Treasurer.

NEW YORK, 28th February, 1880, MR. JOHN S. HARNES RETIRES FROM our firm, and his interest therein ceases from and after this date.
Mr. J. KENNEDY TOD is this day admitted a Partner in our firm.

J.S. KENNEDY & CO.

DEFERRING TO THE ABOVE, JOHN S. ACCOUNT, as Banker and Merchant, at No. 30 Pine street. Orders for the purchase and sale of Investment Bonds, Stocks and other Scenrities will be promptly executed. Persunal inspection of an Special Reports upon Railroad Properties will be made, and all business connected with the construction and equipment of railroads and their reorganization will receive careful attention.

Financial.

SEVEN PER CENT FIRST MORTGAGE SINKING FUND BONDS OF THE

Denver South Park & Pacific RR. Co., DUE 1905.

NEW JERSEY MIDLAND

FIRST, SECOND AND THIRD MORT. BONDS STOCK AND NOTES.

Wanted by

J. S. STANTON, 19 Nassau Street.

Texas Bonds.

STATE, RAILROAD, COUNTY AND MUNICIPAL BONDS

BOUGHT AND SOLD.

J. C. CHEW, 29 Broadway.

WANTED.

Lafayette Muncie & Bloomington Railroad Stock and Scrip.

Texas & Pacific RR. Stock and Scrip.
Memphis & Little Rock RR. If'ds and St'ck.
Central RR. of lowa Bonds and Stock.
New Jersey Midland RR. Bonds and Stock.
City of Memphis (Tenn.) Bonds.
Omnha & Northwestern RR. 1st Mort. Bds.
St. Louis & Southenstern RR. 1st M. Ctfs.

TOBEY & KIRK, 4 Broad St., N.Y.

WANTED:

Alabama, South Carolina & Louisiana State Bonds;

New Orleans Jackson & Gl. Northern, Mississippi Central, and Mobile & Ohio Railroad Bonds; City of New Orleans Bonds. LEVY & HORG, 36 WALL STREET.

All kinds of MISSOURI and HIJINOIS DE-FAULTED COUNTY BONDS. Highest market price paid for them. Give full description, and address,

dicess,
L. A. COQUARD,
BANKER AND BROKER,
124 N. Third street, St. Louis, Mo.

Albert E. Hachfield, 19 NASSAU STREET,

BASEMENT,

Deals in Investment Securities and Bonds Generally.

WANTED.

WANTED.

Toledo Logansport & Burlington Bonds.
Union & Logansport Bonds.
Rome Watertown & Ogdensburg Bonds.

BUYS AND SELLS

Gaslight Stocks,

Trust Companies' Stocks, Telegraph Stocks, Railroad Stocks and Bonds

ALSO,

All classes of Investment and Miscellaneous Securities not actively dealt in at the New York Steck Exchange.

MERCHANTS' MAGAZINE. HUNT'S A Weekly Newspaper.

REPRESENTING THE INDUSTRIAL AND COMMERCIAL INTERESTS OF THE UNITED STATES. [Entered, according to act of Congress, in the year 1880, by WM. B. DANA & Co., in the office of the Librarian of Congress, Washington, D. C.]

VOL. 30.

SATURDAY, MARCH 20, 1880.

NO. 769.

, CONTENTS.

THE CHRONICLE. Money Market, U. S. Sceurites, Raliway Stocks, Foreign Exchange, New York City Banks, etc. 290 THE COMMERCIAL TIMES.

The Chronicle.

THE COMMERCIAL AND FINANCIAL CHRONICLE is issued every Saturday morning, with the latest news up to midnight of Friday.

[Entered at the Post Office at New York, N. Y., as second-class mail matter.]

TERMS OF SUBSCRIPTION-PAYABLE IN ADVANCE:

For One Y	car (inch	ading pos	stage)			 \$10	20.
FOR BIX MC	mus	ao					 b	10.
Annual sul	bscriptio	n in Lond	lon (i	neludi	ng post	age)	 £2	78.
Six mos.	do ~	do	1		do		 1	88.
			-					

Subscriptions will be continued until ordered stopped by a written order, or at the publication office. The Publishers cannot be responsible for Remittances unless made by Drafts or Post-Office Money Orders.

London Office.

The London office of the CHRONICLE is at No. 5 Austin Friars, Old Broad treet, where subscriptions will be taken at the prices above named.

Advertisements.

Translent advertisements are published at 25 cents per line for each insertion, but when definite orders are given for five, or more, insertions, a liberal discount is made. Special Notices in Banking and Financial column 60 cents per line, each insertion.

WILLIAM B. DANA & OO., Publishers, 79 & S1 William Street, NEW YORK. POST OFFICE BOX 4592.

A neat file cover is furnished at 50 cents; postage on the same is 18 cents. Volumes bound for subscribers at \$1 20.

For a complete set of the Commercial and Financial Chronicle-July, 1865, to date-or Hunt's Merchants' Magazine, 1839 to 1871, inquire at the office.

THE MONEY MARKET AND WALL STREET.

There seems to be a disposition among most people to single out Wall street as the only active agency in producing the present peculiar position of the money market. Railroad stocks and bonds have appreciated largely in value, dealings have been very extensive, and the quick conclusion is that these securities have absorbed loanable funds to so great an extent, that relief to the money market can only come, and will come, through a general decline in the prices of such securities. Are there not reasons for doubting the absolute correctness of this conclusion? This is an important inquiry, because if the prevailing impression is erroneous, it is better to know it and not look to Wall street alone for relief.

There is one prominent fact which bears upon the question, and which is within the knowledge of every observer, and that is, that the securities being dealt in on Wall street have as a whole appreciated in value fully as much as in price. It is not a baseless speculation that has been in progress there. We do not claim that there are no prominent exceptions, and yet the decided improvement, which is so general, has the support of a real business revival which is universal. A good illustration of this truth are the railroad earnings we publish from month to month. Besides, we all know that securities which were almost hopelessly unremunerative eighteen months ago are now earning and paying interest, while those that paid then, are showing largely increased strength now. If the fact that a bond earns its interest or a railroad stock earns a dividend, or has good promise that it will soon do so, is a guage of permanent value, then we think it must be admitted that the average security dealt in on Wall street is not being run up by a wild speculation, and will not lose its value more than temporarily in case of a monetary disturbance. A similar situation of the money and stock markets was never concurrent with so much to support the ruling prices as there is now.

Furthermore, we do not believe that our banks are heavily loaded with doubtful Wall street collaterals on small margins. We know it is not true of our more conservative institutions, and we should reach the same conclusion with regard to all of them, from what we actually know of the situation outside of the banks. In the first place Wall street prices are in a great measure sustained by the investment demand which is remarkable in its continuance and extent. An unusually large number of the securities being bought are taken out of Wall street. Of the best bonds and stocks it seems as if there were only buyers and no sellers. This may be accounted for in part by the very considerable exchange of investment in progress from United States bonds convertible during the next two years, into railroad bonds. Of these classes of governments our banks are now carrying increased numbers, the former holders having thus thrown them on the market. Then, again, with the legal rate of interest six per cent, there is so active a demand for money that no need exists for a money-lender taking doubtful securities, and where higher than the legal rate is secured, the natural tendency is to require additional safeguards, since the transaction does not have the protection of the law. Altogether, therefore, it is safe to say that our banks to-day are very well secured, and are not helping on by narrow, doubtful margins a Wall street speculation.

To our mind there is a class of values ruling which are far more speculative and doubtful in character than the prices of railroad stocks and bonds, and yet they are supported by speculations which could only be carried on by the help of banks. We refer to merchandise values, many of which are to-day so unreasonably high as to threaten serious consequences unless discouraged by our financial institutions. Look at breadstuffs, provisions, cotton, building materials, &c.; one after another has been taken up, cornered or otherwise forced up, until as a result the country is likely to be a serious sufferer. A house or factory cannot be constructed to-day much, if any, below the values prevailing previous to the panic. This must check the development of the building and manufacturing interests. Breadstuffs have been held off the market until it is doubtful whether we can dispose of our surplus, while at the same time the prices that have ruled are stimulating a planting, not only here but all over the world, which promises to bring in a production fatal to even remunerative values next year. This same result is also to be feared in cotton. For iron the demand has been exceptional, while the supply was limited, so that a decided advance in values was inevitable. But now the change in the relation of supply and demand has taken place, and the longer the present exorbitant prices are sustained, which are flooding us with foreign iron and steel, the greater will be the disaster later on.

In a word, then, the condition of our merchandise markets is very disturbing and unsatisfactory, and decided relief will be afforded when merchandise values and stocks decrease. It is not impossible that the return movement of the funds sent out from here last Fall may in this way be started. That money is not permanently lost to sight or absorbed. It is partly locked up in carrying merchandise; and the remainder of it will probably be brought out of concealment with the purchase of Spring supplies by planters and farmers of the South and remote West.

CONSUMPTION OF COTTON IN AMERICA.

Last week we gave some interesting figures with regard to European consumption of cotton, based upon Mr. Ellison's circular for this month. Of course every such statement is in one sense an estimate, and yet the doubtful element is reduced to a minimum when the estimate reaches the limit of capacity, as we found it had for February in the case of Great Britain. Consequently the rise from the present weekly total in England -except through spinning a coarser yarn, which is improbable-must be very gradual, whatever be the inducements, and can only take place as new spindles can be supplied.

Similar restrictions apply to similar estimates in the United States-they must be kept within the same bounds. That is to say, we cannot use more cotton in any year than we have spindles to spin it. This is such a simple truth, that it would seem hardly necessary to state it; and yet the majority of estimates of Northern consumption which have prevailed during the season are in direct opposition to this truth. Of course there is a natural growth of spindles in progress at the present time, but it takes so long to make them and put them up, that no good authority estimates the growth above ten per cent for the twelve months, or an average increased spinning capacity for the year of about say five per cent.

sources of change in consumption from year to yearone due to the general profitableness or unprofitableness of the trade, and the other to the average size of yarn spun. For instance—(1) some years the existing spindles may not be all employed, while all other years even extra time, and running night and day, may become the rule; or (2) one year the demand may run on fine goods, and another year on coarse goods, that is the coarse or fine becomes the more profitable, and in that case all the machinery suited to the manufacture of the more profitable article will be turned on to it. Those who, womanlike impulsively jump at a conclusion as to consumption. forget that these conditions are also governed by as exact rules as the action of the spindles themselves, and that the only room for the least uncertainty is in measuring the comparative activity, which uncertainty can be reduced to very narrow limits by proper investigation. Let us briefly examine these two points, and see if a result with regard to each is not capable of quite close demonstration.

And first, how does the time of running compare this season with last season? It is notorious that the mills made money all last year. The season of 1878-9 opened with cotton relatively high, low middling being quoted in New York at 11 15-16 the first of September. Soon after, however, the decline set in, middling uplands being 10½ October first, 9½ November first, 8½ December first, 9 1-16 January first, 91 February first, and 9 7-16 March first. In a word, the grade of cotton probably used averaged the spinner during all those months say about 9 cents, while he was getting 71 to 71 cents for standard sheetings. Subsequent months the margin in the spinners' favor was very much greater. But taking cotton at 9 cents, and standard sheetings at the lower price, 71 cents, the profit to the manufacturer, after deducting cost of selling, &c., would be over one cent per yard. That fact must be sufficient, without any outside evidence, to prove that spindles were kept active during last season. It is scarcely necessary to affirm that the manufacturer pushes his machinery to its full capacity when he can clear a cent a yard. There was a temporary suspension in the Summer, through the strike at Fall River; but new hands were very soon supplied to one half the capacity of the mills, and it was not very long before all were again on full production. Comparing, therefore, in this particular, last year with this year, there would seem to be no great difference. Full time may be said to have been made both seasons, except during the strike at Fall River in the Summer of 1879.

Some think, without considering the matter fully, that the mills are being run many more hours this season than last season. This is the general argument used when speaking in favor of an enlarged production. Without doubt the present margin between cotton and goods is even larger than a year ago. But either price is sufficient to prevent any spindles remaining idle, and neither price could lead to any considerable overworkthat is, night work. In most of the States, especially those where this industry is more largely developed, the laws with regard to labor are such that night work cannot be made profitable. In those States, therefore, it could not be resorted to, and elsewhere in the North it has not been to any considerable extent resorted to this year. Still, let us assume, so as to be on the safe side, that there has been this year some increase in the time made, and that with the extra spindles put up the production is eight, or say nine, percent in excess of last In addition to this there can only be two further year. Even calling it the latter, with all other things

equal, the addition to spinners' takings of cotton would | profitable; and to build on to reach the poorest traffic, only be for the year 127,000 bales.

But there is another fact tending in the opposite direction which cannot be passed over, and that is, that our spinners, so far as their machinery will permit, have been running on decidedly finer goods. Last year our people were economizing, and the active demand was for cheap goods. This year they are making their purchases more freely and lavishly. As a consequence, the better class of goods have found more burers. This may be questioned by some who are advocates of a greatlyincreased consumption. But there is positive proof of the assertion before every one. Examine the prices of goods, and it will be seen that all through the season the finer goods have shown the largest profit. Is there any question, when prices are in that condition, which article the manufacturer will make, if he has the option? We do not propose to definitely estimate the extent of this change. It is sufficient to call attention to it and to suggest whether, in view of the heavier weight of bales and of the finer yarn spun, 100,000 bales would not be a very full estimate of the increased consumption in this country this year.

FIVE CENTS ON ELEVATED RAILROADS.

The emphatic defeat by a heavy majority in the Senate of the bill to reduce the fare on the elevated railroads to five cents may be regarded as the end of that measure for this session. Waiving for the occasion the matter of rights and interests of the corporations, and looking at the subject solely as concerns the public use of the roads, we must regard this failure as a desirable result.

It was urged against the bill that to pass it without a certain preliminary inquiry, required by the general railroad law, would involve an impairment of contract and that the courts would promptly set it aside; on the other hand, it was answered that the general law could have no application to this class of roads. Which view is sound is of no consequence here; the point is that, although it was clearly practicable to comply with the condition prescribed by the general law, the temper of its advocates was too impatient to brook even this slight delay. Such a spectacle of hot-headedness might be expected from children, but is certainly not seemly in a body of men assembled to make laws for a great State; and—as we remarked only a week ago-action taken in haste and heat is rarely wise action, for wisdom implies deliberation. For this reason alone, were there no other, the defeat of the bill is satisfactory.

But there are weightier reasons. That the corporations have done injury to private property, without compensation, have received valuable franchises gratuitously, have not in all respects worked their roads with the least possible offense, and have watered their stock boldly and largely, must be admitted; they are thus in not the best position to reply by arguments, and the feeling against them is not all unfounded. But it would be unwise to let these facts blind us to all other considerations. And first we ought not to forget that it is needful for the city to have these roads further extended. In fact much of the opposition to the five-cent bill came from residents in the upper and outlying wards of the city, who feared that a compulsory reduction of fares might stop the extension of the roads. Such fear is well founded, for that would be a natural if not necessary result. Obviously, if the long through business paid at all at five cents, it would be comparatively un- upon their intelligent self-interest as prompting them to

after having the best already, would be rather philanthropy than business. In this view, urged keenly by the population and property owners concerned, it. would be wiser to get the roads finished before turning down the screws on them.

Furthermore, there is nothing that binds or practically can bind the companies to keep up their present style of operating. If they chose, as a matter of reprisal, or of economy, or of necessity, they could run trains. slowly and less frequently, with less expensive cars, and a more severely plain expenditure otherwise. It might also be a matter of positive necessity to do this-indeed. it might prove to be an impossibility to operate the roads even on a more economical basis. For if onetrain-load cannot be carried to Harlem, at five-cent fares, without having the cost of so doing exceed the receipts, a hundred trains would only multiply the loss. But. whether five-cent fares as a uniform rule could be made to yield anything above operating and repair expenses, is something which is not only not yet demonstrated but is not yet really considered; present profits do not settle it, for there is a great difference between a net profit on average rates and a profit on receipts at the lowest rate now in that average.

The roads have done nothing for New York in a disinterested way, and the sentimental view has of course no place in the discussion. Yet it is undeniable that they have exerted a large improving and developing effect upon property generally. They are an incomparable advance upon the old surface roads, and supply a local transit unapproached anywhere for comfort and speed. They were long awaited, wanted and despaired of-so long that "rapid transit" became a by-word among the things to be realized by some succeeding generation; and the figure of Father Knickerbocker on a tortoise was sometimes used to caricature the expectation. Now we have it; and to turn directly about and make war on it as soon as we have got it-indeed, before it is fully completed-may be quite according to impulsive human nature, but is nevertheless not wise.

As to fares, ten cents is only what we paid without grumbling for creeping in stages, which only ran over much shorter routes and no further than they found good loads. It is also a mistake to forget that the paramount consideration is, or ought to be, safety. More supports, more safeguards at stations, more efficient brakes, better system of signals and switches, and more positive prevention in every way against the mishap which, sooner or later, may be inevitable after all-these are the steps of reform which, to the extent that there is room for them, it would be wise for the public to demand before taking up a hue and cry for lower fares, which would be dearly purchased at the expense of safety. At the same time, it is not at all certain that the companies will maintain an antagonistic attitude on the fare question if they are not forced into it. The extension of the five-cent hours, already proposed as a compromise, is favorably received, and there can be no reasonable objection on either side to trying it, at least experimentally, so that the effect on traffic may be put to test. The managers are greedy, if we please to put it so, but nobody supposes that they are not keen-sighted, and they probably do not lack a personal interest in the development of up-town property through the roads. They cannot fail to see that it would be better for them to concede a point in advance of conflict than to yield the same after defeat, and it is only reasonable to count

yield what is financially practicable. More than this it is no more in their power to give than in that of statute to take; a popular demand for a service at five cents that costs more than five, if that is the fact, can never be gratified.

TAXATION OF LIFE INSURANCE.

If results were to be measured by proposals, our present Legislature would be a most remarkably efficient body. But when these plans are coupled with the report that no important legislation, except with regard to city charters, need be expected this year, and by the proof that up to this time none has been effected, it does not look quite so formidable. Still, propositions are daily being made which are very sweeping in their proposed effects, and some of them almost revolutionary in their nature.

To the bills already reported on the subject of taxation the Joint Committee have added two more this week, one contemplating a tax on savings bank deposits and the other on the income of life insurance companies. On the former it is proposed to lay one-fourth of one per cent, as by United States law upon the national banks, which would be equivalent to a confiscation of about 4 per cent of the average interest yield of savings bank funds. As to life insurance, the bill provides that every company organized or doing business in this State shall pay an annual tax of 2 per cent "upon "the gross amount of premiums, interest, and other in-"come received by such company in this State." Although attempts to carry taxation beyond the jurisdiction of the taxing power are not unprecedented, however absurd, it seems probable that, as to outside companies, the tax would be applied only to premiums on policies issued on lives of residents, and interest on property located in this State, for no other construction could justify the words "received "by such company in this State;" if a broad and general construction were given, as respects home companies a very invidious discrimination by the State against its own corporations would be made. Probably the intent is to confine the tax to income on business done and loans made within the State, and yet the ambiguity is manifest, for premiums collected in any State or country by a New York company are certainly "income received by such company in this State," in a technical sense. On the other hand, if the intent is to tax only income from local business, and that intent is made clear, there follows the necessity of separating premiums and other income earned within from that without the State; and, with consistent blundering, the second section, providing for returns for taxation, requires a sworn report, from "every such insurance company," of only "the total amount of premiums received by such com-"pany in this State."

Waiving all this, and assuming that the law against the life company would execute itself, as an automatic machine moves, let us see how the plan would work. Two per cent on the total income of the New York companies, on the basis of the year 1878, would be \$867,148. single year's tax, improved at only 4 per cent (the rate assumed in calculating premiums), would amount in ten years to nearly 11 millions, and in twenty years to nearly 27 millions. Charged as an expense, this tax would be equivalent to an addition of about '60 per cent to the commissions paid to agents, which latter is an item of cost over which hasty critics have always waxed wroth. If the supposition is that the tax is confined to New York business, the figures cannot be had, because such business, except premiums, is not stated separately, but on the premiums alone the tax would be \$165,000. Taking this as a fixed yearly impost and compounding it at 4 per cent, for illus- nary intelligence?

tration, we find that a rough calculation makes the total tax and interest, on a term of ten years, aggregate over 2 millions.

It may be objected to this that any tax or payment would show the like result if compounded, and this is true, but the interest view has peculiar application to a tax on corporations whose existence is based upon the compounding of fixed sums uninterruptedly at fixed minimum rates. The imposition of an income tax at so high a rate as 2 per cent, without deduction for expenses, would be an unwarrantable change of the conditions upon which, as assumed to be substantially permanent, premium rates are cast, even were the tax trinsically defensible. But a tax upon strictly savings accumulations has always been properly recognized by students of taxation as a tax upon thrift. True, such savings are, as much as any other taxable surplus, a part of the gains of industry and exchanges, and, so far, fall under the general class of things taxable; but they may and often do represent the special surplus of self-denial, and are contributed to a fund for no purpose of profit, but for that of precaution against want. As savings funds, they are taxed in the wrong place, if they are to be taxed at all. The first aim of a tax system should be to take so as to be the least disturbing and discouraging; it would be much less depressing to tax income, as such and in the hands of its earner as soon as earned, than to follow it after it has been set aside as an insurance fund.

Another objection to this bill is that it would be an encouragement to retaliatory legislation. need not take space in particularizing, but there is a great deal of legislation already imposing special burdens upon outside corporations; the tendency is to carry this on, and a law like this would be another step in so doing. A number of States already tax outside companies; if this State lay a 2 per cent tax on business done by such companies here, the natural result must be that each State which has companies doing business here will make things even by similarly taxing New York companies. The taxes, licenses, and other vexatious requirements now imposed by different Statespartly as a fancied "protection" of their local institutions, and partly because "foreign" monopolists are so conveniently handy-are already one of the worst plagues of insurance.

There is not the least reason to suppose that such a bill as this will become law; on the contrary, it is impossible not to regard the annual appearance of a crop of bills aimed at corporations as evidence of the depravity of legislative methods, by which things are proposed for the purpose of not being done. Yet this bill illustrates anew the deplorable indolence, short-sightedness, and shallowness with which the grave subject of taxation is handled. The tacit assumption runs thus: Here is a pile of property which is reported already, is known, accessible, and can't hide; it is "corporation" property; it is "deposits" or "moneyed capital;" it belongs to nobody in particular, and to come down on it will cause no unpopularity; if we scoop the State expenses out of it we can relieve "the people" of taxation, which will be a clever thing to talk of on the stump; anyway, it is so handy-right under our nosesand we can save ourselves the bother of framing general tax laws. An accumulation of money which seems to have no owner appears to the average legislator the key to the problem of raising money by taxation without troubling anybody for it. But when shall we have this very serious subject of taxation rightly managed, so long as catchpenny notions like this have any consideration with men of ordi-

THE DICTATOR IN RUSSIA.

The appointment of General Loris Melikoff to the supreme direction of affairs in Russia, has revealed the gravity of the situation and the weakness of the Government in presence of the domestic enemy more than any other event since the commencement of these revolutionary disturbances. So absolute is the authority intrusted to this man that for the time being he is raised above the Czar himself, having all the powers of all the departments of the Government, and being complete master of life, liberty, and property.

An experiment of this kind would not be resorted to except under circumstances of exceptional difficulty. Such circumstances were not uncommon in the later days of the ancient Roman Commonwealth; and in more recent times the role of Dictator has been played by such men as Cromwell and the elder Napoleon. It is, however, we believe, the first occasion that a great monarch has voluntarily handed over all his power to one of his subjects. And yet confessedly the circumstances were sufficiently grave to justify an unusual remedy. Not since the out. break of the great French revolution at the close of last century has there been such a reign of terror as that now and for some time past existing in Russia. The lives of many public men have been sacrificed; attempts have again and again been made on the Emperor's life; much public and valuable property has been destroyed; and in spite of the severe examples which have been made by the Government, the conspirators continue to be fearless and boldly assert the inflexibility of their purpose. It was necessary that some extreme, some unusual course should be adopted.

It is admitted on all hands that General Melikoff is well qualified by character and by experience for the difficult and hazardous task he has undertaken. An Armenian by descent, he preserves many of the characteristics which have given the children of that race prominence all over the East. Up until the recent war he was unknown to fame, and lived quietly with his family in St. Petersburg. His brilliant services against the Turks immediately com. manded attention and marked him out for distinction. When the plague broke out at Wetlianka his powers of management and organization were again conspicuously revealed; and in dealing with the famine he displayed as much energy and capability as he had formerly done on the field of battle. Since the present troubles began he was appointed to the supreme command at Kharkoff, and during his rule at that place, which extended over several months, there was not one single outbreak of disturbance, so completely were the revolutionary spirits held in check

In his new position he is apparently acting with his former tact and skill. The reports have been somewhat contra. dictory, but there is good reason for believing that the situation is already considerably improved. It is asserted that the system of wholesale arrests practiced last year has been discontinued and that a much greater latitude has been allowed the press. In fact, the latest advices show that General Melikoff, more fully than any of his compeers, comprehends the situation. Taking it for granted that there must be wrong where there is so much discontent, he sees that the policy of repression, hitherto pursued, will never work a radical cure. He sees with equal clearness, that to make concessions in present circumstances, would be to lend encouragement to the revolutionary spirit. He has, therefore, wisely decided that while, with a firm and steady hand, he will stamp out the rebellion, he will at the same time ascertain the causes of the prevailing discon-By such a course he disarms the revolutionary forces, because he holds out the prospect of redress.

The Executive Commission, of which he is chief, has there fore been divided into two parts—the one having for its object the suppression of the revolution, and the other devoting itself to an investigation of the political condition of the empire. Evidence of his determination to hold the revolutionary spirits in check is furnished by the fact that St. Petersburg is, after a census has been taken, to be cleared of all people who are without a fixed occupation or the requisite means of subsistence. In the matter of investigation he will be assisted by some of the leading ministers, and also by the members of the City Council. He is thus attempting to interest all the executive forces of the empire in the work of keeping the peace.

It will necessarily be some time before the Commission shall be able to complete the second part of its duty. But it is not unreasonable to take it for granted, judging from the known character of Melikoff and the information thus far received of his acts since his appointment, that when he shall have completed all the necessary inquiries, he will be disposed and able to make changes in the relations of the Government to the people, which may lead to the amelioration of the condition of the Russian people, and to the peace and prosperity of the empire.

TAXING OF NATIONAL BANKS.

Mr. Williams, President of the National Albany Exchange Bank, has addressed the following letter to banks and bankers in relation to the late decisions in the Supreme Court on the question of taxing bank shares.

ALBANY, March 13, 1880.

The decisions lately rendered by the Supreme Court of the United States in the two cases brought by the subscriber to test the legality of the methods and extent of the exactions upon bank shares and capital, under the name of assessment and taxation, establishes the following principles as settled law, viz.:

1st. That the taxation of shares of national banks must "not be greater," including the entire process of assessment and the rate of tax, "than is assessed upon other moneyed capital."

2d. That the law of our State (act of April 23, 1866), under which bank shares have heretofore been assessed and taxed, is "void as to the shares of national banks."

From these points established the following flow as corollary, viz.:

1st. The special and separate assessment of bank shares is ent up, root and branch.

2d. Under our present laws the shares of banks can only be assessed and taxed to the owner or holder thereof at the place of his residence, if within this State.

3d. The Legislature can pass no valid law subjecting shares to special and separate taxation, as distinct from the other personal property of the owner, if such law shall result in subjecting the shares to a greater burden of tax than other personal property of the citizen is subjected to.

4th. The Legislature must abandon the attempt to assess and tax bank shares by any process or method other than by "including them in the valuation of the personal property of the owner in assessing taxes," precisely as is done with all other moneyed capital.

The following reflections seem justified from the foregoing premises:

1st. The shares of national banks are, under the legislation of Congress and the decisions of the United States Court, subject to State taxation by their being "included in the valuation of the personal property of their owner in the assessment of taxes," provided the "taxation shall not be at a greater rate than is assessed upon other moneyed capital in the hands of the individual citizen"—meaning clearly, that they may be taxed by the same methods, and in the same manner, and at the same rates, subject to the same rights and immunities, as other personal property generally.

2d. Since the taxation of the shares is clearly permissible only in the manner and at the rate above stated, the Legislature can be moved to adopt a different process or method only

from the purpose to subject such shares to greater taxation than would be the case if the method above stated was adopted.

3d. It follows also that the Legislature cannot adopt a method which shall ensure all the shares in national banks being placed upon the assessors' rolls, while it fails of measures to assure all the personal property of the individual citizen being so placed, although the other restrictions as to valuation and the rate of tax may be complied with; so that it is manifest that any process or method of assessment and taxation, other than by including the shares in the valuation of the personal property of the owner, would be adopted at the imminent peril of its overthrow. It would appear that the experience of the State in its two attempts to subject banks to unjustly discriminative taxation ought to suffice.

4th. While the points decided and the results as stated apply legally at present only to the national banks, it is beyond doubt that the Legislature will place all State institutions on the same footing.

Experience has shown us that in deference to a mistaken prejudice in the public mind against the banks, our State courts have been ready to uphold any exactions upon them that the Legislature might adopt; and it becomes all bankers and bankstock holders to watch with vigilance, and to resist with earnestness, any legislation to subject them to special taxation in whatever manner.

The indifference of the bankers of the State to, and their supine acquiescence in, the unequal and unjust exactions made npon them under the act of 1866, as interpreted by our courts in the Cagger case, have resulted in fastening upon them this flagrant injustice for fourteen years now. It is an amazing fact when viewed with reference to the manifest wrong of that interpretation. Bankers, no more than others, can exempt themselves from the rule which makes vigilance the price of liberty. If we fail to demand our rights, we cannot expect they will be conceded.

The subscriber takes pleasure in stating that he regards himself as having succeeded in all he had attempted as plaintiff in these suits, excepting the recovery of the money wrongfully taken from him under this unjust act, and the admitted (even by our own courts, which upheld the law) unjust proceedings of the assessors. Very respectfully,

C. P. WILLIAMS.

Commercial and Miscellaneous News.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports of last week, compared with those of the preceding week, show a decrease in both dry goods and general merchandise. The total imports were \$9,910,917, against \$13,878,046 the preceding week and \$7,848,877 two weeks previous. The exports for the week ended Mar. 16 amounted to \$6,932,979, against \$7,775,954 last week and \$5,293,449 the previous week. The following are the imports at New York for the week ending (for dry goods) Mar. 11 and for the week ending (for general merchandise) Mar. 12:

FOREIGN IMPORTS AT NEW YORK FOR THE WEEK.

Dry Goods General mdse	1877. \$2,087.600 5,458,961	1878. \$1,894,838 4,891,186	1879. \$2,739,551 4,336,266	1880. \$2,768,815 7,142,102
Total week Prev. reported	\$7,546,561 61,303,163	\$6,776,024 56,532,247	\$7,075,817 57,804,299	\$9,910,917 91,361,841
Total s'ce Jan. 1.	\$68,849,724	\$63,308,271	\$61,880,116	\$101,272,758

In our report of the dry goods trade will be found the imports of dry goods for one week later.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Mar. 16:

EXPORTS FROM NEW YORK FOR THE WEE

For the week Prev. reported	1877. \$4,794,472 51,905,530	1878. \$8,154.874 67,032,911	1879. \$5,900,575 60,093,817	1830. \$6,932,979 61,427,737
Total s'ce Jan. 1.	\$56,700,002	\$75.187.785	\$65,991,392	\$68,360,716

The following will show the exports of specie from the port of New York for the week ending Mar. 13, and also a comparison of the total since Jan. 1, 1880, with the corresponding totals for several previous years:

March.

STATEMENT of the Comptroller of the Currency on March 1, 1880, showing the amounts of National Bank notes and of Legal Tender notes outstanding at the dates of the passage of the Acts of June 20, 1874, January 14, 1875, and May 31, 1878, together with the amounts outstanding at date, and the increase or decrease:

* Circulation of national gold banks, not included in the above, \$1,426,120.

*Circulation of national gold banks, not included in the above, \$1,426,120.

Col. Chic. & Ind. Central.—Messrs. R. T. Wilson, Adrian Iselin and W. Whitewright, the committee for first mortgage bondholders, have issued a circular in which they say that "irrespective of the lease by which they are guaranteed, the consolidated bonds are selling at present for considerably less than other railroad securities having no more or even less intrinsic value." They report the road's earnings for six months ending with February at \$2,282,748 gross, and \$755,237 net, against \$1,553,994 gross and \$361,927 net for the corresponding period a year earlier. With regard to the suit, the committee gives the following: "The judgment given for back rental was \$2,769,000; out of this amount, as far as we can estimate, there will have to be applied to the payment of overdue underlying coupons, to the liquidation of the balance due by your committee for expenses and for reducing the debt in accordance with Judge Harlan's decision, for legal expenses and for the settlement of various pending claims, about \$1,700,000, leaving a balance of \$1,009,000, or about 9 per cent on the outstanding certificates and bonds (\$11,978,000). On the other hand, it will be necessary to scale the certificates by 12 9-16 per cent in order to reduce them to the original amount of first mortgage bonds (\$10,478,000). Should, therefore, the Pennsylvania Railroad submit to Judge Harlan's decision, or should this decision be sustained by the Supreme Court of the United States, the bondholders would at least have their original bonds bearing interest at 7 per cent from about 1st of April, 1880.

"Should no settlement be effected with the Pennsylvania Railroad before the case is decided by the Supreme Court of the United States, there will then be the chance of the bondholders recovering about \$1,000,000 more than the amount of back rental allowed by Judge Harlan, our side having also appealed from his decision in so far as it does not allow us the interest on the

Oregon Railway & Navigation Co.-Gross and net earnings for February, 1880:

Oregon Steam Navigation Co. \$94,559
Oregon Steamship Co. 41,832
Walla Walla & Colombia Railroad. 18,253 Net. \$38,815 12,382 10,962 Total.....\$154,644

Triportion of net for Oregon Railway and Navigation Co., \$53,202. The total net earnings of the three companies for February, 1879, was (net) \$12,626.

St. Louis & San Francisco.—The board of directors organized and elected General E. F. Winslow President, James D. Fish, Vice-President, C. Littlefield, Secretary and Treasurer, and C. M. Rogers, General Manager and Superintendent.

Southern Pacific.—This railroad was completed to Tucson, March 17

Warwick Valley (N. Y.)—The stockholders of the Warwick Valley and Wawayanda railroads have voted to consolidate. The new organization takes the name of The Warwick Valley Railroad, and assumes all the obligations of both, amounting to \$210,000 bonded indebtedness, and is authorized to issue \$340,000 in stock for old stock \$340,000 in stock for old stock.

Washington City Virginia Midland & Great Southern.— This railroad will be sold at auction in Alexandria, Va., under a decree of the Circuit Court, on the 13th May next. After the sale the company will be reorganized upon the plan lately adopted by committees of the bondholders.

Western & Atlantic.—The Atlanta Constitution has positive information that the controlling interest in the Western & Atlantic lease has been sold to the Central Railroad Company of Georgia. A controlling interest was bought some time ago by President Cole for the Nashville Chattanooga & St. Louis, and this, it is understood, was held by Col. Cole and not by the company.

—The Little Chief Mining Company has declared the regular monthly dividend, of which notice will be found in our advertising columns. We are informed that the shipment from this mine for the month of February amounted to 2,584 tons of ore. In addition to this, about 350 tons more were smelted in the works of the company. The net proceeds amount to \$149,634. The average daily production has lately been from 105 to 110 tons, and new hoisting works are contemplated which will increase the production.

Attention is called to the card of Masses John H Iselin &

—Attention is called to the card of Messrs. John H. Iselin & Co., members of the Chicago Board of Trade, who notify all interested that options at that Board are bought and sold by them for customers in this market. The senior member of this firm was formerly a partner of the well and favorably known dry goods importing house of Messrs. Iselin, Neeser & Co.

—The fourth dividend has been declared by the "Father De Smet" consolidated gold mining company of 30 cents per share, to be paid at the office of Messrs. Laidlaw & Co., 12 Pine street, New York, on the 24th inst.

—The Metropolitan Elevated Railroad Company has just declared its second quarterly dividend of 2½ per cent on cap-ital stock, payable on April 1 at Central Trust Company's offices, this city.

-The Chrysolite mining company has just declared its usual monthly dividend, full particulars of which will be found in our advertising columns.

(ATIONAL BANKS ORGANIZED.

The United States Comptroller of the Currency furnishes the following statement of National Banks organized:

2,464—The Parkesburg National Banks organized:

2,464—The Parkesburg National Bank, Parkesburg, Pa. Authorized capital, \$50,000; paid-in capital \$40,000. Samuel R. Parke, President; R. Agnew Futhey, Cashier. Authorized to commence business March 15, 1880.

2,465—The First National Bank of Sioux Falls, Dakota. Authorized capital, \$50,000; paid-in capital, \$30,000. Jackson B. Young, President; Harry L. Hollister, Cashier. Authorized to commence business March 15, 1880.

2,466—The Hyde National Bank of Titusville, Pa. Authorized capital, \$500,000, paid-in capital, \$500,000. Charles Hyde, President; W. C, Hyde, Cashier. Authorized to commence business March 16, 1880.

DIVIDENDS.

The following dividends have recently been announced:

Name of Company.	Per Cent.	When Payable.	Books Closed.
Mallroads. Coney Island & Brooklyn Metropolitan Elevated (quar.) New York Elevated (quar) Union Pacific (quar.)	3 21 ₂ 21 ₃	April 15 April 1 April 1	

FRIDAY, MARCH 19, 1880-5 P. M. The Money Market and Fluancial Situation.—The money market was decidedly stringent in the early part of the week, but since Wednesday there has been a perceptible increase in the amount of money offering on good collaterals. The Sub-Treasury will begin on Monday next to pay the April interest on Government bonds, without rebate, and there is an impression in some quarters that the money market will probably not become more stringent than it has been this week. This idea is supported by the assertion that what is generally anticipated in financial circles is less likely to occur for that very reason, and that in the present instance large amounts of money have been taken by brokers on time loans. Another week will develop more fully the tendency of the monetary situation, and unless attempts are made to create an artificial stringency for speculative purposes, it is quite possible that an easier market will be experienced.

The importation of foreign goods continues on so large a scale, and the exports of produce are so retarded by the higher prices of our markets, that there is considerable talk of an export of gold. This may occur, but we do not anticipate it, for even should the imports keep up at a larger volume than exports, the movement in securities is to be taken into consideration, and the favorable outlook for all our railroad properties is such as to make a ready market for them abroad. In the case only of the Syndicate transactions in New York Central & Hudson stock and Southern Pacific railroad bonds, if it be assumed that threefourths of the stock and most of the bonds were placed abroad, we have an export amounting to about \$33,000,000. And these were but isolated transactions, while it is known that the foreign banking houses have a steady business in American securities which in the aggregate sometimes runs up to large figures.

The money market has been tight, and borrowers on stock collaterals have paid 6 per cent, and frequently a commission of 1-32 to 1-16 per day in addition. Government bond dealers have paid 4@5 per cent, and during the past two days they report a great abundance of money offered at the lower rate; it was reported, in connection with this, that one of the largest stock operators had called in loans early in the week, presumably for the purpose of increasing the stringency. Prime commercial paper is quoted at 5@6 per cent.

The Bank of England on Thursday showed a gain of £324,-000 in specie for the week, but the percentage of reserve was 45 13-16, against 47% per cent last week. The discount rate remains at 3 per cent. The Bank of France showed a gain for the week of 23,189,000 francs.

The last statement of the New York City Clearing-House banks, issued March 13, showed a decrease of \$329,500 in the excess above their 25 per cent legal reserve, the whole of such excess being \$1,985,050, against \$2,314,550 the previous week.

The following table shows the changes from the previous week and a comparison with the two preceding years.

	1880. Mar. 13.	Differ'nces fr'm previous week.	1879. March 15.	1878. March 16.

Surplus	\$1,935,050	Dec. \$329,500	\$3,844,975	\$16,100,825

Unlied States Honds .- In Government securities the business has been rather moderate and prices easier. A good many fives and sixes had accumulated here in anticipation of possible large purchases by Secretary Sherman, and then the absence of further reports of definite progress on the 31/2 per cent bill, together with the stringency in money, have all combined to make the tone a trifle easier. At the Treasury purchase on Wednesday, the offcrings of bonds amounted to \$11,307,350, including sixes of 1880 at 103.85 to 104, sixes of 1881 at 105.37 1/2 to 105.62, and fives of 1881 at 103.13 to 103.61. The awards were \$2,000,000, consisting of sixes of 1881 at 105.37%@105.44, and fives at 103.13@103.18.

Closing prices at the N. Y. Board have been as follows:

State and Rallroad Bonds.—The transactions in State bonds are quite moderate, and the better bonds of the Southern list are well supported by a home demand. In railroad bonds there is less speculative business, but the investment bonds are kept up to very high prices, and even the 6 per cent bonds have nearly all advanced above par.

Messrs. A. H. Muller & Son sold the following at auction:

Rallroad and Miscellaneous Stocks .- The stock market has been feverish and unsettled, but closes without any great change in prices on the general list. The present stringency in money, and the fear of a much closer market about the 1st of April, has been, unquestionably, the principal cause for the weaker tone which has frequently been shown; but, as we re-

weaker tone which has frequently been shown; but, as we remark above, it is quite possible that the pressure in money which is anticipated may not, in fact, be experienced.

The coal stocks, under the influence of a further advance in anthracite, have been well maintained. The Vanderbilt stocks are 1@2 per cent off from the prices of last week, but in their earnings for the past three months these roads have, no doubt, shown a large increase. Quicksilver preferred has advanced to 76½@77½, which is said to be due to the expectation that the holders of this stock will soon receive back dividends since 1870, amounting, with interest, to about fifty-six per cent. The holders of this stock will soon receive pack dividends since 1810, amounting, with interest, to about fifty-six per cent. The amount of dividend will depend upon the report of the referee, which is expected soon. Nashville Chattanooga & St. Louis closes at 93, against 100½ as the best price a week ago and 125½ on March 6. The stock was kept up as long as possible by a pool, but finally broke, and the pool brokers unfortunately broke with it.

A street report says that the managers of the Louisville &

A street report says that the managers of the Louisville & Nashville Railroad Company propose to increase the capital of their road from \$9,000,000 to \$20,000,000, and to offer the \$11,000,000 additional stock to present holders at 50 per cent.

This will give the company \$5.500,000 cash, with which, it is said, they propose to pay off the debentures. Vice-President Newcomb, of the Louisville & Nashville, says of the Ohio & Mississippi: "We have never invested one dollar in the stock of the Ohio & Mississippi Road as a company, nor have I individually." Ohio & Mississippi, however, advanced again above 40 and closes at 3934.

The Gould stocks have been among the steadiest, and on a small business show moderate fluctuations. Mr. Cyrus W. Field has resigned the presidency of the Wabash St. Louis & Pacific as well as the New York Elevated, intending to retire from active business. There is nothing new in the telegraph war, and it is uscless to predict any particular results to either company until something further is settled by the profuse litigation.

Exchange.—Foreign exchange has been strong during most of the week, though hardly as firm to-day. The actual rates for bankers' 60-days sterling bills are 4 85@4 85¼ and for demand 4 88@4 88½. Some of the bankers talk of an export of specie, but we hardly look for such a movement to any considerable amount.

The following were the rates of domestic exchange on New York at the undermentioned cities to-day: Savannah—buying ½, selling ½ preminm; Charleston, buying ½, selling ½; New Orleans, commercial, 1.50 premium, bank 2.50 premium; St. Louis, 50 discount; Chicago, weak, 75@80c. discount; and Boston, 25c. discount.

Quotations for foreign exchange are as follows:

MARCH 19.	Sixty Days.	Demand.
Prime bankers' sterling bills on London. Good bankers' and prime commercial Good commercial Documentary commercial Paris (francs). Antwerp (francs). Swiss (francs). Amsterdam (guilders). Hamburg (reichmarks). Frankfort (reichmarks). Bremen (reichmarks). Berlin (reichmarks).	$\begin{array}{c} 4\ 84\ 4\ 83\ 4\ 84\ 84\ 4\ 83\ 4\ 64\ 84\ 4\ 83\ 4\ 64\ 84\ 5\ 20\ 5\ 80\ 5\ 18\ 4\ 5\ 20\ 5\ 80\ 5\ 18\ 4\ 40\ 40\ 40\ 40\ 40\ 40\ 40\ 40\ 40\$	4 88 204 89 4 88 204 88 19 4 87 1404 87 34 4 86 34 204 87 15 5 18 34 25 16 10 5 18 34 25 16 10 5 18 34 25 16 10 40 140 40 12 95 180 95 18 95 180 95 18 95 180 95 18 95 180 95 18

THE INVESTORS' SUPPLEMENT.

The next number of the INVESTORS' SUPPLEMENT will be issued Saturday, April 24.

INDEX SINCE MARCH SUPPLEMENT.

The following is an index to all reports and items heretofore published in the Investment Department of the Chronicle, since the last issue of the Investor's Supplement; annual reports are indexed in black-faced type:

Atchison & Nobraska	Murietta Plttsburg & Cleve 273 Milwankee & Northern 273 Missouri Pacifio 273 Montpelier & Well's River 272 Now Jersey Midland 273 Na Y. Lake Eric & Western 273 New Orleans & Mobile 273 Pennsylvania Raiiroad 274 Peoria Decatur & Evansville 264 Peoria Decatur & Evansville 264
Wheeling	Richmond & Allegheny 274 Richmond & Petersburg 271 St. Paul & Duluth 264 St. Paul & Sioux City 264 Toxas & Pacific 274 U. S. Transportation on Land-Grand Roads 264 Uolou Pacific 270 Virginia State Debt 264 Wahash St. Louls & Pacific 264 Western Union Telegraph 264 Wisconsin Valley 272

ANNUAL REPORTS.

Missonri Kansas & Texas.

(For the year ending December 31, 1879.)

The Union Trust Company of New York, trustee under the mortgages, submits, for the information of bondholders, the report of the general manager, showing the operation of the road for the year, the results of business, and the disposition made of the funds coming into the hands of the trustee.

The gross receipts and disbursements of the trust during the year were as follows:

Gross carnings. Not proceeds land sales. Not proceeds Denison Cotton Compress. Interest allowed by Trust Company.	51,063 27,101
Less total expenditures.	\$3,426,071 2,406,621
Bulance	\$1,019,450 190,445
Net proceeds Applied as follows: Conpons and interest	\$1,209,896
Account Deulson Cotton Compress	892,218
Net balance for 1879. Add balance Dec. 31, 1878: General manager's ledger \$50,624 Union Trust Co., cash	\$317,677
Union Trust Co., cash	139,622
Balance Dec. 31, 1879: General manager's ledger. \$187.292	\$457,300

 Remittances in transit
 100,000

 Union Trust Company of New York
 170,008—\$457,300

95,394 in 1878.

The decrease in expenses this year over the last formed an important item in the net result. Improved drainage and the increased number of miles laid with steel rails have had their influence in diminishing the outlay for maintaining the track in condition, to which the favorable weather of the past year has also contributed. The number of miles of steel rails laid during the year was 77½, requiring 6,334 tons; and the total amount of miles of steel rails in the track on Dec. 31, 1879, was 214

It has been the policy of the trustee to confine renewals and improvements, as far as practicable, to what was absolutely needed, with the view of complying as nearly as possible with the payments to bondholders called for by the agreement of March 1, 1876. The net income of the trust enabled the trustee to resume payment upon the coupons, the amounts called for by the agreement having been applied in October, 1879, upon the coupons due Feb. 1, 1878, and in Dec., 1879, upon those of Ang. 1 1878

Aug. 1, 1878.
"The Trust Company believing that the taxes and expenses of the land grant were not a proper charge upon the trust, but should be defrayed out of the fund resulting from sales, agreed with the trustees of the Union Pacific Sonthern Branch mort-

or the land grain were not a proper charge upon the trust, but should be defrayed out of the fund resulting from sales, agreed with the trustees of the Union Pacific Sonthern Branch mortgage to have the question of the construction of the mortgage presented to court for decision. This was done, and resulted in an order of the court affirming the propriety of the claim made by the Trust Company, and ordering that the expenses and taxes paid out of the general income of the property since the appointment of the receiver should be refunded ont of proceeds of land sold. The effect of this has been an addition to the amount available for income of 1879 of \$51,063."

A further addition to income of \$190,445 was derived from the collection and sale during the year of the notes of the Houston & Texas Central Railway taken by the trustee in 1877 in settlement of traffic balances.

Under the advice of the advisory board and with the sanction of the railway company, the trustee agreed to purchase from the Land Grant Railway and Trust Company the entire capital stock of the Booneville Bridge Company, \$1,000,000 in amount, at a cash ontlay of \$65,000, and consented further that the account between that company and the railway company should be reopened and finally adjusted by the issue of \$200,000 income-second mortgage bonds in full settlement of all claims. Under this arrangement there have been delivered, and are new held by the Trust Company as trustee of the M. K. & T. Railway consolidated and second mortgages, 9,872 shares of Booneville Bridge stock, costing \$63,765, and there is reserved against the small balance of outstanding shares when presented \$1,235 in cash and \$1,500 in second mortgage bonds.

The estimate in 1878 of renewals and improvements to be made in 1879 amounted to \$510,200; the actual expenditure for these objects was \$473,295; the estimate for similar purposes for 1880 is \$689,000, the principal item being for 8,000 tons steel rails to replace worn-out iron, of which an amount equivalent to 140 mile

DENISON AND SOUTHEASTERN RAILWAY.

With the sanction of the advisory board and railway company, arrangements were made in the interests of the M. K. & T. Railway for extending the Denison & Southeastern Road in a southerly direction, and for purchasing the Denison & Pacific Railway, already completed westerly from Denison to Gainesville, a distance of 41½ miles. The extensions are to be operated under a traffic arrangement providing for their ultimate acquisition by the M. K. & T. Railway as additional security to its mortgage debt.

Hannibal & St. Joseph Railroad.

(For the year ending December 31st, 1879.)

The annual report has the following:

	0440				0	
IN	COM	E	ACC	0	UNT	

\$1,997,405 1,223,421
\$773,983 657,320
\$116,663
37,190
\$152,854 261,430

\$415,284 This sum has been applied or remains in hand as follows:

Construction	\$92,315	
New equipment	47,587	
Reduction of funded debt	67,000	
Reduction of bills and accounts payable		
Increase of eash over last report		
Increase of freight in transit, &c		
Increase of credit balances of current accounts		
St. L. K. & N. W. bonds		
Balance of sundry accounts	3,998-\$41	15,28

The reduction in funded debt since last year's report is by the payment of the Quincy & Palmyra first mortgage 8 per cent bonds, \$67,000 of which were outstanding and became due February 1st, 1879. The company has no floating debt. The vouchers and pay rolls are paid to December. The item of accounts payable in the balance sheet represents the December pay-rolls and vouchers. The item of bills payable (\$91,125) is composed entirely of the remaining notes of \$2,025 each, for freight cars, maturing monthly until September, 1883. The payment of the twelve notes of this series maturing during the past year and the \$45,569 bills payable for steel rail, shown in the last report, constitutes the reduction in this account. During the year 48 miles of track have been laid with new steel and there are now about 177 miles of steel track.

The condition of the road is as follows:

Hannibal to St. Joseph-Main Line	206.41
St. Joseph to Atebison—Extension of Main Line	19.47
Cameron & Kansas City Branch Palmyra & Quincy Branch	
I thing to to the state of the	10 12

Total length of track..... As the result of the reorganization and extension of the St. Louis Keokuk & Northwestern Road, 192 shares preferred and 192 shares of common stock of the reorganized company have been issued to this company, and they subscribed for the bonds issued for the purpose of the extension of the St. Louis Keokuk & Northwestern to the extent of \$35,716, three-fifths first mortgage and two-fifths second mortgage at the rate of fifty cents on the dollar for the whole.

LAND DEPARTMENT.

The transactions of the and department show greatly increased activity. A complete re-valuation has been made, based upon actual inspection by competent experts. The greater part of the contracts upon which payments were in arrears have been canceled and the land placed again in the

market.

The cash receipts of the year were as follows:

Free land \$14,187 Assigned, etc., land \$13,980

Net income from land..... \$268,544

Owing to the rupture in the Southwestern Railway Association, caused by the withdrawal of the St. Louis lines, and extending from the 12th April until the 15th September, the rates for carrying freight during this period of five months were very low, and consequently entailed a heavy loss in revenue. The passenger business eastward was also seriously afforted by the same cause.

were very low, and consequently entailed a heavy loss in revenue. The passenger business eastward was also seriously affected by the same cause.

In May the rate per ton per mile on through freight was as low as 37-100 cents, and for the entire year the average was 78-100 cents, against a similar average for 1878 of 1 1-10. On the tonnage actually handled during the year, this difference in rate was equivalent to a loss in revenue of \$288,915. During the year there were moved 622,553 tons freight and 282,379 passengers, against 543,472 tons freight and 237,916 passengers in 1878, being an increase of 14½ per cent in volume of freight and 9½ per cent in passenger traffic over the business of 1878.

reeling extension, all the mortgage-bond holders signed an greement among themselves, and with the company, by which mortgage securing 700 bonds of \$1,000 each should become a stylien upon the entire railroad and property of the company, hich bonds so secured were accordingly issued and have been sposed of at par and accrued interest, five hundred and venty-nine bonds having been delivered to purchasers prior to exember 31, 1879, and the proceeds applied in payment for nstruction and for steel rails.

Six thousand gross tons of steel rails, purchased at \$45 parters.

Instruction and for steel rails. Six thousand gross tons of steel rails, purchased at \$45 per ton May, have been received and laid on that part of the railroad tween Lake Erie and Uhrichsville and the partly-worn iron il has been transferred to the Wheeling extension. The construction of the extension has progressed steadily to the resumption of work, June 1, 1879, and at this date carch 10, 1880) the grading and bridging is nearly completed, d the track is laid with the exception of nine miles. It is expected the track will be laid and sufficiently ballasted begin business between Lake Erie and the Ohio River May 1, 80.

GENERAL INVESTMENT NEWS.

Atlantic & Great Western.—The Atlantic & Great Western ilway Company has been formally changed into the Nark Pennsylvania & Ohio Railway Company, and the certifice filed at Columbus, Ohio. The Rev. J. Lockington Bates, London, who purchased the road for English bondholders, tes that no incorporation will be necessary in New York. An atliary company will be incorporated in Philadelphia, and excertificate filed at Harrisburg with the Secretary of the State Pennsylvania. Within a fortnight the two companies will et, consolidate, and elect directors. Gen. J. H. Devereaux, ceiver of the Atlantic & Great Western, will be President, P. Cooper, General Superintendent, and the other officers will appointed by the new company. The general office will be Cleveland.—The London newspapers publish the following statement of tlantic & Great Western.-The Atlantic & Great Western

The London newspapers publish the following statement of the total capital and annual interest charges as they will stand under the scheme of reorganization.

CAPITAL.	Interest.
Prior lien bends, \$8,000,000 at 6 per cent per annum	\$180,000
First mortgage bonds \$25,280,845, at 5 per cent per annum, if	
earned within the year.	1,264,042
Second mortgage bonds, \$11,627,886,at 5 per cent per annum, if carned within the year.	581.394
This morigage bonds, \$28.783,000, at 5 her cent her annum.	
if earned within the year	1,439,150
Preference shares \$10,000,000	
Common shares (estimated)	

The capitalized overdue interest (37 per cent on the first mortgage and 12 per cent upon the second mortgage) is included in the above. The following securities have ceased to be a claim upon the Atlantic & Great Western Railroad (reorganized) ganized).

Leased lines (1872) bonds. Leased lines (1873) bonds. Eight per eent Western Extension certificates. Seven per cent Western Extension trust bonds.	\$5,500,000 4,500,000 1,695,000 1,748,500
--	--

\$13,443,500

The amount required to meet the interest on the prior lien and first mortgage bonds as above is \$1.744,042. The net revenue for the year 1873 reported by Mr. Devereaux was \$1.920,000, which would be sufficient to pay the interest on the prior lien and first mortgage bonds and the rental of leased lines.

lien and first mortgage bonds and the rental of leased lines.

Atlantic Mississippi & Ohio.—A report has been issued in London to the bondholders of the Atlantic Mississippi & Ohio Railway, stating that a decree for the sale of the road had been obtained, the United States Circuit Court agreeing to appoint the master commissioner to sell the property. A statement of accounts is given, from which it appears that the receiver has \$260,000 of funds in hand. The net revenue from July to December 31, 1879, is stated at \$475,629. The estimate from the 1st of January to the 1st of July of this year is \$260,768. The report says that probably "the final expenses of the foreciosure and sale may absorb the net earnings after payment of the divisional interest." Pending the arrangements for sale under the foreclosure, application has been made to the Court to sanction the payment of "an interim dividend of \$2 per coupon on all the overdue coupons of the consolidated bonds. pon on all the overdue coupons of the consolidated bonds.

pon on all the overdue coupons of the consolidated bonds.

Chicago & Pacific.—Mr. Henry W. Bishop, Master in Chancery in the Federal Courts, has filed a report in Chicago in the case of Blair rs. The Chicago & Pacific Railroad Company, in which he states that on the 1st day of May, 1879, he had sold the above road for \$916,100, and that the purchasers at that sale paid \$60,000 cash to him and \$200,000 to the Clerk by order of the Court. The sum of \$321,200 was subsequently allowed them, being an amount equal to a 22 per cent dividend on 1,460 bonds owned by them. Under an order of Feb. 11, 1880, they paid \$250,900, and turned over fifty-two receivers' certificates which were credited to them as \$\$4,000 cash. These items together made up the total purchase money of \$916,100, which together made up the total purchase money of \$916,100, which is now all paid, and the master was accordingly directed to give the purchasers a certificate of purchase and to surrender them their 1.460 bonds.

their 1,460 bonds.

Cincinnatl Indianapolis St. Louis & Chicago.—Mr. M. E. Ingalls, President of the late Indianapolis Cincinnati & Lafayette Railroad, has issued the following circular:

"On the 2d day of February, 1880, the Indianapolis Cincinnati & Lafayette Railroad was sold at foreclosure sale, and was purchased by a committee in the interest of bondholders, which sale has been confirmed, and a new company organized under the above title. By order of the courts the property has been tansferred to said Cincinnati Indianapolis St. Louis & Chicago Railway Company, such transfer to date from March 1, 1880.

"From and after that date all accounts should be kept in the name of 'The Cincinnati Indianapolis St. Louis & Chicago Railway Company,' and settlement for balances made with E. F. Osborn, Treasurer, Cincinnati, Ohio. Mileage reports to be forwarded to same address."

Osborn, Treasurer, Cincinnati, Ohio. Mileage reports to be forwaded to same address."

At Cincinnati, March 13, a deed of transfer, under the recent sale of the Indianapolis Cincinnati & Lafayette Railroad, was left with the Recorder for record, and also a mortgage from the new Cincinnati Indianapolis St. Louis & Chicago RR. Company to George T. Bliss and Harvey Bates, trustees, to secure the issue of \$7,500,000 of mortgage bonds of the new road.

Evansylle Terre Haute & Chicago.—Pursuant to the terms of lease of this railway to the Chicago & Eastern Illinois Railmoad Company, holders of interest certificates are notified that the same are now exchangeable for preferred stock on presentation at the office of the Farmers Loan and Trust Company, New York.

Indiana Southern.-Under a decree of the United States Indlana Southern.—Under a decree of the United States Court in a suit to foreclose a mortgage to Samuel J. Tilden and W. H. Swift, the Indiana Southern Railway, from Fort Wayne to Jeffersonville, together with all lands acquired by said railway company and appurtenances, subject to the right of the Ohio & Mississippi and the Fort Wayne Muncie & Cincinnati Railroad companies to remove from said property any ties, rails and other structures thereon owned by them, was sold at Vernon, Ind., March 11, to John S. Swolzenberg, an attorney of New Albany, Ind., for \$50,000.

Missouri Iowa & Nebraska.—The directors of the Missouri Iowa & Nebraska Railroad Company have ratified the proposed sale of that road to the Wabash. Contracts have been given out for extending the main line thirty miles west to Corydon, Iowa, and for grading a branch to Albia. After foreclosure and reorganization, the road will be consolidated with the Watash. The branch to Albia contemplates a connection with the Iowa Central and the ultimate absorption of the latter road into the Wabash system.

Nashville Chattanooga & St. Lonis.—Ex-Governor James D. Porter, of Tennessee, has accepted the presidency.

Ohio & Mississippi.—John King, Jr., Receiver of the Ohio & Mississippi Railroad has filed his report of receipts and disbursements for the month of February in the United States Circuit Court. It is as follows:

Cash on hand February 1. Cash from station agents. Cash from conductors. Cash from Indianapolis railread companies, etc. Cash from Adams and American express companies.	393,293 4,703	84 25
Total	\$636,612	68

DISBURSEMENTS.	
Vouchers subsequent to November 17, 1876	\$311,220 12
Payrolls	122,598 16
Arrearages	296 71
Cash on hand March 1, 1880	201.899 68
	441000 00

Pennsylvania Railroad.—At a meeting held in Philadelphia on March 18 of the committee appointed at the annual meeting of the Pennsylvania Railroad Company to nominate directors, the following ticket was nominated to be voted for on Tuesday next:—Thomas A. Scott, Josiah Bowen, Wistar Morris, Samuel M. Felton, Alexander Biddle, Henry M. Phillips, N. Parker Shortridge, D. B. Cummings, Henry D. Welsh, John Price Wetherill, Alexander M. Fox, William L. Elkins and James Mc-Manus. Heretofcre the shareholders have elected ten directors, but the committee now present thirteen names to be voted for. The three last-named gentlemen were elected in November last to represent the stock then held by the city of Philadelphia, which stock has since been sold. They are nominated by the committee to be voted for by the stockholders, to avoid a possible legal question as to the right of their seats by virtue of that election. Pennsylvania Railroad.—At a meeting held in Philadelphia that election.

that election.

Pittsburg Cincinuati & St. Louis.—At Columbus, Ohio, March 16, the annual meeting of the Pittsburg Cincinnati & St. Louis Railroad was held. The annual report for 1879 was submitted. The gross earnings for 1879 were \$3,603,123 and the expenses for the same time \$2,003,561, showing the net earnings to have been \$1,599,562. Out of this was paid: Interest on bonds, including second mortgage, \$833,625; other items of interest and rents, \$160,457, leaving a profit of \$605,480. The net revenue from leased lines was \$1,467,765 and the rentals \$193,480, which, deducted from the profit on Pittsburg Cincinnati & St. Louis lines proper, gives a profit on all the lines of \$412,000, being a net gain on 1878 of \$557,757. The lease of a portion of the Columbus & Muskingum Valley Road to the Columbus & Sunday Creek Valley (now the Ohio Central Railroad) was ratified. The old Board of Directors was re-elected, as follows: Thos. A. Scott, Geo. B. Roberts, Wistar Morris, Strickland Kneass, H. H. Hunston, J. N. DnBarry, John Price Hetherill, all of Philadelphia; Wm. Shaw, J. N. McCullough, Thomas D. Messler, W. H. Barnes, Pittsburg; Robert Sherrard, Jr., Steubenville, and D. S. Gray, Columbus. The organization of the new board was postponed until a later date.

Railroad Freight Rates.—The Chicago Times gives a table

Railroad Freight Rates.—The Chicago Times gives a table of freight rates from Chicago to New York each month for twenty years. The rates are for shipments of grain and provisions, and show the nominal tariff charges, which, however, it is well known have not always been strictly maintained.

St. Paul Stillwater & Taylor's Falls.—Holders of St. Paul Stillwater & Taylor's Falls Railroad Company Depot bonds are notified that said bonds will be redeemed, with the interest due thereon, at the Metropolitan National Bank, New York, on the 1st day of April 1880

1st day of April, 1880.

Selma Rome & Dalton.—A notice to bondholders and stockholders is printed, asking them to unite in a scheme for the purchase of the road and franchises under the foreclosure proceedings and reorganization of the same, substantially on the following bosins.

First mortgage bonds to be exchanged for new first mortgage bonds at 50 per cent of principal and unpaid coupons; second mortgage bonds to be exchanged for new second mortgage bonds on similar terms; holders of lineome bonds to receive 25 per cent each of new common and preferred stock, without interest; common stock to be relinquished for 75 per cent of new common stock; all liens judicially decided as prior to the first mortgage bonds, and not payable in each, to be on an equality with first mertgage bonds; all obligations to be assessed pro rata for necessary expenses.

The road runs from Selma, Ala., to Dalton, Ga, 237 miles. It is the successor of the Alabama & Tennessee Rivers Railroad Company, chartered in 1848. It has been in the hands of receivers for over seven years. Its anthorized capital is \$5,000,000, of which \$3,750,000 was paid in at the last report. The first mortgage bonds then amounted to \$5,000,000, the second mortgage bonds to \$4,000,000, and the income bonds to \$230,000

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT. March 19, 1880.

General trade is fairly prosperous, but there is a weakening speculation in leading staples, and the tendency of prices has been generally towards lower figures. The exceptions, if any. have been in foreign merchandise. The weather has been quite wintry in northern and middle latitudes, and at the South heavy rains have caused floods, more or less destructive. The money market has continued in an unsettled state, but has been felt more on the Stock Exchange than in mercantile circles.

In provisions a good movement has been reported, though at steadily declining figures, in sympathy with the Western advices and the apparent cess2tion of speculative interest. Pork to-day sold on the spot at \$11@\$11 25 for old, and \$11 80@\$12 for new mess, the inside price for 1,500 bbls.; also, new for for new mess, the inside price for 1,500 bbls.; also, new for March was sold at \$11 80, and closed \$11 70 asked; May at \$11 65@\$11 60. Lard on the spot realized 7:50c, for old prime Western, and 7:57½@7:55c. for new; March at 7:55c., April 7:55@7:50c., May 7:60@7:52½c., June 7:65@7:60c.; refined sold at 7:90c. for continental lots. The tone at the close was weak. Bacon is dull here at 7½c. for long and short clear together; sales in Chicago at 6½c., and short clear 6½c. Cut meats, beef, and beef hams are quiet. Butter at the close shows a sharp advance and a good business. The following is a comparative summary of aggregate exports from Nov. 1 to March 13:

1879-80.	1878-79.	Increase.	Decrease.
Pork	31,244,600		4,824,200
Baconlbs.310,114,571	379,656,030		66,541,459
Lardlbs.132,968,338	146,372,267		13,403,929
Tolallbs.469,503,309	554,272,897		84,769,588

Tolal......lbs.469,503,309 554,272,897

Rio coffee has further declined to 14½c. for fair cargoes, and the market has been very quiet most of the week. Mild grades of coffee have been dull, and to a great extent nominal in value, owing to the slowness of trade. The stocks of coffee are ample. Rice has been rather more active at firm prices. New Orleans molasses has been in good demand and strong at 44@60c. for fair to choice; and foreign has advanced to 40c. for fifty degrees test refining, the supply still being light, and the demand uninterrupted; grocery grades of foreign have sold fairly at firm prices. The imports of molasses, thus far this season, have been unusually small, especially of refining stock. The reason given for this is that planters in Cuba have been building centrifugal works to a greater extent than ever before, and that they are refining the molasses themselves, and shipping the molasses. This practice has been a growing innovation for several years past, and promises to make in time an important change in the molasses trade here. Raw sugar has been active for cargoes to arrive, the sales on Wednesday alone reaching 4,000 hhds. Cuba at 4¾c. for Muscovado, cost and freight from Havana; while there has also been a fair business on the spot on the basis of 7¾@8c. for fair to good refining, and 8¾c. for 96 degrees test centrifugal.

Refined sugar has been active, and crushed closes at 934@ 975c.

The market for Kentucky tobacco has been quiet, even to dullness, and sales for the week are limited to 400 hhds., of which 300 for export and 100 for home consumption. Prices are nominally unchanged; lugs quoted at 4@5½c., and leaf 6@ 12c. Seed leaf has been rather more active, and sales for the week amount to 901 cases, all crop of 1878, as follows: 500 cases Pennsylvania, 10@20c.; 250 cases New England, 10@30c.; 51 cases Ohio, private terms; and 100 cases Wisconsin, 7@14c. There has been a fair inquiry for Spanish tobacco, and sales include 700 ba'es Havana at \$2c.@\$1 10.

Ocean freights have been more active at firmer rates. The

There has been a fair inquiry for Spanish tobacco, and sales include 700 ba'es Havana at \$2c.@\$1 10.

Ocean freights have been more active at firmer rates. The demands have come chiefly from the grain trade. The number of vessels in port has been considerably reduced. The engagements to-day included: Grain to Liverpool, by sail, 4½d.; do. by steam, quoted 6½d., 60 lbs.; provisions, 27s. 6d @30s.; grain to London, by steam, 5½d., 60 lbs.; do. by sail, 3s. 1½d. perqr.; do. to Glasgow by steam, 4¼d., 60 lbs.; do. to Cork for orders, 3s. 8d., prompt loading; and 4s. 3d. for all March; do. to Bordeaux or Antwerp, 3s. 10½d.; do. to East coast of Ireland, 3s. 1½d.; refined petroleum to a direct Baltic port, 3s.; do. to the United Kingdom, 2s. 6d.; rosin to the Continent, 2s.

Naval stores have been influenced to some extent by the London advices, which have been weak and declining. This fact has checked the demand, without really causing weakness. Holders of spirits turpentine still demand 49½@50c., and refused bids of 49c. to-day; strained to good rosins quoted \$1 45 @\$1 52½; the medium and finer grades are more firmly held Petroleum has had some business, at slightly better figures; refined in bbls. here 7½c. Mixed certificates at one time advanced to 94½c., bnt close irregular at 89%@90c. Metals, with the exception of lead, show weakness and dullness; lead has been active at 55%@5°S0c., closing with 5°80c. bid, and 5°85c. asked for common domestic. Ingot copper quiet at 23½@ 23¼c. for Lake. Cloverseed sold at 7¾c. for prime Western.

⁻Messrs. Fisk & Hatch, in their railroad bond department for the sale of choice railroad bonds, now have for sale a few of the purchase money 6 per cent funding bonds of the Chesapeake & Ohio Railway Company. These bonds, amounting to only \$2,350,000, are secured by a special deed of trust, which was made to secure a part of the purchase money, and comprises the first lien on the entire property and franchises of the company, consisting of 423 miles of completed road—with its equipment, and other valuable franchises—representing a capital in stock and bonds of over \$50,000,000 stock and bonds of over \$50,000,000.

COTTON.

FRIDAY, P. M., March 19, 1880.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (Mar. 19), the total receipts have reached 49,611 bales, against 64,368 bales last week, 78,451 bales the previous week, and 102,995 bales three weeks since, making the total receipts since the 1st of September, 1879, 4,394,250 bales, against 4,058,522 bales for the same period of 1878-9, showing an increase since September 1, 1879, of 335,728 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of four previous years are as follows: weeks of four previous years are as follows:

Receipts this w'k at	1880.	1879.	1878.	1877.	1876.

*The exports this week under the head of "other ports" include, from Baltimore, 5,127 bales to Liverpool; from Boston, 1,120 bales to Liverpool; from Philadelphia, 126 bales to Liverpool.

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is a decrease in the exports this week of 753 bales, while the stocks to-night are 238,044 bales more than they were at this time a year ago.

are 235,044 bales more than they were at this time a year ago.

In addition to above exports, our telegrams to-night also give us the following amounts of cotton on shipboard, not cleared, at the ports named. We add also similar figures for New York, which are prepared for our special use by Messrs. Carey, Yale & Lambert, 60 Beaver street:

On Shipboard, not cleared—for						
Mar. 19, at-	Liver- pool.	France.	Other Foreign	Coast- wise.	Total.	Stock.

*Under the head of Charleston is included Port Royal, &c.; under the head of Calveston is included Indianola, &c., under the head of Norfolk is included Olter

The speculation in futures was at advancing prices on Saturday last. There had been a considerable decline during the previous three days, and the weather reports from the South, threatening serious floods, caused a demand to cover contracts and realize profits from the recent decline. But on Mouday and Tuesday there was a decline of about 15 points for this crop and seven or eight for the next crop, under dull accounts from Liverpool and the burdensome accumulation of stocks. On Wednesday, without any active cause, except perhaps a steadier closing at Liverpool and the fact that the "short interest" had become quite large, there were free buyers to cover contracts, and the decline of the previous two days was fully recovered; but prices again weakened at the close. Yesterday there was an early advance on the better accounts from Liverpool, but the close was at a slight decline. The opening this morning was weak, but the close steadier, owing to the very small interior movement. Cotton on the spot has been comparatively quiet, and on Monday quotations were reduced 1-16c., and continued unchanged, closing with middling uplands quoted at 13 3-16c.

The total sales for forward delivery for the week are 655,200 bales, including -- free on board. For immediate delivery the total sales foot up this week 3,154 bales, including 231 for export, 2,133 for consumption, 790 for speculation, and -in transit. Of the above. 64 bales were to arrive. The following tables show the official quotations and sales for each day of the past week:

THE VISIBLE SUPPLY OF COTTON, as made up by cable and telegraph, is as follows. The Continental stocks are the figures of last Saturday, but the totals for Great Britain and the aflost for the Continent are this week's returns, and consequently brought down to Thursday evening: hence, to make the totals the complete figures for to-night (Mar. 19), we add the item of exports from the United States, including in it the exports of Friday only.

The above figures indicate an increase in the cotton in slight tonight of 16,415 bales as compared with the same date of 1879,
a decrease of 282,108 bales as compared with the corresponding
date of 1878, and a decrease of 549,411 bales as compared with 1877.
In the preceding visible supply table we have heretofore only
included the interior stocks at the 7 original interior towns.
As we did not have the record of the new interior towns for the

four years, we could not make a comparison in any other way. That difficulty no longer exists, and we therefore make the following comparison, which includes the stocks at the 19 towns given weekly in our table of interior stocks instead of only the old 7 towns. We shall continue this double statement for a time but finally shall simply substitute the 19 towns for the 7 towns in the preceding table.

* Actual count.

† This year's figures estimated.

† Including 1,000 bales received previously but not counted.

The above totals show that the old interior stocks have decreased during the week 4,011 bales, and are to-night 67,890 bales more than at the same period last year. The receipts at the same towns have been 3,383 bales less than the same week last year.

RECEIPTS FROM THE PLANTATIONS.—The following table is prepared for the purpose of indicating the actual movement each week from the plantations. Receipts at the outports are some times misleading, as they are made up more largely one year than another, at the expense of the interior stocks. We reach, therefore, a safer conclusion through a comparative statement like the following

	Week		Receip	ts at the	e Ports.	Stock a	at Inter	'r Ports	Rec'pt	Rec'pts from Plant'ns

_	-											

The above statement shows-

1. That the total receipts from the plantations since Sept. 1 in 1879-80 were 4,667,996 bales; in 1878-79 were 4,194,482 bales; in 1877-78 were 3,958,159 bales.

2. That although the receipts at the out ports the past week were 49,611 bales, the actual movement from plantations was only 49,662 bales, the balance being drawn from stocks at the interior ports. Last year the receipts from the plantations for the same week were 42,396 bales, and for 1878 they were 52,740 bales.

Weather Reports by Telegraph.—The past week has been a rainy one in the South. Floods are reported along the Mississippi and in Alabama, but it is so early that they are not likely to affect cotton planting. A severe snow storm in Texas, with ice and sleet, has cut down what little cotton was up and done probably great harm to the corn crop.

Galveston, Texas.*—We have had good showers on five days the content of the corn crop.

past week, the rainfall aggregating one inch and twenty-two hundredths. The weather has been too cold, but locally no serious damage has been done. Throughout the rest of the State much damage has been done. Throughout the rest of the State much damage is feared, as there have been sleet, snow and lee. The thermometer has averaged 53, the highest being 74 and

ce. The thermometer has averaged 53, the highest being 74 and the lowest 37.

Indianola, Texas.—There have been drizzles on four days, the rainfall reaching seventy-seven hundredths of an inch, and killing frosts on three nights. Much damage has been done. All cotton above ground is killed, and corn is killed to the ground, but it is thought will sprout again from the root. Average thermometer 53, highest 74, and lowest 32.

Corsicana, Texas.—We have had sprinkles on three days of the week, with a rainfall of thirty-seven hundredths of an inch. There have been killing frosts on three nights, sleet on one and snow on one, and ice formed in this vicinity on two nights. There is no cotton up to be hurt, but corn is supposed to be killed and fruit injured. Oats and wheat thought to be unhurt. Average thermometer 39, highest 70, and lowest 25.

Dallas, Texas.—It has rained (drizzles) on three days during the week, the rainfall reaching twenty-five hundredths of an inch. We have had killing frosts on three nights and ice on two nights. Snow has fallen to a depth of four inches, one of the heaviest snow storms ever known at this season of the year. Corn and gardens killed and fruit greatly injured. As to wheat

Corn and gardens killed and fruit greatly injured. and eats, accounts from the interior are conflicting, but it is hoped that no serious injury has resulted. Farm work not yet resumed. The thermometer has ranged from 25 to 70, averag-

resumed. The thermometer has ranged from 25 to 70, averaging 30.

Brenham, Texas.—It has rained hard on three days, the rainfall reaching one inch. There have been killing frosts on two nights and ice formed on one night. All cotton up and killed outright. Corn killed to the ground, but there are hopes that it will sprout again. Gardens killed and fruit greatly injured, and much replanting of all sorts will be necessary. Average thermometer 40, highest 72 and lowest 32.

New Orleans, Louisiana.—Rain has fallen on six days during the week to a depth of one inch and ninety-one hundredths. The thermometer has averaged 67.

Shreveport, Louisiana.—The weather during the week has been cloudy and rainy and roads are in a very bad condition from repeated rains. The thermometer has averaged 46, the highest being 58 and the lowest 34. The rainfall is three inches and forty-one hundredths.

being 58 and the lowest 34. The rainfall is three inches and forty-one hundredths.

Vicksburg, Mississippi.—Telegram not received.

Columbus, Mississippi.—Telegram not received.

Little Rock, Arkansas.—We have had more or less rain every day of the past week and some sleet on Monday. The thermometer has ranged from 29 to 47, averaging 38, and the rainfall has reached one inch and twenty-three hundredths.

Nashville, Tennessee.—It has rained on five days of the week, the rainfall reaching five inches and seven hundredths. The thermometer has averaged 40, the highest being 55 and the lowest 34.

est 34.

Memphis, Tennessee.—During the week just closed we had rain on six days, the rainfall reaching four inches and seventy-seven hundredths. Average thermometer 33, highest 47 and lowest 30. We are in the midst of a disastrous overflow, the river being forty-six feet above low water mark. No ploughing yet, not even for corn. Last week it rained on five days, with a rainfall of two and forty-hundredths inches. The thermometer averaged 52 and ranged from 43 to 73. During the week ending March 5 we had rain on six days, and a rainfall of three and sixty-three hundredths inches. Average thermometer 55, highest 70 and lowest 33. lowest 33.

Mobile, Alabama.—It has rained severely on three days, been showery two days and cloudy the balance of the week, the rainfall reaching three inches and fourteen hundredths. We are having too much rain, though no serious damage has yet heen done. The thermometer has averaged 63, with an extreme

done. The thermometer has averaged of, the range of 39 to 77,

Montgomery, Alabama.—It has rained on six days the past week, the rainfall reaching five inches and thirty-four hundredths. The thermometer has ranged from 39 to 83, averaging 59. The tributary rivers are overflowing and still rising at this

59. The tributary rivers are overflowing and still rising at this point.

Selma, Alabama.—Rain has fallen during the past week on three days. Great floods prevail.

Madison, Florida.—Rain has fallen during the week on three days. The thermometer has averaged 74, the highest being 89, and the lewest 55. Planting is making good progress.

Macon, Georgia.—We have had rain on five days, with a rainfall for the week of two inches and eighteen hundredths. Average thermometer 58, highest 72 and lowest 39.

Columbus, Georgia.—It has rained on four days the past week, the rainfall reaching five inches and sixteen hundredths. The thermometer has ranged from 42 to 70, averaging 61.

Savannah, Georgia.—It has rained on four days, but the balance of the week has been pleasant. The thermometer has ranged from 53 to 83, averaging 66.

Augusta, Georgia.—We have had heavy and general rains every day this week, interfering with planters' operations considerably, but at the close there is a favorable change in the weather. The thermometer has averaged 57, ranging from 43 to 73. The rainfall is two inches and eighty-one hundredths.

Charleston, South Carolina.—It has rained during the past week on two days, the rainfall reaching twenty-two hundredths of an inch. Average thermometer 63, highest 79 and lowest 50.

The fellowing statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock Mar. 18, 1880, and Mar. 20, 1879.

		Mar. 1	9, '80.	Mar. 2	0, 79.

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

CONSUMPTION OF COTTON IN AMERICA.-In our editorial columns to-day will be found an article on this subject which will be of interest to our readers.

SPINNERS' TAKINGS IN EUROPE.—We have made arrangements in accordance with which we expect shortly to receive each week, by cable, the weekly takings of spinners in Great Britain and on the Continent. All the information on this point which comes over the wire now relates simply to Liverpool. We shall extend the same information to London and to the Continent. This new service will keep the trade acquainted with the weekly progress in spinners' takings and stock, which, starting with the present monthly statements, will afford the trade a very important piece of information that has long been

Gunny Baos, Baoqing, Etc.—Bagging continues quiet, and few parcels are being taken. We hear of only a few hundred rolls in all, of various weights, for small orders. The market is very steady, and holders are rather firmer than at our last 1¾ lbs. is held at 10¼c., 2 lbs. at 11c., while for standard grades 11¾c. is quoted. Butts have been taken in moderate lots, but the speculative inquiry is quiet. The transactions foot up 3,000 bales, for which full figures were paid. At the close, dealers are firm, and quotations are 3½@3½c. for paper quality and 3½@35%c. for spinning qualities.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT .-A comparison of the port movement by weeks is not accurate, as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. First we give the receipts at each port each day of the week ending to-night.

PORT RECEIPTS FROM SATURDAY, MAR. 13, '80, TO FRIDAY, MAR. 19, '80.

D'ya of we'k	Or-	Mo- bile.	Char- leston.	Savan- nah.	Gal- vest'n.	Nor- folk.	Wil- ming- ton.	All others.	Total.

	e of total					
p'rt reo'n	ts Mar. 19	90.70	87-40	91.01	86.93	88.85

This statement shows that the receipts since Sept. 1 up to to-night are now 300,209 bales more than they were to the same day of the month in 1879, and 505,755 bales more than they were to the same day of the month in 1878. We add to the last table the percentages of total pert receipts which had been received to Mar. 19 in each of the years named.

INDIA COTTON MOVEMENT FROM ALL PORTS .- The figures which are now collected for us, and forwarded by cable each Friday, of the shipments from Calcutta, Madras, Tuticorin, Carwar, &c., enable us, in connection with our previously-received report from Bombay, to furnish our readers with a full and complete India movement for each week. We first give the Bombay statement for the week and year, bringing the figures down to March 18.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Shipmouts this week				Shipme	ents sinc	Receipts.		
Year	Great Brit'n.	Conti- nent.	Total.	Great Britain.	Conti- nent.	Total.	This Week.	Since Jan. 1.
1880 1879 1878 1877	7,000	6,000 20,000 14,000 22,000	$27,000 \\ 33,000$	33,000 98,000	112,000 70,000 147,000 97,000	123,000 245,000	19,000	203,000 366,000

According to the foregoing, Bombay appears to show an increase compared with last year in the week's receipts of 24,000 bales, and a decrease in shipments of 21,000 bales, and the shipments since January 1 show an increase of 61,000 bales. The movement at Calcutta, Madras, Tuticorin, Carwar, &c., for the same week and years has been as follows.

CALCUTTA, MADRAS, TUTICORIN, CARWAR, RANGOON AND KURRACHEE.

Year.	8hipm	ents this	week.	Shipmonts since January 1.				
	Great Britain.	Conti- neut.	Tetal.	Great Britain.	Conti- neut.	Total,		
1880 1870 1878 1877	11,000 9,000 1,000 6,000	2,000 1,000 2,000	13,000 10,000 3,000 6,000	30,000 41,000 14,000 36,000	8,000 22,000 21,000 6,000	38,000 63,000 35,000 42,000		

The above totals for this week show that the movement from the ports other than Bombay is 3,000 bales more than same week of last year. For the whole of India, therefore, the total shipments this week and since January 1, 1880, and for the corresponding weeks and periods of the two previous years, are as follows.

EXPORTS TO EUROPE FROM ALL INDIA.

Shipments	18	380,	18	379.	1878.		
to all Europe from—	This week.	Since Jan. 1.	This week.	Sluce Jan. 1.	This week.	Since Jan. 1.	
BombayAll other ports.				123,000 63,000			
Total	19,000	222,000	37,000	186,000	36,000	280,000	

This last statement affords a very interesting comparison of the total movement for the week ending March 18, and for the three years up to date, at all India ports.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we shall hereafter receive a weekly cable of the movements of cotton at Alexandria, Egypt. The foilowing are the receipts and shipments the past week and for the corresponding weeks of the previous two years.

Alexandria, Egypt, March 18.	1880.	1879.	1878.	
Receipts (eantars*)— This week Since Sept. 1	5,000 3,190,000	10,000	15,000 2,505,000	
,	This Since week. Sept. 1.	This Since Sept. 1.	This Since Sept. 1.	
Exports (bales)— To Liverpool † To Continent	750 267,750 2,000 144,498		5,000 209,000 1,000 138,000	
Total Europe	2,750 412,248	5,000 198,000	6,000 347,000	

* A cantar is 98 lbs.

† We add 17,000 bales to exports to Great Britain to-day, made up on corrections.

This statement shows that the receipts for the week ending far. 18 were 5,000 cantars, and the shipments to all Europe Mar. 18 w. 2,750 bales.

MANCHESTER MARKET .- Our report received from Manchester to-day (Mar, 19) states that prices of twists and shirtings are lower, and the market is inactive for twists and nominal for shirtings. We give to-day's prices below, and leave previous weeks' for comparison.

		1879-80.		1878-79.

Shipping News.—The exports of cotton from the United States the past week, as per latest mail returns, have reached 102,384 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the Chronicle last Friday. With regard to New York, we include the manifests of all vessels cleared up to Wednesday night of this week.

			W 8007					

Below we give all news received to date of disasters to vessels carrying cotton from United States ports, etc.:

MONTANA, steamer (4,321 tons gross, built of iron, belonging to the Guion Line), Captain Gadd, from New York March 2d via Queenstown 12th, of and for Liverpool, with a cargo including 1,150 bales cotton, struck on the rocks in Cooks Bay, Holyhead, at 3 A. M. of the 13th, compartments forward of the englos filled with water and it was feared that she would become a total loss. Passengers, mails and crew were landed the same morning and forwarded to Liverpool. On the 15th she had settled down on the rocks and her taffrail was covered at high water. The salvage was proceeding. The vessel lay heavily on the rocks, which are under her boilers.

OBATOR, steamer (Br.), Corbishley, from New Orleans at Liverpool Feb. 26, reported encountered a heavy gule lasting from the 15th to 18th, during which shipped a quantity of water and sustained considerable damage. She was in collision night of Fob. 26 in the Mersey with the Ringlender, from Pernambuco; damage to steamer not ascertained.

Mersey win the tangleader, from Pernamouco; damage to steamer not ascertained.

WM. BURKITT, steamer (Br). The British steamer Alnwick Castle, arrived at Liverpool March 3, with cargo ex-British steamer William Burkitt, from Savannah for Reval, before reported.

DEVONSHIRE, ship, (Br.), at Liverpool Feb. 25 from New Orleans, during a galo on 13th lost rudder stock, foresail and main lower topsallyard.

IVX, ship, Lowell, at Havre Feb. 24 from New Orleans, reports: Feb. 12, lat. 42 35 N. ion. 35 55 W. encountered afterrific gale from S. W. to W., lasting 18 hours, during which shifted cargo, giving the ship a bad list io port; twisted rudder head, stove cabin, wheelhouss, poop and locker doors, washing away most of the stores and everything moveable about decks; several salls were blown from the gasgets and portions blown away; sprung topsail yards, &c.

JOHN MUMPHY, ship (Br.), Murphy, which arrived at Havre Feb. 23 from New Orleans, lost her main and mizzentopgallant masts and salls.

from New Orleans, lost her main and mizzentopgallant masts and sails.

MARCIA GREENLEAF, ship, Bunker, loading at New Orleans, was discovered to he on fire A. M. of March 11, supposed to have been communicated by a spark from a passing steamboat. The fire was extinguished. Seven bales of cotton were damaged by the fire.

PRINCETON, ship, Bradley, which arrived at Liverpool Feh. 18 from Savannah, reported that on the passage (which was one of the roughest Captain Bradley ever experienced), when about 100 miles from Cape Clear, the ship was caught in a cyclone, which lasted for 6 hours. During that entire time the vessel was on her beam ends, with five feet of water in her hold. When she arrived at Liverpool, however, she was found to be perfectly tight.

JOHN E. CHASE, bark, Huntley, from Charleston for Havre, put into Lisbon March 9, with loss of rudder head.

THEMIS, bark (Br.), Jordan, from Savannah Dec. 31 for Bremen, was spoken (no date) 30 miles west of Cape St. Vincent, with rudder broken and short of provisions.

Cowes. Feb. 27—A quantity of wreckage was passed on the 15th inst., 300 miles west of Cape Clear, by the Enoch Train from New Orleans, at this port. Some bales of cotton were passed some days previous.

BREADSTUFFS.

FRIDAY, P. M., March 19, 1880.

The flour market has been quiet, and prices somewhat depressed in the past week; still, the decline has not been important. The demand for extreme low grades for shipment to the British Provinces has fallen off materially, and the demand from Enrope has not been urgent. With the opening of Spring, and a rise in the streams, the production of flour will probably increase. The close to-day was quite depressed. Rye flour and corn meal about steady.

The wheat market has been quite variable in tone and prices. There has been a moderate export and milling demand, with speculation quite active at times. The indications that our surplus will all be needed by the West of Europe before the arrival of the period for marketing the next crop gave much confidence to holders; but the publication of estimates of a greatly-increased yield from the growing crop of Winter wheat had a depressing influence. No. 2 red Winter sold as high as \$1 49@\$1 49% on the spot, \$1 47%@\$1 48 for April and \$1 44% @\$1 45 for May; but last evening dropped to \$1 441/4 for April and \$1 42 for May; No. 1 white \$1 42 cash and \$1 40@\$1 40% for April. There has been rather more doing in Spring wheat, mainly at \$1 38@\$1 41 for New York and Western No. 2 and \$1 34@\$1 35 for No. 3. To-day the opening was steadier, but the close at about the prices of last evening.

Indian corn has been tending downward for both spots and this month, but later futures have been about steady. Old corn is nearly nominal. Yesterday new No. 2 sail mixed sold on the spot at 59c.; for this week, 58½c.; for all March, 57¼c.; for April, 55c.; and May, 53c. Old No. 2 mixed held nominally at 60c. on the spot. New round yellow on the spot sold at 60c., and prime Western white at 63c. To-day there was some weakness in futures, No. 2 mixed closing at 54%c. for April and 52% c. for May.

Rye has favored buyers; several boat-loads of No. 2 Western sold at 96c. Barley met with a better demand at from \$1 05 for choice No. 1 bright Canada down to 63@70c. for common State, two and four-rowed. Oats have been variable, declining sharply early in the week, until No. 2 mixed sold at 453/4c. on the spot and 44%c. for April. There was a slow recovery from these prices, and yesterday No. 2 mixed sold on the spot at 46%c. To-day the market closed flat; No. 2 mixed and white on the spot closed at 46@46%c. and No. 2 mixed sold for April at 445/8c.

THE DRY GOODS TRADE.

FRIDAY, P. M., March 19, 1880.

The market for dry goods has shown a fair degree of activity the past week. There was some abatement in the demand for staple cotton and woolen goods at first hands; but other seasonable fabrics continued in steady request. The jobbing trade was active in all its branches, and an important aggregate amount of staple and department goods was placed in the hands of retailers from all parts of the country. The tone of the market has been very firm, but there was rather less tendency to advance prices than of late, and manufacturers seem inclined to pursue a conservative policy and rest satisfied with their present profits, which are by no means inconsiderable. Stocks of manufactured goods are exceedingly light in the hands of agents, and many fabrics continue sold in advance of production. Foreign goods have received a fair share of attention from both wholesale and retail buyers, and prices ruled steady, but there was a continued pressure to sell dress silks, and a further large offering (3,000 pieces) was made through one of the leading auction houses with fairly satisfactory results.

DOMESTIC COTTON GOODS.—The exports of cotton goods during the week ending March 15 were 1,334 packages, including 911 to Great Britain, 145 to Hayti, 96 to U.S. of Colombia, 51 to Dutch West Indies, and the remainder to other markets. There was no material change in the status of the market, but the demand by package buyers was less active and selections were mostly restricted to relatively small parcels of plain and colored cottons. Brown sheetings were in moderate demand by jobbers and for conversion purposes, and there was a steady inquiry for small lots of bleached shirtings, low grades of which continue very scarce. Colored cottons and corset jeans were in moderate demand, but cottonades were less active. Print cloths were in good demand for future delivery, and prices ruled firm at 5%c. for 64x64s spot and near deliveries and 5%c. for July to October delivery. For 56x60 print cloths there was a fair inquiry at 51/6c. for spots and 5c. for July to October delivery. Prints were in irregular request, and while some of the makes that were lately advanced to 8c. moved slowly, there was a fair demand for fancies at 7%c. and shirting prints at 7@7%c. Printed lawns piques and wide prints met with liberal sales, and cotton dress goods and ginghams continued active, firm and in light supply.

DOMESTIC WOOLEN GOODS .- There was a liberal movement in clothing woolens on account of former orders, but the current demand was comparatively light. Prices continued very firm on all woolen fabrics, and as manufactured goods have not yet appreciated in a like ratio with the enhanced cost of raw materials, labor, &c., it is more than probable that quotations for many leading fabrics will be advanced in the early future. Fancy cassimeres and suitings were only in moderate demand, but large deliveries were made by agents in execution of back orders. Worsted coatings were fairly active, and many makes are largely sold ahead of production. Overcoatings ruled quiet and steady, and there was a hand-to-mouth demand for cloths and doeskins. Sales of Kentucky jeans and satinets were comparatively light, but there was a steady movement in these fabrics on account of old orders. Flannels and blankets were relatively quiet, but nearly all makes are sold ahead, and prices are strong at the last advance. Dress goods were in steady request, and there was a fair inquiry for Shetland shawls; but worsted shawls remained quiet. Carpets were freely distributed in execution of former orders, and prices ruled very

Foreign Dry Goods.-There was a good demand for staple and fancy dress fabrics, liberal sales of which were made by importers and jobbers, and desirable goods were firmly held. Fine black and colored silks were in steady request, and there was a brisk inquiry for novelties in fancy silks; but low grade black and colored silks were quiet, owing to the late heavy offerings at auction, which have supplied the immediate wants of buyers. Linen and white goods were quiet in first hands, but fairly active with jobbers. Embroideries and laces were in steady request, and the business in ribbons and millinery Men's-wear woolens, goods was moderately satisfactory. Italian cloths and satin de chenes were distributed in small pareels to a fair aggregate amount, and there was a steady inquiry for hosiery and fabric gloves.

Importations of Dry Goods.

The importations of dry goods at this port for the week ending March 18, 1880, and for the corresponding weeks of 1879 and 1878, have been as follows:

LIBERAL AND IMPORTANT CONCESSIONS IN LIFE INSURANCE CONTRACTS.

Examino the new form of Policy issued by the United States Life Insurance Company before insuring elsewhere.

After the premiums for three or more years bave been paid, upon receiving the required notice from the assured, the Company will continue the Policy in force without further payments, for its FULL FACE, for such a period as the ENTIRE RESERVE will carry it.

Should the d ath of the insurance as provided for above, the full face of the Pullcy will be paid—no deduction being made for foreborne or unpaid premiums, excepting to the event of the death occurring within three years after the original default.

occurring within three years after the original default.

The new form of Endowment Policy provides:—
That it the ENTIRE RESERVE is a greater sun than the single premium required to carry the full amount of insurance to the end of the endowment term, the excess shall be used as a single premium to purchase a pure endowment, psyable at the end of the term, thus guaranteeing to the policy-holder in every event the full value of his Reserve.

NO SURRENDER of the Policy is required; only a notice from the policy-holder, on blanks furnished by the Company.

AFTER THREE YEARS, ALL RESTRICTIONS and CONDITIONS in regard to travel, residence, occupation and cause of death are removed, thus making the Policies, after three years, incontext in the policy-holder, are strictly.

The Company will, upon application, send Circulars giving full particulars.

"THE PRINCE AMONG MAGAZINES."

N. 1. Observer.
The Greatest Living Authors, such as Prof. Max Muller, Bt. Hon. W. E. Gladstone, Jaz. A. Froude, Prof. Hux-ley, R. A. Proctor, Ed. A. Freeman, Prof. Tyn-dall, Dr. W. B. Car-

penter, Frances Power Cobbe, The Buke of Argyil, wm. Black, Miss Thuckeray, Mrs. Muloch-Craik, Geo. MacDonald, Mrs. Oliphant, Jean Ingelow, Thomas Hardy, Mutthew Arnold, Henry Kings-ley, W. W. Story, Turguenief, Ruskin, Tennyson, Browning, and many others are represented in the pages of

LITTELL'S LIVING AGE.

In 1880, THE LIVING AGE enters upon its thirtyseventh year, admittedly unrivalled and continuously successful. During the year it will furnish to its readers the productions of the most eminent anthors above-named and many others; embracing the choicest Serial and Short Stories by the LEAD-ING FOREIGN NOVELISTS, and an amount

Unapproached by any other Periodical

on approached by any other refriction in the world, of the most valuable Literary and Scientific matter of the day, from the pens of the roremost Essayists, Scientists, Chitics, Discoveners, and Editors, representing every department of Knowledge and Progress.

THE LIVING AGE is a weekly magazine, giving

more than

THREE AND A QUARTER THOUSAND

double-column octave pages of reading matter yearly. It presents in an inexpensive form, considering its great amount of matter, with freshness, owing to its weekly issue, and with a satisfactory com-pleteness attempted by no other publication, the best Essays, Reviews, Criticisms, Tales. Sketches of Travel and Discovery, Peetry, Scientific, Biographi-cal, Historical and Political Information, from the entire body of Foreign Periodical Literature.

The impertance of the LIVING AGE to every Am-

erican render, as the only satisfactorily fresh and COMPLETE compilation of an indispensable current literature.-indispensable because it embraces the production of

THE ABLEST LIVING WRITERS,

THE ABLEST LIVING WRITERS, is sufficiently indicated by the following OPINIONS.

"The last volume of the LIVING AGE presents a freah example of the judgment in selection and adaptation to the demands of the best peopular literature, which has secured so wide a circulation to that periodical."—N. F. Tribune.

"It covers the whole field of literature, and covers it completely, thoroughly and impartially."—T. mes. Cinc. madi.

"It affords the best, the cheapest and most convenient means of keeping abreast with the progress of thought in all fix phases."—North American, Philad liphia.

"It is, by all odds, the best eclectic, published."—Southern Churchmon, R. chmond

"It is the embodiment of the truest and purest iterature of the age."—Am. Christian Review, Cincinnali.

"With it alone a reader may fairly keep up

cimati. With it alone a reader may fairly keep up with all that is important in the literature, history, politics and science of the day."—The Methodist, New York.

"To read it weekly is a liberal education."—Zion's Herait', Boston.

New York,
"To read it weekly is a liberal education,"—Zion's
Herall, Boston.
"There is no magazine published that gives ao
general a knowledge of what is going on in the
literary world,"—Presbyterian Weekly, Ballimore,
"Gives the best of all at the price of one,"—New
York Independent.
"It holds the palm against all rivals,"—Commercial, Louisvile.
"There is no other way of procuring the same
amount of excellent literature for anything like the
same price."—Boston Advertiser.
"It supplies a better compendium of current discussion, information and investigation, and gives a
greater amount and variety of reading matter,
which it is well worth while to read, than any other
publication......It is simply indispensable."—Boston
Journal. publication.....It is supply
Journal.
"Ought to find a place in every American home."
- New Fork Times.
"There is nothing comparable to it in true value

--New York Times.
"There is nothing comparable to it in true value in the whole range of periodical literature."—Mobile Register.
Published WEEKLV at \$8.00 per year, free of

Pholished which approximate prostage.

["Possessed of The Living Age and one or other of our vivacious American monthlies, a subscriber will find himself in command of the whole situation."—Philadephia Evening Suitern.

EXTRA OFFER FOR 1880.

To all new aubscribers for 1880 will be sent gratis the numbers of 1879 which contain, besides other interesting matter, the first chapters of "IIE WHO WILL NOT WHEN HE MAY," a new story by MRS. OLIFHANT, now appearing in THE LIVING AGE from advance sheets.

Club Prices for the best Home and Foreign Literature.

For \$10 50 The Living Age and either one of the American \$4 Monthies (or Harper's Weekly or Baser) will be sent for a year, both postpaid; or for \$9 50 The Living Age and the St. Nicholas er Appleton's Journal. Address,
