## DAILY RATES OF FOREIGN EXCHANGE

The state of upsetment in world affairs makes it impossible to obtain quotations for a number of the countries formerly carried in our records. We have, therefore, revised the list to eliminate columns for currencies not now quate, so far and to add columns giving greater data on Western Hemispher continue the list as now presented for the future, and as our world commerce is concerned. We hope ountries when world conditions return to a normal state.

# General Quotations 

## OF BONDS AND STOCKS

In the earlier part of this publication complete records of the dealings on the leading stock exchanges of the country, for the latest month and for the calendar year to date, are furnished. In this department of General Quotations we combine in one comprehensive whole, securities of all classes and description, not only those dealt in on the exchanges, but also leading unlisted and inactive securities. The following is an index to the different classes of securities quoted:

Quotations for all securities are as near as possible for the closing day of the month preceding the date of issue.
The letter " f " prefixed to bond prices denotes that the quotation is a flat price-that is, that the accrued interest forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. In the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to

Quotations for equipment bonds are based on average maturities.
Quotations for guaranteed stocks are "and dividend"; that is, the accrued dividend must be paid in addition to
the price.
It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "gtd" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "s f" for sinking fund, "l g" for land grant, "opt" for optional.

The italic type in the letters showing the interest period indicates the month when the bonds mature.
NOTICE-All bond prices are "and interest" except where marked " f " and income and defaulted bonds

## Industrial and Miscellaneous Securities

Under the heading "Industrial and Miscellaneous Securities" we include all issues which do not appear under the previous three headings, namely "Railroads," "Investing Companies" and "Public Utilities." In the case of stocks, however, we put "Textile Manufacturing," "Insurance," Mining," "Real Estate and Land," "Title Guarantee and Safe Deposit Companies" under separate heads, then follow with the rest of the "Industrial and Miscellaneous."

NOTICE-All bond prices are "and interest" except where marked "f" and income and defaulted boads
as near as possible for the closing day of the month preceding the date of issue

[^31]Quotations for all securities are as near as possible for the closing day of the month preceding the date of issue

# United States and Municipal Bonds 

The custom in reporting prices for State and municipal securities is to quote them on the basis of the return the bonds yield per annum．Therefore，in furnishing the prices below，it will be found that for the single maturity bond a bid and asked quotation is published－either actual figures or on a percentage basis．For instance，if a certain bond in bonds，however，we endeavor to obtain the yeld 0.50 to $3.00 \%$－this would indicate that the earliest maturity yields ur list matures from 1944 to 1951 and 1 ging $3.00 \%$ ．
Therefore，in the following list，it must be remembered the word＂to＂indicates that the figures shown are the yield Therefore，in the
