## THE GOVERNMENT POLICY OF RESUMPTION.

tion, and this depreciation will grow or diminish according as the redundancy enlarges or grows less.

& Minanria

The second principle which follows logically from the one we have just laid down is that there is one way, and but one way, of raising to par a degraded currency such as we have in this country. To restore the value of our irredeemable money, to make the paper dollar equal to the dollar in coin, we have no choice of alternatives; we must correct the redundancy which caused the paper to depreciate; we must withdraw and cancel more and more of our greenbacks, until we have reached the nominal standard. And when the overissue thus disappears the depreciation will disappear too As the amount of the currency is put down to its proper level its value will gradually rise, and at length, equilibrium being thoroughly established, it will be possible to resume specie payments without a panic, and with manifest advantage to all our commercial interests.

A third principle, on which rests the true method of currency reform is, that contraction of the amount of the circulating medium cannot be safely made except it is made cautiously and by slow degrees. The financial distress which desolated Great Britain, paralysed her commerce, filled her poor houses, and reduced to beggary thousands and tens of thousands of industrious families in the second and third decades of this century, were due almost entirely to the mischevious, unskil. ful method adopted for contracting the volume of currency and resuming specie payments. But we need not go so far from home for an example. The violent revulsion which at the close of Mr. Chase's Secretaryship followed an ill-judged, sudden, though very small contraction of the currency, will long be fresh in the memory of the sufferers. Other similar instances have since occurred, and we may have more here. after. The monetary trouble of last week was produced and was arrested by manipulations of the volume of the currency. This, at least, is believed, and is continually insisted on by the daily press. An evening paper makes the following remarks : It is reported that the inflationists will use immense efforts in the next session of Congress, and that a large sum of money has been raised to further their views, and to prevent the carrying out of Mr. McCulloch's contraction policy. These persons point to the recent flurry in the money market, and one of the arguments on which they rely is, that inasmuch as the withdrawal of 10 or 15 millions of currency has induced such a perturbation of the equilibrium of the circulation, has caused a loss of 25 millions to the holders of railroad shares, has depressed government securities in the market, and threatened, if not arrested, to inflict great mischief on commerce and trade ; that, therefore, contraction of the currency is impossible, and should not be attempted. To prove the fallacy of this argument we have only to look at what Mr. McOulloch has accomplished during the last year. Since November 1st, 1865, he has withdrawn and cancelled 93 millions of legal-tender notes. Of compound notes he has withdrawn \$24,500,000, of five per cent. legal tenders \$32,536,901, of United States notes and fractional currency \$36,024,844; and this has been done without depressing monetary affairs, for government securities are 6 per cent. higher than when the work of contraction began. While the troubles of last week give us proofs of the perils of contracting the currency, they show the possibil-

One of the most important and most efficiently performed duties of Congress during the last session had reference to the regulation of the volume of our paper money. And on the policy which was adopted we expressed, and now repeat, our hearty concurrence. This policy was one of slow, wellregulated, publicly-announced contraction, and is founded on principles which are taught and sustained by all the great authorities on political economy. The first of these principles is that the quantity of irredeemable Government money afloat in any community regulates the value or purchasing power of that money. If there be more of this paper in circulation than the country could use in its business were the notes redeemable in specie, then the excess of paper money will not lie idle; it will not be hoarded and kept out of use; it will force itself into active service, and it will depreciate the whole mass of the circulating current. A loss of purchasing power is the result. The over-issue will produce deprecia-

a

ity of doing this necessary work of withdrawing circulation without causing suffering among the people, or mischief to commerce and trade. There is a wrong time and a wrong way of contracting the currency, and it is of the very last importance that the right method and the right time should be chosen and adopted.

We do not profess to know who the "inflationists" are to whom this writer refers, nor whether they are raising needless and futile subscriptions to defeat the contraction policy proposed by Mr. McCulloch, endorsed by Congress in Mr. Alley's contraction resolution, and still more positively decided on and adopted in the law of April last. We cite the passage simply to illustrate the interest with which the currency question is discussed, and the firm hold which the popular mind has obtained, both in our eastern and in our western cities, of the principles on which is founded the policy adopted by Congress for the gradual contraction of our paper currency, and for the resumption in this slow, safe way of specie payments.

## THE COURSE OF THE MONEY MARKET.

An interesting and suggestive work has lately been published containing the newest researches relative to the law of storms, and claiming to give practical directions by which the forewarned seaman may command the very whirlwind itself into his service, and make it help him in guiding his ship out of the reach of harm. It would be well if some farseeing prompter could do a similar task for us in regard to those financial storms which now and then sweep over us and give to sudden shipwreck so many promising and richly freighted barks. Failing this illuminating instruction, business men have to grope their way amid much uncertainty, and this especially when, as in the country at present, our currency is deranged, and our financial system is consequently open to a thousand perturbations.

Without any positive guide, therefore, to help us to forecast events, we have to meet the question—What will be the course of the money market in the immediate future? Since the recent financial spasm the problem is peculiarly difficult to solve, with any positive assurance that our conclusions are trustworthy or of practical value. There is, however, this advantage in the investigation and scrutiny of monetary prospects, that the process quickens our observation and shows us in what direction to look for the first threatening monitions, and what the approaching danger is most likely to be.

It has been often repeated that the recent financial spasm in Wall street was caused by currency contraction. This is in part true. Mr. McCulloch, since 1st September, has withdrawn and cancelled a much larger amount of currency than we could well spare at this busy time of the year. He has also accomplished the same thing by drawing on the Na. suddenly and spasmodically at the same time, which did the mischief.

Such is the explanation usually given of the immediate causes of the recent financial flurry. And that this account is for the most part true is proved by the fact that the stringency disappeared as if by magic when the drain into the Treasury was stopped, and the return current of greenbacks from the country set in.

Our inquiry, therefore, into the probable future of the money market, necessarily includes a subordinate inquiry as to the currency. We must know whether there is any probability that the current of the circulation will be depleted, or its movements suddenly perturbed. And we believe we have the highest authority for saying that no negotiations will be made by the Treasury Department which will be likely for the present to disturb the movements of the circulation. As, therefore, the return of greenbacks from the West is now going on with much rapidity, and far surpasses the drain to the South, it seems to be certain that, so far as this cause is concerned, we shall have no further trouble.

But we must remember that the recent flurry had its origin partly in an undue expansion of credit. This evil still exists. And here lies the principal if not the only danger. Let our banks, our capitalists, and our business men in all parts of the country, set their faces against this perilous inflation of credit, and our guarantees against panic and monetary revulsion will be much more complete than they are at present.

### THE FENIAN RISING IN IBELAND, AND ITS POLITICAL EFFECTS.

We shall be kept, doubtless, for some days to come. in comparative ignorance of the real nature and extent of the new Fenian movement in Ireland. The Atlantic Cable being substantially the property of the British stockholders of the company, and both ends of the wire, in Ireland and in Nova Scotia, being under the control of the British authorities, it is to be expected that some care and supervision will be exerted by those authorities to keep the telegrams from Valentia Bay in a temperate mood. That the Fenian rising, however, is a serious one, cannot reasonably be questioned. The mere fact that any rising at all has occurred sufficiently proves that it must be the result of a more formidable combination than the Fenians have been commonly believed to possess the means of forming. For in the face of the publicity which has for more than a year been given the Fenian organization; of the arrests and investigations made by the authorities in Ireland a twolvemonth since; and of the Fenian demonstration made against Canada in June last, it would have been the merest madness for the Fenians to have expected to take the British Government unawares. That they have ventured to rise against a power fully prepared for their enterprise, and holding Ireland to-day with a regular force larger than that which the United States Govern ment sent in 1862 to occupy Louisiana and the lower Mis sisippi, is proof positive, therefore, we think, that they must count upon means of mischief not yet known to the world at large. It will be remembered that when the Fenian movements were first brought to light in Ireland, last year, the British papers abounded in pretty clear intimations that the Fenian "revolution" was meant to be a social rather than a political one. The weight of evidence goes to show that neither the native Irish proprietary class, nor the upper orders of the Irish clergy, are favorable now, or have ever been favorable to the enterprises of this curious body. Without going too far into speculations, for which an adequate basis of facts is as yet lacking to us, it may be safely said that the Fenianism of Ireland obviously differs from the Fenianism of the United

## 676

tional depositories and by selling gold and Government bonds. Thus a depletion of the currency on hand at the financial centres was made. The active greenbacks taken suddenly out of the channels of business were absorbed, and for the moment made stagnant in the vaults of the Treasury. All this happened at a time when the currency reservoir in New York was being subjected to a prodigious drain from all parts of the interior where the crops had to be movedand had to be moved by the instrumentality of currency drawn from the metropolis. Thus, to the usual Autumn depletion of the currency reservoir, which the fall business always brings with it, there was superadded an artificial new drain into the Treasury. Had the Government demand for money come by itself, or had the butiness demand come by itself, we should have been prepared, and very little if any stringency would have been developed. But it was the cooperative force exerted by the two depleting causes, acting |

land.

## December 1, 1866.]

States in this important feature, that it wears an aspect of class hostility as well as of national ambition. The Irish Fenians seem to resemble the Polish insurgents of 1849 in Gallicia, rather than the Polish insurgents of 1864 in Poland. At the first glance one would say that this character of a social uprising ought to make Irish Fenianism a less dangerous thing to deal with for the British Government. In a conflict with peasants and laborers, covetious of their holdings, the small farmers and tradesmen of Ircland, it would seem, must lean towards the side of armed authority, even though that authority wear the scarlet uniform of England.

But, though the suppression of a social revolt in Ireland may be eventually easier than the putting down of a political rebellion, in which all ranks of Irish society should be joined together, the processes by which a social revolt must be suppressed are of such a nature as to disturb the whole surface and system of society, more seriously even than the action of a government outbreaking for its purely political supremacy. The stern language of the London *Times*, which is averred by telegraph to have declared that Fenianism in Ireland must be "stamped out as England stamped out the cattle-plague," would naturally indicate not only that the view we have taken of Irish Fenianism is really the correct one, but also that we must expect to hear of very sad and bloody transactions in Ireland before the end is reached.

Property alarmed is apt always to be more merciless than power put in peril. It is not agreeable to be obliged to contemplate the prospect of something like a mediæval Jacquerie occurring under the constitutional government of Great Britain in the nineteenth century. But we have seen so many things within the last twenty years which our fathers certainly never looked to see happen again within the limits of Christendom, that we need not be surprised, however shocked we may be, by such a prospect. The whole territorial laws and usages of Ireland are, and for years have been, so radically inconsistent with real social progress and prosperity, that such a movement as we have spoken of would really be less startling there than in any other country of Western Europe. The land tenure in Servia itself is more favorable to social amalgamation and harmony than in Ireland. The legislation of the Imperial Parliament since 1847 has done something to ameliorate this tenure, but not nearly so much as the necessities of the case called for, and certainly not enough to do away in twenty years with the accumulated ill effects of centuries of injustice and wrong.

We do not agree with those who look for serious complications of a political character between the United States and Great Britain as likely to arise out of this Fenian uprising. Neither the British Government vor our own has any interest whatever in fostering mischief out of this affair. But if the disturbances in Ireland are protracted at all, and if the measures necessary to put an end to them are such as to excite those popular passions which, when once roused, defy too often the control of statesmanship, there will certainly be generated on both sides of the Atlantic a condition of public feeling highly unfavorable to the easy working of diplomatic relations between the two Governments. Symptoms of such a state of feeling are already cropping-out in the extracts (necessarily brief and unreliable) which the telelraph brings us from the English press, and in the English correspondence of our own journals. They must be looked for also sooner or later in our own country. To the commercial world such a condition of things always must bring a good deal of annoyance, were it only by the uncertainty which it introduces into the political future. In the present case, unhappily, it threatens to overcast the favorable aspect which the negotiations between Mr. Seward and Lord Stanley, in regard to

the Alabama claims, was assuming. Public opinion in England will necessarily become less well-disposed towards a recognition of the principles which we are asserting; while, as every day strengthens our position, by increasing the dangers to England from the *lex telionis* applied to her own commerce, it cannot be expected that we should fail to improve the opportunities which will thus be offered us of pressing the British Government to a settlement.

Upon the domestic politics of Great Britain the Fenian rising will exert a direct influence which must pretty surely enure to the benefit of the Tory party now in power. The Government of the Earl of Derby has already taken heart of grace, it will be seen, to refuse "peremptorily" the use of the parks to a "reform demonstration" in London. Whatever compels an administration to draw the sword makes it for the time being master of the situation. The Fenians may fail to better the hopes of Ireland, but they will probably overthrow for the time the plans and prospects of the Liberals in Eng-

## **BEVIEW OF THE MONTH.**

November has been chiefly remarkable for an unsettled condition of the markets, the result of a combination of circumstances. The deficiency of the English harvest, and a consequent advance in wheat and flour abroad, have induced an active speculation in breadstuffs in the West; the result of which has been an extensive holding back of produce until near the close of navigation, with a rise in prices to almost unprecedented figures. This has naturally produced more or less monetary derangement at the western centres of trade.

In the merchandise markets a dullness has prevailed, not to be adequately accounted for from the natural falling off in business which usually occurs in November. In most branches of business stocks are found to be larger at this late period of the Fall business than was anticipated ; and as it is not deemed safe to carry over goods at the current high prices, there has been an effort to realise upon both domestic and foreign merchandise at a heavy sacrifice. The serious losses upon some kinds of goods have brought home to manufacturers the conviction that the current rate of production can not be sustained concurrently with the existing high range of prices; and there has, consequently, been developed a very general disposition to curtail production. The cotton mills are producing much less, and the wollen manufacturers have very generally resolved upon either closing their mills entirely for a few weeks, or reducing the time of working to about eight hours per day. The development of this policy has produced at the close of the month a somewhat improved tone in the goods markets; but in nearly every branch of the jobbing trade the disposition, notwithstanding, is to realise upon goods, and to close the year with the smallest possible stocks. It appears to be very generally understood among both manufacturers and merchants, as well as by the consuming public, that we have now passed the climax of high prices, and that henceforth there must be a persistent fall in the value of all products. This idea, of course, produces special caution in the matter of credits, and has a depressing effect upon every branch of business; but its tendency is nevertheless to avert any severe convulsions in the markets from a sudden and extreme fall in values. The following comparison shows the prices of certain leading products at the close of October and of November:

	Oct. 31.	Nov. 30.
F our, shipping bbl.	12 25 @13 00	10 30 @11 40

1

Monetary affairs have been unsettled almost to the verge of panic. A very unusual activity in stocks has called for an enlarged amount of accommodation from the banks; while, at the same time, there has been a steady loss of legal tenders, de reduction from Oct. 27 to Nov. 24 being \$16,705,671; and under these circumstances the rate of interest on demand loans steadily advanced from 4 per cent. to 7 per cent. This tendency toward stringency was, however, violently stimulated by the Treasury calling in a large amount of funds from the bank depositories, and at the same time selling gold, resulting in the withdrawal of about \$15,000,000 of currency into the Treasury. This process produced a general derangement of loans, and compelled a realizing upon securities, with a consequent fall of 8@10 per cent. in values on the Stock Exchange. Very heavy losses were entailed upon speculative dealers in stocks, who proved to be not the brokers but their customers; and the month closes with a general weakness in railroad and miscellaneous securities. The aggregate transactions of the two last months compare as follows: ber

Shares, sold at Regular Board	October. 1,421,880 1,652,226	November- 1,221,315 1,497,308
Total sold at both boards Government Bonds sold "Notes " State and City Bonds " Railroad and other Bonds sold	3,074,106 \$10,252,300 2,7 $^{(3)}$ ,250 2,792,300 1,234,700	2,718,623 \$8,837,580 2,973,550 2,576,400 1,365,600
Total Bonds and Notes sold	\$17,012,550	\$15,253,100

Total Bonds and Notes sold...

The price of Government securities has fluctuated in sympathy with the change in the premium on gold; with every fall in price, however, there has been an active demand from the interior, which has induced a prompt recovery. The price of Five-twenties at London has advanced from  $68\frac{1}{4}$ , at the opening of the month, to  $70\frac{3}{4}$ , notwithstanding that free shipments of bonds have been made from this side. The following table shows the daily prices of consols and American securities at London on each day of the month:

COURSE OF CONSOLS AND AMERICAN SECURITIES AT LONDON - NOVEMBER, 1866-

\* Wednesday, Thursday being Thanksgiving.

Gold has steadily fallen in rice since the opening of the month, the highest price having been 1482 and the lowest 1375. The decline appears to be chiefly attributable to the payment of the November coupons, amounting to about \$24,000,000, together with the export movement having been much more limited than was anticipated. The Treasury has sold about \$3,500,000 during the month, making a total supply from that source of about \$27,500,000. This very large addition to the supply bas placed gold beyond the control of speculative cliques, and the premium is consequently left to take its natural bent. During the present week the premium showed considerable firmness under rumors of complications with France upon the Mexico question, but the effect was only temporary.

## VIRGINIA CENTRAL RAILROAD:

The Virginia Central Railroad (including the Blue Ridge Railroad, 16.81 miles) extends from Richmond to Covington, 205 miles; but that portion beyond Jackson's River, 10 miles, has not been brought into use since the war.

The earnings and expenses of operating this road for the year ending Sept. 30, 1866, are shown in the following statement:

Freight	Salaries
Total         1,129         12           367,313         02	Insurance2,071 50Repairs on real estate177 32
Balance \$120,136 08	

-net earnings, which were more than expended in extraordinary repairs, &c., viz., \$260,337 13, making the total expenses \$627,650 15, or \$140,201 05 more than the receipts.

The following table compares the freight business of 1866 with that before the war, the latter being based on the average of the three years 1858-60:

Tonnage carried westward	1858-60. 32,053.09 32,216.94	1866. 15,468.08 21,399 89	Decrease. 52 per cent. 33	
Monnara carried east and west.	64,270.03	36,887.97	43 ''	

Included in the tonnage of 1858-60 are 5,777.74 tons of guano and 4,727.15 tons of plaster. The same commedities in 1866 amounted to only 1,122.14 and 1,492 tons respectively. The average amount of tobacco carried in the first period was 8,363 hogsheads against 1,359 in 1866. In 1858 the receipts per ton per mile were in 1858 6.4 cents, in 1859 6.63 cents, and in 1860 6.4 cents-average 6.36 cents. In 1866 the re ceipts were  $6\frac{1}{2}$  cents per ton per mile. This shows a very small advance over the old specie charge of 1858-60. The number of passengers carried westward was 59,003 and eastward 60,033-total 119,036. The mileage made by these passengers was 6,769,756 miles, at an average of 4.17 cents per mile, against 4.29 cents in 1860. The mileage in 1860 was 5,769,464. The return for 1866 does not include passengers carried on government account. The locomotives and cars are reported as being generally in fair order. The addition to the motive power since last year has been three engines, acquired by purchase, and two engines which had been in use on other roads during the war. Four passenger and four baggage cars have also been added, and a large number have undergone extraordinary repairs. The present stock of cars consist of the following: 15 passenger, 2 mail and express, 3 mail and second class passenger, 6 baggage, 6 conductor's, or bunk cars, 97 box freight cars, 14 stock cars, and 48 platform cars.

is summed up as follows: 128,817 cross-ties have been replaced, being 65,720 more than were ever laid in repairs in any previous year. New bridges have been built at Christian's Creek and Gordonsville, and two new road bridges over grade. Ninety-six (96,000) bricks have been laid in culverts to replace the wooden and other defective works; and a large amount of trestle-work has been renewed, and a large number of new cattle-guards have been built. The total labor, exclusive of ditching, amounts to 54,692<sup>1</sup>/<sub>2</sub> days, at wages averaging 100.1 cents, which amounted to \$277.63 per mile of road. The labor on repairs in 1859 and 1860 cost \$210 to the hand hired. A considerable per centage of this labor was always lost from holidays, sickness and desertion. The cost of labor in 1864, (estimating 260 days as a year's work) which is 20 more than an average, was \$260.26 per annum. In view of the advance in prices of food and clothing, this must be regarded as a very moderate cost, for under the old system of labor, the hire remaining the same, the increased prices of provisions and clothing would have made the cost per hand \$270 for the past year. shows the financial condition of

pany during the war remained unpaid, having been held over by the holders of the bonds, or bought up by others as a safe investment. This, with the semi-annually accruing interest up to January, 1867, the Company found it impossible to pay, they therefore proposed to its holders to fund at par in 8 per cent. bonds, redeemable chiefly in 10 years from July, 1866, all interest up to January, 1867, inclusive, and gave assurance that the regular payment of interest would be resumed on the 1st July, 1867. This proposition was regarded as just and fair, and has been received with favor by the parties interested. A considerable amount has already been funded, and the funding is still progressing. The amount to be issued for the purpose of funding is \$300,000. With regard to the construction of the Covington and Ohio Railroad, the President, in his report, states as follows: "The General Assemblies of the States of Virginia and West Virginia, at their last sessions, invested a commission, composed of prominent gentlemen in each State, with the power to transfer the franchise of the Covington and Ohio Railroad

The work done on the road during the year just passed

Company to such persons as would make the most favorable propositions for the speedy construction of the work. In May last these commissioners entered into certain contingent agreements with gentlemen in New York, of the highest per sonal and financial positions, who immediately sent one of their number to Europe to make the necessary financial arrangements. The subsequent political and monetary complications in that country have retarded their operations; but now there is every reason to hope that in a short time those arrangements will be completed, and that the work will be energetically pressed forward. Should there, however, be a failure in these arrangements, and should the Commissioners not succeed in getting competent parties to take the work, so vital is the interest of this company in this great enterprise that your board will regard it as the duty of the Directors of the Company to ask-the stockholders to take into consideration the propriety of themselves undertaking a work, without the completion of which your road must remain a merely local one."

In conclusion, the President says: "The general condition of the roadway is good; your rolling-stock is in excellent condition. You have on hand a good supply of wood, and a fair supply of other necessary materials. Several of your depots are rebuilt, and others will be in the course of this fiscal year. We think that your revenues will increase considerably this year, and we feel assured that the expenditures will be much less. With an improvement in the condition of the country your property will become as valuable as it ever was."

closes, the trade is characterised by great firmness throughout the whole country, notwithstanding that about 130 cargoes of wheat have arrived off the coast within the last forty-eight hours. In produce to arrive from the Black Sea, a large business has been done, this week, and as each successive day brings confirmatory evidence of the excellence of the crop in the South of Russia, shipments from Odessa and Taganroy, will be made as rapidly as the limited means of conveyance employed by the farming community in that quarter will allow. A fair quantity of flour has recently arrived from rtain that we shall receive supplies Spain, and it of flour from France, equivalent, probably, to the quantities of wheat taken from this country and from other quarters. A few barrels of American flour have recently been offered for sale in the London market, but as the quality is poor the highest price obtained is 33s. per barrel. Were really fine American flour to be sent forward, 88s. and, probably, 40s. could be realised. An important feature in the corn trade this week is the rapid advance in the value of Indian corn. For some weeks past the country millers have made extensive purchases of this article, and have made free use of it in mixing it with wheat; by that means they have saved much expense, but at the same time have only produced a very secondary quality of flour ; nevertheless, even this description commands 40s. the 280 pounds. The barley trade continues firm in the extreme, and for fine malting qualities, which in ordinary years fetch 40s., as much as 56s. and 58s. per qr. has been obtained. We have received fair supplies of barley from New York during the last few weeks ; but the quality of the produce is far from being suitable to the uses of our maltsters. Yet it has commanded a tolerably active sale for grinding purposes. The oat trade remains very firm, and during the present week Russian qualities-of which the bulk of our foreign supply consists-have advanced in price 1s. per gr.

The cotton trade during the week has been in a most inactive state, and the decline in prices from Saturday last varies from id. to 1id per pound. The latter figure is for Egyptian produce, in which the fall from the late highest point is very heavy. It will be borne in mind that the last Egyptian crop was a very poor one, and that in consequence of the small arrivals from Alexandria, and the limited stock at Liverpool, the quotations rose to a very high figure. The present crop, however, is an excellent one, not only as regards quantity, but also with reference to quality. It is estimated that the aggregate production is 500,000 heavy bales, and the latest advices from Alexandria state that as the season progresses the quality of the cotton forwarded to market improves. The inteiligence at hand from India, this week, is also very favorable. In the Madras Presidency, it is said, or rather the government returns show, that the average of land under cotton cultivation is much below last year; but from other more important districts in Scinde, the Punjanb and Bengal, the crop promises to be a very good one, and of superior quality to former years. The price of cotton in India continues to give way. About a month since Dhollerah cotton was selling at 10 1d.; but the price on the 8th of the present month was rather more than 9d. per lb. The favorable accounts from the East, and the falling off in the demand for goods here have necessarily had an important effect on the trade for raw cotton, and more desire to sell has been witnessed during the present week than for some time past. The existing depression has been intensified by the news received by telegraph from New York, which has indicated a steady decline in the value of the staple in question at that port, viz, from 43 cents, the recent highest point, to 341 cents, the price received to-day. From this circumstance it is surmised that the probable result of the crop in the South will be far from unsatisfactory

1 (1

[From our own Correspondent.]

LONDON, Saturday, Nov. 17, 1866.

So far as the Stock Exchange is concerned, the appearance of affairs is more satisfactory, a considerable improvement having taken place in the various markets connected with that establishment. The state of the money market is also faverable, and as the mercantile demaud for money is now comparatively trifling, whilst considerable supplies of specie are still on their way to this country, it is expected that a further reduction in the rates for money will take place ere long. Commercially, the prospect cannot be viewed in so favorable a light. There is very little business doing, and the state of trade in the manufacturing districts is, at the present moment, greatly depressed. Most of the cotton mills are now working short time, and it is expected that as the price of wheat continues to vise, the working classes will experience during the winter months, greater hardships than for some years past During the present week, the price of wheat has risen Ss.@4s. per quarter, and such an advance on a high quotation has caused much dis.

cussion, and some apprehension. Our imports continue on a very moderate scale, and until our imports are more extensive, it would seem that the upward movement must continue without abatement. As the week

Under the existing circumstances, it seems evident that heaviness in the cotton trade must preponderate; but with regard to the future, it would be impossible to speak with any degree of certainty, for a few days frost in the South during the present critical moment would speedily alter the state of the trade. Assuming, however, the American crop to be confined to 2,000,000 bales, it does not seem possible, with the prevailing comparatively limited demand for goods, for the present range of prices to be maintained.

It is telieved that many houses connected with the cotton trade would have to succumb in the event of a serious fall taking place in the value of cotton. Much uneasiness is felt with regard to houses in this and the tea trade, and there are many rumors afloat. At present, however, nothing important has transpired. Several small failures have recently been recorded, and one is mentioned as having taken place at Manchester to-day. The principal failure recorded, this week is at Adelaide, South Australia, that, viz., of Messrs. Phillip Levi & Co., for £312,000.

The demand for accommodation has been extremely moderate. Yesterday, however, owing to the maturing of a large amount of Indian and Australian paper to day, preparations for which were made yesterday, there was a good demand for money, both at the Bank of England and

THE CHRONICLE.

in the open market. The supply of capital seeking employment in the discount market is still ample, and the rates, out of doors, remain about one-quarter per cent. beneath those current at the Bank of England-To day a fair inquiry has been experienced, and the quotations for the best paper rule as under:

· · · · ·	Per Cent.	· · · ·	Per Cent.	l
Bank minimum	4	3 months' bills	3%@-	0
Open market rates: 30 & 60 days' bills	82/0-	4 & 6 months' trade bills	4 0 5	
30 de 00 da 35 ontre	07300	a de o montins bank bins		1

The foreign exchanges are, on the whole, firm, and mostly favorable to this country.

The demand for discount at Paris is active, and the Bank of France returns shows that the mercantile body have been freely accommodated by that institution. The bills discounted now stand at a high figure, and as money in that city is obtainable at rates 1 per cent. below ours, it is said that many bills have been sent from London for discount there. The supply of bullion held by the Bank of France continues to diminish, but the total is still at a high figure. At Hamburg the rate is rather firm, and also rules high at St. Petersburg. Advices from Frankfort, however, state that a further reduction of one half per cent. had been made. The quotations at the leading Continental cities are subjoined :

Although the amount of business done is but moderate, the tone of the Consol market has been better than for many months past; the market closes, to day, with a firm appearance, and at a comparatively high range of values. The public, however, are by no means operating freely. The highest and lowest prices in the days enumerated are subjoined:

debenture stock, at 80 per cent, at 4 per cent. interest, the holders of existing debentures to have the privilege of exchanging their holdings for debenture stock. The £100 ordinary stock of the company is quoted to-day at 18 to 19. The proposal to resuscitate the Agra and Masterman's Bank has been well received, and more than the whole capital asked for has been subscribed. As plication will shortly be made to the Court of Chancery for the requisite order to complete the resuscitation, and the business will then be resumed. To-day the Committee of Debentures holders has issued a circular advising debentures holders to oppose the propositions of the Directors.

681

The Ripon has arrived at Southampton to day with £480,000 in Australian gold and in Australian sovereigns. It is expected the whole will be sent to the Bank next week.

### English Market Reports-Fer Cable.

The closing quotations for Consols and the American securities undernoted, at the London market daily last week are stated in the following tabulation :

1		Fri. 23.	Sat. 24.	Mon. 26.	Tues. 27.	Wed. 28. Th	nur. 29.
	Consols for money		90	89%	89%	893	S934
1	U. S. 5-20's, 1862	70%	703	70%	704	70 1	70
	Illinois Central shares		78	7736	78	76%	78%
	Erie Raiway shares	50	48%	47%	48	47	46

The cotton market at Liverpool was somewhat active up to Monday night, and in the three or four preceeding days advanced  $\frac{1}{4}d$ . on the lb., closing on that day at 14 $\frac{1}{4}d$ . Subsequently the market became dull and quiet, with a loss of the full advance. The sales during the week sum up to about 54,000 bales, closing at 14d. for New Orleans Middlings.

Breadstuffs are materially unchanged since our last report, and close somewhat easier. Mixed Western Corn is quoted at 40s. per qr.

Provisions have been generally dull and inactive. Lard continues its downward tendency, but cannot be said to have lost in quotation.

The latest report of Petroleum was that of the 23d, when it was quoted dull and lower, closing for Penn. refined at 1s. 6d. per gallon. American Tallow at the same date was quoted firm.

## COMMERCIAL AND MISCELLANEOUS NEWS.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports this week show an increase both in dry goods and in general merchandise, the total being \$4 535,092, against \$3,888,439 last week, and \$5,246,424 the previous week. The exports are \$3,466,611 this week, against \$4,119,-158 last week, and \$2,954,821 the previous week. The exports of cotton the past week were 9,318 bales, against 9,430 bales last week Included in the exports were 12,252 bbls wheat flour, 100 bbls. rye flour 2,985 bbls. corn meal, 7,798 wheat, 8,000 bush. rye, 13,313 bush. oats 137,034 bush barley, 10,905 bush. peas, 15,512 bush. corn, 125 pkgs. candles, 202 tons coal, 567 bales hay, 207 bales hops, 7 bbls. spirits turpentine, 2,992 bbls. rosin, 99 galls. linseed oil, 967,929 galls. petroleum, 1,497 bbls. pork, 265 bbls. beef, 116 tcs beef, 181,477 lbs. cutmeats, 27,858 lbs butter, 1,084,716 lbs. cheese, 839,591 lbs. lard, 25 bbls. rice, 310,726 lbs tallow, 1,745 hhds. tobacco, 95,975 lbs. manufactured tobacco, 9,056 lbs. whalebone.

The following are the imports at New York for week ending (for dry-goods) Nov. 23, and for the week ending (for general merchandise Nov. 24:)

FRIDAY, P. M., Nov. 30.

THE MONEY MARKET -- Monetary affairs have showed a steady ecovery from the derangements growing out of the crisis of last reek. The banks' statement exhibited a loss of about 83 millions a deposits, which sufficiently accounted for the extreme stringency f last week; the reduction in legal tenders, however, was less than as expected. During the past week there has been a steady influx f currency foom the interior, with a diminished demand for loans, esulting in a steady decline in the rate of interest. Call loans, this fternoon, have ranged at 5@6 per cent., with exceptional transacions at 7 per cent. There is, however, still a certain amount of 7 per cent. loans outstanding. The tone in money circles is decidedly healthier. There is less extreme caution among lenders, and the fact that so few failures have occurred under such an extreme pressure, has tended to greatly strengthen confidence in Wall street firms.

Discounts are quiet. There is a fair amount of paper offering from the dry goods and produce merchants, but otherwise the sup. ply is limited. The unsettled condition of business produces a certuin degree of caution respecting names not known to be strong ; but A 1 bills are deemed a good investment at the current rates of interest, viz. : 6@7 per cent.

The following are the quotations for loans of various classes :

	1	4° .

UNITED STATES SECURITIES -Government bonds recovered during the week from the depression noted in our last report. The fall in prices drew out liberal orders from the interior, and prices range  $\frac{1}{2}$  per cent. above the closing figures of last week. At the beginning of the week Five twenties of 1862 were in active demand from foneign brokers, who had sold them "short", and the price advanced to 1091: later, however, the same class of Jealers have

THE CHRONICLE.

improbable that prices can be further forced down. At the close of the week there is a disposition to defer speculative operations until after the opening of Congress.

The aggregate of transactions for the week at both boards is 423,295 shares, against 736,706 for last week. The chief activity has been in Northwestern, Erie, Reading and Michigan Southern. State stocks have shown more activity, with considerable irregu larity in price. The tone assumed in the messages of Southern Governors has a tendency to effect the value of Southern State stocks.

The following are the closing quotations at the regular board to day, compared with those of the six preceding weeks :

borrowing demand to cover those sales put up the rate on loans to 1.64 and 1.32 per cent. per day, a high percentage considering the largeness of the supply of gold upon the market. To day the advance in the rates of foreign exchange to near the specie shipping point has strengthened the market, and the price closes at 1411.

The following have been the highest and lowest quotations for gold on each of the last six days :

	Lo	west. H	Lowest.	Highest.	
The number of the second	Nov. 24 Nov. 26	138%	141.3 Nov.	28 140% 29	143%
	Nov. 27	140%	144 Nov.	30 140%	141%

The transactions for last week at the Custom House and the Sub-Treasury were as follows :

FOREIGN EXCHANGE - The upward tendency in exchange continues. The importers are remitting more freely, those who have for some time past deferred payments, in expectation of lower prices for gold, having realised the condition favorable to remitting, the supply of bills is limited compared with the demand, and the rates to day have nearly approximated the point at which specie remittances could be made at a profit; that point, with money at 4 per cent. at London, being about 109<sup>4</sup> for 60 day's bills.

The following are the closing quotations for the several classes of foreign bills, compared with those of the three last weeks :

## The Commercial Times.

## COMMERCIAL EPITOME.

FRIDAT NIGHT, Nov. 30. The intervention of a close holiday, and the near approach of the annual session of Congress, have operated adversely to trade. The markets show no indications of a revival of business. Some disturbance of credits has been occasioned by the long dulness. Manufactures are being materially restricted, and employment for labor much curtailed. Apprehensions are felt of unusual distress in our large towns during the coming winter.

Cotton was firmer early in the week, but the advance has not been sustained. Breadstuffs have pretty uniformly declined, although the export movement has been more liberal than for some time past. Groceries have been quiet, almost to stagnation. Tobacco has been dull and drooping.

In provisions we have to notice more business in hog products. The supplies at this and the principal Western markets have materially fallen off. The farmers, it would appear, have been so long accustomed to high prices for their hogs, that present quotations, although representing a full average, even on a gold basis, seem to them unreasonably low. They therefore hold back supplies; and the packing season cannot as yet be said to have fairly opened. It will undoubted!y be quite late. In the meantime, the increased demand for shipment and consumption is rapidly reducing stocks, and holders are quite firm. During the past week lard has advanced 1c. per lb., and hams  $\frac{1}{2}c$ . per lb. New mess pork is quoted at  $\frac{322}{22}$ per bbl. Beef of all kinds has declined irregularly, and butter and cheese are lower.

Naval Stores have been tending downward. Supplies have somewhat increased, with considerable accumulation here. Oils have been very dull.

Metals have shown more activity. In copper the movement has been liberal at a recovery of one cent per lb. There was large sales of pig tin early in the week, stimulated by an advance in London, and the closing prices here are  $\frac{1}{2}c.$ , gold, per lb. higher. In No. 1 Scotch and American pig iron there have been large sales for January and February delivery at \$49@\$50, currency, per ton. Other metals remain quiet and unchanged.

East India Goods have been very quiet but moderately firm. Fish and fruits have slightly declined, with a tendency still downward. Hides and leather have continued depressed, but the variation in quotations has been triffing.

Whiskey in bond for export remains firm, but the local market is nearly supplied by "contraband" stuff. Tallow has been fairly active, fluctuating with gold.

Crude petroleum has recovered a little from the depression

of last week, but refined is quoted even lower, with, however, rather more doing for export.

Wool is wholly unsettled. Some large lines have been closed out at low prices, since which holders are firmer; but there is nothing of moment doing.

Freights exhibit considerable revival, and some advance in rates has taken place. To Great Britain there have been liberal and general shipments of flour and grain. A few charters for tobacco and staves to the Mediterranean have been made; and the usual export of petroleum and cotton has been going forward. The number of vessels available for charter is quite reduced, and still higher rates are anticipated. A stringent money market is not unlikely to increase exports.

The following table shows the exports of leading articles of commerce from the port of New York since July 1, 1866, the principal ports of destination, and the total since January 1, and for the same period in 1865. The export of each article to the several ports and the total export for the past week can be obtained by deducting the amount in the last number of the CHEONICLE from that here given :

The market this week has been irregular and with little The favorable advices from Liverpool business doing. referred to in our last, caused more activity on Saturday and Monday last, with an advance of fully one cent per lb., and rather more on New Orleans cottons. A slight reaction in gold from the previous decline also favored the advance. But the market did not develope any strength, and with continued liberal receipts at the ports; dull accounts from the market, for goods, and from Liverpool; a new decline in gold, and stiffening freights, the advance of early in the week has been mostly lost. There is a considerable renewal of shipments on foreign account from this market. The sales of the week are about 3,000 bales, and the following are the closing quotations : N Orleans

### \* By steam.

During the week transactions in cotton have been limited, though coneiderably larger than the previous week. The market has been depressed by the rapid depreciation in gold and foreign exchange and the reports of dullness at the North, but closes with a better feeling with middling at 34c. Sterling exchange closes at 147@148 for leading bills. and 149@150 for commercial.

MOBILE, Nov. 24.-By mail we have received one week's later dates from Mobile. The receipts for the week ending Nov. 23 were 10,193 bales, against 9,866 bales last week, and the shipments were 9,168 bales, of which 4,313 bales were to Liverpool, per ship Tiger and bark Attico, 801 bales to Genoa, per schooner C. E. Gibson, 672 bales were to New York, 1,734 bales to Boston, and 1,648 bales to New Orleans, leaving the stock on hand and on shipboard, not cleared, of 47,176 bales. The following are the weekly receipts, sales, and exports for a series of weeks, and the stock, price of middling, rates of freight to Liverpool and New York, and price of gold at the close of each week :

				-Freight

" 23.	. 5,288	1,900	5,901	10,105	31	@32	%@-	1 @-	143@145			

Early in the week the market showed considerable firmness, with an upward tennency; but, under the influence of the reported dullness at the North and the fall in gold, it closed with prices lower, middling being quoted at 31@32, low middling at 80, and strict middling at 324. Sterling exchange 60 day bills were sold at \$6 65 to the pound sterling.

GALVESTON, Nov. 17.-We have received one week's later statement by mail from Galveston. The receipts for week ending Nov. 16 were 4,064 bales, against 4.419 last week, and the shipments were only 46 bales, all of which were to New Orleans. Below we give the receipts, sales, and shipments for a series of weeks, and the stock, price of middling, rates of freight to Liverpool and New York, and price of gold at the close of each week:

### \* Specie.

Prices have declined decidedly during the week, and yet, at the de cline, buyers will not enter the market. All they offer is 22(22) for middling, while factors ask 23c.

LIVERPOOL, LONDON, INDIAN AND OTHER COTTON MACKETS,- OUR OWN correspondent in London, writing under the date of November 17, gives the following full review of these markets:\*

LIVEBPOOL, Nov. 16.-The cotton trade during the week has been in a most inactive state, and a fall of from 1d to 11d per lb. has taken place in the quotations. The total sales are confined to 40,910 bales. of which only 940 bales are on speculation, 10,990 bales for export, and 28,980 bales to the trade. The fall in prices is thus distributed: American <sup>1</sup>/<sub>2</sub>d to <sup>2</sup>/<sub>3</sub>d, Brazilian <sup>1</sup>/<sub>2</sub>d, Egyptian <sup>1</sup>/<sub>3</sub>d to 1<sup>1</sup>/<sub>2</sub>: Smyrna <sup>1</sup>/<sub>2</sub>d, and East Indian <sup>2</sup>/<sub>3</sub>d to 1d per lb. As the trade have purchased very cautiously during the last few weeks, it is expected that there will be more activity in the demand during the next week, but as the advices from New York to day report a decline in the price of Middling Upland produce to 341 cents per lb, it does not seem probable that any improvement in the quotations can be established. Annexed are the prices current:

		Ordin	arv							
	8	nd mid	dling.	good	fair.	fi	ne.	Mid.	Fair.	Good

The market during the week has been more active, at slightly better rates, though the high prices demanded by the factors has restricted the movement. The market, however, closes firm at 27@28 for good ord's nary, 33 for strict middling, and 31 for middling. Sterling Exchange closed at 146@148.

SAVANNAH, Nov. 24 .- The receipts for the week ending Nov. 23 were 7.047 bales, against 8.496 bules last week. The shipments this week were 8,562 bales, of which 3,052 were to Liverpool per ship Ellen Hord, 4.979 were to New York, 245 to Philadelphia, and 650 were to Baltimore. Below we give the receipts, shipments, prices, &c., for a series of weeks :

	Receipts.	Shipm's.	Stock.	Price Mid.
Oct. 5	2,847	3,274	3,296	38 @39
" 19	5,939	3,726	5,509	36 @37
" 19	4,991	4,154	5,346	36 @37
** 26		4,644	9,560	36 @
Nov. 2		8,505	14,224	85 (0 35%
" 9		6,958	14,880	33%@34
" 16	8,496	6,170	17.206	31 @32
" 23		8,562	15,691	81 @32

The market during the week has been unsettled and irregular. In the middle of the week prices advanced from 1 to Ic. but at the close buyers were unwilling to meet the demands of factors, and the market closed dull and nominal with middling at \$1@32 cents. Holders, however, were firm and showed no disposition to press their stocks for sale. CHARLESTON, Nov. 24 .- The receipts for the week ending Nov. 28 The available and immediately prospective supplies are as under:

Stock at Liverpoolbales.	1865. 294,130	1866. 618,690
" London	87,457 23,712	96,821 183,525

MABYLAND.—Baltimore dates to November 27th report that the receipts of Maryland are fair for the season, but the market the past week was inactive, chiefly on account of the poor assortment in the hands of factors and decline in exchange. Sales moderate at prices within our range annexed. New Ground leaves scarce—sales range from \$2 to \$14, as to quality. Of Ohio we report sales of 500 hhds. common at \$4@4 25. No sales of Kentucky worthy of notice. Inspections this week, 752 hhds. Maryland, 38 Ohio, and 9 Kentucky—total, 799. Cleared same period, 1,194 hhds. leaf and stems to Bremen.

KENTUCKY,—Louisville dates to the 26th report :—"The market for the past week has exhibited but little change, owing to the offerings being of low grades and the poorer quality of leaf. The offerings have been small, and to-day only numbered 42 hhds., with 4 rejections. Sales 2 hhds. trash at \$1 40@\$1 85,4 hhds. at \$2 50@\$2 95, 10 at \$3@\$8 60, 3 at \$4@\$4 75, 7 at \$5@\$5 75, 3 at \$5 65@\$6 80, 1 at \$7 10, 5 at \$9@\$9 60, 3 at \$10@\$10 50, 2 at \$12@\$12 75, 2 at \$18 50@\$313 75, 2 at \$17 25@\$19 25. The stock on the 22d was 4,398 hhds. The market, on the 27th closed with a better demand, with sales of 92 hhds, at \$2 15@\$23 75 per 100 lbs.

above exports have been shipped :

The market this week for Kentucky leaf has been very quiet. The sales are limited to about 300 hhds., mostly low grades for export, at 4@6c., but including a few hhds. of fine for home consumption, at 15@17c. The export demand has been principally from Germany. In Seed Leaf, also, the market has been very quiet. We have only to notice sales of 144 cs. Pennsylvanian, at 9@10c. and 47 cs., State seed at  $5\frac{1}{2}$ @ 10c. Foreign tobacco has been without movement of importance; 30 bales Havana sold at \$1 per lb. Manufactured tobacco is very quiet. It may be observed, however, that there is no pressure to sell any description of tobacco. Ex-

MISSOURI.—St. Louis dates to November 27th, report :—The breaks were larger and the market was dull, especially for low grades, and prices favored buyers. Sales of 26 hhds, consisting of 15 hhds. lugs at from \$2 30@\$4 80; 5 hhds. leaf at from \$5 50 @\$9 90; 5 hlds. do at from \$11 75@\$17 50, and 1 hhd. do at \$48 50; also 10 boxes at from \$3 70@\$25 75 per 160 lbs. Bids on 23 hhds were rejected.

NEW ORLEANS.—Dates to the 23d report a moderate inquiry for Germany, with sales for the week of 120 hhds., mostly lugs and low leaf, at 3½@1½c, b t including 26 hhds. fine Ularksville leaf at 15c., and some on private terms. The range of quotations is nominally unchanged. Receipts for the week, 183 hhds.; exports for the week, 165 hhds., all to New York. Inspections since Sept. 1st, 18,656 hhds.

VIRGINIA.—Richmond dates of Nov. 28th reports sales: 6 parcels loose at from \$2 40 to \$8 50; 7 boxes at from \$5 80 to \$40; 2 tierces at \$26 50 and \$33, and 9 hhds. at from \$4 50 to \$11. Bids on 4 hhds. 1 box and 2 tierces rejected. At Lynchburg there was very little doing in tobacco. Sales contined to small lots of new and a few hhds. of the old stock.

### BREADSTUFFS.

NEW YORK, Nov. 30, 1866.

General depression has prevailed in the market the past week, with a pretty uniform decline in prices, although not to the extent quoted last week. Advancing ocean freights may be added to other causes for the decline.

An Albany paper calls attention to the fact that the shipments by tows from that city down the Hudson, are much greater than the receipts reported at this market from that direction. An explanation seems to be called for, and it is found in the fact that a considerable portion of the shipments from Albany are to other markets-going through the Morris and Essex Canal to Philadelphia and markets in that direction; besides a large quantity is laden on board schooners, which, on reaching this city, proceed to various New Eugland ports. This sort of business has been much larger this season than formerly, and one result, as developed already. is a larger stock of flour in Boston than here. We referred, some weeks since, to the unusual supplying of the Eastern trade direct from the West, as the cause of dullness in this The neglect of the Albany reporter to make up market. properly his record of such clearances, causes an apparent discrepancy, which the above explanation will solve. Our reports of cargoes received here are verified daily, by returns in Canal Collector's office at this city, and they are the same as those sent to the Auditor of the Canal Department at Albany. We are aware that the statistics of the commerce of this port, have been very imperfectly given; and it has been the effort of the CHRONICLE to remely the defects.

Flour has come forward freely by rail, and the local trade has done very little; a few thousand barrels of the low grades have been taken for Great Britain, upon which those qualities have been about steady. But the medium grades have declined materially, and do not appear to be saleable except at further concession, while the money pressure causes High grades conholders to be very anxious to realize. tinue to be generally held out of market.

Wheat has been taken to the extent of about 70,000 bushels for the English markets, and about half as much more has been shipped on consignment. But millers have done very little, and the export movement has afforded but partial relief. Prices may be written at a further decline of 10 cents per bushel. The low grades of Spring have been sold most freely, and the fine grades of Reds, as well as White wheats, are most depressed.

Corn has declined about 10 cents per bushel. The receipts at Baltimore are liberal and prices lower than here; Southern and British orders have consequently been transferred to that market. Rye and Barley have declined five cents per bushel, and Oats are slightly lower, with a downward tendency.

STOCKS OF GRAIN IN STORE.

Wheat, bush	826.800	Nov. 26. 1,049,300 2,930,900	Barley, bush Malt, bush		Nov. 26. 1,513,500 64,000
Oate, bush	1,686,200			7,173,900	7,938,200

At to day's market there was a further general decline in all the leading articles. Flour was 10@20c. lower. Wheat Corn 1@2c. lower. Oats heavy. Barwas 2c. lower. ley 2@3c. lower.

CALIFORNIA WHEAT --- The latest shipments to Europe for a fortnight have been as follows: To Liverpool, 1,000 half sacks flour, 81,415 sacks wheat; to Cork, 19,670 sacks wheat; to Havre, 15,265 sacks wheat.

LIVERPOOL. Nov. 16.—The weather has been very stormy, with a good deal of rain, which will again delay agricultu al work. There has been rather more activity in wheat and flour, and prices have a hardening tendency, though scarcely quotably dearer. Indian corn has been in active demand, and, as the stock is in such very small compass, prices have advanced daily, till 38s. was paid for mixed, but buyers are indisposed to follow the advance further at pres-ent. The arrivals of grain cargoes off the coast are numerous (principally wheat and barley), but there is an artive inquiry, so that prices are firmly supported, and even tend upwards. At to-day's market there was a fair consumptive de-mand for wheat, mostly for white descriptions, at an advance of 3d. per cental. Flour was in better request, and 1s. per sack dearer. The sales of Indian corn were quite in retail at Tuesday's extreme prices. Quotations: Flour, extra State, per barrel, 50s. 6d @32s. 6d.; Ohio, 52s.@ 34s.; Canadian, 32s.@34s.; Sour and heated, 28s.@31s.; Wheat—Chicago and Milwaukee, per 100 lbs. 11s.@12s.; Amber Iowa, 13s. @13s. 3d. Indian Corn— per 480 lbs., yellow, 38s. 6d.; white, 33a.@39s. 6t.; mixed, 38s.@38s. 6d. LONDON, Nov. 16th.—The quietness that prevailed in Breadstuffs last

per 480 lbs., yellow, 38s. 6d.; white, 39s.@39s. 6t.; mixed, 38s.@38s. 6d. LONDON, Nov. 16th.—The quietness that prevailed in Breadstuffs last week has this been followed by considerable heavy buying by town and country millers, also the early closing of the Upper Baltic causes a strong disposition to keep up stocks. Some cargoes of Wheat have been sold here on Marseilles account. At least, for the present, France seems supplied. Our imports of Foreign Wheat seem unusually small for the season, and the supply of En-lish is but moderate. Oats, Barley and Maize are all fair; the receipts of Sack Flour are moderate. At Monday's Market there was only a moderate display of English Wheat, which found ready buyers at 1s. per qr. advance on the week. Foreign was likew se in active request at a similar improvement. Mixed Maize is quite s arce, and the few holders ask 1s. to 2s. per quarter advance, at 35s. per 480 lbs. there were free buyers. Oats are '6d. per qr. dcarer : prime Canadian would se 1 at 24s. per 320 lbs. Barley, ordinary grinding qualities are a slow side at 32s. per 400 lbs. Flour—Barrels are rather more freely offered, and sell at full prices. The Floating Grain Cafgo Trade—The arriva:s are on most ex-tensive scale, notwithstanding there is a decided upward tendency in prices of Wheat. New Odessa Ghirka sell at 61s., and o.d at 54s. per 492 lbs. Maize in small supply; only one cargo of Mixed, and it is held at 38s. Barley is held for 32s. per 400 lbs., but buyers are unwilling to respond. At to-days's market there was a large attendance of country buyers, who bought most eagerly of Kuyed

The movement in breadstuffs at this market has been as follows:

328. per 400 108., but buyers are unwining to respond. At todays a market there was a large attendance of country buyers, who bought most eagerly of English and Foreign Wheat at 2s. to 3s. per qr. advance on Monday. Mixed Maize was again 2s. to 3s. per quarter dearer, and is held for 40s. per 480 lbs.

## GROCERIES.

FRIDAY, F. M., Nov. 89.

The grocery trade has been subject to the fluctuations of gold, unsettling values to considerable extent. The occurrence of Thanksgiving has taken operators out of the market, causing less business; and the uncertainty as to the action of Congress has added to the irregularity of an otherwise dull market; and there is little to be said beyond giving the detailed transactions as noticed in each article.

### TEA.

TEAS have met with little or no demand from first hands, principally on account of the uncertainty of the pr ce of gold. Jobbers are doing only a fair business, as trade to any part of the country is at this time very light. The market closes unsettled, and our quotations are nominal. The following table shows the shipments of tea from China and Japan to the United States, from June 1 to Sept, 27, 1866, and Importations at New York and Boston since Nov. 11

Hong Kong, September 27th.—The reports of the tea market at the several ports of China for the fortnight indicate generally a fair business, at about previous rates. At Canton, 2,300 half chests pouchong are reported sold for the American market; and at Shanghai a considerable business is reported in green teas, chiefly Fychows and Twankais, for the same.

At Yokohama the sales made were for the American market, though there was less competition, and common to fine qualities declined \$1 to \$2 per picul. For the finer parcels full prices were asked, but there was more of inferior stuff on the market than usual. The shipments from China and Japan, since the last report, are given in the table below :

	CHINA AND JAPA	N	-IMP'TS A	TN. Y. &	BOSTON.~

COFFEE.

COFFEE has further declined during the week, with, however, a very small business in the hands of importers. The total sales of the week are only 2,200 bags, on private terms. The trade for the last two days has been interrupted by the absence of buyers who look for lower prices after the meeting of Congress. The market closes dull at our figures.

The receipts for the week have been 4,500 bags Rio, per Graph Knyphans, 2,900 of Rio per Queen, 55 bags from Rotterdam, and 767 from Miragoane.

The receipts for the week, and stocks of coffee in first hands Nov. 27, are as follows :

AT NEV	V YORK.		OF RIO IN THE		
		Stock in		Rec'd	S'ck in
	week.	fi't hands		for w'k.	f't hands

For United States	32,800	Sundries	1,100
Channel and North Europe	43,400		
Mediterranean			95,400
Cape Good Hope			6

SUGAR.

SUGAR has been dull and prices entirely nominal since our last, with the exception of a slightly better business on Wednesday. Prices are lower, but more steady than early in the week. The sales of raw sugar have been about 2,000 blds, and 450 boxes. Refined sugar is more steady, with a very fair business among jobbers. The market closes duil.

The receipts of sugar have been less, both in hbds., bbls., &c., and in boxes than last week. There have been, however, 25,541 bags of Manila imported. The details will be seen below.

The receipts for the week, and stocks on hand, are as follows :

The receipts the the	neen, a	the Dence					
	Hhds.	Punch's.	Ti'ces.	Ceks.	Bbls.	Boxes.	Bags.

			MOLA	SSES.				

MOLASSEs has been more quiet during the week, the demand for distilling purposes having fallen off, and prices of low grades are easier. The sales are about 800 hhds, the market closing steady.

The sales are about 800 hhds, the market closing steady. The receipts have been less than these of last week. There is more of Porto Rico, and less from Cuba and other ports. Small quantities of New Orleans molasses are arriving; some 277 barrels having been received, against 346 last week.

Receipts for	the week and	l stock Nov. 27	are as follows :

\* Includes punchcons, tierces, &c., reduced to hhds.

### SPICES.

SPICES have been in very light demand indeed. The higher rate for gold checked the little demand at the close of last week, and business is very dull in both first and second hands.

### FRUIT.

FRUITS have been much affected by the advance in gold during the early part of the week, rendering prices firmer and stopping business. The sales are very small, mostly for immediate lone consumption The market closes unsettled.

### THE DRY GOODS TRADE.

### FRIDAT, P. M., Nov. 80, 1865.

The drygoods market has been universally quiet since our last. The recurrence of Thanksgiving Day, and the disposition to await the President's message and action of Congress, have tended to prevent business. The agents hold goods at figures somewhat above the selling prices of jobbers, but prices with them are entirely nominal in the absence of demand. Cotton has been higher during the week, and this has encouraged manufacturers and kept their quotations steady. In fact, most kinds of leading goods are now sold at prices very close to the cost of production. Bnt little improvement is looked for until some definite indications are obtained as to what Congress intends to do. Many woolen mills are stopping altogether or running on half time, which must, in time, reduce stocks.

The following table shows the export of domestic cottons and dry goods from New York and from Boston:

To Don tic	s. G'ds.	Boston- omes- Doy tics. G'ds. pkgs. ca'es	To Domes- tics. C pkgs. cs	Dry D Fds	-Boston- omes-Dry tics. G'de. okgs. ca'es

BROWN SHEETINGS AND SHIETINGS show but little variation in prices from last week. There is less-in fact, no trade at all-and large lots of goods could be purchased at slightly lower figures. Jobbers are selling a few pieces at these figures. Standards are generally sold at 21 cents. TICKS are very quiet, with not business enough doing to determine any change in prices, which are somewhat nominal. Conestoga extra. 36-inch 50, Conestoga 45, Amoskeag A C A 32-inch 62<sup>1</sup>/<sub>2</sub>, o A 32 inch 46, Amoskeag B 32-inch 41, do D 30-inch 31, do C 30-inch 36; Pemberton, red stripe 32<sup>1</sup>/<sub>2</sub>, Brunswick 22, Blackstone 25, Hamilton 37<sup>1</sup>/<sub>2</sub>, do D 32<sup>1</sup>/<sub>2</sub>, Somerset 20, Thorndike 20, Pearl River 60, Oriental 45, Harvest 38<sup>1</sup>/<sub>2</sub>, Hancock A A 35, Pittsfield 15, Easton A 23, do B 21, Bunkerhill 30, York 32-inch 2<sup>1</sup>/<sub>2</sub>, do 30-inch 40.

STRIPES are inactive with both jobbers and agents, and prices are lower. Amoskeag sell at 35, Uncasville 26@27, Whittenton A A 35, do A 30, do B B 25, Pittsfield 3-3 14<sup>1</sup>/<sub>2</sub>, Pemberton Awn 47<sup>1</sup>/<sub>2</sub>, Haymaker 28, Everett 26, Mastabesic 6-3 38, Harvesters 8-3 22@27, do 6-3 22@27, Chester Dock 23, Blackstone 23<sup>1</sup>/<sub>2</sub>, Eagle 18, Hamilton 31, Arkwright 25, Easton 22.

DENIMS are also dull and irregular with agents. Their prices are nominally the same as those of jobbers. Pearl River sell at 42½. Chester Dock 23, Union 30, Monitor 22, Manchester Co. 27½, Clark's brown 27½, Suffolk 30, Amoskeag 45, Haymaker 28-inch 30, do brown 30, York 28 in. 41, Warren brown 27-in 27, Boston Manufacturing Co. 29-in. 27½.

CHECKS are in light request with either agents or jobbers. Park Mills Red sell at 25, Lanark 4x2 17, Lanark Fur  $18\frac{1}{2}$ , Union 50 4x2  $37\frac{1}{2}$ , do 50 2x2  $37\frac{1}{2}$ , do 20 4-2 35, do 20 2-2 35, Caledonia 35, do 29.

BROWN DRILLS are in very light request for export, but there is scarcely anything doing for home consumption. Standards are held at 25, Winthrop 19, Amoskeag 24, Laconia 24, Pepperell 25, Stark 28, Boott 25, Massabesic 20, Brunington 23, Globe 20.

pieces of goods have been sold daily. Silisias sell at—Lonsdale 23, Victory 22, Indian Orchard 22, Ward 22. Cambrics sell at—S S & Sons 18, English 20, High Colors 22, White Rock 18, Lonsdale 21, Masonville 20. Glazed Cambrics—Washington 14<sup>1</sup>/<sub>2</sub>, Victory 13<sup>1</sup>/<sub>2</sub>, Hudson Mill 12<sup>1</sup>/<sub>2</sub>, Fox Hill 11<sup>1</sup>/<sub>2</sub>, Smithfield 14<sup>1</sup>/<sub>2</sub>, Victory E 14, Waverly 14<sup>1</sup>/<sub>2</sub>.

MOUSLIN DE LAINES are quiet and unchanged in prices. All dark sell at 25, Hamilton Co 25, Manchester 25, Pacific 25, Amures 27, High Colors 28.

LINSEYS are in fair demand, and the stocks are not large. Washington 35, Park 45-inch 35, do 35-inch 30, do 60-inch 42<sup>1</sup>/<sub>2</sub>, do 70 inch 57<sup>1</sup>/<sub>2</sub>, do 75-inch 62<sup>1</sup>/<sub>2</sub>, Kensington 26, Union cotton and wool 27, Park Mills No. 65 65-inch 47<sup>1</sup>/<sub>2</sub>, Todd's 32<sup>1</sup>/<sub>2</sub>, Black Rock 30.

CASSIMERES AND SATINETS are inactive and quotations although much lower are wholly nominal.

AMERICAN LINEN is steadily called for, and prices are uniform at 12@ 16 cents for Crash, and 20@21 for Hucsabuck.

FOREIGN GOODS.—The market for foreign goods is exceedingly quiet. The auction sales have been quite numerous and large lines of goods have been offered. The attendance has also been good but prices have been low and unsatisfactory.

MANCHESTER COTTON YARN AND GOODS' MARKET, LONDON WOOL SALES ETC.—In reference to these markets, our London correspondent writes as follows:

MANCHESTER, Nov. 14.—The position of the trade for co ton yarn and cotton cloth is most unsatisfactory, and a tone of considerable depression prevails. There is very little business doing, buyers being under the conviction that the value of the raw material must decline considerably, and that by deferring their purchases, they will be in a position to effect much more satisfactory bargains. Hence, the business doing is of quite a hand-to-mouth character, and seems likely to remain in that state, until the cotton trade assumes a steadier aspect.

LONDON WOOL SALES. —The fourth and last series of public sales of Cape and Australian Wool were commenced ou Thursday. The arrivals comprise 62,799 bales, viz.; 6,936 bales from Sydney, 4,931 Victoria, 2,231 Adelaide, 1,029 Tasmania, 3,970 Adelaide, and 43,702 bales from the Cape of Good Hope Cape Wool has declined in value  $\frac{1}{2}$ d to 1d, but the best Australian Wools have advanced in price to a similar extent. The biddings are moderately active. The principal foreign buyers are from Germany.

## December 1, 1866.]

## The Railway Monitor.

CONNECTICUT RAILBOADS.—We compile from the official returns to the Legislature the following statistics relating to the railroads in this State, and their operations in the fiscal year 1865.

The capital account presents the following in relation to stock, bonds, &c., and the cost of the several works;

		t e		Miles	Cost of
	Share	Funded	Floating	of	road and
Companies.	capital.	debt.	debt.	road.	equipm't.
Danbury & Norwalk	\$306,900	\$100,000		23.80	\$412,282
Hartford & New Haven	3,000,000	927,000		71.60	3,498,319
Hartford, Prov. & Fishkill.	2,037,940	1,936,740		122.40	4,204,866
Housatonic	2,000,000	202,500	\$150,847	74.00	2,439,775
Naugatuck	1,100,009	295,000	34,065	57.00	1,465,639
New Britain & Middlet'n	75,000			2.47	117,470
N. H., N. Lond. & Stongt'n	738,533	766,000	••••• · ·	50.00	1,454,040
New Haven & Northamp'n	1,610,000	62.800	9,443	85.00	1,787,565
Vew London Northern	700.000	132,800	12,925	86.00	861,135
N. York & N. Haven	2,980,839	2,000,000	170,871	62.25	6,315,232
N. York, Prov. & Boston	1,755,281	500.000		62.00	2,568,000
Norwich & Worcester	2.363,600	580,000	9,262	59.40	2.613,694
Rockville	97,750	33,000	45,088	4.80	171,858

The earnings, expenses, &c., of these several companies for the

fiscal year sum up as follows :

nooni jene i	Gross	Operating	Nett	-Dividend	-ef
Companies.	earnings.	expenses.	earnings	. Am't. R	ate.
Danbury & Norwalk	\$103,333	\$\$2,747	\$20,586	- \$9,692	3
Hartford & New Haven	1,459,711	912,377	347,334	237,438	* 12
Hartford, Froy. & Fishkill	644,725	478,539	166,186		
Housa onic	478,095	396,632	81,443	(on prf. stk	: 8.)
Naugatuck	419,469	252,547	156,922	110,000	10
New Britain & Middletown	(Include	d in Hartfo	ord & Ne	w Have .)	
N. Haven, N. London & Ston'ton	67,143	116,302	(L088)		• • •
New Haven & Northampton		132,893	88,764		
New London Northern		256,769.	49,998	26,352	4
New York & New Haven		1,774,934	366,962	253,425	7
New York, Prov. & Boston	625,641	456,154	169,487	1:8,359	12
Norwich & Worcester	714,057	445,662	268,395	221,904	9
Rockville		12,408	15,694	2,400	4

There are also two horse railroads in the State, viz : the Fairhaven and Westville, six miles, which cost \$150,000, and the Hartford and Wethersfield, nine miles, built at a cost of \$200,000.

GREAT WESTERN (UAN)	RAILW	AY I	ne tu	iru ra	n on m	e u.
W. Railway to enable the	cars o	of the	New	York	Central	and
Michigan railroads to run o						

and other roads are then to put on a through freight line between New York and Boston and the West, to be known as the "Blue Line." The Red Line has been in operation some time between New York City and the West, and the White Line is now under good headway between New York and Boston and the southwestern cities.

MILK BY RAILROAD.—Some idea may be, collected of the quantity of milk (quarts) brought to New York City by the following table for the first ten months of 1866 :

		<b>z</b> /			
5		Erie.	Harlem.	Hudson R.	Total.
õ	January .	844,210	976,421	521,696	2,842,327

1			· · · · · · · · · · · · · · · · · · ·		

ILLINOIS CENTRAL RAILROAD ---Plans for a connection between the Chicago Branch and main line of this road are being considered. One plan is for a road from Urbana to Decatur, another from Paxton to Heyworth, and a third from Kankakee to Bloomington. Ary one of these plans, if carried out, would materially shorten the the Route between Chicago and St. Louis.

UNION PACIFIC RAILROAD.--The Government Commissions have examined the eighth section of thirty miles, and found the same in an acceptable condition. The road is now in ranning order 275 miles west from Omaha, or to a point 28 miles west of the 100th meridian.

## COMPARATIVE MONTHLY EARNINGS OF PRINCIPAL RAILROADS.

INSURANCE COMPANY. OFFICE No. 85 WALL STREET, NEW YORK.

Assets, Jan. 1st, 1866..... \$1,366,699

ORGANIZED APRIL, 1844.

The Company has paid to its Customers, up to the present time, Losses amounting to over

EIGHTEEN MILLIONS OF DOLLARS.

For the past nine years the cash dividends paid to Stockholders, made from ONE-THIRD of the net profits, have amounted in the aggregate to

### One Hundred and Twenty-one and a half per cent,

Instead of issuing a scrip dividend to dealers, based on the principle that all classes of risks are equally profitable, this Company will hereafter make such cash abatement or discount from the current rates, when premiums are paid, as the general experience o underwriters will warrant, and the nett profits re-maining at the close of the year, will be divided to the stockholders.

This Company continues to make Insurance on Marine and Inland Navigation and Transportation Risks, on the most favorable terms, including Risks on Merchandise of all kinds, Hulls, and Freight.

Policies issued making loss payable in Gold or Currency, at the Office in New York, or in Sterling, at the Office of Rathbone, Bros. & Co., in Liver-By order the Board, JOHN E. KAHL, Secretary. J. H. # FIRST MORTGAGE BONDS

OF THE

702

# CENTRAL PACIFIC RAILROAD CO.

OF CALIFORNIA.

Interest at the rate of Six per Cent. per annum, payable Semi-Annually, on the First days of January and July.

Principal and Interest payable in U.S. Gold Coin in the City of New York.

Amount of Issue, \$7,335,000. In Coupon Bonds of \$1,000 each.

The Bonds have Thirty Years to run, and are secured by a First Mortage, constituting an absolute prior lien on that portion of the Road, Equipments, Franchises, and Entire Property of the Central Pacific Bailroad Company, located in the State of California, and extending from Sacramento City to the California State Line, forming a part of the GREAT PACIFIC BAILBOAD ROUTE, adopted and aided by the UNITED STATES GOVERN-MENT.

The amount of these First Mortgage Bonds to be issued per mile, is limited by law to the amount of United States Bonds allowed and issued to aid the construction of the Road, and the Mortgage by which they are secured is declared by Act of Congress to constitute a lien prior and superior to that of the United States Goverement.

The aid received from the Government (in amount equal to this First Mortgage) is economically and judiciously applied to the construction and equipment of the road, together with nearly \$7,000,000, received from Stock Subscriptions and other sources. The First Mortgage therefore amounts to but about 35 per cent. of the actual cost and value of the Property which it covers.

The road is now completed, equipped and running from Sacramento City to Alta, a distance of 73 miles, and the earnings for the three months ending August Lat wore as follows, viz.

Ist, were as follows, the	\$65,115 83
May, 1866	67,429 78
July "	

The earnings are steadily increasing, and are estimated at over \$100,000 in gold for the month of August-the official report for that month not having been received at this date.

The construction of the road is going vigorously forward-24 miles additional being nearly ready for the cars-and it will probably be in full operation to the California State Line-156 miles from Sacramento City-during the summer of 1867, when its earnings must be very large, as the entire trade of Nevada, and a large proportion of that of Utah, Idaho, and Montana must pass over its line. It has been shown by reliable statistics that in 1863 over \$13,000,000 in Gold was paid for freighting goods from California to Nevada alone.

This part of the Great Pacific Railroad Route is destined to be one of the most profitable lines of railroad in the world, and its First Mortgage Bonds are among the best secured and most desirable investments ever offered.

### FIRST MORTGAGE BONDS OF THE

ST. PAUL AND PACIFIC KAILROAD COMPANY of Minnesota. Interest at Seven per cent., somi-annually, first January and July, free from Gov-ernment Tax, in the City of New York. Principal payable in 1892.

payable in 1892. The road runs through one of the best portions of the State, and has been completed to St. Cloud, eighty miles, at an excense of over \$3,000,000. THESE BONDS ARE ONLY \$10,000 PER MILE. Government Bonds at the highest market price will be received in payment. For particulars apply to TURNER BROTHERS, Bankers. Corner Nassan and Pine Sts., New York.

SEVEN PER CENT. FIRST MORT-GAGE BONDS OF THE NORTH MISSOURI RAIL-ROAD COMPANY.

We offer for sale the Seven Per Cent. First Mort gage Bonds of the North Missouri Railroad Com pany, having thirty years to run. Coupons paya-

ble in New York on January 1 and July 1,

Over \$1,000,000 has already been expended in grading beyond the point to which the road is now running, and the iron is bought and paid for sufficient to lay the track the entire distance to the State line.

The Road has been completed and equipped thus far without the sale of a single dollar of its First Mortgage Bonds, and they are now offered to the public for the first time, after the earnings of the Road have reached the sum of \$100,000 per month in Gold, only about twenty-five per cent. of which is required for operating

The Bonds are offered at 95 per cent. and accrued interest from July 1st, in expenses. Currency. Orders may be forwarded to us direct, or through the principal Banks and Bankers in all parts of the country.

Remittances may be made in drafts on New York, or in Legal Tender Notes, National Bank Notes, or other funds current in this city, and the Bonds will be forwarded to any address by Express, free of charge. Inquiries for further particulars, by mail or otherwise, will receive punctual attention.

# FISK & HATCH, Bankers,

## No. 5 Nassau Street, N. Y.

N B.-All kinds of Government Securities received at the full market price in exchange for the above Bonds.

year. Before accepting the agency for sale of these bonds, we made careful inquiry into the condition and prospects of the road, which was examined by Mr. Wm. Milnor Roberts and others, on our behalf, and their highly satisfactory report enables us to re-commend the bonds as first-class securities, and safe and indicious investment.

safe and judicious investment. The proceeds of these bonds (\$6,000,000 in all) W1. be used in extending a road, already completed 170 be used in extending a road, already completed 170 miles into North Missouri, to the lowa State line, where it is to connect with the railroads of Iowa, and also westward to the junction with the Pacific Railroad (at Leavenworth) and other railroads lead-ing up the Missouri River, so that the mortgage of \$5,000,000 will cover a complete and well-stocked road of 889 miles in length, costing at least \$10,000, 000, with a net annual revenue after the first year of over \$1,500,000, or a sum nearly four times be yond the amount needed to pay the interest on these bonds, the income of the road of course increasing

every year. The Railroad connects the great City of St. Louis with its 200,000 inhabitants, not only with the rich est portions of Missouri, but with the States of Kan sas and Iowa and the great Pacific Railroads.

The first 500,000 have been sold at 80 cents, and the remainder are now offered at 55 cents. At this rate they yield nearly 8% per cent. income, and add 20 per cent. to principal at maturity. Any further inquiries will be answered a ou

office.
