### RAILROAD LOANS IN 1880 AND IN 1872.

In no branch of our industrial system are the invigorating effects of the revival of business more apparent than in the building of new railroad lines. Indeed, being the first to experience a reaction from that excessive buoyancy of spirit which prevailed prior to 1873, and which was most pronounced in railroad circles, it has been foremost among the industries in sharing in the recovery of confidence that followed the resumption of specie payments. Thus in 1879 we built more miles of road than in any year since 1872, and more than ever before in our history if we except the four years ending with 1872. An important element, no doubt, in the construction of this new mileage was the low cost of materials. This year, though materials have been much dearer, there has been a further improvement, and, according to the Railroad Gazette, there had been laid up to the close of last week a total of 4,275 miles of track this year, against 2,619 miles for the corresponding period of last year.

In view of the disastrous ending to so many of the rail-

the more prominent ones, information about which was obtainable. The same remark applies to the 1872 exhibit which was taken from a single number of the CHRONICLE of that year. It should also be stated that in a few instances, in 1880, the bonds embraced are to cover mileage newly acquired but not newly built. Notably is this so in the case of the Louisville & Nashville, which has largely increased its indebtedness in this way.

The most striking point of difference is that while in 1872 construction was chiefly carried on by new organizations, this year the reverse is the case, and the new mileage is being mainly pushed by old and long-established companies, many of them dividend-paying. This is significant. An old company can usually bear longer any loss that may arise from the inability of a new line to meet its expenses and annual charges, thus diminishing the chances of a foreclosure of the property. Then it has large experience to guide it, and its own interests are in a measure involved. It is therefore less likely to build roads where they are not wanted, or where there is but little traffic to support them.

Another distinguishing feature of the present time is the avidity with which new issues are now taken up. But little advertising is done. The bonds are either taken privately by a few individuals interested in the corporation floating them, indicating great confidence on the part of those chiefly concerned, or are offered for subscription to the public and eagerly absorbed. In 1872 new loans were placed with difficulty, and large capitalists held aloof. Advertising on a most extensive scale was resorted to, and every other device was adopted to force the bonds on the market. The rates of interest were made high, and the price asked was usually low. At that time, to obtain par, or full face value, was rather an exceptional thing. Now par is the rule, and even a premium, on the best class of securities, is not infrequently paid. In 1872 the rate of interest was from 7 to 8 per cent. This year 7 is considered high, and only 6 is paid in the majority of instances. There is no better criterion of the character of a security than the value which it will bring in the market, and the rate of interest it bears. This test alone would be sufficient to show how great is the difference between now and 1872. In addition, the amount per mile is less now. Of course, the figure is not constant, and varies very considerably on different roads, but, on the whole, the total now is smaller. Eurthermore, it may not be amiss to call attention to the fact that where loans have been put on the market through the instrumentality of banking houses, they have been placed by firms of tried integrity, proven ability, and sound judgment. This can not be said of a great many loans brought out before the panic. In many cases those negotiating them have fared no better than the corporations whom they assisted, and their names no longer meet the eye. Following are the two tables.

road enterprises that had their inception in the years immediately preceding the crisis of 1873, it becomes interesting and important to note the points of similarity or of dissimilarity between that period and the present. While it is not possible to make a comparison in all respects, it is yet possible to compare the leading features in either period, and for this purpose an examination of the sort and character of the loans floated in 1872, the last full year before the collapse, and those floated in the present year, will be useful and instructive. Accordingly, we have prepared a table showing some of the principal companies that have placed new bonds on the market during 1880, giving the characteristics of each issue, and have annexed thereto a somewhat similar table published in the CHRONICLE in October, 1872. As regards the statements for 1880 it may be said that no attempt has been made to include all the roads prosecuting new work, but merely

and such prominent corporations as the Atchison Topeka & Santa Fe and Chicago Milwaukee & St. Paul, which have been foremost in issuing new obligations in exchange for the stocks and bonds of other roads purchased and leased by them, do not appear in these tables as heavy borrowers on newly-constructed road.

With regard to the section of country traversed, there is hardly less difference here than in other respects. In 1872 the roads building were chiefly, though not exclusively, east of the Mississippi river. Now they are mainly west of the Mississippi. This, however, is not the principal differ-The lines now projected have in view either the ence. formation of new through routes, or are intended as feeders For to old roads wishing to increase their business. instance, three new routes to the Pacific, passing through regions capable of large development, are in process of construction-namely, the Texas & Pacific, the Atlantic & Pacific, and the Northern Pacific. Several through routes to the City of Mexico are also among the schemes proposed. In illustration of the system of adding branches, the two small roads being built for the Burlington Cedar Rapids & Northern may be mentioned. On the other hand, in 1872, though there were a good many projects for extensions into new and unoccupied territory, there were not a few that provided for duplicate and triplicate lines in districts where not enough traffic could be found to support additional railroads, and where there was already considerable competiton. As a type of this latter class the roads in Illinois and Indiana may be cited.

Of all the companies that floated loans in 1872, as outlined in the table above, there are but two that survived the pressure of 1873 and subsequent years. All the rest went to default, sooner or later. This naturally suggests the question, will the outcome of the present work be the same? We think we have said enough to indicate that this is not likely to be the case. The conditions are so entirely dissimilar. As we have seen, the bonds this year have been placed upon much more favorable terms. What with lower rates of interest, a realization of nearly the full amount of the principal, and a lower rate per mile, the companies have much lighter burdens to bear. Then, too, we have but just entered upon a new era of prosperity. In 1872 we were well nigh at the end of our career of reckless speculation. Everything was carried to extremes, and nowhere was this more marked than in building railroads. We have not yet forgotten the sad lessons that five years of extreme depression taught us. A new generation has not yet grown up. We are still inclined to be cautious. It is possible we may again have a period of wild speculation and reckless undertakings, and again overshoot the mark, but unless all signs fail, that time is not yet. This, however, does not insure the investor against loss in individual enterprises. He will still have to exercise great care in placing his money, and he should sharply discriminate between schemes that are merely visionary and those that have a substantial basis in reason.

These tables group together in compact shape the principal loans offered for public subscription during the current year, and the principal loans which were on the market in October, 1872. It should be clearly understood that a complete and precise compilation of the bonds offered in either year is not attempted. Many other railroad bonds have been issued this year in large amounts,

### IMMIGRATION.

The returns of the Bureau of Statistics enable us to compare with previous years the figures for the past fiscal year representing one of the great factors in the development of this country, to-wit, immigration. The total immigration for the year was 457,257, against 177,826 in 1878-9-a most astonishing increase, and one without a parallel in the history of this movement. Prior to 1820 no official records were kept. For 1830 the figures were 23,322; in 1842 the number first passed 100,000; the largest prior to 1860 was 427,800, in 1854; after 1864 the tide, which had slackened during the war, rose again,

increasing with small irregularities up to 1872, which had 449,500, which was the maximum. Then from 1873, of course, the number fell off annually. It was 209,000 in the calendar year 1875; 169,986 in 1875-6; 141,857 in 1876-7; 138,469 in 1877-8; 177,826 in 1878-9; and 457,257 in 1879-80. Not only was there an unparalleled increase in the last over the previous year, but the number arriving in 1879-80 was the largest in the whole history of the country, with the exception of the *fiscal* year 1872-3, when the number was 459,803. As it is interesting to note the changes in the comparative movement from the different countries, we compile the following table, showing the number arriving from the principal countries during the last five fiscal years.

Most persons will note with surprise that England has for several years prior to the last sent more immigrants to this country than Ireland has; beyond this, there does not seem anything especially striking in the above contrasts, except that Chinese immigration, in 1876-77 almost insignificant in the great tide, has been According to some elaborate dwindling away since. tables published by one of the city journals, about 18 months ago, the percentages to the whole immigration, of the Irish and the German element therein, have been singularly equal since 1847. The Irish has ranged from 15.08 to 58.12 per cent; the German, from 24.10 to 56.66. This does not look like constancy, but these are the extremes; the averages for 30 years were 35.28 and 37.96 per cent.

The distribution of these people is a very interesting subject, upon which, outside of the census, very meagre data are procurable. The Bureau returns give only the number arriving from the several countries, by sexes and ages, and their avowed occupations. For the last quartercentury, the Commissioners of Emigration have kept a record of avowed destination of aliens arriving at Castle Garden, this city receiving about 70 per cent of all who come to the country, exclusive of the scattered ones who drift across its edges. Up to 1877 about  $3\frac{1}{2}$  millions had been questioned on this point, and, of course, the Middle States had received the largest share; but if New York and Pennsylvania are left out of the account, Illinois, Ohio and Wisconsin stand at the head, each one of the three leading Massachusetts. The following curious summary we extract from some figures published in 1877, representing, not arrivals of aliens, but their numbers in the country and their proportion to the entire white population.

accepted as quite matters of course. Such a human tide brings with it some twinges of political indigestion, and yet all attempts to transplant socialism and other troublesome "isms" of the Old World here, have been utterly futile hitherto. On the other hand, besides their labor, these people bring in actual hard money at a rate which was formerly estimated by the Castle Garden authorities at \$68 per head, and has been by some others estimated as high as \$100. If it be taken at \$50, for the sake of caution, the immigrants of 1879-80 should have brought, in aggregate, nearly 23 millions—an amount which may at present seem of no great account, but is more than the gross regular imports of the precious metals in 1878-9 and more than those of fourteen other years since 1859.

The reports of the Land Office give the number of acres of land disposed of for cash, under the Homestead and Timber-culture acts, and located with Agricultural College scrip and Military Bounty warrants, combined, in the several States and territories, during each of the eleven years ending June 30, 1879. From these returns we make the following comparison.

, · · ·	Number of	Number of Acres Disposed of in-					
	1877.	1878.	1879.				
Kansas	706,433	1,711,571	2,677,623

Washington	100,849	229,865	338,123				
Total	1,684,738	5,186,240	7,468,997				

These figures—which would doubtless be made still more remarkable in their contrasts by the returns for 1879-80, were those procurable at present-afford a hint as to the direction the emigration tide has been taking. Whatever doubts or fears may arise in the minds of some about the results to flow from the fact, the fact itself is settled that there is an enormous extension of the country northwestward, and an enormous development of graingrowing. The growth of the West, in population, productiveness, wealth, and manufactures-that is, of what was once called the West, but should perhaps now be called the middle section—is a subject which will form one of the many surprises of this year's census. However, the point of interest for which particularly we have gathered the figures of this article, is the bearing these facts have upon the present and prospective value of the railroads of the growing section. In that practical view immigration and its direction of movement is certainly a subject of great consequence to investors, and they may

It is, of course, nothing new to say that this enormous and continuous migration is something never before occurring in the history of the world, but this country has so many phenomena in its growth that such facts are

The very latest immigration statistics have just been received from the Bureau of Statistics, and furnish the following information in regard to arrivals at the principal ports of the country during the month ended September 30, 1880. There were 67,435 passengers, of whom 54,875 were immigrants, 8,464 citizens of the United States returned from abroad, and 4,096 aliens not intending to reside in the United States.

#### NOTES.

These tables are expressly intended to be used in connection with the information concerning Investment matters, published from week to

A description of U.S. Government Securities is published in the CHRONICLE each month, as soon as the official "Debt Statement" is issued. Prices of all active Stocks and Bonds are quoted weekly in the CHRONICLE, and a list of general quotations is published monthly.

The following will give explanations of each column of the tables below :

The following will give explanations of each column of the tables below :

The assessed value of property for 1880 is \$149,635,-805, and tax is limited to 6 mills. The interest tax alone was  $5^{1}_{2}$  mills before the constitutional amendment, and bondholders are trying to en-force its collection by suit. There is considerable overdue interest of the force its collection by suit. There is considerable overdue interest of the years 1874 to 1878 inclusive. A suit has been begun by the State of New Hampshire against Louisiana on her bonds. (V. 29, p. 18, 96, 277, 330, 358, 631; V. 30, p. 117, 493; V. 31, p. 88.)

State Line, 60 miles; total operated, 580 miles. This company was formed Feb. 12, 1868, by consolidation of the Col. & Ind. Cen. and Chic. & Gt. East. railroad companies, and was leased to the Pittsburg Cin. & St. Louis Railway Co. February 1, 1869, by whom it was operated during the last two years, under direction of the U. S. Circuit Court, for account of Receivers of the C. C. & I. C. Ry. The lease stipulated that the lessees should maintain the road and equipment, operate it, and pay over to the lessors 30 per cent of the gross earnings. Also, that the rental should always be equal to the inter-est on \$15,000,000 first mortgage bonds of the C. C. & I. C. Ry. Co., and \$821,000 of the second mortgage bonds of the Col. & Ind. RR. Co. The lessees also agree to pay the interest as it accrues on these bonds. Any net earnings remaining after the payment of this interest are to be applied to the payment of interest on the second mortgage 7 per cent bonds to the amount of \$10,000,000 (or on the preferred stock into which these last bonds may be converted), to pay to a sinking fund of one-half of one per cent on the \$15,821,000 referred to, and to apply any balance to dividends on common stock. In August, 1874, default was made on the \$5,000,000 seconds, and April 1, 1875, defaulted on first mortgage. In the suit between lessor and lessee, Judge Harlan decided the debt must be reduced to the limit—(See bondholders' report, V. 29, p. 656.) Pur-suant to this decision, the debt was substantially reduced as required, and the final decision of Justice Harlan in January, 1880, embraced the following: "That the Columbus Chicago & Indiana Central Company has performed its covenant of the lease in reducing the bonded indebtedness of the product that the Dependence in reducing the bonded indebtedness of the road; that the Pennsylvania Company (guarantor of the lease) is entitled to \$1,258,000 of convertible income bonds for the same amount of second mortgage bonds of the Columbus Chicago & Indiana Central Company, together with \$572,390 accrued interest; that on the 1st of January, 1880, there was due and unpaid, as rent, by the lessees, \$3,-356,855 97; but they are entitled to a total deduction of \$587,281 07, loaving the not amount due to the Columbus the rest. leaving the net amount due to the Columbus Chicago & Indiana Central \$2,769,574 90, save as of tenants accepted, and the trustees are entitled to receive 6 per cent interest thereon from January 1, 1880, till paid, but none before that date; that unless the amount is paid within sixty days from date the trustees to have execution against the Panhandle and Pennsylvania companies therefor; but the net earnings of the Columbus Chicago & Indiana Central Road for November and December last shall be credited on the judgment, as well as the sum of \$114,267 61, the earnings for the month of October. The payments by the lessees on the judgment shall be deposited in the Gallatin National Bank, and to the credit of James A. Roosevelt and William R. Fosdick, trustees, and the lessees shall be bound under the lease to pay to the said trustees and their successors, so long as their receivership shall last, as rental for the premises of the Columbus Chicago & Indiana Central, 30 per cent of the gross carnings of the road, and in case they fall short of \$1,107,470 (7 per cent interest on \$15,821,000 of bonded indebtedness) in any one year, then the deficiency shall be made good by the lessee. \* \* \* The lessee is entitled to receive from the Columbus Chicago & Indiana Central, on its claim for betterments, income bonds to the amount of \$660,000." From this decision the Pennsylvania Railroad appealed to the U.S. Supreme Court. The effect of the decision is considered in the New York Committee's circular, V. 30, p. 289. There is also on record a judgment for \$932,500 on \$298,000 Newcastle & Richmond RR., 1st mort. bonds, with interest, ahead of the consol. mortgage. and the coupons purchased, which advances, it is believed, will be returned to you by the first of next January from the net earnings of the road." In reference to the amended lease he says: "The proposed amendments withdraw from the Memphis & Charleston Railroad Company the right of canceling the lease so long as the East Tennessce Virginia & Georgia Railroad Company will supply any deficit in net earnings which may be necessary to meet the interest upon the coupons of the former company. And the East Tennessce Virginia & Georgia Railroad Company takes an engagement upon itself to supply this deficiency for a term of three years from the date of the proposed amendments to the lease. Under the provision of these amendments, the coupons of the Memphis & Charleston Railroad Company are to be bought and held by the East Tennessee Virginia & Georgia Railroad Co. as a subsisting lien and due indebtedness against the Memphis & Charleston Railroad Company. It will be optional with the East Tennessee Virginia & Georgia Railroad Company, after three years, to elect whether it will continue to buy the coupons or surrender the lease. But if it is the intention of your company to keep the property for the full term of the lease—say for eighteen years from the first of July last it is believed that it would be a wise policy to restore the physical condition of the Memphis & Charleston Railroad more rapidly than its carnings will provide for, by making temporary advances to that company, as you have a right to, under the lease." The stockholders in October, 1880, voted to increase the stock \$5,000,000 by selling to present stockholders 150 per cent on their holdings, at the price of \$30 per \$100 share. The Illinois Central was one of the first, and has been one of the most successful, of the land grant roads. The company has ac-quired a controlling interest in the Chicago St. Louis & New Orleans Railroad, to which it has made large advances, and owns \$1,600,000 of the first mortgage bonds, \$5,023,000 of the second mortgage bonds, and 61,000 shares of the stock. The Chicago & Spring-field Railroad was a reorganization of the Gilman Clinton & Springfield in 1877, and is leased to the Illinois Central and virtually owned by it. The annual report for 1879 says: "Comparing the net traffic with that of 1878, the increase is \$181,691. The net amount yielded in 1879 by the traffic was \$3,196,920, and the net receipts from land, above all ex-penses, amounted to \$102,572. In addition, the company received \$102,321 interest on its investment in bonds secured by the first mort-gage of the Chicago St. Louis & New Orleans Railroad Co. Thus the aggregate net income was \$3,401,815. The outlays for equipment, to-gether with other construction charges, aggregated \$386,016. Lake Shore & Michigan Southern.—Dec. 31, 1879, owned from Buffalo, N.Y., to Chicago, Ill., 540 miles; branches owned, 324 miles. Other lines owned as follows: Detroit Monroe & Toledo, 62 miles; Kalamazoo & White Figeon, 37 miles; Northern Central (Mich.), 61 miles; total, 160 miles. Koads leased are as follows: Kalamazoo Allegan & Gr. Rapids, 58 miles; Jamestown & Franklin, 51 miles; Mahoning Coal R., 43 miles; total, 152 miles. Total road owned, leased, and operated, 1,177 miles. This company was a consolidation of the Lake Shore Railroad and Michigan Southern & Northern Indiana Railroad May 27, 1869, and the Buffalo & Erie Railroad August 16, 1869. The consolidated line em-braces the former roads of the Cleveland & Toledo and the Cleveland Pairesville & Ashtabula railroads. Of the guaranteed stock, the claim for dividends between 1857 and 1863 has been settled on \$360,600, leaving \$172,900 still unsettled. Of the ordinary stock the company owns 2.679 shares (\$267,900), which appear among its assets in the balance sheet. The incomo account for the first half of 1850, on which the 4 per cent dividend was made, was as follows: Lake Shore & Michigan Southern .- Dec. 31, 1879, owned from Buffalo,

The first mortgage debt of the company was diminished from \$23,000,000 to \$22,750,000 in 1879 by the regular contribution of \$250,000 to the sinking fund, which now amounts to \$2,250,000 first mortgage bonds purchased and canceled. The second mortgage debt was increased \$665,000, which represents the cost of \$1,732,500 first mortgage bonds and \$1,384,700 of the capital stock of the Chicago & Canada Southern Railway Company. This purchase gives L. S. & M. S. control of Chicago & Cau. Southern. It extends from the Detroit River, at Grosse Isle, to Fayette, Ohio, a distance of 67 miles. From Fayette to Butler, an important station on the Air Line, and the castern terminus of the Eel River Bailroad a distance of only about 35 miles the road is of the Eel River Railroad, a distance of only about 35 miles, the road is graded. The last annual report is published in V. 30, p. 490, containing the tables below, showing the operations and the earnings of the road for a series of years :

Manhattan Beach.-This is a consolidation, Feb., 1880, of the New York & Manhattan Beach Railway Co., the Manhattan Beach Improve-ment Co. and the Marine Railway Co. The N. Y. & M. B. leases the New York Bay Ridge & Jamaica RR., and guarantees interest on its bonds and stock. Austin Corbin, President, 115 Broadway, New York City. (V. 30, p. 493.)

Manhattan Elevated.—This is a corporation formed to lease and operate the two elevated railroads in New York City. Its capital stock is \$13,-000,000, and it guarantees 6 per cent per annum on \$21,000,000 of bonds and 10 per cent on \$13,000,000 of stock of those companies before its own stock can receive anything. An arbitration for determining the basis of full consolidation of this and the two elevated roads was in

progress August, 1880. Mr. F. E. Worcester, Secretary of the Manhattan Railway Company, at the request of Mr. Cyrus W. Field, furnished the following statement of the business of the elevated roads for the fiscal year ending September 30. 1880, September being partly estimated. Passengers carried by each line during the year ended October 1, 1880: 4 796 770

Marquette Houghton & Ontonagon.—Dec. 31, 1879, owned from Mar-quette, Mich., to L'Anse, 63 miles; branches, 25 miles; total operated, 88 miles. This was a consolidation Aug. 22, 1872, of the Marq. & Ontonagon Railway and the Houghton & Ontonagon Railway. The company made default on its bends, and issued the present 6 per cent bonds in exchange for prior 8 per cent bonds. The stock is \$2,306,600 common and \$2,259,026 preferred. The lands amount to 425,000 acres, mostly tim-ber and mineral lands, and the freights of the company are mainly of iron one. One ations and carrings for several years have been as follows: iron ore. Operations and earnings for several years have been as follows:

Leased March, 1880, to Boston & Lowell for 25 years, at a rental of 25 per cent of gross earnings, and to be completed as specified by Nov. 1, 1881. (V. 30, p. 222, 248, 322, 650.)

Memphis & Charleston.—June 30, 1879. owned from Memphis to Stevenson, Ala., 272 miles; branches—to Somerville 14 miles, to Florence 5 miles, to Mississippi River 1 mile; total operated, 292 miles. This road was leased June 2, 1877, to the East Tennessee Vir-ginia & Georgia Railroad for twenty years from July 1, 1877. The lessees were to operate the road on their own account and apply the net earnings to interest and pay the balance, if any, to the lessors. The lease was terminable on 6 months' notice and was modified in December, 1879, the M. & C. Company giving up their, right to terminate the lease. lease was terminable on 6 months' notice and was modified in December, 1879, the M. & C. Company giving up their right to terminate the lease, and the lessees agreeing to buy the coupons for three years following in case the M. & C. carnings should be insufficient to pay them. Of the new consolidated mortgage, \$1,400,000 is secured by the old Tennessee State lien for \$1,736,906, assigned to a trustee, and a sufficient balance of this mortgage is reserved to take up first and second mortgages. The first mortgage bonds due May, 1880, were bought up, but not paid off. In March, 1880, 15,150 shares of stock held by city of Charleston were sold to Newell, Duncan & Co., of Nashville, at 38<sup>4</sup>2. Earnings for five years past were as follows: Years. Miles. Metropolitan Elevated.—Sept. 30, p. 192, 400.) Metropolitan Elevated.—Sept. 30, 1879, owned from Rector Street to 58th St., 4<sup>1</sup>2 miles, and from 6th Av. and 53d St. to 155th St., 5<sup>3</sup>4 miles; total operated, 10<sup>1</sup>4 miles. This was formerly known as the Gilbert Ele-vated Road, and is now leased, together with the New York Elevated, to the Manhattan Railway Company, at 10 per cent on the stock and in-terest on the bonds. Mr. Elnathan Sweet, Jr., an assistant of the State Engineer, made a report in January, 1880. He reported that the New York Loan & Improvement Company expended in the construction of the Metropolitan Elevated Railway up to September 30, 1879, the sum York Loan & Improvement Company expended in the construction of the Metropolitan Elevated Railway up to September 30, 1879, the sum of \$10,828,790. For \$6.500,000 of Manhattan stock, \$8,500,000 of the first mortgage bonds and \$6,500,000 of the stock of the Metropoli-tan Company, representing the whole property and the only lien upon it, Mr. Sweet comes to the conclusion that the New York Loan and Improvement Company paid \$9,639,142. The Vanderbilt party took possession in June, 1878. For the first half of 1880 the 4 per cent dividend was declared on an exhibit of \$4,463,000 gross carnings, \$1,573,000 net; interest and rentals, \$798,000; balance, \$775,000, of which the dividend of 4 per

Marietta & Cincinnati.-Dec. 31, 1879, owned from Cin. & Balt. Junction, O., to Main Line Junc., O., 157 miles; branches and extensions-Main Line Junction to Scott's Landing, 31 miles; Marietta to Belpre, 11 aniles; Portsmouth to Hamden, 55 miles; Blanchester to Hillsboro, 22 miles, 1 of smouth to frame, 55 miles, bhardnesster to finksoro, 22 miles; leased—Cin. & Balt. RR., 6 miles; Balt. Short-Line, 30 miles; total operated, 312 miles. The company made default on the fourth mort-gage bonds, and the road was placed in the hands of Mr. John King, Jr., of the Balt. & Ohio, June 27, 1877. The Marietta & Cin. Co. guaranteed the stock and bonds of the Baltimore Short-Line Railway, and when in default on its own bonds this rental of the Baltimore Short-Line and the rental of the Cincinnati & Baltimore Railroad were paid by order of the court, as the securities of these roads were mainly held by the Baltimore & Ohio Railroad. The bondholders of the Marietta & Cincinnati Co. & Ohio Railroad. The bondholders of the Marietta & Cincinnati Co. have complained bitterly against the policy of the Baltimore & Ohio Co. towards this road (see V. 29, p. 170). The coupons overdue on bonds, and condition of property, are referred to in V. 31, p. 229. The capital stock is as follows: First preferred, \$8,105,600; second pre-ferred, \$4,440,100; common, \$1,386,350. Very little information has been given in regard to the operations of the company since 1875; but in November, 1879, Mr. John King, Jr., Receiver, filed his special report covering the period of his receivership of that road—from June 20, 1877, to October 31, 1879, showing that the net earnings, after de-ducting taxes and rents during the period stated, were \$65,672. The suit for foreclosure drag slowly on. (V. 28, p. 401, 452; V. 29, p. 170, **608**; V. 30, p. 43, 169, 567, 589; V. 31, p. 95, 229.)

cent absorbed \$749,528. The most conspicuous feature in the company's later reports has been the loss of net income arising from the large decline in freight rates on through business. The last annual report was published in the CHRONICLE, V. 28, p. 473. The fiscal year of the company formerly ended with the month of May: in 1977 it was changed so as to end with the month of December, but in the comparisons here made between 1879, 1878 and 1877 the full year in each case is given to make the comparison a proper one:

In 1878-9 the company acquired the Hartf. Prov. & Fishk. RR. by the pay-ment of its bonds. The bonds of the new mortgage, issued in 1879, are to pay for the extension of the road to the Hudson Riv. In December, 1878, a contract of lease was made with the Boston Clinton Fitchburg & New Bedford for 999 years, the Old Colony to operate that road and pay as rental 10<sup>2</sup><sub>3</sub> per cent of the gross earnings of both roads. The Wollaston disaster cost the company \$348,453. The last annual report was in the CHRONICLE, V. 30, p. 15, in which it was stated: "The bonded debt of the company has been increased by the issue of \$300,000 of bonds, bearing six per cent inter-est, which were sold at a premium. The bills payable have been re-duced by the payment of notes amounting to \$203,640." At a special meeting of the stockholders held on January 31, 1879, the lease of the B. C. F. & N. B. RR. as negotiated by the directors was approved and confirmed. By this lease the length of the lines operated by the company has increased to 453.96 miles, the greatest number of miles operated by has increased to 453.96 miles, the greatest number of miles operated by any corporation in the Commonwealth. It is too early to determine exactly the benefits resulting from this lease. In the opinion of the directors its benefits are greater than were anticipated. The terms of the lease are fair, and were understood to be advantageous to both parties. Many of the stocks and bonds owned by the company in consequence of the general revival of business have largely appreciated in market value. But, notwithstanding this, the Board have charged against the profit and loss account a further reduction in the estimated value of doubtful securities, and, the report says, it is believed that they are now worth, at a fair appraisement, the full amount at which they are charged upon the books. Leased as a part of the main-line, Harrisburg & Lancaster Railroad, 54 miles; other leased roads and branches, 1,322 miles; total owned and leased, 1,806 miles. The operations of the Pennsylvania Railroad cover so large a field that a reference to the annual reports is necessary to give any adequate idea of its working and condition from year to year. The 5 per cent bonds of 1879 are issued to take up the first mortgage and Navy Yard bonds due January. 1881. An abstract of the latest report issued, that for 1879, was published in the CHRONICLE (V. 30, p. 244), showing surplus net income of \$1,797,191 after paying all charges and 4<sup>1</sup><sub>2</sub> per cent dividend. In 1879, on all lines east of Pittsburg and Erie, the gross earnings were \$2,983,544 over 1878 and net earnings \$624,978 over 1878. All the lines west of Pittsburg showed a surplus over all liabilities of \$1,526,817, being a gain of \$1,082,836 over 1878. The total cost of stocks and bonds of other companies owned by Penn-sylvania Railroad was \$65,481,682. A scheme to buy up the company's guaranteed securities with \$100,000 per month from earnings, and issue a 4 per cent scrip to stockholders for the cash so used, was adopted by stockholders on March 26, 1878, but not carried out till November, 1878, when it was started at \$50,000 per month. The entire amount paid by the company into the Trust up to the end of 1879 was \$700,000. There have been purchased for the fund securities of the par value of \$773,-100, which yield an interest of 7<sup>1</sup>4 per cent per annum upon the invest-ment. Terms of reorganization not yet known. Paul Wick, President, Youngstown, Ohio. Panama.—Aspinwall to Panama, 43 miles. Opened through January 28, 1855. This road had a practical monopoly of the California business till the opening of the Pacific Railroads in 1869. Another serious blow to its exclusive business was the establishment of the British steamship line from England to the West Coast of South America, around Cape Horn. The company, however, has paid large dividends. The report for 1879 was in V. 30, p. 381, and the operations and income account for three years were as follows:

Railroad and Delaware & Bound Brook Railroad, and at same time gave up the Perkiomen Railroad. (See terms of lease under names of those companies.) The Berks County RR. was purchased at foreclosure and paid for in bonds. The main business of this company has been the trans-portation of anthracite coal. The Philadelphia & Reading Coal & Iron Company is a corporation formed (Dec. 12, 1871) for the purpose of own-ing and working the extensive coal properties of this company. The Philadelphin & Reading RR. Company owns all the stock of the Coal & Iron Company, and the trustees of the general mortgage of 1874 hold the bonds of the Coal & Iron Company. Between 1870 and 1876 this corporation increased heavily its capital account in the purchase of new properties, and after paying 10 per cent dividends for many years ceased to pay after January, 1876. The company was unable to meet all its obliga-tions, and in March, 1877, holders of the general mortgage bonds and Periokmen guaranteed bonds agreed to take one-half their coupons for three years in 6 per cent scrip; and holders of convertible and debenture bonds to take 6 per cent scrip in payment of their coupons for five years. The scrip is convertible into income mortgage bonds. The scrip is convertible into income mortgage bonds.

The scrip is convertible into income mortgage bonds. In May, 1880, the company suspended payment, and on May 24 Franklin B. Gowen. Edwin M. Lewis and Stephen A. Caldwell were appointed Receivers of the railroad and coal companies. (See V. 30, p. 567.) Receivers' certificates for \$2,000,000 were issued, of which \$600,000 were paid by Oct. 25, 1830. At Phil.delphia, July 1, a bill was filed for the foreclosure of the general mortgage of 1874. Interest was paid only on the consolidated mortgage of 1871 and prior mort-gages. In September certain interest was paid on the coal land mort-gages at reduced rates, and Nov. 9 one-half of the July coupon on the general mortgage. and whole coupon of 6 per cent sterling scrip of 1877.

gages at reduced rates, and Nov. 9 one-half of the July coupon of the general mortgage, and whole coupon of 6 per cent sterling scrip of 1877. The report of the Receivers is given in V. 31, p. 63. The last annial report, published in the CHRONCLE, V. 39, p. 64, gave the condition Nov. 30, 1879, together with the estimate of the managers as to the company's prospects substantially as follows: ESTIMATE FOR 1880.

The following table shows a comparison between the actual results of 1879 and the managers' estimates for 1880. In the table for 1879 the total releipts, expenses and rentals of the North Pennsylvania Rail-road and the Delaware & Bonnd Brook Railroad for an entire year are included, in order to facilitate comparison with 1880:

The total gross tons of freight transported are 354,521 tons, as against 282,730 tons for the previous year; an increase of 71,791 tons, or 25.4 per cent. The mile tons for the year are 47,144,636, as against 33,350,176 for the previous year; an increase of 13,794,460, or 41.4 per cent. The total gross earnings from freight traffic are \$1,145,373, against \$956,634 for the previous year; an increase of \$188,739, or 19.7 per cent. Of this increase, about 75.7 per cent in earnings is derived from through freights, and is due in part to the improved facilities for handling this class of traffic which have been effected, but also largely to the satisfactory connections with the Charlotte Columbia & Augusta Railroad established in the fall of 1878, as reported to your last meeting, by which an addition to the freights of the Richmond & Danville Railroad have also yielded increased revenues of \$62,995; and passenger trains on all lines have produced increased earnings over last year of \$35,728, as shown above." It is believed that an early day will be appointed for the sale of the road, and that it will pass into the appointed for the sale of the road, and that it will pass into the hands of the Vanderbilt management. Rutland.-From Bellow's Falls, Vt., to Burlington, Vt., 120 miles. This *Rulland.*—From Bellow's Falls, Vt., to Burlington, Vt., 120 miles. This road has been through many changes. It was leased to the Central Ver-mont in December, 1870, for 20 years, but the lessee became insolvent, and finally a modification of the lease was made, giving \$250,000 per year as a minimum rental and \$8,000 for organization expenses. The bondholders agreed to accept 5 per cent bonds in exchange for equip-ments and 6 per cent bonds in lieu of 8 per cents. (See last annual report, V. 29, p. 145.) The common stock is \$2,480,600 and preferred \$4,000,000 (V 30 p.118; V 31 p.124, 153) \$4,000,000. (V 30, p. 118; V. 31, p. 124, 153.)

holders of the old land scrip of \$2,250,000; in June, 1880, a div. of 1212 p.c. was declared from proceeds of land sales. On the first mort. K.& N.bds. the first coupon is due July, 1881. The road is leased to Kansas Pacific, and thus to the Union Pacific, and 1s to be extended (as reported) to a junction with the Kansas Pacific at Agate, 66 miles east of Denver. In 1878 the gross earnings were \$641,391; operating expenses, &c., \$580,209. (V. 28, p. 351, 625; V. 29, p. 331, 670; V. 30, p. 93, 170.)

St. Louis Alton & Terre Haute-Main line from Terre Haute, Ind., to East St. Louis, 189 miles; branches, 19 miles; leased line-Belleville & Southern Illinois Railroad, 56 miles; total operated, 264 miles. This company was a reorganization, Feb. 18, 1861, of the Terre Haute Alton & St. Louis Railroad. The Belleville & Southern Illinois is leased to this company for 999 years from Oct. 1, 1866. The main line (St. L. Alton & Terre Haute) was leased June 1, 1867, for 99 years to the Indianapolis & St. Louis Railroad at a rental of 30 per cent of the gross earnings up to \$2,000,000, 25 per cent on the next \$1,000,000, and 20 per cent on all over \$3,000,000; but it was agreed that in no year should the rental be less than \$450,000. The lease was guaranteed by three other com-panies (See V. 26, p. 614 and 654). The lease was unprofitable and the solvent guarantors refused to pay more than their one-third of the de-ficiency, and a suit was begun, which is still pending. In 1879-80 the company recovered from the former purchasing committee, Messrs. Tilden, Butler, Sage and Bayard, \$400,000 for bon's retained by them at the time of reorganization. The Belleville Branch and Extension are operated separately by this company, and earned net in 1879, \$159,359. -(V. 27, p. 17, 140, 437, 454, 488, 603, 678; V. 28, p. **476**; V. 29, p. **436**, 658; V. 30, p. 170, **407**.)

St. Louis Hannibal & Keokuk.—From Hannibal, Mo., to Keokuk. This is a new road under construction. The bonds were offered in New York, March, 1880, at \$12,000 per mile. (V. 29, p. 539, 608.)

St. Louis Iron Mountain & Southern.—Line of road, St. Louis, Mo, to Texarkana, Texas Line, 490 miles; branch lines, Mineral Point, Mo., to Potesi, Mo., 4 miles; Bismarck, Mo., to Belmont, Mo., 120 miles; Poplar Bluff, Mo., to Bird's Point, Mo. (Cairo), 71 miles; total, 685 miles. This was a consolidation (May 6, 1874) of the St. Louis & Iron Mountain, the Arkansas Branch, the Cairo & Fulton and the Cairo Arkansas & Texas railroads. Finally a new compromise agreement was made Novem-ber 27, 1878, as reported in the CHRONICLE (V. 29, p. 43). By this the subscribing bondholders agreed to deposit with the Union Trust Company the funded interest certificates and unpaid coupons belonging to their mortgage bonds, and to receive in exchange therefor first preferred income bonds, bearing 7 per cent interest, payable annually on March 1 out of the net surplus income of the preceding calendar year (interest accumulative). The interest certificates and coupons for which they are issued are not to be certificates and coupons for which they are issued are not to be canceled, but held as security for the execution of the agreement as specially provided. The subscribing bondholders who hold consolidated mortgage bonds agree to deposit them with the Union Trust Co., and to receive in exchange therefor second preferred income bonds, and to receive in exchange therefor second preferred income bolds, bearing 6 per cent interest, payable annually out of the net surplus in-come remaining after the payment of all interest due on the first pre-ferred income bonds, and accumulative. The consolidated mortgage bonds are not to be canceled, but kept as security for the execution of the agreement as specially provided. The subscribing stockholders agreed to transfer their stock to the trustees, who should have the abso-part of the trustees and the payment of the subscribing stockholders. agreed to transfer their stock to the trustees, who should have the abso-lute right to vote upon the same. In March, 1880, the managers put an end to the stock trust by obtaining the consent of the bondholders, promising to pay interest on both first and second incomes: but inter-est on the seconds was not paid until Oct. 12, 1880, when 7<sup>1</sup>/<sub>2</sub> per cent was paid for the fifteen months up to Jan. 1, 1880. In October, 1880, at 500 000 more stackers incred to pay for the Detable PP \$1,500,000 new stock was issued to pay for Memphis & Little Rock RR. stock and bonds. This company was organized September 20, 1876, as successor to the Atlantic & Pacific Railroad. The latter was chartered by act of Congress July 27, 1866, and embraced the South Pacific Railroad (originally the Southwest Branch of the Pacific Railroad of Missouri), which was consolidated with the Atlantic & Pacific Railroad October 25, 1870. The South Pacific Railroad had a grant of lands by act of Congress July 25, of 1,161,205 acres. The Atlantic & Pacific received about 500,000 acres of land. The South Pacific lands showed 617,909 acres on hand January 1, 1879. Atlantic & Pacific lands showed 294,286 acres on hand at same date, and for these lands (A. & P.) the second mortgage bonds, class B, are receivable in payment. On January 31, 1880, an agreement was made with the Atchison Topeka & Santa Fe for construction of a through line to the Pacific coast on the parallel from Albuquerque, on the Rio Grande, to San Francisco. The road is to cost \$25,000,000, and to be known as the Atlantic & Pacific Railway. Three trustees—John A. Stewart, of the U. S. Trust Company, Warren Sawyer and H. P. Kidder, of Boston—are appointed to hold the stock in trust. The voting power is to be vested in six directors of each road. The old companies are to preserve their separate organizations, and the gains of traffic on the extension are to be divided in equal proportions. The two companies divide the issue of bonds (\$25,000,000]. The cost of the first division will be about \$12,500,000. Stockholders in the Atch. & Santa Fe and St. L. & S. F. companies will

the first mortgage bonds of the roads named pledged with the trustees. The excess of interest collected on hypothecated bonds—say \$22,000 per year—forms a sinking fund to reduce the principal. The Kansas Pacific extends from Kansas City, Mo., to Denver, Col., 639 miles, with Leavenworth Branch, Lawrence to Leavenworth, 34 miles. It was organized as "Leavenworth Pawnee & Western" in 1861, then changed to "Union Pacific, Eastern Division," June 6, 1863, and to "Kansas Pacific" on March 3, 1869. The Pacific Railroad acts of 1862 and 1864 applied to this road, and gave it a subsidy of \$6,303,000 and a land grant of about 6,000,000 acres. The lands mortgaged were put in two trusts, 2,000,000 aeres in the first, from the first to the 380th mile westward. covered by the first and second land mortgages, and from sales two trusts, 2,000,000 acres in the first, from the first to the 380th mile westward, covered by the first and second land mortgages, and from sales of these lands there are \$1,095,679 land notes held. The 3,000,000 acres in the second grant, from the 380th mile westward, are covered by the Denver Division mortgage. The second land grant mortgage, with various other bonds, are taken up with the general consolidated mortgage of May 1, 1879, which covers road and lands, and the trustees of that mortgage (Jay Gould and Russell Sage) made a full statement in July, 1880, regarding the bonds retired and the security held for this mortgage. (See CHRONICLE of August 28, 1880, p. 230.) In funding other bonds into the consolidated mortgage, the old Kansas Pacific securities are exchanged at par, except as follows: The "funding mortgage" bonds get nothing for 5 over-due coupons; Leavenworth branch and unstamped incomes at 50 per cent and nothing for over-due branch and unstamped incomes at 50 per cent and nothing for over-due interest; stamped incomes at 30 per cent; second land grant at 50 per cent. The interest on Denver Extension bonds (sevens due May 1, 1899) was reduced to 6 per cent. Kansas Pacific operations and earn-ings for four years past were as follows:

Washington City Va. Midland & Great Southern.-Line of road, Alexandria, Va., to Danville, N. C., 238<sup>1</sup>2 miles. Branches-Manassas Junc-tion to Strasburg, 63 miles; Warrenton Junction to Warrenton, 8<sup>1</sup>2 miles; Strasburg to Harrisonburg (leased to B. & O.), 49 miles; total of all lines, 359 miles. A consolidation (November, 1872) of the Orange Alexandria & Manassas and Lynch'g & Danville railroads. The Orange Alex-andria & Manassas was a consolidation (June 1, 1867) of the Orange & Alexandria and the Manassas Gap. Between Gordonsville & Charlottes-ville, 22 miles, the Chesapeake & Ohio Roàd is used for a rental of \$30,000. The company was put into the hands of a receiver July 1, 1876; interest being in default, and was sold in foreclosure May 13, 1880. The Baltimore & Ohio has large claims against the company for coupons, etc.; but a plan of reorganization is in progress which will be agreed to by all interests. This proposes: The interest on the first and second Orange & Alexandria from July 1, 1879, to July 1, 1880, is to be funded in the new bonds to be issued. Interest on the third Orange & Alexan-dria is 6 per cent after the expiration of five years. The interest on the fourth Orange & Alexandria bonds is to be 3 per cent for the first ten years, 4 per cent for the next ten years, and 5 per cent for the remain-ing twenty years. The mortgage to be made to secure the new bonds, issued in lieu of the Orange Alexandria & Manassas and Manassas Gap bonds, is to cover all the interest of the new company in the lease of the road from Strausburg to Harrisonburg, made by the Baltimore & Ohio Railroad Company, thus pledging the rental of that road to the payment of the interest upon this class of new bonds. The interest upon the new bonds issued in lieu of the Lynchburg & Danville bonds is at the rate of 4 per cent for eight years. The common and preferred stock payment of the interest upon this class of new bonds. The interest upon the new bonds issued in lieu of the Lynchburg & Danville bonds is at the rate of 4 per cent for eight years. The common and preferred stock of the companies is to be represented by stock of the new company upon a basis of \$100 stock of the new for \$500 stock of the old com-panies. The new road to be constructed by the Charlottesville & Rapi-dan Railroad Company, from Charlottesville to Orange Court House, is to be covered by all the mortgages except the mortgages to secure the new bonds issued in lieu of the Lynchburg & Danville bonds. The new company is to assume the lease of the Franklin & Pittsylvania Railroad Company, and all interest in the lease is to be covered by a mortgage made to secure the new bonds issued in place of the Lynchburg & Dan-ville bonds. The trustees are authorized to borrow such sums of money as may be needed for the purchase of the road and the other purposes of ville bonds. The trustees are authorized to borrow such sums of money as may be needed for the purchase of the road and the other purposes of the trust upon the credit of the property which they purchase. Vacancies in the board are to be filled by the trustees. A full statement of the company's liabilities and earnings was given in the CHRONICLE of January 18, 1879 (V. 28, p. 70), which contained the following state-ment of the earnings and expenses and the interest charge for which each section was primarily liable:

The company was largely assisted by the city of Baltimore, and was unable to pay all its interest. A com-promise was made with the preferred second mortgage bondholders for funding coupons. See CHRONICLE, Vol. 29, p. 458, where the last annual report is published, which contained the following interesting information: "During the year an amicable adjustment has been made with the pre-ferred 2d mortgage bondholders, by the adoption of a mutually satisfac-tory funding scheme. Under this arrangement, the overdue coupons upon \$390,000 of the \$421,500 of these bonds held by individuals have been funded, and it is expected the balance, principally held in Carroll county, will be funded by Jan. 1, the time at which the company has agreed to resume the payment of interest upon all such bonds represent ed in the funding certificates. The finance commissioners of Baltimor city have funded \$113,475 first mortgage and \$112,455 preferred second mortgage coupons. The old funding certificates for \$177,596 of first and preferred second mortgage coupons issued in 1870, and bearing 8 per cent. The arrearage of interest due the city on the \$72,000 first mortgage coupons, purchased in 1874, will be provided for by in-stallments as early as practicable. Once able to pay the interst upon its first and preferred second mortgage bonds and funding certificates, with the arrears above mentioned disposed of, all the other bonds being en-dorsed by Baltimore city and Washington county, the company will be relieved of the expensive litigations and the uncertainties which have harassed it from its inceptien to the present time, and the day for such a ch a

American Union Telegraph.-This company, organized in 1879 under American Union Telegraph.—This company, organized in 1879 under the auspices of Mr. Jay Gould and associates, is making sharp oppo-sition to the Western Union. It is supposed to be started upon the theory that a company with lines to main cities only, with compara-tively few offices and small capitalization, can make such opposition to the Western Union as to compel that company to buy it out at last. It is built by a construction company. In September, 1880, the stock was placed on the N. Y. Stock Exchange List, and for the statement then made see V. 31. p. 327. In July, 1879, about \$300,000 worth of stock, out of a capital of \$1,000,000, of the Dominion Telegraph Co. of Canada, was purchased by the American Union Company, and in connection therewith a lease was taken of the lines and property of the Dominion Company for a term of 99 years. This connection gives an additional Company for a term of 99 years. This connection gives an additional 12,000 miles of wire to the control of the American Union Company, and includes the contract of the Dominion Company for exchange of busi-ness with the Direct United States Cable Company, whose cable extends from Tar Bay, Nova Scotia, to Ireland. The American Union Company has, in addition, concluded a twenty years' contract for exclusive ex-change of business with Le Compagnie Francaise du Telegraph de Paris a New York, whese new cable was landed upon the shores of Cape Cod, near North Eastham, Mass. This cable extends from Cape Cod to St Pierre Mignelon and from thence to Brost France from Cod to St. Pierre, Miguelon, and from thence to Brest, France, from which point a cable connects with Penzance, on Land's End, England." -(V. 29, p. 17, 461, 630; V. 30, p. 66, 90, 410, 568, 600; V. 31, p. 121, 258, 306, 327, 359, 383.)

The property embraces an area contained within the surface lines of a parallelogram 1,200 by 1,500 feet, situated on the southern slope of Bodie Bluff, in the Bodie mining district, Mono County, California. Title, United States patent. Improvements consist of a 20-stamp steam pan-mill of 60-ton capacity, valued at \$100,000. Also a half interest in the Bulwer Standard Mill, completed in January, 1880, at a cost of about \$150,000. This is a 30-stamp mill of 90-ton capacity, giving the Standard Company, with their own mill, a reduction capacity of over 100 tons per day. There are two sets of steam hoisting works, one costing \$5,000 and the other something over \$100,000. The total number of tons of ore extracted and reduced up to Jan. 1, 1880, was 56,000, the yield from which being \$3,360,000, all with the exception of about \$200,000 being in gold; the ore averages \$60 per ton. Cost of mining, \$7; milling, \$5 per ton. The average monthly product recently has been \$130,000. Of the total product of the mine stockholders had received in dividends to January 1, 1880, \$2,017,776.
