declared a semi-annual dividend of FIVE Per Cent, free of Government Tax, payable on and after canuary 1st, 1867.

JAMES GILMORE, Secretary.

METROPOLITAN NATIONAL BANK, No. 108 Broadway, New-York, Dec. 18, 1866 DIVIDEND .-- THE "IRECTORS OF THE METROPOLITAN NATIONAL BANK have this day declared a semi-annual dividend of Six (6) Per Cent., tree of Government tax, payable on the first Monday of January next.

The transfer books will be closed until January 0, 1867. GEO I. SENEY, Cashier.

FIRST MORTGAGE BONDS

ST. PAUL AND PACIFIC HAILROAD COMPANY of Minnesota. Interest at Seven per cent., semi-annually, first January and July, free from Gov-ernment Tax, in the City of New Yors. Principal payable in 1892.

The road rans through one of the best portions of the State, and has been completed to St. Cloud, eighty miles, at an excense of over \$3,000,000.

THESE BONDS ARE ONLY \$10,000 PER MILE.

Government Bonds at the highest marke; price will

be received in payment. For particulars apply to
TURNER BROTHERS, Bankers.
Co ner Nassan and Pine Sts., New York.

14 h DIVIDEND-STANDARD FIRE INSURANCE COMPANY, Office No. 11 Wail Street, New York, January 8, 1867. A Semi-Angual Dividend of FIVE PER CENT., Free of Government Tax, has this day been declared, payable on demand.

WILLIAM M. ST. JOHN, Secretary.

SEVEN PER CENT. FIRST MORT-GAGE BONDS OF THE

North Missouri Rail-ROAD COMPANY.

We offer for sale the Seven Per Cent. First Mort gage Bonds of the North Missouri Railroad Company, having thirty years to run. Coupons payable in New York on January 1 and July 1, in each

Before accepting the agency for sale of these bonds, we made careful inquiry into the condition and prospects of the road, which was examined by Mr. Wm. Milnor Roberts and others, on our behalf, and their highly satisfactory report enables us to re-

and their highly satisfactory report enables us to recommend the bonds as first-class securities, and safe and judicious investment.

The proceeds of these bonds (\$6,000,000 in all) who used in extending a road, already completed 170 miles into North Missouri, to the lowa State line, where it is to connect with the railroads of lowa, and always and the pecific state of the same time with the Pecific and also westward to the junction with the Pacific Railroad (at Leavenworth) and other railroads leading up the Missouri River, so that the mortgage of \$5,000,000 will cover a complete and well-stocked road of 889 miles in length, costing at least \$10,000,-000, with a net annual revenue after the first year of over \$1,500,000, or a sum nearly four times be youd the amount needed to pay the interest on these bonds, the income of the road of course increasing

The Railroad connects the great City of St. Louis with its 200,000 inhabitants, not only with the rich est portions of Missouri, but with the States of Kan sas and Iowa and the great Pacific Railroads.

The frst 500,000 have been sold at 80 cents, and the remain ler are now offered at 55 cents. At this rate they yield nearly 8% per cent. income, and add 20 per cent. to principal at maturity.

Any further inquiries will be answered a on JAY COOKE & CO.

American Dock

And Improvement Co.,

Files for holding the Chronicle or Bulletin can be had at this Office.

The third volume of the Chronicle, from July to December, 1866, inclusive, is for sale at this Office; price \$5 00.

CONTRACTION OF CREDIT AND CONTRACTION OF CURRENCY.

It is commonly reported that some of those powerful interests which are unfavorable to contraction of the currency are endeavoring to exaggerate the existing stringency, and increase it into a monetary spasm, that they may claim relief, operate on Congress, and obtain either a further emission of some kind of currency, or, at least, a repeal of the law of 12th April last, which authorized a gradual contraction, to the extent of four millions of greenbacks a month. Whether there be any foundation for this Wall street rumor or not, it is certain that the odium of having produced trouble in the money market is charged by some persons on the law to which we have referred, and by a mischievous confusion of thought it is supposed that contraction of the currency is identical with or tends inevitably to bring on a contraction of credit. If the object easy if the figures and signs he uses were perpetually chang-

proposed to be attained by the tampering with the money market and locking up of greenbacks, which is charged on some prominent firms, is to produce a general outery among the people against contraction of the volume of our redundant pa per money, that object is probably destined to signal failure.

Two very sound, useful ideas have taken full possession of the public mind, which will effectually prevent it from being so misled. They are: first, that contraction of the currency may be so made as not to produce the mischief of a spasmodic stringent money market; and secondly, that this contraction of the redundant volume of our circulating money is the necessary and only means whereby the standard of the paper dollar can be raised and made equal to the dollar in coin. The malady under which our currency is suffering being redundancy, the obvious remedy is to correct this redundancy by calling in and cancelling the over-issue. There is no other cure than this. No depreciated paper money that has heretofore been emitted on the faith of a stable government was ever restored to par with coin except by reducing the amount in circulation and making the supply of currency equal to the legitimate demand. Very plausible objections have been urged to the method of restoring the currency by contraction, founded on the well-known fact that the price of gold has not kept even pace with the amount of overissue. These objections, in the present instructed state of the popular mind, mislead very few persons. It would be just as sound an argument to urge that the law of gravitation is disproved because the waters of the Mississippi run up hill from the sea twice every day. The law of gravitation, as we see its workings, is subject to a thousand tidal and other perturbations, which derange its results. And as it is with the stern, unyielding laws of matter, so is it with those laws which govern the value of the currency. Both alike admit of deviations which may puzzle us until we discern and measure the perturbing causes.

The truth is, that when once the financial system of any nation under a redundant currency has been loosened from its hold on the solid rock of specie convertibility, the standard of value is liable to temporary derangement by a thousand influences, from not one of which it would otherwise have suffered. The value of the paper dollar is liable to concract and to enlarge spasmodically, suddenly, irregularly. Prices estimated in so fugitive and changeable a standard fluctuate, and tempt speculators to gamble in values, and thus to disturb them still more. Even under a sound metallic currency the oscillations of prices in the open market offer the most difficult problems known to financial science. What then must we expect when these well-known difficulties and an omalies are increased in a geometrical ratio by a fluctuation of the unit of value in which all prices are expressed. Λ mathematician would not find a long series of calculations

ing their value. We will not enlarge, however, on this view of the subject. It is only referred to in a general way to suggest replies to the sophistical and superficial reasoning by which plain people may often be puzzled, even though they be neither convinced nor misled.

In Congress, a few days ago, a very plausible statement of these objections to the accepted theory of the currency was made by Judge Kelley, of Pennsylvania, in a speech which otherwise was characterized by acuteness and ability. After exposing some of the mischiefs of our expanded banking, Mr. Kelley proceeds as follows:-

Neither the price of gold nor of other commodities is regulated nor materially influenced by the amount of currency; nor is the difference between gold and our currency evidence that the latter is inflated. If the Secretary controverts these propositions, I will remind him that gold commanded a premium of 185 in 1864, and ask him to let us know how much he had contracted the currency before it went down to 25, as it did in June, 1865; and again, how much he expanded the currency to put the premium on gold up again to 50, at about which figure it stood so long before dropping to 29 and ascending again to its present price. During all these fluctuations the volume of currency was not essentially modified. * * * But, sir, assuming that the volume of currency does not regulate prices, and that apart from the often fatal vice in our banking system to which I have alluded it has but little influence on them, I appeal from the judgment of Mr. McCulloch to that of the people, and ask whether, if the volume of currency regulated prices, it would not affect every species of property equally or nearly so? If prices are regulated by the volume of currency, how is it that American wool is as cheap in the Philadelphia market now as it was before the war? How is it that corn is unusually low and wheat is commanding a higher price than ever before in the history of our country? How is it that during last month one variety of cotton goods, those known as brown or unbleached goods, advanced twenty per cent, or two cents per yard, and another variety, bleached goods, declined twenty per cent, or from five to seven cents per yard? How is it that mess pork commands but about half last year's prices, while the decline in beef has been little more than nominal? And how is it that in 1865, with gold at 25, Lehigh coal commanded at the shipping point from five to six dollars per ton, and in 1866, with gold ranging from 32 to 40, the same qualities of coal at the same points will not bring three dollars to three dollars and a quarter per ton?

We quote this ingenious array of facts not for the sake of replying at length to the arguments built upon them, but to show how, contrary to the logical axiom, an expert advocate may use the exception to disprove the rule. Properly understood these facts simply prove what is universally acknowledged, namely: first, that the fluctuations in gold mark very imperfectly the value of our paper currency; and, secondly, that the prices of gold and other commodities expressed in fluctuating paper dollars, oscillate oftentimes in a very irregular, violent and anomalous way, some commodi ties going up when others go down, while all alike are really borne upwards as the tide of inflation rises. The solid ground of specie payments being left, prices lose their old stability, and are liable to be affected by all the currents and eddies of the current of redundant circulation, by which they are buoyed up and raised above their normal level.

Such has ever been the course of events during the progress of inflation under an issue of paper money. And when contraction begins a similar or even a greater irregularity prevails, and the solid basis of values is only reached in suc cessive slow degrees as the tide recedes. If then to these causes of fluctuation in values we add those arising out of our searching and mischievous taxation, we shall cease to be surprised that prices deviate so often from what might be expected did the laws of currency-expansion and currency-contraction operate with mathematical precision and undisturbed force.

PROPOSED CHANGES IN THE BANKING LAW.

The opinion has been actively discussed for some time past, and is evidently gaining ground in the country and in Congress, that the National Bank currency could be assumed by the Government without danger to any business interests of importance, and with manifest relief to the burdens of the people. It is argued that the banks gain at present the whole of the profits arising from the issue of the currency, while the country at large suffers the loss which its issue has caused in

the depreciation of the currency and the consequent disturbance of values. The interest on the 330 millions of bonds deposited by the banks as security for 300 millions of circulation is estimated at some 18 millions of dollars in gold. This sum, under the proposed plan, would be saved to the Treasury, while the notes would be cancelled and their place supplied by greenbacks. This scheme has been attracting the more attention in consequence of the opposition raised by the banks against the redemption of their notes in the metropolitan centres. We publish below a copy of a bill for this purpose, which was introduced into the House of Representatives by Mr. S. I. Randall on the 7th January, and referred to the Committee on Banking and Commerce:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Treasury is hereby authorized to issue, on the credit of the United States, such sums as may be necessary for the purposes set forth in this act, not exceeding in the aggregate amount three hundred millions of dollars, of treasury notes, not bearing interest, of such denominations as he may deem expedient, not less than five dollars each, which said notes shall be lawful money and a legal tender for debts in like manner as provided in the first section of an act entitled "An act to au thorize the issue of United States notes, and for the redemption or funding thereof, and for funding the floating debt of the United States," passed February twenty-five, eighteen hundred and sixty-two. And the provisions of the sixth and seventh sections of said act are hereby re-enacted and applied to the notes herein authorized.

SEC. 2. And be it further enacted, That the amount of said notes issued in any one fiscal year shall not exceed one hundred millions of dollars, and the same shall be used only in exchange for notes issued by the national banks under the authority of the United States, in conformity with the laws regulating the same, and for the purchase of such portions of the national indebtedness as may be necessary to carry out

the true intent of this act.

SEC. 3. And be it further enacted, That the said national bank notes so received in exchange for the treasury notes authorized by this act, shall be by the Secretary of the Treasury forthwith cancelled in like manner as though they had been returned for cancellation by the banks respectively issuing them, and the certificates of national indebtedness, and bends on deposit for the security of said notes, shall be transferred to the commissioners of the sinking fund, which is herein established, at market prices, to the amount and extent that the several banks whose notes have been thus returned would be entitled to receive the securities

SEC. 4. And be it further enacted, That the Secretary of the Treasury, the Attorney-General, the Secretary of the Interior, the Treasurer of the United States, and the Comptroller of the Currency, shall be the commissioners of the sinking fund, who, or a majority of whom, shall receive the evidences of debt and bonds purchased in accordance with the provisions of this act, and forthwith stamp upon each, so as to make it unfit for further use, "Belonging to the sinking fund of the United States," and shall cancel the signatures thereon. They shall hold said evidences of debt and bonds until their respective maturities, and until then all accruing interest shall be paid and is hereby appropriated to the said commissioners, who shall purchase other evidences of debt and bonds, to be used and held as herein provided for, and so from time to time as money may be received from such sources.

SEC. 5. And be it further enacted, That immediately after the close of each fiscal year the Secretary of the Treasury shall publish an account of the condition of the said sinking fund in at least one newspaper published in the cities of Washington, Baltimore, Philadelphia, Boston, and New York, and he shall, at the first meeting of Congress thereafter, report the same to each branch thereof.

Sec. 6. And be it further enacted, That so much of any law or laws as are inconsistent herewith shall be, and the same are hereby

As our appreciation is well known of the important part the national banks play in the financial affairs of the country, we need scarcely say that we disapprove of the plan set forth in the foregoing bill, and think it likely, if adopted, to cause serious commotion in monetary and industrial affairs. For the present, and until the nation shall have recovered from its financial troubles, the more of steadiness and stability we can confer on our banking system the better. Until we have funded our vast floating debt, thoroughly absorbed the disbanded soldiers into the disciplined army of peaceful workers, and restored the equilibrium of our tottering, overstrained financial machinery, it would not be wise to run the risk of causing further disturbance by closing any of the banks. We have never objected to making these institutions pay their fair share of taxation; we approve of the late decision of the Supreme Court compelling the banks to pay local taxes; we might not object to the imposition of a heavier Federal tax than the 7 millions a year which the banks now pay, but in the present financial situation we do strongly object to so sweeping, dangerous and revolutionary a change as that contemplated by Mr. Randall and his friends.

Waiving all considerations of the overwhelming objections of a political and financial character which oppose the plan of increasing the volume of the Government legal tender notes, Congress has a sufficient argument for rejecting the scheme before us in the fact that it would unsettle and weaken that financial stability which every motive of patriotic and enlightened statesmanship combines to lead them to strengthen and support.

REPORT OF THE SPECIAL COMMISSIONER OF THE REVENUE.

Mr. Wells may be congratulated on having accomplished a very difficult task, and on having done it well. He is required by the law of 13th July, 1866, under which his office was created, to report "through the Secretary of the Treasury, to Congress, either in the form of a bill or otherwise, such modifications of the rates of taxation, or of the methods of collecting the revenues, and such other facts pertaining to the trade, industry, commerce or taxation of the country, as he may find, by actual observation of the operation of the law, to be conducive to the public interest." In accordance with this arrangement Mr. Wells has presented his first report, which forms an elaborate pamphlet of 112 pages, and is accompanied by a new tariff bill, which is favorably regarded in the hostile camps of free trade and protection, and stands, if we are not misinformed, a very good chance of passing the Senate in a few days without much alteration. The report at large has been freely and favorably commented on by the daily Press in all parts of the country. It has two obvious characteristics which confer on it its chief value: first, it is free from narrow ideas and impracticable crotchety notions; and secondly, it presents trustworthy deductions from a vast array of facts which have been collected with commendable industry and painstaking zeal from a multitude of well-informed persons in our chief cities. One thing is wanting to give completeness to the report. We refer to vast mass of evidence which Mr. Wells received during his investigations. This evidence should be published in full, as should also the evidence taken before the late Revenue Commission, of which Mr. Wells was chairman. These two volumes would be invaluable to the country, and would constitute a storehouse of facts for the use of that large and increasing class of our leading mer who are devoting themselves to the study of fiscal subjects.

NATIONAL AID TO STEAMSHIP LINES.

On New Year Day six steamers arrived at this port from Europe, all owned by European capitalists. Yet this is no unusual circumstance, for our entire trade with the Old World promises to be very soon carried on under foreign flags. The recent sale of the Arago and Fulton would appear to augur unfavorably for efforts to continue even one American line of ocean steamers in existence.

It is not our purpose, at the present time, to discuss the reasons for this. They are many and varied; and yet, even if all other difficulties were removed, assistance would still be required from our Government before an American line of steamers could successfully compete with the old-established European con.panies. Without such aid capitalists will not enter upon so hazardous an experiment. We are aware that it is the legitimate province of Government, strictly speaking, to administer justice and protect its citizens. The establishment of industrial pursuits and other legislation of analogous character can hardly be said to be comprised within its purposes. It is to be presumed that every citizen will exercise his talents and energy in the call- would constitute a United States line for the transportation

ing which shall be to him the most remunerative, without demanding of the Government to make it so. But it is not always practicable to carry on public affairs strictly upon technical principles. Exigencies arise which materially complicate these matters. True statesmen understand this, and provide accordingly.

The pursuits of commerce are absolutely essential to render other departments of industry remunerative. The facilities of market are vital to all enterprise. Acting on this principle, the British Government, in former years, were in the habit of granting large subsidies to steamship lines. The purpose was to seize the whole of the mail traffic, and with it the lucrative trade accompanying it in the North Atlantic. Accordingly, Mr. Cunard first began his enterprise under the express stipulation of receiving from the Treasury the annual subvention of £60,000. He soon found the amount insufficient, and the government raised it to £100,000; but this was not enough, and the sum was finally fixed at £145,000 a year-equivalent to ten shillings and eightpence sterling per mile. The fact was recognized at the outset that the immense capital required to start the line of steamers from Europe to America, and the expenditure necessary for its maintenance, would not be covered by any commercial returns to be expected from it. Private enterprise could not afford to enlist in so great an undertaking. Only by subsidy could it be accomplished; and this measure was warranted by broad considerations of its importance to the British nation.

Afterward the West Indian Steam Packet was established, receiving the still greater subvention of £240,000 a year. The line to Australia was also in its turn fostered in a like manner. As, however, the profits of the lines have become adequate for the remuneration of the companies for the capital invested, it has become proper that the subvention should cease. The British nation has been amply compensated for the expenditure, from the commerce which the establishment and operating of these steamship lines has secured to the country.

In order to establish a successful rivalship on the occan, the French Government found it necessary not only to bestow a heavy subvention on the General Trans Atlantic Mail Steamship Company, but to lend to it outright the sum of five million dollars. At this very time Prussia is also seeking to extend her power on the ocean. A bill pending before the House of Deputies proposes a large subsidy to steamship lines for mail service, and in addition a loan of \$5,000,-000 to enable the company to go into successful operation. The Geetsemunde, just acquired from Hanover, is the entrepot which it is contemplated to establish, and the proposed line is to ply between that point and the city of New York.

We see that the Commercial Navigation Company, of the State of New York, recently memoralized Congress for legislation to enable the operating of an American Transoceanic line of mail steamships. The proposition which the company submitted was, to establish a line of seven sea going steam vessels, two to be of two thousand and five of three thousand tons, and all to be constructed in the best manner, with all known modern improvements in model, machinery and outfit, so as to secure the greatest possible speed and safety. The proposed outlay for construction exceeds six million dollars. The purpose, it is said, is to secure a speed of twelve to fourteen marine miles an hour, with a draught of water which shall not exceed sixteen feet when loaded; and in the plan of construction to have three decks, one extending the entire length of the vessel, giving passengers every possible comfort and convenience. These steamships

of the mails. The memorial asks Congress for the passage of a law anthorizing the Postmaster-General to arrange and contract with the company for the weekly conveyance of the foreign and European mails of the United States between New York and Liverpool for a term not exceeding twelve years. The times of sailing, and other details, are proposed to be arranged between the company and the Postmaster-General.

At the present time no mail, no dispatch from the Federal Government to a minister, or other foreign agent, or from such agent to the Government, no diplomatic agent of the United States crosses the ocean, except on foreign vessels, and under a foreign flag. These facts, it is claimed, should be allowed due weight when considering this application.

The compensation asked by the company for carrying the mails is the postage. In view of the fact that an outlay of about eight million dollars will be required for the building, equipping, and running such a line of steamships as is proposed, this company ask in addition that the Postmaster-General shall be authorized to guarantee the payment of their bonds to the amount of about \$3,000,000. To assure the Government against loss by this transaction, it is proposed that the company shall give to the United States a first lien upon the steamships, their tackle, apparel, machin ery and furniture, which will be worth double the amount of the obligations so assumed; also that the Postmaster General shall receive all the moneys paid for postage on the mails so carried, applying the amount to liquidate the interest on the bonds, and retaining the excess for payment of the principal till the entire indebtedness shall have been extinguished. The bonds so guaranteed, it is further proposed, shall be issued in such amounts and at such times during the construction of the steamships as the Postmaster-General shall determine, and shall be made payable at the expiration of twelve years, bearing interest at five per cent., gold, to be paid semi-annually. The company also propose, as additional security against loss on the part of the Government, to cause each of the steamships to be insured, by marine insurance companies of good standing, against the dangers of the seas, in such sums as shall be equivalent to the amounts of the bonds so guaranteed and owing; the policies to be made payable to the order of the Postmaster-General. In the event of war, the Navy Department shall be empowered to take the vessels and use them as transports or ships of war, for an equitable sum, or may purchase them for the public service, if the Secretary of the Navy shall deem

We refer to this memorial thus minutely because it appears to be the most favorable project of the kind now before Congress; not because we approve of all its details. The estimate upon which the proposal is based supposes the average amount received annually for postage to be \$450,000, which would be more than sufficient to meet the interest and principal of the bonds guaranteed. By reference to the report of Postmaster-General Randall for the fiscal year ending June 30, 1866, the cost of transatlantic mail service, which is performed almost wholly by foreign steamship lines, was \$525,307 46, the total amount for the four years ending with that date being \$1,634,710. Within the last fiscal year our European postal communication has been increased at the unprecedented rate of 25 per cent.

There has existed in this country for years a strong feeling against subsidies. The experiment of the Collins Line evidently operated to strengthen this prejudice. But when we consider what Great Britain has done to promote the navigation of the ocean by means of steam vessels, as well as the advantages which have been thus secured for her merchants and manufacturers, it would seem to be time for such preju-

dice to cease. Our Government has actively taken the initiative in the case of the line of subsidized mail packets now plying between New York and Rio de Janeiro, in which case the contract obligates the United States to pay the company for twelve round trips each year the annual sum of \$150,000 for ten years, the Imperial Government of Brazil also paying a like amount. The Pacific Mail Steamship Company has also obtained a contract to make twelve round trips between San Francisco and China each year, for the annual subsidy of \$500,000, for and during the term of ten years, beginning on the 1st day of January, 1867.

In accordance with this principle, enterprises have been fostered by Congress for the purpose of developing the resources of the country. Aid has been granted by lending the credit of the Government to two Pacific Railroad companies, the bonds of the companies having been endorsed by the Government at the rate of \$16,000 per mile, and only a second instead of a first lien having been required. Large grants of public lands have been made to the new States, to facilitate the construction of railways. Every argument that can apply in defense of those measures would seem to be of equal force in regard to the bestowment of governmental aid to steamship lines. Such lines would increase the volume of commerce and direct it to our own ports, making our home industry remunerative, and so developing the resources of the Government.

We trust that Congress will give the most careful attention to this matter. If the patronage of our Government can be employed judiciously to bring Europe, the ports on the Mediterranean and the countries lying on the Indian and Pacific occans, into frequent communication with the United States, it should be done. It is for the interest of this country. Upon the direct question of guaranteeing the bonds of the Commercial Navigation Company, or private obligation of any kind, however, we are hardly clear. In times past, whenever public and private matters have been mixed up, the public interest has often been the loser. Nevertheless, there is in this case security offered, and the prospect of an ulterior advantage to counterbalance the risk of any such loss. When private enterprise promises and almost guarantees to initiate an era of commercial prosperity for the country, it is, we will admit, the time, if ever, for the Government to lend its aid.

PUBLIC DEBT OF THE UNITED STATES.

Abstract statement, as appears from the books and Treasurer's returns in the Treasury Department, on the 1st of November, 1st of December 1866, and the 1st of January, 1867, comparatively:

COMMERCE OF NEW YORK FOR 1866.

We are able now to publish a full review of the commerce of New York for the past year, having received from the Custom House the returns for the last quarter, and revised our own figures of receipts, exports, &c.

RECEIPTS, IMPORTS AND EXPORTS OF LEADING ARTICLES.

The movement of domestic produce the past year shows considerable changes over the figures for the previous twelve months, as our readers have probably noticed in our weekly tables. In the matter of breadstuffs we have frequently celled attention to the diminished receipts. This is, of course, due in great part to the falling off in the shipments East at the West, but in part also to the fact that the direct shipments to Boston and elsewhere have increased during 1866. Below we give our tables of receipts and exports for the year:

RECEIPTS OF DOMESTIC PRODUCE FOR 1865 AND 1866.

We now bring forward our figures showing the total foreign commerce at this part for a series of years.

EXPORTS.

The exports for the year show an increase over 1865, but still do not equal the figures for 1864. It should be remembered, however, that for the past two years, and especially the last twelve months, the foreign shipments direct from Southern ports have been large, so that New York exports do not now represent nearly as large a proportion of the exports of the country as during the years of the war. The shipments of cotton alone from the South direct to foreign ports for 1866 amounted to over one million bales. If to this we were to add tobacco, naval stores, &c., we would discover one reason why we have been able to import so largely the past year without working serious disturbance to monetary affairs by reason of our foreign balances. The following statement exhibits the quarterly exports for the past six years. As the shipments of merchandise are reckoned at their market price in currency, we have given in the same connection the range of gold.

EXPORTS FROM NEW YORK TO FOREIGN PORTS EXCLUSIVE OF SPECIE.

The exports of specie through the year will be seen from the foregoing to have been large, owing to the monetary disturbance in Europe and the consequent return of United States bonds.

TOTAL IMPORTS.

The imports for the year at this port have been very large, as our readers already have seen from our weekly tables; in fact the total is without precedent, reaching the enormous sum of three hundred and six millions of dollars. It should be remembered also that this is the foreign gold value, without freight or duty being added. There is reason, however, why the imports for the year should reach so unusual a figure; and it is to be found in the fact that this port has been called upon to supply not only the usual portions of the country which draw their imports from this point, but to a very great extent the whole Souta. For while there has been a large direct export of cotton and other Southern staples from the South, as we have shown above, the imports have to a very considerable extent passed through New York. In the following we classify the total imports, giving separately the dry goods, general merchandise and specie:

FOREIGN IMPORTS AT NEW YORK.

0	FOREI	GN IMPORTS	AT NEW 101	1865	1866
Dry goods Gen'l mer'dise Specie	1 300 277	1863 \$67,274,547 118,814,219 1,525,811	DOM:	\$92,061,140 130,5 7,998 2,123,281	\$126,222,855

Total imports \$174,652,317 \$:\$7,614,577 \$218,125,760 \$224,742,419 \$306,613,184 We now give for comparison the previous years since 1851, classifying them into antiable, free, and specie. Under the head of dutiable is included both the value entered for consumption and that entered for warehousing. The free goods run very light, as nearly all the imports now are dutiable.

DRY GOODS IMPORTS FOR 1866.

In the foregoing we have classified the imports, showing that the total dry goods amounted to \$126 222,855. We now give a detailed statement of the dry goods imports, showing the description of goods and the relative totals for the previous five years:

IMPORTS OF DRY GOODS AT NEW YORK

Description	1862.	1863.	1864.	1865.	1866.
11 001	\$25,718,599 8,501,519	1,910,901	. 0,400,020,

Latest Monetary and Commercial English News.

Eaglish Market Reports-Per Cable.

Consols at London have advanced during the week about &, indicating an easy money market. On the contrary United States Securities have retrogaded. The closing quotations for the specified Securities and Shares on each day of the week are shown in the following state.

mene.	Fri 4	Sat. 5.	Mon. 7.	Tues. 8.	Wed. 9.	Thur. 10
Consols for money	90%	90%	90%	91	91	91
U. S. 6's (1862)		73	73	7234	7216	721/
Illinois Central shares		. 811/2	82	8134	81	80⅓
Erie Railway shares	4674	45%	46	45%	45	4416

The Liverpool cotton market in the first days of the week was firm and unchanged, with moderate sales at 151d. per pound. On Monday and Tuesday it became quiet, at a decline of 1d., and on Wednesday a further decline of \{\frac{1}{8}d.\}, and on Thursday evening closed dull at 14\{\frac{1}{8}d.\} This has been caused by an unusual dulness pervading the manufacturing interests and the limited orders on hand. The Manchester market for goods and yarns, though inactive, is without quotable change.

The Liverpool Breadstuffs Market has exhibited an advancing ten dency, and both wheat and corn are higher. The latest report (Tues. day's) quotes Western Mixed Corn at 42@421s. per 480 pounds.

Lard has advanced 1s. per cwt.

COMMERCIAL AND MISCELLANEOUS NEWS,

IMPORTS AND EXPORTS FOR THE WEEK .- The imports this week show an increase, both in dry goods and in general merchandise, the total be ing \$4,140,074, against \$2,426,214 last week, and \$6,224,708 the previous week. The exports are \$3,716,624 this week, against \$2,426,214 last week, and \$3,234,610 the previous week. The exports of cotton the past week were 12,219 bales, against 5,867 bales last week. This large increase is due to the fact that the manifests of several vessels which sailed last week, could not be obtained from the Custom House until this week. The following are the imports at New York for week ending (for dry goods) Jan. 4, and for the week ending (for general merchan lise) Jan. 5:

FOREIGN IMPORTS AT NEW YORK FOR THE WEEK.

Dry goods General merchandise	1864. \$2,501,526 2,930,028	1865. \$497,073 1,878,367	1866. \$2,507,7'4 3,220,444	1867. \$1,690,285 2,449,789

The Commissioners of the Sinking Fund hold on account of the above debt the sum of.....

Net amount City and County Funded, December 31, 1866 \$30,901,878 39 Of the foregoing debt it will be perceived that \$10,782,800 is for Croton Waterworks. \$9,925,571 for Central Park, and \$14,445,600 for expenses growing out of, and connected with the war.

TEMPORARY CITY DEBT.

Revenue Bonds of 1866—Issued in anticipation of conection of	\$683,800	00
taxes of 1866	\$000,000	00
Street improvement Fund Bonds-Issued to pay contractors for		
improving the streets in anticipation of the collection of as-	4 040 000	00
sessments therefor	1,642,600	UU
Assessment Fund Bonds-Issued to pay for opening, widening,		
&c., of streets, in anticipation of the collection of assessments		
thorofor	400,000	00
Total Temporary Debt of the City	\$2,726,400	00
	•	*
TEMPORARY COUNTY DEBT.		
Revenue Bonds of 1866-Issued in anticipation of collection of		
taxes of 1866	307,200	00
RECAPITULATION-TEMPORARY DEBT.		
City	\$2,726,400	00
County	307,200	00
Total Temporary Debt, City and County	\$3,033,600	00
Total Temporary Best, Oily and County	W-1	

For the payment of this Temporary Debt the city holds assets in the

shape of assessment liens, unpaid taxes, &c., &c. The net amount of funded debt is \$855,996 less than it was at the close of 1865 and the City and County Temporary Debt is \$1,659,700

less than it was at that date. The whole debt is well secured, for it is a lien upon the whole property of the city, both public and private. The Sinking Fund (provided for the payment of the principal and interest of a large portion of it) is in a sound condition. The revenues or the payment of the interest on that portion of it payable from this Fund are greatly in excess of what is required for that purpose, and the accumulations for payment of the principal will be ample to pay it long before its maturity.

WOOL TRADE FOR 1866.-Mr. James Lynch, broker, has compiled the following statement of the stocks, imports, exports, &c., of wool for 1866.

FRIDAY, Jan. 11, 1867, P. M.

THE MONEY MARKET.—The week opened with a steady 7 per cent. market. Up to Wednesday the tendency appeared to favor greater ease, and on the morning of that day call loans were made on Government collaterals at 6 per cent. This tendency was opposed to the interest of parties largely "short" on stocks and gold, and combinations were consequently formed for producing a sharp stringency in the money market. This object was accomplished by borrowing largely from private bankers and up-town merchants upon terms calculated to induce them to call in loans. In some cases the greenbacks thus obtained were sealed-up and used as collateral for fresh loans, and the process again duplicated and reduplicated. In other instances the loans were made for a definite period, and the money borrowed left as security, the end being served so long as the greenbacks could not be made available to other parties. In this way an amount, variously estimated at six to ten millions, was literally tied up. The result, of course, has been to produce an extreme stringency, and to compel a considerable amount of realizing upon gold, stocks and Governments, with a consequent decline in prices. Wednesday afternoon and yesterday call loans ranged at 7 per cent. in currency to 7 per cent. in gold. This afternoon, however, there has been a partial relaxation of the stringency, and the severity of the spasm appears to have passed. Some who had loaned to the parties in these operations, without knowing the purpose of the movement, we understand, have determined upon calling in their loans, and the stratagem may be considered as having now lost its power. It is proper to record that these operations are universally deemed highly discreditable, and the parties known to be engaged in them are for the hour under the ban of public reprobation.

Discounting has been almost entirely discontinued on the part of the banks, under the flurry of the moment, and transactions in paper are confined to limited purchases by private bankers at 7@8 per cent. for prime names.

• The following are the quotations for loans of various classes:

C-111	Per cent.		Per cent.
Call loans. Loans on bonds & mort	7 @ 6 @ 7	Good endorsed bills, 3 & 4 months	7 @ 8
Prime endorsed bills, 2	7 @ -	do single names	8 @ 9

United States Securities.—Governments have been unsettled during the week, owing to the fluctuations in gold, the changes in the prices of bonds at London, and the fitful condition of the money market. The extreme stringency in money, alluded to in our remarks on the money market, forced out a considerable amount of bonds on Wednesday and Thursday, producing a sharp decline in prices, but the demand from the interior upon any decline in quotation has helped to sustain the market. The chief fluctuations have occurred in Seven-thirties. Parties supposed to be working in the interest of conversion operations have sold the first series of Seven-thirties largely, producing at one time a decline to $103\frac{1}{2}$ (2); this afternoon, however, the market was firmer, and each series closed at 104, which is 1 per cent, below our last quotations. New Sixty-

fives have been made scarce, and advanced to 1048, but closed at 104.

The following are the closing prices of leading securities, compared with preceding weeks:

	Dec. 7.	Dec. 14.	Dec. 21.	Dec. 28.	Jan. 4.	Jan. 11.

THE STOCK MARKET.—The stock market opened quiet, but generally firm. Subsequently the severe closeness in the money market produced for the purpose of depressing stocks, had the effect of compelling a large amount of realizing, and prices yesterday fell off 2@4 per cent. This morning the market opened weak, prices being generally about 1@1 per cent. below those of yesterday afternoon; as the call progressed, stocks gathered strength, and the first board closed with a general improvement upon the opening figures. This afternoon the relaxation of the severe tightness in money produced a more buoyant feeling, and a still further improvement in prices was realized.

The total transactions in stocks at both boards, for the week, amount to 596,861 shares, against 307,370 shares for last week. The chief activity has been in Erie, the sales of which have been 138,225 shares. Included in the transactions are Northwestern common 80,350 shares; Reading 61,530; Michigan Southern 39,250; Cleveland and Pittsburg 62,120; New York Central 37,370, and Western Union Telegraph 18,906.

The following are the closing quotations at the regular board today, compared with those of the six preceding weeks:

	Nov. 30.	Dec. 7.	Dec. 14.	Dec. 21.	Dec. 28.	Jan. 4.	Jan. H.

The totals, weekly, since the commencement of the year are shown in the following tabulation:

1	in the following	tabulation	•			Total
	Week ending Friday, Jan. (1 to 4)	Govern Bonds. \$977,000 1,873,200	Notes. \$146,100 855,450	State & City Bonds. \$454,800 623,500	Company Bonds. \$207,500 165,000	amount. \$1,785,400 3,517,150

THE GOLD MARKET.—Gold has been excited under unusually active speculative operations. There are very heavy commitments in favor of both higher and lower prices, and the contest between the opposite parties has been more than ordinarily active. The price has fluctuated between 1321 and 1351, and closes at 134.

The derangements in the money market, although produced for the purpose of depressing gold, have had comparatively little effect in that direction. Opinion, at present, appeares to be about equally divided between the upward and downward tendencies of the premium. At present the price appears to depend upon the speculative manipulation of the market rather than upon any external causes.

The following have been the highest and lowest quotations on each of the last six days:

	, ,	lighest.	Lowest.		. Lowest.
Jan.	5		1331/	Jan. 9 1343	133 %
Jan.	7	. 135%	133%	Jan.10 183	132% 132%
Jan.	8	. 134 🔏	133%	Jau.11 134	2 100/3

The transactions for last week at the Custom House and the Sub-Treasury were as follows:

C	ustom House.	Sub-T	reasury
_	Receipts.	Payments.	Receipts.
Dec. 31		\$5,421,225 51	\$6.154,526 49

PHILADELPHIA BANKS.—The following shows the totals of the average of the leading items of the Philadelphia Banks for last and previous weeks:

	Dec. 29.	Jan 5.		
Capital	\$15,442,160	\$15,442,160		
	PH MED MAE	52,312,327	Increase	\$552,562
Loans	OMU CAM	903,663	Increase	27,016
Specie		20,209,964	Increase	432,913
Legal Tenders	4 250 050	,,	Increase	341,481
Due from Banks	W 41 40 EMO		Decrease.	827,572
Due to Banks	DO MOU DEO		Increase	1,602,275
Deposits		10.388,820	Increase	63,666
Circulation	10,325,154	10,000,020	Increase	00,000

The most remarkable feature of the bank statement of averages for the past week is the very large increase of \$1,602,275 of de posits. The loans increased \$552,562, the legal tenders \$432,913, and the specie \$27,016. Every item of the statement shows an increase. The clearings of the week amount to \$33,374,852, against \$26,951,011 the previous week. The balances amount to \$3,484,.315, against \$3,038,881 the previous week.

The following comparison shows the condition of the Philadelphia Banks at stated periods:

Date.	Legal Tender	Loans.	Specie.	Circulation.	Deposits.
Dec. 1	A34 AFW 010	\$54,549,367	\$876,751	\$9,615,989	\$42,102,289
Dec. 8	00 400 905	51,250,852	851,915	10,021,527	41,452,539
	OO THE MOA	51,256,937	854,989	10,161,601	40,728,902

NATIONAL BANKS.—There was issued from the Treasury Department during the week ending January 5 \$18,400 in National Bank currency, making the total amount issued up to date \$300,755 35. From this is to be deducted the currency returned, including worn out notes, amounting to \$2,145,932, leaving in actual circulation at that date \$298,609,419.

The amount of securities held by the Treasury of the United States in trust for National Banks reported January 6 is as follows: As security for circulating notes, \$340,363,150; for deposits, \$38,963,050; total, \$379,267,200.

The following is a statement of the progress of circulation for several weeks past:

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, Jan. 11.

Business has been clogged by a speculative advance in prices, for which there was no adequate basis—encountering a very stringent money market, and a check to the demand, that less ambitious views on the part of holders would have avoided.

Cotton and Breadstuffs have been declining since Monday. Groceries have been fairly active, but quite irregular from conflicting influences. Tobacco steady, but without activity.

Pork and hog products generally have been dull and heavy, but without important decline in prices. The packing season is proceeding briskly, and buyers, before committing themselves to the future, are disposed to await a nearer approach to the end of the season. But packers are very confident, and do not press sales; relying upon the later developments of the season to support prices. The packing and shipments of hogs and their products at the West are thus far about 20 per cent. in excess of last season. Beef in bbls. or tcs. has been taken moderately for export to Great Britain, and prices have been supported. Butter is quiet. Cheese is firm with a good demand for export to Great Britain.

Naval stores have been rather firmer, but with only a very moderate degree of activity, as prices were generally above the views of buyers. Oils have been dull, with a considerable decline in linseed oil.

In hides we notice rather more movement in foreign dry

hides at full gold prices. Leather is steady.

Petroleum has been dull and heavy since early in the week, when a fair business was done for the Continent. An advance in tallow early in the week has since been lost.

In metals, last Monday and Tuesday, we noticed a good business in ingot copper and pig tin, with some improvement, but the close is quiet.

Hops have been taken to the extent of some 1,300 bales for export, and rule very firm. Fish and fruit are very quiet. Whiskey continues unsettled.

Wool meets with rather more demand, but is without im-

provement in price.

Freights, the past week, have been noted by very large shipments of cotton to British markets, with some to the Continent. There has been rather more going in grain and provisions, but in these the close is quiet, owing to scarcity of room for cotton in the steamers.

Receipts of Domestic Produce for the Week, and since January 1.

The receipts of domestic produce for the week ending Jan. 11, since Jan. 1, and for the same time in 1866, have been as follows:

The following table shows the exports of leading articles of commerce from the port of New York since January 1, 1867, the principal ports of destination, and the total for the same period in 1866. The export of each article to the several ports from the past week can be obtained by deducting the amount in the last number of the Chronicle from that here given:

COTTON.

FRIDAY, P. M., Jan. 11, 1867.

The receipts of cotton at all the ports show a further decrease this week, amounting to only 61,280 bales (against 77,554 last week, and 86,898 bales the previous week), making the total receipts since September 1, last year, 819,347 bales, against 904,217 bales for the same period in 1865. The exports from all the ports this week amount to 44,425 bales (against 32,927 bales last week), of which 33,244 bales were to Liverpool, 1,122 bales to Glasgow, 6,407 to Havre, 1,602 bales to Bremen, 1,050 bales to Hamburg, 23 bales to Antwerp, and 977 bales to Malaga:

The market this week opened very firm on the cable reports from Liverpool and the advance in gold, but since Tuesday it has been extremely dull, with a declining tendency, and prices must be written 1@12c. lower to-day than the currency price of last Friday. The money pressure has been quite severe the last half of the week, while the ad vanced premium on gold has not been supported; also freight room by the steamers has been restricted, so that shipments could not be made except by sail. All these influences have served to check the demand; but there is very little cotton pressed for sale; holders are generally very firm. The receipts at the ports last week show a large falling off, and as the exports have increased, stocks have not accumulated. The sales of the week amount to only about 10,000 bales, the market closing dull at the following quotations: N. Orleans

* 3		Florida.	Mobile.	& Texan
Ordinary #	10 30 31	31	51	32
Low Middling	941/	33 35	34 35	34 35⅓

The exports of Cotton from New York this week show a considerable increase, amounting in all to 12,219 bales. This increase, however, is due to the fact that the manifests of several vessels which sailed last week, could (on account of a holiday intervening) be obtained from the Custom-house until this week. The particulars of these shipments are as follows:

To Liverpool per steamers Helvetia, 1,668; City of Washington, 950;
To Liverpool per steamers Heletta, 1,007; per ships Albert Gallatin, 1,494; Louisiana, 1,979; Palmyra, 1,077; per ships Albert Gallatin, 1,494; 9,528
Tonigiana 1979: Palmyra, 1,077; per snips Attorit Gallatti, 1,100
Cynosure, 1,379; Palmyra, 1,077; per sings thought of the Street
To Clasgow per steamer Columbia, 1,122. Total bales.
To Glasgow per steamer Columbia, 1,122. Total bales. 486 To Bremen per ship Goschen, 486. Total bales. 486 To Hamburg per steamer Allemannia, 1,050. Total bales. 1,050
The Hamburg per steamer Allemannia, 1,050. Total bales

* By steam.

The business through the week has been liberal, and prices have ad vanced about 24 per cent. under the more favorable advices from Liverpool and New York, the market closing strong at (New Orleans classification) 334 for middling, 314@324 for low middling, and 271@284 for ordinary. Sterling exchange is quoted nominally 1394@141 for bill of lading bills, 142@1421 for commercial, and 1431@144 for bank.

TOBACCO.

FRIDAY, P. M., Jan. 11, 1867.

There is an increase this week in the exports of tobacco from all the ports, both in crude and manufactured tobacco. Of crude the total shipments are 2,886 hhds., 238 cases, 1 tierce, 149 bales, and 3 linds. of stems; and the manufactured amounts to 137,366 lbs., and 106 boxes. The movement at all the ports for the week may be seen in the following:

The market this week has been without material change. Kentucky Leaf, of the new crop, is readily taken up on arrival, and brings full prices, but old tobacco is entirely neglecte The demand is mainly for export, and the sales for the week amount to about 300 hhds, the business being limited by the small arrivals. Growers are looking for very high prices of the finer sorts.

Seed leaf has been without movement of importance. We have only to notice sales of 100 cases Pennsylvania fillers at 4@5c.; and two running lots, including 78 cases Ohio, on private terms, and 50 cases State, at about 8c.

There has been nothing of moment done in Spanish Tobacco. Prices are drooping.

Manufactured Tobacco remains dull. We regret to learn of the suspension of one of the oldest and most important manufacturers of this city.

NEW OBLEANS. - A trade circular reports: The business in tobacco during December, with the small and poorly assorted stock left upon our market at the commencement of the month, and with but light receipts since that time, has not been a heavy one, but transactions of any magnitude could hardly be expected, even had the declining tendency in the gold premium and increasing tightness in the money market not acted as a further drawback upon the movement of our bayers, some of whom, early in the month, appeared to be willing operators, but could only with difficulty find lots any ways suitable for their orders. Many small sales, however, were concluded, mostly previous to the holidays, and their aggregate sums up near 750 hhds., the greater pertion of which was taken for the Bremen market. Leaf of substance and quality was most in demand, and of this the sales embrace about 250 hhds. from the Clarksville region, a portion very fine, heretofore held at extreme rates, but for which from 15@181c. was accepted, then some 150 hhds. Green River tobaccos, old and nondescript, at an average of 64c., a few lots of low lugs from 3@4c taken on account of their cheapness, and about 50 hhds. new crop, which latter generally brought prices considerably above what the same style of old crop would command. These sales pretty well cleared the market of any ways serviceable parcels, and left in the hands of factors by actual count on 26th ulto., 1,517 hhds. Light leaf, 193 hhds., heavy do, 452 hhds. light and frosted lugs and 138 hhds. heavy do., which, with 250 hhds. trashy lugs in the hands of a speculator, makes a total stock upon the market of 2,550 hhds; not one-tenth of this, however, is fit for any other purpose than the lowest of smoking tobacco, and to supply henceforward our regular export buyers we have to look to the new crop, which, especially of good bodied leaf, suitable for the German markets, we beieve could be placed without any unreasonable delay and at prices that will compare favorably with any sales recently made.

The quality of the New Crop, at least what has so far been opened here, generally confirms the good opinion already entertained of this year's production, and although in some irstances there is a deficiency of gum in the Leaf, yet most samples develope all the essential qualities of a perfect crop. Harsh and unfavorable weather up the country has generally prevented the handling of the weed, and therefore only from those sections where they are best prepared for the culture of tobacco have early shipments come to hand. From the Upper Cumberland, the Green River country and the Kentucky purchase, ship-ments have yet to commence, and even should there be a deficiency in rich beavy leaf from the Clarksville section (for which we do not look) other regions, especially the seven counties west of Tennessee River, will make up for it, for they were favored by the most timely seasons. and have, from reliable information, now the largest and finest crop on hand ever heretofore produced in that part of Kentucky.

We quote prices for old crop in currency (Gold at 133 per cent.) as

follows:	Light	Heavy

VIBGINIA - Clark's Petersburg Price Current, reviewing the tobacco trade of that market for 1866, reports that the trade is satisfactory, and the tobacco manufacturers there were employed throughout the year. Touching the crop of last year, now to come forward, the opinion is expressed that it has been overrated, both in quantity and quality. There is undoubtedly a good proportion of the crop of fine quality, but there will be a good deal wanting in body, owing to the heavy rains at the time of cutting. The rains filled the plants with fresh sap, and a good deal was cut in that State; consequently, on curing, it showed a want of oil and body, though it looked well when cut. The total inspections at Petersburg for 1866 were 7,083 hogsheads. Stock on hand Dec. 31, 1866: Inspected, 677 hogsheads; uninspected, 251. Total, 928. hogsheads. The production of manufactured tobacco for the last quarter of 1866 was 3,804,084 pounds chewing 94,816 pounds smoking, and 98,777 pounds snuff.

MARYLAND.—The Baltimore market is quiet, and prices nominally unchanged.

BREADSTUFFS.

The upward movement in prices in progress at the date of our last report culminated on Monday, and the market has since been dull and depressed.

Flour has come forward by rail in excess of anticipations of holders, although still considerably below the average of previous seasons. This fact, together with the pause in the upward movement, has induced some of the late speculative buyers to realize, and they have thrown a few thousands barrels upon the market. But the necessities of the trade are such, that after holding on two or three days, they are

obliged to come forward, and the market closes steady at a decline of 25 cents per barrel from the highest currency of the week.

Wheat has been much less active this week, and prices of Spring have receded two or three cents per bushel. The increased receipts and stocks at Chicago and Milwaukee caused some holders to desire to realize. The pressure of the money market has also had a depressing influence. But at the concession there was some speculative and export inquiry, and the close is quite firm.

Corn has been very feverish and unsettled. The favorable reports by Cable from Liverpool have not sufficed to support prices, and have not induced any considerable business. The receipts of new Corn have increased, and are nearly equal to the current wants of the market. Oats advanced four cents per bushel, and nearly the whole has since been lost. Barley advanced five cents, and subsequently declined as much. Rye has been firmer but quiet. About 20,000 bushels have been shipped to Antwerp.

The following are the closing quotations:

California.—The receipts of Wheat at San Francisco for the six months ending Dec. 31st were 3,000,000 sacks against 1,250,000 for the corresponding time in 1865. It is believed that there are 2,000,000 sacks yet to come forward. With such a surplus on hand holders are not anxious to retain their stocks. During december 208,000 sacks were expected. Good shipping Wheat there is quoted \$1 75 in gold per 100 lb. Extra Flour \$6 50 per bbl. The shipment of Wheat for the last half year was larger than for any year heretofore. The value of Flour and Wheat exported was over \$6,000,000.

LIVERPOOL, Dec. 28th.—The arrivals from the United States and Canada since Friday last comprise 12,202 quarters wheat (chiefly Californian), 2,564 barrels flour, 8,683 quarters corn, 8,219 quarters oats, 500 loads oatmeal, and 2,210 quarters barley. The weather has continued mild and open, which, with the Christmas holidays, has caused the demand to be limited to immediate wants, and the business done has consequently been insignificant; however, prices of all articles have been maintained. The Paris markets continue to advance, and the French are still buying freely in the Baltic markets, so that all prospect of supplies from France during the winter are at an end, unless our prices advance materially.

At this day's market there was a good attendance of the town and country trade, and more disposition to buy was evinced than for some time past. Wheat and flour met with a good consumptive demand at the full prices of this day week, and, in some cases, rather more money. Feeding Barley and Oats were in moderate demand, and without change in price. Peas were difficult to move at 43s, per 504 lbs, for prime Canadian. Indian Corn was in fair Jemand at 38s, per 480 lbs, for mixed and White American. We quote choice Amber Iowa Wheat and fine Canadian club 12s, 2d, to 13s, 9d, No. 1 Milwaukie 13s, per 100 lbs. Extra State and Western and super Canadian Flour 35s, to 36s, per 196 lbs., choice Southern and extra Canadian 37s, to 38s, per b 1rel. Canadian Barley 4s, to 4s, 9d, per 60 lbs, ds in quality, and Oats 3s, 2d, to 3s, 4d, per 45 lbs. Farmers' deliveres of Wheat for this week 76,127 quarters at 61s, 7d. Ditto corresponding week last year, 76,126 quarters at 46s, 8d.

GROCERIES.

FRIDAY, P. M., Jan. 11.

There has been a largely increased business in all branches of the grocery trade since our last report. Prices have, however, remained essentially the same notwithstanding the fluctuations in gold; nor does the stringency in money seem to have affected the market in any way.

Jobbing houses report a very lively trade and a good degree of confidence.

TEA.

The greater activity which set in in the tea trade at the close of last week has continued with both first and second hands up to this time, and the market closes in a very satisfactory condition to all parties. The sales of the week from first hands are reported at 5,485 half chests greens, 8,100 do. Oolongs, 2,235 do. Japans, 3,200 do. Souchongs, and 216 boxes greens.

There have been no imports during the week.

The following table shows the shipments of tea from China and Japan to the United States, from June 1 to Oct. 23, 1866, and importations at New York and Boston since Nov. 1:

		COFF		- 8	* *	

COFFEE has also been correspondingly active with importers, and the Jobbing trade are doing a very liberal business. The large arrivals and favorable advices have tended to slightly lower gold prices. The sales of the week are reported at 21,500 bags Rio, and 1, 300 bags Jamaica, the market closing steady.

The imports of coffee during the week have been—of Rio, 3,800 bags per Germania: 5,000 per G. Aruna, 5,000 per Eremerin, 5,000 per Mary Bond, 4,213 per Agilis, 4,005 per Valkyrien: total Rio, 27,018: 200 bags Laguayra, and 143 sundries.

SUGAR.

Sugar has been in moderate demand at rather firmer figures, although currency quotations are \(\frac{1}{2} \) lower at the close in sympathy with the lower price of gold. The sales of raw sugar for the week are reported at 2,598 hhds. and 4,848 boxes Havana. Refined sugar is active and firmer. Imports of the week have been very small. Stocks and imports

here and at other ports since Jan. 1, are as follows:

NEW ORLEANS, Jan. 5th.—There has been a good demand for sugar, especially of the better grades of Open Kettle. Receipts have been hardly equal to the want, and prices have ruled in favor of the seller. Sales of the week have been about 1,500 hhds: closing at 7@Sc. for inferior; 12@12\frac{3}{2} for choice Molasses has been in good demand, with sales during the week of 2,700 bbls, closing at 54@72 for common to choice.

THE DRY GOODS TRADE.

FRIDAY, P. M., Jan. 11, 1867.

The Dry Goods Trade has continued fairly active during the past week. There have been some spring styles of goods opened, and buyers have come forward with more confidence. The near approach to the season for the usual spring activity necessitates considerable preparation in all branches of trade, and the indications are that there will be a general revival of business during the latter weeks of this month, unless the usual course of events is disturbed by Congressional action.

Whittenden det 31@391. Marlboro 22, Arlington 20, Blue Hill 24, Fort Moultrie 30, Mount Vernon 321,

Brown Drills are fairly active for export and hence trade at steady prices. Winthrop 18, Amoskeag 23, Laconia 24, Androscoggin 14, Minerva 18, Pepperell 23, do fine jean 22, Stark A 221, Bennington 221, Massachusetts G 20, Woodward duck bags 321, National bags 40, Stark A do 621, Liberty do 371.

PRINT CLOTHS are unsettled by the declining tendency of the raw material, and prices are nominal.

PRINTS are in fair request in jobbers hands. Agents have opened a variety of handsome Spring styles, which are now offered to the trade, and meet with a fair demand. There is also an improved demand for dark goods. Prices are unchanged. American 171, Amoskeag dark 162, do purple 18, do pink 181, do shirting 161, Merrimac D dark 18, do purple 18, do W dark 20, do purple 20, do pink 20, Sprague's dark 18, do purple 19, do shirting 19, do pink 19, do solid 18, do indigo blue 18, London Mourning 161, Simpson Mourning 161, Amoskeag Mourning 151. Garners light 181, Dunnell's 171, Allen 17, kichmond 171, Arnolds 15, Gloucester 161, Wamsutta dark 14, Pacific dark 18, Lowell 15, Naumkeag 13, Victory 14, Glen Cove 121, Home 121, Empire State 111, Lancaster 111, Wauregan 161.

Domestic Gingh ms remain inactive and somewhat nominal. Lancaster 231, Hartford 18, Caledonia (new) 21, Glasgow 22, Clyde 17, Berkshire 23, German 20, Roanoke 17 Bates 23. Manchester 2C.

CANTON FLANNELS are in light steady request for finer makes. Other kinds are dull. Ellerton N, Bro. 37½, do O do 35, do T do 21, Laconia do 29, Slaterville do 24, Hamilton do 30, Rockland do 17, Naumkeag do 26, Tremont do 21, Scotts extra do 19, Eilerton N Blea. 37½, do O do 35, do P do 33½, Methuen A do 32, Naumkeag do 27, Nashua

CORSET JEANS are in rather request at unchanged prices. Androsgin 154, Bates colored 15, do bleached 141, Naumkeag 21, Pepper ell 23, Naumkeag, satteen 25, Laconia 22, Amoskeag 21@22, Newmarket 161, Lewiston 15, Indian Orchard 16, Berkeley 221, Quinnebaug 13½, Tremont 12½.

CAMBRIOS AND SILESIAS are in improved demand, but prices are unchanged. Lonsdale Silesias sell at 23 cents, Victory 211, Indian Orchard 21½, Ward 21½. Washington glazed Cambrics sell at 14, Victory 13, do E 15½, do high colors 14½, Hudson Mill 12½, Fox Hill 11, Superior 11, Superior, 11½, Smithfield 13. Waverly 13½. S. S. & Sons paper cambrics sell at 14 cents, do high co'ors 20, English 20, White Rock 18, Masonville 19, Warren 18.

WOOLEN GOODS are still quiet, with little or no improvement. There are but slight indications of improvement for the spring trade, and manufacturers hold back their spring styles.

AMERICAN PRINTED DE LAINES are in good demand at unchanged prices. All dark 25, Hamilton Co 25, Manchester dark 25, Pacific dark 25, Armures dark 25, High colors 28, Pacific Merinos 40, Mourning 25, Shepherd checks 25 all wool 42½, Skirtings 35.

LINSEYS are hardly as active, but stocks are small and prices steady. Washington 35, Park 45 inch 38, do 35 inch 271, do 60 inch 371, do 70 inch 52½, do 75 inch 57½, Kensington 26, Union cotton and wool 25, Park-Mills No. 65 421, Todd's 321, Black Rock 30.

Conuage are quiet, but prices are unchanged.

CLOTHS are dull except for a few desirable makes, and quotations are nominal.

CASSIMERES AND SATINETS show but little change in the demand. CARPETS are steady in prices with rather less demand. Velvets, J.

Crossley's best \$4, do A 1 qual \$3 75, do patent \$3 25. Body Brussels, Roxbury \$2 75, do Bigelow \$2 75. Tapestry, Brussels, S. Crossley \$1 90, Lowell, ex & p \$2 15, do super \$1 75, do med sup \$1 60. Hartford Carpet Co. ex 3-ply \$2 25, do Imp 3 ply \$2 121, do superfine \$1 75, do med sup \$1 60. Med and low pri Ingrains \$1 25@1 45, Hemp pl, 33 inch 31/@371, do 36 inch 41/@50 do twil 36 inch 55/@60.

AMERICAN LINEN is steady and moderately active at previous prices. Foreign Goods show little more animation, especially for the leading kinds of goods. Dress goods are still quiet, although importers are preparing to offer a variety of new styles as soon as the Spring basiness opens.

Increase	321.67	1,534.86	\$113,908,817	

From this showing it appears that we are building railroads at the rate of more than four miles a day; but at what cost cannot be ascertained, as a large portion of the increased, cost as above, has been made by expenditures in improving and equiping existing lines, and this nearly to the amount given as the increased cost per mile, viz, \$1,725. The great activity in railroad building last year, however, will be largely increased during the current year, and at least a hundred miles of road has been opened since the close of the year 1866. In 1827 we had but 3 miles of road in the country; in 1837 there were only 1,421; in 1847 the length had increased to 5,336, and in 1857 to 22,625. During the last ten years we have built 14 271 miles.

Consolidation in Arkansas.—The Memphis and Little Rock and the Little Rock and Fort Smith Railroad Companies have been consolidated under the name of the Central Pacific Railroad Company.

LEHIGH COAL AND NAVIGATION COMPANY'S RAILROAD.—The new railroad constructed by this company between Penn Haven and

Whitehaven was opened on the 31st ult.; also the road from South Wilkesbarre to the new depot at Market street. The whole road between Wilkesbarre and the head of navigation of the Lehigh, above Mauch Chynk, a distance of over 50 miles, is now completed.

Casualties by Railroad and Steamboats.—The number of casualties, whether by way or water, if we are to believe recorded statistics, were not excessive in 1866. Compared with the two previous years they show a very gratifying diminution, and satisfy us that the safety of travel is increasing. The following statement for 10 years gives full information on these points:

RIVER DAMS AND RAILROADS.—Improvements on the Connecticut River appear to be carried on with the right sort of energy, and the railroad companies are following their track. The Connecticut River Railroad Company contemplate the construction of a branch railroad 3½ miles long from Greenfield to Truner's Falls, Mass., where the new dam across the Connecticut for factory purposes is expected to produce another Holyoke. Another enterprise is also on the tapis, and another dam is to be thrown across the same river at Montague, Mass., which will permit a fall of 80 feet. For the accommodation of the factories at this point, the New London Northern Railroad will be extended thereto.

INSURANCE COMPANY.

OFFICE No. 35 WALL STREET, NEW YORK.

Assets, Jan, 1st, 1866......\$1,366,699

ORGANIZED APRIL, 1844.

The Company has paid to its Customers, up to the present time, Losses amounting to over

EIGHTEEN MILLIONS OF DOLLARS.

For the past nine years the cash dividends paid to Stockholders, made from ONE-THIRD of the net profits, have amounted in the aggregate to

One Hundred and Twenty-one and a half per cent.

Instead of issuing a scrip dividend to dealers, based on the principle that all c asses of risks are equally profitable, this Company will hereafter make such cash abatement or discount from the current rates, when premiums are paid, as the general experience o underwriters will warrant, and the nett profits remaining at the close of the year, will be divided to the stockholders.

This Company continues to make Insurance on Marine and Inland Navigation and Transportation Risks, on the most favorable terms, including Risks on Merchandise of all kinds, Hulls, and Freight.

Policies issued making loss payable in Gold or Currency, at the Office in New York, or in Sterling, at the Office of Rathbone, Bros. & Co., in Livergool
