 WILLIAM E. DANA, { ON FIFTCE BOX 4592.

THE FINANCIAL SITUATION.

The Wall Street markets have been comparatively quiet this week. No disturbing influence is to be recorded, but a feeling of incertitude exists while awaiting developments. This condition is due in part to the fact that the snow embargo in the Northwest has to a considerable extent continued interfering with railroad traffic, and in part also to ignorance with regard to the course the Government is to pursue both as to bond purchases and as to calling Congress together.

Considerable disappointment was felt on account of the failure of Secretary Windom to issue any new call for bonds. It was assumed that because Mr. Windom bought \$5,000,000 6s last weck, paying therefor a fair market price, he would continue these weekly purchases, and moreover would confine them to the 6s of 1881. It is to be remarked, however, that last week's purchase was simply a carrying out of an order issued by Mr. Sherman, and did not thereby commit the present Secretary to any special policy. The omission, though, was evidently disappointing to speculators. Money is now comparatively casy, but the fear is that this ease will not continuc unless Treasury purchases of bonds are resumed, and some degree of apprchension is felt lest towards the close of the

month, when the customary drain of money to the interior sets in, it may unfavorably affect the reserves of the banks.

There have been various rumors but no new facts regarding the financial policy of the present Administration. There was a report early in the week that pressure had been brought to bear in certain political quarters to induce the President to call an extra session of Congress, ostensibly for the purpose of securing the passage of a refunding bill. On Wednesday it was reported that the question of an extra session would be discussed at a Cabinet meeting to be held on Friday, and a few of our bankers went to Washington and had a conference with the President and Secretary Windom, respecting the financial situation. This conference, it was understood, was held for the purpose of giving the President and Cabinent such information as would enable them to decide upon the necessity for an extra scssion. The rcsult was not known at the close of the market to-day, but an announcement of the decision of the Cabinet cannot long be delayed.

The impression has obtained that if it is dctermined to have no extra session of Congress the Sccrctary of the Treasury will immediately decide what course he will pursue with respect to the unissued bonds authorized by the Refunding act of 1870. The amount of these bonds was stated in Secretary Sherman's last report at \$104,652,-200 four per cents. In this report Mr. Sherman referred to the "existing law" under which these bonds could be sold for the purpose of obtaining funds with which to partly pay off the redeemable bonds. This "existing law" is the act of January 25, 1879-(See CHRONIELE, February 1, 1879, page 114)-which when passed was for the purpose of covering only the redemption of bonds then redeemable, the object of Congress being to provide for the redemption of the 10-40s and the loan of 1858, amcunting to over \$200,000,000. But it is elaimed now that the expression in that act, making the refunding acts apply "to any "bonds * * which may be redeemable," ean be construed as meaning bonds "which may hereafter become redcem-"ablc," and, thus interpreted, the provisions of the abovenamed act, are made to apply to the 5s and 6s which are now redecmable. The amount, \$104,652,200, claimed by Mr. Sherman as authorized but unissued, is the difference between the \$1,395,347,800 of the funded loan issued and the \$1,500,000,000 authorized, and if the sale is dctermincd upon it may be regarded as a wiser policy to sell this amount of 41s, which are redeemable in 1891, rather than 4s, which are due in 1907. This question of authority is, however, of importance, not only to the Government but to holders of and dealers in bonds; and, while a prompt decision is desirable, the elaim made by Mr. Sherman should be thoroughly examined before concurred in, for

certainly it is not in accordance with the intent of the legislators, and apparently not in accordance with the letter of the law.

There has been a good supply of moncy on the Stock Exchange. While the banks have not been very liberal, private capitalists have loaned freely. The demand from the interior for currency has been a little more urgent this weck, but the shipments are still moderate, as may be seen from our statement below. The short interest in the stock market lessens the demand for call loans, and there appears to be a steady supply from brokers who, a month or more ago, borrowed money on time for the purpose of tiding over the usual period of stringency in the spring, and are now loaning it out in the market.

Another source of relief to the money market has been the movement of gold from Europe, although the arrivals have not been large. The cable reports withdrawals from the Bank of England, for shipment hither, of £274,000 on Monday, £75,000 on Wednesday, and £249,. 000 yesterday. This makes, with other shipments still afloat, about \$4,000,000 now in transit. On Wednesday \$590,000 arrived, which, with the arrivals of last week, makes about \$2,100,000 since the late stringency in our money market began. The Bank of England lost £220,000 bullion this week, while the Bank of France gained 20,375,000 francs gold, and 12,500,000 francs silver. These late accumulations of gold and silver by the Bank of France are at the branches, Paris losing all the time by export to Great Britain, &c. These accumulations at the branches are explained as payments by the receivers.general of taxes. The following shows the amount of bullion in each of the principal European banks this week and at the corresponding date last year.

In foreign exchange the market was active early in the week, and the rates were advanced on Monday and Tues. day; but when the demand developed a supply of bills the inquiry ceased, and the rates fell off and the market became dull. It is claimed that the foreign markets are now pretty well supplied with our securities, and that there is very little outward movement. And yet there is still a margin for profit in cable transactions, as will be seen by the following table, showing relative prices in London and New York at the opening each day.

A Reading on basis of \$50, par value. Norz.-The New York equivalent is based upon the highest rate for eable transfers, which ordinarily covers nearly all charges, such as interest, insurance and commissions.

The Treasury operations this week show a loss, which is a gain to the banks, of \$480,119. Adding this amount to the \$2,811,469 lost by the Treasury last Friday, leaves as the net gain to the banks \$3,291,588. The net loss by the Treasury yesterday was \$1,070,169. Last week's it is really granting one. And all for what? Because

bank statement was doubtless made up on rising averages, and the return to morrow should be a little more favorable. The \$600,000 foreign gold received by the Assay Office on Monday was settled for on Thursday.

The following shows the gold and currency movement by the leading banks during the week.

	Received.	Shipped.

the week for deposit in the vault.

THE UNITED STATES AND THE SILVER CONFERENCE.

The latest developments with regard to the Silver Conference to be held at Paris on the 19th of April, are by no means so encouraging as the earlier announcements. First reports made it a European proposition wholly, with France the mover, Germany heartily in accord, and Great Britain encouraging. Now it appears that France did take the initiative, but America quickly and eagerly became associated with her, and the invitation is going out to European Courts from these two Powers, while England and Germany are not even willing to receive it unless modified so as to mean nothing.

Is not this, under existing circumstances, an aggravating if not a humiliating position for the United States to accept? What special interest have we anyway in this silver question? Our merchandise exports are running now nearly, if not quite, nine hundred million dollars a year, and two hundred and fifty million dollars more than our imports. For all these productions the world must give us gold or its equivalent. As a consequence, we are drawing down the gold reserves of Europe with alarming rapidity, and they are replenishing them if at all only from their active currency. The French Government, for instance, is now putting into the Bank of France the gold received for taxes, and will probably pay out silver while that country is exporting gold largely to Great Britain and Spain. Germany is only nominally on a gold basis, being on the verge of suspension a few months since, and needs at least 100 million dollars more of gold to make her position safe. England really holds the only available gold reserve outside of the United States, and her entire commerce is paralyzed by this fear of losing it.

Under such conditions as these, and after two repulses, the United States joins in a third invitation to Europe, virtually saying come now, graciously encourage us a little, and we will so throw ourselves into the breach as to enable you hereafter to pay us for our exports silver instead of gold, and thus relieve the strain on your gold reserves. Surely this gives evidence of great benevolence on our part-a turning of the left cheek after the right had been smitten. But superfluous amiability is never appreciated. In reply, Germany, instead of heartily accepting, first pouts a little, then sounds England, and finally announces that "Prince Bismarck is emphatically in favor "of the maintenance of the status quo;" and England points over her gray locks at her traditional policy and says we will come, but you must take our acceptance as meaning nothing.

So the United States, the only commercial nation in the world that can profit, and that most decidedly, by sitting still and letting natural laws work out the cure they are so rapidly effecting, puts itself in the attitude of a suppliant already twice repulsed, asking for a favor where

MARCH 19, 1881.]

a certain number of our people—and apparently among them our ex-Secretary of Stato, judging from his instructions to the first commission and his action now—think it of great importance that silver being a production of the eountry, should be raised to its old price. How absurdly trivial such reasoning appears when we remember that the whole difference in the value of a year's yield of our silver mines between 52d. the present price, and 60d. the old price, is only about 6 millions of dollars—a little less than two days' merchandise exports of the country !

But as the Conference is called, and will, we suppose, meet, these strictures have no special value except as they suggest the real position the United States holds on this question and the only policy our commissioners will find it wise to adopt. It is to be regretted that we have not among our representatives a practical, shrewd, well-informed merchant, one familiar with commerce and its workings, like Daniel Webster's representative, Abbot Lawrence, who could add experience to learning and diplomacy-for this is peculiarly a commercial question. Yet if we must in these days be confined in our selection for this and similar missions to lawyers, it is matter for congratulation that men of such prominence in the profession, and so well and widely known, have been selected. We only wish that they would all of them in the start be fully persuaded that the United States is less interested than any nation in the world in a speedy settlement of this question. An undoubting consciousness of this fact will give them a certain indifference to results which is necessary for greatest influence. Of course our people are interested in the re-instatement of silver. We know that the commerce of the world needs the two metals for its use, and can never be free to expand so long as it is under the thralldom of this fear of losing gold. But as other nations need that far more than we, do not let us try to help them out of their difficulty until they are ready to help themselves.

And this brings us to the important point in this discussion. We find it clearly stated by a recent correspondent of the Boston Advertiser. He says: "It is one thing to "hold the old relation (of silver to gold, 151 to 1) while it "was unquestioned in all practical affairs, and quite a dif-" ferent thing to restore that relation after it has been broken "under all the distrust that was bred of that catastrophe." This in substance may be interpreted as meaning that although France and the United States, with other minor countries, might have prevented what has happened, it will require the co-operation of England and Germany to fully efface the distrust which long disuse and consequent depreciation has bred. The slightest discredit to silver will lead to a premium on, and consequently a discrimination in favor of, gold. England and Germany-especially the former, as having the largest interest of any nation in the question-by throwing out silver, would inevitably impart that discredit. This could only lead to every one's gathering the cheaper mctal to pay its debts with to the bi-metallic nations. We, as one of them, would receive silver for any balances due us. On the other hand, England and Germany being on a gold basis, would only accept gold or its equivalent from us in payment of what we bought of them.

Be assured the United States will never put itself into any such position as that. If the commercial nations of Europe want bi-metallism enough to adopt it now, they can have the help of this country's concurrence in attaining it. Otherwise our people feel perfectly contented to let the "status quo be maintained." We do not see anything very embarrassing to us or to our finances in receiving 70 millions of gold a year from Europe.

MR. GOULD AND THE BALTIMORE & OHIO. The failure of the syndicate, of which without doubt Mr. Gould was the moving spirit, to get possession of the Philadelphia Wilmington & Baltimore, calls attention anew to the various schemes which that gentleman has afoot or in preparation. That he is endeavoring to obtain control of the entire trade of the West and Southwest, by buying up the leading lines in those sections, is by this time too patent to need any demonstration. His success is also sufficiently clear, for west of St. Louis and Kansas. City his combination of roads has now virtually no eompetitor worthy to be called such except the Atchison Topeka & Santa Fe.

But it is obvious that Mr. Gould seeks to have under his own management eastern outlets to tho sea for the large traffic these Western and Southwestern roads command. The Southwestern lines terminate at St. Louis. The Western lines—Union Pacific, Kansas Pacific, &c., we mean—have their termini at points on the Missouri River, from Kansas City to Omaha. The Wabash extends these systems to Chicago, Toledo and Detroit. For points further east, the lines of other companies have hitherto been used. To avoid this in future, efforts have of late been, and are now being made, to secure an Eastern system.

The move last August in the formation of the New York Lackawanna & Western, to build a line from Binghamton to Buffalo, to be used in connection with the Delaware Lackawanna & Western, was apparently a first step in that direction. At Buffalo connection was to be made with the Great Western of Canada, which, extending to Detroit, would unite the new line with the Wabash and the other Gould roads. Little has since been heard about the affair, although it is claimed that work is being prosecuted on the line, and the admission of Mr. Gould and his friends into the directory of the Delaware Lackawanna & Western, would appear to give point to the claim. If the line be built, of course he will be independent of all other lines, except the Great Western, in carrying his goods to New York. But, whether it is to be built or not, his ambition does not seem to be satisfied, if our interpretation of recent purchases be correct.

As is well known, Mr. Gould has recently bought the Central of New Jersey. What was his object in doing this? The formation of a new through line, we are told. In what way? Why, by means of the Catawissa, the Philadelphia & Erie, the Allegheny Valley, and the construction of 70 miles of new road to connect the latter with the Atlantic & Great Western, is the ready response. Now to the unsophisticated in railroad affairs this may seem a very plausible explanation, but anybody that pretends to any knowledge at all about railroads knows that the Philadelphia & Erie and the Allegheny Valley are controlled by the Pennsylvania, and that that company is not likely to turn them over to another company whose avowed purpose it is to start an opposition line. If the intention was to throw the public off the track, would it not have been much better to have said that when the new Lackawanna route to Buffalo is completed, the pressure of traffic on the lower part of the Delaware Lackawanna & Western will become so severe that the Central of New. Jersey would have to take a part of that road's coal business to relieve it of its excessive burden?

Then, what is the reason for Mr. Gould's anxiety to get a foothold in the Philadelphia Wilmington & Baltimore? It is known that the Baltimore & Ohio desired a line of its own to New York, but what was that to Mr. Gould? How will we account for the interest taken by him in the matter? How would the control of the Philadelphia Wil-

[VOL. XXXH.

mington & Baltimore benefit him? What purpose was the road to serve in the hands of the Baltimore & Ohio which was not served with the road in the old hands? The Wilmington & Baltimore took no sides, we believe, in the controversy between the Pennsylvania and the Baltimore & Ohio, the road being open to both parties. The difficulty met with by the latter was on account of the Junction Road, a small road running through Philadelphia, which, notwithstanding the intervention of the courts, the Pennsylvania people were able to operate in a way that worked to the disadvantage of the Baltimore & Ohio. To be sure, there was a possibility that the Wilmington & Baltimore might pass into the hands of the Pennsylvania, and the Baltimore & Ohio be shut out from Philadelphia as well as New York, but this was really of no moment whatever to Mr. Gould, who had apparently nothing at stake. Of course, after having obtained possession of the Central of New Jersey, Mr. Gould, by reason of the connection of the latter with the Bound Brook route to Philadelphia, might feel concerned in keeping the Wilmington & Baltimore out of the hands of the Pennsylvania, but his solieitude on this seore would hardly be sufficient in itself to justify him in seeking control of that road, nor would it account for the purchase of the Central of New Jersey in the first instance.

Why, too, did the Gould party seek possession of the Atlantie Mississippi & Ohio? The efforts made to redeem the road, before the foreelosure sale, are believed to have been made on behalf of Gould, who, it is supposed, had an understanding or was working in conjunction with the East Tennessce Virginia & Georgia people. Is it likely that he would want a piece of road like this, entirely diseonnected from his other roads, unless he had some ulterior purpose in view?

But can we not in some way unravel the mystery? Is there not missing a part which ean be supplied and into which all the other parts will fit with perfect exactness and nieety? Does not the Baltimore & Ohio itself furnish the solution? Mr. Gould wants outlets to the sea. The Baltimore & Ohio runs to Baltimore, and in conncetion with the Philadelphia Wilmington & Baltimore and the Central of New Jersey would also have given outlets to Philadelphia and New York. What other trunk line is there which would at the same time reach the three great eities on the Atlantic eoast? The Baltimore & Ohio controls the Marietta & Cincinnati, which extends its line to Cincinnati, and also controls the Ohio & Mississippi, which further extends the line to St. Louis, giving, indced, almost an air line to the latter eity. Since Mr. Gould's Southwestern lines all terminate at St. Louis, what better route to the sea could he wish for than that furnished by the Baltimore & Ohio? Besides reaching St. Louis, that road also has a line to Chicago. Were he to acquire the Baltimore & Ohio he would have, without constructing a single additional mile of road, a route from ocean to ocean. The Union Pacific would carry him as far as Omaha, the Wabash to St. Louis, and the Baltimore & Ohio to Baltimore. If for the Western business this route were too far south, then the Lackawanna route might answer, or perhaps by the purchase of the necessary links another through route might be formed intermediate between the two.

In connection with the Baltimore & Ohio, therefore, the Central of New Jersey and the Philadelphia Wilmington & Baltimore would be very valuable acquisitions. And in connection with the same road the Atlantie Mississippi & Ohio would be second only in importance to the other acquisitions. The entire value of that line does not by any means lie in its furnishing an outlet to Norfolk. It 1,300 miles more (embracing the Marietta & Cincinnati, connects at Lynchburg, Va., with the Washington City Vir. Ohio & Mississippi, and Washington City Virginia Midland.

ginia Midland & Great Southern, in which the Baltimore & Ohio is largely intcrested, and with these two roads forms a very direct route to Washington, Baltimore, Philadelphia, and New York, from points in the South. At its southern extremity, Bristol, it connects with the East Tennessce Virginia & Georgia, the managers of which, as already remarked, are supposed to be not inimical to the Gould interest. Nevertheless, should any difficulty be experienced in this quarter, it could be removed by buying the road outright, which would not be a very costly undertaking, as the stock amounts to only \$5,000,000 altogether, and sells below par. While the present owners might feel indisposed to sell under ordinary circumstances, yet if a tempting offer were made they might, perhaps, be induced to part with their interest in the enterprise. From Bristol the East Tennessee line practically extends to Memphis, as the Memphis & Charleston is operated in the same interest, being leased to the East Tennessee. At Memphis connection could be made with the Memphis & Little Rock, owned by Iron Mountain people, and the Iron Mountain would carry the line into Texas, thus forming another through route between the Southwest and the occan. The East Tennessee also owns the Selma Rome & Dalton, which extends its system to Selma. From Selma the Alabama Central, the Vieksburg & Meridian, and the Vieksburg Shreveport & Texas, form a line to Monroe, La. These latter roads could probably be had for the asking, or at any rate very cheaply. From Monroe there is a gap to Shreveport not yet supplied with a railroad, but this piece will have to be built sooner or later. and then there would be still another Southern through line to Texas. All this is on the supposition that Mr. Gould would get the Baltimore & Ohio.

We have thus far confined ourselves to the advantages that would present themselves to the mind of one desiring to form a comprehensive system of roads. There is another aspect which would make upon Mr. Gould no doubt an even more striking impression-we refer to the financial aspect. As he wants an Eastern trunk line, he might open negotiations with any of the existing lines. New . York Central would be very desirable, but with stock amounting to \$90,000,000, and the market price near 150, a majority interest would cost a snug little sum. Pennsylvania, if it could be had, would be scareely less costly. Erie, with 77 millions of stock, selling at a little lcss than 50, could be got cheaper, but would hardly be the thing, as by the terms of the scheme under which the road was reorganized the Trustees in London retain the power to vote on one half the stock (common and preferred) until dividends on the preferred have been paid for three consecutive years; and, further, Erie could not stand additional capitalization, which is Mr. Gould's usual method of signalizing his advent into an undertaking. Mr. Gould overdid the matter when he was in the concern before. All these lines, then, are unavailable. Of course, we have not lost sight of the proposed Lackawanna line. But to build a new line is tedious work; it takes time; returns are slow. Besides, the route is a trifle too far north, we think, for the Southwestern business.

Mr. Gould, no doubt, weighed all these considerations and, as a last resort, fell back on the Baltimore & Ohio. The capital stock of that road is only about \$15,000,000, and as the price is but little above 200, 16 million dollars, even at present rates, would suffice to obtain control. This the Gould party could easily raise, and this, it will also be admitted, would be a very small sum to pay for 2,800 miles of road-1,494 miles owned directly and

& Great Southern) controlled. We do not, of course, mean to say that we have any evidence that the Garretts are willing to sell out. Probably they would be the first to disclaim any such intention. But, certainly, appearances indicate that Gould has his eye on the property, and though the present owners may protest that they are unwilling to dispose of their interest, there is no denying that Mr. Gould's persuasive powers have been remarkable in the past, and the prevalent belief is that these are not yet on the wane.

Aside from the cheapness of the property, what a splendid field tho Baltimore & Ohio company would offer for stock watering on a large scale. Generally the difficulty is to find some pretext for increasing stock. The plan which finds most favor is to consolidate with half a dozen branches, about three or four miles each in length, and on the strength of this to double or quadruple the original stock. If this can be combined with some other plan, so much the better. And right here and in this connection the Baltimoro & Ohio would appear in its most favorable light. According to its last annual report it had on September 30, 1880, a surplus fund of \$40,561,642, representing "invested capital derived from net earnings." Forty millions undivided surplus ! Not much need here for any pretext to increase capital. Issue 40 millions additional stock at once, to represent the surplus, and prepare say 20 millions more "to be reserved for new extensions, &c." Having 75 millions of stock, the Baltimore & Ohio could stand proudly erect alongside of the New York Central, the Pennsylvania, and the Erie, and claim that in one respect at least it was as big as they; and the additional stock-a portion of which could certainly be disposed of without endangering the control-would allow Mr. Gould to widen the field of his operations and repeat the same process elsewhere.

But we have not space to pursue the subject further. Enough has been said to show that the scheme is entirely feasible. If the Gould party have not already made overtures to the Baltimore & Ohio people, we ask nothing for the suggestion. Because Gould has been baffled in the case of the Philadelphia Wilmington & Baltimore, and apparently also in the case of the Atlantic Mississippi & Ohio, it must not be supposed that the whole scheme falls to the ground. On the contrary, the Baltimore & Ohio is an object in itself. It would take some time to duplicate the Wilmington & Baltimore, but it could be done eventually; through the purchase of the Delaware Western by the Baltimore & Ohio, announced Thursday, the latter will certainly have the power to do it. Or perhaps some other way of reaching New York can be devised. It is exceedingly improbable that Mr. Gould's ingenuity will not be equal to the occasion. As regards the Atlantic Mississippi & Ohio, if the Baltimore & Ohio and the East Tennessee Virginia & Georgia were controlled by the same interest, that road could no doubt be brought to terms, if, indeed, it evinced any disposition at all to map out an independent course for itself. But whether Mr. Gould secures one or all of theso roads, it is certain that his plans and projects are very comprehensive; and time alone will reveal their full import.

THE ASSASSINATION OF THE CZAR, AND ITS EFFECT UPON FREER GOVERNMENT.

The death of the Czar of Russia has cast a shadow of gloom over the entire civilized world. The feelings of sorrow and regret, mingled with indignation, are hardly more strongly pronounced in the great monarchial ecntres of Europe than in republican America. While the prompt action of Secretary Blaine is to be commended,

he was but doing his duty and giving expression to the almost undivided sentiment of the American people, who, little as they love autocracy, scorn all other than legitimate means of reform. The action of Gambetta in the premises is both gratifying and encouraging, as it gives reason to hope that his guidance will prove sensible and conservative.

The murdered Emperor may have had his faults. There may, as Mr. Gladstone put it, have been much in the condition of the country over which he ruled calling for "criticism and consure;" but he was a man who possessed many excellencies of character, who had dono much to ameliorate the condition of his subjects, and who might have been tempted to take even greater strides in the direction of reform, but for the not unnatural dread that he would thus be creating evils which he would be unable afterwards to repress. It is never to be forgotten that, by the act of his own individual will, he emancipated over twenty millions of serfs, and thus peacefully accomplished one of the greatest reforms of which history has preserved any record. He had also established free local government and trial by jury. And if the condition of tho empire was still unsatisfactory-if there were injustices which called loudly for removal, wrongs which were claimant for redress, and if the Emperor moved more slowly than his discontented and murmuring people could have wished-it is to be remembered that the ovils complained of were an inheritance, and not of his own creation, and that gratitude shown for past favors, as well as the temper of his peoplo generally, gave him but imperfect encouragement to proceed in the pathway of reform. It was his misfortune to be at the head of an autocratic government-a government in which the peoplo have no voice, and in which the will of the monarch is qualified only by the will of the nobles, and the nobles are held in check only by the authority of the sovereign. Such a government is not easily moved, and cannot be rapidly modified. Even the Emperor is not free to act in the direction contrary to that which is supposed to be in harmony with the interests of the ruling class. It is not at all improbable that if we knew all, we should find that the unfortunate Emperor was not only surrounded by evils which he did not create, but which he scarcely had the power at once to remove.

Yet, whatever be the view we take of the character or responsibility of the late Emperor, this much is certainthe situation is not improved by the cruel manner of his death. Assassination has never had anything to recommend it, even in the most extreme circumstances. In very few, if any, instances has it stood the test of time and critical investigation; and rarely, indeed, has it benefited the cause it was intended to serve. There is but one instance modern times, regarding which public sentiment remains unchanged. The act of Charlotte Corday, when she rid the world of a Murat, has stood the test of time and of criticism; but it may well bo questioned whether, after all, the unfortunate heroine would not have done better if she had left the monster to his fate-a fate which could not much longer have been deferred. With that single exception, every such act in modern times has revolted public sentiment. And then, if we take a wider range, and sweep the entire field of history, we seek in vain to find that the violent and lawless taking away of the lives of prominent public characters has had any other result than the opposite of that intended. Casar was murdered because he seemed to threaten, for his own aggrandizement, the liberties of the Romans. But the death of Cæsar did not hinder-it rather determined-the

many centuries of imperial rule. The dagger of Gerard, although it hurried out of existence one of the noblest of patriots, and one of the best of men, William the Taciturn, did not check the rising power of the United Netherlands, or restore, in that region and among that people, the power of the Church of Rome. But examples are too numerous even to cite. They all teach the same lesson that violence of that description always reacts and hurts the cause it pretends to serve. So in this case the result will be unfavorable to freer government. The feelings of the better classes of the Russian people are outraged; and the spirit of revenge will, for a time, stifle all thoughts of reform on the part of the governing class. In place of advancing the cause of reform, the assassination of the Emperor will thus, by alienating the sympathies of the better and more conservative classes of Russian society from the Nihilists and their schemes, put back indefinitely the cause which the so-called reformers have at heart. The young Czar and his advisers will hardly be blamed, if they say that the restoration of law and order must precede the granting of reform.

Furthermore, while the effect of the event will be most immediately felt in Russia, it will not be without its influence in every part of the civilized world. Its tendency will be to encourage the conservative classes and to beget generally a spirit of reaction. The sympathy which the so-called Communists and Internationals are revealing towards the Nihilists, and their openly expressed approval of the assassination, set these reformers forth in their true light; and society will not be to blame, either here or in Europe, if it regards them as its enemies. Mr. Gladstone will now find it more easy to restore order in Ireland; and reform movements in Italy, in Spain, and in Germany will be temporarily abandoned. And so not only in Russia, but all over the world, wherever the shock has been felt, the cause of genuine reform will be injured.

And still there are aspects of the subject which have thus been forced upon our consideration well deserving of the study of those who are in the high places of responsibility and power. It is possible that even judicious reforms granted in time would not have averted this catastrophe. And yet rulers, if they would be wise, will seek to remove just cause for complaint. If the Czar, after the late wara war waged for the liberation of the Bulgarians, Servians and Montenegrins, and in which the blood of his own people was freely shed-had signalized his return to St. Petersburg by the proclamation of a constitutional form of government, it would have been in keeping with his previous life, would have removed a just cause for complaint, and would have given to his subjects what they had fought and bled and made costly sacrifices for in the interest of others.

MR. OSBORN RETIRES FROM THE ILLINOIS CENTRAL.

An event the past week of peculiar interest has been the retirement of Mr. W. H. Osborn from the direction of the Illinois Central Railroad. For twenty-seven years he has participated in the management of that road, and during a large part of that time has, under a resolution of the board, been entrusted with snpreme control. In fact, the incidents of his business life make up the history of the road.

Mr. Osborn has long been eudeavoring to relieve himself from the cares of his responsible position. Hitherto he has been induced to continue in it, as there always seemed to be some good reason why he should delay his resignation. He has, however, taken a very suitable opportunity of retiring, for he leaves the company at a time when its resources are ample, its debt light, the road in admirable order, and when the substantial value of its New Orleans line, which for a time was a source of anxiety, has been demonstrated.

This great corporatiou, as our readers know, has had its trials. At one time it held a monopoly of the business of the rich section it passes through. Then one after another the sources of greatest profit to it were tapped by other roads, until now, we think, 49 roads cross it. During these changes, and before its new connections were made, it had very dark days; bnt under Mr. Osborn's management, ably assisted by Mr. J. C. Clarke, the General Mauager, aud Judge Fentress, the General Solicitor, the property has recovered its old position with a good expectation of continued snccess. We once heard a very interesting fact with regard to Mr. Osborn's mauagement; how far the policy it indicates contributed to the prosperity of the road we leave the reader to judge. The fact we refer to is that although the Board entrusted him with the absolute power of removal and appointment of officers, he never appointed a relation. One cannot be snrprised after knowing this, that the directors should have said at their meeting on the 16th inst. that "the power conferred npon Mr. "Osborn was withont an exception exercised to the entire satis-"faction of the company."

|From our own correspondent.|

LONDON, Saturday, March 5, 1881.

The money market has again assumed an easy appearance This has been prominently the case since the announcement was made that the late President of the United States had vetoed the Funding Bill, one result of which was that the demand for gold for exportation to America immediately ceased. There has not, however, been any material change in the rates of discouut, but there has been more demand for bills, and the rate for three months' paper is 21/2 to 25/8 per cent. As there seems to be but little probability of the export inquiry for gold reviving, there is reason to believe that the money market will relapse into a condition of considerable inactivity, and there is already an opinion gaining ground that the directors of the Bank of England will be compelled before loug to reduce their rates of discount. The prominent reasons for this are the absence of speculation on any large scale on the Stock Exchange and the dnll reports which have of late been received from the leading centres of industry. Trade is not just now in a very flourishing condition, and mercantile failures are becoming more numerous. The iron trade is prominently dnll, and this week the snspension has been announced of the Darlington Ironworks Company, limited, which, though never a very prosperons concern, has been compelled to close its works, as the shareholders refused to subscribe additional capital to carry them on. The trade for crnde iron has for some time past been in a depressed condition, and there are apprehensions that further failures will take place. As reviving business usually manifests itself most distinctly in the first instance in the iron trade, in a similar manner depression in that department of our commerce leads to the belief that the improved condition of mercantile affairs, which has been apparent since October, 1879, has quickly deserted us-a result which may largely be ascribed to the injudicious speculation which has pervaded nearly every department of business. It is well known that the price of money was forced np to 3½ per cent early in the year entirely by the activity of speculation on the Stock Exchange. As soon as speculators noticed that their position had become nntenable and dangerous, heavy realiza-

tions of stocks were effected, and the actual condition of the money market was at once perceived. It was clear that the trade demand for money had not increased, and that money had risen in price from causes which, as speculation had not assumed dangerons proportions, could be speedily rectified. By the aid of the telegraph, this has been quickly accomplished, and onr money market is now in a condition of great inactivity. Similar observations may be applied to mercantile business. In consequence of speculation, the prices of commodities had risen to a point fraught with danger to legitimato traders. There has, in consequence, been very little disposition to operate, and the absence of a consumptive and substantial demand has compelled speculators to realize, with the result that those who were amongst the latest in the movement are serions losers. Now that we are nearly in the spring, while, at the same time, there are no indications of trade reviving, bnt on the contrary declining, easy rates of disconnt are expected until the autumn. The time is close at hand when our imports begin to dccline, and when, as a natural result, onr indebtedness to foreign countries diminishes. The prospect of money advancing to a point indicative of healthy trade has certainly disappeared, and at the present time it almost seems that 1881 will prove to be another year of disappointment.

The money market was rather firm in the early part of the week, owing to a moderate inquiry for gold for exportation to the United States; but since that demand has subsided, the market has become easy, and the rates of discount are as follows:

	Open market rates-	Per cen
Bank rate 3	4 months' bank bills	2582
Open-market rates-	6 months' bank bills	
30 and 60 days' bills 2120258	4 & 6 months' trade bi	lls. 3 a
3 months' bills 212@258		

The rates of interest allowed by the joint-stock banks and disconnt honses for deposits are subjoined :

Joint-stock banks. Discount houses at eall. do with 7 or 14 days' notice. 214

Annexed is a statement showing the present position of the Bank of England, the Bank rate of disconnt, the price of consols, the average quotation for English wheat, the price of middling upland cotton, of No. 40 mule twist, fair second quality, and the Bankers Clearing House return, compared with the three previous years.

According to Messrs. Pixley & Abell's circular, the American demand for gold has not only absorbed all the bar gold and foreign gold coin imported during the week, which amounted to £118,065, but a snm of £401,000 in bars was withdrawn from the Bank of England for the same pnrpose, making a total of £519,065. Silver has been as high as 52½d. per onnce, but the quotation is now quite nominal at 52¼d. per onnce. Mexican dollars have been dealt in at 51½d., but are now nominally quoted at 51d. per onnce. The following are the quotations for Indian Exchange: Bank bills, 60 days, 1s. 7½d.; 30 days, 1s. 7 15-16d.; demand, 1s. 8 1-16d.; private bills, 60 days, 1s. 7 13-16d.; 80 days, 1s. 7½d.; demand, 1s. 7 15-16. India Conncil bills were sold on Wednesday at 1s. 8 1-16d. the rupee, and next Wednesday the amount will be increased to £450,000.

Tenders were received at the Bank of England on Tnesday for £1,510,000 British Treasnry bills, with the following results: Tenders for three months' bills, at £99 88. 3d., will receive about 71 per cent and above in full; and for six months', at £99 14. 3d., in full. The Government is paying, therefore, £2 7s, per cent per annum for three months' bills and £2 11s. 6d. for six months' bills. It is understood that the Bank of England absorbed the whole amount.

The Metropolitan Board of Works announce that tenders will be received at the Bank of England on March 11 on their behalf, for a snm of £2,450,000 ln three per cent stock, at a minimum price of £90 per £100 stock. This is lower than that of the existing issues; but as money is abundant, and is still seeking for sound investments, the loan will probably be taken above that price. The loan is required for Metropolitan Improvements, which are being carried out on a large scale, and which are affording active employment to the working classes. The widening of streets in the old portions of the town has become a necessity, and the old buildings are rapidly disappearing.

As I have referred to Metropolitan improvements, I may mention that a more general use is being made of the electric light. Several of our railway stations are illuminated by it, and it proves to be of very great advantage. In the clty, an experiment is being made on a large scale, and in a very short time the light will be used in all places where there is any great concentration of traffic.

Sir D. Gooch, M. P., in presiding at the half-yearly meeting of the Great Western Railway, on Thursday, said the snow-storm which occurred in Jannary reduced their receipts by £56,000. Had that snm been in their pockets they would have been able to declare $\frac{1}{2}$ or $\frac{3}{4}$ per cent more of dividend. To indicate the extent of the storm he might say they had to excavate the snow from 111 miles of railway, varying in depth, from three' to nine feet. Sixty-four trains had to be dng ont, and blocks took place on 141 different parts of their system.

The trade for wheat has presented a somewhat firmer appearance. There has been a better consumptive demand, and prices have risen about 1s. per quarter. The weather was drier in the early part of the week, but it has since become unsettled, and spring sowings continue backward.

A dinner was given at the Mansion Honse on Monday evening by the Lord Mayor to the Governor and Directors of the Bank of England. Mr. Birch, in responding to the toast of the evening, said that "the business transacted by the Bank of England had no parallel with that of any other establishment in the world, inasmnch as it combined with an ordinary banking basiness the management of the National Debt and the issue and payment of the greater portion of the note circulation of the conntry. Some idea of the magnitude of this work might be formed when he told them that there were no less than 236,501 accounts open in the public funds, that the number of bank-notes issued during the last year was above 15% millions, representing a snm of 388 millions, and a similar amonnt was canceled, an accurate register of each operation being kept, so that any note paid into the Bank during the last five years could be produced within a minnte or two, with information as to the channel through which it had found its way back to the bank, although the register represented 77 millions of notes stowed away in 14,500 boxes. It was generally thought that the Bank was extravagant in cancelling the notes which came in, but the matter had been well considered, and it was calculated that if they were to keep a register of the notes in the way it was the custom of the Bank to do, the system they followed was the cheapest."

According to the Melbourne Argus, the estimate of the yield of gold in Victoria shows for last year an increase for the first time since 1871. The annexed table gives the figures, from which it will be seen that the large decrease which had gone on annually for many years was checked in 1878, though there was still a decrease against 1877. There was again a small decrease in 1879, but towards the close of that year an improvement set in, which continued through last year. The movement is mainly traceable to the increased yield from the Balarat district. The number of miners employed in 1880 is not stated, but it would probably differ little from the number in 1879. The figures have a special interest in connection with the monetary controversy:

	Number of	Tield of	Number of miners.	Tield of
	miners.	gold. Oz.	miners.	gold. Oz.
1866	73,749	1,536,581	187446.800	1.102.614
1867		1,493,831	187542,000	1.058.823
1868	63,181		187641,564	937,260
	68,037		1877	792,839
1870	60,567		1878	753,793
			187937,553	718,208
	54,651		1880	812,092
	52,544	1,249,407		,

in full. The Government is paying, therefore, £2 7s. per cent wheat in the 150 principal markets of England and Wales

amounted to 26,087 quarters, against 31,030 quarters last year and 45,574 quarters in 1879 ; while it is computed that they were in the whole kingdom 104,400 quarters, against 124,120 gnarters in 1880 and 182,300 quarters in 1879. Since harvest the sales in the 150 principal markets have been 1,009,195 quarters, against 833,693 quarters last season and 1,472,051 quarters in 1878-9; the estimate for the whole kingdom being 4,037,000 gnarters, against 3,370,700 qnarters in the corresponding period of last season and 5,888,200 quarters in 1878-9. Withont reckoning the supplies of produce furnished ex-granary at the commencement of the season, it is estimated that the following gnantities of wheat and flour have been placed on the British markets since harvest. The visible snpply in the United States is also given :

1880-1.	1879-80.	1878-9.	1877-8.

Commercial and Miscellaneous News.

NATIONAL BANKS ORGANIZED .- The following-named national bank was organized this week :

2,510 - The First National Bank of Gouverneur, N. Y. Authorizod capl-tal, \$50,000; paid-in capital, \$30,000. George M. Gleason, Presi-dent; A. L. Woodworth, Cashier.

IMPORTS AND EXPORTS FOR THE WEEK .- The imports of last week, compared with those of the preceding week, show a decrease in both dry goods and general merchandise. The total imports were \$3,510,192, against \$10,245,513 the pre-ceding week and \$8,907,346 two weeks previons. The exports for the week ended March 15 amounted to \$8,325,899, against

\$8,921,297 last week and \$8,523,255 two weeks previons. The following are the imports at New York for the week ending (for dry goods) March 10 and for the week ending (for general merchandise) March 11; also totals since January 1: FOREIGN IMPORTS AT NEW YORK.

For Week.	1878.	1879.	1880.	1881.
Dry Goods Gen'l mer'diso	\$1,894.838 4,881,186		\$2,768.815 7,142,102	
Totai Since Jan, 1.	\$6,776,024	\$7,075,817	\$9,910,917	\$9,530,192
Dry Goods Geu'l mer'diso	\$21,731,234 41,577,037			
Total.	\$63.308,271	\$61.830.116	\$101,272,758	\$79,976,480

In our report of the dry goods trade will be found the imports of dry goods for one week later. The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending March 15, and from January 1 to date: EXPORTS FROM NEW YORK FOR THE WEEK.

	1878.	1879.	1830.	1891.
For the week Prev. reported				

Total s'ce Jan. 1| \$75,187,785| \$65,994,392| \$68,360,716| \$83,367,984 The following table shows the exports and imports of specie at the port of New York for the week ending Mar. 12 and since Jannary 1, 1881:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

FRIDAY, MARCH 18, 1881-5 P. M.

The Money Market and Financial Situation .- The past week has been comparatively quiet, and the markets undisturbed by sensational reports. The country is looking to Washington, as usual, to ascertain what conrse to pursue in business affairs, and the topic now uppermost is the question of an extra session of Congress. The weight of opinion seems to be against the probability of an extra session, and it is hardly necessary to remark that the average mcrchant and banker will breathe more freely when he knows to a certainty that an extra session of Congress will not be called. In the meantime (provided Congress is not convened), what will Secretary Windom do in regard to negotiating the \$104,000,000 of 4 per eent bonds yet unsold? This is a pertinent question of the hour, but the Secretary deelines to give any intimation of his probable conrse in the matter until the subject of an extra session of Congress is finally disposed of by the President and his Cabinet. There was some surprise that the Treasury did not continue this week the pur-chase of bonds in the open market, but money has been quite easy, and the disbursements of the Treasury have already been so considerable, in different ways, as to counterbalance in large part the money deposited by the banks to redeem their circula-tion.

The railroad earnings for the first half of March are decidedly unfavorable on the northwestern roads, as the snow blockade was renewed early in this month, and the choking up in freight traffic at Chicago is something unprecedented. With the begin-ning of April the roads should do a very large business, but the losses in the first three months of the current year will be heavy, particularly in the roat earning

losses in the first three months of the current year will be heavy, particularly in the net earnings. The money market has been fairly easy, and rates on call have varied from 4 to 6 per cent, according to the collateral. This afternoon, however, rates on call were higher, and in a few cases 1-64 per day was paid in addition to 6 per cent per annum. Prime commercial paper is quoted at 5@6 per cent. The Bank of England on Thnrsday showed a decrease for the week of £220,000 in specie, and the reserve was 46% per cent of liabilities, against 48% per cent the previous week. The dis-count rate is unchanged at 3 per cent. The Bank of France showed an increase for the week of 20,375,000 franes in gold and 12,500,000 franes in silver. The London *Economist* of March 5 had an interesting article on the rates of interest in which ocentred the following: "During flye years we have had very cheap money. The average

"During five years we have had very cheap money. The average minimum published rate of the Bank of England has been as follows:

AVERAGE MINIMOM	RA	LE-	-B.	ANK OF ENGLAND, 1876-1850.		
	£	8.	d.	£	8.	d.
1876	2	12	1	1879	10	4
1877	2	18	ō	1880	15	ā
1878	3	15	8		-0	-

$\begin{array}{cccccccccccccccccccccccccccccccccccc$	$0 \ 1 \ 1953 3 \ 13 \ 11$
--	----------------------------

"This period of cheap money in England terminated with the com-mencement of the Crimean war."

The last statement of the New York City Clearing-House banks, issued March 12, showed an excess above their legal reserve of \$417,400, against a deficiency the previous week of \$427,350.

The following table shows the changes from the previous week and a comparison with the two preceding years :

	1831. March 12.	Diffe prev	r'nees fr'm 10us week.	1880. Mareh 13.	1879. March 13.
Loans and dis. Specie Circulation Net deposits.	15,466,100	Inc.	973,900	57,927,900 20,967,100	17,312,400 19,335,200

Surplus			\$814,730		

United States Bonds.—Government bonds have been pretty active and prices generally stronger. A number of the banks are taking out circulation again, and there has been some demand for bonds for this pnrpose, while the prices of 4 per cents have also recovered from the depression of last week which occurred

on the first suggestion that the Treasurer might negotiate the remaining 4 per cents. If he does so negotiate them, a good round price should be demanded and could well be obtained. The closing prices at the New York Board have been as follows:

	Interest Periods.					Mareh 17.

State and Railroad Bonds.—State bonds have not been as strong and active as usnal, and some of the Southern list have been comparatively neglected. Tennessees are affected by the advices comparatively neglected. Tennessees are affected by the advices from Nashville, reporting that the bondholders' proposition for a new 3 per cent bond covering the principal and all overdue interest on the old bonds passed its seeond reading in the House by 45 to 18. There is opposition, however, and it is not known whether the bill will pass the Senate. The compromise, if faith-fully carried out, would be exceedingly favorable for the bond-holders. Virginia bonds can hardly be influenced favorably by any strength gained for General Mahone, who is known as the leader of the readjusters in that State. Louisianas have been rather neglected. rather neglected.

rather neglected. Railroad bonds are reasonably strong on a fair volume of business. It is reported that some of the very high 7 and 8 per cent railroad bonds are returning to this market from Europe, and it is fair to conclude that their place has lately been taken there by lower-priced and more speculative securities. The following securities, seldom or never sold at the Board, were sold at anction:

Bonds. \$3,000 Buffalo & Erie RR. 78, 12314

Railroad and Miscellaneous Stocks.—The stock market has been less active, and at times there was an appearance of artifi-cial support; but during the past two days the tone has been rather strong than otherwise. On the current basis of prices, it was supposed that there was little probability of a further advance, and there has been since the middle of February a short interest of more or less importance in the market; but with the excep-tion of the temporary panic oceasioned by the stringency in money, the short side has not reaped any considerable profits; and after a bull market, running, with very little inter-mission, from June, 1880, till date, we find the range of prices on many stocks to-day near the highest point reached. Although the nominal capital of stocks on the Stock Exchange lists has immensily increased, and the prices of old stocks have so greatly advanced that much more money is required to hold them, still the fact is patent that the New York stock market has seldom been in a Railroad and Miscellaneous Stocks .- The stock market has

position where it was more completely controlled by the action of a few large operators. The common inquiry now in regard to the future of the market is rather as to the probable conrse to be taken by these heavy operators than as to the income of the railroads or the prospects for business. The St. Louis Alton & Terre Hante stockholders have voted to confirm the settlement of the 55 per cent due on the preferred stock in income bonds. As to the purchase of Northern Pacific stock by the Oregon Railway & Navigation Company, it is now stated that the latter purchased about \$25,000,000 (par value) of which abont one-fourth was preferred stock at an average price of 69, and three-fourths common at an average price of 38. The daily highest and lowest prices have been as follows:

Exchange.—Foreign exchange is firmer than during last week, although the market is still somewhat unsettled, For bankers' prime sterling bills the rates on actual business to-day were about 4 80³/4 for 60 days and 4 83³/₂ for demand. Cable transfers, 4 84. The outflow of securities to Europe is reported to be smaller, and it is believed that the foreign markets are pretty well stocked up with some of our low-priced stocks and bonds. Quotations for foreign exchange are as follows:

March 18.	Sixty Days.	Demand.
Prime bankers' sterling bills on London. Prime commercial Documentary commercial. Paris (france). Amsterdam (guilders). Frankfort (reicbmarks). Bremen (reicbmarks).	$\begin{array}{cccccccccccccccccccccccccccccccccccc$	$\begin{array}{c} 4 83 & @4 84 \\ 4 81 & @4 81^{1}_{2} \\ 4 80^{1}_{2}@4 81 \\ 5 25^{5}_{8}@5 22^{1}_{2} \\ 39^{3}_{4}@ 40^{1}_{8} \\ 94^{1}_{4}@ 94^{3}_{4} \\ 94^{1}_{4}@ 94^{3}_{4} \end{array}$

Investments

AND STATE, CITY AND CORPORATION FINANCES.

The INVESTORS' SUPPLEMENT contains a complete exhibit of the Funded Debt of States and Cities and of the Stocks and Bonds of Railroads and other Companies. It is published on the last Saturday of every other month-viz., February, April, June, August, October and December, and is furnished without extra charge to all regular subscribers of the CHRONICLE. Single copies are sold at \$2 per copy.

ANNUAL REPORTS.

Wabash St. Louis & Pacific Railway.

(For the year ending December 31, 1880.)

(For the year ensing December 31, 1880.) The consolidated roads forming the Wabash St. Lonis & Pacific Railway Company merged their accounts on the 1st of January, 1880, and the business of the new company com-menced npon that date, although the details of consolidation were agreed npon and ratified by the stockholders in the month of November 1879. Since the consolidation, the company has acquired by purchase and lease the following roads: Chiasco & Paduesh acquired Arril 1.)

Chicago & Paducah, acquired April 1 }	264.9	miles
Chicago & Strawn, acquired August 15	20 ± 0	mnos.
Quincy Missouri & Pacific, acquired July 1	105.2	66
Champaign Havana & Western, acquired August 2	131	**
Missouri Iowa & Nebraska, acquired October 1	148	66
Toledo Peoria & Western, acquired October 1	246.1	66
Centreville Moravia & Albia		66

921.1 miles.

-comprising, with the original lines of the Wabash and St. Louis Kansas City & Northern railways, an aggregate length

Louis Kansas City & Northern ranways, an age of 2,479 miles. Of this, 1,176 miles are on the Eastern Division, 882 miles on the Western Division and 421 miles on the Peoria Division. The company has also entered into contracts to secure, on their completion, the following lines: Detroit & Butler, Braid-wood Coal Road, Attica & Covington, Quincy Missouri & Pacific, from Milan to Stanberry, Missouri Iowa & Nebraska, Des Moines & St. Louis, also an extension from Havana to Sidney. Leaving surplus for the year over fixed charges...... \$1,019,180

Leaving surplus for the year over fixed charges....... \$1,019,180 From this snrplus a quarterly dividend of 1½ per cent was declared upon the preferred stock, payable Feb. 10, 1881. The President, Mr. Solon Humphreys, remarks in his report that "important portions of the line, which have been a heavy charge npon the revenues of the company, were either incomplete or in process of construction during the year, so that, while apparently operating an extensive system of rail-way, the company has really derived but little advantage from some of the most essential links in the chain of connection between the large cities of Detroit, Chicago and St. Louis, and between St. Louis and Council Bluffs. The Omaha extension, opening the line between these two last-named points, although nominally in operation at the time of the consolidation, was in a very incomplete condition, and contributed but little to the aggregate traffic during the first six months of the year. The Chicago Division of our road, which is destined to become as productive as any line of equal length in that section of the conntry, was not opened nntil August, and has, in consequence of the obstructions to our entrance into our full terminal facili-ties in Chicago, been of bnt little benefit to the aggregate

RONICLE. traffic of the Company during the brief périod of its operation. Under these conditions, the gross earnings of the year should be considered satisfactory, although by no means a fair test of the productive capacity of the consolidated lines. "It should be stated also, in this connection, that we have suffered greatly for want of motive power and other equipment to meet the great increase in the volume of business. Every exertion has been made to provide this equipment, so nrgently required, and there have been placed on our road, during the year, 69 locomotives and 4,161 cars, and we have now under coutract 24 locomotives and 4,181 cars. A large portion of this equipment has been acquired through the instrumentality of the New York & Pacific Car Trust Association, by which arrangements for payments of same are to be made quarterly, extending over a series of five years." * * * "Of the main line, 1,118 miles are now of steel track, of which 162 miles have been laid during the year. "A general 6 per cent mortgage of \$50,000,000, covering the fire line of road now operated, or which may be acquired, subject to existing liens, has been executed. Of this amonnt, \$33,000,000 are reserved to be used in exchange or payment of that amonnt of prior mortgages, \$11,000,000 are to be appro-priated for the purchase or acquisition of additional lines at not exceeding \$15,000 per mile, act \$6,000,000 for equipment and permanent improvements. Two million dollars of these will be completed early in the spring, which will bring our road, to that importaut point, where, by a favorable traffic arrange-ment, our line will connect with the Great Western of Canada, and by way of that road with Buffalo and the East. An exten-sion of the Peoria Division via the Missouri Iowa & Nebraska through southern Iowa, reaches Humeston, from which point the road is in process of construction, jointly with the Chicago Burlington & Quincy, due west to a point of junction with the omaha Division, thus ope

Ution Pacific.' * * * "The Quincy Missouri & Pacific Road is nnder construction from Milan to Trenton, and from that point, by the construction of some forty miles, a junction can be made with the Omaha Division, affording ns three eastern lines from that most productive portion of the country. During the year a line of steamers has been established to rnn in connection with our road between Toledo and Buffalo, which has proved of mani-fest advantage." * * * "The company has also acquired a proprietary interest in a line of barges between St. Louis and New Orleaus. This arrangement, which will enable our com-pany to forward grain from both divisions of its lines to St. Louis as a shipping point to Europe via the Mississippi River and New Orleans, has already proved of signal advantage, and mnst add largely to our transportation facilities." CONDENSED BALANCE SHEET DEC. 31, 1880.

ł		
I	Balance \$336,549 \$336	.549

The expenses of the department, including taxes and exclusive of payments on principal and interest of bonds have been:

41,402

Net income from lands...... \$300,791

been received.

been received. For the business of 1881 there must necessarily be a marked falling off in sales, owing to the constantly diminishing amount of lands for sale; but receipts, on account of existing contracts and such sales as may be made, should compare favorably with those of the past year. The summary of the land report shows at the end of 1880 58,051 acres unsold, 119,502 acres on which contracts are in force, 36,003 acres contracts canceled, and 11,206 acres title disputed—total, 224,763 acres. The contracts with the Missouri Pacific Railway Company for the use of the road between St. Joseph and Atchison, together

the use of the road between St. Joseph and Atchison, together with the terminal facilities at those places, and with the Chicago Rock Island & Pacific Railway Company for hauling their freight between Cameron and St. Joseph, referred to in last year's report, have been executed and are in force. The statistics of operations, income, &c., are compiled for the CHEONICE as follows-

GENERAL INVESTMENT NEWS

Baltimore & Ohio-Delaware Western.-It is reported, quite positively, that the officials of the Baltimore & Ohio Bail-road are engaged in maturing some, plan whereby independent communication between Baltimore and New York will be estab-lished. The great object of the Baltimore & Ohio is to get a terminus for freight business at New York. In Wilmington, Del., it is reported that Colonel McComb has contracted to deliver 4,500 of the Delaware Western shares to Mr. Garrett, who agrees, in return, that his road will build the line to Phila-delphia and Baltimore.

Central Iowa .-- The earnings and expenses for the years 1880 and 1879 were as follows :

1879. \$7-2,446 346,646 Gross carnings..... Expenses.... 962,074 620,776 \$233.800

be sold

Dayton & Michigan.—A meeting of stockholders of the Day-ton & Michigan Railroad was held at Toledo, March 15, at which they voted to issue the mortgage bonds of the company to the amount of \$2,723,000, to redeem the outstanding bonds of the company. The new bonds will be 5 per cent, thirty years' issue, and will be intended for use in taking up the various obliga-tions of the company as they fall due.

Des Moines & Fort Dodge.—The stockholders have voted to extend this road from Fort Dodge, Iowa, northward. The loca-tion of the extension is intrusted to the board of directors. The company also voted to authorize the execution of a mortgage and the issue of bonds on the extension to an amount not to exceed \$15,000 per mile.

exceed \$15,000 per mile. Elizabeth (N. J.) City.—The bill introduced by Assemblyman Parrott, in the New Jersey Legislature, concerning the settle-ment of the debt of the city of Elizabeth, has passed the Senate, and in a few days will probably be a law. It provides that the common Council may, by a three-fourths vote, declare that the city is unable to pay its debt, and an arrangement may then be made with the creditors. Bonds may be issued in accord-ance with the agreement to the amount of the total indebted-ness or less. The Council, by a three-fourths vote, may provide that the bonds shall bear such rate of interest and fall due at such time as desired; and the new bonds may be exchanged for the old on such terms as the Council shall order. The interest on the new bonds shall be raised before that on any other bonds and shall be applied only to the extinguishment of this new form of the debt. The Council may make arrangements with a broker or syndicate for the transaction of the necessary busi-ness in refunding the debt, and pay a commission therefore. Galveston Houston & Henderson.—It is reported that Jay

Galveston Houston & Henderson.—It is reported that Jay Gould has secured control of this road, and that he intends to enlarge its terminal facilities and build a large wharf at Galves-ton.—Railroad Gazette.

ton.—Railroad Gazette.
Gulf Colorado & Santa Fe.—This company makes the following report including the operations for the five months ending December 31, 1880 : Line of road, Galveston to Rogers, Texas, 205 miles. Chartered May 23, 1873, construction commenced in May, 1875, and road completed to Areola near the close of 1877, and to Richmond near the close of 1878.
The company is entitled to the State land grant of sixteen sections of land (of 640 acres each) for each mile of road built and equipped. The road was sold and reorganized April 15, 1879, and in the July following the temporary bridge over the Brazos River was replaced by a permanent iron structure, costing over \$45,000; and from this time the extension of the line was rapidly advanced.
On August 1, 1880, the company leased from the I. & G. N. R.R. Co. the right of running its trains over that portion of the Columbia Division between Areola and Houston, a distance of nineteen miles, and on same date opened for traffic its line from Galveston to Brenham, a distance of 126 miles, and connecting there with the Western Division of the Houston & Texas Central Railway. On December 9, the line was opened to Rogers, a distance of 205 miles from Galveston, its southern terminus. The company is rapidly extending its line, and in February, 1881, reached Belton, in Bell County, 226 miles from Galveston.

Galveston. The rolling stock at present consists of : Locomotive engines, The rolling stock at present consists of : Locomotive engines, and express cars, 4 ; box 15; passenger cars, 8; baggage, mail and express cars, 4; box freight cars, 155; platform freight cars, 235; stock cars, 28; wood cars, 10; service cars, 8;--total cars, 448. The fiscal year ends 31st of July each year. Included in freight were 187,720 bales of cotton, of 500

pounds to each bale : EARNINGS AND EXPENSES FOR FIVE MONTHS ENDING DEC. 31.

Mr. George Sealy is the President, at Galveston, Texas.

\$4,629,352

Indiana Bleomington & Western.—This company has absorbed by consolidation the two companies formed to build a line of railroad between Indianapolis and Springfield. One of these companies was chartered under the laws of Ohio as the Ohio & Indiana State Line, and the other under the laws of Indiana as the Indiana & Ohio State Line. The line is ander construction, and when completed will connect the Indiana Bloomington & Western Road with the Cincinnati Sandusky & Cleveland Road, which has been leased perpetually to the former company. One branch of the leased line extends from Springfield, Ohio, to Columbus, but the main line extends from Springfield, Ohio, to Columbus, but the main line extends to Sandnsky, on Lake Erie. The Indiana Bloomington & Western Company will then control a through line from Peoria, Ill., to Columbus and Sandnsky, Ohio, a nearly direct east and west line about 550 miles long.—N. Y. Tribune.

Missisquoi & Clyde River.—This old railroad has been reor-ganized by the mortgage bondholders under the name of the Newport & Richmond. The road extends from Newport, Vt., to the Canadian line, twenty miles, and forms the connection between the Passnmpsic and Southeastern railroads.

Nnshville Chattanooga & St. Louis.—This company makes the following statement for February and the eight months of its fiscal year, from July 1 to Feb. 28.

Gross earnings Expenses.	February. \$190,966 	Eight months. \$1,393,752 \$57,743
Net enrnings Intorest and taxes	\$91,553 39,891	\$536,008 313,616
Snrplus	\$1

at his disposal. Thus supported, he went into Wall Street about a month ago, and by good management was able to purchase \$25,000,000 of Northern Pacific securities without exciting the market. Of the stock acquired about three-quarters was com-mon, for which he paid an average of 33; for the remainder, in preferred, the average was 69. Prominent in the syndicate sus-taining Mr. Villard are George M. Pullman, of Chicago, and William Endicott, Jr., of Boston. Well known New York men are also heavily interested, but their names are withheld. It is anthoritatively stated, however, that Jay Gould, William H. Vanderbilt and Russell Sage have no connection with the syndi-cate. For the present there will be no changes in the manage-ment of the Northern Pacific. The annual meeting for the elec-tion of directors and other officials occurs in September, when it is probable the syndicate will show its hand for the first time. Frederick Billings of Vermont, who, as the holder of \$6,000,000 of securities, has been heretofore the largest stockholder of the road, will then likely retire from the Presidency, his health being poor. There may be a clash as to his successor, but the Villard syndicate anticipates no tronble in holding the manage-ment." The anthorized stock of the company, common and preferred, was \$100,000,000, and by the last annual report there was ont

The anthorized stock of the company, common and preferred, was \$100,000,000, and by the last annual report there was ont-standing June 30, 1880, \$49,000,000 common, and \$43,412,645 of preferred, of which the company held in its treasury \$4,111,830.

Philadelphia & Reading.—On Saturday, March 12, the Court of Common Pleas in Philadelphia made a decree with reference to the Reading election to be held on the 14th. The order of the Court was made at some length, and the following were the most important parts:

were the most important parts: That George M. Dallas, Esq., having been agreed upon by all the parties, is mpointed Master, and is directed at the time and place appointed for the uncoting of the stockholders of the Philadelphila & Reading Railroad, as set forth in paragraph six of the hill, to call the said meeting to order, and preside thereat during its session. * * * The judges of election shall then proceed, under the supervision and direction of the Master, to hold an election for a Presideut, six Managers, a Treasurer and a Scoretary of the said railroad company. At such eicc-tion the judges shall receive and count the votes of all stockholders dury registered as such at the time of the election, but a separate count shall be kept of the votes of such stockholders as shall have been registered for three enlendar months previously thered. * * * Tho Master and the judges of the election are directed to report to the Court the proceedings of the meeting and the separate counts of the votes, as hereinhefore directed to be taken, and thoy shall alls on soertain and report to the Court the whole number of stockholders day of the said meeting, and the Court will thereupon deelare the result of the said meetings and votes. Mr. Gowen acted promptly when the decision of the Court

Mr. Gowen acted promptly when the decision of the Conrt was made known on Saturday. He wrote an address to his friends advising them to refrain from attending the meeting and thus render it null and void under the provision of the charter relating to special meetings. The following was his elrenlar issued:

<text>

The meeting was held, and the McCalmont shares were voted for the following ticket: For President, Frank S. Bond; for Managers, George F. Tyler, Samnel R. Shipley, John S. New-bold, Edward T. Steel, Charles Parish, John Lowber Welsh; for Treasurer, Samuel Bradford; for Secretary, Edgar L. Kinsley. A letter from Mr. Gowen to the Chairman was read, in which

he said :

he faid: I have in my possession up to this morning proxies of 1,058 share-holders, representing 372,953 shares of the Philadelphia & Reading Railroad Company, constituting a clear majority of all the bona-fide stockholders of sild company. As no decision has been announced by the Court upon the question of the effect of the new registry, and fear-ing that it may possibly be determined that new registry for three menths of n large number of shares represented by me might enable a minority of the shareholders to cleet a ticket opposed to the wishes and policy of a very large majority. I have determined to run no risk of an en-result, and therefore will abstain from intending the meeting at which you have been called upon to preside, believing that in this way I can, in n perfectly proper and legal manner, give effect to the real wishes of a very large majority of the shareholders of the company.

The judges appointed by the Court of Common Pleas to conduct the Reading Railroad election completed their compila-tion and classification of the vote. The admitted stock amounted to 211,095 shares, of which the judges approved 203,375 shares. These, with two or three exceptions, were cast for the Bond ticket. The 'total stock reported by the judges as being held for less than three months amounts to 2,790 shares. The details of the vote were reported to the Master by the judges and will be incorporated by the Master in his report to the Conrt.

Toledo Delphos & Burlington-Dayton & Sonthenstern .-The directors of the Toledo Delphos & Burlington RR. have ratified the recent consolidation of this and the Dayton & South-eastern, also a narrow gauge. This consolidation gives the Toledo Delphos & Bnrlington 125 miles more of road.

Western Union Telegraph.—Mr. Hatch has begnn a new suit in the Superior Court. Judge Speir, in Chambers of the Superior Conrt, granted a temporary injunction on the appli-cation of Mr. Hatch. —The following communication from the Union Trnst Com-pany was sent to the Stock Exchange:

MARCH 16, 1881.

MARCH 16, 1881. Donald Mackay, Esq., President New York Stock Exchange: DEAR SIN: We are not ised by comusoi that the injunction in the matter of the Western Union Tol. Co. restrains us from isening or delivering any stock except such as results from transfer from one person to another of stock of the Western Union Company already issued or deliv-cred. We are therefore prevented at present from delivering Western Union stock or certificates of Indelitedness in exchange for stock of the Atlantic & Pacific or American Union Telegraph companies. In order to provent inconvenience to those parties who have deposited stock of either the Atlantic & Pacific or American Union telegraph companies with us for exchange into Western Union stock, which exchange, by reason of the lajinction, we have not been able to complete, we are prepared to return stock so deposited to parties desiring it, and for such purpose will enaced in such cases the assignment executed to the Western Union, President. The following additional notice was posted in the Evaluation

The following additional notice was posted in the Exchange yesterday :

The Union Trust Company will transfer any stock of the Western Union, but cannot issue any increase of stock, or issue stock in oxehange for stock of any other company—Atlantic & Pacific or American, Union.

-The arbitrators appointed to value the plant of the Ameri-can Union Telegraph Company awarded the Central Construc-tion Company \$10,000,000 in stock aud \$5,000,000 in bonds. About one-half of this was paid previous to the consolidation. Subsequently, the Western Union Company issued its new stock for the balance, and the Central Construction Company divided it up among its stockholders, who are identical with the prin-cipal stockholders of the American Union Company.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, March 18, 1881.

There are no features of great importance to note with reference to the course of trade the past week. Spring comes on apace, and with it the phases of business peculiar to it. Some sorts of merchandise are reported active, especially those suited to the wants of the South ; bnt at the West mercantile affairs are dull. There Winter has still lingered and made its presence felt in snow storms, which have continued to obstruct railway transportation, delayed farm work and kept the roads in an almost impassable condition. In the North and Northeast the opening of inland navigation is still only partial.

The provision market has been less active for the last day or so, bnt values were not materially effected until to-day, when irregnlar advices from Chicago imparted an unsettled feeling. Old mess pork quoted on the spot \$15 25@\$15 50; new, \$16 25 Old mess pork quoted on the spot \$15 25@\$15 50; new, \$16 25 @\$16 50; March contracts' quoted \$16 40 asked; April, \$16 asked; May, \$16 10@\$16 25 bid and asked. Bacon qniet at 8½c. for long and 9c. for short clear; half-and-half, 8¾c.; do. in the West, 8½c. Cutmeats were dnll and essentially un-changed. Beef hams sold at \$22 50@\$23. Beef in some demand at \$20@\$22 for city extra India mess; jertra mess, \$11; mess, \$9 50@\$10. Lard was about steady, thongh less active; prime western sold on the spot at 11·10c, and choice at 11·12½c.; March options realized 11·10c.; April, 11·07½@11·10c; May, 11·10@11·15c.; June, 11·15@11·20c.; July, 11·20c.; seller year, 10·55@10·57½c; refined to the Continent, 11·30e. Bntter was qniet and unchanged. Cheese is about steady at 12@13½c. for prime to fancy factory. Eggs qnoted at 21@21½c, for near-by fresh. Tallow fairly active at 6¼@6¾c. The following is a comparative summary of aggregate exports from November 1 to March 12: 1880-81. 1879-80. Increase

	1880-81.	1879-80.	Increase.
Porklbs.	27,277,000	24.596,400	2,680,600
Baconlbs.	370,472,788	300,978,726	69,494,062
Lardlbs.	163,949,061	127,949,564	35,999,497
	F 01 000 010	120 201 000	

Total......lbs. 561,698,849 453,524,690 108,174,159 Rio coffee has sold fairly at an advance, bnt for a day or two has been quiet, with some signs of weaknesss, closing quiet and nominal. Mild grades have been active at steady prices; the sales have embraced about 10,000 bags Maracaibo, 13,527 bags Lagnayra, 4,000 bags Costa Rica and 9,000 mats Java, closing quiet for all descriptions, however. Rice has been fairly active at the quotations of last week. In refining molasses transac-tions to a considerable amount are reported, and as the stock here is now small the market is firm at 31@32c. for 50 degrees test; grocery grades are quiet for both foreign and domestic at nnchanged prices. Tea at the last anction sale bronght steady prices for green and rather higher figures for Japan, while Amoy oolong was easier; the regular market is quiet. Spices have been quiet, with some decline in cloves. Raw sngar was fairly active early in the week, but has latterly been very quiet, and, at the recent advance to 74@7%c. for fair to good refining, the market closes duil. 561,698,84 453,

* Included in this amount there are 5,000 bales at presses for foreign ports the destination of which we cannot learn.

The speculation iu cotton for future delivery has been quite active during the past week, but at widely varying prices, showing, on the whole, less depression than during the previous fortnight. The greatest decline was on Monday, under the news of the assassination of Emperor Alexander of Russia and the apprehensions which this crime excited regarding the preservation of order in Europe. This decline was the more notable because it took place in the face of stronger accounts from Liverpool and the Sonth. The most important advance was on Wednesday, on the belief that adverse influences had about exhausted themselves; a demand to cover contracts sprnng np, carrying prices of the summer months, which had been most depressed, about 5-16c. higher than at the close of Tnesday and to about the closing figures of the previons Friday. Yesterday the market opened lower, advanced briskly in sympathy with Liverpool accounts, but finally closed generally 8@10 points lower. Today the market was variable, the decline of yesterday being abont recovered at the close. Cotton on the spot was on Monday quoted 3-16c. lower, the reduction leading to more activity for export. Yesterday low grades and stained were again reduced 1-16@1/sc., and the market was dull. To-day there was more doing for export at firm prices, middling nplands closing at 10¾c.

The total sales for forward delivery for the week are 899,100 bales. For immediate delivery the total sales foot up this week 10,632 bales, including 8,221 for export, 2,294 for consumption, 117 for speculation, and — in transit. Of the above, 400 bales were to arrive. The following are the official quotations and sales for each day of the past week.

This year estimated.

The above totals show that the old interior stocks have de-creased during the week 664 bales, and are to-night 4,653 bales more than at the same period last year. The receipts at the same towns have been 11,232 bales more than the same week last year.

THE VISIBLE SUPPLY OF COTTON, as made np by cable and telegraph, is as follows. The Continental stocks are the figures of last Saturday, but the totals for Great Britain and the affoat for the Continent are this week's returns, and consequently bronght down to Thursday evening; hence, to make the totals the complete figures for to-night (Mar. 18), we add the item of exports from the United States, including in it the exports of Friday only:

Theo Md. Upi, Liverpool.... $6^3_{1ed.}$ $7^5_{1ed.}$ $5^5_{2ed.}$ $6^3_{2ed.}$ The above figures indicate an *increase* in the cotton in sight to-night of 495,450 bales as compared with the same date of 1880, an *increase* of 511,865 bales as compared with 1879 and an *in-crease* of 213,342 bales as compared with 1878. In the preceding visible snpply table we have heretofore only ncinded the interior stocks at the seven original interior towns. As we did not have the record of the new interior towns for the iour years, we could not make a comparison in any other way. That difficulty no longer exists, and we therefore make the fol-lowing comparison, which includes the stocks at the nineteen towns given weekly in our table of interior stocks instead of only the old seven towns. We shall continue this double statement for a time, bnt finally shall simply substitute the nineteen iowns for the seven towns in the preceding table. American-1891. 1980. 1879. 1878.

Total visible anpply3,080,838 2,583,794 2,495,834 2,802,064 The imports into Continental ports this week have been

The imports into continental ports this week have been 27,000 bales. These figures indicate an *increase* in the cotton in sight to-night of 497,064 bales as compared with the same date of 1880, an *increase* of 585,024 bales as compared with the corresponding date of 1879 and an *increase* of 278,794 bales as compared with 1878.

of 1879 and an *increase* of 278,794 bales as compared with 1878. RECEIPTS FROM THE PLANTATIONS.—The following table is prepared for the partpose of indicating the actual movement each week from the plantations. Receipts at the outports are some-times misleading, as they are made up more largely one year than another, at the expense of the interior stocks. We reach, therefore, a safer conclusion throngh a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Sonthern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the ont-ports. BECEIPTS FROM FLANTATIONS.

RECEIPTS FROM PLANTATIONS.

The above statement shows

The above statement shows— 1. That the total receipts from the plantations since Sept. 1 in 1880-81 were 5,172,765 bales; in 1879-80 were 4,667,996 bales; in 1878-79 were 4,194,482 bales. 2. That, although the receipts at the ont-ports the past week were 108,200 bales, the actual movement from plantations was only 110,497 bales, the balance going to increase the stocks at the interior ports. Last year the receipts from the plantations for the same week were 40,662 bales and for 1879 they were 42,396 bales. bales.

WEATHER REPORTS BY TELEGRAPH.-The weather the past week has been very rainy in the Atlantic States and in parts of the Gulf States, interfering decidedly with farm work. In Texas, however, the conditions have continued favorable.

Galveston, Texas .- It has rained hard on one day, and there have been showers on three days the past week. The rainfall reached one inch and eight hundredths. Farmers have recently been doing well, and there is bnt little complaint. The thermometer has ranged from 56 to 71, averaging 64.

Indianola, Texas .- We have had drizzles on three days the past week, the rainfall reaching bnt eight hundredths of an inch. Farm work is fairly advanced. Average thermometer 67, highest 76 and lowest 52.

Corsicana, Texas .- We have had good showers on three days the past week, the rainfall reaching eighty-eight hnndredths of an inch. Plowing is making good progress. Average thermometer 63, highest 76 and lowest 41.

Dallas, Texas.-It has rained on three days the past week, the rainfall reaching two inches and twenty hundredths. It has rained harder than desired, but has not been injurious, as rain was beginning to be needed. Plowing and corn planting Average thermometer 62, highest 76 and lowest 40. continne.

Brenham, Texas .-- We have had beneficial showers on three days the past week, the rainfall reaching fifty hundredths of an inch. The farmers are bnsy, and corn has generally been planted. Average thermometer 66, highest 76 and lowest 45.

Waco, Texas .- We have had good showers on three days the past week, the rainfall reaching forty hundredths of an inch. Farm work is well up. Average thermometer 66, highest 76 and lowest 40.

New Orleans, Louisiana.-Telegram nct received.

Shreveport, Louisiana .- The weather during the past week has been cloudy, with some rain, the rainfall being seventy-six hundredths of an inch. The roads are in a bad condition. Average thermometer 56, highest 69, lowest 44.

Vicksburg, Mississippi.-It has rained on three days the past week.

Columbus, Mississippi .- It has rained on four days the

past week, the rainfall reaching fonr inches and ten hundredths. We are having too much rain.

Little Rock, Arkansas .- Saturday of the past week was clear, Sunday fair, and the remainder of the week has been cloudy, with rain on each day. The rainfall reached seventyfive hundredths of an inch. Average thermometer 52, highest 68 and lowest 34.

Nashville, Tennessee .- It has rained on five days the past week, the rainfall reaching one inch and fifteen hundredths. Average thermometer 52, highest 67 and lowest 32.

Memphis, Tennessee .- Telegram not received.

Mobile, Alabama .- It has rained severely on three days, and has been showery on three days the past week. The rainfall reached seven inches and fifty-five hundredths. Average thermometer 63, highest 73 and lowest 46.

Montgomery, Alabama .- It has rained on five days the past week, the rainfall reaching three inches and twenty-three hnndredths. As the week closes there is a favorable change in the weather. The thermometer has averaged 61, ranging from 42 to 73.

Selma, Alabama.-It has rained on three days the past weck.

Madison, Horida .- The early part of the past week was clear and pleasant, but during the latter portion we have had rain on two days. We are having too much rain. Average thermometer 62, highest 76, lowest 48.

Macon, Georgia.-It has rained on three days the past week. The bottom lands are being flooded. Farmers are giving abont same proportion to cotton, but not as much guano is being used in this section as during last year. Average thermometer 58, highest 74, lowest 34. *Columbus, Georgia.*—It has rained severely on three days the past week, the rainfall reaching five inches and eighty-four hun-dredths. The thermometer has ranged from 52 to 72, averaging

60

60. Savannah, Georgia.—It has rained on three days the past week, and the rest of the week has been partially cloudy. The rainfall reached one inch and fifty-one hundredths. Average thermometer 61, highest 74 and lowest 42. Augusta, Georgia.—The early part of the past week was clear and pleasant, but during the latter portion we have had heavy general rains on four days, causing a rise in the Savannah River, threatening the city with a freshet. The rainfall reached four inches and seventy-seven hundredths. Planters are sending their crop to market freely. Average thermometer 57, highest 72 and lowest 39.

72 and lowest 39. *Charleston, South Carolina.*—It has rained on two days the past week, the rainfall reaching two inches and five hundredths. Average thermometer 56, highest 72 and lowest 46.

JUTE BUTTS, BAGGING, &C.—There has been a better demand during the past week and more business is being done. The parcels moving are for speculative account and consist mostly. of light grades, while the heavier qualities are only wanted in small ways. The transactions reach about 3,000 rolls. At the of light grades, while the heavier qualities are only wanted in small ways. The transactions reach about 3,000 rolls. At the close the feeling is steady, and sellers are quoting 9c. for 1¼ lbs., 10c. for 2 lbs. and 10¾@11c. for standard qualities. Jute butts have shown more activity and considerable sales have been made. We hear that some 2,500 bales have been placed since our last. These lots have all gone into consumers' hands. Full prices were paid, and 2½c. paid for paper quality and 2½c. for spinning grades. At the close holders are steady, and but little can be had below the above figures.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT .-A comparison of the port movement by weeks is not accurate, as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement each month since September 1 has been as follows:

Monthly	Year Beginning September 1.								
Receipts.	1880.	1879.	1878.	1877.	1876.	1875.			
Sept'mb'r	458,478	333,643	288,848	98,491	236,868	169,077			
October	968,318	888,492	689,264	578,533	675,260	610,316			
Novemb'r	1,006,501	942,272	779,237	822,493	901,392	740,116

January .	571,701	647,140	618,727	689,610	500,680	637,067			
February.	572,729	447,918	568,824	472,054	449,696	479,801			
			3,836,564	3,561,300	3,531,655	3,457,554			
	of tot. port								
receipts	Feb. 28	84'28	86.27	81.93	87.95	92·50 ·			

This statement shows that np to Feb. 2S the receipts at the ports this year were 332,599 bales more than in 1879-80 and 761,964 bales more than at the same time in 1878-79. By adding to the abovel otals to Feb. 23 the daily receipts since that time, we shall be able to reach an exact comparison of the movement for the different years.

	e of total					
p'rt rec'n	ts Mar. 18	87.65	90 51	87.03	00.86	86.03

This statement shows that the receipts since Sept. 1 up to to-night are now 534,420 bales more than they were to the same day of the month in 1880 and 8)3,099 bales more than they were to the same day of the month in 1879. We add to the table the percentages of total port receipts which had been received to March 18 in each of the years named.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The figures which are now collected for us, and forwarded by cable each Friday, of the shipments from Calcutta, Madras, Tuticorin, Carwar, &c.. enable us, in connection with our previonsly-received report from Bombay, to furnish our readers with a full and complete India movement for each week. We first give the Bombay statement for the week and year, bringing the figures down to March 17.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Shipments this week.				Shipm	ents since	Receipts.		
Year	Great Brit'n.	Conti- nent.	Tolal.	Great Britain	Conti- nent.	Total.	This Week.	Since Jan. 1.
1881 1880 1879		6,000	$32,000 \\ 6,000 \\ 27,000$	72.000	$\frac{143,000}{112,000}$ 70,000	184,000	43,000	311,000
			33.000		147,000			

According to the foregoing Bombay appears to show a *decrease* compared with last year in the week's receipts of 5,000 bales, and an *increase* in shipments of 26,000 bales, and the shipments since Jannary 1 show an *increase* of 30,000 bales. The movement at Calcutta, Madras, Tuticorin, Carwar, &c., for the same week and years has been as follows.

CALCUITA, MADRAS, TUTICORIN, CARWAR, RANGOON AND KURRACHEE.

	Shipm	ents this	veek.	Shipments since January 1.			
Year.	Great Britain.	Conti- nent.	Total.	Great Britain.	Conti- nent.	Total.	
1881 1880 1879 1878	11,090 9,000 1,000	2,000 1,000 2,000	13,000 10,000 3,000	64,000 30,000 41,000 14,000	53,000 8,000 22,000 21,000	117,000 38,000 63,000 35,000	

the ports other than Bombay is 13,000 bales *less* than for the same week last year. For the whole of India, therefore, the total shipments this week and since Jannary 1, 1881, and for the cor-responding weeks and periods of the two previous years, are as follows.

EXPORTS		FROM	ALL	INDIA

Shipments	1881.		18	330.	1879.			
to all Europe from-	This week.	Sinee Jan. 1.	This week.	Since Jan. 1.	This week.	Since Jan. 1.		
Bombay. All other p'rts.	32,000	214,000 117,000				123,000 63,000.		
Total	32,000	331.000	19.000	222.000	37.000	186.000		

This last statement affords a very interesting comparison of the total movement for the week ending Mar. 17, and for the three years up to date, at all India ports.

ALEXANDRIA RECEIPTS AND SHIPMENTS .- Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, Mar. 17.	1881.	1880.	1879.	
Receipts (cantars*)	36.000 2,616,000	5,000 3,190,000	10,000 1,524,000	
	This Since week. Sept. 1.	This Since week. Sept. 1.	This Since week. Sept. 1.	
Exports (bales)— To Liverpool To Continent	5,000 189,000 4,160 93,624		5,000 139,000 59,000	
Total Europe	9 160 282,624	2,750 412,248	5.000 198.000.	

A cantar is 98 !bs

This statement shows that the receipts for the week ending March 17 were 36,000 cantars and the shipments to all Europe were 9,160 bales. March

MANCHESTER MARKET.—Our report received from Manchester to-night states that prices for twists and shirtings are unchanged, and that the market is quiet and steady. We give the prices of to-day below, and leave previous weeks' prices for comparison:

	-	- 1881.			1880.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 95,472 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the CHRONICLE last Friday. With regard to New York, we include the manifests of all vessels cleared up to Wednesday wight of this week. night of this week:

Included in the above totals are from New York to Hull, 806 bales; from New Orleans to Rouen, 51 bales; from Texas to Vera Cruz, 599 hales.

Below we give all news received to date of disasters to vessels carrying cotton from United States ports, etc.:

earrying cotton from United States ports, etc.:
CARADOC, steamer, hefore reported, from New Orleans for Bremen. A number of seamen of the steamer Caradoc, which put into Halifar with a very heavy list to port, objected to proceed to soa in her again on March 5, as they claimed that the vessol would not have sufficient dead weight in her bottom to keep her from listing. It was subsequently settled by the captain of the steamer having the coai, which had been put on deck, put below. Sbe salled on night of the 6th. It was stated that the vessel had been on her side ever since leaving New Orleans.
GARDENIA, steamer, before reported, at Bremen, from Savannah. The salvage for the tig Assecuradeur, which assisted off the steamer Gardenia, was fixed by the Court at Bremenlaven at 45,000 marks, at New York, March 13, on her passage from Galveston to Key West, picked up 42 bales of cotton, supposed to have been part of the cargo of the bark Telomeo.

Cotton freights the past week have been as follows:

TUESDAY.								

BREADSTUFFS.

FRIDAY, P. M., March 18, 1881.

The flour market was more or less depressed early in the week, and some slight reductions in prices were reported in the absence of demand; but on Wednesday the inquiry was more active, with a fair general trade, and prices hardened. The early declines extended to rye flour and corn meal, which are in better supply and more freely offered; in fact, there appeared to be more competition among sellers of Brandywine corn meal. To-day the market was quieter.

The wheat market opened the week singgishly, and prices showed weakness and irregularity. The export interest has been in a measure diverted for the moment from the market. In addition to the large export shipments of wheat down the Mississippi River from St. Louis via New Orleans, there transpired on Monday that there had been large shipments of wheat from Western markets to Liverpool via Boston, on throngh rail and ocean bills of lading. Yesterday there was a return of activity, and prices decidedly advanced, with a large business in "fntures." No. 2 red winter sold at \$1 26@\$1 26½ on the spot. \$1 24@\$1 24¾ for April, \$1 23@\$1 23½ for May and \$1 22½@\$1 23¼ for June; and No. 1 white, \$1 22@\$1 23, spot and March, \$1 22 for April and \$1 20@\$1 20¾ for May. To-day spots receded ½c. and futures 1c., with less doing.

Indian corn has been much more active for Western mixed, and prices have advanced slightly. The increased activity is largely in contracts for future delivery. White corn is withont improvement, but Southern yellow is decidedly higher. Yesterday No. 2 mixed sold at 59@59¼c. on the spot, 57¾c. for April and 55½c. for May, and Sonthern yellow on the spot 57@ 61c. as to quality; also, No. 2 Western white at 60½@61c. Today the market was very strong on the spot, but futures were quieter.

Rye has been in demand for Germany, and is dearer, several boat-loads selling at \$1 05, closing with an upward tendency. Barley has been more active, and the close is slightly higher.

Oats have had an upward tendency of late, but the advance for the week is not important. To-day the market was firmer, with No. 2 graded quoted at 44% c. for mixed and 46% c. for white; and No. 2 sold for future delivery at 44c. for April.

The following are closing quotations:

THE DRY GOODS TRADE.

FRIDAY, P. M., March 18, 1881.

The arrival of a great many retail bnyers from the South, Southwest and remote parts of the West, has given a marked impetus to the jobbing trade, and in this connection the volnme of business the past week has been comparatively large. The weather was more favorable for the distribution of spring and summer fabrics, and an increased movement in staple cotton goods, &c., was stimulated by lower jobbing prices. The demand at first hands has been relatively light, and package bnyers continned to pursue the hand-to-mouth policy noticed of late, owing in a measure to the somewhat unsettled condition of values and the probability of a lower range of prices in the near future, so far at least as certain makes of cotton goods are concerned. Business was quite moderate with importers, and large quantities of silks, cashmeres, housekeeping and tailoring linens, hosiery and gloves, &c., were disposed of at auction, and realized fair average prices.

DOMESTIC COTTON GOODS .- The exports of cotton goods from this port during the week ending March 15 were 1,011 packages, of which 840 were shipped to Great Britain, 89 to Veneznela and the remainder (in small lots) to other markets. There was a comparatively light demand for cotton goods at agents' hands, and the late lull in business (coupled with the steady decline in cotton) has cansed some weakness in certain makes of brown and bleached cottons, &c., although the best heavy standard sheetings, drills, fine and medium-fine bleached goods, wide sheetings, denims, ducks, ticks. &c., are still steadily held because of the meagre supply. Jobbing quotations for cotton goods have shown great irregularity, and many makes of brown and bleached goods were offered by leading jobbers dnring the week at considerably less than agents' prices, in order to stimulate business. Print cloths were in good demand at 334@31/sc. plns 1 per cent for 64x64s, and 31/4c.@33/sc. for 56x60s, the outside figures having been freely offered at the close of the week. Prints and lawns were sluggish with agents, but the jobbing trade was more active and there was a steady movement in ginghams and seersuckers.

DOMESTIC WOOLEN GOODS.—The anticipated improvement in the demand for men's-wear woolens has not yet taken place, notwithstanding the presence of a good many buyers in the market. Heavy cassimeres and suitings adapted to the wants of the clothing trade have received some attention, and fair orders were placed for specially desirable styles; but the general demand lacked spirit, and buyers were not only critical in their selections, but exacting in regard to price concessions.

Heavy-weight worsted coatings were in moderate request, as were fancy-backed overcoatings; but beavers and cloakings remained quict. Light-weight clothing woolens were slow of sale, but fair deliveries were made by agents on account of old orders. Heavy satinets were in fair demand, and some makes are sold in advance of production; but Kentucky jeans ruled quiet, and flannels and blankets were in limited request, though steady in price. Worsted dress goods were moderately active in jobbers hands, but quiet with agents, and Shetland shawls were in fair request.

FOREIGN DRY GOODS.—There was a freer movement in most descriptions of foreign goods from jobbers' hands, but business rnled quiet with importers. Black and colored cashmeres were in moderate request, but stocks are large and prices are not very satisfactory to importers. Fine black, colored and fancy silks were in fair demand, but low grades moved slowly, and prices are unremunerative. Linen goods, white goods, laces and embroideries, were severally quiet in first hands, but a fair business was reported by jobbers. For men's-wear woolens there was a moderate inquiry by cloth jobbers, and the tailoring trade and Italian cloths and linings were in fair request.

Importations of Dry Goods.

The importations of dry goods at this port for the week ending March 17, 1881, and for the corresponding weeks of 1880 and 1879, have been as follows:
