TELEGRAPH COMPANY

is organized under the laws of the State of New

is organized under the laws of the State of New York, and has constructed a telegraph line of six wires from Boston, Mass., to Washington, D. C. This line has been built in the most substantial manner, and the poles are of sufficient size to carry thirty-six wires. The company has obtained excel-lent franchises or contracts giving it the right of way through Boston, Providence, Hartford, New York City, Philadelphia, Baltimore and Washing-ton, and all the smaller cities and towns on the route. route.

The company now propose to extend their lines from New York and Boston to Worcester, Spring-field, Albany, Utica, Syrncuse, Roohester, Buffalo, Erdc, Cleveland, Toledo, Detroit, Chicago, Milwau-kee, St. Paul, Minneapolis, also to Kansas City, St. Louis, Indianapolis, Lonisville, Cincinnati, Colm-bns, Wheeling, Pittsburg, &o., intending to cover the principal cities of the West and the Intermediate stations; also a line from Boston to Port-land and the Eastern cities.

It is believed that the lines of this company, when completed will include ninc-tenths of the profitable

completed will include ninc-tenths of the profitable telegraphic business of the country. The company has secured, in addition to the ordinary system, several valuable invontions for the most efficient and conomical use of its plant-these inventions covering the whole field of teleg-raphy. Such a line, newly built, constructed with reference to the most improved methods of teleg-methy and constructured under the most improved. raphyand operated under the most improved sys-tems in the most economical manner, and covering nine-tenths of the business of the conntry, with comparatively a small capital, is sure to be very profitable to stockholders, and at the same time a great advantage to mercbants and business men in all the leading cities.

For the purpose of completing these lines there will he issued \$5,000,000 of bonds to run thirty years, at 6 per cent interest, payable in gold, semi-annually

In New York, registered at the Central Trust Com-pany of New York. Purchasers are offered \$5,000,000 bonds and \$5,000,000 par value stock, at the rate of par for the stock, or for each cash purchase of \$10,000 tho purchaser will receive:

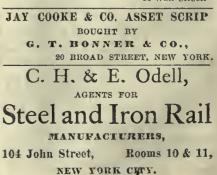

GEO.	WM	. BALLOU	æ	CO.,	
14	WALL	STREET, NEW	YOI	RK.	

OFFICE OF GEO. WM. BALLOU & CO.

NEW YORK, April 30, 1981, THE BOOKS FOR THE PURCHASE OF bonds and stock of the MUTUAL UNION TEL-EGRAPH COMPANY will open at our office on Monday.

The entire amount allotted to Boston-\$1.000.000has been taken, and purchasers of the \$1,500,000 set asido for New York will have to be considered in the order of their priority. The customary preliminary instalment of 10 per cent in cash should accompany each application

THE FINANCIAL OUTLOOK.

Spring has burst upon us with unusual suddenness this season, and with it every industrial enterprise has received new impulse. The snow blockade since the new year opened, and later still the floods, put such an embargo on freight transportation, that spring business did not at the opening meet anticipations. But now with the machinery of commerce again in full motion, consumption large and interior stocks of goods small, deferred orders are coming forward, and the movement of goods is likely to be kept up in unusual volume for the summer months.

! The outlook, therefore, for our various industries is very promising; and this only adds another influence to the many favorable conditions affecting our financial markets. Money is even now obtainable on call at an averago of about 4 per cent and is offered for six and even ten months at that rate on pledgo of stock collateral. Indications also point to a steady flow of cur. rency toward this centre from all interior points, even the most remote. Bank currency is on the increase and with- settled for. The receipts by the Treasury for customs

vernment bonds are selling for about the best prices over ecorded-even the "Windom's" are quoted at 101 to 1011, and the demand is sufficient to carry them much higher. Tho Bank of England rate of discount has been educed to the minimum of last year and the inquiry in Great Britain for investment securities is so great as to move the price of Consols up to 101 11.16, the highest recorded since 1852 when they were 102, and that was the highest ever known. Emigrants are flocking to our shores in numbers so great that extra steamers have to be provided to meet the demand. The prospects for the crops are decidedly brightening, while the scheme for extending the redeemable 5 and 6 per cent bonds at 31 per cent, bids fair to be brilliantly successful. Add to this a new start in railroad earnings, and we have in brief the financial situation. It is no wonder that with such surroundings efforts to depress the values of good railroad properties should prove unsuccessful.

In our issue of March 26, page 322, we gave a table comparing the highest and lowest rates for money on call during March with those in the corresponding month in 1880 and 1879. It was then expected that the supply of money would be so far in excess of the demand that the average for April would certainly not be more than 5 per cent. The record shows that this was the average for the first week only. Since then the average rates have deelined to about 41 for the second week and 4 for the third and fourth weeks. The oversold condition of the stock market will in part account for this; but the principal causes producing it have been the large arrivals of gold from Europe and the further circumstance that funds which were sent to the interior for the usual April settlements began at onco to flow back from remote points to this centre, and now currency is freely coming hither from Chicago, St. Louis and Cincinnati, where interest rates are almost as low as they are in New York. This is an indication that the country is full of money. There is at present no lack of it for all mercantile, industrial, manufacturing and speculative enterprises, while our foreign trade is in so satisfactory a condition as to turn the flow of gold this way on the slightest inducement. What conclusion can be drawn from such facts as these and others we have stated above, except great industrial and speculative activity for coming months?

The Treasury operations for the six days, including last Friday, show a loss, which is a gain to the banks, of \$2,219,628. This has chiefly come from payments of Assay Office cheeks for foreign bullion, which have amounted to \$3,408,046. There is \$360,000 still to be

alone have amounted to \$2,936,827 in this period, and of this sum \$1,194,000 has been in gold, \$137,000 in United States notes, and \$1,604,000 in silver certificates. The rates for domestic exchange have risen to 25 cents per \$1,000 premium at Chicago and to par at Boston and St. Louis. Currency is flowing hither freely from the West, and the following table will show the extent of the movement, as reported by the principal banks, sinco last Thursday.

1000	Received.	Shipped.
Currency		\$244,000
Total		\$244,000

The movement of gold from Europe has nearly ceased for the present. Since the 13th no shipments have been reported by cable, and the amount now in transit is light and made up of small lots which have been sent out from continental ports. The arrivals since Saturday inclusive have amounted to \$526,338, making about 27 millions since the beginning of the year. The Bank of England report shows a gain of £120,000 for the week, and an increase of 1 3.16 per cent in the proportion of reserve to liabilities. The Bank of France shows a gain of 3,950,000 francs gold and 7,300,000 francs silver for the week, while the Bank of Germany has an increase of 5,320,000 marks. The following indicates the amount of bullion in each of the European banks this week and at the corresponding date last year.

	April 2	8, 1881.	April 29, 1880.

Bank of Germany	9,193,008	19,402,982	9,603,000	19,206,000		
Total this week	59.403.315	68.872.012	70.428.831	68.102.774		
				68,020,641		

The above gold and silver division of the stock of coin of the Bank of Germany is merely popular estimate, as the Bank itself gives no information on that point.

The market for foreign exchange has been strong in consequence of a scarcity of commercial bills. Shipments of domestic produce are for the moment checked by the comparatively high prices for pork and provisions, the retarded movement of grain, at first through tho snow blockade and floods, and later by the bad roads; it is also reported that the quality of the cotton now coming forward is so inferior that it cannot be readily sold for export. For these reasons the supply of bills is not equal to the demand for remittance against bonds imported, and the rates have been advanced to such points as to make it temporarily unprofitable to import gold. There is some trading in securities by cable, but these transactions for European account cannot be heavy, otherwise there would be a supply of bills from this source. The following table shows the relative prices in London and New York at the opening each day.

There have been two weak spots in the stock market this week. The elevated railroad shares have fallen heavily, by reason of the official statement of the financial condition of the Manhattan Company, made to the Mayor in an application for remission of the tax on the corporation. Advantage was taken of the break in these stocks to unsettle the other properties, and an attack upon the market was partially successful. On Thursday the Trunk line shares were advanced, on rugiors that the managers had agreed to pool the earnings instead of the freight of the roads; but while these properties were strong, the other weak spot, Reading, showed itself, and the fall in this again aided in unscttling the market. The tendency of the majority of the railroad properties is clearly toward higher prices, and there appears to be good buying at every decline, on orders from domestic and foreign investors.

MARRIAGE OF JERSEY CENTRAL TO WABASH.

No sooner does a road come under Mr. Gould's maternal care than it is lost in admiration for some other road already within his control. One would certainly think that the Central of New Jersey and the Wabash were far enough apart to be safe from each other's charms, separated as they are by about 500 miles; yet see how eager and intense their desire is to reach out and embrace. On the earlier rumors the incredulous public pronounced it all a mere passing fancy, or, perhaps, idle gossip; but now there is no longer any doubt as to their relations. Life is evidently intolerable except in association with each other. It has become patent to even the most superficial observer that here are

"Two souls* with but a single thought, Two hearts that beat as one."

The Creator, to be sure, has laid their paths in life so wide apart that it is no easy matter to unite them. Toledo, the extreme eastern end of the Wabash, is, as already remarked, 500 miles distant from Tamanend, the extreme western end of the Central of New Jersey. 'In an ideal union space and distance are as nothing. But this is to be a practical union as well as an ideal one, and in it therefore space and distance are important elements. And yet, can nothing compass the difficulty when the benefits to result are so enormous? Appeal is made to their mystic guardian. He at once determines it shall be done, and that's enough for those that have faith.

A conference was held Monday afternoon, according to the daily papers, between committees of the Jersey Central and Wabash, with reference to the formation of a close alliance and the establishing of a new through route. " It was resolved " to extend the Jersey Central system to Red Bank (how much more appropriate Green Bank would be) over the Pennsylvania "low grade" roads, much in the same way outlined in these columns last week, and from thence to build 70 miles to Youngstown, "where there is abundant communication to Toledo." Abundant communication, indeed ! So is there at Philadelphia and New York, and even at Red Bank. Why then build 70 miles of road ?

No information is vouchsafed as to what arrangements are to be made with the Pennsylvania. Perhaps that was thought unnecessary. But does it not seem a little queer that the Pennsylvania, which would play by far the most important part in the proposed route, should not have been represented at all in the conference? Then, as the Pennsylvania has its own line to Toledo, would it not be in the highest degree unwise, as we have before said, for *For the sake of the metaphor we will suppose that corporations have souls.

it to assist in the formation of an opposition line, which could only take away some of its business? Perhaps the Pennsylvania had already been consulted and refused its aid. In that case how plucky of the Jersey Central and Wabash people to "resolve" not to let the small distance of 500 miles stand in the way, and to unite the systems anyway, in theory if not in fact. Would not the benefits be the same?

If any one doubts either the announcement or the results, let him reflect on the immense advantages that the Wabash is deriving from a similar alliance, solemnly made in conclave last summer, with the proposed New York Lackawanna & Western, which was announced with a great flourish of trumpets-the new road to extend to Buffalo and connect with the Wabash at Detroit over the Great Western of Canada. Verily, these stories about the formation of new through routes and alliances have been repeated so frequently that they are getting "stale, flat and unprofitable," and unless Mr. Gould soon hits upon something more substantial than these unions against nature to perfect an Eastern trunk line, is it not possible that the public will become altogether incredulous? For our. selves, we are free to admit that we think Gould wants and has determined to have an Eastern system already established, and is not at all desirous of forming or building a new one, either in whole or in part.

PROSPECTS OF THE WHEAT CROP.

The prospects of the wheat crop of the United States for the coming season are involved in some doubt, through the possible operation of events that had little or no relation to the two or three great crops which have been gathered in the seasons last passed. In the first place, the winter of 1880-81 was unusually severe and prolonged, coming on early and hanging on late; and more lately the wheat-growing sections of the Northwest have suffered from floods beyond all precedent. These circumstances can hardly fail to have an important relation to the yield of wheat for the next season; in some cases improving, while in others diminishing, the prospect; and there is, therefore, a good deal of anxious inquiry, even thus early, regarding the matter.

Of the present condition, the accounts coming in are very contradictory, and derived, as they mostly are, from partial and local observations, are not very reliable. Winter wheat is, no doubt, rather backward in growth from the effects of the severe winter and late spring, but seems hardy, and now comes forward rapidly, especially in the Northern latitudes. In the Middle latitudes, where there was less snow, it was to some extent winter killed. The acreage has been extended on new lands, but the comparatively low prices current last autumn undoubtedly restricted the sowing, more or less, in the older sections where winter wheat is grown. Therefore no very important increase in the acreage can be expected.

As regards spring wheat, the whole year, from the gathering of the last crop to the present time, has undoubtedly been unpropitious. It is usual to do the plowing of lands for spring wheat in the autumn; there is little time for this work in the spring; and as soon as the snow disappears the sowing is made upon the lands plowed in the previous autumn. The winter came on so suddenly and severely last year that farmers had no time to plow to the extent desired, and the floods this spring have overflowed much land, so that it could not be sowed, or, on subsiding, have left many other fields unfit for cultivation. Still, as population the last few years has rapidly been

pushing further West, and new lands are being opened up constantly, we cannot see any present prospect of a total acreage below that of last season. On the other hand, it would not be safe, in view of the foregoing facts, to count too surely upon a further great increase in our yield of wheat next season.

It is probable that there are yet pretty full stocks of wheat in the hands of farmers. Prices have not been high enough to stimulate deliveries, and the accumulations of snow, followed by floods, interrupted transportation greatly by rail, as well as over country roads, for many weeks. The lateness of the season has delayed the reopening of the Erie Canal. The probabilities are, therefore, that unless crop prospects shall be so unpromising as to induce farmers to hold back the old stock, we shall have very heavy supplies of wheat upon our market from the middle of May to the first of July. But so much will depend upon many conditions yet to be developed, that it would be idle to attempt to forecast the course of prices.

There is no longer any doubt expressed of the export demand for our wheat, at moderate prices, continuing on a very large scale. At the beginning of the crop year now drawing to a close, it was apprehended that the better yield in Great Britain and the West of Europe would cause a material curtailment of the demands upon us. Such has not. proved to be the case. For nine months ending April 1, being three-fourths of the fiscal year ending July 1, the exports of wheat (including flour reduced to wheat) reached thelarge aggregate of 145,608,000 bushels, against 139,862,000 bushels for the corresponding period of the previous fiscal year, which had greatly exceeded all former years. Thus in the face of better crops in Great Britain and the West of Europe, our exports of wheat and wheat flour increased. It is true a lower range of prices has prevailed, and the aggregate values for nine months of this year are about 166 million dollars, against 174 million dollars last year; in other words, nearly six million bushels more wheat have been sold for eight million dollars less money. But if this fact has any significance, it is in demonstrating that at moderate prices we can sell our wheat in quantities that a few years since would have been deemed impossible.

COIN IN THE BANK OF ENGLAND.

The London *Economist* cites as an evidence of "slackness of trade" the circumstance that the Bank of England holds $\pounds 17,500,000$ coin now, against 10 to 12 millions on ordinary occasions. The inference drawn from the factscited seems to be very reasonable, and, in truth, quite conclusive. We should like, however, to ask—

- 1. Whether it does not follow, from such a statement, that, if trade had not been slack, this 5 to 7 million excess of coin over ordinary occasions would have been in active circulation, and therefore not have accumulated in bank?
- 2. That if the Bank had been short of this unusual accumulation of coin, would it not have been compelled to put up the rate of interest until it made business "slack," so that the coin could be accumulated ?
- 3. Does it not look, therefore, as if this necessity and fear hanging over English trade, was a chief influence in keeping business "slack," and that it would quickly check any considerable activity if it were to arise?

Perhaps the more this thought is followed up and dwelt upon, the more intimate and personal will appear to be the interest England has in this silver question.

CHICAGO MILWAUKEE & ST. PAUL REPORT.

The St. Paul report has been awaited with much intcrest. The large additions to the company's mileage, through acquisition and extension, the knowledge that this had caused a heavy increase in indebtedness, and the fact that the increase in earnings of late did not keep pace with the increase in mileage, have all tended to draw attention to the company's affairs, and much speculation has been indulged in as to what the report would show.

As respects the number of miles of road embraced in its organization the company now stands in the front rank of the great railroad corporations of the day. The mileage was increased 1,544 miles during 1880, and on January 1 the company operated altogether 3,775 miles. The total has been further increased since, and now is about 3,800. Among the roads acquired are the Southern Minnesota, the Chicago Clinton Dubuque & Minnesota, the Wisconsin Valley, the Chicago & Pacific, the Sioux City & Dakota, and the Hastings & Dakota. The purchase of the Southern Minnesota was announced in the previous report, but the road had not yet then been merged in the St. Paul system. The Chicago Clinton Dubuque & Minnesota is quite an acquisition, as it gives the St. Paul an all river line from Clinton, Iowa, to St. Paul, Minnesota, and removes the danger of competition there. But perhaps the most important addition is the Chicago & Pacific. This road when it passed into the hands of the St. Paul extended from Chicago to Byron. It needed the construction of only 26 miles to bring it in contact with the St Paul's entire network of to afford roads and to the latter a short and very direct line to Chicago. These 26 miles have been constructed, and now the position of the St. Paul has changed. It is no longer exclusively a Milwaukee road. While retaining its "grip" on that city, it has succeeded in obtaining a hold on Chicago, so that the distinctively Chicago roads should soon feel the effect. This must not be lost sight of in any estimate of the company's future. How the St. Paul system has been transformed under the influence of the Chicago & Pacific, and what a wide expanse of territory it now covers, may be seen in the following analysis which we have made of the company's mileage. Miles.

- (1) MILWAUKEE via Watertown, Portage City, La Crescent and 336

Grand total...... 3,800

Various other lines are projected. The one that is attracting chief notice is the proposed extension of the company's Iowa system from Marion to Council Bluffs, which would give the company a line between Chicago and the latter point. The report speaks very favorably of the The road would run through a fine section of line. country, it is true, but as it will pass midway between the Northwest and Rock Island for most of the distance, it would be surrounded on either side by active competitors, and it does not appear certain yet that Central Iowa can at present support three roads in such close proximity to each other. Then as regards the Council Bluffs traffic, that would have to be divided with the three roads already doing the business; so here too the field is pretty well occupied. Still as it is announced that steps have been taken to begin work at once, we suppose the line will be built.

The company's financial condition, as presented in the report before us, can not be regarded as highly satisfactory. At the close of the year there was outstanding \$70,172,000 of mortgage debt, on which we figure the annual interest charge at about \$4,663,000. The previous year the debt was only \$41,349,500, showing that during 1880 there was an increase of \$28,822,500. Bills payable, unpaid vouchers, &c., increased from \$932,330 on Dec. 31, 1879, to \$1,056,-497, Dec. 31, 1880, and miscellaneous accounts and current balances due other companies increased from \$523,580 to \$2,005,739. On the other side of the account there was an increase in the value of materials on hand from \$385,971 to \$564,715; but materials can hardly be considered as available in the payment of floating liabilities. The increase is mainly on account of iron rails, which are reported at 2,415 tons and valued at \$119,217. In last year's report no such item as rails on hand appears. Miscellaneous accounts and balances due from agents, &c., show a small gain, having risen from \$580,432 to \$780,491, but cash on hand has been drawn down from \$801,694 at the close of 1879 to \$382,950 at the close of 1880. No change of any consequence has taken place in the stock, which stands at \$15,404,261 common and \$12,404,483 preferred, together \$27,808,744. This, it must be admitted, is a very small capital for a company having 3,800 miles of road and 70 millions of debt. Would it not be advisable to pay for future construction by issuing stock, and "let up" for a while on the debt?

457

\$13,086,118, The gross earnings were against \$10,012,819 in 1879, a gain of \$3,073,299. Net earnings were \$5,343,693, against \$4,539,024. The latter did not increase in the same proportion as the gross earnings owing to the fact that the percentage of operating expenses was greater-59.16 per cent in 1880, against 54.66 in 1879. The interest charge was \$2,837,383 in 1880, and \$2,287,407 in 1879. The reason that the charge was no heavier is that on many of the new issues of bonds the interest had to be paid only in part. After deducting from the net earnings the interest here given, and also \$81,000 for sinking fund on consolidated bonds, and adding on \$324,298 for "premiums, interest and other income," there remained a surplus of \$2,749,607 on the year 1880's operations, equal to a little less than 10 per cent on both common and preferred stock. Seven per cent has been paid out of this. If we leave out of account the \$324,298 received from premiums, &c., the surplus will amount to about S_4^8 per cent. If the company had had to pay the full interest on the bonds outstanding at the close of 1880, the surplus, instead of being \$2,749,607, would have been about \$925,000, equal to 7 per cent on the preferred, and 1-3 per cent on the common. But the 3,775 miles which the company had at the end of 1880 were not all operated the entire year. The average was only 2,923 miles. So the company has 852 miles additional on which to draw for increased business. Thus far this year, the road has increased its earnings \$467,402, notwithstanding the snow blockade all through the winter. Of late weeks, when the embargo on traffic had been to a great extent removed and freight held back came forward, the increase in earnings has been about 50 per cent on last year's figures. Expenses, however, have been very heavy, and as the percentage of expenses to earnings increased in 1880, so it is not unlikely that 1881 will witness a further increase. The following shows the company's operations for eight years past. Dividends are given in the year in which, not out of which, they were paid.

	Gross Eurnings.	Operating Expenses.	Net Earnings.	Interest Paid.	Dividends Paid. Pref. Com.
1873 1874 1875 1876 1876 1878 1879 1880	8,114,894 8,451,767 10,012,819	$\begin{array}{c} \$ \\ 6,594,560 \\ 5,871,116 \\ 5,170,353 \\ 4,953,324 \\ 4,540,433 \\ 4,792,313 \\ 5,473,795 \\ 7,742.426 \end{array}$	\$ 2,451,563 3,081,901 3,085,390 3,100,847 3,574,461 3,659,454 4,539,024 5,343,693	\$ 1,839,643 1,951,162 1,980,228 2,032,881 2,158,218 2,135,730 2,287,407 2,837,383	$\begin{array}{c ccccccccccccccccccccccccccccccccccc$

Bonds. 114 per cent in bonds.

With reference to the traffic statistics, we find that the average rate received per passenger per mile has decreased from 2.93 cents to 2.84 cents, but that the rate per ton per mile increased slightly, having been 1.76 cents in 1880 and 1.72 cents in 1879. The following will show the passenger and freight movement since 1873.

	Passeng	ers Carried	One Mile.	Passenger	Rate per
	Eastward.	Westward.	Tolal.	Earnings.	Passenger per Mile.
1873 1874 1875	26,797,080	31,463,349	52,252,558 58,260,429	\$1,857,197 1,950,069	3.58 cents 3.35 cents

1000	50,106,399 Tons of Fr	61,455,520 eight Carried	111,561,919	3,162,898	2.84 cents
	Eastward.	Westward.	Total.	Freight Earnings	Rate per Ton per Mile.
$ 1873 \dots \\ 1874 \dots \\ 1875 \dots $	198,658,418	60,511,430	257,638,532 239,168,248	\$6,421,369 6.162,111	2.50 cents 2.38 cents
1876 1877	213,638,830 196,603,586 196,110,119	-68,204,441	272,539,502 264,808,027 271,598,133	5,715,125 5,409,045 5,662,629	2.10 cents 2.04 cents
1878	223,725,685 263,474,521	98,093,217 138,191,912	321,818,902	5,783,366 6,897,828	2.08 cents 1.80 cents 1.72 cents
	210,010,/31	229.829.423	504.876.154	8.890,457	1.76 ecuts

There is just one point in these figures that will bear comment, and that relates to the movement of freight. It will be observed that while the eastward movement increased 12 million ton miles, or about 5 per cent, the westward movement increased more than 91 million ton miles, or pretty nearly 66 per cent. That notwithstanding the good crops there should be an increase of only 5 per cent in east-bound freight, is certainly very strange and needs explanation: As to the extraordinary gain in the west-bound freight, it may be said that although, no doubt, the wants of settlers along the company's lines for all kinds of goods from the East have increased, it would not be at all surprising if the larger part of the gain should be shown to have been on account of supplies carried for the construction of new roads, and more especially for the St. Paul's own lines.

REVENUE LAW UNCERTAINTIES.

Some cases which have very recently arisen, so well illustrate the present condition of our revenue arrangements, that a statement of them may be useful.

Schedule L of the tariff assesses upon sundry factures of woolens and worsted yarns, including knit goods, a specific duty of 20 to 50 cents per pound, and also 35 per cent ad valorem; schedule M assesses 35 per cent upon ready-made clothing and wearing apparel of all descriptions, including stockings, woven shirts and drawers, and all similar articles made on frames. Some time ago a Department ruling placed stockings under the "knit goods" covered by schedule L; the importers resisted this, and the suit of Vietor against Collector Arthur recently reversed the ruling, the Supreme Court deciding that stockings made on frames fall under the dutiable description in schedule M.

Last month, a Treasury circular instructed customs officers to assess duties conformably to this decision, but-as is now claimed-went beyond the terms of the decision, and included caps, gloves, leggins, mitts, stockings, woven shirts and drawers, and all like articles made on frames. A week ago, a delegation of makers of these goods visited the Treasury to protest, particularly as to shirts and drawers, which, they claimed, are not woven goods, but knit, although made on frames, and thereforc properly subject to the heavy compound duty under shedule L. After listening to them, the Treasury so far yielded as to issue a third circular, temporarily suspending the instructions given March 29. On Tuesday last, Mr. Blair of New Hampshire presented in the Senate a rcsolution declaring that the public interest requires Congress to be convened in public session immediately. He explained that the decision above stated will ruin the hosiery and knit-goods factories, unless Congress speedily comes to their reliaf, and he read a letter to this effect from a firm of stocking makers in the town of Laconia, N. H.

Next in order appear the makers of iron cotton-ties, complaining to the Treasury that, in order to evade the specific duty of $1\frac{1}{2}$ cents per pound assessed by schedule E upon hoops and band iron of the specified thickness, English makers put a single rivet through one lap of the tie; thus, as alleged, the ties come in as manufactures of iron not otherwise provided for, at 35 per cent ad valorem, amounting to half a cent per pound. The complainants urged that there is no practical advantage in a cotton tie with a rivet at one end, over the old plain lap, and argued that if discriminations like these are permitted the iron business of this country is ruined. On the other hand, an importer of cotton ties, from New Orleans, argued that the South needs cheap ties.

These cases are an apt illustration of the mischief which our complicated tariff works, and of the debilitating effect which too much pampering exerts upon industry. The duties are so mixed, inconsistent, and vaguely stated, that the real meaning of almost every paragraph admits of question. The result is that rulings and decisions are issued by the Department from time to time, as well as made by subordinate customs officers. Practically, the Treasury Department, for the time being, and customs officers in their own circle, make laws, which are by no means always reasonable and just; pursuant to the timehonored precedents, the rule is, as expressed by one of these iron complainants, that "where an honest doubt is "involved it is proper for the Department to decide in "favor of Americans in preference to foreigners." How arbitrarily and harshly this law-making by interpretation works, importers have learned by experience.

The phraseology just quoted is also suggestive of the narrow idea this over-protection begets as to the character of labor to be considered. Americans are always to have preference over foreigners. This involves the fallacy that the foreign producer, and not the home consumer, pays the tax; but what Americans are to have this preference? The maker of cotton ties wants to be protected against foreign ties; the cotton grower and cotton manufacturer want cheap ties. The rolling-mills want protection; everybody else wants cheap rails, cheap tools and machinery, and cheap iron generally. So we might go through the list, finding that the home producer is up in arms against any relaxation of duty, while the consumer wants cheap articles of all sorts. There is a narrow self. assertion-or selfishness-in this continual seeking to secure by interpretation personal advantage under the law. Upon what grounds is one portion of American labor entitled to special consideration in the tax laws, rather than another? Nobody can venture to deny that cotton growing, wool growing, producing raw materials generally, and all agriculture, are industry; and how is it that labor in one department is more sacred than another ? When the right of "American labor" is talked of in speeches and party platforms, it appears, that sundry special interests are meant.

IMPORTS AND EXPORTS FOR MARCH, AND FOR NINE AND TWELVE MONTHS ENDED MARCH 31, 1881.

[Prepared by the Buroau of Statistics.]

Below is given the ninth monthly statement for the fiscal year 1880-81 of the imports and exports of the United States. The excess of exports of merchandise, stated in specie

values, was as follows :		- 21
Month ended March 31, 1881	\$21.364.558	H H
Month ended March 31, 1880	6.463.986	A
Nine months ended March 31, 1881	234.844.278	
Nine months ended March 31, 1880	159.032,201	-
Tweive months ended March 31, 1881	243,445,899	3
Twelve months cuded March 31, 1880	194,471,896	
The excess of imports of gold and silver coin and	bullion was	-
as follows:		
Month ended March 31, 1881.	\$6,445,396	
Month ended March 31, 1880.	106.290	
Nine months ended March 31, 1881	-78.623.560	S
Mine months ended March 31, 1880	75.571.182	
Twelvo months ended March 31, 1881	78,943,769	a
Twelve months ended March 31 1880	70 773 616	

The total values of imports and of domestic and foreign exports for the month of March, 1881, and for the nine and twelve months ended March, 1881 and 1889, respectively, are presented in the following tables, all in specie values:

[Corrected to April 23, 1881.] MERCHANDISE.

Monetarn Commercial English News

|From our own correspondent.|

London, Saturday, April 16, 1881.

Gold has continued in demand for export to the United States, and the money market, though far from active, on account of the limited mercantile inquiry, has been firm in tone, while the rates of disconnt have exhibited an improving tendency. It is premature, as yet, to think of an advance in the Bank rate, as the open market rates for money are still about half per cent below the Bank's published quotation; but in many quarters it is regarded as probable that before very long a change will have to be made. The export demand for gold has not at present assumed proportions calculated to occasion any alarm; but the movement at this period of the year is unusnal, and for that reason attracts more than ordinary attention. As far as the London money market is concerned, our position is not so satisfactory as it was. A few weeks ago we were drawing, day by day, supplies of gold from Paris, and these made good the deficiency caused by the American demand. During

the last fortnight, however, Paris has been a seller of foreign securities to au extent sufficient to correct the exchange, and consequently the supply of gold held by the Bank of England has been decreasing. The quantity of gold on passage to this country is larger than for some time past, being estimated at about £600,000. The snpply held by the Bank of England, though it has fallen off of late, amounts to £26,226,075, which contrasts with £28,283,387 last year. The position of the Bank is still a good one; but it seems to be possible that, instead of improving during the spring and summer mouths, its course will be a retrograde one, and that we shall re-commence our autnmn trade with a higher range in the value of money. A period of some importance seems to be at length approaching in the money market; but the crop prospects in Enrope are so far good, and this fact continues to promote confidence in the fnture. The Bank of France is still unwilling to angment its terms for disconut accommodation ; but the first indications of a rise in the rates for accommodation will probably present themselves in Paris, and that market is therefore somewhat anxiously watched. The public of this country have already committed themselves to heavy instalments in connection with public companies and loans. The total capital of the companies introduced this year amounts to more than £30,000,000, and uew nndertakings are almost daily being introduced to public notice. £10,000,000 a month is a heavy responsibility, and it is said that investors are already feeling the burden of the "calls" which are being made upon them. There is, however, a large amount of financial business in progress, and these are clearly having considerable influence over the money market. Mouey is, indeed, cheap; but a few weeks ago it promised to be cheaper still. The downward movement which was then appareut has not only been checked, but the rates of discount are showing increasing firmness; and it would occasion no surprise if the discrepancy of half per cent which exists between the open market and the Bank rates were to disappear before long.

The trade demand for money is still very moderate, and the quietness of mercantile business produces no expectation of any immediate improvement. The total of "other securities" has fallen to £20,662,272, which is only £2,000,000 more than at this period last year, and which is due chiefly, if not entirely, to loans ou Stock Exchange securities. The total reserve of the Bank is now £14,518,895, which compares with £15,967,962 in 1880, and £19,091,514 in 1879. The proportion of reserve to liabilities has declined to 43.64 per cent. The Clearing-House returns are still heavy, the total for the week ended Wednesday being £144,150,000, against £96,937,000 last year and £64,680,000 in 1879. The following are the present quotations for mouey:

Per cent.Bank rate.3Open-market rates-330 and 60 days' bills. $2^{3}g @ 2^{1}_{2}$ 30 months' bills. $2^{3}g @ 2^{1}_{2}$ 3 months' bills. 2^{1}_{2}

The rates of interest allowed by the joint-stock banks and discount houses for deposits are as follows:

The silver market has presented a somewat firmer appearance, and the quotations have slightly improved. There has also been au advance in the Indian exchanges. The Monetary Convention to be held in Parishas been postponed, as the Government of this country is being strongly urged to send a representative to it; the silver question being one of great importance to our trade with all silver-using conntries. The Government has not shown much willingness to join the couference, as it

considers that by doing so we should commit onrselves tobi-metallism. We are not likely to change our present system, as many advantages have accrued to the natiou from it, and England is naturally very indisposed to alter a system which has for a long period worked so well.

The following are the current rates of discount at the principal foreign centres :

	Bank rate. Fr. cl.	Open markcl. Pr. cl.	Bank raic. Pr. cl.	Open markel, Pr. cl.

Vlenna	4	312	Calcutta 6	

There has been some anxiety this week regarding political affairs, and the Paris Bourse has been somewhat agitated; but both the Tunisiau and the Turco Greek questions present now a more favorable aspect, and hopes are entertained that before very long the business of the country will be unencumbered by political difficulties. Should we have a good harvest, the prospects for next autumn will be encouraging, and there is no reason why business generally should not make a vigorous movement.

The weather is still favorable. It is much warmer, but there has not been the fall of rain which the newly-sown crops appear to require. The railway traffic returns are improving, and in last week's receipts there was a small increase compared with 1880. The Easter traffic is certain to be very large, as a long period has elapsed since the last holidays, and the weather is all that could be desired for recreation. The value of British railway shares is, therefore, improving, and consols have been as high as 100³/₄ to 100⁷/₆. The stock markets are, in fact, generally better, with a prospect of further improvement.

In the corn markets business has been quiet. British farmers have been offering very moderate supplies, but the condition of the produce remains satisfactory. The favorable weather has imparted rather a dull tone, but prices have not fallen to any important extent. The quotations will, no doubt, decline, should the crop prospects continue good.

During the week ended April 9 the sales of home-grown produce in the 150 principal markets of England aud Wales amonnted to 30,433 qnarters, against 24,643 qnarters last year and 52,939 qnarters in 1879; while it is computed that they were in the whole kingdom 121,750 quarters, against 98,600 quarters in 1880 and 211,750 quarters in 1879. Since harvest the sales in the 150 principal markets have been 1,199,570 quarters, against 988,528 quarters last season and 1,757,711 quarters in 1878-9, the estimate for the whole kingdom being 4,798,300 quarters, against 3,990,250 quarters and 7,031,000 qnarters in the two previous seasons respectively. Without reckoning the supplies furnished ex-granary at the commencement of the season, it is estimated that the following qnantities of wheat and flour have been placed on the British markets since harvest; the visible supply of wheat in the United States is also given: 1880-1. 1879-80. 1878-9. 1878-9.

Of the above imports for the week in 1881, \$2,774 were American gold coin and \$45.081 American silver coin. Of the exports for the same time, \$24,200 were American gold coin.

-Attention is called to the list of May investments offered by Mr. Charles T. Wing in our advertising columns to-day. Mr. Wing is among the most enterprising dealers in Wall Street, and what he offers to the public usually meets with a ready sale to good buyers.

GULF COLORADO & SANTA FE.—The attention of investors and others is invited to the financial statement, on another page, of the Gulf Colorado & Santa Fe Railroad of the State of Texas, the bonds of same having been lately placed on the List of the New York Stock Exchange. This road commences at Galveston on the Gulf Coast, and runs in a northwesterly direction to-ward Santa Fe, New Mexico, traversing the valleys of the Brazos and Colorado rivers, one of the most fertile sections of this rich State. The G. C. & S. F. RR. was projected and built by the bankers and merchants of Galveston, Texas. It has only \$6,000 stock per mile, all of which has been paid in full, and has a first mortgage gold bond of \$12,000 per mile, bearing 7 per cent interest, payable semi-annually in New York, the bonds maturing in July, 1909. As will lbe seen by the statement, the road has shown large earning capacity, and after payment of interest, &c., presents a handsome surplus. —Messrs. Geo. Wm. Ballou & Co. offer in New York \$1,500.-

Messrs. Geo. Wm. Ballou & Co. offer in New York \$1,500,--Messrs. Geo. Wm. Ballou & Co. offer in New York \$1,500,-000 of the 6 per cent first mortgage bonds of the Mntual Union Telegraph Company. The company has constructed a line of six wires from Boston to Washington, D. C., and now proposes to extend its wires to all the principal cities from New York and Boston-via Albany and Buffalo-to Chicago, St. Paul, Cincinnati, St. Lonis, &c. Of the total issne of \$5,000,000 of bonds, only \$1,500,000 is offered here, and the balance is to be taken in Boston and the West. A bonus of \$10,000 stock is given with each \$10,000 bonds. The enormous profits of the Western Union will induce capitalists to look favorably on these securities.

-Messrs. Kuhn, Loeb & Co. now offer one of the most promi-nent loans of the current year. namely, the \$20,000,000 4½ per cent gold loan of the Pennsylvania Company. Only \$10,000,-000 are now offered, and each bond has endorsed thereon the absolute guaranty of the Pennsylvania Railroad Company for principal and interest. The bonds are secured by the leases of the Pittsburg Fort Wayne & Chicago and the Cleveland & Pittsburg railroads, and also by the company's real estate in the cities of Pittsburg, Allegheny and Chicago, and by stocks and bonds amounting to \$24,000,000 (par value), held by the company. The price is 100½ and accrued interest.

-In an official circular, Messrs. Fisk and Hatch, the bankers of the Chesapeake & Ohio Road, announce an advance in the purchase money funding bonds to 112, and the series A bonds to 105 and accrued interest. In connection with this, they state that the Elizabethtown & Paducah and the Paducah Memphis & Northern roads have been purchased in the interest of the Chesapeake & Ohio system, which, in connection with other roads, and with lines now building, will, on the completion of those lines, place the system in direct communication with Chicago, St. Louis, Cincinnati, Louisville, Memphis, and other important railway centres. important railway centres.

-As will be seen from our advertising columns, the well-known firm of R. M. Waters & Co. dissolve partnership on the 1st of May. The business of the firm is, however, to be con-tinued at 54 Broad Street by their successors, Messrs. John C. Graham & Co., of Selma, Alabama. The large means and ex-tended Southern connections of Messrs, Graham & Co. will un-doubtedly command at once for the new firm a very flourishing husiness. business.

-The stockholders of the Rochester & Pittsburg Railroad Company will take notice of the Rochester & Pittsburg Railroad Company will take notice of the proposal of the board of directors, in our advertising columns, to increase the capital stock from three millions to four millions of dollars, to be voted on on May 18, 1881, in this city. If this proposition is adopted, the option to take a proportionate share of the stock will expire May 25, 1881.

BANKING AND FINANCIAL.

OFFICE OF FISK & HATCH,

No. 5 NASSAU ST., New York, April 21, 1881.

GOVERNMENT BONDS.

We give special attention to the forwarding of "Sixes of 1881" to

the Treasury Department "for continuance" for account of holders.

And also to the conversion of Conpon Government Bonds of all issues

into Registered Bonds, which is the only form in which investors can render their bonds porfectly safe from theft, firo or loss.

We attend to either of the above for a commission of one-eighth of one per cent

Holders of "Sixes of 1881" not desiring to "continuo" their bonds,

can exchange them at our office for "Fours" or "Four and a Halfs" at market rates.

We are also prepared to furnish the new Three and a Half Per Cent "continued bonds" at market rates to parties desiring to make direct FISK & HATCH. investment in them.

The Bankers' Gazette.

The Money Market and Financial Situation.—Financial affairs have been quiet since onr last report, and few weeks of the current year have developed less that was radically new than the week just passed. The Banks of England and France are show-ing an increase in specie, and it is generally conceded that the present outlook indicates a probable cessation in the shipments of specie to this country for the next month or two. The Bank of England has reduced its discount rate to 2½ per cent. The plan of Secretary Windom is working quietly, and one of the most prominent Government bond dealers thinks that 85 per cent of the sixes of 1881 will be presented to be stamped at 3½ per cent; this, however, is only an opinion, and we shall wait for official information from the Treasury in May before coming to definite conclusions as to the amount of bonds to be presented. The money market is working very easily, and on Govern-ment bond collaterals an abundance is offered at 3 per cent. On stocks there was a little more activity in the demand to-day, The Money Market and Financial Situation .- Financial

stocks there was a little more activity in the demand to-day, but rates during the week have been 4@5 per cent for the bulk of transactions. Prime commercial paper is quoted at $4\frac{1}{2}@5$ per cent.

per cent. The Bank of England statement on Thursday showed a gain for the week of £120,000 in specie, and the percentage of reserve was 49 5-16 per cent, against 43% per cent last week; the discount rate was reduced from 3 per cent to 2½ per cent. The Bank of France gained 3,950,000 francs gold and 7,300,000 francs silver in the week. The last statement of the New York City Clearing-Honse banks, issued April 23, showed an increase in the surplus above legal reserve of \$4,013,175, the total snrplus being \$5,059,150, against \$4,045,175 the previous week. The following table shows the changes from the previous week and a comparison with the two preceding years:

	1881. April 23.	Differ'nces fr'm previous week.	1880. April 24.	1879. April 26.

United States Bonds.—There has been the same active busi-ness this week in changing off one class of bonds for another, and the dealers have been crowded with orders ever since the and the dealers have been crowded with orders ever since the Secretary's plan of operations was issued. The 4 and 4½ per cents have risen still further in price, and the new 3½ per cents, popularly called "Windoms," are selling at about 101, and draw no interest till July 1. The following is the text of the circular of the Treasnry Department relative to the modification of circular No. 42 in reference to the extension of 6 per cent bonds at 3½ per cent per annum:

per annnm:

per annum: So much of circular No. 42, duted April 11, 1881, as requires the bonds to be sent to the Scerctary of the Treasury, in ease they are to be continued, is hereby so modified that foreign holders of any of the 6 per eventum bonds described therein may have them continued as therein provided, upon the receipt of the bonds at the Government agency estab-lished for that purpose at the banking honse of Messrs. Morion, Rose & Co., Bartholomew Lane, London, E. C., England, and the time during which the bonds may be received at that agency for such continuence is hereby extended to May 20, 1881. In case the bonds are presented at the London agency the forms of request for their continuance must be executed in duplicate. WILLIAM WINDOM, Secretary. The alonging mission at the New York Bond have been as follows:

The closing prices at the New York Board have been as follows:

State and Railroad Bonds.—There has been little activity in Southern State bonds, though the feeling is generally strong. The State Treasurer and Comptroller of Tennessee have been in this city to make arrangements for the new engraved bonds of that State, and the latest advices from Nashville indicate that the proposed injunction suit against carrying out the funding law Railroad bonds have been strong and active on a widely-dis-

tributed business. Messrs, A. H. Muller & Son sold the following at anction:

Relation of the provided state of the state

progressing, but the precise terms of the several arrangements are not yet known. The bonds (carrying a stock bonus) of the Mntnal Union Telegraph Company are offered now by a banking firm in this city, and the question of serious opposition to the Western Union is already brought before the public. The plan of opposition is the old one of building to large cities only, avoiding the numer-ons offices in small places that do not pay. The negotiations for a sale of the Panama Railroad stock to the de Lesseps Canal Company have not yet terminated, but it was reported that \$240 per share was offered. Transfers of the stock of the Philadelphia & Reading railroad are made at the Farmers' Loan & Trust Company, as usual, and are not interrupted; but certificates of stock are not issued pend-ing the decision of the courts as to the election of officers. The daily highest and lowest prices have been as follows: Saturday. Monday. [Tuesday, [Wedneed.] Thursday.] Friday.

Exchange.—Foreign exchange has been decidedly stronger this week, and shipments of specie from Europe have been checked for ten days past. To-day on actual transactions the rates were about 4 83½ for bankers' 60-days sterling, 4 85½ for demand, 4 85½ for cables and 4 81¾ @4 82¼ for commercial. The following were the rates of domestic exchange on New York at the undermentioned cities to-day: Savannah, buying, par; selling, ¼ @3 prem.; Charleston, bnying, ½ prem., selling, ¼ prem.; New Orleans commercial, 1:50 prem., bank, 2:50 prem.; St. Louis, 25 prem.; Chicago, par to 25 premium, and Boston about par. about par.

Quotations for foreign exchange are as follows:

	April 29.	Sixty Days.	Demand.
	Prime bankers' sterling bills on London. Prime commercial Documentary commercial Paris (fraucs) Amsterdam (guilders) Frankfort (relohmarks) Brenen (reichmarks)	$\begin{array}{c} 4 \ 82 & @ 4 \ 82^{1}2 \\ 4 \ 81^{1}2 & @ 4 \ 82 \\ 5 \ 23^{3}4 & @ 5 \ 21^{7}8 \\ 39^{5}8 & 39^{7}8 \\ 94^{1}8 & 94^{1}8 \end{array}$	$\begin{array}{r} \begin{array}{r} 4 & 85^{1} 4 & 24 & 86 \\ 4 & 84 & 24 & 84^{1} \\ 4 & 83^{1} 9 & 24 & 84^{1} \\ 4 & 83^{1} 9 & 24 & 84^{1} \\ 5 & 21^{1} 4 & 25 & 193^{2} \\ 39^{7} 8 & 40^{1} \\ 94^{3} 8 & 295 \\ 94^{3} 8 & 95 \end{array}$

AND STATE, CITY AND CORPORATION FINANCES.

The INVESTORS' SUPPLEMENT contains a complete exhibit of the Funded Debt of States and Cities and of the Stocks and Bonds of Railroads and other Companies. It is published on the last Saturday of every other month-viz., February, April, June, August, October and December, and is furnished without extra charge to all regular subscribers of the CHRONICLE. Single copies are sold at \$2 per copy.

ANNUAL REPORTS.

Chicago Milwaukee & St. Paul.

(For the year ending December 31, 1880.)

(For the year ending December 31, 1880.) The report of the President, Mr. Alexander Mitchell, shows that the gross earnings in 1880 were \$13,086,118, an increase of \$3,073,298 over 1879. The eperating expenses increased \$2,-268,630 and net earnings \$804,668. The average price per ton per mile received for freights for a series of years past has been as follows: 1872, 2 43-100 cents; 1873, 2 50-100 cents; 1874, 2 38-100 cents; 1875, 2 10-100 cents; 1876, 2 4-100 cents; 1877, 2 8-100 cents; 1878, 1 80-100 cents; 1879, 1 72-100 cents; 1880, 1 76 1-100 cents. "In our last report it was stated that the company owned and operated 2,231 miles of railway, of which 199 miles were embraced temporarily in other organizations. Of these 199 miles, 120 have since been transferred to this company, consist-ing of the Viroqna Railway (32 miles), the Madison & Portage Railroad (39 miles), both in Wisconsin, and the Dubuqne Sonthwestern Railroad, extending from Farley to Cedar Rapids, in Iowa (49 miles). The Minnesota Midland (59 miles) and the Oshkosh & Mississippi (20 miles) are still held and operated by the company on contracts of lease; but the securi-ties of both are almost wholly owned by this company. The following roads have been purchased during the year: *Miles*. f

 The large decrease in this item from 1879 is caused by the merging into the C. M. & St. P. system of several roads whose honds and stocks were held, and which roads are now included under "construction." The items in 1880 were as follows: Stock and honds of Dubuge Southwestern RE, \$215,033; bonds, stocks, &c., of Minn. Midland, \$307,751; Madison & Portage RE, bonds, \$381,271; Oshkosh & Mississippi River RR, honds, \$2005,000; Sioux City & Dakota stock and honds, \$506,871; Dakota So. stock and honds, \$\$1,390; McGregor & Mo. R., \$450,550; Clear Lake Park honds, \$3000; City of Hastings bonds. \$7,700.
 This item was increased by the issue of the following bonds; Consol. mort., \$1,700,000; Iowa & Dakota extension, \$726,000; Hastings & Dakot, \$4,060,000; Duhuque Div., \$6,022,000; Iowa & Dakota Div., \$500,000; Mircral Point, \$1,200,000; Duhuque Div., \$6,022,000; Iowa & Dakota Div., \$373,000; otal increase, \$26,301,000. Bonds already issued were decreased to the extent of \$478,000, making the net increase \$25,822,500.

St. Louis Alton & Terre Haute Rallroad. (For the year ending Dec. 31, 1880.) MAIN LINE & ALTON BRANCH.

The receipts of the Indianapolis & St. Lonis Railroad Comessee, from this portion of the property, were as follows:

From-	1879.	1880.
Freight	\$643,367	\$945,240
Passengers	271,941	312,904

CAIRO SHORT LINE DIVISION.

"The Belleville Branch (or Belleville Division) owned by the company; the Belleville & Southern Illinois Railroad (or Du Quoin Division), and the Belleville & Eldorado Railroad (or Eldorado Division), leased lines, form what is commonly known as the 'Cairo Short Line.' The gross earnings of this line for 1880, compared with those of 1879, are as follows:

GROSS E	ARNINGS.		
From—	$\begin{array}{c} & 204,126 \\ & 222,043 \\ & 8,544 \\ & 5,243 \end{array}$	1880.	Inerease.
Passengers.		\$150,313	\$33.466
Coal.		248,233	44,107
Miscellaueous freight		299,999	77,956
Maii		10,923	2,378
Express.		8,420	3,177
Miscellaneous.		11,188	2,390
Total	. 289,751	\$729,078	\$163,476
Expenses		352,230	62,478
Net earnings		\$376,847	\$100,997

"Of this total increase of \$163,476, the sum of \$30,276 was earned from July 1 to December 31 on the Eldorado Division (Belleville & Eldorado Railroad) leaving an increase of earnings on the Belleville and Du Quoin divisions, of 133,200 as com-pared with the preceding year. This handsome result has been attained partly by the lease of the Bellville & Eldorado Rail-road, and partly by the increased improvements of rates on the transportation of coal and general traffic between St. Lonis and Belleville."

Mr. J. H. Converse, the President, remarks in his report: "At no time in the history of yonr road has there been so much in-quiry for land on its line as at the present, and every indica-tion warrants the belief that the sales of land will continue to increase each year over the preceding until the lands shall be nearly disposed of." * *

"Since the reorganization of this company, in December, "Since the reorganization of this company, in December, 1875, the work of filling and replacing all temporary structures has been carried on, until it is now about completed. This will result in a material reduction in cost of maintaining the road. There has been added every year new equipment and rolling stock " * * *

stock." * * * "The Little Rock Mississippi & Texas Railway, which is now completed to Little Rock, affords us another line of communica-tion with the Mississippi River, and shortens the distance from onr road to New Orleans by nearly three hundred miles."

GENERAL INVESTMENT NEWS.

7 :

Brooklyn Elevated Railroad.—Work has been resumed on the Brooklyn Elevated Railroad, several men being employed in laying foundation stones in Washington Street, between Water and Main streets. Nearly all of the foundations between Fniton Ferry and East New York are laid, and one-third of the iron structure is up, The Receivers of the road now claim that the time for completing the road will not expire until 1884, instead of May 26, 1881, as heretofore supposed. This is due to legislative enactments extending the time for completing railroads outside of this city.—N. Y. Tribune.

Central of New Jersey. - Messrs. Jay Gould, Frederick C. Potts, G. G. Haven, F. B. Lathrop and T. B. Frelinghnysen, met April 26, and discussed the subject of connecting the New Jersey Central and Wabash St. Louis & Pacific railways. A committee was appointed to close the negotiations for this Western combination. The connection with the Wabash sys-tem will probably be made at a point near Yonngstown, Ohio, and will require the building of a link of 70 miles of new road.

Indiana Bloomington & Western—The governing committee of the Stock Exchange have admitted the following securities to the list: New stock to the amonnt of \$8,500,000. The company's official statement says: An agreement has been entered into and formally ratified by the stockholders of both companies, in conformity with the statnes, for the con-solidation of the stocks, property and franchises of the Indiana Bloomington & Western Railway Company with those of the Ohio Indiana & Pacific Railway Company, forming one company under the name of the "Indiana Bloomington & Western Rail-way Company," with an anthorized capital stock of \$10,000,000. The company has issued, in trust, \$8,500,000 for the following purposes: purposes :

Total..... \$8,500,000 The new consolidated company is the absolute owner of, and has in full operation, a line of railway from Indianapolis, Ind., to Pekin, Ill., 202 miles, being the line of the old Indiana Bloou-ington & Western Railway Company. The consolidated com-pany has also leased, and will operate, the following :

Miles. Cincinnati Sandusky & Clevcland Railroad-Line of road, San-dusky, Ohio, to Dayton, Obio...... Branch line, Carey, Ohio, to Findlay, Ohio..... 154 16

Total length 170 Total length. Deduct Springfield, Ohio, to Dayton, Ohio (leased to Cinciunati & Springfield Railway Company)..... 24

146 Columbus Springfield & Cincinnati Railroad, Springfield. Ohio, to Columbus, Ohio..... 44

190 The consolidated company has also in course of construction (being the line of the late Ohio Indiana & Pacific Company) 135 miles.

The new consolidated company has assumed the funded debt of the old Indiana Bloomington & Western Railway Company, amounting to \$7,500,000.

of the old Indiana Bloomington & Western Railway Company, amounting to \$7,500,000. The new consolidated company is now ready to issue its stock. The holder of each share of the old company's stock will be entitled to receive, on the surrender of his certificate, two shares of \$100 each of the stock of the new company. By virtue of an arrangement effected with the stockholders of the late Ohio Indiana & Pacific Railway Company, this company offers, up to and including Jnne 30, 1881, to the holders of the old income bonds, the option to convert their bonds into the stock of the new company at the same rate, that is to say, two shares of \$100 each of stock will be given for each \$100 of income bonds. On and after July 1, 1881, for a limited time, the income bonds which shall not have been converted into stock will be convertible into new consolidated mortgage income bonds, dollar for dollar. —Dispatches from Indianapolis say that the lease of the Cincinnati Sandnsky & Cleveland to the new Indiana Blooming-ton & Western was ratified Thursday by the stockholders of the latter company, about 85 per cent of the entire stock having voted in its favor; the stockholders of Cincinnati Sandusky & Cleveland had previously ratified it, and the I. B. & W. will take possession on Monday; also that the I. B. & W. will take possession on Monday; also that the I. B. & W. has made a running arrangement with the Ohio Southern which, with the Cincinnati Sandnsky & Cleveland, gives the Indiana Bloom-ington & Western a large coal and iron traffic North and West. Louisiana.-Attorney-General Ward of New York has anthorthe State of Louisiana, upon overdne coupons of the State of Louisiana, under chapter 298 of the laws of 1880, to protect the rights of citizens of this State, which authorizes the State to sue on claims assigned to it by citizens of the State. This is the first action instituted under the law and incluse a number the first action instituted under the law, and involves a number of important legal questions.

Mahattan — Metropolitan — New York Elevated. — Mr. Robert M. Gallaway, President of the Manhattan Company. with some of the directors interested in the elevated railroads, recently called upon the Mayor, Controller and Corporation Counsel, and asked to be relieved in part from the taxation imposed upon the railroads which they represented. This action was caused by the decision of the Conrt of Appeals that the entire structure of each of the elevated railroads could be

taxed as real estate. The committee afterward submitted a communication, which contained the following :

To the Mayor, Controller and Corporation Counsel of the City of New

Leaving applieablo to taxes, interest on bonds, &c..........\$1.820,000 "The mortgage bonds now issned and outstanding on all the roads amount to \$21,318,000—the annual interest on which is \$1,364,080, say \$3,737 per day. Qnite an amount of additional bonds will have to be issued soon to pay for needed terminal facilities and additional new equipment, which will consider-ably increase this interest charge. "The company's taxes for the current year, levied on the basis of last year, will be abont \$750,000, or over \$2,000 per day. Our profit and loss account for the year will then stand as follows:

Missonrl Kansas & Texas—Missourl Pacific—International & Great Northern—Texas & Paelfic—New Orleans Pacific. —As to the grand consolidation of these roads, it is now reported that, on the 7th of May, the International & Great Northern road will be practically consolidated with the Missouri Kansas & Texas, and on the 18th of May this consolidated company will pass under control of the Missouri Pacific, leaving the final consolidation to be made between Missouri Pacific, Texas Pacific and New Orleans Pacific. and New Orleans Pacific.

and New Orleans Fache. The owners of a majority of International & Great Northern Railroad stock sell their stock to the International Railway Improvement Company, and take in payment for each share of International & Great Northern two shares of Missouri Kansas & Texas Railroad Company stock. The consolidation between Texas & Pacific and St. Lonis & Iran Mountain is reported to be in progress. The agreement of

Iron Mountain is reported to be in progress. The agreement of consolidation on the part of a majority of the stockholders in both companies, which will be submitted at a meeting of the directors of both roads, is said to be that the Texas & Pacific directors shall issue consolidated stock to the holders of the Iron Monntain stock, and in consideration of absorbing the latter road will give a concession of about five per cent.

latter road will give a concession of about five per cent. Panama Railroad.—Negotiations have been pending for some time for the sale of this railroad to the De Lesseps Inter-Ocean Canal Company. But it is stated that no agreement has been reached. An officer of the railroad company stated that several conferences had been held between Trenor W. Park and representatives of De Lesseps, in the office of J. & W. Seligman & Co., recently. Any agreement would have to be confirmed by the directors of the railroad, whose meeting would not take place before May 12. It was also added that Mr. Park had offered to transfer a majority of the stock at a certain price, providing other holders should be allowed the same terms. same terms.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, April 29, 1881.

The weather has been excellent during the past week; at times almost summer heat has been felt. The floods in the Northwest have in a measure abated; bnt an overflow of the Lower Mississippi is regarded as probable, from which, however, no serious damage is apprehended. Crop accounts are improving, while trade continnes in a good condition and active for the season.

The provision market has been variable and lower during the past week. The position has lacked snpport from the Western centres. Business has been fair, on a realizing movement. To-day old mess quoted on the spot at \$16@\$16 25; new, \$18; May options qnoted \$17@\$17 50, and Jnne \$17 65@\$18 bid and asked; September, \$18 bid. Bacon was qnoted at 81/sc. for long, 94/@9%c. for short and 9%c. for long and short clear. Beef has been quiet at \$22@\$23 25 for city extra India mess and \$12 25 for family. Beef hams quoted at \$22@\$23. Lard opened dull, declined 10@15c. per 100 lbs., and closed weak at opened dull, declined 10@15c. per 100 10s., and closed weak at 11 70c. for prime Western on the spot; for fnture delivery, May sold at 11 773/@11.67½c.; Jnne, 11.772½011.62½c.; Jnly, 11.82½@11.67½c.; Augnst, 11.85@11.72½c.; October, 11.87½@ 11.75c.; seller year 11.97½@11.87½c.; refined to the Continent, 11.87½c. Tallow fairly active at 6¼c. for good and 6½c. for prime. Butter is in better snply and weak. New cheese is quoted at 11½@13c. for fair to choice State factory; old, 10½ @14c. The following is a comparative summary of aggregate exports, from Nov. 1 to April 23:

Porklbs. Baconlbs. Lardlbs.	1880-81. 34,271,860 441,060,058 197,096,915	1879-80. 33,225,000 404,538,583 192,276,710	Increase. 1,046,800 36,521,475 4,820,205	
-				1

Total......lbs. 672,428,773 630,040,293 42,388,480 Rio coffee has been dnll and depressed, and has latterly tonched 11% c. for fair cargoes; the close was dnll and nominal at 11% (2011% c. for that grade. Mild grades have been moder-ately active at easier prices, Maracaibo latterly rnling at 10@ 13c., Savanilla at 10@14c., thongh Java has remained at 14% 20c. and Lagnayra at 11@14c. Rice has been moderately active at steady quotations. Molasses has been in better demand, and firm at the quotations of last week. Tea has been fairly active, and at an an anction sale of 4,500 packages to-day prices were generally steady. Spices have remained quiet. Raw sngar has been firmly held at 7% 75-16c. for fair refining, bnt trade has been only moderately active, as refiners are quite liberally snp-plied by their own importations, and the close is very quiet, with not over 7% c. obtainable for fair refining, while 8% c. for 96 degrees-test Centrifugal is a somewhat nominal quotation. *Hhds. Boxes. Bags. Melado.* Total.....lbs. 672,428,773 630,040,293 42,388,480

Refined sugar has fallen to 95/2	sc. for crushed, 9 7-16c. for

granulated and 81/8@9c. for standard "A," with a fair trade at

granulated and 8%@9c. for standard "A," with a fair trade at the decline, and the close was steadier. Kentneky tobacco has remained comparatively quiet. The sales for the week are only 500 hhds., of which 350 for export and 150 for home consumption. Prices, however, rule com-paratively steady; lugs, 4%@5%. and leaf, 6@12c. The movement in seed leaf, on the contrary, has been much more liberal, extending to large lines of the crop of 1880, of which same prices transpired. The sales amounted to 3,225 cases, as follows; 1,500 cases 1880 crop, State, private terms; 300 cases 1880 crop, Pennsylvania, 20c.; 200 cases 1880 crop, Connecticut seconds, 10c; 350 cases 1879 crop, Ohio, 6½c.; 175 cases 1879 crop, New England, 12@20c.; 100 cases 1879 crop, Connectient, 18c.; 300 cases 1879 crop Pennsylvania, 10@25c.; and 300 cases sendries, S@16c. The movement in Spanish tobacco has also been more active, and sales 1,300 bales Havana at \$5c.@\$1 10, dnty paid.

been more active, and sales 1,300 bales Havana at 85c.@\$1 10, dnty paid. Naval stores have been fairly active, spirits turpentine at barely steady figures on a realizing movement, and rosins at well supported prices; the former sold largely to-day at 41c. for southerns in yard; strained to good strained rosins \$1 60@ \$1 70. Petroleum has continued quiet, but abont steady at 8c. for refined for export. Crude certificates closed steady at 83%c. bid after selling at 82%c. Ingot copper was in fair sale at 18%@18%c. for Lake. Lead has been active at a decline to 4½c. for common domestic. Wool dull and easy. Hops quiet and quoted as before. and quoted as before.

and quoted as before. Ocean freight room has latterly been taken at low and un-profitable rates, but the shipping movement was checked by the high rates for the leading export staples. The position appears to be almost demoralized, thongh the tone was some-what better to-day. Grain to Liverpool by steam, 2½@23%@ 2¾d.; cotton, 11-16@3-16d.; flour, 12s. 6d. per ton; baccn, 15@ 17s. 6d.; cheese, 20s.; grain to London by steam, 4d.; flour, 15s.; grain to lull by steam, 3½d.; do. to Hamburg by steam, 90 marks; grain to Cork for orders, quoted by charter. 4s. 3d. per qr.; refined petroleum to Antwerp, 3s. 2d. per bbl.; do. to Bremen, 3s.; do. in cases, Beyroute, 28c.; do. Smyrna, Salonica or Paraeus, 26½c.

FRIDAT, P. M., April 29, 1881. THE MOVEMENT OF THE CROP, as indicated by onr telegrams from the Sonth to-night, is given below. For the week ending this evening (April 29), the total receipts have reached 47,729 bales, against 60,718 bales last week, 66.579 bales the previons week and 85,696 bales three weeks since; making the total receipts since the 1st of September, 1880, 5,351,348 bales, against 4,638,667 bales for the same period of 1879-80, showing an increase since September 1, 1880, of 712,481 bales.

• Included in this amount there are 800 bales at presses for foreign ports the destination of which we cannot learn.

The speculation in futures has been more active, and prices, though variable, have shown rather more strength. There was, on Saturday, notwithstanding the very favorable weather report and dull foreign advices, some improvement, based on reports of dauger from floods and the smaller receipts at the ports. On Monday the market was again weak. On Tuesday there was an advance of 5@7 points on the better accounts from Liverpool and the reduction of home stocks. Wednesday was at one time higher, but declined toward the close, Liverpool losing part of Tuesday's advance, there being no very definite accounts of the reported floods, and private advices saying there was no danger of serions disaster. Yesterday values declined, under weak Liverpool advices and very favorable weather. To-day there was a weak opening, and the close was at a slight further decline. Cotton on the spot was quiet and unchanged, when quotations were revised; white ordinary and strict ordinary advanced 1/3c., good middling and strict good middling declined 1/3c., middling fair and fair nnchanged Stained-Good ordinary advanced 1/4c., strict good middling advanced 1/4c., low middling advanced 1-16c.; other grades of white and stained nnchanged. To-day there was a general decline of 1-16c., the market closing quiet at 10 11-16c. for middling uplands.

The total sales for forward delivery for the week are 333,800 bales. For immediate delivery the total sales foot np this week 3,956 bales, including 1,519 for export, 2,271 for consumption, 166 for speculation, and — in transit. Of the above, 150 bales were to arraye. The following are the official quotations and sales for each day of the past week.

IVOL XXXIL

The above totals show that the old interior stocks have decreased during the week 6,708 bales, and are to-night 2,411 bales more than at the same period last year. The receipts at the same towns have been 3,907 bales more than the same week last year.

RECEIPTS FROM THE PLANTATIONS .- The following table is prepared for the pnrpose of indicating the actual movement each week from the plantations. Receipts at the ontports are sometimes misleading, as they are made up more largely one year than another, at the expense of the interior stocks. We reach, therefore, a safer conclusion through a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the ont-ports.

RECEIPTS FROM PLANTATIONS.

56	29	22,283					204,211		14.076	\$3.080

The above statement shows-

1. That the total receipts from the plantations since Sept. 1 in 1880-81 were 5,522,588 bales; in 1879-80 were 4,835,720 bales; in 1878-79 were 4,390,317 bales.

2. That, although the receipts at the out-ports the past week were 47,729 bales, the actual movement from plantations was only 33,080 bales, the balance being taken from the stocks at the interior ports. Last year the receipts from the plantations for the same week were 14,076 bales and for 1879 they were 13,951 bales.

WEATHER REPORTS BY TELEGRAPH .- The weather the past week has in general been favorable for crop purposes. Rain has fallen in many sections, but not in excess, and more would be beneficial at some points.

Galveston, Texas .- It has rained on four days the past week, the rainfall reaching three inches and twenty-seven hundredths. We have had delightful showers this week, and the indications are that they extended over a wide surface. Reports from all sections are favorable, except that there is a scarcity of labor, which finds more profitable employment in railroad building than farm work. The thermometer has ranged from 65 to 82, averaging 72.

Indianola, Texas .- We have had good showers on two days the past week, the rainfall reaching two inches and fifty-one hundredths. Planting is about completed in this neighborhood. Average thermometer 74, highest 84 and lowest 65.

Corsicana, Texas.-We have had no rain the past week. All agriculture is prospering. The thermometer has averaged 74, ranging from 60 to 91.

Dallas, Texas.-We have had good showers on one day the past week, the rainfall reaching one inch and fifty hundredths. Farm work is progressing well, but there is much complaint of scarcity of labor. Average thermometer 74, highest 91 and lowest 60.

Brenham, Texas .- We have had a beneficial rain on one day the past week, the rainfall reaching one inch. Re-planting is nearly done, but there is great complaint of scarcity of sound seed. The thermometer has ranged from 62 to 85, averaging 75.

seed. The thermometer has ranged from 62 to 85, averaging 75. Waco, Texas.—We have had good showers on one day the past week, the rainfall reaching one inch. Farm work is progressing favorably. Average thermometer 74, highest 85 and lowest 60. New Orleans, Louisiana.—It has rained on three days the past week, the rainfall reaching two inches and forty hnn-dredths. Average thermometer 72. Shreveport, Louisiana.—The weather during the past week has beeu warm and dry. The rainfall reached sixty-four hun-dredths of an inch. The roads are in a good condition. Aver-age thermometer 77, highest 90 lowest 64. Vicksburg, Mississippi.—We have had rain the past week, but not enough to do much good. Columbus, Mississippi.—It has been showery on one day, and has rained constantly one day the past week. The rainfall reached one inch and sixty-two hundredths. Little Rock, Arkansas.—Wednesday and Thursday of the past week were clear; the remainder of the week has been clondy, with rain on three days. The rainfall reached sixty-five hnn-dredths of an inch. The weather is very favorable for planters. Average thermometer 70, highest 87 and lowest 60. Nashville, Tennessee.—It has rained on five days the past

Nashville, Tennessee .- It has rained on five days the past

week, the rainfall reaching one inch and six hundredths. thermometer has ranged from 56 to 84, averaging 69. The

thermometer has ranged from 56 to 84, averaging 69. Memphis, Tennessee.—Telegram not received. Mobile, Alabama.—It has rained very severely on one day, severely on one day, and has been showery on three days, the past week, and the latter part of the week has been clear and pleasant. The rainfall reached six inches and fifty-four hun-dredths. We have had delightful showers this week, and the indications are that they extended over a wide surface. Crop accounts are more favorable. The crop is developing promis-ingly. The thermometer has ranged from 61 to 82, aver-azing 72.

ingly. The thermometer has ranged from 61 to 82, aver-aging 72. *Montgomery, Alabama.*—It rained on two days the earlier part of the past week, and the latter portion has been clear and pleasant. The rainfall reached one inch and fifteen hndredths.

pleasant. The rainfall reached one inch and fifteen hundredths. We have secured a good stand of cotton, and at present the weather and prospects are excellent. The thermometer has averaged 73, ranging from 62 to 87. Selma, Alabama.—It has rained on two days the past week, and the rest of the week has been pleasant. The rainfall reached ninety three hundredths of an inch. Planting is about completed in this neighborhood. The thermometer has ranged from 56 to 93, averaging 87. Madison, Florida.—Telegram not received. Macon, Georgia.—It rained severely on two days the earlier part of the past week, but the latter portion has been clear and pleasant. The rainfall reached three inches and ninety-two hundredths. Average thermometer 77, highest 85 and lowest 70.

and lowest 70.

and lowest 70. Savannah, Georgia.—It has rained on four days the past week, on three of which lightly, and the rest of the week has been pleasant. The rainfall reached fifty-two hundredths of an inch. The thermometer has averaged 71, ranging from 60 to 84. Augusta, Georgia.—It has been showery on six days the past week, the rainfall reaching one inch and twelve hundredths. Planting in this section is two to three weeks behindhand. The weather is now warm and favorable, and planting is making good progress. At some point a good stand of cotton and corn has been secured and plants are doing well. The thermometer has ranged from 62 to 87, averaging 72. Charleston, South Carolina.—We have had rain on two days the past week, the rainfall reaching eighty-four hundredths of an inch. The thermometer has ranged from 58 to 80, aver-aging 67.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock April 23, 1881, and April 29, 1880. April 28 181 April 29 180.

				2 11 66 41

MemphisAbove low-water mark	:	31	2	24	6
NashvilleAbove low-water, mark	1	13	7	15	0
ShreveportAbove low-water mark			10	16	8
Vicksburg Above low-water mark			2	41	10
				1001	

New Orleans reported below high-water mark of 1871 nntil Sept. 9, 1874, when the zero of gange was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

JUTE BUTTS, BAGGING, &C .- The speculative demand for bag-JUTE BUTTS, BAGGING, &C.—The speculative demand for bag-ging fell off shortly after onr last report, and during the week the market has been quiet. There is a firm tone to the market and prices are a trifle higher. The quotations at the close were 9½c. for 1¾ lbs., 10½c. for 2 lbs. and 11½c. for 2¼ lbs. The activity noticed in the jute bntt market last week has continued and a very good business was in progress up to the close. Prices are firmly adhered to, holders demanding 2½c. for paper qualities and 3c. for spinning grades. The reported transac-tions aggregate 5,000 bales at the prices quoted.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT .-A comparison of the port movement by weeks is not accurate, as the weeks in different years do not end on the same day of the month. We have consequently added to onr other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement each month since September 1 has been as follows:

Monthly	Year Beginning September 1.										
Receipts.	1880.	1879.	1878.	1877.	1876.	1875.					
Sept'mb'r	458,478	333,643	288,848	98,491	236,868	169,077					
October	968,31%	888,492	689,264	578,533	675,260	610,316

Perc'tage	of tot. port			,							
receipts	Mar. 31	89.58	93.10	89.78	92.48	89.66					

This statement shows that up to Mar. 31 the receipts at the ports this year were 594,26S bales more than in 1879-80 and 934,591 bales more than at the same time in 1878-79. By adding to the above totals to Mar. 31 the daily receipts since that time, we shall be able to reach an exact comparison of the movement for the different years.

rort rec'nts Apr.29 93.49 This statement shows that the receipts since Sept. 1 up to to-night are now 717,313 bales more than they were to the same day of the month in 1880 and 1,046,765 bales more than they were to the same to the same day of the month in 1879. We add to the table the percentages of total port receipts which had been received to April 29 in each of the years named.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The figures which are now collected for us, and forwarded by cable each Friday, of the shipments from Calentta, Madras, Tuticorin, Carwar, &c.. enable us, in connection with our previously-received report from Bombay, to furnish our readers with a full and complete India movement for each week. We first give the Bombay statement for the week and year, bringing the figures down to April 28. WATDAN DECEMPTE AND SITTER

	BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS. 14

 625,000 442,000 572,000 According to the foregoing, Bombay appears to show an *increase* compared with last year in the week's receipts of 7,000 bales, and an *increase* in shipments of 7,000 bales, and the shipments since January 1 show an *increase* of 8,000 bales. The movement at Calcutta, Madras, Tuticorin, Carwar, &c., for the same week and years has been as follows OALCUITA, MADRAS, TUTICORIN, CARWAR, RANGOON AND KURRACHEE.

Year.	Shipm	ents this	veek.	Shipments since January 1.			
	Great Britain.	Conti- nent.	'Total.	Great Britain.	Conti- nent.	Total.	
	6,090 7,000	3,000 4,000	9,000 11.000	$\begin{array}{r} 64,000 \\ 124,000 \\ 70,000 \\ 15,000 \end{array}$	53.000 36,000 49,000 31,000	$ 117.000 \\ 160,000 \\ 119,000 \\ 49,000 $	

For the past few weeks we have omitted from the above table (Calcutta, Madras, &c..) this year's weekly figures, as we found there were inaccuracies in them as cabled to us. We are, however, making new arrangements, under which we hope not only to prevent errors, but also to greatly improve this feature of our report.

also to greatly improve this feature of our report. The above totals for this week show that the movement from the ports other than Bombay is 9,000 bales *less* than for the same week last year. For the whole of India, therefore, the total shipments this week and since January 1, 1881, and for the cor-responding weeks and periods of the two previous years, are as follows follows.

EXPORTS	то	EUROP	E FROM	ALL	INDIA.
	_				

Shipments	18	381.	. 18	330.	1879.

Below we give all news received to date of disasters to vessels
carrying cotton from United States ports, etc.:
CITY OF AUSTIN, steamer, from Matanzas, via. Nassan. for New York. stranded on Pelican Shoals, near Fernandina, April 24, and will probably he a total loss. Part of the cargo, cousisting of sugar, fruit, cotton, &c., has beea saved. The steamer is fast breaking up. The City of Austiu has been one year on the route between this port and Mataazas via. Fernandina and Nassau. Previous to that she was in the coasting trade between this elty, Fernandina and Galveston. The loss of the steamer is attributed to the pilot.
CORONILLA, steamer (Br.), from New Orleans for Bremerhaven, with a cargo of 3,007 bales of cotton, and corn, arrived at 8t. Georges, Bermuda, April 12, with loss of all of the propeller blades. The capitala reported April 5, during moderate weather, discovered that the propeller blades were gone; supposes the loss was occasioned by striking floating logs of timber, as several were passed immediately afterward. She was discharging on April 22, had deckhouse slightly damaged and lost two boats.
CROWN Jawk, at Galveston, loading for Liverpool, and the 2, house slightly damaged and lost two boats.
CROWN Jawk, at Galveston, loading for Liverpool, and they managed to extinguish the fire, which was confued to one hale of cotton, was discovered to be on fire on Monday evening, the 18th lust. There was no one but the erw on board, and they managed to char etchard was confued to one bale of cotton, stowed immediately under the deck. There was slight damage to other educton by water. The burnt hale was seen tabhere, there being no other damage requiring breaking out of eargo.
Cotton freights the past week have been as follows:

BREADSTUFFS.

FRIDAY, P. M., April 29, 1881.

The flour market has been somewhat irregular during the week under review. The export demand has been mainly for low grades, and as these have been scarce prices improved slightly; but the medium and better grades were dull at weakening values. Supplies of all kinds are quite moderate, but general trade is slow. Rye flour has declined materially, under an increase in supplies. Corn meal, on the contrary, is dearer, through an improvement of the export demand. To-day the market was dull and weak.

The wheat market has been variable and nnsettled. The fluctuations were wide and frequent, even on the same day. On Tuesday a decline in freight to Liverpool by steam to 3d led to a large business for export, which in turn stimulated speculation in futures. Yesterday the market was somewhat depressed, bnt closed steadier, the sales embracing No. 2 red winter at \$1 28@1 281/2 on the spot, \$1 23@1 231/4 for May, \$1 20%@1 21 for June and \$1 17%@\$1 18 for July, and No. 1 white, \$1 24@1 24% on the spot, \$1 20@1 20% for May and \$1 18¼@1 18¼ for Jnne. Stocks in this market are now very small, and supplies, except by rail, cannot be large until about the middle of May. To-day the market was ½@1c. below these figures for early deliveries, but otherwise unchanged.

Indian corn has been very scarce on the spot, and prices have advanced materially; but for future delivery the improvement has been slight and fitful. The speculation, however, continnes to be snstained by the length and severity of the winter and the extensive home feeding having a tendency to cause scarcity. To-day No. 2 mixed on the spot sold up to 64 1/2 c., but receded to 63%c., and sold at 56%c. for May and 55c. for June.

Rye has been dull and drooping, prime boat-loads being quoted at about \$1 10 for May arrival. Barley quite nominal. Oats have been variable. To-day the market was firm; No. 2 graded quoted at 50c. for white and 46c. for mixed, and No. 2 mixed sold at 44%c. for Jnne and 45c. for July.

THE DRY GOODS TRADE.

FRIDAY, P. M., April 29, 1881. The movement in dry goods from first hands has been only mod-erate the past week, and there wasa good deal of irregularity in the demand, certain fabrics having shown a fair degree of ani-mation while others were almost neglected. The jobbing trade was of fair aggregate proportions, and it is probable that the business of the month, now nearly closed, will prove to be con-siderably larger than that of April, 1880, which, however, was by no means an active month. The most important feature of the week's business was a peremptory auction sale of tapestry Brussels carpets, the manufacture of Mr. Stephen Sandford,

Amsterdam, New York. The sale was the largest of its class ever held in this country, and about 7,900 pieces were disposed of, but at prices which probably entailed a loss upon the mann-facturer, though it is doubtful whether the goods could have been sold privately to such advantage, in the present condition of the market of the market.

of the market. DoMESTIC COTTON GOODS.—The export movement in cotton goods is progressing favorably, and the present year's business bids fair to be the largest in the history of the trade. The exports of domestics for the week ending April 26 were 3,294 packages, of which 1,751 were shipped to China, 744 to Great Britain. 409 to United States of Colombia, 63 to Central America, 65 to Veneznela, and smaller parcels to other markets. The demand by jobbers was mostly restricted to moderate lots of plain and colored cottons of the best makes (most of which are steadily held), and low grade fabrics ruled quiet until nearly the end of the week, when reduced prices enabled agents to effect a fair business in some makes of bleached goods that have been very quiet of late. Print cloths were quiet and a triffe easier, extra 64x64s closing steady at 3³/4C, and 56x60s at 3¹/4@ 3 5-16c. Prints and lawns continued sluggish, and cotton dress goods were generally dull; but there was a satisfactory demand for dress and staple ginghams, which are in light supply and firm. firm.

for dress and staple glightins, which are in light supply and firm. DOMESTIC WOOLEN GOODS.—There has been a somewhat more satisfactory business in heavy fancy cassimeres, and consider-able orders for both all-wool and cotton-warp makes were placed by the clothing trade. There was, however, much irregularity in the demand, a marked preference having been accorded to leading makes, some of which are largely sold to arrive. Heavy worsted coatings received a moderate share of attention from clothiers, and fair sales of fancy-backed overcoat-ings were made to the same class of buyers. Spring cassimeres and worsted coatings ruled quiet in first hands, but a fair dis-tribution was made by cloth jobbers who control certain makes at present. Satinets were in light demand and Kentucky jeans ruled quiet, save in exceptional cases, where price concessions and liberal time inducements enabled agents to make consider-able sales to jobbers disposed to anticipate their autumn requirements. Worsted dress goods were mostly quiet, and lace buntings are lower in some cases. Carpets were unsettled by the auction sale alluded to above, and some makes of tapestry carpets will be reduced on May 1 in order to meet the market. Hosiery and knit underwear continued quiet and unsettled. unsettled.

FOREIGN DRY GOODS have been dull in importers' hands, but jobbers have experienced a fair demand for light re-assort-ments of silks, dress. goods, millinery goods, linens, embroid-eries, laces, hosiery and gloves, &c. Prices of the most desir-able fabrics are fairly sustained, but there is some pressure to sell low-grade silks and some descriptions of dress goods by means of concessions from nominal holding quotations.

Importations of Dry Goods.

The importations of dry goods at this port for the week ending April 28, 1881 and since January 1, and the same facts for the corresponding periods of 1880. are as follows:
