BANK REFORM AND THE VETO.

Now that the veto of the President has so far settled the question of inflation, people are beginning to inquire into the methods adopted in Wall street and at Washington for the purpose of fostering the scheme and of biassing public opinion in favor of greenback expansion. What will be the result of this investigation it is impossible at present to foresee. It is said, however, that there has been a close cooperation between the lobby at the Capitol and the clique of operators at the New York Stock Exchange, and that this friendly league has been dissolved, amid much disgust, and disappointment, and some recrimination and loss.

Another story is, that there is not in the West or South any such demand for greenback inflation as has been represented, but that the excitement in favor of expansion is con fined to a few noisy "fuglemen" in conspicuous places, while the great body of the people have little real sympathy with draw a proportionate amount of bonds deposited in pledge for

the movement. However this may be, there is no doubt that the sober second thought of the people will ratify the sound principles of monetary stability which are embodied in the veto message.

The project of greenback expansion being settled the question now arises what is to be done about bank reform. The advocates of a change make two demands. First they would remove the limit in the aggregate of the bank currency, and secondly they would do away with the enforced per centage of reserve. Their views are embodied in the following till which passed the House and is now before the Senate:

THE HOUSE CURRENCY BILL.

That section 31 of the act entitled "An act to provide a national currency secured by a pledge of United States bonds, and to provide for the redemption thereof, approved on the 3d day of June, in the year 1864," be so amended that the several associations therein provided for shall not be reduced to a security the security of the security associations therein provided for shall not be reduced to the security that the security associations therein are secured to the security of the security associations. tions therein provided for shall not hereafter be required to keep on hand any amount of money whatever by reason of the amount of their respective circulations, but the money required by said section to be kept at all times on hand shall be determined by the amount of deposits, in all respects as provided for in the said

SEC. 2. That section 22 of the said act, and the several amendments thereto, so far as they restrict the amount of notes for circulation under said act, be, and the same are hereby repealed, and that section 1 of the act entitled "An act to provide for the redemption of the three per centum temporary loan certificates, and for an increase of national bank notes," approved July 12, 1870, be amended by repealing the second proviso in said section contained; and the act entitled "An act to amend an act entitled an act to provide a national currency secured by United States bonds, and to provide for the circulation and redemption thereof," approved on the 3d of March, 1865, be, and the same is hereby repealed; and section 21 of the original act, to which the act last aforesaid is an amendment, be, and the same is hereby re-enacted.

SEC. 3. That every association organized, or to be organized, under the provisions of the said act, or the several acts in amendment thereof, shall at all times keep and have on deposit in the Treasury of the United States, in lawful money of the United States, a sum equal to five per centum of its circulation, to be held and used only for the redemption of such circulation; and when the circulating notes of any such association or associations shall be presented, assorted or unassorted, for redemption in sums of \$1,000, or any multiple thereof, to the Treasurer, or any Assistant Treasurer of the United States, the same shall in United States notes. All notes so redeemed shall be charged by the Comptroller of the Currency to the respective associations issuing the same, and he shall notify them severally on the first day of each month, or oftener, at his discretion, of the amount of such redemption; whereupon each association so notified shall forthwith deposit with the Treasurer of the United States a sum in United States notes equal to the amount of its circulating notes so redeemed. And when such redemption shall have been so reimbursed, the circulating notes so redeemed—or, if worn, mutilated or defaced, new ones instead—shall be forwarded to the respective associations; provided, that each of said associations shall reimburse to the Treasury the cost of redemption and of supplying new notes in place of those redeemed; and the associations hereafter organized shall also severally reimburse to the Treasury the cost of engraving and printing their circulated notes, and provided further that the entire amount of United States notes outstanding and in circulation at any one time shall not exceed the sum of \$400,000,000 now authorized by existing law.

SEC. 4. That any association organized under this act, or any of the acts of which this is an amendment, desiring to withdraw its circulating notes in whole or in part, may, upon the deposit of lawful money within the meaning of said acts, in sums of not less than \$10,000, with the Treasurer of the United States, with-

Digitized or FRASER

such circulation, and he shall redeem, cancel and destroy an amount of the circulating notes of such association equal to the amount issued upon such bonds.

SEC. 5. That sections 31 and 32 of the said act be amended by requiring that each of the said associations shall keeps its lawful money reserve within its own vaults at the place where its operations of discount and deposit are carried on, and all the provisions of the said sections requiring or permitting any of the said associations to keep any portion of its lawful money reserves elsewhere than in its own vaults, or requiring or permitting the redemption of its circulating notes elsewhere than at its own counter, except as provided for in this act, are hereby repealed.

redemption of its circulating notes elsewhere than at its own counter, except as provided for in this act, are hereby repealed.

SEC. 6. That upon all circulating notes hereafter issued, or hereafter to be issued, whenever the same shall come into the Treasury, in payment or deposit for redemption or otherwise, there shall be printed, under such rules and regulations as the Secretary of the Treasury may prescribe, the charter numbers of the associations by which they are severally issued.

This measure has received a new vigor during the last day or two from a report that it was to be amended so as to accommodate its provisions to the principles of the sound currency men. Another report is also given by the correspondent of the New York Tribune who is usually trustworthy and well informed. He announces in his Washington dispatch of 23d inst. that the President said to General Garfield that he would favor any measure of bank reform which provided for free banking with the further provision that as new bank notes were issued, greenbacks to the extent of 50 per cent. of the amount of the new issue should be withdrawn, the process to be kept up until the volume of the greenback circulation is reduced to 300 millions. It is also said that General Sherman is of opinion that Congress can yet pass some compromise measure that would be generally satisfactory to all the conflicting parties.

Whether the foregoing bill is likely to fulfil this prediction of General Sherman is doubtful as will be seen by an examination of two of its provisions. Its second section repeals all restriction on the amount of bank notes, but it fails to repeal the legal tender properties which attach to the bank notes. If these legal tender privileges be abolished and if the redemption machinery be made perfect, then and then only will it be safe to repeal the restriction on the aggregate issue of bank notes. These legal tender properties are insuperable obstacles to free banking. Take away the legal tender powers and give us efficient arrangements for redemption, and no restriction will be further necessary on the aggregate of the bank-note issues, for the simple reason that these issues would be self-regulating. By a natural law infinitely more powerful than any Legislative enactment and more wholesome than any Congressional supervision, our bank note issues would adjust themselves to the wants of business if once the artificial barriers were out of the way which have been raised up by the legal tender privileges, and by the want of redemption. Now, what the people desire to know is this. As the bill before us takes away none of the legal tender privileges of the bank notes, but leaves them in full operation, what substitute do the advocates of the bill propose and how do they imagine that the currency can be otherwise endowed with the needful elasticity so as to make it expand and contract responsive to the periodical changes in the activity of busi ness?

Secondly as to the reserves. A five per cent. reserve is all that is allotted to the circulation, and in return for this small sum of five per cent deposited in the Treasury, the Government is to take the duty of redeeming all the notes and must correspond directly for that purpose, with each of the two or three thousand banks that may be in operation all over the country. Now, the first question that suggests itself to an impartial mind is, as to the equivalent which the banks are to give in return for these new privileges. A National bank is a private corporation. Why should the Government do for these banks the work of redeeming their circulation for five per cent, when

for seven years past the same work has cost these banks fifteen or twenty-five per cent?

We have always been friendly to the banks and to the banking system in all the attacks it has sustained. We are not sure that a covert attack is not concealed under this tempting relaxation from the duty of keeping reserves. The privilege of issuing notes was first given to the banks on condition that they kept 15 or 25 per cent of cash reserve on both their circulation and deposits. Relax this condition, do away with the legal duty of keeping up a part of these ample reserves, and we are by no means sure that the enemies of the national banking system will not next move to take away the circulation also. The reserves of the banks have always been their great safeguards.

We have space for but one other question about the new measure of banking reform. We wish to know what guar. antee there is that the West and South could foster and attract to their own borders the new banks which would be likely to spring up if the existing restrictions were removed. It is a law of healthy banking progress that new banks can grow up in no other places but in such as have an abundance of floating capital. Now it has been often shown that the West and South Lave no such abundance of capital to spare for new banks. What those States and their farmers want to get is more floating and fixed capital. This capital they cannot get from Congress or by legislation. With these facts in view we should like to know how they propose to secure and to profit by the new facilities for founding fresh banks which they are so desirous to incorporate into the law.

THE SAVINGS BANKS AND THE PANIC.

Professor Fawcett in the Fortnightly Review started the question some time ago whether the working classes are receiving their fair share of the wealth which has been created during the last twenty years. The question was till lately more agitated among the economists of France than in England or here. Several answers have been given to the problem. It has been suggested that as capital earns no more than it did twenty years ago, it does not appear why labor should earn more. This is the reply made by the London Economist. It might be desirable before any reply whatever is given to call upon Professor Fawcett to prove that he is right in affirming almost without proof that the operative classes have a smaller share than the classes just above them of the advantages of the last twenty years' growth of the nations in wealth and productive power. He would find it more easy we fancy to prove that the middle class and especially its lower strata have reason to complain, and that compared with them, the operatives are engrossing a tolerably ample share of material improvement in excess of that enjoyed by their fathers a quarter of a century ago. In illustration we may point to the fact that operatives skilled and unskilled work fewer hours for the same wages. This single change is equivalent to an addition of twenty or twenty-five per cent. to the earnings realized by operatives a score of years ago. They now receive in reality almost one-fourth more for a given number of hours' labor, and the enlarged comforts visible in their habitations show that what they earn goes farther in the purchase of the necessaries and decencies of civilized life.

all over the country. Now, the first question that suggests itself to an impartial mind is, as to the equivalent which the banks are to give in return for these new privileges. A National bank is a private corporation. Why should the Government do for these banks the work of redeeming their circulation for five per cent, when

who are the chief, though by no means the only depositors in savings banks. Since 1857 the deposits in the savings institutions of this State have risen from 41 millions to 285 millions, as will be seen from the following table:

GROWTH OF SAVINGS BANKS DEPOSITS, 1858 TO 1874.

	Deposits.	Increase.	
Jan. 1, 1858	\$11,422,672		
Jan. 1, 1859		\$6,772,175	
Jan. 1, 1860		9,983.313	
Jan. 1, 1861	67,440,397	9,262,237	
Jan. 1, 1862		*3,357,278	
Jan. 1, 1863	76,538,183	12,455,064	
Jan. 1, 1864	93,786,384	17,247,201	
Jan. 1. 1865		17,951,379	
Jan. 1, 1866	115,472,566	3,734,803

Jan. 1, 1874	285,520,085	233,464	
* Decrease		-	

This gratifying increase in the savings' bank deposits may be taken with other facts too numerous to mention as an illustration that in this country, at any rate, the operative classes from whose earnings by far the greatest part of these deposits are made up, enjoy more opportunities for saving, as the wealth and productive forces of the country increase. It is interesting to see that the growth of the savings banks has been so constant. Still it shows considerable irregularity, and offers a sort of barometer by which to measure the relative well-being of the great masses of the people. When the war broke out, for example, multitudes were thrown out of work from the shock given to the industrial mechanism of the country. Hence the deposits of the savings banks ran down from 67 millions to 64 millions. This is the only instance in which a yearly loss is shown during the past sixteen years. Again, when the war closed, another great shock overtook the productive organism, and convulsed its movements. In 1865, as a result of this, the deposits rose but four millions, or less than one-fourth of the previous year. There was, however, an immediate recovery, and an unbroken increase until the panic of last September; the effect of which was to check the growth of the deposits, and to leave them at about the same aggregate as they had a year ago. To exhibit the effects of the panic we give the following figures:

DECREASE OF DEPOSITS DURING THE PANIC IN THE BANKS OF THE STATE OF

NEV	V YORK.		
D. C.	n. 1, 1873.	July 1, 1873.	Jan. 1, 1874.
Amount due depositors \$2	85,286,621	\$293,178,031	\$285,520,085
Other liabilities	266,846	383,306	620,693
Surplus	19,776,864	21,194,433	21,448,952
Total\$3	05,330,331	\$314,755,770	\$307,589,730

It thus appears that in 1873, during the first six months, there was an increase in the deposits amounting to \$7,891,410, which would have given, but for the panic, an increase for the year of nearly sixteen millions, or about the same as the average for the last ten years; though only half the increase of 1870 and 1871, which were exceptional years of high wages and large savings. It is interesting to know how much of this increase belongs to the city of New York. The proportion is shown in the following table:

	_			
DECREASE IN THE NEW YORK CIT	TY SAVINGS	BANKS DURING T	HE PANIC.	
Jo	in. 1, 1873.	July 1, 1873.	Jan. 1, 1874.	
Amount due depositors\$1	69,503,273	\$175,189,325	\$170,998,796	
Surplus	12,332,308	12,952,506	13,026,576	
Total.,\$1	181,923,286	\$188,237,109	\$184,414,855	

Our readers will remember the conjectures that were made during the panic as to the extent to which the savings banks had suffered from the withdrawal of their deposits. As is usual the best authorities overestimated this movement. Instead of the drain on the banks being from 15 to 30 millions the net losses, as will be seen, were no more than five millions, part of which have since returned to bank.

To ascertain the facts with greater precision the Superintendent addressed a special inquiry to all the savings banks in the State in January after the panic was over. To this inquiry four-fifths of the banks responded. The Superintendent gives in his report the following analysis of these voluminous replies. His statement is well worthy of being put on record as a practically valuable contribution to the history of the great panic of 1873:

Of 123 banks responding to the circular, seventy eight declare that they felt the panic sensibly, different banks in different ways and in various degrees. Forty-five banks did not feel the panic in any extraordinary run upon their deposits. The banks in the cities, especially in New York and Brooklyn, most perceptibly felt the disturbing force. In the country banks the depositors did not show alarm or the desire to withdraw their money. Some of the banks in manufacturing towns notably increased their deposits in the last quarter of the year. Some others

suffered very much in the drain made upon them.

Thirty-seven banks report that money was withirawn from them to some extent for the maintenance of depositors. Thirty-seven others are of the opinion that the money drawn from them was for other uses than maintenance, such as to pay maturing obligations by retail dealers, whose trade was dull; by professional men, who could make no collections; by persons with small surplus invested in savings banks. This last class often drew money to aid friends who had debts to meet, but could not raise the money elsewhere. Such money was drawn and lent as an act of friendly accommodation. Thirty-five banks state that their depositors drew money to some extent for speculative investment, when unusual opportunities were presented for buying securities. These depositors had large sums in bank waiting such a chance. Some banks had drafts for all of these purposes. It is safe to say that the drafts for maintenance were very limited in number and in amount in comparison with the with-

drawals for other purposes.

Sixty-one banks report withdrawals of deposits from fright among their depositors. Thirty-eight state that little was withdrawn from them through fear. In some degree, however, fear influenced the depositors of ninety-nine banks; twenty-two report that they saw no evidence of fright. In fifty-five, where money was drawn through fear, the funds have mainly been returned or are coming back gradually. Only six banks have failed to recover wholly or partially the deposits so withdrawn. It is a significant fact that the depositors, as a general rule, who drew their money under the spur of fear, were from the least intelligent class. Some such drew their money to hoard it, and after holding it for weeks, returned it to the banks in the identical wrappers it which it was fastened when paid out by the bank.

Seventy-six banks paid their depositors on demand all through the panic; only five required notice and adhered to it. Thirtynine others required notice, but restricted the range of its operation very much. They paid to such depositors as showed their need of money for subsistence, or for use in meeting payments. The banks which paid on demand generally found no embarrass-ment from the drafts upon them. They have the opinion that such payments inspired confidence in the depositors, and checked the disposition to draw funds through apprehension. But in New York most of the banks united in requiring notice. This had the effect to stop withdrawals from all the banks, whether they required notice or not. The other banks, which required the notices attribute their salvation to this act. Some of the stronger banks would probably have withstood any run upon them. Some others would, it is likely, have broken. The immediate effect of that colomity would have been to accrease the notice. calamity would have been to aggravate the panic and intensify the alarm which already existed. The fact that the depositors were frightened is shown by their conduct in giving notices of the withdrawal of their money and not drawing it out of bank when the term of the notice expired; they had recovered their sober senses. The requirement of notices, therefore, had the effect to protect the depositors and save them from loss of interest and probably sometimes loss of principal, too, by the withdrawal of their money in these banks. The conduct of the banks was prudent and liberal, for it guarded the depositors and yet gave them the needed aid which the exigencies of the panic suddenly required.

An important part of the report is devoted to an examination of the lessons which the panic teaches relative to the best methods of investing savings bank deposits, and to the errors and dangers in this respect which were brought to light in some of our savings institutions. We have often discussed these questions, and shall shortly recur to them again.

HELP FOR LOUISIANA AND THE MISSISSIPPI LEVEES.

Is there not need for a more general movement in our Northern cities for the purpose of furnishing relief to the suffering which the flood is producing in Louisiana? We are aware that Boston early in the week, and New York and some other cities since, have given evidence of a desire to lend a helping hand, but we feel that this movement

cannot be too general, or entered upon too quickly or too freely.

It is impossible, while we write, to correctly measure the losses or suffering which that people are now experiencing. An unusual, and we might almost say an unprecedented, overflow of the Mississippi River is evidently causing widespread disaster. Several millions of acres have been inundated; houses, fences, farm implements, stock, and crops already planted, are being washed away, while very many people have been compelled to betake themselves to the high lands for safety. If all this had happened in a wealthy community it could soon be made good; or even if the other portions of the State, or of the neighboring States, were in a prosperous condition, our assistance would not be required. But we all know the position Louisiana is now in. Cursed since the war with worse government than probably ever existed, except in South Carolina; taxed to such an extent that more than all their yearly accumulations are constantly absorbed; the average planter largely extending cotton cultivation, without any idea of economy, or even prudence-for illustration see an item in our cotton report to day—the people have not been able to rise above, or repair to any considerable extent, the ruin the war left. Very slowly, however, the planters have been improving their farming condition by adding stock and implements of agriculture—generally, however, incurring debt to accomplish it; but the poor crops this year in much of the valley now inundated, and the low prices, together with the other causes above mentioned, have left the people in a condition poorly fitted to meet the losses at present being experienced. There never was a time when money could be better placed, was more needed by the people, or more essential for the prosperity of that section of the country.

It is well for us to remember also, that speedy assistance will be of tar greater benefit than the same aid delayed for a few weeks. With seed and farm implements given them now, they will be able to replant and have the promise of good crops this year; that is to say, now we can help them so that they will be able most effectually to help themselves. The case is, therefore, peculiarly urgent. Boston appreciates this fact, but, so far as we have seen, New York, with the exception of the Cotton Exchange, does not. Food, we should suppose, is not so much what they will want, except as a very temporary expedient; but the means for replanting their crops and working their farms are chiefly necessary. Let our citizens see, therefore, that sufficient funds are soon sent to furnish the relief required.

Very naturally at such a time as this the whole question of keeping the levees in repair is forced into prominence. There would seem to be many difficulties surrounding the subject. In the first place, the people themselves are, as we have already said, in no condition to furnish the funds neces. sary to carry out such a system as ought to be adopted. Besides it is quite difficult—in fact hitherto it has been found impossible—to obtain such unity of action on the part of the different States interested, as is necessary to secure success. Each State has plans of its own for keeping the river within bounds, and the plans of one do not always meet the requirements of the other States. In view of these facts, we see some of the New Orleans people are looking towards the general government to solve the problem for them. The Times of that city of a late date sums up the case by saying that unless the National Government shall take charge of the levees as well as the outlets of the river, the rich delta lands will have to be abandoned. If any case like the present would warrant Governmental action, we should have no hesitancy in asking for it here. But our people are becoming very jealous of the many arms which are being stretched U. S. 68 (5-208) 1862

out from Washington interfering in affairs belonging peculiarly to the States. We have been brought up to believe that our central government was intended to be a simple affair, not the complex thing we have of late been running into. During the war the necessity was upon us to wink a many things which the rapidly-growing tendency now is not to tolerate. In a word, we do not think there is any chance of succeeding in efforts to put the levees in the hands of the general government, and we do not believe the people of the States along the river would like the change after it was once made.

But still the position does not seem to us to be so hopeless. Of course it is not to be exp cted that all that is desirable will be accomplished at once. We do not get it in New York State (for example, see our system of docks in this city), and the people living along the lower Mississippi will probably have continued use for patience and perseverance in their work. But can it be impossible for the various Legislatures, by united action, to make up a commission, with representatives in it from the different States, which shall have control of this entire subject? Yet, it may be asked, even if we get the commission, where are the necessary funds to come from? The same earnest work which will secure the one point will also secure the other, not at once we will grant, but in time it will come. Some plan will be suggested for obtaining funds not hitherto perhaps thought of. Let the taxes already raised be the basis for work, and the rest in time will follow. Possibly it would be feasible (we do not know that it is) to have the right granted by Congress for this commission to collect some slight tonnage dues for the purpose. That fertile land cannot be abandoned; the State needs it, and the country needs it, and we have that confidence in the Southern statesmanship which enables us to feel that when they once more obtain the control of their own affairs—a point which they are now fast gaining—they will work out the problem which may to some at present look so hopeless.

CHANGES IN THE REDEEMING AGENTS OF NATIONAL BANKS.

The following are the changes in the Redeeming Agents of National Banks approved since the 23d inst. These weekly changes are furnished by and published in accordance with an arrangement made with the Comptroller of the Currency:

		1
LOCATION.	NAME OF BANK.	REDEEMING AGENT.
New York— Canandaigua		Importers' and Traders' Nati'nal Bank, New York, approved in place of Cen- tral National Bank, New York.
New York— Plattsburg		First National Bank, Boston, approved as an additional Redeeming Agent.
New Jersey— Newark		Third National Bank, New York, approved in place of Ninth National Bank, New York.
Wisconsin— Manitowoc		Milwaukee National Bank of Wisconsin, approved as an additional Redeeming Agent.

New National Banks.

National Banks organized during the past week.
2,142—National Bank of Schwenksville, Penn. Authorized capital, \$50,000 paid in capital, \$50,000. Jacob G. Schwenk, President; John G Prizer, Cashier. Authorized to commence business April 17, 1874.

The three counties of Kings, New York, and Westchester, with 71 savings banks, have a still larger proportion of the aggregate deposits in the State. The strongest banks in the State, both in the sum of their deposits and the amount of their surplus, are situated in these counties. This may be seen in the following statement:

BANKS IN KINGS, WESTCHESTER, AND NEW YORK COUNTIES.

—The Mercantile National Bank of New York has declared a dividend of five per cent on its capital stock, payable to shareholders on and after the first day of May next.

Messrs. Blake Brothers & t.o. are offering the remainder of the "City of Providence; R. I., five per cent. gold coupon Water Bonds." These securities, they state have been nearly all disposed of, barely a quarter of the loan remaining unsold, and are now offered at 95 and accrued interest. The valuation of the city, as reported by its Treasurer is \$112,481,400. Net indebtedness, including this loan, as reported by its Treasurer, \$3,900,000. The loan is secured by a sinking fund.

—We desire to call the attention of bankers and insurance companies to the very desirable offices in the basement of the new "Union Building," on William street, adjoining the Bank of New York. These really first-class offices are very near the financial centre on Wall and Broad streets, and are located in one of the finest buildings in the city; they are dry, having a sub-basement under them, very light and well fitted up, and probably will not remain long vacant.

—Messrs. Arnold, Wolff & Villard, members of the Council of Foreign bondholders of Frankfort, have arrived in this city with a view of arranging the differences between several classes of American bonds now in default, and of arranging with the companies for terms of accommodation, or, in case of resort to legal proceedings, to protect the claims of their bondholders.

—The coupons, due May 1, on the bonds of the Lamoille Valley, Montpelier and St. Johnsbury and Essex County Railroad Companies, will be paid in gold on presentation at the office of Messrs. Fairbanks & Co., 311 Broadway, New York, and at the First National Bank, Boston. Interest on the registered bonds is paid only in Boston.

— An important notice to holders of the first and second mortgage bonds of the Montelair Railroad Company appears in our to-day's issue—viz., that the Trustees request persons holding these securities to send their names, addresses, amount and numbers of the bonds in their possession to the office in New York.

—Messrs. Edmund D. Randolph & Co., the well-known bankers, remove this week from their old quarters in Nassau street to the spacious new offices No. 6 Wall street, where they will have increased room and facilities for the accommodation of their friends and customers.

—The holders of first mortgage bonds of the Logausport, Crawfordsville and Southwestern Railroad, are requested, by a notice in our to-day's issue, to communicate with either Messrs. Hallgarten & Co., of New York, or Mr. J. Harmanus Fisher of Baltimore.

—Attention is directed to the card of Messrs. Sherman & Co., bankers, in Washington, D. C., which appears in the CHRONICLE this week. This firm makes a specialty of District of Columbia securities.

BANKING AND FINANCIAL.

BANKING HOUSE OF FISK & HATCH,

No. 5 NASSAU STREET.

We buy and sell GOVERNMENT BONDS and GOLD at current market rates; buy Gold Coupons; buy and sell Stocks and Bonds at the Stock Exchange on Commission for eash: receive Deposits, and allow interest at the rate of four per cent; make Collections, and transact a general Banking and Financial business.

We also deal in the CENTRAL PACIFIC and WESTERN PACIFIC Gold Bonds, which, at present prices, are very desirable for investment.

We are also selling the CENTRAL PACIFIC Gold Six Per Cent Land Bonds at 85 and accrued interest, secured by first mortgage on nearly 12,000,000 acres of the company's lands in California, Nevada, and Utah.

FISK & HATCH.

THE GERMAN AMERICAN BANK,

NEW YORK, April 17, 1874.

Mr. EMIL SAUER has ceased to be President of this Bank.

DAVID SOLOMON, Vice President.

O. H. SCHREINER, Cashier.

FRIDAY, April 24, 1874-6 P. M.

The Money Market and Financial Situation. -There has been one absorbing topic in financial circles this week-the veto. The excitement and discussion in regard to it were greater from the fact that it was generally unexpected, and probably seven-eighths of all business men in this vicinity had considered the signing of the bill a foregone conclusion. The effect upon business has been various—the first impression having been that the current of inflation, to suit which everything has recently been adjusted, would be reversed, the prices of securities and gold uniformly declined. But with the favorable acception of the veto by the mercantile community, and in the leading cities at home and abroad, there has since been an improved tone in the markets and a decided recovery in prices. The rates for money advanced on Thursday to 5@7 per cent., and even on government. collateral as high as 6 per cent. was in some cases asked; but this was quite temporary, and to day there was plenty of money offered at 4 per cent. on governments, and in some cases money was offered to leading government bond dealers as low as 3 per cent. In commercial paper there seems to be a little more irregularity, arising from the fluctuations of the call loan market, and the different views entertained of the probable effects of the veto. The best names are current at 6 to 7 per cent., with possibly a few exceptions on very choice paper at something under 6. There is no large supply of choice paper offering, and the brokers have reported for some time past that they could sell more of that grade than was obtainable,

From London and Frankfort the advices indicate a most favorable reception of the President's veto, and the impression is given that the effect will be decidedly favorable to American credit abroad. Cable despatches from London, on Thursday, report the Bank of England rate unchanged at 3½ per cent., and a slight gain for the week of £525 in the bullion in Bank.

The last statement of the New York City Clearing House banks on April 18, showed a further decrease in legal-tender reserve, the excess above the 25 per cent. requirement being \$11,957,700 against \$13,036,825 the previous week.

The following table shows the changes from previous week

and a comparison with 1873 and 1872:

١		18	74		1873.	1872.

United States Bonds.—The Government bond market felt the first effects of the new turn in affairs at Washington by responding to the decline of 13 per cent. in gold with a falling off of about 1 per cent. on the five-twenties of 1867, which are the leading bonds of the market. It is generally believed that the prices of U. S. securities, particularly in the foreign markets, will not eventually suffer from the recent action of the Executive, as the tendency will be to advance the standing of the government credit.

State and Railroad Bonds.—The business in State bonds has been exceedingly limited as the attention of the street has been engrossed with the stock and gold markets. From Alabama we can learn nothing as to proposed financial measures; from Virginia it appears that the new tax-bill passed both houses, and has probably before this been signed by the governor. The report lately made by Second Auditor Rogers shows the following: that \$15,151,400 is the amount of bonds outstanding, payable to bearer, and with coupons receivable for all State dues; the amount of same class payable to order, is \$1,734,900, making the total with tax-paying coupons \$16,886,300, and of other bonds, convertible into this class, there are enough to make the total \$20,278,730. The amount yet convertible into bonds with coupons not receivable for taxes is \$695,124. The total debt proper of Virginia (less that set down for West Virginia) is given at

In railroad bonds there has been a moderate business at the Board, generally at lower prices—particularly on Union Pacifics. The outside dealings in miscellaneous bonds have been small and lifeless.

Closing prices daily, and the range since Jan. 1, have been:

Railroad and Miscellaneous Stocks.—The stock market has been excited, feverish and lower from several causes. The first movement was on Monday, when Columbus, Chicago & Indiana Central, commonly known as C. C. & I. C., after opening at 301, broke down rapidly on large sales to 23, and subsequently touched 20. This was attended by the suspension of a respectable firm of stock brokers, who had been engaged in a bull speculation in this stock and were unable to meet their contracts. The effect was considerable upon the whole market and caused a decline of greater or less extent throughout the list. Prices on the following two days were irregular though stronger, but before the effect of Monday's work had been fully recovered from, the news came on Thursday of the veto of the so-called inflation bill, and this again unsettled prices and caused depression. The actual decline in stocks, however, has been considerably exaggerated; the true measure of the effect of any particular influence upon the stock market is the extent to which the prices of sound dividend-paying stocks are depressed, and not the decline in "fancies," which have at best but a very uncertain value. Taking this standard, we find that New-York Central & Hudson declined from 98, the lowest price of Wednesday, to $97\frac{1}{8}$; Rock Is land from $98\frac{3}{4}$ to $96\frac{3}{4}$; Deleware, Lackawana & Western from 106 to 100; Lake Shore from 74\frac{3}{4} to $73\frac{3}{4}$. It was generally conceded that the bears, or those who turned bears for the moment, took advantage of the situation to depress prices, and to day there was a general recovery with the closing prices about the highest of

The Gold Market.—The highest price of gold this week was 114 on Monday, and from that it fell off to 113 on Wednesday afternoon. On Thursday, when the President's veto was first known so far as business in the Gold Room was concerned, the price opened at 113\frac{1}{8} and closed at 112\frac{1}{8}; and to-day, after opening at 111\frac{1}{4}, it sold up to 112\frac{1}{8}, closing at 112\frac{1}{4}. The extreme effect of the veto message, therefore, appears to have been a depression of 12 per cent., as shown in the difference between the opening price on Thursday and the lowest price since. As noticed in the range above, the market has shown more firmness to-day than yesterday. In addition to the effect of the veto, the market may have been influenced very slightly by the prospect of the May interest coming out next week, as it is then paid without rebate. At the Treasury sale of \$1,000,000 on Thursday, the total bids amounted to \$2,430,000 and the awards were at 112.80 to 112.89. Customs receipts of the week have been \$2,131,000.

The following table will show the course of the gold premiums each day of the past week:

Foreign Exchange. .- The Exchange market has had no dis turbing linfluence this week beyond that which pertained to the decline in gold. Rates have been well maintained at 4 851@4 86 for prime 60 days' bills and were advanced to 4 861 to-day on a rather better demand from merchants, which followed the decline in gold. Commercial bills have been in quite moderate supply, but the demand for exchange also having been light during most of the week the market has remained quiet and steady. As to the advance of this morning, the actual rates for business did not keep up to the asking prices, and actual transactions were therefore done at a concession. Nominal rates are as follows:

	60 days.	3 days.

AND

STATE, CITY AND CORPORATION FINANCES.

STATE SECURITIES, CITY SECURITIES, RAILROAD STOCK AND BOND LIST, CANAL AND MISCEL-LANEOUS STOCK AND BOND LIST.

[Entered according to Act of Congress, in the year 1874, by WILLIAM B. DANA & Co., in the office of the Librarian of Congress, Washington, D.C.]

The monthly tables of Stocks and Bonds, published regularly on the last Saturday of each month, will be found to-day on this and following pages. The usual large number of corrections have been made since last month in the various classes of securities in order to make the figures in regard to each of them correspond with the latest official returns. The "remarks" upon the financial condition of the several States, cities or companies, are necessarily brief in the small space allowed for that purpose in the tables; but the outline there given is fully supplemented by the reports published from week to week in the CHRONICLE, the pages of which are indexed at the end of the remarks in each case. Thus in regard to such important corporations as the Erie or Pennsylvania Railroads, about whose affairs matters of inter-

esting news are frequently transpiring, the pages indexed in the "remarks" will enable subscribers of the CHRONICLE, who preserve their files, to refer at any time to successive publications in its pages, which furnish a tolerably complete history of the companies in question.

There has been very little change in the condition of State finances since last month—the July interest on Tennessee funded bonds is now being paid, with rebate for the time yet unexpired. Provisions have been made for carrying out the funding law of Louisiana, if bondholders choose to accept the 60 per cent. offered for their old bonds. In Virginia the tax bill has passed, which it is believed will increase the revenue; and the payment of 4 per cent. interest within a short time, is regarded as tolerably certain.

As to railroad finances, the annual reports of a large number of prominent roads for the year 1873 have been published in these columns since last month, generally showing a very good financial condition, when considering the panic of the autumn months. In regard to railroad earnings, however, the past two months of the present year seem to have been even more unfavorable than the months of 1873, which followed the financial crisis of September.

CANAL AND MISCELLANEOUS STOCK AND BOND LIST.

The total debt is stated at \$37,431, 941 57, to be redeemed as follows: By collection of arrears of taxes, \$2,214,000 00; by tax on the whole city, \$14.308,337 24; by tax on the late city of Williamsburgh, \$138,000 00; by the first 12 wards and 20th, 21st and 22d (Park bonds) \$9,233,000 00; by assessments on the line of the improvement, \$11,538,104 33. Amount of sinking fund to be used for the redemption of this debt is \$2,308 435 87, leaving the net total, \$34.523,505 70 Population in 1870, 396,200 against 266,661 in 1860. Valuation of property in Kings County in 1873, by the State Board of Equalization, \$164,915,301 for real estate and \$16,456,490 for personal. The Board of Supervisors valued the total taxable property of Brooklyn at \$216,073,170, and of all Kings County at \$227,699,043. The debt of kings County, separate from the debt of Brooklyn, is \$3,654,712. Chroniole, v. 16, p. 50,323.

Note.—The figures sometimes given in brackets, at the end of remarks, refer to the volume and page of Chronicle containing fuller information. The letters s.f. mean "sinking fund," and l. gr.' land grant." Companies consolidated with, or leased to others will often be found under the consolidated or lessee's name.

For stocks, this means the miles of road operated; for bonds, the miles covered by the mortgage.

These figures are doll irs, showing the denominations or par value of each issue of stocks and honds. The figures 100, &c., signify 100 and larger.

The interest per annum is given on bonds, but the last dividend on stocks; a means sold, f, from of U.S. tax; x, extra; x, stock on scrip.

J. & J. stands for Jan. & July; F. & A., Feb. & Aug.; M. & S., Mar, & Sept.; A. & O., April & Oct. M. & N. May & Nov. J. & D. June & Dec. Q.—S., quarterly from January; Q.—F., quarterly from Feb.; Q.—S., quarterly from Maron.

These dates show the period when the grincipal falls due of bonds; but the time when the last dividend was fauld on stock

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, April 24, 1874.

The veto of the Senate currency bill by the President has projected an important effect in mercantile circles. It has caused a decline of about 2 per cent, in gold, and thus compelled buyers of domestic merchandise for export to reduce their bids; it has discouraged speculative holders of merchandise and thus increased the offerings on sale; and it has checked buying for a rise, and thus reduced the demand for goods; and yet, the character of the measure was so doubtful in its practical operation, present and prospective, that the change has been more in the temper of our markets than in the prices current. The weather has continued unfavorable to business, but to-day was more spring like. The resumption of inland navigation on the great lakes became complete on Monday last, when the ice disappeared from the Straits of Mackinac, and the Erie Canal will, it is announced, be reopened on the 5th of May.

Provisions have continued to exhibit considerable activity in hog products, and prices have been variable. The following is a statement of comparative stocks at Chicago:

	April 1, 1873.	April 15, 1874.
Pork, bbls	89,472	75,803
Lard, tcs.		77,833
S. P. Hams, tcs	35,731	23,109
L. C. Hams, lbs,	• • • • • • • • • • • • • • • • • • • •	379,717
D. S. Shoulders, lbs	5,056,500	10,456,469
Bacon, Cumberland, lbs	70,000	568,874
Long clear, lbs	117,300	503,723
Short clear, lbs	3,874,256	8,852,234
Short rib, lbs	9,062,800	10,386,579
Other cuts, lbs	• • • • •	176,730
Bellies, lbs		258,500

The upward tendency in pork and lard noted in our last continued until Wednesday, when new mess pork sold at \$17 for May, \$17 25 for June, and \$17 40 for July; and prime Western steam lard sold at 10\frac{1}{3}c. for April and May, and 10\frac{1}{3}c. for June. Bacon was also higher, with sales of short rib 9\frac{1}{3}c., long clear at 10\frac{1}{3}c., and short clear at 10\frac{1}{3}c. The demand for pickled meats was also active at improving prices. But yesterday the speculation received a check from the decline in gold, and prices were lower and unsettled. Beef has been firm, and butter more steady, while of new cheese there have been some opening sales at 15\mathbb{@}16\frac{1}{3}c. for fair to fine factories. To-day, pork was active at some decline, new mess selling to the extent of several thousand bbls. at \$17 05 in a jobbing way, \$16 75\mathbb{@}16 88 for May (closing at the inside price); \$16 95 for June, and \$17 25 for July. Lard, also, was active; prime Western sold at 10\frac{1}{3}c. for April and May, 10\frac{2}{3}c. for June, and 10\frac{1}{3}c. for July. Bacon was quoted at 10c. for long clear and 10\frac{1}{3}c. for short clear. Pickled meats were in good demand.

Coffee has been much more active, but at prices favoring buyers, with Rio quoted 18½@23c. gold, and Java 24@26c., gold. The stocks at this market, yesterday, were 124,773 bags Rio, 40,358 mats and 2,829 bags Java, and 50,060 bags and 2,094 mats of other descriptions. Rice has been steady, but less active, and the stock of Rangoon has increased to 13,300 bags. Molasses has further advanced, with a sale of 50 test Cuba Muscovado at 38c., with stocks about the same as last Friday. Sugars have been active in the past two or three days, and prices of Cuba Muscovado have advanced to 7½@7½c. for fair to good refining, with Centrifugal ranging from 8½@9c, and No. 12 box clayed quoted at 8½c. Refined sugars firm at 10½@10½c- for hards. The stocks of raws, yesterday morning, had increased to 71,338 hhds, 53,055 bxs and 191,368 bags.

Freights have been dull, and, in the past day or two, rates have been weakening. There is not sufficient grain here to employ the room available, while the speculation in leading staples early in the week and the decline in gold yesterday and to-day, have operated to check shipments. Late engagements include: To Liverpool, by steam, 40,000 bushels grain at 10d@10½d; wheat to London by sail, 9d. The charters to-day embrace vessels with grain to Cork for orders at 7s flat; to Penarth Roads at 6s 9d, and to the Continent at 7s 3d, and for petroleum to Cronstadt at 5s 3d, and yesterday, cases to Trieste at 35c.

Refined petroleum has continued quiet, but quotations are firm, owing to a combination existing at the Creek, for the purpose of advancing prices, have shut off three-fourth of the wells; quoted at the close 15 1@16c. for early delivery, with a small business. Crude has been more active and firm, though at the close there was an easier feeling, with small sale at 78c., for spot. Rosin has advanced and held firm at \$2 70@2 75 for strained, closing dull at these prices. Spirits turpentine is easier, and a very fair business has been done, closing at 411c. In hops there was a steadier feeling produced by a better demand. Wool continues steady, and considerable business has been transacted, including 80,000 lbs. No. 1 to XX Ohio fleece at 52@55c. Whisky closed steady at 98c. There was a sale of 17,000 bags linseed at Boston on private terms. Metals were quiet, with the exception of tin, which was more active at the previous prices. Stearine moderately active at 111@1118c. for prime. Tallow closed quiet at 71@71c. Hides and leather have been quiet. A sale of 1,000 bbls. crude sperm oil was reported at \$1 60. Linseed oil is higher at 97@98c.

Kentucky tobacco has been moderately active, with sales for the week of 500 hhds., of which 350 were for export, and 150 for consumption. Prices have been without important change; lugs 5@6c., and leaf 7½@10½c. Seed leaf has been quiet; sales, crop of 1872, 90 cases. State, 5½c.; 350 do. Ohio, 6½@6½c.; 400 do. Connecticut, 5½@12c.; 276 do. Pennsylvania, 5@8c., and 101 do. Wisconsin, at 5@6c.; also, crop of 1870, 47 cases Connecticut, 5c. Spanish tobacco in fair request, with sales of 500 bales Havana at 65@90c.

Exports of Leading Articles from New York. The following table, compiled from Custom House returns, shows the exports of leading articles from the port of New York since January 1, 1874, to all the principal foreign countries, and also the totals for the last week, and since January 1. The last two lines show total values, including the value of all other articles besides those mentioned in the table.

COTTON.

FRIDAY, P. M., April 24, 1874.

By special telegrams received to-night from the Southern ports we are in possession of the returns showing the receipts, exports, &c., of cotton for the week ending this evening, April 24. It appears that the total receipts for the seven days have reached 32,080 bales against 39,739 bales last week, 50,043 bales the previous week and 59,553 bales three weeks since, making the total receipts since the first of September, 1873, 3,523,677 oales against 3,209,898 bales for the same period of 1872-73, showing an increase since September 1, 1873, of 313,779 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of the five previous years are as follows:

		15.				
Received this week at—	1874.	1873.	1872.	1871.	1870.	1869.
New Orleansbales. Mobile	6,381 1,706	18,997 5,490	8,329 962	18,900 4,687	16,522 4,067	8,039 3,653

The exports for the week ending this evening reach a total of 63,301 bales, of which 37,307 were to Great Britain, 6,038 to France, and 19,956 to rest of the Continent, while the stocks as made up this evening, are now 466,318 bales. Below are the exports and stocks for the week, and also for the corresponding week of last season:

	K	xported	to—	Totalthis	[0	Stock.			
Week ending April 24.	G. Brit.	France	Contin't		1873.	1874.	1873.		
NewOrleans. Mobile	4,469 4,334	2,081 1,859 1,005 494	11,693 2,0 0 1,700 1,481 2,200 453 429	21,405 2,000 8,027 7,420 5,286 13,585 2,577	26,938 3,490 5,521 8,555 1,977 14,158 233	152,975 32,159 21,298 38,094 45,232 136,570 40,000	154,850 33,977 18,473 40,913 54,303 97,148 40,000		
Total Since Sept. 1	37,807 1,538,436	6,0?8 328,033	19,956 557,747	63,301 2,424,216	60,572 2,105,900	466,318	439,664		

*The exports this week under the head of "other ports" include from Baltimbre 1,271 bale; to Liverpool, and 429 bales to Bremen; from Boston 677 bales to Liverpool; from Norfolk 200 bales to Liverpool.

From the foregoing statement, it will be seen that, compared with the corresponding week of last season, there is an increase in the exports this week of 2,429, bales, while the stocks to-night are 26,654 bales more than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. 1 to April 17, the latest mail dates.

The market the past week for cotton on the spot has been strong, and prices, as compared with last Friday, show a partial advance, except for ordinary, which is lower; but neither activity of business nor buoyancy of tone has prevailed. The disturbance of the money market, which began to be felt last Saturday. resulting from a semi-official construction put upon the currency bill which passed the Senate, gave more uneasiness to holders of cotton, and in view of the comparatively large accumulation of stocks here, the offerings on sale were somewhat increased, but notwithstanding firmer accounts from Liverpool, and an advance in gold and exchange, the demand continues to be mainly for consumption. Neither export nor speculation was even moderately brisk. On Monday, there was a general advance of &c, but on Tuesday quotations were revised. Ordinary was reduced &c, and low middling remained unchanged, while all the other grades were reduced &c. Yesterday, some depression in Liverpool and a decline of 18 per cent, in gold were met by a renewal of the reports of bad weather at the South, and the close was To-day, the market continued steady, but quiet. For future delivery the market has been quite variable and irregular. Up to near the close of Tuesday's business it was the almost universal opinion that the Senate currency bill would receive the approval of the President. This, with the small receipts at the ports, stronger accounts from Liverpool, and bad weather at the South, gave an upward tendency to the Summer and Autumn months, to which the speculation was largely diverted. But on Tuesday, the weather reports from the South being more favorable, and rumors current that the currency bill had been or would be vetoed, the later months, and especially the next crop, were neglected, and the early months sold at some decline. It was not till after the change on Wednesday that the actual veto became public here, and in conjunction with other adverse influences caused Thursday to open at about the lowest figures of the week, with sales not only for all the remaining months of this crop, but for four months of the next crop! November going at 17½c., and December at 17½@17½c.; the renewal of reports of bad weather at the South caused some recovery of prices in the later transactions. To-day the market opened weak in sympathy with a general depression of speculative feeling, with gold down to 1112; with, however, the recovery of gold subsequently, to 1121. There was a more cheerful feeling apparent, and an active demand sprung up for the early months, resulting in fractional improvement in prices. The small receipts at the ports, and the rapid reduction of stocks on hand, were also elements of strength. After 'change futures were quite irregular, with considerable activity at 16 25-32@16 13-16c for April, 16 27-32 @167c for May, 178c for June, 17 27-32c for July, 18 3-32@181c for August. The total sales for forward delivery for the week are 123,900 bales, including — free on board. For immediate delivery the total sales foot up this week 9,278 bales, including 1,807 for export, 5,787 for consumption, 1,362 for speculation, and 322 in transit. Of the above, 300 bales were to arrive. The following are the closing quotations:

WEATHER REPORTS BY TELEGRAPH.—According to our telegraph reports tc-night, there has been, as yet, no let-up to the succession of rain storms which have, during late weeks, been so prevalent in the Southern States. It will be seen that it is not alone in the overflowed Valley of the Mississippi and its tributary rivers that damage is to be feared on this account. And yet, it is not of course impossible that floods should subside and rains cease in time to get in the full proportion of cotton, but the condition at present is almost everywhere discouraging to the planters. Close along the Atlantic Coast appears to be the only exception, though our Galveston telegram says that the reports of damage from that State are greatly exaggerated. Our Galveston correspondent adds that it has been too cold in Texas and rained too much for planting and early growing; but the crops are doing tolerably well, with good prospects if the rains only cease for a while; recent fosts did no harm. It has rained on four days this week at Galveston, but rainfall has reached only twenty-one hundredths of inch. At New Orleans it has rained more than half the week. It has rained for five days at Shreveport, the rainfall reaching three inches and nine-hundredths: complaint is made of too much rain and that much damage is being done. At Memphis it has rained on three days, the rainfall being two inches and fortyeight hundredths: the West river bottoms are mostly under water; the eastside levees are broken to within thirty miles, and the rise is within ten inches of 1867, and is still rising; it is so cold and wet that but little corn or cotton has been planted, and the latter is rotting in the ground. It has rained at Nashville two heavily and two days slightly, the rainfall being two inches and thirty hundredths: our correspondent adds that another steady rain has just commenced. At Mobile it has rained heavily on five days, the rainfall reaching three inches and eighty-eight hundredths, and much damage is feared; our Selma and M telegrams state that it has rained continuously five days, overflowing the Alabama River and its tributaries, the rainfall reaching five inches and fifty-three hundredths at Selma, and two inches and eighty-eight hundredths at Montgomery. At Columbus it has rained two days constantly and two days it has been showery. It has rained at Atlanta two days constantly and been showery four days, the rainfall reaching five inches and thirty-seven hundredths. At Macon it has rained three days severely. At Savannah it has been warm and dry all the week. They had some rain at Charleston early in the week, but the latter part of the week has been clear and pleasant, and on the whole has been very favorable for planting, which is proceeding briskly. At Augusta it has rained on three days light, showery, the rest of the week being cloudy. The thermometer at Galveston has averaged 67, Memphis 56, Nashville 57, Shreveport 58, Mobile 69, Selma 65, Montgomery and Atlanta 65, Savannah 70, Macon 71, Colum-

EXPENSIVE COTTON RAISING.—The good old Book tells us that "the destruction of the poor is their poverty." Never was this truth more forcibly illustrated than in the history of the Southern planter since the war. A case in point is before us now. We are not at liberty to give either the names or the place, but we will vouch for the accuracy of the incident. The planter in ques-

tion called upon his Factor for an advance, but the present condition of the money market in that neighborhood, and the uncertainties surrounding the future are such, that the Factor was unable to respond, and even refused to "accept" for the planter, although he had paid up every dollar he owed for last year, and was esteemed a man of sterling integrity. Thus repelled, we next discover our poor applicant—knowing he had many hungry mouths to fill—in search of a "grocery dealer,"—his last hope: one who would be induced to furnish him with the bacon needed by his family. When our informer met him he had at length obtained the accommodation needed, but what terms! Bacon at that point is worth 10c. per lb. cash; this planter is to have it billed to him at 121c., and to the account thus rendered nineteen per cent. interest is to be added, and a note given due Nov. 1 (about six months hence), secured by mortgage and crop lien. As we make it up this Southern farmer has satisfied the hunger of his family by paying interest at the rate of about 85 per cent. Surely, the destruction of the poor is their poverty!

Nor is this an isolated case; it is the result, which is quite general, of going into debt for mules, and tools and food, paying seventy dollars a ton with exhorbitant interest for manure, while wasting domestic fertilizers, and all for the purpose of cultivating one hundred acres of land, where, if he had cultivated only ten, thoroughly and economically, he would more likely than not have secured nearly as much produce, and certainly have realized a net profit instead of a loss. One would feel like scolding at such improvidence, if it were not that one's sympathy was thoroughly aroused.

HELP FOR LOUISIANA AND THE MISSISSIPPI LEVEES.—We would call the attention of our readers to the article on this subject in our editorial columns.

BOMBAY SHIPMENTS.—According to our cable despatch received to day, there have been 66,000 bales shipped from Bombay to Great Britain the past week and 26,000 bales to the Continent, while the receipts at Bombay during the same time have been 92,000 bales. The movement since the 1st of January is as follows. These are the figures of W. Nicol & Co., of Bombay, and are brought down to Thursday, April 23:

	-Shipme	nts this	week-	Shipm	ents since	e Jan. 1-	Rec	eipts
	Great	Con-		Great	Con-		This	Since
	Britain.	tinent.	Total.	Britain.	tinent.	Total.	week.	Jan. 1.
1874	66,600	26,000	92,000	340,000	201,000	541.000	92,000	752,000
	29,000	1,000	30,000	320,000	105,000	425,000	68,000	606,000
1872	40,000	9,000	49,000	365,000	168,000	533,000	85,000	584,000

From the foregoing it would appear that compared with last year there is an *increase* of 62,000 bales this year in the week's shipments from Bombay to Europe, and that the total movement since Jan. 1 show an *increase* in shipments of 116,000 bales compared with the corresponding period of 1873.

GUNNY BAGS, BAGGING, ETC.—There have been no transactions in bags the past week, but at the close there is some inquiry, and several hundred bales could probably be placed at 12c. cash, while holders are firm at 12½c. for 440s. Domestic cloth has been quiet, only a light jobbing demand is reported from the South, and as usual at this season of the year stocks are accumulating. There was a sale reported of 1,000 rolls on private terms, but probably at not more than 12c. cash. We quote 12@12½c, cash and time. Native cloth may be quoted at 9½@10c., with a sale of 250 bales at 9½c. cash; there are buyers at the close bidding 9c. cash, without business. Borneo quoted at 12½c cash, and 12½c time; nothing doing. Jute butts have met with a fair consumptive demand from bagging and paper manufacturers, and the bulk of the cargo of the British Nation has been sold. We note 3,500 bales at 2½@2½c.; 500 bales from store at 2½c.; sixty days, and 300 bales extra quality also from store at 2½c. time.

VISIBLE SUPPLY OF COTTON AS MADE UP BY CABLE AND TELE-GRAPH.—Below we give our table of visible supply, as made up by cable and telegraph to night. The continental stocks are the figures of last Saturday, but the totals for Great Britain and the afloat for the Continent are this week's returns, and consequently brought down to Thursday evening; hence to make the totals the complete figures for to night (April 24), we add the item of exports from the United States, including in it the exports of Friday only.

Total, all	12,259	21,222	99,509	15,235	22,662	108,374					

The above totals show that the old interior stocks have decreased during the week 6,497 bales, and are to-night 9,832 bales less than at the same period last year. The receipts have been 2,727 bales less than the same week last year.

The exports of cotton this week from New York show an increase as compared with last week, the total reaching 13,586 bales, against 4.791 bales last week. Below we give our usual table showing the exports of cotton from New York and their direction for each of the last four weeks; also the total exports, and direction since Sept. 1, 1873; and in the last column the total for the same period of previous year.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per latest mail returns, have reached 85,345 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in THE CHRON-ICLE last Friday, except Galveston, and the figures for that port are the exports for two weeks back. With regard to New York, we include the manifests of all vessels cleared up to Wednesday night of this week:

Included in the above totals are from New York 453 bales to Bremen; from New Orleans 1,207 bales to Hamburg, 1,213 bales to Cronstadt, 1,000 bales to Christiana, and 49 bales to Vera Cruz; from Savannah 1,366 bales to Malmo; from Texas 1,600 bales to Fleetwood, 475 bales to Bremen, and 1,330 to Gefle; from Baltimore 377 bales to Bremen.

Below we give all news received, during the week, of disasters to vessels carrying cotton from United States ports:

AMERIQUE, str. (formerly the Imperatrice Eugenie, French, 4,570 tons), Capt Rousseau, from New York April 4 for Havre, was abandoned at 5 P. M. on the 14th off Ushant, supposed in a sinking condition, she having shipped several seas during a gale, the passengers and crew going on board three vessels then in company. On the 15th she was fallen in with in lat. 47,40, and boarded by the English steamer Spray, from Newport for Gibraltar, when from 6 to 8 feet of water was found in her engine room. stokehole and bunkers, the water entering by two deadlights, which were burst and inefficiently stuffed with bedding; the other compartments were dry—spars and steering gear intact. She was taken in tow, and with assistance from str. F. T. Barry she was got into Falmouth on the 18th, the water in the engine room compartment having only gained two feet. When being towed to a berth she grounded on the 20th and remained.

ATLAS, (Br.) str., from Boston for Liverpool, which arrived at Queenstown at 11 P. M. April 14, experienced a hurricane 12th and 13th, and was hove to 16 hours. One of her officers and a seaman were washed overboard.

ILLINOIS, which sailed from Philadelphia April 6 for Liverpool, ran into a tow of canal boats below the city, and sunk four of them. The steamer was

not damaged, and went to sea from Lewes at 6 P. M.
OHIO (G r.), str., Von Emster. from New York, which put into Falmouth, E.,
April 8, repaired damage to machinery, which was slight, and arrived at

Teniers (Br.), str., at Liverpool April 5 from New York, was struck by a heavy sea on April 2 in lat. 49 N., lon. 16 W., and had port bulwarks carried away, and cabin skylight and boat stove.

ABBY RYERSON, ship, (1,119 tons, of Yarmouth, N.S.). Dunkerton, from Mobile Feb. 10 for Reval, with 3,140 bales cotton, was stranded April 17 in a N.W. gale, near Helsingfors; crew saved.

AILSA (Br.), ship, at New Orleans, which was filled with water and partly sunk March 13 to put out a fire in her cargo of cotton, broke loose from her moorings April 20, keeled over and sank in sixty feet of water. She is now reported a total loss.

ELIZA OULTON (Br.), ship, O'Brien, from Savannah for Malmo, which was stranded at Nyhamn, and afterwards got off, arrived at Malmo, March 26, in tow. In order to float she landed near Nyhamn about 1,300 bales of

in tow. In order to float she landed near Nyhamn about 1,300 bales of cotton, of which quantity 600 bales were dry and the remainder wet. She was discharging the remainder of her cargo in a wet condition 27th. The vessel was making a great quantity of water.

ROBERT DIXON, ship (new), Smithwick, from Savannah at Liverpool April 5. via Fayal, put into the latter port March 13, leaking badly, and reported Feb. 27 in a heavy gale, part of the steering apparatus broke, the ship broached to; a heavy sea boarded her, sweeping off four men, one of whom was lost; and the rudder, before it could be secured, as well as the sea, started some of the wood ends about the stern post.

Almira Goudy (Br.), bark, from Baltimore for Bremerhaven, wrecked at Terschelling, was found drifting in the Wester Ems on the 19th March, but was taken in tow by a tug, and again put ashore.

EULALIA (Sp.), bark, Arizubleta, from New Orleans, which arrived at San Sebastian and discharged, was totally wrecked at the latter port prior to April 19.

to April 19.

FLORRI M. HURLBERT, bark, from Galveston arrived at Liverpool, while being docked at Canning Dock March 30, struck the pierhead and carried away her starboard fore and main chain plates.

BREADSTUFFS.

FRIDAY P. M., April 24, 1874.

Flour has taken a steady downward turn in prices, during the past few days, and that, too, without promoting any improvement in the volume of business. Indeed, as prices declined buyers have the more persistently held off, waiting for the market to "touch bottom." A decline in wheat was the primary cause of the depression in flour; for the demand had been about equal to the supply, and stocks were moderate. At the same time foreign accounts were not especially adverse, and shippers were favored by lower ocean freights. But the movement at the West had increased, and there was a disposition to avoid any accumulation of stocks, especially as the money market became less easy and regular. Yesterday, the decline in gold and the discouragement of speculation, together with the prevalence of a rain storm, restricted business within narrow limits and completely unsettled prices. A good Western trade brand sold for export as low as \$6 60. To-day the same brand sold at \$6 55, and there was a fair business in common and medium shipping extras at \$6 10@\$6 25, a decline of about 40@50c. for the week.

The wheat market has also experienced a sharp decline, mainly through the withdrawal of demand, for supplies have not increased. But the large stocks at the West, and the probability that they must soon come upon this market, have induced holders to press sales. Early in the week No. 1 Spring sold at \$1 65@1 68, No. 2 Wilwaukee at \$1 62 on the spot, and \$1 58 for May delivery; later transactions in No. 2 Milwaukee were at \$1 58 afloat and \$1 55 to arrive in May, but yesterday there was a decline to \$1 55 on the spot, with sales of No. 2 Chicago at \$1 50@\$1 52. Winter Wheats were fairly active early in the week, but latterly have been dull and nominal. The receipts of wheat at the principal markets have continued on a liberal scale, being for last week nearly three-fold more than for the corresponding week last year. The Commissioner of Agriculture at Washington has published a report, giving a very satisfactory account of the prospects for the next crop of Winter Wheat on the Pacific coast, as well as in the Atlantic States. To-day, the market was irregular, with sales of No. 2 Chicago at \$1 50, do. Milwaukee at \$1 56@\$1 58, and No. 1 Spring \$1 59@\$1 60.

Indian Corn has latterly declined 3@4c. per bush. The demand has been good both for export and home use, but supplies have been liberal and receivers anxious to close out consignments. promptly. Stocks are nowhere large, but the peculiar fact remains that notwithstanding the reduced growth of Corn last | granary at the principal points of accumulation at lake and

year, the receipts at the western markets have thus far in April exceeded those of the corresponding period last year; and much of the Corn now being marketed is fresh shelled of the crop of the year before (1872). To-day, there was a further decline of 1c., mixed closing at 84@86c. for fair to prime, new and old.

Rye has met with a fair demand, but, without much business prices remain nominally as last quoted. Barley has been unsettled; about 30,000 bush. slightly damaged Hungarian were closed out by auction at \$1 35. Oats have been variable. There have been large sales of No. 2 Chicago in store at 611c., but the market has improved, with sales of parcels afloat at 631@64c. for prime mixed and 66@67c. for prime white. To-day the marke was very firm.

The following are the closing quotations:

THE DRY GOODS TRADE.

FRIDAY, P. M., April 24, 1874.

Trade continues dull despite the steady progress of the season, and the fact that summer is close upon us. The weather, it is true, has been unseasonable, but there is no doubt that the dulness of the retail trade, or at least the backwardness of that branch, is due to other causes than the late spring. The aggregate retail distribution is far below that of the average spring season, and however brisk the late trade may be there is very little probability of enough business being done to compensate for the loss of trade thus far. Now that there is a more settled feeling in regard to the currency question, the trade will, perhaps, operate with more confidence, but values are so far unsettled as to prevent buyers from making extensive purchases beyond their actual wants. While raw cotton continues strong uneasy feeling the market for in an goods, and prices are irregular on many prominent lines. The future course of the market seems, just now, to be wrapped in doubt, and there are merchants in the trade who favor the opinion that there will be an advance, if any change is made in values, while others are equally confident that a decline is inevitable. For the next two months there is not likely to be much regularity in prices, they being subject to fluctuations either way as the market is affected by the relative positions of supply and demand. With the opening of the fall trade, however, it is fair to look for a firm, if not an improving market, since the outlook is favorable for a range of values on the raw material relatively above the present price of goods. At the same time it is not rafe to prodict the future of values since so much depends upon the condition of the general trade at the opening of the fall season.

Deviestic Cotton Goods.—There has been a moderate sorting up trade in progress during the week; but the movement has not been active in any branch, and the aggregate distribution has heen far from satisfactory. Prices have been rather irregular especially with jobbers, who continue to offer prominent lines of goods at prices below the nominal market quotations for the purpose of attracting business. Agents have revised prices in a few instances, but as the rule, adhere pretty strictly to quotations and on some prominent marks there is rather more firmness There has been a good demand for prints, and choice styles ar well sold up. Lawns and percales also sell well at full prices Colored cottons are in request in small lots, and prices rule steady without notable change.

DOMESTIC WOOLEN GOODS.—There is very little doing in an grade of woolens, and the market is without noteworthy change Fine spring goods are taken in small lots from jobbers, but th tailors have generally supplied their immediate wants, and ar buying now simply to sort up stocks. Clothiers do not take hol of goods, as yet, and from present appearances will be lat buyers. Manufacturers are not producing very heavily as ye but are rather disposed to hold off, until something more deffini has been developed regarding the probable course of the fa trade. The raw material is without notable change.

Foreign Goods.—The imports are very light and the market rules steady, though trade is still quiet. Popular styles of sprin and summer dress fabrics have been distributed to a considerab extent, but there has not been the activity that was anticipate and importers are obliged to place their stocks, in many instances through the auction-houses. Silks are steady but lack No. 6......

seaboard ports, in transit by rail and frozen in in transit on the activity, except in the lower priced grades, for which there is a very fair demand.

> The importations of dry goods at this port for the week ending April 23, 1874, and the corresponding weeks of 1873 and 1872 have been as follows:

ENTERED FOR CONSUMPTION FOR THE WEEK ENDING APRIL 23, 1874.
