ONE OF THE

INVESTMENTS. BEST

THE

FIRST MORTGAGE BONDS

OF THE

UNION PACIFIC RAILROAD COMPANY.

900 MILES COMPLETED.

A limited amount of the First Mortgage Bonds of the Union Pacific Railroad Company are offered to the public, as one of the safest and most profitable investments.

1. They are a first mortgage upon the longest and most important railroad in the country.

2. By law they can be issued to the company only as the road is completed, so that they always represent a real value.

3. Their amount is limited by act of Congress to fifty million dollars on the entire Pacific line, or an average of less than \$30,000 per mile.

4. Hon, E. D. Morgan, of the United States Senate, and Hon. Oakes Ames, of the United States House of Representatives, are the trustees for the bondholders, to see that all their interests are protected

5. Five Government Directors, appointed by the President of the United States, are responsible t the country for the management of its affairs.

6. Three United States Commissioners must certify that the road is well built and equipped, and in all respects a first-class railway, before any bonds can be issued upon it.

7. The United States Government lends the company its own bonds to the same amount that the company issues, for which it takes a second mortgage as security.

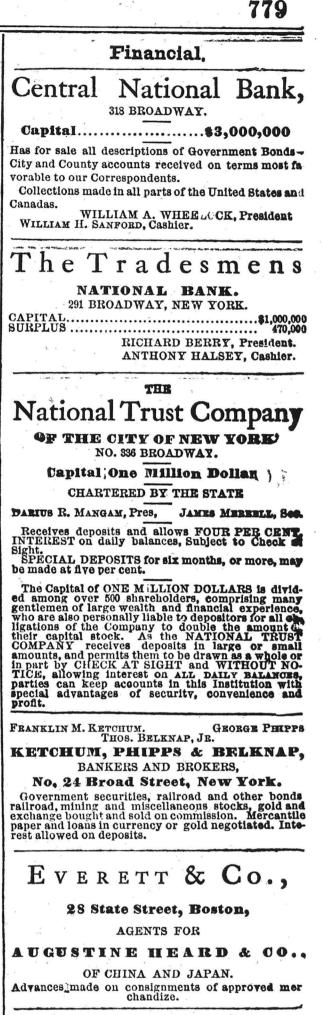

8. As additional aid, it makes an absolute donation of 12,800 acres of land to the mile lying upon each side of the road.

9. The bonds pay six per cent in gold, and the principal is also payable in gold.

10. The earnings from the local or way business were over four million dollars last year, which, after paying operating expenses, was much more than sufficient to pay the interest. These earnings will be vastly increased on the completion of the entire line in 1869.

12. No political action can reduce the rate of interest. It must remain for thirty yearssix per cent per annum in yold, now equal to between eight and nine per cent in currency. The principal is then papable in gold. If a bond, with such guarantees, were issued by the Government, its market price would not be less than from 20 to 25 per cent premium. As these bonds are issued under Government authority and supervision, upon what is very largely a Government work, they must ultimately approach Government prices. No other corporate bonds are made so secure.

13. The issue will soon be exhausted. The sales have sometimes been half a million a day, and nearly twenty millions have already been sold. About ten millions more may be offered. It is not improbable that at some time nor far distant all the remainder of the bonds the company can issue will be taken by some combination of capitalists and withdrawn from the market, except at a large advance. The long time, the high gold interest, and the perfect

security, must make these bonds very valuable for export.

All the predictions which the officers of this Company have made in relation to the pro gress and business success of their enterprise, or the value and advance in the price of their securities, have been more than confirmed, and they therefore suggest that parties who desire to invest in their bonds will find it to their advantage to do so at once.

Subscriptions will be received in New York

At the Company's Office, No. 20 Nassau Street

AND BY

John J. Cisco & Son, Bankers, No. 59 Wall Street.

And by the Company's advertised agents throughout the United States.

Bonds sent free, but parties subscribing through local agents, will look to them for their safe delivery.

A NEW PAMPHIET AND MAP was issued October 1st, containing a report of the work to that date, and a more complete statement in relation to the value of the bonds than can be given in an advertisement, which will be sent free on application at the Company's offices or to any of the advertised agents.

JOHN J CISCO, Treasurer New York.

Remittances should invariably be made by drafts or Post Office Money Orders.

Bound volumes of the CHRONICLE for the six months ending July 1, 1868, and also previous volumes, can be had at the office.

MR. MORTON ON SPECIE PAYMENTS.

More attention has probably been awakened throughout the country by Mr. Morton's bill for the resumption of specie payments than by any other currency measure which has been up in Congress for some time past. The bill itself we publish at length on another page, and no one can read it without admiring both the simplicity, the comprehensiveness and the precision of its details. The object at which it aims is the appreciation of greenbacks so that the paper dollar shall be equivalent to the dol_ lar in coin. This result Mr. Morton proposes to reach by several combined and successive changes in our monetary system. His first care is to strengthen the National Treasury in its gold reserves. Accordingly, the first section of the act stops all further sales of coin, and declares that whatever surplus may remain over and above the ordinary coin payments of the Treasury shall be set apart and kept sacred for the sole purpose of redeeming greenbacks when the time fixed for such redemption shall arrive. Secondly, Mr. Morton proposes that the delicate and trying crisis which redemption may cause shall be deferred for two or three years, to give time for the business of the country to adjust itself to the new order of things. Hence the act declares that on the first this surplus is to be hoarded in the Treasury, the deficiency

Diaitized f

FRASER

of July, 1871, greenbacks presented at the Treasury shall be redeemed there, dollar for dollar in coin. This is the second step; the third follows six months later, when the National Banks are to redeem their notes in coin, and the work of resumption will be complete.

Such are the leading features of Mr. Morton's bill, such the three successive stages of his plan for bridging the great chasm which separates the country from specie payments. As subordinate methods for helping on the work, Mr. Morton's bill compels the banks to hold as reserve in their vaults all the coin they may receive for interest on the Government securities which they own. This coin is to be held by the banks just as the coin received for customs is to be held by the Treasury.

A far more important provision is embcdied in the sixth section, which gives power to the Secretary of the Treasury to contract the currency at his pleasure by cancelling greenbacks at such times and to such amounts as "may in his judgment be necessary to the proper limitation of the currency." Another fundamental revolution in our monetary system, which will meet even more opposition than that last mentioned, is proposed by the ropeal and withdrawal of the legal tender powers from the greenbacks, and by the authority given to the Secretary of the Treasury, to negotiate loans at his pleasure " to such an amount as may be necessary " to raise funds for the payment of the greenbacks in coin at the time appointed.

We have said that the plan we have thus briefly sketched is simple and comprehensive. The fact is that it possesses too much simplicity to be admired by a certain class of currency theorists. The great question with the public is, however, as to the feasibility of the measure. If it be not practicable, no other qualities it may possess are of the slightest service. Without pronouncing any final and positive opinion on this subject, we content ourselves with pointing out two or three things which are worthy of consideration in discussing it. And first, we are quite sure that Congress will hesitate long before it places absolute power over the currency in the hands of any single officer of the Government, whether it be the Secretary of the Treasury or any other person. Secondly, a considerable amount of bonds will probably have to be marketed in order to get the funds needful for carrying out the scheme. Is it not probable that the perturbation of values incident to the scheme would render the marketing of such bonds at certain times exceedingly difficult, except on unfavorable terms ? Thirdly, the scheme would involve a considerable increase in the aggregate of our internal taxation. If the surplus revenue derived from customs duties is not allowed to be used for defraying the expenses of the Government, if the whole of

[December 19, 1868

must be made up from other forms of taxation. The internal revenue will ot necessity be increased, and this at the very time when the business of the country will be passing through a crisis and suffering from the fundamental change going on in our financial system.

CONGRESS ON THE PAYMENT OF THE PUBLIC DEBT.

The erratic allusions in the President's Message with re spect to the disposal of the public debt have elicited a full expression of the sentiment of Congress upon the much agitated question of the payment of the Five-Twenty bonds. If, therefore, the nation has been humbled by the repudiatory utterances of its chief magistrate, its honor has been promptly retrieved by an unequivocal declaration of the Legislature in favor of the maintenance of the strictest good faith. The reckless recommendation of the payment of the principal of the public debt with the accumulated proceeds of the interest for sixteen years drew from the House, on Monday, the following resolution, which was passed with but two or three dissenting votes :

Resolved, That all forms and degrees of repudiation of the National indebtedness are odious to the American people, and that under no cir-cumstances will their representatives consent to offer the public creditor, as full compensation, a less amount of money than that which the Government contracted to pay.

With a view to counteracting the President's utterances and also giving a declaration of sentiment upon the vexed question of paying Five-Twenties in greenbacks, the Finance Committee of the Senate reported on Wednesday the folowing resolution, which was also adopted by an almost unanimous vote:

Resolved, By the Senate, that neither public policy, nor the good faith of the nation will allow the redemption of the Five-Twenty bonds until the United States shall perform its primary duty of paying its notes in coin, or making them equivalent thereto; and measures should be adopted by Congress to secure the resumption of specie payment at as early a period as practicable.

The action of the House was directed specifically against the repudiatory recommendations of the President, and thereofore it affirmed a determination to pay the full amount of money contracted for, in opposition to all schemes of compromise or partial repudiation, without making any express allusion to the kind of money in which bonds are to be regarded as payable. The Senate resolutions, however, are direct. ed squarely at this special issue, and commit the Senate as strongly as language can bind them to two positions, 1. That the bonded debt of the United States shall be paid in full; and, 2. That it shall be paid in coin.

The first of these resolutions indicates a very satisfactory progress toward the solution of these complicated questions. To consolidate the debt at a lower rate of interest so long as the Government credit remains depreciated by a state of suspension upon its demand obligations is, we think, clearly impossible. No matter what the promises on the face of any proposed new bonds, the present bondholders would refuse to accept them, unless the credit of the Government were so far improved by the honoring of every outstanding obligation as to compensate for the reduction of the interest. This would be especially the obstacle with the foreign holders, who hold the major portion of the bonds on which the five years option has already matured; for they, more than our own people, measure the credit of the Government by its position with Sespect to its demand indebtedness. Asking them to accept a lower rate of interest, or appearing to threaten them with a compulsory reduction of the rate, while the suspension of the Treasury upon over \$350,000,000 of its notes is a standing reflection upon its credit, evinces a lack of comprehension of our financial position, not to say an incompetency in finance, which of itself has been a serious drawback to the public eredit; and the fact that the Finance Committee of the Senate has, by reporting this resolution, shown how well it a distance of less than 20 miles, will connect it with the

understands what the public expect and what is essential to the good credit of the Government, is calculated, more than anything that Congress has done or proposed to do, to encourage public confidence and to promote a wise settlement of the finances.

This action of the Senate has a threefold advantage It saves us the folly and the failure of premature schemes for re-funding the debt; it puts out of the way the embarrassing question as to whether the principal of Five-Twenties is payable in gold or in greenbacks; and it furnishes a very weighty argument for the early restoration of the specie basis. Nothing could be sounder in principle than that the first step toward the reconstruction of the finances is the return to specie payments. So long as the government currency is irredeemable, everything in finance is unsettled; the value of national securities fluctuates with the changes in the value of the currency; the public credit is under protest; the fiscal resources of the Government are deemed inadequate to its liabilities, and the obligations of a wealthy nation of forty millions of population can nowhere be sold for better than 25 to 30 per cent discount. All this we owe to suspension; it is easy, then, to see how much consolidation would be promoted by resumption, how impossible it is without it. We have become so accustomed to the evils of suspension that instead of feeling them to be evils, we regard them as, in a certain sense, normal; so far otherwise is it with foreign observers, that, upon resumption, they would as soon take our bonds at par as they now do at a heavy discount.

This position, persistently adhered to by the Senate, puts an effectual end to the legal tender payment theories, and obviates the damage to the public credit growing out of their discussion. If it be concluded that we must resume upon the currency debt before we can consolidate the funded debt-and the conclusion is based upon an inevitable financial necessity -then it is of no consequence to inquire in what sort of money the bonds are payable, for gold and "greenbacks" would be mutually convertible. It can hardly be expected that the House will at once acquiesce in the advanced position thus indicated by the Senate resolutions. That body has, however, very emphatically set its face against any species of repudiation, and we have no doubt that discussion and the logic of the situation will bring over a steady accession of converts, placing both Houses upon the same platform. Not only theoretically, therefore, but also practically, the Senate resolutions are to be regarded as a long step toward the settlement of the finances.

EVANSVILLE AND CRAWFORDSVILLE RAILROAD.

As now existing, the Evansville and Crawfordsville Rail road expands in a north and south direction between Terre Haute and Evansville, Ind., a distance of 109 milee, with an extension northeast from the first named city to Rockville, 23 miles in length. By July, 1869, Evansville, the southern terminus of the road, will be connected by the Evansville, Henderson and Nashville Railroad, now in rapid progress with Nashville, and thence with lines diverging southeast, south and southwest to the Atlantic, Gulf and Mississippi River. At Vincennes it will be intersected by the line now being constructed between Indianapolis and Cairo, and at Terre Haute by the line between Indianapolis and St. Louis. Terre Haute will also be the southern terminus of the Chicago, Danville and Terre Haute Railroad, which will afford a very direct line to Chicago, a few miles north of Terre Haute, the line now under construction between Iudianapolis and Paris, and at Rockville the line between Indianapolis and Paris (the Indianapolis and St. Louis) will cross it. The further extension of the road to Crawfordsville,

 $\mathbf{782}$

December 19, 1868.]

northern division of the Louisville, New Albany and Chicago Railroad, and also with the Toledo, Wabash and Western Railroad, and other lines pointing north, northeast and east. Thus a line which has hitherto been almost isolated from the commercial world, is to become, at an early date, a link in one of the great central north and south lines from the Lakes at many points to the Gulf of Mexico, with connections which will give it outlets on the South Atlantic coast at Charleston and Savannah, and on the Mississippi at Memphis and New Orleans.

The rolling stock on the road is ample for its present business demands. At the close of the last fiscal year (August 31, 1868), this consisted of 15 locomotives and 216 revenue cars, viz.: 11 passenger, 1 paymaster's, 4 bagg*ge, mail and express, 81 local and 37 compromise box freight, 28 platform, 31 coal, 10 stock and 10 construction cars; also 27 hand and 17 push cars. The number of miles run by trains in 1866-7) was 272,310, and in 1867-68, 254,192.

The gross earnings, expenses and profits for the last two years are compared in the following statement:

Passenger carnings. Freight. Hxpross. Mail Rents	259,947 54 16,562 30 9,400 00	\$198,981 28 230,481 70 19,011 36 9,400 0	2,419 06	Decr'se. 59,465 81

1801-02	944 540 43	106,954 50	137,585 93	1
1862-63	884,058 10	164,196 39	169,851 71	
1868-64 1864-65	559.127 68	218,589 18	232,684 23	
1500-00	469 071 75	312,407 28 345,378 80	246,720 40 117,582 95	
	507 709 99	844,444 40	163.247 92	
1867-68	453,186 34	835,266 25	117,920 09	5

The income account for 1867-68 shows the receipts from all sources, including balance from previous year, \$32,427 97, at \$486,768 18, and the expenditures on all accounts at \$510,393 57—balance against income \$23,625 39. The expenditures were: Expenses as above, \$335,266 25; interests \$96,083 90; internal revenue taxes \$6,108 98; State, county and municipal taxes \$7,754 10; construction \$46,028 71; equipment (new freight cars) \$14,056 82; and increase of supplies \$6,095 51—total, \$510,393 57. No dividends were ever paid on the company's common stock since 1856, when a scrip distribution was made.

The financial condition of the company, as exhibited on the general balance sheet of August 31, 1868, is shown in the following summers

River, the distance between Richmond, Va., and the mouth of Big Sandy River, the terminal points, being upwards of 400 miles.

The Virginia Central Railroad, including the Blue Ridge Railroad constructed by the State, covers a little more than one-half of this line, and together have cost nearly \$6,000,-000. The Covington and Ohio Railroad, the construction of which was undertaken by the State of Virginia alone, has to date cost about \$3,250,000. Since the erection of the State of West Virginia nearly the whole of the unfinished line is included within its limits.

The important ends to be gained by the completion of the Covington and Ohio Railroad led to identical action on the part of the two States most interested, and under acts passed by the Legislatures of each in 1867 commissioners were appointed whose duty it was to contract with any party which could give satisfactory assurances of being able to complete the road between Covington, Va., and the confluence of the Big Sandy with the Ohio River. The acts specially referred to the Virginia Central Railroad Company, and provided that in case that Company should take the contract, they should acquire all rights, interests, &c., in the work now held by the States aforesaid and under the general title of the Chesapeake and Ohio Railroad Company become owners of the line.

The Chesapeake and Ohio Railroad, as thus organized, will begin at Richmond and run west through the Alleghany Mountains and West Virginia to the Ohio River a distance of 405 miles. A branch line will also be built from a point 14 miles west of Charleston, W. Va., to Point Pleasant, thereby making two termini on the Ohio River and connections with the network of railroads already completed or now being con structed in the Northwest, West and Southwest. At Richmond direct connection is made with West Point on the deep waters of York River and also with Norfolk. A line is also projected to connect with Newport News, together giving the road three termini on the tide-waters of the Atlantic ocean.

On the 31st of August, 1868, the commissioners appointed under the acts aforesaid and the Virginia Central Railroad Company signed a contract giving to the latter the authority necessary to construct the line from Covington, together with all the franchises, &c., conferred by said acts, and from that date the Company assumed the title of the Chesapeake and Ohio Railroad Company.

The amount of money required to complete the roads is about \$13,000,000. Of this about \$5,000,000 has been secured by stock subscriptions and the remainder by the issue of bonds secured by a fresh mortgage on all present and future property of the Company. For this purpose a mortgage for \$10,000,000 was executed on the first day of October, 1868, the trustees being Philo C. Calhoun, William Butler Duncan and William Orton of New York, and Mathew F. Maury of Virginia. The bonds issued under this mortgage have thirty years to run from October 1st, 1868, and are made payable, principal and interest in gold, either in New York city or London. They bear seven per cent interest free from United States Government tax, payable in gold or sterling, at the option of the holders. The mortgage deed also provides for an accumulative sinking fund, to commence one year after the completion of the read. Of the total issue authorized, \$2,-000,000 are to be set apart in trust for the payment of the bonded and floating debt of the Virginia Central Railroad Company, to whose property, rights, branches, &c., the Chesapeake and Ohio Railroad Company succeeds. By special acts of Virginia and West Virginia all the property of the Company is exempt from State taxation until 10 per cent dividends are declared from net earnings upon the capital stock. The Chesaperke and Ohio Railroad will pass through a

tonowing summary:

The funded debt is described as follows:

First mortgage (main line) 7 p. cent bonds of 152, due January 1, 1869 \$350,000 of 1854, due May 1, 1869... 740,000 "(Bockville extension) 7 p c. bonds, due Feb. 1, 1881 . 150,000 The first mortgage (main line) bonds, due in 1869, are being exchanged into new sinking fund bonds having twenty years to run.

CHESAPEAKE AND OHIO BAILBOAD.

One of the chief projects of the State of Virginia has for many years been, the construction of a railroad which should connect the waters of Chesapeake Bay with those of the Ohio

[December 19, 186]

country abounding in natural resources-iron, coal and salt being among its principal products. It will connect the Western waters and those of the Atlantic by the shortest line, and at its ocean termini find harbors capable of receiving the largest class of ships. Norfolk has 28 feet, Newport News 22 feet and West Point 21 feet water. The distance from Richmond to the Big Sandy is 405 and to Point Pleasant 398 miles. From Richmond to Cincinnati, by the Chesapeake and Ohio Railroad, the distance is 545 miles, to Louisville 621 miles, to Chicago 792 miles, and to St. Louis 885 miles. The shortest existing lines from Cincinnati to New York is 756 miles, from Chicago to New York 911 miles, and from Louisville to New York 862 miles. It is thus apparent that the distances from the Ohio River to tide-water are much shorter by this route than any now existing, and also that it must, in the order of things, become a strong competitor for the commerce originating in the great interior and aggregating in the Atlantic seaboard ports. The establishment of steamship lines from Norfolk to the principal freight ports is a part of the programme.

If we were to measure the ultimate success of the whole road by the success of a part which has been in operation for years, we should fall short of what 'promises to be the actual result. The existing portion of the line has no western connections, and its terminus is in the midst of a wild and but partially improved country. Yet in the year 1867-68, the gross earnings amounted to \$599,354 06, and the nett earnings, after paying all expenses on account of operations, amounted to \$162,705 57, enough to pay 7 per cent on the whole outstanding debt and liabilities of the company and leave a considerable surplus for the stockholders. As the road is extended to the Ohio, it will then have changed its local characteristics and assumed those of a great trunk line, and with this change nust come far more favorable results.

checked when they show a tendency to emback in extensive commercial speculations. A gradual improvement is, without doubt, taking place in the position of business, and as soon as the year has fairly turned, and the spring trade is about to commence, a fair degree of animation is expected to prevail. For the next six or eight weeks, however, quietness must be the more prominent feature.

The Bourd of Trade returns for October and for the ten months ending October 31, have just been published, and the statement is of a satisfactory nature. It shows that the declared value of our exports was as follows:

	In October	. In ten months.
1868	£16,876,898	£150,681,161
1967	15,849,142	153,051,639
1866		
While the computed real vale of our impo	orts in Sep	tember and in the
nine months was :		

•	In September.	In nine months.
1868	£23,386,646	£175,948,582
1867	21.515.623	171,199,569
1866	19,571,761	185,598,529

The imports of cotton in October were considerably larger than during the same month of 1867, owing chiefly to an increase in the receipts from the East In lies. For the ten months, however, a diminution of about 392,000 cwt. is indicated, the United States showing an increase of about 2(0,000 cwt.; Brazil, of 200,000 cwt.; but the East Indies a falling off of 640,0 0 cwt. Turkey and Fgypt have also forwarded less, but only to the extent of 60,000, cwt. The following are the chief particulars for the ten months:

From-	1866. cwt.	1867. cwt.	1868. cwt.
United States	4,109,960	4,220,935	4,421,492
Brazil	546.549	535,391	738,824
Turkey	84.300	55,560	35,693
Egypt	785,636	902,239	860,167
East Indies	4,804,234	3,707,839	3,062,332

Total (including other countries).. 10,610,271 9,683,546 9,310,888 So far as the shipments of cotten goods are concerned, it appears that those of piece goods in October were 37,000,000 yards greater than in the corresponding month last year, while for the ten months there is an augmentation of as much as 176,000,000 yards. The increase in the shipments to Turkey is 15,00 ,000 yards; to Mexico 6,000,000 yards; to New Granada 13,700,000 yards; to China and Hong Kong 119,000,000 yards; to the East Indies 225,000,000 yards, and to Australia about 11,000,000 yards. On the other hand there is a diminution of 84,000,000 yards in the shipments to Egypt, of 14,800,000 yards to the United States, and of 56,000,000 yards to New Granada, Brazil, Uraguay, the Argentine Confederation, Chili and Peru. The following are the totals for the month and ten months:

	131 the month and ten months.		÷

COTTON MANUFACTURES

[From our own Correspondent.]

LONDON, Saturday, December 5, 1868.

Now that the elections have been brought to a close, and a great Liberal victory secured, rather more attention has been devoted to commercial affairs. There is not, however, any great increase in the volume of our business transactions, but a fairly healthy tone pervades the markets and, in many respects the prices are firm. The near approach of the close of the year, a change in the government of the country, and a still unsatisfactory state of the relations among the continental powers, have precluded, however, a return of decided ani mation; but trade is sound, there being an almost complete absence of speculative operations. Capitalists still require unexceptional security before making advances, and hence inferior firms are immediately

The wheat trade during the week has been characterised by much inactivity, and there is every probability that a series of dull markets will ensue until at least the turn of the year. An abundant crop, and importations which are very large considering the heavy fall which has taken place in prices during the last few months, will continue to induce the miller tc purchase only from hand-to-mouth. As our importations are larger than could have been expected, any hope of a permanent improvement must, for the present, be dismissed. Winter wheats are already in the blade, but a few weeks of frost would perhaps be desirable in order to prevent them from becoming, in agricultural parlance, "too proud." The following is the statement of imports and exports for the season :

The receipts from Russia show a reduction of \$ 250,000 cwt.; from russia, of 1,480,000 cwt.; from Chili, of 530,000 cwt.; but, on the other hand, they have increased fr m the Unite i States to the extent of 2,730,000 cwt.; from Egypt 2,150,000 cwt. ; and from the Danubian Principalities to the extent of 1,69 ,250 cwt. As regards flour, the October importation shows an increase of about 110,000 cwt.; but in the ten months there is a dimi-

nution of 165,000 cwt. The following are the principal countries from which wheat and flour were imported in the ten months ending October 31, 1866, 1867 and 1868 :

CHRONICLE. THE

> Prices, under the circumstances, have received a slight impetus, and may in the average be quoted 1 to 1d. higher than in September. Good combing wools fare best; they are comparatively scarce, and the number of competitors is unusually large. Scoured Sydneys are hardly dearer than in September, but the low faulty sorts at 11d. to 1s. show a slight improvement, or at any rate do not sell so irregularly as at the late series. With Capes the rise is small, and may be said to be almost confined to the snow white s rts, which sell id. and sometimes 1d. dearer than in September ; fleece and greasy descriptions, on the other hand, do not show much difference, and Western and Natal wools especially are quite as cheap as they were before.

> On the whole, the result of the sales, so far as they have gone, may be pronounced satisfactory, for, with the large quantities in the market, hardly more than the maintenance of former rates could be expected. We now have a rise instead, and though it is but a slight one, it yet speaks favorably for the rate at which the consumption of wool is going on.

> Annexed are some later particulars respecting the imports and exports of wool, and the exports of woolen goods, into and from the United Kingdom :

Russia's borrowings in Europe this year have been very large. We give below a table showing their extent. The account is not, perhaps. quite complete, owing to the circumstance that some of the loans brought forward have not been introduced on the London market, and hence one or two have probably escaped notice. It may, therefore, be assumed that Russia has borrowed about £4,000,000 for railway purposes during the year, and it is ther fore right that she should now pause, in order to ascertain if the network, which will be in working order in the space of about two years, is likely to prove a sound specu lation. There is no doubt that in constructing railways Russia is pursuing a wise course, but as a large number of them are constructed with the aid of foreign capital, they should not be undertaken in too hasty a The Russian Government has, however, agreed not to manner. guarantee the interest on any future lines for the space of two yearsto the statement of these loops

The public sales of Colonial wool continue to be well attended, and the opening advance in prices is well maintaine !. Mr. Helmuth Schwartz, in a circular just issued, states :

There is a numerous attendance of both home and foreign buyers French spinners especially mustering in stronger numbers than is usually the case at this period of the year, and in spite of the recert heavy sales at Antwerp, Belgium, too, is well represented. The tone among the buyers is generally good, and reflects the improved condition of t e wool trade, which, perhaps, with the exception of Germany seems everywhere fairly and satisfactorily employed.

The demand for discount has been rathe active this week, partly in consequence of the payments incidental to the fourth of the mon h, and also in consequence of the payment of an installment op one of the recent Russian railway loans. The Bank has lost a further supply of gold, and the directors have considered it prudent to advance their minimum quotation to 3 per cent. The rates of discount are now one per cent higher than at this period last year, but the advance is attributable more to the recent foreign leans than to an improvement in trade. It is satisfactory, however, to notice that the supply of commercial bills afloat has increased of late, and in this we have confirmatory evidence of the improvement which has taken place in trade. As there will be an active inquiry for money until shortly after the close of the year, the present improvement will undoubtedly be maintained. The following are the quotations, compared with those of last year :

1867. 1868.	1867. 1868.
Don cont Per cent	Per cent. Per cent.
Deple minimum 9 3	4 months, ba'k bills 2 (02×3)

3 months, bills 1%@1% 2%@3	
my i fintement allowed by	the banks and discount houses for

The rates of interest allowed by deposits are now as under :

with 7 days notice . 1%@2% with 14 do . 1%@2% 1 @2 1 @2 do do Joint stock banks ... Discount houses at call There have been but few changes in the rates on the Continent this

week. A tendency to improvement is, however, apparent, the supplies of idle money being decidedly less extensive and the demand for accommodation more active. At the leading cities the quotations are as follows:

-B'k rate- Op. m'kt-1	-B'k rate- Op. m'kt-
1867. 1868. 1867. 1868.	1867. 1868. 1867 1868.
At Paris 21/2 21/2 11/2-21	Turin 5 5
Vienna 4 4 4 4	Brussels 8 21 21-3 21 -2
Berlin 4 4 2% 3%	Madrid 5 5
Frankfort. 25 35 13-2 35	Hamburg 23/ 23/-3
Amst'rd'm 31/2 21/2 8 2	St. Petb'g. 7 61 8-9 6 61
The foreign exchanges are rathe	r more favorable to this country,

owing to the advance in the value of money on this side.

In the bullion market, the more important feature is an improved demand for silver for shipment to the East, the result of which has been that prices have risen about 1d. per ounce. There is very little demand for gold for export, but it is expected that all future arrivals will be absorbed by the Continental demand. The following are the prices of bullion :

Consols have been dealt in to a very moderate extent during the week, but, until to-day, the tone has been tolerably firm. To-day however, there has been a great panic in the market, owing to the uneasiness caused by the arrests at the Montmartre Cemetery, and to the announcement that Turkey has broken off diplomatic relations with Greece. Foreign securities, especially Turkish, have been greatly depressed, and a fall, varying from 1 to 2 per cent, has taken place in prices. The following are the highest and lowest prices of Consols on each day of the week :

Week ending Dec 5 | Monday. | Tuesday | Wed'y. Thur. | Friday. Sat. Consols for money 94 -941/8 94 -941/4 922/6-921/4 922/6-921/8 921/6-921/4 921/6-921/4

Save on Monday and Tuesday the figures have been ex dividend.

The changes in the value of United States Five-Twenty bonds have not been important. On the whole, the market has been steady. Atlantic and Great Western railway securities are lower, and Erie railway shares have been dealt in as low as 261. The fluctuations in Illinois Central railway shares have been unimportant. The following are the highest and lowest quotations on each day of the week:

pool for the past week, have been reported by submarine telegraph as shown in the following summary :

London Money and Stock Market .- Consols have ruled steady at 928 for money and 921 for account, closing to-night, however, a little weaker at 922 for both descriptions. United States Five-Twenty bonds have ruled generally dull but isteady, closing at 745. Railway shares have been generally quiet ; Erie shows a slight advance on the week, but otherwise quotations are without important change. United States bonds at Frankfort have been generally dull and without variation.

Intelligence from Frankfort states that the monthly settlement passed off with ease, and that to the surprise of most people money was abundant, and speculative stocks were scarce notwithstanding the various issues by which the market has been lately flooded. A fresh rise of five per cent has been established in French-Austrian railway shares, and of 4 per cent in Lombard; the first are continuously bough on French account. The most extraordinary feature of the present movement is that only those securities are improving on which the banks make no advances-such as shares, preference railway bonds, and United States stocks-while the descriptions on which advances can be obtained show for the most part a downward tendedcy.

DEBT OF LOUISIANA. - The statement of the Treasurer of Louisiana shows that the total outstanding bonded debt of that State amounts to an aggregate of \$7,962,800, consisting of 9,473 bonds, and that the total amount of annual interest is \$496,908. Of these, \$1,000,000, maturing in 1866, were issued for levee purposes under the act of 1866, and \$2,414,000 maturing in 1907, for the same purposes, under the act of 1867. Thus nearly one half of the entire bonded debt of Louisiana has been contracted for levee purposes during the last two years. The railroad debt of the State is \$2,553,000.

\$1,735,380 00

SENATOR MORTON'S FINANCE BILL.-Senator Morton introduced the following important bill on finances in the Senate on the 14th instant, embodying his views with reference to the resumption of specie payments. The following is the bill in full :

A BILL to provide for the Redemption in Coin of the United States Notes and Fractional Currency, and requiring the National Banks to Redeem their Notes in Coin.

United States in Congress assembled :

SECTION 1. That hereafter there shall be no sales of gold belonging to the Treasury of the United States, and that the surplus gold now in the Treasury, and that which may hereafter accrue, over and above the amount required to pay the interest on the public debt, and for other specific uses specified by law, shall be reserved and set apart for the redemption of United States notes and fractional currency.

TREASURE FROM CALIFORNIA.-The steamship Henry Chauncey. Aspinwall, arrived at this port Dec. 11, with treasure for the following consignees :

Wells, Fargo & Co	\$27,864 06 42,883 80	FROM ASPINWALL.	
		FROM ASPINWALL. McKesson & Robbins \$405 0	00
Total	\$90,809 86	Grand total \$91,214 8	8

The arrivals of treasure from San Francisco since the commencement of the year, are shown in the following statemen:

Suc. 2. Be it further enacted, That on and after the 1st day of July, 1870, the Treasury of the United States shall pay in coin at the Freasury of the United States, at Washington, and at such other points as may be designated by the Secretary of the Treasury, all United States notes and fractional currency that may be presented for redemption.

SEC. 8. That on and after the 1st day of January, 1872, the national banks shall pay in coin such of their notes as may be presented for redemption, and shall, on and after the 1st of July, 1870, reserve and hold in their vaults all the coin which may be received by them as interest on their stock held by the government for the redemption of their notes.

SEC. 4. That until the first of Jan., 1872, at which time they are required to begin the redemption of their notes, the national banks shall keep and hold in their vaults the full reserve of legal tender notes as now required by law; and that on and after that time the reserve legal tender notes, as fast as withdrawn, shall be replaced with coin to a like amount; and the said banks shall thereafter be required to hold their reserve in coiu to a like amount, and for the same purpose as now required by law, to be held in legal tender notes; provided that the Comptroller of the Currency may, with the assent of the Secretary of the Treasury, allow the said banks to hold a portion of the said reserve, not exceeding two-fifths of the said amount required by law in United States notes.

SEC. 5. That the Secretary of the Treasury may cause as many of the United States notes, redeemed under the provisions of this act, to be cancelled, as may in his judgment be necessary to the proper limit-ation of the currency; provided, further, that all fractional currency that may be redeemed shall be cancelled.

[December 19, 1868.

SEC. 6. That on and after the first of January, 1872, United States notes shall cease to be legal tenders in payment of debts, but shall be receivable in payment of government dues, as now provided by law.

SEC. 7. Be it further enacted that the Secretary of the Treas ry shall have power to negotiate and sell the bonds of the United States to be due in thirty years and redeemable by the government at his pleasure after ten years, bearing interest at the rate of blank per cent, principal and interest payable in gold, to such amount as may be necessary to carry into operation the provisions of the second section of this act.

PRINCIPAL AND INTEREST IN GOLD.—The First Mortgage Fifty Year Seven per Cent Sinking Fund Coupon Bonds of the Rockford, Rock Island and St. Louis Railroad Company, principal and interest payable in Gold Coin, free of Government tax, are for sale at the office of the Company, No. 12 Wall street, at 97¹/₂ per cent and accrued interest in currency.

Pamphlets giving fuller information may be had at the office.

Governments and other securities received in exchange at market rates.

The Bankers' Gazette.

H. H. Boody, Treest rer

UNITED ST. TES BONDS.—The market for Governments has been weak, and closes $\frac{1}{4}$ @ $\frac{5}{6}$ per cent lower. The unusual activity in money has prevented the rise which usually occurs at this season, in anticipation of the maturing of the January interest; and the result has been that, instead of speculation taking a direction for higher prices, there is a large amount of it selling for a decline, upon the supposition that, in January, the usual ease in money will induce an active demand for bonds, with a corresponding advance.

The resolutions passed almost unanimously in the Senate and the House of Representatives, relative to the payment of the Five-Twenty bonds and in opposition to the sentiments on the same subject in the President's message, have had a favorable effect upon the market, as they are regarded as showing a decided disinclination in Congress to deal with the bonds in any manner inconsistent with the rights of bondholders; but, owing to the causes stated, this effect has not been indicated in any advance in prices.

The following are the closing prices of leading government securities, compared with preceding weeks:

RAILROAD MISCELLANEOUS STOCKS .- The stock market has showed more animation, but the aggregate transactions, notwithstanding, have been very light. As usual at this season, the market is neglected, and the larger operators have withdrawn their support, with a view to allowing pr ces to decline and enable them to buy in at low figures. There is less combined effort to produce that result than usually exists at this season; which is probably due to a disinclination to engage in clique enterprises. The recent developments in connection with railroad management and with speculative combinations have, to a certain extent, demoralized clique operators; while the fact that combined movements have not by any means proved uniformly profitable to the parties in them has disposed speculators to take their risks single-handed. A clique is said to have commenced operations this week for breaking the prices of stocks and gold ; but the reputed members are not of a class to produce any great sensation, nor have they as yet accomplished much, prices being 1@1 per cest higher than a week ago, and the advance in some cases being beyond that. The activity in money has had no important effect upon prices, many of the brokers having made arrangements; for money extending to the middle or close of next month.

The chief feature in the market has been the activity and firmness in New York Central, which has advanced from 1241 on Monday to 1321 to day. It is easy to assign a satisfactory reason for the rise: the stock has been largely oversold and yesterday and to-day large purchases have been made to cover t e "short" sales: but, after the "short" contracts were supposed to have been covered, the stock still continued to advance, with large purchases. A report was circulated that the Company had leased, for ten years, the Great Western Bailroad of Canada to enable t em to compete with the Erie Company; but this was subsequently contradicted on authority. Some ascribe the rise to a purpose of the Direc ors to divide the surplus funds at the January meeting of the board; but this seems to be a mere surmise. Eric remains entirely neglected, the price having ranged between 391 and 401. The Company is said to be negotiating for the purchase of the Hamilton, Cincinnati and Dayton road, for the purpose of extending its Western connections.

The MONEY MARKET.—The last bank statement reflected the effect of the free outflow of currency to the South and the West. The legal-tenders were down \$5,400,000, while the lons showed an increase of \$3,800,000, the latter item being due mainly to the discounting of produce paper. In the deposits there was a reduction of \$ 00,000. The loss of legal-tenders was partially compensated by a gain of \$1,500,000 in the specie line. The surp us over legal reserve was reduced \$4,000,000 upon the week's average, but novertheless stood at \$17,000,000. The statement of this week is likely to make a still more unfavorable showing. The banks have made remittances to the South, Southwest and West at fully equal to the rate of last week; and as the supply of bank notes is exhausted and the remittance s have been made almost exclusively in United State notes, it is to be expected that the legal-tenders will show a material reduction in tomorrow's return.

On call loans the rate has been f ll 7 per cent, and toward the close 7 per cent in gold has been in some cases paid.

Some uneasizess is felt less the close condition of the market

should encourage effects for tying up currency about the time of the proparations for the January quarterly statement of the banks, and hence there has been an effort on the part of brokers to borrow money for 30 to 60 days upon stocks. Perhaps these fears have not a very substantial basis in probability, as there are not at present any combinations for a fall; in prices sufficiently strong to accomplish much by such means. Moreover, the Sub-Treasury now holds \$17,000,000 of currency and could easily redeem any amount of 3 per cent certificates likely to be presented; while before the 4th, the day upon which the bank return is made, the Sub-Treasury will have paid out a considerable amount of coin interest, improvi g the bank reserve.

Discounts are active. There is but a moderate supply of city merchandize paper, which passes at 7@8 per cent for prime names Western produce paper, however, is in good supply and ranges at 8@10 per cent.

THE GOLD MARKET .-- Gold has been on the whole weak, the prices having touched 1341. The activity in money is unfavorable to the carrying of gold, the upward ten ency of foreign exchange has not been maintained, and the gold exports have not shown the increasing tendency that was expected. These circumstances have made the market more sensitive to the anticipation of the payment of \$32,000,000 of coin interest by the Treasury next month. The conserv tive sentiment exhibited in Congress relative to the bonded

THE CHRONICLE.

793

Commercial Times. The

COMMERCIAL EPITOME. FRIDAY NIGHT, Dec. 18.

The markets present as favorable an appearance as could be expected, with the holidays near at hand and a close money market. For nearly all the great staples prices have been well supported, and in some of them we notice a considerable speculative advance; by which the substantial soundness of trade matters is attested.

Cotton has remained firm and fairly active, with a large business for future delivery.

Breadstuffs have been irregular, with more export demand. Tobacco has ruled quiet. Groceries have been steady, with an advance in Sugar, but closing rather heavy.

Dry Hides have been active and firm, but Domestic Slaughters have declined. Leather in good demand and firm.

Metals show a large further advance in Straits Tin (to $27\frac{1}{2}$ c. gold), and Lead and Spelter have been more active at the late decline; but the buoyancy in Copper is checked and Pig Iron is very dull and heavy; prime brands of Scotch selling from wharf at \$41.

East India Goods continue quiet, but some business has been done in Seed at advanced prices.

Naval Stores have been rather more active for export, with a slight improvement in prices, but the close is firm. Oils have been weak, except for Lard Oil.

Petroleum has experienced the usual fluctuations; the leading influences in the market are speculative; but little actual business has been done. The close is fairly active.

Hops have been active for export and firmer. Hay has further advanced. Building Materials show an advance in Brick and Cement-are otherwise firm.

Whiskey has been in larger supply and prices weak. Fish are firmer.

Wool has been firm, but even the moderate demand of last week has not been maintained.

Freights have been rather dull, except in the shipment of provisions. Rates for cotton and grain to British ports are easier; but the close is firmer for grain, at 6@64d. for corn to Liverpool by sail and 7d. by steam, with 71d. asked for wheat; 45@50s. for bacon and lard, and 3@1d. for cotton.

Provisions have been very excited for Hog products, with a large advance, but followed by a sharp reaction. Mess Pork touched \$28.50 for future delivery, but closed at \$27, with Prime Mess \$24 50@25 for Western. Lard sold at 173c. yesterday for February delivery, and to-day, after 'Change, at 17c. Cumberland Bacon dull, at 123@13c. for January. Beef is a little higher, but other provisions unchanged.

COTTON.

FRIDAY, P. M., December 18, 1868.

By special telegrams received by us to-night from each of the Southern ports we are in possession of the returns show. ing the receipts, exports, &c., of cotton for the week ending this evening, Dec. 18. From the figures thus obtained it appears that the total receipts for the last seven days have reached 81,481 bales, (against 88,404 bales last week, 91,233 bales the previous week, and 76,989 bales three weeks since,) making the aggregate receipts since September 1, 1868 up to this date, 899,829 bales, against 749,125 bales for the same period in 1867, being an excess this season over last season of 150,704 bales. The details of the receipts for this week (as per telegraph) and the corresponding week of 1867 are as follows:

Mobile Charleston Savannah	8,782 23,860 7,639 9,122	Floridabales North Carolina Virginia	673 1,392 6,881	1,399 1,992 3,367
Texas Fennessee &c	4,808 2,692	Total receipts	81.481	106.145

mail returns. We do not include our telegrams to night, as we cannot insure the accuracy or obtain the detail necessary, by telegraph:

Receipts and Exports of Cotton (bales) since Sept. 1, and Stocks at Dates Mentioned.

The market this week has been firm though the transactions for current delivery have not been large, but for forward delivery the movement has been excited and more extensive than any week of the season. An improvement in the dry goods market has rather stimulated the spinning demand, but shippers have held off, not being able to fill their orders at the current rates. For future delivery the sales reported reach about 7,000 bales on a basis of 23¹/₂c for Low Middling for January, February and March delivery and 241c for Middling, same delivery. Yesterday an offer of $24\frac{1}{2}c$ for 5,000 bales Middling, buyer's option, half in January or February and half in March, found no seller. To-day the sales have been 125 bales Low Middling for April at 23c; 400 bales Middling for January at 24½c; 100 bales Low Middling for January at 231c; 500 bales Middling New Orleans for Febuary at 25c, and 250 bales Low Middling for February at 233c. For immediate delivery the total sales of the week foot up 20,647 bales (in cluding 2,120 bales to arrive), of which 10,065 bales were taken by spinners, 4,575 bales on speculation, 4,767 bales for export, 1,300 in transit and the following are the closing quotations:

Ordinary	23¼@ 24¼@	Mobile. 22‰@ 23½@ 24‰@ 25‰@	New Orlears. 22%@ 23%@ 24%@ 25%@	25 @	
minuming	20 /4 (0	25% @	x 5%@	_ X0 (Q	9

Below we give the sales for immediate delivery, and price of middling cotton at this market each day of the past week:

sales. Flux Saturday 3,368 25 Monday 2,979 25 Tuesday 8,422 25 Wednesday 3,219 25 Thursday 4,130 25	land & orida. Mobile. 5 @254 254@255 54@ 255@ 54@ 255@ 54@ 255@ 54@ 255@ 55@ 255@	$\begin{array}{cccccccccccccccccccccccccccccccccccc$	(@26 @ @ @
---	--	--	---------------------

TRANSIT COTTON.—There has been some inquiry this week for transit cotton, but the sales are confined to 1,300 bales, of which 1,000 bales were Galveston to Liverpool; Low Middling at 22⁴/₂c., free on bcard, ad. freight; and 200 bales, Charleston to Liverpool, id. freight, Low Middling 23c.

RECEIPTS.-We have for some time been attempting to obtain correct returns, at frequent intervals, of the shipments of cotton overland direct to manufacturers, so that we might add these omissions to our receipts the first of each month, and thus avoid the usual mode of completing the crop statement by large corrections in receipts at the end of the year. We are gratified to inform our readers that we shall hereafter be able to give them these returns, and shall add them to our figures the first or second Friday of each month. The custom which has heretofore prevailed of including in the general table of receipts only the receipts at the ports, was well enough before the war, but at present very defective and deceptive.

794

see, &c 5,235 5,631 Decrease this year...... 24,664

The exports for the week ending to-night reach a total of 50,838 bales, of which 31,549 were to Great Britain, and 19,289 bales to the Continent, while the stocks at all the ports as made up this evening, are now 288,261 bales. Below we give the exports and stocks for the week, and also for the corresponding week of last season, as telegraphed to us by our own correspondents at the various ports to-night:

week ending	Export	ed to	Total S	Same week	Sto	ock
, Dec. 18.	G't Britain		this week.	1867.	1868.	1867.
New Orleans	2,661	13,990	16,651		131,310	101,326
Mobile	9,051	1,637	10,688	17,574	45,031	62,867
Charleston	2,849		2,819	2,234	11,761	23,001
Savannah	2,796	• • • •	2,796	8,075	40,214	50,577
Texas	4,162		4,162		18,902	13,090
New York	9,854	3,662	13,516	9,867	27,561	52,000
Other ports	176		176	713	13,482	25,625
Total	91 540	10.000				,
Total since Sep	31,549	19,289	50,838	63,410	2 38,261	328,486
Total pince peh	1.242,429	183,458	425,887	350.354		

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is a decrease in the exports this week of 12,572 bales, while the stocks tonight are 40,225 bales less than they were at this time a year ago. The following is our usual table showing the movement

SUPPLY, CONSUMPTION, &c.-The Liverpool cotton statement of today, as received by cable, shows the following condition of supply compared with the two previous statements :

1	Matal stalls of solds and a	Dec. 18.	Dec. 11.	Dec. 5.
	Total stock of cotton, bale	354,000	365,000	367,360
	Total stock of American	51,000	49,000	44,200
	Total afloat	255,000	238,000	254,000
	American afloat.	110,000	95,000	78,009
	Total of all kinds stock and afloat	609,000	603,000	621,860

We have here a slightly improving condition of supply, especially in view of the late large shipments to the Continent from this country, the total Continental shipments since September to date reaching about 175,000 bales, against about 85,000 bales last year. The Bombay movement indicates that the shipments since October 1 to January 1 will show an increase this season of about 40,000 bales over the total of cotton at all the ports since Sept. 1, according to the latest for the same period last season. With regard to consumption, the

December 19, 1868.]

probabilities are not clearly marked. Our own manufacturers certainly show no disposition to reduce their time. Their stocks of goods are very light, while prices have advanced considerably during the month, and the indications of a healthy, active trade for the spring are becoming extremely promising. The European consumption, however, is more uncertain. Private cable advices to-day claim that the mills will soon be, and are in fact now being put on half time. We should place more confidence in these rumors if something to the same effect had not been sent to this side before during the month. Be ides, the foreign goods movement of Great Britain has been in amount very favorable. The Board of Trade returns for October, just issued, and given in our London correspondent's letter, published to-day, show a continued increase in the exports of cotton goods. Still there is a point at which the high price of cotton will check the European consumption. Liverpool circulars received this week all clain it is now reached, and strongly advise the immediate further and decided reduction of the time at the mills. It is to be hoped that the raw material will not reach such a price as to make this resort necessary. It is the key to the position, and, if adopted for even a few weeks, could not fail to affect our market very unfavorably. But, on the other hand, with a living price for the raw material to the manufacturer, it is pretty clear that the total world's supply of c tton this year will be needed.

The exports of Cotton this week from New York show a considerable increase, the total reaching 17,244 bales, against 14,2:0 bales last week. Below we give our table showing the exports of Cotton from New York, and their direction for each of the last three weeks; also the total exports and direction since September 1, 1868; and in the last column the total for the same period of the previous year. From the reports to Liverpool this week we deduct 821 bales which were shipped by the City of Boston the previous week and counted then, but returned to this city and no π reshipped.

GOLD EXCHANGE AND FREIGHTS.—Gold has fluctuated the past week between $134\frac{1}{2}$ and $135\frac{3}{2}$, and the close yesterday was $185\frac{1}{2}$. Foreign exchange still continues steady, although at the close the announcement of the increase of gold in the Bank of England vaults causes a freer disposition among the English bankers to draw, and a concession of $\frac{1}{8}$ has been made on transactions for to-morrow's steamer. The latest quotations were: $109\frac{2}{8}@109\frac{1}{2}$ for prime bankers 60 cays, and $110\frac{1}{8}@10\frac{3}{8}$ for prime bankers 3 days. Freights closed nominal, at $\frac{2}{8}@7$ 6d by steam.

BY TELEGRAPH.—We give below our telegrams received last night from the Southern ports and from Liverpool.

NORFOLK, Va., Dec. 18.—Net receipts of the week, 3,069 ba'es. Exports coastwise, 1,350 [bales. Stock on hand, 2,974 bales. Sales [880 bales. The market is very firm; Middlings, 23%c.

WILMINGTON, N. C., Dec. 18—The total receipts of the week, 1,260 bales Exports—coastwise, 1,772 bales. Sales, 200 bales. Stock on hand, 125 bales. The market is weak; Middlings, 23@23%c.

GHARLESTON, S. C. Dec.18.—Net receipts of the week, 7,639 bales; coastwise, 70 bales—total 7,709 bales. Exports—to Great Britain, 2,849 bales; to other foreign ports, none; coastwise, 4,641 bales. Stock on hand, 11,761 bales. Market quiet but steady. Micdlings, 23½; Sea Island 6t@\$1 30. Sales of the week, 2,566 bales.

SAVANNAH, GA., Dec. 18.—Net receipts, 813 bales Sea Island and 15,294 bales Uplands; coastwise, 163 bales Sea Island—total receipts, 476 bales Sea Island and 15,294 bales Uplands. Exports—to Liverpool, 2,796 bales; to the continent, none. Stock on hand; 3,167 bales Sea Island and 37,047 bales Uplands. Cotton firm; demand fair; Middlings 23%c. offered and 23%c. asked.

MOBILE, Ala, Dec. 18.—Cotton in good demand and closed firmer; Middlings, 23c. Sales, 2,000 bales. Receipts, 1,471 bales. Exports, 4,555 bales. Receipts of the week, 8.782 bales. Exports—to Great Britain, 9,051 bales: to other forcign ports 1,637 bales; coastwise, 1,453 bales. Sales, 7,550 bales. Stock, 45,031 bales.

NEW ORLEANS, La., Dec. 18.—Receipts to-day. 4,300 bales. Receipts of the week—gross, 31,684 bales; net 30,464 bales. Exports—to Great Britain, 2,661 bales; to the continent, 13,990 bales coastwise, 2,353 bales. Stock on hand, 131,310 bales.

GALVE-TON, Dec. 18 — Receipts — 4,808 bales; coastwise, 80 bales — total, 4,888 bales. Exports — to Liverpool. 4,162 bales; New Orleans, 23 bales. Stock, 18,909 bales. Mark t steady; Good Ordinary, 16%c. Sales, 1,824 bales.

I IVERPOOL, Dec. 18, 5 P. M.—Cotton ruled quiet to-day, and closed easier, although not quotably lower. The sales of the day reached 10,000 bales. The sales of the week foot up 57,000 bales, of which 8,000 were for export and 2,000 for specu ation. The total stock on have d is 354,000, of which 51,000 are American. The stock estimated as afloat is 255,000 bales, of which 11,000 are American. The market for yarns and fabrics at Manchester is reported quiet. The following table will show the daily closing prices of the week:

for FRASER

LIVERPOOL, Dec. 5.—In the early part of the cotton brokers week there was an active demand for cotton, with some advance in price; but since then, owing to the favorable accounts respecting the crops, there has been much less firmness, and the advance that had taken place has been fully lost. American cotton, which had advanced $\frac{1}{2}$ d., has receded $\frac{1}{2}$ 1. to $\frac{1}{2}$ d. per lb. Brazilian and Egyptian cotton are unaltered, but East India is $\frac{1}{2}$ d. below the highest point of the week. The total sales are 85,450 bales, of which 13,770 bales are on speculation, 22,780 bales declared for export, leaving 48,950 bales to the trade. American cotton, basis of middling, from Charleston, by steamer, at sea, has sold at 10 $\frac{1}{2}$ d.; ship named 10 $\frac{1}{2}$ d. to 10 $\frac{1}{2}$ d.; Savannah, ship named, 10 $\frac{1}{2}$ d.; New Orleans, ship named, 10 $\frac{1}{2}$ d. january shipment 10 $\frac{1}{2}$ d.@ 11 3 16c.; November 10 $\frac{1}{2}$ d.; December 10 $\frac{6}{2}$ d. per lb. The following are the prices of American cotton :

The market has been generally quiet, as usual at this season.

Kentucky Leaf has been but in moderate demand, mainly for the Mediterianean, with some jobbing demand for home consumption. The sales for the week are only about 250 hhds. at prices ranging from 8 to 15c for common and me dium grades.

Seed has been in fair demand for consumption, and prices are steady. Assortments are poor and not likely to attract buyers. We understand that the new crop is being bought up in the interior at very full prices, although the yield is estimated at full 50 per cent larger than last year. The sales embrace 23 cases State at $9\frac{3}{4}c$; 45 do old Connecticut Seed wrappers, private terms; 80 do Ohio, $7\frac{1}{2}c$; 40 do Connecticut wrappers, crop of 1867, at $42\frac{1}{2}c$; 50 do Connecticut, crop of 1866, at 14c; 124 do Connecticut, crop of 1865-6, at 11@16 $\frac{1}{2}c$; 78 do Ohio, 7c; 24 do State at 21c.

Spanish Tobacco is in fair demand, and the finer sorts are especially saleable. The transactions embrace 500 bales of Havana at 88c@\$1 05, including a line of 300 bales in this range also, gold; 100 bales Yasa, at or on the basis of 27c, gold, in bond.

Manufactured Tobacco is quiet. It is proposed to extend the time for affixing stamps to Jan. 15th, and the U. S. Senate has taken action accordingly.

The receipts of tobacco at New York this week, and since Nov. 1 have been as follows:

BREADSTUFFS.

FRIDAY, Dec. 18, 1868, P. M.

The market has been quite irregular during the past week, and but moderately active.

The receipts of Flour have fallen off, but are still liberal for the season. The demand from the trade has been less active, and the market was weak till Wednesday, when an export demand relieved the market of some lines that were pressing upon it, and there has been a steadier tone since. About three thousand barrels Extra State were taken for Liverpool at \$7, but this was an extreme inside price, and no good line can be had at that figure now. Common grades of Southern Flour are selling so low as to attract speculative inquiry. The better grades of all kinds have shown more firmness, and there is more regularity to the business in California flours. Rye Flour has been tending upward, but Corn Meal is lower and unsettled.

Wheat has been unsettled; holders have found it a sharp struggle to maintain prices. They have been favored by better accounts from Liverpool, and a fair milling demand, but the large stock and the close money market have caused large holders to be anxious to reduce stocks. At yesterday's market, shippers and millers bought freely; but to-day the probability of receipts by rail and the absence of demand gave a weak tone to the market, and No. 2 Spring closed nominal at \$1 58@1 62. Winter Wheats have been doing better, and California Wheat has sold moderately at \$2 20@2 25.

Corn has declined under large receipts of new, including good lines of new Southern White in fair condition, which have attracted the attention of shippers. A large business was done in this description for export at \$1 08@1 12, but the close is lower, though steady at the decline. It is evident that we shall have abundant supplies of Corn from this time forward. Oats have been weakened somewhat in sympathy with Corn. Rye has been the object of considerable speculation and is firmer. Barley has been well sustained with sales of English and German at \$2 25@2 30. Barley Malt quiet. Canada Peas are entirely nominal.

The following are closing quotations:

GROCERIES.

FRIDAY EVENING, December 18, 1868.

An irregular trade has been done from first hands, and in no department can we report any very large transactions. Perhaps the leading feature of the markets at present is the sale at auction of New Orleans Molasses, which is disposed of in this way as fast as received. Sugar has fluctuated considerably in the week, first advancing, and subsequently falling off again. Rio Coffee has been firm and advancing for the best grades.

Imports of the week have been small in every article of the trade. Of tea, only small parcels of indirect have come to hand. Of Rio Coffee, two cargoes at New York and two at Baltimore comprise the totals; and of Sugar and Molasses the imports show a decrease from previous weeks. New Orleans product continues to arrive freely, and is sold off rapidly. Full details of the imports at the several ports for the week, and since Jan. 1, are given below under the respective heads. The totals are as follows:

The second se	This	-From Jan	1 to date
	week.	1868.	1867.
Tealbs.	279,105	33,528,695	33, 346, 231
Tea (indirect import)	498	42,535	18,921
Coffee, Riobags	16,113	1,075,313	1,151,831
Conce, other	2,998	375.294	-,,
Sugar	2.341	478,603	379.005
Sugar	2,216	559,258	445,341
Sugar bags	22.451	422.789	111,174
Molasses	1.269	404,853	846,570
Molasses, New Orleans bbls.	3,054	22,403	16,450

There have been some one or two transactions of importance in the way of sales from first hands, but no advance in prices can be reported, those realised n the sales referred to being generally understood to indicate no more than a steady market, if as much. The line trade has been dull. Sales include 4,758 half chests Oolongs, 800 do of Greens, 1,400 do of Japans.

The imports of the week have been only 498 packages by European steamers. Later advices from China to October 19th are given below; it appears that the shipments to Great Britain then reached 101,759,475 lbs. since June 1, against 78,339,890 lbs. in same time last year ; and the shipments to the United States 8,437,587 lbs., against 052

Baltimore	22,978 463,	061 13,590	66		15,817	572,008

Our usual table of imports being scarcely changed, is omitted this week.

Hong Kong, Oct. 19.-Messrs. Olyphant & Co.'s Circular reports of Teas.-Congou purchases have been somewhat in excess of those made during the previous interval, though it must be borne in mind that the time elapsed since departure of last mail is longer than between any two other mails of the year. The heaviest transactions have been at Shanghai, where a decline of a tael has induced buying, though the recovery of this decline put an abrupt termination to operations. Purchasers at Foochow have been largely for Australia. The question of supply is attracting much and anxious attention, but the reports of interested parties-and none other can be got-are so unreliable, and so much depends upon the prices ruling at the shipping ports, during the remainder of the season, that it is still next to impossible to make any correct estimate. Green Teas have been taken to a fair extent for America at about former figures, but buying has not yet become general, the majority of purchasers anticipating a longer range of prices. In Oolongs, business has not yet been resumed, holders and buyers being still unable to come to terms.

COFFEE.

For good and prime grades of Rio there has been a steady and increasing demand during the week, and the last two days include sales of "good" Rio Coffee at prices 1 higher than the quotations current at the date of our last. There has been a slight improvement in the demand for the lower qualities, but they are still very much neglecte d. and nothing of importance has been done in them. Prices of ot

descriptions have been steady, but the market very inactive. Sales comprise 12,847 bags of Rio, 196 do of Maracaibo, and 400 do Laguayra.

[•] Imports of the week have not been very large. Of Rio Coffee the receipts are 4,813 bags per "Harvest Queen," and 3,500 per "Corona," at New York; At Baltimore, 4,100 per "Finke." and 3,700 per "Min-dara." Of other sorts, 1,630 bags of St. Domingo, 1,088 Manila, and 280 bags of sundries have come to hand.

The stock of Rio coffee Dec. 17, and the imports fron Jan. 1 to date n 1868 and 1867 were as follows :

	New Phila-			Savan. &			
A B	fork. del. 44,325 1,700	more. 34,000	Orleans.		veston.	Total.	
Same date 1867. 1	06.541 5.800	27.000	42,000	4,000	1 500	186,325

* Includes mats, &c., reduced to bags. ‡ 3,190 mats. † Also 13,000 mats.

SUGAR.

The week has been one of successive advance and decline. Importers have been holding at very firm prices, and refiners, who have been almost the only purchasers, have bought only as they were obliged to, and to as small an extent as would supply their actual needs. The telegrams from Cuba have been meantime expected by each side to raise or depress the market. Under these circumstances, prices were forced up during the earlier part of the week 1@8, and during the last two days have again fallen back 1. The market closing entirely quiet. Sales include 738 hhds of Porto Rico, 75 do St. Croix, 16,460 bags of Manila, 3,989 bxs Havana, and 153 hhds New Orleans.

The imports of the week show a decrease from the previous week in boxes and hogsheads. At all the ports the receipts foot up 2,341 boxes, against 7,673—and 2,216 hhds., against 2,268 last week, making the total receipts to date 478,603 boxes and 559,258 hhds., against 379,005 boxes and 445,341 hhds. to same date last year. Details for the week are as follows :

44 1	-Cuba	1	P.Ri.O	ther	N. O.	0	uba-	P.	Rico	Other
At- b N. York	X'8. 977	1 415	hhds.	nhds.	hhds.	At- box	es.	hhds.	hhds.	hhds
Portland						Baltimore	222	480		
Boston.						N. Orleans 1.1	42	••••	240	

Stocks Dec. 17, and imports since Jan. 1, 1868, were as follows:

N. York stock 40,394 Same date 1867 24,073		31,997
Imp'ts since Jan 1.232,164 264,947 Portland do 18,886 8,076 Boston do 65,749 56,523 Philadelphia do 59,054 68,537 Baltimore do 32,499 28,459 New Orleans do 70,251 11,660	$\begin{array}{cccccccccccccccccccccccccccccccccccc$	$\begin{array}{cccccccccccccccccccccccccccccccccccc$
Total import 478,603 438,207 Same time 1867. 379,005 351,979	73,816 47 235 559,258 93,362 445,341	68,810 330 508 1 905

Includes barrels and tierces reduced to hogsheads.

MOLASSES.

The attention of buyers has been entirely diverted from foreign molasses by the stocks of New Orleans put immediately upon the market upon arrival. Sales are almost exclusively in this descripti n, and generally have been at a low scale of prices; within a day or two, however, the market has rallied, and prices realized on sales have been better. Foreign are quiet, though prices are fortified by the political news from Cuba. Sales comprise 1,533 bbls. New Orleans, 15 bbls. Demerara, 5 do of Porto Rico. The aggregate receipts are small. The receipts at all ports foot up 1,269 hhds. against 1,414 last week. The total receipts at the ports The total receipts at the ports since Jav. 1 now reach 404,853 hhds., against 346,570 hhds. in 1867. Details for the week are as follows :

Philadelphia " 76,2 Baltimore " 17,6 New Orlears " 18,0	56 2,354	1,637	789 2,574 18	77,904 24,221 18,243	2,111 400
Total import	53 81,296 93 27,580	13,525	35,279 49,797	404,853 346,570	22,403 16,450

SPICES.

A fair jobbing trade has prevailed without change in prices. Sales are in small lots, and nothing is seen in the way of speculation or even of large transactions.

FRUITS.

In foreign dried the week has been dull. Stocks are abundant, and dealers generally supplied, in anticipation of the close of the year demanding their attention otherwise. Prices have declined, and are still tending down. Turkish prunes have been received, but were sold be fore a rival. We note at auction to-day the sale of 38 cases of Smyrna figs at 18@20, and 13 cases of citron at 24@25. In domestic dried business has been very quiet. West Indian and Mediterranean green fruit is higher, the near approach of the holidays giving an impetus to this line. Porto Rico and Havana oranges have advanced \$2 per bbl, and Malaga lemons 25 cents per box.

We annex ruling quotations in first hands :

THE DRY GOODS TRADE.

FRIDAY, P. M., December 18, 1868.

The market during the past week has shown a strength and an activity which was hardly anticipated before January next. The price of cotton having been maintained beyond the expectations of nearly all parties interested in that great staple,

Boston.

and the prospect of higher prices for dry goods early in the new year having become almost certain, the rise was hastened by a little spurt of activity coming before the holidays; and we report to-day higher rates for Brown and Bleached Shirtings and Prints, with a market much more active than usual at this season. In other branches of the trade than those above referred to, there has been little activity. Woolen goods have been dull, and foreign goods sold to only a limited extent either at auction or private sale. The following table shows the prices of cotton, sheetings and prints on this date, (Dec. 18th,) for the past four years; viz.:

Cotton Sheetings	33	1866. 34 21 1/2	1867. 16 15	1968. 2514 1516 15
Prints	27	20	131/2	15

The exports of dry goods for the past week, and since January 1, 1868, and the total for the same time in 1867 and 1860 are shown in the following table :

		FROM N	EW YOR	K	FROM BO	STON
		stics.			Domestics.	Dry(loods

** ** 1860	84.457				33,749	

We annex a few particulars of leading articles of domestic manufacture, our prices quoted being those of the leading jobbers:

BROWN SHEETINGS AND SHIRTINGS have been very active; jobbers are buying largely in anticipation of their wants. We have advanced our quotations on many brands a half to one cent a yard, but would remark that jobbers are closing out broken lots at lower rates than they can be replaced at in quantities from the agents. Agawam 36 inches 12, Amoskeag A 36 15, do B 36 15, Atlantic A 36 15¹/₄, do H 36 15, do P 36 12¹/₄, do L 36 13, do V 33 13, Appleton A 36 15¹/₄, Augusta 36 14, do 30 12¹/₄, Bedford R 30 10¹/₄, Boott H 27 10¹/₄, do O 34 11¹/₄, do S 40 12¹/₄, do W 45 17¹/₄, Commonwealth O 27 8, Grafton A 27 8, Great Falls M 36 12¹/₄, do S 38 11¹/₄, Indian Head 36 15¹/₄, do 80 13¹/₄, Indian Orchard A 40 14, do C 36 18, do BB 36 12, do W 34 11¹/₄, do NN 36 14, Laconia O 39 13, do B 37 13, do E 36 12¹/₄, Lawrence C 36 15, do E 36 14, do F 36 13, do G 34 11¹/₄, do H 27 10¹/₄, do LL 36 13, Lyman C 36 13¹/₃; do E 36 15, Massachu setts BB 36 13, do J 30 12, Medford 36 14¹/₄, Nashua fine 33 13¹/₂, do 36 15, do E 39 17, Newmarket A 13, Pacific extra 36 15, do H 36 15, do L 36 13, Pepperell 6-4 29, do 7-4 32¹/₄, do R 36 13¹/₄, do O 38 12¹/₄, do N 30 11¹/₄, do G 30 13, Pocasset F 30 10, do K 36 12¹/₄, do 0 38 12¹/₄, do N 30 11¹/₄, do R 36 14¹/₄, do E 39 16¹/₄, Sigourney 36 10, Stark A 36 10, Swift River 36 11¹/₂, Tiger 27 8, Tremont M 33 10¹/₄.

BLEACHED SHEETINGS AND SHIETINGS have been in speculative demand, the low rates at which many brands were selling, has led both jobbers and shirt makers to anticipate their wants. There has been an advance of about one cent on medium and low grades. The finer brands have not advanced, as they have been held at relatively higher rates all the season. We quote: Amoskeag 46 18¹/₂, do 42 16¹/₂, do A 36 000 pieces. Most of the above sales were made on thirty days.—Providence Journal.

PRINTS.—There has been considerable activity in prints during the last few days, and some of the most popular makes have been largely distributed under the impression that the advance in printing cloths would lead to a similar advance in prints. Dunnels have advanced their goods to 13 cents, less the discount. We notice also an advance of half a cent on all Garner & Co's goods. Some of our jobbers are asking 12¼ for Richmond; but as the greater part of the production of this mill is held by one house, and they are jobbing them at 12c, we do not change our quotation; they are relatively low at this price. Allens $12\frac{1}{2}$, American $12\frac{1}{4}$, Amoskeag $12\frac{1}{4}$, Arnolds 11, Cocheco $13\frac{1}{4}$, Conestoga $12\frac{1}{4}$, Dunnell's $12\frac{1}{4}$, Freeman 11, Gloucester $12\frac{1}{4}$, Hamilton $12\frac{1}{4}$, Home $8\frac{1}{4}$, Lancaster $12\frac{1}{4}$, London mourning 12, Mallory $12\frac{1}{4}$, Manchester $12\frac{1}{4}$, Merrimac D $13\frac{1}{4}$, do pink and purple 14, do W 15, Oriental $12\frac{1}{4}$, Pacific $12\frac{1}{4}$ -13, Richmond's 12, Simpson Mourning 12, Sprague's purple and pink $13\frac{1}{4}$, do blue and white $14\frac{1}{4}$, do fancy $12\frac{1}{4}$, do shirtings 14, Victory —, Wamsutta $9\frac{1}{4}$, Wauregan $11\frac{1}{4}$.

GINGHAMS are in fair demand for the season; low grades show a tendency to advance. Allamance plaid 18, Caledonia 14, Glasgow 15, Hampden 15, Lancaster 16, Manchester 13¹/₂.

MUSLIN DELAINES.—The demand is about over for the season. The stock on the market is very small, and prices have been fully maintained. Armures $22\frac{1}{2}$, do plain 22, Hamilton 21, Lowell 20, Manchester 21, Pacific 21, do Serges $22\frac{1}{2}$, Piques 22, Spragues 19.

TICKINGS are in limited demand, but prices remain firm. Albany 10¹, American 14, Amoskeag A C A 33, do A 29, do B 23, do C 20, do D 19, Blackstone River 17, Conestoga 25, do extra 30, Cordis 30, do BB 17, Hamilton 25, do D 20, Lewiston 36 31¹/₂, do 32 28, do 30 23, Mecs. and W'km's 29, Pearl River 30, Pemberton AA 26, do E 17¹/₂, Swift River 17, Thorndike 17, Whittenden A 22¹/₂, Willow Brook 27¹/₂, York 30 25, do 32 31.

STRIPES are very quiet, as is usually the case at this season of the year. Albany 10, American 141, Amoskeag 21, Boston 15, Everett 13, Hamilton 211, Haymaker 16, Sheridan A 14, do G 141, Uncasville dark 151, do light 141, Whittenton AA 23, do A 20, do BB 15, do C 14, do D 12, York 21.

CHECKS are selling slowly at last week's prices. Caledonia No. 70 26, do 50 25, do 10 24, do 8 19, do 11 20, do 15 27 $\frac{1}{2}$, Kennebeck 25, Lanark No. 2 12, Park No. 60 15, do 70 20, do 90 27 $\frac{1}{2}$, Pequa No. 1,200 12 $\frac{1}{2}$, Star Mills 600 12, do 800 16, Union No. 20 25, do 50 27 $\frac{1}{2}$.

DENIMS have been selling to a moderate extent, and close firm. Amoskeag 29, Blue Hill 15, Beaver Cr. blue 26, do CC $17\frac{1}{2}$, Columbian extra 29, Haymaker 18, Manchester 18, Otis AXA $27\frac{1}{2}$, do BB 25, do CC 2C, Pearl River 26, Thorndike $17\frac{1}{2}$, Tremont 20.

COTTONADES are held with more firmness; the low rates at which some of the leading brands have been selling, has led to speculative purchases, buyers believing they will be higher next season. Far. & Mec. Cass 33, Lewiston 37¹/₂, New York Mills 30, Plow. L. & Anv. 37¹/₂.

COTTON YARNS are in better supply, and prices favor buyers. Best Southern yarns are freely offered at 40 cents.

COTTON BAGS are very dull, and prices are tending downward.

WOOLENS. — The demand for wool bed blankets is about over for the season; stocks have been sold very low in first hands. Jobbers are closing out at a slight reduction; we notice a decline of 10c per pair on Rochdale. We quote the 10 4 at \$4 65, 11-4 at \$5 65, and 12 \$6 65. Ontario A extra are selling at \$3 62½ for 10-4, \$4 62½ for 11-4, and \$5 62½ for 12-4; colored blankets are scarce, and bring 45c to 50c per pound for brown gray, and 50c to 55c for blue gray.

FOREIGN GOODS.—There is no new feature to report in this branch of business. At private sale there is but little doing; and the sales at auction are made up for the most part of odds and ends, and attract but little attention.

IMPORTATIONS OF DRY GOODS AT THE PORT OF NEW YORK.

The importations of ary goods at this port for the week ending Dec. 17, 1868, and the corresponding weeks of 1866 and 1867, have been as follows:

THE PENNSYLVANIA COAL FIELDS AND NEW YORK CITY.—A amp'let and map have lately been issued showing the possibility and the advantage of a through traffic railroad from the Pennsylvania coal fields to New York city via Amboy. The cost of such a road is estimated at \$5,537,500 and the total cost of road and equipment at \$8,737,500. The advantage in distance is stated as follows:

The freights East, and to New York from Perth Amboy, will be the same as from Elizabethport, Port Johnston and Hotoken.

The foll wing statement from the New York *Tribune* in regard to the rumbred consolidation of the Fort Wayne and Pennsylvania Central Companies is confirmed at the office of the Fort Wayne Company in this city:

"We learn that the recent contract or engagement entered into between the Penrsylvania Railroad Company and the Pittsburgh, Fort Wayne and Chicago Railroad Company, and the Pittsburgh, Columbus and St. Louis Railroad Company, is neither a consolida-tion nor a lease of either road to the others. The arrangement is one which is intended to harmonize the working of the three roads so as to prevent undue competition in the cutting down of rates or the promotion of the building of rival or competing roads. The contract fully recognizes the equality of the several corporations, and neither one is subordinated to the others. The Pennsylvania Railroad Company in no sense absorbs the powers of the two Western corporations; but the powers of the three are in some important particulars executed by a joint commission, in such way as to make a unit from New York to Chicago and St. Louis. The parties to the contract regard it as the most important and valuable one yet devised in railway management, and that it will greatly enhance the value of th ee properties, and at the same time be promotive of the public good."

Policies issued in Gold or Currency at option of Ap

CARRYING THE UNITED STATES MAILS FOUR TIMES A MONTH.

On the 1st, 9th, 16th and 24th of Each

Leave PIER 42 NORTH RIVER, foot of Canal street at 12 o'clock noon, as above (except when those dates fall on Sunday, and then on the preceding Saturday), for ASPINWALL, connecting VIA Panama Railway with one of the Company's Steamships from Panama for SAN FRANCISCO, touching at ACAPULCO. Departures of 1st and 16th connect at Panama with steamers for SOUTH PACIFIC and CENTRAL AMER-ICAN PORTS. Those of the 1st touch at MANZA-NILLO.

NILLO. One hundred pounds baggage allowed each adult. Baggage-masters accompany baggage through, and attend to ladies and children without male protec-tors. Baggage received on the dock the day before sailing, from steamboats, railroads, and passengers who prefer to send them down early. An experienced surgeon on board. Medicine and attendance free. For passage tickets or further information apply at the Company's ticket office, on the wharf, foot of Canal street, North River, New York.

F. R. BABY, Agent. UNITED STATES LIFE INSURANCE COMPANY, In the City of New York. NO. 40 WALL STREET.

ASSETS......\$2,300,000 been adopted by this Company. See new Prospectus. Profits available after policies have run one year and annually thereafter. JOHN EADIE, President. MICHOLAS DE GBOOT, Secretary.
