 Averages are computed by dividing total prices by the following: Industrials, 5.62; Rails, 8.34; Utilities, 11.54; 65 stocks, 28.03
*The averages for the 30 industrial stocks and for the 65 stock composite average give effect to the distribution by Corn Products Refining Co. of
two additional common shares for each share held. This changed the divisor for the 30 industrials to 5.62 from 5.76 and that for the 65 stocks to 28.24
from 28.60. $\ddagger$. average give effect to the distribution by the Cleveland Electric Illuminating Co., of one additional share of common stilitise to 11.54 from 12.06 and that for the 65 stocks to 28.03 from 28.24 .

DAILY RATES OF FORENGN EXCHANGE-Continued

# New York Stock Exchange - - Bonds 

## Monthly and Yearly Record

## RANGE OF BOND PRICES FOR MAY

| Bond Sales- | 1955 | 1954 | Bond Sales- | 1955 | 1954 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| May | \$76,5\%1,600 | \$73,778,600 | Jan. 1 to May 31 | \$419,606,200 | \$390,333,300 |

The tables on pages 4 to 27 furnish a complete record of the transactions on the New York Stock Exchange during May and the range since Jan. 1. They need no extended introduction, as they are self-explanatory. The tables embrace every security dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. The italic letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

All quotations for interest-paying bonds are at a price to which accrued interest must be added. The exceptions to the rule are income bonds and bonds on which interest is in default. This method of quoting bonds became effective January 2, 1909. Quotations after decimal point represent one or more 32nds of a point.

## General Quotations <br> \section*{OF BONDS AND STOCKS}

In the earlier part of this publication complete records of the dealings on the leading stock exchanges of the country, for the latest month and for the calendar year to date, are furnished. In this department of General Quotations we combine in one comprehensive whole, securities of all classes and description, not only those dealt in on the exchanges, but also leading unlisted and inactive securities. The following is an index to the different classes of securities quoted:

|  |
| :---: |
|  |  |
|  |  |
|  |  |
|  |  |

$\qquad$
$\qquad$ Railroad Stocks Securities Called for Sorks United States Government Securities
United States Territorial Bonds. Page

Quotations for all securities are as near as possible for the closing day of the month preceding the date of issue.
The letter " f " prefixed to bond prices denotes that the quotation is a flat price-that is, that the accrued interes forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. In the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to indicate the fact.

Quotations for guaranteed stocks are "and dividend"; that is, the accrued dividend must be paid in addition to the price.
It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "gtd" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "sf" for sinking fund, "lg" for land grant, "opt" for optional.

The italic type in the letters showing the interest period indicates the month when the bonds mature.
NOTICE-All bond prices are "and interest" except where marked " $f$ " and income and defaulted bonds

[^23]| RALLROAD EQUIPMENT TRUSTE CERTIFICATES <br> The prices quoted here are the dollar valuations for practically all the outstanding issues. It being impossible to revise these figures each month, the quotations shown are the Dec. 31, 1954, valuations, published on the assumption that little change has taken place in the quoted value of the bonds since that date. For the certificates issued since Dec. 31, the bid prices at the time of issuance are shown. For the serial issues, we are indicating the bid for the lowest, and the bid for the highest maturity. |  | Chesapeake \& Ohio Ry (cont) 3s of 1953 | $\begin{gathered} \text { Ded. 31, } 1954 \\ \text { Bid Price } \end{gathered}$ | Chic Rock Isl \& Pac RR (Cont)$23 / 4 \mathrm{~s}$ series K | Dec. 31, 1964 Bid Price |

## Industrial and Miscellaneous Securities

Under the heading "Industrial and Miscellaneous Securities" we include all Bond issues which do not appear under the previous three headings, namely "Railroads," "Investing Companies" and "Public Utilities." Real Estate Bonds, however, can be found on a succeeding page.

NOTICE-All bond prices are "and interest" except where marked "f" and income and defaulted bonds
Quotations for all securities are as near as possible for the closing day of the month preceding the date of issue

# United States and Municipal Bonds 

The custom in reporting prices for State and municipal securities is to quote them on the basis of the return the bonds yield per annum. Therefore, in furnishing the prices below, it will be found that for the single maturity bond a bid and asked quotation is published-either actual figures or on a percentage basis. In furnishing prices for the serial bonds, however, we endeavor to obtain the bid yield basis tor the varying maturities. For instance, if a certain bond
in our list matures from 1956 to 1974 and is quoted 0.90 to $2.95 \%$-this would indicate that the earliest maturity yields $0.90 \%$ and the later maturity is yielding $2.95 \%$.

Therefore, in the following list, it must be remembered the word "to" indicates that the figures shown are the bid yield basis for various maturities; all other figures are bid and asked prices.

Quotations for all securities are as near as possible for the closing day of the month preceding the date of issue

## Banks and Trust Companies

## STATE AND NATIONAL BANK STATEMENTS

Quotations in this department are given per share, not per cent, except for stocks of Canadian Institutions, and are as near as possible for the closing day of the month preceding date of issue, though often are nominal. An asterisk (*) denotes sales.

Figures of deposits, capital and profits for the National banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required.
