AT THE NATIONAL BANK OF COMMERCE IN NEW YORK.

The Road is completed and in operation from ST. LOUIS to BRUNSWICK, on the Missouri River, and to ATLANTA, in Northeast Missouri, 242 MILES.

The entire length of road which will be completed in NOVEMBER OF THIS YEAR, 382 1-2 MILES.

Amount in Actual Cash Expended in Construction to date, \$11,340,000.

The only lien upon the Road is this First Mortgage of Six Millions, and which is LESS THAN \$16,000 PER MILE.

This Road connects with the Union Pacific at Kansas City, already completed westward 350 miles, and with the Iowa Central and the Cedar Rapids Railroads in Iowa, forming by the Iowa Central a direct connection with St. Paul, and by the latter with Dubuque. It runs through the choicest agricultural and coal lands in the State of Missouri, and by its connections will have the finest and most populous portions of Iowa and Minnesota tributaries to it. The road now completed is constructed in the most substantial manner.

We recommend the above loan as an undoubted security, and are authorized to offer a limited amount of the Bonds at 83 1-2 and accrued interest. For the character of the security we refer, by permission, to R. LENOX KENNEDY, Esq., President National Bank of Commerce, New York.

SAVINGS BANKS, TRUST COMPANIES

PACIFIC RAILROAD,

(OF MISSOURI)

SIX PER CENT GOLD BONDS.

The Pacific Railroad (of Missouri), through the undersigned, offer for sale a limited amount of their six per cent gold bonds at 97½ per cent and accrued interest.

The road extends from St. Louis 283 miles to Kansas City, there connecting with the Union Pacific Railroad (E.D.) and other roads, and was completed in 1865, at an expenditure of over \$13,000,000.

The earnings for the year ending February, 1867, were..\$2,675,874 00

Operating expenses..... 1,956,644 00

Net earnings were..... \$719,230 00

For the year ending February, 1868, the earnings were..\$3,003,681 31

Operating expenses were 2,030,626 33

Net earnings..... \$973,054 92

While for the first quarter of 1868 the net earnings exceed those of the same quarter in 1867 by \$133,679 69.

The Railroad Company, in order to pay off the State of Missouri for advances in aid of constructing the road, as well as all other liens, has issued \$7,000,000 of First Mortgage 6 per cent bonds, secured by deed of trust to Messrs. James Punnett, President of Bank of America, New York; U. A. Murdock, President of Continental National Bank, New York; and Luther C. Clark, of Clark, Dodge & Co.

The bonds run twenty years from August 1, 1868, interest February and August in New York.

Principal and Interest Payable in Gold Coin.

In offering these bonds to the public we remark that the road passes through the central, most populous, fertile and growing part of the State of Missouri, forms part of an important line, and is a completed and successful enterprise, already earning nearly double the amount required to meet the interest on its entire indebtedness, thus entitling the bonds to the rank of a first class security.

St. Louis & Iron Mountain

Railroad Company's Seven per cent First Mortgage Bonds, February and August coupons. The earnings of the completed road to Pilot Knob are now more than the interest on the entire mortgage. The proceeds of these bonds are adding to the security every day. Over \$3,000,000 have been spent on the property and not over \$2,000,000 of bonds issued thus far. The constantly increasing traffic of carrying ore, with the prospect of controlling all the travel from St. Louis to the Southern States, insures an enormous revenue. The Directors own 8.10 of the stock for investment, and are interested to enrich the property as well as to economize its expenses.

THOS. ALLEN,
President, St. Louis, Mo.

We, the undersigned, cordially recommend these seven per cent mortgage bonds of the St. Louis and Iron Mountain Railroad as a good security. The revenue of the road will be large, and the administration of the affairs of the Company is in capable and experienced hands, and is entitled to the greatest confidence of the public.

MR. McCULLOCH AND THE MONEY MARKET.

It has lately been supposed by a few persons in Wall street that the ease of the money market will not last much longer, but will be disturbed by various causes, and give way before long to a sharp spasmodic demand, with a supply inadequate to that demand. It is of the highest possible importance to have this matter cleared up. The fortunes of multitudes of our shrewdest and most energetic merchants, manufacturers and industrial workers depend in part on the money market. If then, at the heart of finance, everything is strong and healthy, the same soundness and health pervades every part of the financial organism.

Now let us see what ground these prophets have for anticipating stringency this fall. In the first place, there is a demand for currency for the West. This outflow of greenbacks from New York does not usually begin so early as the middle of August, but occurs several weeks later. Nothing is more certain than that in the past week considerable shipments have been made of currency to Chicago and Milwaukee, and smaller amounts to Cincinnati and St. Louis. Whether this demand is merely temporary it is too early yet to judge. There are in the West some speculative

causes at work which might easily account for an exceptional demand just now. What we have to do is to watch events carefully before making up our minds.

Secondly, the activity of business which is generally looked for will cause a considerable demand all over the country for currency. The limited business of the last three or four years will probably be followed and compensated by a very lively movement in almost all departments of legitimate trade. To the many forces generally cited as operating to this end may be added the expansive and stimulating effect of the repeal of taxation. It is a law of fiscal science, which has been but too extensively at work in this country, that heavy taxes kill business. Would that the converse of this law were also true, and that the business which has been killed by taxation revived immediately when the taxes were repealed! Experience shows, however, that while the killing process is swift, that of resuscitation is slow. When the commercial edifice has been shaken some time elapses after the removal of the noxious tax, and before the shattered fragments of the dilapidated, half destroyed edifice can be brought together and made to assume their former symmetry, order and beauty.

The *Tribune* the other day expressed its regrets that the heavy war taxes had not been continued up to this time. We cannot sympathize with this regret. On the contrary, the taxes which have been taken off have injured the country to an extent beyond computation. They are corroding ulcers, and to have continued them would have been to perpetuate and to extend the malady. To remove them stops its further spread and prepares the way for complete recovery. The trade of this country has been weakened, and wearied, and depressed by bearing, for several years, a burden of bad taxation. But a change has been made and relief has come. By the act of 13th July, 1866, this galling load of taxes was taken off to the amount of sixty millions. A further lightening of the burden by the law of 2d March, 1867, took off 40 millions more. The cotton tax repeal bill made a further diminution of \$23,769,000, and to complete the relief the act of March last repealed taxes to the amount of \$44,500,000.

Who shall estimate the elasticity and active renewal of business which will be developed by this repeal of almost one hundred and seventy millions, and the removal of so much of the paralyzing weight which has crippled its movements. And time has been given for the change to work. A sufficient interval has now elapsed. The results, therefore, are looked for with no small interest.

But it is this gratifying prospect of resuscitating business which is being converted into an argument that money will probably be tight, or at least that there will be a very great activity with high rates of interest. This, indeed, is the

main argument on which these gloomy seers rest their unfavorable prophecies. Their horoscope is worthy of regard if we do not accept it as more than partial and one sided.

The chief reasons for anticipating stringency are thus founded on the increased demand. How about the supply? If this keeps apace then there is no fear of monetary trouble. In answering this question we must discriminate the supply of capital from the supply of currency, each depending on its own laws, and each being equally necessary as a condition of monetary ease.

As to the supply of idle floating capital in such a form as to be available in the loan market, never, probably, has there been a time when the Wall Street reservoir was more full, and more capable of commanding almost any increase that may be needed. Circumstances have placed, and will probably keep, the European markets in a condition favorable for us. Money is a drug there, and is anxiously seeking investment here. Besides our foreign supplies, the floating capital of this country is accumulating very rapidly. It cannot invest itself as heretofore in government bonds without displacing other capital, for the government issues have stopped, and few new bonds will be issued. The reservoir of capital in the loan market being thus so amply supplied from foreign and from domestic sources, we have one of the chief safeguards against stringency.

Let us next look to the currency. Is the horizon free in that direction from probable trouble? Congress, before its adjournment, took measures to keep the currency stable. The chief trouble threatened, as is well known, was from the Compound Interest Notes. These are just maturing, and as they perform some of the functions of currency to pay off twenty or thirty millions, would be equivalent to contracting the currency to that extent. This contraction in the month of June or July would not be felt. But in the fall it might have serious results. To prevent these the issue of three per cent certificates was authorized just at the close of the session. By these the currency will be kept free from perturbation so far as the redemption of the compounds is concerned. As to any disturbance of the currency by Mr. McCulloch's sale of gold or of bonds, it is not to be thought of. The Secretary will not, it is believed, disturb the money market intentionally, and he is too sagacious and experienced to do it without intending it.

FURTHER ISSUES OF GOLD BONDS.

The report that gold bonds have lately been sold by the Treasury, suggests two questions in connection with the debt statement just issued which have elicited remark, and are well worthy of careful scrutiny. The first is whether the issues of gold bonds are stopped in consequence of the funding of the Seven-Thirties. The general impression is that Mr. McCulloch's power to issue gold bonds has expired and some very elaborate arguments have appeared in the papers to show how the stoppage of the issues will raise the price of the bonds by the two-fold process of lessening the supply on the one side, and, on the other, of stimulating the demand which always arises when there is a general belief that prices are going up.

We are sorry to disturb the equanimity of our amiable friends who are anticipating a rise in Government bonds from this cause. We hope and believe that from some other forces there may be an advance on the present quotations, which are at least 10 per cent too low, as we have often attempted to show. Probably one cause for this low price is the large issues which have been made every year. But if so, for some months to come this cause will continue in operation, since Mr. McCulloch certainly has the power

under the law to issue gold bonds in exchange for, or to cover the amount of any Treasury notes and short obligations he may hereafter call in. Indeed, it is doubtful whether if any emergency should arise, gold bonds might not be issued in place of such part of the Seven-Thirties as have been redeemed in cash, and have been represented by no new Five-Twenty or Ten-Forty bonds sold. The amount of these is variously estimated, but it would be very considerable. Some keen observers imagine, as we have said, that they can discern evidence that during this week Mr. McCulloch has been selling bonds. How far the inference is justified we shall know when the next month's statement comes out.

The other point to which we referred has to do with the increase of the public debt. Some persons suppose that the alleged issues such as we have cited involve in some way an enlargement of the aggregate, or at least of the interest. This illusion will vanish if we remember that from August 31, 1865, to June 30, 1868, there has been a reduction of the national debt to the amount of two hundred and fifty millions of dollars. This reduction would, at six per cent, save the country no less than fifteen million of dollars a year. But this is not all. Contemporaneously with these reductions, about 170 millions a year of internal revenue taxes have been removed; that is, the burdens of the people have been lessened to that amount. We have here another illustration of the financial strength of the country. That there will be no occasion for any increase of the debt is confirmed by the large revenue receipts, and the diminishing expenditures of the current year. In the last fiscal year the receipts were: from customs \$163,500,000 from internal revenue \$193,000,000, miscellaneous \$49,800,000, the total being \$406,300,000. The expenditures were but \$371,550,225, leaving a surplus of income over expenditure of nearly 35 millions.

We thus see proved the gratifying fact that heavy as have been the expenditures of the past year, the revenues have paid them all, and have reduced the principal of the debt. It has been said that "if we deduct the appropriations for interest of the debt, and for the pensions and bounties, the difference of expenditure for the last year is not proportionately greater than that before the war, if the increased population of the country be reckoned at the two periods, or the changed condition of the national life." Without by any means conceding this, we may agree perhaps that for the coming fiscal year, with retrenchment and economy the expenditure of the Government will be kept within its income, lessened as that income may be by diminished taxation. We expect no increase of the principal of the debt, even for the payment of the bounties, though such an increase might, under certain contingencies, become legitimate and expedient.

CONDITION OF THE NATIONAL BANKS.

The July quarterly statement of the condition of the National banks, published in our last number, presents some features to which the attention of the banking interest needs to be directed, and the interesting and elaborate table given below, furnished by the Comptroller of the Currency, affords all the details necessary for making the examination. In certain respects, the return is a satisfactory one; in others, it is not so. The deposits show a very large increase upon those of the same period of last year, there being in all the banks of the country \$575,644,604 of individual deposits, against \$537,882,949 for the same period of 1867. This indicates a relaxed condition of business, and is so far an unhealthy symptom. The generally low rates of interest are a natural result of this plethora of idle funds, and simply means that at present business is not sufficiently remunerative to tempt capital into employment. When legitimate business, however, is least active, speculation is apt to be most so; and the present condition of the loans aptly illustrates this rule. The loans and discounts of the banks stood, on the first Monday of July, at the very large total of \$655,525,346, which is about \$67,000,000 over the aggregate at the same period of 1867. Considering that the general business of the country is unusually dull, none of this increase can be regarded as due to an addition to the discounts, and it is, therefore, to be concluded that the expansion is mainly upon demand loans, consisting chiefly of advances upon stock collaterals. The amount of railroad stocks has been increased during the year \$40,000,000 to \$50,000,000 by share dividends or by other issues of new stock, and the prices of stocks are generally much higher than a year ago, as will be seen from the following comparison of prices of leading shares;

	June 28, '67.	July 3, '68.		June 28, '67.	July 3, '68.
New York Central	104%	134%	Northwestern pref	65%	79%
Erie	66%	70%	Rock Island	95%	105%
Hudson River	109%	189%	Fort Wayne	103%	110%
Michigan Southern	78%	91%	Illinois Central	121%	157%
Michigan Central	110%	119%			
Northwestern	42%	75%	Total price	893%	1,082%

It is thus seen that railroad shares ranged, at near the date of the quarterly statement, about 20 per cent above the prices of a year previous; which, of course, called for a proportionate increase of advances upon this class of securities. This is an expansion of loaning operations in a direction least to be desired, inasmuch as it indicates a growth of speculation rather than of legitimate business operations. The expansion implies a certain degree of danger, when the trade of the country assumes more activity; but it is the speculators rather than the banks that are threatened.

It cannot be said that the loans and discounts of the banks are out of reasonable proportion to either their capital or deposits. The capital and deposits combined amount to \$995,451,511, against \$655,525,346 of loans and discounts; so that the loanable resources are 52 per cent in excess of the advances actually made. In 1860 the capital and deposits together aggregated \$675,000,000, while the loans and discounts were \$892,000,000. So that the condition of the banks, in respect to loans, is much more conservative now than eight years ago. There is, however, this difference between the two periods; the banks in 1860 made their advances to a larger extent upon capital than at present, their capital being \$422,000,000, and deposits \$253,000,000; while the capital of the National banks now is \$419,806,511, and the deposits \$575,644,604. Or, to present the difference in another aspect; in 1860 the capital was 62 per cent of the loans, and in 1868, 54 per cent; while the deposits were, in 1860, 36½ per cent of the loans, and in 1868, 88 per cent. But although the loans now are less upon capital and more upon deposits than in 1860, yet considering the very large amount of deposits, it can hardly be fairly assumed that the loans are imprudently expanded. The very large amount of deposits, as compared with eight years ago, very strikingly illustrates the present comparative stagnancy of trade; and, at the same time, it suggests a ready explanation of the fact of the prices of securities being so much higher than in former years.

But the Comptroller's exhibit given below is particularly important as showing the condition of the reserves of the banks, since these figures give us light as to their stability. No subject is so important to the people; and if they are once convinced that the financial machinery is working more smoothly, more efficiently, and with more safety than any other we are likely to have in its place, we shall soon hear far less in favor of those unfortunate destructive measures which are urged before each succeeding Congress. Fears have been expressed lest the contraction of the greenback circulation, and especially the redemption of the Compound Interest Notes, would induce the banks to run upon a much smaller reserve. These apprehensions are now, however, proved to have been groundless. The official returns show that the banks are much more than living up to the law. The New York city banks held, at the date of the statement, \$17,200,000 of available reserve, in excess of the amount required by sections 31 and 32 of the National Currency Act, the surplus being 6.9 per cent over the legal requirement. In the other cities named in section 31 of the Act, there is an excess of reserve amounting to \$19,600,000 or 7.92 per cent beyond the legal limit of 25 per cent. The per centage of excess is largest at Philadelphia, being there 11.8; and next at Boston, Chicago, and New Orleans. At Cincinnati, the available reserve is only 1.6 per cent beyond the amount required; while at Cleveland and Leavenworth it falls below the limit. These points are illustrated in an official exhibit given in our

last issue. The table subjoined gives an analysis of the reserve of those banks required to maintain a reserve of 15 per cent, commonly designated the country banks. While in the redemption cities the reserve averages $7\frac{1}{2}$ per cent beyond the lawful requirement, the reserve of the country banks averages nearly 9 per cent in excess; a fact which satisfactorily refutes the impression that the latter class of banks have not maintained a very conservative regard for their reserve. The reserve stands lowest in the District of Columbia, Utah and Texas, where the excess ranges from 2.2 to 4.2 per cent; and highest in the Southern States, ranging from 21.4 per cent in Georgia, to 46 per cent in South Carolina. In the New England States the ratio of excess is comparatively low, ranging from 6.4 per cent in Vermont to 8.6 per cent in New Hampshire

In New York State the excess is 7.7 per cent, in Pennsylvania 7.8 per cent, and in New Jersey 9.9 per cent. In the Western States the excess varies between 6.2 per cent in Indiana to 17.4 per cent in Iowa. The amount of reserve required at the date of the statement, to be kept in the vaults of the country banks was \$25,100,000; whereas they actually held \$48,800,000. That portion of required reserve allowed by law to consist of balances due from redeeming agents was \$37,700,000, while the actual amount was \$51,700,000. In a word the return, as a whole, must be viewed as satisfactory, not only as measured by the legal standard, but also as tested by the requirements of conservative banking. Below we give the exhibit as sent us by the Comptroller of the Currency.

STATEMENT OF THE CONDITION OF THE LAWFUL MONEY RESERVE, REQUIRED BY SECTIONS 31 AND 32 OF THE NATIONAL CURRENCY ACT, OF NATIONAL BANKS LOCATED OUTSIDE OF THE CITIES NAMED IN SECTION 31, AS SHOWN BY THE QUARTERLY REPORT OF THE CONDITION OF EACH BANK ON THE MORNING OF MONDAY, JULY 6, 1868.

PACIFIC RAILROAD OF MISSOURI.

The Pacific Railroad of Missouri extends from St. Louis directly west to the Kansas line, 283 miles, where it forms a close connection with the Union Pacific (E. Div.) Railroad, already completed to Coyote, 356 miles beyond that point, making the whole distance from the Mississippi River to the present western terminus of the joint lines, 369 miles. It also connects at Kansas City with the Missouri River Railroad, extending thence to Leavenworth, 33 miles, and operated under lease by the Pacific Company.

This company is one of the great Land-Grant and State-Aid corporations of Missouri. It was chartered February 12, 1849, and organized January 30, 1850. In June of the latter year the surveys for the projected line were commenced, and July 4, 1851, the formal breaking of ground took place. Construction was carried on with frequent interruptions through the following fifteen years, and was completed only in October, 1865, when the whole line was brought into operation. The details of operations through the intermediate years are given in an article published in the CHRONICLE of October 27, 1866. We refer to this article also for other valuable statistics not repeated in our present number.

The Southwest branch of the Pacific Railroad, constructed chiefly on credit and State aid, and which formerly belonged to this company, has been sold to a new organization, and will form the first link in the projected Atlantic and Pacific Railroad. In the following review its accounts have been separated from those of the present Pacific Company.

The equipment of the Pacific Railroad is now sufficient for the business transacted on it. The number of engines placed on the road since the commencement of operations has been 63. On the 1st March, 1868, there were on the line 52, 5 of the 63 having been condemned, and 6 turned over to the Southwest branch. At the same date the company had 41 passenger, 6 mail, 17 baggage and express, 30 caboose, 270 box, 224 flat, 175 stock, and 7 other cars; also 25 stationary engines for pumping water. The sleeping car company had 4 cars on the road, and the St. Louis and Pacific Express freight line 50 box cars.

The list of engines and cars owned and in use by the company on the first of March, 1864-68, both inclusive, was as follows:

	1864	1865	1866	1867	1868

These figures, meagre as they are, will serve to explain in some measure the general operating expenses given in the following paragraph.

The gross earnings from operations in the years ending with February, 1864-1868, both inclusive, have been as exhibited in the following comparative statement:

The increase of gross earnings, operating expenses and nett revenue yearly, over each preceding years, is shown in the annexed statement:

	1864 over 1863.	1865 over 1864.	1866 over 1865.	1867 over 1866.	1868 over 1867.
Gross earnings, per cent....	33.35	21.09	63.42	49.13	12.25
Operating expenses, p. cent	20.69	62.31	57.19	40.41	3.78
Nett revenue, per cent.....	58.57		89.05	79.44	35.29
Nett revenue decreased.....		41.34			

The following shows the average length (miles) of road operated in each of the above years, and the gross earnings, operating expenses and net revenue per mile:

	1863-4.	1864-5.	1865-6.	1866-7.	1867-8.
Miles of road operated.....	194	214	253	283	283
Gross earnings, per mile.....	\$4,673 95	\$5,130 69	\$7,120 46	\$9,455 38	\$10,613 71
Operating expenses, per mile	2,815 26	4,142 44	5,529 88	6,913 94	7,175 26
Nett revenue, per mile.....	1,858 69	988 25	1,590 57	2,541 44	4,438 35

The whole line from St. Louis to Kansas City (283 miles) was brought into operation October 2, 1865. For the year ending February 29, 1866, the gross earnings per mile were \$7,120 46, and in the year ending February 29, 1868, they were \$10,613 71, an increase of \$3,493 25, or 49.07 per cent. The operating expenses in the latter year were greater than the gross earnings of the former year. In the meanwhile the nett revenue rose from \$1,590 57 per mile to \$3,438 35, an increase of \$1,847 78, or 116 per cent. The decrease in operating expenses is remarkable: in 1864-5 they were 80.74 per cent of gross earnings, and in 1867-8 67.61 per cent, a decrease equivalent to 16.26 per cent. These facts are encouraging; they show not only that the business of the line is rapidly increasing, but also that it has been managed with an intelligent economy that augurs well for the future of the enterprise. One great drawback has been experienced in the fact that the guage of the road is different from that of the lines connecting at either terminus. The guage of the Pacific (Mo.) Railroad is 5 feet 6 inches, while the guage of the Illinois lines, and also of the Union Pacific (E.D.) Railroad is 4 feet 8½ inches. To remedy this anomaly and to secure more complete connections the company have decided to change the guage of their road to that of the neighboring roads. This will secure a great uniform line of roads from New York, Boston, Philadelphia, Baltimore, &c., to the furthest west. Improvements in the way of auxillary lines will be adopted. The Osage Valley and Southern Kansas Railroad, nearly completed from Boonville to Tipton is the pioneer. Its ultimate destination is Fort Scott in Kansas. The Pacific Company have taken a thirty years' lease of this road, and will probably open the first section early in September.

In order to show the progress of the Pacific (Mo.) Railroad *ab initio* we compile from the record the following statement of the mileage operated, and the earnings thereon yearly, since the opening of the first section in December, 1852:

[From our own Correspondent.]

LONDON, Saturday, August 1, 1868.

Notwithstanding the fine weather, a large wheat crop, a great proportion of which is now secured, and a further considerable decline in the price of wheat, the trade of the country remains quiet, and there is still a great absence of speculative operations. In no department is there any animation apparent, but the impression still exists that in consequence of the much lower price of wheat, the autumn trade will be more satisfactory. In some branches that may be the case, but, at the same time, there is not the probability that a resumption of active business will take place during the present year. It is more likely, indeed, that the mercantile body will continue to operate cautiously, and will not incur any considerable risks.

In consequence of the bountiful harvest now in process of being rapidly secured the wheat trade has continued in a most depressed condition, and prices show an average fall for the week of about 3s. per quarter. The supplies of new wheat brought to market have been small, but the quality is fine and the condition of the produce excellent. Some of the samples, however, show the effects of the protracted hot and dry weather, but the produce grown on heavy land could scarcely be better. Taken as a whole, the crop is a very superior one, and is equal to the most abundant seasons. At present it is early to speak, about the yield of produce per acre, so little of the new crop having as yet, been threshed. There is no doubt, however, that it is above the average, and will give great satisfaction both to the farmer and miller.

From the information that I have collected on the subject, I do not think that the yield per acre is anything like that of 1863, when an enormous crop was secured; but the breadth of land under wheat cultivation this season is very extensive, and it is to that circumstance, in a great measure, that so much wheat has been produced. Had the month of June been, as the saying is, "a dripping June," the ears might have been larger, but that month was intensely hot and dry, and brought the plant on too rapidly. In 1863 the case was different. The harvest was not commenced before the usual period, in consequence of the genial rains which fell in June, but the crop matured more slowly, and a stronger development was the result. So far as the wheat crop is concerned, however, we have no reason to be dissatisfied. On the other hand, we have been blessed with a large yield of the great necessary of life, and such a result cannot but produce a favorable effect in all departments of business. In other respects, however, the agricultural prospect is not so satisfactory, in consequence of the long-continued

drought; but the weather seems to be changing, and there is yet time for the pastures to recover themselves should a week of wet weather take place.

The fall in the prices of the best descriptions of flour is as much as ten shillings per 280 lbs. As regards wheat the average fall for England is 11s. 10d. per quarter. The following statement shows the average price of wheat in England in each week since May 2, compared with the four previous years:

Advices from Hungary state that the harvest in that country is finer in quality and larger in quantity even than that of last year.

Partly in consequence of the circumstance that the acceptances of Messrs. Zeigler, Meiss & Co. were returned on Tuesday, the Liverpool cotton market has been dull, and American produce has declined in value to the extent of ½d. per lb. With regard to the above firm, it appears that they were large importers of India cotton, and possibly anticipating a further rise during the rapid upward movement in the early part of the year, had then made large purchases at Bombay; but on the arrival of the produce at Liverpool, they found the market so much against them that they were compelled to succumb. The large increase in the quantity of Indian produce afloat, as compared with a few months since, has taken most persons by surprise, the rise in prices at Liverpool during the earlier months of the year having had the effect of hastening the produce to the Liverpool market. The quantity of Indian cotton afloat is now 894,275 bales, while the diminution in the stocks of cotton in Liverpool and London, including the supplies of American and Indian produce ascertained to be afloat to those ports, is only 55,234 bales, as compared with last year. The bad policy of the cotton buyers during the closing months of last year of allowing cotton to fall to so low a point that a serious check was given to the trade at the ports of shipment in the East and West has been more than corrected. From a low point, the value of cotton was forced rapidly up, and the effect is now seen in the fact that from a supply of Indian produce afloat of only about 80,000 bales (the quantity ascertained to be afloat on the 16th of January) the supply known to be on passage to this country is increased to 894,275 bales.

Advices from Egypt state that the crop of cotton promises to be a good one.

The public sales of colonial wool will be commenced in London on the 13th ult. The arrivals since last sales have already amounted to 190,116 bales, and there is every probability that the aggregate supply by the day of sale will be as much as 210,000 bales. As the harvest has been a good one, it is expected that previous quotations will be maintained. The following figures show the imports and exports of wool into and from the United Kingdom during the first six months of the year, and also the exports of woollen manufactures in the same period compared with the two previous years:

The Board of Trade returns for June and the six months ending June 30, were published on Thursday. They show that our outward trade has fallen off not only from last year, but also from the previous month, owing, no doubt, to the diminution in our trade with China, the United States and France. During the month the declared value of our exports of British and Irish produce and manufactures amounted to £18,933,054, against £15,490,091 last year, and £14,680,120 in 1866; while in the six months ending June 30 it reached a total of £84,601,157, against £87,613,484 in 1867, and £92,857,830 in 1866. The computed real value of our imports in the five months ending May 31 was £90,167,617, against £88,547,811 last year, and £98,315,826 in 1866.

In June our imports of cotton reached a total of 1,086,630 cwt., of which 608,910 cwt. were from the United States, 98,933 from Brazil, 4,820 Turkey, 139,655 Egypt, 211,964 British India, and 22,858 cwt. from other countries. The total received in June last year was 1,293,724 cwt., and in 1866 1,677,672 cwt. The following figures show the imports into the United Kingdom in the six months ending June 30:

From—	1866. cwt.	1867. cwt.	1868. cwt.

As regards the exports of cotton there is a considerable falling off as compared with last year. In the six months the diminution is about 280,000 cwt., the heaviest decline being in the shipments to Russia and Prussia. The following are the particulars for the six months:

To—	1866. cwt.	1867. cwt.	1868. cwt.

The exports of cotton piece goods were less in June, current year, than in the corresponding month in 1867, in consequence of diminished shipments to Egypt, the Continent and the United States. The official return, however, shows extensive shipments to India and China. The following are the total exports in the six months:

In the money market there is still much quietness, but the supply of money has rather diminished during the last few days. The demand for gold for export has increased, in consequence of the recent foreign loans, and of the approaching French loan, but, at present, it is not to any important extent. All our importations, however, are transmitted to the Continent, in addition to which about £70,000 has been taken out of the Bank. The approaching French loan seems to be the leading cause of the increasing demand for remittance to the Continent. Yesterday the demand for money was stronger, in consequence of the settlement in the Stock Exchange, but the actual commercial inquiry showed no improvement. However, the rates of discount are firmer, and in the open market 1½ per cent, is an exceptional *minimum* quotation. The following are the prices of money compared with those of last year:

	1867. Per cent.	1868. Per cent.	1867. Per cent.	1868. Per cent.
30 and 60 days' bills	1½@1½	1½@1½	6 months' ba'k bills	2 @2½
3 months, b'k bills	1½@1½	1½@1½	4 and 6 trade bills	2 @3
4 months, ba'k bills	1½@2	1½@2		2 @3

Money on the Continent is still quiet, but a little excitement is shortly expected in consequence of the French loan. The rates of discount remain about the same. The supply of bullion continues to accumulate in the Bank of France, the total now held being rather over £19,000,000. The following are the quotations for money at the leading cities:

	B'k rate— 1867. 1868.	Op. m't— 1867. 1868.		B'k rate— 1867. 1868.	Op. m't— 1867. 1868.

Amst'rd'm	2½ 2½	2-2½ 2	St. Pet'g.	7 6½	7½-8½ 6-6½

In the rates of foreign exchange the principal feature is a decline in those on Paris, owing to an increased demands for bills.

In the bullion market the chief features are an augmented demand for gold for export, and a decided abatement in the inquiry for dollars for shipment to China. The prices of bullion are—

The variations in the Consol market have not been important. The tendency has been rather towards weakness, while a very moderate amount of business has been transacted. The following are the highest and lowest prices on each day of the week:

Week ending Aug. 1	Monday.	Tuesday.	Wed'y.	Thur.	Friday.	Sat.
Consols for money	94½-94½	94½-94½	94½-94½	94½-94½	94½-94½	94½-94½

In American securities the great feature is a very buoyant market for Atlantic and Great Western Railway bonds and debentures, in consequence of the improving position of the undertaking. It is proposed to offer the chairmanship of the new Board to Mr. Laing, M. P., and the deputy-chairmanship to Sir Charles Russel, M. P. Five-Twenty bonds exhibit a slight improvement; but Erie and Illinois Central have been rather weak. The highest and lowest prices of the principal American securities on each day of the week are subjoined:

English Market Reports—Per Cable.

The daily closing quotations in the markets of London and Liverpool for the past week, have been reported by submarine telegraph as shown in the following summary:

London Money and Stock Market.—Consols have been on the whole quiet; a little more firmness was apparent during the middle of the week, but at the close the quotations were nearly the same as at the opening. U. S. Five-Twenty bonds have been firmer than at the close of last week, sales having been made at 72; but at the close a weaker feeling was felt, the last price being 71½. Illinois Central and Erie shares have been weak, closing the week at a decline of ¼ per cent on Illinois, and 1½ per cent on the Erie shares. Atlantic and Great Western consolidated mortgage bonds opened at 39½, and steadily declined to 38 on Tuesday, but closed better at 39½. Five-Twenty bonds at Frankfurt opened at 75, and advanced to 75½@76, but closed dull in sympathy with the London market at 75½ for the old issue.

Liverpool Cotton Market.—This market is decidedly better than for some time past, and with comparatively heavy sales prices show a material advance, the last sales being made at 10d. for middling Uplands, and 10½d. for middling Orleans. The sales of the current week have reached a total of 75,000 bales. Reports of the market for yarns and fabrics at Manchester are favorable, but do not affect the tone of the cotton market. The total shipments of cotton from Bombay up to the 7th inst., since last report, have been 10,000 bales.

London Produce and Oil Markets.—The market for articles of American produce has been generally quiet, a little firmness for tallow and fine rosin was apparent during the middle of the week, and a slight advance noted, which, however, was not sustained. Spirits petroleum gained $\frac{1}{4}$ d. at the close, but refined was dull. Sugar has also been quoted dull. Linseed oil lost 5s., the last price being £32 15s. Linseed cakes have been dull, and the remaining oils quiet.

RAILROAD AND MISCELLANEOUS STOCKS.—The stock market has been on the whole dull; although in one or two stocks there has been considerable movement. The manipulation of Erie, preparatory to procuring stock for promoting the control of the next election of directors, has been attended with considerable fluctuation on the price of the stock, the price to-day having touched 52½, a decline of 7 per cent. within the week. Messrs. Vanderbilt and Drew are credited on the street, with being at the bottom of the movement, and there appears to be some reason for the supposition. New York Central has also been weak, sales having to-day been made at 126½ against 131½ last Friday. The general market has

sympathised with the fluctuations in these shares and closes 2@4 per cent lower than our last quotations.

There appears to be some disposition among the larger holders of stocks to realise, in anticipation of a closer money market next month; and there can be little doubt that likely a considerable amount of stock has been quietly shipped upon the street.

The following were the closing quotations at the regular board compared with those of the six preceding weeks:

THE GOLD MARKET.—The speculative excitement in gold continues, with wide fluctuations in the premium. The rise to 150 was attended with a good deal of realizing of profits by large holders; who, although still confident of ultimately higher prices, were yet willing, after they had realised, that the market should decline so as to afford them an opportunity of getting in their gold again at low figures. At the same time, those “short” on the market seized the opportunity for breaking down the premium, and under these circumstances the price at one time touched 145 1/2. A large amount of gold was bought at the lower figures, and the price again touched 148 this morning. At this figure, realizing again commenced, and the price consequently closes at 147. The interruption of importers’ remittances by the rise in gold has checked transactions in foreign exchange, and the consequent decline of rates to the basis of 109 1/2 @ 109 1/2 for prime bankers 60 days’ sterling has been an element partially tending to restrain the rise in the premium for the moment. Of the Alaska purchase money \$2,000,000 has been remitted in gold and the balance is understood to have been covered in bills and through telegraphic transfers.

The fluctuations in the gold market, and the business at the Gold Board during the week closing with Friday, are shown in the following table:

FOREIGN EXCHANGE.—There has been a decline of 1/4 per cent in sterling bills during the week. Importers have bought but few bills, choosing to postpone remittances in hope of a lower price for gold, and the supply of bills against shipments of bonds added to the ordinary trade supply, has more than supplied the mercantile demand, besides covering a large portion of the remittance to Bar ing Bros. on account of the Alaska purchase.

The following are the closing quotations for the several classes of foreign bills, compared with those of the three last weeks:

COTTON.

FRIDAY, P. M., August 14, 1868.

By special telegrams received by us to-night from each of the Southern ports we are in possession of the returns showing the receipts, exports, &c., of cotton for the week ending this evening, Aug. 14. From the figures thus obtained it appears that the total receipts for the last seven days have reached 1,038 bales (against 666 bales last week, 1,457 bales the previous week, and 2,214 bales three weeks since,) making the aggregate receipts since September 1, 1867, up to this date, including the returns by telegraph to-night, 2,189,044 bales, against 1,860,936 bales for the same period in 1866-7, being an excess this season over last season of 328,108 bales. The details of these receipts for this week, (as per telegraph) and the corresponding week of 1867, are as follows:

	Receipts.	Receipts.
	1868.	1867.
Received this week at—		
New Orleans.....bales.	64	1,008
Mobile, est.....	9	444
Charleston, est.....	550	1,080
Savannah.....	100	1,272
Texas, est.....	55	595

Received this week at—		
Florida.....bales		9
North Carolina.....		74
Virginia.....		332
Total receipts.....	1,038	6,161
Decrease this year.....		5,123

The exports for the week ending to-night reach a total of only 9 bales, all of which were sent to Great Britain, while the stocks at all the ports, as made up this evening, are reduced to 62,131 bales. Below we give the exports and stocks for the week, and also for the corresponding week of last season, as telegraphed to us by our own correspondents at the various ports to-night:

Week ending	Exported to—	Total	Same week	Stock
Aug. 14.	G't Brit'n. Contin't.	this week.	1867.	1868.
New Orleans.....			941	1,525
Mobile.....	9	9		22,939

All other ports.....			961	2,209
Total.....	9	9	1,902	52,401
				62,131
				97,560

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is a decrease in the exports this week of 1,893 bales, so that the former increase in the total shipments since Sept. 1, 1867, as compared with the same period of the previous year is now reduced to about 109,000 bales, while the stocks to-night are 62,131

bales less than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports since Sept. 1, according to the latest mail returns. We do not include our telegrams to-night, as we cannot ensure the accuracy or obtain the detail necessary by telegraph. We have made the following alterations in our column of imports this week, in part to correct inaccuracies as to ports of shipment, and in part also to add omissions which full returns from some of the Virginia ports show to have been heretofore made, to wit: from the receipts under the head of New York we have deducted 8,102 bales, and credited them to Virginia and North Carolina, and to the Virginia receipts we have also added the further amount of 5,206 bales to make up for omissions.

Receipts and Exports of Cotton (bales) since Sept. 1, and Stocks at Dates Mentioned.

The market this week has been less active. Some improvement in prices at Liverpool, together with the unfavorable crop rumors from the South, and the continued high price of gold resulted, early in the week, in a slight upward movement in the quotations here for higher grades, but the demand at once fell off, and towards the close, with more hopeful crop accounts, prices became easier, holders being free sellers. Lower grades have been pressed upon the market somewhat, the demand for them being very limited. The crop accounts of the last few days are construed favorably, but the immediate future is the critical period, and hence with the very small stocks there is little disposition to force sales. Considerable difference in the views of holders exists as to future prices, even should the crop reach the highest estimate given, owing to the fact that so much depends upon the course planters will take. Should they force their stock upon the market faster than it is able to absorb it, prices may temporarily go to a low figure, as during the past season, to return again in time for speculators to reap a good harvest. On the other hand, with less pressure on the part of planters, 24@25c. is generally received as the figure at which the body of the crop should be marketed. It is evident that with lower rates for breadstuffs this year, the consumption of cotton in Europe must increase, and our surplus be needed at a fair price. The consumer is in no way benefitted by the wide fluctuations experienced the past year, and it is certainly desirable that this experience should not be repeated the coming season. The sales this week foot up 8,314 bales, of which 6,477 bales were taken by spinners, 119 bales for export, and 1,718 bales by speculators, and the following are the closing quotations:

By Telegraph.—We have given above the week's receipts, exports and stocks of cotton as reported to us in our telegrams received to-night from the various ports. As the following despatches contain some other items of news we give them in full:

SAVANNAH, Aug. 14.—Receipts for the week 100 bales; exports, to foreign ports, none; coastwise 668 bales. Middlings 23½c.; stock, 1,900 bales.

CHARLESTON, August 14.—Receipts for the week 550 bales; exports foreign, none; coastwise, 1,132 bales; sales of the week 510 bales; Middlings nominal at 28c.; stock, 2,230 bales.

GALVESTON, Aug. 14.—Receipts for the week 55 bales; exports, none; stock 228 bales; Good Ordinary nominal at 15c. coin.

NEW ORLEANS, Aug. 14.—Cotton dull; Middlings nominally 29c.; sales 1 new bale, closing with Middling, weight 560 lbs., at 34½c. for Liverpool; receipts 18 bales; sales of the week, 223 bales; receipts 64 bales, net 8 bales; total 185 bales; exports to New York 177 bales; stock, 1,525 bales.

MOBILE, Aug. 14.—Sales 140 bales, reported on the basis of 25½c. Low Middlings. Holders generally refuse this rate; receipts 1 bale; exports, none; receipts of the week 9 bales; sales 270 bales; exports, coastwise, 253 bales; foreign 9 bales; stock 3,847 bales. Accounts from the interior are conflicting, but, as a general rule, they are not favorable.

EUROPEAN AND INDIAN COTTON MARKETS.—In reference to these markets, our correspondent in London writes as follows:*

LIVERPOOL, August 1.—During the greater part of the week the cotton trade has been depressed, and at the close the quotations show a decline of ½d. to ¾d. per lb., as compared with the preceding week. On some days considerable desire has been shown to sell, partly in consequence of a heavy failure. American produce, after falling 1d., closes at a decline of ¾d., while in Brazilian there is a reduction of ¾d., in Egyptian, of ¾d., and in East Indian of ¾d. to 1d. per lb. The total sales of the week amount to 63,060 bales, of which 7,250 bales are on speculation, 11,480 bales declared for export, leaving 44,330 bales to the trade. The following are the prices of American cotton:

The actual stock of cotton in Liverpool was ascertained on Thursday; it was as follows: Total, 553,070 bales, being 28,980 bales below the estimated. American shows a deficiency of 21,290 bales, Brazilian of 14,110 bales, Egyptian of 1,350 bales; but in Smyrna there is an excess of 250 bales, in West Indian of 2,820 bales, and in East Indian of 4,700 bales.

Of the present stock of cotton in Liverpool about 50 per cent is American, against 51 per cent last year. Of Indian cotton, the proportion is 14½ per cent against 14½ per cent.

LONDON, Aug. 1.—The market has been depressed, and at the close the quotations show a fall of ¾d. per lb. The following are the particulars of imports, &c.:

Imports, Jan. 1 to July 30.....	Bales.	1866.	1867.	1868.

		91,738	83,629	39,544

BOMBAY, July 28.—The market for goods is quiet, and there is less animation in that for the raw material. Oomrawuttee produce is quoted at 8.044d., with freight, Broach 8.44d. and Dhollerah 8.361d. per lb. The shipments from January 1 to July 25 were:

To Great Britain.....	bales	1867.	1868.
To all quarters.....	814,724	811,827
		993,912	877,903

ALEXANDRIA, July 18.—In cotton, for forward delivery, very little is doing. The better qualities of cotton are still scarce. Good middling to middling fair is quoted at 10½d.; fair to fully fair 13d., and good fair 1 ¾d. per lb., free on board.

* For latest news respecting the Liverpool cotton market see Telegraph despatches at the close of our London letter in a previous part of this paper.

TOBACCO.

FRIDAY, P. M., August 14, 1868.

There is a very large increase in the exports of crude tobacco this week, the total at all the ports reaching 5,402 hhds., 1,020 cases, 196 bales, 95 hhds. stems, 199 tierces, 615 ceroons, against 880 hhds., 963 cases, 93 bales, 40 hhds. stems for the previous seven days. Of these exports 2,258 hhds., 995 cases, 196 bales, 199 tierces, 615 ceroons were from New York; 1,499 hhds., 17 cases, 92 hhds. stems, 3 hhds. scraps from Baltimore, 3 hhds. from Boston, 1,642 hhds. from New Orleans. The direction of the shipments of hhds was as follows: 1,980 hhds. to Great Britain, 1,784 hhds. to Bremen; 828 hhds. to Vigo, 598 hhds. to France, and the balance to different ports. During the same period the exports of manufactured tobacco reached 34,055 lbs. The full particulars of the week's shipments from all the ports were as follows:

The market this week has been but moderately active, and closes quiet. In Kentucky leaf the French orders have been filled, but about 900 hhds. have been sold during the week, mainly for Italian contracts, at 10½@15c per lb. There has been very little demand of any sort for the past day or two. Seed leaf has been less active, but mainly because desirable lots have been less freely offered. The market is firm, and the sales of the past week embrace 44 cases Penn, 11c.; 47 cases old Conn. 16c.; 444 cases new Conn., private terms, 100 cases new Conn. wrappers 45@75c.; 101 cases old State 9½@11½c, 30 cases new Ohio 9½c., 70 cases new State, private terms. Manufactured tobacco is firm. Spanish tobacco quiet; sales 250 bales Havana 95@110c.

BREADSTUFFS.

FRIDAY, August 14, 1868, P. M.

The market has been very unsettled and variable the past week.

Flour has come forward more freely, but receipts are still small, and below the corresponding periods in previous seasons. There is, however, a want of confidence in prices, and an unwillingness to accumulate stocks, which induce a pressure to sell from the wharf, and have given a turn to prices slightly in favor of the buyers. The shipping demand is less liberal, while the local trade operates with great caution, and the close is flat at \$9@9 25 for fair to good new Extra State.

Wheat has been dull and heavy. Receipts have been almost nil, but there is a liberal stock in store, and receipts at the Western markets have shown a rapid increase. The advance abroad has had some effect in checking the decline. At to-day's market No. 2 Spring could have been sold for British markets at \$2, and a liberal business done at \$1 90, but the milling demand held prices pretty steady at \$2 05. Winter Wheats are not plenty, and choice samples of new bring very full prices.

Corn has been active and advancing. There has been a large demand for the local and Eastern trade, which has taken the bulk of supplies at prices somewhat above British orders, which have consequently been but sparingly executed. The temperature in the past two or three nights has been much too cold for Corn, and there are reports of slight frosts, but no injury to the crop. Oats have been flat. The new crop has begun to arrive by rail, and pressed for sale, which, with a liberal stock in store, has served to depress the market. The demand for Rye is entirely dependent on the current receipts by rail, and high prices are paid. Barley and Barley Malt, as well as Canada Peas, are very scarce, and prices unsettled and nominal.

Of other sorts the stock at New York Aug. 13, and the imports at the several ports since Jan, 1 were as follows:

SUGAR.

In the earlier part of the week but little was done, but there was a resumption of activity during a day or two subsequently, emanating from an increased demand on the part of refiners; and this, with a light stock, gave a short season of fair business at good prices. The temporary inquiry has now subsided, and the market closed at much easier prices. Sales comprise 6,046 hhds. Cuba, 1'3 do Demerara, 174 do of other kinds, and 563 boxes Havana.

The imports of the week show an increase in boxes and a decrease in hogsheads compared with those of last week. At all the ports for the week the receipts foot up 11,805 boxes against 7,285—and 16,913 hhds. against 18,783 last week, making the total receipts to date 396,429 boxes and 491,143 hhds., against 220,653 boxes and 388,002 hhds. to same date last year. MOLASSES

Dulness and unsettled prices have characterized this line of trade throughout the week. The demand from any quarter has been very light, and purchasers have been slow to take what was offered at even low figures. The inquiry, such as it has been, has been for boiling mainly. The market remains very quiet at the close. Sales include 1,231 hhds. Cubas of different grades, 204 do Porto Rico, and 232 do Barbadoes.

The aggregate receipts of the week are considerable less than in the previous week. The receipts at all ports foot up 5,847 hhds. against 10,007 last week. The total receipts at the ports since Jan. 1 now reach 368,005 hhds., against 297,500 hhds. in 1867. Details for the week are as follows:

SPICES.

There begins to be a slight reaction from the check imparted to this line of business by the rise in gold, and a little more has been done lately. Prices are very firm, and the trade is confined to the regular jobbing demand.

FRUITS.

Less has been done this week than the week previous, and the only active branch of the business in foreign dried has been that of Turkish Prunes, which have maintained a fair degree of animation throughout the week in answer to the demand for consumption. In domestic dried there has been a slight advance. New dried blackberries selling at 16@16½c., and new dried peaches having made their appearance in so limited a quantity as to bring a higher price than would represent a fair quotation. Very little has been done in either Mediterranean or West Indian green fruit, which have arrived sparingly, and are in very limited supply.

Annexed are the ruling quotations in first hands.

THE DRY GOODS TRADE.

FRIDAY, P. M., August 14, 1868.

The week under review has passed without showing that increase of activity which might have been expected at this stage of the season, and the dry goods market remains generally in the same inert condition as chronicled in our last issue. There are, however, indications of a more animated trade in the immediate future, as a great many buyers are in the city who will be soon forced by their necessities to place their orders on a more extended scale; and when once the stability of prices is on an assured basis, we shall probably have a rush of trade which will make up for the lengthened inactive period we have passed through.

Prices have remained fairly steady, with the exception of Prints, on which we have to report a decline in a few important brands. This was considered probable in the face of the downward tendency of the cloth market, but there were also some makes that were held relatively too high when com-

pared with other brands, and even by this concession a strange disproportion appears among the makes now held at about 14 cents. The jobbing demand in this department has not been of a very important character, but in first hands there is a slight increase of activity, chiefly with large Western buyers. Flannels and blankets have been in fair demand, but foreign dress goods are somewhat slow of sale, owing to the advance established in Europe, and the unsteadiness of the gold premium.

The exports of dry goods for the past week, and since January 1, 1868, and the total for the same time in 1867 and 1860 are shown in the following table:

We annex a few particulars of leading articles of domestic manufacture, our prices quoted being those of the leading jobbers:

BROWN SHEETINGS AND SHIRTINGS show no material change since our last review. Standards move very slowly, and in some instances are sold beneath our quotations. Heavy medium grades are dull and declining; fine brown are still somewhat scarce, as are also a few of the lower priced brands. Agawam 36 inches 14, Amoskeag A 36 17½, do B 36 17, Atlantic A 36 18, do H 36 17½, do P 36 14, do L 36 15, do V 36 15, Appleton A 36 17½, Augusta 36 16½, do 30 14, Bedford R 30 11, Boott H 27 11½, do O 34 13½, do S 40 14½, do W 45 19, Commonwealth O 27 8½, Grafton A 27 10, Great Falls M 36 14, do S 33 13, Indian Head 36 17½, do 30 14½, Indian Orchard A 40 16½, do O 36 15, do BB 36 14, do W 34 13, do NN 36 16, Laconia O 39 14½, do B 37 14½, do E 36 14, Lawrence C 36 17, do E 36 15½, do F 36 14½, do G 34 13, do H 27 11½, do LL 36 14½, Lyman C 36 15½, do E 36 17½, Massachusetts BB 36 14, do J 30 13, Medford 36 16½, Nashua fine O 33 14½, do R 36 16, do E 39 18, Newmarket A 14, Pacific extra 36 17½, do H 36 17½, do L 36 15, Pepperell 6-4 29, do 7-4 32½, do 8-4 40, do 9-4 45, do 10-4 50, do 11-4 55, Pepperell E fine 39 15½, do R 36 14½, do O 33 13½, do N 30 12½, do G 30 14, Pocasset F 30 10½, do K 36 14, do 40 17, Saranac fine O 33 14½, do R 36 16, do E 39 18, Sigourney 36 10½, Stark A 36 17, Swift River 36 13½, Tiger 27 9½, Tremont M 33 12.

BLEACHED SHEETINGS AND SHIRTINGS are quiet in all makes, except in ½ and ¾'s, which are scarce and firmly held. Medium grades in a few instances are quoted lower, and there is a more evident disposition on the part of jobbers to meet buyers views. BROWN DRILLS continue scarce, and are in moderate demand at firm prices. Androscoggin —, Amoskeag 18, Boott 18, Graniteville D 17, Laconia 18, Pepperell 18, Stark A 18, do H 15.

PAINT CLOTHS were reported dull last week, with a declining tendency. The sales at Providence amounted to 62,000 pieces, and the closing price for 64x64 standard was 8½ cents.

PRINTS have been in limited demand during the week, but orders are generally limited to the most urgent requirements. The concession made in Sprague and Garners styles has not been generally followed, and we thus find some anomalies in comparing the different makes. The above were judged as being held relatively too high, and a like opinion will probably arise as to other brands now jobbing at the same price as Sprague and Pacifics. For this reason we expect shortly to see our quotations lower on two or three makes. Allens 14, American 13½-14, Amoskeag 13, Arnolds 11½, Cocheco 14, Conestoga 14, Dunsell's 14, Freeman 11½, Gloucester 14, Hamilton 14 15, Home 8½ Lancaster 13½, London mourning 12½, Mallory 13½-14, Manchester 13½-14, Merrimac D 14½, do pink and purple 15, do W 16, do chintz —, Oriental 13½-14, Pacific 14, Richmond's 14, Simpson Mourning 12½-13, Sprague's purple and pink 14½, do blue and wh. 16, do fancy 14, do shirtings 15, Victory 11, Wamsutta 10, Wauregan 13.

GINGHAMS are taken in small assorted lots for current trade. Allamance plaid 19, Caledonia 15, Glasgow 17, Hampden 16, Lancaster 18, Manchester 13½.

MUSLIN DELAINES have been in good request, and it appears as if the movement in these fabrics will be on a more extended scale than last year, the more so as some new styles show great improvement in finish and pattern. Armures 21, do plain 21, Hamilton 20, Lowell 2 -, Manchester 20, Pacific 2½, Pekins 25, Piques 22, Spragues 13.

COTTON YARNS are dull; 39@40 cents for large and 42½ cents are the asking rates.

COTTON BAGS are in less request, and prices are not firm; the distribution is not so quick as had been anticipated by jobbers, and this gives a heavy tone to the market. American 47½, Lewiston 52½, Stark A 52½, do C 3 bush 7½.

CANTON FLANNELS are not so active, and prices are weakening in some brands. Ellerton N Brown 29, do O 25, do P 23, Hamilton 23, Laconia 22½, Naumkeag F 20, Ellerton N Bleached 31, do O 27, do P 25, Naumkeag F 21, Pemberton A 31.

DOMESTIC WOOLENS.—The trade during the last week in cloths, overcoatings, &c., has been fair, and many buyers are now canvassing the market, which gives a stronger undertone than for some time past. Fancy cassimeres of the finer makes are in better request, but in many instances agents are asked to make concessions that they are disinclined to accede to.

FOREIGN DRESS GOODS.—There has been no great movement in these fabrics during the past week, the unsettled state of the gold market still impeding operations. On Tuesday next Messrs. Townsend, Montant & Co. open the fall season of auctions, by offering a large line of Saxony wove dress goods, by order of Messrs. H. Schmieder & Son; an assortment of veil bareges, bombazines, &c., by order of Messrs. L. Maillard & Co., and a choice assortment of 1,200 pieces superior to extra fine 5-4 Paris Merinos, all in fresh assortments and special colors; as also 500 pieces Paris Popelines, by order of Messrs. Hennequin & Co. This sale offers special attractions for buyers, and a large and influential attendance is expected.

750 MILES OF THE Union Pacific Railroad

Are now finished and in operation. Sixty miles of track have been laid this Spring, and the work along the whole line between the Atlantic and the Pacific States is being pushed forward more rapidly than ever before. More than twenty thousand men are employed, and it is not impossible that the entire track, from Omaha to Sacramento, will be finished in 1869 instead of 1870. The means provided are ample, and all the energy, men and money can do to secure the completion of this

GREAT NATIONAL WORK.

at the earliest possible day, will be done.

The UNION PACIFIC RAILROAD COMPANY receive:

I.—A GOVERNMENT GRANT

Of the right of way, and all necessary timber and other materials found along the line of its operations.

II.—A GOVERNMENT GRANT

Of 12,800 acres of land to the mile, taken in alternate sections on each side of its road. This is an absolute donation, and will be a source of large revenue in the future.

III.—A GOVERNMENT GRANT

Of United States Thirty-year Bonds, amounting to from \$16,000 to \$48,000 per mile, according to the difficulties to be surmounted on the various sections to be built. The Government takes a second mortgage as security, and it is expected that not only the interest but the principal amount may be paid in services rendered by the Company in transporting troops, mails, &c. The interest is now much more than paid in this way, besides securing a great saving in time and money to the Government.

IV.—A GOVERNMENT GRANT

Of the right to issue its own FIRST MORTGAGE BONDS, to aid in building the road, to the same amount as the United States Bonds, issued for the same purpose, and no more. THE GOVERNMENT PERMITS the Trustees for the First Mortgage Bondholders to deliver the Bonds to the Company only as the road is completed, and after it has been examined by United States Commissioners and pronounced to be in all respects a first-class railroad, laid with a heavy T rail, and completely supplied with depots, stations, turnouts, car shops, locomotives, cars, &c.

V.—A CAPITAL STOCK SUBSCRIPTION.

From the stockholders, of which OVER EIGHT MILLION DOLLARS have been paid in upon the work already done, and which will be increased as the wants of the Company require.

VI.—NET CASH EARNINGS

On its Way Business, that already amount to MORE THAN THE INTEREST on the First Mortgage Bonds. These earnings are no indication of the vast through business that must follow the opening of the line to the Pacific but they certainly prove that

FIRST MORTGAGE BONDS

upon such a property, costing nearly three times their amount,

Are Secure Beyond any Contingency.

The Union Pacific Bonds run thirty years, are for \$1,000 each, and have coupons attached. They bear annual interest, payable on the first days of January and July at the Company's office in the City of New York, at the rate of Six Per Cent in Gold. The principal is payable in gold at maturity. The price is 102, and at the present rate of gold, they pay a liberal income on their cost.

The Company believe that these Bonds, at the present rate, are the cheapest security in the market, and reserve the right to advance the price at any time. Subscriptions will be received in New York.

Parties subscribing will remit the par value of the Bonds and the accrued interest in currency at the rate of Six Per Cent per annum, from the date on which the last coupon was paid. Subscriptions will be received in New York.

At the Company's Office, No. 20 Nassau Street,

AND BY

John J. Cisco & Son, Bankers, No. 59 Wall Street

And by the Company's advertised Agents throughout the United States.

Remittances should be made in drafts or other funds payable in New York, and the bonds will be sent free of charge by return express. Parties subscribing through local agents will look to them for their safe delivery.

A PAMPHLET AND MAP FOR 1868 has just been published by the Company, giving fuller information than is possible in an advertisement, respecting the progress of the work, the resources of the country traversed by the road, the means for construction, and the value of the bonds, which will be sent free of charge at the Company's office, or to any of the advertised agents.

PITTSBURG AND CONNELLSVILLE RAILROAD.—The \$2,000,000 loan of this company has all been taken, and the Baltimore *Sun* says: "The Deed of Trust of the Connellsville Railroad Company for \$4,000,000, in accordance with the ordinance of waiver of priority by the City of Baltimore, has been executed by the Trustees, Messrs. B. F. Newcomer, John W. Garrett, and Wm. T. Walters, and the mortgage bonds issued thereunder will be ready for delivery by the President of the Company, Wm. O. Hughart, Esq., during the coming week."

The N. Y. *Tribune* says: "The Michigan Southern Railroad have obtained the right to increase their capital from \$12,000,000 to \$15,000,000. This is not done to raise money, as has been stated, but is done to place the direction in position to extend the road to Akron, or to consolidate with the Lake Shore line, as the best interests of the Company may require."

The Burlington & Missouri River Railroad is now open to Murray, in the western part of Clarke County, Iowa, 16 miles west of the Mississippi River.

The Government Commissioners last week examined and formally accepted an additional twenty miles of the Kansas Union Pacific Railroad, Eastern Division. The road is now in running order to a point twelve miles east of Fort Wallace.

INTERCOLONIAL RAILWAY LOAN.—This loan, tenders for which have just been received in London, consists of £1,500,000 Canada 4 per cent bonds, guaranteed by the home Government, and £500,000 Canada 5 per cent bonds, both to be repaid Oct. 1, 1893; interest to commence July 1. The loan is payable in instalments, as follows: 20 per cent on allotment, 25 per cent on 13th October, 25 per cent on 12th January, 1869, and the balance (30 per cent) on 13th April, 1869. The bonds are in sums of £100, £500, and £1,000, and will be delivered in exchange for scrip as soon as practicable. The present £2,000,000 thus raised is a half of that to be had for Imperial Government the line, all of which is already authorized—\$3,000,000 under the guarantee of 4 per cent, and £1,000,000 under the Canadian 5 per cent.

The tenders for the above were numerous, the total applications reaching to about £8,000,000. The entire loan, except £73,200, which was taken by various parties at prices ranging from 105½ to 106½, was allotted to Messrs Cazenove & Co. on a tender of £2,000,000 at £115½, which was stated to be made for Messrs Rothschild.

FIRST MORTGAGE BONDS.

PAYMENT OF PRINCIPAL AND INTEREST GUAR-
ANTEED AND ASSUMED BY THE
STATE OF MISSOURI.

These Bonds were issued by the Pacific Railroad
Company as a first mortgage on the Southwest Branch
and one million acres of land. The mortgage covers
93 miles of road now built from Franklin to Jerome,
and all the road to be built by the South Pacific Rail-
road Company. There were originally issued \$1,500,-
000, of which but \$1,600,000 are outstanding, the balance
having been redeemed and cancelled. The bonds mat-
ure in 1876.

We offer \$300,000 for Sale.

In connection with the purchase and sale of

Railroad Iron,

LONDON HOUSE, 58 OLD BROAD ST.

To Railroad Companies.

We beg to call the attention of Managers of Rail-
ways and Contractors throughout the United States
and Canada to our superior facilities for executing
orders at manufacturers prices, for all descriptions of
both AMERICAN and FOREIGN

Railroad Iron.

We are always in a position to furnish all sizes, pat-
terns and weight of rail for both steam and hor-
se roads, and in any quantities desired either for IMME-
DIATE OR REMOTE delivery, at any port in the
United States or Canada and always at the very lowest
current market prices. We are also prepared to sup-
ply

Bessemer Steel Rails,

of American and Foreign manufacture, rolled to any
desired pattern and weight for final yard and of
approved lengths. Contracts for both IRON AND
STEEL RAILS will be made payable in United States
currency for America, and in either currency or gold
(at the option of the buyer) for Foreign; when desired,
we will contract to supply roads with their
monthly or yearly requirements of STEEL OR IRON
RAILS, taking their

OLD RAILS IN TRADE FOR NEW
furnished, receiving the difference in cash, and allow-
ing the highest market price for their Old Rails, and,
if necessary, receiving the latter after the delivery of
the New Rails.

Orders for Foreign Rails, both Steel and Iron, will
be taken for transmission by Mail or through the cable
to our

LONDON HOUSE,

58 OLD BROAD STREET,

for execution at a fixed price in Sterling or on com-
mission at the current market price abroad when the
order is received in London; shipments to be made
at stated periods to ports in America and at the low-
est possible rates of freights. Address

S. W. Hopkins & Co.,

69 & 71 Broadway, New York.

To Iron Manufacturers.

We beg to announce to the proprietors and man-
agers of Rolling Mills and Iron Manufacturers through-
out the United States and Canada, that we are con-
stantly receiving from both American and Foreign
Railroad Companies heavy shipments of

Old Rails.

We are, therefore, always in a position to furnish to
consumers any quantity desired for IMMEDIATE OR
REMOTE DELIVERY at all points in the United States
and Canada, and when required will contract to supply
mills with their monthly or yearly consumption at
the lowest current market prices.

We are also prepared to transmit by mail or through
the cable to our

LONDON HOUSE,

58 OLD BROAD STREET,

Orders for old rails off of Foreign Railroads for
shipments at stated periods to any ports in America
at a fixed price in sterling or for execution on com-
mission at the current market prices abroad when
the order is received in London. In this department
of our business our facilities are unsurpassed and our
experience unequalled by any house in America. Our
yearly transactions in Old Rails being very much
greater than all other houses combined. Address
