SEVEN PER CENT. FIRST MORTGAGE BONDS
OF THE
NORTH MISSOURI RAILROAD COMPANY.

We offer for sale the Seven Per Cent. First Mortgage Bonds of the North Missouri Railroad Company, having thirty years to run. Coupons payable in New York on January 1 and July 1, in each year.

Before accepting the agency for sale of these bonds, we made careful inquiry into the condition and prospects of the road, which was examined by Mr. Wm. Milnor Roberts and others, on our behalf and their highly satisfactory report enables us to recommend the bonds as first-class securities, and a safe and judicious investment.

The proceeds of these bonds (\$6,000,000 in all) will be used in extending a road, already completed 170 miles into North Missouri, to the Iowa State line, where it is to connect with the railroads of Iowa, and also westward to the junction with the Pacific Railroad (at Leavenworth) and other railroads leading up the Missouri River, so that the mortgage of \$5,000,000 will cover a complete and well-stocked road of 389 miles in length, costing at least \$10,000,000, with a net annual revenue after the first year of over \$1,500,000, or a sum nearly four times beyond the amount needed to pay the interest on these bonds, the income of the road of course increasing every year.

The Railroad connects the great City of St. Louis with its 200,000 inhabitants, not only with the rich east portions of Missouri, but with the States of Kansas and Iowa and the great Pacific Railroads.

The first 500,000 have been sold at 80 cents, and the remainder are now offered at 85 cents. At this rate they yield nearly 8½ per cent. income, and add 20 per cent. to principal at maturity.

Any further inquiries will be answered at our office.

BANKER AND STOCK BROKER.

THE CENTRAL Pacific Railroad Co.,

Having Completed, Equipped and put in operation nearly One Hundred Miles of their Road, from Sacramento California, to within 12 miles of the summit of the Sierra Nevada Mountains, continue to offer for sale, through us, their

FIRST MORTGAGE BONDS,

Issued in conformity with the Acts of Congress and the laws of the State of California, upon the division of their Road located in the State of California, and extending one hundred and fifty-six miles from Sacramento City to the California State line.

The Bonds have Thirty Years to run from July 1, 1865, and are secured by a

First Mortgage,

Constituting an absolute prior lien on the portion of Road above named, with all the Rights, Franchises, Equipments, &c., pertaining thereto.

The amount of these First Mortgage Bonds to be issued per mile is limited by law to the amount of United States Bonds allowed and issued to aid the construction of the Road, and the Mortgage by which they are secured is *DECLARED BY ACT OF CONGRESS TO CONSTITUTE A LIEN PRIOR AND SUPERIOR TO THAT OF THE UNITED STATES GOVERNMENT.*

Interest at the rate of Six Per Cent. per Annum, payable semi annually, on the first days of January and July. Principal and Interest payable in

UNITED STATES GOLD COIN,

In the City of New York. The price of the Bonds is fixed for the present at 95 per cent., and accrued interest from January 1st in Currency, the Company reserving the right to advance the price whenever it is their interest to do so.

The Road forms the Western part of the
MAIN TRUNK OF THE

Great National Pacific Railroad,

Authorized, adopted and aided by the
United States Governm't.

It runs through the heart of the richest and most populous section of the State of California, connecting the

EXTENSIVE MINING REGIONS OF NEVADA, UTAH AND IDAHO,

with Sacramento and the Pacific Coast, from whence their supplies must be drawn; and the earnings of the portion already running are very heavy, and largely in excess of the interest upon the Company's Bonds.

Having been for some time familiar with the operations of the Central Pacific Railroad Company, we are satisfied that they are conducted with rare ability and prudence, and that the energetic and economical management of the Company's affairs entitles them to the confidence of capitalists and of the public. We have carefully investigated the progress, resources, and prospects of the road, and have the fullest confidence in its success, and in the value and stability of the Company's securities. The attention of Trustees of Estates, Institutions, and individuals desiring a long, safe and remunerative investment, is especially invited to these First Mortgage Bonds.

Orders may be forwarded to us direct, or through the principal Banks and Bankers in all parts of the country.

Remittances may be made in drafts on New York, or in Legal Tender Notes, National Bank Notes or other funds current in this city, and the bonds will be forwarded to any address by express, free of charge. Inquiries for further particulars, by mail or otherwise, will receive punctual attention.

THE PROSPECTS OF MONETARY EASE.

In the prospective opening of Spring trade, the absorbing question now with all classes of business men is as to the probable course of the money market. The Fortieth Congress, as seems to be understood, will not make any financial innovations before its Fall session. The effect of the legislation of the last Congress has been pretty thoroughly canvassed. The discussion of the coming events of monetary significance can therefore be conducted with more certainty, as there is no longer a vague dread of the unknown influence which might be exerted on business by some sudden proposition in Congress tending to disturb the movements of capital, currency, or public confidence. Assuming, then, that the machinery of the money market will be left free from legislative interference, and that it will be disarranged by no such extraneous influences as have but too often caused paralysis or less formidable mischiefs to trade, we

will try to arrive at some estimate of the forces which are impelling it in the direction of greater ease and stability.

And, in the first place, the amount of idle capital seeking temporary investment is increasing. A proof of this is afforded by the surplus balances of the banks and banking firms in New York and other monetary centres of the country. It is true that a large aggregate of fixed capital has been destroyed by the heavy fall in the values of securities, produce, and various other description of personal property. But though, in this general shrinkage, fixed capital has disappeared since New Year's to an amount estimated by some at more than 100 millions of dollars, yet we must remember that it is not the fixed capital of the country that supplies the loan market. Its reservoir of loanable funds is filled not by fixed but by floating capital, which is subject to its own laws, and augments oftentimes when fixed capital suffers or is destroyed. Now, from the supplies of floating disengaged capital in the market, the demand of borrowers for accommodation have to be met, and when, as is the case now with us, those supplies are large and likely to grow larger, the money market, other things being equal, may be expected to improve.

But there are other prerequisites which are needful to secure an easy money market. We must not only have plenty of disengaged capital, but the owners of the capital must have confidence to lend it. In England, during the panicky money market of last year, there was an abundance of floating capital. But that capital was unavailable because confidence was stricken with the palsy. Everybody was afraid to lend. The same abundance of floating capital continues now. But confidence has revived, and while lenders may still be extremely careful to whom they lend and on what security, still they are willing and anxious to lend, and the ordinary rate of interest has consequently fallen to three per cent. High rates of interest, it has been said, mean a low degree of security, or we might rather say a low degree of confidence. Turning from Great Britain to our own money market, we should find it easy to show that it is to the want of public confidence that we must ascribe much of that depression which has laid low in all directions the energies of commerce and legitimate trade during the last few months. There has been so much of incertitude in the political situation; the bugbear of impeachment, or of contraction of the currency, or of changes in taxation, or of resumption of specie payments was held up continually before the excited imagination of the people, and the usual results were aggravated by the circumstance that everything was vague, and nothing was fixed or stable. Now, however, our people breathe more freely. We know exactly what taxes we shall have to pay for the present; we know that there are to be no wild ex-

periments with the currency, no attempts to resume specie payments by a summary Act of Congress; no wholesale destruction of capital, credit or business by ignorant tampering with that delicate, easily-manageable but explosive machine—our irredeemable paper money. This revival of confidence, while it disposes capitalists to lend, also disposes good borrowers to seek accommodation. The money market is thus becoming more active, a greater volume of transactions are done, and they are done on easier terms.

In view of these facts we may safely predict that the money market will be easy, and favorable to an active business. And these tendencies will probably be more rapidly developed, inasmuch as at this time of the year there is usually an accumulation of currency pouring in from the West. From October to February the tendency of currency is to flow from New York to the country. Soon after the 1st April, when the farmers make large annual payments, the current sets strongly towards this city, and this circumstance will help to produce an easy money market; for a plethora of currency in New York and other centres is proverbially favorable to low rates of interest.

To sum up the whole evidence then, we hold that our business men may expect an stable steady money market; first, because there is abundance of idle capital; secondly, because the prevailing state of general confidence is such that capitalists are willing to lend freely; and, thirdly, because the currency at this period of the year usually accumulates in our chief cities in a way favorable to monetary ease.

There is only one point more to be mentioned. Will Mr. McCulloch so use his discretionary power to contract the greenback currency as to counteract the relaxing influence of the causes to which we have referred? The answer to this question is, that the prospective embarrassments of the Treasury are such that he will not be able to do anything that may directly produce monetary derangement. He has heavy debts to pay, and like all debtors he will not be able to pay so easily if monetary stringency should supervene. His duty as a statesman will lead him to avoid any course which might convulse the money market, and his needs as chief of the Treasury will compel him in the same course. Expediency and enlightened policy both give an assurance that few mistakes can be made, and that those few will be soon found out and corrected.

Some of the speculators in stocks, produce and other commodities have come to the conclusion that there will be a more violent speculative activity this year than last year, attended by wider and more active fluctuations in prices. Without assenting to all their anticipations, we are willing to concede that there are many reasons for and very few reasons against the opinion that we shall have a degree of ease in money which will help to resuscitate business, and to prevent the continuance of that mischievous stagnation which has been so long and so widely complained of.

BANK DEFALCATIONS AND THEIR REMEDY.

Until lately it has been a matter of just gratification that during the four or five years of violent inflation through which this country has passed very few large embezzlements have come to light. Paper money expansion is very favorable to speculation. Speculation, like gambling, makes a few men suddenly rich, and allures a multitude of others to crime. Bank officials have some of them the handling of large sums of money not their own. The tempter whispers to the jaded, ill-paid clerk of possibilities of wealth to be won by using these sacred deposits, and afterwards replacing them after a few brief hours or days. We may with reason congratulate ourselves that the instances have been rare when such temptations have led to embezzlement and ruin.

But such instances, though rare, have occurred, and they seem to be increasing. The First National Bank of Hudson, N. Y., only opened its doors again on Wednesday, after a temporary suspension in consequence of the cashier having robbed the bank of \$50,000, which he had lost in stock speculations. At Baltimore the general book-keeper and the paying-teller, acting in concert, contrived by a long course of villainy to rob the Merchants' Bank of \$300,000. At Taunton, Mass., some of the officials have plundered a bank of \$200,000. At Pittsburg a defalcation has also occurred, the book-keeper of one of the banks being a defaulter, and the bank losing \$15,000.

These are only a part of the bank defalcations and losses which the newspapers during the last week or two have published. The possibility that such embezzlements should occur shows that a very loose and disgraceful method of doing business obtains, and it is an imperative duty of stock holders and bank directors, and of the general public to insist on a reform.

Some persons are disposed to blame the government inspectors, whose duty it is to examine and report at frequent intervals the condition of every bank in the country. One of these inspectors discovered the defalcation in the Baltimore bank, but why, it is asked, did he not find it out before? The evil had been going on for years. The books must have been often examined by government inspectors since the bank organized under the National law. Why was it that nothing was till now discovered? The public have a right to look for an explanation. We trust that Congress will investigate the matter, and find out for us why nothing wrong was disclosed by the government inspectors in any of the banks that have recently failed. Why was the only exception the Merchants' Bank of Baltimore? And why, even in this case, was the discovery delayed until the fraud, which had gone on for many years, had grown and enlarged itself until it involved a loss of more than a quarter of a million?

Another point to which public attention is directed, is the long delay in the publication of such information as the department at Washington obtains relative to the banks. Not a word has yet been published by the department relative to the affairs of the recently broken banks. What the public know they are obliged to glean from the newspapers. There is, indeed, a general complaint as to the late appearance and meagre contents of the report of the Comptroller of the Currency. His quarterly statements are seldom published till several weeks have elapsed, and the information has ceased to have so much immediate value to the customers of the banks. We have before pointed out this defect. It is in part due to the secrecy with which all the movements of the bank examiners are enshrouded. These functionaries are bound to allow no bank to know beforehand when they will visit it for examination. But it seems to be forgotten by the department that the information is obtained is for the public, who trust the institution with their money, their credit, and their hopes of business prosperity. The information obtained by the bank examiners, and by the monthly and quarterly bank reports, loses much of its real use and importance, except its main facts are given promptly to the public.

If, however, Government inspection, with a view to prompt publicity, offers one class of safeguards against malpractice in the banks, it must be remembered that other and more complete protection for the public is indispensable in a sound banking system. In the interior arrangements of the banks the mischief originates, and it is there that the remedy must be applied. The Philadelphia *Ledger* publishes from an experienced bank officer some very suggestive hints for the

security of banks against the misconduct of their clerks. The most important of these are the insisting on every clerk taking a holiday at irregular frequent intervals, and the frequent examination by the Directors, without previous notice, of the books, cash, securities, discounted paper and notes deposited for collection. The suggestions in full are as follows:

1. Divide the Board of Directors into two committees.
2. Let these committees, alternately, once a month at least, go to the bank at 3 o'clock, without notice to President, Cashier or anybody else, and count the cash.
3. Twice a year at least let the whole Board examine the entire assets thoroughly and make a detailed report for their minutes.
4. Let the discounted paper and notes deposited for collection be examined in part occasionally, without notice, say, take any day, or any week of days, and, with the "Tickler" in hand, require the production of the paper described.
5. Do the same with regard to other securities and investments of the bank.
6. Rotate the Individual Ledger Book-keeper quarterly, by drawing lots, and if there be no other way of changing the General Ledger Book-keeper, include him in the rotation of the Individual Ledgers.
7. Don't let any man stay so long in one position as to become imbedded in his tracks, or unfit for other positions in the bank.
8. Once a year at least insist on every man taking a holiday, and while absent put a new man in his place.
9. Pay employes liberally.
10. When you are sure any one is living beyond his means, advance his salary or discharge him.

It is of the very highest moment to the financial machinery of the country that the credit of our banks should be unimpaired and beyond suspicion. If, as seems certain, these or some similar rules would contribute to give security against embezzlement, such rules might very properly be enforced by law, and made obligatory on all the National banks.

DEBT AND FINANCES OF SOUTH CAROLINA.

The public debt of South Carolina, as stated by the Hon^d S. L. Leaphart, Comptroller-General of the State, in his report to the Legislature for the year ending Sept. 30, 1866, amounted, exclusive of past-due coupons and interest, to the sum of \$4,426,440 46; or, including the military debt contracted during the late war, to \$6,668,280 46, and was thus accounted for:

Besides this amount the State is indebted for an issue of bills receivable authorized by act of Dec., 1865, circulating as money and receivable for taxes and all other dues to the amount of \$147,000; but of which to the 1st November \$99,766 94 had been redeemed, leaving outstanding a balance of \$47,233 06.

The interest due on the several classes of bonds to September 30, 1866, was as given in the following statement:

Int. on 3 per ct. State st'k. \$3,638 83	Int. on 6 per ct. milit'y b'ds \$20,479 00
" on 6 " F. L. st'k. 49,742 89	" on 7 " Jan. '61 54,431 71
" on 5 " F. L. b'ds 18,477 66	" on 7 " Dec. '61 59,388 95

" on 6 " R. R. b'ds 224,023 01	Total on military debt... \$458,787 28
Total on debt proper.... \$778,787 23	Aggregate on both debts.. \$1,237,089 56

The debt created for military defence, though still kept on the Treasury Ledger, is not recognizable. Excluding this from the calculation the total indebtedness on the 30 September last, with past due interest amounted to \$5,205,327 74.

By an act passed by the Legislature and approved by the Governor of the State September 21, 1866, the past due interest and interest to accrue on specified stocks and bonds up to July 1, 1867, and also the principal of the bonds under act of December, 1859, issued in favor of the Blue Ridge Railroad, redeemable January 1, 1865, were ordered to be funded. The following is a statement estimating the indebtedness of the State to July 1, 1867, on the bonds and stocks specified in said act:

Interest on \$500,000, 6 per cent. State House bonds.....	\$168,790 00
" on \$1,775,000, 6 " " stock.....	853,437 85
" on \$1,000,000, 6 " Blue Ridge R. R. bonds, 1854.....	290,775 00
" on \$310,000, 6 " " 1859.....	81,750 00
Total debt for interest on specified bonds and stock.....	\$900,803 85
Principal of 6 per cent. Blue Ridge Railroad bonds, 1859.....	310,000 00
Total principal and interest to be funded.....	\$1,210,803 85

There was no provision made by the Act for funding the interests due on the stocks and bonds of the Fire Loan, nor for the principal of the former, redeemable in 1870, and of the latter in 1868. The interest due on these securities on the first of October last amounted to \$68,220 55. Governor Orr recommends that the Legislature should grant authority to fund the interest now due, and that which will accumulate up to January 1, 1868.

The following abstract from the general ledger of the Treasury exhibits accurately the financial condition of the State as of October 1, 1866.

That many items in this account are merely book credits and debits is obvious. From the creditor side must be deducted the military debt and interest, together amounting to \$2,700,227 28, leaving the absolute liabilities of the State \$6,721,109 82. On the other side there is no certainty as to precise value which the various items represent. The State Bank is insolvent and about to go into liquidation, while the railroad shares are sadly depreciated, and at present have only a nominal value.

The resources of the State for taxation, and the rates and amounts of tax levied for the year commencing Oct. 1, 1865 are shown in the following statement:

The local taxes for the year, not included in the above account were: Poor taxes, \$57,387 64; public building taxes, \$27,281 94; and road and bridge taxes, \$65,046 25—total, \$149,715 83.

It will be perceived that the payments for 1865-66 do not include many items of ordinary expenditures (as those of the Legislature), nor yet the annual cost of the debt. These will come into the accounts hereafter, and add largely to the disbursements. The above account therefore cannot be taken as a proper exhibit of the actual resources or of the necessities of the State, even at the present time, much less of the future.

The Governor in his Message, and the Comptroller in his Report have each of them something to say on the financial condition of the State. Both concur in the necessity for the settlement of all the interest accounts by funding and the resumption of interest payments. They join also in a recommendation to the Legislature, that a sinking fund—say of \$100,000 a year—should be founded for the final extinction of the State's indebtedness.

Governor Orr thus presents the subject:

"It is, however, eminently proper that some financial scheme should soon be adopted to prepare the State to meet the principal of the debt as it falls due. If the interest is regularly paid on the debt, \$100,000 annually set apart as a sinking fund for twenty years, invested in safe securities yielding 6 per cent. per annum, the principal being further increased by the investment of the interest accruing, will accumulate the sum of \$3,899,312, which will be nearly adequate to the payment of the entire debt then due, and I recommend that proper legislation be adopted at the present session to inaugurate this scheme."

The Comptroller General concludes his report with the following pertinent remarks:

"The maintenance and preservation of the faith and credit of the State in her financial relations, will doubtless engage the earnest attention of the Legislature at the present session. The reservation of a portion of her property and assets, or of her annual income, for the liquidation of her debt, will be recognized as the best evidence that the State has both the means and the intention to secure the public creditor. The establishment of a new redeeming fund would, therefore, constitute the best guarantee of her solvency and her good faith, the elements into which public credit must be ultimately resolved. Should a new loan be deemed requisite to meet our most pressing liabilities, the adoption of some measure to insure the punctual payment of interest and the final redemption of the principal, would seem to be necessarily indicated. That a loan, to the extent that may be actually needed, could be negotiated on advantageous terms, notwithstanding the temporary embarrassment of our finances, there is no reason to doubt."

Thus we find the best feelings of the State authorities enlisted in favor of the public creditors—a sure indication of a like healthy tone pervading the general public.

* This balance, by November 1, had been reduced to \$173,055 03, which was made up as follows: Coin, \$212 75; U. S. currency, \$73,245 34, and State currency (Bills Receivable), \$99,766 94. The Bills Receivable are to be cancelled.

The increased capital, as shown for 1866, was made by a distribution of stock in February last to the amount of one share of common stock to every two shares of stock, preferred and common alike, then outstanding, at the uniform price to holders of \$30 per \$100 share. This realized to the company of \$632,915, which was set apart as a special fund to be expended in new work and equipment, and to complete the purchase of the Alton and St. Louis Railroad; the sum of \$135,614 50, the cost of \$135,000 U. S. 7-30 notes being retained for the latter purpose. Deducting this amount, and \$339,217 82, expended on additional work and rolling stock, there remains the sum of \$158,082 68, as shown in the balance sheet for future exigencies. The distribution as above was made to cover capital expenditures from the income account.

Since the re-organization of the company, in October, 1862, the following dividends have been declared and paid:

[From our own Correspondent.]

LONDON, Saturday, March 2, 1867.

There has been this week no material improvement in business, although there are symptoms of greater confidence. The transactions in most articles are still of a decidedly restricted character, and in several instances at a lower range of prices. There is, however, one exception, viz.: cotton, and in this market during the last few days there has been a considerable degree of animation. It is questionable, however, whether this revival in the trade is likely to prove permanent, chiefly for the reason that spinners do not yet appear desirous of operating extensively, while the supplies of produce afloat, although less than last year, show a decided increase from the last few weeks. The supply of American cotton afloat is now 122,000 bales, against 110,000 bales the same time in 1866; but of East Indian produce the amount afloat is confined to 179,135 bales, while at this date last year as much as 566,513 bales were on passage to this country. However, our available and immediately prospective supplies are rather more than one million bales, against 1,210,000 bales last year—a supply sufficient to check any important rise in prices, unless an active demand should spring up, a circumstance not likely to take place at present.

Wheat has declined in value to the extent of 2s. per quarter this week, but there are existing signs that millers—many of whom are short of stock—are likely to purchase more freely, and we may therefore expect that the present fall will be recovered. Another circumstance likely to contribute to a more healthy state of things in this branch of trade is the prevalence of dry easterly winds, which appear likely to last for some weeks to come. It may be anticipated that the condition of our wheats will greatly improve; millers will therefore be

enabled to work more freely, and be compelled to make more extensive purchases. Our import of wheat this week is tolerably large; but the east wind is likely to delay materially the arrival of vessels from the Black Sea, so that our imports from that quarter during the next week will not probably be of any considerable magnitude. As the Black Sea is now our chief source of supply, this detention is likely to have more than usual influence on the trade.

The Board of Trade returns for the past year have at length been published. They show that the declared value of our exports of British and Irish produce and manufactures in 1866 amounted to £188,827,785, against £165,835,725 in 1865, and £160,449,053 in 1864. The total import of cotton was 12,295,803 cwts., against 8,731,949 cwts. in 1865, and 7,975,935 cwts. in 1864; of wheat, 23,156,329 cwts., against 20,962,963 cwts. in 1865, and 23,196,713 cwts. in 1864; of flour, 4,972,280 cwts., against 3,904,471 cwts. in 1865, and 4,512,391 cwts. in 1864. The computed real value of our imports in the eleven months ending Nov. 30, 1866, was £211,539,785, against £180,820,357 in 1865, and £197,448,426 in 1864. With regard to the United States, our exports of British and Irish produce and manufactures stood thus:

By some it was anticipated that the Directors of the Bank of England meditated a change in their rates of discounts, but no alteration has taken place. The minimum is still at 3 per cent., and there seems very little probability of a change being effected for some time to come. During the last few days the demand for money has been rather active, which the supply seeking employment in the discount market has somewhat diminished. The rates out of doors are firm, and have risen about $\frac{1}{2}$ per cent., $2\frac{1}{2}$ per cent. being the more current minimum out of doors, while $2\frac{1}{2}$ is rather an exceptional quotation. The increase in the demand for accommodation is attributable to the approach of the "fourth" of the month, for which preparations were made yesterday and to-day, to the payment of dividends to the shareholders in railway companies, and to the maturing of a considerable amount of miscellaneous paper. The 4th of March is usually heavy, but although the bills maturing on that occasion are said to represent a large total, the aggregate seems to be below former years. Annexed are the present rates so far as the best paper is concerned:

	Per Cent.		Per Cent.

The supply of bullion held by the Bank of France is now £28,807,024, while discounts amount to £24,799,700. These figures show a falling off in the magnitude of French Trade, discounts about six months since being at as high a figure as £27,500,000. At Paris the minimum rate of discount is 3 per cent., showing no alteration as compared with our own. In the open market the very prime paper, viz: *premier banque* is taken at as low a figure as $2\frac{1}{2}$, and occasionally $2\frac{3}{4}$ per cent.; but these cannot hardly form a guide as regards the price of money in that city. The more current minimum at Paris is $2\frac{1}{2}$ per cent., that being the rate at which prime paper is ordinarily taken at the present time. At Hamburg money is very cheap, the minimum quotation being as low as $1\frac{1}{2}$ per cent. The following statement shows the rate at the leading Continental cities at the close of the present week:

The rates of foreign exchange are firm, and rather more favorable to this country.

The West Indian steamer, the *Tasmania*, brought over a larger supply of specie than had been anticipated. The total received by the steamer was £672,860, of which £580,000 was silver, and £90,000 gold. With regard to the latter, £38,760 was from New Zealand, and was received *via* Panama. Two gold ships have arrived from Melbourne with £96,000: The *Arago*, from New York, has brought £38,930 for London; the *Rhone* has reached Lisbon from the Brazils with £44,000, and may shortly be expected at Southampton. These are our principal imports of specie during the week.

With the exception of a fair demand for gold for export, the bullion market is very quiet. Silver is decidedly flat, and the quotations have a drooping tendency. The export demand for the latter article is trifling. Annexed are the present quotations for bullion;

Without much business, the Consol market during the week has presented a firm appearance, and a fractional improvement has taken place in the quotations. The price for this account has been 91 $\frac{1}{2}$ "buyers," but on the announcement yesterday that £100,000 had been withdrawn from the Bank the market became weaker, and the quotation fell to 91@91 $\frac{1}{2}$. To-day the market is flat, at 90 $\frac{1}{2}$ @91 for money and the present account, and 91@91 $\frac{1}{2}$ for April. The highest and lowest prices in the days enumerated are subjoined:

Week ending Mar. 2.	Monday.	Tuesday.	Wed'y.	Thur.	Friday.	Sat.

The market for American Securities has been decidedly flat and weak. As regards United States 5-20 bonds the tendency was downwards until to-day, but closes with more steadiness at 73 $\frac{1}{2}$ @73 $\frac{1}{2}$. Atlantic and Great Western Railway securities have improved upon the publication of the very voluminous report issued by the Directors; Erie Railway and Illinois Central shares are dull and depressed in value. The closing quotations this afternoon are: United States 5-20's 73 $\frac{1}{2}$ @73 $\frac{1}{2}$; Atlantic and Great Western Debentures 30@32, do Consolidated Mortgage bonds 24 $\frac{1}{2}$ to 25 $\frac{1}{2}$; Illinois Centrals 76@77, and Eries 76@77. The subjoined statement shows the highest and lowest prices each day during the week:

The following table shows the course of the market for United States 5-20 bonds on the Continent during the week:

	Feb. 22.	Feb. 23.	Feb. 25.	Feb. 26.	Feb. 27.	Feb. 28.

Berlin.....	77 $\frac{1}{2}$	77 $\frac{1}{2}$	77 $\frac{1}{2}$	77 $\frac{1}{2}$	77 $\frac{1}{2}$	77 $\frac{1}{2}$

Financially, the leading features of the week are the existing heaviness in the market for Obilian and Danubian scrip. At one period the former was at as much as 2 premium; but in to-day's market business was done at as low a figure as $3\frac{1}{2}$ discount. The latter has been at 1 premium; and has reached, to-day, $1\frac{1}{2}$ to 1 discount. It is anticipated by many that were a further loan introduced its success would be doubtful, notwithstanding the abundance of money.

Another important circumstance in the financial world is the publication of a report, issued by Messrs. Turgand & Harding, the official liquidators, to the shareholders and creditors of Overend, Gurney & Co. This document states that at the date of its suspension the liabilities of the company were £18,727,915 13s. 8d.; but that these are now reduced to £3,640,655 16s. 7d. The liquidators are of opinion that the liabilities will be further reduced to £1,892,881 5s., and that the outstanding assets will produce £1,832,011 3s. 7d.

The Liverpool cotton market has exhibited increased activity during the last two days of the week. Owing to more favorable reports from Manchester prices at once advanced from 13 to 13 $\frac{1}{2}$ for Upland middlings, and the sales from 8 to 15,000 bales per diem—total sales, 60,000 bales. The market closed active on Thursday at 13 $\frac{1}{2}$.

Breadstuffs also exhibit an advancing tendency. Corn has advanced from 37s. 3d. to 39s. per quarter; Oats, American and Canadian, is firm at 3s. 2d. per 45 lbs.; California wheat sells readily at 13s. 3d. per cental.

Provisions have been steady, and close firm generally. Lard sells at 50s. 6d.@50s. 9d. per cwt.; Pork, prime city mess, at 75s. 6d., and prime

Eastern mess at 77s. 6d. per 200 lbs.; Bacon, Cumberland cut middles at 41s. per cwt., &c.

In the produce market there has been considerable activity, but little change in prices. Tallow has advanced from 43s. 6d. to 44s. per cwt.; oil cake (feeding) sells at £10 5s. per ton; linseed oil at £38 10s. @£39 per ton; rosin, common Wilmington, at 9s. 3d. @9s. 6d. per cwt. and American fine at 14s.; whale oil, Iceland, £38 per 252 galls; pot ashes at 88s. @33s. 6d. per cwt.; spirits turpentine at 37s. 6d. per cwt. petroleum, Penn. refined and Canada white, 1s. 6d. @1s. 7d. per gall.; American red clover seed at 55s. 6d. per cwt. Pig iron is quoted at 58s. 6d. per ton.

The rates of discount at Amsterdam and Berlin have been reduced to the minimum of 3 per cent.

COMMERCIAL AND MISCELLANEOUS NEWS.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports this week show a large decrease in dry goods, and a decrease in general merchandise, the total being only \$4,806,103 against \$5,898,954 last week, and \$6,572,606 the previous week. The exports are \$5,041,946 this week, against \$4,492,564 last week, and 4,017,029 the previous week. The exports of cotton the past week were 23,837 bales, against 16,573 bales last week. The following are the imports at New York for week ending (for dry goods) March 8, and for the week ending (for general merchandise) March 9:

NEW TARIFF ON WOOL AND WOOLENS.—We have failed as yet to receive a certified copy of the new tariff as passed by Congress, but the following gives the provisions of the bill:

On woolen manufactured goods, 50 cents per pound, and 35 per cent. *ad valorem*. On flannels valued at above 40 cents per pound, and not exceeding 60 cents per pound, 30 cents per pound; valued at above 60 cents per pound, and not exceeding 80 cents per pound, 40 cents per pound; valued at above 80 cents per pound, 50 cents (?) per pound, and in addition thereto, upon all descriptions, 35 per cent. *ad valorem*. On tapestry Brussels carpets, 28 cents per square yard, and 35 per cent. *ad valorem*. On wools of the first class, valued at the place of export at 32 cents or less per pound, 10 cents per pound and 11 per cent. *ad valorem*; if over 32 cents, 12 cents per pound and 10 per cent. *ad valorem*; on all wools of the second class, the same as on the first class; on the third class, costing 12 cents or less, 8 cents per pound; if costing over 12 cents, 6 cents per pound.

WAR DEBT OF CONNECTICUT.—The following statement, furnished us by the Hon. Henry G. Taintor, State Treasurer, shows the condition of the Public Debt of Connecticut as it appeared Jan. 1, 1867:

Under Act of	Author- ized.	Coupon Bonds Issued.	Out- standing.	Interest Rate.	Payable.	Interest payable.
May, 1861.	\$2,000,000	\$2,000,000	\$2,000,000	6	Jan & July	10 or 20 years
Oct., 1861.	2,000,000	2,000,000	2,000,000	6	do	10 or 20 do
Nov., 1863.	2,000,000	2,000,000	2,000,000	6	do	20 do
May, 1864.	2,000,000	2,000,000	2,000,000	6	Apr. & Oct.	10 or 20 do
May, 1865.	3,000,000	2,400,000	2,000,000	6	do	20 do

The bonds issued under the Act of May, 1865, are made exempt from State and municipal taxation. The State tax is now 40 cents per \$100 valuation. Of the amount issued under this act, as above, \$400,000 were bought in and cancelled.

From the amount outstanding Jan. 1, 1867, may be deducted \$1,209,000 held by the State as a Sinking Fund. The debt of the State will then be—

EXPORTS.

The total value of exports for 1866 amounts to \$21,305,531; for 1865, \$16,530,328; and for 1864, \$20,417,710. The exports for 1866, show an increase of \$4,775,203. The imports are given at their foreign cost in gold. The exports are reckoned at their currency value here. The imports of specie for 1866 amount to \$1,293,943, and the exports of specie to the same time to \$3,789,799. The monthly value of exports were as follows:

WITHDRAWN FROM WAREHOUSE.

The value of merchandise withdrawn from warehouse for consumption in 1866 was \$16,463,420, and the amount entered for consumption was \$22,414,100, which shows the value of merchandise thrown upon the market, exclusive of free goods, to have been \$38,877,529, or an increase of \$11,696,059 over that of 1865. The following gives a detailed statement of the value of merchandise withdrawn from warehouse for consumption.

AMERICAN PASSENGER RAILROAD CARS.—Among the consignments of goods for the Paris Exposition, is noticeable a richly finished street-railroad car, in which art and taste are harmoniously combined. This car is intended for a Bombay (India) street-rail-

road, and stops at Paris on its way thither. It is an agreeable fact that American builders have of late furnished cars for street railroads in cities of England, South America and Canada, and in this branch of architecture lead the world.

ANOTHER RAILROAD IN CALIFORNIA.—A new railroad is projected from Martinez to Danville. The country along the route presents no difficulties, and is very rich. It is estimated that the road can be built for \$238,000, would probably require a yearly outlay of \$29,000 or \$30,000, and would bring in the first year \$178,000.

AN ELECTRIC BOAT.—M. Molin's electric boat is to be tried in the grand basin of the Tuilleries. Its inventor hopes to prove that electricity, as a motive power, possesses many qualities superior to steam; and, should the success of his experiment be demonstrated, M. Molin will be entrusted with the application of his discovery to a large vessel.

REGISTERED COMPANIES.—A return recently made to the British Parliament of the number of companies registered under the limited liability act during the years 1864, 1865 and 1866, with the amount of capital proposed to be raised in shares, shows that in 1864 992 companies were registered, with a proposed capital of £287,437,083 14s.; five companies were registered without nominal capital; total, 997. 1865, 1,013 companies were registered, with a proposed capital of £205,391,818; twenty companies were registered without nominal capital; total, 1,033. 1866, 758 companies were registered, with a proposed capital of £76,599,822; ten companies were registered without nominal capital; total, 768.

FRIDAY, March 15, 1867, P. M.

THE MONEY MARKET.—The week opened with rather more firmness in the money market, and in some cases 7 per cent. was paid on call loans. On Wednesday, however, the Sub-Treasury made disbursements of about four millions of dollars, and the market has since shown more ease. There is an active demand for money on call, from the brokers, but the banks meet all inquiries at 6 per cent., and in some cases have balances which it is found difficult to employ, except at lower rates. On Governments the rate is 5 per cent. The bankers show more confidence in lending to the broker than last month, and stock loans are made at about the usual margins.

The movement in discounts is fairly active. Prime paper is current at 6½ @ 7½ per cent., the longer dates being difficult of negotiation. There is a considerable accumulation of second and third rate bills, which can be sold only at heavy "shaves;" grocers and dry goods paper being especially difficult of sale.

The following are the quotations for loans of various classes:

	Per cent.		Per cent.
Call loans.....	5 @ 6	Good endorsed bills, 3 &	7 @ 7½
Loans on bonds & mort..	6 @ 7	do 4 months.....	7 @ 7½
Prime endorsed bills, 2	6½ @ 7½	do single names.....	7½ @ 8
months.....	6½ @ 7½	Lower grades.....	8 @ 10

UNITED STATES SECURITIES.—The market for Governments has been, upon the whole, quiet. Five-twenties of 1862 have been dull, owing to the uniformity of their value at New York and London. Some disappointment has been felt among foreign bankers that bonds have not advanced more freely at London upon the settlement of the long agitated question of reconstruction; it appears, however, to have been overlooked that large supplies have recently been sent from this side, which are now in course of distribution; and it is rather a matter of surprise that the receipts have not had the effect of putting down quotations. The chief activity has been in bonds of 1864 and 1865, old issue, which have been changed freely for new Sixty-fives and for first series of Seven-thirties, the exchange affording a profit of ½ @ ¾ per cent. Financial institutions have made extensive changes of this character. There has been rather less movement in the way of conversions. From the subjoined quotations it will be seen that the gold-bearing bonds are generally ½ @ ¾ above the figures of last week. Seven-thirties are ½ lower.

A rumor has been in circulation during the week to the effect that over-issues of bonds have been made through the employes of the Treasury printing department; but the report is generally discredited, and appears to have been originated for effect in the Gold Room.

The following are the closing prices of leading securities, compared with preceding weeks:

RAILROAD AND MISCELLANEOUS STOCKS.—There has been less speculative movement in the stock market than last week. The market, however, has shown a decidedly firmer tone, and prices close 1 @ 2 per cent. above the figures of last Friday. The improved tone of business appears to have been partially the result of the oversold condition of the market, the repeated successes of the combinations for lower prices having encouraged them to put out large lines of sellers' options. Erie has been especially oversold; and in that condition the strong, parties (supposed to include a well-known director of the road) came into the market and bought up large amounts of shares. This frightened the "shorts" into a hurried movement for covering their contracts, and an advance in the price to 62½ was the result; subsequently, the price fell off to 58½.

and closes at 59½. Circumstances have occurred favorable to the value of other stocks, especially Rock Island and Ohio and Mississippi certificates, which have helped to sustain the improving tendency.

There is more disposition to enter upon arrangements for a spring campaign in favor of higher prices; but the absence of outside interest, the uncertainties overhanging the future of the money market, and the injury sustained by many firms in the heavy decline of a few weeks ago have a strong tendency to check such movements.

The total sales of stocks at both the regular and open boards, for the last six days, amount to 456,076 shares, against 546,620 shares for last week. The transactions include sales of 117,081 shares of Erie; Michigan Southern, 41,950; Rock Island, 38,820; New York Central, 36,000; Reading, 21,700; Ohio & Mississippi Certificates, 19,387; Canton Co., 11,900; Pacific Mail, 11,688. The stock of the United States Coal Co. has been introduced upon the market, the sales amounting to 13,500 shares.

THE GOLD MARKET.—There has been a diminished speculative movement in gold. The demand for customs has been quite active, averaging \$550,000 per day. The price opened on Saturday last at 134½, and closed to-day at 134½, having touched during the interim 135½.

The Treasury appears to be selling regularly a portion of its receipts, which, with the arrivals from the interior and from California, keep the market comparatively easy. During the week ending March 9 the Sub-Treasury paid out \$811,600 in interest; besides this, as will be seen from the statement below, \$1,988,859 was received from other sources, chiefly, it is to be presumed, from sales by the Sub-Treasury. But for the timely, steady relief thus afforded by the Treasury, there can be little doubt the market would show a much stronger tone. The premium has been sustained by the increased movement and the higher rates in foreign exchange, bills on the Continent being now current at quotations which admit of shipments of bullion.

The following has been the range of quotations during the week:

	Opening.	Lowest.	Highest.	Range.	Closing.

FOREIGN EXCHANGE.—There has been a more active demand for bills from importers, and notwithstanding a liberal supply of paper from the unusually large cotton shipments of last week, the rates have shown an upward tendency. For Wednesday's mail transactions closed on the basis of 109 for prime 60 day's bankers sterling; to-day the rates are ½@¼ higher.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, March 15.

The markets the past week have shown more activity—not, however, without depression in some particulars. The steadiness of gold and the improved demand for consumption have enabled holders to effect an advance in prices of many leading staples.

Cotton has recovered fully 2 cents from the depression early in the week. Breadstuffs of all kinds have advanced. Tobacco continues in good demand, and prices tend upward. Groceries with some modification of quotations have been moderately active.

Provisions have been in large demand, and some leading articles have advanced. Pork is decidedly firmer, on the fact adverted to last week, that stocks and receipts are smaller and prices much lower than last year. New mess sold at \$24 13 to-day, but closed at \$23 62. We shall probably have much less of summer-cured pork and bacon than last year. The demand for England is not large, but the wants of the South are very great, and the Continent has been taking very freely of Lard. Beef of all kinds is in reduced stock, and moving off briskly for export. There is more doing for Great Britain in common qualities of Butter and Cheese, and choice qualities are scarce and wanted for home consumption, but medium grades are dull and heavy.

Hides have been dull, and gold prices of foreign dry have declined $\frac{1}{2}$ c. Leather is steady.

In East India Goods the only business of moment has been a large movement in Gunny Cloth, mostly for arrival, at 11c. gold, in bond. Fruits have been dull, except Turkish Prunes, which are firmer. Fish has been active and firm.

Petroleum has experienced quite a revival of exports, but no improvement in prices can be quoted.

Naval stores have been quiet all the week until to-day, when Spirits Turpentine and common Rosin slightly advanced. Private telegrams from Wilmington report an advance in that market. Oils of all kinds have been quiet. Whalebone has declined.

Metals have been very dull, except Tin, which slightly improved early in the week, closing quiet, and Copper, which has declined to 25c. for American ingot, with sales of half a million pounds.

Wool sells more freely at a small advance on the prices of last month.

Freights have been active in the shipments of Cotton to Europe, but weight is scarce. A large number of Petroleum charters to Europe at 5s. 3d. @ 6s. are reported.

COTTON.

FRIDAY, P.M., March 15, 1867.

This week's returns show a further decrease in the receipts of cotton, giving additional indication at some of the ports of an approaching exhaustion in the supply. In fact at Mobile, Charleston, New Orleans and Savannah, and at some of the inland points which supply these ports, the falling off is very decided. But, on the other hand, the receipts at Galveston, Virginia and from the Southwestern States (Arkansas, Tennessee, &c.) are still large. The total receipts at all the ports for the week amount to 51,236 bales (against 61,294 bales last week, and 73,574 bales two weeks since), making the aggregate receipts since September 1, this year, 1,443,523 bales, against 1,480,665 bales for the same period in 1865-6. The details of the week's receipts are as follows:

Received this week at*	Receipts.	Received this week at*	Receipts.
New Orleans.....	17,000	Florida.....	1,368
Mobile	3,137	North Carolina.....	1,081
Charleston	4,104	Virginia.....	2,801
Savannah	5,250		
Texas.....	8,345	Total receipts for week	51,236
Tennessee, Kentucky, &c.....	8,150		

On account of the unusually large exports from New York, the total exports this week show a decided increase (although from the Southern ports there is a falling off) amounting for the week in all to 60,288 bales against 56,357 bales last week, and 54,296 bales the previous week. Below we give the details of these shipments showing 46,366 bales sent to Liverpool, 9,420 sent to Havre, 2,342 bales sent to Barcelona and 2,160 bales to Bremen, as follows:

The total foreign exports from the United States since

* In this table, as well as in our general table of receipts, &c., we deduct from the receipts at each port for the week all received at such port from other Southern ports. For instance, each week there is a certain amount shipped from Florida to Savannah, which in estimating the total receipts must be deducted as the same shipment appears in the Florida return. We are thus particular in the statement of this fact, as some of our readers fail to understand it.
† The rains and freshet have deluged the mails so that we are again without our New Orleans mail returns, and therefore give the receipts of that port as reported by telegraph.

September 1 now amount to 790,236 bales, against 869,453 bales for the same period last year, and the present stocks are 632,741 bales, against 561,005 bales at the same time in 1866. Below we give our usual table of the movement of Cotton at all the ports since Sept. 1, showing at a glance the total receipts, exports, stocks, &c.:

The market opened last Saturday in a very dull, depressed condition, and Middling Uplands declined to 29c., which is, we believe, the lowest currency price accepted within the last four years. On Monday there was rather more steadiness, notwithstanding a further decline reported from Liverpool, the falling off in receipts at the ports and low prices having stimulated speculation. Tuesday was quiet but firm. On Wednesday, more favorable advices from Liverpool and Manchester led to great activity, which was continued on Thursday with an advance of fully 2c. per lb. from the lowest point. The market to-day was less active, but the advance was supported. Sales for the week amount to 25,000 bales, of which 16,000 bales were during the three days ending Thursday night.

There has been this week considerable activity, but the transactions are greatly restricted by the fact that a large amount of cotton is held under instructions, and is not therefore on the market. Prices have been lower and close in specie about one cent. off. Exchange—sight on New York we quote cotton bills 1/2 and Bankers bills 1/4, per cent. discount. Freights to Liverpool show a little more firmness, and are quoted at 1/2; to New York, by sail, 1/4c., and by steam 1 1/2c.

CHARLESTON, March. 9.—The receipts for the week ending March 8, amount to 4,332 bales, against 2,609 bales last week. Shipments for this week amount to 4,104 bales, (against 5,871 bales last week), of which 3,023 bales were to Liverpool, 802 bales to New York, 182 to Philadelphia, and 74 to Baltimore. The receipts, sales and exports of a series of weeks, and the stock, price of middling, rates of freight to Liverpool and New York, and price of gold at the close of each week since Jan. 4, were as follows:

* Steam.

Early in the week prices were about 1/2 cent higher, and there was

considerable business done at those figures; but on Wednesday the market was depressed and lower by about 1 cent. A further decline took place on the following day, the quotations at the close being 1 cent below those of last week. Exchange on New York is bought by banks at par, and sold at 1/4 per cent premium. Sterling Exchange \$6 35 @ \$6 40 for 60 days' bills.

SAVANNAH, March 9.—The receipts for the week ending March 8 were 5,489 bales (of which 239 were from Florida), against 7,219 bales last week. The shipments this week were 11,229 bales, of which 8,888 bales were to Liverpool, 515 bales to Boston, 277 bales to Philadelphia, 350 bales to Baltimore, and 1,199 bales to New York. Below we give the receipts, shipments, prices, &c., for a series of weeks:

This has been a very dull week so far as sales are concerned, the advices from Liverpool and New York being unfavorable, and prices having declined fully 2 cents. At the close middling is quoted nominally at 28c. but the market is very unsettled. Freights show no change. We quote to Liverpool 7-16 @ 1/2 d. for square, and 1/2 d. @ 1/2 d. for round bales. Steam to New York and Boston 1c., and to Philadelphia 1/2c., and Baltimore 1/2c. In sailing vessels cotton is taken at 1/2c. New York, and 1/2c. Boston.

MOBILE, March 9.—By mail we have received one week's later dates from Mobile. The receipts for the week ending March 8 were 3,137 bales, against 5,037 bales last week, and the shipments were 2,472 bales, of which 1,107 were to Barcelona, 210 to Havre, 215 to New York, 576 to Providence, and 362 bales to New Orleans; leaving the stock on hand and on shipboard, not cleared, of 71,781 bales.. The following are the weekly receipts, sales and exports for a series of weeks, and the stock, price of middling, rates of freight to Liverpool and New York, and price of gold at the close of each week:

This has been a very dull week, and prices have steadily declined under the influence of the unfavorable Liverpool and New York advices, closing at 28c. for middling, 26c. for good ordinary, and 27c. for low middling. Freights are without change, we quote Liverpool 1/2 d. per sail and 1/2 d. per steam; coastwise, 1 @ 1/2c. Exchange on New York 1/2 discount. Sterling Exchange 142 @ 145.

EUROPEAN AND INDIAN COTTON MARKETS.—Respecting these markets our correspondent in London, under date of March 2, writes as follows: *

LIVERPOOL, March 2.—In the early part of the week, the cotton trade was rather heavy. The demand was to a fair extent, but produce being freely offered, prices declined on the average, about 1/2 d. per lb. Since then, however, there has been a decided improvement in the demand, and the market has exhibited a fair degree of animation, while the decline which had taken place in the quotations has, in part, been recovered. To-day, American cotton is 1/2 d. of a penny; Brazilian 1/2 d., Smyrna, 1/2 d., and East Indian about 1/2 d. per lb., lower than on Saturday last. The total sales of the week are 52,780 bales, of which speculators have taken 3,370 bales, and exporters, 11,070 bales. Annexed are the prices current for American cotton at this date this year and in 1866:

TOBACCO.

FRIDAY, P. M., March 15, 1867.

The exports of tobacco from all the ports continue small this week, although larger than the previous week. There has been an almost entire suspension of shipments from Baltimore thus far this month, due chiefly to the reduced stocks and small arrivals. As, however, the receipts at that point are now increasing, we may anticipate a resumption of shipments soon. The stocks at this port are also larger, the arrivals of leaf being now at the rate of a thousand hhds. a week, while the exports are very limited. The total shipments this week from all the ports show an aggregate of 483 hhds., 778 cases, 39 bales, 20 tierces, 6 boxes, 28 hhds. of stems, and 132,992 manufactured lbs. as follows :

The market for the past week has been without important change. Hogsheads have been quiet. The excitement at Louisville and Virginia markets has had very little effect here. Sales 150 hhds. Kentucky, mostly new, at $4\frac{1}{4}$ @18c., and 40 hhds. New Virginia at 7@16c. for common and medium grades. Seed Leaf has been more active at very full prices. Manufacturers are buying good wrapping lots. Sales include a running lot of 159 cases old Ohio $7\frac{1}{2}$ @8, 125 cases Connecticut of 1864 28@65c., 90 do. Connecticut, crop of 1865 11@15c., 155 do Old Ohio $5\frac{1}{2}$ c. Foreign tobacco is in good demand and very firm, the demand being mainly for export, though manufacturers are buying moderately. Sales 500 bales Havana 85@95c., 50 do. Yara 90c. Manufactured tobacco is without important feature. Good bright work is in demand at very full prices, but in other descriptions there is but a moderate business.

VIRGINIA.—The Lynchburg *Republican* says that "tobacco continues to bring almost fabulous prices. Shipping tobacco that sold for seven and nine dollars a week ago now brings twelve to fifteen dollars. Other grades sell equally well."

At Petersburg the tobacco market has been active and prices well sustained, and for all desirable grades there is a good demand at full prices. The receipts continue liberal and the offerings large. We quote lugs in good order at \$4 to 6; common leaf, \$6 to 10; good, \$12 to \$15; very good, \$16 to 25; fancy, \$40 to 60. The inspections for the week were 109 hogsheads, with 86 reviews.

At Richmond the arrivals and receipts for week have been large, and we report the market buoyant, and prices rule firm at quotations for all desirable tobaccos in keeping order; while tobaccos high in order are not in brisk demand, and prices rule in favor of the buyer. We quote per 100 lbs.:

KENTUCKY.—At Louisville the market was active and buoyant all the week, but closed steady with increased supplies. The sales for the week were about 800 hds.

BREADSTUFFS.

FRIDAY, March 15, 1867, P. M.

There has been a marked rise in Flour and all descriptions of grain during the past week. The small receipts are accompanied by a steady decrease in stocks, and the per centage of the decrease is now large. The approach of spring has caused a better demand for consumption. And considerable speculation has sprung up, based on diminished supplies for some months to come, and a probable large demand for the South. Advices from the West state that the advance here has somewhat increased the shipments to this market, and the close is rather quiet, but with the advance very firmly maintained.

Wheat has advanced fully 15c. per bushel for Spring. But Winter Wheats, especially California, having declined early in the week, have scarcely more than recovered to last week's quotations. The demand has been mostly from out-of-town millers, and shipments have been made coastwise and by rail.

Corn has advanced about 10c. per bushel. The favorable turn to the Liverpool market, the considerable reduction of stocks in store, and the liberal demand for home consumption, have stimulated a large speculation. There is, however, some prospect of keeping up supplies by rail. Rye has been in speculative demand, and advanced 10c. per bushel. Canada, in Bond, will bring \$1.20 per 56 lbs.

Canada Peas have sold at \$1.25, in bond, being an advance of 5c. Barley has sold largely for malting, and prices have been fully supported.

LIVERPOOL, March 1.—A good demand has been experienced for cargoes arrived at port of call, but the general tone of the trade is dull. In France it is said that Government has lent its weight to cause a decline, but the liberal arrivals had probably more to do with the late fall. GROCERIES.

FRIDAY, March 15, 1867, P. M.

The grocery market has been quite steady in prices since our last report, and a good degree of activity is noticed. A slight decline in currency prices to correspond with the lower price for gold was submitted to at the close of last week, but the gold prices have been steadily maintained. With the more settled condition of national affairs, and the steadiness of the gold market, there is a good degree of confidence in the future of business, and commercial affairs wear a more healthy aspect.

TEA.

TEAS have been rather quiet, and some concessions have been made from currency quotations, although we make no change in prices. Only a moderate business is reported, including sales of 11,351 half chests of Oolongs; 4,021 do greens, and 800 half chests Japans, and 2,400 half-chests damaged uncolored Japans at auction.

Imports of the week have been a cargo from Amoy per Florence Nightingale, including 13,231 lbs. of Congou and Souchong, 520,793 lbs. Oolong and Ningyong, and 2,222 pkgs. by steamers from Liverpool and London.

The following table shows the shipments of Tea from China and Japan to the United States, from June 1 to Dec. 14, 1866, and importations at New York and Boston since Jan. 1:

COFFEE.

COFFEE has been less active, especially for Rio, partly from small stocks offering. The light supply counterbalances the decline in gold

and prices are steadily held. The sales for the week include 3,127 bags Maracaibo, part at 17½c. gold; 1,327 bags Ceylon, on private terms; 770 bags Rio, ex Jeanette, at 13c. gold; 200 bags, ex Minnie Abbie, at 13½c. gold, and 1,032 bags Manila at 19½c. gold.

Imports of the week have been only 3,508 bags of Rio per Nora; 2,802 bags of Laguayra, and 310 bags of sundries. At Baltimore 3,800 bags of Rio have arrived per Clifton.

The imports since January 1, and stock in first hands March 5 are as follows:

SUGAR.

SUGAR has continued in active request during the entire week, notwithstanding the reduction of currency prices to correspond with the lower prices for gold. The market closes more steady and rather firmer. The sales include 5,000 hhds. Cuba and Porto Rico, and 3,500 boxes Havana.

Imports of the week have been larger in hhds. of sugar, both at this and other ports, amounting to 5,536 hhds. at New York, and 4,784 at the other ports. There have also arrived 1,488 Havana boxes, and 9,348 bags of Mamila at New York.

MOLASSES.

MOLASSES has been in less demand, and prices have slightly receded from the advance noticed last week. The market closes quiet, with a week's sale of about 1,900 hhds. of all kinds.

Imports of the week have been on an average scale, amounting to 1,031 hhds. at New York, and 4,700 hhds. at other ports mostly of Cuba.

SPICES.

SPICES are still rather quiet, with but little more than a light jobbing trade to report. Prices are quiet but steady.

FRUITS.

FRUITS have been generally only moderately active. Raisins are a trifle lower from the decline in gold. Sardines have moved quite freely, and Turkish prunes are again quiet but steady at the advance.

Domestic dried fruits are rather quiet. State apples are in fair demand, but Western are in liberal supply, and rather lower.

THE DRY GOODS TRADE.

FRIDAY, P. M., March 15, 1867.

The dry goods trade exhibited increased activity early in the week, and recovered largely from the depression noticed in our last, caused by the desire to await the effect of the closing action of Congress. A good trade was done up to yesterday, when the market again became unsettled. This was caused in part by efforts on the part of holders to realize upon unseasonable styles of goods, the stocks of which were quite large, and a general reduction in prices resulted. The failure of Messrs. Taft & Co., cotton goods manufacturers at Providence also added to the unsettled feeling, and the market closes quite irregular. The decline in prices, however, had the effect to considerably increase the demand for goods from buyers in town or agents of houses West, and a very heavy business is doing which promises to clear the markets of any over stocks and very materially break assortments.

The export of dry goods and domestics is less this week, as will be seen from the details below:

PRINT CLOTHS are quite inactive, and the failure of the large Providence dealers in these goods has unsettled prices.

PRINTS have moved freely during the entire week. Many lots of unseasonable goods have been placed upon the market at lower prices, which, together with the failure of some manufacturing establishments, very much unsettled the market, and on Thursday prices were reduced fully one cent a yard on all leading styles. Less desirable goods are nominal. The market, however, closes quite active. American 16½, Amoskeag dark 15, do purple 16, do pink 18, do shirting 15, do palm leaf 16, Merrimac D dark 17, do purple 18, do W dark 19, do purple 19, do pink 19, Sprague's dark 17, do purple 18, do shirting 18, do pink 18, do blue check 18, do solid 16, do indigo blue 17, do Swiss ruby 17½, London Mourning 15½, Simpson Mourning 15½, Atlantic Mourning 15½, Amoskeag Mourning 14½, Garners light 18½, Dunnell's 16½, Arnolds 14½, Gloucester 16½, Wamsutta 12½, Pacific dark 17, Cocheco 19, Lowell 14½, Naumkeag 14, Hamilton 16½, Victory 13, Home 11 and 11½, Empire State 11, Lancaster 16½, Wauregan 15½.

LAWNS and GINGHAMS have been in good demand, but prices are generally less firm. Lancaster Gingham sell at 23 cents. Hartford 18, Caledonia (new) 20, Glasgow 22, Clyde 17, Berkshire 21, German 20, Roanoke 17, Bates 23½, Manchester 18.

CANTON FLANNELS are quite nominal in business and prices. Ellerton N, Bro. 35, do O do 32½, do T do 19, Laconia do 28, Slaterville do 24, Hamilton do 28½, Rockland do 17, Naumkeag do 25, Tremont do 21, Scotts extra do 20, Whittendon do 22½, Ellerton N Blea 37½, do O do 36, do P do 32½, Sal'n Falls do 31½, Methuen A do 32, Naumkeag do 26, Nashua A 21.

CORSET JEANS are in good request, and less change is reported. Androscoggin 14, Bates colored 14, do bleached 14, Naumkeag 21, Pepperell 22, Naumkeag satteen 24, Laconia 21, Amoskeag 21, Newmarket 16½, Lewiston 14½, Indian Orchard 16, Berkeley 22, Rockport 21, Tremont 12.

CAMBRICS AND SILESIAES also show little change in prices and a fair business doing. Washington cambrics sell at 14 cents, Victory 12½, do A 13, do high colors 14, Fox Hill 11½, Superior 11½, Smithfield 13½, Waverly 12, S. S. & Sons paper cambrics at 17, do high colors 19, White Rock 17, Masonville 17, and Indian Orchard Silesias 21½, Ward do at 21½.

WOOLEN GOODS are steadier in prices, but not very active. Desirable styles of cassimeres and cloths are in good request.

MOUSLIN DELAINES have been dull, and prices are reduced two cents a yard. All dark 23, Hamilton Co. 23, Manchester dark 23, Pacific dark 23, Armures dark 23, High colors 23, Pacific Merinos 40, Mourning 23, Shephard checks 23, Skirtings 30.

CARPETS are firm but not very active.

FOREIGN GOODS are in liberal demand, and the auction houses are doing a fair business. Bidding is fair but prices rule below the expectations of importers. Popular dress fabrics bring good prices, as does the range of worsted goods and plain dress goods, linen goods and other staple and seasonable goods. Bonnet and trimming ribbons are somewhat improved, as are the handsomer styles of silks. Woolen goods show but little change.

INSURANCE ITEMS.

INSURANCE REGULATIONS.—At a meeting of the Executive Committee of the Board, held March 8, the following regulations relative to warehouses were unanimously adopted, and ordered to be published for the information of the companies and the public:

First.—That from all stores, warehouses or buildings, occupied for merchandise purposes in the cities of New York, Brooklyn, Jersey City and Hoboken, located in streets of less than eighty feet in width, having fire-proof iron shutters on front, rear and sides, on all the windows (to be closed after the business hours of each day by the occupants,) and the doors of which on the street front and one window on each floor are so constructed that they can be opened from the outside in case of emergency, a deduction of ten cents may be made from the gross standard rate; provided, such buildings have first been inspected and approved by the General Surveyor of this Board.

Second.—That any store or building which shall have hoistways, dummies, or elevators, inside of said buildings and without iron slides or coverings to the same, on each floor (to be closed at night by each occupant having the use or control of the same,) shall be charged ten cents in addition to the standard rate of said store or building. Said iron slides or coverings in all cases to be inspected and approved by the general surveyor of the Boards.

INSURANCE COMPANY.

No. 35 WALL STREET, NEW YORK.

Assets, Jan. 1st, 1867..... \$1,261,349

ORGANIZED APRIL, 1844.

During the past year this Company has paid to its Policy-holders,

IN CASH,

a rebate on premiums in lieu of scrip, equivalent in value to an average scrip dividend of

TWENTY PER CENT.

Instead of issuing a scrip dividend to dealers, based on the principle that all classes of risks are equally profitable, this Company makes such cash abatement or discount from the current rates, when premiums are paid, as the general experience of underwriters will warrant, and the nett profits remaining at the close of the year, will be divided to the stockholders.

This Company continues to make Insurance on Marine and Inland Navigation and Transportation Risks, on the most favorable terms, including Risks on Merchandise of all kinds, Hulls, and Freight.

Policies issued making loss payable in Gold or Currency, at the Office in New York, or in Sterling, at the Office of Rathbone, Bros. & Co., in Liverpool.

LILLIE'S SAFES,

MANUFACTURED BY

LILLIE SAFE & IRON COMPANY.

This Company are now prepared to execute orders for BURGLAR AND FIRE-PROOF SAFES, BANK LOCKS, VAULTS, and bank work of all descriptions, under the several Letters Patent issued to Lewis Lillie. A new combination of metals has been produced, from which it is practicable to make a strictly Burglar and Fire-Proof Safe, adapted to the present requirements of the entire community, both as to security and price.

From tests made of this metal at the Novelty Works, New York, Messrs. Merrick & Sons, Philadelphia, and Messrs. Hinkley & Williams, Boston, whose reports, with those of others, will form a notice hereafter, we are authorized to say that a single plate safe of this metal will afford perfect security against burglars, however well they may have been instructed by the combined competitors of Lillie's Safes.

An extensive stock and variety is now on hand at their salesrooms, to which the attention of purchasers is requested.

LILLIE SAFE AND IRON COMPANY,

LEWIS LILLIE, President,
