## The Chronicle.

THE COMMERCIAL AND FINANCIAL CHRONICLE is issued every Satur day morning, with the latest news up to midnight of Friday. Ratered at the Post Office at New York, N. Y., as second-class mail matter.]

# TERMS OF SUBSCRIPTION—PAYABLE IN ADVANCE: For One Year (including postage) \$10 20. For Six Months do 6 10. Annual subscription in London (including postage) \$2 7s. 81x mos. do do 1 8s. Subscriptions will be continued until ordered stopped by a written order, or at the publication office. The Publishers cannot be responsible for Remittances unless made by Drafts or Post-Office Money Orders. Transient advertisements are published at 25 cents per line for each insertion, but when definite orders are given for five, or more, insertions, a liberal discount is made. Special Notices in Banking and Financial column 60 cents per line, each insertion. WILLIAM B. DANA, WILLIAM B. DANA & CO., Publishers, JOHN G. FLOYD, JR. \$79 & 81 William Street, NEW YORK. POST OFFICE BOX 4592. TERMS OF SUBSCRIPTION-PAYABLE IN ADVANCE:

A neat file cover is furnished at 50 cents; postage on the same is 18 cents. Volumes bound for subscribers at \$1 20.

For a complete set of the Commercial and Financial Chronicle—July, 1865, to date—or Hunt's Merchants' Magazine, 1839 to 1871, inquire at the office.

#### VALUE OF RAILROAD PROPERTY.

The month of July always brings with it many uncertainties and is therefore an excellent season for the propagation of every description of rumor. It is called the month which makes crops-cotton has then reached its second critical stage, while wheat, in a large section, is ripening and being harvested, and corn being matured. Thus to a great extent in that month, not only the purchasing power of the farmer and the planter, but the year's railroad earnings are determined and fixed. One therefore can easily imagine the satisfaction felt by a coterie of Wall street bears over a very heavy July storm, or the necessity they would feel for magnifying a little one if the great one fails to favor them. We may set it down as a fact that crops seldom get through July without being destroyed many times.

This year, besides the crops, we have as an element for disturbing the values of railroad properties, rumors of pooling contracts about to be broken and a renewal of railroad wars. Moreover, there is enough of truth in these rumors to make them interesting. On the one hand the Grand Trunk of Canada has made an extraval themselves the gratification of largely-decreased earn-

gant demand for a division of freight on the Eastern association, which is to come up for decision July 20th, while on the other hand the Chicago & Rock Island has put in its claim on the Southwestern association for an increased percentage and this is to be decided July 12th. Of course, according to the gossip of the day these demands are not to be yielded to, and if they are not in full there is to be a general breaking up of freight arrangements, last spring's and summer's rates are to return, and no more dividends are to be earned. Here is a pack of evils, a pandora box full enough to satisfy the most inveterate croaker.

We have no inside information with which to answer these illogical assertions. It may even be true that the Rock Island and the Grand Trunk roads are set on doing all the harm they can. It is the worse feature of these pooling arrangements that any party to them, with either good or bad motives, can easily work a considerable disturbance; and when there is a large short interest in the mar. ket, by inducing one road to force a war, values under some circumstances could be so unsettled as to shake out many holders carrying stocks on small margins. Of course no one has any reason for supposing such a motive to be at the bottom of the present threatened war; but if not, it, is wholly unreasonable to think the combinations will be broken up. In the first place, when there is business enough for all the roads, as at present, the chances are against cutting rates; and then again, in these cases, arbitration is offered, and no more than that could be gained at the end. It is against reason, therefore, if the metive is a good one, to suppose that the Grand Trunk is bent on leveling its little gun against a combination of all the Eastern trunk lines in case it is denied a lion's share of the Chicago business, or that the Rock Island is going to celebrate the occasion of paying dividends on its enlarged stock by diminishing the chance of paying them

But suppose we were to grant that these threats will be carried out—even then the other evils mentioned do not seem logically to follow. Times have changed. In fact, before the railroad wars a year ago were closed, the public recognized this in the prices paid for securities; and now even the most careless observer knows that the old condition of 1878, or any approach to it, cannot be brought back by the foolishness of any single management. The business then was in great measure confined to the traffic which passed through certain points; now, though that has increased, every kind of traffic has increased also. We give on another page our usual monthly tables of earnings to-day; those who have been promising

ings first in May, then in June, will now have to transfer their prophecies into July. The truth is, as we have so often stated, the activities of the country are once more aroused and its industries are in motion, and any one who tries to bring railroad; property in 1880 down to the measure of 1878, through railroad wars or in any other way, wholly misconceives the situation. Three weeks since we gave a table of net earnings, for net earnings illustrate more forcibly than the gross earnings this change in business activity which has taken place. Unfortunately expenses are not reported except by a few companies, and some of the leading ones which do report them, have not yet come in for May. But the illustration will probably be as effective by taking two prominent roads, one Eastern and one Western line, and comparing the monthly statements this year and last year.

NET EARNINGS.

1880.	January.	February.	March.	April.	May.
Pennsylvania Chic. Bur. & Quincy.			\$ 1,511,248 781,780	\$ 1,495,582 549,928	\$ 1,476.852 827,855
Total	1,997,114	1,757,968	2,293,028	2,045,510	2,304,707
1879.	January.	February.	March.	April.	May.
Pennsylvania Chic. Bur. & Quincy.		\$ 1,172,986 424,005	\$ 987,223 478,710	\$ 1,031.028 400,748	1,034,092 512,383
Total Increase in 1880 Increase per cent	1,535,516 461,598 30:00		827.095		758,232

In the light of such figures as these and of our table of gross earnings on another page, there seems to be little basis for depreciating railroad property where it is honestly managed. Thirty-seven per cent increase in gross earnings for June and an average since March 1 of 49.42 per cent increase in net earnings is certainly an astonishingly favorable exhibit, and there is no wonder under such circumstances that the rumors we have been discussing have had no greater effect.

#### WILL THE EASTERN QUESTION RESULT IN WAR?

Now that the Supplementary Conference has so far at least completed its work, and that an identical note to the Porte has been sent by the different Powers represented in'the Conference, it remains to be seen whether and how much we are nearer a settlement of the questions at issue. It appears that the decision arrived at in regard to the new boundary lines of Greece and Montenegro is substantially at one with the Berlin recommendation of two years ago. If carried out, Greece will have a slice of territory off Epirus or southern Albania, which will include Janina, and strike the coast of the Adriatic on a line with the north of Corfu; and Montenegro will have a slice of northern Albania which will include Dulcigno, with an available water-front for purposes of commerce. Such is this recommendation of to-day. Such, in all its main features, was the recommendation of the Berlin Conference two years ago. The question is whether this later recommendation will have any better results than the former, or whether the Powers are prepared to use force to give effect to their repeatedly declared wishes.

As yet we have no evidence that the Porte is willing to make the recommended concessions, or that the Albanians, even if the Porte should consent, are prepared to submit unresistingly to a limitation of their territory. On the contrary all the latest news from Constantinople and from Albania is of the most warlike character. Mr. Goschen has come to the conclusion that nothing but the employment of armed force by the united Powers will be of any avail against the passive resistance of Turkey. Nay, it would seem as if the Sultan and his advisers had resolved on

War has actually commenced to mobilize the Second Army Corps

While such is the attitude of the Porte we are not permitted to think that the recommendation of the Powers will be allowed to remain a dead letter. Greece is prepared to enter and occupy the territory awarded to her, and it is well known that Montenegro suspended action in the assertion of her claim in obedience to the Powers and pending the decision of the Conference. What adds to the gravity of the situation is the peculiarly unsettled condition of Eastern Roumelia. There at the present moment every thing is chaotic, and evidence is abundant that, while Bulgarian propagandism under the influence and at the instigation of Russia is rife in that province, the Porte is hardly able to preserve even the semblance of order or good government. We are no longer permitted to doubt that in order to pacify the Bulgarians, there must be another boundary line drawn more to the south and east, and a large slice of what is called Eastern Roumelia added to the Bulgarian Principality.

This Bulgarian difficulty, as we have said, greatly complicates the general situation, and tends much to paralyze the hand of the Sultan. It shows quite as effectively as the present unsettled condition of affairs in Albania, the inefficiency of the Berlin treaty. With the single exception of that portion of it which it was left to Austria to carry out, the treaty has proved to be a signal failure. Of course it is not necessary that this remark should be held as applicable to Servia and Roumania, which by this treaty were merely left out of Turkey, and made absolutely independent. It applies strictly to all the provisions touching delimitation and reconstruction. So far, with the exception above named, they have all failed.

This brings us to the root of the whole difficulty. The arrangement regarding Bosnia and Herzegovina was made effectual because its execution was intrusted to the strong hand of Austria. The other arrangements, such as those affecting the boundaries of Greece and Montenegro, and the separation of Bulgaria and Eastern Roumelia, failed because left to the action of the Porte, and because the Porte was quite as unable as she was unwilling to perform the duty assigned her. Had a strong army under the control of some foreign power been stationed in Albania the Greek and Montenegrin questions would long since have been settled; and the presumption is that the Porte, relieved of duty in that direction, would have been strong enough and would have found it convenient to establish her authority south of the Balkans.

If this be a correct representation of the case, the lesson is obvious; what was needed to give effect to the Berlin treaty is needed to give effect to the recommendation, or decision, or whatever it may be, of this Supplementary Conference. Force must be applied. In her present mood, it is quite clear that that force is not to be had from the Porte. It is doubtful, indeed, as we have hinted already, whether she could command the power, even if she were willing. The requisite force must be found from without; and it is just here where another difficulty of no mean or inferior kind presents itself. If it shall be found that the presence of a foreign army will be necessary to compose differences and to maintain order in Albania, the question is, which foreign army? Austria is willing to undertake the task; but the further advance of Austrian arms in the peninsula is looked upon with jealousy by England, by Italy, and by Russia. Any further advance made by Austria to the south, and Russia will be found active again on the Danube. We shall not pretend to solve this difficulty. Much depends on the course which Turkey hereven a more decided course of conduct, for the Minister of self may pursue. If she takes advice in time, she may yet command the sympathy rather than the cupidity of the Powers, and so at least prolong her lease of life. If she proves stubborn and recalcitrant, she but hastens the inevitable and precipitates her own destruction. There is still the possibility that wise counsels will prevail, and that through the firm but judicious pressure of the Powers, war will be averted.

#### LAND GRANTS TO RAILROADS.

A pamphlet of much present interest has recently been issued under the auspices of the Association of Land Commissioners of the Land-Grant Railways, prepared by Mr. É. H. Tal-bott. During late years it has been the stock in trade of political platforms to avow hostility to any further grant of public lands to railroads. "No more squandering of the public lands," "No future encouragement to land monopolies," "Our lands for our settlers," are expressions that one hears all the time, and which do not fail of their intended effect upon the unthinking class.

The present attitude of the public on this question is all the more striking that it is in sharp contrast with our policy not longer than fifteen or twenty years ago. Then we thought no price too high to pay for the precious boon of a railroad. Aid in every form was extended. We gave them money; we gave them lands; we took their bonds; we guaranteed their interest—in short, we did everything except undertake the construction of the roads ourselves.

Why this change in public sentiment? Have the railroads failed to confer the good anticipated from them? If popular opinion, as voiced in current phrases, is to be taken as a guide, they certainly have. Worse than that, instead of proving an unadulterated blessing, we must pronounce them the prolific source of harm. That they have bestowed some advantages is admitted, but in the wake of these has followed, it is claimed, a train of evils more than sufficient to offset the accruing good. Huge and gigantic monopolies have grown up, using the land so liberally donated to them to enrich grasping speculators, and actual settlers, it would seem, have only with difficulty succeeded in entering their territory. These expressions are said to represent public sentiment. We do not believe that they do, but even if they did, the vox populi is very far from being a safe guide in matters of this kind. We have, however, the utmost faith in the instinct of the masses; ultimately instinct leads them to adopt sound views on every question of public policy. But the public is impulsive, and quick to act out its impulses. Hence it frequently happens that it arrives at a correct conclusion only after a deal of hard experience.

Besides, in this case the opposition to railroads in the popular mind, is clearly based upon error. It has arisen out of exaggerated ideas of their power, influence and wealth. They are powerful and influential, we admit, and further we are very decidedly of the opinion that they should not be allowed to use either for the public harm. But at the same time these are qualities inseparably connected with their growth as commercial agents; as commerce expands they must go with it, or rather they must always keep in advance, if they are not to hinder instead of promote such expansion. As to their being rich that needs to be proven. Are they rich? How many of the land-grant railroads, even among those that are ranked as prosperous, pay 7 per cent or more a year now? How many of them pay nothing at all? Has either the Central Pacific or the Union Pacific paid on the average, during the last five years, as much as 7 per cent? Was not the Kansas Pacific in the hands of receivers for default of interest, prior to its consolidation with the Union Pacific? Is not

the Northern Pacific even now, after its reorganization, struggling to keep its head above water? What is the present condition of the Missouri Kansas & Texas, of the St. Louis & San Francisco, of the Grand Rapids & Indiana, of the Chicago St. Paul & Minneapolis? Are they returning large percentages to their stockholders? Are they not, rather, satisfied just now to be able to meet their current obligations? Let him who believes that land-grant railroads as a rule are rich, study the answers to these questions, and he will speedily be forced to alter his opinion.

But it will be said that the promoters of many of these roads have made large sums out of them, and hence the opposition is just. We do not see how that point has any place in a discussion as to the wisdom of such grants. The leading of the subsidized roads, that is those to which were voted the largest amounts of money and largequantities of land, were called into being by a need which was then felt to be pressing indeed-namely, the necessity of having a closer connection between our Pacific coast territory and the sections of the East. The roads were considered essential to the welfare of the nation, and we were prepared to give liberally of the resources at our command. Besides, we cannot get a road built in an un populated district without giving the promoters some inducement and making them believe they are going to make money by the venture. Capital will not embark in enterprises that do not offer a possibility of success commensurate with the risk, and certainly the construction of a road through an unpopulated district is a very risky thing, for no matter how rapidly the country adjoining may be developed, some time must necessarily elapse before the line receives even business enough to pay its expenses. To enable the projectors to hasten this time and to afford them meanwhile a source of income, land subsidies are.

The system, then, should be looked at, if we want to judge it fairly, from the results it has produced. First, what has been its influence upon Government sales of land? Secoud, what influence has it exerted in increasing our railroad mileage and thus stimulating the development of the country? And third, how has it affected the lands granted? have these fallen into the hands of speculators or have they been sold to actual settlers?

As to the first of these points, it will be remembered that the lands donated to the railroads were in alternate sections along their lines, the remaining sections being retained by the Government. The price of this Government land was then doubled, being raised from \$1.25 to \$2.50 per acre, the additional charge being certainly moderate for the advantages to be derived from proximity to a railroad. The Government thus not only did not lose anything in actual cash by giving away a part of its territory, but was really a gainer in so far as lands were sold that could not find a market at all previously. As illustrating the vivifying influence of the railroads upon the sales of public lands, we quote from Mr. Talbott's pamphlet the following remarks, made by Mr. Colby of the Wisconsin Central Railroad.

Wisconsin Central Railroad.

"In 1852 the sale of lands by the General Government didn't bring money enough into the Treasury to pay the expenses of the Land Department in Washington; and it became a serious question whether it would not be expedient for the United States to concede to each State the lands within its borders. It was thought best, however, first to try the experiment of giving land grants to capitalists to induce them to build railways into the unpopulated country and in advance of civilization and business." \*

"They made a grant first to the Illinois Central. In 1853 the first earth was turned in the construction of that road, and before the year closed the General Government sold 2,800,000 acres of land, and in fifteen years retired from the State as a land owner." \*

"Since the time that grant was made, the United States Government has patented to railway companies about 41,000,000 acres of land, and as a result has been able to sell other lands to such an extent that 'it has received

into the Treasury from this source alone \$250,000,000, all of which, after deducting the mere expenses of the Land Department, is clear profit."

With regard to the influence of the grants in fostering the growth of railroads, it is sufficiently clear that under the stimulus of such grants a large addition has been made to our mileage (Mr. Talbott places it at 14,628 miles in twenty-three States and Territories), and that the consequent development of the country has been simply marvellous. It is hardly necessary to cite any figures in support of the latter part of this statement, but we may say that Nebraska, which in 1869, when the Union Pacific Railroad was completed, had a population of 120,000, now has 400,000, while the assessable value of its property has risen during the same time from \$20,069,000 to \$75,359,-800, and that in Minnesota, along the line of the Northern Pacific, there is now property assessed at \$9,561,792, where, when the road was opened, there was but \$30,000 of assessable property.

In respect to the policy adopted by the roads in dispos ing of their lands, it has evidently been very satisfactory. This is a matter on which grave apprehensions might well have been entertained, were it not for the peculiar relations that exist between a railroad and the territory along its line. If the lands should have been sold to a body of speculators, determined to hold them for higher prices, the effect upon the country's progress would have been mischievous, indeed. But in point of fact such has not been the case, and the railroads themselves, more than all others, were interested that it should not be. The railroad is chiefly concerned in creating traffic. In order to get traffic, it must encourage the settling of the territory contiguous to its line, and, owning the lands, it can do so, by offering them on liberal terms. It is not to its interest that it should further any scheme of land monopoly. even the creation of large farms can it countenance, for the latter, being supported by outside capital and their cul. tivation carried on by a few hands, will give it traffic for but one way, whereas it must seek traffic for both ways, and return traffic grows only as the population grows. To a corporation wisely administered, the price secured for the lands is nothing-traffic is everything. As Mr. Talbott aptly says, "However much profit the company may realize from the sale of land to him (the pioneer), its profit from his business will greatly exceed it."

It is clear, therefore, that the policy of donating lands to new railroad enterprises, having had a fair trial, the wisdom of the course is amply demonstrated in the facts of history.

There is one other point that will bear mentioning right here. Politicians and demagogues, who ride the waves of the popular current, and desire to reach their goal, a big, fat office, as quickly as possible, often seek to give an Figures are impetus to the current by citing figures. wonderful things. They exercise a most telling effect upon the mind, and if you can make them appear perfectly unintelligible and bigger than they really are, by multiplying them several times—as when you have tons, and turn them into pounds—why so much the better. Besides, by a certain class they are the more readily taken in when not comprehended; then, too, you do not have to hammer them into the heads of your auditors as you would an argument; only cite them and make them long enough and you cannot failto make an impression, and be sure the smaller the head the bigger will be the impression. We heard a gentleman, an instructor in mathematics too, express surprise and appear shocked, the other day, when told by a devoted follower of the Greenback-Labor party that 40 or 50 million acres of land had been given to a single corporation

while the "horny-fisted son of toil" was left in comparative neglect. Of course, this informant said nothing of the gigantic undertakings carried through successfully with the help of land which was donated, or of the millions of dollars of added value to crops made marketable through the new commercial avenues thus opened; but was satisfied in leaving the impression that the Government was giving away all its lands to rich corporations and that the supply was now about exhausted. This belief has gained wide currency of late among the ignorant. To show its error it is only necessary to say that although altogether 215,203,807 acres have been given away to the several States and to the Pacific Railroads-of which, however, not one-fourth has yet been certified—the Government still had on July 1, 1879, the comfortable little quantity of 710,668,086 acres of unoffered lands, not including Alaska.

## COTTON CONSUMPTION IN EUROPE.

We have received at so late an hour our cable dispatch of Mr. Ellison's circular, issued at Liverpool, Friday, July 9th, that we are unable to make any considerable comment upon the figures. In the statements below, however, we give our usual arrangement of them.

It will be seen that, contrary to general expectation, Mr. Ellison makes no change in the consumption in Great Britain; he still continues the weekly consumption at 65,000 bales of 400 lbs. each. This is larger than other authorities put it; and we were inclined to accept a lower rate on account of the less satisfactory condition of trade in England now. On the Continent the weekly total is given at 52,000 bales, which is also the same as last month. The total takings and consumption in actual bales and in pounds, and in bales of 400 lbs. each, in all Europe, to July 1, are as follows.

Takings and Cons'mp_ Bales, actual.		Pou	nds.	Bales, 400 pounds.		
tion in Europe.	Great Britain.	Conti- nent.	Great Britain.	Continent.	Great Britain.	Conti- nent.
Surplus Oct. 1, 1879.	24,601	89,523	10,500,000	37,600,000	27,000	94,000
Deliveries to July 1, 1880		2,103,350		893,923,750	2,548,636	2,234,800
Supply to July 1	2,295,101	2,192,873	+	931,523,750	2,575,638	2,328,800
Consumption same	1					0.010.000
time	2,107,483	1,897,411	973,200,000	808,400,000	2,433,000	2,016,000
Surplus July 1, 1880	127.618	295,462	57,054,500	125,123,750	142,636	312,809
Surplus June 1, 18.0	98,064	242,391	44,129,000	104,228,300		
Surplus May 1, 1880	123,281	219,519	55,600,000			
Surplus April 1, 1880	164,609	205,782				
Surplus Mar. 1, 1880			87,117,690	85,061,120	217,000	212,000
* 1,019,454,500.	+	1,030,254,	500.			

According to the foregoing we give the present surplus beld by the English spinners at 142,636 bales and of Continental spinners at 312,809 bales. Our cable, however, if we understand it rightly, puts the English spinners' surplus at only 66,000 bales, but states as an explanation that the difference grows out of the 57,000 bales excess forwarded (as reported in our last visible supply table), 19,000 bales of which Mr. Ellison estimates has been consumed. We give this statement as it appears in our dispatch, without at the moment being able to explain it fully.

Mr. Ellison again lowers the average weight of bales in the total actual deliveries. He now gives the average weights up to the first of July at 449 pounds for Great Britain against 450 pounds last month, and 425 pounds for the Continent against 430 pounds last month. This gradual decline in the average is of course the result of the smaller proportion of American and Egyptian in the receipts and the larger proportion of Indian and other descriptions. Availing ourselves of the figures for previous years given in the June circular we are able to present the following comparison of takings and consumption for the last three seasons up to this date, in 1,000's of bales of 400 pounds each.

It will be noticed that in the above we have continued the English total deliveries as in the previous statement, because that is what our cable states them to have been, but the result is 143,000 bales in the hands of English spinners instead of 66,000 bales as we understand the cable to give it. We now bring forward our usual table, which shows the monthly record since October 1 in detail.

#### RAILROAD EARNINGS IN JUNE, AND FOR THE FIRST SIX MONTHS OF 1880.

The reports of gross earnings on 42 railroads for the month of June have now been received. The statements, as tabulated below, show that on a total of \$13,249,394 gross receipts in June, 1879, there was an increase in June, 1880, of \$4,915,378, or about 37 per cent. This is the best exhibit, as to percentage of increase, that has yet been made, and it will be observed that the column of "decrease" in the table is blank throughout, not a single line showing any falling off in business during June of this year. The mileage of many roads

has been increased heavily, but it is impossible in any given month to report accurately the miles operated which earnings are reported. Many of the companies will not furnish this information, and the figures for mileage published in some of the newspapers are grossly incorrect. The following roads are well known as working a mileage considerably increased, viz.: Atchison Topeka & Santa Fe, Central Pacific, Chicago & Alton, Chicago & Eastern Illinois, Chicago Milwaukee & St. Paul, Chicago & Northwestern, Denver & Rio Grande, Louisville & Nashville, Northern Pacific, St. Louis & San Francisco, Union Pacific, and Wabash St. Louis & Pacific. The pertinent question in regard to all these roads is rather as to the increase in bonded debt or annual obligations, than as to the mere increase in mileage, and any precise information on those points will not be obtained by outsiders till the next annual reports are issued. In the mean time the directors have access to the books and can form a much better opinion of the value of the stocks.

<sup>†</sup> Three weeks only of June in each year. † For the four weeks ended June 26. ‡ For the four weeks ended June 25.

For the first half of the year 1880 no railroad included in our tables shows any decrease in gross earnings. As to the net earnings we have less information, but the returns of the comparatively few roads reporting to May 31 are good, and show that the percentage of increase in net profits is usually well kept up to, or exceeds, the increase in gross receipts.

Among the reports and comments on earnings of various companies, aside from the regular statements published monthly in our tables, are the following. The Boston Transcript says of Union Pacific:

"The earnings of the consolidated Union Pacific Railway Company for June are approximately \$1,936,000, an increase of \$653,000 over the earnings of the separate lines—Kansas Pacific, Union Pacific and Colorado Central—during June of last year. The anditor estimates that \$210,000 of this increase is attributable to increased mileage, arising from newly-constructed branches. This leaves a net increase for June of \$443,000 upon the old mileage, or a gain of 34 per cent."

The Northern Pacific, Eastern Division, earnings are reported thus:

Earnings for June, 1880 Earnings for June, 1879	188,000
	\$62,600

[From our own correspondent.]

London, Saturday, June 26, 1880.

The money market continues in a very easy condition, and the Bank return shows that the directors were quite justified in reducing their rate of discount last week to  $2\frac{1}{2}$  per cent. They might, in fact, have lowered it to 2 per cent, as it is evident that the amount of business they are doing is very limited. There is, this week, a further decrease of £288,336 in the total of "other securities," the amount being £18,311,636, against £18,523,864 last year and £20,711,781 in 1878. The supply of bul-

523,864 last year and £20,711,781 in 1878. The supply of bullion continues to be augmented both by a return of coin from provincial circulation and by imports from abroad. The total supply of gold is now £29,381,943, against £35,143,525 last year; while the reserve of notes and coin is £18,032,483, against £21,-251,650 in 1879. The proportion of reserve to liabilities has increased to 52.25 per cent, and a continuance of easy money is

therefore looked forward to.

Although trade presents a very quiet appearance, there is still a moderate amount of business doing, for the time of year, and hopes are still entertained that the autumn trade will be fairly satisfactory. It is not expected to assume large proportions, but as there is still reason to believe in a good yield of agricultural produce, while there are no present indications of dear money, some increase in husiness seems to be almost inevitable. In Mincing Lane, this week, a fair degree of activity has been apparent, and in the metal trade, iron, tin and copper have commanded a good deal of attention, and have fluctuated considerably in price. From our principal manufacturing towns the report is that a fairly legitimate trade is in progress, and it is expected to develop as we approach the autumn. There appears, however, to be nothing calculated to encourage the belief that a period of activity is near, as there seems to be a very general disposition to trade with caution, and not to run unusual risks. There has been a good deal of speculation in tin and copper this week, and on Menday an important advance took place; but speculators speedily realized to secure their profits, and on Tuesday there was a marked relapse. Since then, prices have been steadily advancing, and the metal trade is now regarded as strong.

The weather during the month of June has been true to its traditions, and a copious rain has fallen, which, after the very dry spring, has been of vast benefit to the growing crops. A month ago, although wheat was thriving, the prospect for roots, grass and all late-sown crops was not very encouraging; but matters have now very materially changed, and if we should have a bright summer, the yield of agricultural produce will be very considerable. Vegetable food has lately become very abundant, and farmers have experienced difficulty in disposing of certain descriptions at any profit; but the choicer sorts have been rather dear. The dry spring has diminished to some extent the sanguine hopes entertained respecting, the fruit crop, and of a few descriptions it is expected that the yield will be light; but in the aggregate, if we should have good ripening weather, the result will be a satisfactory one, Hop growers, for once, do not complain. During the last three weeks the plant has made wonderful progress, and the plantations are remarkably free from blight. Growers are looking forward to one of the largest and finest crops ever produced in

this country, and it must be said that they deserve it, as hopgrowing is expensive, and successively bad crops are attended by heavy losses. Kent, famous for its hops and fruit, will almost certainly enter upon a period of prosperity, and has indeed done so, as fruit is now maturing with rapidity. Last year the chairman of the South Eastern Railway Company alluded to the fact that the revenue of that undertaking had diminished considerably in consequence of the indifferent yield of fruit. When the shareholders meet again, in a few weeks time, he will probably be able to inform them of a much better condition of things, and of augmented receipts from the conveyance of agricultural produce. Our agricultural population will be greatly benefitted, as they will now be largely employed, and will have more means at their command to provide for their requirements. Times have been very bad with them for a long time past; but now that farming is yielding somewhat better results, some increase in the country trade may be anticipated.

Messrs. Morton, Rose & Co. invite subscriptions for \$1,500,-000 first mortgage 5 per cent bonds of the Chicago Milwankee & St. Paul Railway Company (La Crosse & Davenport Division) of which 5 per cent is payable on application and 88½ per cent on allotment. The prospectns states that the bonds, which are of \$1,000 each, and payable to bearer, are a direct obligation of the Chicago Milwaukee & St. Paul Railway Company, and are secured by a first mortgage on the Lacrosse & Davenport Divi-

sion, 185 miles in length.

Tenders will be received at the Bank of England on Monday, July 5, for £1,480,000 in Treasury bills of the usual denomination, and under the usual conditions. This issue is to replace

bills about to mature.

The demand for money has strengthened a little, perhapsduring the last two days, owing to the approaching close of the half-year and to the commencement of another Stock Exchangesettlement. The dividends on the public funds will, however, be paid in a few days, and as trade requires comparativelylittle capital to conduct it, and as mercantile paper is scarce, an easy money market is expected in July. The following are thepresent rates for under:

Bank rate	4 months' bank bills	2180214
3 months' bills 134 @174	4 % o mentus, trade puis	. 2-203

The rates of interest allowed by the joint-stock banks and discount houses for deposits are as under:

· ·	Per cent.
Joint-stock banks	1 la.
Discount houses at call.	112
Do with 7 or 14 days' notice	119-
with for 14 days notice	134

Annexed is a statement showing the present position of the Bank of England, the Bank rate of discount, the price of Consols, the average quotation for English wheat, the price of Middling Upland cotton, and the Bankers' Clearing House return, compared with the three previous years:

There has been very little demand for gold for export during the week, and, as some moderate amounts have arrived from Australia, a fair quantity has been sent into the Bank of England. Silver is firmer, the Indian exchanges being higher; and Mexican dollars are also rather scarce. The following prices of bullion are from the circular of Messrs. Pixley & Abell:

GOLD,	8. a.	8. a.
Bar gold, fineper oz. standard.	77 9	2
Bar gold, containing 20 dwts, silver, per oz. standard.	77 10	20

Chilian dollarsper oz.		0	
Quicksilver, £6 12s. 6d. Discount, 3 per co	ont.		

A very moderate amount of business has been transacted on the Stock Exchange during the week. Cheap money and good harvest prospects afford support to the markets; but the public are, as usual at this period of the year, making but few investments, and consequently speculation is rather difficult to pursue successfully. The tone has, on the whole, been steady, and no important fluctuations in prices have taken place. States' Government securities have been decidedly firm, and the funded 5 per cents have improved slightly in value. Consols are at the high price of 98% ex-div. South American securities, especially Argentine and Boenos Ayres descriptions, are much weaker, owing to the prevalence of political disturbances in those republics.

Wheat gives way in price, but very slowly. White descriptions, owing to large arrivals from Australia and New Zealand show the chief fall, viz., of about 1s. per quarter; but red wheats are wanted for mixing purposes, and these command about previous rates. Farmers' deliveries are upon a very limited scale. Since last harvest they have been only about 5,000,-000 quarters, against 9,000,000 quarters, or a falling off of 4,000,000 quarters. Our imports are larger, but, according to the usual calculations, only about 77,000,000 cwt. of wheat and flour have been marketed since harvest, against 84,207,000 cwt. last year. It is, however, well known that millers have been buying from hand to mouth for a long time, and that their stocks were never so low as they are now. Stocks in granary are also small, and it is these two facts that tend chiefly to check any important downward movement in prices. France, if the account respecting the crops in that country is correct, will again be a considerable importer of wheat, besides which Western Europe is bare of reserve stocks. Wheat will undoubtedly be cheaper, if the weather continues fine; but England at all events will again require a large supply, as the area of land under wheat is small.

Advices from Paris state that Algerian flour of this year's crop has made its appearance in the Paris market. As to the crops in France, the Bulletin des Halles sums up the situation as follows: In the south, which last year had a full yield, only two-thirds are reckoned upon this year. In the southwest, in general, a pretty good crop is expected, if the bad weather The crops there, however, are ten to fifteen keeps off. days behind, compared with ordinary years. In the east an abundant crop is not to be hoped for, on account of the large number of fields that had to be re-ploughed and sown afresh in the spring. In the centre and west the crops are in general thin. In the North, with the exception of the department of the Nord, where a good crop is expected, either from having been injured by the rigors of the winter or by the insects, the wheat leaves much to be desired, and is overrun by weeds. Thus, though on the whole the prospect is better than last year, an excellent harvest is not to be expected.

During the week ended June 19 the sales of home-grown wheat in the 150 principal markets of England and Wales amounted to only 24,278 quarters, against 49,426 quarters last year; and it is computed that in the whole kingdom they were 97,120 quarters, against 198,000 quarters in 1879. Since harvest the sales in the 150 principal markets have been 1,262,528 quarters, against 2,279,184 quarters; and it is computed that in the whole kingdom they have been 5,050,120 quarters, against 9,076,520 quarters in the corresponding period of last season. Without reckoning the supplies furnished ex-granary at the commencement of the season, it is estimated that the following quantities of wheat and flour have been placed upon the British markets since harvest. The visible supply in the United States is also given:

#### Commercial and Miscellaneous News.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports of last week, compared with those of the preceding week, show a decrease in dry goods and an increase in general merchandise. The total imports were \$9,188,199, against \$9,218,221 the preceding week and \$7,805,490 two weeks previous. The exports for the week ended July 5 amounted to \$9,447,246, against \$9,163,891 last week and \$9,781,293 two weeks previous. The following are the imports at New York for the week ending (for dry goods) July 1 and for the week ending (for general merchandise) July 2:

St. Joseph & Western.—A cash dividend of 12½ per cent was recently declared by the land department payable to the holders of land scrip.

—In the notice, last week, in which Messrs. Levy & Borg called attention to Memphis & Little Rock Railroad Company's first mortgage bonds, due in 1907, it should have been said that interest was 4 per cent for two years and 8 per cent for twenty-five years.

—Messrs. Hatch & Foote inform us that investors are buying quite rapidly the first mortgage bonds of the Nevada Central Railway, and they consider these bonds cheap at the present figure, viz.: 97½ and acrued interest.

—Dividend No. 57 has been declared for the month of June (50 cents per share) by the Ontario Silver Mining Company, payable at Wells, Fargo & Co.'s, 65 Broadway, on the 15th.

#### BANKING AND FINANCIAL.

#### FISK & HATCH,

BANKERS AND DEALERS IN GOVERNMENT BONDS,

And other desirable Investment Securities,

No. 5 NASSAU STREET, NEW YORK.

Buy and sell all issues of Government Bonds, in large or small amounts, at current market prices, and will be pleased to furnish information in reference to all matters connected with investments in Government Bonds.

We are prepared to give information in regard to first-class Railway Securities and to execute orders for the same.

Buy and sell all marketable Stocks and Bonds on commission, at the

Stock Exchange or in the open market.

Receive accounts of Banks, Bankers, Merchants and others, and allow interest on dully halances; and for those keeping accounts with us we collect U. S. coupons and registered interest, and other coupons, dividende, &c., and credit without charge.

dends, &c., and credit without charge.

We give special attention to orders from Banks, Bankers, Institutions and investors out of the city, by Mail or Telegraph, to buy sell Government Bonds, State and Railroad Bonds, Bank Stocks, Railroad Stocks, and other securities.

We have issued the Seventh Edition of "Memoranda Concerning Government Bonds," copies of which can be had on application.

FISK & HATCH.

#### FRIDAY, JULY 9, 1880-5 P. M.

The Money Market and Financial Situation.—The kets have been rather quiet, as usual in Fourth of July week. There have been some reports of damage to the wheat crop in the Northwest, which have been made the grounds of an attack on the stocks of the two railroads most directly affected, with the result of forcing a decline of two or three per cent. There is not much confidence, however, in the reports of damage to the grain crops about this time of year. The great pressure of grain coming forward from the West, even at the much lower range of prices lately ruling, has been accepted as good evidence that holders there thought it best to sell; and their judgment as to what the present crop is likely to turn out is supposed to be better than that of parties in New York or London. The business on the Eric Canal this year and last, and the Lake and Canal rates in June for a series of years (the railroad rates being proportionately higher in 1880), are given as follows. The business of the canal at Buffalo from the opening to June 30 was as follows: kets have been rather quiet, as usual in Fourth of July week

	1000.	1000.	E44 O4 1
Number of boats cleared	3,418	1,695	1,723
Tolls received	242,523	\$104,607	\$137,916

1871 5.7	5.3	10.1	9.1	1876 2.5	2.3	6.2	5.4
187283	7.3	12.1	11.1	1877 2.4	1.9	5.0	4.3
1873 6.5	5.8	10.6	9.5	1878 2.1	1.8	4.7	4.1
1874 4.2	3.9	11.3	10.3	1879 2.1	1.8	4.1	3.6
1875 3.0	2.6	6.9	6.3	1880 7.1	6.6	6.9	6.4

1874...4.2 3.9 11.3 10.3 1879...2.1 1.8 4.1 3.6 1875...3.0 2.6 6.9 6.3 1880...7.1 6.6 6.9 6.9 6.3 1880...7.1 6.6 6.9 6.9 6.9 These figures have an indirect, but a decidedly important, bearing on the meeting of the Eastern trunk line managers, which is to be held at Saratoga July 20. It is reported that the trunk line arbitrators will offer to allow the following apportionment of East-bound business: Micnigan Central, oper cent; Lake Shore, 25; Fort Wayne, 24; Pittsburg Cincinnati & St. Louis, 10; Baltimore & Ohio, 8; and Chicago & Grand Trunk, 7. The Grand Trunk refused 7 per cent before, and it is more than likely that a compromise may be made by allowing that road 10 to 15 per cent.

The money market has been extremely easy, and the current quotations for call loans is 2@3 per cent, according to the collaterals. Prime commercial paper is quoted at 4@5 per cent. The Bank of England weekly statement on Thursday showed a decrease of £207,000 in specie, but the percentage of reserve to liabilities was up to 50 3-16 per cent, against 44% per cent last week. The discount rate remains at 2½ per cent.

The last statement of the New York City Clearing House banks, issued July 3, showed a decrease of \$1.399,575 in the legal reserve, the total surplus being \$16,083,625, against \$17,483,200 the previous week.

The following table shows the changes from the previous week and a comparison with the two preceding years.

and a comparison with the two preceding years.

1	1880. July 3.	Differ'nces fr'in previous, week.	1879. July 5.	1878. July 6.

United States Bonds.—The only feature of special interest in the Government bond market this week was the discontinuance of purchases by the Treasury, on account of the lack of surplus revenues applicable to such purchases. It is believed, however, that the policy of Secretary Sherman will be to resume the purchase of bonds again in the Fall, when the money market will be more active—and then, too, there is the first Tuesday in November, which should not be forgotten this year. The four per cents of 1907 close at 108½ bid.

The closing prices at the New York Board have been as follows:

State and Railroad Bonds .- State bonds have not at all active. The meetings of the readjusters in Virginia, under the leadership of General Mahone, is an unfavorable point in that direction. The North Carolina new 4 per cents, lately admitted to the New York Stock Exchange list, are quoted to-day at 73% bid.

Railroad bonds are moderately active on investment purchases, but the speculative bonds have been lower, in sympathy with the stock market.

with the stock market.

Messrs, A. H. Muller & Son sold the following at auction:

Shares.	Bonds.
20 Hamilton Fire Ins13512	\$1,000 Mt. Carbon Coal RR.
100 Second Av. RR 65	1st mort.bond, coupons at-
Bonds.	tached from May 1, 1872;
\$16,000 Union Coal Co. 7s 107	for\$34

Railroad and Miscellaneous Stocks.—The week has been broken up to some extent by the national holiday, and business has been reduced in consequence. The stock market has shown rather a weak tone the past, few days, which may be attributed in part to the absence of many operators from the city. It is probable, too, that this half-holiday week has been taken as a good time to attack the granger stocks on the strength of bad crop reports telegraphed from the West. Certainly, the general situation appears rather strong, and the reports of railroad earnings for June, and for the first half of this year, reported at length on another page, make an exhibit of increase over the preceding year which has not heretofore been matched. The report of Reading affairs received from London (and it seems absurd that Philadelphia should wait to get a Reading report from London) is quite unsatisfactory in one particular, namely, that the floating debt should have increased \$3.604,000 between Dec. I and April I. This can but make the holders of stock and bonds more anxious to have a full statement from the receivers. In matters bearing upon the prices of particular stocks the week has been rather bare of developments, and the record of daily prices below; furnishes nearly everything of interest. The directors of the Gleveland Columbus Cincinnati & Indianapolis railroad have voted to pay no dividend in August. The following is the comparative statement of the earnings, including the leased line—the Cincinnati & Springfield Road:

Gress carmings for the first aty months of 1880. & Springfield Road

	Gross carnings for the first six months of 1880 Expenses, taxes and interest	2,226,271
-	Net surplus June 30, 1880	
	Gross earnings for the first slx months of 1879 Expenses, taxes and interest	\$1,809,919 1,969,440
	Deficit Jano 30, 1879.	\$159,521
I	Showing net gain in operating for the first six months of 1880 over 1879 of	\$248,250

The New York Central & Hudson detailed statement of earnings during the month of June is as follows:

Exchange.-The trade movement has so changed in the past month that if exports are kept up au importation of gold may rather be expected in the autumn than any considerable shipments. Our market for foreign exchange is dull and weak. The actual rates for prime bankers' sterling are about 4 84 for 60 days bills and 4 86 4 for demand. Cable transfers are done at 4 86 2.

In domestic exchange the following were rates on New York at the undermentioned cities to-day: Savannah, buying ½, selling ¼ premium; Charleston, buying ½ premium, selling ¼ premium; New Orleans commercial, 100 premium, bank 250 premium; St. Louis, par; Chicago, 25 discount, and Boston par.

Quotations for foreign exchange are as follows:

July 9.	Sixty Days.	Demand.

## ANNUAL REPORTS.

Canton, Company of Baltimore, (For the year ending May 31, 1880.)

(For the year ending May 31, 1880.)

The annual report of W. B. Brooks, Esq., President, says:

"President Harrison in his Union Railroad report of 1879 asserted, 'that as terminal facilities have been provided at Canton, a steady increase in the revenue of the railroad has been the result.' In this connection it may be interesting to review what has been done in these specialties since January,

1878.

"The Northern Central Railway Company, at their wharf near the foot of Sixth Avenue, have erected a bulkhead along their water front; from this bulkhead a steamship pier 500 feet in length by 70 feet in width covered with an iron shed, the pier extending to the Port Warden's line. This pier is located 150 feet south of the elevator pier, and has all the requisite tracks and appurtenances for doing a steamship business.

"The freight sheds, formerly located on the elevator pier," have been removed to the vicinity of the tracks and are used for the delivery of local freight.

"Between the bulkhead and Clinton Street they have erected a one-story tobacco warehouse, 274 feet in length by 84 feet in width, built in the most substantial manner upon stone foundations, covered with correspond in any last a capacity of

a one-story tobacco warehouse, 274 feet in length by 84 feet in width, built in the most substantial manner upon stone foundations, covered with corrugated iron, and has a capacity of 2,500 hogsheads. They have also built stock yards east of Clinton Street, with ample capacity for 400 head of cattle. And are now engaged in building another steamship pier 500 feet long by 120 feet wide. These improvements have demanded a large amount of additional tracks, which, with the required offices and appurtenances, give them improved facilities for transacting their daily-increasing business.

"The storage capacity of the three existing elevators at Canton have several times within the past year proved totally inadequate to accommodate the demand upon them. When they are full, grain on the road, destined for Canton, has to be sent elsewhere. Thus the legitimate business is interrupted, to be resumed only when shippers are well assured that there is again storage room, and it is patent to the most casual observer that if the elevators were increased to double the extent of the present combined storage capacity they would still be insufficient to accommodate the grain seeking the natural advantages of Canton as a shipping point.

"The grading proposed in our last report along the line of Eastern Avenue has been but partially accomplished, the demand from other portions of Canton property for immediate occupation making such improvements imperative. But the work on Eastern Avenue will be prosecuted as opportunity presents.

"There is a present demand for several new piers and exten-

"There is a present demand for several new piers and extension of old ones, to accommodate the increasing busines of parties occupying portions of Canton water fronts. The outlay for these improvements commend themselves to your directors, and they will be entertained upon the theory that parties desiring them shall, in each case, contribute in additional rent, some sum adequate to meet the contingencies of interest and maintenance."

#### GENERAL INVESTMENT NEWS.

Atchison Topeka & Sante Fe.—This railroad company has issued circulars offering to exchange its own stock for stocks of the Florence El Dorado & Walnut Valley, and Pleasant Hill & De Soto branches, on the basis of one share of its stock for ten shares of the Florence El Dorado & Walnut Valley, and one share of Atchison for two of the Pleasant Hill & De Soto. The stock of the Pleasant Hill & De Soto Railroad Company amounts to \$450,000, and of the Florence El Dorado & Walnut Valley to \$450,000. It may be necessary to issue \$170,000 more of Atchison stock.

Atlantic Mississippi & Ohlo.—The English Bondholders' Committee has issued a circular, which gives the following statement of bonds and coupons deposited:

Bonds deposited with English Committee. \$3,105,000

Expenditures for extraordinary renewals and new construction have been \$752,841 from July 1, 1876, to June 30, 1879, and \$140,378 for the current year (June estimated), a total since July 1, 1876, of \$893,220. The annual interest on the divisional, July 1, 1876, of \$893,220. The annual interest on the divisional, or prior, securities, as recognized by the decree, is \$375,498; but these securities could probably be funded, after the purchase of the property, at 6 per cent interest, and the annual interest charge would be, in that case, \$314,140. Deducting this latter charge from the average annual net revenue for the four completed years of the receivership, there would remain a balance of \$494,970. Deducting the same from the present year's net revenue, there would remain \$727,975. For the purpose, however, of accurately estimating the net amount which may be distributed among the consolidated bondholders, deductions should be madel for necessary improvements until the property is placed in first-class condition. Deducting for such improvements the annual sum of \$230,000 up to April 1, 1884, there would remain on the basis of the average of the four receivers years a net amount for distribution per annum of \$264,970—about 4.85 per cent; or, calculating on the basis of the receipts of the present year, there would remain \$497,075—about 9 per cent.

of the present year, there would remain \$400,000 about Percent.

"When the receivers took possession, the liabilities, including back wages, division interest, back taxes, and all other secured debts (exclusive of overdue interest on consolidated bonds), amounted to \$1,156,211. This sum has been since increased by the maturity of Atlantic Mississippi & Ohio notes given prior to the receivership for back divisional interest, \$134,584; total, \$1,290,795. This debt has been now practically liquidated or funded. The overdue divisional securities of various classes have been nearly all—with the consent of their

owners, extended for ten years, with the option to the owners, for the time being, of the railroad of paying them off at any time. They amount to \$605,584; of which \$562,554 have been so extended, leaving only \$43,030 unextended. The other liabilities have all been extinguished either out of the earnings of the railroad or by the sale, on favorable terms, of the divisional securities which were held as collaterals. Since then, however, the following divisional securities have matured: Virginia & Tennessee 8 per cent registered certificates, due Jan. 1, 1880, \$84,190, and on July 1, 1880, the following additional divisional securities will mature: Virginia & Tennessee interest funding bonds, 8 per cent, \$260,900.

"The negotiations for arrangements with western connections for protecting the through traffic, in view of adverse combinations and competitive lines, were diligently prosecuted, and would probably before this time have resulted in a formal agreement to be submitted to the bondholders but for two causes. There was temporary dissension in this country, now happily consummated, for a fusion of the English and Amsterdam Committees. These negotiations with western connections, thus unavoidably retarded, comprised:

"1. A guarantee by the united Atlantic Mississippi & Ohio and East Tennessee Virginia & Georgia Railroad companies of the interest on the reorganization bonds representing the principal of the consolidated bonds.

"2. A united management, with a considerable saving in expenses.

"3. A grant to the East Tennessee Virginia & Georgia Railowners, extended for ten years, with the option to the owners,

"3. A grant to the East Tennessee Virginia & Georgia Railroad Company, by way of an equivalent for their guarantee, of an amount of income bonds and stock equal to those proposed to be issued to the consolidated bondholders.

"The negotiations thus arrested may now, in the opinion of the committee, be resumed with greater efficiency and more probability of a successful result by the action of the Purchasing Committee, which will, with the sanction of the meeting on the 18th instant, jointly represent the English and Dutch bondholders.

"Since the organization of an indexed at

bondholders.

"Since the organization of an independent committee of bondholders in Holland, this committee has at all times been anxious to bring about a fusion of interests, knowing that such fusion, if effected, would at the same time save expense and expedite the foreclosure proceedings; and the committee is glad to be able at length to inform the bondholders that an agreement has been entered into with the Amsterdam Committee, subject to the approval of the bondholders of both committees, on the following basis: on the following basis:

"1. That the amended reorganization scheme is the joint

scheme of both committees.

"2. That a joint Purchasing Committee is agreed upon.

"3. That the original English and Amsterdam committees, who have received the securities on deposit, will retain control over them until they have obtained and re-distributed to their certificate-holders, respectively, the new securities intended to be issued.

be issued.

"Under the amended scheme of reorganization the following new securities will be issued to the bond and conpon holders, subject to deductions for any dividends paid meanwhile: For each \$1,000 bond, with all coupons from October 1, 1875, inclusive, \$1,000 reorganization mortgage bond, \$897 reorganization income mortgage bond. \$100 stock. For all detached overdue coupons an equal amount at par of income mortgage bonds." bonds.

Atlantic & North Carolina.—This company owns a line from Morehead City, N. C., to Goldsboro, 95 miles. A controlling interest is held by the State of North Carolina. The following statement for the year ending May 31 was made at

Boston & Albany—Springfield & Northeastern.—A special meeting of the stockholders of the Boston & Albany Railroad was held to see if the stockholders would approve of the purchase of the Springfield & Northeastern Railroad, and approve of a lease of the Spencer Railroad. Mr. Rumrill gave a description of the Springfield & Northeastern road, its financial status, yearly earnings, etc. The earnings for the present year are estimated at \$100,000, and perhaps more. The road is out of debt. The amount proposed to be paid for the property is \$450,000, with interest at six per cent from July 1, 1879, after deducting all sums paid since that time as dividends and interest. The purchase and the lease were both approved.

Boston Hartford & Erie.—The New York Times' report says

Boston Hartford & Erie.—The New York Times' report says that about forty persons, claiming to be interested as stockholders in the old Boston Hartford & Erie Railroad Co., met, July 8, in the office of Mr. John Rooney, No. 3 Pine Street. Mr. Rooney claims to be the President of the company. In calling the meeting to order, he told the gentlemen present that they and others who, though not present, were co-operating with them, had been deprived of their property in the railroad by fraud and collusion such as had never been known in this or any other country, or in the affairs of any other railroad corporation. Mr. William Cooper offered a resolution calling for the appointment of a committee to act with the President in this

matter, to take steps to open books for the transfer of the stock, and otherwise to act as in their judgment was for the best interests of the stockholders, and to report the action taken at a public meeting to be held on Monday next, July 12, at noon. The resolution was adopted, and the President appointed as such committee William Cooper, John O'Brien (of W. & J. O'Brien), W. S. Nichols of Wall Street, Henry Earle, Samuel Schaffer, George E. Harrington and Delorme Knowlton.

Samuel Schaffer, George E. Harrington and Delorme Knowlton.

Brooklyn Elevated Rallroad.—Meyer Feuchtwanger has commenced an injunction suit against the Brooklyn Elevated Railroad Company and the Farmers' Loan & Trust Company, and obtained from Judge Donahue, in the Supreme Court, an injunction order restraining the company from issuing, procuring to be certified, or delivering any bond or bonds for money procured or contracts made for the sale of bonds since the making of a contract with plaintiff on January 1, 1880. In his complaint he alleges that he was induced to purchase ten \$1,000 bonds of the railway company for \$3,000, for which he received a certificate for the bonds which were to be issued on September 1, 1879, and which were to be delivered within three months thereafter, on the surrender of the certificate. He paid the money, as he claims, but has never received the bonds, and alleges that the company have borrowed money on the bonds they agreed to issue, and have contracted to sell nearly \$200,000 more of bonds to other persons, and he believes that if not restrained they will disable themselves from procuring from the Farmers' Loan & Trust Company the certificate necessary to make the bonds good.

Chicago & Iowa.—The rival claimants for the possession of

chicago & Iowa.—The rival claimants for the possession of this road have its affairs now in a somewhat complicated condition. As already noted the United States Circuit Court ordered the Receiver to turn over the road to the Aurora board. The Hinckley party, however, begun to sue out a quo uarranto against the Aurora party, and the Illinois Circuit Court appointed the receiver just discharged by the Federal Court to take charge of the road pending a decision in the new suit. Later, the Aurora party applied to the United States Court for an order to attach the receiver for contempt, and the motion was to be argued this week.—R. R. Gazette.

Chicago Milwaukee & St. Paul—Mineral Point.—At Galena, Ill., July 6, it was reported that the Chicago Milwaukee & St. Paul Railroad Company had purchased the Mineral Point Railway and its rolling stock, and that the transfer had been perfected. The sale was not to include the Calamine & Platteville Branch of the Mineral Point. It was also announced that the Chicago Milwaukee & St. Paul would at once extend their new road to Dodgeville.

new road to Dodgeville.

Delaware & Hudson Canal Company.—The following is a comparative statement of business of the railroads owned and leased by the Delaware & Hudson Canal Company during the month of May, 1880:

4,975,000

The company has no floating debt except current construc-The company has no floating debt except current construction accounts and \$109,200 in conpon certificates appertaining to the bonds of the Arkansas Valley Division, which it is designed to pay off this summer. The receivership, which arose out of the controversy with the Atchison Topeka & Santa Fe Railroad Company, has been terminated by decree at Washington, March 27, 1880, signed by Justice Miller, who likewise decreed the Grand Canyon of the Arkausas and the entire disputed line to Leadville to belong to the Denver & Rio Grande Railway Company, which is now in possession of the same. All litigation and controversies are now settled between the two companies companies.

litigation and controversies are now settled between the two companies.

Denver South Park & Pacific.—The following is from an official statement of the affairs of this company: It was ohartered June 14, 1874, under the laws of the then Territory of Colorado, anthorized to construct and operate a narrow-gauge railroad from the City of Denver by the South Park and the Valley of the Arkansas to Southwestern Colorado and the Pacific Oceau, with various branches. The following is now in operation: Main line, Denver to Buena Vista, 135'1 miles; Gunnison Extension to Hortense, 6 miles; 141'1 miles. Branches—Bear Creek Junction to Morrison, 8'8 miles; Como to upper coal mine, 3 miles; total, 12'8 miles; total owned and operated, 153'9 miles. Side track, 13'03 miles. Gauge, 3 feet. The extension of the main line to Gunnison City, a distance of 58 miles beyond the end of track at Hortense, is now mostly under contract for completion in November next, or as soon thereafter as practicable. Trackage has been leased to the Denver & Rio Grande Railway Company over this extension at a rental equal to 8 per cent per annum upon one-half its cost, in addition to one half of its maintenance. Under the same contract the Denver & Rio Grande Railway Company has extended its line to Leadville from its intersection with the Denver South Park & Pacific Railroad at Chalk Creek, and leased to it upon the same terms, equal rights in perpetuity. The same agreement between these two companies provides for the pooling of ail the receipts derived by them from the business of their roads on the joint trackage from Denver and Pueblo.

The road has been constructed by the parties who own it,

Pueblo.

The road has been constructed by the parties who own it, nearly all citizens of Denver, and is reported to be one of the most substantially built and best equipped in the country. On the construction and equipment of the 150 miles now operated the stockholders have expended in cash \$2,550,000. This

most substantially built and best equipped in the country. On the construction and equipment of the 150 miles now operated the stockholders have expended in cash \$2,550,000. This 150 miles is bonded for only \$1,300,000.

The railroad company owns 87½ per cent of the stock of the South Park Coal Company, which has 2,000 acres of coal land at or near Como, in the South Park, about half way between Denver and Leadville, on which are two well-opened mines.

The capital stock authorized is \$5,000,000, on which there has been issued on 150 miles of completed road, \$3,500,000. All further issues of stock are to be limited to the rate of \$20,000 per mile of completed extension and branches. The first mortgage bonds to be issued are \$2,500,000, of which there have been issued, at the limited rate of \$12,000 per mile of completed road in actual operation, \$1,800,000. Bonds dated August 1, 1876, principal and interest payable in United States gold coin of or equal to the present standard and free from United States taxes. Principal payable in the city of New York, May 1, 1905. Interest payable May 1 and November 1, at the rate of 7 per cent per annum, at the agency of the company in New York, London or Frankfort-on-Main, at the option of the holder. Bonds \$1,000 each, numbered from 1 to 2,500, inclusive, with provision for their registration, and secured by a first mortgage upon its line of road from Denver to the extent of 208 1-3 miles, its equipment, depots, shops, franchise and other property. A sinking fund of 1½ per cent per annum on the amount of bonds outstanding is applicable, after August 1, 1886, to the amount of bonds obstanding is applicable, after August 1, 1886, to the amount of bonds obstanding is applicable, after August 1, 1886, to the amount of bonds obstanding is applicable, after August 1, 2866, to the amount of bonds obstanding June 1, 1880, were \$1,659,764; expenses, \$550,934; net earnings, \$1,098,829.

Officers—President, John Evans; First Vice-President, W. S. Cheeseman; Second Vice-President, C.

Eastern, Mass.—The following favorable report and estimates are made by parties interested in this company: Gross earnings Sept. 30, 1979, to April 30, 1880 (7 months). \$1,547,197

Increase in seven months (about 19 per cent). Earnings for the year ending Sept. 30, 1879. Add for 1880, 19 per cent increase.	
And the gross receipts will be Less exponses estimated to be 60 per cent	
Net earnings, 1880 Less rent of leased roads	41 100 000

Balance equal to about 3 per cent on \$6,000,000 atook\* \$223,068

The expenses in 1879 were 59 9-10 per cent.
Interest on bonds is at the rate of 4½ per cent to September, 1882; thereafter 6 per cent. After September, 1882, the interest will be increased 1½ per cent on \$13,394,000, amounting to \$200,910.

The road will therefore earn, the current 'year, more than 6 per cent interest on the debt.

Evansville & Terre Haute.—A despatch from Evansville, Ind., July 6, says: The Evansville & Terre liaute Railroad to-day filed their first mortgage bend to the amount of \$1,500,000 in the County Recorder's office. The Farmers' Loan & Trust Company, of New York, and J. M. Shackleford, of this city, mortgagee in trust, will negotiate for the new bonds.

Galveston Houston & Henderson.—Default was made July 1 on the first mortgage bonds of this company, which usually paid interest through Messrs. F. P. James & Co., No. 40 Wall Street. The bonds on which default was made are the \$1,500,000 first mortgage 7 per cent gold bonds issued December, 1871, and due in 1902. The default appears to be a very disgraceful one, as the road report net earnings about double the amount necessary to pay its interest. Bondholders will probably do well to take steps without delay to employ able counsel and protect their interests. and protect their interests.

Grayville & Mattoon.—This road was sold, July 2, uuder decree of the United States Court to——Cummins, of Chicago, for \$600,000, of which \$10,000 was paid in cash, \$180,000 in receiver's certificates, and the rest in a mortgage of the road.

The board is constituted as follows: William R. Garrison, John Baird, Jose F. de Navarro, William Foster, Jr., George M. Pullman, Horace Porter, John P. Kennedy, William Adams, Jr., George J. Forrest, Charles H. Clayton and Mortimer Ward.

rest, Charles H. Clayton and Mortimer Ward.

New York City.—By the assessors returns the increase in the valuation of real estate for this year is \$24,437,310. This increase is mainly due to the fact that that the value of property on the upper end of Manhattan Island has nearly doubled. The increase in the First Ward has been \$966,800; in the Twelfth Ward, \$6,936,185; in the Eighteenth Ward, \$1,267,650; in the Nineteenth Ward, \$9,263,220; in the Twenty-second Ward, \$1,678,620. The increase in valuation of personal estate property has been \$25,259,082, and this is said to be mainly due to the efforts of the Commissioners of Taxes and assessments, to compel corporations and individuals to pay the proper tax compel corporations and individuals to pay the proper tax.

compel corporations and individuals to pay the proper tax.

North Carolina State Bonds.—The new consolidated 4 per cent bonds have been admitted to the New York Stock Exchange. The following statement was made: "The State of North Carolina is now issuing its bonds, having upon their face 'The Consolidated Debt of the State,' in pursuance of an act entitled an act to compromise, commute and settle the State debt, ratified March 4, 1879. They are in sums of \$1,000, \$500, \$100 and \$50, each denomination numbered from 1 upwards; dated July 1, 1880, payable July 1, 1910, bearing interest from their date at four per cent per annum; coupons payable January and July, at the office of the Treasurer; receivable at and after maturity for any and all State taxes. The act provides that they shall be exchanged for the principal of certain outstanding bonds of the State, with all the unpaid coupons attached, some at 40 per cent, some at 25 per cent and some at 15 tached, some at 40 per cent, some at 25 per cent and some at 15 per cent of the principal, viz.:

\$5,577,400 at 40 per cent. \$2,230,960 3,217,045 at 25 per ceut. 804,261 3,888,600 at 15 per cent. 583,290

<sup>4 \$5,000,000</sup> Eastern atock and \$1,000.000 Portsmouth Great Falls & Conway, which carries same dividend as Eastern.

per cents issued in exchange for the same, viz.: No. 1 to 1,590, \$1,000; No. 1 to 417, \$500; No. 1 to 887, \$100; No. 1 to 238, \$50, numbers will be furnished from time to time as further issues are made.

"Other bonds of the State, amounting to about \$13,000,000, are excluded from the compromise, and no provision is made for them."

"Other bonds of the State, amounting to about \$13,000,000, are excluded from the compromise, and no provision is made for them."

The Raleigh Observer recently made the following comments on the subject of the State's debt:

"The Treasurer, Dr. Worth, has made satisfactory progress in his funding operations, and merits congratulations for his success. There were outstanding and subject to be funded \$5,577,400 of old bonds belonging to the 40 per cent class. Of these the Treasurer has funded \$3,003,500, being more than one-half. Of the second class there were outstanding \$4,700,045 bonds; of these there have been funded, at 25 per cent of their face value, \$1,814,045, being more than one-third. Of the third class, for which only 15 cents on the dollar is offered, there was outstanding \$3,858,600, and there has been funded of this class \$1,643,900, being more than one-third. The entire debt to be funded amounted to \$14,106,045, and of this Dr. Worth has been able to retire \$6,461,445, issuing in substitution thereof 4 per cent bonds to the amount of \$1,901,495. Thus far, therefore, we have gained by the funding operation \$4,553,949. Were all the bonds issued still in existence and capable of being presented, there would yet remain \$7,704,600 to be funded; but it is probable that a considerable number of these bends will not come to light and will never be presented at the Treasurer's office. We may safely estimate, therefore, that one-half of the actual debt intended to be funded has been presented and has been retired, and that, when the funding operations are practically ended, the new 4 per cent debt will amount to more than \$4,000,000, bearing an annual interest of \$160,000. This showing, we say, is highly satisfactory, and Dr. Worth deserves, and will receive, the thanks of the State for the skill and acumen with which he has conducted this great and important service. By the way, the bill under which the Treasury Department is now operating is not materially different from the bill which we matured when in

Ohlo & Mississippi.—Mr. John King, Jr., receiver of the Ohio & Mississippi Railroad, filed his report in the United States Court in Cincinnati for the month of May, as follows:

Pacific Railroads.—The Attorney-General of the United Pacific Railroads.—The Attorney-General of the United States has tendered an opinion in regard to withholding payments from Pacific Railroad companies for transportation services performed for the Government, in which he claims that the whole of the earnings for such services should be withheld, and not the one-half thereof. He holds that the act of May 7, 1878, applies not only to the roads of the Union Pacific and of the Kansas Pacific Railroad companies, but to all lines leased or operated by those companies or consolidated with them; consequently he directs that payment be withheld for Government transportation over the Denver Pacific, the Sionx City & Pacific, and the Central Branch Union Pacific, as well as over the Union Pacific & Kansas Pacific railroads.

Philadelphia & Reading. -George M. Dallas and Joseph A.

Philadelphia & Reading.—George M: Dallas and Joseph A. Clay, masters under the receivership of the Reading Railroad and the Reading Coal & Iron Company, have filed a report in the United States Circuit Court favoring the proposed extension of a loan of \$70,000 made to the Reading by the Massachusetts Loan & Trust Company of Boston, to secure which a large quantity of coal was pledged. The masters state that the receivers are unable to take up the loan and that the Trust Company is willing to extend it: "Judge McKennan has affirmed the report authorizing the extension of the loan.

In the suit of foreclosure the receivers already appointed have been made receivers. The masters appointed by the United States Circuit Court in the case of the Philadelphia & Reading Railroad and Coal & Iron Companies filed their first report July 2. They say that the receiver's accounts as to the railroad company from May 25 to June 12, inclusive, have been examined and found to be nearly correct. The account as to the Coal & Iron Company from May 25 to June 23 was examined and found correct. The account of the railroad company shows that the receipts were \$2.719,014 and the balances on hand \$151,803. The payments for wages, salaries and contingent expenses were \$862,602, and for interests, &c., \$1,856,412. The account of the Coal & Iron Company shows the receipts were

\$417,043; the payments for wages, interest, &c., \$406,194, and the balance on hand, \$10,843.

—From London we have the first report of the English bondholders' committee, dated June 18. This committee is in the interest of the Messrs. McCalmont, the English bankers, who have managed the Reading Company in London. The committee is composed as follows: The Right Hon. Earl Cairns, chairman; W. J. Cookson, W. Fowler, M.JP., Coleridge J. Kennard, Hugh McCalmont, Henry H. McNeile, R. C. Naylor, Richard Potter, T. W. Powell.

The following are extracts from the report and appendix which contains statistics additional to what has been published in this country:

which contains statistics additional to what has been published in this country:

"A comparison of the net earnings of the companies during the five months ending 30th April in 1879 and 1880, and also during the months of April in 1879 and 1880. The committee-have further ascertained, in answer to inquiries sent by them by telegraph to the receivers, that the general or floating debt of the company had been increased between the 1st of December, 1879, and the 30th of April, 1880 (the latest date supplied to them), by about \$3,604,000, a considerable portion of which, however, is stated to be represented by the items of valuementioned in the appendix under this head."

The following figures are taken from the appendix:

Plttsburg Titusville & Buffalo.—The consolidation of this company with the Buffalo & Southwestern had been accepted as an accomplished fact, and was voted unanimously by the stockholders of this company. But the Buffalo & Southwestern stockholders failed to give a majority in favor of it.

# Te Commercial Limes.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, July 9, 1880.

The commercial exchanges were closed early in the week and business nearly ceased. Latterly there has been an active movement in breadstuffs, but generally trade has hardly recovered from the holiday quietude. There is, however, a cheerful feeling pervading mercantile circles, notwithstanding rumors of injury to the crops. Money continues very cheap, although Secretary Sherman has ceased, for the present, to purchase United States bonds for the sinking fund.

Until within a day or so the provision market has been extremely firm, in sympathy with the heavy speculative movement at Chicago. To-day, however, there was a slight break, and new mess pork was sold on the spot at \$13@\$13 20, and for August at \$12 90; September and October quoted \$12 55@\$13. Bacon sold in a small way at 7½@7%c. for long clear and 7.95c. for short clear. Cut meats have been fairly active and about steady. Lard also was lower to-day, with prime Western sold on the spot at 7.25c., closing at 7.20c., and for July 7.20@7.15c.; Angust 7.22½@7.20c., September 7.30@7.27½c., October 7.30c., seller year 7.12½@7.15c.; refined to the Continent sold at 7.67½c. Butter ruled firm for the finer grades, which are scarce. Cheese has been quieter and slightly easy. The following is a comparative summary of aggregate exports, from November 1 to July 3:

	1879-80.	1878-79.	Increase.	Decrease.
Pork	.lbs. 51.268.800	52.160.400	******	891,600
Baeon	.lbs.579.925.809	575.814.891	4.110.918	
Lard	.lbs.280,950,538	247,802,580	33,147,958	1
57.7				
Total	.lbs.912.145.147	875,777,871	37,258,876	891,600

The market for Kentucky tobacco has continued very quiet, and the sales for the week are only 300 hhds., of which 200 for export, and 100 for home consumption. Prices are quoted at 4@5½c. for lugs, and 6@12c. for leaf. Seedleaf has met with a fair demand, the sales for the week aggregating 1,250 hhds., as follows: 450 cases 1879 crop, New England 2ds, 10½@11c.; 350 cases 1879 crop, New England, 16½c.; 300 cases 1879 crop, Pennsylvania, 18@22c.; and 150 cases sundries, 9@22c. There has been a limited inquiry for Spanish tobacco, and sales are only 450 bales Havana at 88c.@\$1 10.

In groceries a good trade has been daily reported, and all prices have been firmly sustained. To-day Rio coffee was quieter and perhaps not as firm as of late; fair cargoes quoted at 15c.; jobbing lots, 13½@16½c. Mild grades ruled firm and in demand at 23@25c. for Java and 14@18c. for Maracaibo. Rice was quiet at 6%@7%c. for Carolina and 5½@6c. for Rangoon. Molasses steady at 36c. for 50 test Cuba refining. Raw sugars ruled steady at 75%@78lc. for fair to good refining Cuba and 8¼@8¾c. for Centrifugal. Refined active and firm at 9½@10c. for standard "A" and 10½@10½c. for hard grades.

Ocean freight room has latterly been more active, and steadier rates have taken place. The engagements and charters to-day included: Grain to Liverpool, by steam, 5½66½d., latter for standard bushel; cotton, ¼d.; provisions, 30@40s.; grain to London, by steam, 7¼d.; provisions, 30@40s.; grain to Glasgow, by steam, 8d.; do. to Hull, by steam, 8½d.; do. to Leith, by steam, 8d.; do. to Cork, for orders, 5s., free elevating, and 5s. 6d. regular; do. to Stockholm, 6s. 1½d.; do. to Copenhagen, 5s. 3d.; do. to Dunkirk, 5s. 3d.; naphtha to Havre, 4s. 6d.; crude petroleum to Alicante, 4s. 6d.; refined petroleum to the Baltic, 4s. 6d.@4s. 7½d.; do. to Antwerp, 4s.; cases to Gibraltar, for orders, 22c.; do. to the Levant, 22c.; do. to Java, 25c.

In naval stores little of importance has occurred, and values have been somewhat unsettled; spirits turpentine closed at 27½@27½c.; strained to good strained rosins, \$142½@\$147½. Petroleum has had a free movement for export, and refined closed strong here at 10½c. bid; crude certificates have latterly been irregular, and closed dull at \$111½ bid and \$112½ asked. American and Scotch pig irons ruled dull, and the latter shows much weakness. Ingot copper has also been somewhat easier at 19c. for lake. Wool is firmer, and sales for the week include X and XX Ohio fleece, 47@48½c.; East India, 40c.; spring Texas, 26½@31c., and Oregon unwashed, 35@39c.

#### COTTON.

FRIDAY, P. M., July 9, 1880.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (July 9), the total receipts have reached 14.070 bales, against 17.057 bales last week, 23,511 bales the previous week and 19,870 bales three weeks since, making the total receipts since the 1st of September, 1879, 4,856,204 bales, against 4,427,572 bales for the same period of 1878-9, showing an increase since September 1, 1879, of 428,632 bales. The details of the receipts for each day of this week (as per telegraph) are as follows:

Receipts at-	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.	Total.

\*The exports this week under the head of "other ports" include, from Baitimore, 1,050 bales to Liverpool; from Boston, 1,482 bales to Liverpool and 30 to other foreign ports; from Philadelphia, 12,039 bales to Liverpool,

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is an *increase* in the exports this week of 21,351 bales, while the stocks to-night are 69,624 bales *more* than they were at this time a year ago.

are 69,624 bales more than they were at this time a year ago.

In addition to above exports, our telegrams to-night also give
us the following amounts of cotton on shipboard, not cleared, at
the ports named. We add also similar figures for New York,
which are prepared for our special use by Messrs. Carey, Yale &
Lambert, 60 Beaver street:

	1	On	On Shipboard, not cleared—for

\*Under the head of Charleston is included Port Royal, &c.; under the head of Gaineston is included Indianola, &c.; under the head of Norfolk is included City oint, &c.

The market was closed from Saturday to Tuesday, inclusive The reopening on Wednesday was at some improvement, in response to stronger accounts from abroad, but there was not much demand to sustain the market, and the close was at some concession from the prices of the previous Friday. Yesterday, however, an easier opening was followed by an advance, which was fully maintained at the close, with July-the object of some special effort-making the most decided improvement. But the demand continued very small. To-day, with Liverpool quite steady, the opening was at a slight further advance, and the close quite buoyant. Cotton on the spot was dull on Wednesday, but fairly active for export on Thursday, with prices firmer, but not quotably higher. To-day there was an advance of 1-16c., to 114c. for middling uplands, with a fair export.

The total sales for forward delivery for the week are 83,800 bales, including - free on board. For immediate delivery the total sales foot up this week 2,963 bales, including 1,700 for export, 1,096 for consumption, 167 for speculation, and transit. Of the above, --- bales were to arrive. The following are the official quotations and sales for each day of the past week:

Transferable orders-Wednesday, 11.60; Thursday, .11.65; Friday,

The following exchanges have been made during the week: '08 pd. to exch. 200 Nov. for Jan. | 100 July for Aug. even.

THE VISIBLE SUPPLY OF COTTON, as made up by cable and telegraph, is as follows. The Continental stocks are the figures of last Saturday, but the totals for Great Britain and the affoat for the Continent are this week's returns, and consequently brought down to Thursday evening; hence, to make the totals the complete figures for to-night (July 9), we add the item of exports from the United States, including in it the exports of Friday only.

The above figures Indicate an increase in the cotton in sight to-night of 332,824 bales as compared with the same date of 1879, an increase of 135,544 bales as compared with the corresponding date of 1878, and a decrease of 419,894 bales as compared with 1877

In the preceding visible supply table we have heretofore only included the Interior stocks at the 7 original interior towns. As we did not have the record of the new interior towns for the as we did not have the record of the new interior towns for the four years, we could not make a comparison in any other way. That difficulty no longer exists, and we therefore make the following comparison, which includes the stocks at the 19 towns given weekly in our table of interior stocks instead of only the old 7 towns. We shall continue this double statement for a time but finally shall simply substitute the 19 towns for the 7 towns in the preceding table.

Total, all	6,423	9,576	71,950	1,067	2,843	20,891

This year's figures estimated.

The above totals show that the old interior stocks have decreased during the week 1,027 bales, and are to-night 25,730 bales more than at the same period last year. The receipts at the same towns have been 789 bales more than the same week last year.

RECEIPTS FROM THE PLANTATIONS.—The following table is prepared for the purpose of indicating the actual movement each week from the plantations. Receipts at the outports are sometimes misleading, as they are made up more largely one year than another, at the expense of the interior stocks. We reach, therefore, a safer conclusion through a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Southern consumption; they are simply a statement of the weekly movement from the plantations, of that part of the crop which finally reaches the market through the out-ports.

RECEIPTS FROM PLANTATIONS.

и 9	5,387	3,032	14,070	18.033	20,691	71,950	3,645	1.335	10,91	

The above statement shows-

1. That the total receipts from the plantations since Sept. 1 in 1879-80 were 4,920,853 bales; in 1878-79 were 4,442,011 bales; in 1877-78 were 4,250,102 bales.

2. That, although the receipts at the out ports the past week were 14,070 bales, the actual movement from plantations was only 10,917 bales, the balance being drawn from stocks at the interior ports. Last year the receipts from the plantations for the same week were 1,335 bales, and for 1878 they were 3,645 bales.

WEATHER REPORTS BY TELEORAPH. - More rain than Is desir-

WEATHER REPORTS BY TELEORAPH.—More rain than is desirable is falling in some sections of the Southwest, and dry weather would be a blessing just now. No special harm, however, is reported as yet. In the Atlantic States, where rain was needed, they have had it this week.

Galveston, Texas.—We have had a shower on one day the past week, the rainfall reaching four hundredths of an inch. Throughout the State the corn crop is safe, and will be abundant, while the cotton crop is one of the most promising ever known. Some sections of the coast district and a small portion of north-east Texas complain of too much rain, and occasion-

known. Some sections of the coast district and a small portion of north-east Texas complain of too much rain, and occasionally we hear rumors of caterpillars; but otherwise the prospect is as good as possible. Average thermometer for the week 84, highest 91 and lowest 78.

Indianola, Texas.—The weather during the week has been warm and dry, the thermometer averaging 85, and ranging from 77 to 94. All crops good without exception.

Corsicana, Texas.—We have had warm, dry weather throughout the past week. The thermometer has averaged 86, the highest being 98 and the lowest 70. Crop accounts are more favorable and very promising.

Dallas, Texas.—There has been no rainfall at this point during the week. The crop is developing promisingly. The cotton plant looks strong and healthy and the fields are clear of weeds. Some portions of the Red River counties have had too much rain, and there are rumors of the appearance of caterpillars, but we think them of little importance. The prospect here is marrial grow 70 to 98. we think them of little importance. The prospect here is mar-velously good. The thermometer has ranged from 70 to 98, velously good.

averaging 86.

Brenham, Texas.—We have had no rainfall during the past week. The thermoneter has averaged 85, with an extreme range of from 75 to 96. Crop accounts are more favorable. The fields are clear of weeds, and the cotton plant looks strong and healthy. The condition is about as favorable as ever known. We hear rumors of the appearance of caterpillars, but do not attach any

rumors of the appearance of caterpillars, but do not attach any importance to them. Dry weather is wanted for a while.

New Orleans, Louisiana.—We have had rain during the week on three days, the rainfall reaching three inches and two hundredths. The thermometer has averaged 83.

Shreveport, Louisiana.—The weather during the past week has been fair and dry, with a high range of temperature. We had a thunder squall on the seventh inst. with a rainfall of forty-five hundredths of an inch. The, thermometer has ranged from 73 to 94 averaging 88

73 to 94, averaging 88.

Vicksburg, Mississippi.—Rain has fallen during the past week on two days. Caterpillars have appeared in this section but

on two days. Caterpillars have appeared in this section but have done no great harm yet.

Columbus, Mississippi.—During the earlier part of the past week we had a rainfall of ninety-four hundredths of an inch, but the latter portion has been clear and pleasant. Average thermometer 87, highest 92 and lowest 82.

Little Rock, Arkansas.—Friday, Saturday, Tuesday, Wednesday and Thursday of the past week were clear, but Sunday and Monday were cloudy, with rain, and there was also a light sprinkle on Wednesday evening, the rainfall for the week aggregating one loch and one hundredth. Average thermometer 79, highest 91 and lowest 68. Crop prospects were never better, but there must be a little more dry weather than for the past three weeks or we will have both rust and blight in cotton.

Nashville, Tennessee.—Rain has fallen during the week on five days, to a depth of four and six hundredths inches. The thermometer has ranged from 66 to 90, averaging 77. We are having too much rain.

ing too much rain.

Momphis, Tennessee.—We have had rain on five days, the rainfall reaching thirty hundredths of an inch. The thermometer

has averaged 79, the highest being 80 and the lowest 77. Crop accounts are less favorable. Excessive sap, much shedding, and graes troublesome. The past two days have been clear and a week's continuance will cure ills.

Mobile, Alabama.—The earlier part of the past week was clear and pleasant. The last three days have been showery, the rainfall reaching forty hundredths of an Inch. The crop is developing finely. Caterpillars have appeared in central Alabama, though with limited injury as yet. Average thermometer 82, hashord 98 and lowest 79. highest 98 and lowest 72.

highest 98 and lowest 72.

Montgomery, Alabama.—It has been showery four days of the week, the rainfall reaching fifty one hundredths of an inch, but not enough rain fell to do much good. The thermometer has ranged from 73 to 100, averaging 84. Caterpillars have certainly appeared, though the injury done is as yet limited.

Selma, Alabama.—Rain has fallen on two days, but the balance of the week has been warm and dry. There have been good rains in adjacent sections. The crop is developing finely and the plant looks strong and healthy. Caterpillars have appeared. No damage has yet been done, but they are creating much uneasiness.

Madison, Florida.—We have had rain during the past week on aree days. The thermometer has remained at 78 throughout three days. The thermometer has remained at 78 throughout the week. The cotton plant looks strong and healthy and the fields are clear of weeds.

Maton, Georgia.—It has rained during the week on two days. With a rainfall of one inch and forty-seven hundredths. The thermometer has ranged from 72 to 96, averaging 82. We have secured a good stand of cotton. The cotton plant looks strong and healthy, and altogether crop accounts are, at present, more favorable than for years in this section. Recent rains have done much good. The rainfall for the month of June was one inch and forty-one hundredths.

and forty-one hundredths.

Columbus, Georgia.—Rain has fallen on two days the past week, the rainfall reaching one inch and forty-three hundredths. The thermometer has averaged 88, ranging from 79 to 98.

Savannah, Georgia.—It has rained on three days, the rainfall reaching one inch and four hundredths, but the balance of the week has been pleasant. Average thermometer 84, highest 97 and lowest 73.

Augusta, Georgia.—The weather during the week has been warm, with heavy and general rain on four days, the rainfall reaching one inch and sixteen hundredths. We are having plenty of rain, and the crop is clear and looking fine. The thermometer has ranged from 72 to 95, averaging 83.

Charleston, South Carolina.—It has been showery three days of the week, the rainfall reaching one inch and sixty-six hundredths. Average thermometer 83, highest 97 and lowest 72.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock July 8, 1880, and July 10, 1879.

July 8, '80. July 10, '79.

Feet, Inch. Feet, Inch.

				July 10	
t t			Inch.	Feet.	Inch.
New OrleansBe	olow high-water mark	7	7	11	2
MemphisA	oove low-water mark	24	7	13	8
NashvilleA	ove low-water mark	24	2	1	0
	ove low-water mark		1	4 '	5
	ove low-water mark		2	20	7

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

Cotton Consumption in Europe.-We give to-day in our editorial columns our cable report of Mr. Ellison's circular issued in Liverpool this afternoon.

GUNNY BAGS, BAGGING, &c.—Bagging has not been in de-nand, and the market is quiet. There is no inquiry except in mand, and the market is quiet. There is no inquiry except in a small way, and prices are rather weak with holders quoting 10c. for 1¾ lbs., 10%c. for 2 lbs. and 11¾c. for standard qualities. Butts have been doing better, and holders are firm in their ideas as to price. Paper qualities are now held at 3c., while spinning grades are firm at 3¾c. The sales for the week agregate 3,500 bales, both kinds, at these figures.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT .-A comparison of the port movement by weeks is not accurate, as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement each month since Sept. I has been as follows:

Monthly	1	Year Beginning September 1.									
Receipts.	1879.	-1878.	1877.	1876.	1875.	1874.					
Sept'mb'r	333,643	288,848	98,491	236,868	169,077	134,376

. 0-	June 301.	99.42	97.52	07.50	00.50	P					
receipts	June 301.1	99'42	97'52	97:56	96.78	98.85					

This statement shows that up to June 30 the receipts at the ports this year were 415,579 bales more than in 1878-79 and 599,082 bales more than at the same time in 1877-78. By adding to the totals to June 30 the daily receipts since that time we shall be able to reach an exact comparison of the movement for the different years.

Per	Percentage of total		-1				11
· p'r	trec'n	ts July 9	99.54	97.70	97.74	97.00	99.06

This statement shows that the receipts since Sept. to-night are now 429,341 bales more than they were to the same day of the month in 1879 and 610,157 bales more than they were to the same day of the month in 1878. We add to the last table the percentages of total port receipts which had been received to July 9 in each of the years named.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The figures which are now collected for us, and forwarded by cable each Friday, of the shipments from Calcutta, Madras, Tuticorin. Carwar, &c., enable us, in connection with our previously-received report from Bombay, to furnish our readers with a full and complete India movement for each week. We first give the Bombay statement for the week and year, bringing the figures down to July 8 down to July 8.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

	Shipments this week			Shipme	ants sinc	Receipts.		
Year	Great Brit'n.	Conti- nent	iotal.	Great Britain.	Conti- nent.	Total.	This Week.	Since Jan. 1.
1880 1879 1878 1877	9,000	4,000	4,000 9,000	233,000 269,000	441,000 301,000 362,000 395,000	534,000 631,000	7,000 5,000	

According to the foregoing, Bombay appears to show an increase compared with last year in the week's receipts of 3,000 bales and an increase in shipments of 8,000 bales, and the shipments since-January 1 show an increase of 247,000 bales. The movement at Calcutta, Madras, Tuticorin, Carwar, &c., for the same week and years have not followed. years has been as follows.

CALCUTTA, MADRAS, TUTICORIN, CARWAR, RANGOON AND KURRACHBE,

Year.	Shtpm	ents this	week.	Shipments since January 1				
	Great Britain.	Continent.	Total.	Great Britain.	Conti- neut.	Total.		
1880 1879 1878 1877.	3,000 8,000 10,000 6,000	2,000 5,000 1,000	5,000 13,000 11,000 6,000	186,000 159,000 71,000 79,000	74,000 98,000 51,000 56,000	260,000 257,000 122,000 135,000		

The above totals for this week show that the movement from the ports other than Bombay is 8,000 bales less than same week of last year. For the whole of India, therefore, the total shipments this week and since January 1, 1880, and for the corresponding weeks and periods of the two previous years, are

EXPORTS TO EUROPE FROM ALL INDIA.

Shipments	18	380.	18	379.	1878.		
to all Europe from—	Thia week.	Since Jan. 1.	This week.	Since Jan. 1.	This week.	Since Jan. 1.	
Bombay	12,000 5,000			534,000 257,000			
Total	17,000	1,041.000	17.000	791.000	17,000	804.000	

This last statement affords a very interesting comparison of the total movement for the week ending July S, and for the three years up to date, at all India ports.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments the past week and for the corresponding weeks of the previous two years.

Alexandria, Egypt, July 8.	1880.	1879.	1878.	
Receipts (cantars*)— This week Since Sept. 1	3,204,000	1,663,000	3,000	
1 D	Thia Since Sept. 1.	This Since Sept. 1.	This Since week. Sept. 1.	
Exports (bales)— To Liverpool To Continent	289,780 703 173,662	1,000 169,000 1,000 78,500		
* A cantar is 98 ibs.	703 463,442	2,000 247,500	1,000 402,000	

We have added to these statements for 1879 and 1878 corrections which were made those years.

This statement shows that the receipts for the week ending all 8 were —— cantars and the shipments to all Europe July 8 were -were 703 bales.

MANCHESTER MARKET .- Our report received from Manchester July 9 states that the market is higher and very steady, with a fair business doing. We give the prices of to-day below, and deave previous weeks' prices for comparison.

THE EXPORTS OF COTTON from New York this week show a decrease, as compared with last week, the total reaching 12,477 bales, against 12,962 bales last week. Below we give our usual table showing the exports of cotton from New York, and their direction, for each of the last four weeks; also the total exports and direction since Sept. 1, 1879, and in the last column the total for the same period of the previous year.

#### BREADSTUFFS.

FRIDAY, P. M., July 9, 1880.

The flour market has been quite active since the re-opening of business on Tuesday. Sales have exceeded 20,000 bbls. per day. The demand has been largely for common and medium grades for export, and these have improved most. Fancy brands for the home trade have continued neglected. The products of spring wheat were in especial favor, and were found to be quite scarce. To-day the market was firm and active, but less bnoyant. Rye flour has declined, in sympathy with the grain, but corn meal has continued firm and in demand.

The wheat market has shown unusual activity and buoyancy. Reports of injury to the growing crop in the West and Northwest have been current, and there is no doubt that some damage has been done by recent storms and floods. At the same time the export demand has been urgent for immediate shipment. Receipts at the West were comparatively small, and the visible supply rapidly diminished. There was, consequently, a revival of speculative confidence. The advance has been most decided for spring wheat, which sold yesterday at \$1 11@\$1 12 for No. The business in No. 2 red winter yesterday was at \$1 21@ \$1 22 on the spot, \$1 16@\$1 165/8 for July, \$1 10@\$1 11 for August and \$1 09@\$1 09%4 for September; and No. 1 white sold at \$1 16%@\$1 17 on the spot, \$1 14% for July and \$1 08% for August. To-day the market was excited, No. 2 Western winter selling at \$1 29 on the spot, \$1 19 for July and \$1 12@ \$1 14 for August.

Indian corn has been active, but at barely steady prices for parcels afloat. For future delivery, however, there was some improvement, No. 2 mixed closing last evening at 49½@49%c. for July and 49½c. for August; No. 2 white sold yesterday at 53½c. To-day there was a decline of ½@½c. from yesterday's

figures.

Rye has continued dull and prices are again lower; shippers

say they can pay only 80c.

Oats have further improved, checking, however, the regular trade. Yesterday there was a brisk speculation in No. 2 mixed, at 35%@36c. for July and 33%@33%c. for August. To-day the market was dull, and No. 2 graded was quoted at 36c. for mixed and 39c. for white.

#### THE DRY GOODS TRADE.

FRIDAY, P. M., July 9, 1880.

Business opened quiet the past week because of the intervention of holidays, but the market has exhibited a little more animation the last few days, owing to the arrival of a good many Southern and Southwestern buyers. Operations in fall goods have been comparatively light, but there was a moderately-increased demand for staple cotton goods for early distribution, and, though purchases were individually small, a fair aggregate distribution was effected by the package houses. In woolen goods there was no movement of importance, clothing woolens having been quiet and flannels and blankets inactive. Prices are nominally unchanged, but it is highly probable that lower quotations will be made on various makes of both cotton and woolen goods as soon as buyers manifest a disposition to commence operations for the fall trade.

DOMESTIC COTTON GOODS.—The exports of domestics from this port during the week ending July 6 were 2,704 packages, distributed as follows: Great Britain, 1,607; Brazil, 390; Venezuela, 209; Mexico, 208; British Honduras, 109; U. S. of Colombia, 71; British West Indies, 62, and some smaller lots to other markets. Brown cottons were only in moderate demand, but bleached goods were a trifle more active, and there was a steady hand-to-mouth demand for colored cottons, in which tickings, denims, ducks, cheviots, &c., participated. Prices of plain and colored cottons were somewhat unsettled, and Amoskeag tickings were reduced 1/2c. per yard; but other goods (though favoring the buyer) were nominally unchanged. Print cloths ruled quiet and steady at 4c. and 3½c. for 64x64s and 56x60s respectively. Light prints were almost neglected, but there was a moderate inquiry for medium and dark prints,

but there was a moderate inquiry for medium and dark prints, accompanied by some business.

Domestic Woolen Goods.—There was a strictly moderate demand for clothing woolens, but prices were fairly steady on the most desirable fabrics. Fine cassimeres and suitings were taken in small lots at regular prices, and low and medium grades were moved in moderate parcels by means of slight concessions. Worsted coatings remained inactive and overcoatings were slow of sale. Cloakings were opened by some of the leading agents, but business was only moderate. Kentucky jeans were a little more active, but buyers are operating cantiously as yet. For fiannels and blankets the demand continued light, and there was a limited inquiry for carpets. Worsted dress goods were more sought for by large buyers, and fair orders were placed for special makes now in process of manufacture. Foreion Dry Goods.—There has been no improvement in the demand for imported goods at first hands, and it is probable that business will remain quiet in this branch of the trade until importers are prepared to show new autumn goods. Staple fabrics are generally steady in price, and stocks of fancy goods are now well in hand as a rule, price concessions having enabled holders to close out their accumulations.

Importations of Dry Goods.

Importations of Dry Goods. The importations of dry goods at this port for the week ending July 8, 1880, and for the corresponding weeks of 1879 and 1878, have been as follows:

JAMES BUELI President.

LIBERAL AND IMPURIANT CONCESSIONS IN LIFE INSURANCE CONTRACTS.

LIBERAL'AND IMPLARACE CONTRACTS.

Examine the pew form of Policy Issued by United States Life Insurance Company before earling elsewhere.

After the premiums for three or more years hav been paid, upon receiving the required notice from the assured the Company will continue the Policy in force without further payments, for its FULL FACE, for such a period as the ENTIRE RESERVE will carry it.

Should the d ath of the insured take place during the continued term of insurance as provided for above, the full law of the Policy will be paid—no deduction being made for foreborne or unput premiums, excepting in the event of the death occurring within three years after the origina default.

The new form of Endowment Policy provides:—That if the ENTIRE RESERVE is a greater sum than the single premium required to carry the foil amount of insurance to the end of the endowment term, the excess shall be used as a single premium purchase a pure endowment, payable at the end of the term, thus gnaranteeing to the policy-holder in every event the full value of his Reserve.

NO SURRENDER of the Policy is required; only a notice from the policy-holder, on blanks furnished by the Company.

AFTER THREE YEARS, ALL RESTRICTIONS and CONDITIONS is regard to travel, residence, company, after three years, INCONTENTIALE FOR ANY CAUSE, EXCEPTING FRAUD.

The Company will, upon application, send Circulars giving full particulars.

FRAUD.

The Company will, upon application, send Circulars giving full particulars.
