The figures shown in the last column of this tabulation are the volume of trading for each business day of the current month for all listed New York Stock Exchange stocks.

*The averages for the 30 industrial stocks and for the 65-stock composite average give effect to the three-for-one stock split of American Telephone & Telegraph Co. and to the following substitutions:

Anaconda Co. for American Smelting & Refining Co., Swift & Co. for Corn Products Co., Aluminum Co. of America for National Steel Co., and Owens-Illinois Glass Corp. for National Distillers & Chemical Corp.

The above changed the divisor for the 30 industrials to 3.964 from 4.13, and that for the 65 stocks to 19.61 from 20.10.

New York Stock Exchange - - Bonds

Monthly and Yearly Record

RANGE OF BOND PRICES FOR JUNE

Bond Sales—		1959	1958	Bond Sales—		1959	1958
June	-----	\$121,943,200	\$113,936,000	Jan. 1 to June 30	-----	\$799,522,200	\$638,573,620

The tables on pages 4 to 29 furnish a complete record of the transactions on the New York Stock Exchange during June and the range since January 1. They need no extended introduction, as they are self-explanatory. The tables embrace every security dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. The italic letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

All quotations for interest-paying bonds are at a price to which accrued interest must be added. The exceptions to the rule are income bonds and bonds on which interest is in default. This method of quoting bonds became effective January 2, 1909. Quotations after decimal point represent one or more 32nds of a point.

General Quotations

OF BONDS AND STOCKS

In the earlier part of this publication complete records of the dealings on the leading stock exchanges of the country, for the latest month and for the calendar year to date, are furnished. In this department of General Quotations we combine in one comprehensive whole, securities of all classes and description, not only those dealt in on the exchanges, but also leading unlisted and inactive securities. The following is an index to the different classes of securities quoted:

Quotations for all securities are as near as possible for the closing day of the month preceding the date of issue. The letter "f" prefixed to bond prices denotes that the quotation is a flat price—that is, that the accrued interest forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. In the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to indicate the fact.

Quotations for guaranteed stocks are "and dividend"; that is, the accrued dividend must be paid in addition to the price. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "gtd" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "sf" for sinking fund, "lg" for land grant, "opt" for optional. The italic type in the letters showing the interest period indicates the month when the bonds mature.

NOTICE—All bond prices are "and interest" except where marked "f" and income and defaulted bonds

RAILROAD EQUIPMENT TRUST CERTIFICATES		Dec. 31, 1958 Bid Price	RAILROAD EQUIPMENT TRUST CERTIFICATES		Dec. 31, 1958 Bid Price
<p>The prices quoted here are the dollar valuations for practically all the outstanding issues. It being impossible to revise these figures each month, the quotations shown are the Dec. 31, 1958, valuations, published on the assumption that little change has taken place in the quoted value of the bonds since that date. For the certificates issued since Dec. 31, the bid prices at the time of issuance are shown. For the serial issues, we are indicating the bid for the lowest, and the bid for the highest maturity.</p>			<p>Chicago & North West Ry—(Cont)</p>

UNITED STATES AND MUNICIPAL BONDS

The custom in reporting prices for State and municipal securities is to quote them on the basis of the return the bonds yield per annum. Therefore, in furnishing the prices below, it will be found that for the single maturity bond a bid and asked quotation is published—either actual figures or on a percentage basis. In furnishing prices for the serial bonds, however, we endeavor to obtain the bid yield basis for the varying maturities. For instance, if a certain bond in our list matures from 1960 to 1974 and is quoted 0.90 to 2.95%—this would indicate that the earliest maturity yields 0.90% and the later maturity is yielding 2.95%.

Therefore, in the following list, it must be remembered the word "to" indicates that the figures shown are the bid yield basis for various maturities; all other figures are bid and asked prices.

Quotations for all securities are as near as possible for the closing day of the month preceding the date of issue
