# New York Stock Exchange—Bonds

*Monthly and Yearly Record*

**RANGE OF BOND PRICES FOR FEBRUARY**

| Bond Sales— | 1963 | 1962 | Bond Sales— | 1963 | 1962 |
|---|---|---|---|---|---|
| February | $107,973,200 | $101,351,000 | Jan. 1 to Feb. 28 | $225,616,200 | $234,414,000 |

The tables on pages 4 to 29 furnish a complete record of the transactions on the New York Stock Exchange during February and the range for year since Jan. 1. They need no extended introduction, as they are self-explanatory. The tables embrace every security dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. The italic letters in the column headed *"Interest Period"* indicate in each case the month when the bonds mature.

All quotations for interest-paying bonds are at a price to which accrued interest must be added. The exceptions to the rule are income bonds and bonds on which interest is in default. This method of quoting bonds became effective January 2, 1909. Quotations after decimal point represent one or more 32nds of a point.

# General Quotations

## OF BONDS AND STOCKS

We are publishing under this heading of General Quotations the month-end values for only the Over-the-Counter stock and bond issues.

The values for the Listed issues (either the last sale or the closing bid and asked quotation) can be found in the earlier part of this publication, under the particular exchange the issue is traded.

The following is an index to the different classifications of securities quoted:

| | Page |
|---|---|
| Banks and Trust Companies | 90 |
| Exchange Seats | 57 |
| Federal Land Bank Bonds | 80 |
| Foreign Government Bonds | 81 |
| Industrial Bonds | 67 |
| Industrial and Miscellaneous Stocks | 69 |
| Insurance Stocks | 89 |
| Investing Companies Securities | 65 |
| Municipal Bonds—Domestic | 80 |
| Canadian | 82 |
| Public Utility Bonds | 58 |
| Public Utility Stocks | 62 |
| Railroad Bonds | 53 |
| RR Equipment Trusts | 54 |
| Railroad Stocks | 56 |
| Securities Called for Redemption | 94 |
| United States Government Securities | 80 |

The letter "f" prefixed to bond prices denotes that the quotation is a flat price—that is, that the accrued interest forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. In the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to indicate the fact.

Quotations for guaranteed stocks are "and dividend"; that is, the accrued dividend must be paid in addition to the price.

It should be borne in mind in the use of these tables that the quotations for many inactive Over-the-Counter securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

The following abbreviations are often used, viz.: "M" for mortgage, "gtd" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "sf" for sinking fund, "lg" for land grant, "opt" for optional.

The italic type in the letters showing the interest period indicates the *month* when the bonds mature.

QUOTATIONS FOR ALL SECURITIES ARE AS OF FEBRUARY 28, 1963

**NOTICE—All bond prices are "and interest" except where marked "f" and income and defaulted bonds**

## RAILROAD EQUIPMENT TRUST CERTIFICATES

The prices quoted here are the dollar valuations for practically all the outstanding issues. It being impossible to revise these figures each month, the quotations shown are the Dec. 31, 1962, valuations, published on the assumption that little change has taken place in the quoted value of the bonds since that date. For the certificates issued since Dec. 31, the bid prices at the time of issuance are shown. For the serial issues, we are indicating the bid for the lowest, and the bid for the highest maturity.

# United States and Municipal Bonds

The custom in reporting prices for State and municipal securities is to quote them on the basis of the return the bonds yield per annum. Therefore, in furnishing the prices below, it will be found that for the single maturity bond a bid and asked quotation is published—either actual figures or on a percentage basis. In furnishing prices for the serial bonds, however, we endeavor to obtain the bid yield basis for the varying maturities. For instance, if a certain bond in our list matures from 1963 to 1980 and is quoted 0.90 to 2.95%—this would indicate that earliest maturity yields 0.90% and the later maturity is yielding 2.95%

Therefore, in the following list, it must be remembered the word "to" indicates that the figures shown are the bid yield basis for various maturities; all other figures are bid and asked prices.
