## DAILY RATES OF FOREIGN EXCHANGE

The state of upsetment in world affairs makes it impossible to obtain quotations for a number of the countries formerly carried in our records. We have, therefore, revised the list to eliminate columns for currencies not now quoted and to add columns giving greater data on Western Hemisphere countries which now are growing in importance, so far as our world commerce is concerned. We hope to be able to continue the list as now presented for the future, and will of course resume quotations for other countries when world conditions return to a normal state.

# New York Stock Exchange - - Bonds ${ }^{3}$ 

MONTHLY AND YEARLY RECORD

# RANGE OF BOND PRICES DURING JULY 1942 

Bond Sales
July
Jan. 1 to July 31
$1942 \quad 1941 \quad$ Stock Sales
$\$ 125,604,900 \quad \$ 189,118,000$ July
1941
July -------_Shares_- 8,373,550 60,165,641 $\quad 81,593,609$
Notice-Cash and deferred delivery sales are disregarded in the month's range unless they are the only transactions of the month, and when selling outside of the regular monthly range are shown in a footnote in the month in which they occur. No account is taken of such sales in computing the
range for the year.

The tables on pages 3 to 26 furnish a complete record of the transactions on the New York Stock Exchange during July, 1942, and the range since Jan. 1. They need no extended introduction, as they are self-explanatory. The tables embrace every security dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. The italic letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

In accordance with the rule adopted by the New York Stock Exchange in 1909, all quotations for interest-paying bonds are at a price to which accrued interest must be added. The exceptions to the rule are income bonds and bonds on which interest is in default. This method of quoting bonds became effective Jan. 2, 1909. Quotations after decimal point represent one or more 32 nds of a point.

* Negotiability impaired by maturity.
$\Delta$ Bonds selling flat.
IThe following bonds have been called for redemption, elther entirely or partially:
Armour \& Co of Del 4 s series B 1955, partially
Erie Railroad $43 / 4$ s ser A 1957, entirely Aug 29
at 105 . at 105.
Koppers Co $3^{1 / 2}$ s 1961, partially Sept 1.

Norway (Kingdom) 6s 1943, partially Aug 15
$6 s$ 1944, partially Aug 1.
$\dagger$ The price represented is the dollar quotation per $£ 200$ unit of bonds. Accrued interest pay-
$\ddagger$ Companies reported as being in bankruptcy, receivership, or being reorganized under Section 77 of the Bankruptcy Act or securities assumed
by such companies.
$a$ Deferred delivery sale.
$t$ Odd-lot sale.
$x$ Sold ex-interest
$e$ The following transactions were made during the current month and are not included in the year's range because of the reason shown below: Finland 6s 1945, July 20 at 99 (Cash sale).

# New York Stock Exchange - - Stocks 

## MONTHLY AND YEARLY RECORD

RANGE OF STOCK PRICES DURING JULY 1942

| Stock Sales | 1942 | 1941 |  | Bond Sales | 1942 | 1941 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| July ------------------Shares.- | 8,373,550 | 17,872,807 | July |  | \$125,604,900 | \$189,118,000 |
| Jan. 1 to July 31 | 60,165,641 | 81,593,609 |  | 31 | 1,231,417,600 | 1,286,303,000 |

In accordance with a rule of the Stock Exchange effective Oct. 3, 1915, all stocks are now quoted dollars per share. Prices are cn a basis of 100 -share lots except in the case of stocks which sell only in a small way. in the month's range, unless they are the only transactions of the month, and when selling outside of the regular monthly range are shown in a footnote in the month in which they occur. No account is taken of such sales in computing

## Securities Called for Redemption

The following tabulation indicates alphabetically Corporation bonds and stocks which are being prepaid in their entirety.

NOTE-On July 22nd, New York Central made a purchase offer for St. Joseph, South Bend and Southern stocks at prices of $\$ 100$ per share for preferred, and $\$ 22.50$ per share for common. The above is dependent upon ICC authorization and acceptance on the part of $95 \%$ of holders of both classes or any lesser percentage by the New York Central.

## BONDS

Allied Owners Corp. 1st 5 s due 1958, Aug. 21 at 100.

## General Quotations

## OF BONDS AND STOCKS

In the earlier part of this publication complete records of the dealings on the leading stock exchanges of the country, for the latest month and for the calendar year to date, are furnished. In this department of General Quotations we combine in one comprehensive whole, securities of all classes and descriptions, not only those dealt in on the exchanges, but also leading unlisted and inactive securities. The following is an index to the different classes of securities quoted:

| Page | Page | - |
| :---: | :---: | :---: |
| Federal Land Bank Bonds............... 78 | Mining Stocks |  |
|  | Municipal Bonds-Domestic -----------78 78 | Real Estate Trust Securities |
|  |  | Textile Stocks |
|  |  | Title Guarantee and Safe Deposit Stocks 70 |
|  | Public Utility Stocks_---------------6.-61 | United States Government Securities__ 78 |
| Investing Companies Securities_-_-.-...-64 | Railroad | United States Territorial Bonds_------ |

Quotations for all securities are as near as possible for the closing day of the month preceding the date of issue.
The letter " f " prefixed to bond prices denotes that the quotation is a flat price-that is, that the accrued interest forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. In the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to indicate the fact.

Quotations for equipment bonds are based on average maturities.
Quotations for guaranteed stocks are "and dividend"; that is, the accrued dividend must be paid in addition to the price.

It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "gtd" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "s f" for sinking fund, "1 g" for land grant, "opt" for optional.

The italic type in the letters showing the interest period indicates the month when the bonds mature.
NOTICE-All bond prices are "and interest" except where marked " $f$ " and income and defaulted bonds

NOTICE-All bond prices are "and interest" except where marked "q" and income and defaulted bonds
Quotations for all securities are as near as possible for the closing day of the month preceding the date of issue

## Industrial and Miscellaneous Securities

Under the heading "Industrial and Miscellaneous Securities" we include all issues which do not appear under the previous three headings, namely "Railroads," "Investing" Companies" and "Public Utilities." In the case of stocks, however, we put "Textile Manufacturing," "Insurance," "Mining," "Real Estate and Land," "Title Guarantee and Safe Deposit Companies" under separate heads, then follow with the rest of the "Industrial and Miscellaneous."

NOTICE-All bond prices are "and interest" except where marked "f" and income and defaulted bonds
Quotations for all securities are as near as possible for the closing day of the month preceding the date of issue

# United States and Municipal Bonds 

The custom in reporting prices for State and municipal securities is to quote them on the basis of the return the bonds yield per annum. Therefore, in furnishing the prices below, it will be found that for the single maturity bond a bid and asked quotation is published-either the yield basis for the varying maturities. For instance, if a certain bond in our bonds, however, we endeavor to obtain the 1942 to 1951 and is quoted 0.50 to $3.00 \%$-this would indicate that the earliest maturity yields $0.50 \%$ list matures from 1942 to 1951 and is quo

Therefore, in the following list, it must be remembered the word to indicates that the figures shown are the yield basis for various maturities; all other figures are bid and asked prices.

## Banks and Trust Companies

## STATE AND NATIONAL BANK STATEMENTS

Quotations in this department are given per share, not per cent, except for stocks of Canadian Institutions, and are as near as possible for the closing day of the month preceding date of issue, though often are nominal. An asterisk (*) denotes sales.

Figures of deposits, capital and profits for the National banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the Clearing House banks of New York, deposits are taken from the latest weekly statement.
