Financial. SEVEN PER CENT. FIRST MORT-GAGE BONDS OF THE

NORTH MISSOURI RAIL-ROAD COMPANY.

We offer for sale the Seven Per Cent. First Mortgage Bonds of the North Missouri Railroad Company, having thirty years to 'un. Coupons payable in New York on January 1 and July 1, in each year.

year. Before accepting the agency for sale of these bonds, we made careful inquiry into the condition and prospects of the road, which was examined by Mr. Wm. Milnor Roberts and others, on our behalf and their highly satisfactory report enables us to recommend the bouds as first-class securities, and a esfe and indicious investment.

commend the bounds as invel-class securities, and a safe and judicious investment. The proceeds of these bonds (\$6,000,000 in all) will be used in extending a road, already completed 170 miles into North Missouri, to the Iowa State line, where it is to connect with the railroads of Iowa, and also weetward to the junction with the Pacific Railroad (at Leavenworth) and other railroads leading up the Missouri River, so that the mortgage of \$5,000,000 will cover a complete and well-stocked road of 889 miles in length, costing at least \$10,000,-000, with a net annual revenue after the first year of over \$1,500,000, or a sum nearly four times beyond the amount needed to pay the interest on these bonds, the income of the road of course increasing every year.

every year. The Railroad connects the great City of St. Louis with its 200,000 inhabitants, not only with the rich est portions of Missouri, but with the States of Kan sas and Iowa and the great Pacific Railroads. The first 500 (100 have been sold at \$0 cents and the

The first 500,000 have been sold at 80 cents, and the remainder are now offered at 55 cents. At this rate they yield nearly 8% per cent. income, and add 20 per cent. to principal at maturity.

Any further inquiries will be answered at our office.

The Chronicle.

THE COMMERCIAL AND FINANCIAL CHRONICLE is issued every Saturday morning by the publishers of Hunt's Merchants' Magazine, with the latest news by mail and telegraph up to midnight of Friday. A DAILY BULLETIN is issued every morning with all the Commercial and Financial news of the previous day up to the hour of publication.

The third volume of the Chronicle, from July to December, 1866, inclusive, is for sale at this Office; price, unbound, \$5 00.

legal tenders be prohibited these persons suppose that the money market will be undisturbed, and that the business of the country, which depends so much on the ease of money, will be prosperous and remunerative.

It must, however, be remembered that monetary stringen cy may result from many other causes besides mere contraction of the currency, and that contraction, if skilfully done, is quite compatible with monetary ease. Last year the currency was contracted 100 millions without producing a tight money market because the withdrawal of the paper money was done at the right time and in the right way. Now, a very much smaller withdrawal of currency might produce a very disastrous revulsion. What disturbs business now, however, is not only, or not so much the contraction which has taken place, but the uncertainty, the vague fear as to what may be done hereafter. For it is proverbial that uncertainty and fear are the destruction of material prosperity. Public confidence and public credit languish in an atmosphere of doubt and anxiety.

The other leading provision of the bill in question forbids "the Secretary of the Treasury to sell or otherwise dispose of any gold or silver coin now held by the Government of the United States, or that may hereafter be received by it trom duties on imports, as now provided by law, until the balance of specie in the Treasury shall amount to 200 millions, when it shall be the duty of the Secretary of the Treasury to give public notice that all liabilities of the Government of the United States matured and to mature will be paid in coin. It further provides that it shall be unlawful for any National Bank to sell or otherwise dispose of any gold received in payment of interests on bonds held by the Treasurer of the United States as security for the redemption of its notes while not redeeming its notes in coin, and all National banks failing to so redeem their notes within thirty days after the resumption of specie payments by the Government shall forfeit their charters." In addition to these two provisions the proposed bill authorizes the issue of 20 years' bonds, the interest of which shall be 7.3 per cent. in currency, or, after 3 years, 6 per cent. in gold, if the government choose to make the change. In these and other points this bill embodies some of the suggestions which we discussed a fortnight ago. There is but slender probability that it will be received with much atten tion, on account of its utter futility as a means of approaching specie payments, and its needlessness in every other point of view.

NEW FINANCIAL BILLS IN CONGRESS.

Although it is generally understood that no financial measures of importance will be taken up in Congress before the Fall session, several important bills have been proposed, which will lie over for consideration during the recess, that they may be acted upon with more mature information by the new members as by the old ones when the proper time arrives. Among these bills we observe that of Mr. Hooper for improving the National Bank law, and that of Mr. Randall for withdrawing the bank notes and substituting greenbacks for them. Another measure which is talked of, will, it is said, be introduced by Mr. Morrill. It has two leading features. First, it prohibits all further contraction of the legal tender currency. This provision is adapted to gratify a multitude of clamorous interests, all of which suppose they have suffered from the irregular spasmodic way in which contraction has been carried on. If the withdrawal of the

To propose to resume specie payments without contracting the volume of outstanding paper money, is too absurd a scheme to bear the test of an adequate knowledge of the teachings of financial history, or of the principles of financial science.

t

)

THE ALLEGED OVER-ISSUE OF GOVERNMENT BONDS.

The persistent and exaggerated rumors relative to an overissue of United States securities of various descriptions will we trust be silenced by a thorough examination on the part of the Joint Committee of Congress. It will be remembered that investigations were made last winter, first, by the Secretary of the Treasury, and then by a Committee of the House of Representatives. No irregularities or defalcations were brought to light by these and other investigations that have been made, and so far as such a point could be proved by the most minute and the most detailed inquiry the managers of the Printing Bureau of the Treasury Department were on each occasion acquitted of the charges laid against them. Recently, however, similar charges have been revived, and the opinion that they are not devoid of truth has received some confirmation, from the fact that there have been presented for payment certain coupons bearing duplicated numbers. These coupons purported to belong to Seven-thirties and to gold-bearing bonds, some to the Fivetwenties, and others to the Ten-forties. At the Paris Bourse the announcement of this fact produced, last week, a temporary fall in the price of Five-twenties. In London and Frankfort the effect was less decided. Here, little, if any, serious agitation has been produced. For it was believed that the irregularities would be satisfactorily explained, and that they were confined within much narrower limits than was pretended by interested speculators, who are ever busy in exagerating and spreading abroad injurious statements. Still in a matter so vitally affecting the credit of the government securities some definite information was necessary. The matter was brought up several times in Congress, and a leading member of the Senate Finance Committe very properly applied to the Treasury Department for an official statement, showing what duplicated coupons or bonds have actually been presented and paid up to the present time. To his inquiries the following official reply was made by Mr. Colby the Registrar of the Treasury :

TREASURY DEPARTMENT. REGISTER'S OFFICE, MARCH 14, 1867.

SIE .- I have the honor to transmit, as requested, a statement of coupons, seemingly duplicate, detected in this office up to November 1, 1866. The total is \$10,259. Of these, the numbers that were not counterfeited or altered were issued, of course, either by accident or fraud. From a very careful examination, made by direction of the Secretary, I have thus far been unable to find satisfactory proof of any fraudulent issue by this Department or its agents. At some of the hurrying periods of the war these issues were hastily made, and accident may fairly explain all, and consistently with the idea that the Government has suffered no loss.

I have marked those printed at New York and those at Washington, at this Department.

I have the honor to be, with highest regards, &c.. S. R. COLBY. HON. SAMUEL HOOPEE, M. C., Washington, D. C. Abstract of rumber and amount of duplicate coupons. Number. Amount. First series of Seven-thirties..... ... 405 \$18,619 97 as the original issuing of these paper evidences of debt should be carefully inquired into. The needful safeguards of the public purse, the efficient preventives of peculation and embezzlement will soon be contrived and set in operation if we only probe the alleged evil to the bottom, and learn what and where it is.

THE CHAMBER OF COMMERCE ON THE CUBBENCY.

On Thursday at a special session of the Chamber of Commerce of this city, a resolution was offered on the subject of specie payments. At an early meeting the question will probably come up for discussion, and as the action of so important an organization as the Chamber of Commerce in New York is capable, if directed wisely, of exerting a wide influence throughout the country, we print the resolution with its preamble in full. It was offered by the Hon. Fred. A. Conkling, and is as follows :

Whereas, The establishment, maintenance and universal recognition of a universal standard and measure of value have long and justly been deemed essential to the growth and development of industry, and the sure and steadfast prosperity of trade and commerce; and whereas, Our national departure from such standard was only dictated and ex cused by the exigencies and imperative necessities of a gigantic and most costly struggle for the preservation of our national integrity; and, whereas, Powerful interests are now striving to perpetuate the qualified national insolvency, thus recognized and legalized, for reasons wholly unconnected with any actual or alleged inability of the Government to resume specie payment; therefore, resolved, That in the deliberate judgment of this Chamber, it is the clear, imperative dictate of public interest and national honor that the Faderal Treasure shall at the interest and national honor that the Federal Treasury shall at the earliest possible day, resume the payments in coin, or its equivalent, of all its obligations payable on demand or from time to time falling due.

It will be seen that the only practical question submitted in this document is how specie payments shall at an early date be resumed by the National Treasury. This is certainly a difficult problem to solve, for the government debts are immense, and payment in gold would instantly make these debts more than one fourth larger than they are now. The 100 dollar greenback, which now represents 74 dollars in gold, would then enable the holder to demand 100 dollars in gold. But the government owes 1,200 millions of currency debt, part of which is payable on demand, and the rest will mature in a few months. Were government to resume, while this debt is outstanding, it would give to the creditors of the Treasury one-fourth more than their debts are worth to-day. The process would force a burden on the people equal to 300 millions of our present money, and it would lay this crushing burden for the sake of paying the public debts in a currency different from that in which these debts were incurred. This act of injustice, however, is closely connected with another. Resumption of specie payments means that not only the government shall pay its currency debts in gold, but that the people shall do the same. Here is a difficulty of formidable magnitude. Suppose to-day was the day fixed for resuming, the Clearing House balances of 85 millions in Wall Street this 556 68 053 00 420 00 morning would require for their settlement one-fourth more than would have paid those debts previously. Hence, to pay debts of 85 millions, capital would be required of the value of more than 100 millions. Sudden resumption means, the taking by force from the debtor class to give to the creditors. We will not dwell, however on the individual suffering, the universal bankruptcy, into which any rash at_ tempts at sudden resumption would plunge the country. The imagination shrinks back appalled at its terrors. The experience and business habitudes of the Chamber of Com. merce will, we presume, lead them to the conclusion that the resumption of specie payments, were it possible, would be unjust until the vast obligations of the Treasury are out of the way. These debts were incurred in currency, and to pay them in standard coin would be to overstep the conditions on which the debts were incurred, and to add a bonus to all the government creditors at the expense of the country at

Fire-twenty Bonda	32	556 63

	81	462 50

Total..... .. \$16,252 10 Of these a portion were counterfeits, redeemed before the fraud was discovered; a portion were of coupons whose numbers were altered after they were issued, and the remainder misnumbered by error. More than three fourths of the above were engraved and printed at New York, and less than one-fourth of them printed at the Treasury.

Pending the Congressional investigation it will of course be only right that the press should abstain from any remarks that might produce a mischievous, because incorrect, impression on the public mind, and might do injustice to the parties supposed to be implicated in such irregularities as have come to light, or in others of like nature which have not yet been disclosed. We will therefore limit ourselves to the single suggestion that the distributing as well as the printing of the government securities, and that the cancelling of green-backs, compound notes, and seven-thirties, as well large.

March 23, 1867.]

THE ERA OF EXTRAVAGANCE.

Time was when Americans could justly boast of the economy of their government. At an annual cost of \$77,000,-000, or 21 dollars per capita, thirty-two millions of population were governed more beneficently than the people of any other country. The achievement was one at which European publicists wondered; and, as the event has proved, one which we ourselves did not half appreciate. Our people were prosperous and self reliant; their political traditions had taught them to expect little from governments, to look with jealousy upon all central agencies, and to trust rather to individual and local effort than to the national government for the achievement of important enterprises. The same rule applied to the State organizations as to the federal; and thus the province of government being confined within nar row limits, it cost us little to be governed.

It is unnecessary to remark how completely within six or seven years, all this has been changed. The creation of a great military power appears to have produced the singular result of inducing the people to repose in official hands that power which formerly was confided to themselves alone. In the eyes of the public, the government appears to be invested almost with the attributes of a deity, capable not only of protecting them against a public enemy, but possessed of a wisdom far above their own and to be entrusted with the regulation of affairs which, heretofore, had been considered beyond its province.

Of course, opinions will vary as to the wholesomeness of this new tendency in our national politics. Upon the question of its economy there can, however, be no second opinion. In proportion as we increase the functions of the Government we extend its agencies, and extending its agencies we enlarge its expenditures; and when the rule is made to apply to the State Governments, as well as the Federal, it is apparent that this tendency must involve a large increase of taxation. The war has involved us in a Federal debt of \$2,600,000,000, which alone requires an additional yearly payment of \$130,000,000. This, it might have been supposed, would have supplied a standing argument in favor of the most stringent curtailment of expenditures; but our legislators appear to have concluded otherwise. They are surprised at the facility with which the revenue is raised, and hence conclude that there is no great necessity for economy. It was not to be expected that, immediately on the close of the war, we should witness a return to the ordinary scale of expenditures; yet it is not easily seen how, with a strict regard for public retrenchment, the expenditures, exclusive of payments on account of the public debt, should have been more than six times the amount of those for the year 1860. Such, however, is the fact, as will appear from the following comparison of the actual payments for 1860

tions of this very character, based upon no actual claim on the Government, and really in the nature of a political gratuity, that the public expenditures are being so enormously increased.

Nor is this extravagence in appropriations peculiar alone to Congress. The State legislatures show a like recklessness of expenditures. Here also the immense sums raised in support of the war have demoralized every idea of economy, and large sums of money are voted with spendthrift heedlessness. It may be safely estimated that the States, exclusive of the Southern States, have increased their debts during the war nearly \$300,000,000, while the city, town and county debts have been increased to a still larger extent, the consequent local taxation being most injurious to the interests of property holders. Yet, in spite of this immense accumulation of debt, we find our State and city governments proposing undertakings which will still further augment their obligations. In our own Legislature it is gravely proposed to increase the canal debt of the State \$10,000,000, and in the Senate a bill has actually been passed to a third reading, and that almost unanimously, granting aid to the extent of \$5,000 per mile to any road in the State that shall construct and complete twenty miles of road during the year; the Legislature of Maine has just passed an act which authorizes any town to take stock in any railroad in the State; and these are but chance specimens of the prevailing recklessness of legislation respecting the increase of corporate obligations.

The last five years have been a period of unequalled extravagance in the management of private associations. In 1864 about five hundred new companies were started in this city alone, and in many instances for objects purely chimerical.' Philadelphia, Boston, and other large cities also had their mania for new enterprises. In too many cases the object of the organization of these companies had been gained when the promoters had disposed of a certain amount of stock or had secured pay for a few acres of land at fabulous prices, and now the certificates issued by the million are little better than so much waste paper. Nor have our railroads generally shown a very conservative regard for their debts. Some have undertaken great works of construction in a period of inflation, and have consequently had to issue stocks or bonds to double the amount that would have been required in ordinary times.

We think it is high time that some check were imposed upon this recklesness in accumulating debts? A large portion of our federal, state and local war debts were contracted in a currency worth 50 to 60 cents on the dollar, and most of them will have to be liquidated in gold or its equivalent. So far as respects debts contracted for war purposes this was an inevitable misfortune. But in the case of enterprises undertaken now, or appropriations made for unnecessary objects no excuse can be given. Unless we are prepared to be stigmatised as a nation of bankrupts we must suspend this accummulation of debts, and by a system of rigid economy in every branch of expenditure prepare for the day of liquidation. Our public men and the press have, of late years, so dwelt upon the idea of our exhaustless resources, it has really become a popular belief that there is no limit to our paying powers. The apparent ease with which revenue has been raised the last two years has helped to confirm this belief. That we have the ability to meet all our outstanding obligations, and that they will be faithfully met, none can or wish to deny. It is not the possibility of repudiation that we fear; it is rather the knowledge that we shall make full payment, but in doing so shall be compelled to endure a system of taxation which will paralyze our energies and cripple our industries, unless we check this universal spirit

and 1866:

3

It surely cannot be deemed unreasonable to expect that for the current fiscal year, we should have something like an approximation to the scale of expenditures which obtained before the war; excepting in those items of expense which must be regarded as inevitable results of the war. Yet we find the report of the Secretary of the Treasury gives for the six heads of expenditure above enumerated, an aggregate of \$216,569,398 as the estimated disbursements for 1867, or \$156,710,926 more than in 1860. It is true that of this amount \$64,000,000 is apportioned for the payment of bounties; but it is also true that it is through appropria

of extravagance. Even now the country is laboring under its burdens of taxation; every interest is becoming restive under its portion of the load, and endeavoring to shift it upon other shoulders. Shall this be increased, or will those in power realize our true condition, and cease giving away the public money and lending the public faith for private enterprises?

BANK DEFALCATIONS.

We have much pleasure in inserting the following letter correcting an error which, in common with some of our contemporaries, we made last week. Our readers will see that the Baltimore bank in which Mr. Callender, the Government inspector, discovered an embezzlement of \$300,000, was the Mechanics' National Bank. We much regret having done an unintentional injustice to the Merchants' Bank of that city. The error adds another to the accumulating proofs of the necessity we have so often urged that the people should be instantly notified by the Department of such disclosures relative to any National Bank. Had an official announcement been promptly issued, the public press would have been prevented from falling into this and some other mistakes relative to recent defalcations and frauds. Congress, we trust, will insist on the full recognition of the principle that the information relative to the banks which the Department obtains by its examiners, and from the periodical reports, must be obtained not only for secret use at Washington, but must be promptly announced for the guidance of the public. The letter to which we have referred is as follows:

> MERCHANTS' NATIONAL BANK, Baltimore, March 18, 1867.

To the Editor of the COMMERCIAL AND FINANCIAL CHRONICLE: In your money article of last Saturday, and under the head of Bank Defalcations and their Remedy, you state "that the general book-keeper and the paying teller, acting in concert, contrived by a long course of villiany to rob the 'Merchants Bank' of \$300,000."

I am not aware that this bank has been robbed of a dollar. The above remarks apply to the "Mechanics' Bank" of this city, and not to the Merchants' Bank.

> Yours, respectfully, D. SPRIGG, Cashier.

TRADE OF GREAT BRITAIN AND THE UNITED STATES FOR

THE YEAR 1866. COTTON, BREADSTUFFS, TOBACCO, ETC.

After a period of more than usual delay, we have at length received the trade returns of Great Britain for the past year. In many respects, they are of more than ordinary interest, while they indicate the existence of a larger trade than has heretofore been carried on by any one country since international trade became the active pursuit of men. Much of this increase is due to the fact that previously to the failure of Overend, Gurney & Co., in May last, unusual facilities for obtaining advances were given the British merchants. The late crisis, however, has reduced the number of banking, financial and discount establishments in Great Britain, and many commercial houses find greater difficulty in raising money, hence, this class of traders-one, indeed, which is very numerous-is compelled to act with much more circumspection, and we anticipated, therefore, that the trade of this year will fall somewhat below that of 1866. Still it must be observed that our high tariffs, and constant changes in our tariff regulations, afford British merchants abundant opportunity for competing to great advantage with our own manufacturers, a circumstance, in our age of keen and active competition like the present, likely to be quickly embraced by our rivals in commerce. It would, therefore, not surprise us if, after all, the British Board of Trade returns for the present year, show a result not much below last year, while, as regards the profits attached to it, the comparison would undoubtedly favour 1867.

duce and manufactures from Great Britain and Ireland last year amounted to £188,827,785; against £165,835,725 in 1865, and £160,449,053 in 1864. There is, therefore, an increase last year of about £23,000,000 as compared with 1865, and of about £28,400,000 as compared with 1864. In the exports to the United States there is an increase of about £7,200,000; to Egypt, £1,600,000; to China, £1,500,000; to Brazil, £1,500,000; to the Argentine Confederation, £800,000, while to all foreign countries the exports show an increase of £17,000,000. To the East Indies there is an increase of £1,700,000; but as regards Australia, the increase is confined to £350,000. As bearing more particularly on this country, it must be noticed that the exports of the above mentioned articles to Canada in 1866 were valued at £6,830,040 against £4,707,728 in 1865, being an increase of £2,100,000' a circumstance to be ascribed, in a great measure, to the abrogation of the Reciprocity Treaty. The following statement shows the declared value of the exports of British and Irish produce and manufactures to all quarters in each month last year, and in 1865 and 1864:

1864. £ Jan 10,413,586 Feb 12,698,121 Mar 13,555,674 April. 13,225,033	11,376,214 13,770,154 12,071,111	15,116,063 17,520,354 15,366,414	Sept. 14,687,942 Oct. 12,871,491 Nov. 12,065,213	17,216,681 15,547,225 15,567,742	16,671,078 16,895,894
May . 14,176,640 June. 13,978,526 July . 14,394,364	13,194,758 13,227,062	15,870,131 14,630,120	Nov 12,065,213 Dec 12,095,437 Total160,449,053	15,030,088	15,080,430 14,914,563

Of these, the shipments to this country for the twelve months were as under:

To Atlantic ports, Northern Southern Pacific ports	1864. £15,711,127 87,876 909,502	1865. £20 339,299 890,214 498,443	1866. £26,261,074 1,421,420 801,652
Total	£16,708,505	£21,227,956	£28,484,146

Although the export demand for cotton at Liverpool has recently fallen off to a very important extent, while during the closing months of last year, the business doing for shipment to the Continent was comparatively small, the total export of cotton from Great Britain last year was 700,000 cwts. in excess of 1865, and about 1,280,000 cwts. greater than in 1864. The particulars of exports are as under:

EXPORTS OF COTTON FROM GREAT BRITAIN IN 1864, 1865 AND 1866.

BREADSTUFFS.

This country makes a very poor figure in the import return of wheat and flour; but, on the other hand, Russia, in the southern portion of which country the crop of wheat is superior in quantity to any other part of the globe, shows an increase of about 800,000 cwts. In the importation from France there is an augmentation of 1,220,000 cwts., a fact to be accounted for by the large importation during the past nine months of the year. France, however, is still an exporter of wheat and flour, notwithstanding the many reports in circulation that her crop was so greatly deficient. In December, for instance, the import of wheat and flour was 378,000 cwts.

TOBACCO.

The imports, consumption and exports of tobacco in the twelve months were as follows:

IMPORT. 1866 1864. 1865. 19,778,433 10,840,822 20,741,403 Stemmedlbs. 84,596,867 3,171,906 45, 343, 454 Unstemmed 50,201,845 Manufactured and snuff..... 6,578,705 2,660,683 QUANTITIES ENTERED FOR CONSUMPTION. 12,929,668 12,190,629 14,178,618 26,165,576 25,934,968 Unstemmed. 24,544,674 Manufactured and snuff..... 764,346 12,190,629 831,575 EXPORTS. 583,214 Stemmed.....lbs. 789,760 324,583 17,975,795 2,065,152 13,089,806 16,077,976 Instemmed Manufactured and snuff..... 3,448,473 1,547,543 SHIPPING.

1,512,998

The bonded debt of the State of Georgia, as existing on the 15th day of October, 1866, is made up of the following conconstituents, viz.:

Bonds issued in favor of Western & Atlantic RR Bonds under act of March 12, 1866	\$1,942,000 734,000 3,030,000
Total outstanding October 15, 1866.	\$5,706,500

The issues under the authority of the act of March 12th, were made (1) for the repairs and equipment of the Western & Atlantic Railroad \$1,500,000; (2) for, or in substitution of certain bonds authorized by the Convention of 1865, \$100,000; (3) for the payment of the U.S. Land Tax apportioned to Georgia, \$600,000, and for the renewal of bonds past due, and the funding of interest coupons \$830,550. These bonds are secured by a mortgage of the Western & Atlantic Railroad, from the earnings of which the interest at seven per cent. and a contribution to a sinking fund of three per cent. are to be paid annually until the bonds are redeemed.

The following is a statement in detail of the bonds outstanding at date, as reported by the Hon. John Jones, State Treasurer:

	against 1,271,000 cwts. in 1865, and although the decline is	surer.

All coupons due after August, 1866, are to be paid in currency at the assigned agencies or at the State Treasury.

The available resources of the State consist of the Western and Atlantic Railroad, about 137 miles, owned exclusively by by the State, built at a cost of \$4,441,532 and valued at about \$8,000,000, 8,345 shares in the Atlantic and Gulf Railroad, and 186 shares in the Georgia Railroad. The unavailable assets of the State consist of 1,833 shares of stock in the bank of the State, and 890 shares in the bank of Augusta, and some remain of an interest in the Central Bank. The valuation of property, real and personal, owned in the State, not including slave property, was in 1860, \$369,627,722. The current valuation is not stated in the report from which the present statement is made up; but whatever it may be, the tax proposed to be levied on it is \$450,000 a year, distributed ad valorem. Besides this general tax several specific taxes are levied for the support of the Government and other purposes. A capitation tax of \$1 on every male inhabitant between 21 and 60 years of age, and taxes varying from \$10 to \$25 on professions and specified employments. Gift enterprise men are to pay \$1,000 down before commencing business. Liquors pay 20 cents a gallon, but are exempt from the ad valorem tax; and any dealer failing or refusing to make true returns is fineable in the penalty of \$1,000. The law of March 3, 1866, indeed is remarkably severe, and the oath required on disclosure of property so searching as to preclude escape. The tax on incomes ordered by the convention of 1865, was discontinued by the Revenue Law of 1866.

The receipts into the Treasury for the year ending October 15, 1866, were largely from temporary loans and sales of bonds. The receipts from taxes were light, and chiefly from banks, railroad and express companies and foreign insurance agents, and the specific tax on sales of liquors which is collected quarterly. The account current for the year ending as above, is shown in the following schedule:

RECEIPTS.	PAYMENTS.	
Balance Oct. 15, 1805 \$5,201.086 1	Civil establishment, 1864.	
Temporary loan 657,424 2		\$2,250 00

• , • ,		0,401,190 2

-leaving a balance as of October 15, 1866, of \$171,752 05. The probable resources of the State Treasury for the current year (1866-67) are estimated at \$882,252 05, and the revenue as is here estimated for, from a population of less than a million souls, two-fifths the number only just emerged from the condition of slavery, is a sure test of financial vitality. No further loans are wanted; all old accounts are liquidated, and once again the two sides of the public ledger are balanced.

[From our own Correspondent.]

LONDON, Wednesday, March 6, 1867.

Until to day very little has transpired in any department of business of sufficient importance to alter the tone of our markets, either in a faverable or unfavorable direction. The collision, however, which has taken place between the Fenians and the police in Ireland has produced. rather a heavy feeling in the Stock Exchange this afternoon, and con sols have declined in value to the extent of 3-16 per cent. Apart from this circumstance, the effect of the disturbances has been trivial, al though, it must be admitted, that the unsatisfactory state of Ireland tends naturally to delay the restoration of confidence and the return of active trade. In a commercial point of view, business remains in the same condition as noticed for several weeks past. In all quarters there are complaints that there is, so to speak, no business, and it is quite certain that transactions in nearly all articles are confined to the narrowest possible limits. However, there are do failures of importance amongst mercantile houses ; but the smaller class of tradespeople have met with some difficulty in meeting the bills which have matured this week.

There has been a fair but by no means active demand for accomodation since Saturday. At the commencement of the week the inquiry was good, in connection with the fourth of the month, and with the maturing of a large amount of miscellaneous paper. Now that these engagements have been met the demand has fallen off, the market to day presenting rather a quiet appearance. As regards prime paper, business has been done as low as $2\frac{1}{2}@2\frac{1}{2}$ per cent.; but the more general minimum in the open market is 22 per cent. There is very little discussion with regard to a further reduction in the Bank rate, and it is now maintained by most persons that the existing minimum will remain in force for some time to come. It is a fact worthy of notice that, notwithstanding the low rate in the discount market, there is comparatively little speculation, either in the stock exchange or in produce, and it may be gathered from this circumstance that much uncertainty prevails with regard to the future course of prices. The current rates for bills, having various periods to run, are now as under ;

362

expenditures at \$879,705 06. The income from each source is thus estimated—general tax \$450,000; tax on banks and railroads, each \$5,000, and on foreign insurance agencies \$10,000; tax on liquor sales \$60,000; dividends from Atlantic & Gulf RR. \$20,000, and net earnings of Western & Atlantic RR. \$250,000. The disbursements include \$100,000 for the Assembly \$76,000 for the civil establishment, and \$307,000 for interest on the public debt. There is also included in the estimate of disbursement \$86,000 for repayment of temporary loan and \$106,805 06 for undrawn balances of old appropriations—together \$192,805 06 not belonging to the current year; leaving the actual necessary expenses of the State at \$686,900.

From the exhibits above given it is quite apparent that Georgia is rapidly recovering from the prostration caused by the late hostilities. A State that is able to raise such a

The rates on the Continent remain without material variation. At the leading cities the employment for money in commerce is trifling; but several Continental governments appear to be greatly in want of pecuniary aid. Such is very decidedly the case with Portugal, a country the finances of which are in a very unsatisfactory state, and the government appears desirous of coming to our market for a loan. The large supply of unemployed money here and the easy terms at which ad

vances can be obtained when the security offered for their repayment is good, appear to have induced several continental nations to disclose the state of their finances, all of which have been unsatisfactory in the extreme. Portugal appears to want about £4,700,000: and should her government appear in our market for such a sum, there seems to be but little doubt of the fact that it would be compelled to raise the money at a price which would be a heavy burden to the country for some time to come. Austria, another country in difficulties, has asked for a loan of £6,000,000, the security offered being the Government domains. The loan has been brought out at Vienna by the Credit Foncier of Austria; but in order to secure the amount, the loan is divided into 500,000 obligations of £12 each, so that the prudent artisan may have the opportunity of investing his small savings. Greece is another semibankrupt country, and the Deputy Governor of the National Bank of Athens has arrived in Eugland to conclude some definite arrangement with r-gard to the loan of 1824-5, as a preliminary step to the introduction of a new loan. Italy seems to want money, while Russia requires a further supply "for public works." So it may safely be presumed that if all the applicants could offer us good security, our unemployed capital would soon be directed to some channel, while our money market would generally become more stringent than is now the case. I have omitted one country, viz, Egypt, and it seems probable that the loan which was meditated several weeks since will be brought out in the course of the present year.

The rates for money on the Continent are as under :

	Bank	Open market.		Fank rate.

Amsterdam	35	3	St. Petersburg	7	8.00

On Monday and Tuesday the consol market was firm, with a tendency to improvement, the three per cents for the April account being at one time 915 "buyers." The Fenian disturbances in Ireland have depressed the market to-day, and the "account" price is only 90% 91. There is no doubt, however, that with the return of order in Ireland the market will again become firm, and the decline in the quotations prove but temporary. The highest and lowest prices of consols in the days enumerated are subjoined :

	Three days ending March 6.	Mon.	Tues.	Wed.
~	and the second

About £500,000 in Mexican dollars, brought by the West Indian steamer, have been sold this week at 59d. 1 per ounce. Fine bar silver is quoted at 60%; and parting gold at £3 17s. 11d. per ounce.

An advance of two per cent. took place in the rates for council bills on India at the fortnightly sale held at the Bank of England to-day The minimum for Calcutta and Madras is now 1s. 111d., and for Bombay 1s. 112d, the rupee In consequence of this advance very few bills were sold.

United States' Five-twenty Bonds are firmer, and close this evening at 732 to 74. Atlantic and Great Western Securities also show more firmness, the Certificates of Debenture being 30@32, and the Consolidated Mortgage Bonds, 244@251. A meeting of the Committee of Investigation was held yesterday, when Sir William Russell, M. P., was called to the chair. Mr. Samuel Laing, M. P., and Sir Morton Peto, M. P., addressed the meeting. The result was that Sir William Russell M. P., Crawshay Baily, M. P., John Fildes, M. P., and Stephen Cave, M. P., were appointed to theroughly investigate the affairs of the company. Other American securities are flat. The following statement

Towns, and £1,014,770 to the United States. Of the total import of silver in 1866, viz : £10,777,498, £820,961 was received from the Hanse Towns, £2.498,530 from France. £4,486,163 from Mexico, and £1,833,-207 from the United States. The principal exports of silver in the same year were £998,211 to the Hanse Towns, £1,284,015 to Holland, £855,332 to Belgium, £2,090,118 to France, £389,644 to China, and £2,148,26 India. The total import and export of gold and silver into and from the United Kingdom is shown in the appexed statement:

The latest prices for United States' Five-twenty bonds ou the Continent are: Amsterdam, 77 3-6; at Frankfort, 767, and at Berlin, 771. The movements of the precious metals last year were important and extensive. The import of gold was as much as £23,509,641, of silver $\pounds 10,777,498$; while the export of the former amounted to $\pounds 12,742,059$, and of the latter to £8,928,628. The import of gold in 1865 was valued at £14,485,570, in 1864 at £16,900,950, the export in 1865 being £8,493,332, and in 1864 £13,280,311. The import of silver in 1865 amounted to £6,976,641, and in 1864 to £10,827,325, while the export of the same commodity was £6,717,662 in 1865, and £9,877,204 in 1864. With regard to last years import of gold we find that £2,843,556 was received from France, £6,839,674 from Australia, £1,841,384 from Mexico, and £8,412,286 from the United States. The principal exports were £8,465,243 to France, £457,941 to Egypt, £622,084 to the Hanse pots 33s. 6d.

Scotch pig iron (mixed numbers) declined from 53s. on Saturday to 51s. 6d. on Thursday.

COMMERCIAL AND MISCELLANEOUS NEWS.

IMPORTS AND EXPORTS FOR THE WEEK .- The imports this week show a decrease in dry goods, and a small increase in general merchandise, the total being only \$4,601,700 against \$4,806,103 last week, and \$5,898,954 the previous week. The exports are \$4,315,395 this week, against \$5,041,946 last week, and \$4,492,564 the previous week. The exports of cotton the past week were 13,856 bales, against 22,044 bales last week The following are the imports at New York for week ending (for dry goods) March 15, and for the week ending (for general merchandise) March 16:

FOREIGN IMPORTS AT NEW YORK FOR THE WEEK.

Dry goods General merchandise	1864. \$2,463,413 2,786,711	1865. \$1,143,081 2 562,202	1866. \$3,183,369 2,626,509	1867. \$2,272,278 2,329,422

FRIDAY, March 22, 1867, P. M.

THE MONEY MARKET .- The loan market has shown increased firmness during the week. The last statement of the Associated Banks shows that the banks commenced the week with a reduction of \$2,324,000 in deposits, a loss of \$1,710,000 in legal tenders, and an increase of nearly \$1,000,000 in loans. The banks have since been, to a certain extent, influenced by a desire to keep their affairs in a conservative position, preparatory to the making up of their regular quarterly statement at the opening of April. The New York banks held, at the close of last week, a lawful money reserve (including specie), of \$72,781,761, or 311 per cent. of their combined deposits and circulation, which may be considered a strong showing, and not requiring, on their part, any dressing up for official inspection. They hold, however, large deposits on account of interior banks, who may not be presumed to be in such a conservative position; and, in order to keep themselves well prepared for any possible drain from that source, they have probably loaned this week with less freedom.

for FRASER

It is apparently owing to this cause almost exclusively that the rate of interest on demand loans has been advanced to 7 per cent. during the week, the transactions at 6 per cent. being, at the close, quite exceptional; on Government collaterals the rate is 5@6 per cent.

The movement at the Sub-Treasury has been in favor of the money market; the balance last evening being \$2,107,468 less than at the close of Monday.

As there appears to be, in some quarters, a mistaken supposition that the quarterly statement of the banks is required to show their average condition for the three months, and not on a given day, we present the following extract from the bank act of June 3, 1864:

"Every Association shall make to the Comptroller of the Currency a report, according to the form which may be prescribed by him, verified by the oath or affirmation of the President or Cashier of such Association, which report shall exhibit in detail, and under appropriate heads, the resources and liabilities of the Association before the commencement of business on the morning of the first Monday of the months of Jauuary, April, July and October of each year."

The improved activity in trading operations has caused an in-

Per cent.

UNITED STATES SECURITIES .- The market for governments has ruled quiet throughout the week, with unimportant fluctuations in prices. The only exception has been in the case of conversions of Seven thirties into Five twenties, which have continued to be on a liberal scale. To-day the Assistant Treasurer suspended the allowance of a commission to brokers upon the presentation of Seven-thirties for conversion, the public and the dealers being now upon an equal footing. There has been rather more movement in compound notes, with a view to their presentation for purchase at the Sub-Treasury, which allows for them compound interest to date and } per cent. premium. The activity appears to be confined chiefly to those issues maturing at the earlier dates.

At London Five-twenties have been unusually steady, the price for the week having ruled at 741@741. A considerable amount of bonds sent from this side during late weeks, is now in course of distribution; and the fact that the price is so well sustained under the fresh supply, augurs well for the standing of our bonds abroad. The bonds of 1867 and 1868 have for some time past shown a weak tendency, which, apparently, is to be accounted for by the

lack of confidence in gold maintaining its present premium up to the date of their maturity.

At the close of the week, Five-twenties of 1862 show an advance on the quotations of last Friday of 1c, Five twenties of 1864, 1; Five-twenties of 1865, 2; Five-twenties of 1865, new, 8; Tenforties, 1; Seven-thirties, 1@8.

The following are the closing prices of leading securities, compared with preceding weeks :

An effort is being made to found an exchange for Government Securities above, the board to be open throughout the day, as in the case of the Gold Room. It would appear, however, that the proposal, though backed by some influence, is not likely to command much support, and its adoption is doubtful.

RAILROAD AND MISCELLANEOUS STOCKS .- There has been a moderate degree of activity in stocks throughout the week, and upon the whole, a firmer tone in prices. Although the market shows more speculative firmness than of late, there is a disposition in view of the advance in money to 7 per cent., with no apparent prospect of an easier loan market during the remainder of the month, to defer operations until April, when, if we rightly interpret indications, a brisk movement may be anticipated. At present, there is a considerable "short" interest outstanding upon certain stocks, and it is not im probable that those interested in such contracts may make an effort

Treased and second second						

THE GOLD MARKET .- The course of the premium on gold has been steady, the range of fluctuations having been about 1 point for the week. The Treasury appears to be steadily following the policy of selling a portion of its daily receipts, so as to cause the drain upon the banks for customs duties to be lightly felt. This has the effect of counteracting speculation, and of keeping the market steady. It will be seen from a subjoined statement that, during the week ending March 16, nearly two millions of gold came from the Sub-Treasury and other sources of which there is no registered account. The present rates of exchange are too low to admit of any important shipment of gold, even in the shape of bars.

On the 1st of May about \$24,000,000 becomes payable by the Treasury on account of interest on Five-twenty bonds. Of this amount about \$10,000,000 is due to foreign holders; and supposing that no portion of their share should be reinvested in additional bonds-a supposition not consistent with experience-there would remain \$14,000,000 of coin to go into the banks. The anticipancy to keep the premium

In wool there is a slow but steady advance, and domestic fleece may now be written ten cents per lb higher than Ech	Ger- Manny 2 11 2 11 2 21 2 21 2 21 2 21 2 21 2 2

[March 23, 1867.

368

fleece may now be written ten cents per lb. higher than February prices. Manufacturers buy only to meet their present wants, but woolen goods meet with a better sale, and the manufacturers are increasing their operations.

Freights have been steady. Full rates have been maintained, and there are complaints of the scarcity of vessels. The principal shipments have been Cotton and Provisions with some Corn to Great Britain, and Petroleum aud Cotton, with some Tobacco to the Continent.

The following table, compiled from Custom House returns, shows the exports of leading articles of commerce from the port of New York since January 1, 1867, the principal ports of destination, and the total for the same period in 1866. The export of each article to the several ports for the past week can be obtained by deducting the amount in the last number of the CHRONICLE from that here given:

PORK AND BEEF PACKING at MILWAUKEE .- The Milwaukee Sentinel f Monday contains full reports of the meat packing there this season,

COTTON.

FRIDAY, P.M., March 22, 1867.

We have this week a still further decrease in the receipts of cotton, showing, in fact, an unusually rapid decline; but the advices by telegraph would indicate that our next weeks table will exhibit a slight increase over the present figures. The total at all the ports for the week amount to 40,776 bales, (against 51,236 last week, 61,294 bales the previous week, and 73,574 bales three weeks since,) making the aggregate receipts since September 1, this year, 1,484,611 bales, against 1,545,830 for the same period in 1865-6. The details of the weeks receipts are as follows :

Received this week at*— Re New Orleansbales Mobile Charleston	13,359	Floridabales North Carolinabales Virginia	1,800
Texas. Tennessee, Kentucky, &c	5,299 6,495	Total receipts for week	40,776

The exports this week show an increase of shipments from the Southern ports, but on account of the large falling off at New York, the total exports from all the ports are less amounting to only 55,305 bales, against 60,288 bales last week, and 56,357 bales the previous week. Below we give the details of these shipments, showing 37,737 bales sent to Liverpool, 7,092 bales sent to Havre, 30 bales to Bordeaux, 1,072 bales to Barcelona, 1,296 bales to Hamburg, and 5,303 bales to St. Petersburg, as follows:

Total exports this week	37 7,092	30	1,072	2,775	1,296	5,303	55,305

The total foreign exports from the United States since September 1 now amount to 843,456 bales, against 913,835 bales for the same period last year, and the present stocks are 593,052 bales, against 562,707 bales at the same time in in 1866. Below we give our usual table of the movement of Cotton at all the ports since Sept. 1, showing at a glance the total receipts, exports, stocks, &c.:

Receipts and Exports of Cotton (bales) since Sept. 1, and Stocks at Dates Mentioned.

		EXPORT	SHIP-

on which it comments as follows :

From a glance at the Statistics given below, it will be seen that the pork packing during the past season foots up 133,370 head, against 87,853 the previous season, and 107,229 during the season of 1864-5. This is an increase of 45,517 head, or nearly 50 per cent. over last season. The beef packing, however, shows a different result- there being a steady falling off in the number of cattle packed during the last three seasons-aggregating 7,044 head during the season just closed, against 10,716 last year, and 18,978 in 1864-5. Of the stock of hog products on hand. no very accurate idea can be given, as one of the principal packers refused to give any information whatever concerning the amount held by him. An approximate idea of the stock of pork and lard, however, may be gathered by comparing shipments since the opening of the season, with the results of the packing.

The number of hogs packed by each house is shown below : Ar Ihe

The market the past week has been in very irregular and unsettled state, the fluctuations being unusually large, with only a moderate business. On Saturday the favorable advices from Liverpool, quoting middling uplands at 131d., together with the large decrease in the receipts at the ports, produced considerable activity; but on Monday, in the absence of news by the cable, the market was quiet. On Tuesday Liverpool telegrams quoting middling uplands at 135d. only served to steady this market, in the face of the revival in the daily re-

* In this table, as well as in our general table of receipts, &c., we deduct from the receipts at each port for the week all received at such port from other Southern ports. For instance, each week there is a certain amount shipped from Florida to Savannah, which in estimating the total receipts must be de-ducted as the same shipment appears in the Florida return. We are thus par-ticular in the statement of this fact, as some of our readers fail to understand it. + The receipts given for these ports are only the shipments from Tennessee

Kentucky, &c., not otherwise enumerated. [†] These are the receints at all the ports of Florida to March 15, except Apalachicola, which are only to March 9. [§] Estimated. The stock at New York is also estimated. 978

ceipts reported by telegraph from the South. On Wednesday there was a decided decline in sympathy with the reported downward movement at Liverpool, and the depressed state of the trade at Manchester. Export orders were mostly withdrawn, and yesterday and to-day, under continued unfavorable European advices (middling uplands, at Liverpool, being quoted this afternoon at $13\frac{1}{4}$ d.) the market has been dull and lower, and closes fully 2c. below the highest point on Tuesday, when middling uplands were quoted at $32@32\frac{1}{2}$. The sales of the week are about 17,000 bales, mainly for export.

The following are the closing quotations :

		t 1 •	· N	. Orleans

* By steam.

The market the past week has shown considerable activity at steady improving prices, under the more favorable advices from New York and Liverpool, closing at 30 c. for middlings. The sales reach 25,600 bales CHABLESTON, March. 16 .- The receipts for the week ending March 15, amount to 2,923 bales, against 4,332 bales last week. Shipments for this week amount to 3,250 bales, (against 4,104 bales last week), of which 1,289 bales were to Liverpool, 1,876 bales to New York, 82 to Baltimore, and 3 to Savannah. The receipts, sales and exports of a series of weeks, and the stock, price of mid ling, rates of freight to Liverpool and New York, and price of gold at the close of each week since Jan. 4, were as follows:

The market opened this week very dull, and continued so, with very limited sales, until the last day or two, when a good demand sprung up at better prices, middling closing firm at 291 cents. Freights show no change. We quote to Liverpool 7-16@1d. for square, and 1d.@7d. for round bales. Steam to New York and Boston 1c., and to Philadelphia c, and Baltimore c. In sailing vessels cotton is taken at c. New York, and c. Boston.

GALVESTON, March 9 .- We have received one week's later statement by mail from Galveston. The receipts for week ending March 8, were 5,299 bales, against 7,766 last week, and the shipments were 6,289 bales, of which 307 bales were to Liverpool, 1,623 bales to Bremen, 3,163 bales were to New York, 773 bales to Boston, and 423 bales were to New Orleans. Below we give the receipts, and shipments for a series of weeks, and the stock, price of middling, rates of freight to Liverpool and New York, and price of gold at the close of each week :

* Specie.

† Per steamer.

Considerable business has been done this week in the cotton market at somewhat lower figures, but the close is so unsettled, and the views of buyers and sellers so different, that the quotation we give is nearly nominal. Exchange-sight on New York we quote cotton bills # per cent. discount, and Bankers bills 1 per cent. discount to 1 premium. Freights to Liverpool are steady at §; to New York, by sail, §c., and by steam 11c.

TOBACCO.

FRIDAY, P. M., March 22, 1867. We have to give the record of another week of small exports of tobacco. From Baltimore there have been literally no shipments of crude, and less than 2,000 pounds of manufactured; but from New York and Boston the movement in cases and bales has been large, and in hhds. very small. As, however, the receipts at these ports, especially at New York, are from week to week becoming more liberal, the stocks are also slowly increasing, and with increased stocks we may expect soon to see a revival in shipments. The total exports this week from all the ports amount to 232 hhds., 1,388 cases 1,295 bales, 20 tierces, 5 boxes and 120,184 manufactured pounds, as follows:

With better supplies there has been more actual business, mainly for export. Kentucky has sold to the extent of about 500 hhds., taken mostly for export to the Mediterranean and the Baltic, at prices ranging from $4\frac{1}{2}$ to 18c. In Virginia tobacco there has been very little done; some 50 hhds. changed hands at 4@17c. Seed leaf tobacco has also been active for export, prices have been mostly kept private, but the market has been in favor of the sellers. The transactions embrace 200 cases Ohio 7@12c., 800 do do, crop of 1863, private terms, principally for shipments, 44 cases Conn., crop of 1865, 15c., 150 do Ohio old, private terms, 34 do State 10c. There is less doing in manufactured, aud we here of nothing in foreign tobacco.

to purchase, but the stock is too small to allow of any scope for operations. Supplies of the new crop would sell readily at high prices. Owing to the small offerings, only a few hogsheads have been sold during the past few days. Prices are very dull. Arrived since the 12th inst. 84 hhds. Cleared since the 12th inst, for Liverpool 47 hhds. Stock in warehouses and on shipboard not cleared, on the 15th inst.. 1,802 hhds.

MARYLAND.—At Baltimore receipts, though improving, are still quite light, and the market presents no new features. Shippers continue to buy sparingly, and factors, on account of the light stock, hold firmly. These remarks apply to both Maryland and Ohio Leaf: Kentucky is dull and nominal Inspections this week—271 hhds. Maryland, (96 re-inspected,) 142 Ohio and 2 Kentucky—total, 415 hhde. None cleared for foreign ports the past week. We renew quotations, viz.:

BREADSTUFFS.

FRIDAY, March 22, 1867, P. M.

The Market has shown considerable irregularity during the past week, and so closes. Buyers are very timid in view of the high prices, and yet anxious lest the small supplies and reducing stocks should leave them without the ability to serve their customers. There is some speculation on Western account.

Flour has advanced in price slowly but steadily, and at the close the tendency is upward. Receipts of Western Flour are very small, and stocks rapidly diminishing. It is estimated that during March, the stocks in store will be reduced 120,000 bbls. But the demand is scarcely so pressing as last week. The demand from the South has fallen off materially, and accounts from that quarter reports the markets glutted.

Wheat has been taken steadily, though less liberally; by local millers; prices have further advanced, and close firm. The stocks in store are scarcely sufficient to maintain even the reduced rate of consumption until supplies can reach this market by canal. But the state of stocks at the West promise no considerable supplies until the new harvest. We may get some Wheat from the South in July—perhaps late in June but not enough to effect prices.

Corn has receded somewhat, mainly owing to less buoyant accounts from Liverpool and to a desire to realize the late advance. Oats have also declined, and the tendency is strongly downward. Rye is dull at the advance, which has been mainly speculative. The stock is large for the season. The stock of Barley has been greatly reduced, but is still liberal for the

GROCERIES.

FRIDAY, March 22, 1867, P. M.

The Grocery Trade has been less active, and with a genera declining tendency during the entire week. The storm somewhat interrupted trade at the beginning, and advices of lower prices at the places of shipment of some articles has tended to lower rates here. The general country trade is reported as very quiet, and the jobbing trade report light orders and a general expectation of lower prices.

TEA.

TEA has been dull, and prices are rather irregular and lower for a few kinds. There is only a very moderate demand at the close, and prices are weak. The sales of the week reported from first hands are 3,900 half-chests Greens, 3,300 do Japans, and 5,000 do Oolongs.

Imports of the week have been 536 pkgs. from Liverpool per steamer; 6,504 lbs. imperial and 1,266 lbs. gunpowder, per Powhattan, from Whampoa; 4,250 lbs. Congou and Souchong, 6,453 lbs. Twankay, 1,057 lbs. hysou skin. 80,679 lbs. hyson, 642,381 lbs. young hyson, 205,649 lbs. imperial and 167,244 lbs. gunpowder, (making a total of 1,108,400 lbs.) per Antelope. from Shanghai.

near close of the malting season. Prices have receded 2@3c. per bushel, and will probably go back to easy export figures Peas have been quiet but firm.

Hong Kong, Jan. 15, 1867.—The advices from England and America have not been encouraging as to the home market, and operations have been generally checked. Only at Foochow was a reduction made by teamen, which having the effect to stimulate purchases the price was again advanced.

At Yokohama there have been few transactions and prices for the lower grades have declined from \$1 to \$2 per picul.

)

THE CHRONICLE.

COFFEE.

COFFEE has been quiet in part from light stocks offering. The reported light shipments from Rio has tended to keep prices steady, and the market closes quiet at last weeks quotations. The sales are 19,400 mats Java at Boston to come here; 700 bags Laguara at 17@.9c., gold duty paid, 1,300 bags Santos; 2,000 do Ceara, and 3,500 bags Rio ex Nora at 124c. gold in bond, and 3,300 bags ex Lubec on private terms.

Imports at New York have been only 70 bags of sundries, at Boston 15,454 bags from Padang, and 584 bags of Hayti.

Imports at Baltimore have been 3,400 bags of Rio per Lottie Beard, and 3,000 per Cricket.

The imports since January 1, and stock in first hands March 5 are as follows:

THE DRY GOODS TRADE.

FRIDAY, P. M., March 22, 1867.

The dry goods trade was somewhat interrupted by the storm, and consequently less active early in the week. This depression was also in part owing to the absence of the low priced goods thrown on the market last week for the purpose of realizing, and which were generally sold out. Buyers showed a disposition to wait for some new event before purchasing. But the higher price for the raw material caused greater confidence and considerable firmness on the part of holders of goods, and in some cases higher prices were asked, but generally holders submitted to the quotations established at the reduction of last week. Later this week buyers entered the market with renewed animation, and a very large trade has since been done. The decrease in the cotton market yesterday and to day tends to soften prices of low goods and of unseasonable makes of goods. The exports of the week are quite liberal, as the following details will show :

-			2			
		-FROM	NEW YOR	K	FROM BO	STON.

TICKS are in good demand at the close, and prices are unchanged. Conestoga C M $42\frac{1}{2}$, Amoskeag A C A 49, co A $38\frac{1}{2}$, do B $33\frac{1}{3}$, do D $23\frac{1}{2}$, do C $28\frac{1}{2}$, Peinberton A A, $36\frac{1}{3}$, Brunswick 20, Blackstone River 21, Hamilton $35\frac{1}{2}$, do D $32\frac{1}{2}$, Somerset 18, Thorndike $22\frac{1}{2}$, Pearl River $47\frac{1}{3}$, Harvest 34, Hancock A A $29\frac{1}{2}$, Pittsfield 12, Bunkerhill 24, York 80 inch $36\frac{1}{3}$, Cordis AAA 42, Everett 23, Boston AA $32\frac{1}{2}$, Swift River 21, Eagle 4 4 $37\frac{1}{2}$, Winnebago $12\frac{1}{2}$, Bultic 12.

STRIPES are in light demand only. Amoskeag 28 and 29, Uncasville 20 and 21, Whittenton A 3-3 26, do B B 20, Pittsfield 3-3 12¹/₂, Pember ton Awn 45, Haymaker 21¹/₂, Everett 21, Massabesic 6-3 28 and 29, Boston 20, Chester Dock 18 and 19, Blackstone 17 and 18, American 17 and 18, Eagle 16¹/₂, Hamilton 27, Arkwright 26¹/₂, Easton 16¹/₂, Jewett City 21 and 22, Sheridan G 18.

CHECKS are in only moderate demand but prices are unchanged. Park Mills Red 25, Lanark 4x2 29 inch 18, Lanark fur $18\frac{1}{2}$, Union 50 4x2 $32\frac{1}{2}$, do 50 2x2 32, do 20 4 2 30, do 20 2.2 30, Caledonia 15 inch 34, do 11 inch 28, Kennebeck $32\frac{1}{4}$, Star No. 600 16, do No. 800 2x2 $22\frac{1}{2}$, do No. 900 4-2 26, Cameron No. 90 $21\frac{1}{2}$, do No. 80 20.

DENIMS AND COTTONADES are only moderately active, and prices are lower. Amoskeag denims sell at 36½c., Haymaker 22, York 36, Warren brown 21, Pearl River 38, Union 24, Monitor 19, Manchester Co. 25, Suffolk 25, Arlington 26, Blue Hill 20, Fort Moultrie 30, Mount Vernon 29, and Farmers' and Mechanics' cottonades at 45c, Pemberton d&t 45, Rodman's Ky J 47, PlowL & Anv. 50, Everett 47½, Whittenden d&t 31½

BROWN DRILLS are in fair request at steady prices. Winthrop 17, Amoskeag 211, Laconia 22, Androscoggin 121, Minerva 15, Pepperell 22, do fine jean 22, Stark A 21, Massabesic 18, Bennington 21, Woodward duck bags 321, National bags 31, StarkA do 60, Liberty do 31.

PRINTING CLOTHS have advanced in price during the week, but the market closes dull at 10½c. for 64x64 square cloth.

PRINTS were quiet at the beginning of the week but the firmness in the cotton market and the advance in Printing Cloths caused threats of higher prices, and buyers have re-entered the market with more eagerness. Spragues new styles are the only ones which have been advanced. They are $\frac{1}{2}$ c higher. American 16, Amoskeag dark 15, do purple 16, do pink 18, do shirting 15, do palm leaf 16, Merrimac D dark 17, do purple 18, do W dark 19, do purple 19, do pink 19, Sprague's dark 17, do purple 18 $\frac{1}{2}$, do shirting 18 $\frac{1}{2}$, do pink 18 $\frac{1}{2}$, do blue check 18 $\frac{1}{2}$, do solid 16, do indigo blue 17, do Swiss ruby 17 $\frac{1}{2}$, London Mourning 15 $\frac{1}{2}$, Simpson Mourning 15 $\frac{1}{2}$, Amoskeag Mourning 14 $\frac{1}{2}$. Garners light 18 $\frac{1}{2}$, Duunell's 16 $\frac{1}{2}$, Allen 16 $\frac{1}{2}$, Arnolds 14, Gloucester 16 $\frac{1}{2}$, Wamsutta 12 $\frac{1}{2}$, Pacific dark 17, Cocheco 18, Lowell 14, Naumkeag 13 $\frac{1}{2}$, Hamilton 16 $\frac{1}{2}$.

LAWNS and GINGHAMS are fairly active at steady prices. Lancaster Ginhams sell at 23 cents. Hartford 18, Caledonia (new) 20, Glasgow 21, Clyde 16; Berkshire 21, German 20, Roanoke 17, Bates 22¹/₂, Manchester 18.

dark 23, Armures dark 23, High colors 23, Pacific Merinos 40, Mourn ing 23, Shephard checks 23, Skirtings 30.

AMERICAN LINEN is steady at previous prices.

FOREIGN GOODS are in large stocks, generally of rather low grades of goods, which are generally selling at a loss. The late Spring interferes with the demand for light fabrics, and they are less active. The auction sales are doing a liberal business, but prices rule low.

IMPORTATIONS OF DRY GOODS AT THE PORT OF NEW YORK.

The importations of dry goods at this port for the week ending March 21, 1867, and the corresponding weeks of 1865 and 1866, have been as follows:

ENTERED FOR C	CONSUMPTION F	OR	THE	WEEK	ENDING	MARCH	21.	1867.

CANTON FLANNELS are quite nominal at this season. Ellerton N, Bro. 85, do O do 32¹/₂, do T do 19, Laconia do 28, Slaterville do 24, Hamilton do 28¹/₂, Rockland do 17, Naumkeag do 25, Tremont do 21, Scotts extra do 20, Whittendon do 22¹/₂, Ellerton N Blea 37¹/₂, do O do 36, do P do 32¹/₄, Sal'n Falls do 31¹/₂, Methuen A do 32, Naumkeag do 26, Nashua A 21.

CORSET JEANS are in good demand, and prices are maintained Androscoggin 14, Bates colored 14, do bleached 14, Naumkeag 21, Pepperell 22, Naumkeag satteen 23¹/₂, Laconia 21, Amoskeag 21, Newmarket 16¹/₂, Lewiston 14¹/₂, Indian Orchard 16, Berkeley 22, Rockport 21, Tremont 12.

CAMBRICS AND SILESIAS are steady. Washington cambrics sell at $13\frac{1}{2}$ cents, Victory 12, do A 13, do high colors 14, Fox Hill $10\frac{1}{2}$, Superior 11 $\frac{1}{2}$, Smithfield 13. Waverly 12, S. S. & Sons paper cambrics at 17, do high colors 19, White Rock 17, Masonville 17, and Indian Orchard Silesias 21 $\frac{1}{2}$, Ward do at 21 $\frac{1}{2}$.

WOOLEN GOODS continue to improve, and better prices are paid. Cloths and fancy Cassimeres are steady, and Tweeds are in better request.

MOUSLIN DELAINES are quite active at the decline reported last week. All dark 28, Hamilton Co. 23, Manchester dark 23, Pacific

Our General Prices Current will be found on pages 381 and 382.

)

THE CHRONICLE.

The Railway Monitor.

OHIO AND MISSISSIPPI RAILBOAD.—The proposition relative to the Ohio and Mississippi Railroad, to reduce the amount of common and preferred certificates and lay an assessment, does not meet with favor among the holders of the securities, and it is to be abandoned. The organization will, therefore, take place without delay, and stock will be issued in exchange for all outstanding certificates, and the trustees give way to a board of directors, to hereafter assume the management.

PENNSYLVANIA COAL TAX.—The Pennsylvania House of Representatives have passed a bill to impose a tax of ten cents per ton on all coal mined by railroad, canal or transportation companies.

NEW YORK CENTRAL RAILROAD.—A bill passed the State Senate on the 20th inst., by a vote of 21 to 11, authorizing the New York Central Railroad Company to charge 21 cents per mile for passenger fare instead of 2 cents, the present rate.

ILLINOIS AND ST. LOUIS BRIDGE.—The capital for this enterprise having been taken, its construction is to be commenced forthwith, under a contract to have it completed in eighteen months. The bridge will contain a railroad track, two double carriage ways, and two foot ways for pedestrians, each six feet wide. It is intended to be one of the most magnificent and perfect structures of the kind in the Union.

BRIDGE AT KEOKUK.—The Toledo, Wabash and Western, the Toledo, Peorie and Warsaw, and the Des Moines Valley Railroad Companies, on the one part, and the holders of the charter for bridging the Mississippi at Keokuk, have entered into a contract by which they bind themselves jointly to erect a railroad bridge over the river within two years, or in case of unusually high water, within three years, the contract and improvements to be forfeited in the event of the work being unfinished at the time specified for its completion.

BRIDGE AT ST. ANTHONY.—Stringers are now laid across the railroad bridge being built from St. Anthony to Minneaopolis, and the work is rapidly progressing to completion.

BRIDGE AT ROCK ISLAND.—The new bridge to be constructed at this point will be a double railroad track above and road ways and foot passages below. It will be a low bridge, with a draw for the passage of steamers.

UNION PACIFIC RAILROAD.—The Western Railroad Gazette, (Chicago,) of the 9th inst., reports that seventy cars, loaded with railroad iron for the Union Pacific Railroad, were shipped over the Galena division of the Northwestern Railway on the 1st inst., and that 800 cars loaded with rails were then en route between Pittsburg and Chicago destined for Omaha.

ST. JOHN'S PARE, N. Y.—The mammoth trees which for more than fifty years have shaded this once fashionable resort, are now among the things of the past, and their place is being filled up by stone, brick and iron structures called city improvements. Here will be the great freighting depot of the Hudson River Railroad.

COPPER MINING STOCK LIST.

INSURANCE ITEMS.

INSURANCE ITEMS. Losses by FIRE AND INSURANCE.—The Committee of the Legislature which was in session at the Metropolitan Hetel a few weeks ago for the purpose of inquiring into the cause of the many losses by fire in this city, have made their report. After reciting the opinions expressed to them by the various parties who took the trouble to call upon them, the Committee recommend the appeintment of one Commissioner i n addition to the four now serving as Commissioners of the Fire Depart-ment, so that there may be an odd instead of an even number in the Board; that the Board of Fire Underwriters be incorporated, with power to organize a fire patrol at their own expense; that the acts re lating to buildings and the keeping and storing combustible 'materials in the city of New York, be reduced to one Act so as to provide for the more prompt enforcement of penalties; that a Bureau for the preven-tion of fires be created; that the Act creating a Superintendent of Buildings in the City of New York be amended so as to enable the penalties to be more thoroughly enforced; and that an Act be passed authorizing the appointments of a Fire Marshal for New York. authorizing the appointments of a Fire Marshal for New York.

Measure. Lewis Lillie & Son, Gentlemen,-We have tried a sample of double-chilled iron similar to that sent to the Novelty Works, New York, and our experience with it is about the same, viz: that it can only be penctrated by a long continued operation of the most skillful

mechanics and the best tools. Very truly,

Foremen in Mesers. Merrick & Son's Southworth

Foundry, Philadelphia, Pa.

OFFICE UNION FOUNDRY WORKS, Chicago, Ill., March 13, 1867.

Chicago, III., March 13, 1807.) Messrs. MURRAY & WINNE, Agents Lillie Safe and Iron Co., Gentlemen, —We subjected the sample of new combination of metals for rafes sent us by you to as thorough tests of the drill as we could, and fail-ed to pen-trate the metal at all. We think it wou'd be impossible for burglars to enter the safes made of this metal by means of the drill during the longest time in ordinary business they could have access to time in ordinary business they could have access to them—in fact, that the metal is proof against the drill. Truly yours,

N. S. BOUTON & CO.

OFFICE OF NORTHWESTERN MAN'F'G Co., } Chicago, March 11, 1867.

Messrs. MURRAY & WINNE, Agents Lillie Safe and Iron Co.,

Agents Line sale and from Co., Gentlemen,—We subjected the sample you fur-nished us (of a new combination of metals to be used in the manufacture of Lillie's Safes) to the se-verest tests of our Power Drill, and with the best tempered drills our skill and experience could produce.

After operating upon it with different drills several hours without penetrating it more than half an inch and at that point unable to make further progress, we became satisfied that if not utterly im-penetrable, it would at least require days of time, a large number of drills and machine power to pene-trate through it; and that it was entirely out of the ower of even the most skilful burglar to penetrate a safe made of this material.

LILLIE'S
