The Chronicle.

THE COMMERCIAL AND FINANCIAL CHRONICLE is issued every Saturday morning, with the latest news up to midnight of Friday. [Entered at the Post Office at New York, N. Y., as second-class mail matter.]

TERMS OF SUBSCRIPTION-PAYABLE IN ADVANCE:

Advertisements.

Transient advertisements are published at 25 cents per line for each insertion, but when definite orders are given for five, or more, insertions, a liberal discount is made. Special Notices in Banking and Financial column 60 ceuts per line, each Insertion.

London and Liverpool Offices

The office of the CHRONICLE in London is at No. 74 Old Broad St reet and in Livorpool, at No. 5 Brown's Buildings, whore subscriptions and advertisements will be taken at the regular rates, and single copies of the paper supplied at 1s. each. WILLIAM B. DANA, JOHN G. FLOYD, JR.

WILLIAM B. DANA & CO., Publishers, 79 & 81 William Street, NEW YORK. POST OFFICE BOX 4592.

A neat file cover is furnished at 50 cents; postage on the same is 17 cents. Volumes bound for subscribers at \$1 20. A complete set of the COMMERCIAL AND FINANCIAL CHRONICLE-July, 1865, to date-can be obtained at the office.

THE FINANCIAL SITUATION.

The announcement on Monday of the Treasury programme for which Wall Street has been anxiously waiting so long, has furnished the topic of discussion for the week. We outlined the plan briefly in our last issue ; today we comment upon it in a subsequent column, and in our news department give the official circular.

Of course every one is seeking to forecast the effect on our markets of these arrangements. With regard, to money, the better opinion seems to be that the prospective Treasury movements have settled the question in favor of continued ease during coming months. In the first place, the evident result will be to draw down and set afloat the Government balance, which is now very large. For instance, on the first of April, 1880, the Treasury held of gold, legal tenders, and national bank notes only 172 million dollars, and in subsequent months this balance con-

tinued to be reduced, until on September 1 the holdings were only 162 millions; now the Treasury reports that there was 199 million dollars of the same kinds of currency on hand April 1. Here is an excess of holdings in favor of this year of 37 millions over the lower, and of 27 millions over the higher total. Besides that, the Secretary under the Sundry Civil bill has the right to use at his discretion other funds he holds; and as it is evidently his policy not to put out the 105 million of unissued 4 per cents unless he needs them, it may be presumed that through the Summer his balance will be drawn down to a considerably lower point than last year. Then again—and this we deem a very important circumstance this arrangement with regard to the maturing bonds fixing the interest at 34 per cent, will enable tho banks to take out circulation, which they will at once proceed to do. According to all appearances, Mr. Windom's offer will be readily and almost universally accepted on the 6s, and after that the same arrangement will be extended to the 5s with equal success. The probability would seem to be that this very clever device will do away with all necessity for a refunding bill and that the bonds will be left as they are until they are paid, as no better terms for the Government, and probably not so good, could be made by funding next year. For these reasons it is believed the banks will be active competitors for the bonds, and that under them there will be a decided tondency towards an expansion of bank currency.

. 4.5.

This latter fact, taken in connection with the large arrivals of gold, evidently leads to the presumption of a plethora of money during coming months ; and that condition, under the circumstances-whether desirable or notis likely to foster speculation. Wall Street, however, was inclined at first to take a different view, its disappointment growing out of the circumstance that any considerable displacing of investments did not appear probable under the Government plan. This feeling of depression was further encouraged by the news of cutting of rates by the Trunk-line roads, caused in part by the competition of the Mississippi River route, and the speedy opening of the canals; and also by the threat of legislation adverse to the elevated railroad lines, and several other similar unsettling causes. In fact, it would seem as if speculators had tired of the dullness which has prevailed for the past weck or more, and had determined at least to make the market active ; sincc, under existing conditions there was nothing upon which they could advance prices, they daily made attacks upon the most vulnerable points, as the granger stocks, the Trunk-line shares, and the elevated railroad properties. This was more or less successful until Thursday afternoon, when a more reasonable view

prevailed, and the market turned upward and closed Yesterday was a partial holiday, and no business strong. was transacted on the Exchange.

The first effect of the Treasury announcement upon the Government bond market was to dcpress the 4 per cents, on the ground that there would be no demand for them from the banks, as the banks would not be required to disturb their 6s. But subsequently the 6s came into active request and the 4s recovered on the idea that the success of the present arrangement would lead to the Treasury offering no more than 3 per cent in extending the 5s, and that therefore the 4s would then be regarded as a more desirable security for circulation, since even at present quotations they would yield a little more than 31 per cent. We cannot believc, however, that Mr. Windom will think it best to make any change in the arrangements with regard to the 5s. What we have said above shows what is really the key to the success of the proposal respecting the 6s; that is, that the banks want them for circulation because there is a fair profit in issuing circulation on such a bond. But if the rate is put at 3 per cent, while the Government retains the option, as it must, to pay the bonds at any moment, the whole situation will be changed.

The flow of gold from Europe has continued to increase in volume during the week, every steamer bringing more or less, and the cable almost daily announcing withdrawals of bullion from the Bank of England for shipment to this port. The arrivals since our last have amounted to \$4,891,928 and the shipments reported by cable to \$1,500,000. This makes over \$3,000,000 known to be in transit ; but doubtless large shipments have been made from London, Havre and Hamburg of which the cable has made no mention. The Paris correspondent of the London Economist in correcting the dispatch to the effect that the Bank of France is paying three-fourths gold says "the Bank is very chary of its gold. That which it " pays is principally in pieces of ten francs, which are almost "useless for export, and it gives gold only in small sums as "a favor to customers." The Bank of England return for the week shows a loss of £730,000 bullion, and the proportion of reserve to liabilities is down to 435 per cent. Last January, after there had been a sharp fall in the percentage, the rate of discount was raised to 31 per cent. A similar course may not be taken now unless the drain of gold should continuc heavy. The Bank of France shows a loss of 8,728,000 francs gold and 1,925,000 francs silver. The following shows the amount of bullion in each of the principal European banks this week and at the corresponding date last year.

	April 1	4, 1881.	April 15, 1880.		
	Gold.	Silver.	Gold.	Silver.	
	£	£	£	£	
Bank of England	26,225,380		28,283,387		
Bank of France	23,566,232	48,983,030	32,617,212	50,161,313	
Bank of Germany	9.153,508	19,284,482	9,532,000	19,064,000	
Total this week	58,945,120	68,267,512	70,432.599	69,225,313	
Total previous week					

The above gold and silver division of the stock of coin of the Bank of Germany is merely popular estimate, as the Bank itself gives no information on that point.

Foreign exchange has been steady this week. The demand has chiefly been for remittance for gold and United States bonds imported, and the supply has come from bills drawn against securities bought in our market for European account, the outflow of which has been large during the week. Were it not for bills made by this movement, it is thought probable that rates would have advanced, although the market will be likely to receive a supply of commercial bills within a few days which will check any decided rise. The margin of profit in cable transactions,

in securities is shown by the following table, which gives the relative prices in London and New York at the opening each day.

27/8	Apri	April 11.		April 12.		April 13.		ril 13. April. 1		2. 14	April 15.

Expressed in their New York equivalent. † Reading on basis of \$50, par value. ‡ Ex interest. NOTE.—The New York equivalent is based npon the highest rate for cable transfers, which ordinarily covers nearly all charges, such as interest, insurance and commissions.

Money has been in fair supply on call at the Stock Exchange. The domestic exchanges at Chicago and St. Louis have risen, the rate at the former place standing par to 25 cents per \$1,000 discount, and at St. Louis 25 cents per \$1,000 premium. This indicates a further turn upward at Chicago sufficient at least to check the flow of currency from New York to that point. Boston is still drawing upon this centre, and the rate there is down to 25 cents per \$1,000 discount. The Treasury operations since Friday inclusive have resulted in a loss, which is a gain to the banks, of \$4,346,130. The net loss by the Treasury yesterday was \$1,472,431. The payments have chiefly been for Assay-Office checks, and about \$1,000,000 for called bonds. The payments by the Assay Office have amounted to \$4,804,136 and there are about \$2,500,000 bullion to be settled for. The last bank statement was doubtless made on rising averages, therefore this week it should show a gain in reserve. The following exhibits the gold and currency movement by the leading city banks for the week ended Thursday.

1	Received.	Shipped.
Currency Gold		\$496,000 755,000
Total	\$988,400	\$1,251,000

The Bank of America received \$2,000,000 gold during the week from the associated banks for deposit in the vault.

MR. WINDOM'S SUBSTITUTE FOR RE-FUND-ING.

The best commendation Mr. Windom could receive of the plan he has adopted for refunding the debt is probably the character of the criticisms which have been made upon it. No one seems to claim that the Secretary is not proposing a remarkably clever and favorable arrangement for the Government, nor that he is not doing the fair thing towards the bondholder, nor that it will not be successful, nor that his plan is not wisely conceived so as to disturb as little as possible the industries of the country. On the contrary, it would appear that every interest of the Government, the bondholder and the people is protected and benefited by the arrangement, but-what?-the Secretary has no authority;-what for?-(1) for extending a loan; (2) for putting out a new 31 per cent bond; (3) for agreeing to pay interest after the call matures.

The only force these points possess is in their assumption of facts which have no existence. Mr. Windom evidently does not extend any loan. None of the bonds are due. Those issued under the acts of July 17 and August 5, 1861, are, according to the first section of each act, "redecmable at pleasure after twenty years;" those issued under act of March 3, 1863, are "redecmable at the " pleasure of the Government after such periods as may " be fixed by the Secretary, &c." Only the option has come

due, not the bond. Even this option is in no way affected by the arrangement; no right the Government possesses is waived; no obligation on its part is assumed. The holder simply brings his bond there and without getting any new agreement from the Government whatsoever, lets the Government give him another bond like the present, only reading that hereafter and until paid the interest shall be $3\frac{1}{2}$ per cent. There is not a shadow of evidence that this arrangement makes a new bond or extends an old one, but the facts are clear enough that it does neither.

So the other point urged, that the issuing of the call stops all interest at the maturity of the call, although plausible, is an assumption without sufficient fact to support it. The law with regard to that matter is simply that the Secretary is "authorized with any coin" which he may have or obtain for the purpose "to pay and cancel" any bonds which may become redeemable; the mode of procedure is to give notice that they.will "be paid and canceled," and if the Secretary gives any such notice, three months after its date the interest on the bonds "so selected and advertised "to be paid shall cease." The purpose of this provision is simply to indicate to the Secretary how he can stop interest when bonds are called for payment and not presented. This weapon is put into his hands that ho may be able to force the presentation for redemption. But in this case the Secretary has made no such call; he has only announced that he will pay July 1 all of the bonds desig. nated by him which are not presented for exchange on or before May 10. That is to say, he has not designated all the bonds for payment and cancellation, but only such as the holders do not present and agree to take 34 per cont on hereafter. To such as come in under the proviso, the notice of course does not apply, for as to them it is within neither the letter nor the intent of this provision of the law.

But all that kind of argument will seem to the public very captious and the issue raised an extremely trifling one-a mere quibble to rest opposition upon. For the truth is-and this is within the comprehension of every one-Mr. Windom has been wonderfully happy in his choice of a method. Congress left him with these options maturing, with no money to pay the bonds, with interest ruling on Governments not over 34 per cent while it was paying 5 and 6 per cent, and with the entire business interests of the country praying not to be disturbed through refunding by the forced withdrawal of bank currency or otherwise. Having these as the conditions to be met and provided against, and so few expedients within control, he has contrived an arrangement which will leave the whole subject, just where it is now, when Congress comes together in December, except that in the meantime and until a plan of refunding is perfected, the bonds will draw and the Government will have to pay only 31 per cent interest instead of 5 and 6 per cent. Furthermore, the plan is going to work without a jar-it will be successful beyond all anticipation. Now does it not smack of charlatanry, for a person to stop and quibble over the wording of a notice with such a result as that achieved ?

But there is still another feature, and for the Government perhaps the most favorable one of this arrangement, which has not been commented on as far as we have seen—and that is, that it wholly does away with the necessity of ever passing a refunding bill. In fact, would any refunding bill that has ever been devised put the Government and the country in so satisfactory a position? After all the 5s and 6s have been changed there will be a 3½ per cent loan, all placed and yet payable at, and only at, the pleasure of the Government.

Besides that, so long as these bonds are outstanding and not much above par, bank currency will not decrease but tend to increase, for there is a fair profit in issuing currency under a 34 per cent bond; and hence that irritating question, which the fifth section of last winter's funding bill raised, is lifted out of the reach of-or if not strictly out of the reach, at least out of the probabilities of definite action by-Congress. Then again, what a relief it would be to our industrial interests if there need be no more discussion in or out of Congress about refunding measures; for while such discussions are in progress our money market, and consequently enterprise of every kind, is in constant uncertainty, and therefore under a fear of what the Treasury Department will do next. It will be a happy day for the country when governmental influences are wholly eliminated from those hanging over or affecting our money market. We say, therefore, that Mr. Windom has devised and adopted a very happy conceit, for he has not only bridged his present difficulty-given us as low a rate of interest as any one could hope to secure on an optional bond-but has made it entirely unnecessary for the next Congress to touch the subject of refunding.

MR. GOWEN AND THE READING RAILROAD. The long-continued struggle for the control of the directory of the Philadelphia & Reading between the McCalmont interest and the Gowen party, has culminated this week in the decision of the Court of Common Pleas of Philadelphia in favor of the former.

It will be remembered that the annual election, which was to have taken place January 10, was postponed to March 14, at the instance of Mr. Gowen. On March 14, Mr. Gowen, finding a large part of the stock for which he held proxies had not been registered the required length of time, and fearing that this would be ruled out by the Court, concluded to stay away from the meeting. He based his action on the idea that the meeting could be considered a special one, at which it was necessary that a majority of all stock outstanding should be represented. At an annual meeting for the election of directors a majority is not required. The Court, however, now decides that the meeting of March 14 can not be considered a special one, but must be regarded as a deferred meeting for the purpose of performing the annual duty of electing directors, and that, therefore, the McCalmont ticket, headed. by Mr. Frank S. Bond, has been duly elected. Mr. Gowen's only recourse is an appeal to the Supreme Court of the State, which it is understood he will take. This will occasion further delay, though there is little probability that the decision will be reversed.

But as to any change of control of the property with a change of directors, thero cannot be any immediate prospect. The three receivers still continue in possession, and with them Mr. Gowen's counsels usually prevail. For the present, therefore, he must continue to have the management of the company's business, and the new directors will have comparatively little power to interfere. Except as respects what falls within the province of the stockholders alone, and outside the duties of the receivers, the new board will be able to do nothing to obstruct the management of affairs. But in the matter of the deferred-bond scheme and the general mortgage, it seems likely that the directors will have supreme control, and it was for this reason, doubtless, that Mr. Gowen fought so strenuously to maintain the old board of directors in power.

By the order of the United States Circuit Court at Philadelphia, February 14, the sanction which it was supposed was given to the schemes by a previous order of the Court, was declared to be beyond the power of the Court to give; and the further opinion was expressed that it was a matter which should be left to the company in its corporate capacity, the power to be exercised according to the privileges of its charter, and that approval or disapproval of the course of action taken by the directors could be expressed by the stockholders at or by the election. Decision upon the motion for an injunction against the schemes was postponed, and has not yet been given, but it is possible that the Court would not interfere if the new board arrived at the same conclusion as the old board and approved the plans. .

It is yet too early to form an opinion as to what the new management intend to do; but as regards the deferred bond plan, as the bonds have all been subscribed for and the money is to be used to retire pressing floating obligations, and no addition will be made to the company's annual fixed charges, it would certainly seem advantageous to allow the scheme to be perfected. In the case of the general mortgage, too, if there is a prospect that even a part of the bonds can be refunded, and thus a saving in interest be effected, the idea should most assuredly be carried out. There is no reason to suppose that the new management is not as competent to deal with these questions, or to carry the plans into successful execution, as the old one was. On the contrary, while Mr. Gowen should receive full credit for having suggested and elaborated the propositions, it is questionable whether, if the old Board remained in control and he had full sway as heretofore, his sanguine temperament would not ere long again lead him into serious errors, and in this way counterbalance any good that would otherwise accrue. It was Mr. Gowen who advised the purchase of the coal lands and thus involved the railroad company in a large and constantly increasing amount of indebtedness. It was Mr. Gowen who took so favorable a view of the future that he continued to pay dividends on the stock some time after there was warrant for doing so. It was Mr. Gowen who estimated, only about four months before the failure of the company, that the concern was in a position then to earn not only all its fixed charges, but 12 per cent besides on the stock. No one has ever denied to Mr. Gowen ability of a superior order, but his extreme optimism has frequently led him into courses that more prudent men would have avoided. He has never been able to see the less favorable side of a question, and as a consequence the company is now weighted down with a load of debt under which it will suffer for many a day to come. While saying this much we do not fail to recognize his ardor on behalf of the company, or his close application to its business. Nor do we forget that he has now become familiar with every detail of its affairs. This knowledge, indeed, is invaluable in any attempt to arrive at a correct understanding of the company's complex condition, and it would be well if Mr. Gowen, in his capacity as receiver, could be induced to work in harmony with the new directors. His power to be of great service in this respect is unquestioned.

LEGISLATION WHICH MUST BE OPPOSED.

Our State Legislature is just now in danger of giving new proof of the wisdom of an old lobbyist, who used to say that the easiest mode for securing legislation was to administer it to our law-makers in bulk. In that shape they will, he said, bolt it as a Hoosier does his food; whereas in piecemeal it would be quarreled over a whole session without results. This winter, oleomargarine has occupied days and weeks of time, and apparently is no nearer settlement now than when the, bill was introduced ; but Mr Field's

dence of the State of New York, goes pop through the Assembly with only two dissenting votes.

So far as we can learn, but few persons, either lawyers or laymen, have any idea what this code really contains. We doubt whether one in a hundred of those who voted for it. has read a dozen of its provisions. And yet it is, briefly speaking, a collection of over two thousand sections, covering almost the whole law of the State, including definitions and maxims, and abolishing the common law bearing on the subjects included. A lawyer who has examined it tells us that it changes existing laws in over a hundred particulars, affecting in many ways the private rights of every person in the State. Let us mention, by way of illustration, a very few of these changes which we have hastily selected.

By section 1,762 it is required that notice of protest must be deposited in the Post Office in time for the first mail which closes after noon of the first business day succeeding the day of dishonor, and which leaves the place where the instrument was dishonored for the place to which the notice is sent. It will be necessary, therefore, not only for a notary to put all his New York notices in the post by 12 o'clock, in order to be safe, whereas now he has the entire day to do it in, but it will be further necessary that if a note is held in New York and payable in Brooklyn, the notary should, after making the presentment in Brooklyn, take his notices to that city and deposit them there before noon of the following day, instead of depositing them in the New York Post Office at any time during that day, as he may now do. For it will be noticed that the deposit must be made in the Post Office of the place where the paper was dishonored. Can any one give any good reason for these new requirements?

The provisions of law respecting landlord and tenant also experience great change. At present a landlord is required to do only such repairs as he agrees to do, except indeed those which are required of him by the municipal authorities. It is proposed, however, in section 990, to change this by expressly providing that the tenant must do such repairs as are occasioned by his own ordinary negligence, and that the landlord must put the building in a condition fit for use and repair dilapidations. A right is also given to the tenant, after notice to his landlord, to repair dilapidations himself and deduct the expense from the rent. We can hardly conceive of any provisions likely to be more fruitful of disputes and litigation than these. The present rules governing the relation of landlord and tenant are sufficiently explicit, and are thoroughly understood, and the policy of changing them at all seems to us to be a very doubtful one. We notice, too, the further provision in section 998 that one who hires a part of a room is entitled to the whole room, notwithstanding any agreement to the contrary, and that if a landlord rents a room as a dwelling for more than one family, every tenant in the building is relieved from all obligation to pay rent to him while such double letting continues. This latter penalty seems to prevent the collection of any rent from any tenant in any portion of the building for the time during which the landlord may have been guilty of any such gross impropriety as letting a single room to two sewing women with a child each.

But there is one section, 1,863, which will affect, with peculiar force, the stock brokers' business. We all remember the cases of apparent hardship which resulted from the strict construction of the Court of Appeals, which held it necessary that all stocks pledged on margin should be sold out under the rules governing ordinary cases of pledge, and allowed damages to Civil Code, which changes the entire system of jurispru- the extent of the highest value that the stock might

have attained before the day of trial. Subsequently, however, the Court of Appeals reviewed the point of damages, and limitod it to the price that the stock might attain within a few days after the illegal sale, stating very reasonably that the owner of the stock might have replaced it at such a price if he had deemed it proper to do so, and that it was extremely improbable that he would have held it and sold it out at the moment when it had attained the very highest price. But now the Code proposes to restore the old rule, and stock brokers are in danger of finding themselves exposed to all the severe consequences which followed from the rule now proposed to be made a part of our statute law.

We notice, moreover, that stringent provisions with regard to railroads are inserted, and that no common carrier is allowed to limit his common law liability except by an agreement in writing, signed by the shipper. Further, the Code makes no provision exempting railread mortgages from the necessity of being filed and renewed as chattel mortgages. The provisions respecting the filing of such mortgages apply as well to those made by railroads as by other mortgagers.

Perhaps, however, one of the most vicious provisions this Code contains is section 543, which provides, contrary to the present decisions, that no person having any " insanc delusion" is competent to make a will. What may not hereafter be called an insane delusion, if this change is made? Such an oxpression does not mean insanity. A dclusion is simply a deception, something that misleads the mind. Whately says that "a fanatic, either religious "or political, is the subject of strong delusions." So an "insane delusion" might be held to be any unsound fancy which misleads in any degree and influences one's acts. Even the mind of the sailor, who refuses to sail on Friday, might bo found wanting weighed in such delicate scales. And only think how wide open such a provision would throw the door for that most objectionable of all litigation, the contesting of wills, and for the disclosure of the secrets and privacy of the family circle.

We have thus called attention to a very few of the changes which this new Code proposes to make in the law. We have not timo to multiply them, although it might be done advantageously. We might speak of the extraordinary changes in the domestic relations and in the laws of descent. There are, of course, new features in the Code that appear to us desirable, but this is not the point. If any one of theso subjects had come before the Legislature solely and on its own merits, it would have been carefully considered and acted upon by an intelligent vote; but as they all come now together in a lump, our legislators seem to consider it proper to pass them, without thought or consideration. We are glad to see the Law Association has taken up this matter, and we think our merchants and bankers and brokers should all of them join in the opposition to such hasty and unadvised legislation.

SILVER PRODUCTION AS A SOURCE OF WEALTH. [Communicated.]

The whole discussion of the so-called silver question has, by the advocates of silver, always proceeded upon the idea that because we are large producers of silver it is therefore of great importance to the nation that its price should be sustained.

In point of fact, if every silver mine in the United States should give out, and we ceased to produce an ounce, it would not be of the slightest consequence to any one but the owners of the mines and a small body of laborers who are employed in them.

There is a strange glamour surrounding this question of the precious metals that obscures the real issue; and until we sweep away the rubbish, we shall not reach the true facts.

What are the true facts? We have brought our entire traffic, both foreign and domestic, to the gold standard; and being the producers of cotton, of corn, of meat, and of other substances that Europe must take and pay for in whatever coin we choose to demand, or else starve, we command the gold coin of the world, and could do so if we did not produce an ounce ourselves.

Wo have commanded it to flow into our coffers, and it has come; and it will continue to come until we shall be forced to spend it because we shall have so much that we shall not know what to do with it. In witness of this, there is at the moment a larger quantity of gold in the Treasury of the United States than was ever accumulated at one time and in one place before.

We are now called upon to give up this vantage ground, to leave the gold standard on which the whole commerce of the world is, has been, and will continue to be transacted, whether we like it or not;—we are called upon to give up this vantage ground, disturb all our exchanges, inject another element of confusion into our monetary system, all in order that wo may make a market for silver.

Let us consider the facts. The largest production of silver that we ever mado in any one year, was \$47,000,000; and for a few years it averaged, say, about \$40,000,000; in which years the great bonanza kings accumulated their fortunes.

It is safe to say that in these years of large production, at least twenty-five per cent of the product, probably a great deal more, went into the pockets of the legal or astute owners who had secured the control of the stamp mills, fuel supply and other appurtenances with which the ores of the bonanza mines were converted into bullion; in the average of these years in which the production was \$40,000,000, not over \$30,000,000, probably much less, went to sustain the laborers who did the work and to pay their wages. Their wages are notoriously very high in money, although the money at the mines has not very great purchasing power.

How many men will \$30,000,000 pay at the average of \$3 00 a day, \$3 00 being rather a low standard for miners' wages? At the Comstock lodo they are \$4 00 below and \$3 00 above ground. They are not apt to regard Sundays very much in mining camps, but for this purpose we will admit that miners only work three hundred days in the year, like other people. The smaller the number of days we take as a divisor, the larger the number of men we shall find to bo employed. Thirty millions a year, divided by 300, gives \$100,000 a day spent; and \$3 00 a day would cover the work of thirty-three thousand three hundred and thirty-three men and one boy; and that is all. Somebody may say that there was another large force engaged in trying to find more silver mines. Suppose there were double the number supported in that unprofitable employment. The more there are of that sort, the more burden comes on the country to sustain them. Somebody had to make the crops, the garments, the boots and tho tools that they used, and their support comes out of the victims of the speculators in silver mines.

It would be by no means wise to undervalue the effective labor of 33,000 men; but these men would not have been under the necessity of ceasing to work if there had been no silver mine to work; on the contrary, they might have been engaged in some more profitable employment, under much better conditions of life, subject to much less hardship, and engaged in adding to the capital of the country semething which the country really needs, rather than increasing the stock of a metal of which there was already more than the country could use.

It is doubtless true that there has been and is this large additional number to whom I have referred, who have not and never will succeed in producing any silver. That condition is perfectly consistent with the best estimate that I have been able to obtain-an estimate made by the owner of one of the largest ore-reducing works in the world-that every silver dollar's worth of bullion that has been extracted from the silver mines of the United States in the last ten or fifteen years, has cost at the very lowest two gold dollars worth of labor. That is to say, that if the work of fifty or sixty thousand men that have been engaged in producing or trying to produce silver, had been applied to some other useful purpose, such as mining iron, mining coal, or agriculture, the value that they would have added to the stock of the country would have been twice the value of the silver.

By all this fuss over silver, we are therefore making great disturbance in respect to a production that in its labor cost is about equal to the export only of butter and cheese during the year 1880, that is not worth one-tenth part of the hay crop of the United States, that is not worth one-eighth part of the cotton crop, that is not worth considering for an instant in comparison with fifty other articles that this country can produce, that the world needs, and in which the production would be of greater value than silver if the same labor were systematically applied to it. The claim of the owners of silver mines and reducing works to be protected by special legislation at the cost of all other producers of the country, is therefore absurd. Their branch of productive industry constitutes about one two-hundredth part, or half of one per cent, of our whole production.

If the laborers who are now engaged in the actual production of silver, together with those who are trying to find **a** mine and to add to that production, could only be induced to engage in some other branch of useful occupation, they could buy with the product of their labor twice as much silver as they now produce; only they would not do it, because nobody wants it; and if they bought it, they could not sell it any better than the Trcasury of the United States can now force it into circulation.

The purpose of this prosaic treatment of the silver question is to prove that this country was out of a bad scrape, and might have kept out, had it possessed the wisdom to do so; and that it is a matter of very slight consequence to the nation whether the production of silver as a commodity increases, diminishes, or ceases altogether.

Boston, April 11, 1881.

E. A.

UNITED STATES TREASURY STATEMENT. The following statement, from the office of the Treasurer, for April, was issued last week. It is based upon the actual returns from Assistant Treasnrers, depositaries and superintendents of mints and assay offices:

LIABILITIES, APRIL 1, 1881.

Post-offico Department account	\$2.978.077
Disbursing officers' balances	20,352,063

From our own correspondent.

LONDON, Saturday, April 2, 1881.

The demand for money for mercantile purposes continues upon the most moderate scale, but, in consequence of a continned inquiry for gold for export to America, and to the introduction of additional public companies, the rates of disconnt have been firm, though without mnch change being apparent. The position of affairs is precisely the same as that described last week, and there seems to be no reason for believing in any immediate alteration. That there is a large amount of financial business in progress is very evident from the returns of the Bankers' Clearing House. In the retnrn which follows will be seen the position of the Bank of England and the amount of the clearings each week at the Clearing House, and it will be noticed that the latter show a very large increase both over last year and 1879. Compared with 1880, in fact, there is an improvement of about £150,000,000, and compared with 1879, of nearly £400,000,000. Trade has certainly not assisted in this large development of business, and it can only be attributed therefore to largely augmented Stock Exchange operations, and to the rapid introduction of new loans, and especially of new companies. The snpply of gold held by the Bank of England, which at the commencement of the year amounted to £24,269,276, has steadily increased, until on March 23 the total reached £28,119,380; but the last return of the quarter showed a slight reduction, though the supply amounted to as much as £27,857,848. The reserve of notes and coin at the commencement of the year was £12,315,436,and on March 30 was £17,022,-513, after being on March 23, £17.888,185. The small diminution in the supply of gold is partly due to the quarterly disbursements, as well as to the American demand, and from the same cause the note circulation is also somewhat larger. The Bank of England is still in a very good position. The proportion of reserve to liabilities is 47 per cent, showing an improvement of nearly 11 per cent compared with the first week of the year, when it was only 36.16 per cent. The note circulation has fallen off since the commencement of the year to the extent of £1,100,000, and the total of "other securities," though it has been increasing since the second week in January is still about

£1,500,000 below the amount given in the first return of the year. There have been two changes in the Bank rate, viz., from 3 to 3½ per cent on January 13 and a return movement to 3 per cent on February 17. Consols have risen from 98% to 100¼, the price at the date of the last Bank return being par exactly. The following are the tables referred to : BANK OF ENGLAND RETURNS, &C., FOR THE FIRST QUARTER OF 1881.

Gold has been in moderate demand for shipment to New York, but there has been a fair arrival from Australia. The silver market is in an uncertain condition. Fine bars are qnoted at 52d. and Mexican dollars at 51¹/₄d. per ounce. Mr. Slagg, M. P., placed yesterday in the hands of Lord Hartington, a memorial with 1,700 signatures, including those of nearly all the leading firms in and abont Manchester, expressing the strong desire of the memorialists that England-and especially India-should be represented at the approaching Monetary Conference, in order to the restoration of silver to its due place in the monetary system of the leading powers. Mr. Gladstone stated the other day that the invitation committed this country almost to bi-metallism, and for that reason the Government is hesitating abont accepting it.

The following are the current rates of discount at the principal foreign centres :

Paris. Amsterdam Brussels.	310	Open market Pr. et. 3 ¹ 8 2 ³ 4 3 ¹ 4	Bank rate. Pr. et. St. Potersburg	Open market, Pr. ct. 6 4
Genoa. Berlin. Frankfort. Hamburg. Vienna.	44	4 218 214 214 338	Spanish eltles. 4 Lisbon & Oporto. 5 Copenhagen31224 New York	5 5 312 5@6

During the week ended March 26 the sales of home-grown wheat in the 150 principal markets of England and Wales amounted to 31,190 quarters, against 21,197 quarters last year and 42,230 quarters in 1879; while it is computed that they were in the whole kingdom 124,760 quarters, against 103,770 quarters in 1880 and 169,000 quarters in 1879. Since harvest the sales in the 150 principal markets have been 1,140,520 quarters, against 939,276 quarters in 1879-80 and 1,660,946 quarters in 1878-9, the estimate for the season being 4,562,000 quarters, against 3,793,220 quarters and 6,644,000 quarters in the two former seasons respectively. Without reckoning the supplies farnished ex-granary at the commencement of the season, it is estimated that the following quantities of wheat and flour have been placed on the British markets since harvest. The visible snpply of wheat in the United States is also given :

		1880-1.	1879-80.	1878-9.	1877-8.

NATIONAL BANKS ORGANIZED .- The following-named national banks were organized this week :

2,515-The Ephrata National Bank, Ephrata, Penn. Anthorizod capital stock, \$75,000; paid-in capital, \$75,000. William Z. Semer, President; H. J. Meixell, Casbior.
2,516-The Merchants' National Bank of Doffance, Ohio. Authorized capital, \$100,000; paid-in capital, \$100,000. William C. Holgato, Fresident; Benj L. Abell, Cashier.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports of last week, compared with those of the preceding week, show a decrease in both dry goods and general merchandise. The total imports were \$5,919,287, against \$9,613,811 the pre-ceding week and \$9,937,761 two weeks previons. The exports for the week ended April 12 amonnted to \$7,163,237, against \$9,044,878 last week and \$7,418,223 two weeks previous. The following are the imports at New York for the week ending (for dry goods) April 7 and for the week ending (for general merchandise) April 8; also totals since January 1:

FOREIGN IMPORTS AT NEW YORK.							
For Week.	1878.	1879.	1880.	1881.			
Dry Goods Gen'i mer'dise	\$1,474.235 4,140,323	\$1,309,076 4,195,980	\$2,571,346 6,366,733	\$1,905,907 4,013,380

Of the above imports for the week in 1881, \$17,650 were American gold coin and \$44,479 American silver coin.

UNITED STATES TREASURY .- The following is the circular of Secretary Windom, which includes the Treasnry's one hundred and second call for bonds:

Secretary Windom, which includes the Treasnry's one hundred and second call for bonds: By virtue of the authority conferred by law upon the Secretary of the Treasury, notice is herehy given that the principal and accrued interest of the bonds herein helow designated will be paid at the Treasury of the United States, in the city of Washington, D. C., on July 1, 1881, and that the interest on said honds will cease on that day. Provided, how-ever, that in case any of the holders of the said bonds shall request to have their bonds continued daring the pleasure of the Government, with interest at the rate of 3's per ceut per annum, in lieu of their paymont at the date above specified, such request will he granted if the bonds are received by the Secretary of the Treasury for that purpose on or before May 10, 1881, viz.: Six per cent honds, Acts of July 17 and August 5, 1861; coupon bonds, \$30,706,050; registored bonds, \$109,838,600; total, \$140,544,-650; 6 per ceut honds of the Act of March 3, 1863; coupon bonds, \$49,545,500; registered honds, \$160,250; total, \$55,145,750; aggre-gating \$195,690,400, and heing the entire amount issued under the above mentioned acts which remains outstandiug. The request above-mentioned should be in form substantially as here-with prescribed; and upon the surrender of the bonds are continued during the pleasure of the Government, with interest at the rate of 3's per cent per annum stamped upon them, in accordance with this notice. Upon the receipt of honds to he continued as above provided, the interest and after that date the semi-aunual payments of interest on the contin-ued bonds will be made hy checks from the Department, as in the case of other registered loans. All bonds, whether inteuded for payment or to be continued, should be forwarded to the "Secretary of the Treasury, Lean Division," with a letter of transmission setting forth the purpose for which they are transmitted, and, if to he continued, should be as the case may he, aud when parties desire checks in payment of

To the circular was appended the form of request for con-tinnace of the bonds, but after the issue of the above call, the Treasnry decided to change the form of request which holders of matnring 6 per cent bonds wishing to have them extended at 3½ per cent are to file, and the following form of application was issued:

To the Secretary of the Treasury : Under the terms of the Circular No. 42, issued by the Secretary of the Treasury, April 11, 1881, the undersigned, owner of the below-desoribed United States Six por centum Bond , hereby request that payment be deferred, and that be continued during

the pleasnre of the Government, to hear interest at the rate of three and one-haif per centum per annum from July 1, 1881, as provided in said Circular, and, in consideration of the premises, boreby walve and release all right to, or claim for, any interest on said Bond in excess of three and one-haif per centum per annum on and after said date of July 1, 1881, and in witness thereof have hercunto set hand and seal this day:

Authorizing Act.	Registered or Coupon.	Denomina-	Serial Numbers	Amount.
				\$
[Signature in f			l	f Classes 1

[SEAL.] Note.-The seal should he of wafer or wax, if not executed hy a cor-poration. In case the above request is signed by an efficer of a hank or other corporation, it should be accompanied by the usual resolution authorizing such officer to act for the institution. This form of request will be furnished upon application to the Secretary of the Treasury.

Texas Pacific.—Mr. Jay Gonld has purchased the interest of Colonel Thomas A. Scott in the stock of this road. The sum paid is reported to be about \$2,500,000.

Union Pacific.—In the U. S. Snpreme Court at Washington the following decision was made in the case of Thomas Wardell, appellant, against the Union Pacific Railroad Company, et al.:

the following decision was made in the case of Thomas Wardell, appellant, against the Union Pacific Railroad Company, et al.: "On the 16th of July, 1863, Oliver Ames, President of the Union Pacific Railroad Company, acting by direction of the Exocutive Com-mittee of the board of directors, entered into a contract with Wardeli and others by which the latter were empowered to occupy and work, upon extremely favorable terms, the coal lands helonging to the com-pany along the whole line of the latter's read. Shortly thereafter a stock company, under the name of the Wyoming Coal & Mining Com-pany, was organized, with Wardell and a number of the directors of the Union Pacific Company as its leading stockholders, and to this corpo-ration Wardell transferred bis contract without consideration. On the 15th of March, 1574, the officers and agents of the railread company, by order of its directors, scized the mines, books, papers and personal property of the mining company, and have held and used them ever since. Wardell sues under the contract for damages resulting from such selzure and from the attempted abrogation of the contract. The railroad company sets up as its defense that the contract was void on account of fraud; that it was excented for the contract was void on account of fixed is the ard of directors, a majority of whom, by pre-vious agreement, were the equally interested in it; that, for that reason, its terms were made so favorable to the contractors to make large gains at the railroad company is expense, and that the or gainzation of the Wyoming Coal & Mining Company was a mere device to enable these directors to participate in the profits of the contra-tors to show the utterly illegal and indefensible character of this contract. It was a scheme to enable the directors who authorized it to divide among themselves and the con-tractors large sums of money which should bave heen saved to the traincad company. The complainant, Wardell, can derive no benefit from a contract tainted as this is with fraud,

-Attention is called to the seven per cent bonds issned by the Saline Coal Company of Illinois to build eight miles of railroad and other improvements. The officers and directors of this company embrace some of our prominent business men, and the bonds are offered for sale by Messrs. Joseph U. Orvis & Co., bankers, this city.

-The March dividend of the Deadwood-Terra Mining Com-pany has been declared payable at-the office of the transfer agents, Wells, Fargo & Co., on the 20th inst. Transfers close on the 15th.

-Dividend No. 32 (for March) of 30 cents per share has been declared by the Homestake Mining Company of Dakota, pay-able at the office of Wells, Fargo & Co., 65 Broadway, on the 25th inst.

-Mr. H. H. Hollister has been appointed Treasurer of the Burlington Cedar Rapids & Northern Railway Company, vice Alexander Taylor, resigned.

BANKING AND FINANCIAL.

FISK & HATCH,

BANKERS,

AND DEALERS IN GOVERNMENT BONDS, And other desirable Investment Securities,

NO. 5 NASSAU STREET, NEW YORK.

Buy and sell all issues of Government Bonds, in large or small amounts at current market prices, and will be pleased to furnish information in

reference to all matters connected with investments in Government Bonds. We are prepared to give information in regard to first-class Railway

Securities and to execute orders for the same. Buy and seil all marketable Stocks and Bonds on commission, at the

Stock Exchange or in the open market. Receive accounts of Banks, Bankers, Merchants and others, and allow interest on daily halauces; and for those keeping accounts with us we collect U. S. coupons and registered interest, and other coupons, dividends, &c., and credit without oharge.

FRIDAY, APRIL 15, 1881-5 P. M.

The Money Market and Fluancial Sltuation.-The Stock Exchange, Cotton Exchange and Produce Exchange are closed to-day (Good Friday); business, therefore, practically ended for our week on Thnrsday evening.

The most important event since our last report was the circular issned by Secretary Windom, dated April 11, definitely calling in the 6 per cent bonds, due July 1, 1881, to the amount of \$195,690,400. The option is given for holders to extend their bonds in the form of a new registered bond, payable at any time at the will of the Government, bearing 3½ per cent interest, payable semi-annually by check to the order of the registered holder. The important part of the Treasury circular reads as follows: "By virtue of the anthority conferred by law upon the Secretary of the Treasury, notice is hereby given that the principal and accrued interest of the bonds hereinbelow designated will be paid at the Treasury of the United States, in the City of Washington, D. C., on the first day of July, 1881, and that the interest on said bonds will cease on that day; provided, however, that in case any of the holders of the said bonds shall request to have their bonds continued during the pleasure of the Government, with interest at the rate of 3½ per centum per annum, in lieu of their payment at the date above specified, such will be granted if the bonds are received by the Secretary of the Treasury for that purpose on or before the 10th day of May, 1881. viz.:

"Six per cent bonds, acts of Jnly 17 and Angust 5, 1861-Coupon bonds, \$30,706,050; registered bonds, \$109,838,600; total, \$140,544,650. Six per cent bonds of the act of March 3, 1863-Coupon bonds, \$9,545,500; registered bonds, \$45,600,250; total, \$55,145,750. Aggregating \$195,690,400, and being the entire amount issued under the above-mentioned acts which remains outstanding."

The course of Secretary Windom in giving attention to the sixes and positively disposing of them (at least as a six per cent obligation) appears to meet with general satisfaction, and the conclusion is reasonably drawn that the tendency of the Treasury operations must naturally be towards keeping the monetary situation easy, whatever may be done with the fives after the negotiation with the sixes is finished. Some of our dealers in Government bonds think that nearly all of the large holders of the six per cents, who are within reach of the Treasnry, will present their bonds before May 10, and take the registered 3½

present their bonds before May 10, and take the registered $3\frac{1}{2}$ per cents in place thereof. But it is yet too early to estimate the amonnt likely to be so exchanged. The money market has been quite easy and the tendency is towards lower rates. On call loans the range has been from $3\frac{1}{2}$ to 6 per cent. Prime commercial paper is in good supply, owing to the slow distribution of goods at the West this spring, but rates are about the same and the quotation of $5\frac{3}{2}$ per cent is made for prime paper running 60 to 90 days. The Bank of England statement on Thursday showed a decrease of 4730.000 in specie for the week, and the reserve was $43\frac{5}{6}$

of £730,000 in specie for the week, and the reserve was $43\frac{3}{6}$ per cent of liabilities, 'against 45 3-16 per cent last week; the discount rate remains at 3 per cent. The Bank of France shows a decrease of 8,725,000 france gold and 1,925,000 frances silver.

The last statement of the New York City Clearing-House banks, issued April 9, showed an increase in the snrplns above legal reserve of \$757,525, the total surplus being \$2,205,175, against \$1,447,650 the previous week. The following table shows the changes from the previous week and a comparison with the two preceding years :

	1881. April 9.	Differ'nees fr'm previous week.	1880. April 10.	1879. April 12.
Loans and dis. Specie Circulation Net deposits . Legai tenders.	$ \begin{array}{c} 60.429,600 \\ 16.709,000 \\ 282.788.500 \end{array} $	Iuc. 7.293.100	$\begin{array}{r} 52.023,600\\ 20.987,900\\ 256,267,800\end{array}$	18,903,900 19,696,100 195,303,700

Surplus	\$2.203.175	Inc. \$737,525	def. \$107,450	\$6,223,375

Unltcd States Bonds.—The Government bond market has been quite steady, and closed firm on Thursday evening at 114@ 114% for the four per cents. The new 3½ per cents have been

qnoted as high as 101 when ready for delivery July 1. In addi-tion to the call of the sixes of 1881, the Oregon War loan of \$688,200 has been called for payment July 1, 1881. The outlook of the Government bond market appears to be strong, and nnder the existing situation it is impossible to say what is the prospect of further issues of the four or four-and-a-half per cent bonds. The closing prices at the New York Board have been as follows:

I. The second	Interest Periods.	April 9.	A pril 11.	April 12.	April 13.	April 14.	April 15.

State and Railroad Bonds.—There has been a rapid decline in the speculative business in Southern State bonds, and in striking contrast with last week's extraordinary activity was the New York Stock Exchange List of yesterday, when there was not a single sale reported of a Southern State bond, except \$2,000 of

high-priced Georgia bonds. Railroad bonds have been tolerably active, with a well-dis-tributed business throughout the list. The I. B. & W. income bonds advanced above 91 and C. C. & I. C. incomes sold up to 73. Erie second consols continue to be one of the favorite speculative bonds, selling about 1011/2, carrying over two per cent accrued interest. The following securities were sold at the Exchange Salesroom:

Railroad and Miscellaneous Stocks.-The stock market has Railroad and Miscellaneous Stocks.—The stock market has shown a fair degree of animation, and so far as the Treasnry policy could affect prices there was nothing to exert a depressing influence. The principal matter of general importance was the reduction of East-bound freight rates by the trunk lines, and the report that the pooling arrangements had to some extent been broken. This reduction was, in fact, made by the Commissioner, Mr. Fink, on account of the cutting in rates by some of the lines, and he has the right to do it nuder the trunk line agreement of March 11, by which it was agreed to strictly maintain schedule rates, and also "in case these measures should not be found effect-ive, and the cutting of rates should not be stopped, then, after ive, and the enting of rates should not be stopped, then, after consultation with the Trunk Line Committee, the Commissioner may give notice of a reduction of the tariff thronghout the terri-tory controlled by the roads on the Joint Executive Committee, to meet the lowest cut rates on any one road." In consequence of the trnnk line differences there was considerable weakness in the stocks mostly affected, and Michigan Central sold down to 106½, closing at 107¾; Lake Shore to 125‰, closing at 126‰. In particular stocks there were various movements of import-

ance. Central Pacific was much depressed by apparently informed reports from Washington that the Government was about to commence further suits against the company. Indiana Bloomington & Western and Cincinnati Sandusky & Cleve-land have been active and bnoyant on the lease or consolidation arrangement. Manhattan Elevated has been one of the weakest stocks, on the selling out, as supposed, by the Garrison party, and the talk of issuing preferred stock at 50. The Reading election case was ended by the decision against the Gowen party and in favor of Mr. Bond and his associates, but the matter is yet pending and comes np again before the U. S. Circnit Conrt on Tuesday next when the deferred-income-bond and blanket-mortgage schemes also come up for consideration.

mortgage schemes also come np for consideration. At the close on Thursday there was a sharp rally in stocks in the last half hour of business, and prices advanced from ½ to 1 per cent on many stocks. The daily highest and l

V	highest	and	lowest	prices	have	been a	as	follows:

Exchange.—Rates for sterling bills have varied but little, and the receipts of specie and shipments from Europe have been free. For prime bankers' sterling bills the rates on Thnrsday were 4 81@4 81½ for sixty days and 4 83@4 83½ for demand. Cable transfers, 4 83@4 83¾. Prime commercial bills, 4 79½. Quotations for foreign exchange are as follows:

April 15.	Sixty Days.	Demand.
Prime bankers' sterling bills on London. Prime commercial Documentary commercial Paris (france) Amsterdam (guilders) Frankfort (reicbmarks). Bremen (reichmarks).	$\begin{array}{c} 4 & 80 & @ 4 & 80 \\ 4 & 79 & 204 & 80 \\ 5 & 27 & 200 & 26 & 4 \\ 39 & 20 & 39 & 34 \\ 93 & 7_8 & 94 \end{array}$	$\begin{array}{c} 4 & 83 {}^{1}_{2} @4 84 {}^{1}_{3} \\ 4 & 82 & @4 82 {}^{1}_{2} \\ 4 & 81 {}^{1}_{2} @4 82 \\ 5 & 25 & @5 23 {}^{1}_{8} \\ 39 {}^{3}_{4} @4 0 \\ 94 {}^{5}_{8} @94 {}^{5}_{8} \\ 94 {}^{3}_{8} @94 {}^{5}_{8} \end{array}$

U. S. Sub-Treasury.—The following table shows the receipts and payments at the Snb-Treasury in this city, as well as the balances in the same, for each day of the past week:

1			Balances.					
	Receipts.	Payments.	Coin.	Currency.				
April 9 * 11 * 12 * 13 * 14 * 15 Total	1,093,834 23 825,674 06	\$ 1,371,284 22 1,226,643 05 1,249,960 67 2,957,410 77 886,885 83 2,298,105 27 9,990,289 81	77,663,041 49	\$ 3,815,162 51 3,573,540 98 3,606,995 44 3,679,843 67 3,817,375 44 3,953,078 47				

Coins .- The following are quotations in gold for various coins:

Como	Additions in Boild for Additions comment
Napoleons 3 82 3 86 X X Reicbmarks. 4 72 0 4 76 X Guilders	Silver ¹ 4s and ¹ 2s. — 99 ³ 40 par. Five francs

New York City Banks.—The following statement shows the condition of the Associated Banks of New York City for the week ending at the commencement of business on April 9, 1881.

STATE, CITY AND CORPORATION FINANCES.

The INVESTORS' SUPPLEMENT contains a complete exhibit of the Funded Debt of States and Cities and of the Stocks and Bonds of Railroads and other Companies. It is published on the last Saturday of every other month—viz., February, April, June, August, October and December, and is furnished without extra sharge to all regular subscribers of the CHRONICLE. Single copies are sold at \$2 per copy.

ANNUAL REPORTS.

Cleveland Columbus Cincinnati & Indianapolis.

(For the year ending December 31, 1880.)

(For the year ending December 31, 1880.) The report of Mr. J. H. Devereux, President, states that "the movement of throngh freight amounts to 312,245,400 tons one mile, and of local freight 108,237,519 tons one mile. In 1879 the movement was 319,739,341 tons of through freight one mile, and of local freight 81,363,629 tons one mile. The total movement of freight 81,363,629 tons one mile. The total movement of freight 81,363,629 tons one mile. The total movement of freight 81,363,629 tons one mile is a an average gross rate of 697-1000 cents per ton mile in 1879. The increase of the freight tonnage is 6 17-100 per cent and the increase in the gross rate per ton mile is 13 63-100 per cent, as compared with the figures of 1879. With the exception of one year (1877) this is the first increase in the rate since 1873. The cost rate of freight per ton mile is 590-1000 cents, having been 575-1000 cents in 1879. The increase in the cost rate, 2 61-100 per cent, is due to increased cost of materials and labor." * * *

"⁷⁹² ⁵⁹⁰ ²⁰² "In May and Jnne, 1880, pnrchases were made by this com-pany of 9,199 shares of the stock of the Cincinnati Hamilton & Dayton Railroad Company. Negotiations were commenced with the other shareholders of said company, which resulted in the unanimous choice at the June election of a board of directors, made up in part of three members of this board, and of the President of this company as President of, that. The result of this arrangement has been very beneficial to both companies, and expenses have been reduced and earnings increased. Close and friendly relations have been established, and the interests of both companies so greatly promoted as to and the interests of both companies so greatly promoted as to give your directors strong hopes of an ultimate consolidation of their shares." * * *

"The Cincinnati & Springfield Railway has earned sufficient to pay all operating expenses, rentals and interest charges during the year, and shows a balance of \$8,636." During the year the following payments were made on account of construction:

For and at Cleveland for additional yard faeilities	\$16,450
For gravel pit at Beilefontaine	3,050
For new equipment-Cars	93.802
For new equipment-Locomotives	10.155
For improvements on coal and ore docks, Cleveland	6.182

Burlington Cedar Rapids & Northern.

(For the year ending Dec. 31, 1880.)

This company has made a change in its fiscal year, which will now terminate December 31. A report has accordingly been made for 18 months from Jnly 1, 1879 to December 31, 1880, but for the sake of plainness and better comparison we use only the earnings, expenses, &c., for the calendar year 1880, compared with the calendar year 1879. The President states in his report that when the property came into possession of the present organization it was greatly out of repair and the lines were incomplete. Extended repairs and improvements were necessary.

were incomplete. Extended repairs and improvements were necessary. "The work thus begun has resulted in an extension of the company's main line from Plymouth Junction to Albert Lea, in Southern Minnesota, where connection is made with the Min-neapolis & St. Louis Railway. With this connection at Albert Lea, and connection at Burlington, Iowa, with the Chicago Bur-lington & Quincy Railroad sonth, a through line from St. Louis, Missouri, to Minneapolis, Minnesota, has been practically established established.

established. "The Pacific Division of the company's railway, at the time of purchase by this company, extended in a northwesterly direction from the point of junction with the main line at Vin-ton to Traer, a distance of only 25 miles; but in carrying out the system adopted by our predecessors, this line has been extended to Clarion, the connty seat of Wright County, a dis-tance from Traer of 78 4-100 miles. "The Muscatine & Western Branch, which extended from Muscatine westwardly to Riverside—a distance of 30 miles—at the time of the organization of the present company, has been extended to the valnable and inexhaustible coal mines of Keokuk County, and from thence to Montezuma, the county seat of Poweshiek County, a distance from Muscatine to Montezuma of 57 miles." * * * "In addition to these extensions and connections, a connec-tion has also been made with Iowa City by a line of road extend-

tion has also been made with Iowa City by a line of road extend-ing from Elmira, on the main line, via Iowa City, to Riverside, where connection is made with the Mnscatine & Western Division, a distance of 233-100 miles." * *

Rate Expe Net

"The snrplns earnings of the road, in excess of operating expenses and payment of fixed charges, during the period cov-ered by this report, have been devoted to the improvement and equipment of the company's railway."

\$300,280 226,654 Expenditures in excess of receipts..... \$300.280

Expenditures in excess of receipts. 226,654 \$300,280 From the report of Mr. J. P. Ilsley, the late President, we have the following : "A contract was made on the first day of May, 1850, with the Minneapolis & St. Louis Railway Company, allowing that Company to run its trains from White Bear Lake Station (12 miles north of St. Paul) to Dulnth, upon the annual payment of \$50,000, and sneh a proportion of the road used, as the wheelage of its trains bore to the whole wheelage passing over the line." * * * "This contract can be termi-nated by either party at the expiration of three years from its commencement, but as it is mutually advantageons, I would advise that a consultation between the two companies be had at an early day to make it of a permanent character. Another contract was also made with that company at the same date, by which work ceased upon the road it was building from White Bear Lake to Taylor's Falls, and it joined in the con-struction of the branch road from Wyoming to Taylor's Falls. This branch was finished and opened for business to Centre City (10 miles) on Ang. 23, and to Taylor's Falls, on the 8th day of No-weber." * * "The cost to this company for one-half of its construction was \$151,532. It has received, or will receive, from the town of Chisago Lake, Shafer and Taylor's Falls, the branch road has been mortgaged for \$246,000, or \$12,000 per mile, to secure bonds running thirty years and bearing 7 per cent interest. Thirty per cent of the receipts from all usiness passing over the road by either company must be set ausiness passing over the road by either company must be set wines be net equally by each company." * *

"KNIFE FALLS BRANCH.

"The amonnt expended apon the branch, \$3,463, makes the total cost to December 31, \$64,877. The increased business due to the branch can be seen by comparing the shipments to and from Northern Pacific Junction and Knife Falls, in the years 1879 and 1880. In 1879 there was shipped from those stations 1,472 tons, against 1,666 tons in 1880, while their receipts in 1880 were 2,500 tons in excess over 1879, this increase of business being all due to this branch."

For Knife Fails Railroad	\$64.877
For St. Croix Branch.	135,947
For new docks at Duiuth	62,902
For additional equipment	126,926
For new depot grounds, buildings and tracks	69,334
For additioual machinery, tools and furniture	
For Union Depot and Fourth Street, St. Pani	24,225
For expended upon bridges over ordinary repairs	45,500
For substituting steel rails for iron, 3,500 tons, at 70	35,000

419

"Of which \$450,000 has been taken from the earnings of the company, or equal to nine and one-half (9½) per cent of the present preferred stock. The income from the Land Depart-ment in the same time has been \$447,658, including both cash

and preferred stock. "I would also estimate that there will be required within the next two years the following amounts for further additions to the property.

To relay the whole road with steel ralls	\$108.000
Additional equipment.	200,000
Addition to buildings, machine shops, machinery, &c	25,000
For baliasting the road where steel rails are laid	
Additional sido tracks.	
To take up the N. W. Equipment Trust Co. stock	

\$860,500

"So that the making of a loan of \$1,000,000 would provide the means to put the property upon an excellent footing, and take care of its present outstanding liabilities and allow the earnings of the company to be paid directly to the stock-holders."

GENERAL INVESTMENT NEWS.

Atchison Topeka & Santa Fe-Sonthern Pacific.-The officers of the new ronte to California by way of the Atchison Topeka & Santa Fe Railroad have served a notice that they will not receive freight for the Pacific coast. The assistant freight agent for the Sonthern Pacific Road in San Francisco stated that the action of the Atchison road was due to the re-fusal of the Southern Pacific to give them rates low enough to admit of the Atchison roads throwing goods into Arizona and Southern California at less than the Sonthern Pacific could send them from that city. It is hardly believed that the Atchison & Santa Fe will long refnse to take freight for San Francisco. Boston Hartford & Erie -A meeting of stortholders of

Boston Hartford & Erie.—A meeting of stockholders of this company. legally definet but theoretically brought to life again) was held recently, a large number of stockholders being present. Mr. John Rooney, the President, made an address,

in which he rehearsed the statements of the bill in equity filed in which he rehearsed the statements of the bill in equity filed in the United States Circuit Court to assert the rights of stock-holders, as against the New York & New England Railroad Company, the assignees in bankruptcy, and various trustees who claim to have acted under the Berdell mortgage. Directors were elected as follows: John P. Terry, Delorme Knowlton, Richard A. Roberts, Samnel F. Gregory, M. A. Cole-man, William M. Denman, John Rooney and James Adair, New York; Henry R. Hilton, Connecticut; James McMehan and John D. Sanborn Masachusetta. John Rooney and elected Preci-

D. Sanborn, Massachnsetts. John Rooney was elected President.

The by-laws were amended so that meetings of the directors

The by-laws were amended so that meetings of the directors may be held in New York, and so that directors may be elected irrespective of their residence. There will be a meeting of the directors of the Boston Hart-ford & Erie Railroad Company in this city on Tuesday, the 19th instant, for the purpose of determining upon the amonnt of assessment npon the old stock.

Cincinnati Sandusky & Cleveland.—The stockholders of the Cincinnati Sandusky & Cleveland Railroad have ratified the lease of that road to the Indiana Bloomington & Western, sub-ject to the result of the proceedings bronght in the Common Pleas Court at Sandusky by John H. James and others to pro-cure an injunction to prevent the lease of the road and the payment of the second mortgage bonds, on the ground that said bonds were improperly issued.

Denver & Boulder Valley.—The foreclosnre sale of the Denver & Boulder Valley Railroad will be contested. The sale is advertised for the 18th inst.

Elizabeth City Debt.—The new plan of adjustment sub-mitted to the City Council is as follows:

The assets consist of :

It is proposed to refund the face amount of the debt, say \$5,400,000, for forty years, at the following rates : 'Two per cent interest for five years, payable annually : 3 per cent interest for ten years, payable annually : 4 per cent interest for twenty-five years, payable annually. Bonds to date from July 1, 1831, and to be redcemable by allotment after five years, to the extent of the amount in the sinking fund each year theroafter. Two and one-half years' inter-est (accrued), to July 1, 1831, the date of the new bonds, computed at 4 per cent per annum (\$540,000), to be issued in the form of nou-interest-bearing scrip, redcemable in past-due assessments only. (The amount of assessments to which this issue of scrip is applicable is \$1,700,000, with a large amount of accrued interest thereon.) A sinking fund of one-half of 1 per cent on the amount of bonds to be issued (\$5,400,000) to be raised each year by taxation. The amount realized from back taxes (\$540,000) to constitute a fund whenever in excess of those requirements of the city primarily, and whenever in excess of those requirements to be added to the sinking fund.

The operation of this plan would result, as estimated, in a tax rate of 2.87%.

The operation of this plan would result, as estimated, in a tax rate of 2:87½. Georgia Railroad—South Carolina Railroad.—The press dispatch from Angnsta, Ga., April 13, states: "The board of directors of the Georgia Railroad has leased that road to the owners of the Sonth Carolina Railroad, consisting of William M. Wadley, John H. Fisher, Moses Taylor, Samnel Sloan, and others, the lease to take effect from April 1, 1881, and to run for ninety-nine years. The annual rental to be paid to the Georgia Railroad Company is \$600,000, in semi-annual pay-ments. This is ten per cent on the capital stock of the Georgia Railroad and its bonded indebtedness. Messrs. Wadley & Co. deposit \$1,000,000 in United States bonds, or bonds of good value, as security. The Georgia Railroad Company is to retain possession of its bonds and stock in other corporations, but is to give dividends and voting power to the lessees. The lessors are to pay the interest on the debt of the Georgia Railroad and the Macon & Angnsta Railroad, and are to retain the banking department and all real estate of the company. This lease is in the interest of the Lonisville & Nashville Rail-road and Central Railroad of Georgia." The New York *Times* dispatch says: "The lease of the Georgia Railroad by the South Carolina Railroad Company is practically a lease by the Georgia Central. The latter is pre-vented by its charter from renting the Georgia, hence President Wadley, of the Central, became one of the nominal owners of the South Carolina to effect the lease." Hannibal & St. Joseph.—At the stockholders' meeting in Hannibal & Angil 1 it was datarmined to refend the

Hannibal & St. Joseph.—At the stockholders' meeting in Hannibal, Mo., April 11, it was determined to refind the bonded debt of the company and pay \$3,000,000 dne to the State of Missouri. The entire bonded debt of the company will be represented by new bonds to be issued to the amount of \$8,000,000, bearing 6 per cent interest, payable semi-annually and secured by a mortgage npon the entire corporate property and franchises of the road.

Junction Railroad (Phila.)—In Philadelphia, April 13, the following decree was made by the United States Circuit Court in the Junction Railroad snit:

In the Junction Railroad Snit: "And now, April 13, 1831, it is ordered that the charge to bo made by the Pennsylvania Railroad Company for the toils and motive power for cars passing over the tracks between the Market Street tunnel on the Junction Railroad route, and the switches at a point southeastwardly of Thirty-fith Street, shall not exceed those allowed by the charter of the Junction Railroad Company; that is to say, as to freight or burden cars, 3 cents per ton for each ton of 2,000 pounds of freight in said cars, and 2 cents for each four wheels when empty. And it is further ordered that the receipt of the charges hereuuder, or the payment of like charges for the past, shall not prejudice the right of the Pennsylvania Railroad Company to cialm otherwise, either upou final hearing in this case or by a suit at law."

Manhattan Elevated.—At a meeting of the directors of the Manhattan Elevated Railway, William R. Garrison presented his resignation as President of the company. It is said that large blocks of Manhattan stock have been sold recently by the

his resignation as President of the company. It is said that large blocks of Manhattan stock have been sold recently by the Garrisons. —The Times reports that rumors were in circulation on Wall Street to the effect that a new issue of Manhattan Railway Company's stock was in contemplation to the extent of about \$2,000,000, for the purpose of realizing money to meet deficien-cies. That the new stock was to be a preferred stock, and that a syndicate of capitalists, at the head of which was Mr. Russell Sage, had agreed to take the whole \$2,000,000 at 50, the purchases to be made at such times as the company might need the money to meet the deficiencies. Mr. Sage was called on by a *Times* reporter, and in reply to inquiries on the subject he said it was true that a syndicate had been formed for the pur-pose stated, and that he had agreed to take some of the stock. He referred the reporter, however, to a gentleman living at the Windsor Hotel, who had charge of the movement. This gen-tleman, when asked whether the report was true that they had offered the advance on condition that they should get the pre-ferred stock at 50, replied, "that was our first offer, but we are prepared to go ahead of that. In the distribution of this stock we propose that the common stockholders shall have the first choice to take the whole or whatever is left." * * * "I have got faith in the value of these roads, and because I and the gentlemen in this syndicate have this faith we offer to make good any and all deficiencies, in cash, for a period of two years, taking for our advances to the company preferred stock. We make the offer with the belief that we shall never be called on to take the stock, because there will be no defi-ciency. For months past the earnings of the company have been steadily increasing, and in the month of March averaged nearly \$2,000 a day over the receipts of the same month in 1880."

Missourl Kausas & Texas Railway Company.-The fol-lowing official notice is issued, dated April 13, 1881 :

Inssourn Kausas & Texas Kallway Company.—The fol-lowing official notice is issued, dated April 13, 1881 : A special meeting of the stockholders of the Missouri Kansas & Texas Rallway Company will he held at the office of the company in Parsons, Kansas, on Wedaesday, the 18th day of May, 1881, at 10 o'clock, A.M., for the foliowing purposes, viz.: First—To consider and act upon a proposed lease (which will he sub-mitted to the said meeting) of the railway and property of the Missouri Kansas & Texas Railway Company to the Missouri Pacific Ralway Company. Second—To consider and act upon a proposed lease or contract with the International and Great Northern Railway Company (which will he submitted to said meeting) for the joint use and occupancy by the Mis-souri Kansas & Texas Railway Company of that portion of said Inter-national & Great Northern Railway Company (which will he submitted to said act upon a proposed lease or contract with the International and Great Northern Railway Company (which will he souri Kansas & Texas Railway Company of that portion of said Inter-national & Great Northern Railway Company's line commeuciag at the point of intersection of the two roads in Williamson or Miami County. Texas, and extending via Anstin throngh to the Rio Grande. Third—To consider and act upon a proposed lease or contract with the Texas & Pacific Railway Company's line, extending from Whiteshoro to Fort Worth. Fourth—To consider and act upon a proposed contract to be submitted to the said meeting for the joint use and occupancy of that portion of the said meeting for the on a proposed contract to be empany's railway, upon such terms as will secure to it the entire ust earnings from its several properties, less current expenditures for maintenance and hetterments. Stock transfer hooks will be closed from the afternoon of 16th instaut until the morning of May 19, uext.

New Castle & Franklin.-J. W. Jones, President of the Buffalo Pittsbnrg & Western Railroad, has purchased at anction under a decree of Court the New Castle & Franklin Railroad in Western Pennsylvania for \$700,000. The road is thirty-six miles in length and has earned \$45,000 net.

New York Chicago & St. Lcuis.—The *Times* dispatch from Cleveland, O., April 13, reports that the contract for the section between Cleveland & Buffalo was given on Tuesday night to J. S. & T. D. Casement, of Painesville, Ohio. This excepts bridges and viadnets. The contractors are bound to put the work into im-mediate operation, and to have it finished at the earliest possible moment. The section west of here and terminating at Tiffin. Ohio, has been let to R. G. Huston & Co., of Cincinnati, who built the Cincinnati Sonthern. It is stipulated that the rails must be in place by Jannary 1 next. The contract from Tiffin to Fort Wayne, Ind., has not yet been made public, if it has been let at all. From Fort Wayne to Chicago the successful bidders, as already known, are McClain, Loomis & Deerub, of Chicago, who are nuderstood as already in motion. Work on the new road is to be pushed. Over 2,000,000 ties have been already contracted for. Forty thonsand tons of steel rails have been contracted for in Chicago and Cleveland. The bids for iron bridges and viadnets have been opened but not yet made public. Over two-thirds of the right of way has been given. Thirty locomotives and 1,000 cars have been bonght, to be deliv-ered by the 1st of June. New York Chicago & St. Lcuis .---The Times dispatch from

Thirty locomotives and 1,000 cars have been bonght, to be deliv-ered by the 1st of June. The *Tribune* dispatch from Albany, April 12, reports that the Buffalo Cleveland & Chicago Railway Company, of New York, the same of Pennsylvania, the New York & Chicago RR. Company of Ohio, the same of Indiana and the same of Illinois, were to file papers of consolidation with the Secretary of State. This will give a continuous line from Bnffalo, via Erie City, Pa., to Cleveland and Fort Wayne, and thence to Chicago, the whole distance to be made without change of cars. The name of the new corporation will be the New York Chicago & St. Louis Railway Company. The capital stock is \$35,000,000, of which \$11,000,000 is preferred at 7 per cent and the balance is common stock. The directors are Columbus B. Cummings, Daniel P. Eals, Calvin S. Brice, Charles Foster, Samuel Thomas, George

I. Seney, John T. Martin, Edward H. R. Lyman, Walston H. Brown, William Fleming and Alexander M. White.

Brown, William Fleming and Alexander H. H. Bylnar, Walson H. Brown, William Fleming and Alexander M. White. New York New Haven & Hartford--New Haven & Northampton.-The press dispatch from New Haven. Conn., April 13, reported: "A transfer of \$1,250,000 of New Haven & Northampton Railroad stock has just been consummated in this eity, the purchasers being friends of the New York New Haven & Hartford Railroad Company. This transfer covers half the capital stock, which is \$2,460,000, and defeats the Boston & Albany Road's scheme to get the road. The principal seller of the stock is James E. Sheffield, who receives abont \$1,000,000. The stock, which was sold last fall for 37, he disposed of for abont 100. The road's stock and bonded debt aggregate \$5,849,000. Three persons in the N. Y. & N. H. Road's interest have taken seats in the Northampton directory ; but it is understood that President Yeomans will retain his position. The road will be managed for the present as it has been man-aged ; but at the next meeting of the consolidated road stock-holders, the matter of an out and ont purchase or a lease will probably be considered. Northampton stock had been selling for 77, but has risen to 85."

Norfolk & Western.-The sale of the A. M. & O. Road has been confirmed, and the Norfolk & Western has been organized. The new company, owning the road from Norfolk to Bristol, will issue stock and bonds as follows:

From the \$6,000,000 of bonds above mentioned, sold at 95 they realize. From \$13,500,000 preferred stock, at 35 Balance on account of State claim Cash in Receiver's hands February 10, 1881	\$5,700,000 4,725,000 470,000
Total From this they pay in cash for the road To State of Virgiuia. Court charges, &c. Accruod divisional interest. Retiring divisional securities extended. For improvements.	. 8,605,000 . 500,000 . 350,000 . 30,000 . 605,584
Total. The fixed annual charges will be as follows:	\$11,090,584

Interest on divisional bonds..... Interest on \$6,000,000 general mortgage..... 360,000

Total interest charge. \$660.000 From estimates based npon the last six months' earnings the gross income for the year is put at about \$2,000,000, from which deduct expenses, including renewals, say 50 per cent, and there will remain \$1,000,000 applicable to the abovo interest charge of \$660,000, leaving \$340,000 surplns.

Northern Pacific.—Argnment has been in progress since the 12th inst. in the New York Snperior Conrt in the first Vil-lard snit to enjoin the issue of common stock to the holders of

lard snit to enjoin the issne of common stock to the holders of rights. The arguments being nnfinished the hearing was adjourned over till Tnesday the 19th. A second snit has been begnn in the New York Supreme Conrt by C. J. Woerishoffer to enjoin the issne of stock. It is substantially the same as the Villard snit, and Judge Barrett on Tuesday, granted a temporary injunction returnable April 20 restraining the railroad company, the Farmers' Loan & Trnst Company and the individual defendants from interfering with or transferring the 180 000 shares of stock alleged to have

with or transferring the 180,000 shares of stock alleged to have been issned upon the 18th of March last. Mr. Villard commenced still another snit in equity against the company in the United States Circuit Conrt this week. In his bill of complaint he sets out the facts of the organization of The company in the United States Circuit Conrt this week. In his bill of complaint he sets out the facts of the organization of the company and its reorganization in Jnne, 1875, and says that since the reorganization the earnings of the company have been largely in excess of the operating expenses of the road, and a large surplus has remained each year, which was properly applicable to the payment of dividends on preferred stock. No such payment, however, has been made, and the earnings have instead been diverted to the construction and operation of branch or connecting lines of road belonging to other corporate bodies. Portions of this surplus of earnings, it is also averred, were Invested in the stock and bonds of other com-panies, and in other ways, unlawfully and without authority. A decree is asked for directing that the persons who are entitled to share in the preferred stock dividends and in the distribu-tion of this surplus be ascertained, the rights and obligations of the company determined, and the company compelled to make payment of the preferred stock dividends, and an injunc-tion is prayed for to restrain the improper expenditure of surplus funds until the determination of this surt. The defendants are summoned to appear and answer on the first Monday in June. Monday in June.

Oregon Railway & Navigation Company.—The estimated earnings of the Oregon Railway & Navigation Company for March are as follows: River division, gross, \$210,250; do. net, \$110,250; ocean division, gross, \$78,044; do. net, \$39,044; rail-way division, gross, \$18,600; do. net, \$6,000; total gross, \$306,894; total net, \$156,894; net for March, 1880, \$144,207.

Pennsylvania Railroad-Philadelphia Wilmington & Baltimorc.-The Finance Committee of the Board of Directors of the Pennsylvania Railroad Company reported, April 8, that the company had secured 203,000 shares of the stock of the Philadelphia Wilmington & Baltimore Railroad Company. The entire capital stock of the company at present is 231,715 shares, and it has \$240,500 in bonds which may be converted into stock. This would make, in the event of the conversion of bonds, 236,-555 shares of stock.

This would make, in the event of the conversion of bonds, 236,-555 shares of stock. Philadelphia & Reading.—In Philadelphia, April 9, the Conrt of Common Pleas gave its decision in the election case, holding that the meeting on March 14 was a regular meeting, and that the officers then voted for by the McCalmont party were duly elected. The decree says: "It is adjudged and decreed that at the said election Frank S. Bond was duly elected President of the Philadelphia & Reading Railroad Com-pany; that George F. Tyler, Samuel R. Shipley, John S. New-bold, Edward D. Steel, Charles Parrish and Jehn Lowber Welsh were duly elected Managers of the Philadelphia & Reading Railroad Company, and that Samuel Bradford was duly elected Treasner of the Philadelphia & Reading Railroad Company, and that Edward L. Kinsley was duly elected Secretary of the Philadelphia & Reading Railroad Company. As the decree contained no enforcing power in the shape of an appeal from this decree to the Supreme Conrt, and he and his associates declined to give np the offices of the company. As the decree contained no enforcing power in the shape of an injunction, a decree was presented to the United States Cir-cnit Court setting forth the proceedings taken in regard to the election, and praying that relief be granted. The application for an injunction to prevent F. B. Gowen and others from interfering with them in the performance of their functions as officers of the company came before Jndges McKennan and Butler in the United States Circnit Court on Thursday. The Court expressed nuwillingness to interfere between the con-tending boards, as it has direct charge of the company as rep-resented by the Receivers, and preferred that the Supreme Conrt should decide the issue npon the appeal taken. The Jndges, however, consented to hear argnment in the matter on Tuesday next (April 19), on which day the question regarding the issnes of the deferred income bonds and the blanket mort-gage will come up. gage will come up.

Richmond & Danville—Northeastern, Georgia.—A press despatch from Augusta, Ga., April 11, reports that the Rich-mond & Danville Railroad Company had seenred control of the Northeastern Railroad of Georgia, from Athens to Lula City, on the Richmond & Atlanta Air Line. The City Council of Athens, which owns the majority of the stock in the North-eastern, gave the control of the road to the Richmond & Dan-ville on condition that it should be completed to the North Caroling line within five years. Carolina line within five years.

St. Johnsbury & Lake Champlain.—The Boston Stock Exchange has admitted to the list the bonds of this company, incorporated Jannary 31, 1881, under the laws of Vermont. The statement contains the following:

The statement contains the following: This road extends from Lunenburg, Vt., on the Connecticnt River, to Lake Champlain at Maquam Bay, in the town of Swan-ton, Vt., a distance of 120 miles, and is a consolidation of the Lamoille Valley Railroad Company, the Montpelier & St. Johnsbury Railroad Company and the Essex Railroad Com-pany. Authorized capital, \$3,843,500. Amount of capital stock issued, \$3,562,550; par value, \$50 per share. Bonds, first mortgage, 6 per cent, \$600,000.

TREASURER'S STATEMENT MARCH 3, 1881.

Shenandoah Valley.—At the annual meeting in Lnray, Va., last week, the stockholders voted to adopt the line from Waynesboro, Va., to Salem, and declined a proposition to build to Lynchburg. The final settlement with the construction company was approved. A new mortgage was authorized to secure an issue of 6 per cent bonds sufficient to retire the existing debt and to include the extension to Salem. There are now two mortgages on the road, the first to cover \$2,100,000 first mortgage 7 per cent bonds, and the second \$1,400,000 income 7 per cent bonds.—R. R. Gazette.

Trunk Line Freights.—The following notice was issued by Mr. Albert Fink, as Chairman of the Joint Executive Committee, dated April 9:

"Under Article 4 of the agreement of March 11, it having been shown that. In violation of said agreement, reduced rates have been made on grain of 5 cents per hundred to some shippers, I now give notice that & general reduction of eighth-class rates to 25 cents per hundred pounds--basis Chicage to Now York-will be made, commencing on Monday, April 11. It is understood that if reduced rates are given to any one shipper a general reduction will be made, in order to stop hereafter all unjust discrimination hetween shippers and communities, and to carry out strictly the spirit and intentions of the agreement of March 11."

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, April 15, 1881.

This being a week devoted to religions solemnities by large numbers of our people has been naturally a more quiet one in mercantile circles, except where markets have been infinenced by speculation. The weather has not been favorable until to-day, but the temperature has been higher and some progress is made towards re-opening inland navigation at the North and West; still the season is backward, so much so as to lend a little weight to unfavorable reports in some sections regarding crop prospects. The measures of the Federal Treasury to supply the omission of the late Congress to pass a funding bill are fovorably received in financial circles, and no apprehensions of a money trouble are felt.

Pork has undergone a sharp and marked advance, influenced by the efforts of the heavy short interest in Chicago to cover contracts. Lard has naturally sympathized, and there has been a good speculation in the options. All other provisions are also higher and firm. To-day old mess pork on the spot was quoted at \$16@\$16 50, and new mess sold at \$17 35, closing at \$17 40@\$17 60 bid and asked; June options realized \$17 60, and July \$18, closing at \$17 90; September, \$17 90@\$18 10. Lard sold at 11.42½c. for prime Western on the spot; May options realized 11.40@11.50c.; Jnne, 11.45@11.55c.; July. 11.52½@11.60c.; Angnst, 11.52½@11.62½c.; seller year 10.70@ 10.72 2c.; refined to the Continent, 11.55c. Bacon sold in a small way at 8%c. for long and short clear together; large lots, 8.70c.; long clear, 85%c., and short clear, 9c. Cutmeats fairly active. Beef firm at \$21 25@\$22 50 for city extra India mess ; family \$12 50@\$13 50; packet, \$11 50@\$12. Beef hams, \$21@ \$23. Tallow higher, and in demand at 63/@61/2c. Stearine strong at 121/2@12%c. Butter closed firmer, with fine grades scarce. Cheese in demand and firm ; prime to fancy state factory, 113/4@133/4c.

Kentucky tobacco has continued in fair demand for shipment, but the home trade has been rather dull. The sales for the week aggregate 800 hhds., of which 600 for export and 200 for home consumption. Prices have ruled quite firm, and are quoted at 434@6c. for lngs and 634@12c. for leaf. The movement in seed leaf was more active and general, the sales for the week footing np 1,975 cases, as follows: 1,000 cases 1880 crop, Pennsylvania, private terms; 300 cases 1879 crop, Pennsylvania, 11@25c.; 400 cases 1879 crop, New England, 14@22c.; 200 cases 1880 crop, New England, 25@26c.; 75 cases 1879 crop, Wisconsin, 4@5c.; also 300 bales Havana at 80c.@\$1 25.

Rio coffee has ceen quiet and, nnder larger receipts, has declined to 12c. for fair cargoes, at which the market closes rather nominal; mild grades have sold moderately at prices showing no marked change. Rice has been fairly active, steady and unchanged. Spices have been quiet. Tea has latterly brought steady prices at auction. Molasses has been in fair demand, and 50 degrees test refining has advanced to 321/@33c. Raw sugar, owing to the large importations by refiners, has been quiet as a rule, though on Tuesday the sales reached 3,000 hhds. ; the close is quiet, bnt abont steady at 7 3-16c. for fair refining. Refined closes firm at 9%c. for grannlated and 93/4c. for crushed, with a fair demand.

The naval store market has been almost demoralized by the prolonged inactivity ; this is particularly so of spirits thrpentine, which closed at 38@38½c. for Southern barrels; strained to good strained rosins quoted at \$1 65@\$1 70. Petrolenm has

to good strained rosins qnoted at \$1 65@\$1 70. Petrolenm has had a fair export call, and the late position is sustained; re-fined, in bbls., for export, quoted at 8c. Crnde certificates have declined under a realizing movement, and closed at 85c. bid. In metals little or nothing has been done. Pig iron and rails are particularly qniet; prices are not sensibly changed. Ingot copper in moderate sale at 19460194c. for Lake. Wool con-tinues dull, and quotations show much weakness. Hops are still dull, but in the main steady. The demands for ocean freight room have been of a dwindling character, and at the close, notwithstanding the small offerings of tonnage, rates were weak at a decline. The engagements were: Grain to Liverpool, by steam, 4%d. for this, and 4%@ 4%d. for next, week; bacon, 20s.@22s. 6d.; cheese, 25s.; cotton, 3-16d.@%d.; flour, 2s. per bbl., and 15s.@17s. 6d. per ton. Grain to London, by steam, 5%@6d., latter from store; flour, 17s. 6d. Grain to Hnll, by steam, 6d.; flour to Glasgow, by steam, 5%d.; do. to Hamburg, by steam, 6%d.; do. to Cork, for orders, 4s. 7%d. per qr.; ernde petroleum to Havre, 3s. 3d.; re-fined do. to the Baltic, 4s.; grain to Havre, Antwerp or St. Nazaire, 4s. 3d.; if Bordeaux, 4s. 4%d.

[VOL XXXII;

OOTTON.

FRIDAY. P. M., April 15, 1881. THE MOVEMENT OF THE CROP, as indicated by our telegrams from the Sonth to-night, is given below. For the week ending this evening (April 15), the total receipts have reached 66.579 bales, against 85.696 bales last week, 78,514 bales the previous week and 93,690 bales three weeks since; making the total receipts since the 1st of September, 1880, 5,242,901 bales, against 4,571,295 bales for the same period of 1879-80, showing an increase since September 1, 1880, of 671,606 bales.

* Included in this amount there are 1,065 hales at presses for foreign ports the destination of which we cannot learn.

The speculation in cotton for future delivery has been only moderately active the past week, and prices have been variable On Saturday there was naturally some recovery from the depression of Friday as noted in our last; but on Monday there was renewed weakness under the dull accounts from Liverpool. On Tuesday, operators for a rise made some use of the fact that the consolidated stocks, notwithstanding the recent free movement of the crop, were smaller in the aggregate than at the corresponding date last year, and carried up prices in the face of weak accounts from Liverpool. There was also some demand to cover contracts, in anticipation of the closing of markets over Good Friday and the Easter holidays. The market on Wednesday opened stronger, on bad weather reports from the South, but the persistent weakness of Liverpool caused an easier closing. Yesterday the market was dull, prices varying but slightly. Cotton on the spot, though quiet, has ruled firm. Quotations were advanced 1-16c. on Tuesday. The demand has been mainly for home consumption. Yesterday the market was quiet at 10%c. for middling uplands. The Cotton Exchange adjourned Thursday evening to Monday morning.

The total sales for forward delivery for the week are 257,700 bales. For immediate delivery the total sales foot up this week 6,285 bales, including 3,175 for export, 2,735 for consumption. 375 for speculation, and —— in transit. Of the above, 160 bales were to arrive. The following are the official quotations and sales for each day of the past week.

Price Mid. Upl., Liverpool 6d. 7d. 6^{3} sd. 5^{15}_{16} d. The above figures indicate an *increase* in the cotton in sight to-night of 544,431 bales as compared with the same date of 1880 an *increase* of 755,258 bales as compared with 1879 and an *in-crease* of 320,130 bales as compared with 1878. In the preceding visible snpply table we have heretofore only included the interior stocks at the seven original interior towns. As we did not have the record of the new interior towns for the four years, we could not make a comparison in any other way. That difficulty no longer exists, and we therefore make the fol-lowing comparison, which includes the stocks at the nineteen towns given weekly in our table of interior stocks instead of only the old seven towns. We shall continue this double statement for a time, but finally shall simply substitute the nineteen towns for the seven towns in the preceding table. *American*- 1881, 1880. 1879. 1878.

VOL. XXXH.

The above totals show that the old interior stocks have de-creased during the week 7,786 bales, and are to-night 2,519 bales less than at the same period last year. The receipts at the same towns have been 5,328 bales more than the same week last year.

last year. RECEIT'S FROM THE PLANTATIONS.—The following table is prepared for the purpose of indicating the actual movement each week from the plantations. Receipts at the ontports are some-times misleading, as they are made up more largely one year than another, at the expense of the interior stocks. We reach, therefore, a safer conclusion through a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Southern consumption; they are simply a statement of the weckly movement from the plantations of that part of the crop which fually reaches the market through the out-ports. RECEIPTS FROM FLANTATIONS.

RECEIPTS FROM PLANTATIONS.

The above statement shows

The above statement shows— 1. That the total receipts from the plantations since Sept. 1 in 1880-81 were 5,447,331 bales; in 1879-80 were 4,802,550 bales; in 1878-79 were 4,344,855 bales. 2. That, although the receipts at the out-ports the past week were 66,579 bales, the actnal movement from plautations was only 54,101 bales, the balance being taken from the stocks at the interior ports. Last year the receipts from the plantations for the same week were 24,971 bales and for 1879 they were 25,148 bales. bales.

WEATHER REPORTS BY TELEGRAPH .- There have been rains in most of the Cotton States the past week, but no more than usual at this season of the year. The range of temperature has also been low in sections, probably making replanting necessary in some districts. This has been more especially the case in Texas, where they have had a killing frost. As the week closes there has been an improvement in temperature.

Galveston, Texas.-The weather has been cold and dry all the past week, with frost throughout the State on Wednesday. All cottou above ground was killed. The frost we have had will make replanting in some districts uccessary. Coru and fruit are supposed to be only partially injured. We are uceding rain everywhere. Average thermometer 66, highest 82 and lowest 47.

Indianola, Texas .- The weather has been cold and dry all the past week, and rain is needed. We have had a killing frost this week on one night. Cottou killed but corn will recover. The thermometer has ranged from 40 to 81, averaging 67.

Corsicana, Texas.-We are needing rain very mnch. The weather has been too cold. We have had a killing frost this week on one night, but there was not much np to be hurt. Corn will revive. The thermometer has averaged 65, ranging from 35 to 85.

Dallas, Texas.-The weather has been cold and dry all the past week, and we need rain badly. We have had a killing frost this week on one night. Corn was injured but uct killed, and as to fruit, accounts from the interior are conflicting. No cotton above ground. lowest 35. Average thermometer 65, highest 85 and

lowest 35. Brenham, Texas.—The weather has been too cold during the past week. We are needing rain badly. We have had a killing frost this week on one uight; cotton that was up is killed, and corn was nipped, bnt will come again; uncertain as to frnit. Average thermometer 66, highest 85 and lowest 38. Waco, Texas.—We have had no rain the past week, and it is wanted badly. The ground is too hard to plow. We, had a killing frost on Wednesday. No cotton yet up, but corn and fruit were injured. The thermometer has ranged from 35 to 84, averaging 64.

averaging 64. New Orleans, Louisiana.—It has rained ou oue day the past week, the rainfall reaching one inch and twenty-six hundredths.

week, the rainfall reaching one inch and twenty-six hundredths. Average thermometer 65. Shreveport, Louisiana.--We have had generally fair weather during the past week, the rainfall reaching only forty-nine hundredths of an inch. The roads are in a very fair condi-tion. Average thermometer 54, highest 79 and lowest 38. Vicksburg, Mississippi.-The weather has been too cold during the past week. The frosts we have had will make replanting in some districts necessary. Columbus, Mississippi.-It has rained on one day the past week, the rainfall reaching one inch and sixty-one hundredths. We have had a frost this week, but not a killing frost.

Little Rock, Arkansas .- Friday and Saturday of the past Little Rock, Arkansas.—Friday and Saturday of the past week were clear, but the remainder of the week has been clondy, with ralu on Sunday and Mouday and some hail Monday uight, which dld no damage. It is now clear and pleasant. The rain-fall reached twenty-five hundredths of an inch. Avcrage ther-mometer 53, highest 83 and lowest 31. Nashville, Tennessee.—It has rained on four days the past week, the rainfall reaching one inch and twenty-seven hun-dredths. The thermometer has ranged from 36 to 69, averaging 52.

52.

52. Memphis, Tennessee.—Telegram uot received. Mobile, Alabama.—It has been showery on two days the past week, and the rest of the week has been pleasant. The rainfall reached sixty-one hundredths of an inch. The frost we have had will make replanting in some districts uccessary, but no serious damage has been doue. Planting is making good prog-ress, but is backward. Average thermometer 63, highest 84 and lowest 42. lowest 42.

lowest 42. Montgomery, Alabama.—We have had rain on two days the past week, the rainfall reaching one inch and seventy-nine hundredths. The days have been warm and the nights have been cold; but as the week closes there is a favorable change in the weather. Average thermometer 59, highest 80 and lowest 42. Selma, Alabama.—It has rained on three days the past week, the rainfall reaching one inch and fifty-three hundredths. The weather has been too cold. The thermometer has averaged 59. Madison, Florida.—Telegram not received. Macon, Georgia.—We have had rain on two days the past week. The thermometer has averaged 59, rauging from 40 to 75.

to 75.

to 75. Columbus, Georgia.—It has rained on one day the past week, the rainfall reaching eighty-two hundredths of an inch. Weather has been too cold for planting in this section. Average ther-mometer 57, highest 70 and lowest 40. Savannah, Georgia.—We have had rain on three days the past week, and the rest of the week has been pleasant. The rainfall reached one inch and sixteen hundredths. The ther-mometer has ranged from 46 to 78, averaging 61. Augusta, Georgia.—We have had heavy rain on three days the past week, the rainfall reaching three inches and thirty-seven hundredths. The weather has been cold and cloudy. The thermometer has averaged 58, ranging from 43 to 76. Charleston, South Carolina.—It has rained on three days the past week, the rainfall reaching two inches and forty-six hundredths. Average thermometer 58, highest 74 and lowest 43. The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock April 14, 1881, and April 15, 1880. April 14, '81. April 15, '80.

	A			April 1.	
		Feet.	Inch.	Feet.	Inch.
New Orleans	Below high-water mark	2	5	1	5
	Above low-water mark		10	27	Ō
	Above low-water; mark		3	9	8
	Above low-water mark		6	20	9
Vicksburg	Above low-water mark	41	1	42	10
Vicksburg	Above low-water mark	41	1	42	10

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point. Sept.

JUTE BUTTS, BAGGING, &C.—There has not been any change in the position of bagging since our last report, and business shows no increase. Large parcels are not inquired for, but there is a fair demand in a jobbing way, which takes off a con-siderable quantity of goods. Prices continue steady, and holders are not willing to dispose of their goods except a full figure is paid, and the market closes at 9¼c. for 1¾ lbs., 10c. for 2 lbs. and 11c. for standard grades. Jute butts are quiet, and we do not hear of any business, even in small lots, as con-sumers are pretty well supplied at present; prices are steady, and for paper grades holders ask 2½@2 11-16c., while bagging qualities are quoted at 2½@3c. JUTE BUTTS, BAGGING, &C .--There has not been any change in

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT .--A comparison of the port movement by weeks is not accurate, as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement each month since September 1 has been as follows:

Monthly	Year Beginning September 1.									
Receipts.	1880.	1879.	1878.	1877.	1876.	1875.				
Sept'mb'r	458,478	333,643	288,848	98,491	236,868	169.077				
October.	968,318	888,492	689,264	578,533	675,260	610,316				
Novemb'r	1,006,501	942,272	779,237	822,493	901,392	740,116				
Decemb'r	1,020,802	956,464	893,664	900,119	787,769	821,177				
January .	571,701	647,140	618,727	689,610	500,680	637,067				
February.	572,728	447,918	566,824	472,054	449,686	479,801				
Maroh	476,382	264,913	303,955	340,525	182,937	300,128				
			4,140,519	3,901,825	3,734,592	3,757,682				
receipta	of tot. port Mar. 31	89.58	93.10	89.78	92.48	99-66				

This statement shows that np to Mar. 31 the receipts at the ports this year were 594,268 bales more than in 1879-80 and 934,591 bales more than at the same time in 1878-79. By adding to the above totals to Mar. 31 the daily receipts since that time, we shall be able to reach an exact comparison of the movement for the different years. the different years.

THE CHRONICLE.

... 5,242,901 4,565,241 4,239,886 4,018,663 3,784,823 3,860,297 Total ... Percentage of total 91.27 95.34 92.47 93-73 port reo'nts Apr.15 92.11

This statement shows that the receipts since Sept. 1 np to to-night are now 677,660 bales more than they were to the same day of the month in 1880 and 1,003,015 bales more than they were to the same day of the month in 1879. We add to the table the percentages of total port receipts which had been received to April 15 in each of the years named.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The figures which are now collected for us, and forwarded by cable each Friday, of the shipments from Calcutta, Madras, 'Iuticorin, Carwar, &c. enable us, in connection with our previously-received report from Bombay, to furnish onr readers with a full and complete India movement for each week. We first give the Bombay statement for the week and year, bringing the figures down to April 14.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEAR

	Shipments this week.			Shipm	ents sinc	Receipts.		
Year	Great Brit'n.	Conti- nent.	Totat.	Great Britain	Conti- nent.	Totat.	This Week.	Since Jan. 1.
1379	21,000 25,000	5,000 17,000	26,000 42,000	134,000 85,000	$\begin{array}{r} 217,000\\ 168,000\\ 127,000\\ 235,000 \end{array}$	302,000 212,000	$52,000 \\ 44,000$	

According to the foregoing, Bombay appears to show an *increase* compared with last year in the week's receipts of 3,000 bales, and an *increase* in shipments of 8,000 bales, and the shipments since January 1 show an *increase* of 30,000 bales. The movement at Calcutta, Madras, Thicorin, Carwar, &c., for the same week and years has been as follows.

CALCUTTA, MADRAS, TUTICORIN, CARWAR, RANGOON AND KURRACHEE.

Year.	Shipm	ents this	week.	Shipments since January 1.			
	Great Britain.	Conti- nent.	Total.	Great Britain.	Conti- nent.	Total.	
1881 1880 1879 1878	16.000 7,000	3,006 2,000	19,000 9,000	64,000 103,000 57,000 15,000	53.000 29,000 41,000 31,000	117,000 132,000 98,000 46,000	

The above totals for this week show that the movement from the ports other than Bombay is 19,000 bales *less* than for the same week last year. For the whole of India, therefore, the total shipments this week and since Jannary 1, 1881, and for the cor-responding weeks and periods of the two previous years, are as follo ws.

EXPORTS T	O EUROPE	FROM ALI	INDIA.
-----------	----------	----------	--------

Shipments	18	381.	18	330.	1879.		
to all Europe from—	This week.	Since Jan. 1.	This week.	Since Jan. 1.	This week.	Since Jan. 1.	
Bombay All other p'rts.	34,000	332,000 117,000		302,000 132,000	42,000 '9,000	212,000 98,000	
Total	34,000	449,000	45,000	434,000	51,000	310,000	

This last statement affords a very interesting comparison of the total movement for the week ending April 14, and for the three years up to date, at all India ports.

ALEXANDRIA RECEIPTS AND SHIPMENTS .- Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week, of the previous two years.

Alexandria, Egypt, April 14.	1881.		1880.		1879.	
Receipts (cantars*)— This week Since Sept. 1	2,7	9,000 16,000	3,1	99,000	1	4,000
	This week.	Since Sept. 1.		Since Sept. 1.	This week.	Since Sept. 1.
Experts (bales)- To Liverpool To Continent		222,000 118,563	1,316	279.750 156,597	1,000 2,000	151,000 69,000
Total Europe	14,000	340,563	1,316	436,347	3,000	220,000

This statement shows that the receipts for the week ending April 14 were 9,000 cantars and the shipments to all Europe were 14,000 bales,

MANCHESTER MARKET.—Our report received from Manchester to-night states that prices for shirtings are unchanged, and that the market is inactive and drooping. We give the prices of to-day below, and leave previous weeks' prices for comparison:

	-	1881.		1880.			
	32s Cop. Twist.	814 lbs. Shirtings.	Oott'n Mid. Up ds	32s Cop. Iwist.	8 ¼ lbs. Shirtings.	Cott'n Mid. Uplds

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 126,171 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the CHRONICLE last Friday. With regard to New York, we include the manifests of all vessels cleared up to Wednesday night of this week. Total bales.

Below we give all news received to date of disasters to vessels carrying cotton from United States ports, etc.:

carrying cotton from United States ports, etc.:
IMRROS, steamer, before reported at Sebastopol from Charleston, had 228 bales of her eargo of cotton badly damaged.
ROYAL MINSTREL, steamer (Br.), from Charleston for Reval, put into Valentia, irclaud, on April 9, short of coal. She was obliged to burn spars, fittings, boats, and part of cargo.
WIDDRINGTON, steamer, from New Orleans for Hamhurg, before reported damaged by collision with steamer Canima. The balance of cargo, consisting of 750 bales of cotton, will be sold at auction. The original voyage baving been abandoned, and the steamer having been thoroughly repaired, she will be open for a fresh charter.
NUNQUAM DORMIO, ship, from Savannah for Liverpool, before reported stranded at Bernuda. The hill of the ship Nunquam Dormio, during a severe gale on March 23, was completely broken up and carried away by the sea. Not a vestige is now remaining of the ship.

carric ship.

BREADSTUFFS.

FRIDAY, P. M., April 15, 1881.

The flour market was dull early in the week, and prices are generally receded, yet no material reductions could be made. Holders made concessions to realize within the range of previous valnes; it was extremely difficult to realize outside figures. There were anticipations of more liberal supplies, and the demand was not so well maintained as was expected. Latterly, however, there has been more business, though the close yesterday was very quiet. Rye flour has advanced.

The wheat market was depressed early in the week, by the partial cessation of the export demand and the return of better weather at the West and Northwest, promising a good season for spring sowing, and bringing forward the winter crop. The lower prices led to more activity for export, and there was at the close yesterday some recovery in tone and prices, with a good export demand, favored by some abatement of ocean freights. No. 2 red winter sold at \$1 201/2 for May and \$1 191/2 for June ; No. 1 white on the spot, \$1 201/2. Spring wheats are nearly nominal ; some No. 3 sold at \$1 14 ; No. 2 (N. Y. grade) may be qnoted at \$1 18, and No. 2 Milwankee abont, \$1 20.

Indian corn has met with a good general demand, and, with some revival of speculative confidence and action, prices have improved materially in the past few days, stimulated to some extent by the advance in products of swine, because the feeding demand will be increased. Yesterday "steamer" mixed sold at 5634@57c. and No. at 55%c. for May.

Rye has advanced, and prime sold at \$1 10. Barley has met with only a moderate demand, but, stocks being light, prices are firm.

Oats have continued to give way in prices under better present and prospective supplies. The depression, however, is more in mixed than white, and more in fntnres than spots, some scarcity being apprehended this month. The market was weak yesterday, No. 2 graded closing at 46 1/2c. for white, and 44 1/4c. for mixed, and No. 2 mixed selling at 43½c. for May.

The following are closing quotations:

THE DRY GOOD3 TRADE.

FRIDAY, P. M., April 15, 1881.

[VOL. XXXII.

There has been during the past week a continuation of the quiet tone lately reported in the dry goods trade, and the volnme of business was comparatively light. Manufacturers agents, representing some of the best makes of domestic cotton goods, prints, ginghams, &c., experienced a fair demand throngh the medium of mail and telegraphic orders, but there was a very unsatisfactory movement in domestic woolen goods, hosiery and nnderwear, and nearly all imported fabrics were exceed-ingly qniet in first hands. There was very little animation in the jobbing branches of the trade owing to the unpropitions state of the weather, and retailers continned to operate with a marked decree of cantion, notwithstanding the very low prices now qnoted for most descriptions of domestic and foreign fabrics.

DOMESTIC COTTON GOODS .- The shipments of domestics to foreign markets during the week ending April 12 were only 867 packages, cf which 217 were sent to Great Britain, 144 to British North American Colonies, 107 to Brazil, 66 to Argentine Republic, 52 to Venezuela, 50 to Japan and smaller lots to other countries. Despite the comparatively light export movement of the week, some very liberal orders were placed with mannfacturers' agents for future delivery, and this branch of the trade is steadily improving. There was a very moderate demand for cotton goods at first hands, aside from a few leading makes of plain and colored cottons, for which there was a steady hand-to-month inquiry, resulting in a fair aggregate business. The best makes of plain and colored cottons ruled steady in price (with the exception of Atlantic brown sheetings. which were reduced from 1/4@1/2c. per yard); but low grade brown, bleached and colored goods continued weak and unsettled. Print cloths were in good demand and dearer, large sales of 64x64s having been made at 334@33/sc., and 56x60s at 3 5-16 @3%c., both grades closing firm at the outside quotations. Prints and lawns ruled quiet, but gingams continued active, and some fair sales of cotton dress goods were made by means of lower prices.

DOMESTIC WOOLEN GOODS .- The woolen goods market has presented few features of enconragement to either manufacthrees or distributors. Heavy clothing woolens have received less attention than expected, and business in this connection was light and disappointing to holders, considering the liberal price concessions that have lately been made as an incentive to arger transactions. Spring cassimeres, worsted coatings, &c., ruled quiet in first hands, but a large distribution was made by some of the leading cloth jobbers, who have nnusnally cheap ots to offer. Overcoatings were in limited request, but some fair orders were placed for fancy-back makes. Satinets were in rregnlar demand and on the whole slnggish, and there was no novement of importance in Kentucky jeans, which were very niet as a rule. For flannels the demand was chiefly of a handto-month character, and, while shawls and carpets ruled qniet, worsted dress fabrics were only in moderate request.

FOREIGN DRY GOODS have been dull in first hands, but the nost staple fabrics were fairly steady in price, the diminishing exports having imparted rather more strength to some kinds of goods. The jobbing trade was less active than expected, the state of the weather having proved a serions drawback to the listribution of summer textures. Dress goods ruled quiet, and silks were lightly dealt in, aside from fine black silks, and lowpriced fancy silks, in which there was some business. Linens, white goods and Hambnrg embroideries were slow of sale, bnt there was a steady movement in imitation laces, and lace goods at fair prices.
