The Basiners Department of the CHRONICLE is represented among Financial laterests in New York City by Mr. Fred. W. Jones.

### THE GLASGOW BANK FAILURE AND THE COTTON TRADE.

The most important financial event which has occurred during the past week is the failure of the City of Glasgow Bank, with liabilities of 50 millions. The institution had a large number of branches and agencies, but, having none in London, was comparatively unknown in this country. There seems to be some contradiction in the reports thus far received, for the London Times declares that the bank had been losing eredit for some time, and its failure was not at all unexpected; yet other statements are to the effect that its shares have stood at over 100 per cent premium within the past fortnight. The size of the concern, and the fear lest its fate may lead to further disaster on a large seale, have directed attention prominently to the failure. Little is known here of the details as yet, however; but t unlimited shareholders' liability will probably shield the depositors from much loss, and the refusal of the Bank has been unwilling to renew them except

other Scotch banks to intervene, at the last moment, is fairly to be taken as indicating that the condition was found to be hopeless.

The commercial relations of this country with England are so exceedingly close that we are almost as much interested as the English are in tracing out the causes, and forecasting the remoter effects of a failure I ke this. Questions, therefore, naturally arise as to what trade is particularly affected, what unfavorable influence is likely to be exerted by the failure upon other banks and upon general trade, and whether there is likely to be anything in the way of panie in Great. Britain. The London Times denies that there is any danger to be apprehended ; says that the bank has long been loosely managed, but that no other banking institution in Seotland has engaged in similar business. Business, however, is like a row of nine-pins in that it. is scareely possible for one large concern to fall without pushing others over; and hence the anxiety. Yet, so far as this country is concerned, it is evident that affairs are in an unusually conservative condition. We are not now extended ; we have been buying less abroad and selling more, so that the trade balance is in our favor: with a part of our exports we have been purchasing our bonds, so that we are much less in debt to Europe than formerly. A crisis in Great Britain could not, therefore, now throw suddenly upon our markets the quantity of bonds it once could have thrown, and altogether we are in an exceptionally strong condition so far as immunity from being severely shaken by outside disturbances is concerned. A sudden squall is much less likely to overturn the vessel when the sails are trimmed than when all are flying; and we have been for five years engaged in the painful though wholesome process of taking in sail and lopping away the loose tatters. Great Britain, also, it is well to remember, has been doing the same, to some extent, and trade in general is probably better able to endure a strain without being precipitated into panic.

This failure is supposed to have grown out of troubles in the India trade. The London Telegraph's dispatch aseribes it to advances of 30 millions to four firms of India merchants; the London Times ascribes it to the impossibility of getting any further discounts in London on bills drawn from India upon the Glasgow bank, which bills had been sold in India to the home banks, ostensibly against the shipment of produce. Our own London correspondent writes that since the recent rise of the Bank of England rate to 5 per cent, loans which had been made upon the security of India and Colonial government stocks have been freely called in, and the

on too onerous terms. In consequence there has been a marked decline in India and other Colonial securities within the past four months, as the following comparison shows:

Pur bon bho ir b.			
-	Sept. 21.	May S1.	Fall.
India 5 per canta	102 @103	106% @107%	4%
Indla 4 per cents	101 @102	103%@103%	2
Canada 4 per centa	93 @ 94	90 @ 91	*3
Cape of Good Hope 4% per cents	961/2 97 1/2	99%@100%	3
Natal 4% per centa	92 @ 94	9S @100	6

Victoria 6 per centa	106 @109	109 @110	21/2
Victoria 4 per centa	92 @ 94	97 @ 98	4
* Riae.			

The condition of the India firms referred to is not yet definitely reported, but the discouraging state of the cotton trade has been known for some weeks. Since 1873, the average price of goods has declined more than that of the raw material. Late in August, the Liverpool Post stated the margin between the price of cotton and the value of yarns and goods at from 1d. to 14d. less than in any year of the last five; that as trade was not doing well in any of those years it is of course worse off now; that spinners and manufacturers are ground between dear cotton and cheap yarns and goods; hence that this unremunerative state of things can but produce financial embarrassment, particularly among those who are connected with the export trade, which absorbs 75 to 80 per cent of the entire product of the United Kingdom. The following figures, taken from Messrs. Ellison & Co.'s last Liverpool cotton circular, show this condition very forcibly:

PRICES AT LIVERPOOL.											
Date.	Middling Uplands.	Common 32s cop.	Common 30s waler	Common 40s mule.	8 <sup>1</sup> 4-lb. Shirlings.						
Sept. 13, 1877. Sept. 5, 1878.		878 878	9 <sup>5</sup> 8 9 <sup>1</sup> 2	93 <u>4</u> 93 <u>4</u>	68.1 <sup>1</sup> 2d.@8s.3d. 6a.1 <sup>1</sup> 2d.@8s.0d.						

Here we see cotton, the raw material, 7-16d. per pound higher than at this time in 1877, while the manufac. turer is selling his productions at just the same price as then; furthermore, it should be remembered that, even at last year's rates, the spinner claimed he was losing money. Out of these facts, therefore, has probably arisen the bank's embarrassment. Confirmation of this is also seen in the failure, since announced, of the widely-known and conservative house of Messrs. Smith, Fleming & Co. The . cable does not state that there is any connection between these two events, but we have no doubt that there is. The failed firm, it is fair to presume, was one of the four or five India firms to whom the Glasgow bank had made advances, and, of course, some or all of the rest of them may go under also. Stocks of goods piled up in India, manufactured at these losing rates, and falling in price while cotton advanced, is, in brief, the As to the probability of extended explanation. trouble, however, it should be remembered that the accounts indicate that the failure of the bank had been pretty well discounted ; and yet, a few days or weeks will be required to determine the degree of disturbance.

Another point is worth noting. The discovery of an old deficit, if such exists, does not tally well with the profession of having a 60 per cent surplus and with the payment of large dividends up to a date quite near failure. Probably the continuance of ill-deserved credit has been attained by means of the dividends-a course not unprecedented, but one which rarely ends otherwise than by making failure worse. It is best in banking, as

new march

the actual facts; it is to be hoped that the course of the failed bank has really been an exception and that the conservative habits of the Scotch banks have been maintained.

### PERMANENCY OF RESUMPTION.

About two months ago, in commenting on the rise of the Bank of England rate at that time to 5 per cent, we called particular attention to the coin movement between this country and England during the ten years just ended, with the view of showing its bearings upon the pending and all-important matter of specie resumption. At that time, sterling exchange had been for some days working towards the point at which shipments of gold become profitable, and an increase in the export movement of coin seemed reasonably to be expected. But too much stress was laid, as it appeared, upon the then recent course of the exchange market, for a turn the other way soon set in, and the figure for demand bills has now so far changed that shipments of coin to this country are anticipated. There is more significance in this fact than appears at a merely casual glance, taking also into consideration the condition of foreign trade and all the attendant circumstances. First, note the table of the net movement of gold and silver, for the last fiscal year, which we have twice published before, but now bring down a month later:

		77				
	Net	Net	Net	Net		
Month.	Export.	Import.	Export.	Import.		
July	\$3,475,750	\$	\$8,292,545	\$		
Angnat	418,640		1,292,454			
September		567,271	203,932			
October	293,179			2,983,664		
November		783,294		4,522,402		
December	330,029			8,464,504		
		8		7		
January	\$1,940,639 *	\$	\$823,517	\$		
February		2,364,758	1,406,093			
March	962,030	*******		1,311,211		
April		1,969,335	2,323,951			
May	903,843		12,955,550			
Jnne	2,046,173		5,371,262			
July		633,566	3,475,750			
August	320,228		418,640			

These fourteen months thus show a decrease of nearly 17 millions in the net export as compared with the previous year, and for the last eight months only, the net export is \$621,283, against \$25,463,551 for the corresponding months in 1877, showing a decline of more than 24<sup>3</sup>/<sub>4</sub> millions. Turning to the condition of the Treasury, we find that the net available coin balance, which has been swelling for a year past-having been 401 millions, September 1, 1877-was 177 millions September 1. This is something over 50 per cent of the greenbacks outstanding, and, even without allowing for the portion of notes which are certain (if anything is certain) to be retained by banks and other holders, it is evident that this is a larger percentage of reserve than has ever been adjudged necessary or has ever been maintained, against its notes, by any issner in the world.

What is likely to be the change in this condition during the rest of the year? Comparing the net movement of specie during the past summer with that in the two previous years, we find that in 1876 there was a net export of \$11,000,550; in 1877, a net export of \$5,424,764; in 1878, a net export of only \$1,505,835. In merchandise alone, during the three summer months this year, there was an excess of exports of \$44,060,291; last year there was an excess of imports during June and July, and an export excess of only \$3,670,104 n other matters, to tell the truth and stand or fall by for the same three months. It thus appears that

=

during the season ordinarily the dullest as respects the outward movement of merchandise from this country as compared with the inward one, and very active as respects specie shipments, we have made only a nominal specie shipment and a very considerable export Now, as we all know, is the balance of merchandise. time of year when cotton exports in particular are large; cotton bills are already exerting their effect upon the market, and the turn of the exchanges, as well as of the specie movement, during the remainder of the year, is Turning back a few years, we thus plainly indicated. find that in the last quarter of 1876 there was a net specie import of over 15 millions; last year, the import was about \$150,000.

Remembering, therefore, that our production of the precious metals is continuing at its usual rate, it becomes evident from these statements that all the conditions point to a constant increase in the country's coin balance during the three months now remaining before January 1. And in prognosticating what will happen in these particulars, it appears to us that it is not only immaterial to the question at issue, but may even be positively misleading, to extend the conjecture too far into the future. When a person is in the critical stage which passes from fever into either a favorable change or the contrary, we do not involve in our minds the chances for his rallying with the chances of what may happen to him during and after the term of convalescence. In this matter of getting the country safely through its change from financial fever to a healthy life, the coming six or nine months are the time we have to deal with, not the years which follow. What course the foreign exchanges will take in 1880, or whether the movement which has been accumulating specie here can be maintained for another twelve months, is not the question of the present as regards resumption.

But the influences which most disturb confidence in the permanent establishment of a specie basis are the new movements of the inflationists in the political world. Even on this point we think there is less fear felt to-day than there was two weeks since, and it would seem as if the tide had turned, and that reason was again to hold sway. Without, however, placing reliance upon that expectation, being merely speculative, we do not think there are substantial grounds for the fears which are felt as to the power of the opponents of resumption. None of them entertain the idea that the Act can be repealed during December; what they regard as its mischievous work has already been wrought, and they expect to see its enforcement begun. But they do not mean to be passive spectators; their idea of course is to hamper the Secretary as much as possible, to play upon the fears and passions of the people as they can, and at the first appearance of mishap or of public alarm to proclaim that the Act has had its trial and has failed, and then, to rush to Washington with their "demand" for its immediate repeal. This has already been generally forescen by thoughtful observers, but many of them may have failed to note another consideration:-that all formidable resistance grows out of the fact that, under hard times, the delusion has spread that "contraction" caused by the Act is the trouble, and prosperity can be produced by more paper. The renewal of industrial activity will destroy this delusion, and make the mass of the present greenbackers perfectly satisfied with hard money. But until January, all financial interests in a measure remain in suspense-not necessarily in fear, but in the feeling that it is necessary to wait and see the thing done which is now to be done. Let con- October in each year, from 1875 to 1878, inclusive:

fidence in resumption as an accomplished fact be generally felt, and the natural result is to unlock money and set productive enterprises on foot; this offers employment to labor and hope to all; with that the greenback party melts away, leaving the removal of the obstructive laws which were passed last session a work of comparatively slight difficulty.

This view of the case upholds the conclusion that the next half-year is of more present consequence, as a subject for inquiry, than what comes after; in other words, resumption, once accomplished, will so commend itself and so shape circumstances to suit Itself that it may reasonably be trusted to take care of its own permanence. As to foreign trade, it is probable that imports will in some measure recover from their depression, as the condition of the country improves; but how does it follow that exports are, therefore, likely to decline as well, or even that they are not likely to increase? Here, it seems to us, the ordinary current of thought on this subject is led astray by assumptions based upon the past. On the contrary, it is certain that the productive facilities of the country, in point of cheapness, as well as quality, have been enormously increasing, not as respects food and raw materials only, but manufactured goods as well; that there has been some increase in export trade in manufactures; and that greater effort is making, and more expectation is entertained in respect to such trade than ever before. We are firm in the belief that the changes with regard to the vantage ground this country occupies as a competitor with Europe for the markets of the world, have not been fully appreciated as yet having been so silent. We cannot enlarge upon this at present, but if it is the fact it certainly should not be undervalued in estimating the degree of confidence to be placed upon the permanence of the specie basis, as far as the chances of that's being put to the test by an unfavorable turn in the exchanges. Is there not enough that is hopeful in the near future to relieve us from all need of borrowing trouble about what may come, say in the next fiscal year?

### FINANCIAL REVIEW OF SEPTEMBER.

The course of financial affairs was quiet in September, and undisturbed by any events of more than ordinary importance. The prominence given in the daily newspapers to the various political conventions throughout the country, and to the financial planks in their several platforms, had the effect of causing more than usual discussion upon the present and prospective financial status of the country. In the absence of any considerable demand, gold showed no advance in price, but in the market for investment securities a preference for gold bonds was perceptible. The breadstuffs movement was still large in volume; but in the Southwest the continued prevalence of yellow fever put a check upon business in the cities of the Mississippi Valley, and in some instances even prevented the picking of cotton in the field.

At the New York Stock Exchange the transactions, compared with two previous months, were as follows:

	July.	August	September.
U. S. Government bonds	\$12,:58,850	\$8,026,100	\$7,865,700
State bonds	872,000	491,000	598,000
Raijroad bonds	6,152,600	4,856,000	5,171,100
Bank stoche		1,429	644
Reilroad and miscellansous stocks "	8,680,305	3,416,023	3,009,486

The following summary shows the condition of the New York City Clearing House banks, the premium on gold, rate of foreign exchange, and prices of leading securities and articles of merchandise, about the first of

#### BANK MOVEMENTS AND THE MONEY MARKET.

In the statements of our Clearing-House banks the only important difference noted in their returns during the month was in the decrease of legal-tender notes, which fell off from \$50,683,500 on the 7th to \$45,680,700 on the 28th, in response to the usual trade demand for currency to move the crops.

The money market showed only a slight hardening in rates, and call loans were quoted at 1 to 3 per cent up to the close, while prime paper advanced in some cases to 6 per.cent, and was quoted at 4@6 per cent, according to the time it had to run.

#### FOREIGN TRADE OF THE UNITED STATES.

The total figures of the foreign trade movement have been reported by the Bureau of Statistics up to the close of August, and for the eight months of the calendar year from January 1. The excess of exports over imports in August (specie and merchandise both included) was \$22,516,448, against an excess of \$3,890,292 in August, 1877. The total excess of exports for the eight months, from January 1 to August 31, 1878, was \$189,-122,370, against an excess of \$64,415,546 in the same period of 1877. The following is a summary of the movement of both specie and merchandise, all in specie values:

EXPORTS	AND	IMPORTS	OF	THE	UNITED	STATES.

	1	1878.		1877

INVESTMENT SECURITIES.

5. .

The transactions in United States securities were not + Prices bid. + Prices asked.

as large in September as in the previous month. It was to he anticipated that with the opening of fall business, and the greater demand for money in mercantile channels, the sales of new 4 per cent bonds would show some diminution. The Treasury Department called in \$10,-000,000 more of the five-twenties of 1865, in the seventieth and seventy-first calls, each for \$5,000,000.

Railroad bonds showed a decided activity at advancing prices. Nearly all the leading bonds shared in the upward movement, and one of the features of the market was a preference for bonds payable in gold coin.

#### RAILROAD AND MISCELLANEOUS STOCKS.

In the early part of September the stock markets showed little animation, and prices were barely supported on some of the leading speculative favorites. Later, however, there was increased activity, and the three principal classes of stocks-the grangers and Western stocks, the trunk lines, and the coal carriers-all showed advances, with the most active transactions in grangers after the dividend of  $3\frac{1}{2}$  per cent was declared on St. Paul preferred. Western Union Telegraph was pretty strong throughout.

The following table will show the opening, highest, lowest and closing prices of railway and miscellaneous stocks at the New York Stock Exchange during the months of August and September:

#### GOLD AND EXCHANGE.

Gold changed very little during the month, and the market" showed no movement of interest. Foreign exchange was very heavy, and notwithstanding the importation of some considerable amounts of United States bonds, amounting possibly to \$10,000,000, the nominal rates for prime bankers' sterling fell off to 4.811 for 60 days and '4.86 for demand, with actual business done much lower.

#### [From our own correspondent.]

LONDON, Saturday, Sept. 21, 1878. The week just brought to a close has been one of the quietest in commercial and financial circles known for some time past. There seems to be some little unessiness with regard to the mercantile position, but the solvency of no particular house is called in question. The cause at present in operation which is producing the existing quietness is the diminished facility that exists for borrowing. Since the Bank rate has been raised to 5 per cent, loans which had been granted upon the security of Indian and Colonial government stocks have been freely called in, the Bank of England showing an unwillingness to renew them except on somewhat onerous terms. The market for those securities has, in consequence, been depressed, and, with the exception of Canadian bonds, the decline in prices has been heavy and it is still in progress. The prices quoted in the official list are wide, and they have led to some dissatisfaction amongst holders. In fact, so large an amount has been placed upon the market of late that dealers are unwilling to take any considerable amounts, and hence much weakness is apparent. We now perceive how the total of "other securities" has been maintained at a high point, notwithstanding the well-known scarcity of commercial paper. A very large proportion of it represents loans on securities, and it would certainly be a guide to the public, if a distinction were made between discounts and loans. The Bank of France has always set a good example in this respect. The particulars are given of bills over-due, of bills discounted, advances on deposits of bullion, do. of French public securities, do. railway shares and debentures, do. on Credit Foncier bonds, do. to the State; and the] debtor side is equally explicit. Were our own statement to be equally clear, a great boon would be conferred upon the whole community.

This week's Bank return presents but few changes. Those of any importance are an increase of £415,536 in the supply of bullion and of £610,631 in the total reserve. The amount of gold sent into the Bank from foreign sources, during the week embraced in the return, amounted to £466,000, so that coin is still wanted for provincial circulation, in connection with the harvest and the holidays. There is a small increase—only £34,254—in "other securities," and the other alterations are unimportant.

There has been a jair demand for short loans during the week, at about 41 per cent on the best security; but there has been very little inquiry for discount accomodation, and the rates of discount have had a downward tendency. The supply of mercantile paper is very limited, and it seems as if the long-expected improvement in trade would never take place. The greatest caution is observable in every department, which is to be attributed to the uncertainties about money as well as politics. Merchants are evidently disinclined to incur any; unusual risks, and the probability is that there will be cautious trading during the remainder of the year. The following are the present quotations for money:

The rates of interest allowed by the joint-stock banks and discount honses for deposits are subjoined: Per cent.

Annexed is a statement showing the present position of the Bank of England, the Bank rate of discount, the price of Consols, the average quotation for English wheat, the price of Middling Upland cotton, of No. 40's Mule twist—fair second quality, and the Bankers' Clearing House return, compared with the four previous years:

The imports of gold from the Continent continue, but upon a diminished scale. There is, however, no export demand, and the result is that the bulk of the supply is sent into the Bank. On Monday week about £500,000 are due from Australia. The silver market continues very dull, and the price of fine bars is only  $51\frac{1}{2}d$ . per ounce. The demand is chiefly for the Continent, the inquiry for the East being upon a very limited scale. This week's steamer for the East has taken out only £79,800 to Bombay. The price of Mexican dollars has declined to  $50\frac{1}{2}d$ . per ounce. The following are the present prices of bullion:

The Annales des Ponts et Chaussées has just published an interesting study on the relative number of accidents by rail and road, and some elaborate statistics showing the proportion of accidents to railway travelers in various Enropean countries. From the figures adduced, it appears that there is no comparison between diligences and railways in the matter of safety. In France, in pre-railway times, there was one traveler killed to every 335,000 carried, and of every 38,000 one was wounded ; whereas, out of 1,781,403,678 passengers who traveled on the railways of France between September, 1835, and December, 1875, only one to every 5,178,890 was killed, while the proportion of wounded during the same period was one to 580,450. If the accidents on French railways are divided into two groups, corresponding respectively to the periods between September 7, 1835, and December 31, 1854, and between January 1, 1855, and December 31, 1875, we have the following results : First period, one traveler killed in 1,955,555 carried; to 490,555 carried, one wounded. Second period (the 20 years ending 1875), one passenger out of 6,171,117 killed; one out of every 590,485 wounded. The tendency of railway accidents in France is, however, towards diminution, as an analysis of those of 1872, 1873, 1874 and 1875 plainly shows. The proportion of killed during the years in question was one passenger to every 45,278,270 carried, and one wounded to 1,024,360 carried. On the railways of Belgium the proportion-between 1872 and 1875-of killed to carried was one to 20,000,000; of wounded, one to 500,-000. During the same period-from 1872 to 1875-there was killed on English railways one passenger out of every 12,000,000,

and out of every 363,000 one was wounded. On Swiss railways the proportion of killed and wounded to every million travelers was 0.63 in 1974; 0.06 in 1875, and 0.88 in 1876. If these figures are trustworthy, and they seem to have been compiled with much care, it would seem that railway traveling in England is attended with greater risk than in almost any other part of Enrope.

The public sales of Colonial wool are still in progress. Up to this date, 224,000 bales have been catalogned, of which 19,000 bales have been withdrawn. 116,000 bales have yet to be offered, but the market is firm in tone. Political affairs have exerted an adverse influence upon the market, the tardy manner in which the Tarkish Government has been carrying out the terms of the Berlin Treaty, and the dispute with Greece respecting the rectification of the frontier, having led to some apprehensions about the future. The fact, however, that Turkey is too much exhausted to quarrel with Greece, and defy Enrope, is favorable to peace ; more especially as the Great Powers are fully convinced that Europe requires a long period of repose. These uncertainties regarding European politics, and the anxiety which is felt with regard to the result of the delicate mission of the Indian Government to Cabal, are quite sufficient to induce merchants to trade with caution.

The stock markets during the week have been exceedingly quiet, and prices have had a dewnward tendency. The attendance in the city at this season of the year is usually meagre, but it has been remarkably limited during the last week. Investment business has been upon a small scale, and there has been very little inducement shown to speculate. The principal fluctuations have been in Egyptian stocks, respecting which there is some difference of opinion. Although the more general belief is that, with judicious management and with patience, a balancing of income and expenditure will be practicable, prices do not improve. The 5 per cent guaranteed atock is obtainable at 75: and the 6 per cent unified at 564. These are low prices, if it can be proved that Egypt can pay her creditors in full; but it is evident that there is not entire confidence in such a result, though it is admitted that ultimately success is certain. Illinois Central shares have recovered to some extent from the depression which prevailed a few days ago, in consequence of the epidemic in the Sonthern States; but the American market has been generally quiet, without much fluctuation in prices. The large supplies of grain offering have caused the wheat trade to rule extremely dull, and, in order to effect sales, holders have been compelled to submit to a further reduction in prices.

The large supplies of grain offering have caused the wheat trade to rule extremely dull, and, in order to effect sales, holders have been compelled to submit to a further reduction in prices. Our imports are now upon a scale exceeding our requirements and stocks here are scenmulating. There appears now to be so smail a margin of profit upon the shipment of wheat from America that a considerable diminution in the export is fully anticipated. English farmers are marketing fair supplies, but, as the trade is just now much depressed, many of them are holding their wheat, and are marketing their barley. Good barley, suited to the requirements of maltsters, will command remunerative prices during the season, as there is a acarcity of really also on the Continent. Choice parcels are selling at 50s. per quarter.

quarter. According to the official return, the sales of home-grown wheat in the 150 principal markets of Eogland and Wales, during the week ended Sept. 14, amonnted to 52,591 quarters, against 49,084 quarters last year; and it is estimated that in the whole Kingdom they were 210,400 quarters, against 196,400 quarters. Since harvest, the sales in the 150 principal markets have been 141,450 quarters, against 105,376 quarters; while it is computed that they have been in the whole Kingdom 565,700 quarters, against 421,500 quarters in 1877. Without reckoning the supplies furniehed ex-granary, it is estimated that the following quantities of wheat and flour have been placed upon the British markets since harvest:

	1878.	1877.	1876.	1875.
Imports of wheat	cwt. 8.149.709	cwt. 2.127.593	cwt. 2,336,340	CWL 4.946.453

FRIDAY, OCT. 4, 1878-5 P. M.

The Money Market and Financial Situation .-... The Impor-The Money Market and Financial Situation.—The Impor-tant event of the week, affecting more or less the financial markets of the world, was the susponsion of the City of Glasgow Bank with liabilities of about \$50,000,000. As to the immediate and practical effects of this important failure there is little to be said, except that it is reported to have been caused by enormous ad-vances on merehandise, and that it will not probably lead to the embarrassment of other banks, but that the disaster will be lim-ited to these mercantile houses to whom advances had been made.  $\gamma$  In our local money market, rates have been somewhat higher, and even on government bonds as collateral 3 per cent for call loans has been paid, the general rate on stock collaterals being 3 ( $\tilde{\sigma}$ ) per cent, with exceptions at higher rates on Wednesday. Prime commercial paper has been in small supply and selling at 4)( $\tilde{\sigma}$ 6 per cent, running from 60 days to four months.

41@6 per cent, running from 60 days to four months. The Bank of England statement on Thursday showed a decrease for the week in specie of £75,000, the percentago of reserve to liabilities being 40% per cent, against 49 per cent the previous week. The last statement of the New York City Clearing House banks,

issued Sept. 28, showed a decrease of \$2,737,900 in the excess above their 25 per cent legal reserve, the whole of such excess being \$9,797,300, against \$12,535,200 the previous week. The following table shows the changes from the previous week

and a comparison with the two preceding years.

State and Hallroad Bonds .--- Louisianas have been the principal State bonds showing higher prices, and these in New Orleans have sold above 76, and closed here to-day at 747. It is stated that there is a large rice and sugar crop which must benefit the state in spite of yellow fever. South Carolinas are pretty firm, and Missouri bonds are bought to some extent on St. Louis orders.

Railroad bonds continue to show activity and prices are strong. It is remarked that most of the demand for investments now has to be supplied by parties already holding, as there are very few new bonds issued, and hence any considerable demand is likely to push up prices.

The following securities were sold at auction.

\* This is the price bid; no sale was made at the Board.

<sup>\*</sup> This is the price bid; no sale was made at the Board. **Itatiroad and Misceliancous Stocks.**—The stock market has been somewhat irregalar, and after falling off on Thursday and this morning, prices were again strong at the close. A large decrease is reported in the earnings of the St. Paul road for September, and the officers are commended by the public for keeping up the reports of earnings, whether an increase or decrease be shown on last year. Unefficially, a decrease of much less importance is reported in the earnings of the Northwest road. The decision against the bondholders in the St. Louis & Iron Mountain case put up the stock to 9½, closing at 8½. Upon the whole, the undertone of the stock market appears to be atrong, and the general opinion favors the idea that with the large crops in most parts of the country and a better spirit as to malatalning rates, railroad property is likely to have a prosperous fature.

Investments

### STATE, CITY AND CORPORATION FINANCES.

The INVESTORS' SUPPLEMENT is published on the last Saturday of each month, and furnished to all regular subscribers of the CHRONICLE. No single copies of the SUPPLEMENT are sold at the office, as only a sufficient number is printed to supply regular subscribers. One number of the SUPPLEMENT, however, is bound up with THE FINANCIAL REVIEW (Annual), and can be purchased in that share in that shape.

#### ANNUAL REPORTS.

#### Louisville & Nashville.

(For the year ending June 30, 1878)

In advance of the full annual report the following important figures are presented :

The bonded debt, as per last report, was...... Cecllian branch mortgage bonds issued during the year..... \$18,484,230 1,000,000

\$17,440,720 850,000 In this is included city of Louisville bonde, without mortgage .... \$18.590.720

We have also reduced the bonded debt of the Nashville & De-

We have also reduced the bonded debt of the Nashville & De-catur Railroad Company by the payment of twenty of its first mortgage bonds into the sinking fund, and the bonded debt of the South & North Alabama Railroad Company by the purchase of (66,000 of its sterling bonds for the sinking fund. In 1872-73, the fiscal year previous to the panic, the gross earn-ings of the various lines operated by the company were (6,106,051)and the net (1,434,047); in 1873-74, the gross earnings were (5,510,695) and the net (1,565,382); in 1874-75 the gross earnings were (4,863,873) and the net (1,682,132); in 1875-76 the gross earnings were (4,961,490) and the net (1,967,960); in 1876-77 the gross earnings were (5,315,326) and the net (2,140,550), and in the past fiscal year the gross earnings were (5,32,344,242), or (860,195) more than in the year preceding the panic. panic.

The net earnings of the Lonisville & Nashville Railroad proper for Showing surplus earnings of ..... \$681,391

Semi-annual dividends of 11 per cent upon the capital stock have been declared, amounting to \$270,174.

The amount charged to the construction account of the road during the past year was \$21,966; during former years, \$261,159 much be reimburged to \$283,125 which is to be reimburged to \$283,125 which is to be reimburged to \$283,125 which is the second sec

total of \$283,125, which is to be re-imbursed at the end of the lease.

SOUTH AND NORTH ALABAMA BAILROAD COMPANY.

'The result of the operation of this road during the past two years has been as follows :

Gross earnings	1376-77. \$758,682	1877-78. \$844.688
Operating expenses	560,825	551,039
Net earnings		\$293,643
Interest paid on bonded debt	\$345,930	430.007
		420,897
Amount advanced on construction account		45 915
Sixty-eight sterling bonds Advances and interest on old account	••••	62,666
Auvances and interest on old account		95,055

Total amount advanced during the year ... \$329,686 Indianapolis Cincinnati & Lafayette Railroad.

(For the year ending June 30, 1878.)

(For the year ending June 30, 1878.) The report of Mr. M. E. Ingalls, Receiver, has the following: The gross earnings have been \$1,309,087; the operating expenses, \$771,506; taxes, 43,191; leaving \$494,388 as the net, an increase over last year of \$3,578. There has been no con-struction account, and the entire expense of steel rails, renewals, new side tracks, court expenses, etc., have been charged to oper-ating expenses. This has carried the percentage of operating expenses up to 58 93-100 per cent, and it has been kept at that figure only by great economy and with the good fortune of hav-ing no serious accidents or wrecks. Twenty-three miles of main track have been renewed with steel rails, making 91<sup>‡</sup> miles now laid with that material. Elghty-five thousand new cross ties

have been put in the track, and the ditching and ballast kept good. As compared with the preceding year, the tonnage has increased 5 36-100 per cent and the rates decreased 1 75-100 per cent; 41,000,163 tops were carried one mile at the average rate of 1 68-100 cents per ton per mile, against the rate of 1 71-100 last year.

last year. As compared with previous year, east-bound freight increased 11,210 tone, and west-bound 19,117 tons. 549,587 passengers were carried one mile at the average rate of 2 67-100 cents, an increase of 8-100 in the rate over previous year, and a decrease in mileage of 15,277. Our relations with all of our connections are harmonious. Our earnings for the coming year depend largely on what the trunk lines may do to establish and maintain fair ratea. They own and control so many extensions through the West that almost absolute power to build up or destroy is in their hands. We have good crops, and our local business will be good. ENGIVER'S FROFIT AND LOSS ACCOUNT FOR YEAR ENDING JUNE 30. 1879

Kallroad Company is liable for 40 per cent of what-ever dedciency there may be in the earnings of this Street Connection Rail ways towards paying aix per cent on \$525,000 bonds issued by the Little Miami and C. & I. Railroad Companies for building this Connection track, and secured by mortgage on it.

-354

#### Northern Pacific.

(For the year ending August 31, 1878.) The annual report of this company furnishes the following: LAND DEPARTMENT.

The operations of this department during the year have been exceedingly active; the amount of land disposed of being nearly, three quarters of a million acres, as per following details of sales and receipts :

Land sales— In Minnesota In Dakota	660,019	For \$399,883 2,974,711 15,333
Total Timber sales Minnesota division Pacific division	\$13,964	\$3,379,432 24,850
Town lot sales- Fargo	150	\$3,403,782
Caselion. Andubon. Wadena.	2,085 160 423	9,245

In payment of the above there has been received :

### \$3,413,027

The absorption of Government lands within our grant, during the year, has been even larger than the railroad sales. During the twelve months ending with June last, the follow-lag entries were made in the Government land offices:

	.Entries.	Acros.
St. Cloud	907	87,597
Detroit	2.450	366.719
Fergus Falls	2.014	271.274
Fargo, D. T	3,921	586,734
Bismarck	69	11.092
Total	9,361	1.823.416

These entries are made only under the pre-emption, home-stead, and tree culture acta, all of which require occupancy and cultivation.

In correction of a prevalent impression that capitalists take up large areas to hold for speculation, we take this occasion to state that the great majority of purchasers carry but the ordinary-sized farms of from eighty to three hundred and twenty acres, and that the average holding of all the purchasers who have taken lands of the company is less than six hundred acres; while most of the larger purchasers are cultivating on a scale proportionate to their holdings. The lands of the company in the Bed River valley having been

The lands of the company in the Red River valley having been mostly taken up, attention has been paid to developing the upland prairies of Dakots and the lands of the Missouri slope.

The progress of the land department on the Pacific division is not so satisfactory. Under the plan of re-organization, only the lands east of the Missouri river were made exchangeable for stock; and the Pacific coast lands being under the treble disadvantage of cash sales, a heavy covering of forest, and compara-tive inaccessibility, have thus far sold very slowly. The sales of this year are less than 5,000 acres, and the aggregate sales to this

this year are less than 5,000 acres, and the aggregate sales to this time, including all exchanged for bonds before the re-organiza-tion, are only about 176,000 acres. At the annual meeting of 1876, the stockholders instructed the board to take into consideration the expediency and legality of anthorizing the exchange of the lands on the Pacific coast for preferred stock, and, if their conclusions were favorable, to report a plan for such exchange. The board is advised that there is no legal obtacle in the way of such an exchange, when property authorized by the compre-

The board is advised that there is no legal obstacle in the way of such an exchange, when properly anthorized by the corpora-tion, and in view of the apparent hindrance to occupation and improvement growing out of the present cash system, the net results of which are insignificant, they now recommend that suit-able action be taken at the annual meeting to anthorize such exchange, subject to asmail percentage of cash payment required for maintaining the local land department of that division.

#### PACIFIC DIVISION.

The outlays required during the past year for renewal of periahable structures on this division have been large, aggrega-ting about \$20,000. In many cases, however, the work done has been of a permanent character, wooden treatles having been replaced by solid embankments of earth and stone. The gross earnings of the division included in the general exhibits of this report were \$123,878 and the ordinary expenses were \$80,949. The extraordinary expenses for renewals and improvements were \$21,620. \$21,620.

#### THE ST. PAUL CONNECTION.

THE ST. FAUL CONNECTION. At the last annual meeting, the subject of securing the comple-tion and use of a line of railroad in the Mississippi valley, to con-nect Brainerd with St. Paul, was submitted to the stockholders, and, by a resolution then adopted, the action of the board, in subscribing to a majority of the stock of the Western Railroad Company of Minnesota, organized to build said road from Brainerd to Sauk Rapids, was approved and confirmed. The board was also authorized "to lease said road when completed, at a suitable rental, such as shall cover the interest on the secur-ities iasued to construct the same." The road was completed and opened for traffic in November

The road was completed and opened for traffic in November last, and was operated for account of its owners until the first Instrume that was operated for account of its owners until the first day of May last, when it was leased to this company for a term of ninety-nine years, apon an annual rental of thirty-five per cent of the groes earnings of said Western Railroad for the first five years, and forty per cent thereafter; with a guarantee that in each year the rental shall be equal to the annual interest at neven per cent on the outstanding bonds of said Western Railroad Company; which bonds are not to exceed ten thousand dollars per mile of said road.
The operations of this branch are proving satisfactory to both parties—the thirty-five per cent yielding the Northern Pacific a surplus over the cost of running and maintaining the road.
The opening of this branch shortens the distance between St. Paul and the Wester to compete for the St. Paul & Dulnth road—and enables this company better to compete for the business of the Red River Valley.

Valley.

Valley. EXTENSION OF CHARTER. The charter of the company, as amended, limits the time for completing the entire road and branch to. July 4th, 1879. Although the company loses no rights by lapse of time, in the absence of affirmative hostile legislation by Congress; and although the recourse reserved in the charter in case the company continues in default for upwards of one year is that "the United States, by its Congress, may do any and all acts and things which may be needful and necessary to insure a speedy completion of the same road;" yet it seemed important to secure the fixing of a reasonably practicable time for the completing of your road and branch, before undertaking to raise money for construction. Your directors, therefore, applied to the first Congress that assembled alter the re-organization of the company, and no oppor-tunity has eluce been lost, and no pains have been spared, in urging the desired legislation. In the first asseion of the Forty-fourth Congress a bill passed the Senate, but got no further than the House committee before

the Senate, but got no further than the House committee before the adjournment.

At the second session it was favorably reported from the House committee and placed on the calendar. But it was too late to be reached in the regular order of business, and the friends of the measure being unable to get it up, out of its regular order, it failed to become a law.

Upon the assembling of the Forty-fifth Coogress, your directors again presented the measure, and exhaustive hearings were had before the committees of both houses. A bill passed the Senate

before the committees of both honses. A bill passed the Senate granting an extension of ten years, but containing some objection-able provisions. This bill went to the table of the House. An attempt was made, near the close of the session, to take it up for consideration and amendments, out of its regular order, but the required two-thirds vote could not then be obtained. The House committee, after great delays, and hearing protracted to a vexatious extent, by parties desiring to seize the Columbia river portion of our line, for the benefit of a branch to the Union Pacific road, finally reported a bill, extending the time for constructing the main line. This bill went on the calendar of the House, and, not being reached at the adjournment, lies over, together with the Senate bill, as unfinished business to be considered at the next session.

#### GENERAL INVESTMENT NEWS.

Arteguency varies,—The following notice is dated Sept. 28: "The fand applicable to the payment of the interest due Oct. 1, 1873, on the income bonds of the Aliegbeney Valley Railread Company being insmittent to pay the whole of such interest, the amount of the fund will be distributed prorata, according to the terms of the bonds, allowing the sum of \$1250 fer each \$35 coupon, and proportionately for smaller amounts, to be paid in cash; and for the balance of the coupons, bonds of the same issue and acrip con-vertible into such bonds for the sums that may be due ises than \$100 will be issued according to the company in this city on and after Oct. 1, where the cash payments will he made, and an order will be given on the trustees for the bonda and eorip." Alleghency Valley.-The following notice is dated Sept. 28:

Ashtabula Youngstown & Pittsburg.—The name of this railroad has been changed to Ashtabula & Pittsburg Railroad. The road was sold last month under foreclosure proceedings, and at the re-organization meeting a new board of directors was elected as follows: Messrs. Warren Packard, Henry Hubbard, H. L. Morrison, A. C. Fisk, J. J. Brooks, C. B. Wick, F. Harring-ton, Geo. B. Roberts, W. S. Bissell, W. Thaw, W. P. Shinn, Thos. D. Messler, W. Mullins. Mr. Warren Packard, of Warren, Ohlo, was elected president, and Mr. Henry Hubbard, of Ashtabula, secretary and treasurer. The road has been operated by the Peonsylvania Company, and the probabilities are that that company will continue to operate it.

Boston Interest and Dividend Payments.—The monthly statement compiled by Mr. Joseph G. Martin has the following : The changes in the bank dividends this six months are not as The chaoges in the bank dividends this six months are not as many as heretofore, most of the banks having previously reached hard-pap, very nearly. The Atlas reduces from 2½ to 2 per cent, Boylston 3 to 3, Bunker Hill 4½ to 4, Ellot 3 to 2, Exchange 4½ to 3, First National 5 to 4, Peoples 4 to 3, Second National 3½ to 3, and Shoe and Leather 2½ to 2 per cent. The following increase: Commonwealth 0 to 2 per cent, Everett 0 to 2, Fourth National 0 to 2, Hamilton 2 to 3, Metropolitan 0 to 2½, and Rockland 3½ to 4 per cent. Nine banks pass dividends. It is an encouraging fea-ture of the times that some of the banks which were compelled to pass six months ago are now enabled to resume payment. The Revere Bank reduced its capital from \$2,000,000 to \$1,500,000, February 1, 1878. The Blackstone will reduce 0 ctoher 1 from \$2,000,000 to \$1,500,000, and the Merchandise from \$1,000,000 to \$450,000 by charging of \$50,000, then returned to shareholders \$250,000, leaving the new capital \$200,000. After paying the October dividend, this bank will have a clear surplus of \$15,368 47, with Government bonds at par. Of the sixty-one banks within the limits of Boston, one pays 5 per cent, seven 4 per cent, two 3½ per cent, fourteen 3 per cent, one 3 per cent ounterfy five 24 per cent, seven 4 per cent, fourteen 3 per cent,

Of the sixty-one banks within the limits of Boston, one pays 5 per cent, seven 4 per cent, two 3½ per cent, fourteen 3 per cent, one 3 per cent quarterly, five 2½ per cent, seventeen 2 per cent, one 1½ per cent; nine pass and four undecided, which renders it impossible to give a fair average rate for the six months. The Pullman Palace Car Company will redeem in New York \$602,000 of 7 per cent bonds maturing October 1. By the terms of the Jease to the Fitchburg Railroad Company, the Vermont & Massachusetis rental became 6 per cent on the stock from January 1, 1878, one quarter being at the rate of 5 per cent and the second quarter at 6 per cent; the April dividend was 2½ per cent. cent.

Brooklyn Bonds.—The bids received by Controller Barrell for \$300,000 of 5 per cent assessment fund bonds amounted to \$1,431,500, the prices ranging from 100.064 to 100.60, and the total of bids for the same amount of 6 per cent bridge bonds was \$945,000, at prices ranging from 102.25 to 105.326.

VOL XXVII.

Central of New Jersey.—The so-called blanket mortgage of 1876 has been canceled. By this conveyance, the Central Rail-road of New Jersey, to secure the payment of 5,000 bonds, of \$1,000 each, on September 1, 1876. mortgaged to Samuel Knox and John Kean, as trustees for the benefit of bondbolder, all their franchises, rolling stock, depota, &c., &c.; also, 15,000 shares of the capital stock of the New York & Long Branch Rail-road Company, par value \$1,500,000; also, 132,000 shares of the capital stock of the Lehigh & Wilkesbarre Coal Company, par value \$6,600,000; also, 8,000 shares of the High Bridge Railroad Company, par value \$800,000; also, 2,000 shares of the Longwood Valley Railroad Company, par value \$200,000; and, also, 50,000 shares of the capital stock of the American Dock & Improvement Company, par value \$3,000,000. Company,par value \$3,000,000.

Cherokee.—This road is advertised to be sold at Cartersville, Ga., November 5, under decree of the United States Circuit Court. The road is completed from Cartersville to Rockmart, twentythree miles.

Chicago Burlington & Quincy.—The contract has been let for building the proposed branch from Chariton, Ia., northward to Indianola, where it reaches a branch of the Chicago Rock Island & Pacific, the work to be done by December 1.

Cincinnati Hamilton & Dayton.—Below is a comparative statement of earnings and expenses of this road and its connec-tions for three months ending June 30, 18:7 and 1878:

	and and and	EARNINGS.			
	C. H. & D. Earnings 1878 \$201,722 Earnings 1877 210,182	D. & M. \$191,918 \$210,747	C. R. & C. \$:4,187 43,027	C. H & I. \$78,657 81,557	Tetal. \$519,386 535,515
	Increase 1878 \$4,510 Decrease 1878	\$18,829 EXPENSES.	\$1,059	\$2,899	\$15,129

2	Net increase 1878 \$9,243 Net decrease 1878	\$11,213	\$6,4:3	\$24,928	\$6,545

Detroit & Milwankee.—The Detroit Post and Tribune of Sept. 28 says: "Yesterday was the last day for filiog exceptions to the recent chancery sale of the Detroit & Milwankee Railroad. No exceptions were filed; therefore, by virtue of that fact, the sale stands confirmed. The re-organization of the company will now proceed in accordance with the plan previously agreed upon" upon.

Eastern—(Mass. & N. H.)—A special meeting of the stockhold-ers of the Eastern Railroad of Mass. was held in Boston Sept. 30, General A. P. Rockwell presiding. At the opening of the meet-ing Mr. Rockwell made a statement, in which he said that the meeting had been called by the directors to coesider certain proposed modifications of leases existing between the Eastern of Mass. and the Eastern Railroad in New Hampsbire, and between that company and the Portsmonth Great Falls & Conway Railroad. The main features of the plan agreed upon are these: *First*—The existing leases by the Eastern Railroad in New Hampshire to this company, and by the Portsmouth Great Falls & Conway Railroad to the Eastern Railroad of New Hampshire to be canceled.

to be canceled.

Second-The Eastern Railroad in New Hampshire makes a new

Second—The Eastern Railroad in New Hampshire makes a new lease to this company for a period of sixty years, at an annual rental of \$22,500. Third—The Portsmouth Great Falls & Conway Railroad extin-gulakes all its present indebtedness and takes up the \$1,000,000 of 7 per cent bonds by a new issue of \$1,000,000 of 4 per cent bonds, secured by mortgage of all its property. Fourth—The Portsmouth Great Falls & Conway Railroad makes a new lease to this company for a period of sixty years, at an annual rent of \$45,000, which is to be received in trust and appropriated solely to paying the interest on the new mortgage bonds, the only additional rent being such dividends to the Portsmouth Great Falls & Conway Railroad stockholders, share for share, as this company may hereafter pay to its own stock-holders.

holders. The Boston Advertiser says that in answer to questions General Rock well explained further: "By the old contract between the Eastern Railroad and the Eastern Railroad of New Hampshire, divided when stock as were Rock well explained lutther: " By the old contract between the Eastern Railroad and the Eastern Railroad of New Hampshire, the latter was to receive the same dividends upon stock as were paid to the stockholders of the former. In the Conway matter the Eastern Railroad was to pay to the stockholders of the Con-way road the same dividends which were paid to the stockhold ers of the Eastern Railroad. This million dollars of Conway bonds was put out by the Conway road and guaranteed by the East-ern. To be substituted for it is the million dollars of mortgage bonds upon the Conway road without the guarantee of the East-ern. The original lease of the Conway road was to the Easter Railroad of New Hampshire. The present lease is to the Eastern Railroad of Massachusetts. The lease is direct between the two roads. It ought to be said that of the million dollars of bonds which were issued only \$514,000 were sold, the Eastern Railroad holding \$456,000 of them, so that the annual rental, the cash pay-ment, would be somewhere about half the \$45,000. The old bonds of the Conway road were at seven per cent; the rate of the proposed bonds is to be four and a half per cent. Messrs. O. K. Shurtleff, of Portland, H. J. Stevens, of Boston, and Nathaniel Ropes, of Salem, were appointed a committee to collect, sort and couut the votes. At four o'clock they were unable to report the result, and the meeting took a recess till

next Monday at 11 o'clock, till which time the polls will remain open.

-At Pertsmouth, N. H., Oct. 1, the shareholders of the Eastern Railroad of New Hampshire held a special meeting. The indentures agreel upon between the oilicers of the two roads were read and approved.

Fort Wayne Jackson & Sagluaw.-Judge Harlan, at Chicago, denies the motion to put the toustees in possession. He says the denies the motion to put the trustees in possession. The says the right of the trustees to take possession arose out of the contract between the parties. Having been denied possession, they brought snit, and asked a decree executing the contract. The railroad company opposed the motion, though admitting the default, admitting that they could not excape a decree of fore-closure, but announcing their willingness, if the trustees should wish it, to appear at any time and confess a decree of forecloaure, protesting that in the meantime, the possession of the present protesting that in the meantime the possession of the present innangers should not be disturbed. \* \* \* When a railroad company offer to confess a decree of foreclosure, and confess it in advance of the answer being due, it seemed that that was as far as a Court could require them to go under the circumstances. There were no just grounds on which the motion would be granted. There was no formal motion made for the appointment granted. of a receiver; but if the motion had been made, there was no reason, on the facts shown, for disturbing the present management of the road. The motion would therefore be overraled.

Gas Stocks,-The Indicator says: "The recent discussion relative to the use of the electric light in our public parks and streets has had a great effect upon the price of gas stocks. Only a few years ago i as stocks were regarded as the safest invest-ment that could be made, and, notwithstanding the high figures at which they sold, they were held universally for the sake of the high dividends they paid. Now, however, the advent of the electric light, and the imposition of the gas companies, have led investors to regard gas stocks with disfavor, and in conse-quence the prices have declined. On the fourth of the present month Wanhattan sold at 2001, but on the twonth of the present month Manhattan sold at 2004, but on the twenty-fifth it sold at 1624. During the same period Metropolitan declined from 182 to 125. Mutual fell off from 75 to 70@71, and Harlem, which on the first of the month sold at  $72\frac{1}{2}$ , is now (reely offered at  $42\frac{1}{2}$ ...43. New York gas was offered at anction last Wednesday at 80, but on the 18th instant it sold at 93. These figures show a great for years past been the most arrogant corporations in existence. They have always been monopolies, and they have never lost an occasion to let their customers know it. The people finally have become tired, and now in many houses, more particularly in Brooklyn, kerosene oil takes the place of gas."

ludianapolis Bloomington & Western. —A motion was made recently before Judges Harlan and Blodgett, in the case of the Farmers' Loan & Trast Company cs. the Indianapolis Blooming-ton & Western Railrosd Company to modify the decrees. A de-cree was rendered some time ago in the District Courts of Indiana and Illinois for the foreclosure sale of all the property of the line in the second solution. railroad, without reserving any right of redemption. After the decision of the United States Supreme Court in the Brine case, to the eff-ct that forcelosure decreas in this State must be made in accordance with the S.ate statutes, which give a certain time for redemption, a motion was made by the mortgagee to alter the former decree so as to allow redemption. It was argued by the counsel for the creditors of the road, who oppose the motion, that the redemption statutes of Indiana and Illinois had no application to railroad property, and that the present case was not con-trolled by the Brine case, which applied to real estate owned by private parties, and was in no wise connected with public interests. After the arguments the case was taken under advisement. —The sale of the Indianapolis Bloomington & Western road has been postponed from October 1 to October 30, by order of the court.

Kausas Pacific .- The Denver Extension bondholders of the Kansss Pacific Railway Company met in this city, with Mr. Horace White in the chair; 3,493 bonds was represented. It was Was annonneed that \$3,881,823 in bonds were on deposit with the

United States Trust Company. The committee of nine first mortgage bondholders sub-mitted a report on the condition of the road, suggesting that a plan for re organization he prepared, the mortgaged property being now in default more than \$2,000,000. A condensed state-ment of the operation of the road under the receivers was read, showing:

and tweely-five cays
Approximate net earnings
Less Government transportation not paid, about
Available earaings
Being at the rate of about

months of the current year, which show the largest earnings. The total interest charge on the first mostgage bonds of the Eastern and Middle division bonds and certificates is.....

Leaving apparently per anoun applicable to Denver Extension bonds and certificates, the whore amount of which, including unfunded passed coupons, is \$\171,01^{.1}\$. The earning capacity of the property, without counting receipts from lands, would therefore seem to be equal to nearly 6 per cost per annum upon the whole Denver Extension mortgage dett.

The receivers' certificates outstanding are placed at \$34,000,

429.234

\$415,765

and these, added to the available enroings, make \$1,698,159, accounted for as follows :

For pay-rolls, supply blits and taxes tocurred prior to the receiver-

-A circular has been issued by Mr. Adolphus Meier, one of the trustees of the land mortgage, under date of September 21, in which he gives a summary of the operations of the land grant to July 31, 1878, and states the situation as follows:

Land obligations on band	\$15,201
First mortgage land grant bonds redeemed	813,752
First mortgage hand grads bound redeened	422,000
First mortgage land grant bouds outstanding	1.578.001
"The above statement shows the exact condition of t	
and above statement shows the exact condition of t	he land

grant trust on the 31st of July, A. C.

\$365,000

2.210.000

money, but under the worst aspect it appears that the 1st more gage land grant bonds will be paid in full with interest and that there is no ground for the present low prices. Orders have been issued to the land commissioner to receive the 1st mortgage land grant bonds with accrued interest at par, for all obligations for land sold, and this will no doubt croate a demand for the bonds."

Keokuk & Des Moines.-The transfer of the Keokuk & Des Moines Railroad to the Chicago Rock Island & Pacific Railroad Company took place October 1, under the provision of the lease recently agreed upon.

Michigan Lake Shore .- A circular has been issued stating

that: "The Michigan Lake Shore Railroad having been sold under "The Michigan Lake Shore Railroad having been sold under its mortgage, and purchased by the bondholders, a new corpora-tion has been by them organized for the purpose of operating it, under the name of the Grand Haven Railread Company. under the name of the Grand Haven Railread Company. Existing arrangements, contracts, etc., with other companies will be respected, unless notice is given to the contrary."

Milwankee Lake Shore & Western.-The Supreme Conrt of Wisconsin in the quo varranto proceedings against this company, to have its charter forfeited for a violation of the laws of Wisconsin, which require the company to keep its books and papers within the State, decides that "an information showing that the principal office of the defendant company is in the city of New York; that its books and records have always been kept in that chy; that none of its principal officers reside in this State; and that, by reason of these facts, it has been impossible to enforce an attachment against the shares of stockholders in the company in actions brought in courts of this State, in accordance with the laws thereof, shows sufficient ground for adjudging a forfeiture of the company's charter."

Montelair & Greenwood Lake.-This road was offered for le in Jersey City on Saturday, September 23. Messrs. Hewitt Montclair & Greenwood Lake.—This road was offered for sale in Jersey City on Saturday, September 23. Messrs. Hewitt and Dumont, of the purchasing committee of the bondholders assenting to the plan of re-organization, were present, and atarted the bidding at \$50,000. Colonel A. W. Benson was also present, and bid \$1,000 over the committee. The bldding continued until \$156,000 had been offered by the committee, when, on request of the committee, the Master adjourned the sale to October 5, ngsinst the protest of Mr. Benson, who controle \$100,000 of the bonda. bonds.

New Jersey Real Estate Mortgages .-- Judge Dixon, of the Supreme Court, lately held that obligations which matured prior Supreme contr, rately need that obligations which instured prior to July 4th last should bear interest at 6 per cent, as the law changing the rate of interest iron 7 to 6 per cent went into effect on that date. As the great majority of mortgages outstanding matured long ago, this decision affected nearly all of them. After-ward, Judge Dixon annonneed that he had changed his views on the subject and would allow the rate of interest anthorized by the subject, and would allow the rate of interest authorized by law at the time the obligation was entered into. Judge Dixon finding that his first decision was in conflict with the late Supreme Court decisions he made the damages 7 instead of 6 per cent, to be calculated up to the 6th of November next. The question may then come before the Supreme Court, of which Jadge Dixon is a member.

New York Central & Hudson River .- The Buffalo Commer cial of September 28 says:

"On the 23d instant a bill of exceptions on the part of the defendant, in the case of the Now York Central & Hudson River Railroad Company vs. John M Bailey, was settled at Syracuse l

by Jndge Wallace. It will be recollected that in Jnne, 1874, in the United States Circuit Court at Canandaigua, the case was tried before Judge Wallace, and he directed the jury to render a verdict for the company for \$594,002 S9, taxes and interest claimed to have been illegally exacted by the defendant as Col-lector of Internal Revenue. Hon. Richard Crowley, attorney for defendant then carried the case to the United States Supreme Court by a writ of error, and that Court reversed the judgment of the Circuit Court, and remanded the case for a new trial. The new trial was had before Judge Wallace, at Utica, last March, Mr. Choate, a law partner of Hon. William M. Evarts, and S. T. Fairchild appearing for the company, and Mr. Crowley for the defendant. The trial occupied a week, and resulted in a verdict for the company of \$499,432 68, taxes and interest. Another writ of error is to be sued ont by the defendant, and the case will again be reviewed in the United States Supreme Court. The amount collected was abont \$600,000; and it was paid into the United States Treasury. The case is of importance to the Gov-ernment as well as to the company."

New York Lake Erle & Western (Erle).—As the period for assents to be given to the Erie plan of re-organization positively terminates October 31, the following comprehensive review of Erie affairs from the circu'ar of Messre. Satterthwaite & Co., of

London, will be found interesting: "In order to give some idea of the ordinary net earnings, we give below the amounts received for the last sixteen years, under give below the amonnts received for the last sixteen years, under varions managements. From these returns it will be noted that the lowest period of net earnings, notwithstanding fairly large traffics, was under the 'Jay Gould' administration. The largest was under 'Watson,' both as to traffic and net earnings, being a period of considerable activity prior to the financial collapse in the autumn of 1873. The returns as given from 1874 to 1877, under President Jewett, indicate, under the circumstances of the period, careful management, and, with increased traffic and bet-ter rates hereafter, profits may show a decided improvement.

The assessment may be presumed to yield to the new organization-

\$3,290,738

"Against this amount must be deducted the sum decided by the court to be due on the closing up of the old company and paying the receiver's certificates, unless they can be funded. The money available for improvements on the line will be the balance after discharging these liabilities, and any surplus over interest charges and rentals in 1878 and 1879."

After giving estimates of the new work to be done, the circular

says: "Of the estimated work in 1877, we understand that the cost of "Of the estimated work in 1877, we understand that the cost of laying the third rail from Buffalo to Susquehanna-230 miles-(including the cost of 25,000 tons of steel rails) has been defrayed out of current expenses; that the cost of preparing the road for but of current expenses; that the cost of preparing the road for third rall from Susquehanas to Jersey City (192 miles) has also been defrayed out of current expenses. The cost of the steel rails required to complete the third rail will have to be provided from the assessment and net earnings. This will amount to \$971,600.

"Contracts have been entered into to supply 30 locomotives of

narrow gauge to be delivered within three months from 1st Sep-

narrow gauge to be delivered within three months from 1st Sep-tember, payments spread over three years, which will fall on the ascessment and net earnings, and which will amount to \$247,500. "We also understand that very favorable contracts have been made to supply the company with 3,000 instead of 2,000 box cars of narrow gauge pattern, involving a cost of \$1,375,000, to be delivered from 1st September, payments to be made over a period of five years, which will enable the company to pay for them out of current expenses."

New York & New England Railroad.—Up to the 3d inst. this company had redeemed \$600,000 of the Hartford Providence & Fishkill bonds. The holders offered no objection to receiving payment.

N. Y. West Shore & Chicago .- The sale of this railroad, which N. 1. West Shore & Chicago.—The sale of this railroad, which was to have taken place under foreclosure recently, has been postponed until Oct. 28, to enable the holders of bonds who have not yet signed the proposed plan of re-organization to do so, and to save the franchise. The total amount of outstanding defaulted bonds is \$7,000,000. The holders of \$5,000,000 have signed. Of these, \$3,000,000 are owned by ex-Governor Page, President of the construction committee. Only two miles and a half of road are built.

Oregon & California.—A general meeting was held in Frank-fort, Germany, Sept. 30, of bondholders of the Oregon & California Railroad, at which bonds amounting to \$2,811,100 were represented. A resolution was adopted, by a large majority, approving proposals of the committee for acquiriog and completing the Oregon Central Railroad, and accepting the financial propositions connected therewith.

Paris & Danville.—The sale of the Paris & Danvills Rail. road, which was set for October 2, has been postponed to the 23d by order of the United States Court.

by order of the United States Court. St. Louis Iron Mountain & Southern.—The case of the Union Trust Company, of New York, vs. the St. Louis Iron Moun-tain & Southern Railroad Company was decided this week in the United States Circuit Court at St. Louis, Judges Dillon and Trest delivering separate opinions. The St. Louis (*Hobe-Democrat's* report says: "The bill was to foreclose a mortgage for default on the payment of interest on the railway and appurtenances of the defendant company. The defense was that the promoters of the suit bad extended the time of payment beyond the date at which the suit was brought. The facts relating to this defense stated and held not to amount to an agreement to extend, nor to estop the trustee from maintaining the bill, but only to a waiver of judgment of interest at the covenant day, which may be termi-nated on notice and demand for full payment. "The mortgages upon distlact divisions of its road made by separate company; the plaintiff had not paid anything in respect of these divisional mortgages, and the holders thereof were not parties to this suit. *Held*, that no decree of foreclosure could be granted in respect of the default of the payment of interest on the divisional mortgages. "The principal sum named in the mortgage in suit not being due, a decree can go only in respect of the interest dne and unpaid.

unpaid.

"Judge Dillon remarks in his opinion that upon the facts these questions of law arise :

411. Was there a valid sgreement, founded npon a sufficient consideration, whereby the payment of one-half interest on the bonds, both divisons! and consolidated, so far as owned or controlled by the Meesrs. Ward, was extended to November, 1878 ?
42. Whether what was done and said by the Meesrs. Ward in October, 1876, create, as to them and their principals (the Baringe) an equitable estoppel to investigate and maintain a foreclasure bill, prior to November, 1878 ?
43. If there was no such valid agreement or estoppel, what is the leval effect on the rights of the bondholders of the transactions of October, 1876 ?
\*\*In enswer to the first question, the Judge says: 'It is difficult to see any solid foundation for the claim that there was a contract for a definite extension'

solid foundation for the claim that there was a contract for a definite exten-sion '
"The question of estoppel is more difficult. The Judge, after stating the difficulties, says: 'We cannot decree to the complement in this suit any sum in respect of the default on the divisioning mergages, since it has no right to receive the money due on those mergages, and the Court on this bill has no authority to order the sele of epecific property covered by the several div-sional mergages. The complement is the trusteer representing all the bond-holders, is only entitled to a decree as respects the nonpayment of interest ou the consolidated mortgage. There is no provision in the instrument that a default in the payment of interest will cance the principal sum to fail due, and hence these consolidated mortgage.' Judge Treat is of the opinion that the transactions of October, 1876, work an equitable setoppel on the pro-moters of this suit to maintain it, and, if desired, we will finally certify a division af opinion on this point to the Supreme Court. Meanwhile, the cance will stand for further hearing as to the contexted bonds, or be referred to a master to state an account and report."

St. Louis Lines Pooling.—It is stated that the managers of the five lines east out of St. Lonie, namely, the Vandalia, the Indianapolis & St. Louis, the Ohio & Mississippi, the Wabash, and Chicago and Alton Roads have agreed to pool the east-bound business out of St. Louls, on a basis of 20 per cent to each road, the pooling agreement to be in force for one year from the time of its taking effect, October 1, 1878.

Southern Minnesota.—A trust deed has been given by the Southern Minnesota Extension Co., for the sum of \$1,200,000, covering the lands of the Co., the proceeds to be used in complet-ing their road. The deed is filed in the Register's office at Jackson, Minn.

Wisconsin Central.-Papers have been filed for foreclosing the mortgage on this road. The hearing was set for the first Monday in October.

### THE CHRONICLE.

## The Commercial Times.

### COMMERCIAL EPITOME. FRIDAY NIGHT, October 4.

FRIDAY NIOHT, October 4. General trade continues to improve, although the yellow-fører epidemic still prevalls in the Southwest. There is now, how-ever, reason to hope for its early abatement, as well as assurance that it will not spread further. Wostern crops are not moving so freely as they have done, and it is very evident that growers, regarding current prices as unsatisfactory, are holding back in axpectation of an improvement. The weather also is too mild for much seasonable trade; and therefore the cheerful feeling which prevails is the more significant. The following is a statement of the stocks of leading articles of domestic and foreign merchandise at dates given: 1878. 1879. 1879.

Bremen, 3s. 6d.

Spirits turpentine has advanced and manifested much strength, owing to a speculative movement, based upon more favorable advices. both from the Sonthern and foreign markets; to day, there were sales at 29c. for Southern and 29tc. for New York, there were sales at 29c, for Southern and 294c. for New York, bbls. Rosins, while remaining steady, have been quiet; com-mon to good strained quoted at \$1 40@1 45. Petroleum at one period during the week sold freely at 94c. for refined, in bbls., but latterly little has been done; crude, in bulk, is quoted at 54c. Lead shows considerable firmness; common domestic quoted at \$3 45@3 50. Ingot copper has been quiet, in the usual way, with Lake quoted at 16@164c.; there are rumors of sales of from five to eight millions of pounds, mostly at 154c, delivery up to Jann-ary next. Hides have remained firm, with sales to-day of 4,000 dry Buenoa Ayres, and 2,500 dry Montevideo, all at 21c., gold, four months. Grass aceds have sold at 74c. per lb. for clover and \$1 15 per bushel for timothy, but these are inside figures at he close. Whiskey higher and held at \$1 15.

**OOTTON**. FRIDAY, P. M., October 4, 1878. THE MOVEMENT OF THE CHOP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (Oct. 4), the total receipts havo reached 130,000 bales, against 08,863 bales last week, 74,355 bales the previous week, and 47,431 bales three weeks since; making the total receipts since the 1st of September, 1878, 377,448 bales, against 153,111 for the same period of 1977, showing an increase since September 1, 1878, of 224,337 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of five previous years are as follows:

Receipts this w'k at	1878.	1877.	1876.	1873.	1874.

• The exports this week under the head of "other ports" include, from Balti-more, 550 bales to Liverpool and 922 bales to Bremens; from Boston, 1,980 bales to Liverpool; from Philaisiphia, 500 bales to Liverpool. In addition to above exports, our telegrams to night also give us the following amounts of cotton on shipboard, not cleared, at the ports named. We add also similar figures for New York, which are prepared for our special use by Messrs. Carey, Yale & Lambert, 60 Beaver street:

These mail returns do not correspond precisely with the total of the telegraphic figures, because in preparing them it is always necessary to incorporate every correction made at the ports.

The market for cotton on the spot opened with an appearance of business, which, however, was not long maintained. The de-mand proved limited from all quarters, and although stocks increased slowly, prices declined under the dull foreign advices and the very free receipts at the ports. There was a reduction in official quotations of  $\frac{1}{4}$ c. on Tuesday and Wednesday, but it was noted on Tuesday that "Gulf cotton with good staple was  $\frac{1}{4}$ ? higher than quotations." Yesterday there was a further decline of 1-16c. To-day, uplands were again reduced 1-16c., to 10 $\frac{1}{4}$ c. for middlings, but Gulfs were advanced 1-16c. (to 10 $\frac{3}{4}$ c. for middlings. The speculation in futures has been active; but in the course of Monday, Tuesday and Wednesday was strongly towards a lower range of values, and the decline from Saturday (which was firmer, except for September and October) was on Wednesday, at the olose, from 34 to 41 points—the course of prices being much more regular than for some time past—with April, May and June showing the least depression. The bull party seemed to have ceased to make any effort to sustain values, but let the market sink under its own weight. Yesterday, notwithstanding a fur-ther decline in futures at Liverpool, there was a demand to cover contracts, which caused a partial recovery of values; but this contracts, which caused a partial recovery of values; but this demand supplied, the improvement was lost under the gathering financial cloud caused by the failure of the Bank of Glasgow. To-day, the market was active and feverish, closing at a decline

of 4@7 points. The total sales for forward delivery for the week are 417,700 bales, including — free on board. For immediate delivery the bales, including — free on board. For immediate delivery the total sales foot up this week 4,260 bales, including 918 for export, 3,342 for consumption and — for speculation. Of the above, 460 bales were to arrive. The following tables show the official quotations and sales for each day of the past week:

THE VISIBLE SUPPLY OF COTTON, as made up by cable and telegraph, is as follows. The Continental stocks are the figures of last Saturday, but the totals for Great Britain and the afloat for the Continent are this week's returns, and consequently brought down to Thursday evening; hence, to make the totals the complete figures for to-night (Oct. 4), we add the item of exports from the United States, including in it the exports of Friday order. Friday only:

Finay only.	1878.	1877.	1876.	1875.
Stock at Liverpoel	351.000	\$35,000	691,000	669,000

This statement shows us that the receipts at the ports the past week were 130 990 bhlës, received entirely from plantations. Last year the receipts from the plantations for the same week were 70,040 bales, and for 1876 they were 122 199 bales.

were 70,040 bales, and for 1876 they were 122 199 bales. WEATHER REPORTS BY TELEGRAPH.—The weather the past week has, in general, been very favorable for maturing and pick-ing the crop. In portions of Texas there were hard local rains on one or two days, but no damage reported. *Galceston, Texas.*—We have had a sprinkle on one day this week, the rainfall reaching three hundredths of an inch. The thermometer has averaged 81, the extreme range having been 73 and 86. Picking is making rapid progress. There has been a rainfall during the past month of five inches and four hundredths. *Indianola, Texas.*—The weather during the week has been warm and dry, and picking is progressing finely. The thermometer has ranged from 75 to 91, averaging 83. The rainfall for the month is eighty-eight hundredths of an Inch. *Corsicana, Texas.*—It has rained hard on two days of the week just closed, but no; serious damage has been done. Picking is progressing rapidly. Average thermometer 78, highest 93, and lowest 64. The rainfall for the week is two inches and fifty-nine hundredths, and for the month of September two inches and seventy-three hundredths: *Dullas, Largs.*—We have had hard rain on two days of the seventy-three hundredths.

hundrealiss, and for the month of September two inches and seventy-three hundredths: *Dallas, Texas.*—We have had hard rain on two days of the week, but it has proved beneficial. Picking is progressing. The thermometer has averaged 78, the highest being 93 and the low-est 64. The rainfall has been two inches and fifty hundredths. The rainfall for the month is two inches and sixty-three hun-dredths.

Brenham, Texus.—There has been no rainfail here during the eck. Picking is progressing rapidly and there is great demand r pickers. Average thermometer 81, highest 00, and lowest 7. Two inches and forty hundredths of rain has fallen during week. for pickers, 77. the past month.

the past month. New Orleans, Louisiana.—It has rained on one day of the past week, the rainfall reaching fifty-five hundredths of an lach. The thermometer has averaged 78. The rainfall for the month of September is one inch and eighty-five hundredths. Shreveport, Louisiana.—Picking progressing under favorable circumstances and cotton coming in freely. Average thermometer 75, highest 00 and lowest 00. The rainfall thus far this month has been one inch and sixty six hundredths.

75, highest 00 and lowest 00. The rainfall thus far this month has been one inch and sixty-six hundredths. Vicksburg, Mississippi.—Telegram not received. Columbus, Mississippi.—The thermometer has averaged 77 during the week, the highest being 86, and the lowest 69. There has been a rainfall of ten hundredths of an inch. All trains stopped over our road. Little Rock, Arkansas.—Friday, Saturday and Sunday of the past week were cloudy, and there was a light rain on Tnesday night. The weather is now pleasant. Average thermometer 71, highest 84, and lowest 56. The rainfall has reached ten hun-dredths of an inch. Nashville, Tennessee.—It has rained slightly on one day of the

Ingress 34, and rowest 50. The rainfull has reached ten hun-dredths of an inch. Naskville, Tennessee.—It has rained slightly on one day of the past week, the rainfall reaching twenty-five hundredths of an inch. The thermometer has averaged 69, the highest point touched having been 80, and the lowest 59. The rainfall for the month of September is two inches and soven hundredths. Memphis, Tennessee.—Telegram not received. Mobile, Alabama.—It has been showery one day and cloudy one day during the week, the rainfall reaching one hundredth of an inch. The balance of the week has been pleasant. Picking is progressing finely. Average thermometer 78, highest 90 and lowest 69. The rainfall for the month of September is three inches and eighty-five hundredths. Montgomery, Alabama.—There has been no rainfall here dur-ing the week. The thermometer has averaged 75, with an ex-treme range of 64 and 87. There has been a rainfall of two inches and fifty-five hundredths during the past month.

treme range of 64 and 87. There has been a rainfall of two inches and fifty-five hundredths during the past month. Selma, Alabama.—There has been no rainfall during the past week. The days have been warm, but the nights have been cold. Picking is progressing finely. Madison, Florida.—Telegram not received. Macon, Georgia.—It has not rained here during the week. The thermometer has averaged 73, the extreme range having been 63 and 83

and 83.

and 83, *Columbus, Georgia.*—It has rained slightly during the week, the rainfall reaching five hundredths of an inch. The ther-mometter has averaged 77. We have had a rainfall during the month of September of one inch and sixty hundredths. Planters are sending their crop to market freely. *Savannah, Georgia.*—We have had rain on one day this week, the rainfall reaching three hundredths of an inch, but the rest of the week has been pleasent. Average theoremeter 70 bits

the week has been pleasant. Average thermometer 72, highest 84 and lowest 63.

Georgia .- The weather here has been clear and Augusta, pleasant, there having been but one light rain throughout the week. Accounts continue good. Planters are sending cotton to market freely. Average thermometer 71, highest 85 and lowest 61. The rainfall is one hundredth of an inch. The rainfall dur-ing the past month has been eight inches and eighty-three hun-dredthe dredths.

Charleston, South Carolina.—Telegram not received. The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock Oct. 3, 1878. We give last year's figures (Oct. 4, 1877) for comparison:

second to a second to the second the	Oct. 3, '78. Feet. Inch.	Oct. 4, '77. Feet. Inch.
New OrleansBelow high-water mark MemphisAbove low-water mark NashvilleAbove lew-water mark SineveportAbove low-water mark VicksburgAbove low-water mark	$   \begin{array}{ccc}     7 & 5 \\     0 & 6 \\     1 & 11   \end{array} $	3 0 4 4 1 9 4 1 Missing.

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT .-A comparison of the port movement by weeks is not accurate, as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. First we give the receipta at eich port each day of the week ending to-night.

THE CHRONICLE.

The movement each month since Sept. 1 has been as follows:

Monthly		Year	Beginning	g Septembe	er 1.	
Receipts.	1878.	1877.	1876.	1875.	1874.	1873.
Sept'mb'r			236,868	169,077	134,376	115,255
	Sept. 30	02.19	05.87	04.03	03.84	03.03

This statement shows that up to Oct. 1 the receipts at the ports this year were 193,576 bales more than in 1877 and 51,980 bales more than at the same time in 1876. By adding to the above totals to Oct. 1 the daily receipts since that time, we shall be able to reach an exact comparison of the movement for the different years.

This statement shows that the receipts since Sept. 1 up to to-night are now 235,595 bales more than they were to the same day of the month in 1877, and 74,391 bales more than they were to the same day of the month in 1876. We add to the last table the percentages of total port receipts which had been received Oct. 4 in each of the years named.

RECEIPTS FOR OCTOBER AND NOVEMBER.-We did not develop, as we intended to do, the closing portion of our item on this point last week, through want of time, being on that account compelled to give our remarks a rather abrupt conclusion. The following letter, however, brings up the subject again, and furnishes the opportunity of stating the reasons more fully for the final conclusion reached :

To the Editor of the Chronicle.

NEW YORK, September 30, 1878. DEAR SIR-It strikes me that yon make a great error in your ides of a larger movement this year than last year in October and November, and that i expectation will not be realized, and for the reasons so clearly stated in the early part of your item. The infinence of the advanced condition of the crop will be mostly passed in the course of another week, and then those who are looking for a large crop and large receipts will suffer a surprise. Yours,

COTTON MERCHANT.

As briefly as we can state them, we think the following are the conditions which make up the present situation on the point in question:

First .- We have raised this year a large-a very large-crop of cotton. This we assert, notwithstanding our correspondent's assertion to the contrary. We do not believe there is one State in the South which has not brought to maturity more cotton than a year ago; and as a large production is, of course, the basis of a large movement to the ports, the receipts should therefore continue, other things being equal, to be in excess of that year. This will be he more readily admitted when we further remember the teaching of the last few seasons, to wit-that each succosding year an increasing proportion of the crop reaches the ports previous to January.

Second.-There is another important fact which should not be forgotten, and which cannot be omitted from the comparison, and that is, the fearful weather prevailing over a large portion of the South last October and November. The storms of those months were no ordinary storms; they interfered very materially with the marketing of cotton. If one has any doubt on the subject he has only to turn back to the record. We are, therefore, in consequence of this fact, now comparing, not with a full movement last year, but with a movement very considerably checked by storms, and hence, if all things were favorable this season, we should with even an equal crop expect considerably larger receipts.

Third. But, as our correspondent says, there is one important drawback to a free movement, and that is the fearful epidemic which now prevails in the Southwest. As we stated last week, the extension of the fever into the interior towns is an increaslogly unfavorable feature. But we must remember that thus far this restraining influence is even yet confined within comparatively narrow limits, and covers only a part of the section most affected by rain a year ago. Texas, with its very large crop, is this season able without hindrance to forward it, which was not true last October and November. The receipts, therefore, at Galveston, and also at St. Louis, are likely to continue very full. The Atlantic States, with their magnificent yield, are also free to send forward, not only their own produce, but are in condition to draw through the railroads from the section which might otherwise, by reason of the yellow fever, be shut out tem. porarily from a market. But it seems to us unnecessary to further enlarge upon these points, as the volume of the movement now in progress, shown by this week's receipts, is the best confirms. tion of the correctness of our views we can present, and the most effectual answer to our correspondent's strictures. We repeat the table of last year's receipts for October and November, as there has been wide call for it.

THE GLASGOW BANK FAILURE AND THE COTTON TRADE. Some of our cotton readers may be interested in an article on this subject in our editorial columns to-day.

BOMMAY SHIFMENTS. —According to our cable despatch received to-day, there have been 1,000 bales shipped from Bombay to Great Britain the past week and 4,000 bales to the Continent while the receipts at Bombay during this week have been 5,000

bales. The movement since the 1st of January is as follows. These are the figures of W. Nicol & Co., of Bombay, and are brought down to Thursday, Oct. 3.

	Shipm	onta thi	a week	8hipm	onta aine	Receipta.		
	Great Brit'n.	Conti- nent.	Total.	Great Britain.	Conti- nent.	<sup>r</sup> Total.	This Week.	Since Jan. 1.
1878		4,000	5,000	310,000	<b>396.000</b> 411.000	706,000		863,000 998,000
1876	3 000	11,000	14.000	551.000	373,000	024.000		1,010,000

From the foregoing it would appear that, compared with last year, there has been an increase of 2,000 bales in the week's ship-ments from Bombay to Europe, and that the total movement since January 1 shows a decrease in shipments of 81,000 bales, compared with the corresponding period of 1877.

GUNNY BAGS, BAGGING, ETC.—Bagging has been in good request, though not so active as at our last report, and further sales are reported at full figures, and holders are firm at 10§@10§c. for 1½ lbs.; 104@11c, for 2 lbs.; and 114@114c. for standard quality. The sales foot up about 2,000 rolls, with a few orders in market to be filled. Butts are raling quiet, but the feeling is firm, with holders quoting 2 11-16@2 13-16c, cash and time, accord-ing to quality and terms. No large transactions are reported, the orders being only for small amounts; and the lots foot up about 200 to 400 bales at 2 11-16@24c.

THE EXPORTS OF COTTON from New York this week show an increase, as compared with last week, the total reaching 11,455 bales, against 3,255 bales last week. Below we give our neusl table showing the exports of cotton from New York, and their direction, for each of the last four weeks; also the total exports and direction since Sept. 1, 1378, and in the last column the total for the arms particular the provide year. for the same period of the previous year:

SHIPPING NEWS.—The exports of cotion from the Unit Suffring NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 23,269 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in THE CHRONICLE, last Friday. With regard to New York, we include the manifests of all vessels cleared up to Wednesday night of this week.

FRIDAY. 

### BREADSTUFFS.

FRIDAY, P. M., Oct. 4, 1878.

The flour market has been only moderately active, and prices reflect more or less decline in values. The extreme low grades, which had been sustained at disproportionate figures, have given way most. Choice patents have been best supported. There has been a moderate export business at the reduction, but the home trade bought sparingly. Supplies are now somewhat less liberal than a year ago. Rye flour and corn meal are withou: essential change. To-day, the market was steadler, but quiet. " 10.00 

RECEIPTS OF FLOUR AND GRA

The wheat market has been depressed by the urgency of sellers. Prices gave way sharply until yeaterday, when an exceptionally large business was done at \$1 05@1 05½ for No. 2 red winter, spot and October, and \$1 05½@1 05½ for November; also, No. 1 white, same deliveries, \$1 07½@1 0  $\frac{4}{5}$ ; with some business in No. 2 amber at \$1 04, and No. 1 do. at \$1 05½@1 06. Spring was also lower, with No. 2 nominal at 96@98c. There is at the close an important revival of the demand from France. Receipts at the principal markets of the West have fallen off; but much wheat reached the seaboard direct from the smaller towns. To-day, there was a partial recovery of values, No. 2 red selling at \$1 05½@\$1 05½ on the spot and \$1 06 for November, No. 2 amber \$1 04@1 04½; No. 1 white \$1 08½@1 08½ and No. 2 spring 96c.

Indian corn also declined, reaching yesterday 48@484c. for No. 2 mixed, spot and Oct. and 484@49c. for Nov. At this reduction there was a large business in spots and early futures, stimulated by the smaller supplies now coming forward. Other grades of corn have been scarce, and it is notable that "steamer" mixed brings almost as much as No. 2 suitable for shipment by sail. To-day, there was a recovery to  $43\frac{1}{2}c$ . for No. 2 mixed with a fair demand.

Rye has been moderately active, but latterly prices are weak and irregular. To-day, a boat-load of No. 2 Western sold at 59c. Barley sold at \$1 23 for 6-rowed State, to arrive, \$1 33 for Canada Eaat, and \$1 40 for choice Canada West; but towards the close bids were reduced 3@5c., and there was more disposition to press sales. Oats have been steadier. To-day, the market was steady, with No. 2 graded quoted at 294c. for mixed and 294c. for white.

The following are the closing quotatious:

### THE DRY GOODS TRADE.

FRIMAY, P. M., Oct. 4, 18:8. The continued mildness of the weather in many sections of the country has had a depressing influence upon the dry goods. market, and business has been comparatively light during the past week in all departments of the trade. There was, however, a steady hand-to-mouth demand at first hands for small reassortments of seasonable goods, and the jobbing trade, though much smaller in volume than during the busy part of September, was not altogether unsatisfactory. Accounts from most parts of the interior are still encouraging, but the stread of yellow fever in some of the smaller towne in the Mississippi Valley has created an uneasy feeling among distributors in that section of country which was reflected in the parcity of orders from the South and Southweat during the week.

DOMESTIC COTTON GOODS .- The exports of cotton goods from this port during the week ending October 1 reached the handsome aggregate of 4,821 packages, the principal shipments of which were made to the following markets: China, 4,141 packages ; Great Britain, 187; Hayti, 122; Dutch West Indiea, 74; British West Indies, 55; Central America, 43; Danish West Iudies, 49, &c. The market was generally sluggish during the week, but prices remained fairly steady, and, while a natural accumulation of some makes of goods is reported, the supply of leadling makes of staple goods continues in very good shape. Blcached shirtings ruled very quiet, but brown and colored cottons, corset jeans, wide sheetings, cotton flannels, &c., were taken, in small lots, to a fair aggregate. Print cloths were quiet and slightly lower, closing at 3½c., cash, for 64x64s, and 3 5-16c., cash, for 56x60s. Prints were in irregular demand (with most relative activity in Turkey reds and patch-work prints), and gloghams and cotton dress goods exhibited less animation than of late.

DOMESTIC WOOLEN GOODS.—There was a light and spasmodic demand for men's-wear woolens at first hands, and the jobbing

trade was quiet because of the provailing warm weather, which has checked the consumptive domand. Fancy cassimeres and overcoatings were lightly dealt in, but there was a moderate inquiry for relatively small selections of worsted coatings and cheviot sultings. Cloaklogs and low-grade repellents met with moderate sales, but Kentucky jeans and satinets were in light request. Flannels continued in steady demand, and prices of the best makes were firmly maintained at current quo'atlons; but blaukets were very quiet. Shawls moved slowly, but trimmed felt skirts were distributed in moderate parcels to a fair aggregale. Worsted dress goods were in good demand and several lending makes are still sold to arrive.

leading makes are still sold to arrive. FORETON DILY GOODS.—There was a comparatively light movement in foreign goods from first hands, and sales wero ain set wholy confined to a few specialties. Black and colored cushmeres continued active (in low and medium grades) and very firm in price. Scotch-plaid dress fabrics were also, in brisk request, and low-grade black and colored silks and silk velvets were fairly active. Men's wear woolens, linen and white goods, hosiery, &c., were severally in light demand, and milliaery goods were only moderately active. Few important offerings of foreign goods were presented in the auction rooms, but a large peremp-tory sale of real laces and lace goods, of the importation of blessrs. Duden & Co., proved a great success.

### Importations of Bry Goods.

The importations of dry goods at this port for the week ending Oct. 3, 1878, and for the corresponding weeks of 1877 and 1876, have been as foliows:
