## The Chronicle.

THE COMMERCIAL AND FINANCIAL CHRONICLE is issued every Saturday morning by the publishers of Hunt's Merchants' Magazine, with the latest news by mail and telegraph up to midnight of Friday. A DAILY BULLETIN is issued every morning with all the Commercial and Financial news of the previous day up to the hour of publication.

## TERMS OF SUBSCRIPTION—PAYABLE IN ADVANCE.

COMMERCIAL AND FINANCIAL CHRONICLE, with THE DAILY BULLETIN, delivered by carriers to city subscribers, and mailed to all others, (exclusive of postage).

THE COMMERCIAL AND FINANCIAL CHRONICLE, without THE DAILY BULLETIN (Avaluation of postage) Bulletin, (exclusive of postage).

For The Daily Bulletin, without The Commercial and Financial Chronicle, (exclusive of postage). Canvassing Agents have no authority to collect money. Postage is paid by subscribers at their own post-office. It is, on the Chronicle, 20 cents per year, and on the Daily Bulletin \$1 20 in advance. WILLIAM B. DANA & CO., Publishers, 60 William Street, New York.

Files for holding the Chronicle or Bulletin can be had at this Office. Price \$1 50.

## CAUSES OF THE RECENT FLURRY IN WALL STREET.

Inquiry is made, with more frequency than success, in monetary circles, respecting the causes of the recent monetary spasm in Wall street. To this inquiry it is difficult, if not impossible, to give a compendious answer. Almost all panics take their start from over speculation, and in all their various phases they manifest a remarkable uniformity of sequences. For this and other reasons there are few phenomena which better illustrate some of the most fundamental and practical principles of political economy, and few things are more conducive to the spread of sound financial views than to analyse the desolating and destructive course of a monetary panic. The recent temporary spasm exhibited a few of the features of a panic on a small scale, and in that respect well merits to be studied, both in its causes and in its leading characteristics.

It was preceded, as most revulsions are, by a wild speculative excitement of a very exaggerated kind, extending to produce and dry goods, as well as to real estate, gold and

stocks. Prices went up, and many poor adventurers became suddenly rich by a turn in the wheel of fortune. The craving for some short road to wealth attracted multitudes to risk the perils of speculation, and when the reaction came these persons were the losers, and in not a few cases were stripped of all they had in the world. One "bull" clique in the stock market, consisting of some half a dozen persons, is said to have lost two millions of dollars by the recent fall in railroad shares. The aggregate losses of the brokers and their clients during the last three weeks are estimated at twenty-five millions, distributed chiefly among "outsiders," as they are called; and to an unusual extent probably among merchants, professional men, manufacturers and other persons who never speculated in their lives before, and were only induced at this time to do so by the unproductive returns which legitimate business has notoriously been yielding during the current year.

But this over speculation, and the extravagant advance in prices which it brought on, were in part due to the monetary facilities afforded by the banks. Many of these institutions held deposits of public funds to a large amount. And all the banks, whether depositories of public moneys or not, have been expanding their credits to an extraordinary degree. They have thus been piling up fuel on the fire of speculation, and enabling holders of pork and provisions, breadstuffs, and other produce, to carry large amounts of commodities, and to hold them out of the market, with a view to put up the prices, to the injury of the masses of the people, whose expenses of living were thus enhanced, without any compensatory benefit. A change, however, took place. Mr. McCulloch very properly drew checks on the banks which held the large deposits of public money derived in various parts of the country from income taxes and other internal revenue receipts. These institutions were thus deprived of an important part of the funds which they were lending to their dealers for speculative and other purposes. This transfer, under the circumstances, we say was very properly made. The money belonged to the Treasury. It was wanted for disbursement. No interest had been paid by the banks for the use of it. By some of them it was so used as to foster speculation, enhance prices, and thus do injustice and injury to the country. Some persons might perhaps urge that the money was not only removed with strict justice, but that it would have been better if deposits had not been allowed to remain in the banks at all. Considering the unworthy uses which, if rumor is to be believed, have sometimes been made of public deposits, there are not a few persons of eminence as financial thinkers who hold that the time is gone by when the depository system is either necessary or useful. We do not altogether agree with this view. If the National Banks were obliged to remit immediately to Washington or to New

York the amounts they daily receive on Government account the internal exchanges of the country might sometimes receive detriment, and the equilibrium of the current of the monetary circulation would be in danger of being perturbed, to the injury of business and the sacrifice of financial interests of importance. Still, making due allowance for these things, we are quite ready to admit that the depository system, as it has been conducted, admits of some abuses which demand immediate correction.

Another cause of the sudden stringency of the last few days was the gradual drain of legal tenders from New York to the interior. To the East, the West, the South, the current of greenbacks flowed in a constant stream, till the reserve in our city banks had fallen from 92 millions at the beginning of September to 66 millions in the middle of November. In this demand for greenbacks to move the crops there was nothing new, nothing unexpected. It always occurs at this time of the year. But this normal natural depletion of the reserve was not met by the banks, as it should have been, by a contraction of their accommodation to their unfortunate dealers. Their liabilities, instead of being drawn down, were enlarged, and were allowed to rise from 265 millions on the 1st September to 304 millions on the 17th November.

In such a state of expansion it is easy to see how the sudden payment into the Treasury of 12 or 15 millions of Government deposits would disturb the financial machinery of the country. For although the banks drawn upon by Mr. McCulloch are scattered all over the country, still in fact the money has to be provided and paid in by our New York banks as agents for the country banks, and has caused some of our strongest city institutions to run short of greenbacks for the moment. For it must be remembered that all moneys paid into the Treasury have to be paid in greenbacks or national bank notes, so that it requires vastly more currency to make a payment of 10 millions from the banks to the Government than for payments amounting to 100 millions from the banks to one another in their daily exchanges. In consequence of the inconvenience hence arising some of the banks have complained that Mr. McCulloch chose to make his demands on the national depositories at the present time, when our financial machinery was put by ordinary business to more strain than at any other part of the year. Most of the evils, however, and all the inconvenience, has been obviated by Mr. Van Dyck's allowing payments into the Sub-Treasury to be made at the option of the payer in compound notes at par and interest. This arrangement, together with the return flow of currency from the West, has done much to check depression, to restore confidence, and to develop a recovery at the Stock Exchange.

## THE LIFE INSURANCE CONVENTION.

Life insurances are unquestionably becoming one of the leading features of modern civilization. And it is a matter of real importance to the people of the United States that the operations of Life Insurance Companies should be left as much as possible untrammelled by local and restrictive legislation.

There is much to be commended, therefore, in the action of the Conventions which have been held by a number of American Life Insurance Companies at Hartford and in this city, so far as that action may tend to awaken the public mind to a keen sense of the relations which life insurance bears to the general welfare of the community, and to bring about a state of public sentiment favorable to intelligent and liberal legislation on this subject in the different States of the Union. No man can really be the gainer, for example, and many men must decidedly be the losers by laws

which may make it practically impossible for a well-established Life Insurance Company of New York to put its advantages at the command of citizens of Illinois. If New York requires all life insurance companies which it charters to hold only its own state securities or the securities of the United States, or bonds and mortgages, and Illinois exacts of the same companies an investment in Illinois securities before admitting them to establish agencies within its borders, it is obvious that the people of Illinois are really prevented from availing themselves as freely of this form of social and personal guarantee as their true interests demand. That such restrictions are vexatious in themselves, and pernicious in their general results, the life insurance conventions with great reason maintain; and they are equally right in their expressed determination to leave no practical measures untried toward bringing about a better condition of things.

But it may be questioned whether the projects which apparently found most favor in the eyes of the life insurance conventions are really the best that could be devised, or likely to be the most efficient in promoting that uniformity and liberality of insurance legislation at which they aim.

It is proposed to establish a National Chamber of Insurance, from which body, if wisely selected and sagaciously administered, much good may fairly be expected. difficulties and sectional mistakes in insurance legislation might be discussed with profit, and not without a certain measure of authority, in such a body; and in process of time it is not improbable that such a body would be consulted in regard to the insurance legislation of all the States. But from the establishment of a National Chamber of Insurance, to be organized out of the life insurance companies themselves, and to exert no positive power save that which must naturally flow from any well-combined organization of intelligent experience in any branch of human enterprise or industry; from the establishment of such a body as this to the creation of a National Bureau of Insurance, to be made a part of some one great department of the Federal Government, and to carry with it the transfer of the legislative control of insurance companies to the United States Congress from the State Legislatures in which that control now resides, is a very long step-and a step which it will be well for the insurance companies to think upon very seriously before they deliberately recommend it.

We shall not here discuss the practicability of the step. Mr. Barnes, the Superintendent of the Insurance Department of the State of New York, entered somewhat fully into this view of the matter at the Convention in this city on Wednesday last, and stated with much positiveness that several States, which he named, would never surrender the control of their insurance legislation. Be this as it may, it is certain that the proposition would excite a great deal of political controversy, and that in directions in which the public mind throughout the country needs rather to be appeased than to be inflamed just at present. Were it to be successfully carried out, however, it would result immediately in increasing the number of officeholders under the General Government, already so numerous as to constitute a serious political evil, and it would inevitably in time subject legislation on life insurance, which is and ought to be a purely financial and economical matter, to extraneous influences which can hardly fail to harm rather than to help it.

The true remedy for the evils of which the insurance companies complain, it seems to us, lies precisely where the greatest amount of mischief is done by those evils, namely, in the community at large. If unwise and restrictive local legislation inflicts a certain degree of direct injury upon the life insurance companies, it inflicts a much larger degree of indirect injury upon the public generally. It is by the dis

covery of this fact in each case that the public sentiment, which the companies desire to see formed, can best be created, and from that healthier public sentiment that the improvement of local legislation in each case may be confidently expected. If there was no other way of reaching these evils than through the Federal legislature the case would be different. But the aim of all wise legislators being to legislate as little as possible, and it being abundantly feasible in such a country as this for the truth in regard to such clear matters of business as life insurance to be got at and to be made known, it would seem to be a pity to call in the aid of an enlargement of the already cumbrous machinery of the Federal authority to accomplish what can be perfectly well accomplished in simple ways and through existing instrumentalities. A National Chamber of Insurance, such as the Convention has suggested, may be pretty safely trusted, we think, if it can effect any good at all, to do all that it is really desirable should be done, in the way of ameliorating our general legislation on this important subject.

#### THE COTTON TAX AND THE INDUSTRIES OF THE NORTH.

We are pursuaded that the effect of the cotton tax on Northern interests has not been sufficiently considered. It is customary to look at this impost as one merely of revenue, shutting out from view entirely its influence upon our own industries. The argument sustaining it has always been based on the idea that the tax was not paid by the North, nor even by the South, but that it was collected in great part out of the European consumer. There are, however, weighty reasons, at present apparently lost sight of, why the North should question the expediency of this tax, and demand that the policy or impolicy of it be brought under the immediate and earnest consideration of Congress.

It must be clear, we think, by this time that the Liverpool manufacturer cannot be compelled to pay the tax. Before the war we had a monopoly; our cotton drove out all competition. No country could produce the staple in sufficient quantities, as good or as cheap as we could. A tax of three cents then, would have been easily collected. The planter could have added it to his price without materially affecting the production in other countries. A four years cotton famine has, however, worked a very decided change. Now, instead of monopolizing the trade, we have many competitors. Even the India staple, which was supposed to be incurably defective, has been improved, and English machinery has been far better adapted for working it, the war having developed methods of using India cotton not before known. Then, again, there are several countries, as is well known, sending supplies to market which command as high, and some of them higher prices than our own uplands.

The effect of all this is seen in the present state of the Liverpool market. With a crop in the United States of only about two million bales (and many estimate it much below that figure), the Liverpool price is about 14d., with a downward tendency. In fact, many good judges believe that it will decline to 10d. or 11d. at least, before the winter has passed, so nearly independent of us have foreign markets become. Another year we shall have less control of the price. Many countries which are, from various causes, furnishing decreased supplies now, promise larger returns another twelve months, the present tax offering a premium on production elsewhere. That this is the effect of the law, so far as the foreign purchaser is concerned, is easily seen. Assuming the planter to put the tax upon the price of his cotton, it results that the quotation for American cotton at Liverpool is increased 11d. per pound. That advance necessitates a substitution of the staple of other countries for Ameri-

ıg

il

he

he

of

can, which again puts up the price of these descriptions, and directly stimulates the production of cotton in such countries, consolidating the cotton interest there, and promoting a permanent extension of the foreign crop. The consequent increase of supply from those sources reacts upon the value of our own crop; and this natural process of adjustment deprives the planter of the ability to collect his tax from foreign buyers. The result, therefore, is to place the American grower at a disadvantage of three cents per pound in competing with the grower of other countries. This, if long continued, will be sufficient to foster production elsewhere to such an extent as to force down prices to about their old level, when the planter, being no longer able to grow cotton at a profit, will abandon that for some other branch of agriculture. It would thus appear that we have no power to compel foreigners to pay this tax. The result of it must be to transfer our cotton trade to other countries, and to place Great Britain in that position of independence of the American cotton supply which she has now nearly attained, and which, for political reasons, she has long sought.

It is hardly necessary for us to say that the maintenance of the cotton trade is vital to the future prosperity of the United States. The South is by no means the only interested party-nor, as we think, is she chiefly interested. The prosperity of this trade means the prosperity of the whole Union; its recuperation means the recuperation of the whole industry of the country. Who can estimate the advantage we received from the two and a half million bales brought to market since the war closed! Do we not all know that it bridged difficulties which to many minds appeared impassable? Our exports of cotton during the year ending Sept. 1, 1866, were 1,552,457 bales, and we received in gold for these exports over 230 million of dollars. To how great an extent are we in the North indebted to these very exports for the decided prosperity enjoyed and our own quick recuperation since the war closed? Is it not, then, a question that we should seriously consider, whether it is wise to cripple an industry like this?

The cotton tax, moreover, has a directly injurious bearing upon our cotton manufacturers. With them a cheap supply of the raw material is of vital importance to enable them to competé with other countries. Either reducing the production or increasing the relative price of the American staple by taxation, must check the growth of the manufacturing in terest. In fact, practically we are shut up to the consumption of the American cotton. Our machinery is not adapted for the use of the short staple of other countries; and, if it were, there would be the necessity of adding to the price paid at Liverpool the cost of transporting the India staple here. Our manufacturers are thus placed at a disadvantage as compared with those of Lancashire, who have a variety of staples to which they can resort rather than pay the tax. By mixing a certain proportion of Eastern cotton with American, they can set off the extra price of our cotton arising out of the tax, and yet on many heavy goods, and on dyed goods, especially, produce an article as marketable as though made wholly from Southern cotton. Thus the tendency of the tax is to divert cotton manufacturing from New England to Lancashire, and to give English cotton goods the ascendancy over American, not only in foreign countries, but in our own market. It is true the revenue law allows upon domestic cotton goods exported a drawback equivalent to three cents per pound upon the weight of cotton contained in them. But this advantage has thus far availed our manufacturers little, the entire export of cotton goods from this port and Boston from Jan. 1st to the beginning of November having been only 12,634 packages, against 110,772 packages for the corresponding period of 1860, showing that we have regained

little of the trade in these manufactures with foreign countries, transferred to England during the war.

Then again it is evident that if we cripple the South, if this tax deprives the planter of a profit on his crop, he must purchase just so much less of our products. One portion of this country cannot suffer and the other be prospered. To what extent the present stagnation in business is due to this very cause, we do not undertake to say. But when we remember that on a crop of 2 million bales (of five hundred pounds each) 30 million of dollars is exacted, in addition to the income tax which we all pay, we see how heavy is the burden they are laboring under, and with the price falling how important they would find it to confine their purchases to the merest necessities of life. And it should be remembered too that this tax bears with peculiar hardship upon the freedmen—the laborer who produces the crop. In many cases he is the planter struggling to work his way up; in all other cases he is the employee, and must of necessity suffer in common with the employer.

Finally, such a diversion from cotton growing, as must inevitably follow from the permanence of this tax, would result in important embarrassment to our agricultural interest. The South would then be driven to the cultivation of breadstuffs upon her broad cotton lands; and as she would produce a large surplus of those commodities, she would become a competitor with the West for the foreign markets, resulting in a decline in the value of agricultural products throughout the country. It is thus, indeed, that heavy taxes upon special industries always work out derangement in production with consequent injury to trade at large.

For these, among many other reasons, it is much to be hoped that Congress will at an early day reconsider this question in a broad and national light, not merely with a view to remedying the present obstructive method of collecting the tax, but for the purpose of utterly and finally abolishing the impost.

## FINANCES OF CALIFORNIA.

The public debt of California on the first day of July, 1865 (as reported to the Legislature at their biennial session last winter) was as follows:

Description of Indebtedness. Civil bonds of 1857. Civil bonds of 1860. Soldiers' Relief bonds. Soldiers' Bounty Bonds.	hands. \$3,121,500 198, 00	69,000	Total Amount. \$ ,727,500 198,500 213,500 45,000			
To'al Funded Debt  Warrants outstanding on Capital Fund  on Soldiers' Relief Fund  on Sold ers' Bounty Fund  on Line Officers' Fund  unfunded Scrip due School Fund  Unfunded Scrip due School Fund  Due Swamp Land Fund	ind und		386.179 236,040 500 61,519 31,020			
From which deduct as follows, viz.:						
Balance in General Fund	aying July	interest 86,9	71-240,873			
Net State indebtedness July 1, 1865	• • • • • • • • • • • • • • • • • • • •		.\$4,784,181			

Of the amount (\$675,000) held in trust for State Funds \$665,000 belong to the School Fund, and \$10,000 to the Semigary Fund.

In addition to the debt above reported there are bonds of the State issued under an act (approved May 3, 1852) authorising the State Treasurer to issue bonds for the payment of the expenses of certain expeditions against the Indians, amounting to \$38,100, and controller's warrants not converted into bonds \$2,150.

The population of the State in 1860 was 379,994, and may now be estimated at 400,000, and hence on this basis the debt as outstanding July 1, 1865, was in the ratio of \$12.43 to each head of the population. The assessed valuation of real and personal property, subject to tax in 1865,

was \$180,484,949. This is equivalent to \$38.12 for each dollar of the debt, or in other words the debt is 2‡ per cents of the aggregate wealth of the people.

The revenue of the State is mainly raised from the property tax, which for the year ending June 30, 1865, amounted to \$1,614,492. This, however, was an extraordinary levy made to meet extraordinary services; and by the estimates for the current year not one half the amount stated would be required. It was on this account that the State controller in his report to the legislature recommended the reduction of the total State taxation from 115 cents to 96 cents on the hundred dollars.

The total receipts from County Treasurers' on account of the property tax and other imposts in the fiscal years 1864-65 were	\$2,044,702: 549,653:
Total receipts Expenditures	\$2,594,365
Deficit in receipts	

The progress of the State from 1850 to 1865 as indicated by the assessed valuation of real and personal property therein is shown in the annexed table:

I	1850	es# 870 680	1 1855	\$103,887,193	1860	\$148,193,540
		40 931 052	1856	39*00.1*3*1	1001	141,011,011
1	1851	43 4 March 4300 M	1857	126,059,462	1-62	160,369,072
	1852	OF 295 646	1959	123,955,877	1863	174,104,955
		444 404 000	1859	131,060,279	1864	180,484,949
١	1854	221,201,000				**

In 1852 the total population, according to the United States Census, was 255,122, and in 1860 it was 379,994, which gives an increase in eight years of 124,872, or nearly 49 per cent. The valuation in 1852 is stated to have been \$64,579,375, and in 1860 \$148,193,549, an increase of \$83,614,165 or 129½ per cent. The wealth possessed by each head in 1852 was \$253.13 and in 1860 \$389.98, showing an increase of \$136.85, or 54.02 per cent. If we assume the present population at 400,000 and the valuation at \$200,000,000, neither estimate beyond the probability, we shall find the average wealth of the people to be \$500. These calculations show a rate of acquisition seldom if ever equalled even in the manufacturing states of Rhode Island and Massachusetts. It is the best criterion by which to measure the debt-paying ability of a State.

[From our own Correspondent.]

London, Wednesday, Nov. 7, 1866.

So far, the present week has been a fluctuating one. On Monday the decline in the prices of wheat led us to anticipate a favorable movement in the value of cereals, and a beneficial effect on the money market. Yesterday matters assumed a comparatively buoyant appearance, and consols for the December account touched 89\$ \$. To-day, however, the position of affairs has decidedly changed, and although the appearance of matters in general is much less assuring than on Monday and Tuesday, it cannot be considered that we have in any degree retrograded from last week. The return to a throughly satisfactory

state of things from the recent extensive distrust cannot but be slow, and although nearly six months have now elapsed since Overend, Gurney & Co. failed, we are still far from being in a state to resume active and extensive trade. The trade of this country is so multiform, and extend into so many quarters of the world, that a crisis great as we have recently witnessed cannot but be a very protracted one. At times we imagine that we are on the eve of returning confidence and prosperity; but then a failure takes place, and we are again compelled to start afresh. It now seems probable that we shall remain in an anxious state during the present year, at least, and business will be carried on with the greatest caution.

The matter which now seems to attract attention, and to foster distrust, has but little connection with America. For many months past the tea trade has been in a most unsatisfactory state, and heavy losses have been sustained. At all the Chinese ports teas have been purchased at prices quite out of proportion to those ruling here, whilst in this market, owing to the existing distrust, prices have declined, and buyers circumstances, it is scarcely a matter of surprise that houses in the China trade are seriously embarrassed. Many rumors, known to be based on truth, have, for some months past been in circulation respecting China and East India mercantile establishments, but, as yet, no house of note has succumbed. To-day, however, Messrs. Dent, Palmer & Co. have refused to accept the bills of Messrs. Dent & Co., of China. This circumstance would, probably, not attract the attention it has, were it not for the fact of heavy losses having been sustained on tea, from which it is surmised that other firms are likewise embarrassed, and that we should be prepared for failures of a similar character. The continuance of mercantile and financial failures are a serious drawback to the recovery of our position, and so long as these continue to take place merchants will show no disposition to enter into extensive engagements, while the banking community will show increased caution in the bills they accept.

During the present week the demand for accomodation has been extremely moderate; but, notwithstanding that the open market quotations are one-half to three quarters per cent. beneath those current at the Bank, the Bank enjoys its fair share of the present limited business being transacted in the discount market. For this reason, it is anticipated that the Directors will refrain from making a change in their rates at their weekly meeting to-morrow. It seems certain, however, the establishment will be fully in a position to effect a change. During the present week, viz: since Thursday morning last up to this evening, the period to be embraced in the return to be published to-morrow, £302,000 in bar gold has been taken to the Bank, whilst £128,000 has been withdrawn for shipment to Alexandria and Brazil. There is, therefore, a balance of £174,000 and as at this period of the year there is a tendency for coin to return to the metropolis, after having been employed for securing the harvest the probability exists that there will be an increase in the supply of bullion of about £200,000. The total supply would then be nearly £17,000,000. As the rate of interest is at a moderate point, the ques tion of a reduction cannot be considered an important one. rates, so far as relates to the best paper, are subjoined :

Per Cent.   3	6 months' bank bills 4560 5

Very little change has taken place on the Continent this week. At Paris the quotations are firm; but in other quarters the rates tend down wards. Annexed are the quotations at the leading cities:

	MO - MO	**	rate.	market.	
At Paris	₩ c. ₩ c.	Transita	₩ c.	₩ c.

The rates of foreign	exchange have	not materially wari			

The rates of foreign exchange have not materially varied during the present week.

At the biddings for bills on India at the Bank, to-day, there was a further increase in the demand for remittance to the East. The minimum was fixed at 1s. 112d. against 1s. 112d. per rupee at the previous sale.

A loan for the Colony of Victoria was tendered for on Monday. The amount required was only £850,000; but the amount tendered was over £8,000,000, of which £1,500,000 was at and above the fixed minimum, £102 10s. The rate of interest is 6 per cent. The price to-day is 103½ to 103½.

The prospectus has been issued of the Agra Bank, the new title of the Agra and Masterman's Bank. The amount of new capital required is only £400,000, more than one half of which is already subscribed. The directors promise to confine their operations to Indian banking.

The Consol market in the earlier days of the week was firm, and yesterday rather a rapid advance took place in the quotations. Less

favorable news from Paris—the French Rentes having declined in value—together with other circumstances already alluded to, have produced less firmness to day, and prices are decidedly lower. In several departments of the Stock Exchange a desire to realize has been shown; hence the decline in prices. The highest and lowest prices for Consols on the days enumerated are subjoined:

Week ending Nov. 7	Monday.  Tuesday. Wed'day

United States Five-twenty bonds have ruled firm, and a slight improvement has taken place in prices. Illinois Centrals have ruled firm, and in other respects the market for American securities has ruled steady, but without much business. United States Five-twenty bonds close this evening at 68\frac{2}{3} \frac{1}{3}; Eric Railway shares, 50\frac{1}{3} to 51\frac{1}{3}; Illinois Centrals, 76\frac{1}{3} to 77\frac{1}{3}; Atlantic and Great Western dehentures, 64\frac{1}{3} to 65\frac{1}{3}, and the Consolidated Mortgage bonds at 39\frac{1}{3} to 40, ex-coupon. The following are the latest prices from the Continent for United States Five-twenty bonds. At Amsterdam, 72\frac{1}{3}; at Frankfort, 73; at Berlin, 78\frac{1}{3}, and at Hamburg, 66\frac{1}{3}. The highest and lowest prices of American securities in the London market on each of the last three days are subjoined:

The wheat trade has become less active, and prices have fallen 2s. per quarter. Increased supplies of home grown produce have been brought forward for sale, and there is a perceptible falling off in the condition of the supplies. Millers, however, have shown no disposition to purchase freely even good and fine dry wheats, and the decline in these is quite as considerable as inferior qualities. The decline in the price of wheat has caused a very favorable and confident feeling to prevail in several quarters, and it is anticipated by some that a further reduction will shortly take place. It seems probable, however, that such sanguine expectations are not likely to be realized, for although the quantity of wheat afloat to this country has considerably increased, and is still increasing, the supply is certainly not sufficiently extensive to effect more than to check the upward movement in prices. Several parcels of wheat have been taken for export to France during the last few days: but, on the other hand, we are still in receipt of supplies of flour from French ports. Whilst our imports from America are so small, and our receipts from France so trifling, it scarcely seems possible that prices can decline, since we are wholly dependent for important supplies on Russia and Prussia, and these two countries are not in a position to supply us with a sufficient quantity of produce to make up for the deficiency.

Our barley trade continues to be characterised by great firmness, so far as the finest qualities are concerned. As regards quantity, our crop is but little below previous years, but, owing to the prevailing wet weather during the progress of harvest work, the crop was much "weathered," and rendered in an unfit state for the purposes of the malster. In the ordinary run of years fine malting barley sells at 38s. to 40s. per quarter; but this year, as much as 55s. has been realised, and the current quotation for fine samples is 50s. to 52s. per quarter. There is only one quarter abroad which furnishes us with malting barley, viz.: the banks of the river Saale, in Germany, and even this produce bears ne comparison with our own, for at the present moment, it does not command more than 46s. per quarter. During the last few days we have received produce from American ports, but of very poor quality. In addition to high prices for wheat and barley, oats are selling at prices considerably in excess of previous years. As there is so large a proportion of inferior produce offered at comparatively low

prices, the official averages do not indicate a very high value for cereal produce. The averages issued in last night's Gazette are as follows:

produce. 120 at the	1862.	1863.	1864.	1865.	1866.
Per quarter. Wheat Barley	8. d. 48 7 35 1 20 10	s. d. 39 10 34 0 18 11	s. d. 38 9 30 2 20 1	s. d. 43 4 31 6 21 6	s. d. 54 9 43 10 23 7
Uats	_	- 1		1 -4	homan

But the prices at present current in the London market, compared with those ruling at this period last year, show a wide range in the value of this year's produce. The quotations in those periods and in 1864 are subjoined:

	<b>1863.</b>	1864.	1865.	1900.
Per quarter. Wheat Barley Oats		s. s. 39@44 27@34 17@24	s. s. 38@56 35@42 21@29	s. s. 48@65 46@52 20@34
Oats		_	• •	1 -1

The wool trade is still enjoying a fair degree of prosperity, and, although the aggregated business doing is somewhat restricted, prices of most descriptions rule firm. The last series of public sales for the present year will shortly be commenced, and during their progress nearly 60,000 bales will be offered. The bulk of this supply, however, is from the Cape of Good Hope, the arrivals from that colony being to the extent of 40,400 bales. From Australia and New Zealand, the arrivals have been about 17,000 bales. With regard to the next crop in this country, it seems scarcely to admit of a doubt that there will be a considerable increase from previous years, owing to the extra attention paid to the breeding and fattening of sheep since the cattle plague first made its appearance amongst us. During the first nine months of the present year we imported from all quarters 171,135,809 lbs. of wool, against 159,935,634 lbs. last year, and 148,140,746 lbs. in 1864. From Germany British India and Australia, the imports show a considerable increase from last year, but, on the other hand, there is a diminution in our supply from the Cape of Good Hope of nearly 5,000,000 lbs. Our imports for the nine months stand thus:

From— Hanse Towns and other parts of Europe. Cape of Good Hope	10,001,001	1865. lbs. 18,394,153 17,708,620 11,719,971	1866. lbs. 24,587,562 12,444,289 16,414,105

Total	140,140, 610	200,000,00	

An increased supply of English wool has been taken for export; but as regards Colonial and foreign kinds, the shipments in the nine months were 15,000,000 lbs. less than in the corresponding period last year. There is a large decline in our exports to Germany, but France has taken almost as much as last year, and more than in 1864. To the United States the shipments have been trifling, owing to large purchases having been made at the Cape of Good Hope for New York direct. The exports to each country during the nine months have been as follows:

TAX ON BANKS AND BANKERS.—The following decision of the Commissioner of Internal Revenue is just issued:

> TREASURY DEPARTMENT, OFFICE OF INTERNAL REVENUE, WASHINGTON, D. C., Nov. 12, 1866.

Under the provisions of the act of June 30, 1864, the license taxes of bankers were based upon the amount of capital used or employed. The Solicitor of the Treasury has given it as his opinion that the surplus earnings of an incorporated bank are no part of its capital within the meaning and intent of that part of said act which relates to license taxes, and that the license tax of said bank should not be assessed upon a sum greater than its chartered capital.

Whenever, therefore, a sum greater than the chartered capital has been made the measure of such a tax for the current year, the excess will be abated upon an application made in proper form to this office.

E. A. Rollins, Commissioner.

FUNDED DEBT OF PHILADELPHIA.—The following is an official exhibit of the funded debt of the city of Philadelphia, and assets, November 1, 1866:

Legislature of Alabama of Mr. John Whiting, Commissioner and Trustee of the State:

Office of Commissioner and Trustee, ) MONTGOMERY, Nov. 12, 1866.

To the Senate and House of Representatives:

The outstanding indebtedness of the State on bonds originally issued for the capital of the State Bank and branches, was at the time of the surrender as follows, viz.:

Payable at New York in 1863, with 5 per cent. interest, \$1,889,000; interest paid on 1st of May and 1st of November.

Payable at New York in 1865, with 5 per cent. interest, \$52,000; interest paid 1st of May and 1st of November.

Payable in New York in 1872, with 5 per cent. interest, \$168,000; in. terest paid 1st of May and 1st of November.

Payable in London in 1866, with 5 per cent. interest, \$648,000; interest paid 1st of January and 1st of July.

Payable in London in 1870, 6 per cent. interest, \$688,000; interest paid 1st of June.

Total, \$3,445,000.

The annual interest payable in New York amounted to \$105,450. In London, \$73,680.

The semi-annual instalments of interest payable in New York were regularly paid up to, and including, the one due the 1st of November, 1861.

The interruption of the war prevented remittances from being made to New York after that date, and notice was given through the public journals that coupons payable in New York would be paid on presentation at the Bank of Mobile.

The annual and semi-annual instalments of interest payable in London were paid as they became due up to, and including the one of 1st of January, 1865. The interest over due on the bonds, payable in New

York, as follows, viz.: Instalments due 1st of May, 1862, \$52,725; instalments due 1st of November, 1862, \$52,725; instalments due 1st of May, 1863, \$52,725; instalments due 1st of November, 1863, \$52,725; instalments due 1st of May, 1864, \$52,725; instalments due 1st of November, 1864, \$52,725; instalments due 1st of May, 1865, \$52, stalments due 1st of November, 1865, \$52,725; instalments due 1st of May, 1866, \$52,725; instalments due 1st of November, 1866, \$52,425. Total, \$527,250.

Of which sum there was paid, at the Bank of Mobile, \$53,400. Leaving due and unpaid, on the 1st of November, 1866, \$473,850. The interest over due and to mature on the 1st of January, 1866, on the bonds

payable in London, is as follows, viz.:

Installments due 1st of January, 1865, \$41,280; installments due the 1st of July, 1865, \$16,200; installments due the 1st of January, 1866, \$16,200; installments due the 1st of June, 1866, \$41,280; installments due the 1st of July, 1866, \$16,200; installments due the 1st of January, 1867, \$16,200. Making amount overdue 1st of January, 1867, \$147,360.

At the last session of the Legislature an act was passed entitled "An act to renew and extend the term of payment of certain State bonds therein named," approved 13th January, 1866. This act authorized the extension of the bonds due in New York in 1863, by the substitution of bonds of a similar kind, payable in 1883. In pursuance of this act, new bonds were prepared and notice given through the papers in June last of the readiness of the State to make the exchange, at my office, in the City of Montgomery, and at the banking-house of Duncan, Sherman & Co., New York, who had been appointed by Gov. Patton the Financial Agents for the State of Alabama in the City of New York. The renewal is progressing satisfactorily, and as rapidly as could be expected from the scattered localities of the bondholders. At the same session of the Legislature an act was passed, entitled "An act to provide for the payment of the interest on the bonded debt of the State of Alabama," approved 13th February, 1866. This act authorized the payment or funding of the interest due and to mature 1st January, 1867, on all the bonds payable in New York, as well as those payable in London, with bonds having twenty years to run, and bearing the same rate of interest, and payable at the same places as bonds upon which the interest is to be paid or funded, accrued; and under its provisions bonds were prepared and notice given to holders at the same time and in the same manner as was given to holders for extension. This is also progressing satisfactorily so far as the interest payable in New York is concerned. The Legislature overlooked the bonds due in London in 1866, and made no provision for their extension. Quite an extensive correspondence has been carried on with the Chairman of the "United States and Corporations Arrears Committee" of London, and with the manager of the Union Bank of London, on the subject of the bonds due there this year and the interest past due. At the first they required that the bonds to be given for the interest overdue and to mature on the 1st of January next should be of short date, or that an accumulative sinking fund should be provided for their redemption.

On the 5th of September last I submitted the distinct proposition to extend the bonds due in this year, with bonds of a similar kind, having twenty years to run, and to pay or fund the back interest-including that due on the 1st of January next, with bonds having twenty years to run. A public meeting of the bondholders was called, through the London Times, and I am now informed by the Chairman of the Committee, under date of the 13th of October, that at the next meeting resolutions were adopted accepting the proposition, and appointing the committee, in conjunction with the Union Bank of London, to represent the bondholders in the exchange. To carry it into effect, and thereby complete the extension of the matured bonds and the funding of the over-due interest, it becomes necessary for the Legislature to pass an act, authorizing the extension-which should be done at the earliest possible day, as it requires much time and labor to prepare the bonds. The funding of the over-due interest will add to the interest-bearing bonded debt

\$3,201,110 46

The regular payments of interest will begin again on the 1st of May, 1867, on the bonds in New York, and on the 1st of June, 1867, on those payable in London. Especial care should be taken to guard against the possibillity of a failure, or the recovered credit of the State will be irreparably injured. It must be borne in mind that the interest in London is payable in sterling money, which is now about 60 per cent. above our national currency. The bond issued to the Bank of Mobile, for \$15.388.13 of gold, was paid in August last, and the note for \$40,000, given for a loan to the State in September, 1865, at twelve months, was paid at maturity. There remain in my office seventy-five of the old Virginia bonds (6 per cent.), of \$1,000 each, worth in the market about Respectfully submitted, 46 per cent.

J. WHITING, Commissioner and Trustee.

#### The Bankers' Gazette.

We give in our BULLETIN from day to day lists of bonds, &c., lost, and dividends declared. These tables will be continued daily, and on Saturday morning such as have been published through the week in the BULLETIN will be collected and published in the CHRONICLE. Below will found those published the last week in the BULLETIN.

FRIDAY, P. M., Nov. 23.

THE MONEY MARKET .- The gradual tightening tendency in money noted in our late reports, has at last developed into a severe crisis. Certain of the banks finding their supply of greenbacks drawn down inconveniently close, presented their Clearing House Certificates for redemption. The Treasury, appehending the possibility of an important demand for the liquidation of the Certificates, and having in its vaults an inadequate supply of plain legal tenders to meet such a demand, called in its deposits with the National These banks met the de-Bank depositories of the interior. mand chiefly by drafts upon their New York agents, which became the actual payers to the Treasury. There was thus an important withdrawal of legal tenders from the banks into the Sub-Treasury; which in turn necessitated the calling in of loans to their customers, and produced a scarcity of money, in conjunction with an extreme demand. The rate of interest advanced to 7 per cent, and on Monday even 7 per cent. in gold was paid on call loans. To-day, however, relief was experienced among the banks from the discovery that the Treasury would have no further necessity for calling in its funds from the National banks, and that any outstanding drafts in favor of the Treasury could be paid in compound interest notes, at par and in terest. This course produced this morning a general feeling of ease in banking circles; and as all the chief money centres of this country are indebted to New York, it was felt that relief must soon be experienced from a considerable influx of currency. At noon, money was offered free'y at 6 per cent. on Governments, and brokers ound little difficulty in borrowing on stocks at 7 per cent. To-

ward the close of business, however, there was a very active demand for loans, and the market relapsed into a feverishness little better than was experienced yesterday. This unfavorable reaction has naturally had a somewhat demoralizing effect, disappointing hopes entertained earlier in the day, and encouraging apprehensions that the panic has not yet culminated. The real difficulty now appears to be, not so much in any actual scarcity of money as in obstructions to lending it arising from a lack of confidence. The heavy losses of firms through stock speculations induces an unusually close direction in loans to brokers; and the unsettled condition of commercial affairs, and the rumors of failures and extensions, naturally cause a severe discrimination in discounting business paper.

Discounting has been to a considerable extent suspended during the week, and the lowest rate on prime paper has been 7 per cent.; names ranking "good" pass at 8@10 per cent.

The following are the quotations for loans of various classes:

١	.*	Per cent.		Per cent.
	Call loans	6 @ 7	Good endorsed bills, 8 & 4 months	7 @ 7% 7 @ 8
	months	7 @ -	Lower grades	8 @10

UNITED STATES SECURITIES .- The decline in the premium on gold has had the effect of depressing the quotations for Governments generally. The fall in prices, however, has drawn out large orders for investment from the interior, while the advance in Fivetwenties at London, in conformity with the fall in gold, has also had a sustaining effect upon quotations. It is a feature worthy of note that the panic in stocks and the severe pinch in money has not had the effect of causing any realizing upon Government securities. A letter addressed to Messrs. L. P. Morton & Co., by the Secretary of the Treasury, declaring it to be the policy of the Government to pay the principal of all its bonds in gold, has had an assuring effect upon gold bearing bonds, and appears also to have had a favorable effect upon the London market, the letter having been telegraphed there and published in the London Times. This morn. ing Five twenties, 1862, opened firm at 1081, and advanced to 1081, under an active demand from foreign brokers and home investors.

The total sales of bonds at the Stock Exchange, for the week, amount to \$2,920,650, against \$1,347,800 for last week.

The following are the closing prices of leading securities, compared with preceding weeks:

	Oct. 19.	OCt. 20.	NOV. 2.	1404. 9. 14	04. 10. 7	101 200

RAILROAD AND MISCELLANEOUS STOCKS.—The extreme stringency in money, happening in conjunction with an active movement or depressing prices, which had produced a certain degree of demoralization in the market, has had the effect of precipitating a very heavy decline on the prices of railroad and miscellaneous stocks. The inability of brokers to procure adequate loan accommodation induced a general process of realizing; and dealers, becoming alarmed, threw overboard the stocks of all customers who failed to make good their margins. The process of realising assumed its most serious form yesterday, when stocks closed at the following quotations, compared with those of Friday last:

With those of 2 lang	Nov. 16.	Nov. 22.	Decline.
Quicksilver	51	44	9
Canton Co	047		
New York Central	11179		
Erie	78	71%	614
Hudson River	1233		314
Reading	1133	110%	
Michigan Southern	851		614
" Central	113	111	. 2

Northwestern Preferred		69%	4%
Rock Island.	4006		514
ROCK ISIANU			
Fort Wayne	100	116%	
Illinois Central		/6	0

During yesterday, however, much lower prices were made upon larger sales of stocks than are indicated by these quotations. This morning the market opened with a continuation of the panicky feeling, and on some stocks a still further fall of 1@2 per cent. occurred, but the announcement of the consideration shown by the Treasury to the National Banks, had an assuring effect upon the market, and a general recovery of prices was realised. After the close of business at the boards a weaker feeling seized the market, and heavy transactions were made at a fresh decline of 1@21 per cent., and at the close of the day the tone of affairs was very fever-

ish and unsettled, producing a disturbance of confidence which discourages expectations of any immediate recovery of prices.

Chicago and Northwestern has been the most active stock, and has fallen most severely, the price at one time to day touching 392—a fall of 122 since last Friday. The sales of stock during the week aggregate 141,185 shares. In Erie the transactions amount to 108,504 shares; in Reading 96,400 shares; in Michigan Southern 79,318 shares, and in Cleveland and Pittsburg 43,200 shares. The total transactions in railroad and miscellaneous stocks for the week amount to 736,706 shares, against 638,083 for last week, when the transactions were also very unusually heavy.

There is still a large speculative interest in favor of lower prices, and every tendency toward a recovery of prices is met with re newed efforts to depress the market. The market closes very un settled and weak, prices being generally lower than the closing figures at the regular board given below.

The following are the closing quotations at the regular board today, compared with those of the six preceding weeks:

	Oct. 12.	Oct. 19.	Oct. 26.	Nov. 2.	Nov. 9.	Nov. 16.	Nov. 23.

August	10,987,850	2,577,000	1,986,990	993,000	16,544,750
September		2.425,350	2,984,000	879,200	12,739,850
October	10 000 000	0 709 950	9 709 900	1 924 700	17 010 550

For the details of the week's transactions, the reader is referred to the tables headed "Business at the Stock Boards," in the next previous page.

THE GOLD MARKET.—The tendency of the gold premium during the week has been steadily downward. The large supply of gold

rendering the market difficult of manipulation by speculators leaves the premium free to follow the downward inclination growing out of the absence of any export demand, and the favorable condition of the public finances. For several days the Treasury has sold its daily receipts for customs at this port; which has materially stimulated the downward tendency. Yesterday, the sales were suspended, and are not likely to be renewed so long as the present monetary derangement continues. The premium yesterday touched 37%, the lowest point during the week, and closes at 38%—a fall of 4½ from our latest quotation.

The following have been the highest and lowest quotations for gold on each of the last six days:

		Lowest.			Highest, I	owest.
Nov. 17		141	Nov.	21	141	139% 137% 138%
Nov. 19		140	Nov.	22	138%	187%
Nov. 20	141%	140%	Nov.	23	1391	138

The transactions for last week at the Custom House and the Sub-Treasury were as follows:

	Unstom Holse.	Sub-T	reasury
	Receipts.	Payments.	Receipts.
Nov. 12	\$393,516 04	\$5,488,822 85	\$7.878,900 74
. 13	360.882 65	1,861.031 20	3,811,319 90

FOREIGN EXCHANGE.—The decline in gold has induced some parties who have been deferring remittances in expectation of a lower premium to purchase bills for remittance. The panicky condition of affairs in Wall street has produced yesterday and to-day an active speculative demand for bills, upon the supposition that foreign capitalists having balances here may, under the circumstances, call them home. Under these influences exchange has advanced 1@2 per cent. since yesterday morning.

The following are the closing quotations for the several classes of foreign bills, compared with those of the three last weeks:

		Nov. 2.	Nov. 9.	Nov. 16.	Nov. 23.

Exports of Leading Articles from New York.

## The Commercial Times.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, Nov. 23.

A considerable decline in the premium on gold, and increased stringency in the money market, have had a very depressing influence upon the markets for general merchandise. The demand has been reduced almost to nil. Prices, however, have given way but little; the long period of inactivity, which has prevailed, has so cut down prices and checked imports, that the requirements of the present financial situation have been in a good degree anticipated. In fact, the markets are now in position to give trade a healthy start. Breadstuffs have yielded to the money pressure. Groceries have been quite irregular. Cotton closes firm.

In Provisions no further decline in hog products can be noticed. Supplies at current prices, both here and at the West, are quite moderate, and unless gold should further decline materially, it is thought Pork and hog products are now on a safe basis. Lower gold prices than those now ruling, have not often been quoted of late years. Beef, Butter and Cheese, at some decline, have been more active; the latter being taken to some extent for shipment to Great Britain.

In Naval Stores we notice a marked decline for Spirits Turpentine, the result of the want of foreign orders, and increased supplies. Rosins have also slightly declined, and the market for other Naval Stores is dull and depressed. Oils have declined and close unsettled.

Hides and Leather, with reduced stocks, have a downward tendency, owing to extreme dullness of demand.

Petroleum has declined 2c. per gallon for both crude and refined, owing to the large supply, with a decline in gold, and reduced limits on foreign orders. We believe the gold price of crude has not been so low since the article became a staple of commerce.

Gold prices of East India Goods rule very strong—in fact, have slightly improved—with a pretty limited trade.

Metals show lower prices throughout, except Pig Iron, of which stocks are quite low; but, even for this article, currency prices are drooping. Copper has declined 3c. per lb. in currency.

Fish and fruits have declined a little, with trade rather slow.

Prices of lumber and other building materials are barely supported; the demand is less pressing.

Hops have been dull. Tallow is \(\frac{1}{4}\)c. lower. Whiskey is very unsettled, owing to the difficulty of enforcing the excise.

Wool has further declined, without leading to business. The depression is greatest in currency prices of domestic fleece. Gold prices of low grades of foreign have experienced but slight variation. A revival of trade in woolen goods is evidently necessary to precede more activity and better prices for wool.

In Freights there has been a partial revival. There have been liberal shipments of cotton to Liverpool; and that, and other ports of Great Britain, are taking increased quantities of breadstuffs, including flour and wheat; but, at the close, the decline in gold has checked shipments to some extent. To the Continent there have been moderate shipments of petroleum and tobacco. Shipments of flour and provisions to the West Indies have increased.

The following table shows the exports of leading articles of commerce from the port of New York since July 1, 1866, the principal ports of destination, and the total since January 1, and for the same period in 1865. The export of each article to the several ports and the total export for the past week can be obtained by deducting the amount in the last number of the Chronicle from that here given:

#### COTTON.

FRIDAY, P. M., Nov. 23, 1866.

The receipts of Cotton the past week at all the ports amount to 67,431 bales, against 56,736 bales the previous week, making the total receipts since September 1, this year, 333,534 bales, against 509,085 bales for the same period in 1865. The exports from all the ports for this week show an increase, the total reaching 18,979 bales, of which 13,062 bales were to Liverpool, 41 bales to Glasgow, 4,578 bales to Havre, 20 bales to Bordeaux, 301 bales to Bremen, 480 bales to Hamburg, 50 bales to Havana, and 447 bales to Vera Cruz, as follows:

The market the past week has been quite irregular, with a very moderate business. The Liverpool reports early in the week were regarded as favorable, and a recovering in prices to the extent of one cent per lb. took place—but the demand was light, and yesterday, under the decline in gold, full receipts at the ports, and a stringent money market, the advance was lost. To-day the telegrams from Liverpool re port a farthing advance, and, with higher gold, there is some improvement in tone and business, but no decided advance. The sales for the week amount to about 10,000 bales. The following are the closing quotations:

N. Orleans Upland. Florida. Mobile. & Texas Ordinary ..... Low Middling......Middling. 33 35 Good Middling.....

Exports of Cotton from New York the past week amount to 9,430 bales, of which 8,344 were to Liverpool, 41 to Glasgow, 305 to Havre, 480 to Hamburg, and 301 to Breme n as follows:

To Liverpool per steamers: Edinburgh, 1,062; England, 1,671; Amsterdam, 504; Columbia 1.326; per Ship R solute, 1,697; Emcrald Isle (recleared) 644; Adelaide 1,399. Total biles
To Glasgow per steamer: Columbia, 41. Total bales.
To Bremen per steamer: Hansa, 301.
To Havre per steamer: Pereira, 305. Total bales.
To Hamburg per steamer: Borussia, 480. Total bales

Below we give our table showing the exports of Cotton from New York, and their direction for each of the last four weeks; also the total exports and direction since September 1, 1866; and in the last column the total for the same period of the previous year:

<sup>\*</sup> Reshipments.

There have been no exports of cotton from either Boston, Baltimore or Philadelphia this week.

THE CROP.—We have reports from the South of heavy, and, in some instances, very cold rains during the week, putting an end to the fair weather with which, to an unusual extent, the Cotton States have been favored during the Fall. Estimates are now being made of the probable yield, the total being pretty generally fixed at about two million bales. Below we give the conclusions of Messrs. Neil Bros. & Co., taken from their Circular of the 20th inst.:

From the following resume it will be observed that, by adding up the foregoing figures we arrive at an estimate of from 2,050,000 to 2,300,000 bales for the whole crop. This range may be considered rather a wide one, but by an examination of the estimate for each district, it will be seen that it would be rather presumptuous to make it any narrower, particularly as in the more southern States, under the influence of the fine weather, cotton bolls are continuing to open.

	Crop of 1859-60.	1866-7, estimate	đ.					
North and South Carolina	608,000	250,000	to	275,000	or c	t. of 1	859_6	'n
and Virginia	689,000	350,000		375,000		*		
	843,000	250,0 <b>0</b> 0	"	300,000	"	44	••

Texas	252,030	200,000	"	225,000 89	"	"	66	
Tenn., Ky, Missouri, &c.	143,000	250,000	46	275,000		• 6		
Shipped overland		174	"-	185	"			
Total	4,675,000	2,050,000	2	,300,000				

It will be seen that the estimated total very nearly agrees with the figures we gave early in September.

Galveston, Nov. 10.—We have received one week's later statement by mail from Galveston. The receipts for week ending Nov. 9 were 4419 bales, against 2,119 last week, and the shipments were 3,072 bales, of which 2,842 bales were to New York, and 230 bales to New Orleans. Below we give the receipts, sales, and shipments for a series of weeks, and the stock, price of middling, rates of freight to Liverpool and New York, and price of gold at the close of each week:

							-Freig	nts.—

						_				

<sup>\*</sup> Specie. † Per steamer.

The market has not been very active, on account of the unwillingness of factors to offer their cottons at prices which buyers can accept. Sales of the week are about 1,000 bales.

New Orleans, Nov. 17.—The mail returns for the week ending Nov. 16 show the receipts to be 24.968 bales, against 25,662 bales last week. The shipments for the last week were 17,467 bales, of which 4,759 were to Liverpool, 4,273 were to Havre, 477 to Vera Cruz, 50 to Havana, 5,401 to New York, 1,415 to Providence, and 1,112 to Boston. Stock on hand Nov. 16 was 147,328 bales. The receipts, sales, and exports for a series of weeks, and the stock, price of middling rates of freight to Liverpool and New York, and price of gold at the close of each week since Oct. 5, were as follows:

					Freig	hts	`

<sup>\*</sup> By steam.

During the week transactions in cotton have been very limited, on account of the unsettled state of the market. Liverpool advices of a heavy decline there, and the depreciation in gold served to disclose great weakness in prices here, the quotations to-day being nominal at 85 for middling and 33@34 for low middling.

Mobile. Nov. 17.—By mail we have received one week's later dates from Mobile. The receipts for the week ending Nov. 16 were 9,866 bales, against 9,100 bales last week, and the shipments were 3,192 bales, of which 422 bales were to New York, 632 bales to Providence, 847 bales to Portland, and 1,201 bales to New Orleans, leaving the stock on hand and on shipboard, not cleared, of 46,151 bales. The following are the weekly receipts, sales, and exports for a series of weeks, and the stock, price of middling, rates of freight to Liverpool and New York, and price of gold at the close of each week:

						-Freigh	t	
					Price of '			Price of

16 16	9 866	4 200	3 192	46.151	30@31	11/100	76	143 @145

The market during the week has been dull and declining, and closed dull at 27@28 for good ordinary, 30@31 for middling, and 32 for strict middling. Sterling Exchange closes at 150@152.

CHARLESTON, Nov. 17.—The receipts for the week ending Nov. 16 amount to 6,882 bales, against 5,096 bales last week. Shipments for this week amount to 3,673 bales, against 4,135 bales last week, of which 20 were to Bordeaux, 2,765 were to New York, 33 to Boston, 386 to Philadelphia, and 469 to Baltimore. The receipts, sales, and exports for a series of weeks, and the stock, price of middling, rates of freight to Liverpool and New York, and price of gold at the close of each week since Oct. 5, were as follows:

- 1 @ $-$ 145@147

The market has been unsettled, dull and lower through the week and closes dull at the decline; low middling being quoted at 30@31 and middling at 32.

SAVANNAH, Nov. 17.—The receipts for the week ending Nov. 16 were 8,496 bales, against 7,614 bules last week. The shipments this week were 6,170 bales, of which 4,350 were to New York, and 1,820 were to Boston. Below we give the receipts, shipments, prices, &c., for a series of weeks:

1		Receipts.	Snipm's.	Stock.	Price Mid.
	Oct. 5	2,847	3,274	3,296	38 @39
	" 19	5,939	3,726	5,509	36 @37

	" 9		6,958	14,880	331/0034
	" 16		6,170	17,206	31 @32

The market has been dull and lower through the week, and closes unsettled. Buyers are willing to pay 31 for New York middling, but no transactions at that figure.

LIVERPOOL, Nov. 7.—There has been a steady demand for cotton this week, and prices have ruled firm, with an upward tendency. The quantity of East Indian cotton now affoat to this country is only about 100,000 bales. The following are the prices current:

	1803.	1004.	1800.			1909.	1004.	1205.	1600.
Middling-	d.	d.	d.	d.	Middling-	d.	d.	d.	Q.

#### TOBACCO.

FRIDAY, P. M., Nov. 23.

The exports of Tobacco this week from all the ports show a decided increase both in crude and manufactured, the total for the week being 4,426 hhds., 1,367 cases, 551 bales, 359 pkgs., 129 hhds. of stems, and 979,636 manufactured lbs., as may be seen in the following:

The market this week for Kentncky Leaf has been very quiet. There is an absence of export demand, partly, however, owing to the scarcity of suitable styles. The sales have been only about 500 hhds., mostly to the home trade, at prices in favor of the buyer.

In Seed Leaf there has been a fair business, including lines of wrappers and fillers for expert. The sales emurace 100 cases prime old Connecticut wrappers, for export, 40c.; 100 cases new Connecticut wrappers, private terms; 34 cases common old wrappers,  $14\frac{3}{4}$ c.; 26 cases new Connecticut fill ers at 7c.; 36 cases Florida, 8@20c.; 100 cases old State binders for export at  $5@6\frac{1}{2}$ c.; 150 cases Ohio wrappers, 18c.; and, for speculation, 360 cases new Pennsylvania wrappers, 17c.

Foreign Tobacco has been moderately active. 210 bales common Yara were sold at about 70c., and part resold for export on private terms; 200 bales Havana, 80c.@\$1 10.

Manufactured Tobacco has been in moderate demand at steady prices.

EXPORTS OF TOBACCO FROM NEW YORK.

NEW ORLEANS.—Dates to the 17th report that there has been some inquiry on foreign account, and on the 16th 116 hhds. selected lugs and low leaf were taken for export, at 5c. per lb., and 12 hhds. at 4½c Early in the week there were sales for Spanish account of 117 hhds., including lugs and low leaf at 4@5c., and fair leaf at 10½c. The local trade was light. The receipts for the week had been only 3 hhds. The exports for the week were 65 hhds. to Liverpool, 10 do. to New York, and 2 do. to Brazos. Stock on hand, 5,230 hhds. Inspections since Sept. 1st, 13,656 hhds. We quote: Low refused 3½@4½c.; Good do. 5@5½; Common leaf 6@7½: Fair 8@10; Good 11@12; Fine 13@15; Choice selected 15@20; Cutters' and Balers' 20@25.

MARYLAND.—A report from Baltimore, for last week, says receipts continue small, but the market is without material change, except that there is more disposition on the part of sellers to meet shippers. The new crop Maryland ground leaves, which is poor in quality and light in quantity, sell from \$2 50 for common sandy to \$14 for prime. Of old crop we report sales amounting to 200 hogsheads, principally common, of which the receipts are now chiefly composed. There is nothing worthy of notice in Kentucky leaf, and of Ohio we have only to report 50 hogsheads at former quotations. Inspections this week—622 hogsheads Maryland, 66 Ohio, and 2 Virginia; total, 690 hogsheads. Exported this week—940 hogsheads leaf, 129 do. stems to Rotterdam, 1,081 do. leaf to Bremen, and 12 do. to West Indies; total, 2,163 hhds.

Missouri.—St. Louis dates to Nov. 20 report the market slow. Sales 38 hhds., including 1 hhd. at 60c., 16 hhds. at from \$2 to \$4 20, 8 hhds. at from \$5 70 to \$8 90, 9 hhds. at from \$10 to \$12 50, 2 hhds. at from \$15 25 to \$18 75, and 2 hhds. at \$20 50 and \$28 75; also, 1 box at \$2 40, and do. at \$37 per 100 lbs.; and bids on 43 hhds. were rejected.

Kentucky.—Dates from Louisville to Nov. 20th, report that the breaks continue of low and inferior grades, though the offerings are increasing, including 56 hhds. new leaf to-day. The sales embraced 79 hhds, including 13 rejections, at the following prices:

Six hhds. at \$2 10@2 90, 15 at \$3@3 40, 6 at \$4 10@4 80, 12 at \$5@5 95, 7 at \$6@6 90, 4 at \$7@7 50, 2 at \$8 25@8 60, 7 at \$9@9 90, 6 at \$10@10 75, 1 at \$11 50, 4 at \$12@12 75, 1 at \$13@ 25, 4 at \$14 @14 50, 1 at \$16, 3 at \$17@17 25, 1 at \$18.

VIRGINIA.—Richmond dates of Nov. 21st, report that the breaks and offerings have been small for the past week, and were confined to 205 hogsheads, tierces and boxes, and 50 parcels of loose, which were sold as follows:

Loose lugs, (new) manufacturing, at \$4 to \$6, loose leaf, (new) manufacturing, at \$6 to \$20; loose leaf (new), stemming, at \$8 to \$18; hogs heads, lugs, common funked shipping, at \$3 to \$4 50; do., medium to good working and shipping, at \$5 to \$9; hogsheads, leaf, common to good working and shipping, at \$8 to \$18; do., fine and extra working and shipping, at \$18 to \$25; hogsheads and boxes, manufacturing, medium to fine, at \$13 to \$20; boxes, fancy wrapper (new), medium to extra, at \$10 to \$130.

#### BREADSTUFFS.

NEW YORK, Nov. 23, 1866.

The stringency of the money market, with increased stocks on hand, have subjected receivers to the necessity of selling, and generally lower prices have been made. The Erie Canal will be officially closed on the 12th December, but it is doubtful if it can be kept open till then, for it snowed along its line yesterday.

Flour has been very irregular: Some orders for shipment to Great Britain came on the market on Tuesday and Wednesday, upon which low grades of Extra State advanced 25c. per barrel, and a few thousand barrels were sold. But yesterday the decline in gold shut out these orders, and the improvement was lost. The local trade has resolutely held aloof, and medium grades have declined fully 50c. per bbl. Most of the high grades are held out of the market; but a considerable decline from nominal quotation would be necessary to effect sa'es.

Wheat is fully 10c. lower than last week, under a pressure to sell. A few loads have been taken for export, but without encouraging millers to come forward. There are about a million bushels on the canal yet to come forward, and likely to reach this market all in the coming week. In addition to the stock in store, there are about half a million bushels afloat in this harbor; and it is estimated that we shall go into winter quarters with fully two millions of bushels. This quantity is abundant for our own wants; but

is little calculated to respond to orders from Europe, which are expected at high prices.

Corn has been dull and depressed. We shall have considerably over four million bushels on hand at the close of navigation, but holders continue to support prices considerably above English orders, in the expectation of a large demand from the South.

Oats and Barley have been in excessive supply, and have declined materially, not withstanding a considerable export demand has prevailed. There has been some business in Rye for export, at \$1.12@1.15 for Canada in bond.

#### STOCKS OF GRAIN IN STORE.

#### GROCERIES

FRIDAY, P. M., Nov. 23.

The Grocery trade has largely sympathised with the condition of the market for all other kinds of business. The favorable advices from other ports have had but little effect against the depression which has prevailed. The lower price of gold has carried with it the price of articles in gold quotations, and, beyond this, some goods have been further depressed by the state of trade, and quotations are almost entirely nominal. Currency prices have either declined materially, or holders have declined to sell, so that trade has been very light in all departments.

For the purpose of showing the state of the market at present for leading Groceries, compared with previous years, we have prepared the following table of prices at New York at this date in the years named—cutside quotations are

given:

	1866.	1865,	1864.	1863.	1861.
Ten-Hyson	80 @1 65	1 10 @1 60	1 15 @1 50	1 08 @1 29	60 @80

New Orleans	80 @1 10		1 05 @1 30	69 @ 65	50 @53
Gold	1 38 @1 391				par.
* Currency			8		

The have been very dull, irregular, and for the most part inactive. The decline in gold has continued to unsettle the market, and the transactions from first hands have been very light indeed. Some 4,000 half chests were offered at auction on Thursday, but the larger portion of the offering was withdrawn. The market closes inactive, and our quotations are nominal.

The imports of tea this week at this port have been 421,885 lbs. of Japans, per bark Wave, from Nagasaki; 72,500 lbs. Oolongs and Ningyong from Whampoa; 50 half-chests per Bellona, from London; 44,520 lbs. Japans, per Ocean Queen from Aspinwall. At Boston none.

The following table shows the shipments of tea from China and Japan to the United States, from June 1 to Sept. 11, 1866, and importations at New York and Boston since Nov. 1:

#### COFFEE.

COFFEE has been unsettled by the irregularity of business, and, not-withstanding the decline in gold, gold quotations are entirely nominal. The sales of the week are about 2,500 bags, mostly on private terms. The market closes dull and declining.

The receipts of Coffee at this port for the week have been 4,500 bags, per P. C. Warwick; 4,519 bags, per Byfoged Lindehal; 647 bags, per Nellie Warwick, from Rio; 2,700 bags, per Isabella, from Cara; 634 bags, per A. B. Patterson, from Porto Cabello. Total 13,000 bags, against 267 last week. At Baltimore—Prairie Flower, reported to have 2,400 bags; Winifred, reported to have 4,200, and the Agnes and Jas. C. Coale, cargo not reported, have arrived from Rio; and the stock of Rio Coffee on 21st was reported at 12,272.

The receipts and stocks of coffee are as follows:

AT NEW	YORK.		OF RIO IN THE	SEVERAL	PORTS.

#### SUGAR.

Sugar has materially declined in currency prices, to keep pace with the decline in gold; and, with a dull, inactive market, our quotations are still nominal. Some holders have forced sales at much lower figures, and there are 1 ut few buyers in market. The regular sales of raw sugar for the week are about 2,000 hogsheads of Cuba and Porto Rico, and 1,000 boxes Havana. Refined Sugar is dull and lower.

The importations of Sugar for the week, as shown in the table below, have been larger in hogsheads both from Cuba and other Islands, and also larger in Havana boxes; the hogsheads are 3,724, against 1,583 last week; barrels 1,512, against 168 last week; and boxes 6,789, against 313 last week; there are also 300 bags from Brazil.

The receipts for the week, and stocks on hand, are as follows:

١	_	Hhds.	Punch's.	Ti'ces.	Csks. Bbls.	Boxes.	Bags.	Bales
١	Cuba	3,113		58	95	6,759

<sup>\*</sup> Includes puncheone, tierces, casks, and barrels reduced to hade

NEW OBLEANS, Nov. 16 .- The receipts of the new crop are small, but sufficient to supply the demand, which is only local. The latest sales were of 225 hogsheads, at 9@10 for inferior; 1112@112 for common; 12@121 for fair; 131 for prime; 131@148 for yellow clarified.

In molasses the remarks above apply as to receipts and demand. Prices have declined 5@7c. per gallon. Choice molasses is in demand for the local trade and for shipment, but the medium qualities are neglected, and lower grades are very dull. The latest sales were 400 bbls. at 50c. for inferior; 60@65 for common; 70@71 for good; 80 for choice, and 82@83 for very choice.

The receipts, sales and exports of sugar and molasses have been as

		-Receipt	2	]	Exports		Prices	Price of
	This	Since	Same		Since		per 🗼	gold.

HAVANA, Nov. 16.—A good business is reported for the week at about previous rates. Low classes, up to No 10, have been in demand for the United States market. Holders are asking 72@8 rs. for No. 12. In molasses sugar business has been done at 42 @5 rs. for Nos. 8 to 9.

Shipments to the United States for the past week have been 6,793 boxes, against 8,562 the previous week; and to New York 4,321 boxes, against 4,000 the previous week. Shipments are as follows:

New York	boxes	4,321
Boston		1.817
New Orleans		655

The following will show the receipts, exports and stocks at Havana

Year. 1866	week.	to U. S.— Since Jan. 1. 399,234		export—— Since Jan. 1. 1,301,576	tocks boxes. 110,276

#### MOLASSES.

Molasses has been less active from absence of the distilling demand. although a comparatively good business has been done. Prices of some grades are slightly lower, but generally prices are maintained. The market closes q ie; at our figures.

The receipts of Molasses have been 1,900 hogsheads, against 753. last week. The import in other packages, as seen below, is also much larger than last week, including 346 barrels of New Orleans.

Receipts and stocks are as follows:

•		-Receip	ots this	week-	,	-Stock on	h'd_

Last week	753	135	23	87	188	*5,100	100

<sup>\*</sup> Includes puncheons, tierces, &c., reduced to hhds.

SPICES.

Spices have been inactive, with only a light jobbing demand. There is, however, less variation in prices than for most other articles. The market closes very quiet at our figures.

FRUITS have also been less active, but with less fluctuations in prices Currency prices show but little decline, but buyers are holding out of

DRIED FRUIT is in steady light request at essentially the same prices.

#### THE DRY GOODS TRADE.

FRIDAY, P. M., Nov. 23, 1866.

The dry goods trade has been very unsettled and irregular with agents during the entire week. Most leading goods are withdrawn from market, and the prices are without any settled basis. The jobbers have been vigorous bears up to yesterday, when, feeling that goods were low enough, and buyers were coming into market more freely, they returned to a more regular business. This, with a firmer cotton market, causes a somewhat hopeful feeling at the close, with indications of a more settled business for cotton goods. The wool market continues depressed and unsatisfactory, and gives a depressed feeling to the market for woolen goods. Foreign goods have been pressed upon the market, and, although the sales have been very considerable, prices have been below cost of importation.

The following table shows the export of domestic cottons

and dry goods from New York and from Boston:

~N.	York.	-Bosto	n-	_N. YorkBoston-	_

BROWN SHEETINGS AND SHIRTINGS are very irregular in business, and ... there are but few agents willing to quote prices. Jobbers are selling there goods to some extent at the following quotations. Standards are generally sold at 21 cents. Atlantic A 37 inch 21½, do H 21, do V 30 inch 19½, do I fine 36 inch 22, do E fine 33 inch 20, do N 30 inch 14, Amoskeag A 211, do B 21, Medford 37 inch 20, Nashua extra 37 inch 20, Newmarket A 36 inch 20, Shannon 36 inch 20, Great Falls M 36 inch 21, do S 33 inch 201, Appleton A 37 inch 21, Princeton A 4-4 21, Boott S 40 inch 22, do O 34 inch 19, do H 28 inch 17, do W 45 inch 30, Dwight A 4 4 21, do R 4 4 19, Auction 4-4 14, Indian Head A 37 inch 21, do 30 inch 19, Indian Orchard A 33 inch 241, do BB 40 inch 19, do L 80 inch 16½, do W 33 inch 18, Laconia H 35 inch 21, do B 40 inch 22¼, do E 36 inch 20, do O 40 inch 23, Lawrence C 36 inch 21, do G 33 inch 20, Bedford R 30 inch 14½. Lyman C 4-4 20, Roxbury A 21, Pittsfield 4-4 18, Medford 20, Kennebec 4-4 15, Massachusetts J 18, do C 161, do BB 21, Pacific A 37 inch 21, do H 37 inch 21 do L fine 37 inch 22, do fine 33 inch 201, Pepperell E fine 40 inch 231, do R 36 inch 211, do O fine 33 inch 191, do N fine 30 inch 171, Portsmouth E 32 inch 16, do F 32 inch 17, do P 28 inch 131, Wachusett 4 4 201, Standard 19.

BLEACHED SHEETINGS AND SHIRTINGS have been very slow and irregular with all parties during the week; near the close, however, there is a rather better business doing but prices with agents are almost wholly nominal. Jobbers are selling goods at the following quetations: New York Mills 36 inch 421, Wamsutta 36 inch 371, Bartlatt 36 inch 251. do 38 inch 21, do 31 inch 19, Arkwright 36 inch 34, Jame Mills 36 inch 241, do 36 inch 21. Androscoggin 36 inch 29, Pepperall 6-4 471, do 8-4 65, do 9-4 80, do 10 4 90, Attawaugan XX 36 inch 24, Hope 36 inch 25, Lonsdale 29, Bates XX 36 inch 33, do 45 inch 33, do BB 36 inch 271, Home 36 inch 24, do 45 inch 371, Mattawamkeag 8-4. 45, do 9-4 771, Waltham 42 inch 261, do 8-4 621, do 9 4 771, do 10-4 85. Utica 5-4 421, do 6-4 521, do 9 4 971, do 10-4 \$1 05, Indian River XX 23, Manville XX 221. Hill's Semp. idem. 36 inch 281, do 33 inch 25, Tip Top 86 inch 29, Red Bank, 83 inch 221.

Ticks have been quite inactive with agents, and a considerable concession would be made to dispose of large lots. Johbers offer their goods at some reductions. Conestoga extra. 86-inch 50, Conestoga 45, Amoskeag A C A 32-inch 621, co A 32 inch 46, Amoskeag B 32-inch 41, do D 30-inch 31, do C 30-inch 36; Pemberton, red stripe, 321, Brunswick 22, Blackstone 25, Hamilton 371, do D 321, Somerset 20, Thorndike 20, Pearl River 60, Oriental 45, Harvest 331, Hancock A A 35, Pittsfield 15, Easton A 23, do B 21, Bunkerhill 30, York 32-inch

52½, do 30-inch 40. STRIPES have been less changed in prices, and the business has been quite nominal in agents hands. Jobbers have a light trade. Amoskeag sell at 35, Uncasville 26@27, Whittenton A A 35, do A 30, do B B 25, Pittsfield 3-3 141, Pemberton Awn 471, Haymaker 28, Everett 26, Mastabesic 6-3 38, Harvesters 3-3 22@27, do 6-3 22@27, Chester Dock 23, Blackstone 231, Eagle 18, Hamiston 31 Arkwright 25, Easton 22.

DENIMS are also dull and irregular with agents. Their prices are nominally the same as those of jobbers. Pearl River sell at 421. Chester Dock 28, Union 30, Monitor 22, Manchester Co. 271, Clark's brown 271, Suffolk 30, Amoskeag 45, Haymaker 28-inch 30, do brown 30, York 28-in. 41, Warren brown 27-in. 27, Boston Manufacturing Co. 29-in. 271.

CHECKS are in light request with either agents or jobbers. Park Mills Red sell at 25, Lanark 4x2 17, Lanark Fur 181, Union 50 4x2 871, do 50 2x2 871, do 20 4-2 85, do 20 2-2 85, Caledonia 85, do 29.

Brown Drills are in some request, at steady prices. Standards are held at 25, Winthrop 19, Amoskeag 24, Laconia 24, Pepperell 25, Stark 23, Boott 25, Massabesic 20, Brunington 23, Globe 20.

PRINT CLOTHS have been in rather better demand, and the price is quite steady for prime makes.

Prints are very irregular in agents hands and their quotations are nominally higher than what the goods are sold for by Jobbers. The business in Jobbers hands has been quite steady for the past two days and prices although lower are quite steady. American sell at 171, Amoskeag dark 162, Merrimac D 18, do W 19, Sprague's (frocks) 17, do purples 191, do solids 17, do fancies 19, London Mourning 171, Simpson Mourning 17, Atlantic Mourning 171, Amoskeag do 16, Garners 19, Dunnell's 171, Allen 17, Richmond 111, Arnolds 16, Gloucester 16, Wamsutta 14, Pacific 19, Freeman 151, Cocheco 20, Lowell 151, Naumkeag 15, Hamilton 18, Victory 14, Glen Cove 121, Home 121, Empire State 12, Lancaster 13 and 191, Empire 12, do shirting 18.

Domestic Ginghams are in light request and prices are lower and nominal. Lancaster sell at 231, Hartford 20, Caledonia (new) 221, Glasgow 22, Clyde 23, Berkshire 25, German 20, Roanoke 18.

Corset Jeans are in better demand the last week and agents' are quite firm at last week's prices. Androscoggin 15. Bates 15, Naumkeag 21, Pepperell 23, Naumkeagteen 25, Laconia 21, Amoskeag 21, Newmarket 161. Lewiston 16, Indian Orchard 16, Washington Satteen 24.

Canton Flannels are wholly nominal in price, there being considerable lots of low grades of goods in the market. Ellerton N, Bl sell at 45, do O, do 42\frac{1}{2}, do P, do 37\frac{1}{2}, do N, Bro. 42\frac{1}{2}, do O, do 40, do P, do 85, do S, do 281, Laconia do 30, Slaterville do 28, Suffolk do 25, Rock land do 20, Amoskeag A, do 39, Hamilton 31, do Bld 39, Nashua A 24, Salmon Falls bleached 331, do brown 25, Pemberton Y 35 Naumkeag brown 28, Tremont brown 25, Chicopee 23.

CAMBRICS AND SILISIAS are steady in prices, and there is a fairer call for home trade at essentially the same prices as last week. Silisias sell at-Lonsdale 23, Victory 22, Indian Orchard 22, Ward 22. Cambrics sell at—S S & Sons 18, English 20, High Colors 22, White Rock 18, Lonsdale 21, Masonville 20. Glazed Cambrics—Washington 141, Victory 131, Hudson Mill 121, Fox Hill 111, Smithfield 141, Victory E

14, Waverly 14. Woolen Goods are still very dull, except for a few of the lighter weight goods.

Mouslin DE Laines have been very quiet since the reduction of last week. The prices in agents hands are nominally above what they are offered for by jobbers. All dark sell at 25, Hamilton Co 25, Manchester 25, Pacific 25, Amures 27, High Colors 28.

LINSEYS are in fair demand, and the stocks are not large. Washington 35, Park 45-inch 35, do 35-inch 30, do 60-inch 42½, do 70 inch 57½, do 75 inch 621, Kensington 26, Union cotton and wool 27, Park Mills No. 65 65-inch 47½, Todd's 32½, Black Rock 30.

CASSIMERES AND SATINETS are in very light and irregular demand The quotations are too near nominal to be of any service.

Hoor Skirts sell steadily at the quotations previously given.

AMERICAN LINEN is steadily called for, and prices are uniform at 12@ 16 cents for Crash, and 20@21 for Huckabuck.

MANCHESTER COTTON YARN AND GOODS' MARKET, LONDON AND LIVER-POOL WOOL SALES, ETC .- Our own correspondent in London writes as follows respecting this and other markets:

MANCHESTER, Nov. 7.—To-day's market, in every department, has created disappointment. There is very little business doing either in yarns or cloth, and there is no material change to notice in prices. The present appearance of the market seems to justify the remark that the trade will remain extremely inactive, until more reliable information is received in respect to the extent of the American crop of cotton. Annexed are the leading prices current:

b0WOOL AND WOOLEN GOODS IN THE MANUFACTURING DISTRICTS.—The Wool trade is very quiet, but as regards most descriptions of produce, prices rule firm. Woolen goods are in moderate, but by no means active request.

LONDON WOOL SALES.—These sales will be commenced on the 15th inst. The arrivals comprise 57,649 bales, viz.: 6,936 bales from Sydney and Queensland; 4,572 Port Philip; 439 Tasmania; 2.502 Adelaide; 40,407 Cape of Good Hope, and 2,793 bales from New Zealand.

LIVERPOOL WOOL SALES.—These sales are now concluded, and 25,000 bales East India have been brought forward. The best qualities have

changed hands at full prices

Our exports of Woolen manufactures have been on a very extensive scale, the declared value being £16,789.629, against £14,483,810 last year, and £14,914,744 in 1864. The largest purchases have been for the United States. A supply greatly in excess of last year has been taken for shipment to Canada, and there is a large increase in the exports to Brazil. To France, the exports have been very large. The total shipments of Woolen goods to all quarters for the nine months were as follows:

 Wolen yarns lbs. Wolen cloth yards. Flannels " Blankets " Carpets and druggets " Worsted stuffs. " —of which the following were the sh	24,044,717 6,652,377 5,556,475 4,889,868 155,848,452	1865. 23,407,598 19,571,448 4,639,270 4,497,498 3,938,025 164,992,475 the United	1866. 18,723,459 27,225,681 5,203,869 3,886,189 6,047,396 175,678,420 States:

## The Railway Monitor.

CINCINNATI, DAYTON AND EASTERN RAILROAD.—This company have taken a perpetual ease of the Sandusky and Dayton line, which will be as entirely in their possession and control as if a final purchase had been made; and have secured the right of way from Dayton to Cincinnati by purchase from the Short Line Railroad Company for a new railroad, which is to be constructed without unnecessary delay. Together, these roads will form an additional route from Cincinnati to the East.

Peninsular (Mich.) Railway.—This project is to give Chicago an additional outlet to the Eastern markets. It will commence at Port Huron, where it will connect with the Grand Trunk and Great Western Railroads of Canada. From this initial station it extends west to Owosso, there crossing the Detroit and Milwaukee Railroad, thence to Lansing, and from Lansing to Battle Creek, and from Battle Creek, via Cassopolis and Edwardsburg, to the Indiana State line. From the State Line to Chicago the road will be built by the Peninsular Railway Extension Company. Work has been commenced and is progressing on the Huron-Owosso link and the Lansing-Battle Creek, the intermediate Owosso-Lansing link being completed and in operation. The remainder of the line will be placed under contract in a short time.

NORTH CAROLINA STATE STOCKS.—The stocks in the public works of this State held by the Government have been sold. The bids were opened on the 2d inst., at Raleigh, by the State Treasurer, in presence of the Governor and Comptroller. The bids varied from par to eight and one eighth per cent premium. Payments will be made in the bonds issued by the State for each particular stock, and the premium, if any, be passed to the general fund. This system will largely reduce the State debt, and at the same time be acceptable to the bondholders.

SUSQUEHANNA BRIDGE.—The bridge of the Philadelphia, Wilmington and Baltimore Railroad over the Susquehanna River at Havre de Grace is nearly complete. The only remaining work to be done is the draw and one span on the east side of the river. Trains will be running over it by the 1st prox. This will render unnecessary the usual winter ice-bridge across this stream.

Susquehanna Canal Bonds.—This company have given notice that they will resume the payment of the coupons on their bonds on the 15th January next. The coupons not already funded are to be brought in before that date, and funded in bonds of the same class and priority. This being done, the coupons of July, 1867, will be anticipated and paid in cash.

OREGON CENTRAL RAILROAD.—The Oregon Legislature have appropriated one million 7 per cent. 20 year bonds in aid of the road to be built from Portland, Oregon, to the State line of California.

FLORIDA RAILROAD.—The road was sold at auction on the 30 ult., and purchased by Marshall O. Roberts, of this city, for \$320,-000. The line is almost reconstructed, and no long time will elapse before the steam connection with New York and New Orleans will be made perfect.

MEMPHIS AND LITTLE ROCK RAILROAD.—The second division of this road, extending from Madison to Duval's Bluff, 45 miles, is now under construction to be completed by Jan. I, 1868. The contract includes the masonry for the bridge across White River. The estimated cost of the work is \$400,000, the company to furnish the iron. That portion of the road between Memphis and the transis River, 40 miles, will be in perfect running order by the ast January next. That between Little Rock and Duval's Bluff is finished, and trains passing over it.

Manassas Gap Railroad.—This line, which was completely destroyed during the war, has been materially reconstructed, and is to be brought into use upon the 1st January.

ASSETS, Dec. 31, 1865 - - \$2,716,424 32 DIVIDEND THIRTY PER CENT.

This Company insures against Marine Risks on Vessels, Freight, and Cargo; also, against Inland Navigation Risks.

Premiums paid in gold will be entitled to a return premium in gold.

MOSES H. GRINNELL, Pres't. EDWARD P. ANTHONY, Vice-Pres't

ISAAO H. WALKER, Sec'y.

## The Mercantile Mutual

INSURANCE COMPANY.

OFFICE No. 35 WALL STREET, NEW YORK.

ORGANIZED APRIL, 1844.

The Company has paid to its Customers, up to the present time, Losses amounting to over

EIGHTEEN MILLIONS OF DOLLARS.

For the past nine years the cash dividends paid to Stockholders, made from ONE-THIRD of the net profits, have amounted in the aggregate to

One Hundred and Twenty-one and a half per cent.

Instead of issuing a scrip dividend to dealers, based on the principle that all classes of risks are equally profitable, this Company will hereafter make such cash abatement or discount from the current rates, when premiums are paid, as the general experience o underwriters will warrant, and the nett profits remaining at the close of the year, will be divided to the stockholders.

This Company continues to make Insurance on Marine and Inland Navigation and Transportation Risks, on the most favorable terms, including Risks on Merchandise of all kinds, Hulls, and Freight.

Policies issued making loss payable in Gold or Currency, at the Office in New York, or in Sterling, at the Office of Rathbone, Bros. & Co., in Liverpool.

## FIRST MORTGAGE BONDS

OF THE

## CENTRAL PACIFIC RAILROAD CO.

OF CALIFORNIA.

Interest at the rate of Six per Cent. per annum, payable Semi-Annually, on the First days of January and July.

Principal and Interest payable in U.S. Gold Coin in the City of New York.

Amount of Issue, \$7,336,000. In Coupon Bonds of \$1,000 each.

The Bonds have Thirty Years to run, and are secured by a First Mortgage, constituting an absolute prior lien on that portion of the Road, Equipments, Franchises, and Entire Property of the Central Pacific Railroad Company, located in the State of California, and extending from Sacramento City to the California State Line, forming a part of the GREAT PACIFIC RAILROAD ROUTE, adopted and aided by the UNITED STATES GOVERNMENT.

The amount of these First Mortgage Bonds to be issued per mile, is limited by law to the amount of United States Bonds allowed and issued to aid the construction of the Road, and the Mortgage by which they are secured is declared by Act of Congress to constitute a lien prior and superior to that of the United States Government.

The aid received from the Government (in amount equal to this First Mortgage) is economically and judiciously applied to the construction and equipment of the road, together with nearly \$7,000,000, received from Stock Subscriptions and other sources. The First Mortgage therefore amounts to but about 35 per cent. of the actual cost and value of the Property which it covers.

The road is now completed, equipped and running from Sacramento City to Alta, a distance of 73 miles, and the earnings for the three months ending August 1st, were as follows, viz.:

May,	1866	3														٠.				٠.					•						• •			\$65,115	8	83

IN GOLD.

The earnings are steadily increasing, and are estimated at over \$100,000 in gold for the month of August—the official report for that month not having been received at this date.

The construction of the road is going vigorously forward—24 miles additional being nearly ready for the cars—and it will probably be in full operation to the California State Line—156 miles from Sacramento City—during the summer of 1867, when its earnings must be very large, as the entire trade of Nevada, and a large proportion of that of Utah, Idaho, and Montana must pass over its line. It has been shown by reliable statistics that in 1863 over \$13,000,000 in Gold was paid for freighting goods from California to Nevada alone.

This part of the Great Pacific Railroad Route is destined to be one of the most profitable lines of railroad in the world, and its First Mortgage Bonds are among the best secured and most desirable investments ever offered.

Over \$1,000,000 has already been expended in grading beyond the point to which the road is now running, and the iron is bought and paid for sufficient to lay the track the entire distance to the State line.

The Road has been completed and equipped thus far without the sale of a single dollar of its First Mortgage Bonds, and they are now offered to the public for the first time, after the earnings of the Road have reached the sum of \$100,000 per month in Gold, only about twenty-five per cent. of which is required for operating expenses.

The Bonds are offered at 95 per cent. and accrued interest from July 1st, in Currency. Orders may be forwarded to us direct, or through the principal Banks and Bankers in all parts of the country.

Remittances may be made in drafts on New York, or in Legal Tender Notes, National Bank Notes, or other funds current in this city, and the Bonds will be forwarded to any address by Express, free of charge. Inquiries for further particulars, by mail or otherwise, will receive punctual attention.

#### FIRST MORTGAGE BONDS

OF THE

ST. PAUL AND PACIFIC RAILROAD COMPANY of Minnesota. Interest at Seven per cent., semi-annually, first January and July, free from Government Tax, in the City of New York. Principal psyable in 1892.

The road runs through one of the best portions of the State and has been completed to St. Cloud

the State, and has been completed to St. Cloud, eighty miles, at an expense of over \$3,000,000.

THESE BONDS ARE ONLY \$10,000 PER MILE.

Government Bonds at the highest marker price will be received in payment. For particulars apply to

be received in payment. For particulars apply to TURNER BROTHERS, Bankers.
Conner Nassau and Pine Sts., New York.

#### SEVEN PER CENT. FIRST MORT-GAGE BONDS

OF THE

# NORTH MISSOURI RAIL-

We offer for sale the Seven Per Cent. First Mort gage Bonds of the North Missouri Railroad Company, having thirty years to run. Coupons payable in New York on January 1 and July 1, in each

Before accepting the agency for sale of these bonds, we made careful inquiry into the condition and prospects of the road, which was examined by Mr. Wm. Milnor Roberts and others, on our behalf, and their highly satisfactory report enables us to recommend the bonds as first-class securities, and

safe and judicious investment.

The proceeds of these bonds (\$6,000,000 in all) w1, be used in extending a road, already completed 170 miles into North Missouri, to the lowa State line, where it is to connect with the railroads of Iowa, and also westward to the junction with the Pacific Railroad (at Leavenworth) and other railroads leading up the Missouri River, so that the mortgage of \$1,000,000 will cover a complete and well-stocked road of 389 miles in length, costing at least \$10,000,000, with a net annual revenue after the first year of over \$1,500,000, or a sum nearly four times be yond the amount needed to pay the interest on these bonds, the income of the road of course increasing

every year.

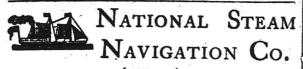

The Railrord connects the great City of St. Louis with its 200,000 inhabitants, not only with the rich est portions of Missouri, but with the States of Kan sas and Iowa and the great Pacific Railroads.

The first 500,000 have been sold at 80 cents, and the remainder are now offered at 5 cents. At this rate they yield nearly 8½ per cent. income, and add 20 per cent. to principal at maturity.

Any further inquiries will be answered a ou
