This shows that capital, surplus, dividends, and earnings, all reached their maximum two years ago, and have since been declining; looking at the ratio columns, we find all the ratios at their highest in 1869 and their lowest now; that of earnings to accumulated capital declines most significantly, having for two years past been below the ratio of dividends to capital and surplus.

Now, banks have no claim to exemption from their share in the burdens of taxation and dull business; the fact is, however, that the taxes on them are war taxes, left undisturbed while other interests have been relieved. This fact we do not propose to argue, because we have repeatedly done so and because it is of greater practical importance just now to show how the public are concerned in the matter. The tables above presented are a condensed argument on that point. The reduction of capital in case of the Bank of the State of New York was effected during re-organization, and in a few other cases the intent was to adjust the capital account to conform to the situation after sundry losses; but all these cases cover only a small part of the reductions, and we present the schedule distinctly as showing how bank capital has been driven out of business by pressure between an idle money market and an unrelieved war-taxation, the United States on one side and the State on the other. It should be observed, moreover, that among the banks which have thus in part retired their capital, are several of the oldest, largest, strongest and most conservative in the country. At the beginning of 1876, the capital stock of the Clearing House banks was a little over 81 millions; the probability is quite strong that by the end of this year 20 millions will have been scattered—one-fourth of the banking capital of the city driven out of it in three years.

It is elementary to say that the rule of the largest present banking profits is, the maximum of deposits on the minimum of capital, but that conservative banking and the safety of financial interests require, not exactly a practice the reverse of this, but one different from it. As a matter of safety alone, the maintenance of an ample surplus is of the highest consequence to the community; furthermore, this reduction of capital means, among other things, a large reduction in ability to loan. Just now, with money begging for employment, this fact is not appreciated; but times will not always be as now. Borrowers will be active again and lenders the object of earnest quest; meanwhile, there is a strange incomprehension of, or indifference to, the fact that this process of corroding bank capital is really a destruction of our machinery of exchanges. If it is allowed to go to pieces now, because not needed now, to reconstruct it when it is needed will not be easy and speedy. The burned child dreads the fire; capital is always timid, and will not readily return to a business from which it has been driven; it would

stay in bank shares now, if allowed to, but when banking becomes again active other openings for money will compete with banking investments, and extra inducements will be necessary in order to attract capital into banking. We are acting with the same folly in this matter as sailors would show who should slit their sails and throw them overboard because a calm was prevailing and there was no wind to fill them; bank capital and surplus are being undermined just before the crucial test of resumption comes and just as we are beginning to hear the stirrings of a new prosperity which is certain to be realized, and which, we repeat, will require all our banking facilities. It is quite time the senseless habit of abusing banks gave place to an inquiry what the condition of affairs will be when occasion comes to use them.

NON-TAXABILITY OF FOREIGN BOND-HOLDERS.

More than a year ago we reviewed a then recent decision of Judge Blatchford in the United States District Court, upon the question of the right of the United States to tax non-resident aliens upon the interest of bonds of corporations located in this country and owned by them. The bonds in question were sterling bonds, issued by the Erie Railroad prior to 1866 and during 1868, payable in London, and from 1866 to 1869 were held and owned by non-resident aliens; the interest was duly paid on them during this time, and no portion of it was withheld on account of taxation, nor was any return of it ever made to the assessor of internal revenue. The Government made no assessment and no demand for tax until the end of 1872; then a demand for a tax of 5 per cent and for penalties was made, and suit followed thereon. Upon these facts Judge Blatchford held that the corporation ostensibly taxed was really only an agent of the Government in collecting the tax; that Congress can have no greater power than a State legislature has to tax persons and property not within its jurisdiction; hence, that the claim for tax was void as regards all interest paid to foreigners.

The claim made by the Government was founded upon section 122 of the internal revenue act of 1864, as amended by that of 1866, which lays a tax on all dividends, interest or profits, when, where and to whomsoever payable, "including non-residents, whether citizens or aliens;" authorizes corporations to withhold from such payments the amount of the 5 per cent tax; and enacts that a payment made with such deduction shall be a full discharge of the interest obligation, unless there is a contract otherwise. Parts of this act had been previously passed upon by the courts, but the particular point raised here appears not to have been brought before them. And yet, in the case of *Railroad vs. Pennsylvania*, December, 1872, (15 Wallace, 300) a very similar question was decided. That case involved the power of a State to tax bonds held in other States. The State courts had admitted the lack of power to tax beyond jurisdiction, but held that the bonds being issued by a Pennsylvania corporation, the debt was technically located in Pennsylvania. But the United States Supreme Court reversed this, Judge Field, in his opinion, stating that it is a misuse of language to call debts property of the debtors; that the bonds are property only in possession of the holders, not of the obligors, and are beyond State jurisdiction, when the holders of them are. In another case, however, of the *Michigan Central Railroad vs. Slack*, Judge Clark, of the United States Circuit Court,

took a contrary view, holding that interest due is either property of the corporation, and hence taxable as such, or else is the bondholder's property not yet removed beyond the limits of jurisdiction. This difference in interpretation gave to Judge Blatchford's decision its particular interest. We now find that Judge Blatchford's conclusion has been sustained by the United States Supreme Court, Chief Justice Waite having sent on, last Friday, the following decision:

"I fully concur with the learned District Judge in the view he has taken of this case. The tax, for the recovery of which the suit was brought, was a tax upon the owner of the bond and not upon the defendant. It was not a tax in the nature of a tax *in rem* upon the bond itself, but upon the income of the owner of the bond, derived from that particular piece of property. The foreign owner of these bonds was not in any respect subject to the jurisdiction of the United States; neither was this portion of his income. His debtor was, and so was the money of his debtor, but the money of his debtor did not become part of his income until it was paid to him, and in this case the payment was outside of the United States in accordance with the obligations of the contract which he held. The power of the United States to tax is limited to persons, property and business within their jurisdiction, as much as that of a State is limited to the same subjects within its jurisdiction. The judgment of the District Court is affirmed."

Of course it would be absurd to say that any government can tax beyond its jurisdiction, and thus the only question remaining was whether the tax was upon the debtor corporation or upon the foreign bondholder. Congress might perhaps have taxed the corporation itself, by simply enacting that it should pay a tax equal to 5 per cent upon the amount of all interest it had contracted to pay. An enactment thus worded would have plainly suggested an intent to reach the corporation itself, and would have presented a case very unlike the actual one. For it is noticeable that not only did the revenue law omit attempting to avoid the alien bondholder, but expressly aimed a blow at him, saying to corporations just this: Whenever you have to pay \$100 interest to bondholders, whether citizens or aliens, pay the Government \$5, and deduct that if you choose; if you do deduct it, the bondholder must take the \$5, and he shall have no cause of action against you unless you have agreed otherwise with him. The Court now holds that this was idle legislation, being virtually an income tax upon foreigners.

MIXED COMMISSIONS AND ARBITRATION.

Much is expected of the international convention for the codification of the law of nations, to be held at Frankfort, Germany, August 20th. The character of the representatives thus far appointed gives promise of decided interest in their deliberations. No subject, however, can come before the convention, of wider interest than that of Arbitration for the settlement of international disputes. War is no longer a necessity among civilized nations. Had the Berlin Congress met before Russia struck her first blow, there is no reason why the results it has reached might not just as well then have been obtained and enforced.

Our attention, however, has been called to this subject of arbitration, by lately published facts growing out of the settlement our Government made not long ago with Mexico. It is now some years since the Mixed Commission, agreed upon by the Convention of 1868, sat and adjudicated the rival claims for indemnities presented by citizens of the United States on the one hand and citizens of Mexico on the other. As the result of the deliberations of the Commission, \$4,125,622 were awarded to the United States claimants, and \$154,498 were awarded to the Mexicans. The Mexican claim, as originally presented, amounted to \$86,500,000. It is now urged by Mexico that since the adjudication, evi-

dence has come to light showing that some of the American cases which received favorable consideration at the hands of the Commission were pure fabrications, never having any existence in fact. One of these was for the value of 1,914 bales of cotton which, it was alleged, had found their way, unaccounted for, into Mexican territory; for this an indemnity of \$487,870 was allowed. Another was a claim made by a certain mining company, to whom, for alleged losses sustained, was assigned \$683,041 32. Since the final judgment of the Commission, the Mexican Government has paid the instalments, as they fell due, with great punctuality, and expresses its determination and willingness to go on paying at the rate of \$300,000 every year, until the entire indemnity is paid off. It is urged, however, in the cases above mentioned, that, as both claims were fraudulent, the entire indemnity should be lessened by the amount of the sums assigned to each. The matter has been brought before the United States Government.

We have nothing to say as to the justice or injustice of the plea which the Mexican Government has made and is still making in Washington. The evidence is not before us. If good and satisfactory, we have no doubt at all that it will receive attention. We have referred to the matter chiefly because of the opportunity it affords of re-asserting the importance of international arbitration, and of commending the course Mexico is taking. The principle must be admitted, as yet, to be, in a sense, only an experiment. In the making of the experiment this country has taken a large and an active part, and in its success we are, therefore, deeply interested.

This Mexican complaint suggests one of the evils which, if the experiment of arbitration is to succeed, must be carefully guarded against. Arbitration can only prove a success if the decision is regarded as final, and above and beyond appeal. It is the duty of both the parties who agree thus to submit their difficulties, to put the Court in possession of all the evidence, and refuse to go before it until they are satisfied with the evidence which they have collected. But when the decision has been rendered, the case must be regarded as settled. In the interests of fair play it is to be taken for granted that all has been done that could be done; and disappointment can not be found incompatible with due submission and full obedience to the decrees of the Court; nor should it find any encouragement to seek a reopening of the case. Let the decision be final, and let it be so understood. Only in this way will the Court of Arbitration be able to accomplish all that is expected of it. This Mexican complaint would therefore be received with disfavor, if urged as a right, for it seeks to reopen a case which has been settled. For this reason, as well as for others we mentioned at the time, we disapproved of the conduct of Congress when it threw obstacles in the way of the payment of the Halifax award. We do not mean to say that in view of fresh light it is inadmissible to make known the facts and to allow them to speak for themselves as Mexico has done. She promptly pays the award, but protests against its injustice as subsequently developed. Every attempt made to resist a decision, or to force a reopening and a reconsideration, weakens the principle. But if there should, in any instance, be a gross and palpable wrong done, the Government benefited will desire, in justice to itself, to grant relief; better, however, is it that the wrong should remain than that the party suffering it should refuse to accept the result.

RAILROAD EARNINGS IN JULY, AND FROM JANUARY 1 TO JULY 31.

The reports of earnings for July compare exceedingly well with the same month of last year, but it is to be remembered that the great railroad strikes occurred in the latter part of July, 1877. The comparison is, therefore, not a fair one, as in the fourth week of the month business was almost entirely stopped by the strikes on many of the prominent roads, and on all of them was more or less checked by the extended influence of the riots and disorder.

The two principal points in regard to railroad traffic of late have been the continuous reports of injury to the grain crop in northwestern states, and the progress of harmony between the trunk line managers, attended by a material advance in the rates for East-bound freight. There appears to be a settled determination on the part of the trunk line officers, led by Mr. Vanderbilt, to avoid further disagreements and to place business upon a basis which shall give fair compensation to all. The only important differences yet unadjusted are on the question of live stock rates from St. Louis, and these will probably be settled at a conference to be shortly held at Saratoga.

As to the actual damage done to the wheat crop, there is no possibility of getting at the truth—and this, from the very nature of the case, is more difficult as to the probable loss of tonnage than as to the deterioration in the quality of the grain. There may be great injury to a crop, resulting almost entirely in a lowering of the quality of the grain, but which does not go so far as to lead farmers to abandon their standing fields and never attempt to thresh. On the other hand, it must be conceded that if grain is very badly damaged, it would be fed out to stock, or if sent to market, could only be sent at very low prices for transportation. The public, however, are inclined to act upon the general experience that in nine cases out of ten reports of immense damage to a crop, by a week or ten days of rainy weather, are greatly exaggerated. This is the case in regard to cotton, and also as to wheat or corn; and the circumstances are not at all analogous to those existing where the reports come for a long period of time, and relate to continuous bad weather throughout a great part of the season. The reports of damage to crops are necessarily all estimates; the common statements of one-fourth or one-third decrease in a particular crop is simply a guess that such will be the result. A definite compilation of the acreage of wheat planted in Minnesota, this year as compared with last, has been made by Mr. Jacobson, the Assistant Secretary of State, and is about the only information in the realm of actual statistics which has lately come to our notice, on the important question of the probable yield of grain in that section. The returns are made by counties, which he places in three separate groups, namely: old counties, new counties and grasshopper counties. The gain in acreage is 26 per cent in the old counties, 34 per cent in the new counties, and 176 per cent in the grasshopper counties. The following is a recapitulation of the acreage of wheat planted in 1877 and 1878:

	1877.	1878.	Increased acreage.
Thirty-four old counties.....acres.	823,101	1,048,497	215,393
Seventeen new counties....."	126,126	176,254	50,128
Seven grasshopper counties....."	27,317	75,583	48,266
Total acres	986,544	1,300,334	313,790

Among the irregular reports of earnings not in shape to be placed in the tables below, we have the following for the first three months of the fiscal year of Chicago & Rock Island:

April.....	1877.	1878.
May.....	\$615,177	\$710,028
June.....	574,172	762,937
The gain over last year for the first two months in net earnings is reported at \$370,000, June not being made up.	136,231	568,217

The Kansas Pacific earnings, expenses and net earnings, as made up by mortgage divisions, for the six months ending June 30, 1878, are as follows:

FIRST DIVISION (FEBRUARY AND AUGUST BONDS.)	
Gross earnings	\$660,993
Operating expenses.....	324,757
Net earnings.....	\$336,235

SECOND DIVISION (JUNE AND DECEMBER BONDS.)	
Gross earnings	\$443,641
Operating expenses.....	338,470
Net earnings.....	\$105,171

THIRD DIVISION (DENVER EXTENSION BONDS.)	
Gross earnings	\$244,635
Operating expenses.....	334,764
Deficit.....	\$90,109

* Three weeks only of July in each year.

† From January 1 to July 27.

‡ From January 1 to July 26.

The earnings of the Springfield Division of the Illinois Central Railroad are not included in the figures given in the tables above. They were \$23,106 in July 1878, and \$111,477 from January 1 to July 31, 1878.

Earnings of the Dubuque & Sioux City Railroad during July, and for the seven months ending July 31, were as follows; these figures are included in those of the Iowa leased lines given above: July, \$66,321 in 1878 and \$57,097 in 1877; January 1 to July 31, \$552,571 in 1878 and \$421,841 in 1877.

The following companies have but recently reported their earnings for June.

GROSS EARNINGS, EXPENSES AND NET EARNINGS.

The statement below gives the gross earnings, operating expenses and net earnings for the month of June, and from January 1 to June 30, of all the roads that will furnish statements for publication:

	June. 1878.	June. 1877.	Jan. 1 to June 30. 1878.	Jan. 1 to June 30. 1877.
Atlantic Mississippi & Ohio—				
Gross earnings.....	\$121,094	\$128,039	\$761,810	\$736,118
Expenses, incl. extraordin'y.	91,977	105,933	573,522	577,120
Net earnings.....	\$28,117	\$22,076	\$188,288	\$178,998
Burl. Cedar Rapids & North.—				
Gross earnings.....	\$101,015	\$69,357	\$73,531	\$423,649
Operating expenses.....	83,864	58,768	55,548	341,693
Net earnings.....	\$17,151	\$10,589	\$233,983	\$86,956
Chicago Burlington & Quincy—				
Gross earnings.....	\$397,030	\$957,734	\$6,417,791	\$5,472,048
Expenses.....	63,692	567,376	3,751,631	3,296,122
Net earnings.....	\$263,393	\$390,353	\$2,666,160	\$2,175,926
Clev. Mt. Ver. & Del. and Brchs—				
Gross earnings.....	\$29,430	\$36,416	\$180,261	\$185,830

Pittsburg Titusville & Buffalo.—This railroad company gives notice that the present earnings of the company do not justify the payment of the interest falling due on the consolidated 7 per cent mortgage bonds of the company on 1st August, nor those falling due February 1, 1879. They will issue scrip for the same, bearing interest of 6 per cent, paying the same semi-annually.

[From our own correspondent.]

LONDON, Saturday, July 27, 1878.

The money market has been firm in tone, but there has been no increase in the demand for money for mercantile purposes. The Bank return published this week shows a decrease under the head of "other securities" of £1,456,432, and, consequently, the Bank of England must have experienced a considerably diminished inquiry for accommodation. Capitalists believe, however, that at some future date, probably in the early autumn, the requirements of commerce will be much larger; and they now desire to lend only for short periods, so as to have their money well under control. Their belief in a better money market may be gathered from the fact that the banks and discount houses have increased their allowance of interest for deposits to the extent of $\frac{1}{2}$ per cent; but there are many persons who are of opinion that a dearer money market is not altogether so certain. There can scarcely be, however, any doubt that the Bank is not likely to acquire that strength which is peculiar to the summer months. The proportion of reserve to liabilities is now 37.41 per cent, which is ten per cent below that of last year. Gold continues to be taken in moderate quantities for exportation, and there seems to be but little hope of improvement from external sources. The probabilities are that the autumn season will commence with a weak Bank account, and should there be a genuine revival of commerce and of financial enterprise, money must certainly rise in price. The tendency to improvement has already had its effect upon the Stock Exchange. Speculation in securities has for some weeks past been restricted, which is due, in a great measure, to the fact that bankers are affording fewer facilities. It will, however, be a better thing for the country for its surplus money to be employed in trade; but although the Eastern difficulty has been arranged, merchants are still slow to depart from their policy of cautious trading. This week a portion of the French and Italian press has been writing fiercely about the Treaty of Berlin, and has been calling attention to the fact that whereas Russia, England and Austria have been gainers, neither France nor Italy has been granted anything. M. Gambetta's speech has had, however, a good effect. Prosperous as France seems to be, there are yet sources of trouble in that country. Taxation is heavy, owing to the serious losses of the late war with Germany, and repose is necessary in order to lighten it. Italy seems somewhat to be pitied. Her marvellous successes have, however, fostered a too ambitious spirit, and it would be better for her future if, instead of spending more than she can afford in building large ironclads and purchasing heavy guns, she improved her harbors, and freed the country of its banditti. Each nation in Europe has now plenty to do either in the way of reform or restoration without devoting its attention and its means to armaments. During the last twelve years, heavy sacrifices have been made, and it will take many years of peace to effect a complete re-establishment. Under all circumstances, we must not perhaps expect a rapid revival of trade. The cautious policy which has for so long been adopted, has not been without its advantages; but it has been very hurtful to those who require much credit or discount accommodation. The weather is still favorable for the growing crops, the price of money—though its future is uncertain—is still low, and goods are cheap. There should be, therefore, an improved autumn trade.

The supply of mercantile paper is still very limited, but the money market is still firm in tone, and very little accommodation is obtainable under 3 per cent. Since the rates have improved here, it is understood that there has been more demand for bills on French account. The following are the present quotations for money:

	Per cent.	Open-market rates:	Per cent.
Bank rate.....	3½	4 months' bank bills.....	3 @ 3½
Open-market rates:		6 months' bank bills.....	3 @ 3½
30 and 60 days' bills.....	3 @ 3½	4 and 6 months' trade bills.....	3 @ 4
3 months' bills.....	3 @ 3½		

The rates of interest allowed by the joint-stock banks and discount houses for deposits are subjoined:

	Per cent.
Joint-stock banks.....	2½
Discount houses at call.....	2½
Discount houses with 7 days' notice.....	2½
Discount houses with 14 days' notice.....	2½

Annexed is a statement showing the present position of the Bank of England, the Bank rate of discount, the price of Consols, the average quotation for English wheat, the price of Middling Upland cotton, of No. 40's Mule twist, fair second quality, and the Bankers' Clearing House return, compared with the four previous years:

	1874.	1875.	1876.	1877.	1878.

The imports of gold during the week have been very limited and, owing to an increased export demand, supplies have been daily taken from the Bank. It is stated that the export inquiry is likely to increase. The silver market has been rather firmer, and fine bars are now quoted at 52 11-16d. per ounce. Mexican dollars have realized 52d. per ounce.

The market for Indian exchange has been somewhat steadier, but there has been no material alteration in the quotations. The council bills on Wednesday were disposed of at 1s. 8½d. the rupee.

On the Stock Exchange, business has been kept in check by the increasing firmness of the money market. Throughout the week the tone has been rather dull, and prices have been steadily declining. Several new companies, for home and colonial purposes, have been introduced to public notice during the week, and it is expected that the introduction of the new Russian loan will not be long delayed. It is quite possible that the introduction of new loans and new companies will be rapid, as there is an impression that after so long a period of inaction, there are several which promoters desire to bring forward. Some difficulty is likely, however, to be experienced in floating new undertakings.

Annexed are the closing prices of Consols and the principal American securities at to-day's market, compared with those of Saturday last:

The weather has continued favorable for the growing crops. After several days of great heat, some rain has fallen; but it has not been sufficient to interrupt the work of harvest, which is steadily becoming general. The crop of wheat is well spoken of, and it is believed that the quality will be good. The fall of rain has been of material benefit to the root crops, and now that the hay crop has, in most localities, been gathered in, it has been advantageous to the pastures. Prices of agricultural produce may be low, but farmers will have larger supplies to dispose of than they have had for several seasons past.

During the week there has been a slight tendency to recovery in the prices of wheat. The quotations have now fallen to a low point, the average value of home-grown produce being only 44s. 5d. per quarter. The rise, however, is very slow, and is due chiefly to a belief that so heavy a reduction as some 25s. per quarter from the highest point of last year has not been justified. Bread is now as cheap as any reasonable person can desire; but there seems to be no chance of an increase in the price. Wheat may vary in price a few shillings per quarter in either direction, but cheap bread during the coming season is almost assured. It would be an excellent thing for the country if the same could be said with regard to meat, which is now the most formidable item of domestic expenditure.

During the week ended July 20, the sales of home-grown wheat in the 150 principal markets of England and Wales amounted to 22,302 quarters, against 21,781 quarters last year; and it is estimated that in the whole Kingdom they were 89,200 quarters, against 87,200 quarters in 1877. Since harvest, the sales in the 150 principal markets have been 1,820,842 quarters, against 1,920,951 quarters; and it is estimated that in the whole Kingdom they have been 7,283,500 quarters, against 7,683,700 quarters in the corresponding period of last season. Without reckoning the supply in granary at the commencement of the season, it is estimated that the following quantities of wheat and flour have been placed upon the British markets since harvest:

	1877-8.	1876-7.	1875-6.	1874-5.
Imports of wheat.....cwt.	50,643,127	39,094,729	48,507,780	37,461,772

Commercial and Miscellaneous News.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports last week showed a decrease in dry goods and an increase in general merchandise. The total imports were \$5,967,036 against \$4,980,659 the preceding week and \$5,940,340 two weeks previous. The exports for the week ended Aug. 6, amounted to \$6,241,967 against \$7,460,863 last week and \$7,018,127 the previous week. The following are the imports at New York for week ending (for dry goods) Aug. 1 and for the week ending (for general merchandise) Aug. 2:

FOREIGN IMPORTS AT NEW YORK FOR THE WEEK.

	1875.	1876.	1877.	1878.
Dry goods.....	\$2,022,635	\$1,644,060	\$2,151,553	\$1,409,818
General merchandise.....	2,753,657	2,841,653	4,714,314	4,557,218
Total for the week.....	\$4,776,292	\$4,485,713	\$6,865,867	\$5,967,036
Previously reported.....	203,934,515	175,254,189	196,545,226	163,758,872
Since Jan. 1.....	\$211,690,327	\$179,753,912	\$202,474,093	\$169,735,908

In our report of the dry goods trade will be found the imports of dry goods for one week later.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Aug. 6:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1875.	1876.	1877.	1878.
For the week.....	\$4,325,682	\$5,427,339	\$5,025,231	\$6,241,967

Balance, Aug. 9.....		122,612,811 25	48,213,324 65		

From the Comptroller of the Currency, Hon. John Jay Knox, we have the following statement of the currency movements and Treasury balances for three months past:

U.S. Bonds held as security from Nat. B'ks.—	May 31.	June 31.	July 31.
Bonds for circulation deposited.....	\$4,235,000	\$3,267,700	\$4,390,400
Bonds for circulation withdrawn.....	2,780,400	2,787,750	5,055,900
Total held for circulation.....	349,166,450	349,546,400	348,880,900
Bonds held as security for deposits.....	13,868,000	13,858,000	13,906,400

Legal Tender Notes.—

Deposited in Treasury under act of June 20, 1874.....	27,000	544,700	758,800
Total now on deposit, including liquidating banks.....	11,550,303	11,491,732	10,909,247
Retired under act of January 14, 1875.....			
Total retired under that act to date.....	35,318,984	35,318,984	35,318,984
Total amount of greenbacks outstanding.....	346,631,016	346,681,016	346,631,016

National Bank Circulation.—

New circulation issued.....	2,007,620	1,407,450	844,910
Circulation retired.....	1,140,121	877,271	1,435,685
Total circulation outstanding—Currency.....	322,535,965	323,082,164	322,474,439
Gold.....	1,432,120	1,432,120	1,432,120
Notes received for redemption from—			
New York.....	10,757,000	9,824,000	9,572,000
Boston.....	5,122,000	7,095,000	6,691,000
Philadelphia.....	1,276,000	1,119,000	1,123,000
Cincinnati.....			
Chicago.....			
Miscellaneous.....	6,922,000	5,578,000	5,490,000
Total.....	\$24,077,000	\$23,616,000	\$22,786,000

Treasury Movements.—

Balance in Treasury—Coin.....	189,708,021	197,415,133	207,007,832
Currency.....	3,694,748	2,653,479	1,108,317
Currency held for redemption of fractional currency.....	10,000,000	10,000,000	10,000,000
Coin and silver certificates outstanding.....	52,823,640	45,829,600	45,631,030

The following is the statement of the Comptroller, showing the issue and retirement of national bank notes and legal tender notes, under the Acts of June 20, 1874, and January 14, 1875, to August 1, 1878:

National bank notes outstanding when Act of June 20, 1874, was passed.....	\$349,894,182
National bank notes issued from June 20, 1874, to Jan. 14, 1875.....	\$4,734,500
National bank notes redeemed and retired between same dates.....	2,767,232
National bank notes increase from June 20, 1874, to Jan. 14, 1875.....	1,967,263
National bank notes outstanding Jan. 14, 1875.....	\$351,861,450
National bank notes redeemed and retired from Jan. 14, 1875, to date.....	\$68,404,303
National bank notes surrendered between same dates.....	9,384,418
Total redeemed and surrendered.....	\$77,788,721
National bank notes issued between same dates.....	48,401,710
Decrease from Jan. 14, 1875, to date.....	29,387,011
National bank notes outstanding at date.....	\$322,474,439
Greenbacks on deposit in the Treasury June 20, 1874, to retire notes of insolvent and liquidating banks.....	\$3,813,575
Greenbacks deposited from June 20, 1874, to date, to retire national bank notes.....	78,267,107
Total deposits.....	\$82,080,782
Circulation redeemed by Treasurer between same dates without re-issue.....	71,171,535
Greenbacks on deposit at date.....	\$10,909,247
Greenbacks retired under act of January 14, 1875.....	\$35,318,984
Greenbacks outstanding at date.....	346,631,016

St. Louis Alton & Terre Haute.—A circular has been issued by the president of this company, as follows:

This company regrets to inform the holders of coupons due August 1, on its second mortgage preferred bonds, that, owing to the refusal of the Indianapolis & St. Louis Railroad Company (the lessee of its main line) to pay the rental due, it is unable to meet those coupons promptly.

The rental due from the lessees up to this day amounts to over \$150,000, and

this company is now taking steps to enforce its rights against its lessees and their guarantors. These latter are well able to meet their obligations, and the company is advised that its rights as against them are well defined. It is believed that the delay in the payment of the coupons referred to will not be of long duration.

(Signed) W. BAYARD CUTTING, President.

The amount of rental defaulted by the guaranteeing roads is made up of two notes of \$37,500 each, which have been protested, and the rental for the months of June and July, \$75,000, which the roads have refused to pay. The interest due on the August coupons of the Terre Haute Company amounts to \$49,000.

Wheat in Minnesota.—Mr. Jacobson, the Assistant Secretary of the State of Minnesota, has compiled from the township assessors' statistical returns a comparative statement of the acreage of wheat in 1878 and 1877. The following is the official statement of the acreage of wheat planted in the counties of Minnesota through which the Winona & St. Peter Branch of the Chicago & Northwestern road runs, and the increase in acres and per cent:

	1877.	1878.	Increase in acres.	Increase per cent.
Winona.....	68,613	77,964	9,351	14 6
Olmsted.....	86,281	103,128	21,847	24 9
Dodge.....	27,267	32,777	5,510	20 2
Steele.....	9,750	12,159	2,409	24 6
Waseca.....	43,551	51,948	8,397	19 1
Blue Earth.....	35,932	74,752	38,820	108

Nicollet.....	3,226	27,058	23,832	738
Brown.....	1,132	3,084	1,952	172
Redwood.....	2,417	7,111	4,694	190
Lyons.....	3,086	5,105	2,019	65 4
Yellow Medicine.....	11,400	14,774	3,374	29 5
Total.....	290,949	422,913	123,024	41

—Messrs. Fisk & Hatch have just issued the fifth edition of their pamphlet, entitled "Memoranda Concerning Government Bonds." This little book is full of valuable information to investors in Government securities, and it has been widely sought for, as is shown by the successive editions issued by the firm. The question now eagerly asked by holders of the old issues of Government bonds is in regard to an exchange of their bonds, and what issues are best to purchase in exchange. On these points, the present pamphlet says:

"It is not improbable that by the time the 6 per cent bonds have all been redeemed, if not before, the revival of business and returning confidence in the stability and productiveness of the legitimate enterprises of commerce, manufactures, transportation and building may once more attract the now timid and idle capital of the country into these channels to such an extent that it will be impracticable for the Government to borrow money to any considerable amount, at a lower rate of interest than 5 per cent.

"We think, therefore, that the holders of 5 per cent bonds may safely calculate upon the continuance of their investment undisturbed for a long term of years; and that, in estimating the relative desirability of the various issues of Government bonds for new purchasers, investors may assume that neither the 5s of 1881 nor the 10-40s are likely to be redeemed in less than from ten to fifteen years. From all the indications now available as guides to judgment or conjecture, we would class the several issues, for desirability of investment, at their relative prices at this date as follows, viz.:

First:	5s of 1881.
Second:	6s of 1881. Second and third series.
Third:	10-40s.
Fourth:	4½ per cent bonds.
Fifth:	4 per cent bonds.
Sixth:	5-20s of 1867.
	5-20s of 1868.

—A circular has been addressed to the stockholders of the Bank of New York, proposing to reduce the capital of the bank from three million to two million dollars, in order to obtain relief from taxation, which amounted last year to \$153,000, including State and national taxes. This bank is doing a large business in Government bonds, and has taken \$1,500,000 new 4 per cents this week.

—The Ontario Silver Mining Company has declared its regular monthly dividend, No. 31, and an extra dividend, No. 32, for July, aggregating \$100,000, or \$1 per share, payable 15th inst.

BANKING AND FINANCIAL.

What Shall We Do With Our Five-Twenties.

The rapid calling in of the Five-Twenties of 1865 by the Government, and the fact that the Five-Twenties of 1867, of which there are over three hundred millions outstanding in the hands of investors, come next in order, is causing a general inquiry among the holders of these bonds as to which issue of Government securities they shall select in making an exchange while they can realize the present premium.

The desirable bonds for investment are the "Fours," "Four-and-a-halves," "Fives," "Ten-Forties," "Sixes of 1881" (second and third series) and "Currency Sixes."

In addition to this demand from holders of Five-Twenties, there is a large demand from new investors more wide-spread than for many years.

We therefore naturally look for a gradual advance in the prices of the issues which are most desirable.

We have just published the fifth edition of our "MEMORANDA CONCERNING GOVERNMENT BONDS," designed to answer all questions in regard to these securities, and to give full information to intending investors, copies of which can be had on application at our office.

FISK & HATCH,

BANKERS AND DEALERS IN GOVERNMENT BONDS,
No. 5 NASSAU ST., NEW YORK CITY.

The Bankers' Gazette.

NATIONAL BANKS ORGANIZED.

The United States Comptroller of the Currency furnishes the following statement of National Banks organized:

2,391—First National Bank of Deadwood, Dakota. Authorized capital, \$50,000; paid-in capital, \$50,000; L. R. Graves, President; S. N. Wood, Cashier. Authorized to commence business July 25, 1878.

DIVIDENDS.

The following dividends have recently been announced:

NAME OF COMPANY.	PER CENT.	WHEN PAYABLE.	BOOKS CLOSED. (Days inclusive.)
Railroads.			
Cleveland & Pittsburg, guar. (quar.)....	1%	Sept. 2.	Aug. 11 to Sept. 1
Insurance.			
City Fire.....	\$4	Aug. 12.	Aug. 7 to Aug. 11
New York Fire.....	7	On dem.	

FRIDAY, AUGUST 9, 1878—5 P. M.

The Money Market and Financial Situation.—Further depression in the stock market, and the continued heavy sales of United States 4 per cent bonds, have been the chief matters of interest in Wall street this week. The subscriptions to the new loan are still very active, and the number of purchasers of small amounts is as large as ever, indicating the popular character of the holdings of these 4 per cent bonds. There has hardly been such a spontaneous popular movement in subscribing to a Government loan since the 7-30 notes were negotiated by Jay Cooke & Co.—and then loyalty and the desire to get a high rate of interest were both worked upon by the astute agents to induce the people to come forward and take the loan. But whether in 4 per cent bonds or—7-30 notes, the principle is the same, that it is an unmistakable benefit to have the Government obligations widely distributed among a large number of holders of moderate amounts, as the number of citizens directly interested in having the Government credit fully maintained, is to that extent increased.

Money remains without change at 1 to 2½ per cent on call, according to the collaterals furnished. Prime short-date commercial paper sells at 3@4 per cent.

The Bank of England statement on Thursday showed a decrease in specie of £180,000 for the week, and the discount rate was left unchanged at 4 per cent. The Bank of France showed an increase of 4,000,000 francs in specie.

The last statement of the New York City Clearing House banks, issued August 3, showed a decrease of \$965,500 in the excess above their 25 per cent legal reserve, the whole of such excess being \$21,606,275, against \$22,571,775 the previous week.

The following table shows the changes from the previous week and a comparison with the two preceding years.

	1878. Aug. 3.	Differ'nces fr'm previous week.	1877. Aug. 4.	1876. Aug. 5.
Loans and dis.	\$238,096,200	Dec. \$ 539,800	\$249,767,800	\$252,756,300
Specie.....	17,990,800	Dec. 1,704,800	14,135,800	20,126,000

Net deposits.	219,978,500	Dec. 2,155,200	219,166,600	226,479,800
Legal tenders.	58,610,100	Inc. 200,500	54,262,100	60,333,300

United States Bonds.—The business in Government bonds continues very active. The subscriptions to new 4 per cent bonds are large beyond precedent, and the banks and other leading dealers are crowded with orders from all quarters. We have heretofore observed that every sale of these bonds and the corresponding call made for five-twenties stimulates new subscriptions by unsettling all the holders of 6 per cent gold bonds, and thus the business re-acts upon itself. Subscriptions are made for \$5,000,000 4 per cents; the Secretary calls in \$5,000,000 of five-twenties of 1865; the holders of \$310,000,000 five-twenties of 1867 (now nearly reached) become uneasy, and holders of \$20,000,000, say, proceed to change off their bonds immediately; this makes business active, and as there are very few bonds coming from abroad, the new 4 per cents are taken freely.

The Secretary of the Treasury has issued the sixty-fifth and sixty-sixth calls for the redemption of 5-20 bonds. The sixty-fifth is for \$5,000,000. The principal and interest will be paid at the Treasury on and after the 5th day of November next, and interest will cease on that day. Following are the descriptions:

Coupon bonds dated July 1, 1865, namely: \$50, Nos. 69,501 to 70,000, both inclusive; \$100, Nos. 120,001 to 123,000, both inclusive; \$500, Nos. 84,001 to 86,000, both inclusive; \$1,000, Nos. 157,001 to 163,500, both inclusive. Total coupon bonds, \$2,500,000.

Registered bonds as follows: \$100, Nos. 18,451 to 18,550, both inclusive; \$500, Nos. 10,701 to 10,750, both inclusive; \$1,000, Nos. 35,851 to 36,100, both inclusive; \$5,000, Nos. 10,251 to 10,400, both inclusive; \$10,000, Nos. 19,801 to 20,500, both inclusive. Total registered bonds, \$2,500,000. Aggregate, \$5,000,000.

The sixty-sixth call is dated August 7, 1878, and embraces \$5,000,000 bonds, on which interest will cease Nov. 7th, 1878:

Coupon bonds, dated July 1, 1865, namely: \$50, Nos. 70,001 to 71,000, both inclusive; \$100, Nos. 123,001 to 127,000, both inclusive; \$500, Nos. 86,001 to 87,000, both inclusive; \$1,000, Nos. 163,501 to 169,000, both inclusive. Total coupon bonds, \$2,500,000.

Registered bonds: \$100, Nos. 18,551 to 18,650, both inclusive; \$500, Nos. 10,751 to 10,800, both inclusive; \$1,000, Nos. 36,101 to 36,550, both inclusive; \$5,000, Nos. 10,401 to 10,600, both inclusive; \$10,000, Nos. 20,501 to 20,900, both inclusive. Total registered bonds, \$2,500,000. Aggregate, \$5,000,000.

State and Railroad Bonds.—There has been very little activity in State bonds. Louisiana consols sold to-day at 74. At auction \$63,000 North Carolina special tax bonds sold at \$13 50 per bond, and \$166,000 Alabama 8s, to Montgomery & Eufaula Railroad, at \$20 50 per bond. In South Carolina the Court of Claims met and passed on one or two small lots of consols and then adjourned to the 15th inst. The Court does not seem inclined to act promptly, and this is a discouraging feature; it was understood that they wanted Mr. Kimpton as a witness, and if he is sent to the State, possibly it may hasten matters.

Railroad bonds are firm on a moderate business. Chicago & Northwestern gold 7s sold at 100 to 100½ to-day, notwithstanding the low prices of stocks. The Central Pacific land grant mortgage trustees call for bonds to be offered to them to the amount of \$1,100,000 cash now in their hands.

Messrs. A. H. Muller & Son sold the following at auction:

Shares.	Bonds.
20 Aetna Fire Ins..... 72	\$7,000 Certif. of com. for 7
30 Sun Mutual Ins..... 55½	West. Exten. 1st mort.

* This is the price bid; no sale was made at the Board.

Railroad and Miscellaneous Stocks.—The stock market continued tolerably active in the early part of the week, with varying fluctuations, but during the past two days has been remarkably dull, with drooping prices. The granger stocks continue to be the weakest in the market, and to-day St. Paul touched the lowest price yet made in the present downward turn, and the lowest of the year. So far as values are to be influenced by the extent of the wheat crop, it is to be remembered that the acreage this year has largely increased, and a considerable falling off in the yield per acre would still leave a crop equal to last year in bulk, although the quality might be poorer. Some remarks upon this subject are given on another page, in connection with the reports of railroad earnings for July. The trunk-line managers have agreed to the advance in rates, as reported last week, and thus far all their late meetings have been marked by an unusual harmony, which goes far to confirm the opinion often expressed in this column, that Mr. Vanderbilt's policy would probably be one of peace.

The daily highest and lowest prices have been as follows:

	Saturday, Aug. 3.	Monday, Aug. 5.	Tuesday, Aug. 6.	Wednesday, Aug. 7.	Thursday, Aug. 8.	Friday, Aug. 9.

Exchange.—The dealings in foreign exchange have been moderate, and rates on actual business are considerably below bankers' asking prices, 60 days' sterling bills being done at 4.82½, and demand bills at 4.86½. This afternoon, however, there was a firmer feeling among leading drawers, and they were unwilling to draw lower than 4.83 and 4.87, as money was reported higher in the London market, close up to 4 per cent, which is the Bank rate.

In domestic bills the following were rates on New York at the undermentioned cities to-day: Savannah, buying ½ premium, selling ¼ premium; Charleston, depressed, par @ ¼ premium; New Orleans, commercial 3-16, bank ¼; St. Louis, 50 premium; Chicago, 25 premium; and Boston, 6½ cents.

Quotations for foreign exchange are as follows:

	AUG. 9.	60 days.	3 days.
Prime bankers' sterling bills on London.	4.82½ @ 4.83½	4.87	@ 4.87½
Good bankers' and prime commercial.	4.82½ @ 4.82½	4.86½	@ 4.87

Investments

AND

STATE, CITY AND CORPORATION FINANCES.

The INVESTORS' SUPPLEMENT is published on the last Saturday of each month, and furnished to all regular subscribers of the CHRONICLE. No single copies of the SUPPLEMENT are sold at the office, as only a sufficient number is printed to supply regular subscribers. One number of the SUPPLEMENT, however, is bound up with THE FINANCIAL REVIEW (Annual), and can be purchased in that shape.

ANNUAL REPORTS.

Nashville Chattanooga & St. Louis.

(For the year ending June 30, 1878.)

The annual report of this company is promptly issued, and it is the first road of any prominence whose report for the year ending June 30, 1878, has yet come to hand.

The main line and branches operated are now as follows:

Main line	321 miles.
Tennessee & Pacific Branch	30 "
McMinnville & Manchester Branch	35 "
Winchester & Alabama Branch	40 "
Jasper Branch	19½ "
Shelbyville Branch	8 "

Total main line and branches..... 453½ "

RECEIPTS AND EXPENSES.	
Receipts.	Expenses
Freight..... \$1,237,322	Maintenance of way..... \$342,322
Passage..... 516,383	Motive power..... 286,275
Mail..... 42,843	Maintenance of cars..... 117,488
Rents, &c..... 25,258	Conducting transportation..... 261,955
	Miscellaneous..... 62,193
Total..... \$1,811,808	Total..... \$1,070,270

Net earnings above operating expenses..... \$801,538

In addition to the operating expenses as above, the following payments have been made during the year:

Interest on bonded debt.....	\$452,400
Interest on floating debt.....	14,887
Interest on cost of Tennessee & Pacific Railroad.....	13,206
Difference in cost of steel over iron rails, 25 per cent on \$129,190.....	32,297
Extra ties used in laying 34 miles of steel rail, 600 to the mile extra.....	5,100
Iron Bridge over Stone's River, on Tennessee & Pacific Railroad.....	12,011
Paid on account of iron bridges on Chattanooga Division.....	18,600
Twenty-five Nashville & Northwestern RR. bonds endorsed by this company, due July 1, 1878.....	25,000
Paid on account of right of way, Nashville & Northwestern RR.....	2,132
Two dividends paid to the stockholders.....	131,505
Taxes paid in Alabama.....	4,909
Taxes in Tennessee, charged up, but not paid, previous to July 1, '78.....	18,634
Lavergne disaster.....	10,063
Total.....	\$740,746
Surplus.....	60,791

The operations of the main line, Shelbyville and Jasper Branches were as follows:

RECEIPTS.		EXPENSES.	
Freight.....	\$1,221,025	Maintenance of way.....	\$314,051
Passage.....	476,048	Motive power.....	274,054
Mail.....	37,857	Maintenance of cars.....	114,679
Rents and Privileges.....	25,258	Conducting transportation.....	250,207
		General expenses.....	60,627
	\$1,760,190		\$1,013,619

Net earnings above operating expenses..... \$746,570

Of the other divisions the receipts and expenses were as follows:

	Receipts.	Expenses.	Net above oper. exps.
Tennessee & Pacific Railroad.....	\$55,267	\$21,144	\$34,123
McMinnville & Manchester RR.....	22,957	14,371	8,585
Winchester & Alabama RR.....	33,333	18,134	15,259

The Tennessee & Pacific Railroad has been paid for, and its cost included in bills payable, or floating debt. The company has issued \$300,000 six per cent bonds secured by mortgage on this road, of which \$20,000 have been disposed of, leaving \$280,000 in the hands of the company. When these are sold, the floating debt of the company will be reduced to very narrow limits, and could be wiped entirely out at once by the sale of a part of the stock (\$282,218) of the Nashville Chattanooga & St. Louis Railway held by the directors for the company; but this they have not been inclined to do, as the investment is considered an excellent one for the company.

The operations of last fiscal year have tended to confirm the previously expressed opinion of the board as to the wisdom of the purchase by this company of the three branch roads—the Tennessee & Pacific, the McMinnville & Manchester, and the Winchester & Alabama Railroads. The two latter we bought at a cost of \$320,000 in forty-year six per cent bonds of this company, with first mortgage on those roads, while their original cost was about \$1,100,000. And on the Tennessee & Pacific Railroad, which cost originally about \$1,000,000, your company has issued its own six per cent forty-year bonds, with a mortgage on that road of only \$300,000, or \$10,000 per mile.

The net earnings of this road will much more than pay the interest upon the \$300,000 of bonds issued upon it, and, being a bond of your company, promptness in payment of interest and principal is secured.

It is proper to state that interest on the \$320,000 of six per cent bonds of this company, issued to pay for the McMinnville & Manchester and Winchester & Alabama Railroads, did not commence running until 1st January last, so that in the above statement only \$9,600 are charged for interest on account of the purchase of these roads, while the interest of the whole year would have amounted to \$19,200. But, by reference to the net earnings of these roads, it will be perceived that the profits for the year were sufficient to pay that sum and still leave a surplus of \$4,645.

Of the items in the above statement charged against net earnings, some will not occur again, while others are extraordinary, and may be stated as follows:

25 Nashville & Northwestern RR. bonds endorsed by this company.....	\$25,000
Right of way, Nashville & Northwestern Railroad.....	2,133
Extra amount of steel rails.....	32,297
Extra amount of cross ties.....	5,100
Iron bridges on main line.....	18,600
Iron bridges on Tennessee & Pacific Railroad.....	12,011

Making a total of..... \$95,143

Which are strictly extraordinary payments. The iron bridges are built to take the place of wooden ones, and will be attended with no expense for many years to come.

Lafayette Bloomington & Mississippi.

(For the year ending April 30, 1878.)

In May, 1876, the present company acquired possession through a foreclosure sale, but the road was leased to the Lafayette Muncie & Bloomington until May, 1877, when the company resumed possession.

There is no equipment owned, passenger equipment being leased on a mileage basis from the receiver of the Lafayette Muncie & Bloomington, while three freight engines and 325 box cars are leased from the United States Rolling Stock Company.

The general account is as follows:

Stock.....	\$400,000
Bonds.....	1,520,000
Accounts and balances.....	21,951
Surplus.....	46,641
Total.....	\$1,991,592

Construction..... \$1,923,724
Cash, supplies, balances due..... 67,867—\$1,991,592

Of the passengers carried, 2,870 were through and 64,142 local. Of the freight, 83,047 tons were east-bound and 8,506 tons west-bound; 62,688 tons were grain. The average tons to each loaded car were 10½. The earnings for the year were as follows:

Freight.....	\$98,760
Passengers.....	59,002
Express, mail, &c.....	7,465

Gross earnings..... \$156,229
Expenses..... 109,587

Net earnings..... \$46,641
New construction..... 3,724

Surplus..... \$42,916

The rental paid for freight cars was ¼ cent per mile run; mileage made on connecting lines was paid directly to the United States Rolling Stock Company. Construction expenses were for necessary building, round-house, turn-table, &c., and new sidings.

During the year 1,270 feet of new sidings were laid; 10,115 new ties and 21 tons iron were laid. The iron in the track is little worn, and light renewals will be sufficient for a time; but a careful estimate shows that 43,394 ties need to be replaced, which is being done as fast as possible.

The company having received no books or accounts from the former management, no comparisons can be made. When the change of management took place, May 1, 1877, all traffic was suspended for four days, and at least two months were required to get the business of the road properly adjusted. Business was also suspended for a week during the July strikes. These troubles, with the mild winter and bad roads, explain the light earnings of the road for the year.

Lafayette Muncie & Bloomington.

(From May 14, 1877, to April 30, 1878.)

Mr. George H. Chapman, the receiver, has made a report for the period from May 14, 1877, to April 30, 1878. Accounts are kept separately for the Eastern Division, which includes the line from Muncie to Lafayette, 83.2 miles, and the Western Division, from Lafayette to the Illinois line, 35 miles.

The equipment owned consists of 10 engines; 6 passenger and 2 baggage cars; 150 box, 30 stock, 73 flat, and 8 caboose cars. Three freight engines, 200 box cars in the White Line, 200 in the Great Eastern Line, and 100 in the Hoosac Tunnel Line are leased from the United States Rolling Stock Company.

The report of the general superintendent gives the following statistics:

	East. Div.	West. Div.	Total.
Passengers carried.....	45,844	32,243	78,087
Passenger mileage.....	871,157	612,165	1,483,322
Tons freight carried.....	112,227	95,457	207,684
Tonnage mileage.....	6,665,081	3,127,017	9,792,098

Grain furnished 103,058 tons of the freight on the Eastern Division and 75,044 tons on the Western Division. The earnings for the year were as follows:

	East. Div.	West. Div.	Total.
Freight.....	\$106,633	\$56,901	\$163,535
Passengers.....	21,181	21,272	42,453
Mail and express.....	7,494	3,273	10,767
Other sources.....	4,187	16,918	21,106

Total..... \$147,497
Expenses..... 109,725

Net earnings..... \$37,771

The auditor's statement of the receiver's assets and liabilities at the close of the year is as follows:

Construction, additions during year.....	\$26,545
Equipment.....	913
Supplies on hand.....	7,058
Accounts and balances due.....	43,667
Paid on account L. M. & B. Railroad Company, less amount received as dues to that company.....	20,639
Cash.....	14,983

Total..... \$113,605

Accounts and balances payable	\$46,787
Surplus Eastern Division	47,771
Surplus Western Division	29,247
	\$113,805

There were \$45,000 receiver's certificates issued for indebtedness of the Lafayette Muncie & Bloomington Company, of which \$29,565 are charged to the Eastern Division, and \$15,494 to the Western Division. The floating debt of the company still outstanding is estimated at \$100,000, of which about \$60,000 are for equipment.

The business of the road was almost entirely suspended when the receiver took possession, and the revenues for the first two months were very small. The Eastern Division was still in an unfinished condition, and the Western Division so badly depreciated that it was hardly safe to run trains over. The receiver has laid 9 2-3 miles steel and 2 1/4 miles iron rails, and 20,728 new ties, the rails being all on the Western Division, where the track had been several years in use. A large amount has been expended in bridge repairs, and much more is needed. A large part of the line has been fenced.

Saint Paul & Duluth Railroad Company.

LAKE SUPERIOR & MISSISSIPPI RE-ORGANIZED.

(For the year ending May 31, 1878).

This company, which is the successor of the Lake Superior & Mississippi, terminates its fiscal year May 31, and the following statements are for eleven months, from the date of the organization of this company to May 31, 1878.

The total amount of capital stock issued under the new organization has been:

Of preferred—	
To holders of 1st mortgage bonds Lake Superior & Mississippi Railroad Company	\$5,327,123
To U. S. Court for bonds not yet presented	124,800
To holders of Stillwater & St. Paul RR. Co. coupons	54,155
To Northern Pacific Railroad Company	144,006
	\$5,556,084

Of this there has been canceled by a payment of Northern Pacific RR. Co., on account of the purchase of one-half the railroad from N. P. Junction to Duluth

By payments on account of lands and stumps, of which \$400 were for sales previously made	73,473— 206,473
Leaving outstanding	\$5,342,200
Consisting of \$5,342,200 stock; \$1,416 stock scrip.	
The common stock issued amounts to	\$3,475,503
Common stock scrip	1,405— 3,488,905

Making the total amount of capital stock, both pref. and com \$8,832,522

The receipts and expenditures have been as follows:

RECEIPTS.	
Freight	\$383,944
Passenger	80,789
Mails	9,752
Express, rent, &c	8,863
Total	\$483,349
EXPENDITURES.	
General office expenses	\$26,058
Maintenance of roadway	122,290
Maintenance of equipment	67,518
Transportation expenses	146,474— 362,342
Net receipts	\$121,007

LAND DEPARTMENT.

RECEIPTS.	
From land sales	\$20,324
From stumpage	76,635
	\$96,959
Of which payments were made in preferred stock	78,073
Cash receipts	\$15,886
Expenses—Land department	16,647— 2,239
	\$122,247

OTHER EXPENDITURES.

Fixed Charges.	
Rent of Stillwater & St. Paul Railroad	\$18,333
Interest	6,626
State taxes	9,614
Insurance	4,442
Special and legal expenses	4,210— 43,226
Leaving net receipts	\$87,020
Investments and Improvements and Additions to Property.	
Filling trestles and bridges near Duluth	\$2,125
Building grain-house, St. Paul	1,249
New fencing	1,537
Extension to telegraph	372
Total on account of roadway and buildings	\$5,284
Addition to equipment	1,500
Addition to machinery in shops	227
Payment to Northwestern equipment trust	40,665
Knife Falls Railroad	12,311
Stock farm—Mahtowa	5,151— 65,139
Leaving a surplus of	\$14,580

GENERAL INVESTMENT NEWS.

American Iron Trade—An English View.—The London *Colliery Guardian* published an article recently from which the following is extracted: "The fact is not without importance that in the production of pig iron the United States now ranks second among the iron making nations of the world. Thus, the quantity of pig iron made in Great Britain in 1876 was 6,555,997 tons, while the production in the United States in the same year was 2,093,236 tons; in Germany, 1,862,000 tons; in France, 1,449,536 tons; in Austria, 480,000 tons; in Belgium, 440,958 tons; in Russia, 397,500 tons; and in Sweden, 339,486 tons. These may be said to be the iron-making countries of the world, since the combined production of all other nations did not exceed 228,000 tons.

"Even the bad times which have prevailed during the last three

or four years in the American iron trade have not altered the fact that the Americans now rank second in regard to the production of pig. At the same time, this production has slipped back a good deal since 1872, when the American railroad interest was distinguished by a great activity. In 1860, the quantity of pig iron made in the United States was 987,559 tons. In 1870, the total had risen to 1,850,000 tons. In 1872, there was a rapid bound upward to 2,834,553 tons. In 1874, however, this total had receded to 2,639,413 tons. In 1875, it further slipped back to 2,266,581 tons; and in 1876, as we have already seen, it stood at 2,093,236 tons. Nevertheless the fact remains that the Americans now rank second among the industrial countries of the world in regard to the production of pig iron.

"In steel, too, the Americans have made great progress. Thus, in 1876 they made 525,990 tons of Bessemer steel, 21,490 tons of Siemens steel, and 140,900 tons of other steel, or altogether 688,386 tons. The corresponding production of Great Britain in the same year was 700,000 tons of Bessemer steel, 130,150 tons of Siemens steel, and 140,000 tons of other steel, or altogether 975,150 tons. Thus, the Americans rank immediately after the English as makers of steel. The Germans and French also produce a certain quantity of steel, but Germany only made 370,710 tons and France 291,750 tons in 1876.

"When we consider that the times have been sadly out of joint in the United States during the last three or four years, the results we have indicated afford striking proof of the energy and determination of the American character, and of the work which it is capable of achieving. It is true that the United States Congress has endeavored to foster the growth of American metallurgical industry by every means in its power, and especially by the imposition of virtually prohibitive import duties. Still, if it were not for the indefatigable industry of the Americans, and the zeal and ardor with which they apply themselves to the pursuit of the almighty dollar, we fancy that any legislative scheme which might be matured by the collective wisdom of Congress would not amount to very much.

"One reason why Great Britain ranks first as the chief iron-making country of the world is that her people have more patient industry and more enduring perseverance than is probably exhibited by the inhabitants of any other country; and the Americans, being an offshoot of the Anglo-Saxon race, and having, moreover, the precious advantages of great natural resources, have soon contrived to work themselves into the second place as producers of iron.

"The Americans have made a show of late of displacing metallurgical British products upon the chief markets of the world, and especially upon the markets of the West India, South America and the English colonies in Australasia; but we do not think that American efforts in these directions have amounted to very much hitherto. It is never wise to underrate a competitor; still, the fact remains that we have been sending large quantities of our railway iron this year to South America and the Antipodes, and perhaps even larger quantities than before.

"After all, we fancy that the great market for North American iron will be found to be North America itself; and it is no very great hardship for American ironmasters that this should be the case, since North America is almost a world in itself. If the reckless demagogues who are dignified with the name of politicians are not suffered to bring about internal disturbances, and if the Americans resolutely and heartily pull together, there would appear to be better times in store for the Great Republic—better times which will ensure increased prosperity to the American iron trade."

Atlantic & St. Lawrence.—At the annual meeting of the stockholders held at Portland, it was voted to accept the act of the last Legislature increasing the capital stock to \$484,000. The directors were authorized to issue stock to that amount, to provide for the payment of bonds maturing November 1, 1878. It was also voted to modify the lease with the Grand Trunk, so that that company shall pay the interest on the stock issued.

Central Pacific.—D. D. Colton and S. W. Sanderson, trustees under the land mortgage of the company dated October 1, 1870, give notice that they hold \$1,100,000 gold, to be used in the redemption of bonds, according to the terms of the mortgage. They will receive sealed bids for the sale to them of bonds issued under the mortgage at their office, Fourth and Sanderson streets, San Francisco, until August 28.

Cincinnati City Bonds.—The Mayor has appointed August 14 as the day for holding a special election on the proposition to issue \$2,000,000 in bonds for the completion of the Southern Railroad, according to the contract recently made by the trustees.

Dayton & Southeastern.—J. E. Gimperling has been appointed receiver of the Dayton & Southeastern Railroad, on application of the trustees for the bondholders.

East River (Brooklyn) Bridge.—At a meeting of the trustees of the East River Bridge, the following resolution was adopted:

Resolved, That the trustees of the New York & Brooklyn Bridge hereby call upon the cities of New York and Brooklyn for the sum of \$1,000,000 from the City of Brooklyn and \$500,000 from the City of New York, for the purposes specified in section 3, chapter 300 of the Laws of 1875, such sums being, in the opinion of the Board, proper and necessary, and that request be made to the Mayors and Controllers of said cities accordingly.

The treasurer's report showed that the receipts for July had been \$102,273, and the expenditures \$130,336. Up to the present time the total receipts have been \$9,728,727, and the total expenditures \$9,718,722.

Erie Canal Freights.—The following is a statement of the tonnage of leading articles shipped on the Erie Canal from the opening of navigation to August 1, as compared with the business of the corresponding period in 1877. The tolls received for the period in 1877 was \$305,947; in 1878, \$409,523:

1877.	1878.	1877.	1878.
Boards and scantlings. 458,409	527,823	Pig-iron. 14,303	11,924
Shingles. 4,328	4,213	Bloom and bar iron. 3,817	2,677
Timber. 9,257	12,857	Castings and iron ware. 1,667	2,186
Staves. 31,425	26,215	Domestic woolens. 298	2,545
Wood. 22,481	20,150	Domestic cottons. 590	5,834
Ashes, pot and pearl. 914	146	Domestic salt. 45,411	58,068
Ashes, leached. 20,365	20,937	Foreign salt. 2,040	3,621
Pork. 3,301	2,374	Sugar. 3,602	20,455

Oats. 20,739	35,159		
Bran and shipstuffs. 866	985		
Peas and beans. 2,145	3,554		

—This week (August 8) water rates have advanced from 1½c. for corn and 1½c. for wheat from Chicago to Buffalo, to 2c. for corn and 2½c. for wheat, and by canal from 4½c. for wheat, 3½c. for corn, and 2½c. for oats, to 4½c., 4½c., and 3c., respectively, from Buffalo to New York. The present advanced rates by lake and canal amount to about 7½c. per bushel for wheat from Chicago to New York, which is about one-half the all-rail rate.

European & North American.—This railway for extension from St. John westward, otherwise known as the New Brunswick Division of the European & North American road, will be sold at St. John, N. B., August 31, under foreclosure of the first mortgage of \$2,000,000. The road is 91½ miles long from St. John, N. B., to Vanceboro.

Grand Trunk and Michigan Central.—It is stated that an arrangement has been arrived at between the Grand Trunk Railway of Canada and the Michigan Central, which will enable the former company to run its trains into Chicago. The arrangement as yet is not final, but the preliminaries are settled, and it is supposed that the positive compact will be made at a convention to be held at Saratoga on the 20th instant. Mr. Vanderbilt is said now to have placed the Grand Trunk upon the same footing as the New York Central and every other line having running arrangements with the Michigan Central. The officers of the Grand Trunk did not anticipate such a policy on the part of Mr. Vanderbilt, and prior to his late return from Europe took measures with a view of obtaining some other means of communication with Chicago; but if the proposals of Mr. Vanderbilt are faithfully carried out, there will be no inducement to build new lines.

Income Tax on Railroad Bonds.—The United States claimed the right to tax interest on some of the bonds of the Erie Railway held in London. The matter was put in suit, and Chief Justice Waite on the 2nd sent in the following decision, affirming a decision of Judge Blatchford:

"I fully concur with the learned District Judge in the view he has taken of this case. The tax, for the recovery of which the suit was brought, was a tax upon the owner of the bond and not upon the defendant. It was not a tax in the nature of a tax *in rem* upon the bond itself, but upon the income of the owner of the bond, derived from that particular piece of property. The foreign owner of these bonds was not in any respect subject to the jurisdiction of the United States; neither was this portion of his income. His debtor was, and so was the money of his debtor; but the money of his debtor did not become part of his income until it was paid to him, and in this case the payment was outside of the United States, in accordance with the obligations of the contract which he held. The power of the United States to tax is limited to persons, property and business within their jurisdiction as much as that of a State is limited to the same subjects within its jurisdiction. (State tax on foreign-held bonds, 15 Wall, 300). The default of the defendant in making its returns was a continuing one. Only one penalty thereupon is recoverable. The judgment of the District Court is affirmed."

Indianapolis Bloomington & Western.—The main line of this road will be sold in Bloomington, Ill., August 31, by J. A. Jones and Wm. P. Fishback, masters, under concurrent decrees of foreclosure granted by the U. S. Circuit Courts for Indiana and the Southern District of Illinois. The sale will include the 202 miles of road from Indianapolis to Pekin, Ill., with all the franchises, etc. The sale will be made subject to all valid claims, judgments and taxes due and unpaid; and to the claims allowed by the courts for labor and materials furnished for six prior to December 1, 1874. Each bidder must deposit \$50,000 as security, and the purchaser must, in addition, pay \$50,000 cash on the day of sale, and on confirmation of the sale such additional sum in cash as may be needed to pay the costs and receiver's debts; the rest of the purchase money may be paid in bonds and coupons at their *pro rata* value. The sale will be without appraisal and not subject to redemption, and full title will be passed to the purchaser.

Sumner R. Stone, of No. 46 Exchange Place, chairman of the committee of extension bondholders of this road, states that the agreement for re-organization, dated July 10, having been signed by more than a majority of the bondholders, is now binding, and that all other bondholders who desire this committee to represent them in the proposed purchase of the road must sign the agreement above referred to, and deposit their bonds, and \$5 assessment on each bond, with the Union Trust Company of this city, before the 6th of September next.

Lake and Canal Freight Rates.—In a review of July business, the Buffalo *Commercial* says:

Carriers by land and water earnestly hope that July, 1878, will enjoy the unenviable distinction of having the worst record in the history of our internal commerce. The average rates by lake and canal are the lowest ever known, and foreshadow certain ruin to all engaged in the transportation business, if there is not

an early improvement. The following statement, showing the average rates on wheat and corn from Chicago to Buffalo by lake for July, and the average on the same cereals by canal to New York, in each of the years named, indicates unparalleled depression:

Year.	—Lake—		—Canal—	
	Wheat. cents.	Corn. cents.	Wheat. cents.	Corn. cents.
1869.....	5.0	4.8	14.0	12.6
1870.....	5.0	4.7	9.4	9.2
1871.....	6.2	5.7	11.8	10.8
1872.....	9.6	8.8	12.0	10.0
1873.....	6.5	5.6	10.6	9.6
1874.....	3.1	2.1	9.0	8.0
1875.....	2.8	2.6	7.5	6.9
1876.....	1.9	1.7	5.9	5.4
1877.....	2.6	2.2	5.4	4.7
1878.....	1.7	1.5	4.3	3.8

From these figures it will be seen that the average freight rate on wheat from Chicago to New York for the entire month was only 6½ cents. Add to this the transfer, or elevator charge here, of ½ a cent, and it makes the average through rate for carrying sixty pounds fifteen hundred miles only 7 cents. It is scarcely necessary to say that there is no money in this for anybody.

Metropolitan Railway (Elevated).—On the 9th of July the Metropolitan Elevated Railroad effected a mortgage, dated July 10, 1878, to the Central Trust Company, for \$600,000, or \$120,000 per mile of the double-track of said Metropolitan Railroad, as it should be completed. Since then, the same company have effected a second mortgage, July 11, 1878, to Henry M. Alexander and Charles G. Franchlyn, trustees of the New York Elevated Railroad, to secure an additional loan of \$900,000 per mile on the road. The mortgage bears 7 per cent interest, coupons payable April and October. The entire road, together with the franchises, building materials, rolling stock, and rights of any nature or kind soever, are deeded to the trustees to secure the bond, together with the one half interest of the Metropolitan Road in the New York Elevated Road already built and that is to be built from the Battery to King's Bridge. The instrument is signed by William R. Garrison, President, and John R. Boody, Treasurer. The title of the bond is the "Second mortgage income bonds of the Metropolitan Elevated Railroad"—loan authorized by the Board of Directors July 5, 1878.

In explanation of this transaction, a gentleman well acquainted with the company's affairs speaks to a N. Y. *Times* reporter as follows: "The company was formed by Mr. Foster and others; and a half-dozen rich men, who were ready to assume the risk of using their money to build the road, and to face the still greater risk of being interrupted by litigation, supplied the means. These gentlemen were members of the New York Loan & Improvement Company. As the road was built, obstacles were removed in the way of its franchise, and the prospects became better for ultimate success, and the Loan & Improvement Company took up all the stock. The road would, they knew, be worth more (if it proved a success) than it had cost. The first mortgage recorded was one estimate of value, and was not issued to secure a loan of \$600,000 a mile, as was erroneously supposed. The second mortgage, secured by income bonds, issued to the trustees named, is another estimate of value, a capitalization of the company. It is placed at \$900,000 a mile, and the bonds are to bear 7 per cent interest—if the road earns it. If it does not earn that interest, the corporation owning the road will lose nothing. But it must have an estimate of the worth of its own property." * * * "The reference to the New York Elevated Road led many to suppose that there had been, in the last transaction, a transfer of the interest of one railroad company to the other. This was not the case. The terms of the mortgage applied to the interest in the New York Elevated Railroad to which the Metropolitan Railway was entitled as a joint owner under the charter. This statement was corroborated by officers of the New York Elevated Railroad, who said that that company was in no way interested in the Metropolitan Company."

New Jersey West Line.—The New Jersey West Line Railroad was sold, under foreclosure of a \$3,000,000 mortgage, at Newark, August 3. The road was bought in by Mr. J. J. Flannagan for \$50,000, he being the only bidder. The locomotives and rolling stock were also bought by Mr. Flannagan at nominal prices. It is understood that the purchase was made in the interest of other parties. The road was projected to extend from Jersey City to Delaware River, a distance of sixty-two miles, but only a small portion of the road is in operation.

New Orleans Water Works Co.'s Bonds.—Under an act passed by the Legislature of Louisiana in 1877, the Board of Directors of the New Orleans Water Works Company was authorized to issue bonds to an amount not exceeding \$2,000,000, whenever they should deem it advisable, provided the consent of the City Council should be first obtained. On July 22, 1878, the Board of Directors decided to issue \$600,000 of bonds, bearing interest at the rate of 6 per cent per annum, and payable not less than twenty-five years after their date. The bonds are to be secured by a mortgage covering all the property and franchises of the New Orleans Water Works Company, and are issued for the purpose of improving and enlarging the works. The action of the Board of Directors was subsequently approved by the City Council of New Orleans, with the condition that the bonds should not be disposed of for less than their par value.

Ohio & Mississippi Re-organization.—The *American Exchange* gives some sensible remarks on this subject as follows: "The various schemes for the re-organization of the Ohio & Mississippi Railway Company which have been under consideration during the past year, it is understood, have all been abandoned, and it is now proposed to re-organize the company upon a basis that will secure to the new corporation a certain amount of

ready money, which is to be obtained by an assessment upon the stockholders of the old company. Nothing definite has yet been agreed upon in regard to the matter, however, although the amount of the assessment talked of is \$2 or \$3 per share. If the stockholders and others interested in the Ohio & Mississippi Railway are earnest in their desire to place the company again upon a substantial financial basis, they will adopt such measures as will not only cancel the present floating debt, but will also reduce the amount of the funded debt to a sum sufficiently low to guarantee that in the future the company will be able to earn the interest on that debt. According to the last statement published, the total bonded debt of the road was \$12,852,000. This includes the first mortgage bonds of the Springfield Division, which the stockholders have learned they cannot ignore. * * * "It is difficult to conceive upon what basis of reasoning the stockholders of our large railroad corporations expect to realize anything for their stock, so long as the interest on the mortgage is not paid, or those mortgages are not satisfied. When an individual gives a mortgage upon his house, and also gives his individual unsecured promise to pay, the person holding the latter is well aware that he has no lien whatever upon the mortgaged property of the maker of the note until the mortgage has been canceled, and any one assuming any other position would become the laughing-stock of the loungers at any cross-roads village in the country. Nevertheless, the stockholders of the railroads that have failed to pay their interest, and are now undergoing the process of re-organization, are continually demanding that the bondholders shall divide the loss that may be sustained between themselves and the stockholders."

Pennsylvania State Bonds.—The Doylestown (Penn) *Intelligencer* publishes the following in regard to an over-issue of bonds of the State of Pennsylvania.

"An over-issue of Pennsylvania bonds, to the amount of \$100,000, has lately come to the knowledge of our State authorities. It appears that in the year 1852 the Legislature authorized a loan of \$1,000,000, to meet the financial necessities of the times, which were then very pressing. This was found to be not sufficient, and at the next session an additional loan of \$500,000 was authorized. The bonds of the last issue were dated August 1, 1853, and were payable in twenty-five years. William Bigler was Governor and John M. Bickel State Treasurer at that time, and all the bonds were duly signed by them. It turned out that the whole amount of money for the last issue of \$500,000 was not required, and after \$100,000 had been sold, the remaining \$100,000 were left in the possession of the Girard Bank, Philadelphia, which was then the financial agent of the State. In process of time the State officers were changed, and no one remembered the fact that \$100,000 of regularly signed but unissued bonds were in existence. They remained in forgetfulness until within a few months, when the Treasury officials became aware that they had somehow gotten into the market, and were likely to be presented for redemption. On the first of August a number of the bonds, amounting in value to \$18,000, were presented at the Treasury, they being due and payable on that day. The question as to whether they should be recognized or not was submitted by Mr. Noyes to the Attorney-General, and that officer has advised their payment on the ground that they are genuine bonds, now in the hands of innocent holders. How they ever got out of the custody of the bank and into the possession of outside parties is yet a deep mystery. It is said that the bank ledger containing the record of bonds disposed of under this loan has disappeared."

—A press dispatch from Philadelphia, August 8, says: "Mr. John M. Bickel, who was State Treasurer in 1852-3, in response to an inquiry regarding the \$100,000 of over-issued bonds, has produced a voucher signed by the former President of the Girard Bank, as follows:

"I hereby acknowledge that the Girard Bank holds \$100,000 coupon bonds of the State of Pennsylvania, subject to the order of the State Treasurer."

"C. S. BOKER."

"The present officers of the Girard Bank state if the bonds were left with their bank they were there simply for safe keeping in their vaults. The bank had nothing to do with negotiating the loan, has no records whatever as to the bonds, and knows nothing as to any alleged payment of \$23,000 on account of the same."

Railroads in Minnesota.—The St. Paul *Pioneer-Press* of August 1 publishes the following in regard to the railroads in Minnesota: "The time is about up for railroad companies in Minnesota to pay their annual State tax, nearly all the roads now paying a uniform rate of 3 per cent upon their annual gross earnings upon the business transacted upon their lines in this State. The reports received by Railroad Commissioner Marshall up to yesterday, for the six months ending June 30, 1878, are as follows, in juxtaposition with which are the gross earnings of the same roads for the corresponding six months of last year, from which a glance can be had of the increase of railroad business in Minnesota:

	Gross Earnings	
	1878.	1877.
St. Paul & Pacific (St. Paul to Sauk Rapids).....	\$194,354	\$119,533
St. Paul & Pacific (main line)	313,270	173,000
Worthington & Sioux Falls	44,318	6,767
Sioux City & St. Paul (St. James to Iowa line).....	178,964	111,233
St. Paul & Sioux City (St. Paul to St. James).....	234,412	206,033
Total.....	\$1,015,518	\$616,616

St. Paul & Pacific.—Our correspondent in Amsterdam writes, July 28th, that the committee announces that a meeting of bondholders will be held in New York, September 16, 1878, to remove Thompson, Becker and Moorhead, trustees of the first division mortgage of 1871 for \$500,000, and to appoint others. Also, that the privilege will yet be given to those holders of certificates

of bonds who wish to sell their certificates, on the same conditions as published on the 8th of February last—interests of the parties agreeing running from Dec. 22, 1877. Certificates of Branch line at 75, consolidated loan at 28, main line 30, 1869 loan at 35, but Vincent-Brainerd certificates only at 11. The American-Canadian Syndicate reserves the right to accept what it likes of the certificates offered.

Texas & Pacific.—The Galveston *News* a few weeks since reported the following among other statements made to a representative of that paper by Maj. Frank S. Bond, Vice-President of this company:

"There will probably be no extension of our line until after Congress shall act on our bill, except 10 or 15 miles from Sherman west (part of the Sherman & Fort Worth Division) that we hope to have completed by September. About ten miles of this part of the line are already graded."

"The Texas & Pacific Company has a vested right, under existing charters, to extend its road from Sherman to Fort Worth and from Fort Worth westwardly to El Paso, without any limitation of time as to its completion. It needs no special legislation, and does not desire any; and it will not be an applicant before the State Legislature for any extension of its chartered rights."

"Admitting that the 20 sections grant of land and the reservation has or will soon lapse, under the compromise act of May 2, 1873, the company has an equal right with all other companies to come in under the general law and acquire 16 sections of land for each mile of road it shall hereafter construct, if, as is very doubtful, the State has sufficient available land upon which such certificates can be located."

"As I understand the matter, the State has already promised to railroad companies, under existing charters, upward of 128,000,000 of acres, which the records of the State land office show to be about four times as much as there is left of the public domain of the State that can be so acquired. As a matter of fact, I believe it is generally admitted that of the public domain nearly all of the agricultural and timber lands have been already taken up, so that future acquired certificates must necessarily be located on mineral or grazing lands, and no railway company can afford to locate mineral or grazing lands with alternate certificates, costing as it does about \$30,000 in cash for each thousand certificates located, as it would be impossible to dispose of such lands within the time fixed by law for their alienation—that is, in eight, twelve, sixteen and twenty years from the date the certificates are issued. It is not at all probable that sufficient sales of such lands could be made to reimburse the company for its expenditures in locating and surveying such lands, and for the ten dollars per section paid into the State treasury, and for State and municipal taxes it would be required to pay."

Trunk Line Freights.—The Chicago *Tribune* says of the meeting of railroad officers in that city, which made the recent advance in east-bound freights: "The first business done was the affirmation of the rates adopted by the general freight agents in this city a day or two ago. As soon as this was done a resolution was introduced that the rates be still further advanced, making the grain rates on the basis of 25 cents per 100 pounds from Chicago to New York, and fourth and special classes on the basis of 30 cents. This resolution elicited a lengthy and heated debate, some thinking that the rates just adopted were high enough for the present, while others thought that the roads would get just as much business if another advance were decided upon. Finally, the resolution prevailed, and on and after the 5th of August the rates to Eastern seaboard will be as follows:

From Chicago to—	Fourth class per 100 lbs.	Grain per 100 lbs.	Flour, per bri.
Baltimore.....	27	22	44
Washington.....	27	22	44
Philadelphia.....	28	23	45
New York.....	30	25	50
Boston.....	35	30	60

All articles that have taken grain rates will be included hereafter in fourth class. This makes a further advance in grain of five cents per 100 pounds, and 10 cents on meats, etc., that have taken grain-rates heretofore.

Union Pacific.—In regard to the land grant decision of Secretary Schurz, the Union Pacific has issued a circular as follows:

OMAHA, Neb., July 29, 1878.—To whom it may concern: In view of the misunderstandings that have arisen, and misrepresentations that have been made, concerning the late land decision of the Secretary of the Interior, we submit the following.

1. The decision does not hold that all railroad lands unsold at the end of three years from completion of the road are thrown open to pre-emption, or that they then revert to the body of the public lands; but simply states that lands not sold or disposed of at that time are subject to such entry.

2. The decision does not assume to determine what constitutes a disposal of said lands.

3. It is the written opinion of the most eminent legal authorities of the country that the lands have been disposed of in the manner contemplated by the language of Sec. 3, act 1862, Pacific Railroad charter, and are not subject to pre-emption entry.

4. We place ourselves on this opinion, and shall proceed to handle and sell our lands in the same manner as heretofore, our right and authority to do so not being in any way impaired by the decision.

5. Each and every case in which any person files upon, occupies, or in any manner attempts to interfere with our rights and interests in any of these lands will be promptly litigated to the court of last resort.

LEAVITT BURNHAM, Land Commissioner, U. P. R. R.
S. H. Clark, Supt. U. P. R. R.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, August 9, 1878.

The revival of trade continues to make fair progress. Dealings are up to a full average for the season, and a more cheerful feeling is apparent on all sides. The weather at the West is much more favorable to the crops. Violent storms have occurred at many points, but the injury done by them appears to have been merely local. Money is plenty and cheap, wages low, and private credits improving. Very naturally, however, the effects of a long period of disaster are still seriously felt, and the progress of improvement must be slow.

There was a buoyant market for pork, and on Wednesday there were sales of mess at \$11, spot and September, and \$11 15 for October. Yesterday, there was a sharp decline, but more steadiness to-day, with sales at \$10 75@10 80 for Sept. and \$10 90 for Oct. Lard was also decidedly higher; prime Western selling at \$8 for August and September, and \$8 05 for October, followed by important reductions in values, but rather more steadiness to-day, spot and September selling at \$7 85 and October at \$7 90. Bacon is scarce and nominal. Cut meats have been tending upward. The arrivals of swine at the Western markets thus far in August have been rather less than for the corresponding period last year. Beef has been in very fair demand and firm. Beef hams salable. Butter active, and choice grades dearer. Cheese advanced fully $\frac{1}{2}$ c. during the week, with an active demand—prime to choice factories, 7@8 $\frac{1}{2}$ c. Tallow in good demand and firm. The following is a comparative summary of aggregate exports of hog products from Nov. 1 to Aug. 3, inclusive:

	1877-78.	1876-77.	Increase
Pork, lbs.....	53,413,000	47,873,200	5,537,800
Bacon and hams, lbs.....	489,291,733	359,959,931	129,331,802
Lard, lbs.....	272,316,563	181,774,130	90,542,459

Total, lbs... 815,021,322 589,607,261 225,414,061

Kentucky tobacco less active, the sales of the week aggregating only 1,000 hhds., of which 850 for export and 150 for home consumption; but prices are rather dearer; lugs quoted at 3@5c., and leaf 5 $\frac{1}{2}$ @14c. Seed leaf moving rather moderately, but at firm prices; sales of the week are 1,305 cases, as follows: 100 cases, 1877 crop, New England, 11 to 12 $\frac{1}{2}$ c.; 250 cases, 1876 crop, New England, 11 to 25c.; 200 cases, 1877 crop, Pennsylvania, 10 to 18 $\frac{1}{2}$ c.; 40 cases, 1876 crop, Pennsylvania, private terms; 519 cases, 1877 crop, Ohio, 8 to 10c.; 150 cases, 1877 crop, Wisconsin, 7 $\frac{1}{2}$ to 8c.; and 46 cases, 1877 crop, State, private terms. Of Spanish tobacco the sales embraced 750 bales Havana, at 85c.@ \$1 05.

Rio grades of coffee have latterly been more active, and holders have advanced their views and maintain them with firmness; fair to prime cargoes quoted at 16 $\frac{1}{2}$ @17 $\frac{1}{2}$ c., gold. Stock here in first hands, 42,494 bags, and at other ports, 3,231 bags. Mild grades have sold freely at full prices; of Maracaibo, fully 15,000 bags have changed hands during the past week. Rice remained steady, with a good average trade. Foreign molasses has been very weak; 50 test Cuba refining was sold at 29c. flat, or equal to 30c. regular. New Orleans in jobbing sale only, yet unchanged, owing to reduced stocks. Refined sugars were weak and lower, but close about steady; standard crushed, 9 $\frac{1}{2}$ c. Raw grades have shown more activity at lower prices; sales of fair to good refining have been readily made at 7 1-16@7 5-16@7 $\frac{1}{2}$ c., closing at the inside figures.

	Hhds.	Boxes.	Bags.	Melado.
Stock Aug. 1, 1878	85,342	13,000	150,484	2,037
Receipts since.....	15,354	333	12,904
Sales since.....	7,485	7,185
Stock Aug. 7, 1878.....	92,261	13,333	186,203	2,037
Stock Aug. 8, 1877.....	121,253	25,561	233,347	2,317

The naval store market has shown weakness, spirits turpentine especially; the lower prices, however, have stimulated a better business. Spirits turpentine closes at 27 $\frac{1}{2}$ c., and common to good strained rosin at \$1 37 $\frac{1}{2}$ @1 42 $\frac{1}{2}$. Petroleum has latterly been quiet, but firm and higher; exporters are "short," and refiners limit their offerings; crude, in bulk, quoted at 6 $\frac{1}{2}$ c., and for refined, in bbls., 10 $\frac{1}{2}$ c. was bid. The lead market has latterly advanced and shown much firmness, with a better business reported; common domestic closes at 3-55@3-60c. per lb. There are no new features regarding the pig iron market; trade is very limited, supplies are heavy and prices nominal and weak. Ingot copper continued quiet but steady at 16@16 $\frac{1}{2}$ c. for Lake.

The business in ocean freight room has not been as liberal during the past week as that previous, but rates have remained generally steady, and in some instances a slight advance has been realized, with the offerings of tonnage anything but superfluous. Late engagements and charters include: Grain to Liverpool, by steam, 8 $\frac{1}{2}$ d. per bushel; cotton, $\frac{1}{2}$ d. per lb.; bacon, 30@35s per ton; cheese, 35@45s; butter, in refrigerators, 125s.; grain to London, by steam, 6@6 $\frac{1}{2}$ d.; do. by sail, 6 $\frac{1}{2}$ d.; do. to Glasgow, by steam, 6 $\frac{1}{2}$ d.; flour, 2s. 4 $\frac{1}{2}$ d.; grain to Cork, for orders, 6s. per qr; do. to Antwerp, 5s. 9d.; do. to Havre, 5s. 1 $\frac{1}{2}$ d.@5s. 6 $\frac{1}{2}$ d.; do. to direct French port, 6s.; do. to Bayonne, 6s. 9d.; do. to Marseilles, 5s. 6d.; refined petroleum to Hamburg, 4s. 3 $\frac{1}{2}$ d. per bbl.; do. to the Mediterranean, 4s. 9d.; do. to Trieste, 5s. 3 $\frac{1}{2}$ d.@5s. 5 $\frac{1}{2}$ d.; do. to direct port, Continent, 4s. 1 $\frac{1}{2}$ d.; c-ses to Algiers, 26c. gold; do. from Philadelphia to Alexandria, 32c. gold. To-day, rates were rather irregular, except for petroleum charters, which were held firmly. Grain to Liverpool, by steam, 7 $\frac{1}{2}$ @8d.; do. to Glasgow, 6 $\frac{1}{2}$ d.; do. to Cork for orders, 5s. 9d.@6s.; oats to Bordeaux, 7s.; refined petroleum in cases to the Levant, 38c. gold.

COTTON.

FRIDAY, P. M., August 9, 1878.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (Aug 9), the total receipts have reached 3,069 bales, against 3,671 bales last week, 4,086 bales the previous week, and 3,782 bales three weeks since, making the total receipts since the 1st of September, 1877, 4,263,159 bales, against 3,960,930 bales for the same period of 1876-7, showing an increase since Sept. 1, 1877, of 302,229 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of five previous years are as follows:

Receipts this w'k at	1878.	1877.	1876.	1875.	1874.
New Orleans.....	638	760	1,513	233	844
Mobile.....	211	80	222	62	117
Charleston.....	354	156	458	239	599
Port Royal, &c.....	99	466
Savannah.....	249	203	613	55	216
Galveston.....	333	233	317	288	168
Indianola, &c.....	5	13	27
Tennessee, &c.....	225	232	443	461	954
Florida.....	13	2	7
North Carolina.....	611	189	156	41	86
Norfolk.....	187	119	1,660	147	1,056
City Point, &c.....	248	26	23	7
Total this week ...	3,069	2,102	5,871	1,541	4,081
Total since Sept. 1.	4,263,159	3,960,930	4,092,594	3,477,278	3,802,018

The exports for the week ending this evening reach a total of 6,453 bales, of which 3,845 were to Great Britain, 218 to France, and 2,390 to rest of the Continent, while the stocks as made up this evening are now 65,020 bales. Below are the stocks and exports for the week, and also for the corresponding week of last season:

Week ending Aug. 9.	EXPORTED TO—			Total this Week.	Same Week 1877.	STOCK.	
	Great Britain.	France.	Continent.			1878.	1877.
N. Orleans	2,206	2,206	1,458	2,930	25,473
Mobile..	949	3,568
Charl'tn	329	2,988
Savan'h.	43	259	1,595
Galv'tn	485	4,169
N. York.	654	218	2,390	3,262	1,730	48,565	86,815
Norfolk-	503	2,004
Other*..	985	985	283	11,000	23,000
Tot. this week..	3,845	218	2,390	6,453	3,514	65,020	149,612
Tot. since Sept. 1.	2144,628	497,743	681,554	3323,925	3023,187

* The exports this week under the head of "other parts" include, from Baltimore, 708 bales to Liverpool; from Boston, 277 bales to Liverpool.

In addition to above exports, our telegrams to-night also give us the following amounts of cotton on shipboard, not cleared, at the ports named. We add also similar figures for New York, which are prepared for our special use by Messrs. Carey, Yale & Lambert, 60 Beaver street:

AUG. 9, AT—	On Shipboard, not cleared—for					Leaving Stock.
	Liverpool.	France.	Other Foreign.	Coast-wise.	Total.	
New Orleans.....	None.	None.	None.	None.	None.	2,930
Mobile.....	None.	None.	None.	None.	None.	949
Savannah.....	None.	None.	None.	100	100	159
Galveston.....	None.	None.	None.	None.	None.	485
New York.....	2,000	None.	None.	None.	*3,225	45,340
Total.....	2,000	None.	None.	100	3,325	49,363

* Included in this amount there are 1,225 bales at Presses for foreign ports, the destination of which we cannot learn.

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is an increase in the exports this week of 2,939 bales, while the stocks to-night are 84,592 bales less than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. 1 to Aug 2, the latest mail dates:

PORTS.	RECEIPTS SINCE SEPT. 1.		EXPORTED SINCE SEPT. 1 TO—				Stock.
	1877.	1876.	Great Britain.	France.	Other Foreign.	Total.	
N. Orleans	1370,065	1179,561	821,590	325,406	304,700	1451,696	6,358
Mobile.	412,962	357,389	106,381	26,146	31,566	164,093	1,107
Char'n*	459,174	470,501	131,935	70,355	103,584	305,874	313
Sav'h..	598,272	476,631	176,247	36,351	138,748	351,346	494
Galv.*.	446,653	501,410	186,172	26,971	11,291	224,434	745
N. York	143,855	121,170	330,457	9,441	47,308	387,206	61,332
Florida	14,299	20,381
N. Car.	143,490	129,236	35,007	1,780	19,890	56,677	92
Norfolk*	508,636	552,349	156,687	1,075	2,929	160,691	1,000
Other..	162,684	150,200	196,307	19,148	215,455	11,500
This yr.	4260,090	2140,783	497,525	679,164	3317,472	82,941
Last yr.	3958,828	2128,204	459,585	431,884	3019,673	163,513

* Under the head of Charleston is included Port Royal, &c.; under the head of Galveston is included Indianola, &c.; under the head of Norfolk is included City Point, &c.

These mail returns do not correspond precisely with the total of the telegraphic figures, because in preparing them it is always necessary to incorporate every correction made at the ports.

Cotton on the spot met with an active demand for home consumption during the first half of the week, and prices steadily advanced, until on Tuesday, with stocks at this point reduced below 60,000 bales, middling uplands were quoted at 12c. On Wednesday, however, the demand fell off, and the advance was barely maintained. Yesterday, the market was steadier, with some revival of demand for home consumption. To-day, quotations were extensively revised; the low grades being advanced 1-16@ $\frac{1}{2}$ c., the better grades reduced 1-16c., except "fair" which was reduced 3-16c.; and then as compared with Uplands, Orleans and Texas were advanced $\frac{1}{2}$ c., it being apprehended that the yellow fever epidemic will retard the movement of Gulf cottons. Annexed is a comparison:

	Thursday.		Friday.	
	Uplands.	N. Orleans.	Uplands.	N. Orleans.
Ordinary.....	10 $\frac{1}{8}$	10 $\frac{1}{4}$	10 $\frac{1}{4}$	10 $\frac{1}{2}$

The speculation in futures has been active, and in the course of Saturday, Monday and Tuesday prices rapidly advanced, closing on Tuesday evening, as compared with the previous Friday, 17 points higher for September, 14 points higher for August and October, 12 points higher for November, 7@8 points higher for the winter months, and 4@7 points higher for the spring months. On Wednesday, under dull accounts from Liverpool and sales to realize, most of the advance for the first half of the week was lost. The improvement above noted seemed to have been caused almost entirely by the rapid reduction of stocks and an anxiety regarding supplies for the next three months. The weather has been favorable to the maturing crop, and under ordinary circumstance, an unusually large movement for August might be expected, but it remains to be seen how much delay may be caused by the yellow fever at New Orleans. Towns in the Mississippi Valley are much alarmed, and strict quarantines have been established. Yesterday, there was some further decline, especially for the later months, which closed considerably below the figures of the previous Friday, while the early months were slightly dearer. To-day, under dull accounts from Liverpool and very favorable crop accounts, there was some further decline.

The total sales for forward delivery for the week are 255,500 bales, including — free on board. For immediate delivery the total sales foot up this week 13,642 bales, including 290 for export, 12,502 for consumption and 850 for speculation. Of the above, — bales were to arrive. The following tables show the official quotations and sales for each day of the past week:

These figures indicate a decrease in the cotton in sight to-night of 670,360 bales as compared with the same date of 1877, a decrease of 785,669 bales as compared with the corresponding date of 1876, and a decrease of 854,397 bales as compared with 1875.

AT THE INTERIOR PORTS the movement—that is the receipts and shipments for the week, and stocks to-night, and for the corresponding week of 1877—is set out in detail in the following statement:

	Week ending Aug. 9, '78.			Week ending Aug. 10, '77.		
	Receipts	Shipm'ts	Stock.	Receipts	Shipm'ts	Stock.
Augusta, Ga.....	225	782	263	94	395	627

Cincinnati, O....	572	1,836	1,757	463	538	5,205
Total, new p'rts	1,294	2,691	3,966	877	1,715	10,426
Total, all.....	2,451	5,110	8,346	1,567	3,760	21,574

The above totals show that the old interior stocks have decreased during the week 1,262 bales, and are to-night 6,768 bales less than at the same period last year. The receipts at the same towns have been 467 bales more than the same week last year.

RECEIPTS FROM THE PLANTATIONS.—Referring to our remarks in a previous issue for an explanation of this table, we now bring the figures down one week later, closing to-night:

RECEIPTS FROM PLANTATIONS.

Week ending—	Receipts at the Ports.			Stock at Inter'r Ports			Rec'pts from Plant'ns		
	1876.	1877.	1878.	1876.	1877.	1878.	1876.	1877.	1878.

" 9.	5,871	2,102	3,069	35,182	21,574	8,346	...	1,204	410
Total.	74,272	55,235	67,055	23,063	13,547	36,376

This statement shows us that although the receipts at the ports the past week were 3,069 bales, the actual from plantations were only 410 bales, the balance being drawn from stocks at the interior ports. Last year the receipts from the plantations for the same week were 1,204 bales, and for 1876 they were — bales.

WEATHER REPORTS BY TELEGRAPH.—In general, our reports to-night are very favorable, the rains being mostly on the very coast. The condition in the Southwest has of late materially improved, and the prospect in Texas now is very satisfactory. The points where just at present there is the most anxiety would seem to be the section about Columbus, Georgia, and Eufaula, Alabama; too much rain is falling there, and the caterpillars are causing apprehension, though no harm has as yet been done by them.

Galveston, Texas.—It has rained hard on five days this week, but it was confined to the coast. There is less talk of caterpillars, and crop accounts are more favorable. Picking is progressing finely. Average thermometer 84, highest 93, and lowest 73. The rainfall has reached three inches and sixty-eight hundredths.

Indianola, Texas.—We have had rain on three days, hard, but

not extending inland, the rainfall during the week reaching two inches. The crop is developing promisingly, and picking is making fine progress. The thermometer has averaged 83, with an extreme range of 72 and 93.

Corsicana, Texas.—There has been a sprinkle here on one day, the rainfall reaching three hundredths of an inch. The crop is developing promisingly. The bottom crop is safe and very abundant. Picking has begun. The weather during the week has been terribly hot, the thermometer averaging 75, and ranging from 72 to 104.

Dallas, Texas.—It has rained on one day this week, a shower, with a rainfall of thirty-five hundredths of an inch. Good progress is being made in clearing fields of weeds, and crop accounts are more favorable. The crop is developing finely, and picking has begun. The land between here and the Red River, thrown out in consequence of the rains, is estimated at 10 per cent, but the balance is doing well and promising as much as can be picked. The weather has been very hot. Average thermometer 75, highest 102, and lowest 73.

Brenham, Texas.—We have had a shower here on one day of the week, the rainfall reaching fifty hundredths of an inch. Picking is making good progress. The crop is doing as well as possible, and promising as much as can save. The thermometer has averaged 85, the highest being 95 and lowest 77.

New Orleans, Louisiana.—It has not rained here all this week. The thermometer has averaged 83.

Shreveport, Louisiana.—Prospects continue favorable for a full average crop. Picking has commenced and will be general in a few days. A new bale was received yesterday. The weather during the week has been hot and dry, the thermometer averaging 86, and ranging from 74 to 98.

Vicksburg, Mississippi.—The thermometer has averaged 83 during the week, with an extreme range of 71 and 99. It has rained on two days, the rainfall reaching twenty-three hundredths of an inch. First new bale, middling, 489 lbs., sold at 15c., received to-day (Friday).

Columbus, Mississippi.—The weather here has been dry all the week, but there have been local showers in the surrounding country. Average thermometer 85, highest 96, and lowest 73. Caterpillars have made their appearance, but did no harm.

Little Rock, Arkansas.—The week just closed has been dry, with warm days and cool nights, excepting Saturday, when we had a severe rain, accompanied by much lightning and some hail; but it has done no damage that we could hear of. The thermometer has ranged from 68 to 95, averaging 81. The rainfall has reached two inches and five hundredths.

Nashville, Tennessee.—We have had rain on one day of the week, the rainfall reaching eighty hundredths of an inch. The thermometer has ranged from 71 to 93, averaging 82.

Memphis, Tennessee.—It has rained on three days this week, the rainfall reaching twenty-five hundredths of an inch. Rust is developing badly. Much damage has been done, and much more is feared. Thermometer, highest 95, lowest 75, average 83.

Mobile, Alabama.—It has been showery three days this week, and rained severely two days, the balance of the week having been pleasant. Accounts from the interior are conflicting. The thermometer has ranged from 73 to 97, averaging 82. The rainfall for the week is three inches and thirty hundredths. First new bales received this year Aug. 3, and last year Aug. 11.

Montgomery, Alabama.—During the earlier part of the week we had rain on three days, but the rest of the week has been clear and pleasant, though rather hot. The thermometer has averaged 83, the highest being 97 and the lowest 73. We have had a rainfall of one inch and ninety-two hundredths.

Selma, Alabama.—We have had rain on two days the earlier part of this week, but the latter portion has been clear and very hot. Crop accounts are more favorable, but much damage is feared from the ravages of worms, which have appeared pretty generally. Average thermometer, 80. The rainfall has been three inches and fifty hundredths.

Madison, Florida.—It has rained here on three days of the week, the rainfall reaching eighty-eight hundredths of an inch. The thermometer has averaged 86, the extreme range having been 90 and 82. There are some complaints of rust and shedding. Caterpillars have been seen, but have not done much damage so far.

Macon, Georgia.—We have had a rain on one day this week, but not a good one. The cotton plant is not looking well, caused by want of rain. Average thermometer 85, highest 98, and lowest 71.

Columbus, Georgia.—Rain has fallen on four days of the week, the rainfall reaching four inches and three hundredths. We are having too much rain. We have had an unusually severe storm this week, and much damage is feared. Crop accounts are less favorable. The thermometer has averaged 82.

Savannah, Georgia.—It has rained here on three days, the rainfall reaching two inches and thirty-two hundredths. The rest of the week has been pleasant, but warm. The thermometer has averaged 84, the highest being 93 and the lowest 73.

Augusta, Georgia.—The weather during the week has been hot. It has rained on one day, light, the rainfall reaching two hundredths of an inch, but the balance of the week has been pleasant. Accounts are generally good. Three bales new crop have been received during the week, two from Georgia and one from South Carolina. The thermometer has averaged 86, the highest being 105 and the lowest 73.

Charleston, South Carolina.—We have had light showers on four days this week, the rainfall reaching ninety-eight hundredths of an inch. The thermometer has ranged from 77 to 94, averaging 83.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT.—A comparison of the port movement by weeks is not accurate, as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. First we give the receipts at each port each day of the week ending to-night.

PORT RECEIPTS FROM SATURDAY, AUG. 3, '78, TO FRIDAY, AUG. 9, '78

Perc'tage of tot. port receipts July 31..	98.00	97.48	99.34	99.06	97.88	

This statement shows that up to Aug. 1 the receipts at the ports this year were 301,100 bales more than in 1876 and 172,955 bales more than at the same time in 1875. By adding to the above totals to Aug. 1 the daily receipts since that time, we shall be able to reach an exact comparison of the movement for the different years.

Percentage of total port receipts.....	98.10	97.65	99.40	99.22	98.31	

This statement shows that the receipts since Sept. 1 up to to-night are now 301,707 bales more than they were to the same day of the month in 1877, and 170,694 bales more than they were to the same day of the month in 1876. We add to the last table the percentages of total port receipts which had been received Aug. 9 in each of the years named.

NEW COTTON AT VICKSBURG.—We have to-day (Friday, Aug. 9) received our first bale of new cotton. It was classed as mid- dling, and weighed 489 lbs., and was sold to-day at 15c. Last year the first bale was received August 14.

NEW COTTON AT SHREVEPORT.—Our first bale of new cotton was received here yesterday, Thursday, August 8. Last year our first bale was received August 9, and the year before August 6.

NEW SOUTH CAROLINA COTTON AT AUGUSTA.—We learn by telegraph to-night that three new bales have been received at Augusta the past week—two from Georgia and one from South Carolina. Last year the first bale was received on, August 27, from South Carolina.

NEW COTTON AT EUFULA.—The first bale of new-crop Ala- bama cotton was received here August 7, and sold at auction the same day to Messrs. Simpson & Johnston at 18½ cents per pound. It was raised by Major William N. Reeves, of Barbour County.

NEW FLORIDA COTTON.—The first bale of new-crop Florida cotton was received at Savannah, Saturday, August 3. The Savannah News says it was received by L. J. Guilmartin & Co., of Savannah, from C. T. Carroll, of Monticello. It classed as strict low middling, and was sold to Johnson & Jackson, also of Savannah, for 14 cents per pound.

NEW COTTON AT MOBILE.—The first two bales of Alabama new cotton were received at Mobile, August 3, and were sold at auction in front of the Cotton Exchange and purchased by E. V.

George & Brothers, brokers, at 12½ cents, one bale for shipment to New York and the other for shipment to Robert Dempster, Liverpool.

THE FIRST BALE OF MISSISSIPPI VALLEY COTTON.—The first bale of new cotton from the Mississippi Valley, which we reported last week as having reached New Orleans July 31, was received by Williams, Black & Co., of this city, August 5, and sold at auction in front of the Cotton Exchange by John H. Draper & Co. It was purchased by Macaulay & Co. at 20 cents, who shipped it to Barnes, Davidson & Co., Liverpool.

INCREASED EARLY RECEIPTS THIS YEAR.—The present course of the market is much influenced by a belief that the early receipts this year are to be large. We all know of the deficiency in the visible supply, and well understand that, even with the decreased consumption, free arrivals are necessary to meet the demand. What is to be the extent of the movement the next three months is, therefore, just now the engrossing question. No one, of course, can determine this, except approximately, but an analysis of the movement for previous years must be the basis for any intelligent conclusion. First, then, we give the statement of total monthly receipts during the three months beginning August 1 for a series of years.

MONTHS.	1877.	1876.	1875.	1874.	1873.
August.....	14,462	33,626	13,524	23,394	46,467
September.....	98,491	236,868	169,077	134,376	115,255
October.....	578,533	675,260	610,316	536,968	355,323

This statement does not, however, furnish us much of a guide, for our comparison must mainly be with the movement of 1877, and more particularly with the leading ports. Hence we give the following as the weekly and monthly proportion which each leading port contributed last season:

	1877.	N.Orleans.	Mobile.	Charleston.	Savannah.	Galveston
Aug. 3....	168	70	39	174	40	
" 10....	760	80	156	203	233

" 14....	1,339	957	2,119	4,531	2,358	
" 21....	2,733	1,670	4,523	8,924	2,116	
" 28....	5,474	2,915	6,793	11,327	9,122	
" 30....	1,650	2,044	2,947	3,696	3,407	
Total Sept..	12,560	8,024	16,737	29,612	18,360	
Oct. 5....	7,969	4,782	9,251	13,811	9,404	
" 12....	19,617	10,301	19,242	24,714	19,123	
" 19....	29,792	13,689	20,536	25,011	20,082	
" 26....	38,523	14,067	22,751	27,047	19,879	
" 31....	35,889	10,627	18,463	17,182	13,098	
Total Oct....	131,790	53,466	90,243	107,765	81,586	

With the aid of these figures, each reader can readily reach a conclusion which will satisfy himself, at least, as to what will be this year's early movement. First, and as an illustration, take the port of Galveston—what increase can we expect there? The crop in that State is, we think, at least two weeks earlier than last year, and hence (if all other things were equal) could we not expect the movement would be two weeks earlier? But last year was not as favorable as this in other particulars. For instance, the present promise in Texas is, as every one admits, of a crop decidedly larger than the promise the middle of last August; and, further, after the first two weeks of September, 1877, that State passed through the most miserable season within its experience for picking and marketing cotton. Of course it is possible that the expectation of an increased yield may not be wholly realized, and that this fall may be as unfavorable as last fall; but the present of any market is generally governed by the existing condition con- tinued, rather than by the anticipation of some evil not yet threatening. And as we are seeking to know what the market is to be in the near future, we must theorize on the supposition that until disaster comes or is believed to be imminent, the course of prices will be determined on the supposition that there is to be no disaster. With regard to the receipts at New Orleans, we have as a draw-back the yellow fever; but it is quite question- able whether its effect will not be almost wholly to divert a portion of New Orleans' natural movement elsewhere; if, how- ever, the disease should become much more severe or more extended, it might operate as quite a hindrance to the movement in that section. As to Savannah and Charleston, the general

expectation is that the September and October movement will be essentially in excess of 1877; this expectation is due to a ten days' earlier crop and to the prospect of a very considerable increase in the total yield. We have not time at present to enlarge further upon these points, and may give some other data for comparison another week.

BOMBAY SHIPMENTS.—According to our cable despatch received to-day, there have been — bales shipped from Bombay to Great Britain the past week and 2,000 bales to the Continent; while the receipts at Bombay during this week have been 3,000 bales. The movement since the 1st of January is as follows. These are the figures of W. Nicol & Co., of Bombay, and are brought down to Thursday, Aug 8:

	Shipments this week			Shipments since Jan. 1.			Receipts.	
	Great Brit'n.	Continent.	Total.	Great Britain.	Continent.	Total.	This Week.	Since Jan. 1.
1878	2,000	2,000	286,000	386,000	672,000	3,000	842,000
1877	1,000	1,000	370,000	399,000	769,000	2,000	988,000
1876	6,000	6,000	521,000	345,000	866,000	2,000	984,000

From the foregoing it would appear that, compared with last year, there has been an *increase* of 1,000 bales in the week's shipments from Bombay to Europe, and that the total movement since January 1 shows a *decrease* in shipments of 97,000 bales, compared with the corresponding period of 1877.

GUNNY BAGS, BAGGING, ETC.—Bagging has been rather more inquired for during the past week, and the demand is increasing. This inquiry is said to be owing to the quarantine now existing at New Orleans, and the orders are coming from points that usually supplied themselves from that city. The sales foot up about 3,000 rolls, mostly on the basis of 11½c. for standard qualities. The market closes steady, at 10½c. for 2 lb. and 11½c. for 2½ lb. Butts have not changed, and the sales making are only of small parcels, though the aggregate quantity is fair, and mostly at 2 11-16@2½c. time, the latter price being for good bagging quality. The market is in good shape, with the stock in few hands, and we look for steady prices to rule for some time to come.

THE EXPORTS OF COTTON from New York this week show a decrease, as compared with last week, the total reaching 3,262 bales, against 5,695 bales last week. Below we give our usual table showing the exports of cotton from New York, and their direction, for each of the last four weeks; also the total exports and direction since Sept. 1, 1877; and in the last column the total for the same period of the previous year:

Exports of Cotton (bales) from New York since Sept. 1, 1877

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 6,559 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in THE CHRONICLE, last Friday. With regard to New York, we include the manifests of all vessels cleared up to Wednesday night of this week.

	Total bales
New York—To Liverpool, per steamers The Queen, 204 .. Russia,	277
Adriatic, 73.....	554
To Hull, per steamer Lepanto, 100	105
To Havre, per steamer Canada, 218.....	218
To Barcelona, per bark Aurora, 2,390.....	2,390

NEW ORLEANS—To Liverpool, per steamer Andean, 2,315.....	2,315
BALTIMORE—To Liverpool, per steamers Caspian, 175... Federico, 703	883
BOSTON—To Liverpool, per steamer Bohemian, 99.....	99

Total..... 6,559

The particulars of these shipments, arranged in our usual form are as follows:

	Liverpool.	Hull.	Havre.	Barcelona.	Total
New York.....	554	100	218	2,390	3,262
New Orleans.....	2,315	2,315
Baltimore.....	883	883
Boston.....	99	99
Total	3,851	100	218	2,390	6,559

Below we give all news received to date of disasters to vessels carrying cotton from United States ports, etc.:

MINNIE H. GEROW, ship (Br.), Gerow, from New Orleans July 23, for Liverpool, while being towed down from former port was run ashore by the tug on the dyke at the head of South Pass, at 7 A.M. of the 31st. The M. H. G. got off and went to sea Aug. 3d.

St. MICHAEL, brig of Chatham, N. B., dismasted and abandoned, was again fallen in with June 22, lat. 35:35 lon. 63:00, by brig Princess Beatrice (Br.), on her last outward passage to Point-a-Pitre.

BREADSTUFFS.

FRIDAY, P. M., Aug. 9, 1878.

The flour market has for some days past exhibited much activity, and flours of all grades from old wheat have advanced. The improvement in the demand has been most conspicuous in the common extras from spring wheat, large lines of which sold at \$4 10@4 25. Flours from new winter wheat have been offered more freely, but have been readily taken for export at \$4 30@4 90 for good to choice extras. Rye flour and corn meal were in good demand and firm. To-day, there was a good general demand, but it was more readily met.

The wheat market has been steadily advancing, but the business was restricted almost wholly to winter growths, considerable portions of which are in condition for shipment by steamer only. Early in the week there were large transactions of No. 2 red and amber at \$1 06@1 06½ for steamer and \$1 07½@1 08 for sail on the spot, and for August and September deliveries; but yesterday prices had advanced at the close to \$1 10½@1 11 for the same deliveries in sail condition. White wheats have also been in demand at advancing prices, and yesterday sold to some extent at \$1 21@1 24 for No. 1 steam and sail condition on the spot; but prime No. 1 for September was quoted at \$1 19@1 20;

also, last evening, 75,000 bush. No. 2 Milwaukee, \$1 10. Crop accounts continue to be more or less contradictory, but, on the whole, are more favorable. To-day, the market was quieter, and the latest prices of yesterday not fully supported.

Indian corn has been in good demand at improving prices, although supplies have increased, both here and at the West; and the weather has been very favorable to the growing crop, although in localities damage has been done by violent storms. Yesterday, No. 2 mixed advanced to 49¢@49½¢, spot and August, and 49½¢ for September, and steamer sold at 47½¢@47¾¢, spot and August. To-day, the close was rather easier.

Rye has ruled very firm, but rather quiet. No. 2 Western sold at 63¢. on the spot, No. 1 State, 67¢@68¢. on the spot, and 65¢. for September.

Oats materially declined under free offerings. No. 2 Chicago sold at 33¢. on the spot and 31¢. for September. To-day, the market was quiet, with No. 2 graded quoted at 32½¢. for mixed and 33½¢. for white, but the former sold for August delivery at 31¢.

The following are closing quotations:

FLOUR.			GRAIN.		
No. 2	per bbl.	\$2 50 @ 3 15	Wheat—No. 3 spring, bush	\$1 02 @ 1 05

THE DRY GOODS TRADE.

FRIDAY, P. M., Aug. 9, 1878.

Business has been fairly active during the past week with the commission houses, and a liberal aggregate amount of staple and fancy goods was placed in the channels of distribution. There was a more general demand for autumn goods than at any time since the opening of the season, and dress goods, gingham, shawls and skirts, which have hitherto been quiet, met with large sales. The growing strength of the market for cotton goods and prints has given a marked impetus to the movement in these goods, and there was no disposition on the part of holders to force sales at old prices. Woolen goods remained quiet, aside from flannels, repellents and cloakings, which were in improved request by local and interior jobbers. The jobbing trade has been a trifle more active, owing to the arrival of some Southern buyers, but it is somewhat too early to look for much animation in this branch of the business.

DOMESTIC COTTON GOODS.—The exports of domestics from this port during the week ending Aug. 6 reached 1,123 packages, which were distributed as follows: Great Britain, 348; U. S. Columbia, 207; Hayti, 136; Mexico, 102; Hamburg, 85; Argentine Republic, 61; and the remainder, in relatively small lots, to other markets. There was a very strong undertone in the market, and numerous makes of brown, bleached and colored cottons were advanced from 2½ to 5 per cent, owing partly to the enhanced cost of the staple. Brown sheetings and drills were in good demand, and bleached shirtings were fairly active. Cotton flannels continued in steady request, and corset-jeans, denims, ducks, chevots, ticks, stripes and grain bags were taken in moderate parcels to a very fair aggregate. Rolled jacanets were in better demand at an advance of about 2½ per cent. Print cloths continued in fair demand and firm, closing at 2½¢, 30 days, for 64x64s, and 3½¢, cash, for 56x60s. Prints met with liberal sales, and there was a more active movement in gingham and cotton dress goods, new lines of which were placed on the market by most of the leading manufacturers.

DOMESTIC WOOLEN GOODS.—There was an irregular, and, on the whole, unsatisfactory, movement in woolen goods for men's wear. Duplicate orders were in some instances placed by the clothing trade for fancy cassimeres, and fair sales of the finer grades were made to cloth houses; but the aggregate distribution was less liberal than expected. Overcoatings and beavers moved slowly, and black cloths and doeskins were in light demand; but worsted coatings continued in fair request and here was a fairly sustained inquiry for Kentucky jeans. Repellents were more active, and some of the more popular makes were distributed to an important aggregate. Wool flannels were in steady request, and there was a fair inquiry for moderate parcels of casses and dress plaids; but blankets remained very quiet. Worsted and woolen dress goods met with liberal sales, and shawls and skirts were fairly active.

FOREIGN DRY GOODS.—There has been a slightly improved demand for imported goods at first hands, but transactions were only moderate in the aggregate. Staple dress goods were taken in considerable lots, but the supply of fancy dress fabrics is still meagre, and sales were consequently light. Black silks are firmly held, and prices have an upward tendency. Linen and white goods moved slowly, and there was very little spirit in the demand for ribbons and millinery silks. Hamburg embroideries and imitation laces were in fair request by manufacturers and the trade.
