Averages are computed by dividing total prices by the following: Industrials, 6.53; Rails, 11.21; Utilities, 13.25; 65 Stocks, 33.90. *The averages for the 20 railroad stocks and for the 65-stock composite average give effect to the substitution of Kansas City Southern Railway for Northern Pacific Railway. This substitution changed the divisor for the 20 railroads from 11.21 to 10.95 and that for the 65 stocks from 33.90 to 33.67.

New York Stock Exchange - - Bonds

Monthly and Yearly Record

RANGE OF STOCK PRICES FOR MARCH

Bond Sales	1952	1951	Bond Sales	1952	1951
March -----	\$58,122,840	\$76,667,700	Jan. 1 to March 31-----	\$174,203,190	\$283,663,500

The tables on pages 4 to 27 furnish a complete record of the transactions on the New York Stock Exchange during March and the range since Jan. 1. They need no extended introduction, as they are self-explanatory. The tables embrace every security dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. The italic letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

All quotations for interest-paying bonds are at a price to which accrued interest must be added. The exceptions to the rule are income bonds and bonds on which interest is in default. This method of quoting bonds became effective January 2, 1909. Quotations after decimal point represent one or more 32nd of a point.

General Quotations

OF BONDS AND STOCKS

In the earlier part of this publication complete records of the dealings on the leading stock exchanges of the country, for the latest month and for the calendar year to date, are furnished. In this department of General Quotations we combine in one comprehensive whole, securities of all classes and description, not only those dealt in on the exchanges, but also leading unlisted and inactive securities. The following is an index to the different classes of securities quoted:

	Page		Page		Page
Exchange Seats	65	Mining Stocks	67	Railroad Stocks	56
Federal Land Bank Bonds	78	Municipal Bonds—Domestic	78	Real Estate Bonds and Stocks	66
Foreign Government Bonds	79	Canadian	81	Real Estate Trust Securities	67
Industrial Bonds	64	Public Utility Bonds	67	Textile Stocks	67
Industrial Stocks	67	Public Utility Stocks	60	United States Government Securities	78
Insurance Stocks	77	Railroad Bonds	51	United States Territorial Bonds	78
Investing Companies Securities	62	RR Equipment Trusts	54		

Quotations for all securities are as near as possible for the closing day of the month preceding the date of issue.

The letter "f" prefixed to bond prices denotes that the quotation is a flat price—that is, that the accrued interest forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. In the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to indicate the fact.

Quotations for guaranteed stocks are "and dividend"; that is, the accrued dividend must be paid in addition to the price.

It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "gtd" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "sf" for sinking fund, "lg" for land grant, "opt" for optional. The italic type in the letters showing the interest period indicates the month when the bonds mature.

NOTICE—All bond prices are "and interest" except where marked "f" and income and defaulted bonds

Main table containing bond listings with columns for Bonds, Bid, Ask, Dec. 31, 1951 Bid Price, and Dec. 31, 1951 Bid Price. Includes entries for Sturgis Goshen & St Louis Ry, Chesapeake & Ohio RR, Chicago Great Western Ry, etc.

RAILROAD EQUIPMENT TRUSTS CERTIFICATES

The prices quoted here are the dollar valuations for practically all the outstanding issues. It being impossible to revise these figures each month, the quotations shown are the Dec. 31, 1951 valuations, published on the assumption that little change has taken place in the quoted value of the bonds since that date.

Industrial and Miscellaneous Securities

Under the heading "Industrial and Miscellaneous Securities" we include all issues which do not appear under the previous three headings, namely "Railroads," "Investing Companies" and "Public Utilities." In the case of stocks, however, we put "Textile Manufacturing," "Insurance," "Mining," "Real Estate and Land," "Title Guarantee and Safe Deposit Companies" under separate heads, then follow with the rest of the "Industrial and Miscellaneous."

NOTICE—All bond prices are "and interest" except where marked "f" and income and defaulted bonds

United States and Municipal Bonds

The custom in reporting prices for State and municipal securities is to quote them on the basis of the return the bonds yield per annum. Therefore, in furnishing the prices below, it will be found that for the single maturity bond a bid and asked quotation is published—either actual figures or on a percentage basis. In furnishing prices for the serial bonds, however, we endeavor to obtain the bid yield basis for the varying maturities. For instance, if a certain bond in our list matures from 1952 to 1974 and is quoted 0.90 to 2.95%—this would indicate that the earliest maturity yields 0.90% and the latter maturity is yielding 2.95%.

Therefore, in the following list, it must be remembered the word "to" indicates that the figures shown are the bid yield basis for various maturities; all other figures are bid and asked prices.

Quotations for all securities are as near as possible for the closing day of the month preceding the date of issue

Banks and Trust Companies

STATE AND NATIONAL BANK STATEMENTS

Quotations in this department are given per share, not per cent, except for stocks of Canadian Institutions, and are as near as possible for the closing day of the month preceding date of issue, though often are nominal. An asterisk (*) denotes sales.

Figures of deposits, capital and profits for the National banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required.

United States and Municipal Bonds

The custom in reporting prices for State and municipal securities is to quote them on the basis of the return the bonds yield per annum. Therefore, in furnishing the prices below, it will be found that for the single maturity bond a bid and asked quotation is published—either actual figures or on a percentage basis. In furnishing prices for the serial bonds, however, we endeavor to obtain the bid yield basis for the varying maturities. For instance, if a certain bond in our list matures from 1952 to 1974 and is quoted 0.90 to 2.95%—this would indicate that the earliest maturity yields 0.90% and the latter maturity is yielding 2.95%.

Therefore, in the following list, it must be remembered the word "to" indicates that the figures shown are the bid yield basis for various maturities; all other figures are bid and asked prices.

STATE AND NATIONAL BANK STATEMENTS

Quotations in this department are given per share, not per cent, except for stocks of Canadian Institutions, and are as near as possible for the closing day of the month preceding date of issue, though often are nominal. An asterisk (*) denotes sales.

Figures of deposits, capital and profits for the National banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required.
