DAILY RATES OF FOREIGN EXCHANGE-Continued

# New York Stock Exchange - - Bonds 

## Monthly and Yearly Record

## RANGE OF BOND PRICES FOR DECEMBER

#### Abstract

Bond Sales- 1955 1954 Bond Sales- 1955 1954 December $\qquad$ $\$ 80,651,400$ \$126,487,000

Jan. 1 to Dec. 31 $\qquad$ $\mathbf{\$ 1 , 0 4 5 , 9 4 9 , 1 0 0} \$ 979,510,030$ The tables on pages 4 to 27 furnish a complete record of the transactions on the New York Stock Exchange during December and the range since Jan. 1. They need no extended introduction, as they are self-explanatory. The tables embrace every security dealt in on the Exchange. We give bonds first, using the classification adopted in the official list the italic letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

All quotations for interest-paying bonds are at a price to which accrued interest must be added. The exceptions to the rule are income bonds and bonds on which interest is in default. This method of quoting bonds became effective January 2, 1909. Quotations after decimal point represent one or more 32 nds of a point.

## Boston Stock Exchange <br> Monthly and Yearly Record

RANGE OF PRICES ON THE BOSTON STOCK EXCHANGE

## General Quotations <br> OF BONDS AND STOCKS

In the earlier part of this publication complete records of the dealings on the leading stock exchanges of the country, for the latest month and for the calendar year to date, are furnished. In this department of General Quotations we combine in one comprehensive whole, securities of all classes and description, not only those dealt in on the exchanges, but also leading unlisted and inactive securities. The following is an index to the different classes of securities quoted:

|  |  |  |
| :---: | :---: | :---: |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |

 the month preceding the date of issue.
Quotations for all securities are as near as possible for the closing day of the month preceding the date of issue. forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. In the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to indicate the fact.

Quotations for guaranteed stocks are "and dividend"; that is, the accrued dividend must be paid in addition to the price.
It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "gtd" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "sf" for sinking fund, "lg" for land grant, "opt" for optional. "The italic type in the letters showing the interest period indicates the month when the bonds mature. ${ }^{\circ}$

NOTICE-All bond prices are "and interest" except where marked " f " and income and defaulted bonds

# United States and Municipal Bonds 

The custom in reporting prices for state and municipal securities is to quote them on the basis of the returit the bid and asked quotation is published furnishing the prices below, it will be found that for the single maturity bond a bonds, however, we endeavor to obtain the bid yield basis tor the percentage basis. In furnishing prices fow the serial in our list matures from 1956 to 1974 and is quoted 0.90 to $2.95 \%$-this would indicate that ine earliest a certain bond $0.90 \%$ and the later maturity is yielding $2.95 \%$. Therefore, in the following list, it must be yield basis for various' maturities; all other figures are bid and asked prices.

Quotations for all securities are as near as possible for the closing day of the month preceding the date of issue

## STATE AND NATIONAL BANK STATEMENTS

Quotations in this department are given per share, not per cent, except for stocks of Canadian Institutions, and are as near as possible for the closing day of the month preceding date of issue, though often are nominal. An asterisk (*) denotes sales.

Figures of deposits, capital and profits for the National banks are from the Comptroller's last call; for all other instltutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required.
