# New York Stock Exchange—Bonds

## Monthly and Yearly Record

### RANGE OF BOND PRICES FOR FEBRUARY

<b>Bond Sales—</b>	<b>1960</b>	<b>1959</b>	<b>Bond Sales—</b>	<b>1960</b>	<b>1959</b>
February -----	\$116,391,500	\$121,667,000	Jan. 1 to Feb. 29 -----	\$232,731,500	\$270,609,500

The tables on pages 4 to 29 furnish a complete record of the transactions on the New York Stock Exchange during February and the range since Jan. 1. They need no extended introduction, as they are self-explanatory. The tables embrace every security dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. The italic letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

All quotations for interest-paying bonds are at a price to which accrued interest must be added. The exceptions to the rule are income bonds and bonds on which interest is in default. This method of quoting bonds became effective January 2, 1909. Quotations after decimal point represent one or more 32nds of a point.

# General Quotations

## OF BONDS AND STOCKS

In the earlier part of this publication complete records of the dealings on the leading stock exchanges of the country for the latest month and for the calendar year to date, are furnished. In this department of General Quotations we combine in one comprehensive whole, securities of all classes and description, not only those dealt in on the exchanges, but also leading unlisted and inactive securities. The following is an index to the different classes of securities quoted:

	Page		Page		Page
Banks and Trust Companies	88	Investing Companies Securities	68	RR Equipment Trusts	54
Exchange Seats	57	Municipal Bonds—Domestic	78	Railroad Stocks	56
Federal Land Bank Bonds	78	Canadian	81	Real Estate Bonds	93
Foreign Government Bonds	79	Public Utility Bonds	57	Real Estate Stocks	93
Industrial Bonds	65	Public Utility Stocks	61	Securities Called for Redemption	95
Industrial and Miscellaneous Stocks	67	Railroad Bonds	52	United States Government Securities	78
Insurance Stocks	87			United States Territorial Bonds	78

Quotations for all securities are as near as possible for the closing day of the month preceding the date of issue.

The letter "f" prefixed to bond prices denotes that the quotation is a flat price—that is, that the accrued interest forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. In the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to indicate the fact.

Quotations for guaranteed stocks are "and dividend"; that is, the accrued dividend must be paid in addition to the price. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "gtd" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "sf" for sinking fund, "lg" for land grant, "opt" for optional. The italic type in the letters showing the interest period indicates the month when the bonds mature.

NOTICE—All bond prices are "and interest" except where marked "f" and income and defaulted bonds

# United States and Municipal Bonds

The custom in reporting prices for State and municipal securities is to quote them on the basis of the return the bonds yield per annum. Therefore, in furnishing the prices below, it will be found that for the single maturity bond a bid and asked quotation is published—either actual figures or on a percentage basis. In furnishing prices for the serial bonds, however, we endeavor to obtain the bid yield basis for the varying maturities. For instance, if a certain bond in our list matures from 1961 to 1975 and is quoted 0.90 to 2.95%—this would indicate that the earliest maturity yields 0.90% and the later maturity is yielding 2.95%.

Therefore, in the following list, it must be remembered the word "to" indicates that the figures shown are the bid yield basis for various maturities; all other figures are bid and asked prices.
