneous Bonds	91
Industrial & Miscellaneous Stocks	95
Exchange Seats	93
Textile Manufacturing Stocks	94
Mining Stocks	94
Insurance Stocks and Scrip	94-120
Real Estate Trust and Land Stocks	95
Title Guarantee and Safe Deposit Stocks	95
United States and Municipal Bonds	100
Canadian Municipal Bonds	102
Foreign Government Bonds	101

Quotations from all Stock Exchanges are as near as possible for the *closing day of the month preceding the date of issue.* As the New York Stock Exchange began with Jan. 2 1909 to quote all bond prices "and interest," we have adopted the same method and no longer employ a designating mark to indicate the fact except where there is a deviation from this rule. The reader will understand, therefore, that unless the letter "*f*" is prefixed to the price, he must pay accrued interest *in addition* to the price. This, however, does not apply to income bonds or bonds in default, in which cases the price includes the interest, should there be any.

The letter "*f*" prefixed to bond prices denotes that the quotation is a flat price—that is, that the accrued interest forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. As already stated in the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to indicate the fact.

Quotations for equipment bonds are based on average maturities

Quotations for guaranteed stocks are "and dividend"; that is, the accrued dividend must be paid in addition to the price. Stock prices marked thus (*d*) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.

It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "gu" for guaranteed, "end" for endorsed, "cons" for consolidated conv" for convertible, "s f" for sinking fund, "l g" for land grant, "op" for optional.

The black-faced type in the letters showing the interest period indicates the *month* when the bonds mature.

NOTICE.—All bond prices are "and interest" except where marked "f" and income and defaulted bonds.

Industrial and Miscellaneous Securities

Under the heading "Industrial and Miscellaneous Securities" we include all issues which *do not* appear under the previous two headings, namely "Railroads (Steam)" and "Public Utilities." In the case of stocks, however, we put "Textile Manufacturing," "Insurance," "Mining," "Real Estate and Land," "Title Guarantee and Safe Deposit Companies" under separate heads, then follow with the rest of the "Industrial and Miscellaneous."

NOTICE.—All bond prices are "and interest" except where marked "*f*" and income and defaulted bonds.

a Chamber of Commerce of Milwaukee changed its name on June 10 1931 to Milwaukee Grain & Stock Exchange. *b* Basis. *f* This price includes accrued interest. *k* Last sale. *n* Nominal. *r* Canadian prices. *s* Sale price. *t* Under a resolution of the Governing Committee of the New York Stock Exchange dated Jan. 24 1929 the number of members was increased from 1,100 to 1,375. Up to date 257 new members have been elected making present membership 1,357. The purchase of four rights entitles holder to one full membership in the Exchange. Sale at $625,000 before increase in membership in Jan. 1929, highest on record. *u* For new membership. Last sale of old membership, $110,000. The Governors of the Chicago Stock Exchange increased the number of members from 235 to 470, a 100% membership dividend being declared, each present member receiving one additional membership. *z* Curb memberships not included. *w* Detroit Stock Exchange declared a 100% membership dividend, increasing membership from 45 to 90. Present prices ex-this 100% dividend. † Sale Jan. 20 1931. ‡ Price for combination membership in San Francisco Stock Exchange and San Francisco Curb Exchange. § Prices of Wheeling Stock Exchange memberships are fixed. No open market. Original price $250, now $1,000. ¶ Book value. Membership of Ft. Worth Grain & Cotton Exch. is limited to 90. Exchange buys certifs. in order at $850 when funds are available. *g* Omaha Stock Exchange voted Dec. 27 1930 to liquidate and dissolve. *v* Portland Stock & Bond Exch. temporarily suspended on Feb. 1 1931. Last sale above given is previous to suspension

United States and Municipal Bonds

In reporting below prices for State and municipal securities, we give bid and asked quotations wherever they can be obtained The custom however, is to quote municipal securities on the basis of the return they yield per annum. Therefore in most cases it will be found that instead of actual prices we have inserted in the column headed "To Net" certain figures to indicate the interest rate at which business in the bonds is being done. Thus 4.35% means that the particular security can be bought or sold at a price that will yield the purchaser or seller 4.35% per annum to the maturity of the issue. Where two figures appear, as for instance "4.25% to 4.35%," the rate of return varies according to the maturity—the shorter maturities yielding the lowest rate, and the longer maturities yielding the highest return.

In State and municipal bonds the custom has always been to quote them "and interest." That is, the accrued interest must in all cases be added on.

Note.—Owing to the present demoralized condition of the municipal bond markets, brokers and dealers find it difficult, and in many cases, almost impossible to make quotations for municipal bonds. Bid prices, especially for the smaller municipalities, are practically out of the question and sales or terms are simply a matter of bargaining between buyer and seller. In fact the absolute lack of demand offers causes good bonds to be offered at almost any price.

Bonds.	Yield Basis or Bid.	Yield Basis or Ask.	To Net.

Banks & Trust Companies

STATE AND NATIONAL BANK STATEMENTS

Quotations in this department are given per share, not per cent, except for stocks of Canadian Institutions, and are as near as possible for the *closing day of the month preceding date of issue*, though often are nominal. An asterisk (*) denotes sales.

Figures of deposits, capital and profits for the national banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the Clearing House banks of New York, Philadelphia and Boston, deposits are taken from the latest weekly statement.
