Mercantile Mutual SHERIFF'S SALE-By virtue of a writ to me direct-ed, sued out of the Common Pleas Court of White County, Indiana, upon a decree therein rendered January 22, 1869, in favor of DOUW D. WILLIAM-SON, and against the Louisville, New-Albany and Chicago Railroad Company, I will proceed to sell at public outcry to the highest bidder, at the Court-House door at Monticello, White County, Indiana, at 1 o'clock, P.M., on the 8th day of April, 1869, the entire line of said Louisville, New-Albany and Chicago Railroad trom New-Albany to Michigan City, with all and singular its property, equipments, appurtenances and franchises, as more specifically described in said decree, said railroad being of the length of 288 miles or thereabouts. Said railroad, and all its appurtenances and fran chises as atoresaid, will be sold as an entirety, and without any relief from valuation laws. M. HENDERSON, Sheriff White County, Ind. BRANCH OFFICES : No. 357 Bowery, New York. (MARINE) No. 377 Fulton Street, Brooklyn INSURANCE COMPANY, NO. 35 WALL STREET, NEW YORK. Capital\$1,000,000 Policies Issued Payable in Gold, if Desired. Assets 1,500,000 This Company takes Marine and Inland Navigation Risks on Merchandise, Freight and Hulls of Vessels. On the payment of Premiums a Rebate or Discount on the current rates is made IN CASH, as an equivalent for the Scrip Dividends of a Mutual Company. The amount of such Rebate being fixed according to the character of the business, gives to dealers a more just apportionment of profits than by the mutual system ; and being MADE IN CASH, on payment of the Pre-miums, is more than equivalent to the CASH VALUE of the average Scrip Dividends of Mutual Companies. Policies issued, making loss payable in Gold in this City, or in Sterling at the Office of the Company's Bankers in Liverpool, if desired. RUDOLPH GARRIGUE, President. JOHN EDW KAHL, Vice-President. HUGO SCHUMANN, Secretary. The Hope Fire Insurance COMPANY, OFFICE NO. 92 BROADWAY. STATE OF ILLINOIS, // EXECUTIVE OFFICE, SPRINGFIELD, Jan. 29, 1869. 5 EXECUTIVE OFFICE, SPRINGFIELD, Jan. 29, 1869. 5 BY VIRTUE OF AND IN ACCORDANCE WITH the provisions of an Ast of the Legislature of the State of Illinois, entitled "An Act in relation to the payment of the principal and interest of the State Debt," approved February 22, 1859, I, JOHN M. PAL-MER, Governor of the State of Illinois, do hereby notify all whom it may concern, that on the first day of April, 1869, AT THE AMERICAN EXCHANGE NATIONAL BANK, IN THE CITY OF NEW-YORK, the Treasurer of the State of Illinois will pay the bonds of said State hereatter particularly designated in this proclamation; and by virtue of and in pursu-ance of said law. I do further notify all whom it may concern, that the interest upon each and all of said bonds will cease from the time of payment specified in this notice, to wit, from the said 1st day of April, 1869, viz: TRUSTEES : James Freeland, Geo Samuel Willets, A. J Robert L. Taylor, Fra William T. Frost, Aar William Watt, Hen Cornelius Grinnell, Jose James D. Fish, Edv Ellwood Walter, Dan D. Colden Murray, L. E Bryce Gray, Hen ES: Geo. W. Hennings, A. Foster Higgings, Francis Hathaway, Aaron L. Reid, Henry Eyre, Joseph Slagg, Edward Merritt, Daniel T. Willets, L. Edgerton, Henry R. Kunhardt John S. Williams, Charles Dimon, Paul N. Spofford. The advantages offered by this Company are fully EQUAL TO any now offered by other reliable companies, comprising a liberal commission to brokers, placing entire lines of insurance, with its customary rebate, to assured and prompt settlement of losses.

Bound volumes of the UHRONICLE for the six months ending Jan. 1, 1869, and also previous volumes, can be had at the office.

THE SECRETARY OF THE TREASURY.

Notwithstanding the uncertainty which has prevailed

work affecting public opinion, of a more general nature. Formerly it was of little importance who was entrusted with the control of the Treasury Department. The revenues of the government were comparatively small, and except by the customs duties which bring the revenue officers into direct contact with no more than a few thousands of our citizens, the Secretary of the Treasury drew lightly on the pockets and disturbed but little the sympathies of the people. His patronage was small and his powers were inconsiderable. Since the war, however, all is changed. The subordinates of the Treasury are counted by thousands, and the patronage of the office is immense. We have a colossal debt, and we are going to attempt during the lifetime of this administration to ease the pressure of this debt by the expedient of lowering the rate of interest. Two thousand millions of our bonds are añoat, and the Secretary of the Treasury is the officer whose counsels will guide the legislation, and whose energies will execute the decrees of Congress relative to this vast mountain of national obligation. At the least he will have to deal directly with that part of the public debt on which a lower rate of interest is to be put.

Again, instead of being as formerly the great untaxed Republic, we groan under the heaviest, most vexatious most inquisitorial and most cumbrous tax system in Christendom. To the Secretary of the Treasury we look to give us fiscal relief. In the Cabinet he is the only officer who represents our fiscal needs, and he is the only Cabinet officer that, under the Constitution is authorized to communicate with Congress.

Thirdly, he has the care of the Government purse, and that purse contains usually some 90 millions of gold. A very

during the week as to who should be the Secretary of the Treasury under the new administration, there has been a buoyant confidence in financial circles; and when on Thursday it was announced that Mr. George S. Boutwell, of Massachusetts, would take the vacant office, there was an almost immediate advance in Government bonds both here and in London. Nor is this to be wondered at, for Mr. Boutwell is well known as an earnest advocate of conservative financial reform. That he is an able administrative officer he gave conspicuous proofs when in 1862 he was entrusted with the organization of the new Internal Revenue Bureau. The public have had unusual facilities for knowing his fitness for office, and although in the history of the Republic, a Secretary of the Treasury has never probably been appointed whose qualifications were submitted beforehand to a more varied series of tests, never has such an officer on taking the seals of office been greeted by such hearty generous universal welcome.

Apart from these personal reasons why the public have confidence in Mr. Secretary Boutwell, there are motives at

for FRASER

small part of this coin sold by the Secretary at an inopportune moment may throw Wall street into convulsions and almost shipwreck public and private credit. Movements on the part of the Treasury have sometimes produced the most disastrous evils when those movements, though well-meant, were ill-judged or ill timed.

Now in Mr. Boutwell we have an officer whose public record and private character are equally without reproach. He is too honest to use the vast powers of the Treasury to disturb financial affairs, either from caprice, or with a view to make money for himself or his friends. He is too wise to recommend or adopt any timid, halting or narrow policy. At critical junctures of the money market every fibre of the body politic thrills in response to the doings of the Secretary of the Treasury, and it is because of Mr. Boutwell's proved fitness for the special task intrusted to him that his appointment is hailed with such general satisfaction and confidence.

It is, of course, premature to attempt to sketch out the policy which Mr. Boutwell will urge upon Congress and the

[March 13, 1869.

new administration. On all the important financial questions of the day he has, however, an honorable record. He gave his best support to Hooper's bill, torbidding further issues of gold bearing bonds. In his place in Congress he has again and again declared in favor of paying the public debt in coin. His views on the funding of the debt are conservative. Consistent in the hostility with which he has attacked repudiation in every form, he believes the only way to reduce the pressure of the debt is to lessen the aggregate amount of the interest thereon. With this view he is in favor of the following expedients : He would first place the principal beyond reach of the repudiators by solemnly pledging the faith and credit of the nation to its payment in gold. Secondly, he would reduce the debt as rapidly as the national means and ability will allow. Thirdly, he would give strength to the credit of the government by an equitable system of taxation, an honest collection of the revenue, and a vigorous economical administration of the government. Fourthly, he would refuse to put in jeopardy the financial stability and industrial prosperity of the country by any rash manipulation of the currency, or by any sudden violent attempts to resume specie payments. Still, if we are not misinformed, Mr. Boutwell is a hard money man. At any rate he is vehemently opposed to any further issues of currency under any pretext whatever. On these points he made the following observations among others in his speech of July 21, 1868, on the Funding bill :

"When we issued five hundred mil ions of Five-Twenties we slipulated to the public creditors that the United States notes, known as greenbacks, should never be issued in excess of four hundred millions. That was the first (tipulation. The second stipulation was that we would not compel payment under five years; but there was a stipulation over and above the law, inherent in the very nature of society, in the experience and tradition of all mankind, that every nation in its senses, actuated by an honest purpose, if, when struggling with vicissitenses, actuated by an honest purpose, if, when struggling with vicissi-tudes, it was obliged to resort to forced loans—an extraordinary means of raising money, by which its credit was impaired and its securities are forced below the par value of gold—that such a nation should make every honest effort possible for the resumption of specie pay-ments and the restoration of its public credit. That obligation rests upon us. Now, if according to the terms of the act of 1864 it does not appear beyond all cavil that we might not pay these bonds in green-backs, in the same act it doe appear that we shall never issue more than four hundred millions of greenbacks."

Possessing such a record, the country looks forward to Mr. Boutwell's administration of the Treasury Department with great confidence.

PROHIBITION OF THE CEBTIFICATION OF CHECKS.

Congress has just afforded a very inconvenient illustration of the danger of hasty legislation upon matters of great public importance. Early in the session, a bill was introduced prohibiting National Banks from certifying checks otherwise than against actual deposits. The bill, after slumbering in committee for months, was finally brought up and adopted in the last hours of the session, almost without discussion, and signed by the late President among his very last acts. This measure, in its progress, received very little attention from the banks of this city; not because they did not appreciate its importance if adopted, but rather from a teeling that the proposal was such a violent change of the established methods of business, so unnecessary, and so boldly innovating, that it was not likely to occupy the serious consideration of Congress. Evidently, the banks assumed too much; and now they pay the penalty in a very serious inconvenience; an inconvenience which could have been easily averted by sending a deputation to the Committhe having the measure under consideration. The law falls with special severity upon what may be termed the Wall street banks. Institutions doing a purely commercial business find little occasion for certifying, and with them, therefore, no serious objection is raised to the egulation.

ges represent the immense financial transactions of the stock boards and the Gold Room the case is very different. As we have shown on a previous occasion, certification or some other expedient affording substantially the same facility, is really essential to effect the transfers of securities; and we presume it is because the prohibition threatens embarrassment to this particular interest that it has been adopted; for it appears to be taken for granted by a class of legislative regulators that the crippling of Wall street is the acme of financial legislation. It may be well enough for the law to define the general conditions and limits within which banking shall be conducted; but, when it undertakes to determine the methods of business and supersedes that prudent discretion with which managers, if at all fit for their duties, must be credited, it becomes not a wholesome regulator, not a protector of the public interests, but an impediment to the public convenience, a drag upon business, and a restriction upon intelligence and economy in bank management.

Does Congress imagine that the managers of the banks doing a Wall street business-generally conceded to be the shrewdest of our bank officials-are less able than they to judge of what is prudent and safe in this matter? Those who take the risk of certifications ought to be the best judges as to the prudence of the usage; for they are the parties who reap the profits and bear the losses. Besides, tested by experience, no plea can be found for this prohibition; for the banks whose business requires certification find the losses associated with the practice merely nominal, and the average results of their operations are at least as satisfactory as in the case of banks which find no occasion to certify for their customers. It cannot then be said that the law is required to protect the depositors of the banks; and, if not, what apology can be offered for its intrusion upon the statute book?

Had the object of Congress been to discriminate in favor of the larger capitalists, and had the bill been so entitled, it would have been appropriately designated and well adapted to its end. Firms of very large means and high credit have no occasion to secure the certification of their checks, because they will pass anywhere upon the strength of the drawer's name. There is, however, a very large class of houses who, though doing a perfectly sound business, yet do not enjoy a credit sufficient to give currency to checks for large amounts, for the reason that their capital is not large enough and their position is not sufficiently known; and, in these cases, before a check can be accepted in exchange for real value to a large amount, the receiver requires that the bank, which is presumed to know intimately the drawer's position, shall endorse the check. If the bank cannot extend this momentary credit to its customer, the firm is so far incapacitated for transacting business, and its trade falls into the hands of a wealthier rival. To all intents and purposes, therefore, this is a restriction which in its effect must be destructive to the business men of small means. We allow that Congress had no such purpose; but if the act were carried out according to the spirit and letter, such could not fail to be the result. Another very obvious tendency of this law is to drive deposits from the National to the State Banks, which are placed under no such embarrassing restrictions; which fact produces a strong revulsion of feeling against Congressional control over the banks. If there were no means of evading this prohibition, some of our largest banks would immediately reorganize under the State system, even though it were at the cost of sacrificing their circulation. The banks, therefore, make no secret of their intention to violate With the institutions, however, whose exchan- substantially the spirit, although observing the form

THE CHRONICLE. cases, the bank endorse some How far this expedient may the check "accepted." be a safe one, we do not at present enquire. We pre

sume that the design of this form of endorsement is t constitute the check virtually an "acceptance;" but whethe the Courts would view it as such, or as an intentional evasion of the law, and therefore invalid, is perhaps open to question. In other instances the bank issues a "due bill" to its customer, which he deposits in the same institution, when his check can of course be certified within the law. Another expedient is for the bank first to grant a loan, or credit, against which the customer draws his check and receives upon it the certification of the bank. In each of these cases, the customer's account is made good before the close of bank hours the same day. In the case of firms having accounts with more than one bank, the house draws against one of its banks, deposits the check, without certification, in another bank, and draws a second check against the deposit thus made, which the second bank certifies. Where the banks desire to get rid of an undesirable account they probably refuse to be parties to any of these alternatives; but, as a rule, some one of these expedients is resorted to for evading the prohibition and its penalties. We think an enlightened public opinion will sustain them in the course they have adopted, and have little doubt that when Congress becomes better informed upon the question it will retract this hasty legislation.

Of course, there are parties who do not wish to oppose the law, but rather speak of it approvingly. Among these may be classed the banks who do a business not requiring certification; the wealthier private bankers, who hope that the prohibition may drive accounts from the National Banks to themselves; the State Banks, which chuckle over every attempt to fetter their rivals under the national system, and expect that the regulation may divert business to their institutions; and, finally, a monied class boasting, not always intelligently, of its conservatism, which applauds any and every measure calculated to embarrass the Wall street interest. Opinions from any of these sources, however, is to be estimated according to the motive from which it proceeds. On the other hand, a large body of honest, capable business men, who have the misfortune not to be in possession of unlimited means, protest against the measure as unnecessarily and almost fatally crippling them in their business facilities, if put in practice.

. \$1,408,661 05 \$408,466 92 \$1,797,827 97 to 1868..... Towards the payment of interest on this debt the surplus canal revenues contribute \$350,000 and the principal is paid from the General Fund as it becomes due. The amounts thus contributed constitute what is called the General Fund Debt Sinking Fund. The resources and disbursements of this fund for the ten years ending September 30, 1868, are shown in the following yearly accounts:

5 g. 4	Resources, inc ud bal. from last	Disburse- ments for interest and	Balance to credit

1861-65	950,000 00	790,879 88	150,120 12
1865-66	969.061 39	752,837 34	217.127 (5
1866-67			659,298 55
1:67-63		1,228,537 79	

The year 1867-68 closed with a deficiency against the sinking fund amounting to \$196,821–46. Up to the present time only the \$350,000 above specified have been contributed in any one year from the surplus revenues of the canals to this sinking fund. By Sec. 1 of Art. 7 of the Constitution, the surp'us revenue of the canals, after paying the expenses of collection, superintendence and ordinary repairs to the amount of \$1,700,000, in each fiscal year after June 1, 1855, was set apart as a sinking fund to pay the interest and redeem the principal of the "Canal Debt of 1846" until the same should be fully paid. By Sec. 2 of the same article it was provided that when a sufficient sum should have been appropriated and set apart under Sec. 1 to pay the interest and extinguish the entire principal of such Canal Debt, the sum of \$1,500,000 of the surplus revenues of the canals be set apart in each fiscal year as a sinking fund to pay the interest and reduce the principal of the General Fund Debt. The Commissioners of the Canal Fund are now in a position to comply with Sec. 1 of the article aforesaid, having set apart and appropriated a sufficient sum to satisfy the Canal Debt of 1846 and the provision of Sec. 2 has beome fully operative, and henceforth the surplus revenues of the canals will contribute annually \$1,500,000 to that Sinking Fund. This will provide a fund for the payment of the interest and the redemption of the entire principal of the General Fund Debt by the close of the fiscal year 1871-72. A large part of the debt is as shown above payable at pleasure and only \$1,700,-000 has to run beyond the year specified, so that no large amount will require to be invested to meet the final extinguishment of the debt.

debts of the State of New York amounted to \$44,938,786 40, or, if we deduct therefrom the balances of sinking funds on hand at that date, to \$38,864,488 74. These debts and the funds set apart for their satisfaction, are classified as shown in the following exhibit :

	Debts in	Sinking	Balince of
	gross.	funde.	cebt.
General fund	\$4,707,826 40	\$153,175 54	\$1,554,647 86
Contingent	68.000 00	15,517 82	52,482 18
Caual	14,249,960 (0	4,017,232 43	10,232,727 57
Bo nty	25,943,000 00	1,918,408 87	24,0 24,591 13
•			

Aggregate ... \$14,968,786 40 \$35,8.4,418 74 \$6,104,337 66 Ten years previous, or on the 1st October, 1858, the State debts amounted to (general fund, \$6,505,654 37; canal debt, \$24,307,704 40; canal [floating debt, \$2,000,000, and the contingent debt to \$770,000 00) \$33,583,358 77. Excluding the bounty debt and using only the same denominations as they now stand, it is observable that during the ten years the debts of the State have been redeemed to the extent of \$14,554,572 37.

GENERAL FUND DEBT AND SINKING FUND,

the following denominations of indebtedness :

CONTINGENT DEBT.

The Contingent Debt of the State, arising from loans o The "General Fund Debt," as now constituted, comprises its credit to corporations, was incurred previous to the adoption of the Constitution of 1846, which prohibited the giving

[March 13, 1869.

or loaning the credit of the State in aid of any individual, association or corporation. On the 1st February, 1842, these liabilities amounted to \$15,235,700, while on the 30th September, 1868, they had been reduced to \$68,000, partly by payments made by corporations and partly by their assumption by the State as a portion of the General Fund Debt. Of the whole, \$3,665,700 was assumed by the State and \$1,502,000 paid by the beneficiaries. The following table shows the original amounts and the mode of their disposition :

				Outstand

Total.....\$5,235,700 \$3,665,700 \$1.502,000 \$68,000 The Long Island debt was redeemable August 1st, 1861, but under chap. 36, Laws of 1858, the payment was deferred to 1876 and the rate of interest reduced from 6 to 5 per cent.

. INDIAN ANNUTIES.

The amount of Indian annuities payable to sundry tribes under the several treaties with them being (Cayugas \$2,300, Onondagas \$2,430, Senecas \$500, and St. Regis \$2,131 67) \$7,361 67, would require an investment at 6 per cent, amounting to \$122,694 87, and at this figure the annuities are capitalized and accounted for.

CANAL DEBT.

This separate debt of the State, which was created for the construction and enlargement of the State canals, amounted on the 30th September, 1868, to \$14,249,960, having been reduced by purchase and cancellation during the year then ending by the sum of \$1,483,100, and, since the establishment of the sinking funds under the constitution, from its maximum amount by \$16,646,328 26. It is also a fact that the sinking funds held at the date mentioned from surplus revenues set apart for redemption of outstanding stocks amounted to the sum of \$2,230,700. The actual canal debt to be provided for is therefore only \$10,232,727 57. The following statement shows the denomination and amount of canal stocks outstanding September 30, 1868:

	When Dee	- Promote of		ing stocks and bonds.

tion of 1846 was to be paid before the General Fund Debt could receive the full benefit of the surplus Canal revenues appropriated to its liquidation. For the first time in our financial history the current year will experience a disembarrassed Treasury, and ourselves a vast relief from the taxation which has been the inevitable result of the pressure of the debt with which we have had to deal. We have, indeed, overcome all our responsibilities of old date, and have now only to stand up manfully and pay honorably that debt of patriotism which we shall describe under the head of the Bounty Debt.

BOUNTY DEBT.

On the 30th September, 1868, the outstanding stocks and bonds representing this debt amounted to \$25,943,000 classified as follows:

Registered stock.	\$23,757,000
Coupon bonds.	2,185,000
Comptroller's revenue bond unconverted.	1,000
Total amount Sept. 30, 1868	\$25,943,000
1867	26,862,100
Reduction per sinking fund in 1867-68	\$919,000

This debt was created by laws of 1865, cap. 325, which act also created a special sinking fund, on the basis of a tax equivalent to pay the annual interest thereon (7 per cent.) and the principal in twelve years from the date of the passage of said act, and hence the whole debt must be cleared off by the 17th April, 1877. The first tax for this purpose was for the fiscal year commencing October 1, 1866, and called for two and one-eighth mills on the hundred dollars valuation, which produced \$3,295,619 33. This amount was inadequate, and in the succeeding year the tax was raised so as to produce \$3,953,911 66 for that year, and \$658,292 33 to make up the deficiency of the previous year. In 1867-68 the product of the three mill tax was \$4,892,476 22. The following gives in detail the operation of this fund for that year :

$\begin{array}{ccccccc} \text{Product of tax} & 4,892,476 & 22 \\ \text{Interest on investments } & 3,535 & 00 \\ \end{array}$	FAID. Interest on debt
\$5,368,610 84	\$2,996,199 47

Leaving in the Treasury an uninvested balance of \$2,372,-411 37, subject to the direct liquidation of the debt. Between the date of this return and January 1, 1869, a further sum of \$470,000 had been expended in the purchase of interest-pay-

From our own Correspondent 1					

[From our own Correspondent.]

are so cautious that money, although cheap, is not obtainable excep on very safe security. This week numerous failures have taken place and rumors are current that many more will follow. At Liverpool also, some of the cotton speculators are reported to be in an embarrassed state and failures are expected there. It should, however, be borne in mind that so far no important suspensions have taken place They are mostly among the smaller manufacturers, and are for amounts varying from £10,000 to £20,000. The future of the trade seems to be that the small manufacturers will be compelled to succumb, and that the larger and more influential mill-owners will, to a certain degree, monopolize the trade; and when such a condition of affairs shall have been reached, either the price of the raw material will give way or else that of cotton goods, from diminished production, will advance. The leading trade of Lancashire cannot become healthy until either the one or the other is effected.

The wheat trade during the present week has been very quiet, but, as regards good and pure dry produce, a steady tone has been apparent, and prices have ruled firm. Since the close of last week, no alteration has taken place in the value of any kind of wheat, but damp qualities have sold at irregular quotations. From the leading agricultural counties, the accounts received respecting the condition of the wheat plant are satisfactory. The weather having been rather chilly of late, and a considerable amount of snow having fallen in the southeastern portion of the country, vegetation has made but little progress This, however, must be looked upon as a favorable circumstance, the country, in an agricultural point of view, being quite forward enough for the time of the year. As so much rain has fallen since the com mencement of December, a dry March is looked forward to, and if it should prove to be so, the farmers will get forward with their spring sowing. Our imports of cereals are on a considerable scale, and are quite sufficient to check any rise in prices, even from the present low point. Since the commencement of the year, the imports and exports of wheat and flour, into and from the United Kingdom, were as follows :

	WHEA	Т.

The trade in spring corn has Theen very dull, and prices show a reduction of about id per quarter. High prices have attracted large supplies of barley from abroad; but the proport on of malting produce is small. The largest quantities have been received from the Black Sea. From Egypt, large quantities of beans have been imported during the present year. The mildness of the season, and the prospect of an early supply of green food for cattle materially affects the market for spring corn.

The following statement has been published in one of the agricultural newspapers (*The Mark Lane Express.*) in reference to the cereal crops of last year. It shows that the "crop of wheat was a most abundant one, only 20 crops out of 528 having been under an average, making those which were above the average very numercus. The barley crop seems to have been better than had been represented, but oats and beans, more especially the former, were sadly deficient. Peas were not a good crop, but they yielded more abundantly than oats or beans:

329

LONDON, Saturday, February 27 1869. During the present week public attention has been, in a great measure, directed to the position and prospects of the cotton trade. That position and those prospects cannot, by any means, be believed as satisfactory, and much apprehension exists that Lancashire has entered upon a period of much difficulty. For a long time the upward movement in the price of cotton yarn and goods has far from kept pace with the rise in the raw material. So that the cotton manufacturer has, for many months, been working at a great disadvantage. How far high prices will have the effect of stimulating the production of cotton it is not proposed to inquire now; no doubt an impetus will be given to cultivation, and if that should happen to be so, and the yield be considerably augmented, the fall in prices may be heavy when the new crop shall commence to arrive freely at market. At the present time however, the cotton trade seems to be undergoing a necessary and healthy process. So great has been the excitement in that market since the commencement of the American war, and so much money has been won and lost in it, that both Liverpool and Manchester have been over-burdened with speculators, and intense excitement has been the result. As compared with last year, Middling Upland cotton shows a rise of about 21d. per lb. ; but the advance established in the price of mule yarn is only id. per lb., being 11d. per lb. against the manufacturer. Lancashire is now suffering from this inequality of price, in addition to which a much larger amount of capital is required to carry on the trale than before the war, while the banks and discount houses

The Liverpool cotton market opened this week with a fair degree of firmness; but towards the close the tone became depressed, and Brczilian and Egyptian produce decline 1 in value 1d per lb. No change, however, took place in the price of American cotton, which, at the close of the week, is quoted the same as on Saturday last. It i

worthy of remark that the stocks in Liverpool and London, including the quantities of American and Indian produce ascertained to be afloat, are about 32,000 bales greater than they were at this time last year. The stock at Liverpool is rather smaller, but that in London, which of course is comprised almost entirely of East India produce, is about 20,000 bales greater. The quantity of American cotton afloat is 41,000 bales less, and of Indian cotton 54,000 bales more than at this period last year. It may also be observed that the telegrams which, are received from India should be closely scrutinized, inasmuch as scarcely two telegrams agree. Nearly every telegram receivel from Bombuy, this week, gives a different account of the actual shipments and, consequently, an accurate statement is not likely to be obtained until the mail is delivere i some three weeks hence.

The public sales of colonial wool have been commenced this week. The total arrivals amount to 117,340 bales, of which 49,283 bales are from Port Philip, 23,837 from the Cape of Good Hope, 12,874 bales from Sydney, 388 from Van Dieman's Land, 28,578 from Adelaide, 1,591 from New Z-aland, and 797 bales from Swan River. About 15,000 bales were left over from last year, so that the total quantity to be offered amounts to about 132,000 bales. The sales have been well attended, but, in some instances, prices are $\frac{1}{2}d$ to 1d per lb. lower than in November.

The following relates to the trade of Manchester:

Considering how small a business has been going on during the weak, prices have not given way much, but the market shows some irregularity, and current quotations cannot altogether be relied on, The business done on Monday and Tuesday gave needy sellers a little relief, and other producers who were running out of contract availed themselves of the opportunity to make what sales they could for early delivery. The decrease of production of both cloth and yarn has a sensible effect upon the market, and prevents stocks from accumulating rapidly. During the week some failures have occurred, and others have been talked of, and some uneasiness prevails in consequence. The sellers of home-trade yarns show some indifference about selling to manufacturers unless they are satisfied about the stability of their customers. Consequently, those who can buy on short terms or for cash can do so on much better terms than those who require long Hitherto spinners have been pretty well under contract, credit. arising from the active business which took place in January, but now that their engagements are fulfilled, and selling has become difficult, the production is being materially diminished, and probably there is now less yarn and cloth coming forward than has been the case for a long time.

Under the influence of the treaty with England, the trade of Lyons has vastly improved during the last eight years. The manufacture of plain silk goods has materially increased; but of figured silks there has been an important dimunition. To England the exports have been very largely increased, but to the United States they exhibit a very important reduction. The following are the principal figures:

	-	-	-

Bills on Paris have been rather heavy in demand this week, and the rates have not materially changed. The Italian exchange is rather less favorable to Ita y.

The following statement shows the present position of the Bank of England, compared with the state of its resources at this date since 1865. It also exhibits the *minimum* rate of discount, the price of Consols, wheat, middling Upland cotton, and No. 40 mule yarn at this date since 1865:

		1866.	1867.	1868.	1869.

The Bank return being much more favorable than had been expected, the Consol market has been much firmer, and a rise of about ‡ has taken place in the quotations. Foreign government securities (excepting Five-twenties) are weaker, and the railway share market has been dull. The following are the highest and lowest prices of Consols each day of the week :

Feb uary 27.	Monday.	Tuesday	Wed'y.	Thur.	Friday.	Sat.
Consols for money.	5278-93°	9378-9318	9278-9318	927/8-93	1278-9318	93-93

In the market for American securities there has been considerable excitement, and a large business has been transacted. United States Five-twenty bon's have risen from 781/281, but, on the other hand, Atlantic and Great Western railway securities have been much depressed on unreasonable but unconfirmed rumors. Erie and Illinois Central railway shares have not materially altered in price. The highest and lowest prices of the principal American securities on each day of the week are subjoined :

English Market Reports-Per Cable.

The daily closing quotations in the markets of London and Liverpool for the past week, have been reported by submarine telegraph as shown in the following summary :

London Money and Stock Market.—Consols close with a little more firmness, at the best figures of the week. United States Five-twenty bonds still maintain the late advance, closing, however, quiet but steady at 83. Railway stocks have ruled generally quiet, but toward the close a better feeling was manifested, and a slight advance established in

[March 13, 1869.

330

under the bank minimum of 3 per cent. Yesterday, and on Thursday the demand was very active, owing to the heavy settlement in the Stock Exchange. The bank return shows that a large number of bills has lately run off, a considerable diminution having taken place during the last two weeks in "other securities." A short time since the discount market seemed to indicate that a rise in the value of money was not far distant; but since then there have been but few signs of an approaching improvemement. Several foreign loans will be shortly brought forward, and some new companies have lately been introduced; but trade maintains a quiet appearance, and the state of affairs at Liverpool is calculated to lead to much, if not increased, caution. The trade of the iron districts is still good, and railway iron is in active request for Russia, Iadia, and America. Tin is also dearer, and has realized a further important improvement in price, but other depart ments of business are very quiet. The following are the quotations for money :

 1869. 	1868. 1869.
Per cent. Per cent.

Liverpool Breadstuffs Market.—This market has been characterized by a continued weak feeling in the principal articles of the reported list, flour and wheat being especially depressed. The following are the details of the changes: A loss of 1s. in flour, 8d in Western Red wheat, 4d in California white wheat, 1s in old corn, 1s 3d in new corn, 1d in oats and 6d in peas, barley remaining steady at 5s per bushel. The market closed with a still declining tendency.

COMMERCIAL AND MISCELLANEOUS NEWS.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports this week show a considerable increase in both dry goods and in general merchandise, the total being \$7,255,441, against \$4762,501 last week, and \$7,439,253 the previous week. The exports are \$2,865,839 this week, against \$2,108,676 last week, and \$3,261,173 the previous week. The exports of cotton the past week were 2,529 bales, against 5,408 bales last week. The following are the imports at New York for week ending (for dry goods) March 5, and for the week ending (for general merchandise) March 6:

FOREIGN	IMPORTS AT	NEW YORK FOR	THE WEEK.

the resources and liabilities of the association at the close of the business on any past day to be by him specified, and shall transmit such report to the Comptroller within five days after the receipt of a request or requisition therefor from him; and the report of each association above required, in the same form in which it is made to the Comptroller, shall be published in a newspaper published in the place where such association is established, or if there be no newspaper published in the place, then in the one published nearest thereto in the same county, at the expense of the association, and such proof of publication shall be furnished as may be required by the Comptroller. And the Comptroller shall have power to call for special reports from any par ticular association, wherever in his judgment the same shall be necessary, in order to a full and complete knowledge of its condition. Any association failing to make and transmit any such report shall be subject to a penalty of \$100 for each day after five days that such bank shall delay to make and transmit any report as aforesaid, and in case any association shall delay or refuse to pay the p nalty herein imposed, when the same shall be assessed by the Comptroller of the Currency, the amount of such penalty may be retained by the T easurer of the United States upon the order of the Comptroller of the Currency, out of the interest as it may become due to the association on the bonds deposited with him to secure circulation. And all sums of money col-lected for penalties under this section shall be paid into the Treasury of the United States.

Sec. 2. And be it further enacted, That, in addition to said reports, each national banking association shall report to the Comptroller of the Currency the amount of each dividend declared by said association, and the amount of net earnings in excess of said dividends; which report shall be made within ten days after the declaration of each dividend, and attested by the oath of the president or cashier of said association; and a failure to comply with the provisions of this section shall subject such association to the penalties provided in the foregoing section.

CERTIFICATE OF CHECKS.—The following is the text of the new law in reference to certifying checks by national banks :

Be it enacted, &c., That it shall be unlawful for any officer, clerk or agent of any national bank to certify any check drawn upon said bank unless the person or company drawing said check shall have on deposit in said bank at the time such check is certified an amount of money equal to the amount specified in such check, and a check so certified by duly authorized officers shall be a good and valid obligation against such bank; and any officer, clerk or agent of any national bank violating the provisions of this act shall subject such bank to the liabilities and proceedings on the part of the Comptroller, as provided for in section fifty of the National Bank Law, approved June 3, 1864.

NEW ADVERTISEMENTS.—The attention of our readers is called to the following new cards in our columns :

The card of Messrs. Danas & Litchfield, of No. 18 William street, on the last page of the CHRONICLE. This firm gives attention to every sort of transaction in Railroad Iron, and is prepared to furnish rails of the best makes and patterns.

The card of Messrs. Knauth, Nachod & Kuhne, bat kers, at No. 51 Broad street, New York, and Leipsic, Saxony. This well-known house draws bills on all the leading cities of England and the Continent and issues letters of credit for travellers.

The 7 per cent First Mortgage Bonds of the St. Louis, Vandalia and Terre Haute Railroad Company, guaranteed by several substantial companies offered for sale by Ludlow Thomas No. 89 Pine street

companies offered for sale by Ludlow Thomas, No. 39 Pine street. The Second National Bank, Titusville, Pa., with a capital of \$200,000, publishes a card on the first page.

principal trading centres. At Cincinnati and Chicago rates of exchange are steadily hardening and are now close upon figures admitting of the shipment of currency. Within the last three days New York exchange at New Orleans has risen 1 per cent premium, which affords a profit upon the remittance of currency; and receipts from that quarter may be expected at once. The South has been a very heavy buyer of merchandise in our markets within the last few weeks; and as there remains in the interior comparatively little cotton to be realized upon, it is safe to conclu'e that payments to New York must henceforth be made by the return of a large proportion of the currency sent. South some weeks ago, and hitherto hoarded by the planters. In view of these probabilities, it is quite possible that we may have a much easier market in April than has been anticipated. It is not to 'e overlooked, however, that there is now going forward a very active speculation in land in the South, in which Northern men are partic pating; and it is not improbable that the paymen's required to be made on these operations may partially interfere with the remit. tances from the South.

At the moment there is a backwardness in investing in paper, and rates consequently remain firm at 8@10 per cent for prime names, notwit¹ standing the easier feeling on call loans.

The-following are the quotations for loans of various classes :

UNITED STATES BONDS .- After a temporary lull in governments following the postponement of the Hooper and Schenck bills, and the hitch in the Cabinet arrangements, there has been a renewal of the late strong upward movement in prices. Pending this lull, bonds declined at London from 833 to 8.4, and the market here fell off $\frac{1}{2}$ @11 per cent. This weakness appears to have arisen from a fear that the Cabinet difficulties might ripen into astagonism between the Administration and the politicians, and even Congress; when, therefore, the new nominations met with the prompt endorsement of Congress, and appeared to be generally satisfactory to the country, as indicating a conservative policy, the market assumed a decided firmness, which was responded to by a recovery in Five-twenties at London to 83. Under these influences, and also in sympathy with the expectation of the Schenck and Hooper bills being early readopted and signed by the President, the market has to-day made a material advance, Sixty-twos selling at 120¹/_s, and Sixty-sevens at 1134, against $112\frac{5}{2}$ yesterday. At the close of the day there was a good deal of selling to realize profits, and the market c'osed $\frac{1}{2} \otimes 1$ per cent below the best prices of the day. There ap ears to be a considerable "short" interest, and to-day there was difficulty in borrowing some of the issues

FRIDAY, March 12, 1869, P. M.

THE MONEY MARKET.—The money market has not varied mate rially since last week, the rate on call loans having ranged at 7 per cent on stock collaterals, and 6 per cent on United States bond; Although the last bank statement showed a material loss of legating tenders and deposits, and a heavy reduction in the surplus reserve, there has been a much healthier tone among lenders. This appears to have arisen partly from the change in the system of periodical efficial statements of the condition of the national banks: which removes the apprehensions of a repetition of the extreme stringency in connec tion with the April statements experienced in 1868 and 1867. Another source of improved confidence arises from the indications that money may soon begin to flow back to New York from the

exhibited rather more movement and firmness. The dispation of the late appr hension of string ney in connection with the April quarterly bank statement, under which a large amount of bonds have been sold out, has caused a fresh buying movement, and prices, with some exceptions, are 1@2 per cent higher than a week age. The opinion is beginning to gain ground that the market has now touched the lowest point likely to be reached for some time to come, and that the spring will witness a very active speculation in favor of higher prices, and this idea is inducing a quiet effort to get in stocks. To day stocks have been held much above the views of buyers, and the present indications point to an improvement in prices.

The stocks of the trunk roads of this State have been rather weak to-lay, in consequence of the introduction into the State Senate of a bill compelling the New York Central, Hudson River, Harlem, and Erie roads to pro-rate on way freights upon a scale limiting the charges to from 10 to 50 per cent above the rates upon through freights, according to distance, and allowing 25 cents per ton for handling.

Mar. 6. THE GOLD MARKET .- Under the hitch in the Cabinet appoint-

ments gold advanced to 132, with a strong buying movement. Upon the settlement of the difficulties, however, and the advance in Five-twenties abroad, there was less disposition to buy, and the premium fell off about 2. There is a very general inclination to buy in enticipation of the large exports of specie usually made within the next three or four months; but purchases are postponed until the passage of the Schenck and Hooper bills, which are regarded as the only things likely to check the buoyancy of the markets.

NEW YORK CITY BANKS.—The following statement shows the condition of the Associated Banks of New York City for the week ending at the commencement of business on March 6, 1869:

March 13, 1869.]

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, March 12. While the volume of business during the the past week has been very fair, prices of nearly all the leading staples have had a downward tendency. The time has arrived when liberal rates are expected, and prices must be made to suit the demand. The state of the money market has been unfavorable to speculative holders.

Cotton has declined materially. Breadstuffs are generally lower, and close very unsettled. Groceries show a marked decline in Sugar and Molassess, with general dullness. Tobacco is drooping.

Hides though firm, are less active; leather under large rereceipts, is weak, and skins are lower with more doing.

Petroleum shows a marked decline, in sympathy with lower quotations from Antwerp, and the general depression. Naval stores are decidedly lower for Spirits Turpentine, which is in large stock: Rosins lower but fairly active at the conces sion. Oils remain quiet except for Crude Sperm, in which we notice 2,500 barrels, for export to day, at \$1 90, which is lower.

East India goods have been dull and drooping. Metals show weakness, especially in copper and tin, in which the speculations prove to have been exhausted. Iron has been active.

Fish and Fruit have been without essential change. Hay and Hops are rather weak under the large supply. Whiskey has been dull and depressed, but closes firm. Building materials are dull. Tallow has been fairly active and firm.

Wool is but moderately active. The second trade sale yesterday, did not fully sustain prices in the private market.

Freights have been very dull, and rates are reduced to nearly nominal figures, without prospect of immediate improvement, as stocks of grain are reduced, and higher prices may curtail the amount of shipments.

Provisions have had a downward tendency, and prices have pretty generally declined. Renewed speculation in Pork, yesterday, had but a temporary effect. The close was heavy, and Lard has declined $\frac{3}{4}$ c from yesterday's opening, prime steam selling after 'Change to-day at 184c. Bacon is scarce. There has been a considerable speculation to-day in Beef Hams. Butter is drooping, while Cheese is scarce and firm.

Exports of Leading Articles from New York.

The following table, compiled from Custom House returns, show the exports of leading articles of commerce from the port of New Yer since January 1, 1869. The export of each article to the several ports for the past week can be obtained by deducting th amount in the last number of the CHRONICLE from that here given.

COTTON.

FRIDAY, P. M., March 12, 1869.

By special telegrams received by us to-night from each o the Southern ports we are in possession of the returns showing the receipts, exports, &c., of cotton for the week ending this evening, March 12. From the figures thus obtained it appears that the total receipts for the seven days have reached 37,711 bales, (against 44,589 bales last week, 57,436 bales the previous week, and 74,371 bales three weeks since,) making the aggregate receipts since September 1, 1868 up to this date, 1,912,614 bales, against 1,870,706 bales for the same period in 1867, beit an excess this season over last season o 41,908 bales. The details of the receipts for this week (as per telegraph) and the corresponding week of 1867 are as follows:

	-Rece	ipts.	-Reco	cipts.
Received this weck at-	1869.	1868.	Received this week at 1869.	1868
New Orleans bales	10 691	22.309	Florida	400

*Under this head we have added the overland shipments direct to manufacturers to January 1.

The market opened this week active, and with a tendency to higher figures, under the influence of the small receipts as exhibited in our last report, and the renewed movement at Liverpool. This activity was, however, of very short duration, being followed on the next day by unusual dulness, which has continued through the week until to-day, the market exhibiting towards the close on Thursday greater weakness than we have noticed for a long time, and prices closing about # cent off from last Friday. This decreased confidence was due to the reported large shipments from Bombay, the continued unfavorable advices from the manu facturing districts of Great Britain, and the disappointment felt that Liverpool should not have responded with more animation to the small receipts which last week's statement disclosed. This latter fact was construed by some as pretty strong confirmation that the short time movement has become more decided. To day, however, with somewhat improved advices from Liverpool, the market has recovered its tone, and closes without change in quotation, but with a better feeling prevailing. The increase in the exports from Liverpool this week, as reported by cable to day, is looked upon as an important fact, some claiming that this movement to the continent will now assume larger proportions. Sales for forward delivery have reached 2,950 bales, all Low Middling, at gradually declining prices. On Saturday the sales were 250 bales, of which 150 were for April, at $28\frac{3}{4}$ e., and 100 at 281c., for May; on Tuesday the sales reached 750 bales, of which 100 were for March, at 284c., 100 March and April 283c., 200 April 284c., 350 April 282c ; on Wednesday the sales were 400 bales, of which 200 were for March, at 28c., and 200 for April at 281c.; on Thursday 750 bales, of which 50 were for March, at 27³/₄c., 200 April 28c., and 500 same at 271c.; to-day the sales were 800 bales, of which 400 were for April, at 271c., 300 for May 27ge., 100 for March 271 For immediate delivery the total sales of the week foot up 12,042 bales, of which 3,930 bales were taken by spinners, 2,246 bales on speculation, 4,884 bales for export, 992 in transit, and the following are the closing quotations :

Upland & New

$\mathbf{338}$

The exports for the week ending this evening reach a total of 32,263 bales, of which 20,936 were to Great Britain, and 11,327 bales to the Continent, while the stocks at all the ports as made up this evening, are now 421,955 bales. Below we give the exports and stocks for the week, and also for the corresponding week of last season, as telegraphed to us by our own correspondents at the various ports to-night:

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is a decrease in the exports this week of 36,144 bales, while the stocks to night are 94,209 bales more than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports since Sept. 1, according to the latest mail returns. We do not include our telegrams to night, as

M

EXPORTS.—Our exports are again very small, showing a decided falling off compared with the same week of 1858, and increasing the deficit in shipments to Liverpool since September 1st, as compared with last year, to over two hundre i thousand bales. Should our total crop not exceed 2,400,000 bales (the more general estimate at the present moment) the surplus we should have for export would be about two hundred thousand bales less than last season. Hence for the remainder of the season we shall be able to furnish Europe with as much cotton as we did during the same period of last year; that is to say, the deficit in our shipments is already equal to the deficit in our probable surplus, even if the crop only reaches 2,400,000 bales; so that if from this time our weekly exports should not equal the totals To pie far rep day two shi E NEV NEV MOB TEX BAL

T

THE CHRONICLE.

for the corresponding weeks of last year, the amount will be on hand to be shipped later in the season. Whether this delay in selling our cotton to exporters will be wise or unwise we shall probably learn by experience. The bulls think it will prove to be wise, and as a result of the policy look for 35c. for Middling Uplands later in the season The hears app ar to believe that if we are not willing to take 12d. now, we will take less by and by. Nous verrons.

WEATHER AT THE South, &c. - We continue to hear complaints from some portions of the South, especially from the Gulf States, with regard to the wet weather and wet condition of the land interfering with crop operations. In the same sections also labor continues scarce. A few plea ant weeks now would enable the planters to make good what has been lost by the rain; but we fear that the question of labor will not be so easily settled. A largely increased quantity of fertilizers is said to have been sent South this season, and some appear to think that the crop may tlus be forced, and hence mature earlier, affording a longer picking season. This, if realized, would certainly be a great advantage, and especially so where there was any deficiency of labor.

The exports of cetton this week from New York show a further decrease, the total reaching 2,529 bales, against 5,4 8 bales las week. Below we give our table showing the exports of cotton from New York, and their direction for each of the last fou: weeks; also the total exports and direction since September 1, 1863; and in the list column the total for the same periol of the previous year:

GOLD EXCHANGE AND FREIGHTS.-Gold has fluctuated the past week between 130g and 132, and the close to-night was 131. Fort ign exchange closed quiet, with a light business, on the basis of 1087@109 for prime tanker's 60 days, $109\frac{2}{3}$ $\tilde{a}109\frac{1}{2}$ for 3 days and $108\frac{1}{3}$ (18) for commercial bills. Freights closed quiet at id by steam to Liverpool.

Br TELEGRAPH.-The following despatches from the Southern ports and from Liverpool contain some matters of interest n t given above :

BOSTON, Mass., March 12-Exports of cotton this week-to Great Britain and Continent, none. Stock on hand, 15,000 baies.

BALTIMORE, Md., Mar. 12-Exports the past week to Great Britain and the Continent none. Stock on hand, 7,760 ba es.

NORFOLK, Va., March 12.—Net receipts of the week, 1012 bales; coastwise, 2,116 bales—total, 3,158 bales. Exports—coastwise, 3 861 bales. Stock o han, in store and on supboard, not cleared 4,816 bales. Market quit and dull; Low Middlings 27%c. Sales of the week. 542 bales.

WILMINGTON, N. C., March 12 —Receipts of the we k 150 bales. Exports - coastwise, 246 bales. Stock on band, in store and on shipboard, 750 bales. Market unsettled; no sales. Total sales of the week will not exceed 50 bales. Stock held above the views of buyers.

CHARLESTON, S. C., March 12.—N 't receipts of the week, 2,686 bales; coast-wise, 15 bales—total, 2,951 bales. Exports—to Great Britain, 3,372 bales; to other foreign ports, 700 bales; coastwise, 2,551 bales. Stock on hand, 17.552 bales Market du I and nominal; Middlings, nominally 28½C.; Sea I:land, 75@\$1 30. Sales of the week, 2,080 bales.

SAVANNAH, Ga, March 12 .- Net receipts of the week. 103 bales, Sea Island, and 4,339 bales Uplands; coastwise, 41 bales Sea Island and 75 bales Uplands – total, 4,828 bales. Exports—To Great Britain, none; to Havre, 220 bales Sea Island and 1,109 bales Uplands; to other foreign ports, none. Stock, 2,984 bales Sea Island and 40,461 bales Uplands. The market is quiet, nominally 27% c. Sales of the week, 1,500 bales.

MOBILE, Ala., March 12.—Sales of the week, 250 bales. Receipts, 2,691 bales. Ex: orts—To Great Britain, 3,743 bales; to France, 2,975 ba'es; to other foreign ports, none; castwi-e, 1,767 bales. Stock on hand, 47,950 b les. Sales to-day, 55) ba'es. Market quiet; Low Middlings, 26½. Receipts, 696 bales; exports, 278 bales.

New ORLEANS, La., March 12.--Receipts to-day, 1,454 bales. Receipts of the week--gross, 11,624 bales; het, 10,601 bales. Exports to-day, 2,169 bales; exports of the week--to Liverpool, 10,669 bales; to the Continent, 5,324 bales; coastwise, 7,704 bales. Stock on h and, 143,274 bale4. Sales to-day, 3,500 bales. Sales of the week, 13.200 bale4. The demard is better; low grades easier; better grades are firm; Low Middlings 26½@27c., Middlings 28c.

GALVESTON, Tex., March 12 — Receipts of the week, 4,658 bales. Exports— To Bremen, 566 bales; to New York, 1, 35 bales; to New Orleans, 252 bales. Stock, 13,797 bales. Market dull; Good Ord.narv, 19½@20c Sales, 1,207 bales.

LIVERPOOL, March 12-4:39 P. M.—'he maket opened and closed firm r but not higher, with sales of 10,000 The s les of the week have been 68,000 bales of which 11,000 were taken for expirit and 9,000 on speculation. The stock in port and on shipboard is estimated at 282,000 biles, of which 103,000 are from the United States. The stock at sea, bound to this port, is esti-mated at 389,000 biles; of which 163,000 are Ameri an.

For the convenience of our readers we give the following, howing the sales and stocks at and adoat for Liverpool each of the last four weeks :

(Nedal and an	March 12.	March 5.	Feb. 26.	Feb. 19.

FUROPEAN AND INDIAN COTTON MARKETS .- ID reference to these markets, our correspondent in London, writing under the date of Feb. 27, states:

LIVERPOOL, Feb. 27.- In consequence of numerous failures at Man? chester, and of reported embarrassments here, the cotton trade has been very dull during the present week, and, in s me instances, prices are decidedly lower. In the early part of the week the quotations were tolerably firm, but, at the close, Brazilian and Egyptian produce shows a fall in value of about ‡d per lb. American and East Indian produce are unaltered. The total sales of the week amount to 56,920 bales, of which 9,260 bales are on speculation; 7,950 bales are declared for export, leaving 39,710 bales to the trade. Cotton "to arrive" c ntinues to attract great attention, and after frequent changes the latest quotations are : American, basis of Middling, from New Orleans, ship named 12d; shipping or shipped 12td; Mobile, nearly due 12d; ship named 11td; Maceio, basis of fair, ship named 11gd : Broach, good fair ginned, overland 10gd ; Dhollerah, fair merchants, ship named 91d; Oomrawuttee, fair new mew merchants, ship named 981 per lb. The following are the prices of American cotton compared with those of last year :

SHIPPING NEWS.—The exports of cotton from the United States the pist week, as per latest mail returns, have reached 19,327 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the CHRONICLE last Friday, except Galveston, and the figures for that port are the exports for two weeks back. Below we give a list of the vessels in which these shipments from all ports, both North and South, have been made:

this week, the total at all the ports reaching 592 hhds., 557 stems, 971 cases, and 590 bales, against 551 hhds., 450 cases, and 317 bales for the previous seven days. Of these exports for this week, 358 hhds., 908 cases and 395 bales were from New York; 234 hhds., 50 bales, 40 cases, and 557 stems from Baltimore. The direction of the shipments of hhds. was as follows: 43 to Liverpool, 443 and 557 stems to Bremen, and the balance to different ports. During the same period the exports of manufactured tobacco reached 141,795 lbs., of which 54,975 were to Melbourne. The full particulars of the week's shipments from all the ports were as follows:

From San Francisco—To Panama 3 cases....To Victoria 20 do.

BREADSTUFFS.

FRIDAY, March 12, 1869, P. M.

The market this week has been severely depressed by lower quotations from abroad, absence of speculative confidence, liberal receipts at the West, and the difficulty of procuring discounts.

Flour has arrived moderately, and there has been a fair demand for shipment to Great Britain and the West Indies, with a good trade, while stocks have become considerably reduced. But a decline of Extra State in Liverpool to 23s. 6d. and a general want of confidence in the future of prices have caused a pressure to sell, which has resulted in very iregular and generally lower prices. About 5,000 bbls. Extra State have been taken for Great Britain at \$6 25@\$6 40 for good lines.

Wheat has moved less freely for export. The subsidence of supplies by rail, and the reduced stock, induced holders during most of the week to make concessions to meet the steady decline in Liverpool; and with a good milling demand and firmer gold, they were able to maintain their position until to-day, when a further decline in Liverpool, lower gold, and the prospect of such a decline in Western markets as will permit the renewal of shipments by rail, a further decline was submitted to on a small business; but many holders are confident of a sharp reaction and hold above the market. There are a million bushels less Wheat "in sight," between Chicago and Liverpool inclusive, than at this date last year, when prices were more than a dollar a bushel higher and the consumption much smaller. It is not improbable also that the increased receipts at the West during the winter, may be followed by comparatively smaller receipts during the spring. No. 2 Spring closed at \$1 40@\$1 45.

Corn has materially declined, although receipts are still light. The demand is limited to the local trade, and that is very small. Outs have also been dull but are firmer. Rye and Barley show no essential change, but are easier. Barley Malt is steady, and Canada Peas remain nominal.

GROCERIES,

FRIDAY EVENING, March 12, 1869.

The causes in operation at the date of our last report to quiet and diminish business have not yet apparently spent their force. It is not often that we are obliged to record a week of as thorougly inactive markets and lessening prices as the one under review. The lower figures which have marked the course of gold quotations may be partly responsible for this state of matters, and probably the exciting public events at the Capitol during the week may have had a share in it. Whatever the cause, it is seldom that all the markets within the range of our report gravitate so simultaneously. Sugars, raw and refined, have steadily declined. Molasses has been lower, and in both, transactions have been very light. Teas have been inactive and prices weak. Coffee without any movement of importance, but steady.

Imports of the week have been small of tea and coffee, including only one cargo of green teas and one cargo of Rio coffee. The receipts of Cuba box sugar have been quite liberal, and also of sugar in hhds., but of molasses the imports n small. Full details of the imports at New York eek, and at the several ports since January 1, are ow under the respective heads. The totals are as

COFFEE.

There has been very little done in any description this week. The arrivals of Brazil have been light for some time past and the stocks of this description are small, but with some disposition on the part of holders to obtain full prices and considerable in difference on the part of buyers the amount of business done has been unimportant. In West Indian, trade has been fully as quiet. Some 1,000 bags of slightly damaged St. Domingo were sold at auction to-day at 114@144c. The sales are 11,200 bags Rio, 139 do Maracaibo and 29 do Savanilla.

The imports include a cargo of Rio per "Selma," 5,625 bags and 238 bags of sundries.

The stock of Rio March 11, and imports since Jan. 1, are as follows

		,		0.00 0.000			UII W B	i -

SUGAR.

The course of business in both raw and refined sugars has been marked by constantly yielding prices, and the market closes with a scale of current quotations in raw from $\frac{1}{2}(\frac{1}{2})^{2}c$ and in refined $1(\frac{1}{2})^{1}c$ lower than that of a week ago. There has been no decided change in the state of affairs in Cuba, which was supposed to have been the moving cause for the last swift rise in prices, but its operation has been paralyzed by the full stocks with which both refiners and the trade then supplied themselves. Holders of raw are desirous of selling upon arrival, and offer liberal concessions to this end with some success, but the result is to weaken the market, while refiners find the demand for their own products light and unsatisfactory and themselves crippled by fast accumulating stocks in the face of falling prices. Sales of raw sugars for the week include 3,593 hhds Cuba, 80 do Demerara aud 8,981 boxes Havana.

The imports of the week at New York have been as follows: 10,968 boxes and 4,962 hhds. of Cuba, and 241 hhds. of other foreign sugars. The stocks at New York March 11, and imports at all the ports since Jan. 1, are as follows:

Includes barrels and tierces reduced to hogsheads

the trade for several weeks past. Jobbers have supplied themselves as became necessary, and business has not exterded beyond this limit.

FRUITS.

We are obliged to record a dull week in dried foreign fruits. The lower range of the price of gold, high freights and full stocks have operated together to render the market inactive. There has been no general depression in prices, but they are held more easily for all kinds. Valencia Raisins have sold freely at our figures, and for Turkish Prunes a good consumptive demand has continued to prevail. Other descriptions have presented no noticeable features. Domestic dried have been firm and active. Southern Apples are in demand at somewhat better rates, bringing from $11@11\frac{1}{5}$. In foreign green sales of Mediterranean have been made at auction to a considerable extent, some five cargo-s having been disposed of during the week, though a portion of this was in bad order. For sound fruit prices have been steady at about 375@3400 per box for Lemons, and 3300@3350 for Oranges. Havana Oranges are selling at \$1200@\$1250 per bbl.

We annex ruling quotations in first hands :

Foreign has met with very little inquiry and scarcely a sale ha relieved the unvarying quiet of the market during the week. The stock here is light and holders are firm, in their demands, while buyer are indisposed to enter the market at all. Domestic has been sold in small lots, as needed by the trade, but both kinds have been affected decidedly by the fall in sugar. Sales include 1,074 hhds Cuba, 70 do Barbadoes, 37 do Demerara, 10 do Porto fico and 20 bbls New Orleans.

MOLASSES

The receipts of the week at New York have included 1,998 hhds of Cuba, 274 hh is. Barbadoes, and 240 b is. of New Orleans.

Stecks at New York March 11, and imports at all the ports, since Jan uary 1, are as follows :

	At-	Cuba, *hhde.	Porto Rico, #hhds,	Deme- rara, *hhds.	Other foreign, *hhds.	N.O bbls

THE DRY GOODS TRADE.

FRIDAY, P. M., March 12, 1869.

It is extremely satisfactory to be able to report a much better business in Dry Goods during the past week than in any previous week of the year. The large number of buyers in the city, whose presence we have before referred to, seem at last to have concluded that cotton goods are a safe purchase at current rates, and have accordingly begun to take what they require. There is probably no large stock of goods in the interior of this State, or at the West, and certainly not at the South, so that there seems to be much reason to anticipate a good spring trade if the market can be held with moderate steadiness for a few weeks longer.

Prices of Cotton goods (Prints excepted) are much the

same as last week, and are generally held with firmness by both agents and jobbers. In Prints the tendency is downward Several of the medium and lower qualities have been offered to day by certain jobbing houses at $\frac{1}{2}$ to $1\frac{1}{2}$ cents reduction, and the opinion seems to be held that the whole list of Prints will probably decline at least until those lots already opened are disposed of.

We notice an advertisement in the Western papers addressed to the jobbers of that section and inviting them to purchase goods direct from the manufacturer's agency in Chicago. It has not heretofore been deemed advantageous by the leading manufacturers to establish agencies outside of the cities of Boston or New York, and the great trade of the large Western cities has been done through their immense jobbing houses. If the custom of trade is to change in this respect, and goods to be sent in the package direct to the commission merchant in Chicago or St. Louis from the manufactory in New England, the entire channel of the Dry Goods business will be changed and New York will hardly maintain the monopoly which she now enjoys.

The exports of dry goods for the past week, and since January 1, 1868, and the total for the same time in 1867 and 1869 are shown in the following table:

							1

We annex a few particulars of leading articles of domestic manufacture, our prices quoted being those of the leading jobbers:

BROWN SHRETINGS AND SHIRTINGS have been in better request than last week, but the transactions have still not been extremely heavy. Prices have been generally well maintained, and we have heard of few instances of concessions being made on heavy goods. Fine browns have shown an improved steadiness, and though sales have been made at something off from highest rates, no dealings have transpired in regular goods at the extreme low prices of last week, and we have heard of no sales of 86 in standard goods being made at 121 cents. Aga wam 36 inches 131, Amoskeag A 36 17, do B 36 161, Atlantic A 36 17, do H 36 161, do P 86 131, do L 86 141, do V 88 14, Appleton A 33 17, Augusta 36 151, do 30 181, Bedford R 30 101, Boott H 27 111, do O 34 13, do S 40 141, do W 45 18, Commonwealth O 27 81, Grafton A 27 91, Great Falls M 36 13, do S 38 121, Indian Head 36 17, do 30 141, Indian Orchard A 40 15, do C 86 14, do BB 36 13, do W 84 12, do NN 86 15, Laconia O 39 14, do B 37 14, do E 36 13, Lawrence C 36 16, do E 86 15 1, do F 86 14, do (1 34 13, do H 27 11), do LL 86 14, Lyman O 86 15; do E 36 17, Massachusetts BB 33 131, do J 30 14, Medford 36 161, Nashua fine 38 15, do 36 16 1, do E 39 17 1, Newmarket A 18 1, Pacific extra 86 16 1, do H 86 16 1. do L 36 141, Pepperell 6-4 80, do 7-4 821, do 8-4 421, do 9-4 471, do 10-4 524, do 11-4 574, Pepperell E fine 89 154, do R 86 142, do O 83 13, do N 80 12, do (+ 80 181, Pocasset F 80 11, do K 86 181, do 40 161; Saranac fine O 33 141, do R 36 16, do E 39 17, Sigourney 36 104, Stark A 86 164, Swift River 86 124, Tuger 27 94, Tremont M 88 114. BLEACHED SHEETINGS AND SHIRTINGS have been taken fairly, but we are convinced that the stock of these goods in the hands of agents must be steadily accumulating, and no very extensive sales could be n ada at prices cuirent through the week ; in fact the belief very generally prevails that the higher grades of bleached cottons are hold above their value, and it is thought by some that should the price of New York Mills be fixed at 25 cents, and the whole line of stan lard goods be rauged upon that basis, a much more satisfactory trade could be d ne. In wide goods the market has been fairly supplied; though no accumulation is apparent; indeed, there seems to be rather a scarcity than otherwise of some of the best brands, and prices are firmly maintained. Amoskeag 46 20, do 54 25, do A 86 161, Androscoggin 36 18, Appleton 36 18, Attawangan XX 86 154, Atlantie Cambrie 36 26, Ballou & Son 36 15, do 33 12 1, Bartletts 86 16 1, do 38 15 1, do 30 14 1, Bates 36 20. do B 83 15, Blackstone 86 15 1, do D 36 14, Boott B 86 16, do C 83 14 1, do E 85 14, do 11 28 11 1, do O 80 18, do R 27 11, do L 86 16 1, do W 45 19, Dwight 86 25, Ellerton E 42 20, do 27 10, Forrest Mills 36 -, Forestdale 36 161, Globe 27 81, Fruit of the Loom 36 19, Gold Medal 36 151, Greene M'fg Oo 86 18, do 80 111, Great Falls K 86 16, do M 83 14, do S 31 18, do A 83 144, Hill's Bemp. BROWN DBILLS continue without essential change. Where the weight

of the raw material constitutes so large a part of the cost of producing the goods, no concession can be made without loss, with cotton at present rates. Amoskeag $17\frac{1}{2}$, Boott $17\frac{1}{2}$ Graniteville D 17, Laconia 17 $\frac{1}{2}$, Pepperel 17 $\frac{1}{2}$. Stark A 17, do H 15 $\frac{1}{2}$.

PRINTS.—The condition of the Print market seems to be the principal subject of discussion this week. The opinion is becoming more and more prevalant that stocks are rapidly accumulating with manufac-turers, and when we take into consideration the fact of there being a large quantity of broken lots and " Passe" styles; which from the lack of a "line trade" this season remain in the hands of jobbers-there is really good ground for the belief that prices must decline sufficiently to clear the marker up, when with new fresh, seasonable styles, and an increasing demand, present prices can be readily obtained, and traffic in Prints show its wonted activity. The argumert held by many, that prints can be manufactured on a basis of 121 cents for standard brands can hardly be a sound one, and should this price become established in the market, we must look for indifference on the part of manufactures, and the appearance of but few really new and choice styles in the hands of the j bbers. Already as we write, we hear of one or two of the large houses offering a few brands of medium prints-not particu larly noted in the market-at 1 to 11 cents off from previous rates, viz, Briggs at 10 cents, Narragansett 10 cents, Nassau 111 cents and Manchester at 193. The indications seem to point to a lower range of rices for the whole list of prints which have been opened, and are nolds 11, Cocheco 14, Conestoga 13, Dunneli's 13¹/₂, Freeman 11, Gloucester 13, Hamilton 181, Home 81, Lancaster 121, London mourning 121, Mallory 13, Manchester 121, Merrimac D 131, do pink and purple 14, do W 141. Oriental 121. Pacific 181. Richmond's 13, Simpson Mourning 121. Sprague's purple and pink 14, do blue and white 141, do fancy 13-131, do shirtings 141. Victory 11, Wamsutta 10, Wauregan 12.

GINGHAMS have been in better demand, and prices are generally firm at the close. We anticipate a better trade in this line next week. We quote: Allamance plaid : S. Caledonia 14, Glasgow 16, Hampden 16¹/₂, Lancaster 17, Manchester 12¹/₂.

MUSLIN DELAINES remain unchanged in price, and have met with only fair inquiry from the country buyers, who are now the principal purchasers in the market. Pac fic Armures 21, do Alpacas 3-4 25, 6-4 27 $\frac{1}{27}$, Pekins 25, Orientals 20.

TICKINGS remain quite firm in price and have sold well during the latter part of the week. We quote: Albany 11, American 14¹/₂, Amoskeag A C A 35, do A 31, do B 25, do C 23, do D 20, Blackstone River 17¹/₂, Conestoga 26, do extra 31, Cordis 31, do BB 17¹/₂, Hamilton 26, do D 2, Lewiston 25 33¹/₂, do 32 30, do 30 24, Mecs. and W'km's 29, Pearl River 32, Pemberton AA 28, do E 18, Swift River 17, Thorndike 17 Whittenden A 22¹/₂, Willow Brook 29, York 30 26 do 32 32¹/₂.

STATERS are in rather better demand; and with the jobbers more goods of this kind have probably been disposed of than in any of the past three weeks. We quote: Albany 11, American 15, Amoskeag 22-23, Boston 15, Everett 134, Hamilton 224, Haymaker 16, Sheridan A 14, do G 144. Uncasvill dark 17, do light 16, Whittenton AA 23, do A 20, do B B 17, do C 15, York 224.

DENIMS have not been very active, though there is no weakness to be noticed in the prices, which remain without material change from last week. We quote: Amoskeag 31, Blue Hill 15, Beaver Cr. blue 27¹/₄, do CC 18¹/₅, Columbian extra 30, Haymaker 18, Manchester 20, Otis AXA 27, do BB 25, do CC 20, Fearl River 30, Thorndike 19, Tremont 20.

WOOLEN GOODS have been quite dull and depressed, and manufacturers are generally complaining that they cann t produce goods and -ell them at any profit at present prices. There is, however, some encouragement for them in a slight downward tendency of the raw material.

FOREIGN GOODS have been sold heavily in the auction rooms, includa large sale to day by Messis. Wilmerdings & Mount, which was largely attended, and with some spirited bidding. We are inclined to think, however, that the prices obtained were in many cases unsatisfactory.

IMPORTATIONS OF DRY GOODS AT THE PORT OF NEW YORK.

The upportations of any goods at this port for the week ending Mar. 11, 1858, and the corresponding weeks of 1867 and 1868, have been as follows:

ENTERED FOR CONSUMPTION FOR THE WEEK ENDING MARCH 11, 1869.

itized for FRASER

ONE THOUSAND MILES

OF THE

UNION PACIFIC RAILROAD

ARE NOW COMPLETED.

As 500 miles of the western portion of the line, beginning at Sacramento, are also done, but

267 MILES REMAIN

To be Finished, fo Open the Grand Through Line to the Pacific. This Opening will certainly take place Early this Season.

Besides a donation from the Government of 12,800 acres of land per mile, the Com pany is entilled to a subsidy in United States Bonds on its line as completed and accepted at the average rate of about \$26,500 per mile, according to the difficulties encountered, for which the Government takes a second lien as security. Whether subsidies are given to any other companies or not, the Government will comply with all its contracts with the Union Pacific Railroad Company. Nearly the whole amount of bonds to which the Company will be entitled have already been delivered.

FIRST MORTGAGE BONDS AT PAR.

By its charter the Company is permitted to issue its own FIRST MORTGAGE BONDS to the same amount as the Government Bond, AND NO MORE. These Bonds are a First Mortgage upon the entire road and all its equipments.

THEY HAVE THIRTY YEARS TO RUN, AT SIX PER CENT, and both

PRINCIPAL AND INTEREST ARE PAYAFLE IN GOLD.

Such securities are generally valuable in proportion to the length of time they have to run. The longest six per cent gold interest bonds of the U.S. (the '81's) will be due in 12 years, and they are worth 112. If they had 30 yeas to run, they would stand at not less than 125 A perfectly safe First Mortgage Bond l'ke the Union Pacific should approach this rate The demand for European investment is already considerable, and on the completion of the work will doubtless carry the price to a large premium.

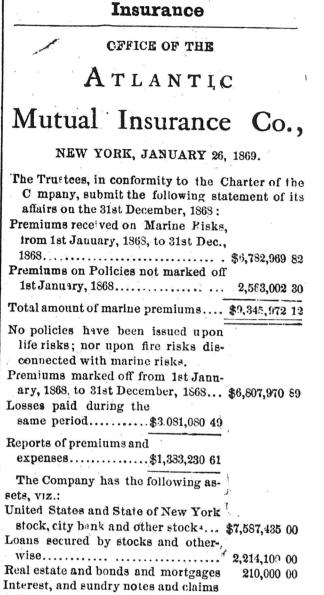

SECURITY OF THE BONDS.

It needs no argument to show that a First Mortgage of \$26,500 per mile upon what for a long time must be the only railroad connecting the Atlantic and Pacific States is DERFECTLY SECURE. The entire amount of the mortgage will be about \$30,000,000, and the interest \$1.800,600 per annum in gold. The present currency cost of this interest is less than \$2,500,000 per annum, while the gross earnings for the year 1868, FROM WAY BUSINESS only, on AN AVERAGE OF LESS THAN 700 MILES OF ROAD IN OP. RAFION, WERE MORE THAN

FIVE MILLION DOLLARS.

The details of which are as follows :

Six per cent interest on the outstanding certificates of profits will be paid to the holders thereof or their legal representatives on and after Tuesday the Second of February next,

The outstanding certificates of the issue of 1865 will be redeemed and paid to the holders thereof, or their legal representatives, on and after Tuesday the Second of February next, from which date all interest thereon will cease. The certificates to be produced at the time of payment and canceled.

A Dividend of Forty Per Cent is declared on the net earned premiums of the Company, for the year ending 31st December 1868, for which certificates will be issued on and after Tuesday, the Sixth of April next.

By order of the Board,

J. H. CHAPMAN, Secretary

345

This large amount is only an indication of the immense traffic that must go over the through line in a few months, when the great tide of Pacific coast travel and trade will begin. It is estimated that this business must make the earnings of the road from FIF-TEEN TO TWENTY MILLIONS A YEAR.

As the supply of these Bonds will scon c-ase, parties who desire to invest in them will find it for their interest to do so at once. The price for the present is par and accrued interest from January 1, in currency.

Subscriptions will be received in New York

At the Company's Office, No. 20 Nassau Street

AND BY

John J. Cisco & Son, Bankers, No. 59 Wall Street

And by the Company's alvertised agents throughout the United State. Bonds sent free, but parties subscribing through local agents, will look to them for their safe delivery.

A NEW PAMPHIJET AND MAP was issued October 1st, containing a report of the progress of the work to that date, and a more complete statement in relation to the value of the bonds than can be given in an advertisement, which will be sent free on application at the Company's offices or to any of the advertised agents.

JOHN J. CISCO, Treasurer New York.

January 20th, 1869,

for FRASER

between New York, Phi'adelphia, and Baltimore, and all Western terminal points which are reached via the Columbus, Chicago and Indiana Central Road' are to be pro rated between the three companies. After payment of the taxes, the gross earnings from the business on the Columbus, Chicago and Indiana Centrat Road are to be divided 70 per cent to the lessees, and 30 per cent to the Columbus, Chicago and Ind ana Central Company. The lessees, uarantce that the 30 per cent each and every year, shall amount to the full sum required to pay the interest on all the bonds of the Columbus, Chicago and Indian Central Company, and in case there should be a deficit in any one or more year?, the lessees are to make up and pay the deficiency without charge to the Colum bus, Chicago and Indiana Central Company. After the payment of the interest on the bonds, the balance of the 30 per cent is to be applied to divider.ds on the stock of the Columbus, Chicago and Indiana Central Compary y. The lessees also agreed to provide from their own separate funds, and without regard to the traffic of the road, the annual sinking funds as required by the mortgages of the Co'umbus, Chicago and Indiana Central Compary, for the company. The lease is for 99 years, and renewable for like periods forever."

NEW JERSEY-ABOLITION OF TRANSIT DUTIES ON PASSENGERS IN NEW JERSEY.—The following is the act passed unanimously by both branches of the New Jersey Legislature, March 4, and signed by Governor Randolph, abolishing the transit duty exacted by the State from Railroad corporations for all passengers and f. eight carried by them :

passengers and f. eight carried by them: AN ACT RELATIVE TO TRANSIT DUTIES.
1. Be it enaced by the Senate and General Assembly of the State of New Jersey, That from and after the passage of this act, all transit duties, whether on passengers or freight, shall be and they hereby are abolished.
2. And be it further enacted, That all companies heretofore paying duties to the State shall hereafter pay each year, in quarterly payments as heretofore to the Treasurer of this State, a tax of one half of one per centum upon the costs of their respective works, including all their property of every description not otcerwise taxed, until the Legislature shall, by general law, impose a uniform State tax, equally applicable to all railroad and canal corporations of this State, and said companies shall then pay such uniform tax; and until such gen. State, and said companies shall then pay such uniform tax; and until such gen-eral law be passed, no company heretofore paying transit duties as afore aid shall, in any year hereafter, pay a less sum as tax to the rae than that pai t by it for taxes and duties of all kinds for the year eighteen hundred and sixty-

by it for taxes and duries of all kinds for the year eighteen hundred and sixty-cight, and said amounts shall be paid by them in equal quarterly payments, and no other tax or impost shall be levied or assessed upon said companies. 3. And be it enac'ed, That this a't shall not apply to any corporation having a contract with this State in reference to taxation, unless within three months from the passage her of, this act and its provisions be accepted by the board of directors of such corporation in place of said contract, and a certificate of such acceptance, under the corporate scal of such corporation, be filed in the office of the Secretary of State, which certificate, or a duly certified copy thereof, shall be blenary evidence of such acceptance, and until the filing as aforesaid of s such acceptance, such corporation shall pay as now required by law. 4. And be it enacted. That this act shall take effect immediately.
