FISK & HATCH,

BANKERS AND DEALERS IN GOVERNMENT AND OTHER DESIRABLE SECURITIES,

No. 5 Nassau Street, New York, RECOMMEND TO INVESTORS THE FIRST MORTGAGE BONDS OF THE

THE CENTRAL Pacific Railroad Co.,

This Company is constructing, under the patron-age of the UNITED STATES GOVERNMENT

THE WESTERN END OF THE GREAT NATIONAL RAILWAY ACROSS THE CONTINENT.

Their line will extend from Sacramento, Califor-nia, across the Sierra Nevadas to the California State line, traversing the RICHEST AND MOST POPU-LOUS SECTION OF CALIFORNIA, and thence through the GREAT MINING REGIONS OF THE TERRITORIES, to the vicinity of Salt Lake City.

It forms the sole Western link of the only route to the Pacific which is adopted by Congress and aided by the issue of United States Bonds.

Their road is already completed, equipped, and running for 94 miles from Sacramento to within 12 miles of the summit of the Sierras, and a large amount of the work of Grading, Tunnelling, &c., beyond that point has been accomplished.

The First Mortgage Bonds of this Com-pany afford unusual inducements of Safety and Profit to Investors, for the following among other reasons, viz :

- First -The rate of Interest is Six per Cent. in Gold, payable semi-annually in the City of New York.
- SECOND .- The Principal is payable in Gold at maturity.

THIRD.—The cost of the Bonds, Ninety-five Per Cent. and accrued interest, is Ten Per Cent. less than that of the cheapest Six Per Cent. Gold Boord and the Communication of the C Bearing Bonds of the Government.

FOURTH.-The United States Government provides nearly half the amount ne-cessary to build the entire road, and looks mainly to a small per-centage on the future traffic for re-payment.

FIFTH.—Owing to this liberal provision, accompa-nied with Extensive Grants of Public Lands, by which the Government fosters this great national enterprise. Its success is ren-dered certain, and its financial stability is altogether independent of the contingencies which attend ordi-j nary Railroad enterprises.

SIXTH.-The Security of its First Mortgage **Bonds** is therefore **ample**, and their character for safety and reliability is equalled only by that of the obligations of the **Government itselt**.

SEVENTH.—The net earnings of the completed portion are already largely in excess of the interest obligations which the Company will incur on twice the dis-tance, and are steadily increasing, rendering the uninterrupied payment of the Interest absolutely certain.

IGHTH.—At the present rate of Gold they pay near-ly S% Per Cent. per annum, on the amount invested.

The Bonds are issued in denominations of \$1,000 with semi-annual Gold Coupons attached, payable in New York, and are offered for the present at 95 per cent. and accrued interest (in currency) from January 1st.

Orders may be forwarded to us direct, or through the

Financial.

Seven Per Cent.

FIRST MORTGAGE BONDS.

\$2,000,000 IN COUPON BONDS OF \$1,000 EACH,

TWENTY YEARS TO RUN,

PRINCIPAL AND INTEREST GUARANTEED BY THE ATLANTIC AND PACIFIC RAILROAD COMPANY.

And secured by property valued at \$7,500,000, con sisting of their completed road to the Gasconade River, 127 miles from St. Louis, and 330,000 acres of rich agricultural and mineral lands on its line. By a provision of the mortgage, so often as lands are sold to the amount of \$40,000, this sum is to be fund-ed for the redemption of a like amount of bonds, and the holders have the right at any time to take possession, in payment of the PAR value or their bonds, of any of the Company's lands at schedule rates, mineral lands excented. rates, mineral lands excepted.

The climate of Southwest Missouri is remarkably The climate of Southwest Missouri is remarkably salubrious, the temperature even, and the winters short and mild. Its agricultural resources are not excelled by any part of the United States. Of its minerals, lead, iron and coal are found of superior qualities and in great abandance. The famous Granby lead mines, on the Company's land, are well known, and recent developments show that iron ore purer than any yet known, lies along the line of the read in greater quantities than the total iron deporoad in greater quantities than the total iron deposit of Pennsylvania.

The Company is now prepared to sell these lands at from \$5 to \$40 per acre.

By a recent arrangement this road becomes the Missouri division of the Atlantic and Pacific Rail road, which has a land grant of 55,000,000 acres, and will form a direct and continuous railway from St. Louis to San Francisco, shorter and of much easier gradients than any other route.

Of the present issue of bonds a limited amount is now offered for sale at the rate of S0 per cent., sub-ject to advance at the option of the Company. For further particulars apply to.

REPRESENTING THE INDUSTRIAL AND COMMERCIAL INTERESTS OF THE UNITED STATES.

VOL. 4.

SATURDAY, APRIL 27, 1867.

NO. 96.

Nor can it be the scarcity of these notes in the market, for they are ever to be had, and the supply offering has always been equal to the demand. The reason for the anomaly lies in the fact that the holder of the Seven-thirty note has the option on the day it matures of either receiving the 100 dollars he lent the Government, or of claiming a Five-twenty bond for that sum dated August 15, 1867, and maturing in August 15, 1887. It is this option that imparts a special value to the Seven-thirty notes, which, but for such a provision, would be selling at about par. As things are, the holder of such notes is making a handsome profit on his three years' investment, for he has not only received 7.30 per cent interest on the sum he invested, but he is also able to get over 6 per cent premium into the bargain. Hence the money he advanced to the Government to pay the expenses of the close of the war has paid, for the three years, 28 per cent., or nearly $9\frac{1}{2}$ per cent. per annum. This is on the supposition that he sells his note at current prices to the brokers, or accepts the present offer of Mr. McCulloch, and presents his note for prepayment at the Treasury.

Minanria.

One would reasonably suppose that so handsome a percentage of interest is quite enough for our Government to pay to the creditors who helped the Treasury through a trying crisis in its financial affairs, and that the percentage is quite large enough to satisfy the desires of any of those creditors, however fond he might be of lucrative safe investments. That this is the view held by the masses of the people, is evident by the rapidity with which these notes are coming in—a rapidity which is accelerating so steadily that we may now regard it as certain that when, in August next, the notes mature, not more than an insignificant amount will remain outstanding.

To meet the wishes of all holders of these notes, the Secretary of the Treasury has very judiciously availed himself of the provision of the act of 30th June, 1864, which authorizes him to give in exchange for Seven-thirties gold-bearing bonds such as he may select. The arrangement Mr. McCulloch has made under this authority has worked extremely well, and it will probably continue as long as it seems to be for the mutual convenience of the Treasury and of the public. This arrangement may be recapitulated as follows: First, Mr. McCulloch offers to buy for cash August notes at $106\frac{1}{8}$; or, secondly, he offers to give to the public bonds of 1865 in exchange for Seven-thirty notes, adjusting the difference of interest on both in currency. The exchange, if made to-day, would be conducted as follows : \$1,000 bond. Gold interest from January 1..... \$1,000 00 19 07 \$1,019 07 \$1,000 7-30 note \$1,000 00 14 20 Interest from February 15..... \$1,014 20 Difference..... 4 87

The Chronicle.

THE COMMERCIAL AND FINANCIAL CHRONICLE is issued every Saturday morning by the publishers of Hunt's Merchants' Magazine, with the latest news by mail and telegraph up to midnight of Friday. A DAILY BULLETIN is issued every morning with all the Commercial and Financial news of the previous day up to the hour of publication.

Files for holding the Chronicle or Bulletin can be had at this Office. Price \$1 50.

The third volume of the Chronicle, from July to December, 1866, inclusive, is for sale at this Office; price, unbound, \$5 00.

THE CONVERSION OF THE SEVEN-THIRTIES.

Some persons are surprised at the announcement that the Treasury is buying up the Seven-thirty notes of the first issue at as high a premium as 6 per cent. Of the 300 millions of these notes which were issued at par in 1864, about 100 millions are now outstanding, and the Government offers to buy them before maturity at $106@106\frac{1}{8}$. At this handsome advance upon the original subscription price of $99\frac{8}{4}$ a large amount are daily pouring into the Treasury and at the New York office alone about 6 millions have been paid off during the past week. How is it, the questioner asks, that a note which, after its maturity in less than four months, will become a mere draft on the Treasury for 100 dollars, sells now in the open market at 106. It cannot be the rate of interest which constitutes the attraction, for that is only 7.30 per cent., and coin bearing bonds at the present price of gold pay more than this rate on the money invested in them.

\$.....

Hence it appears that the holder of an August Seven-thirty likely to get his securities returned to him. As to the price note will have to pay \$4 87 in currency, for which he will receive \$19 07 of earned gold interest at par. Besides it is evident that the coin-bearing bonds are the better investment, because 6 per cent. interest in gold is better than 7 3 10 per cent. currency interest, even were gold 20 per cent. below the highest price it has sold at this week.

There are, however, some persons who it appears are not satisfied with this handsome return for their money. They urge that they have at present a "right" to claim gold bearing bonds bearing the date of 1867, and having consequently a longer period to run than those which the Secretary of the Treasury offers them at present. Against this supposititious claim an evening paper argues as follows:

That right will not be acquired until the day the notes mature. This will be seen by reference to the conditions which are printed on the back of each note, as follows : "At maturity convertible, at the option of the holder, into bonds redeemable at the pleasure of the government at any time after five years, and payable twenty years from the 15th of August, 1867, with interest at six per cent. per annum, payable semi-annually, in coin." This condition is printed on the notes of the first series. The same is on the back of the second and third series, with the time changed to June 15th and to July 15th, 1868. If, then, the holders of any of these notes give notice on or before the day of maturity they acquire the right to the bonds of 1867 or 1868. But if they wish previously to exchange their notes for bonds, they can choose either of two alternatives. First, they may sell their notes, and with the proceeds buy the bonds they want, or they can take their notes to the Treasury and exchange them for such bonds as the Secretary is authorized to issue for this purpose by the act of 30th June, 1864, which provides that any Treasury notes issued under the authority of this act may be made convertible, at the discretion of the Secretary, into any bonds issued under the authority of this act.

Another point has been raised which has attracted more attention than its intrinsic merit probably deserves. Supposing the holder of a Seven-thirty note neglects to avail himself of his "option" on the day his note matures, will his claim to demand a Five-twenty bond have lapsed in consequence of his neglect, or will it survive so as to be available at any time subsequently? This is the question raised. To answer it we have only to look at the words in which the option itself is expressed. These are found on the back of the note, and expressly state that the option is good at the maturity of the note. The same rule which bars the right of the holder to demand his bond before the maturity of his note seems equally to limit it after maturity. If this view be correct, the Seven-thirty note after maturity, if no prior notice has been given by the holder, will assume the character of a simple due-bill or draft on the Treasury for the amount stated on its face. We do not claim to know what view the Treasury or its legal advisers will definitely adopt in the case, but it is not improbable, from our point of view, that a short time prior to the maturity of the notes a public announcement may be made to the effect that "all holders of Seven-thirties must give notice on or before the 15th of August whether they intend to avail themselves of the option to claim bonds, and that all notes not so sent in with the required notice will be paid off in cash," the option to convert into bonds expiring by its own limitation. It will be remembered that an attempt was made last year in Congress to pass a law enforcing the giving of the required notice 6 months before the maturity of the notes. The law, however, for obvious reasons was not regarded with favor, and it consequently failed to pass. We have been questioned as to the probable delay which will take place before the bonds of 1867 are delivered, and whether they will sell higher or lower relatively than the Five-twenties of 1862, 1864 and 1865. To neither of these questions is it possible to give a satisfactory reply. The printing of the bonds and their preparation for issue will nécessarily occupy some weeks, especially if the amount should be larger than is anticipated ; but the earlier the notice is given in the Treasury, the sooner will the applicant be

of the bonds of 1867, they would in one respect be better than Five-twenties of earlier dates, because they would have longer to run. But not being so well known they might be regarded as less eligible investments, and how their market price might rule would for some time be a matter of doubt. For these and other reasons, some of which have been already suggested, the best plan for holders of the Seventhirties who wish to make the most of their securities, is without doubt to sell or to convert them without delay.

RAILROAD EARNINGS FOR MARCH.

The gross earnings of the under-specified railroads for the month of March, in 1866 and 1867, comparatively and the differences (increase or decrease) between the two periods, are exhibited in the subjoined statement :

GROSS EARNINGS 1866	AND 1867,	COMPARA	TIVELY.

Total (17 roads)......\$5,755,661 \$5,,793,123 \$47,472

Notwithstanding the damages by the Spring floods in the West, which, this season, have been of extraordinary volume, the aggregate earnings on a less mileage of road by 50 miles, surpass those of the corresponding month of last year. This is certainly more than was anticipated, and is highly satisfactory.

The statement which follows shows the miles of road operated, and the gross earnings per mile of the same roads for the same months:

GROSS EARNINGS PER MILE OF ROAD OPERATEI

	MILLIS C	F LOA	D OFE	RATED	•	
	-Miles	Road-	-Ear	nings-

		7,220	\$792	\$802	\$10	\$
This shows an average g	ain, as	s cor	nnare	d wit	h Me	irch

1866, of \$10 on the mile of road operated. The earnings of the Erie Railway have increased most largely, the receipts showing an excess of \$340 per mile. On the Chicago and Northwestern and the Michigan Central the increase over last year was \$133 per mile, and on the Atlantic and Great Western \$98 per mile. The Chicago and Alton, which has suffered most largely from flood damages, has lost \$185 per mile. The Ohio and Mississippi earned \$138 and the Illinois Central \$124 per mile less than in the corresponding month of 1866. .

518

The gross earnings of the same roads for the first quarter of 1866 and 1867, compare as shown in the following table: RESULTS OF THE 1ST QUARTER OF 1866 AND 1867, COMPARATIVELY.

FINANCIAL CONDITION OF THE STATES.

It is not a mere morbid curiosity, nor a diseased love for misfortune, which asks to know the full extent of the losses consequent upon the late war. Such an inquiry is essential to any well directed effort at national economy; it is necessary for the guidance of legislation upon matters of State or federal finance; and its effect must be wholesome in checking the too prevalent tendency, inherited from more prospereus times, to run into extravagant expenditures. No people can properly regulate their expenditures, either national or individual, while they are ignorant of their liabilities; and to increase debts largely without correspondingly economizing expenditures is, to say the least, a dangerous experiment.

In this view, it is much to be regretted that there are no accessible returns showing the whole extent of the changes in the financial condition of the country within the last five or six years, the most eventful period of our history. We have precise data showing the increase of the debt of the national Government; and are also able to show the changes in the indebtedness of the several States; but of the very important obligations contracted by the counties, towns and cities, in their efforts to place their quota of troops in the field, there is no data which would justify an attempt at an approximate estimate of their aggregate. The annual reports to the several State Legislatures, however, afford the material for ascertaining the changes in the debts of the States. With much pains, we have been enabled to procure returns from nearly every State, showing their indebtedness in 1866, and below present a comparison of these figures with those of 1860, adding also the taxable valuation of the respective States and their population, so far as it could be ascertained :

cumstance will, in a measure, account for the great inequalities between the several States, in comparing their present debts with those of 1860. In the three large States of Illinois, Ohio and Indiana, which contributed largely toward the prosecution of the war, there has been a decrease from \$37,689,275, their combined debt in 1860, to \$31,857,745 in 1866. In the case of these States it is clear that a large proportion of the amounts raised for war purposes must have been borrowed by the local organizations. On the other hand, the six States of Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont, the combined debts of which in 1860 amounted to only \$8,295,913, have since swelled their State liabilities to \$50,772,246, Massachusetts alone having increased its debt \$18,379,679. New Jersey, from a debt of \$95,000 in 1860, has grown to \$3,-395,200. Pennsylvania has reduced her debt over two millions; having, in consideration of her large State indebtedness, prudently thrown the onus of borrowing for war purposes upon the local governments. In New York we have swelled the State debt from \$34,182,975, in 1860, to \$51,-753,082 in 1866; yet, as showing how imperfectly this increase represents the aggregate addition to the indebtedness of the people of this State, it may be stated that the city of New York alone has added over ten millions to its debt since 1863. The Southern and border States generally show a large increase of debts; which results not from the incurring of new obligations, but from the non-payment of interest for a period of five years. The young State of Missouri has added to its obligations \$13,222,928; while its population has been drained, and its property devastated by repeated invasions. Tennessee has not only had her resources crippled through being made the theatre of some of the most notable campaigns, but has augmented her debt \$8,633,-681. In one respect the Southern States may be said to be iu a more fortunate position than others. Their liabilities contracted during the war were wiped out by their surrender; and they have no increase of State or local burthens, except what may arise from the funding of overdue interest; so sadly, however, have their resources been impaired that they are less able to sustain their fiscal burthens than the States of other sections.

The taxable valuation of the respective States, perhaps, affords the most reliable criterion of their present condition, as compared with that previous to the war. Unfortunately, however, the available statistics are not sufficiently complete to enable us to arrive at any general conclusion, under this head of comparision. The returns, so far as they go, show that there has been, in the Southern and border States, a large decrease in the taxable valuation of property; while, in other sections, there has been a slight increase. In 1860 the valuation in the seven States, Arkansas, Kentucky, Louisiana, Missouri, South Carolina, Texas and Virginia, amounted to \$2,745,000,000, and in 1866, to only \$1,527,000,000, showing a decrease of \$1,218,000,000, or forty-four per cent. This reduction includes the loss of about 1,860,000 slaves; which, valued at \$350 each, probably fully their assessed valuation, would amount to \$650,000,000; leaving \$568,000,000 as the net reduction. This decline in valuation may be partially due to the fact that the present prostration of the South renders all kinds of property less valuable than it would be were its resources being actively utilised; but the figures, nevertheless, show a state of extreme depression. In the eight Western States, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Ohio and Wisconsin, the total taxable valuation was in 1860 \$2,426,000,000, and in 1866 \$2,877,000,-000; the increase being at the average rate of 18 per cent. The largest ratio of increase occurs in California, being nearly \$50,000,000, or 33 per cent. Of the New England States

* Real estate not included in the valuation of 1866.

The changes in the totals of the debts of the States very imperfectly indicate the real increase of debt in the several sections of the country. In some instances the State was the chief borrower for war purposes; in others, the town and county organizations borrowed for their local wants, and the State Government afforded but little direct aid. This cir-

520

THE CHRONICLE.

we have no returns, except from Connecticut, which shows an increase of \$41,000,000, or $18\frac{1}{2}$ per cent. In the State of New York the increase is \$213,000,000, or 15 per cent. In making these comparisons it must be kept in mind that the valuation of 1860 represented gold values, while that of 1866 represents a condition of things in which all values were inflated to the extent of nearly double the normal figures. Official valuations probably have not followed very closely the advance in the market value of property; but, perhaps, it may be safely asserted that they have been enhanced in a ratio exceeding the rate of increase which is shown to have occurred in the aggregate taxable value of the Western and Eastern States; and this being true, what progress can we have made in real wealth, even in the most favored sections, within the last five or six years? These statistics seem to countenance the opinion strongly held by some reflecting minds that, during the war, we consumed much more than we produced, and came out of it with a heavy loss of accumulated resources.

The returns of population presented above are incomplete, representing only one-third of the States; but they, nevertheless, throw some light upon this important branch of popular statistics. The figures from eleven States, including seven Western, show a growth of population from 10,202,-208, in 1860, to 11.081,793 in 1865; the ratio of increase for the five years being $8\frac{3}{4}$ per cent. This gives an average yearly rate of increase of $1\frac{3}{4}$ per cent., against $3\frac{1}{3}$ per cent. during the last decade. It should, however, be taken into account that these returns are from States to which the tide of emigration flows steadily, and which, more than other sections, have had their war mortality compensated by the influx of foreigners. In Massachusetts, where the increase during the decade 1850-60 was 24 per cent., the growth for the five years 1860-65 was only 3 per cent., or one fourth the former rate. In New York State, according to the showing of the State census, there has been a slight decrease; while in New Jersey there has been a liberal increase, probably owing, in no small degree, to our overcrowded city population seeking relief in the neighboring State. Upon the whole, it would seem very clear, from the foregoing considerations, that the war has left us with an enormous increase of debt, a diminution of our accumulated resources, and a suspension of the wonted rate of increase in population. The moral to be drawn from these facts is very obvious. With an increase of debt and a loss of resources, the country needs a rigid economy of State and individual expenditures, and a prompt and positive veto of all propositions involving the issue of new obligations.

RAILROAD MANAGEMENT AND ITS BEARING ON THE VALUE

lied upon to compensate for the loss of receipts from this cause, and will probably leave the net earnings equal to what they are now. A large proportion of the roads represented on the Stock Exchange have now reached a position in which they could pay regular dividends, were their affairs administered with due prudence and economy. Out of the list of thirty-eight roads, with \$350,000,000 capital stock, on the call of the New York Stock Exchange thirty-one have paid dividends ranging from 7 to 12 per cent. per annum within the last six months; whereas, five years ago not one in four of the roads was making any division of profits among the stockholders. How is it that with such a remarkable apparent improvement in the condition of the roads, there should be a growing distrust in the public mind respecting these securities ?

We think the financial management of the roads goes far towards explaining this anomaly. In too many cases their affairs are administered in the interest of the directors rather than of the stockholders at large. The more influential directors are either well-known Wall street operators or have secret affiliations with the Stock Exchange, and their position in the directorship is used for the purpose of promoting speculation. The main object with such officials is not to work the roads to the utmost possible advantage, but to promote the widest possible fluctuations in the value of the stock, so as to create ample opportunities for speculation. It matters little to them whether the fluctuations are upward or downward. In the former case they "go long," and in the latter "short," always having an advantage over the public in knowing the course of affairs in advance. It is not for the mere honor of office, nor to secure the effective management of a corporation in whose affairs the candidates are interested as stockholders, that we witness such active contests for the control of the roads. When capitalists undertake to buy tive or ten millions of stock at high prices, in order to secure their election as directors or presidents, it is, as would seem, with a view to gaining a platform upon which they can conduct vast speculations. It is, therefore, inconsistent with the real object for which these parties take office, to expect that the roads will be managed with a single purpose to giving their stock a steady, reliable investment value. Oscillations in the price of the stock being the chief desideratum in such management, anything that will conduce to that result commends itself to the speculative director. Sometimes dividends are paid out of borrowed funds; in other cases dividends are withheld when the company could afford to pay them; loans are effected for purposes of questionable utility; information upon the finances of the roads is suppressed, and accounts are falsified; and surpluses, which should be divided among the stockholders, are dis-

OF STOCKS.

It is a somewhat singular fact that, at the time when railroad stocks are apparently assuming a substantial, dividendpaying position, the public should conceive a marked distrust respecting them. Dealers in securities well know that for some time there has been a steady flow of stocks into Wall Street, the sellers having shown a marked preference for national securities at high rates of premium. To such an extent has this disposition to sell out railroad shares been carried, that now some of the ten per cent. stocks are quoted at about 90, while $105\frac{1}{2}@106$ is paid for national securities which yield only 7 3-10 per cent. interest.

This depreciation is not owing to any reduction in the current earnings of the roads. On the contrary, the receipts prove larger than has been generally anticipated; and while it may be expected that the ultimate general decline in prices must be accompanied with a fall in the rates of freight, yet a concurrent reduction in the working expenses may be re-

ized for FRASER

bursed upon schemes in which the directors have an interest, but the shareholders at large none.

Another practice which is destroying confidence in rail road stocks, and perhaps the most reprehensible, is that of increasing liabilities or using the accumulated surplus for the purposes of extension, or of buying up or leasing some worthless road long since bankrupt. This evil has become so universal that no sooner does a road begin to pay regular dividends than some such plan is entered upon, visionary prospectuses being issued to the stockholders demonstrating the feasibility and profitableness of the new undertaking. It never occurs to the directors to organize a new company to act in conjunction with the old one, and let those who desire risk their money in it. But they prefer to saddle it upon the corporation they represent-a property paying good dividends whose stock is held in small amounts as an investment in every part of the country-and not until the dividend periods are passed without the usual dividend

notice, do these investors realize that the load was too heavy and the road has become seriously embarrassed. This system is the bane of railroad management in Great Britain as well as in this country. It has served to destroy the confidence of the public in both countries in railroad stocks, for their can be no stability in such securities so long as this practice is permitted. The advantage in these favorite operations is that they afford the opportunity of profit to those in the ring out of the stock of both the roads amalgamated. For decency's sake the form of asking the consent of the stockholders is usually gone through on these occasions; but there is never any risk of the schemes being defeated, for the promoters take the precaution of temporarily transferring under their names an amount of stock sufficient to ensure success.

It is through expedients of this sort that railroad stocks have become a mere football for the great speculators of Wall street. This species of management is of a piece with the selfishness and dishonesty with which political affairs are managed by our legislators and office holders, and is one of the many indications of that debasement of official morality which disgraces our times. Is it surprising that when our railroad corporations are thus engineered with a view to rendering the value of their stocks as unstable as possible, the public should shun such investments, and refuse to take the stocks except at a heavy discount? Investors desire not only a fair rate of interest, but also that they may be able to realize at any time as much for their securities as they paid for them; and they are always willing to pay a much higher price for stocks or bonds possessing this feature of stability. Were this unwise and in many cases corrupt administration of the affairs of our railroads abolished, there is nothing to prevent most of the leading roads from attaining a steadiness of value approaching that of the most favorite investments; but so long as our railroad directors rank among our leading speculators, and are allowed to tamper with the finances of the property they represent, so long as the credit of established companies can be used almost without limit to infuse life into bankrupt roads for selfish purposes, nothing better can be expected than that the public will refuse to purchase stocks except at a heavy discount from their real dividend value.

SOUTH SIDE (VA.) BAILROAD.

The South Side Railroad constitutes a principal link in the chain of railroads between the seaboard at Norfolk and the Mississippi at Memphis, and prospectively a link in the line, now being constructed, via Knoxville and Cumberland Gap to the Ohio River at Cincinnati and Louisville. As a distinct work it extends from Petersburg to Lynchburg, with a branch locomotives, 7 of which were added during the last year, and 110 cars, 29 of which are needing repairs. The train mileage of the year was 211,623 miles, viz.: passenger trains, 90,376; freight trains, 86,440 miles; material trains, 24,990 miles, and switching trains 9,817 miles.

The gross earnings of the company from transportation for the year 1865-6, as compared with those of 1858-59, show the following results:

From passengers "freight "mail "express Hire of cars	211,150 06 20,000 00	1865-66. \$105,703 87 162,738 97 6,649 92 11,449 15 3,038 97	Increase. \$ 11,449 15 3,038 97	Decrease. \$73,312 95 48,411 09 18,350 08
m. 4.1		0,000 01	3,043 97	

Total gross earnings..... \$410,166 88 \$289,580 88 \$...... \$120,586 00 Previous to the war the revenue of the road was very largely derived from local business, and for five years of its existence previous to that period, averaged in round numbers \$371,000 per annum gross, or about \$31,000 per month. For the fiscal year last past, when its receipts have been only in part and not until lately drawn from the transit trade of the country within reach of its connections, it amounted to \$289,580 88 or monthly to \$24,131 74. The receipts from local business were very fairly maintained from the accumulations of products during the war (which were hurried into market) until the month of May; since which time they have settled down to the low average of \$12,000 per month. In the meanwhile the revenue from foreign freights increased from \$4,000 to \$16,000, carrying the gross earnings of the road up to \$29,000 per month. Hence, it is thought that with the return of reasonable prosperity to the country through which the road passes, and the proper development of the transit trade which rightly belongs to the great route of which it forms an essential link, as between the Mississippi Valley, and the Atlantic seaboard, its future success is not doubtful.

The receipts and disbursements of the company in cash from the 1st October, 1865 to the 30th September, 1866, are shown in the following abstract of the Income Account:

1		
	RECEIPTS FROM	DISBURSEMENTS FOR Transportation \$122,073 51
	Agents and Conductors \$269,172 02	Transportation \$122,073 51
-	Express and baggage 8,900 79	Road and Machinery 124,781 69

		Cash on hand 8,582 33
	Total	Total\$547,688 00

Of this total, \$446,501 12 belonged to the accounts of 1865-66 proper. The remainder has been disbursed on account of obligations contracted prior to December 1, 1865. The total liabilities of the company, exclusive of the funded debt, and at the close of 1865-66 are shown in the following memorandum:

I-Obligations contracted prior to Dec. 1, 1865...... \$146,187 08

from the first named place to tide-water at City Point, as follows:

At the commencement of the fiscal year ending Sept. 30, 1866, the re-establishment of the roadway and stations which had been destroyed during the late war, and the necessary repairs of locomotives and cars were yet incomplete, while much remained to be done to make the rolling stock equal to the besiness demand of the road. At that time also, the very important structure, the bridge over the James River, was not completed, and, in fact, was not in usable order until February 1, 1866. This, however, and all other works of immediate necessity were carried forward as rapidly as possible; but from want of means the whole property is still left in anything but a desirable condition.

Even at the present time the equipment of the road is insufficient for the service demanded of it. It consists of 13

Less amount paid in 1805-00 1	22,114 35 $ 24,072$ 73

The liabilities and claims against the company outside the books, and including coupons to July 1, 1866, are stated by the Treasurer at \$185,447 64.

Since the date of the report, from which most of the above facts have been obtained, the Legislature of Virginia has passed an act for the consolidation of the Norfolk and Petersburg, the South Side and the Virginia and Tennessee railroad companies into a single corporation, which, with the connecting lines in the States west of Virginia, will constitute a through line under the title of the Atlantic and Mississippi Railroad, from Norfolk (Virginia), to Memphis (Tennessee). This proceeding carries out the idea of a great Southern through-line entertained by the original projectors of the separate works, but which had hitherto been held in abeyance.

Latest Monetary and Commercial English News.

[From our own Correspondent.]

LONDON, Saturday, April 13, 1867.

So far as the Stock Exchange is concerned, the present week has been one of more than ordinary excitement, and contrasts strangely with each of the previous weeks of the current year. This change from the previously existing inactivity has been caused by the unsatisfactory state of Continental politics-the affairs of the Duchy of Luxemburg, the differences with Spain in reference to the seizure of the Tornado and the Queen Victoria, and the still complicated state of the Eastern question, the latter having, more especially in the early part of the week, produced a most unfavorable impression. Those who were acquainted with the position of affairs in the Paris Bourse on Saturday evening last, and during the course of Sunday on the Boulevards, were fully prepared for the panic which resulted on Monday morning in our Stock Exchange. At the commencement of business the markets were in as paralyzed a condition as after the failure of Overend, Gurney & Co., or as they would have been on an announcement that war was inevitable. No precise quotations were made for any description of security. Consols were widely quoted at 90 to $90\frac{1}{2}$, and in the course of about an hour the price was fixed at 90¹, "sellers." But little business however, was transacted, operators being anxious to ascertain the opening quotations at Paris for the three per cent. Rentes. The receipt of these prices was delayed somewhat beyond the usual hour, and such was the anxious and excited state of many, that the When it was announced market became weaker on the delay. that a further decline had taken place in the French funds, the consol market became exceedingly depressed, and a deprreciation from the official closing price of Saturday, equal to more than one per cent was the consequence. Matters continued in this unsatisfactory state on Tuesday and Wednesday, and although the fluctuations in prices on those days were trifling, the tendency was rather more favorable, and there was decidedly less depression apparent. From Thursday morning up to the present time, the market has ruled firmer, and although the upward movement in the quotations has been very gradual, while the prices ruling to-day are beneath those of last Saturday, the markets have assumed a more satisfactory appearance. This must chiefly be attributed to the absence of political information on which reliance can be placed, which has resulted in the hope that the question of the Duchy of Luxemburg and the Spanish difficulty will be satisfactorily settled. It must also be observed that the increasing ease of the money market has operated effectively in engendering a firmer market for most classes of securities. The highest and lowest prices of consols on each day of the present week are subjoined :

Week ending Apr. 13.	Monday	Tuesday.	Wed'y.	Thur.	Friday.	Sat.
Consols for money	007 001	001/0005/	00 @003/	901/005/	9016- 34	90%@%
Consols for money	894-90%	90 34 (0,90 78	37 (0:0/8	100/4 09/8	100/2 /4	10/8 0/8

There are unmistakable signs that the money market is becoming easier, and that we may shortly witness a two and a half per cent. min. imum rate of discount. The supply, now that the dividends have been paid, has greatly increased. But although there is an augmented supply seeking employment in the discount market, there is by no means a corresponding increase in the demand, and hence the downward movement in the quotations. Neither does it appear likely that increased sums will be required either for commercial or financial speculators. As regards commerce, the tendency of affairs is decidedly adverse to any revival for not only is there no disposition to embark in fresh or extensive enterprises, but owing to the continued distrust, the heavy liabilities incurred by shareholders in public companies, now defunct but on which calls are yet being paid, and others still being announced and the unfavorable aspect of Continental politics, merchants seem to be operating with even greater caution and circumspection. With regard to the public undertakings, which have during the last 12 months been compelled to suspend payment, their liquidation progresses slowly and it will certainly be a long period ere these matters are arranged, while it seems very probable that the settlement will be a very unsatisfactory one to the creditors. Financially, there are but few schemes likely to check the downward movement in the discount market. The chief of these is the loan for £4,000,000 for the Intercolonial Railway in Canada, on which interest at the rate of 4 per cent. per annum is guaranteed by the British Government, and which has now obtained the sanction of Parliament. During the present week, very first-class paper, viz, bank paper, having but a few days to run, has been taken at as low a figure as 28 and 21 per cent.; but the more current market

In my last two letters I advised you of an important rise in the price of silver, and of an advance in the value of fine bars to 611d. per ounce. Many reasons were assigned for this sudden change

of which I gave you the most important and reliable. That, however, which attributed the activity in the market to the refusal of the Indian Council here to draw, at a recent sale of bills, appears to have been the true cause, the silver market during the present week, owing to the receipt of more satisfactory advices from Bombay, having relapsed into its former quiet state. The decline in the value of silver, from the late highest point, is about $\frac{1}{2}d$. per ounce, fine bars being quoted at 60 $\frac{2}{3}d$., dore do., 61d., and Mexican dollars at 59d. to 59 $\frac{1}{3}d$. per ounce. The West Indian packet—the Atrato—arrived at Southampton last night with £55,000 in gold, and £220,000 in silver. The steamer which left Southampton yesterday for Alexandria and the East, conveyed only £35,000 in silver to the East, being a much smaller sum than had been anticipated.

The imports of gold during the week have been considerable. They comprise £2,000 by the Africa, from New York; £22,500 by the Lincolnshire, £38,000 by the Royal Standard, £32,000 by the Pride of the Ocean, £106,000 by the Echunga, £25,000 by the Bruce, and £55,000 by the Atrate-making a total of £280,500.

At a meeting of the creditors of Messrs. Christopher Newton, Brother & Co., whose suspension was announced a few days since, it was agreed to appoint a committee, with power to send a gentleman to Australia to act in the interest of all parties. The liabilities of the firm are £403,290, while the assets amount to £538,299.

The market for American securities has been less firm, and the quotations have given way. In United States Five-twenty bonds the decline in prices has been considerable. This has arisen out of the fact that the prospect of war entertained at the commencement of the week had induced many German holders to sell, and there has, in consequence, been rather a strong disposition on the part of these holders to press sales. The more favorable political aspect has produced a firmer market, and the fall which took place in prices in the early part of the week has, in part, been recovered. Other American securities from like causes have participated in similar depression, but in like manner the market at the close is decidedly firmer. United States Five-twenty bonds close this evening at $73\frac{2}{3}$ to $74\frac{1}{3}$; Erie Railway shares, $37\frac{2}{3}$ to $38\frac{1}{4}$; Illinois Centrals, $76\frac{1}{2}$ to $77\frac{1}{2}$; Atlantic and Great Western Railway debentures 31 to 32, and the Consolidated mortgage bonds, 22 to $22\frac{1}{2}$. The highest and lowest prices on each day during the week are subjoined :

HIGHEST AND LOWEST PRICES OF PRINCIPAL AMERICAN SECURITIES.

Week ending Mar. 30	Monday.	Tuesday.	Wed'day	Thu'day.	Friday.	Sat'rday.
U. S. 5-20's Atlantic & G't West-	75%-74	74 -71%	73%-73%	73%-73%	73%-74	73%-74

At Frankfort the Bourse has been in an excited state, and at one period of the week the Five-twenty bonds declined in value to the extent of $2\frac{1}{2}$ per cent.

The political news at hand caused the wheat trade to open with more firmness, at an advance in prices of 1s. to 2s. per quarter. Towards the close of the week the market has been quieter, nevertheless the above improvement in the quotations is supported. So far as can be judged at present, the wheat crop in this country promises well.

The cotton trade has also been affected by the political news at hand, and a considerable fall, varying from $\frac{1}{2}$ d. to $\frac{2}{3}$ d. per lb. has taken place in the quotations.

At Manchester, and, indeed, throughout the whole of the manufacturing districts, trade shows increased contraction, and prices continue to give way. During the present week the value of cotton goods has

are less than those of last year by 248,000 bales. Sales have been light and prices at the lowest, until Thursday when there was a slight reaction with considerable activity, sales reaching 20,000 bales.

COMMERCIAL AND MISCELLANEOUS NEWS.

IMPORTS AND EXPORTS FOR THE WERK.—The imports this week show a decrease in dry goods, and a large decline in general merchandise, the total being only \$5,102,880, against \$6,467,267 last week, and \$4,759,407 the previous week. The exports are \$4,473,844 this week, against \$4,458,700 last week, and \$4,392,126 the previous week. The exports of cotton the past week were 18,863 bales, against 10,434 bales last week. The following are the imports at New York for week ending (for dry goods) April 19, and for the week ending (for general merchan lise) April 20:

FOREIGN IMPORTS AT NEW YORK FOR THE WEEK.

further declined.

English Market Reports-Per Cable.

Good Friday and the Easter Holidays, extending over the three first days of the week, has interrupted the regular order of our market reports, and the few quotations given for those dates are merely nominal. London Money Market.—The warlike aspect of affairs between France and Prussia has created considerable alarm at London, and a panicky feeling in the money market, under the influence of which stocks of all kinds are lower. The return of American bonds from Germany had tended to lower quotations for this class of securities, but on Thursday evening there appears to have been a slight reaction, though the German market continues to decline.

FRIDAY, April 26, 1867. P. M.

THE MONEY MARKET.—The course of monetary affairs still tends toward ease. According to the last bank statement, the banks commenced the week with a large gain in legal tenders and deposits, and a decrease in loans and discounts. The Sub-Treasury has increased its balances within the week at the expense of the banks; but, notwithstanding, there has been a steady gain in ease. At the principal cities exchanges are in favor of this centre ; and from some points there is a moderate flow of currency hither. At the same time, the unsatisfactory results of business cause a certain amount of money to be taken out of active use, and the funds thus rendered idle seek employment in loans. Some parties who have realized upon property or stocks hesitate in investing the proceeds in Government bonds at current high prices, and prefer temporarily lending their money to making investments. This tendency to accumulate idle fands appears to be gaining ground, and if carried much further must produce an unusual abundance of money on loan-The most general rate on demand loans, on stock collaterals is six per cent., the exceptions at five per cent., however, are extending, and judging from present indications that is likely to be the general rate within a few days; on Governments the rate is 4@5 per cent.

Discounts are without material change. There is generally more confidence in merchants' paper; but buyers are disposed to hold out for high rates. A few very choice notes are negotiated at $6\frac{1}{2}$ per cent., but the majority of transactions are at 7@8 per cent. Paper not strictly A 1 is scrutinized closely, and passes at very irregular rates, the range being from 10 to 18 per cent.

The following are the quotations for loans of various classes :

	Per cent.		Per cent.
Call loans Loans on bonds & mort	4 @ 6 6 @ 7	Good endorsed bills, 3 & 4 months	7%@
Prime endorsed bills, 2	Ĩ	do single names	8 0 9
months	6%@ 7	Lower grades	10 @18

UNITED STATES SECURITIES .- National securities continue very active. The conversion of Seven-thirties causes an extensive exchanging of securities, which gives an appearance of activity. But apart from this, there is an unusually active demand from home investors, many of whom are taking their money out of business, pending the present depression of trade, and temporarily allowing is to rest in bonds, as paying better interest than commercial enterprises. This tendency of capital is the principal cause of the growing firmness in all the gold-bearing bonds. The wide fluctuations in the price of Five-twenties at London and Frankfort have had little effect upon the market here, the relative values here and abroad having been adjusted by the fluctuations in the price of gold. The foreign bankers have done comparatively little in Five-twenties, the uncertainty of the foreign market rendering transactions unusually risky. We understand, upon what appears to be adequate information, that there is a large accumulation of bonds in the London market, owing to the realizing tendency at Frankfort; but, notwithstanding, quotations at London show, npon the whole, considerable firmness; and with the extreme ease in money there it would appear that they may rest in the hands of London dealers, instead of being sent home.

The gold bearing bonds are generally $\frac{1}{2}$ per cent. above the closing figures of last week. The Treasury has temporarily suspended the issuing of New Sixty fives, except in direct exchange for August Seven-thirties; the nominal price at the Sub-Treasury for the bonds is 107 $\frac{1}{2}$, an advance of $\frac{2}{3}$ within the week.

The following are the closing prices of leading securities, compared with preceding weeks :

U. S. 6's, 1881 coup U. S. 5-20's, 1862 coupons. U. S. 5-20's, 1864 " U. S. 5-20's, 1865 " U. S. 5-20's, 1865, N. iss U. S. 10-40's, " U. S. 7-30's 1st scries U. RAILROAD AND MISCELLANEOUS STOCKS .- The market has been characterized by an active speculative movement. The week opened with a weak tone throughout the list, and "short" contracts were put out quite freely, but without causing any yielding of prices. The subsequent purchases to cover these contracts caused a firmer feeling, which during the last two days has developed into a sharp upward movement of prices; and to-day railroad stocks are generally 2@3 per cent. above the figures of last Saturday. It would be difficult to judge whether this movement may grow into the active speculation for an advance which has been expected to occur in April, or it may prove to be one of the fickle changes of mood so common to Wall Street. At present, the public keep aloof from the street, and movements confined to brokers are not apt to be long sustained. The disposition with the public appears to be to realize upon their railroad stocks, apparently from a vague impression that with the tendency toward lower prices there must ultimately be a falling off in the earnings of the roads. The great uncertainty about the prices of stocks induced by the speculative management of the roads has also a very decided tendency to induce cautious investors to ex change their stocks for United States bonds, or other stable securities.

THE GOLD MARKET .- The excitement in the Gold Market, noticed in our last, has been sustained by the continued threatening aspect of European politics. The opinion gains ground that war must grow out of the complications between France and Prussia the only question being a matter of time; which, together with a further decline in bonds, at one time to 671 at London, has caused a further advance in the premium, the price at one time touching 142, but subsequently reacting to 138, at which price it closes. The advance of foreign exchange to rates closely verging on the specie shipping point, has also had a certain influence in putting up the premium. The purchases for customs duties have not been The Government having temporarily suspended the large. sales of new Five twenties of 1865, has sold a portion of its receipts of coin, to prevent its cash balances from being too heavily drawn down by the purchase of Seven-thirties. The "short" interest in gold has been merely nominal, and loans have ruled "flat" to 1 16 per cent. per diem.

The total sales at both boards for the week amount to 389,721 shares, against 424,832 for last week.

The following were the closing quotations at the regular poard yesterday, compared with those of the six preceding weeks: The fluctuations in the gold market during the week closing with Friday are shown in the following table.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, April 26.

Business has increased in volume. The requirements of trade to meet imperative demand for consumption have increased, and regular dealers in view of the rise in gold have felt more courage to purchase. They have been less afraid of Many foreign goods have been increasing their stocks. moved more briskly at former currency quotations, so that gold prices are in some cases slightly lower.

. Cotton has recovered about 2 cents per lb. from the lowest point. Breadstuffs have been excited, and the highest prices of the season-and for Flour and Spring Wheat, the highest in many years-have been made this week. Groceries show a fair business in Coffee, Sugar and Molasses, the advance in gold being mostly lost to the importer. Tobacco has been less active but firm.

In Provisions we notice a rather firmer feeling for hog products of all sorts. This is usually a dull season, whether for speculation or the regular trade. The steadiness with which prices are supported, and the relatively low quotations, as compared with other articles of food, give great confidence to holders. Swine are coming to market in large numbers-the high price of corn renders feeding unprofitable-and these facts cannot fail to be felt as the season progresses. There is a slightly increased demand for Bacon for export, and Cumberland sold to-day at $10\frac{1}{2}$ c. Lard has been depressed by the low price of common butter, a circumstance not likely to long be felt. Barrel beef is firmer, but tierce beef and beef hams have declined.

Naval stores have been without movement of importance or decided change in prices.

East India Goods have been without movement of importance, and prices are nominally unchanged.

The whole market for metals has been very dull, and prices are nearly nominal at the close.

Wool has become active. There have been large sales of domestic fleece here and in Philadelphia, yesterday and today, prices ruling very full, and mostly in the range of 55@ 65 cents.

Freights are generally inactive.

Receipts of Domestic Produce for the Week, and since January 1.

The receipts of domestic produce for the week ending April 26, since Jan. 1. and for the same time in 1866, have been as follows .

	Jan. 1, and for the same th	me in 1866, have been a	is follow	WB:			,	i										÷ .		-

The following table, compiled from Custom House returns, shows the exports of leading articles of commerce from the port of New York since January 1, 1867, the principal ports of destination, and the total for the same period in 1866. The export of each article to the several ports for the past week can be obtained by deducting the amount in the last number of the OBRONICLE from that here given:

COTTON.

FRIDAY, P. M., April 26, 1867.

The receipts of Cotton at all the ports this week show a further slight decrease, the total reaching 26,808 bales, (against 27,790 bales last week, 31,995 bales the previous week, and 39,252 bales three weeks since,) making the aggregate receipts since September 1, this year, 1,643,336 bales, against 1,742,-591 bales for the same period in 1865-6. The details of the week's receipts are as follows:

Received this week at*- Receipts	Received this week at - Receipts.
New Orleansbales 9,14	Florida bales 1,296
Mobile	North Carolina
Charleston	2 Virginia 2,380
Savannah 2.62	3
Texas	Total receipts for week 26,808
Tennessee, Kentucky, &c 2,199	

In the exports we have an increase this week, which is due to the fact that New York has shipped 18,863 bales against only 10,434 bales in our last statement, making the total for the week from all the ports 51,768 bales, against 42,924bales last week, and 65,061 bales the previous week. From the Southern ports the shipments amount to 32,905 bales, against 31,988 bales last week. Below we give the details of the movement from all the ports.

Exported this week to Liver- Bre- Ham- St. Pe-Gotten-Ge-Barce- Bor-Hav- To-pool. Havre. men. burg.tersb'g. burg. nor lona. de'x ana. tal. ...10,516 4,028 2,259 461 949 650 ... 18,86 10,006 4,709 Liver-From New York. 18,863

timate we have revised this week, and we believe that the result we have reached, 150,000 bales, to be a very close ap proximation to the actual stock in the city. Below we give our usual table of the movement of Cotton at all the ports since Sept. 1, showing at a glance the total receipts, exports, stocks, &c.:

Receipts and Exports of Cotton (bales) since Sept. 1, and Stocks at Dates Mentioned.

The market this week has been in a very feverish and unsettled state all the week, and so closes. This has been the result of the unfavorable accounts from Liverpool, the depression at Manchester, and the rumors of war from the Continent. Early in the week "even-middlings" were sparingly offered, and quotations for that grade were nominally supported, but ordinary and low middlings were sold at 1c. decline. All life and spirit appeared to have left the trade, and in the face of the threatening aspect of affairs in Europe it was impossible, notwithstanding the marked falling off in the receipts and the low price to which the staple had fallen, to infuse any confidence into buyers. Yesterday, however, there was more steadiness, and in the afternoon many samples were rolled up and withdrawn. Exporters and speculators bid the morning prices freely, although no public accounts were received of any reaction in Liverpool. This morning the report of renewed activity in Liverpool yesterday, with sales amounting to 20,000 bales, produced a marked effect on this market. Holders advanced their views two cents per lb. to 27c. for middling uplands, but the decline in gold prevented exporters going on, and the market was dependent on the spinning and speculative demand. The sales for the week are 14,500 bales, the market closing still unsettled at the following quotations :

	* T- 414-4-11	

In this table, as well as in our general table of receipts, &c., we deduct from the receipts at each port for the week all received at such port from other Southern ports. For instance, each week there is a certain amount shipped from Florida to Savannah, which in estimating the total receipts must be de-ducted as the same shipment appears in the Florida return. We are thus particular in the statement of this fact, as some of our readers fail to understand it.

* The receipts given for these ports are only the shipments from Tennessee Kentucky, &c., not otherwise enumerated.

These are the receipts at all the ports of Florida to April 19, except Apalachicola, which are only to April 12.
 ‡ Estimated. The stock at New York is also estimated.

NEW OBLEANS, April 20.—The mail returns for the week ending April 19, show a slight increase in the receipts, the total for the week being 9,141 bales, against 8,405 bales last week, and 9,751 bales the previous week. The shipments for the last week were 21,071 bales, of which 10.996 bales were to Liverpool, 4,793 to Havre, 1,405 to

sales and exports for a series of weeks, and the stock, price of middling rates of freight to Liverpool and New York, and price of gold at the close of each week since March 1, were as follows:

The week opened with cotton at 26c., and so remained until Tuesday, when there was a slight improvement in prices, owing to the limited supply on the market Later, however, under the influence of the Liverpool telegrams quoting middling uplands (April 17) at 11sd, the market was brought to a stand, and prices became nominal. Ex-change sight on New York is bought by banks at $\frac{1}{2}$ discount, and sold. at ½ per cent premium. Sterling Exchange \$6.40@\$6.44 for 60 days' bills.

SAVANNAH, April 20.-The receipts for the week ending April 19 were 2,7,2 bales (of which 89 were from Florida), against 3,808 bales last week. The shipments this week were 6,924 bales, of which 5,999 bales were to Liverpool, 768 bales to New York, and 157 bales to Philadelphia. Below we give the receipts, shipments, prices, &c., for a series of weeks :

The market has been very dull and depressed this week under the influence of the Liverpool advices of April 17 and 18, quoting Middling Upland at 11⁴/₄d on the 17th, and 11¹/₄d on the 18th and the market flat. Buyers hold off waiting further advices. The few transactions at the close have been on the basis of 24c for middlings and 23c for low middlings. Freights are extremely dull. We quote to Liverpool 7-16d for square, and $\frac{3}{4}d$ for round bales. Steam to New York and Boston $\frac{1}{4}c$ to Philadelphia ac and Baltimore \$2 50 per bale. In sailing vessels the rates are a fraction lower.

LIVERPOOL, LONDON AND OTHER COTTON MARKETS.-In reference to these markets our correspondent in London writes as follows : *

LIVERPOOL, April 13 .- Two causes have contributed to depress the market for cotton this week, viz. : the position of political affairs on the Continent, and a large importation. The total sales are 57,940 bales, comprising 3,410 bales on speculation, 12,670 bales for export, and 41,860 bales to the trade. The decline in prices is general, and ranges from $\frac{1}{2}$ d. per lb. The fall in the quotations is thus distributed : On American, 12d. to 2d. ; on Brazilian, 1; on Egyptian, 2d. to id."; on Smyrna, id., and on East Indian produce, id. per lb. The quotations for American cotton are now as under;

LONDON, April 13.-The value of cotton in this market has declined during the week to the extent of ‡d. to ‡d. per lb. The annexed particulars relate to East India, China and Japan cotton :

	1865.	1866.	1867.
Imports, Jan. 1 to April 11 bales.	83,117	102,236	29,931
Deliveries	67,240	83,533	52,175
Stocks, April 11	124,935	53,574	41,516
SIUCES, april			

HAVRE, April 11.-The market is much depressed, in consequence of the unsatisfactory state of politics. Very ordinary New Orleans is now quoted 147f. to 147f. 50c. for April : 145f. for May, June and July delivery.

TOBACCO.

FRIDAY, P. M., April 26, 1867.

The exports of Tobacco this week are large, 1,659 hhds. having been shipped to Rotterdam from Baltimore, and about 1,000 hhds. from New York to various ports, besides liberal shipment of cases from New York, Boston and elsewhere. Receipts are now increasing at all the ports, and stocks are therefore, becoming better. The total exports from all the ports for the week included 2,644 hhds., 1,453 cases, 313 bales, 67 tierces, and 225,681 lbs. manufactured tobacco, as may be seen in the following statement :

factured lbs. From Norfolk, Va.—To Liverpool, 30 hhds. and 67 tierces. From San Francisco—To Mexico, 45 bales and 3 cases....To Tahiti, 10 cases . To Honolulu, 42 cases. From Boston-To Calcutta, 265 cases.... To Melbourne, 609 pkgs.... To Suri-nam, 2 boxcs.... To British Provinces, 80 boxes.

above exports have been shipped : Tcs. &	 Inam, 2 boltesTo Genoa, 6 hhds. From New OrleansTo Genoa, 6 hhds. From PhiladelphiaTo Havana, 5 bales To Cardenas, 1,120 manufactured lbsTo Porte Cabbello, 238 manufactured lbs. MARYLANDAt Baltimore, the receipts of Maryland and Ohio continue to improve, and the demand very active for Maryland leaf; the bulk of inspections finding ready sale to shippers at full prices within our range annexed. Of Ohio, we report sales of 100 hhds., new crop, within our quotations; and of Kentucky, 50 hhds. common old crop at \$4@\$5. Market still quiet; fine is scarce; some little new crop coming 10. Inspections for the week 876 hhds. Maryland (31 reinspected), 347 Ohio, 5 Kentuckytotal, 1,228. Cleared this week, 1,659 hhds. to Rotterdam.
but the export demand is but moderate owing to the warlike news from the Continent. In Kentucky Leaf the sales of the week foot up about 600 hhds. at the same range of prices as last week—5 to 22c. mostly—at 8@15c. The market is firm for grades coming in the latter range, but lower grades are neglected and drooping, while the finer qualities are scarce and nearly nominal.	Maryland frosted to com'n \$1.50@ 3.00 Maryland grou'd leav. new \$3.00@ 5.00 "sound common. 3.50@ 4.00 Ohio inferior to good com. 3.00@ 6.00 "good 5.00@ 5.50 "brown and greenish. 6.00@ 8.00 "middling 6.00@ 8.00 "com. to medi.ms fine red 8.00@15.00 "good to fine b'wn 10.00@15.00 "com. to med. spang. 8.00@15.00 "angled
Seed Leaf has also been dull, and we have only to notice	VIRGINIA.—At Petersburg the tobacco market has been rather active

sales of 45 cases new Ohio at 9c.; 25 cases old Ohio 44c.; at full prices for all desirable grades in good condition. Common lugs 200 cases Connecticut et 14@16c., 175 cases do. on private and leaf are dull and lower, and there is no sort of demand for leaf in soft order, and if planters continue to send tobacco to market in unsafe order, they may expect low prices They will consult their interest by prizing their tobacco in good order before shipping. We quote common primings and lugs at \$1 50 to 2 50; good to very good lugs \$4 to 6; good leaf \$10 to 13; very good \$15 to 20; fine \$23 to 31: fancy \$69 to 100. The sales at the Merchants' Exchange for the week amount to 400 lots loose and hogsheads. Receipts this week, 75 hhds.; last week 89 hhds.; total since October 1, 755 hhds.

KENTUCKY.-At Louisville, the activity noted the previous week has been maintained, and prices fully supported, with an advancing ten-dency for medium and good grades. Sales for the week 1.100 hhds Receipts for the week 1,012 hhds. Stock on hand 3,727 hhds. We quote common lugs 21@3c., fair to good 31@5c., common leaf 5@7c., medium 8@11c., fair to good 12@16c., good to fine 17@26c., fancy wrapping 20@76c.—the sales on the 17th embracing 3 bxs. at 54@ 76c./per lb. On the 22d the market was fully sustained for all grades offering, the breaks consisting almost wholly of low grades, light lugs and nondescript leaf, and rather a small amount offering as compared with last week. The sales were 98 hhds. Prices ranged as follows: 1 hhd. at \$15 25, 1 at \$13 50, 13 at \$12@12 75, 13 at \$11@11 75, 9 at \$10@10,75,7 at \$9@9 90, 4 at \$8 10@8 75, 2 at \$7 25@7 50,7 at \$6 @6 90, 9 at \$ @5 95, 17 at \$1@4 80, 10 at \$3@3 90, and 5 at \$2@2 95.

NEW OBLEANS .- The demand is very good, and the sales embrace 280 hogsheads, of which 17 hhds. Lugs and Leaf at 10c., 28 Leaf, 46 Lugs to Good Leaf at 91c; 50, a mixed lot, at -, 23 do at -, 11 Lugs to Good Leaf at -, 28 Fine Leaf at 13c., 18 Medium Leaf at 91, 1 Leaf at $18\frac{1}{2}$ c., 1 at 19c., 2 Lugs at $6\frac{1}{2}$ c, 14 Good Clarksville Leaf at $15\frac{1}{2}$ c. per lb. Receipts have become liberal, being for the week 590 hhds. Exports for the week: To Mobile, 2 hhds.; to Genoa. 6; to New York, 56; total, 64. Stock on hand, 2,097 hhds. We quote:

BREADSTUFFS.

FRIDAY, April 26, 1867, P. M.

The whole market has lately been active and buoyant in sympathy with the advance in gold. Strong accounts from Europe, and higher prices at the West, based on receipts still on a limited scale.

Flour opened the week with great depression in the inferior grades, of which arrivals were considerable from State mills, and prices for this description declined about 20c. per bbl. The medium and better grades remained firm, being in light stock and supply, prices have gradually hardened. In the past day or two receipts of all kinds have fallen to very low figures, and the whole market has taken an upward turn. Yesterday there was some business in medium extra State for speculation, at or about \$12 per bbl. To day the market was less buoyant, but with receipts of only 1.500 bbls, holders were very firm and the demand steady.

Wheat has met with a steady milling demand, and prices gradually recovered the decline of last week, especially for good Spring grades. Yesterday there was some speculation on Western account, and prices advanced 5c. per bushel above the highest point noted heretofore-good No. 2 Club selling at \$2 70, No. 1 having previously sold at \$2 85, was quoted at \$2 90. Winter wheats were firmer, but did not fully share in the advance. To day there was an increased show of samples, but a further advance was paid-No. 2 Club sold at \$2 73@\$2 75. The Milwaukee market yesterday ruled at about New York prices, or, counting transportation, 35 cents above. The stock there is below 400,000 bushels, and the receipts smaller than the shipments, not counting country local consumption. But it is thought that with the opening of navigation on Lake Pepin and the Upper Mississippi, supplies will presently be increased materially.

The following are closing quotations:

Corn advanced 6c. per bush., mainly on a brisk export demand for Ireland, the advance being favored also by higher gold. The receipts at the Western markets are large, but only about one-third is of prime quality. At to-day's market speculation subsided, and under the decline in gold, prices fell off two cents from the highest point, closing dull.

Oats and Rye have shared in the speculative movement, and were active to-day at a material advance, Barley strengthens up a little, with a fair demand.

GROCERIES

FRIDAY, April 26, 1867-P. M.

The Grocery trade has shown the same dulness prevalentin other business. Purchases are of the most limited amounts, and at this time even the consumption demand is very light. The fluctuations in gold consequent upon the state of feeling in Europe has unsettled prices somewhat, and caused some delay in business. But the effect of a foreign war is probably overestimated, and with the easy money market it is generally felt that there is no real reason for the postponement of business.

TEA.

TEA has been rather quiet and prices have been unsettled by the higher price of gold, although with the limited demand there is no ad: vance in currency prices. The sales for the week have been mostly in small parcels to the jobbing trade, and include 7,200 half-chests green, mostly at the close of last week, 500 do. Oolongs, \$21 Japans, and 1,800 Souchongs,

Year. 1867.... 1866... 1865....

Imports of the week have been as follows, viz.: 70,000 lbs. Pouchong per "Albert Victor," from Whampoa ; 71,700 lbs. Twankay, 5,181 Hyson skin, 158,676 Hyson, 518,581 Young Hyson, 76,068 Imperial, and 119,916 of Gunpowder per "Andreas" from Shanghai, 374,858 lbs. of Japans per "Recife" from Yokahama, and 56 pkgs. from Nassau.

The following table shows the shipments of Tea from China and Japan to the United States, from June 1, 1866, to Feb. 22, 1867, and importations at New York and Boston since Jan. 1:

Hong Kong, March 1, 1867.—Tea. At almost all the ports the stocks on hand appear to be larger than usual at this time of year, a natural consequence of the effect, in checking the operation of the buyers, which has been produced by the state of the tea market at home. During the past fortnight the business has been on a limited scale and chiefly for America.

COFFEE.

COFFEE was very quiet during the early part of the week, and prices receded. Later, some business was done at about $\frac{1}{4}$ of a cent lower rates. The market closes quiet, with our gold quotations almost nominal. The sales include 18,300 bags Rio, principally on Tuesday last, 1,000 bags Laguayra, 2,500 bags St. Domingo, and 600 bags Maracaibo

The imports of the week have amounted to 15,420 bags of Rio, 6,179 per steamer "S. America," 4,783 per "M. A. Benson," and 4,458 per "Alpha." Of other sorts, 2,951 bags Maracaibo, 4,960 St. Domingo, and 606 bags of sundries have been received. At Baltimore the "May Queen" and "Grey Eagle" have arrived from Rio with cargoes, the particulars of which have not yet transpired.

The imports since January 1, and stock in first hands April 23, are as follows:

HAVANA, April 20.—The markets closed on Wednesday 17th as usual in Holy week, and little business has been done. Owing to the despatches received from England reporting dulness in trade and low prices there has been little export demand previous to the Easter holidays. Advices from the United States are more favorable, and next week will probably open with a better demand, $6\frac{3}{4}$ @7 rs. per arrobe for No. 12 is the latest price.

The following will show the receipts, exports and stocks at Havana and Matanzas :

Year. 1867 1846	week. 62,125 94,611	Expts week. 10.528	Since Jan. 1. 88,540 118,387	week. 60,680 48,703	475,714 395,395	Ftocks boxes. 399,728 398,320 20,550
1865			95,779	50,031	453,355	. 39,859

MUSCOVADOES.—The market still remains dull, with some sales reported in an outport at $6\frac{1}{3}$ to $6\frac{1}{3}$ rs. for fair to good refining.

Receipts, exports and stocks at Havana and Matanzas are as follows : Receipts _____Exports._____

MOLASSES.

MOLASSES has been less active than last week, and notwithstanding light stocks, prices are declining. A partial revival of trade was noticed on Wednesday, but yesterday and to-day the market has been quiet. The sales include 2,100 hogsheads of all kinds but principally Cuba.

Imports at New York have not been excessive, they amount for the week to 2,448 hhds. Cuba, 1,981 hhds. Porto Rico, and 2,448 hhds. of other molasses. The imports for the past week at other ports may be seen at a glance by a comparison of the table below with that of the previous week :

Stocks, April 23, and imports since January 1 are as follows:

* Includes barrels and tierces reduced to hogsheads.

FRUITS.

FRUITS have been rather more in demand, but buyers decline paying the advance caused by higher gold, and business is still restricted The receipts of green fruits have been unusually large, and prices have ruled low. Domestic dried fruits are in only moderate request, with but little variation in prices.

SPICES.

SPICES have continued very quiet, with only a nominal jobbing demand, and with the advance in gold, quotations are almost nominal.

We annex ruling quotations:

3	υ	G	A	n	

SUGAR has been quite active for both raw and refined, and the price of fair to good refining is $\frac{1}{8}$ to $\frac{1}{4}$ higher in currency prices. At the close business is somewhat restricted by the advance in gold, and the market is less active. The sales for the week include 6,200 hogsheads Cuba and Porto Rico; 2,400 boxes Havana, and 1,800 hogsheads English Islands.

Imports at New York have continued to be large, amounting for the week to 9,687 boxes, 9,375 hhds Cuba, and 4,770 hhds of other.

The imports of the week at all the other ports will be seen at a glance by comparing the table below with that published last week. Stocks, April 23, and imports since January 1, are as follows:

	· · · · · ·	Other	New		Brazil, I	Manila.

THE DRY GOODS TRADE.

FRIDAY, P. M., April 26, 1867.

The Dry Goods Market has become inactive and quite irregular during the latter part of the week. The lower price of cotton and dullness reported at Manchester encourages buyers to expect lower prices, and most kinds of the lower grades of goods are steadily declining. Some concessions have also been made upon prime brands, but the manufacturers have generally gaged production, so as to keep stocks light and prices of leading goods firm during the season. This renders the views of agents and buyers so far apart as to prevent business, and unless some change takes place soon trade will come to a complete standstill. The exports of dry goods and domestics continue quite liberal. The following are the details

	`					24

BROWN SHEETINGS AND SHIRTINGS have become quiet, but with light stocks of standard goods prices are quite steadily held. One or two standard makes are reduced, but without bringing additional business. The following are jobbers prices, two per cent. off for cash. Atlantic N 3.4 12, Indian Orchard L do 13, Commonwealth O do 9½. Union do 11, Pepperell N dc 14, Atlantic V 7-8 16, Atlantic E do 16½, Pacific E do 16½. Tremont E do 12½, Bedford R do 12, Boott O do 14½. Indian Orchard W do 14, Pepperell O do 16, Princeton A do 20, Pacific extra do 19¼, do H do 19½, do L do 17¼, Atlantic H do 19¼, do A do 20, do L do 17¼, Lawrence E do 17½. do C do 19, do F do 16½. Stark A do 19, Amoskeag A do 19¼, do B do 19, Kenebeck do 11½, Roxbury A do 18¼, Indian Orchard B do 15, Pepperell E do 19⅓, Great Falls M do 15, do S do 14, Albion do 15, Pepperell R do 17⅓, Macon do 19, Shannon do 15½, Laconia O 9-8 17, Pequot do 24, Indian Orchard A 40 inch 18, do do C 16, Nashua 5-4 29, Naumkeag W do 23½. Pepperell 7-4 35, Utica do 50, Pepperell 9-4 47½, Pepperell 10-4 57⅓.

BLEACHED SHEETINGS AND SHIRTINGS are also steadily held, but the demand is very light. New York Mills are the same as last fall. Globe do $9\frac{1}{2}$, Pearl River do $9\frac{1}{2}$, Kingston do $9\frac{1}{2}$, Boott R do $12\frac{1}{2}$, do H do 13, Waltham X 7-8 16, Putnam B do 12 Great Falls M do 15 do S do 14, do A do 16, Lyman Cambric do $17\frac{1}{2}$, Boot C do 16, James 33 inch 18, Bartlett 33 inch $17\frac{1}{2}$, Lewiston G 4-4 15, Pocumtuck do 15, Putnam A do 14, Newmarket A do 17, do C do 19, Great Falls K do $15\frac{1}{2}$, Bartletts do $21\frac{1}{2}$, Constitutional do 14, James Steam do $21\frac{1}{2}$, Indian River XX do 15, Attawaugan XX do $17\frac{1}{2}$, Lawrence B do $17\frac{1}{2}$, Fountain do $17\frac{1}{2}$, Hope do 20, Tip Top do $23\frac{1}{2}$, Blackstone A A 17, Franklin do 20, Amoskeag A do 24, Boot B do 20, Forestdale do 21, Masonville do 25, doXX do 26, Androscoggin L do 27\frac{1}{2}, Lyman J do 25, Wamsutta H $32\frac{1}{2}$, do O do $32\frac{1}{2}$, Mystic Lake do 30, Lonsdale Cambric do 30, New York Mills do 40, Hill do 25, Amoskeag 42 inch $24\frac{1}{2}$, Waltham do 22, Wamsutta 9-8 $37\frac{1}{2}$, Naumkeag W 5-4 $22\frac{1}{2}$, Boot W do $22\frac{1}{2}$, Bates do $27\frac{1}{2}$, Wamsutta do $42\frac{1}{2}$, Amoskeag 46 inch 27, Waltham 6-4 $32\frac{1}{2}$. Pepperell do 35, Allendale do $32\frac{1}{2}$, Utica do 50, Waltham 8-4 45, Pepperell do 45, Allendale do 40, Pepperell 9-4 55, Utica do 75, Allendale do 50, Baltic 10-4 55, Bates do 65, Waltham do 65, Allendale do 50, Baltic 10-4 55, Bates do 65, Waltham do 65, Allendale do 50, Baltic 10-4 55, Bates do 65, Waltham do 65, Allendale do 50, Baltic 10-4 55, Bates do 65, Waltham do 65, Allendale do 60, Pepperell do $67\frac{1}{2}$, Utica do 80, Masabesic 11-4 70, Amoskeag do

Massabesic 184, Bennington 21, Woodward duck bag 29, National bags 31, Stark A do 60, Liberty do 31.

PRINTING CLOTHS are inactive and quite nominal at 92 cents for 64x64 square cloth.

PRINTS are quiet, but on account of small stocks prices are steadily maintained. American 16¹/₂ & 17, Amoskeag dark 15, do purple 16, do pink 18, do shirting 15, do palm leaf 17, Merrimac D dark 16 & 17, do purple 17, do W dark 19, do purple 19, do pink 20, Sprague's dark 17¹/₂, do purple 18, do shirting 18¹/₂, do pink 18, do turk'y red 17¹/₂, do blue check 18¹/₂, do solid 16, do indigo blue 17, do Swiss ruby 17¹/₂, London Mourning 15¹/₂, Simpson Mourning 15¹/₃, Amoskeag Mourning 14¹/₄. Dunnell's 16¹/₂, Allen 16¹/₄ and 17, Arnolds 14, Gloucester 16, Wamsutta 12¹/₂, Pacific dark 17 and 17¹/₃, Cocheco 18, Lowell 14, Naumkeag 13, Hamilton 16¹/₄, Home 11, Empire State 10¹/₄, Lancaster 16, Wauregan light 15¹/₄.

LAWNS and GINGHAMS are still inactive and prices are not firm. Lancastér Ginghams sell at 23 cents, Hartford 18, Caledonia (new) 20, Glasgow 21, Berkshire 21, German 20, Roanoke 12¹/₂, Manchester 18.

CANTON FLANNELS are inactive at this time. Laconia 28, Rockland 16, Naumkeag 25, Nashua A 20, Extra Plush 221.

CORSET JEANS are in fair demand and prices are steady. Androscoggin 14, Bates colored 13¹/₂, do bleached 14, Naumkeag 20, Pepperell 21, Naumkeag satteen 23, Laconia 20, Newmarket 16¹/₂, Rockport 20, Quinnebaug 12, Tremont 12.

CAMBRICS AND SILESIAS are also in fair demand. Washington cambrics sell at 13 cents, Victory 12, do A 13, do high colors 14, Fox Hill 10¹/₂, Superior 11¹/₂, Smithfield 13. Waverly 12, S. S. & Sons paper cambrics at 16¹/₂, do high colors 18¹/₃, White Rock 17, Masonville 17, and Indian Orchard Silesias 20, Ward do at 20.

WOOLEN GOODS are inactive except for a few specialities of the sea. son, finer goods for immediate use.

MOUSLIN DELAINES are less active, but there is no change in prices. All dark 23, Hamilton Co. 23, Manchester dark 23, Pacific dark 28, Armures dark 23, High colors 23, Pacific Merinos 40, Mourning 23, Shephard checks 23, Spragues 22, Skirtings 80.

CARPETS are less active, but prices are steady.

AMERICAN LINEN is in steady demand at old prices.

FOREIGN GOODS have become quite dull from the lower price of cotton and continued unfavorable foreign advices. The auction sales continue to be well supplied, but prices are very low. and but little animation is shown. A few kinds of goods, thin dress, white goods and ribbons are steady.

75, Pepperell do $77\frac{1}{2}$.

TICKS are also quiet, but with considerable stocks, quotations are nominal. Amoskeag A C A 32 inch 46, do A 32 do 36, do B 32 do 31, do D 30 do 21, do C 30 do 26, Brunswick 20, Blackstone River 20, Hamilton 34, Somerset $17\frac{1}{2}$, Thorndike 20, Pearl River 43, Bunkerhill $42\frac{1}{2}$, York 32, Cordis A A $37\frac{1}{2}$, Everett 22, Boston A A 30, Swift River 20, Eagle $37\frac{1}{2}$, Baltic $12\frac{1}{2}$.

STRIPES are without important change. Amoskeag 28 and 29, Uncasville 18 and 19, Whittenton A A 27½ do A 3-3 26, do B B 20, do C 18, Pittsfield 3-3 11½, Pemberton Awn 42½, Haymaker 20, Massabesic 6-3 27, Boston 18, American 16 and 17, Eagle 15 and 15½, Arkwright 16½, Jewett City 17 and 18, Sheridan G 17.

CHECKS have been quiet and prices are nominal. Park Mills Red 22¹/₂, Lanark 4x2 18, Lanark fur 18¹/₂, Union 50 4x2 32¹/₂, do 50 2x2 31, do 20 4-2 30, do 20 2-2 30, Caledonia 30, do 11 inch 26, Kennebeck 27¹/₂, Star No. 600 15¹/₂, do No. 800 2x2 20¹/₂, do No 900 4-2 24, Cameron No 90 21¹/₂, do No. 80 20.

DENIMS AND COTTONADES are dull, and denims continue to decline. Amoskeag denims sell at 36c., Haymaker 21, York 32¹/₂, Warren brown 20, Pearl River 33¹/₂, Union 21, Monitor 18, Manchester Co 23, Suffolk 25, Arlington 23, Blue Hill 18, Fort Moultrie 30, Mount Vernon 27, and Farmers' and Mechanics' cottonades at 45c, Pemberton d&t 42¹/₂, Bodman's Ky J 47¹/₂, Plow L & Anv. 50, Everett 47¹/₂, New York Mills 57¹/₂.

BROWN DRILLS are in light demand for export. Winthrop $16\frac{1}{2}$, Amoskeag 21, Laconia $21\frac{1}{2}$, Pepperell 21, do fine jean 21, Stark A $20\frac{1}{2}$, Our General Prices Current will be found on pages 541 and 542.

The Railway Monitor.

ERIE COAL TRADE.—The entire coal trade of this port in 1866 amounted to 377,990 tons, of which (including 25,000 tons of anthracite), 251,317 tons were shipped, all the remainder was bituminous obtained chiefly from Mercer, Lawrence and Beaver counties, and transported via the Erie and Pittsburg Railroad and the Erie (Pa.) canal to the docks in Erie city, whence it is taken by vessels to the ports on the upper lakes—mostly to Chicago. The return freights are made up from the iron ores of Lake Superior. The freights and tolls on the Erie Canal the season of 1866 were from \$1.75 to \$2.25 per ton, according to distance, and the tariff by railroad was about $2\frac{1}{2}$ cents per ton per mile, while lake freights for coal to Chicago ranged from \$1.25 to \$1.50 per ton. The port of Cleveland is the only competing port of any importance for the shipment of bituminous coal.

OHIO RIVER SHIP CANAL.—Before adjournment Congress passed a joint resolution providing for the necessary survey for a ship canal around the Falls of the Ohio River. The resolution directs the Secretary of War to cause surveys, with plans and estimates of cost, to be made by an officer of the Engineer corps, for a ship canal suitable for military, naval and commercial purposes, around the Falls on the Indiana side, and to cause said officer also to estimate the expense of completing the Louisville and Portland canal on the Kentucky side. The expenses of these operations are to be defrayed from existing appropriations; and the report will be laid before Congress at its next session for decision, whether the existing canal shall be completed or a new one be made.

BRIDGE AT DUBUQUE.—The project of constructing a railroad bridge across the Mississippi at this point is now being discussed, and a company formed for the purpose of forwarding the work. The cost will not be more than \$1,000,000. Under the act of Congres,

the structure, if of continuous spans, must be 50 feet above high water mark, but only 40 feet if a draw-bridge. The legislature of Illinois has already authorized the construction of such a bridge, and it is almost a matter of course that the legislature of Iowa will legislate to the same effect. In a short time not less than a dozen bridges will span the great river between St. Paul and St. Louis.

ERIE RAILWAY BONDS.—The first mortgage bonds of this company, due July 1, 1867, are to be extended for thirty years from that date. The amount is \$3,000,000. New sheets of coupons, with an endorsement thereon of a mutual agreement of such extension, will be issued and attached, with interest payable semi-annually as heretofore. Persons whose bids may be accepted will have the option of extending bonds on London, Frankfort or Germany, on due notice to the company.

UNION PACIFIC RAILROAD (Central Branch).—The Secretary of the Interior has received a communication announcing the completion of the third section of twenty miles of the Central Branch of the U. P. RR., said branch being the road formerly known as the Atchison and Pike's Peak Railroad.

MEMPHIS AND EL PASO RAILROAD.—The formal assent of Memphis, as one of the stockholders of this road, is alone necessary to give effect to a sale that is said to insure the completion of this important work. Under its terms the road is to be completed by Jan. 1, 1868, and the purchasers agree to assume and pay all liabilities of the present Memphis and Little Rock Railroad Company. The El Paso Company is authorized to issue bonds to the amount of \$1,300,000, to be used in completing and equipping the road. Two thousand tons of iron are to be delivered by Oct. 1, or so much as may be necessary for the completion of the road.

LOUISVILLE-MEMPHIS ROUTE.—The bridges over the Cumberland and Tennessee Rivers washed away by the recent floods have been replaced, and travel between the above named terminal cities fully resumed.

INSURANCE ITEMS.

METROPOLITAN INSURANCE COMPANY .- This company, under an Act of the Legislature just passed, has reduced its capital to three hundred thousand dollars, and has canceled its mercantile and manufacturing risks except in the old cities. All will regret the necessity for this step, for a more vigorous, prompt, liberal company never existed : but the fearful fires that have swept over the country during the past twelve months have fallen with particular severity upon it, leaving the directors no alternative. The disaster at Portland alone cost the company about \$250,000. In the new organization the expenses have been reduced greatly, and the business adjusted to the reduced capital, and with credit which has never been impaired by the refusal to pay promptly any just loss, we trust that they will soon repair the great disasters of the past, and feel warranted in again extending the company's business to its former limits. The officers commence now on a very favorable basis, having a very large amount of safe business left after cancelling the more hazardous risks.

lent in value to an average scrip dividend of TWENTY PER CENT.	TRUSTEES: John D. Jones, Wm. Sturgis,	Cash Capital \$200,000 00 Assets, March 9, 1866 252,559 22 Total Liabilities 26,850 00

Instead of issuing a scrip dividend to dealers, based on the principle that all classes of risks are equally profitable, this Company makes such cash abatement or discount from the current rates, when premiums are paid, as the general experience of underwriters will warrant, and the nett profits re-maining at the close of the year, will be divided to the stockholders.

the stockholders. This Company continues to make Insurance on Marine and Inland Navigation and Transportation Risks, on the most favorable terms, including Risks on Merchandise of all kinds, Hulls, and Freight. "Policies issued making loss payable in Gold or Currency, at the Office in New York, or in Sterling, at the Office of Rathbone, Bros. & Co., in Liver-mool pool
