### THE FINANCIAL SITUATION.

A feature of special interest in financial circles the past week has been a further advance in foreign exchange, and the altered position in which the United States are thus placed with regard to the movement of gold. Rates about two weeks since were so low as to permit of the free shipment of gold from any European market. Now the rates stand at the highest points since January, and very close to the highest figures of a year ago when sterling was nearly up to the gold-exporting point; and besides the tendency at the moment is undoubtedly towards even higher rates.

Of course, the ostensible explanation of all this is an excess of bills on our market a short time since, while now there is a great dearth of bills; and these opposing conditions are in turn further accounted for by a large export movement in grain, provisions, cotton and securities last month, and a check in exports this month, with a return movement in our called Government bonds. But while these statements are true, the 'fact remains that the trade balance is still in favor of this country, and there is, therefore, back of these facts another which, within certain

limits, always will control the exchange market. A short time since we wanted gold very much, and money became very dear here and the gold flowed in rapidly. Now interest rates are low again with us, but in France they have suddenly become high, by reason of a speculation in progress on the Paris Stock Exchange. Nations in their dealings always retain and receive what each wants most, and the exchange market is now acting in obedience to such a want. Some claim that we are on the point of. exporting gold; but while our trade is in its present conservative condition and while we need for currency purposes our present supply of gold, there can be no reason for anticipating such a movement. France is satisfying her wants through England and Germany, and as soon as the normal condition of things is restored our favorable trade: balance must again assert itself and exchange rates rule; easier here.

NO

828.

As the prevailing opinion has been in harmony with these views the advance in exchange has not disturbed speculation in stocks, and during the week the market has been strong and at times buoyant. We cited last week the conditions of the market and stated that they would inevitably lead to this result. This week there have also been special influences operating favorably. Prominent among them may be mentioned the progress made in perfecting the plans for the consolidation of the Missouri Kansas & Texas, the Missouri Pacific, the Texas Pacific, the International & Great Northern, and the St. Louis Iron Mountain & Southern roads. Some opposition had been manifested by a few of the stockholders of the latter to the terms of union with the Texas Pacific, but it now appears likely that all differences will be speedily ad. justed. Another influence interpreted favorably was the reported fact that the managers of the leading coal companies have agreed upon a restriction of production for the last three weeks of this month. Then, again, the market was aided by statements that the Louisville & Nashville Company has finally succeeded in obtaining possession. by lease or purchase, of nearly all the important lines in the South Atlantic and Gulf States; and further by the reports of largely increased earnings of the Western Union Telegraph Company and a rumor that the decision of the Court in the pending proceedings would be favorable.

Money can be borrowed for the remainder of the year at from 4 to 41 per cent on acceptable stock collateral. The supply at this centre is abundant and reports from Philadelphia state that the demand there is so light that some of the banks are lending large amounts in this city on call at 4 per cent, thus competing with our own institutions. The rates of exchange on New York at Chicago and St. Louis are sufficiently high to admit of the movement of gold, and the rate has ruled at about par at Boston for the greater part of the week, showing that the demand has been very light; yesterday, however, Boston was drawing on us, and about \$600,000 (half gold) was sent over." The Sub-Treasury continues to be largely debtor at the Clearing-House daily, and although gold imports have for the moment been arrested, there is likely to be no deficiency in supply for some time. The Treasury operations for the six days including the 29th ult., show a loss, which is a gain to the banks, of \$2,132,153. This has chiefly resulted from disbursements for interest due on the 1st inst., the payments of checks given by the Assay Office amounting to only \$1,194,002. The daily receipts by the Treasury for customs have been as follows.

• • • • •	Consisting of-						
Date.	Dulies.	Gold.	U.S. Notes.	Silver Dollars.	Silver Certificales.		
April 29	\$339,154 65	\$129,000	\$8,000	\$1,000	\$201,000		
· " 30	318,721 23	106,000	17,000	1,000	194,000		
May 2	566,346 60	253,000	12,000		301,000		
" 3	470,183 06	214,000	12,000	1,000	243,000		
4	434,676 83	232,000	14,000		232,000		
- " 5	576,741 32	173,000	. 28,000	2,000	374,000		
Total	\$2,705,823 69	\$1.107.000	\$91.000	\$5,000	\$1,545,000		

To indicate the effect on the banks of the various gold and currency movements during the week, we have prepared the following table. It shows the net Sub-Treasury movement, exclusive of transfers from the Mint, Washington and elsewhere, for the week ended Thursday night, and also the receipts and shipments of gold and currency reported by the banks of this city. The net result should show very nearly the gain or loss of reserve by the associated banks for the week; but, owing to the system of average pursued, the actual returns published to-day will show a discrepancy seconding as the last bank statement was made on a rising or a falling average.

1	Into Banks.	Out of Banks	Net.
Treasury operations, net Interior movement			\$2,132,153 1,790,000
Total	\$4,829,153	\$907,000	\$3,922,153

The interior movement given in the above table embraces all the receipts and shipments of gold and currency reported to us by the principal banks for the week ended Thursday, which stated in our usual form were as follows.

Receipts at and Shipments from N.Y.	Received.	Shipped.
Currency		* \$507,000 400,000
Total	\$2,697,000	\$907.000

Since last Friday there have been received from Europe \$526,823 gold, chiefly from the continent. This makes over  $27\frac{1}{2}$  millions since the beginning of the year. The Bank of England reports a loss of £147,000 bullion for the week, and a reduction of 1 5.16 per cent in the proportion of reserve to liabilities. This bullion has doubtless gone to Paris, as the Bank of France reports a gain of 6,350,000 francs gold, and 5,575,000 francs silver, for the week. The Bank of Germany lost 2,680,000 marks. The following shows the amount of bullion in each of the European banks this week, and at the corresponding period last year.

	May 5	, 1881.	May 6, 1880.			
	Gold.	Silver.	, Gold.	Silver.		
	£	£	£	£		
Bank of England	26,256,075		27.988.832			
		49,692,030				
Bank of Germany		19,302,482				
Total this woek	59,476,815	68,994,512	70,162,097	68,286,498		
Total previous week	59,403,315	68,872,012	70,428,831	68,102,774		

The above gold and silver division of the stock of coin of the Bank of Germany is merely popular estimate, as the Bank itself gives no information on that point.

The margin for cable transactions in securities is now quite narrow, as will be seen by the following table showing the relative prices in London and New York at the opening each day.

x -2 4 54- 0

1	May 2.	Ma	Ø- <b>3</b>	Ma	¥4,	Ma	y5.	Ma	y 8.

cables.		4'8'	73%	4.8	38	4.8	8	4.8	3

\* Expressed in their New York equivalent. \* Reading on basis of 550, par value. NOTE.—The New York equivalent is based upon the highest rate for cable transfers, which ordinarily covers nearly all charges, such as interest, insurance and commissions.

Reports from Washington show a general disposition among holders of the 6 per cent bonds to ask an extension at 31 per cent, and at the Sub-Treasury in this city the clerks have been busily engaged all the week in preparing the necessary forms for those who are sending their bonds to Washington. Dealers in Government securities report a steadily increasing demand for the 4s, and as the supply is not abundant, the price has advanced. The "Windoms" are also in request by large investors and by many of the banks who are taking out new circulation.

# THE LAKE SHORE & MICHIGAN SOUTHERN .:

The Lake Shore may be said to be one of the finest pieces of railroad property in the country. Its fine roadbed, easy grades, splendid terminal facilities and economical management place it in a very strong position for handling and commanding traffic. There are few roads' that can carry as cheaply as it can. During the year 1880 the cost to it of moving a ton of freight a mile was only 435 thousandths of a cent. This is not as low as was the cost in the previous year (398 thousandths), but is still much below what it costs either the Erie or the New York Central, and below even what it costs the Pennsylvania on its main line and branches. With each succeeding year the road is being worked with greater economy. In 1875 the operating expenses were almost 73 per cent of the gross earnings. Since that time the percentage has been steadily diminished, and in 1880 was only 554 per cent.

Of late there have been current many reports of injury to be inflicted on the road by the proposed construction of a parallel opposition line. It is contended that the new line could be built for one-half or one-third the sum at which the Lake Shore stands capitalized per mile, and therefore be able to compete successfully with it, and ultimately vanquish it. But the mere cost of building a road is in itself of little consequence. How much will it cost for an adequate supply of rolling stock? And above all, what will have to be expended in acquiring right of way, suitable terminal accommodations, and facilities at interior towns and depots? All these are very important items, and cannot be had for the mere asking.

But even supposing that the opposition line to the Lake-Shore were well equipped, had good terminal facilities, and were otherwise in position to carry traffic, it does not by any means follow that it could compete with such a road as the Lake Shore. It certainly could not carry any cheaper. It could not be any more economically managed. And it would be without the influence that the Lake Shore possesses on connecting lines. Flanked on the east by the New York Central, and on the west by the Northwestern lines in which Mr. Vanderbilt is interested, and having great natural advantages, the Lake Shore, though not impregnable, is without doubt woll fortified, and not likely soon to lose its hold on traffic or see its prosperity vanish. Besides, the country is growing all the time, and if a competitor should succeed in gotting a portion of the business that now goes to the Lake Shore, it is not improbable that this would not bo felt in viow of the enlargement in the volume of that business.

. It is urged by some that the Lako Shore is very hoavily capitalized. Still it compares very favorably in this respect with most other leading roads. The bonded debt amounts to \$30,300 per mile, and the capital stock to \$42,480 per mile. This will not be considered largo when it is borne in mind that the road earned in 1880 \$15,922 gross, and \$7,076 net, per mile. There are a great many roads that would be doing well if they earned as much gross as the Lake Shore docs net. This shows at once what a dense traffic the road has, and what a strong hold it must have on the business, to command such a large share of it, despite the active competition that is constantly in progress. This hold it could never have obtained except for its superior facilities and almost perfect connections. Is it reasonable to suppose that a new competitor could very readily make much of an impression on a road so situated, especially when older competitors have sought in vain to draw off some of its trade ?

The fiscal results of the company's operations during 1880 were highly favorable. The gross earnings amounted to \$18,749,461, against \$15,271,492 in 1879, a gain of \$3,477,969, or 22<sup>3</sup>/<sub>4</sub> per cent. Owing to a reduction in the percentage of operating expenses to gross earnings, the net earnings increased in even larger proportion, rising from \$6,336,968 to \$8,331,356, a gain of \$1,994,388, or 31<sup>1</sup>/<sub>4</sub> per cent. After deducting \$2,750,374 for interest, rentals, &c., there remained a surplus of \$5,580,982, equivalent to 11-28 per cent on the stock. Eight per cent was paid, and a balance of \$1,623,662 carried forward. The following table will show the company's operations for eleven years past.

Year.	Gross Earnings.	Operating E. Amount.	penses. Per Ol.	Net Earnings.	Interest. Rentals, &c.	Divi- d'nds Per Cent.

It will be observed that the net earnings are larger than ever before, but that the gross earnings are not as large as they were in 1873, when the total was \$19,414,509. Yet it is not to be inferred from this that the volume of traffic was smaller in 1880 than in 1873. On the contrary, the number of tons of freight moved one mile increased from 1,053,927,189 to 1,851,166,018, or 80 per cent. The decrease in earnings is entirely due to a diminution in the rates obtained. Thus in 1873 the average rate received per ton per mile was 1.335 cents; in 1880 it was only 0.750 cents. The average for 1880 was somewhat above that for 1879, but it is to be remarked that in 1879 the average was much reduced because of a ruinous war of rates in the early portion of the year. To show what an important part the rate plays in the company's earnings, it is only neccssary to say, that of the \$2,770,337 gain in freight earnings in 1880 over 1879, only about \$774,000 was on account of increased tonnage, and almost two million dollars on account of the difference in rate. The average charge, the average cost, and the net profit. per passenger and per

·\*\* . \*

ton por mile, since 1870, are shown in the following statement:

Freight.				Passengers.			
Year.	Receipt Cost per ton per ton per Mile. per Mile.		Profit per ion per .Mile. per Pass		Pass'ger

The increase on 1879 in the number of tons moved one mile was wholly in the west-bound movement-the east-bound movement shows a slight dccrease. The dccrcase in the latter is explained when we recall to mind the active competition of the Canal and Lake route during tho summer of 1880. The number of tons (not ton miles) of grain carried, we see, fell off from 1,841,120 to 1,727,645, very probably because of this competition. The gain in the west-bound movement is due, we suppose, to the items of coal, "pig, bloom and railroad iron," and "merchandise and other articles," which all show a heavy increase. We have not the tonnage mileage of these items, nor do we know just what proportion was carried west. Presumably a good part was west-bound. A gain in west-bound traffic is more desirable than a gain in east-bound traffic, because it fills cars that are half the time hauled back empty. An increase in this movement entails, therefore, very little additional expense and is almost wholly clear profit. Then, too, rates have hitherto been much better on this than on east bound traffic. The difference, though, is being gradually wiped out. In 1878 the figure was 0.672 of a cent per ton per mile on east bound freight, and 0.913 of a cent on west-bound, a difference of 0.241; in 1880 the rate was respectively 0.747 and 0.756, a difference of only 0.009 of a cent. The following will show freight earnings and mileage since 1870.

T	Ton	Freight	Rate per ton		
Year.	Eastward.	Westward.	Total.	Earnings.	p. mile.
				\$	Cents. . 1.504
1870 1871	526,397,486	161.967,606 207,273,210	733,670,696	10,205,839	1.391
1872	667,369,119 770,423,785	257,475,021 283,503,404		14,069,402	1.335
1874 1875	753,633,140	245.708,941 265,256,459	999,342,081	11,791,612 9,530,038	
1876	827,020,640	306,814,188 332,730,841	1,133,834.828		
1878	995.021.834	345,445,902	1,340,467,826		0.734
1879 1880	1,179,292,211	671,873,807	1,733,423,440 1.851,166,018		

As regards passengers, there has been an increase in both way and through mileage. Neither, however, is as high as it has previously been. The through mileage, notwithstanding the heavy immigrant traffic last year, was higher in 1876, though not in 1873, and the way was higher in 1873. Owing to the large decline in rates, earnings are much below those of 1873, the difference between that year and 1880 being more than \$800,000. The subjoined statement shows the passenger movement for eleven years.

	Mileage.			Earnings.

### FORGED CHECKS.

The Court of Appeals of this State has recently decided that a depositor does not owe any special duty to the bank to examine returned checks promptly on receiving them, and detect and notify the bank of forgeries. The inference from the decision is that no time short of the statute of limitations can estop a depositor from questioning the vouchers. Of course his retaining them without objection raises a probability of their correctness, but this probability can be removed by proof.

The story of the case was that in 1865 a firm opened an account with the Chemical National Bank, which was kept in the usual way without complaint arising until September, 1870. At that time the depositors made claim that the bank had paid at various times during a year or more previous, money amounting to upwards of \$8,000, upon checks drawn in the name of the depositors, but which were not genuine. During the year the bank-book had been balanced five times, and returned, with the checks which had been paid, to the firm, and they had made no objection to either of the balances struck. About 450 checks in all were paid by the bank during the time, 37 of which the firm alleged to be forged. In explanation of their failure to give earlier notice the depositors showed that in their establishment the bank account, pass book, returned checks, etc., were in the general charge of a confidential bookkceper. It was customary whenever the bank returned the bank-book with vouchers for one of the firm, with the bookkeeper, to compare the checks returned with the memoranda in the check-book, and with the entries in the pass-book, also to compare the balance in the firm's account with that returned by the bank. This was done from time to time in the manner usual among mer-But the bookkeeper, who was implicated in the chants. forgeries, contrived, by withholding the forged checks and reading the balances falsely, to completely conceal from his employers the true state of the account. At last hc absconded, and the forgeries were then brought to light. The depositors claimed to recover the \$8,000 as having been paid out without authority from them; while the bank contended that omitting to detect the irregularities and give the bank prompt notice, was an acceptance of the account as correct and final; also that the depositors were responsible for the doings of their bookkeeper considered as their agent.

The Court of Appeals has sustained the suit, saying in effect that when forged checks have been paid and charged by a bank in the account and returned to the depositor, he is under no duty to the bank so to make an examination of his account so thorough that it will necessarily lead to the discovery of the fraud. If he examines the vouchers personally and is himself deceived by the skilful character of the forgery, his omission to discover it will not shift upon him the loss, which in the first instance is the loss of the bank. He is only obliged to use ordinary care in making the examination, and if this is exercised, whether by himself or his agents, the bank cannot justly complain. although the forgeries are not discovered until it is too late to retrieve its position or reclaim from the forger. And upon the point of agency it is held that a bookkeeper is not an agent of his employers to forge checks in their name, or to falsify their accounts.

Other recent decisions sustain this view. A somewhat similar suit of Welsh against the German American Bank, decided in 1878, will be remembered by many readers. The Court of Appeals of Maryland made a like decision in 1879, assigning this additional reason: that when a deposit is made the money becomes the property of the bank, and the bank is only a debtor for it, with a duty of honoring checks; therefore, when the bank pays a forged check, it is dealing with its own money, and at its own risk, and has no claim to be reimbursed unless the depos. itor is in some manner in fault. To throw the loss upon him, some breach of duty on his part must be shown. If the bank-book and checks are returned to him and kept without objection, this raises a probability that the payments are correct; but any presumption to that effect is removed by showing that he was innocently prevented from detecting the unauthorized payments.

### OUR FOREIGN COMMERCE.

The March returns of our foreign trade are a continuation of the favorable exhibits for many months—that is to say, the exports are larger than last year and the imports are smaller. As we predicted in reviewing the February figures, the balance in our favor is heavier than it was in February. The excess of exports over imports is \$24,-364,558, against \$19,900,295 in February, and against only \$6,463,986 in March, 1880.

These figures give us the basis for the gold movement which has been in progress during March and April. For the first time, the monthly trade summary issued by the Bureau of Statistics distinguishes between gold and silver. The change is a very desirable one, though of course our weekly analysis of the foreign trade of New York is to a date about six weeks later, and, in the item of gold, covers almost the entire movement of the country; but as silver at present, except in the matter of coin (mainly trade dollars) is nothing more nor less than a commodity, any statement which in one item includes both gold and silver is misleading. The present figures show that the imports of gold during March for the whole country amounted to \$7,169,564, and the exports to \$160,786, leaving a balance of imports of \$7,008.778. In the same month last year the imports amounted to only \$892,180. and the exports to \$1,166,679, leaving a balance of exports of \$274,499. In silver there was an excess of exports of \$563,382 in March, 1881, against an excess of imports of \$380,789 in March, 1880.

The imports of merchandise, though smaller than last year when they were exceptionally heavy because of the speculative mania which had prevailed, are yet very large. The total is \$60,701,561, which is in excess of any other month since May, 1880. It is to be noted that prices were lower this year, and that consequently the values represent a larger quantity of goods than the same values did last year. The present upward movement in the imports seems to be natural. It has not been stimulated by speculation, but is a result of increased activity in trade and of an increase in the country's consuming capacity. The following table will show the imports and cxports at the leading ports for March and for the first quarter of the year. EXPORTS AND IMPORTS OF MERCHANDISE FROM U. S. PORTS.

Total		153.742.786		181.742.520	

In exports, all the leading ports with the exception of New Orlcans show an increase on last year. The smaller total at New Orleans is explained by smaller cotton shipments at that port and a decline in the price of cotton. New York exports increased from \$33,614,909 to \$36,-371,623, but there is no clue to the increase in cither the cotton, provisions or breadstuffs movoment. The number of bales of cotton exported from Now York was not materially different in the two years, but as prices were much lower tho valuo of the same must have been smaller this year ; breadstuffs exports show in value a falling off of \$780,217, and provisions exports a gain of \$276,227, so that theso threo itoms net a decrease. It follows that other commoditics must have produced the gain in the value of the merchandise exports at New York. Boston increased its exports from \$4,825,664 in March, 1880, to \$7,553,765 in March, 1881, but this can be accounted for in great part by a slight gain in the movement of bread. stuffs and a very decided gain in provisions at that port, the value of the latter being almost double that of last The provisions and breadstuffs exports at each year. of the principal ports are shown in the following table.

At the cotton ports there was an increased cotton movement compared with last year, and the exports are again very heavy. New Orleans has already been referred to as having had smaller cotton shipments, and so had Norfolk but at all the other principal ports the shipments were larger Of the total increase of \$7,715,572 in the country's merchandise exports in March, 1881, over March, 1880, \$3,342,467 was made at the six ports which stand next to New Orleans in importance as cotton-exporters, as may be seen in the subjoined statement.

EXPORTS OF A	IERCHANDISE	FROM LEADI	NG COTTON F	PORTS.	
	18	81.	1880

				1,000,100	

Total..... 12,641,446 36,262,317 9,298,979 29,573,623 Separating the different items that go to make up the breadstuffs exports, we find that the most marked feature is the increase in the outward movement of wheat and wheat flour. Counting flour at its equivalent in wheat there were exported 14,646,646 bushels in March, 1881, against 10,820,358 bushels in March, 1880, and for the first three months of the year 36,386,298 bushels, against 26,082,408 bushels. Values do not show the same proportionate increase because prices last year ruled so much higher. The total value of the wheat and flour exports was \$16,763,579 in March this year, and \$15,176,293 in March last year; for the period from January 1 to April 1 the total foots up \$41,059,811 in 1881, and \$35,995,191 in 1880. The following table gives all the dctails of the breadstuffs exports.

The point of most interest in the provision figures is that\_ in several items there is a marked falling off in the number of pounds shipped this year as compared with March last year. This is natural. Speculative prices must, of course,, check exports. For a time the demand was so great that exports kept up notwithstanding the higher range of prices, and as a consequence both quantities and values increased; but now a reaction has come and there is a check to the movement. How much higher values are, may be seen by a reference to some of the items. For instance, the shipments of bacon and hams fell off from 83,188,274 lbs. in March, 1880, to 80,770,800 lbs. in March, 1881, but such was the difference in prices that values increasedmore than \$1,200,000; lard fell off more than 9 million pounds, but this year's values were larger novertheless. The exports of pork increased from 8,361,680 lbs. to. 12,709,034 lbs., or 52 per cent, but the value of the same increased from \$561,929 to \$1,054,916, or 88 per cent. The same disparity between quantities and values in the two years is observable in the movement for the three months.-The following table will make this clear.

	Pour	ids.	Value.		
March.	1881.	1880.	1881. (	1880.

For the month of April just passed, both merchandise exports and imports promise to be smaller than in March, and smaller than in April, 1880, if we take the figures at New York as a criterion for the whole country. For the four weeks ended April 29 the imports at New York were \$32;753,174, against \$42,106,508 for the full month of March; and for the four weeks ended May 3 the exports were \$27,127,976, against \$36,371,623 for March. In March New York had 69 1.3 per cent of the imports and about 423 per cent of the exports. If the same percentages were to hold good for April, the excess of exports over imports would be 5 or 6 millions smaller than in March; but in the exports New York, it is not unlikely, will represent a little larger proportion of the April total, as the Southern ports may show a smaller cotton movement. In this connection it is interesting to note that the imports of gold at New York during April wero in the vicinity of 13 million dollars.

# LIFE INSURANCE IN 1880.

By using the charts which it is now the custom of the Insurance Department to issue, we are able to present nearly all the usual summarized particulars of life insurance business this year several months earlier than usual.

The companies represented are the same as in 1879, except that the Hartford Life & Annuity is out of the list. This company, which has abandoned itself to a co-operative scheme of a peculiarly vicious and deceitful type, is not now authorized to do business in this State, but is, nevertheless, still doing it surreptitiously. The following is a condensed summary of the past year's business of all companies now actively operating in this State, compared with each of the three previous years.

	30	31 )	34	34

\* Increase. + Decrease.

This comparison shows readily the fact we have before pointed out, that 1878 was the turning year in life insurance depression, and that the business has since been on the upward move. In the premiums of 1879 there was a decrease from 1878, but the dropping of three companies from the list accounts for nearly one-half that, and the interest receipts showed an increase, which, however, was not sustained in 1880. But this is an unseparated item, and the changes in "other receipts," included with interest, prevent an exact comparison as respects the latter. The average rate of interest yield, the composition of assets, and some other analyses we have been accustomed to give, must be deferred until publication of the complete report.

An increase of premiums, a decrease of interest and other receipts, a very large decrease in death losses, a decrease in dividends, a very large decrease in amounts paid for surrendered and lapsed policies, and a strangely large increase in expenses and taxes, are noticeable in 1880, as compared with 1879.

The growth of income over expenditure is very large, and so is the addition to assets large; more than one-half of this is in the three great companies of this city. The encouraging expansion in new business done, is more than paralleled by the equally encouraging decline in business dropped off, resulting for the first time in quite a number of years in an increase in the net total left outstanding, the change between 1880 and 1879 in this respect being nearly 77 millions. The following compares the past four years in respect to the methods of termination, the amounts of insurance (but not the number of policies) being stated in thousands.

By-	18	80.	18	79.	18	78.	18	77.
	No.	Amt.	No.	Amt.	"No.	Amt.	N9.	Amt.
Death	<b>5</b> 000	\$		\$	-	\$	-	\$
Death Expiry	6,704	13,426	7,920	20,284 16,434	8,515	18,199	4,433	20,426 9,456
Surr'dr Lapse	18,716	42,787	$18,224 \\ 23,305$		25,805 32.090			89,017 98.800
Ch'nge "Not	3,012	10,050	3,695	12,501	5,663	21,178	4,907	21,033
taken"	8,600	23,433	7,158	19,062	7,494	19,597	10,751	25,640
Total.	56,715	148,646	67,661	176,606	87.222	231,291	106.046	264.376

These comparative figures are also encouraging. There is too much evidence in the lamentable disposition to harass the companies by excessive taxation and by unwise interferences, as well as in the unprecedented development of co-operative schemes of all grades, from the honestlymistaken to the speculative and the "murder mill," that life insurance is by no means freed from its troubles; yet the strength of the companies and their progress are most gratifying.

# COTTON CONSUMPTION AND OVERLAND MOVEMENT TO MAY 1.

Our monthly reports, which are made to us by telegraph, enable us to-day to bring down our overland statement to May 1. The figures now cover the first eight months of the season, and give us a pretty safe basis upon which to estimate the year's total yield.

# OVERLAND MOVEMENT TO MAY 1, 1881.

April's gross movement has been large, reaching 82,083 bales, against 63,842 bales for the same month of last year. The month's net movement also appears large, being 36,413 bales, against 23,942 bales last year, bringing up the total net overland to 474,241 bales, against 540,402 bales to this date in 1880. The details for the eight months this year and last year are as follows.

OVERLAND FROM SEPTEMNER 1 TO MAY 1.

		1				
	1880-81.	1879-80. '				
Since Sept. 1 shipped-

* This total includes shipments to Canada by rail, which since Septem-						

\* This total includes shipments to Canada by rail, which since September 1, 1880, amount to 20,819 bales.

The above is somewhat encouraging for the all-rail route, as it shows better results than during earlier months. This is true not only of the movement through St. Louis, but also through Louisville. Both points are gradually working their gross total nearer to last year's figures. Of course, with a crop so much larger, this is not surprising; but at one time it looked as if the falling off, notwithstanding the increased yield, would be much more decided than now appears probable.

#### RECEIPTS, EXPORTS AND SPINNERS' TAKINGS.

As has been indicated by our weekly statements, the April port receipts are much larger than for the same month of last year. The excess on the first of April was 594,268 bales; this difference has been now increased, so that on the first of May it reached 720,489 bales. Our usual table of receipts, exports, &c., is as follows.

Movement from	Receipts	Exported	d since S	ept. 1, 18	180, to-	Stocks
Sept. 1, 1880 to May 1, 1881.	since Sept. 1, 1880.	Great Britain.*	France.	Conti- nent.	Total.	May 1.

" Great Britain experts include to the Chaunel.

Using the facts disclosed by the foregoing statements, we find that the portion of the crop which has reached a market through the outports and overland, and the Southern consumption, since September 1, 1880 and 1879, are as follows.

	1880-81.	1879-80.
Receipts at the ports to May 1balcs.	5,359,356	4,638,867
Net shipments overland during same time	474,241	540,402
- Total receiptsbales.	5,833,597	5,179,269
Southern consumption since September 1	175,000	150,000
- Total to May 1bales.	6,008,597	5,329,269

The increase in the quantity marketed during the first eight crop months of 1880-81 is thus found to be 679,328 bales. To determine the portion which has gone into the hands of Northern spinners during the same period, we have prepared the following.

Total receipts to May 1, 1881, as above.....bales. 6,003,597 Stock on hand commencement of year (Sept. 1, 1880)-

At Providence, &c., Northern interior markets ... 3,999-141.418

to foreign perts since sept. 1, 1850 3,	000,132	
Less foreign cotton included	5,177-3	,858,003
Sent to Canada direct from West		20,819
Burnt North and South		7,882
Stock on hand end of month (May 1, 188	1)	
At Northern ports	. 212,875	
	030115	

At Southern ports	-1,494,200
Total takings by spinners since Septembor 1, 1880 Taken by Southern spinners	
Taken by Northern spinners since September 1, 1880 Taken by Northern spinners same time in 1879-30	
Increase in takings by Northorn spinners this yearbales.	31,815

The above shows that Northern spinners had up to May 1st taken out of this crop 1,480,815 bales. Their purchases in April this year appear to have been somewhat larger than during April last year. It should be remembered, however, that the total here given for Northern spinners really covers all the erop taken by the North up to this time, whether for cotton or woolen spindles, or for upholstery work. Henee, exact deductions cannot be made from these figures with regard to eotton spinning. Without doubt, however, our spinners have been fully employed during the year, the only "short time" made being the result of strikes and low water, the latter having been quite a serious impediment.

#### AMOUNT OF CROP NOW IN SIGHT.

In the foregoing we have the number of bales which have already been marketed this year and last year. An additional fact of interest is the total of the crop which was in sight on May 1. We reach that point by adding to the above the stocks remaining at that date at the interior towns, less stock held by them at the beginning of the season. In this manner we find the result for the two years on May 1 to be as follows.

-			
		1881.	1880.
-	Total marketed, as abovebalcs. Interior stocks in excess of Sept. 1	6,008,597 182,000	5,329,269 196,000
5	Total in sightbales	6,190,597	5,525,269

This indicates that the increased movement up to this date of the present year is 665,328 bales. Hence, if there were to be no further gain in the amount received from plantations for the remainder of the season, the crop eventhen would reach 6,423,000 bales. From present appearances, however, the future movement will add somewhat to this excess, and yot it does not now seem likely that the total yield can be much, if any, in excess of 6½ million bales, unless corrections prove larger than we anticipate. The eare we have taken to revise all our figures up to this date lead us to expect very small corrections this year.

#### WEIGHT OF BALES.

We continue below our statement of the weight of bales. It may be well to say again that, for comparison, we are compelled to retain in our table the weights for the whole of last year, as in some instances we have found it quite impossible to obtain returns for the same eight months of 1879-80.

	Eight Mon	Eight Months Ending May 1, 1881.							
	Number of Bales.	Weight in Pounds.	Average Weight.	Average Weight.					
Texas	642,550	329,583,171	512.93	501.15					
Louisiana	1,462,674	709,396,890	485.00	476.00					
Alabama	369,283	187,595,764	508.00	509.89					
Georgia*	852,083	408,999,840	480.00	477.00					
South Carolina	648,763	306,249,518	472.05	466.00					
Virginia	863,412	406,756,509	473.42	468-00					
North Carolina	143,974	67.621,708	469.68	471.00					
Tennessee, &c	1,025,856	512,928,000	500.00	490.00					
Total	6,008,597	2,929,131,400	487.49	481.55					

\* Including Florida.

It will be noticed that the movement up to May 1 shows a decrease in the average weight as compared with April 1, the average on April 1 having been 491-96 lbs. per bale, against 487-49 lbs. per bale on May 1.

### THE GOODS TRADE IN APRIL.

April is never an active month, and in that respect this season has proved no exception to the general rule; and yet more goods have gone into consumption in April this year than last year. The snow storms since January had so blockaded the freight movement, that interior stocks of goods could not be replenished in previous months to the usual extent, while the increased eotton crop estimates and the declining tendency of the raw material tended to make purchasers of goods confine themselves to the necessities of the moment; hence, the demand, though not active, is still kept up, and is likely to extend into later months. The truth is, that actual consumption is very large, while interior merchants have, as stated, been buying in a. hand-to-mouth way, and have small supplies; by the timethe autumn trade begins, this condition is not unlikely todevelope into extreme activity, for the eapaeity of Northern spindles to manufacture goods is limited. A further favorable influence on the market is the active export. movement in progress, which as cotton deelines naturally increases, for reasons well known to our readers. Prices opened in April about the same as at the close of March, but after the first ten days standard sheetings were reduced 1c., and a weakening tendency was developed in low-grade bleached goods, which culminated in a general decline on such fabrics. This settling of values, however, is in conformity to the lower prices for cotton which have ruled in late months, though the decline in goods is not by any means equivalent to the decline in cotton. For instance, standard sheetings were 81c. when low middling cotton was 11 9-16c., and they are still 8c., with cotton at

1.1-1.7 Y L. VOL XXXII

Of course, however, spinners did not lay in 9 15-16c. their cotton at present prices.

The above prices are—For cotton, low middling upland at New York; for printing cloths, mauufacturers' prices; for sheetings, agents' prices, which are subject to an average discount of 5 per ceut.

### FINANCIAL REVIEW OF APRIL.

In the early part of April there was some uncertainty, pending the decision of the Secretary of the Treasury regarding the policy to be pursued in funding the bonds maturing in 1881. His decision was announced, and his circular issued under date of April 11, notifying the holders of the sixes of 1881 that their bonds would be paid off when due, on July 1, unless they gave notice to the Treasury before May 10 that they would extend the bonds (payable any time at the option of the Government) at 31 per cent interest. This plan of Secretary Windom met with a hearty approval, except from some of the bitter opponents in politics; and the prices of U.S. 4 and 41 per cents advanced to the highest prices ever made. The new 34 per cent bonds, popularly called "Windoms," sold at the close of April about 101, bearing no interest until July 1.

After the first week of April money worked quite easily, and after the 20th Government bond dealers were abundantly supplied at 3 per cent on call, while stockbrokers usually paid 4@5 per cent, and sometimes 6 per cent.

There was a very active speculation in State bonds after the Tennessee Legislature passed the law for settling its debt with a 3 per cent, 99-year bond, and the lowpriced bonds of the Southern list showed great animation for a few days, and a large amount of bonds changed hands, of which a considerable part was on purchases for foreign account. The general list of speculative stocks was increasing in strength during the month, and a good part of the bear interest was covered. The opinions gradually changed, and there was much less confidence in any large decline in the market this spring, but on the contrary, the great success of the cliques which had been holding up particular stocks, especially St. Paul, Western Union Telegraph, and the southwestern railroad stocks, gave rise to the belief that a still further advance would be attempted to enable the heavy operators to unload the

immense volume of stocks which they were known to be carrying. Some stocks were notably weak, in exception to the general rule, and the elevated railroads in New York made a large decline.

Exchange grew steadily stronger, and advanced about 2@21 points in the prices of sterling bills. This virtually terminated the shipments of specie from Europe, although that which had previously been ordered continued to arrive.

The total transactions at the Stock Exchange, compared with previous months, were as follows :

	Jan.	Feb.	Mar.	Apr.

#### [From our own correspondent.]

London, Saturday, April 23, 1881.

Owing to the holidays there has been a great want of animation in all departments of business the past week. No feature of any importance has manifested itself, but the tone on the Stock Exchange has been rather dnll. This is due chiefly to the fact that some anxiety exists with regard to the condition of speculation both in Paris and New York. The only drawback to the weather is that, after a long period of dronght, rain is wanted for the newly-sown crops, especially for those on light and upland soils. For the purposes of pleasnre, except that the wind has been cold, the weather has been all that could be desired. Although the traffic receipts for last week show an increase of £62,279 compared with last year, there has been no buoyancy in the railway market, prices having rather receded than advanced. There is evidently a renewed spirit of caution prevailing, as, inaddition to the anxiety which exists with regard to the state of speculation abroad, the commitments of the British public in connection with loans and public companies, are already very heavy, and must infinence, or contract, investments in older securities. Consols, however, continue very firm and are quoted at 101%, and there are no indications of any relapse taking place.

The demand for money during the week has been npon a very moderate scale, but the rates of discount have been tolerably firm at about 2½ per cent for three months' bills. The supply of mercantile paper is very limited, and no immediate change in the value of money is expected to take place. The Bank has received a fair quantity of gold from Australia, but there is only a small increase in the snpply of bullion, a large amount of coin having been required for holiday pnrposes. The increase in the reserve amounts to £989,546, there being an additional issne of £750,000 in notes against Government securities. The proportion of reserve to liabilities is now 48.13 per cent, against 43.64 per cent last week. .The following are the present quotations for money :

Messrs. John Collinson & Co. annonnce that they are authorized to sell \$5,000,000 general mortgage 6 'per cent gold bonds' in 5,000 bonds, of \$1,000 each of the Norfolk & Western Railroad Company, formerly the Atlantic Mississippi & Ohio Railroad Company. This forms part of an authorized issne of \$11,-000,000 general mortgage bonds, and 'the interest is payable in gold coin in New York and Philadelphia, on the 1st of May and 1st of November in each year. The principal is to be repaid in Philadelphia on the 1st of May, 1931. The price of issne is £215 15s. per \$1,000 bond, £10 being payable on application, and the balance will be required when the bonds are advertised for delivery in London.

The Imperial Bank announces that they are authorized to receive subscriptions to an issue of 2,220 first mortgage 6 per cent sterling bonds of £100 each of the Indianapolis & Evansville Railway Company, at the price of 96 per bond. This issne of £222,000 forms part of a total anthorized issue of £676,-000. Interest is payable half-yearly on April 1 and October 1 in London. The authorized capital is \$6,880,000, divided as follows: Share capital, \$3,500,000, and mortgage bonds, \$3,-360.000.

The price of wheat having risen in New York, the trade here has presented a firmer aspect, but there has been no activity. Farmers are delivering very moderate supplies, and a large quantity of produce will be required before the season termi-The weather is brilliant, bnt rain and a higher tempernates. ature are needed to bring the crops, which are in a backward state, forward. There is a very scanty quantity of herbage in the pastnres, and feeding stuffs are likely therefore to command a good sale.

During the week ended April 16 the sales of home-grown wheat in the 150 principal markets of England and Wales amounted to 31,361 quarters, against 27,586 quarters last year, and 47,640 quarters in 1879; while it is computed that they have been in the whole kingdom 125,500 quartagainst 110,350 quarters and 190,560 quarters in ers, two previons seasons respectively. the Since harvest the sales in the 150 principal markets have been 1,230,-931 quarters, against 1,025,142 quarters in the previons season, and 1,805,379 quarters in 1878-9, the estimate for the whole kingdom being 4,923,750 quarters, against 4,100,600 quarters and 7,221,500 quarters in the two former seasons respectively. Without reckoning the supplies furnished ex-granary at the commencement of the season, it is estimated that the following quantities of wheat and flour have been placed on the British markets since harvest; the visible snpply of wheat in theUnited States is also given :

1880-1. Imports of wheat.owt.35,881,14 Imports of flour 8,370,750 Bales of home-grown	1879-80. 1 39,216,719 6 6,817,909	1878-9. 30,794,977 5,536,195	1877-8. 37,250,787 5,767,668

### Commercial and Miscellaneous Rews.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports of last week, compared with those of the preceding week, show a decrease in dry goods and an increase in general merchandise. The total imports were \$11,638,245, against \$8,540,411 the pre-ceding week and \$6,655,231 two weeks previons. The exports for the week ended May 3 amounted to \$6,911,596, against \$6,532,692 last week and \$6,520,451 two weeks previons. The following are the imports at New York for the week ending (for dry goods) April 28 and for the week ending (for general merchandise) April 29; also totals since January 1:

FOREIGN IMPORTS AT NEW YORK.

For Week.	1878.	1879.	1880.	1881.
Dry Goods Gen'l mer'dise	\$1,182,944 4,133,329		\$2,474,517 \$,965,403	
Total Since Jan. 1.	\$5,316,273	\$6,226,757	\$11,439,920	\$11,638,245

Philadelphia & Reading.—Connsel for the McCalmont Bros. and the bond managers of the Philadelphia and Reading Railroad submitted May 5 a reply to the opposite party. They propose to ask the Conrt of Common Pleas to grant a prelimin-ary injunction restraining Mr. Gowen and his associates from acting as officers of the road, and demand a hearing then or at the earliest possible day. They are also ready, they say, to meet the Gowen connsel at Harrisburg to join in the applica-tion to the Supreme Court for an early hearing of the case. —The Railroad Gazette says: "The Secretary informs us that the business statements of this company were last year published with the rentals of leased lines included in the cur-rent expenses; but that this year, since November last, the rentals are not included. The net profits of the railroad com-pany for March, 1881, \$682,456, and for the fiscal year down to the end of March (four months), \$2,233,110, are those applicable to the payment of rentals and interest." Missouri Pacific.—A special dispatch from Dallas says:

Missouri Pacific.—A special dispatch from Dallas says: "Chief Engineer Marvin; of the Missonri Pacific Railroad, said in an interview that it was an established fact that the Missonri Pacific Road will be built to Galveston. The line is now being located from Virginia Point to Randon, on the Galveston Har-risburg & San Antonio Road. The survey from Waco to the International & Great Northern Road is completed."

Richmond & Danville—In the statement regarding this company in the CHRONICLE of April 30, the words "equivalent to 6 per cent, or \$24,208 per mile," should have read equiva-lent to 6 per cent on \$24,208 per mile.

lent to 6 per cent on \$24,208 per mile. --Messrs. John J. Cisco & Son, 59 Wall Street, are offering to investors the Houston & Texas Central Railway Company's general mortgage 6 per cent gold bonds, having 40 years to run, with the interest payable April and October. The present issue of these bonds is \$3,000,000, of which \$1,000,000 has been taken for permament investment and the balance of \$2,000,000 is offered for public subscription on and after the 10th inst., at 102½ and accrued interest from April 1st. The total amonnt of this mortgage is \$18,500,000, of which \$15,323,000 are reserved to provide for existing liens at maturity, \$1,500,000 to redeem ontstanding income and indemnity bonds at par, \$1,677,000 to pay off floating debt incurred for steel rails and other improve-ments. This mortgage is secured by property estimated to be worth \$35,000,000, including 5,240,000 acres superior lands. The earnings of the company during the past three years were as follows :

	were as follows :		1	
		· Gross.	Expenses.	Net.
1	1878	\$2,920,996	\$1.752.039	\$1.163.957
	1879		~ 1.773.771	1.431.913
	1880		2.007.323	1.733.677
	/m • • • • • • • • • • • • • • • • • • •		_//	

The earnings since Jannary 1, 18 over same time last year of \$206,022. 1881, show a total increase

-We call attention to the removal of the well-known firm in the stock and bond business, Messrs. R. J. Kimball & Co., to 25 Nassau Street, where they now occupy beantiful and commo-dions offices. Parties doing business with this firm will not only find their offices pleasant; but the business management satisfactory in all its branches.

-Dividend No. 67, for April, has been declared by the Ontario Silver Mining Company of Utah, making a total of \$3,425,-000 paid to date. The present dividend (\$75,000 in amount) is payable on the 16th inst. at Wells, Fargo & Co's. Trausfers close on the 11th.

-The firm of Trask & Francis has changed its style to Spencer Trask & Co. The firm has been conspicuous for a long time past for its great enterprise, and the present house has large capital and increased facilities for doing an extensive business.

#### BANKING AND FINANCIAL.

FIRST MORTGAGE SIX PER CENT BONDS OF THE ELIZABETHTOWN LEXINGTON AND BIG SANDY RAILBOAD. We are selling these bonds at 100 and accrued interest. When completed

and equipped, this road will represent a cost and an earning capacity much more than sufficient to make its bonds a good investment security; over half the total issue of \$3,500,000 has already been placed.

The Elizabethtown Lexington & Big Sandy Railroad is the connecting link between the Chesapeake & Ohio Railway and the West and Southwest

Occupying this commanding position, it is assured of a large and iucrative business from the date of its completion.

The bonds are of the denomination of \$1,000 each, seeurcd by a strictly first mortgage on the entire property of the company; principal and interest payable in this city in gold coin; interest at the rate of 6 per cent per annum, payable in March and September; principal due March 1, 1902. The recent purchase, in the interest of the Chesapeake & Ohio system,

of the Elizabethtown & Paducah and Paducah Memphis & Northern roads-giving it a direct line from Memphis, with its great cotton ship-ments, to Newport News-makes the Elizabethtown Lexington & Big ments, to Newport News-makes the Elizabethtown Lexingtou & Big Sandy a very important and valuable property. The balance of these and of the Chesapeake & Ohio Purchaso Money Funding Bonds (price 112 and accrued interest), and Series A Bonds (price 105 and accrued interest), will be rapidly absorbed, as so many holders of the Unitsd States Fives and Sixes are looking for sound investments which can be had at moderate prices. Within two years the Chesapeake & Ohio sys-tem will have its own independent lines or connections to Memphis, St. Verte, Leaderille, Chesapeake at the man will Louis, Louisville, Cincinnati and Chicago; and a glance at the map will show that this means a business fully up to its utmost capacity. FISK & HATCH, 5 Nassau Street.

FRIDAY. MAY 6, 1881-5 P. M.

FRIDAY. MAY 6, 1881-5 P. M. The Money Market and Financial Situation.—Things are generally stronger. There is renewed evidence that the buoyant movement in stocks and bonds which began in July, 1879, nearly two years ago, has uot yet culminated. Each week developes some further rise in stocks of reorganized railroads, in the prices of income bonds, or in old and long-known speculative stocks; and, without any regard to the actual value of these varions bonds and shares, as based on their prospect of paying divi-dends, the time has not yet arrived when a broker could predict with any certainty that their prices would not advance another 10 per cent in the next week. 10 per cent in the next week. The bear toue of March has decidedly changed, and sales for

With 'any certainty that then prices would not advance about in the present in the next week. The bear tone of March has decidedly changed, and sales for the short account, which were then large, have been covered to a very considerable extent. The situation at present may serve well enough to illustrate once more the fact that it is not safe in stock matters to be guided by the experience of the past. Things change so rapidly in this country, that the course of the market for a long series of years can not always be taken as a guide for operations, and a certain time comes when things go far beyond all former limits, and the analogies of the past are lost. To bring these reflections to a more 'practical point—the oldest and most experienced stock broker who looked for a heavy decline in the market this spring has so far been greatly disappointed. And yet the signs of the times all indicate the ordinary effects of a decided inflation; the ease in money has in some respects never been equaled. In the dark days of 1877 call loans were lower, but they were low for the very reason that capital shunned every new enterprise, and money piled up in New York to be loaned out at 1 per cent on call. But in a rational sense, money is much easier now than then, and never have new railroads and other industrial enterprises found such ease in obtaining funds as at the present time. It is fair to say that the rate of interest paid on their loans by the new railroad corporations of 1881 is fully 2 per cent lower than the rate paid by the new companies of 1872. A six per cent gold bond at par is more readily sold now, than a 7 per cent gold bond was then sold at 90, with gold ruling at 114 and the railroads building in a better territory. The difference in favor of the railroads of to-day, in having an interest obligation so much lighter, is quite obvious to all.

range ou all collaterals is 3@6 per cent. Prime commercial paper is quoted at 4@5 per cent. The Bank of Euglaud weekly statement on Thursday showed a loss of £147,000 in specie, and the reserve was 48 per cent, against 49 5-16 last week; the discount rate remains at 2½ per ceut. The Bank of France showed a gain of 6,350,000 francs in gold aud 5,575,000 francs in silver. The last statement of the New York City Clearing-Honse banks, issned April 30, showed an increase in the surplus above legal reserve of \$3,380,875, the total surplus being \$11,440,025, against \$\$,059,150 the previons week. The following table shows the chauges from the previous week and a comparison with the two preceding years :

•	1881. April 30.	Differ'nees fr'm previous week.	1880. May 1.	1879. May 3.
Loans and dis. Specie Circulation Net deposits . Legal tenders.	69,289,400 18,600,100 294,536,300	Dec.\$1,282,400 Ino. 2,485,200 Inc. 1,382,700 Iuo. 1,883,300 Inc. 1,366,500	49,406,500 20,646,200 252,572,200	18,516.200 19,683,100 214,331,700

Surplus...... \$11.4 to,025 'Inc. \$3,380,875 | \$3,277,450 | \$14,373,775 United States Bonds.—There has been a large business in Government bonds, and much activity in exchanging one issue for another. The demand for bonds is large, and again we have to uote a further advance in the four per cents to 116¼@116¾ at the close to-day. Up to this morning the amount of bonds presented at Washington for extension in 3½ per cents was abont \$75,000,000; and unless the amount in the uext four days should be very large, or the time should be extended beyond May 10, it is evident that there would remain a considerable amount of the sizes to be paid off on July 1. The uew "Windoms" are selling here abont 101@101½. A circular rela-tive to the payment of bonds included in the oue hundred and first call has been issued by the Treasnry Department, which contains the following: Notice is hereby given that on and after Wednesday, May 4, 1891, the

Notice is hereby given that on and after Wednesday, May 4, 1831, the five per cent funded loan. bonds of 1831, included in the oue hundred and first call, will be paid at the Treasury of the United States, in the

<sup>C</sup>ity of Washington, with interest from May 1 to May 21, the date of the maturity of the call. The interest due May 1, 1881, on such registered bonds embraced in the one hundred and first call as have not been redeemed will be paid as usual by checks drawn to the order of the payees of the bonds.

The closing prices at the New York Board have been as follows:

Exchange Thoras in	amontad		mand armon	

Wisconstr Cent.: 3 wks Mar. 46.930 63,426 ..... Exchange.—There is reported to be a good amonnt of the sixes of 1881 returning from foreign holders, and more than suf-ficient to balance the export of railroad and other securities. Rates of sterling exchange are stronger in consequence of this, and from the natural decrease in commercial bills at this time of year. To-day the rates on actual business were about 4 8440 4 8425 for bankers' 60 days, 4 8625 for demand and 4 87 for cables. The following were the rates of domestic exchange on New York at the undermentioned cities to-day: Savannah, buying, 26, selling, 140% prem.; Charleston, buying, 26 prem., selling, 24 prem.; New Orleans commercial, 1.50 prem., bank, 2.50 prem.; Chicago, 25050 premium, and Boston, 9 pence disconnt. Quotations for foreign exchange are as follows:

May 6	Sixty Days.	Demand.			
Prime bankers' sterling bills on London. Prime commercial Documentary commercial Paris (francs) Amsterdam (guilders) Frankfort (reichmarks). Drennen (reichmarks).	$\begin{array}{c} 4 83^{1} 2 @ 4 84 \\ 4 83 @ 4 83^{1} 2 \\ 5 20^{5} 8 @ 5 19^{3} 8 \\ 39^{7} 8 @ 40^{1} 8 \\ 94^{1} 2 @ 94^{3} 4 \end{array}$	$\begin{array}{c} 4 & 8634 & 04 & 87^{1}2 \\ 4 & 8513 & 04 & 86 \\ 4 & 85 & 04 & 85^{1}2 \\ 5 & 18^{1}8 & 25 & 16^{7}8 \\ 4 & 0^{1}8 & 4 & 0^{3}8 \\ 95 & 0 & 95^{1}4 \\ 95 & 0 & 95^{1}4 \end{array}$

# GENERAL QUOTATIONS OF STOCKS AND BONDS.

Quotations in New York represent the per out value, whatever the par may be; other quotations are frequently made per share. The foliowing abbreviations are often used, viz: "M.," for mortgage; "g.," for gold; "g'd," for guaranteed; "end.," for endorsed; "cons." for consolidated; "conv.," for convertible; "s. f.," for sinking fund; "l. g.," for land grant. Quotations in New York are to Thursday; from other cities, to late mail dates. Subscribers will confer a favor by giving notice of any error discovered in these Quotations.

1.5.1 THE CHRONICLE.

# Investments

### STATE, CITY AND CORPORATION FINANCES.

The INVESTORS' SUPPLEMENT contains a complete exhibit of the Funded Debt of States and Cities and of the Stocks and Bonds of Railroads and other Companies. It is published on the last Saturday of every other month-viz., February, April, June, August, October and December, and is furnished without extra charge to all regular subscribers of the CHRONICLE. Single copies are sold at \$2 per copy.

# ANNUAL REPORTS.

#### Lake Shore & Michigan Southern Railway. (For the year ending Dec. 31, 1880.)

The annual report for 1880 is just issued in pamphlet form. The miles of road operated have not varied in eight years, and the total remains at 1,177 miles, with 235 miles second track, and 480 miles side tracks, making in all 1,893 miles of track, of which 1,125 miles are laid with steel, an increase of 43 miles in 1880 1880

1880. Nothing was charged to construction or equipment account in either 1880 or 1879. There was added to the equipment in 1879 700 new freight cars, costing \$300,000; in 1880, 1,500 new freight cars, costing \$700,000, all charged to operating ex-penses. The funded debt was reduced \$250,000 by the pur-chase for the Sinking Fund and cancellation of \$250,000 first mortgage bonds. The Sinking Fund now amounts to \$2,500,-000

The net earnings in 1880 were \$8,331,856, which were disposed of as follows :

Fixed charges, after deducting est and dividends on assets.	g \$208,6	561 derived	l from inter-	\$9 750 374
Contribution to Sinking Fund.				250.000
Dividends, two of 4 per cent e			· .	
Total payments		*********		\$6,957,694

Balance, surplus for the year.... 1.373.661

\$8.331.356

The amonnt earned for each share (\$100) of the capital stock, after the payment of prior fixed charges was \$11 28 against \$7 24 in 1879 and \$5 61 in 1878.

As the largest gross earnings ever made were in the year 1873, a comparison of the aggregates and results of that year with those of 1880 is here given :

	1880.	1873.
Gross earnings	\$18,749,461	\$19.414.509
Operating expense	\$10,418,105	\$13,746,598
Per cent	55.56	70.90
Net earnings,	\$8,331,356	\$5,667,911
Tons freight moved one mile	1,851,166,018	1,053,927,189
Rate per ton per mile	Cent 0.750	Cent 1.335

Mr. Vanderbilt remarks: "These fignres show that we had to do eighty per cent more work to earn a dollar in 1880 than we did in 1873. In other words, the public obtained transporta-tion for 180 tons freight in 1880 for the same money they paid for 100 tons in 1873."

As compared with 1879, the freight business of 1880 show the following changes:

 
 1880.
 1879.

 Tons carried....
 3,350,336
 7,541,294

 Tons, one mite..
 1,851,166,018
 17,34,423,445

 Earnings......
 \$14,077,294
 \$11,288,261
 Increase P. 10 809.042 117,742,578 \$2,789,033  $\begin{array}{r}
 6.79 \\
 24.71
 \end{array}$ 

The passenger business which had, in common with that business on other principal roads, shown a steady decline since 1873, shows this year an increase. A comparison with 1879 is here given :

Number passengers	1880.	1879.	Increase.	P. c.
Mumber passengers	3,313,485	2,822,121	491,364	17.40
carried one mile Earnings	176,148,767 \$3,761,008	141,162,317	34,086,450 \$623,004	$24.79 \\ 19.86$

Comparative statistics for fonr years, compiled in the nsnal form for the CHRONICLE, are as follows:

Michigan Central.

### (For the year ending Dec. 31, 1880.)

(For the year entering Dec. 31, 1830.) The annual report for 1880 notes the following changes in the funded debt: The sinking fund trustees have purchased \$18,000 of the first sinking fund and \$5,000 of the second sink-ing fund bonds--a total of \$23,000. The trustees of the Jackson Lansing & Saginaw Railroad Northern Extension bonds have called in, and with proceeds of land sales paid and canceled, of that issue, \$318,000. Thus, by the above changes, the com-pany's liability is diminished \$341,000, and its annual interest navments \$37,280

that issne, \$318,000. Thus, by the above changes, the com-pany's liability is diminished \$341,000, and its annual interest payments \$27,280. There have been large improvements in the road and equip-ment, for which there has been expended, in excess of the amonnt necessary for actual maintenance, say \$750,000. "The freight tonnage shows an increase of 8'06 per cent over the unprecedented volume of the previous year, and the earnings also show an increase of 24'24 per cent. The passenger move-ment shows an increase of 17'58 per cent, and the earnings therefrom an increase of 19'32 per cent; but the rate per passen-ger per mile shows a decrease from cents 2'21 to cents 2'13, or 3'62 per cent. This is due to an increased emigrant and excur-sion traffic at less than average rate of last year. The operat-ing expenses show an increase in their per cent to earnings, viz.: from 63'97 to 64'11, or fourteen-hundredths of one per cent, which is small, in view of the fact that for the improve-ment of the property there was charged to expenses, say \$600,000, which could very properly have been charged to con-struction account. Had this amont been so charged, the operating expenses would have been but 57'41 per cent, or a reduction of 6'56 per cent from last year." Construction account for the entire system has increased dur-ing the year \$271,109, of which amonnt the cost of lands and new second track, viz., \$95,184, was paid with funds derived from traffic; but the cost of 227 new freight cars, viz., \$175,925, was paid with proceeds of sundry securities which the company had theretofore held. Income account shows, after charging to it disbursements for operating expenses (including extraordinary items enumerated),

Income account shows, after charging to it disbursements for operating expenses (including extraordinary items enumerated), interest and rentals, dividends and \$70,000 for Jackson accident claims (now all settled)—a net gain for the year of \$96,347. The present balance of the account is composed as follows:

Detroit & Bay City guaranteed interest. Construction expenditures. Cash surplus. \$50.900 105,184149,880

The report of the Land Commissioner of the Jackson Lansing & Saginaw Railroad Company gives the following statement of sales for the last three years, as follows :

sales for the last childe fearer a	TO TOTTO ILO P		
	1878.	1879.	1880.

Expenses in operating Col. Chic. & Ind. C. Railway prior to January 1, 1875, paid in 1880	\$12,873
Interest on 2d mortgage bonds, due October 1, 1875, to April 1, 1878, inclusive, paid in 1880	525.000
Sundry old claims accrued in previous years Balance to debit of profit and loss, December 31, 1879	76,632
manance to debit of pront and ross, December 31, 1879	37,30%

Leaving to oredit of profit and loss, Docember 31, 1880. \$97.050

Leaving to oredit of profit and loss, Docember 31, 1880. \$97.050 The tonnage transported was 3,099,994 tons, against 2,726,847 in the previous year, an increase of 373,147 tons, of which 348,994 tons was in the local and 24,153 in the foreign tonnage, the gain being mainly in the movement of coal and coke. The revenué from local tonnage increased \$214,753, and that from foreign tonnage \$358,610. The rate received per ton per mile was 8 4-10 mills, against 7 2-10 mills in 1879, while the cost per ton, although increased from 4 2-10 to 4 4-10 mills, bears con-clusive testimony, in view of the advance in the price of labor and materials, to the excellent condition and economical man-agement of the road. The tonnage per train shows a decided improvement over the preceding year. There were carried 902,454 passengers, against 778,461 in 1879, an increase of 123,993, of which 112,059 were in the local, and 11,934 in the throngh, travel. Of the increased revenue from this source, \$59,904 was derived from the local, and \$43,673 from the foreign, traffic. CHARTIERS RAILWAY.

One year's int. on Cinn. Street Connect. Railway bds. 23,625-706,255 

The local tonnage of the road shows a slight decrease. The total amount transported was 782,495 tons, against 787,769 tons in the previous year, there being an increase in the movement of lumber, live stock and merchandise, and a decrease in coal and grain. A slight advance in the average rate explains the increase in freight earnings before shown.

The net oarnings for 1880 to the credit of C. C. & I. C. Railway

of the United States Circuit Court, were	
Tho not oarnings for 1879 wero	

The tonnage transported was 2,484,321 tons, against 2,310,053 tons in the previous year, an increase of 174,268 tons, almost equally distributed between the local and through traffic. Though a fair advance in the average rate was obtained, the cost of doing the business was more than proportionately increased, and the net result thereby somewhat reduced. There were 814,980 passengers carried, against 695,552 in 1879, an increase of 119,428; and of the latter 96,817 were in the local, and 22,611 in the through, travel. The increase in the passenger revenue was \$87,200 from local, and \$67,657 from through, passengers.

the passenger revenue was \$87,200 from local, and \$67,657 from through, passengers. "No change has taken place in the condition of the litigation between your company and the Columbus Chicago & Indiana Central Railway Company, although several efforts were made to effect a compromise thereof. Recent changes in the owner-ship of the securities of that company have occurred, nuder which their control has passed largely into the hands of a few parties, who have evinced a desire to reach an amicable settle-ment of the matters in dispute. It is hoped that this may be consummated in such a manner that your interests will be properly protected." Comparative statistics for four years, compiled for the CHRON-ICLE, are as follows:

Alabama Great Southern Rallway.

(For the year ending December 31, 1880.)

(For the year ending December 31, 1880.) The directors' report gives the gross earnings in 1880 as \$643,130, as compared with \$444,181 in 1879, showing an increase of \$198,949. The receipts per mile per annum for 1880 are thus \$2,180, as against \$1,500 for 1879. Considerable decrease is shown in the percentage of working expenses, which was 69'2 per cent in 1880, as against 80'2 per cent in 1879, and a further decrease is expected in 1881. The board has steadily pursued the policy indicated in former reports, of raising the service, of improving the roadbed, and of increasing the rolling stock and equipment, so as to enable the company the better to do the increasing business, both as regards passengers and freight. freight.

Total.....£15,620 Sueb dividend to be payable on May 1, 1881.

Such dividend to be payable on May 1, 1881. On the 31st December, 1879, the ontstanding claims amounted to \$522,076. During the year 1880 the amount was reduced to \$293,282, of which a considerable portion is disputed and in suspense. The amount of the company's bonds, held in trust for the purpose of meeting these claims, is \$302,000. In accordance with the powers vested in them by the resolu-tions passed at an extraordinary general meeting held the 31st May, 1880, and duly confirmed, the directors now announce the issue of 19,340 six per cent "A" preference shares of £10 each.

# Boston Water Power Company.

(For the year ending March 31, 1881.)

(For the year ending march 31, 1881.) "The report of the Treasurer for the late fiscal year states that the sale of land in the 'Fnll Basin,' referred to in the last annual report, was finally consummated June 10, 1880, and a deed of the same delivered by the trustees to 'F. W. Palfrey and others, Trustees of Commonwealth Avenue Lands,' for the consideration of \$267,128. A reserved lot in this tract, of about 34,000 feet, not having yet been conveyed by our trustees, on account of a question of title, which we confidently expect will

very scon be settled, when the trustees will receive the amonnt-necessary to complete the entire sale, amonnting to about \$73,000 additional. On the 15th of September, 1880, a sale of land of about 30,000 feet, at the westerly end of Huntington Avenue was made to the 'Trustees' of the Children's Hospital,' and the proceeds paid to our trustees, \$30,000. "On the 13th of October, 1880, the sale of 456,750 feet of land was completed (361,507 feet in 'Fnll Basin,' and 95,243 feet on Westland Avenne), by which the sum of \$702,440 was received by the trustees, and an equivalent amount of conpons and bonds received therefor.

received therefor.

received therefor. "The cash received by our trustees from these sales has been used by them, first in the payment of the money borrowed by them in 1879 (and accrued interest), to retire the underlying mortgages previously held by the 'Boston Five Cents Savings Bank,' which have thus been paid in full, and assigned to our trustees. Also for the filling of the land sold, which has been paid monthly to the Boston & Albany Railroad. Company, also the taxes for 1879 and 1880; and, for the betterments assessed on the land sold, which were essential to give the purchasers title, the trustees have placed in trust a sum sufficient to cover. said betterments." \* \*

after stated. "The valuations of our land, in the statement of 'assets' have been carefully revised, and we are confident that judicious management will enable the corporation to realize, within the

management will enable the corporation to realize, within the next two years, much higher prices for every foot of it. We must, however, sell a limited amount very soon, and this we think we can do at the valuation, as it is of prime importance that our trustees have the needful means to carry forward the purposes of their trust." \* \* \* "The 'material reduction of our indebtedness to the bond-holders,' promised in the last report, has been accomplished, upwards of \$700,000 of conpon indebtedness to them having been paid; also all borrowed money with interest in full, and all taxes assessed on the property to the present time. Thus, during the year, the indebtedness of the corporation has been reduced as follows:

Coupon and honded indebtedness.	.\$702.440
Borrowed money and interest in fuli	203,793
Taxes for 1879-80, and interest and costs	68,110
In trust against claims for hetterments	13,365
Paid Boston & Albany Railroad Company for filing	30,174
1	

The assets in land are placed now at \$4,498,576, and liabilities at \$2,329,142, of which \$2,148,000 are first mortgage bonds.

### GENERAL INVESTMENT NEWS

Bostou Hoosac Tinnel & West.—Articles of merger and consolidation of the Boston Hoosac Tunnel & Western Railway Boston Hoosac Tinnel & West.—Articles of merger and consolidation of the Boston Hoosac Tunnel & Western Railway Company with other railway companies, to make a throngh line from the Hoosac Tinnel to Oswego and Buffalo, have been filed in the Secretary of State's office at Albany. The agreement includes the Boston Hoosac Tinnel & Western, the Hoosac Tinnel & Saratoga, the Utica & Syracuse Air line, the Syracuse Chenango & New York, the Syracuse Phenix & Oswego, and the Mohawk & Lake Erie Railroad companies. The following is the board of directors of the consolidated road: Wm. L. Burt, Boston; Estes Howe, Boston; William Foster, jr., New York; E. C. Benedict, New York; Wm. R. Garrison, New York; Chas. G. Francklyn, New York; Daniel B. Hatch, New York; Chas. G. Francklyn, New York; Daniel B. Hatch, New York; E. B. Phillips, Boston; George O. Post, Fair Haven, N. Y.; Enos Wilder, New York; W. U. Burt, Boston; Josiah Case, Vernon, N. Y.; Myron P. Bush, Buffalo. The first officers are to be: President, William Burt; Treasurer, Estes Howe; Secretary, Wm. V. Reynolds.
 Cairo & Vincennes.—The New York World says: "There appeared in this column on the authority, mistaken as is now shown, of a local Western journal, some time ago, anotice that the Receiver of the Cairo & Vincennes Railroad had been authorized to sell any Receiver's certificates of indebtedness issued by him at not less than 95 cents on the dollar in payment of back taxes.

at not less than 95 cents on the dollar in payment of back taxes. The road referred to undoubtedly was the Cairo & St. Louis. The Cairo & Vincennes went out of the Receiver's hands Ang. 24, 1880, their certificates have all been settled for at par and interest, and all back taxes have been paid up.

Central Iowa.—The Times-Republican of Marshalltown, says of the Central Iowa: "We are now able to state, by au-thority, regarding the operations of this road, that the North-western extension from this city will be begun at once, and built as far as all the force that can be placed upon it can push it during the coming season. Work on the extension from Ham-ilton will commence at once, and be prosecuted as vigorously as possible. Four thousand tons of rail have been purchased for this line."

Cheraw & Salisbury.-This South Carolina company has de-faulted on the April interest of its bonds, and some of the bondholders urge the appointment of a Receiver.

Chicago & Eastern Illinois—Evansville & Terre Hante.— The Chicago Tribune reports: "The Chicago & Eastern Illinois has seenred a majority of the stock of the Evansville & Terre Hante Railroad. It is understood that the amount paid was \$100 per share of \$50 par value for a block of 9,000 shares, and \$75 per share for 4,000 shares. The Evansville & Terre Haute

property is estimated at \$3,500,000, it being a first-class steel road, with an nunually large supply of rolling stock, and ter-minal facilities of great value at Evansville. This new acquisi-tion will give the Chicago & Eastern Illinois a through line from Chicago to the Ohio River (Evansville), it having previously acquired the Evansville Terre Hante & Chicago Railroad, and will place it in the front rank of north and sonth roads. A bridge is to be constructed across the Ohio River at Evansville at once, which will provide direct connection with the St. Lonis & Sontheastern and all the Sonthern railroad system."

Chicago St. Paul Minneapolis & Omaha.—Notice is given by this railway company of intention to increase its capital stock on the 10th of June, 1881, in amounts and for the purposes as follows:

- In accordance with the terms of consolidation, \$5,000 per mile of its common stock upon the 608 miles of its railroad acquired from the 8t. Paul & Bioux City Railroad Company (making a total issue of \$15,000 per mile of common stock upou said system), aggregating 30,400 shares. The same being required for additional equipment, purchase of steel ralls, new depots, machine shops, additional side tracks, &o. &o.
   For the purchase of the capital stock of the Menominee Railway Company. (4's miles) 450 shares preferred stock.
   For the purchase of the capital stock of the Ean Claire Railway Company.

- pany. (3 miles) 300 shares preferred stock. 450 shares common stock. 4. For the purchaso of the capital stock of the Biack River Rallway

4. For the purchase of the capital stock of the company. Company. (16 miles) 1,600 shares preferred stock. 2,400 shares common stock.
5. For the construction and equipment of sections 5 and 6 (each 20 miles) 40 miles of its North Wisconsin branch. (40 miles) 4,000 shares common stock. 6,000 shares common stock.
The roads mentioned in items 2, 3, 4 and 5 are in Wisconsin, and are communications and feeders of the Chicago St. Paul Minneapolis & Omaha Railway Company.

Cincinnati Sonthern.-At Cincinnati, May 3, a meeting of the stockholders of the Cincinnati Sonthern Railway Company was held, and the question of increasing the capital stock of the company from \$2,000,000 to \$5,000,000 was voted upon. There were 23,701 shares voted ont of 31,850, all of which were in favor of the increase.

were in favor of the increase. Delaware State Loan.—The proposals for the new 4 per cent loan of the State of Delaware were opened at Dover. The loan amounts to \$715,000, of which \$250,000 run from one to five years, \$300,000 from five to ten years and \$165,000 from ten to twenty years. The bids received were all for the entire amount of the loan and were at 100.50 to 103.90—the latter by Thomas A. Biddle & Co. of Philadelphia.

Thomas A. Biddle & Co. of Philadelphia. Denver & Rio Grande.—A notice is published that, in order to complete its system and connect its roads with the mining regions of Utah and other Western States and Territories, this company has procured, to be organized, the Denver & Rio Grande Western Railway Company. The extensions immediately contemplated will, according to estimates, require \$5,000,000, for which subscriptions are offered to the stockholders of the Den-ver & Rio Grande Railway Company, upon the following terms: The subscriber will receive for each \$1,000 cash, paid in instal-ments, \$1,000 in the first mortgage six per cent gold bonds of the Denver & Rio Grande Western Railway Company, to be issued to an extent not exceeding \$16,000 average per mile, and \$500 in the capital stock of said Company. Stockholders of the Denver & Rio Grande Railway Company will have the right to subscribe till May 14 at the rate of \$1,000 for each thirty shares of Denver & Rio Grande stock standing in their names on May 10, 1881. on May 10, 1881.

Galveston Houston & Henderson.—A meeting of the bond-holders of this company was held in New York on April 26. Mr. Joseph Budd, Jr., was elected one of the trustees of the mortgage to fill the vacancy cansed by the resignation of John. J. Donaldson.

J. Donaldson. Indianapolis Decatur & Springfield.—The World reports that this company propose to readjust their bonded indebted-ness as follows:—First, issne a new six per cent forty-year bond for the \$1,800,000 seven per cent sinking fund bonds now ont-standing. Second, issue a second mortgage five per cent thirty-year bond in exchange for the aggregate income coupens now due on its second mortgage bonds, said coupons amounting to about \$900,000 on July 1 next. Third, issue preferred stock in exchange for the present sutstanding second mortgage bonds, amounting in the aggregage to \$2,700,000. The fixed charges of the company for interest and sinking fund now amount to \$154, 000, while under the proposed arrangement they will be less. Minneapolis & St. Lonis.—A dispatch from Minneapolis

000, while under the proposed arrangement they will be less. Minneapolis & St. Lonis.—A dispatch from Minneapolis says: "An agreement has been drawn np for the consolidation and single management of the Minneapolis & St. Lonis, the Minneapolis & Dulnth, the Minneapolis & Iowa Southern and the Fort Dodge & Fort. Ripley railroad companies, which have heretofore been operated as separate companies. Articles of consolidation have been ratified by the stockholders and the officers of the consolidated company, which will be known as the Minneapolis & St. Lonis Railway Company of Minnesota and Iowa, have been elected."

and Iowa, have been elected." Newcastle & Franklin.—This railroad has been bought by Thomas P. Simpson for \$775,000. Mr. Simpson has made con-tracts for the extension of the road from Buffalo to Brockton, and from Irvington to Salamanca. New York City & Northern.—The New York City connec-tion of this road was opened for traffic Sunday, May 1. It con-sists of the bridge across the Harlem River from the northern

terminns of the Metropolitan Elevated road at 155th Street and Eighth Avenne, and a road thence, on the east bank of the Har-lem, northward to High Bridge, abont one mile. Last Sunday trains were rnn abont every ten minutes (with elevated railroad rolling stock), and were well patronized at a fare of five cents.

Iem, northward to High Bridge, abont one mile. Last Sinday trains were ran abont every ten minutes (with elevated railroad rolling stock), and were well patronized at a fare of five cents. Norfolk & Western.—M. F. Pleasants, Master, submitted his report in the U. S. Circnit Conrt of Virginia, Judges Bond and Hughes presiding, to the effect that he had received the purchase money of the Atlantic Mississippi & Ohio Railroad from Clarence H. Clark and others, amounting to \$8,505,000, certificates of deposit for which he turned over to the Court as follows: Union Trust Company of New York, \$5,000,000; Fidelity Trust Company of Philadelphia, \$3,200,000; Exchange National Bank of Norfolk, \$305,000. He reported also that he had delivered a deed to the said Clarence H. Clark and others, conveying to them all the property of the Atlantic Mississippi & Ohio Railroad. The Court confirmed the report of the Master. A decree was entered May.4 directing that 95 per cent of the bonds due by the Atlantic Mississippi & Ohio Railroad, together with the entire interest, be paid forthwith to holders of the Same, and that Charles L. Perkins, of New York, be appointed Special Master to make such payment. Mr. Choate, connsel for the English bondholders, made statements of the cost incurred by them, and asked that they be reimbursed out of frands in the hands of the Conrt. Thirty days were allowed to present the same, and thirty days for the purchasers of the road to reply. October 3 was fixed, in Richmond, as the time for hearing the petition of the labor and snpply claimants.
The purchasers held a stockholders' meeting May 3, at Norfolk & Western Railroad Company, with the following board of directors: George F. Tyler, Clarence H. Clark, F. J. Kimball, Edward A. Rollins, George C. Clark, Robert Minturn, C. C. Baldwin, H. Victor Newcomb, W. B. Isham, C. D. Wood, New York; U. L. Boyce, Boyceville, Va.; John B. Whitehead, Norfolk Xa; J. Arthur Johnson, Petersburg, Va., and Charles W. Strahan, Lynchburg, Va. The officer

ond Vice-President and General Manager; G. R. W. Armes, Secretary; W. G. McDowell, Treasurer; and E. Portlock, Anditor. Oregon Railway and Navlgatien Company.— The Presi-dent, Mr. Villard, in a circular recently issued, says that the work of construction, which was seriously interfered with during the winter months by the severe and protracted cold weather, was re-commenced with full vigor last month. Trains are now run-ning through from the Dalles to Walla Walla. The line from Walla Walla to Grange City, on Snake River, a distance of 58 miles, together with the Dayton branch (16 miles), is fully graded and ready for the ties and iron. Contracts for the lines north of the Snake River from Texas Ferry, opposite to Grange City, to Colfar and Farmington (90 miles), have been let, and grading has been commenced. The construction of the line from Umatilia to Baker City (about 160 miles), the point of connec-tion with the Oregon branch of the Union Pacific, has also been commenced from various points. The work upon the line from Portland to the Dalles (90 miles, was likewise begun some weeks since, and will be prosecuted night and day, so as to insure the completion of an unbroken rail line from Portland up the Columbia before the end of the year, which will enable us to avoid forever hereafter serions embarrassments to onr business from the freezing up of the river. The effect of the embargo upon earnings is set forth in the following statement of gross and net earnings for the months of December, Jannary, Febru-ary and March: <u>Gross</u> <u>Operating</u> Net

December, 1880.	Gross Earnings.	Operating Expenses.	Net Earnings.
January, 1881 February, 1881	134,581 160,377	\$143,889 134,483 141,996	\$13,684 98 18,381
March, 1881	\$759.426	150,000 \$570,369	156.000 \$188.163

The earnings for March are partially estimated.

The earnings for March are partially estimated. Petersburg Rallroad.—A dispatch to the Baltimore Sun from Richmond, Va., May 3, said that a meeting of the second mortgage bondholders of the Petersburg RR. was held, at which a scheme for preventing the foreclosure sale was adopted. This pian was submitted by the pcol committee, who have pur-chased all of the outstanding indebtedness subject to the second mortgage. This committee have also 7,645 shares of the capital stock. The scheme provides for the reorganization of the road without its sale, by the payment of all past due inter-est under the first, and by funding past due interest under the second mortgage bonds. This scheme was unanimonsly ap-proved of by the bondholders. Application will be at once made to the United States Court for this district to deliver pos-session of the road to the company, the claims of all creditors having been satisfied. Pennsylvania Ballroad —On Monday May 2, the dimenter

Pennsylvania Rallroad.—On Monday, May 2, the directors decided to declare a semi-annual dividend of 4 per cent, pay-able on and after May 28. The following resolutions, relating to the allotment of new stock, were passed:

to the allotment of new stock, were passed: Resolved. That the Treasurer be and he is hereby instructed to give notice that the stockholders will have the privilege of subscribing at par to the stock of this company in the proportion of 12<sup>5</sup>2 per centum of the number of shares registered in their names April 30, 1881, and these cultiled to a fraction of a share can subscribe to a full share. All subscriptions must be made and paid for in full prior to June 15, 1831, and no subscriptions will be received after that date. The privilege of taking new stock may be sold by any shareholder, and a blank form of allotment will be furnished upon application. Reso ted. That the officers of the company be and they are hereby authorized to issue certificates for the shares of stock subscribed and paid for in a cerdance with the foregoing resolution.

# The Commercial Times.

COMMERCIAL EPITOME.

COMMERCIAL EPITOME. FRIDAY NIGHT, May 6, 1891. General trade shows increased activity. The weather has turned rather cool again for the season, but this has not pre-vented the reopening of navigation on the Great Lakes. The Erie Canal will be partially opened next week, but navigation will not be resumed along its entire length till the 17th inst. The great delay in the opening is attributed to the severe frosts of the late winter. Floods are again threatened in the lower Mississippi, and have done some damage at St. Louis. Crop accounts are as good as could be expected, all circumstances con-sidered. There appears to be some revival of speculative spirit in mercantile circles. The following is a statement of the stocks of leading articles of domestic and foreign merchandise at dates given :

• Included in this amount there are 1,925 bales at presses for foreign orts the destination of which we cannot learn.

The speculation in cotton for fntnre delivery has shown rather more animation during the week under review; that is, business has been larger. During Saturday and Monday prices were greatly depressed. Foreign advices were very disconraging. The weather at the Sonth was good, and the waters in the Mississippi had receded. Tnesday opened at a fnrther decline, when the lowest fignres of the season were reached. Then there came a demand to cover contracts, cansing not only the recovery of the early Jecline, but finally some advance for the next crop. On Wednesday, Liverpool advices were better, and onr market opened higher, but soon fell off and closed lower, the next crop being the most depressed. Yesterday there was again a buoyantmarket, Liverpool making an nnexpectedly favorable report, bnt, as on Wednesday, the market weakened as the day advanced, showing that the ball party had little strength. During Wednesday and Thursday reports from the rivers indicated increased danger of an overflow. To-day there was again a slight improvement at the opening, which was lost, and the close was slightly easier, but without much change. Cotton on the spot declined 1-16c. on Saturday and again on Tuesday. There was, at the decline rather more doing on Wednesday and Thursday. To-day the market was more active for both export and consnmption, and the market closed firm at 10 9-16c. for middling nplands.

The total sales for forward delivery for the week are 405,000 bales. For immediate delivery the total sales foot up this week, 5,917 bales, including 3,312 for export, 2,455 for consumption, 150 for speculation, and — in transit. Of the above, 150 bales were to arrive. The following are the official quotations and sales for each day of the past week.

This year's figures estimated.

The above totals show that the old interior stocks have de-ereased during the week 4,187 bales, and are to-night 8,476 bales more than at the same period last year. The receipts at the same towns have been 3,921 bales more than the same week last year.

THE VISIBLE SUPPLY OF COTTON, as made up by cable and telegraph, is as follows. The Continental stocks are the figures of last Saturday, but the totals for Great Britain and the afloat for the Continent are this week's returns, and consequently bronght down to Thursday evening; hence, to make the totals the complete figures for to-night (May 6), we add the item of exports from the United States, including in it the exports of Friday only:

Price Mid. Upl., Liverpool ..... 57ad. 67ad 67ad. 57ad. The above figures indicate an increase in the cotton in sight

The above figures indicate an *increase* in the cotton in sight to-night of 516,031 bales as compared with the same date of 1880, an *increase* of 905,017 bales as compared with 1879 and an *in-crease* of 424,958 bales as compared with 1878. In the preceding visible supply table we have heretofore only included the interior stocks at the seven original interior towns. As we did not have the record of the new interior towns for the four years, we could not make a comparison in any other way. That difficulty no longer exists, and we therefore make the fol-lowing comparison, which includes the stocks at the nineteen towns given weekly in our table of interior stocks instead of only the old seven towns. We shall continue this double statement for a time, but finally shall simply substitute the nineteen towns for the seven towns in the preceding table.

Total visible supply ...... 2,957,891 2,443.045 1,997,341 2,473,50 The imports into Continental ports this week have been

28,800 bales. These figures indicate an *increase* in the cotton in sight to-night of 514,846 bales as compared with the same date of 1880, an increase of 960,550 bales as compared with the corresponding date of 1879 and an increase of 482,384 bales as compared with 1878.

RECEIPTS FROM THE PLANTATIONS .- The following table is prepared for the purpose of indicating the actual movement each week from the plantations. Receipts at the ontports are sometimes misleading, as they are made np more largely one year than another, at the expense of the interior stocks. We reach, therefore, a safer conclusion through a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Sonthern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the ont-ports. RECEIPTS FROM PLANTATIONS.

			Stock at Interior Ports			Rec'pts from Plant'ns.

The above statement shows-

The above statement shows— 1. That the total receipts from the plantations since Sept. 1 in 1880-81 were 5,557,861 bales; in 1879-80 were 4,843,350 bales; in 1878-79 were 4,401,932 bales. 2. That, although the receipts at the ont-ports the past week were 45,535 bales, the actual movement from plantations was only 35,273 bales, the balance being taken from the stocks at the interior ports. Last year the receipts from the plantations for the same week were 7,630 bales and for 1879 they were 11,615 bales bales.

WEATHER REPORTS BY TELEGRAPH.—Our telegrams this evening show a continnance of favorable weather at almost all points in the Sonth during the past week, and that in general the crop is

*The boots of the past week, and that in general the orop is a making good progress. Galveston, Texas.*—The weather has been warm and dry all the past week. Crop accounts are generally good. The thermometer has averaged 74, ranging from 69 to 81. During the month of April the rainfall reached four inches and sixty-nine hnndredths.

month of April the rainfall reached four inches and sixty-nine hundredths. Indianola, Texas.—We have had warm and dry weather all the past week. Indications are favorable. The thermometer has ranged from 68 to 83, averaging 73. Rainfall for the month of April three inches and twenty-nine hundredths. Corsicana, Texas.—We have had light showers on four days the past week, the rainfall reaching thirty-seven hundredths of an inch. Planting is abont completed in this neighborhood. Average thermometer 74, highest 89 and lowest 63. Rainfall for the month of April three inches and eighty hundredths. Dallas, Texas.—We have had fine showers on three days the past week, with a rainfall of three inches and seventy-five hun-dredths. Planting is abont completed in this neighborhood, and prospects are favorable. Average thermometer 74, highest 89 and lowest 63. For the month of April the rainfall reached three inches and twenty-five hundredths. Brenham, Texas.—It has rained on two days the past week, the rainfall reaching one inch. Young crops are doing well. The thermometer has ranged from 65 to 85, averaging 74. During the month of April the rainfall reached two inches and seventy-five hundredths.

During the month of April the rainfall reached two inches and seventy-five hundredths. Waco, Texas.—We have had fine showers on two days the past week, the rainfall reaching one inch and seventy-five hun-dredths. Farm work is progressing favorably and planting is bont completed in this neighborhood. The thermometer has averaged 74, ranging from 63 to 83. Rainfall for the month of April two inches and fifty hundredths. New Orleans, Louisiana.—It has rained on one day the past week, the rainfall reaching twelve hundredths of an inch. Average thermometer 76.

Average thermometer 76.

Average thermometer 76. Shreveport, Louisiana.—The weather during the past week has been fair and dry, the rainfall reaching thirty-five hund dredths of an inch. The roads are in a fair condition. The thermometer has ranged from 65 to 91, averaging 78. Vicksburg, Mississippi.—The weather has been warm and dry the past week; we have had rain, but not enough to do much good

much good.

Columbus, Mississippi.-We have had showers on four days

4 . j

the past week, the rainfall reaching eighty-one hundredths of an inch. Little Rock;

an inch. Little Rock; Arkansas.—It has been mostly cloudy the past week; there being but two clear days. It rained on two days, the rainfall reaching eighty-three hundredths of an inch. The thermometer has ranged from 59 to 83, averaging 71. During the month of .April it rained on nine days and the rainfall reached one inch and forty-eight hundredths. The thermometer averaged 62, the highest being 80 and the lowest 23. Nashville, Tennessee.—It has rained cn six days the past week, the rainfall reaching one inch and forty-eight hundredths. Farm work is very much behind. Average thermometer 69 highest 88 and lowest 54. Memphis, Tennessee.—Telegram not received. Mobile, Alabama.—The weather has been warm and dry all the past week. We have secured a good stand of cotton, and the crop is developing promisingly. The thermometer has ranged from 65 to 90, averaging 77. During the month of April the rainfall reached nine inches and twenty-one hundredths. Montgomery, Alabama.—It has been showery on three days the past week, the rainfall reaching thirty-eight hundredths of an inch. The weather is fine and crops are developing prom-isingly. The thermometer has averaged.75, ranging from 61 to 89. Rainfall for the month of April four inches and fifty-two hundredths. Solve, Alabama.—Wa have hed rain on one day and the Arkansas .- It has been mostly cloudy the past

hundredths.

Selma, Alabama.—We have had rain on one day, and the balance of the past week has been pleasant. The rainfall reached thirty-five hundredths of an inch. We have seenred a

parallee of the past week has been pleasant. The failed a reached thirty-five hundredths of an inch. We have secnred a good stand of cotton. Average thermometer 77, highest 94 and lowest 62. Madison, Florida.—Telegram not received. Columbus, Georgia.—Telegram not received. Columbus, Georgia.—We have had no rain the past week. The thermometer has ranged from 60 to 90, averaging 77. Savannah, Georgia.—It has been pleasant all of the past week. The thermometer has ranged from 63 to 86, averaging 72. Augusta, Georgia.—The weather has been warm and dry the past week. We had a shower on one day, the rainfall reaching twenty-six hundredths of an inch. Planting is making good progress. Cotton above ground is doing well, but late crop as yet has failed to come up; want of rain is rendering prospects' somewhat unfavorable. Average thermometer 72, highest 89 and lowest 60. Rainfall for the month of April four inches and seventy-one hundredths.

and lowest 60. Rainan for the month of April four inches and seventy-one hundredths. *Charleston, South Carolina.*—We have had no rain the past week. Average thermometer 69, highest 81 and lowest 59. The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock May 5, 1881, and May 6, 1880.

		5, '81.		6, '80.
		Inch.	Feet.	Inch.
New OrleansBelow high-water mark	2	8	1	7
MemphisAbove low-water mark	33	7	28	9
NashvilleAbove low-water mark		5	11	õ
ShreveportAbove low-water mark		7	14	Ř
Vicksburg Above low-water mark	41	5	40	7

New Orleans reported below high-water mark of 1871 nntil Sept. 9, 1874, when the zero of gange was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

OVERLAND MOVEMENT, &c .- In onr editorial columns to-day will be found our cotton review for April, containing the overland movement, receipts, exports, spinnners' takings, &c., to

May 1st.

THE NEW YORK COTTON EXCHANGE UNDER THE NEW RULE.-The New Orleans Democrat calls attention to the fact that the sales at the Cotton Exchange in New Orleans on Monday, May 2, for future delivery were 68,600 bales, being 4,600 in excess of the sales reported same day by the New York Exchange. Naturally enough the fact excites considerable comment in cotton circles. We would not think of asserting that the cause of the excess in future business at New Orleans over New York is due to the rule of the New York Cotton Exchange, which went into effect the same day, prohibiting rebates to agents from regnlar commissions. And yet it is a little remarkable that we have not seen any quotation this week for seats in the New York Cotton Exchange.

INDIA COTTON SUPPLY .- The latest advices report that the India cotton snpply this year is likely to fall short of 1880, instead of being in excess of it, as heretofore indicated. Messrs. Wallace & Co., under date of March 31st, state that accounts from Broach point to the crop turning out very poorly-not larger than the small crop of 1878. And further, that declining prices are likely to keep back supplies of all growths. The Bombay Prices Current of the same date, after citing the same fact, says: "It seems very evident that the exports of "the season will be disappointingly small." It is to be noted, however, that, notwithstanding these reports, the receipts at Bombay, according to onr cable advices, are np to this time still a little in excess of last year. The Calcutta, &c., movement promises, on account of the lower prices, also to be somewhat smaller, though the crop on that coast is claimed to be larger than last year.

......

JUTE BUTTS, BAGGING, ETC.—Bagging has been in good demand dnring the week, and some fair-sized orders have been filled. There has not been any change in prices, which continne to be steadily held. There have been sales of about 5,000 rolls various kinds, and holders are now quoting 9¼c. for 1¾ lbs., 10c. for 2 lbs. and 10½@11c. for standard quality. Butts are not very active, but there is a steady demand which keeps stock from increasing to any extent. The transactions for the month of April reached 12,000 bales, both on spot and to arrive, while for the week the sales will reach about 2,500 bales. The stock here and in Boston is 62,100 bales, and on the way but not arrived, 69,746 bales, which give a supply of 141,846 bales.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT.— A comparison of the port movement by weeks is not accurate, as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement each month since September 1 has been as follows:

Monthly	Year Beginning September 1.								
Receipts.	1880.	1879.	1878.	1877.	1876.	1875.			
Sept'mb'r	458,478	333,643	288,848	98,491	236,868	169,077			
October	968,315	888,492	689,264	578,533	675,260	610,316			
Novemb'r	1,006,501	942,272	779,237	822,493	901,392	740,116			
Decemb'r	1,020,802	956,464	893,664	900,119	787,769	821,177			
January .	571,701	647,140		689,610					
February.		447,918	566,824	472,034					
March	476,532			/					
April	284,246	158,025	167,439	197,965	100,194	163,593			
	5,359,336	4,638,867	1,307,978	4,099,790	3,834,786	3,921,275			
Pero'tage	of tot. port April 30	92.74	96.86	94.34	94.96	93.36			
receipte	April 30	92.14	30.80	94.34	24.90	99.90			

This statement shows that up to April 30 the receipts at the ports this year were 720,489 bales more than in 1879-80 and 1,051,378 bales more than at the same time in 1878-79. By adding to the above totals to April 30 the daily receipts since that time, we shall be able to reach an exact comparison of the movement for the different years.

	poo stary 0.	0011	97.32	94.83	95.31	94.14

This statement shows that the receipts since Sept. 1 up to to-night are now 736,637 bales more than they were to the same day of the month in 1880 and 1,068,631 bales more than they were to the same day of the month in 1879. We add to the table the percentages of total port receipts which had been received to May 6 in each of the years named.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The figures which are now collected for us, and forwarded by cable each Friday, of the shipments from Calentia, Madras, Taticorin, Carwar, &c., enable us, in connection with our previously-received report from Bombay, to furnish our readers with a full and complete India movement for each week. We first give the Bombay statement for the week and year, bringing the figures down to May 5.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

	Shipme	ents thu	s week.	Shipments stace Jan. 1.			Rec	etpts.
Yea	Great Brit'n.		Total.	Great Britain	Conti- nent.	Total.	This Week.	Since Jan. 1.
1880 1879	) 56,000 ) 11,000	33,000 31,000	$89,000 \\ 42,000$	$225.000 \\ 125.000$	303,000 262,000 194,000 272,000	487,000 319,000	$53,000 \\ 51,000$	493,000

According to the foregoing, Bombay appears to show an *increase* compared with last year in the week's receipts of 4,000 bales, and a *decrease* in shipments of 33,000 bales, and the shipments since January 1 show a *decrease* of 25,000 bales. The movement at Calcutta, Madras, Tuticorin, Carwar, &c., has been as follows.

CALCUTTA, MADRAS, TUTICORIN, CARWAR, RANGOON AND KURRACHEE.

Sh		ents this	week.	Shipments since January 1.		
Year.	Great Britain.	Conti- nent.	Total.	Great Britain.	Continent.	Total.
1881 1880 1879 1878	12,000 8,000	6,000 5,000	18,000 13,000	61,000 133,000 73,000 13,000	53.000 42,000 54,000 34,000	117.000 178,000 132,000 49,000

The above totals for this week show that the movement from the ports other than Bombay is 18,000 bales *less* than for the same week last year. For the whole of India, therefore, the total shipments this week and since January 1, 1881, and for the corresponding weeks and periods of the two previous years, are as follows.

EXPORTS	TO	EUROPE	FROM	ALL	INDIA.
---------	----	--------	------	-----	--------

Shipments	18	381.	18	380.	18	379.
to all Europe from-	This week.	Since Jan. 1.	This week.	Since Jan. 1.	This week.	Since Jan. 1.
Bombay All other p'rts.	56,000	462,000 117,000				319,000 132,000
Total	56,000	579,000	107,000	665,000	33,000	451,000

This last statement affords a very interesting comparison of the total movement for the week ending May 5, and for the three years up to date, at all India ports.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Throngh arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, May 5.	1881.	1880.	1879.
Beceipts (cantars*)- This week Since Sept, 1	7.000 2,733,500	1,500 3,200,500	7,000
1.000	This Since week. Sept. 1.	This Since week. Sept. 1.	This Since week. Sept. 1.
Exports (bales)— To Liverpool To Continent	1,000 226,500 1,489 135,330	750 283.200 631 169,835	
Total Europe	2,489 361,830	1,381 453,035	3,000 233,500

\* A cantar is 98 lbs.

This statement shows that the receipts for the week ending May 5 were 7,000 cantars and the shipments to all Europe were 2,489 bales.

MANCHESTER MARKET.—Our report received from Manchester to-night states that prices for twists and shirtings are unchanged and that there is an average business. We give the prices of to-day below, and leave previous weeks' prices for comparison:

-		1881.			1880.

THE EXPORTS OF COTTON from New York this week show a decrease, as compared with last week, the total reaching 12,449 bales, against 18,441 bales last week. Below we give our usual table showing the exports of catton from New York, and their direction, for each of the last four weeks; also the total exports and direction since September 1, 1880, and in the last column the total for the same period of the previous year:

SPORTS OF COTTON (BALES) FROM NEW YORK SINCE SEPT. 1, 1880

		Week e	nding-		Total	Same period

Below we give all news received to date of disasters to vessels carrying cotton from United States ports, etc.:

ENOCH TRAIN, ship (Br.) Merris, from New Orleans April 19 for Liverpool, put Into Havana 3d Instant with rudder broken and 16 feet of water In the hold, having struck the rocks on Tortugas. In order to save the vessel she was run ashora at Havana. Her cargo consists of 6,676 bales of cotton and 2,400 staves.

VESTA, bark (Ger.), for Bremen, before reported, after being hove down repaired, and partly loaded at Galveston, was towed out and again struck on the bar, causing her to leak more freely than before. A survey held prior to April 21 ordered her back to Galveston to be again discharged for further survey, which being held, the vessel has been condemned.

Cotton freights the past week have been as follows:

BREADSTUFFS.

FRIDAY, P. M., May 6, 1881.

The flour market was somewhat dull and depressed early in the week. The high grades were especially neglected, and choice patents from spring wheat were hardly salable. The demand for low grades was pretty fair, and latterly these have improved somewhat in prices, or rather recovered what had been lost. General trade improved, and the whole market became steadier. . Rye flour has again declined, but closes firm. Corn meal has met with a fair demand, and is not plenty. To-day the export demand for flonr was rather slow, but the local trade was very good.

The wheat market has been quite unsettled. The limited supplies on the spot, the low rates of ocean freights, and im-

provement in sterling exchange, have given a great impulse to the current export demand. The delay in re-opening the Erie Canal to navigation has had some effect upon speculative valnes, and altogether there has latterly been general activity, with not a little excitement. To-day there was a decided advance in spots ; No. 2 spring, New York and Chicago grades, sold at \$1 23@1 26; No. 2 red winter for Jnne sold at \$1 221/2 @\$1 23, and for July \$1 20@1 20%, white being \$1 29@1 29% on the spot and No. 1 white on the spot \$1 27@1 27%.

Indian corn was somewhat depressed early in the week, but has latterly improved as the probabilities of scarcity seem to increase. To-day No. 2 mixed sold at 62c. on the spot and 56c. for June. Sonthern corn is scarce, and choice samples are held for extreme prices. The speculation in futures is comparatively slow. It is too early to speak of crop prospects, except in the South, and there they have little significance.

Rye had sold at \$1 13 on the spot, and to-day a boat-load of prime Canada at \$1 11 to arrive by canal. Barley has become quite nominal. Oats have been active, and to-day were decidedly firmer with considerable speculative strength; No. 2 graded quoted at 52%c. for white and 46%@47c; for mixed, and No. 2 mixed sold at 46% c. for Jnne and July.

### THE DRY GOOD3 TRADE.

· FRIDAY, P. M., May 6, 1881.

There has been throughout the past week a lull in the demand for most descriptious of dry goods, and the volume of business was somewhat disappointing to package houses and jobbers alike. There was a fair movement in a few leading makes of cotton goods, ginghams, prints, &c., on account of former orders, but the current demand for such fabrics was comparatively light, most buyers having governed their purchases by actual wants. There was a trifling improvement in the demand for some kinds of clothing wooleus, but worsted dress goods, shawls, hosiery and underwear were severally quiet in first hands, and there was but a limited inquiry for uearly all imported fabrics. Accounts from most distributing points in the West and Sonthwest indicate that liberal quantities of spring and snmmer goods are passing into consumption, but reports from some sections of the South are not quite satisfactory, and buyers for some of the Southern markets are therefore very cantious in their operations.

DOMESTIC COTTON GOODS .- The exports of cotton goods for the week ending May 3 were 3,149 packages, including 1,726 to China, 668 to U.S. of Colombia, 94 to British Honduras, 89 to

Oats, Barley, Rye,

Hayti, 73 to Mexico, and a number of minor shipments. There has been no material change in the general condition of the market. The best makes of plain and colored cottous were in fair demand, at unchanged prices; but inferior fabrics were mostly quiet and irregular, with a tendeucy favoring the buyer. Print cloths were in moderate request, and steady at 3<sup>3</sup>/<sub>4</sub>c. for **54x64s** and 3 5-16c. for 56x60s. Prints ruled quiet, and though prices of the best makes are without quotable change, there has been more pressure to sell inferior work; and some cousiderable lots were consequently re-ticketed and sold by agents at relatively low figures. Printed lawus, piques and wide prints were severally dull in first hands; but there was a fairly-active demand for dress and staple ginghams by package and retail buyers.

DOMESTIC WOOLEN GOODS have shown rather more animation, but there was a good deal of irregularity in the demand. Leading makes of heavy cassimeres and suitings have received increased attention from the clothing trade, and a fair business was reported in both all-wool and cottou-warp fabrics of this class, but low-grade goods were relatively quiet. Heavy worsted coatings were in moderate request, but less active than expected, and overcoatings and beavers were lightly dealt in-Spring cassimeres and worsted coatings were mostly dull in first hands, but a few large sales were effected by means of lower prices, and a considerable business in such fabrics was reported by cloth jobbers. Satinets and Kentucky jeans were inactive, and the demand for flanuels was of a haud-to-mouth character, but there was some inquiry for blankets by early buyers. Carpets ruled quiet with agents, but a fair distribution was made by jobbers at irregnlar prices. Hosiery and kuit underwear continued quiet, but a more active demand is expected shortly, as the Treasury Department has revoked the late order lowering the duties ou competing foreigu goods.

FOREIGN DEX GOODS were only moderately active with jobbers, and the demand at first hands was light and unimportant. The auction rooms presented few offerings of dress goods or silks, but some large lines of laces and lace goods, hosiery and fabric gloves, were disposed of through their medinm. Fair price, were realized for laces at public sale, but hosiery and gloves sold low in most cases.

### Importations of Dry Goods.

The importations of dry goods at this port for the week ending May 5, 1881 and since Jannary 1, and the same facts for the corresponding periods of 1880, are as follows:

Topar an min born	Total at the post	Total Ent'd for consumpt.	Flax Miscellaneous.	Manufactures of- Wool. Cotton		Total on market	Total Ent/d for consumpt.	Flax Miscellaneous	Cotton	ures of-		Total	Miscellaneous	Silk.	Manufactures of- Wool	•		ENTERED FOR CONSUMPTION FOR THE
