NOTICE TO INVESTORS:

We offer for sale a limited amount of Richmond & Danville Railroad Six Per Cent Gold Bonds, due in 1915, at par and accrued interest. These bonds are secured by the consolidated mortgage on the Richmond & Danville and Piedmont railroads, and the lease of the North Carolina Railroad. We can the lease of the North Carolina Railroad. We can confidently recommend these bonds, as the annual report of the company for the year ending Sept. 30, 1880, showed that the company had reduced its deht over \$450,000 during the two preceding years, besides adding largely to its rolling stock and machinery and nurchastne 6.300 tons of now relies. besides adding largely to its rolling stock and machinery and purchasing 6,300 tons of new rails. For the six months ending 30th April, 1881, the net receipts of the company exceeded \$240,000, after the payment of interest, rent, and all other fixed charges, and spending a large amount for equipment, steel rails and additional workshops.

THOS. BRANCH & CO.,

Richmond, Virginia.

The receipts of the company for April show an increase of over 100 por cent for carrying the mails and 39 per cent from freight over those of the same month last year. Previous to May 1st this company only did 60 per cent of the through freight husiness of the Atlanta & Charlotte road. Now it gots aliwhich adds materially to its revenue.

COMPTROLLER'S OFFICE, CINCINNATI, April 26, 1881. SEALED PROPOSALS WILL BE RECEIVED at this office until May 18, 1831, at 12 o'clock M., for the purchase of

\$500,000 BONDS OF THE CITY OF CINCINNATI,

Or less, at the eption of the city, at four (4) per centum per annum interest, payable semi-annually, such bonds to hear date of June 1, 1881, redeemahle auch bonds to hear date of June 1, 1881, redeemane at the option of the city at any time after ten (i0) years, and payable at the expiration of twenty (20) years from such date, accrued interest from date of bonds to day of payment to be added to the price said bonds to be in all respects in conformity with said bonds to he in all respects in conformity with the provisions and requirements of the act of the General Assembly of Ohio, hearing date April 18 1881, and authorizing their issue, principal and in-terest payable at the American Exchange National Bank, New York. The said honds will he sold for not less than par to the highest bidder.

not less than par to the highest bidder.
The right is reserved to reject any or all hids, or
to accept them to a part only of their amounts.
Bids will be received for the whole or any portion
of the above amount.
Proposals to be in writing, signed hy the party,

GEORGIA RAILROAD.

The road has heen leased to Col. Wm. M. Wadley and his associates for ninety-nino years, at fifty thonsand dollars per month, which is over 11 per cent per annum to the stockholders, including the bank's earuings, as compared with last year—this is after paying the interest on all the bonds.

The bondholders only wish their interest when it falls due. We can extend them at 5 per cent and increase the stock dividends 12 per cent. We cannot now pay the bonds as they are not due.

They have guaranteed tho lease by a deposit of one million of bonds, and they can easily make the money, hecause the last year's earnings, including betterments, was fully this; and they make moro money on connecting and competing roads by this lease than they now own.

The stock is non-taxable, and is a good investment at 220, as it will pay exactly 5 per cent per annum on this. Multiply 220 by 5 and you get 11. I think the directors will divide not less than 11 per cent per annum, and pay that quarterly.

If you take the entire income from the lease

than 11 per cent per annum, and pay that quarterly.

If you take the entire income from the lease and pay the bonded deht, which is about two-and-a-half millions of dollars, including endorsements, it will take less than four years to do this, and then you will get 15 per cent per annum for 95 years on the stock; then the stock will sell at three hundred dollars per share.

The stock is cheap at two hundred and twenty. The sooner investors realize this the better. Why not sell your Georgia and other honds and huy this stock?

Respectfully,
Atlanta, Ga., May 2, 1881.

WE OFFER A LIMITED AMOUNT

NEW YORK & NEW **ENGLAND**

RAILROAD COMPANY.

SIX PER CENT

First Mortgage Bonds,

PAYABLE JULY 1, 1905, INTEREST JANUARY AND JULY 1.

The Company has a capital stock of \$20,-000,000, worth at market prices over \$12,-000,000

The total amount of bonds authorized under the mortgage is \$10,000.000, of which only

\$8,500,000 have heen issued. The New York & New England Rallroad Is now in operation from Boston to Providence, R. I., Willimantic, Hartford and Waterbury, Conn., and Springfield, Mass. and its extension of 75 miles from Waterbury to Fishkiii on the Hudson River is nearly completed, making a line of about 350 miles, through one of the most populous and prosper-ous sections of New England, and forming, with its Connection with the Eric R. R. at Fishkili, a part of the trunk line hetween the East and West. Connection is also made at Brewsters with the Hariem R.R.

for New York City.

The New York and New England RR. Co. lease the Norwich & Worcester RR. Co., which furnishes an outlet to the citics of Norwich and Worcester, and control of a Steamboat line to New York. Tho net earnings of the company are largely in excess of the annual interest on the mortgage, and it is estimated that after the completion of the road to Fishkill the company will be able to pay regular dividends upon its entire cap-

ital stock of \$20,000,000.

These bonds at 110 nct 5 1-4 per cent, and at 114 5 per cent upon the investment.

In Connecticut these bonds are exempt from taxation, a provision which will always serve to maintain and advance the price.

We regard this loan as safe heyond question, and at the present price it is the cheapest New England security now upon the market.

The Chronicle.

THE COMMERCIAL AND FINANCIAL CHRONICLE is issued every Saturday morning, with the latest news up to midnight of Friday.

[Entered at the Post Office at New York, N. Y., as second-class mail matter.]

TERMS OF SUBSCRIPTION—PAYABLE IN ADVANCE: For One Year (Including postage) \$10 20. For Six Months do 6 10. Annual subscription in London (Including postage) \$2 7s. Six mos. do do do 1 8s. Subscriptions will be continued until ordered stopped by a written order, or at the publication office. The Publishers cannot be responsible for Remittances unless made by Drafts or Post-Office Money Orders. Advertisements. Translent advertisements are published at 25 cents per line for each inscrtion, but when definite orders are given for five, or more, insertions, a liberal discount is made. Special Notices in Banking and Financial column 60 cents per line, each insertion. London and Liverpool Offices. The office of the Chronicle in London is at No. 74 Old Broad Street, and in Liverpool, at No. 5 Brown's Buildings, where subscriptions and advertisements will be taken at the regular rates, and single copies of the paper supplied at 1s. each. WILLIAM B. DANA, VILLIAM B. DANA & CO., Publishers, POST OFFICE Box 4592. TERMS OF SUBSCRIPTION-PAYABLE IN ADVANCE:

A neat file cover is furnished at 50 cents; postage on the same is 18 cents. Volumes bound for subscribers at \$1 00. A complete set of the COMMERCIAL AND FINANCIAL CHRONICLE—July, 1865, to date—can be obtained at the office.

THE FINANCIAL SITUATION.

Tuesday evening, in a speech at the annual dinner of the Chamber of Commerce, Mr. Windom announced the entire success of his plan for continuing the 6s at 31 per cent, and then said that in dealing with the 5s he thought it wise not to make any alteration in the terms. On Wednesday it was announced that the time for receiving the 6s would be extended to May 20. This makes it probable that not more than 5 per cent of the whole amount outstanding will be presented for payment at the maturity of the call, the 30th of June. Thursday afternoon the Secretary issued another call for the entire amount of the 5 per cent coupon bonds outstanding, interest on said bonds to cease August 12; any of these bonds, and also any part of \$250,000,000 of registered bonds, may be extended at 3½ per cent in the same manner as the 6s, provided appli. cation is made before July 1. The remainder of the registered bonds will be rescried with a view to their payment out of the surplus revenues.

One important fact should not be lost sight of in considering these refunding operations. No commissions have to

be paid to syndicates or individual bankers, the machinery is comparatively inexpensive, holders of bonds may deal directly with the Treasury, and the Government is not paying double interest upon bonds, as it most likely would be if the funding was done under an act of Congress. The entire expense of continuing \$195,000,000 of the 6s will not exceed \$2,000, and it is probable that the expense of dealing with the same amount of the 5s will be no greater. Thus about \$550,000,000 of the public debt will be refunded at 34 per cent at an insignificant expense.

The first practical question which suggests itself, in view of this refunding of the fives, is its bearing on the flow of gold. During the past week the foreign exchange market has continued strong and has further advanced. This however, has arisen from an exceptional inquiry for sterling for the purpose of remitting a very large sum-the Street says £2,000,000—which has been invested in the securities held abroad of the Atlantic Mississippi & Ohio Road. It is anticipated that the demand from this source will be satisfied by next week, and that the market will then resume its normal condition.

But it is not so easy to determine the effect the return of the fives will have on exchange during subsequent . weeks. Our foreign trade has changed its character materially of late. Exports have become small and imports large, so that a very favorable trade balance for May cannot be anticipated. This fact, taken in connection with 15 millions of the 6s and, say, 150 millions of the 5s, held abroad and now called in-and which are, in part at least, likely to be returned to us-makes it necessary that there should be a decided outflow of other securities to equalize the current. Stock speculation in Wall Street must, therefore, in some measure be under the control of this condition. We will not have any considerable trade balance in the early summer, to pay for these bonds if they come home, and so we must send stocks or gold. Later, of course, bills in anticipation of crop movements will be abundant.

All of the considerations, however, which are operating to advance stocks in Wall Street, are likely to be quite as potent in London. As a basis for the upward movement there are the facts which tell upon the real value of railroad property in this country. First, we have the earnings, which are simply astonishing—this last month showing a gain of 25 per cent over the large total of the same month of last year. Next, we have great business prosperity throughout the country and a wonderfully active exchange of commodities, explaining past earnings and assuring a large future revenue. Finally, favorable weather for the crops and an unprecedented immigration seem to fix the future prospect. These influences are the basis of the advance in Wall Street, and must act similarly on foreign markets, showing, as they do, that so long as money remains at present rates throughout the world, good properties are worth high prices.

Of course, advantage is taken of this sentiment to market specialties without any known value, and to force up lowpriced shares of roads that pay no dividends. This movement is also greatly assisted by the extreme abundance of money, which induces banks to make advances at times on Money on call has ruled at about pretty poor collaterals. 3 per cent during the week, and time loans have been made at 4 per cent for six months. The supply is in excess of the demand, the interior movement is toward this centre from all points except Boston, and the Treasury disbursements continue in excess of the receipts. A small sum of gold-\$378,000-has been received from the Continent during the week, and the payments by the Assay Office for domestic and foreign bullion have amounted to \$388,-739. The Treasury operations for the six days, including the 6th inst, have resulted in a loss, which is a gain to the banks, of \$2,047,544 72. The daily receipts by the Treasury for customs have been as follows.

,.			Consisti	ing of—		
Date.	Duties.	Gold.	U. S. Notes.	Silver Dollars.	Silver Certificates.	
Мау 6	\$400,540 08	\$162,000	\$17,000	\$	\$219,000	
" 7	352,950 66	197,000	15,000	1,000	141,000	
" 9	494.516 62	220,000	20,000	1,000	254,000	
" 10	593,641 56	182,000	15,000		396,000	
" 11	385,924 43	221,000	11,000		150,000	
" 12	500,920 83	166,000	16,000	1,000	318,000	
Total	\$2,728,494 20	\$1,148,000	\$94.000	\$3,000	\$1,478.000	

The following table shows the net Sub-Treasury movement for the week ended the 12th, and also the receipts and shipments of gold and currency reported by the principal banks of this city. The net result should indicate very closely the gain in reserve by the banks for the week. Last week's return was doubtless made up on a rising average.

	Into Banks.	Out of Banks	Net.
Treasury operations, net		,	
Interior movement		-	\$3,224,544

The interior movement given in the above table embraces all the receipts and shipments of gold and currency reported to us by the banks for the week ended the .12th, which stated in our usual form were as follows:

Receipts at and Shipments from N. Y.	Received.	Shipped.
Currency		\$126,000
Total		\$426,000

The Bank of England reports a loss of only £30,000 bullion for the week, notwithstanding the movement in Scotland which was sufficiently large to prevent a reduction of the Bank rate of discount. The Bank of France gained 5,300,000 francs gold and lost 3,475,000 francs silver, and the Bank of Germany lost 1,600,000 marks. The following shows the amount of bullion in each of the principal European banks this week and at the corresponding date last year.

	May 12	, 1881.	May 13, 1880.					
	Gold.	Silver.	Gold.	Silver.				
	· £	£	£	£				
Bank of England	26,226,151		28,100,519					
Bank of France	24,273,232	49,553,030	32,728,665	49,258,610				
Bank of Germany	9,139,508	19,242,482	9,596,666	19,193,334				
Total this week	59,639,891	68,795,512	70,425,850	68,451,944				
Total previous week								
The above gold and silver division of the stock of coin of the Bank of Germany is merely popular estimate, as the Bank itself gives no information on that point.								

The margin of profit for cable transactions in securities continues 'small, as will be seen by the following table showing relative prices in London and New York at the opening each day.

* Expressed in their New York equivalent.
† Reading on basis of \$50, per value.
† Ex-interest.
NOTE.—The New York equivalent is based upon the highest rate for eable transfers, which ordinarily eovers nearly all charges, such as interest, insurance and commissions.

Government bonds have been very strong, and the transactions at the Board are insignificant compared with those over the counters of dealers. Large amounts of the "Windoms" have been bought for London account, and the price has advanced from 1011 to 102. The 4s are in request and the demand coming on a market almost bare of them, has caused a rise to the highest figures ever recorded. The recently announced programme for the 5 per cents caused a sharp movement in those bonds.

WELL MANAGED TREASURY DEPARTMENT.

In view of the official notice this week of the complete success of Mr. Windom's refunding measure—a success which, by the way, we all saw was assured on the mere announcement of his perfect, yet extremely simple and hence so wisely conceived plan-a thought or two suggested by the situation will be of interest and perhaps of some practical use.

And first have our readers reflected upon the fact that now the whole of our public debt has been turned over, and hence that the actual correctness of its issue has been verified and demonstrated? This is really a remarkable and noteworthy circumstance. We all know how rapidly, almost recklessly, during the war the debt was put out, and how many, many rumors were for a long time current as to its over-issue. Even the best friends of the then Treasury Department under the force of these rumors began to fear that some dark trick would be disclosed in later and more quiet times. Of course as years have elapsed without such disclosure the feeling had passed away. But not until to day have we had the absolute demonstration. Somebody in that exciting and almost irresponsible period must have been both wise and honest to have devised and enforced safeguards so effectual.

And this suggests further how fortunate on the whole the country has been in the management of the Treasury Department during all these times, and how dependent we have been upon such management. The Department has had only one really unfit head; and hence it has so happened that in every financial emergency there has been a Secretary of the Treasury to stand between the people and ill-considered legislation. We need go no further back for illustration than to Mr. Sherman, who brought us up to specie payments against the protest of a large faction in his own party in Congress as well as of a majority of the opposition. Our readers well know that a marked feature in Government financiering, more especially during the years since the panic, has been, that Congress was generally a fractious body to be outmanœuvred when it could not be managed. It has tried-and at times apparently, that is for the moment, with successto overset the best-laid plans for the re-adjustment of our finances.

In this connection and as further illustration, all of us will recall the present clever arrangement of Mr. Windom. Congress had done its utmost, not through any viciousness but through ignorance, to disturb the money market and thereby unsettle all business plans. Finally, thanks to President Hayes, its adjournment left us without any provision for refunding-for no provision was far better than one so disturbing-and yet with 5 and 6 per cent bonds maturing and the loan market peculiarly well adapted for securing a much lower rate of interest. At the same time Government bonds were advancing so rapidly that there was actual danger lest our bank circulation, materially contracted in the winter, should again bo curtailed decidedly through the summer. Mr. Windom's device fully provided for all these conditions, and after it has been applied with equal success, as it is now to be, to the 5 per cents, a refunding measure will have passed out of use, and if introduced into the next Congress will appear to the public about as absurd and untimely as would be a resolution at the same session in the Sir Oracle style of 1878, citing the insurmountable difficulties in the way of reaching specie payments.

Finally, it is matter for general congratulation, and shall we not add gratitude, that the country has now passed the second great epoch in the work of reorganizing its war finances. When we had secured a gold basis for our currency the distinctive feature of those times was spunged out, and we passed into a new commercial condition. Now we have done the next thing in the natural order of events. We have re arranged our debt; for we find the first step so improved our credit that the world is glad to keep our securities at what a few years ago we would have called a nominal rate of interest. No wonder, in reviewing the successful accomplishment of such ends as these, Mr. Windom, at the banquet of the Chamber of Commerce in New York this week, should have pictured a future for the country so full of promise. And yet the work is still incomplete; and conservative classes all over the country are continuing to look to the Treasury Department for similar leadership in relieving our currency, in this day of wonderful prosperity, of its remaining unsubstantial features, and so assure the full fruition of all these flattering hopes.

TAXING BROKERS' SALES.

The bill to tax sales of stock brokers passed in the Senate at Albany last week, and, subsequently recalled and reconsidered, has remained undisturbed thus far this week. Another act, however, has been proposed by the Tax Commission which will probably take the place of the former; it provides that "every broker in securities, corporate stocks, crude and refined petroleum, cotton, pork, grain, and flour," shall be taxed in manner following.

Every broker lu securities, corporate stocks, crade and refined petroleum. eottou, pork, graiu and flour, shall, at tho time of making a salo, or a contract or agreement for the sale, of any such property or commodity, if the gross amount of such sale oxceed \$100, deliver to the purchaser a memoranda or bill of salo, upon which shall be placed stamps equal to two cents on oach \$100 of such gross amount. Brokers are allowed to collect one-half of the amount of the stamps from the purchaser. The stamps are to be furnished by the Comptroller. No salo is valid unless the bill of salo is stamped. The penalty for failure to comply with the provisions of the bill is a fine of \$500, while counterfeiters of the stamps used are to be deemed guilty of felony.

This proposition of the commission is far preferable to the Senate act, inasmuch as it is general, applying to all brokers. And yet, like many other make shifts in taxation, it is wrong in principle and, therefore, will work great injustice. Property is the proper subject—or, rather, medium—of taxation, not representatives of property. Titles are accounted property, but they are such only in

the fact that they are the keys to possession of material property. The property itself should be taxed, not titles and transfers.

That all taxes must be paid out of the gains of exchanges is true, because those alone furnish the means to pay with, but taxing exchanges themselves is quite another thing. A tax on transfers is an economic absurdity, for it virtually affirms that something has been created by having property change hands. Instead of taxing the property, once for all, it taxes the title to it, merely once, but as often as the property changes hands. It does not even look for the gains and tax those; it proposes to tax the sales, regardless of results, whether the results be gain or loss, or how largely either, and the buyer as well as the seller. The two school boys in the story, who swapped a jack-knife back and forth all of one Saturday afternoon, would be a mine of wealth to a tax scheme like this, which possesses not only economic' absurdity but makes that absurdity cumulative up to a

We might proceed further and trace the practical effect of this raid on brokers, by showing how evidently its tendency would be to drive business from the State and drive brokers into the business of evading the tax. If a title to a stock cannot be perfected without a stamped transfer, it can be transferred in Boston, or perhaps it could be dated at Jersey City. Speculative sales, which need no new title, passing by delivery of the old (as the stock in such cases is seldom transferred on the books) could most easily evade the impost; while large transactions and actual purchase could be readily made in another State. Our Legislature has yet to learn that no kind of business is fixed in any one city beyond the power of bad legislation to dislodge it. It continues where it is, simply because there is some slight advantage in doing so; an apparently trivial change removes the advantage and the business at the same time. A laborer cuts down a tree and dries up a spring-a Legislature chips off the profit and roots up the trade it supported.

Such propositions as the one we have been commenting upon, only illustrate the foolish attempts of the Legislature to avoid a serious and earnest handling of the problem of taxation. How to raise needed revenue with the greatest simplicity, the smallest friction and waste, and the least cost to industry, is the greatest of economic problems for statesmen. But, year after year, the subject is referred to committees, who never produce anything except patchwork schemes. The apparent aim is, not to reach the well-arranged and rational system for which the State has been waiting for so many years, but, under the imperative necessity of providing funds somehow, to get some revenue. Hence come the coporation taxes, the sudden drives at life insurance accumulations as handy to reach, and all the list of crude and hasty measures for making organized capital stand and deliver. It is more easily made to rise and fly. And yet these attempts are continued to find property which nobody owns, and to raise revenue without anybody's feeling it, and we call this a system of taxation.

MICHIGAN CENTRAL REPORT.

Up to 1872 Michigan Central was considered a stanch 10 per cent property. It was thought that its long and prosperous career gave it certain promise of continued success in the future. Yet in the very next year it ceased to pay dividends. Four per cent was paid in stock in January, 1873, and thereafter nothing until June, 1878, when 2 per cent was distributed. In 1880, however, the

company began the payment of 4 per cent semi-annually, and has made three such payments since.

The reason for the change in the company's condition after 1872, is found, not in a diminished business, for the traffic kept on increasing, but in a very large and permanent reduction in rates on through freight. The company operates 804 miles, of which 520 miles are branches and only 284 miles main line. But 70 per cent of its entire traffic is on the latter-that is, is through. The line forms the western half (Detroit to Chicago) of a trunk line between Buffalo and Chicago, of which the Great Western of Canada is the eastern half. Unlike the Lake Shore, which runs all the way to Buffalo, there are no important centres of trade along the line of the Michigan Central. Consequently, it has to rely largely upon the Chicago business and upon the traffic its leased branches in Michigan bring it. While the Lake Shore receives large accessions of traffic at Cleveland and Toledo, the Michigan Central receives hardly any traffic at all from points south of its main line.

Having such a large proportion of through business, the decline in the rate on this class of traffic was of course a very important item to it. Yet this was only one element in the situation. The leased lines, which had been acquired, not because they were considered paying concerns, but because it was desirable to secure their business permanently to the Michigan Central, entailed on the company an annual loss which had to be made good out of net earnings. Furthermore, the property had for a long time been allowed to remain stationary—that is, nothing was done to make it equal to the demands upon it. There was no steel in the track, and the iron was fast wearing out; additional sidings were needed; rolling stock and motive power were inadequate, and increased facilities for passengers and freight were required at almost every point on the line. It was absolutely necessary that the road should be put in a position to do a maximum of business at a minimum of cost. The rate of 2 and 3 cents per ton mile had passed away, never to return. And since it was no longer possible to get the same pay as formerly for the work, why there was but one way out of the difficulty: the cost of doing the work had to be cut down in a corresponding ratio. This could only be done by bringing the property up to the highest standard of efficiency. Recognizing the necessity, the company set to work and made the improvements so urgently demanded. But this called for the expenditure of large sums of money, and accordingly stock and debt increased. The increase in the debt brought with it an increase in the annual fixed charges, and the increase in stock swelled the amount necessary to pay a given dividend. It follows from all this that the company had to make much larger net earnings, to insure the same payments as formerly on its stock, and as this was not possible during the years of depression we have here an explanation of the suspension of dividends from 1873 on. With the revival of business prosperity the company largely increased both its gross and net earnings, and has now already made, as remarked above, a third semi-annual payment of 4 per cent.

The gross earnings in 1880 were \$9,085,748, against \$7,415,429 in 1879, an increase of \$1,670,319; the operating expenses were \$5,808,751, against \$4,699,592, leaving net earnings of \$3,276,997, against \$2,715,837. In explanation of the heavy increase in expenses, it should be said that the report states that in them is included the sum of at least \$600,000 spent for improvements on the property, which might with propriety have been charged opermanent construction account. The general balance.

sheet shows that cash on hand is now \$755,362, against only \$136,381 on Dec. 31, 1879. During the year the debt was decreased by \$341,000, mainly with the proceeds of land sales from the grant to the Jackson Lansing & Saginaw Railroad, one of the company's branch lines. These lands are very valuable. The average price realized during 1880 was \$14 46 per acre, and 47,124 acres were sold, returning \$681,341. To this should be added \$89,620 derived from the sales of timber land, giving a total of \$770,961 realized in one year. There still remain 408,881 acres of this grant undisposed of. The following table will show the earnings and charges of the company since 1876-7, the first year when all the lines were embraced in the company's accounts. The fiscal year of the company formerly ended with May, but was changed in 1877 to December. A report was issued covering the seven months from May to December of that year, but as, being less than a full year, it would only be misleading if introduced in the comparison, we have omitted it below.

	Gross Operating		Net	Inter'st and	Dividends.		
	Earn'gs, &c.		Earnings.	Rentals.	Amount.	P. e	
1876-7	\$ 6.643,718	\$ 4.706,442	\$ 1.937.276	\$ 1,631,870	\$		
1878	6,991,759	4,367,239 4,699,592	2,624,520 2,715,837	1,615,950 1,587,782	749,528 1,030,601	4 51 ₂	
1879 1880		5,808,751	3,276,997	1,569,429	1,499,056	8	

The freight statistics show that the company moved 357,273,540 tons one mile eastward in 1880, against 387,-015,495 tons in 1879, but such was the improvement in rates (from .515 cents per ton per mile in 1879 to .719 in 1880) that the earnings therefrom increased almost \$600,-000. The westward movement decreased from 168,031,830 tons to 167,179,440 tons; the rate was only a little higher -it was ·441 cents in 1879 and ·494 cents in 1880-yet sufficient to increase the earnings \$85,000. It will be observed that, contrary to the general rule with railroads, the rate on west-bound freight on the Michigan Central is lower than on east-bound freight. This is accounted for by the fact that the Michigan Central carries coal and some other bulky freight west, for which it competes with the Lake route, and on which therefore it has to accept very low rates. As the company's cars even now have to go back to Chicago empty half the time, it is better to take this traffic at low rates than to carry nothing at all. In local freight there was a very decided increase in 1880, the number of tons moved one mile having risen to 211,-159,015, from 165,972,088 in 1879. There was a gain of \$550,000 in earnings on this account, although the average rate received was slightly below that of 1879. The following table will show the movement for six years.

	Throug	h Eastw	ard.	Through Westward.		
	Tons One Mile.	Rate per Ton per Mile	E'rnings.		Rate per Ton per Mile	E'rnings.

The passenger movement shows an increase in every item, in through eastward, in through westward, in emigrant, and in local, the increase being most pronounced in the emigrant mileage, which, however, does not contribute a

great deal to receipts, as emigrants have to be carried very cheaply. On the other hand, the average rate realized was lower than in 1879 in the case of every item except local. The passenger earnings increased altogether about \$400,000. The following will show the figures.

GIST OF THE CHINESE TREATIES.

The new treaties with China, which have just been confirmed, are by no means limited to the immigration question. They secure several points of great commercial The entire changes they introduce, briefly interest. explained, are as follows.

With regard to the vexed question of Chinese immigration the change made is material. The privilege of free migration between the two countries, which was so emphatically declared by the Burlingame Treaty, is, however, not directly restricted. On the other hand, the objection which has been urged that the treaty would confirm the position and claims of immigrants has little foundation. The gist of the immigration treaty is that it opens the way for us to establish, from time to time, restrictions on any disadvantageous influx of Chinese in future. It recites that our Government "now desires to negotiate a modification of the existing treaties, which shall not be in direct contravention of their spirit." It then declares that whenever, in the opinion of the United States, the coming of Chinese laborers becomes injurious, "the Government of the United States may regulate. limit, or suspend such coming or residence, but may not absolutely prohibit it. The limitation or suspension shall be reasonable and shall apply only to Chinese who may go to the United States as laborers." Other provisions are that Chinese teachers, students, merchants, travelers, servants, and the laborers who are already here, having come on the faith of the Burlingame Treaty, shall continue to enjoy the privileges which that treaty assures, and our Government shall exert itself to protect them from ill treatment, and to secure to them the same treatment as may be enjoyed in this country by subjects of the most favored nations.

Respecting the opium trade the commercial treaty declares that the two Governments shall favor the extension of each other's commerce, except as to opium. "Chinese subjects shall not be permitted to import opium into any of the ports of the United States, and the citizens of the United States shall not be permitted to import opium into any of the open ports of China, to transport it from one open port to any other open port, or to buy or sell opium in any of the open ports of China." All readers of Chinese history are familiar with the efforts and difficulties of the Imperial Government in repressing the introduction of opium by the English. By recent accounts, thero is not any important American importation of the drug, and China would not have considered the prohibition sion and consolidation of the African possessions,

in the new treaty of any great practical importance if this. country only were in view. Her purpose and hope has been that a stringent prohibitory treaty with the United States might be useful by way of precedent for negotiating a. similar one with Great Britain. That Kingdom may atlength find it disadvantageous to refuse assent to a prohibition which other nations concede. However this may be. the treaty declares absolute prohibition of all transportation of opium between the two countries.

Discriminating duties, which commercial nations have been wont to levy on ships built or owned abroad, arediscontinued; the vessels of the two nations being liable only to such charges and taxes as are lovied on vesselsbuilt and owned by their own subjects. As our readors. know, according to the discriminating policy, an American ship carrying goods to China would be charged, perhaps, with a heavy sum for the privilege of entering and unload. ing, or her cargo would be subjected to an extra duty, meroly because the vessel was not Chinese. This policy of laying "discriminating duties" has been steadily dis couraged by the United States Government, which has for years been accustomed to arrange with commercial nations, one after another as opportunity has offered, formutual surrender of such exactions, and for allowing the merchants of one country to send their ships to the portsof the other, on the same terms as respects wharfage, port. ducs, &c., as apply to domestic ships. The new treaty establishes such an arrangement between this country and China. No higher charges will hereafter be imposed on vessels owned by our merchants which visit China than are imposed on Chinese vessels; and, vice versa, the United States must allow Chinese ships to make use of ports in this country upon the same terms and fees as areexacted from American. The amount of such charges is not restricted, but the treaty forbids making them heavier on account of nationality.

A special provision is made by Consular Courts for the trial of any controversics which may arise in China. between American citizens and Chinese subjects. The system is that "such cases shall be tried by the properofficial of the nationality of the defendant. The properly authorized official of the plaintiff's nationality shall be freely permitted to attend the trial, and shall be treated with the courtesy due his position. He shall be granted all proper facilities for watching the proceedings in the interests of justice. If he so desires, he shall have the right to present, to examine, and to cross-examine If he is dissatisfied with the proceedings he witnesses. shall be permitted to protest against them in detail. law administered will be the law of the nationality of the officer trying the case."

FRANCE AND THESAHARA RAILROAD SCHEME.

It would appear from the present aspect of things as if France were resolutely bent on firmly entrenching herself on the African continent. In whatever way this Tunisian difficulty may be ended, we may rest assured that the French Government will not readily let go the hold it has. now taken of those lands which border so closely on her-Algerian frontier. This aggressive tendency is manifested not only in the direction of Tunis, but also in the directionof the Soudan, an extensive and fertile region of Africa, lying to the south of the Great Sahara. The disaffection which is said to exist among some of the Algerian tribes and which threatens to break out into open insurrection, is not likely to have any other effect than that of giving intensity to the general purpose which aims at the extenOur attention is all the more forcibly directed to the Soudan scheme because of the disaster which has befallen Colonel Flatters and his party of explorers who were sent out by the French Government to survey the vast expanse of desert lands which intervene between the Soudan and the southern borders of Algeria, with a view to the construction of a railroad. This surveying party was attacked and terribly cut up by some of the native tribes, supposed to be a section of the warlike and marauding Kroumirs, the same who have brought about the present trouble with France and Tunis. According to latest accounts, what remained of the surveying 'party had been compelled to take shelter in a cave, where they were reduced to the direst extremities.

This disaster will no doubt have a dampening effect on the great scheme, according to which it is proposed to span the desert and connect Algeria and the Soudan with a road of iron. It is not likely, however, that it will be abandoned for such a cause. It is warmly supported by M. Duponchel, Chief Engineer of Roads and Bridges, who surveyed a portion of the ground in 1878, and who has since published a voluminous report, in which he refuses to admit that the difficulties are insuperable. M. Duponchel describes the projected railroad as the "Colonial Junction between Algeria and the Soudan;" and in the body of his report, addressing his countrymen, he says: "What is being so successfully accomplished by England "in India, by the United States in North America, by "Russia in Central Asia, that should we try to do in emu-"lation of their example—seek a continent whereon to "extend our beneficial influence, and find, by the employ-"ment of our idle capital, at once a new market for the "products of our industries and manufactures, and a vast "centre of agricultural production, able to supply us at "small cost with the raw materials not indigenous to our soil, "and which we now only obtain with difficulty from for-"eign sources." .This is the true spirit of colonial enterprise; and we may well take it for granted that if the sentiments so ably expressed are at all general among the enterprising Frenchmen of the day, not one nor many such disasters as that which has befallen Colonel Flatters and his party will more than delay the movement.

As to the desirableness of connecting Algeria with the Soudan, there can be no two opinions. The Soudan has not unfitly been spoken of as the garden of Africa. spite of the destructive inter-tribal wars and the decimating effect of the slave trade, it sustains a population, which, as far as can be gathered, is not under fifty millions. Its estimated area is probably over two millions of square The whole country is well watered. miles. In the west there is the ceaseless flow of the mighty Niger, and in the east there are the great lakes Tehad and Fittri. west the climate much resembles that of Senegambia and Guinea. In the east it is probably hotter, but we are without data on which to form an opinion. Cotton, tobacco and indigo are grown in abundance, and wheat, rice, maize, Guinea corn and millet are among the ordinary crops. Gold-dust abounds in the rivers, and there is plenty of iron found all over the country. The principal exports It is calculated that some now are ivory and feathers. sixty thousand white residents would be sufficient to bring this vast fertile region with its teeming millions within the trading circle of the world. Such a country brought into direct connectiou with Algeria and thus into almost direct connection with France, would undoubtedly be a great gain to the commercial world, and an important step taken towards the enlightening of the dark continent.

The questions which now await solution are whether and of which railroad earnings are a sure reflex? The such a union as that proposed between Algeria and the following is our monthly table of earnings and initiage.

Soudan, can be effected, and whether it can be effected on terms which would make the enterprise remunerative or in any true sense a success. At first sight it does not appear as if the difficulties were insuperable. That there are difficulties, and great difficulties, must at once be admitted. There is between the fertile tracts which border on the Mediterranean and the Soudan, a stretch of country of the general width of some twelve hundred miles. On the north and skirting the base of the Atlas Mountains, the ground is elevated. It declines rapidly; and there are in succession, as you move southward, the land of the Dayats or waterless oasis, the region of the Southern oasis, and then the desert, properly so-called, which stretches on to the Soudan.

The projected railroad, it is understood, would be run through the eastern section of the Sahara, thus taking advantage of the high table lands and the broad dry valleys. It would not, as we have said above, be more than twelve hundred miles in length—a distance considerably less than that between Omaha and San Francisco; and it is claimed that the difficulties in the way of construction would not be so great as those encountered in the building of the Pacific line. We are not sure, however, that the comparison between the two roads is admissible. The situations are very different in many essential particulars. There is nothing alarming in the distance to be traversed; but it seems hardly possible to exaggerate the evils likely to arise from the excessive heat, from the scarcity of water, from the shifting sands, and from the opposition of the native, tribes. Think of one stretch of the road alone-a ride of six hundred miles, during which neither water nor vegetation would be seen! Desirable as such a railroad, for many good reasons, might be, there is much reason to fear that for some time to come, at least, the balance of convenience will be against it. A trip to Timbuctoo by rail from Algiers would no doubt be a novelty; but for such novelty we must be content to wait.

RAILROAD EARNINGS IN APRIL, AND FROM JANUARY 1 TO APRIL 30.

To say that the April earnings of the railroads are very favorable is no exaggeration of facts. Certainly they are ahead of the expectations of the most sanguine. Forty-seven roads reporting, on earnings of \$11,792,323 in April, 1880, show an increase of \$2,935,353, or 25 per cent. Mileage shows an increase of only 16 per cent. As a consequence the earnings per mile rose from \$439 in April, 1880, to \$472 in April, 1881. While a decrease in the average earnings per mile, owing to the new mileage embraced, which usually commands but a very thin traffic, very frequently is misleading as an index to the business that the roads are actually doing, there can be no mistake as to the meaning of an increase in the average per mile.

What makes the present figures particularly satisfactory is that a number of roads which suffered so severely all winter from the embargo on traffic, had to battle with snow way on to the middle of April, and then suffered even more severely in the latter half of the month from disastrous floods. It is to be remembered, too, that earnings last year were very heavy—many roads then returned the largest figures on record. Yet we have now a statement which makes it plain that even the exceptional exhibit of last year has been outdone, and that earnings in April, 1881, were one-quarter larger than in April, 1880. Could anything portray more clearly and more forcibly the activity and life which pervade every department of trade, and of which railroad earnings are a sure reflex? The following is our monthly table of earnings and mileage.

Earnings for three weeks only of April in each year, if For the four weeks ended April 30. For the four weeks ended April 23. For the feur weeks ended April 29.

In amount of increase, Central Pacific heads the list. It made over half a million dollars more in April, 1881, than in April, 1880, and for the first four months of the year reports a gain of a million and a half. The new lines of the Southern Pacific, which was recently completed to a connection with the Atchison Topeka & Santa Fe, are embraced in this statement, but the percentage of increase in mileage is less than one quarter the percentage of increase in carnings. St. Paul has an increase of \$388,959 for the month, equivalent to 45 per cent; the increase in mileage is 60 per cent. Chicago & Northwest has an increase of \$159,788, or 12 per cent, on mileage increased in about the same ratio. Tho St. Paul and the Northwest and a number of other Western and Northwestern roads are in a measure dependent upon the grain movement, so we have had prepared the following table, showing the receipts of flour and grain at the principal Western ports for the four weeks ended April 30, this and last year.

RECEIPTS OF FLOUR AND GRAIN FOR FOUR WEEKS ENDED APRIL 30.

provement in every item, and in some items, notably wheat, corn and oats, a very decided improvement, all ports do not share in the increased movement. Chicago and Milwaukee, for instance, received together but little more grain (wheat, corn, oats, barley and rye) this year than they did in the corresponding period last year; in flour, however, there was a heavy gain, though this is a smaller item. It follows that the augmentation in the receipts of the roads that carry to those points can only in part be attributed to this cause, and that there must have been an enlarged volume of general freight. Toledo shows a heavy falling off in wheat and corn (1,114,545 bushels), and the Wabash, as one of the roads that carry to that point, must have suffered a loss of business in con-Yet we find that its earnings have decreased only \$5,309, as compared with April last year. Peoria, an interior point, increased its receipts of corn from 1,032,680 bushels, in 1880, to 1,773,065 bushels in 1881, and the Wabash, which passes through that place, may thus have to some extent made good the loss in the Toledo business. The most marked gain, however, is shown at St. Louis, which by reason of the increased amounts of grain going down the Mississippi in barges to New Orleans, is daily growing in importance. There was a gain of 418,816 bushels in wheat, 908,665 bushels in corn, and 285,584 The effect of this, together with a much bushels in oats. larger cotton movement, is seen in the receipts of the Southwestern and Southern roads, which are this month, as in previous months, conspicuous above all other roads for their handsome percentages of increase. How the cotton movement at the leading outports compares with last year may be seen in the following table.

RECEIPTS OF GOTTON AT SOUTHERN PORTS IN APRIL, 1881 AND 1880.

	1881.	1880.	Difference.
Gulvestonbales. Indianola, &c New Orleans Mobile. Florida Savannah	30,042 386 98,827 11,865 131 24,466	14,910 180 55,369 7,810 417 9,475	lne15,132 lne206 Inc43,458 lnc4,055 Dec286 Inc14,991

Total	225,868	128,854	Inc97,014

The increase is very pronounced at pretty nearly every port. Thus it is that roads like the St. Louis Iron Mountain & Southern, St. Louis & San Francisco, Texas & Pacific, International & Great Northern, Houston & Texas Central, Louisville & Nashville, Memphis & Charleston, Mobile & Ohio, and East TennesseeVirginia & Georgia, are enabled to keep up their gratifying percentages of gain. The enlarged production of cotton has all through this year played a very important part in the earnings of the Southern roads, and contributed and is contributing in no small measure to the great prosperity which that section of the country is now enjoying.

As to the trunk lines, it is yet too early for either the Pennsylvania or the Erie, and the New York Central will not report its figures; but we have the two Canada roads, Grand Trunk and Great Western, and the Cleveland Columbus Cincinnati & Indianapolis, and these arc doing well. The Illinois Central, which in the first quarter of the year lost heavily on account of the snow blockade, especially on its Iowa lines, this month reports a gain on both divisions, The St. Paul & Sioux City division of the Chicago St. Paul Minneapolis & Omaha and the Hannibal & St. Joseph report a decrease for the month, but both these had their business seriously interrupted by the floods in the It will be observed that while the total shows an im- Missouri River. These, together with the Wabash,

already referred to, and a minor road, the Cleveland Mt. Vernon & Delaware, are the only ones in our list that have a decrease—all the rest have an increase.

Examining the figures for the first four months, we find that only in the case of the roads that were most seriously affected by snow is there recorded a decrease. The aggregate of all the roads in the table exhibits an increase of \$6,398,976. Thus notwithstanding the many drawbacks, earnings are 14 per cent, or nearly one-seventh, larger than for the corresponding four months of 1880. Except for the increased cotton movement this increase would have been reduced to smaller proportions. Of the total increase of \$6,398,976, two and a half millions came from the roads that are distinctively Southern. Central Pacific contributes one and a half millions more, and Denver & Rio Grande \$870,000, leaving an increase of less than one and a half millions for the other roads in the list. The following is the table. The mileage embraced amounts to about 31,000 miles, or a little less than one-third the mileage of the country.

Net increase			6.398,976	V

We have now the expenses and net earnings of a num. ber of roads—pretty nearly all that usually report to us—for the first quarter of the year, and they bear out what we said last month, namely, that the loss of net earnings assumes large proportions only on those roads that had to contend hardest and longest with snow. The Burlington Cedar Rapids & Northern reports its net earnings for the three months at \$86,101, against \$209,986 for the corresponding time in 1880, a loss of \$123,885, which, it will be admitted, is heavy. The loss of gross earnings during the same time was \$97,002. The diminution in net was less in March than in either January or February, and as the April gross show an increase it is not unlikely that the company will soon enter upon the work of wiping out the decrease of previous months. The Des Moines & Fort Dodge is another road that had great difficulty in keeping its tracks clear. Its net earnings for the quarter amount

to \$5,523, against \$32,512 in 1880, a decrease of \$26,989 It should be stated, however, that in the expenses for this year are included \$12,000 charged for steel rails delivered to the company. Deducting this from the expenses, we have net earnings of \$17,523 in 1881, against \$32,512 last year, a decrease of \$14,989, of which \$4,561 came in March. But these are the only two companies whose returns are so unfavorable. Of course, we have no figures from some of the larger Western roads that were adversely affected by the severe winter, but as they had a much smaller proportion of their total mileage under snow than the roads reviewed, so is it likely that they will have a much smaller proportionate loss in net earnings.

The Louisville & Nashville makes a very encouraging exhibit for March. It reports net earnings of \$360,006, against \$242,046 last year, a gain of \$117,960, which falls only \$8,328 short of offsetting the loss in the previous two months. The St. Louis Iron Mountain & Southern statement is also highly favorable. The net earnings were \$257,376 in March, 1881, against \$126,697 in March, 1880, an increase of \$130,679; but as in the previous two months, owing to the large sums expended for improvements, &c., the net earnings had diminished \$180,689, the total for the three months is \$49,410 below the total for the same time in 1880. Nashville Chattanooga & St. Louis had an increase in net of \$17,280, cutting down the loss for the quarter to \$41,059; improvements, new equipments, bridges, &c., are still represented as eating up the greater part of the net earnings. The Pennsylvania increased its net earnings from \$1,511,248 in March, 1880, to \$1,799,226 in 1881, as we reported two weeks ago, and the decrease of \$233,515 for the first two months is thus turned into an increase of \$54,463 for the three months. Northern Central, a road controlled by the Pennsylvania, augmented its gross receipts \$37,581 and diminished its expenses \$18,056 in March, making a gain in net for the month of \$55,637, and swelling the increase for the three months to \$92,450. The Oregon Railway & Navigation Company has supplied us with its April figures, and with March and April expenses partially estimated the net earnings for the four months foot up \$395,673, against \$433, 640 in the four months of 1880, a decrease of \$37,967. During the same time the gross earnings increased \$111, 669. The net earnings for March and April show a slight gain, but in January and February there was a heavy decrease, on account of the severe winter, which rendered the Columbia River difficult of navigation. The figures embrace all the company's lines, ocean, river and rail. Paducah & Elizabethtown and Memphis Paducah & Northern, two small roads recently purchased in the interest of the Chesapeake & Ohio, make a good showing, especially the

The statement below gives the gross earnings, operating expenses and net earnings for the month of March, and from Jan. 1 to Mar. 31, of all such railroad companies as will furnish monthly exhibits for publication.

Frem eur ewn correspondent.

London, Saturday, April 30, 1881. For a long time past the position of the money market has been difficult to understand, and a remarkable feature in it is that it remains in an easy condition. The shipments of gold to America have had but little perceptible influence, and the vast unmber of new companies which have been introduced to public notice during the last six or eight months have not tended to sustain the rates of discount. The American and French exchanges having of late become favorable to this country, and there being but little demand for money for mercantile purposes, the directors of the Bank of England have this week regarded it as expedient to reduce their published minimum from 3 to 2½ per cent. The rate of discount in the open market has fallen to 21/2@21/4 per ceut and the joint-stock banks and discount houses have lowered their terms of interest for deposits to the extent of half per cent. The easy state of the money market and the favorable weather are giving a stimnlns to Stock Exchange speculation and to the introduction of new companies. A further development in this branch of enterprise is regarded as certain; but it is much hoped that more favorable harvest prospects and cheap money will have the effect of producing more confidence in mercantile circles. the trade of the country being very disappointing, considering how much capital is embarked in it. There have, however, long been reasons for believing in improved trade, but the anticipated improvement has not taken place to its full extent, and perhaps we must await the commencement of the autumn trade before much activity can be witnessed.

The Bank return published this week shows that the amount of discount and loan business in progress has been very moderate. The total of "other securities" has fallen off to the extent of £764,867, and the total is now only £18,600,554, against £23,650,128 at the commencement of the year. The supply of bullion exhibits a small increase, and the total reserve has been augmented by £388,697. The proportion of reserve to liabilities, which was last week 48.13 per cent, is now 49.31 per cent.

There has been a moderate inquiry for loans during the week, in consequence of the settlement on the Stock Exchange, which has been rather extensive; but the demand for discount accommodation has been very moderate. The rates of discount are decidedly easy, and are quoted as follows:

Bank rate Per cent. 2 ¹ 2	Open market rates— Per cent. 4 months' bank bllls 24@23s:
Open-market rates— 30 and 60 days' bills 2 2 2 4 3 2 4 3 months' bills 2 3 3 2 4	6 months' bank bills 212@258. 4 & 6 months' trade bills. 212@3

The rates of interest allowed by the joint-stock banks and discount houses for deposits are as follows:

Tolant atoola handra	cent
Joint-stock banks	2
Discount houses at eall	2
do with 7 or 14 days' notice of withdrawal	214

Annexed is a statement showing the present position of the Bank of England, the Bank rate of disconnt, the price of consols, the average quotation for English wheat, the price of middling upland cotton, of No. 40 mnle twist, fair second quality, and the Bankers' Clearing Honse return, compared with the three previous years.

On the Stock Exchange business has been rather active, especially as regards consols, British railway shares and preference and debenture bonds, and some of the leading foreign securities. The American market has, however, been quiet, with a downward tendency.

Several new companies have been introduced to public notice dnring the week, and some of these are in connection with railway schemes in the United States. The Natchez Jackson & Columbns Railroad Company of Mississippi announce an issne of \$600,000 first mortgage seven per cent bonds to bearer in sums of \$5,000, \$1,000, and \$500 each, principal and interest being payable at the Bank of America in New York. The subscription price is 1041/2 per cent, at 4s. the dollar, or £209 per \$1,000 bond. The prospectus states that this railway joins Natchez (a flonrishing city on the Mississippi River) with Jackson, the capital of the State, where it connects with the Chicago St. Lonis & New Orleans Railroad (now owned by the Illinois Central Railroad) and the Vicksburg & Meridian Railroad, giving two routes-North and East and West.

The Cape Fear & Yadkin Valley Railway Company invite subscriptions for \$300,000 (the balance of a total issue of \$400,000) in 7 per cent first mortgage bonds. Applications will be received through Messrs. Madison & Co. The price of subscription is 105 per cent, at 4s. the dollar, or £210 per bond of \$1,000.

Messrs. Helmuth Schwartze & Co. report that the second series of London sales of Colonial wool will commence on Tnesday, the 10th May, and last till the 8th July. The limit of 350,000 bales stipulated by the Importers' Committee was passed on the 26th inst., and the list of entries was consequently closed at 4 P. M. on that day, when the arrivals stood as follows: Sydney, 74,672 bales; Port Phillip, 112,285 bales; Adelaide, 41,461 bales; Swan River, 10,026 bales; Van Diemen's Land, 6,777 baies; New Zealand, 75,828 bales; Cape, 42,343 bales; total, 363,392 bales. Of this quantity 14,060 bales Australian and 12,000 bales Cape have been forwarded direct to the country and the Continent, and deducting these 26,000 bales, but adding the 35,000 bales held over from last sales, we get a total available for sale in this series of 372,000 bales.

During the five weeks that have elapsed since the close of last sales, the market has witnessed but little inquiry. Business is quiet, and little that is encouraging can be gathered from either home or foreign trade reports. The consumption of Colonial wool must, however, be active, for though a larger quantity than usual was sold in the first series this year, stocks are reported low in most quarters.

The Antwerp sales of River Platte wool commenced on the 20th inst. and will close to-morrow. Prices at the ontset ruled about ½d. lower than in January, an average 1st Bnenos Ayres of 30 per cent yield selling at 6¾d. per lb. The tone, however, has since grown firmer, and the above decline has been partly

recovered, especially in the case of good wools.

A small quantity of rain has fallen during the week, but more is wanted, especially on light soils. The temperature, however, is higher, and vegetation is at length making a more vigorons start. The agricultural prospect is satisfactory; but the crops are still in a backward state. The trade for wheat depicts the results of the r dnring the week has been quiet, but rather firmer in tone. At the close, however, owing to liberal arrivals, former prices were with difficulty obtainable

with difficulty obtainable.

During the week ended April 23 the sales of home-grown wheat in the 150 principal markets of England and Wales amounted to 28,466 quarters, against 29,333 quarters last year, and 53,483 quarters in 1879; and it is estimated that in the whole kingdom they were 113,870 quarters, against 117,350 quarters in 1880 and 214,000 quarters in 1879. Since harvest the sales in the 150 principal markets have been 1,259,397 quarters, against 1,054,475 quarters last season and 1,858,475 quarters in 1878-9, the estimate for the whole kingdom being 5,037,600 quarters, against 4,212,000 quarters and 7,435,500 quarters in the two previous seasons respectively. Without

reckoning the supplies of produce furnished ex-granary at the commencement of the season, it is estimated that the following quantities of wheat and flour have been placed on the British markets since harvest.

Of the above imports for the week in 1881, \$29,031 were American gold coin and \$51,889 American silver coin.

United States Treasury Circulars.-The following circular, modifying circular 42, was issued by the Treasury Department

UNITED STATES TREASURY CIRCULARS.—The following circular, modifying circular 42, was issued by the Treasury Department on Tuesday:

WASHINGTON, May 9, 1831.

Circular No. 42, dated April 11, 1881, having been to redified by circular No. 44, dated April 20, 1881, that forcign helders of 6 per cent bonds of the United States, described in the first mentioned circular might present the same for centimance until May 20, 1881, the carliest date practicable for that purpose, uctice is hereby given that the Secretary of the Treasury will receive bonds of that description to be continued as provided in the first mentioned circular until the 20th of May, 1881, the limit fixed for the presentation at the London agency, and circular No. 42 of April 11, 1881, is bereby modified accordingly.

WILLIAM WINDOM, Secretary.

—The following circular, embracing the one hundred and third eall, with a provision for the continuance of the 5 per cent bonds, was issued this afternoon:

TREASURY DEPARTMENT, }

WASHINGTON, D. C., May 12, 1881.}

By virtue of the authority conferred by law upon the Secretary of the Treasury, notice is hereby given that the principal and accured interest of the 5 per cent coupon bonds, issued under the acts of July 14, 1870, and Jan. 20, 1871, and now ontstanding and mealled, will he paid at the Treasury of the United States, in the city of Washington, D. C., on the 12th day of August, 1881; and that the Interest on said bonds will cease on that day, and neas of these bonds will hereafter he exchanged for registored bonds hearing 5 per cent interest; provided, however, that in ease any of the holders of the said coupon bonds shall request to have their bonds continued during the pleasure of the Government, with interest at the rate of 342 per cent per annum, in lieu of their payment at the date above specified, such request will be granted, if the bonds are received by the Secretary of the Treasmy for that purpose on or before the 1st day of July, 1831.

The Secretary also amnennees that, until the date me

will be accepted for that purpose in the order.

The Department will pay no expense of transportation en bonds received under the provisions of this circular, but the bonds returned will be sent by prepaid registered mail, unless the owners otherwise direct. All bonds, whether intended for payment or to be continued, should be forwarded to the "Secretary of the Treasnry, Loan Division," with a letter of transmission, setting forth the purpose for which they are transmitted, and if to be continued they must also be accompanied by the request above referred to, and the package containing the bonds should be marked "Bonds for continuance."

WILLIAM WINDOM, Secretary.

-The following is the form of request for continuance of bonds:

To the Secretary of the Treasury:

Under the terms of the elrenlar No.—, issued by the Secretary of the Treasury May 12, 1881, —, the undersigned, owner of the below described United Stetes 5 per centum boad—, issued under the acts of July 14, 1870, and January 20, 1871, hereby request that —— payment be deferred and that —— be continued during the pleasure of the Government to bear interest at the rate of 3½ per centum per annum from August 12, 1881, as provided in said circular, and in consideration of the premises, —— hereby waive and release all rights to or claim for any interest on said bonds—— in excess of 3½ per centum per ananum on and after said date of August 12, 1881, and in witness thereof —— have hereunto set —— hand —— and seai —— this day. [Hero describe the bonds, stating whether registered or coapon, denomination, serial numhers and amounts.]

[Seal.] [Signature and Post Office address.]

[Note.—The seal should be of wafer or wax, if not executed by a corporation. In case the above request is signed by an officer of a bank or other corporation, it should be accompanied by the proper authority, certified by some officer of the institution other than the one empowered to act. If the bonds are presented at the London agency, the forms of request for their continuance must be executed in duplicate. The form of request prepared in blank for use will be furnished upon application to the Secretary of the Treasnry.]

BANKING AND FINANCIAL.

OFFICE OF FISK & HATCH,

No. 5 Nassau Street. New York, May 13, 1881. The Secretary of the Treasury has given notice, nuder date of the 12th inst., that all the Coupen Fives of 1881, amounting to \$120,000, 000, are ealied in for redemption, interest to cease at the expiration of tirce months, or on the 12th day of August, and that these, together with \$250,000,000 of the registered fives, may be presented up to July 1 for continuance at 3½ per cent. This will leave \$75,000,000 registered "Fives" which will not be continued, but paid principal and interest August 12th. Holders of registered "Fives" should therefore act immediately. We will attend to forwarding the Fives for continuance for account of holders for a commission of one-eighth of 1 per

We will also buy the Fives of 1881, and keep on hand for saio the continued 312 per cent bonds, thus giving the opportunity of immediate exchange to parties who desire to avoid waiting for the return of their bonds from Washington.

We continue to buy the Sixes of 1881, or receive them in exchange for 312 per ceats on favorable terms.

We are also prepared to receive Fives and Sixes in exchange for Four-and-a-Halfs and Fours, at market rates, from holders who desire to place their investments in Governments in a permanent form for a term

The Feur-and-a-Halfs have 10 years to ruu, and the Fours cannot he FISK & HATCH. redeemed for 26 years.

CHESAPEAKE & OHIO SECURITIES.

OFFICE OF FISK & HATCH, BANKERS, No. 5 NASSAU ST., NEW YORK, May 7, 1881.

The mertgage bonds of the old established, dividend-paying raliroads like New York Central, Harlem, Lake Shore, Chicago & Rock Islaud, Chicago & Northwest., Union and Central Pacific, and others of like character, have been eagerly bought up to high prices, and are likely to reach figures at which they will yield hut little better than 4 per cent per annum, or even less; and the attention of investors is being attracted carefui selection of the newer issues, and of these hased upon developing and improving railroad properties—which can now be bought at eemparatively moderate prices, with the promise of a large advance as they become more widely known and appreciated.

Among the most attractive and promising of this class of investments are the securities of the Chesapeake & Ohio Railway Company.

PURCHASE MONEY FUNDING BONDS

These bends, the total amount of which is limited to \$2,350,000, are a strictly first lien on the entire property, on which has been expended up to this date upwards of \$50,000,000. They are, on this account, an excellent hend for investment of trust funds, or for re-investment of United States Fives and Slxes, now maturiag. Interest 6 per cent, payable January and July. Principal due in 1898.

PRESENT PRICE, 112 AND ACCRUED INTEREST.

Of this issue we are authorized to sell only \$250,000 at this price.

BONDS OF 1908, SERIES A.

Total issno of \$2,000,000, secured on the main line of the road in common with the honds of series B, hy a mortgage, the total amount of which is \$17,000,000, subject only to the prior lien of the Purchaso

Money Funding Bonds.

In addition to the security of this mortgage on the main line of the rallway from Richmond to the Big Sandy River, 431 miles, the bonds of Series A are further secured by a mertgage (made for this purpose and to secure an issue of \$2,000,000 of bends for future improvements) on the scaboard extension of the road new heling constructed from Richmond down the Peninsula to deep water at Newport News—a distance of 75 mlies—together with valuable terminal property in wharves, warehouses, depots and other necessary structures at that point. Interest 6 per cent per annum, payable Aprli 1 and October 1. Principal due in 1908. Priacipal and interest of both the above honds payable in gold coin in the city of New York.

PRESENT PRICE, 103 AND ACCRUED INTEREST. Of this issue less than \$500,000 remain unsold.

The annual amount required to pay interest en these two issues is \$261,000, which is the total interest charge of the Company payable in money until 1882, while net earnings the past year, without either Western rail connections or deep-water terminns at the seaboard, were nearly \$800,000, which will be increased this year; hut next year, with these connections completed, we look for an immeuse increase in ton-nage and corresponding increase in uet earnings.

We are also selling, at 100 and accrued intorest, the First Mortgage Six Per Cent Bonds of tho

ELIZABETHTOWN LEXINGTON & BIG SANDY RAILROAD. When completed and equipped, this road will represent a cost and an earning capacity much more than sufficient to make its honds a good lavestment security; over half the total issue of \$3,500,000 has already been placed.

The Elizabethtown Lexiagton & Big Sandy Railroad is the connecting link between the Chesapeake & Ohlo Raiiway and the West and Southwest

Within two years the Chesapeake & Ohlo system will have its ewn Independent lines or connections to Memphls, St. Louis, Louisville, Cineinaati & Cbicago; and a glance at the map will show that this means FISK & HATCH. a husiness fully up to its utmost capacity.

The Bankers' Gazette.

DIVIDENDS;

The following dividends have recently been announced:

Name of Company.	Per cent.		
Railroads. Catawissa, prer. North Pennsylvania (quar.). Seaboard & Roanoke. Miscellancous. Delaware & Hudson Canai (quar.)	4	May 18 May 25 June 10	May 1 to May 19

FRIDAY, MAY 13, 1881-5 P. M. The Money Market and Financial Situation.—The week has been rather quiet as to financial matters. The circular of Secretary Windom was the chief event of importance, giving notice of the payment of the conpon fives of 1881 on August 12, unless they are presented before July 1 at the Treasury to be extended at 3½ per cent. The circular also states that until the date mentioned, July 1, 1881, he will receive for continuance in like manner, subject to the like conditions, any of the uncalled five per cent registered bonds of the acts of July 14. 1870, and January 20, 1871, to an amount not exceeding \$250,-000,000, the remainder of the loan being reserved with a view of its payment from the snrplns revenues. Up to the close of business on Thursday there had been received and counted at the Loan Division of the Treasnry Department \$143,081,950 of six per cent bonds for continuance at 3½ per cent. There were also known to be about \$17,000,000 more of these bonds in the Treasurer's office which had not been acted upon, which would make the aggregate amount received for continuance more than \$160,000,000, leaving but about \$36,000,000 yet to be heard from. No returns had been received from the London agency.

Whatever opinions may be entertained of the strict and technical authority of the Secretary of the Treasnry to extend the maturing bonds of the Government as a 31/2 per cent call loan, it must be conceded that he has managed the financial question with undoubted ability and shrewdness, and all the embarrassment predicted for the present Administration through the failnre of Congress to pass a funding law has melted away like a

snmmer cloud.

The money market has been growing easier, and Government bond dealers are paying as low as 2 per cent for call loans. Stock borrowers are usually paying 3½@4 per cent on call; prime commercial paper is quoted at 4@41/2 per cent.

The Bank of England on Thursday showed a decline in specie of £30,000 during the week, and the reserve was 48 % per cent of liabilities, against 48 last week; the discount rate remains unchanged at 2½ per cent. The Bank of France shows an increase for the week of 5,300,000 francs in gold and a decrease of 3,475,000 francs in silver.

The last statement of the New York City Clearing-House banks, issued May 7, showed an increase in the surplus above legal reserve of \$1,672,600, the total surplus being \$13,112,625, against 11,440,025 the previous week.

The following table shows the changes from the previous week and a comparison with the two preceding years:

	1881. May 7.	Differ'nces fr'm previous week.	1880. M ay 8.	1879. May 10.

United States Bonds .- To-day the four per cent bonds of 1907 advanced to 117% and the 4½ per cents to 116¼, which are the highest prices ever made on these bonds. Consols in London are selling at 102 1-16 for money. These very high prices for government obligations show a wonderful plethora of capital demanding investment in the soundest class of securities only, and as the prices still keep advancing there seems to be no limit which the low rate of interest on such bonds may not The time in which holders may present their 6 per cent bonds to have them extended at 31/2 has been prolonged to May 0, and it is probable that very few of the bonds will remain to be paid off. The circular of Secretary Windom as to the 5 per cents is commented upon above

Closing prices of securities in London for three weeks past and the range since January 1, 1881, were as follows:

	April 29.	Мау 6.	May 13.	Tan. 1, 1881. Highest.

State and Railroad Bonds.—The Southern State bonds are State and Railroad Bonds.—The Southern State bonds are generally strong, and Southern men, who have more money now than at any time since the war, are free purchasers of these bonds as well as of the bonds and stocks of Sonthern railroads. Parties in Memphis have recently been considerable buyers here of the Tennessee State bonds, although the report that an injunction would be attempted against the execution of the new funding law and the exchange of old bonds for new has knocked off the price of Tennessees to-day nearly 3 per cent. Virginia bonds are very strong, and the buyers talk as if the readjusting element in the State was very unlikely to be able to injure the standing of the bonds.

Railroad bonds are stronger than at any previous date, and the six per cent bonds, lately ruling at par to 103, are pushing up towards 105@110. The advance in several of the well-known

up towards 105@110. The advance in several of the well-known issues in the past ten days amounts to 3@5 points.

In the report of auction sales in the Chronicle of May 7, there were serious typographical errors in the prices given, which should be corrected. Brooklyn Life Ins. stock was not sold, and other prices were as follows:

Messrs. A. H. Muller & Son sold the following at auction this

Railroad and Miscellaneons Stocks.—At no time during the past week was the tone of the stock market stronger than in the last hour of business to-day, and the prices and general feeling both indicated a decided buoyancy. The course of Secretary Windom in calling in the five per cent coupon'bonds for payment, unless extended at 3½ before July 1, and his determination to reserve about \$75,000,000 of the registered fives for payment on Angust 12, out of the cash resources of the Treasury, is considered sure to press on the money market a supply of funds which will make rates for call loans decline to a minimum. The speculation in new stocks and income bonds, as well as in the old dividend-paying shares, must necessarily be fostered by such a glut of money as can find no satisfactory employment even at low rates of interest. The progress of the great Southwestern consolidation has been marked this week by the absorption of the St. Louis & Iron Mountain by the Missouri Pacific, on the basis of three shares of the latter for four of the former company. The Mo. K. & T. road is to be leased by the Missouri Pacific, and the latter will thus become the main company, controlling the whole Southwestern system. The elevated railway stocks have been weaker, in contrast with the general strength of the market. The Railroad and Miscellaneons Stocks.—At no time during the

temporary injunctions against the Western Union stock distribution were continued on Monday, and the case of Williams against the Western Union came on trial to-day. The Reading case was also to come before the Supreme Conrt of Pennsylvania, at Harrichner to describe the Supre risburg, to-day.

The daily highest and lowest prices have been as follows:

Exchange Foreign ex	chance	has hos	n vorv at	rong ro-

Wisconsin Cent...3 wks Mar. 46,930 63,426

Exchange.—Foreign exchange has been very strong recently, and gold exports are talked of. It is known that imports of merchandise are large and exports not relatively so heavy. In addition to this, large amonnts of United States 5 per cent bonds have lately come from abroad, and within a week it is estimated that \$10,000,000 have been sold here for foreign account. These are exceptional circumstances and not of a permanent sort. The actual rates for prime bankers' sterling bills today are 4 85½@4 86 for 60 days and 4 87½@4 88 for demand. Cables are 4 85@4 88½ and prime commercial bills 4 84@4 84¼. The following were the rates of domestic exchange on New York at the undermentioned cities to-day: Savannah, buying, ½ selling, ½@% prem.; Charleston, buying, ½ prem., selling, ½ prem.; New Orleans commercial, 1 50 prem., bank, 2 50 prem.; St. Louis, 50 prem.; Chicago, firm, 50 preminm, and Boston, 25 cents discount.

cents discount

Quotations for foreign exchange are as follows:

ANNUAL REPORTS.

Allegheny Valley Railroad.

(For the year ending Dec. 31, 1880.)

The annual report for 1880, just issued, has the following statement of the earnings and expenses:

EARNINGS AND EXPENSES.

The earnings of the company for the year 1880 compare with those for 1879 as follows:

	1880.	1879.	Inc. or Decr'se.
From freight \$		\$1,300,666	Inc. \$119,146
From passengers	440,430	393,021	Inc. 47,409
From express	19,838	17,053	Ine. 2,784
From mail	21,016	21,014	Inc. 2
From telegraph	4,845	982	Inc. 3,862
From rents	7.947	6,798	Inc. 1,148
From miscellaneous	5,636	5,779	Dec. 142
Total\$	1.919.528	\$1,745,316	Ine. \$174,211
The expense of condi		pusiness of the	e company for
the same period were as	follows:		
	1880.	1879.	Inc. or Decr'se.
Conducting transportation	\$299,986	\$279,624	Ine. \$20,361
Motive power	246,238	221,189	Inc. 25,049
Mainton an an of same	120.260	105 979	Tno 9.1 207

General expenses & taxes.	342,455 68,286	307,802 68,992	Ine. 34,652 Dec. 706
Total expenses		\$983,481	Inc.\$103,745
Net earnings	\$832,301	\$761,835	Inc. \$70,466
The expense per cent	for 1880 was	56.64, and	for 1879 it was
56.35, an increase of 0.29	per cent.		

The increased development, mentioned in the last annual report, of traffic in coal, lumber, iron ore, limestone, &c., has continued, resulting in an increase of freight earnings of \$119,146, or 9.16 per cent, the details of which are as follows:

, -,, or a go por court, one a	Transport of the state of the s	440110
Increase in carnings on coal	\$91.870	
Increase in earnings on lumber	13,149	
Increase in earnings on miseellaneou	us freight 101.151-	\$206,171
Doercase in earnings on erude oil	\$55,770	
Decrease ia earnings on refined oil.	31,254-	87,024

Leaving a net increase of \$110 146

φ11.110
-the decrease in oil traffic being due to the greater develop-
ment of that business in the Bradford region.
INCOME ACCOUNT, 1881.
Total net earnings
From which deduct the following:
Interest on first mortgage bonds, River Div. \$292,000
Interest on first mort. bonds, Low Grade Div 700,000
Interest on second mort, bonds, Low Grado Div 145,000 Interest on income bonds beld by individuals and
railroad companies 504 423
Interest on bonds and mortgages on real estate 10,411-1,651,835
Balance, being deficit for 1880, earried to debit of profit and
loss account

The total balance to debit of profit and loss account on Dec

31, 1880, was \$5,370,850.

Total deficit in 1880 ia the amount required to meet all interest charges was, as allove. \$\$19,533

To which add amount expended for construction. 25,846Of which sum there was paid in income bonds to the contributing companies, under contract of Oct. 2, 1874. \$\$354,000

Income bonds and scrip issued at par, in part payment of interest on bonds beid by individuals, to amount of. \$\$151,519-25.846- \$845.390 151.519-- 505.519 Leaving a baiance of..... —which is acconnted for by an Increase in liabilities, the principal item being an increase of \$332,185 in coupons of first mortgage bonds, Low Grade Division, purchased and held by the Pennsylvania RR. Co., under its gnarantee.

Cincinnatl Wabash & Michigan.

(For the year ending Dec. 31, 1880.)

The report of the directors says that "when default by the old company made it the duty of the trustees to take control of the road, the track was nnfinished, without ditches, ballast or siding, and almost without fence, depots or other bnildings, and owning bnt little rolling stock, with a floating debt, very poor credit, and much of the right of way in dispute and unpaid for. Now all debts are paid, the road is finished, well fenced, ditched, reasonably ballasted, and generally in fair condition, with rolling stock nearly sufficient for the present business. The fact that this has been done from the earnings of the road, with the disadvantages it has had to encounter, furnishes ample proof that your property is not without value.

"The trustees think themselves fortunate in having been able to harmonize the many complications and claims, both just and doubtful, and be able to turn the property over to the present company with a good title and without litigation.

"The parties interested were called together at Wabash, Ind., April 14, 1880, to organize the present company, at which meeting it was

"Resolved, That the autborized capital stock of the company shall be old company made it the duty of the trustees to take control of

"Resolved, That the authorized capital stock of the company shall be \$3,000,000, and that there be issued to each creditor under the mortgage, and entitled to interest in the sale of the mortgaged property, 70 por cent of the gross amount of the bonds and interest thereon up to Nov. 5, 1879, upon a surrender of the honds or coupons held by them.

"Of the \$2,000.000 bonds issned, \$1,818,000, with accompanying conpons, have been exchanged, and \$1,815,921 of stock issned therefor. The balance of the bonds are mostly in the hands of this company, awaiting settlement among their owners as to how the stock shall be issued."

GENERAL INVESTMENT NEWS

Chicago Pekin & Southwestern.—A supplemental bill has been filed in the United States Circuit Court by the Farmers' Loan & Trust Company, trustee, against the Chicago Pekin & Southwestern Railroad to foreclose the first mortgage for \$1,000,000. A bill for that purpose was filed some time ago, but dismissed, Judge Drummond holding that the bondholders had consented to an extension, which waived the default. Then but dismissed, Judge Drummond holding that the bondholders had consented to an extension, which waived the default. Then a bill was filed to foreclose the second mortgage, and a decree entered a short time ago, and the road advertised for sale on the 1st inst. The day before the proposed sale a petition was filed by certain stockholders to postpone the sale and set aside the decree on the ground that the second mortgage bonds were issued without authority or consideration. After a full hearing, however, the petition was dismissed, the Judge holding no sufficient evidence had been produced to support the allegations made. In the meantime, however, the sale had been adjourned for thirty days, or until about the 1st of June. The supplemental bill gives a history of the litigation, and alleges that default has been made in payment of the February interest, amounting to \$35,000, due on the first mortgage. By the decree of sale under the second mortgage certain liens and debts prior even to the first mortgage were to be paid first, and it is claimed the property is not worth enough to pay the first mortgage and these floating debts. The Court is therefore asked to retain the property in its hands, to be operated as heretofore by the Receiver, and to apply the income toward paying the debts, and that a decree of foreclosure of the first mortgage may be entered, and the road sold in the usual manner. An order was made by Judge Drummond to answer this supplemental bill in thirty days.—Chicago Tribune.

Cincinnati will receive proposals until May 18 for the purphase

Cincinnati City Bonds.—The Comptroller of the city of Cincinnati will receive proposals until May 18 for the purchase of the whole or any part of \$500,000 4 per cent 10-20 bonds of the city. The high credit of the city is shown by the fact that recently \$19,000 4 per cent ten-year Infirmary bonds were sold at 101%. These bonds belong to the half million deficiency issue authorized by the last legislature.

Cleveland Columbus Cincinnati & Indianapolis-Cincinnati Hamilton & Dayton.—Committees have been appointed to report a plan for the consolidation of these railroads.

Freight Rates.—The following is the text of the new agree-

Georgia Railroad.—A dispatch from Augusta, Ga., May 10, says that "Wm. M. Wadley, the lessee of the Georgia Railroad, has deposited \$1,000,000 as security. The lease contract was signed to-day. The stock will be listed on the New York Stock Exchange. The owners of the South Carolina road, failing to deposit their part of the security, have no interest in the lease."

Loug Island—Brooklyn & Montank.—A meeting of stockholders of the Long Island Railroad was held this week to consider the question of guaranteeing a new loan to be raised by the Brooklyn & Montauk, formerly the South Side Railroad of Long Island. The latter road is under lease for 50 years to the Long Island Railroad Company. It extends as far east as Patchogue. The company has a mortgage of \$750,000 outstanding, which matures in 1887, and proposes now to make a new mortgage for \$1,000,000, of which \$750,000 will be appropriated to the payment of the outstanding mortgage and \$250,000 to the construction of the extension, fifteen miles long, from Patchogue to Moriches. This link will make a connection with the Sag Harbor branch of the Long Island road. The Long Island Railroad stockholders voted in favor of that company's gnaranteeing the interest on the \$750,000 and the principal and interest on the \$250,000 for construction. The Long Island Company operates the entire road.

Louisville New Albany & Chicago.—A circular issued by

Island Company operates the entire road.

Louisville New Albany & Chicago.—A circular issued by the management of the Louisville New Albany & Chicago Railroad announces that this company has assumed control of the completed portion of the Indianapolis Delphi & Chicago road, knowu as the Chicago & Indianapolis Air Line. The gauge has beeu widened to standard gnage and placed in the best possible condition. The extension of the road towards Chicago is being vigorously pushed, and it is the intention of the Louisville New Albany & Chicago people to build the road through to Indianapolis as soon as negotiations now pending are perfected. are perfected.

are perfected.

Marietta & Ciucinnati.—Messrs. J. A. Hambleton & Co., of Baltimore, in their circular last week, said: "The managers of the Baltimore & Ohio Road are willing to settle, if they can do so on their own terms. Their desire and intention is, we think, to get as low a rate of interest on the prior mortgage bonds as the bondholders will stand, so that the stock, which it is supposed they will agree to take for their fourth mortgage bonds, will have some basis of value. There can be no doubt that the first and second mortgage bonds of the Marietta & Cincinnati Road are good. The only question is—Will the bondholders submit to a low rate of interest and take stock for past due conpons? This at present appears to be the programme. In the first place the stock is useless for voting purposes, because the third and fourth mortgage bonds vote, and besides, the Baltimore & Ohio Railroad own the entire fourth mortgage, and can foreclose at any moment if they desire to do so. The bonded debt of the Marietta & Cincinnati Road is in round numbers \$13,000,000, upen which there are coupons now in default \$3,500,000. The last official report of the Marietta & Cincinnati Company was for fourteen months ending December 31, 1880:

1, 2000 tross earnings. \$2,447,634 txpenses. 2,119,501 Earnings more than expenses.

During these fourteen months at least \$500,000 was paid for steel rails, new rolling stook, &c., so it is fair to add to net carnings for these extraord nary expenses. \$328,133 500,000 Total net earnings.

From which is to be deducted rents, taxes, guaranteed leases, &c.... \$828,133 538,512

Applicable to payment of coupons when extraordinary expenses are not required, as estimated from above statement....

Memphis & Charleston.—The American Exchange says:
"This company intends to place \$700,000 of debenture bonds with its stockholders for the purpose of improving its equip ments and increasing its business capacity to meet the demand. This will permit the net earnings of the road, heretofore employed in making extraordinary improvements, to be used as a dividend to the holders of the stock."

Missouri Pacisse—St. Louis Iron Mountain & Southern—Missouri Kansas & Texas—International & Great Northern—Texas & Pacisse.—In the grand consolidation of these rail-roads under the control of Mr. Gould, the first step was made by the sale of the International & Great Northern stock to the "International Railway Improvement Company." The stock was sold, or rather exchanged, by the delivery of two shares of M. K. & T. stock for one share of I. & G. N. stock. The next important move has been accomplished this week in the agreement of the St. Lonis Iron Monntain & Southern stock-holders to sell their stock to the Missouri Pacific, receiving three shares of M. P. stock for each four shares of St. L. l. M. & S. stock. The exchange on this basis is now in progress, and the New York Stock Exchange governing committee has given the Missouri Pacific the right to waive the nsnal thirty days' notice in connection with the issue of new stock, the company having notified the Exchange of its intention to issue more stock when the increase to \$30,000,000 was first authorized.

The next step in this consolidation of interests will be the lease of the Missouri Kansas & Texas to the Missouri Pacific. It is nnderstood that the agreement for the lease has already been signed by the principal stockholders of the two companies. A general meeting of the stockholders of the M. K. & T. company will be held on May 18 for the formal ratification of the agreement. The terms of the lease have not been made public—but one report says that the agreement will be only a lease nnder which the Missouri Kansas & Texas road will be operated by the Missouri Pacific. The accounts of the two corporations will be kept separate, and whatever net earnings of the lessor road remain after the payment of fixed charges are to be turned over to it. It is premature, however, to speak of the precise terms of a contract not yet perfected.

The Texas & Pacific yet remains to be disposed of, and it has been reported that its stock will probably be exchanged for Missouri Pacific stock on terms somewhat similar to the Iron Mountain exchange.

Mountain exchange.

Missouri Pacific stock on terms somewhat similar to the Iron Mountain exchange.

New York & Brooklyn Elevated.—This railway company have their headquarters at No. 189 Washington Street, Brooklyn. The Times reports that the company have leased and purchased together the franchlses of four other companies. The lines they have obtained control of include the Coney Island Central, Brooklyn Elevated & Atlantic Beach Railroad, and the Brooklyn City Elevated Railroad. The line extends from the Grand Central Depot, Forty-second Street and Fourth Avenne, New York, across the East River Bridge to Brooklyn and Coney Island. From the Grand Central Depot it is to run down Fourth Avenue, and through Eighth Street and Lafayette Place to and across private property to Crosby Street, down Crosby Street to and along Howard Street and Centre Street, down Crosby Street to and along Howard Street and Centre Street of the Bridge. In Brooklyn it rnns through Washington and Fulton streets, Myrtle Avenue, Court Street, Fourth Avenue, Broadway and Hamilton Avenue. The company organized with a capital of \$10,000,000, all of which is subscribed, and \$700,000 already paid in. Active work will commence at once. They have recognized the rights of property owners in all streets through which the line passes, and have purchased by deed the right of way from a large number of property owners on their line. Colonel N. T. Sprague was elected President.

Norfolk & Western.—The following is a comparative statement of revenne of the Atlantic Mississippi & Ohio Railroad, now Norfolk & Western Railroad Company, for nine months ending March 31, 1880 and 1881:

1879-80. 1880-81. 1879-80. 1880-81. 1879-80. 1880-81. 1879-80. 1895,650

North River.—This railroad company, which is a consolidation of the Jersey City & Albany and North River, filed articles of consolidation at Albany, May 5. The capital is \$10,000,000.

of consolidation at Albany, May 5. The capital is \$10,000,000.

Oregon & California.—In Frankfort, Germany, May 5, at the meeting of the bondholders of the Oregon & California Railroad, President Villard's plan for a reorganization of the road was adopted by a vote of 5,828 to 19. Messrs. Villard, Bretherton and R. D. Peebles were appointed trustees. Messrs. Villard, Endicott, R. B. Pullman, Horace White, W. H. Starbuck, Bretherton and T. F. Oakes were appointed directors, with power to nominate four others. The next general meeting will be held in October. Copies of the above plan of reorganization are not furnished in New York.

Philadalphia & Panding.—A short way to stop the obstruc-

anization are not furnished in New York.

Philadelphia & Reading.—A short way to stop the obstructive litigation about the affairs of this company will be to push the foreclosure snit under the general mortgage. Mr. Gowen and his associates have allowed the interest to go unpaid on this mortgage now since January, 1880, nearly eighteen months, except one-half of the coupon due in July, 1880. On July 1, 1881, there will be overdue on the general mortgage bonds just 7½ per cent interest.

—George M. Dallas, Special Master of the Philadelphia & Reading Railroad Company, has filed his tenth audit of the accounts of the railroad and the coal and iron companies in the Clerk's office of the United States Circuit Court, The report covers March, and shows that the balance in hand, as indicated by the statements of the railroad company, was \$304,182. The receipts from travel, freight, canal tolls, &c., during the month, amounted to \$2,009,842; miscellaneous receipts, \$48,902; notes, real estate sold, &c., \$334,984; total receipts, \$2,697,911. Payments, \$2,184,812; leaving a balance on hand, April'1, of \$513,099. The balance on hand by the Coal and Iron Company for the month at the close of February was \$52,997. Receipts during the month, \$1,069,700; payments, \$1,093,040. Balance on hand April 1, \$29,657.

—The argument before the Supreme Court in Pennsylvania was set down for Friday, May 13.

was set down for Friday, May 13

Western Union Telegraph.—The Times reports of the suits against this company that Judge Speir, in the Superior Court, Chambers, granted the motion to continue the injunction in the suit of Rufus Hatch against the Western Union Telegraph Company, its directors individually, and the Union Trust Company, until the trial of the action. At the same time he denied the motion to vacate the injunction granted by Chief Justice Sedgwick in the suit of William S. Williams against the same defendants. Respecting the alleged violation of the latter injunction, he held that the defendants had, under the advice of counsel, committed a technical infraction of the Chief Justice's order. This infraction, however, he considered, worked no real harm to the plaintiff, Williams, but merely induced him to move for the punishment of the defendants for contempt. He therefore ordered the defendants to pay \$250 to the plaintiff or his counsel.

to move for the pnnishment of the defendants for contempt. He therefore ordered the defendants to pay \$250 to the plaintiff or his counsel.

The injunctions now continued in operation in the Hatch and Williams snits are for one purpose—to restrain the Western Union Company from issuing \$15,526,590 of its increased capital stock to its present stockholders, on account of dividends which those stockholders would have received if the surplus earnings of the company since 1866 had not been invested in real and personal property. They also restrain the Union Trust Company and the Western Union's directors from assisting in the distribution of such a stock dividend. Immediately after Chief Justice Sedgwick made his injunction order, the Western Union Company, acting under the advice of counsel, issned to its stockholders, through the Union Trust Company, certificates of indebtedness in lieu of the shares of stock which it was restrained from issuing. This proceeding was the ground of the motion to punish the defendants for contempt. In his opinion, Judge Speir says:—"The directors of the Western Union Company seem to have been advised, and therefore determined, to create this stock of over \$15,000,000, and divide it among its present stockholders, without any consideration for its issue. If there be no subscription made, or money or other consideration paid, or agreed to be paid, such stock, in my opinion, has no foundation to rest upon. It does not exist, and as such in law has not the characteristics of property. Capital stock, in any legal sense, can only be created by contract, whether it be by subscription or any other mode." * * * "Now, the directors say this stock is given to the holders of its present shares to represent its investment of earnings in the purchase and equipment of additional lines and general plant since the first day of Jnly, 1866. It is not stated or pretended that the stockholders of the company gave a dollar for its issne, nor can it be claimed that the additions which had been

gathered for fifteen years by any construction of the alleged agreements, or by any intendment of law, formed any consideration whatever for issning this stock to be distributed as proposed. These accumnlations already belonged to the corporation as existing assets, no dividend having been declared on them. No increased value was given to these properties by a declaration that \$15,000,000 of nnpaid stock had been issned." * * * "The law absolutely forbids the directors of the company to divide or in any way pay to the stockholders any part of the capital stock. Here the directors have undertaken to divide and pay stock unlawfully issned to their stockholders. If the issning of lawful stock is forbidden to be divided and paid to stockholders, what can be said in justification of issuing stock without any consideration, and dividing and paying it away? This act was clearly ultra vires, and under the law and the decisions, cannot be ratified by the stockholders, even athough all had, expressly and with full knowledge, assented or acquiesced in it." Judge Speir next points out what he considers the fundamental error of the defendants, as shown by their answers in the snits. This, he says, is in the allegations that if the surplus earnings had been divided among its stockholders, the Western Union would have had to borrow money to make purchases, and that the effect of dividing stock now would be the same as if the cash had been paid ont, and then invested in stock by the persons who received it. "Is it possible," says Judge Speir, "that a man who has a right to earnings can, of law, be forced to take his earnings in capital? Can a shareholder be forced to subscribe to capital? Ought the law to force him to believe or perceive that to give him capital is equivalent to his having had cash in the past? Sofar from the defense thns stated in the answer being sound, it seems as if its terms pointed to an irrehediable defeat of the proceedings proposed by the agreements."

The snits were set down for trial this week. gathered for fifteen years by any construction of the alleged

—Messrs. Fisk & Hatch, of 5 Nassau Street, are now doing an enormous business in Government securities. They also offer to investors the Chesapeake & Ohio Railroad securities and the Elizabethtown Lexington & Rig Sandy Railroad bonds. They say in their recent circular "With the completion, this year, of its Western connections and of the extension of its Eastern terminus to Newport News, together with arrangements recently made for extending its direct connections to Chicago, St. Louis, Cincinnati, Louisville, Memphis, and all the important interior centres of traffic, the Chesapeake & Ohio Railway will, within a few months, become a great trunk line, from the West, Northwest and Southwest, to the best harbor and shipping point on the Atlantic coast." The purchase money funding bonds, the total amount of which is limited to \$2,350,000, are a strictly first lien on the entire property, on which has been expended to this date upwards of \$50,000,000. The price has been advanced to 112 and accrued interest. The bonds of 1908, Series A, total issne of \$2,000,000, are secured on the main line of the road, in common with the bonds of Series B, by a mortgage, the total amount of which is \$17,000,000. Less than \$400,000 of the "A" bonds remain unsold, and the price has been advanced to 105 and interest.

—Messrs. C. H. Venner & Co., bankers, 52 Devonshire Street,

—Messrs. C. H. Venner & Co., bankers, 52 Devonshire Street, Boston, are offering for sale a limited amount of the New York & New England Railroad 6 per cent first mortgage bonds. The road on which these bonds are secured is one of the leading trunk lines of New England, and its management of ladvears has been one of the most enterprising. The whole issne of this mortgage is \$10,000,000, of which only \$1,500,000 remain unsold, and the company will have about 350 miles of road as soon as the branch to Fishkill on the Hudson River is completed; and that will be very soon. pleted; and that will be very soon.

—Mr. D. A. Moran, of 27 Pine Street, who is well-known to readers of the Chronicle as one of the prominent dealers in high-class investment securities, is now offering a choice 6 per cent bond at 108. These are the consolidated mortgage bonds of the Jackson Lansing & Saginaw Railroad, guaranteed unconditionally as to principal and interest by the Michigan Central Railroad Company. The bonds rnn ten years, matnring

September 1, 1891. —Messrs. E. A. Mauriac, Sidney Bishop and M. Morris Howland have just organized a firm under the name of E. A. Manriac & Co. at No. 7 Wall Street. Mr. Manriac was for 15 years in charge of the Government department of the Fourth National Bank, where he has had large experience in the purchase and sale of stocks and bonds, while the other members of the firm are well-known and active business men.

-Messrs. Hatch & Kendall organized their firm at the beginning of the present year, and rank among the active and enter-prising young houses that offer enstomers the best inducements for satisfactory attention to their business in all classes of securities.

—The Deadwood-Terra Gold Mining Company of Dakota has declared a dividend of \$40,000 for the month of April, payable at Wells, Fargo & Co.'s on the 20th. After paying the above dividend the company carries forward a cash surplus of \$240,000.

—Attention is called to the card of Messrs. Glazier, Kohn & Co. in this issue of the Chronicle. This firm have just taken a beautiful suite of rooms at 66 Broadway, and are prepared to attend to all business in stocks and bonds with promptness and care.

—The Homestake Mining Company of Dakota has declared its usual monthly dividend (for April), payable at Wells, Fargo & Co.'s on the 25th. Transfers close on the 20th.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, May 13, 1881.

The temperature has suddenly risen, and summer heat has been felt, creating much discomfort, but removing, in many sections, some apprehensions regarding crop prospects, which the cold and backward spring had caused to be felt. Business and trade are very good for the season of year. The arrival of grain from the Erie Canal next week promises an active renewal of our exports of cereals, to continue for several months.

Provisions have been daily declining as the market has lacked the snpport of the "long" interest in the West, and the legitimate demands have been quite moderate. A failure of some importance has occurred, and this created an nneasy feeling. To-day old mess pork, on the spot, \$16 and new, \$17; June sold at \$16 50; May, Jnne and July closed, \$16 50 bid and \$17 asked. Lard has declined sharply, though to-day there was a spasmodic effort toward recovery; western contract lots, on the spot, closed at 10.95c.; sales in the west, 10.52½c.; for fntnre delivery, May and Jnne sold at 10.85@10.92%@10.95c.; Jnly, 10.82%@10.92%c.; Angust, 10.80@10.92%c., all closing at 10.87 %c.; October, 10.80c.; seller year, 10.20@10.30c.; refined to the Continent, 11:10c. Bacon was dull at 83/4c. for long clear and 9c. for half-and-half. Cut meats are easier and dull. Beef firmer and fairly active at \$23 50@\$24 50 for extra city India mess. Beef hams, \$23. Butter rules steady at the close,

1879-80. 37,008,200 440,105,918 209,231,702 1880-81.

Rio coffee has been quiet most of the time, and closed dull and weak at a decline to 11c. for fair cargoes; mild grades have been very quiet as a rnle, and more or less depressed; Laguayra has sold the best, 4,000 bags being disposed of a few days ago. Some auction sales of coffee announced for next week indicate the slowness of the regular trade. Rice has been very quiet and is not very steady at the close, though no material change in prices can be quoted. Spices have been dull and pepper has latterly declined to 15c. for jobbing lots of Singapore. Tea has brought steady prices at both auction sales this week. Refining molasses has advanced to 36c for 50 deg. test, and there have been large transactions, including no less than 10,000 hhds. on Wednesday; grocery grades have been quite firm, especially the better grades of New Orleans, which are scarce, and a fair trade has been done. Raw sugar has been in good demand, and has advanced to 7%@7 7-16c. for fair refining, and 8%@8%c. for 96 deg. test centrifugal; but at these price the market closed quiet, business being restricted by the firmness of holders. Totallbs. 698,527,073 686,345,820 ness of holders.

COTTON.

FRIDAY, P. M., May 13, 1881. THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (May 13), the total receipts have reached 49.150 bales, against 45.535 bales last week, 47,729 bales the previous week and 60.718 bales three weeks since; making the total receipts since the 1st of September, 1880, 5,446,033 bales, against 4,689,164 bales for the same period of 1879-80, showing an increase since September 1, 1880, of 756,869 bales.

* Iacidded in this amount there are 1,040 bales at presses for foreign ports the destination of which we cannot tearn.

There was a material decline early in the week in cotton for future delivery, and since then the market has been variable and unsettled. Prices fell off during Saturday and Monday, and quite broke down on Tuesday morning, under reports of failures at Liverpool. From the inside prices of Tnesday there was some recovery, on demands to cover contracts, but without activity or bnoyancy. The weather was reported very favorable for the young cotton plant, and the movement of the current crop continned quite free; circumstances under which spasmodic efforts to promote an advance had little effect. To-day there was a decidedly better report from Liverpool, with cooler weather at the Sonth, and futnres advanced smartly in the morning, but the demand to cover contracts having been met, there was a strong re-action toward lower prices. Cotton on the spot declined 1-16c. on Monday and again on Tuesday, and the reduction led to more activity for export as well as home consumption. To-day there was an advance of 1-16c., and the close was at 10 1/2c. for middling uplands.

The total sales for forward delivery for the week are 405,100 bales. For immediate delivery the total sales foot up this week 8,303 bales, including 4,915 for export, 2,976 for consumption, 412 for speculation, and -- in transit. Of the above, 370 bales were to arrive. The following are the official quotations and sales for each day of the past week.

The above figures indicate an *increase* in the cotton in sight to-night of 560,878 bales as compared with the same date of 1880, an *increase* of 983,079 bales as compared with 1879 and an *in-*

an increase of 983,079 bales as compared with 1879 and an increase of 463,944 bales as compared with 1878.

In the preceding visible supply table we have heretofore only included the interior stocks at the seven original interior towns. As we did not have the record of the new interior towns for the four years, we could not make a comparison in any other way. That difficulty no longer exists, and we therefore make the following comparison, which includes the stocks at the nineteen towns given weekly in our table of interior stocks instead of only the old seven towns. We shall continue this double statement for a time, but finally shall simply substitute the nineteen towns for

towns given weekly in our table of interior stocks instead of the old seven towns. We shall continue this double statement for a time, but finally shall simply substitute the nineteen towns for the seven towns in the preceding table \(\frac{American}{2} \) \(\frac{1881}{24000} \) \(\frac{1880}{450,000} \) \(\frac{1879}{450,000} \) \(\frac{661,000}{661,000} \) \(\frac{2000000}{241,000} \) \(\frac{366,500}{366,500} \) \(\frac{46000}{450,000} \) \(\frac{450,000}{450,000} \) \(\frac{461,000}{450,000} \) \(\frac{341,000}{366,500} \) \(\frac{461,476}{320,500} \) \(\frac{294,545}{320,500} \) \(\frac{321,032}{3000} \) \(\frac{6000}{6000} \) \(\frac{1}{1000} \) \(\frac{6000}{1000} \) \(\frac{1}{1000} \) \(\frac{1}{1000

The imports into Continental ports this week have been

11,300 bales.

These figures indicate an *increase* in the cotton in sight tonight of 555,809 bales as compared with the same date of 1880, an *increase* of 1,035,668 bales as compared with the corresponding date of 1879 and an *increase* of 516,937 bales as compared with 1878.

AT THE INTERIOR PORTS the movement—that is the receipts and shipments for the week, and stocks to-night, and for the corresponding week of 1880—is set out in detail in the following

	Week end	ding May	13, '81.	Week end	ling May	14, '80.

ins year's figures estimated.

The above totals show that the old interior stocks have decreased during the week 10,585 bales, and are to-night 4,228 bales more than at the same period last year. The receipts at the same towns have been 3,564 bales more than the same week

RECEIPTS FROM THE PLANTATIONS.—The following table is prepared for the purpose of indicating the actual movement each week from the plantations. Receipts at the ontports are sometimes misleading, as they are made up more largely one year than another, at the expense of the interior stocks. therefore, a safer conclusion through a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Sonthern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the out-ports.

The above statement shows

The above statement shows—

1. That the total receipts from the plantations since Sept. 1 in 1880-81 were 5,583,378 bales; in 1879-80 were 4,857,485 bales; in 1878-79 were 4,409,532 bales.

2. That, although the receipts at the ont-ports the past week were 49,150 bales, the actual movement from plantations was only 30,517 bales, the balance being taken from the stocks at the interior ports. Last year the receipts from the plantations for the same week were 14,135 bales and for 1879 they were 7,600 bales.

WEATHER REPORTS BY TELEGRAPH.—The weather at the south during the past week has been generally favorable. Planting is about completed in most sections and the crop is developing promisingly.

Galveston, Texas.-It has been showery on two days the past week, the rainfall reaching one inch and eleven hundredths. Rain everywhere throughout the State has been generally seasonable, but somewhat excessive in a few sections. thre is doing well, but there are some complaints that weeds are growing so fast that they are becoming very troublesome, and that labor is scarce. Everything is doing reasonably well. The thermometer has ranged from 69 to 82, averaging 76.

Indianola, Texas.—We have had showers on three days the past week, with a rainfall of eighty-four hundredths of an inch. Crops are doing well enough. The thermometer has averaged 77, ranging from 64 to 85.

Corsicana, Texas. - We have had light showers on two days the past week, the rainfall reaching nineteen hundredths of an inch. Cotton is coming up well and other crops are promising. Average thermometer 76, highest 89, lowest 63.

Dallas, Texas.-It has been showery on one day the past week, with a rainfall of twenty-five hundredths of an inch. season of late has been favorable, and farmers are busy and in better spirits. All crops promise well for so early in the season. Wheat is turning out better than hoped for. The harvest will soon begin. The thermometer has ranged from 63 to 89, averaging 76.

Brenham, Texas.-It has rained on two days the past week, the rainfall reaching two inches. 'The rainfall was harder than desired, but no serious damage has been done. All crops look

reasonably promising, though some are in the grass. The thermometer has averaged 78, ranging from 65 to 86.

Waco, Texas.—It has rained hard on two days the past week, the rainfall reaching two inches and twenty-five hundredths. We are having too much rain, but no serious damage has been done. Young crops are doing as well as could be expected. Wheat is more promising. Average thermometer 77, highest 88 and lowest 64.

and lowest 64.

New Orleans, Louisiana.—It has rained on three days the past week, the rainfall reaching one inch and forty hundredths. The thermometer has averaged 75.

Shreveport, Louisiana.—The first three days of the past week were rainy and cloudy, but since then the weather has been generally fair and warm. The rainfall reached three inches and seventy-eight hundredths. The roads are in a fair condition. The thermometer has ranged from 66 to 90, averaging 78.

Vicksburg, Mississippi.—We have had rain on two days the past week, doing much good generally.

Columbus, Mississippi.—It has been showery on three days the past week, with a rainfall of sixty-three hundredths of an inch. We are having too much rain. The cotton plant looks

the past week, with a rainfall of sixty-three hundredths of an inch. We are having too much rain. The cotton plant looks strong and healthy.

Little Rock, Arkansas.—Friday, Saturday, Sunday and Monday of the past week were cloudy, and Thursday fair, with rain on each day. The rainfall reached one inch and 79 hundredths. Tuesday and Wednesday were clear. The thermoneter ranged from 62 to 84, averaging 71.

Nashville, Tennessee.—We have had rain on three days the past week, with a rainfall of fifty-six hundredths of an inch. The thermometer has averaged 69, ranging from 61 to 88.

Mobile, Alabama.—It has been showery on two days the past week, with a rainfall of fifty-three hundredths of an inch. The crop is developing promisingly. We have secured a good stand of cotton and the plant looks strong and healthy. Average thermometer 77, highest 88, lowest 66.

Montgomery, Alabama.—We have had rain on two days the past week, the rainfall reaching sixty-fonr hundredths of an inch. The crop is developing promisingly and the plant looks strong and healthy. The thermometer has averaged 77.

Selma, Alabama.—The weather has been warm and dry all the past week. The crop is developing promisingly and the plant looks strong and healthy. The thermometer has ranged from 62 to 93, averaging 78.

Madison, Florida.—The weather has been warm and dry all the past week. Planting is abont completed in this neighborhood. Average thermometer 83, highest 90, lowest 76.

Macon, Georgia.—We have had no rain the past week. The thermometer has ranged from 56 to 85, averaging 72.

Columbus, Georgia.—It has rained on two days the past week, the rainfall reaching one inch and forty-eight hundredths. The thermometer has ranged from 67 to 90, averaging 80.

Savannah, Georgia.—It has rained on one day the past week, and the balance of the week has been pleasant. The rainfall reached eighteen hundredths of an inch. The thermometer has averaged 73, ranging from 64 to 84.

Augusta, Georgia.—The weather has been warm and dry all the past week.

averaged 73, ranging from 64 to 84.

Augusta, Georgia.—The weather has been warm and dry all the past week. Accounts are good. Rain is needed, but the crop is developing promisingly. The thermometer has ranged from

Sto 87, averaging 72.

Charleston. South Carolina.—We have had light showers on two days the past week, the rainfall reaching but one hundredth of an inch. Average thermometer 70, highest 83 and lowest 59.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock May 12, 1881, and May 13, 1880.

	May 1	2. '81.	May 1	3, '80.
		Inch.	Feet.	Inch.
New OrleansBelow high-water mark .		6	1	10
MemphisAbove low-water mark	. 33	7	26	10
NashvilleAbove low-water mark		7	5	10
ShreveportAbove low-water mark	. 11	9	14	0
Vicksburg Above low-water mark		6	40	8

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

EUROPEAN COTTON CONSUMPTION TO MAY 1.—We have received by cable this week Mr. Ellison's cotton figures, brought down to May 1. Mr. Ellison each month revises his last year's statements, the revision being rendered necessary in part because of a change in average weights, and in part because the comparison is not always made with the same number of days. On account of this revision we now have included in our cable the totals for last year as well as the figures for this year, so that the reader may have a correct comparison. It will be seen that, notwithstanding the dull trade reported, Enropean consumption is at present at a higher rate than it was during previous months. In fact our cable states that Mr. Ellison has added 1,000 bales per week to Great Britain and 1,000 bales to the Continent, for the whole of this season, to his previous estimate. These facts appear below. bnt we first give spinners' takings in actual bales and ponnds since October 1, with the average weight of bales for the two seasons.

From Oct. 1 to May 1.	Great Britain.	Continent.	Total.
For 1880-81.		101	
Takings by spinnersbales	1,876,390	1,677,020	3,553,410
Average weight of bales	453	435	444
Takings in pounds	850,004,670	729,503,700	1,579,508,370
For 1879-80.	. 17		
Takings by spinnersbales	1,823,710	1,613,720	3,437,430
Average weight of bales	450	432	441
Takings in pounds	820,669,500	696,127,040	1,516,796,540

According to the above, the average weight of the deliveries. in Great Britain is 453 pounds per bale to May 1, which is the same as the average reported to April 1. The Continental deliveries average 435 ponnds, against 439 ponnds last month., The. consumption the past month has been, in Great Britain, 276,000 bales (or 69,000 bales per week), and on the Continent, 220,300 bales (or 55,000 bales per week), as stated below. The follow.

ing table we have revised in accordance with Mr. Ellison's change in consumption noted above, and give the stock held by the mills, their takings and their consumption each month since October 1, all reduced to bales of 400 pounds each for this season and last season.

Oct. 1 to May 1.		1880-81		-	1879-80.

Spinners' stock Feb. 1	105,	155,	260,	148,	157,	305,	
Takings in February.	289,	313,	602,	335,	264,	599,	
Total supply	394,	468,	862,	483,	421,	904,	
Consumption in Feb.	276,	220,	496,	262,	208,	470,	
Spinners' stock Mar. 1	118,	248,	360,	221,	213,	434,	
Takings in March	335,	310,	645,	278,	240,	518,	
Total supply	453,	558,	1,011,	499,	453,	952,	
Consumption in Mar.	345,	275,	620,	327.	259,	586,	
Spinners' stock Apr. 1	108,	283,	391,	172,	194,	366,	
Takings in Aprii	265,	263,	528,	260,	284,	544,	
Total supply	373,	546,	919,	432,	478,	910,	
Consumption in April	276,	220,	496,	262,	206,	468,	
Spinners' stock May 1	97,	326,	423,	170,	272,	442,	

A more striking comparison with last year is reached by bringing together the above totals and adding the average weekly consumption up to this time for the two years.

Oct. 1 to May 1.		1880-81.		1	1879-80.			
Bales of 400 lbs. each. 000s omitted.	Great Britain	Conti- nent.	Total.	Great Britain	Conti- nent.	Total.		
Spinners' stock Oct. 1. Takings to May 1	27, 2,125,	137, 1,824,	164, 3,949,	27, 2,052,	94, 1,740,	121, 3,792,		
SupplyConsumption	2,152, 2,055,	1,961, 1,635,	4,113, 3,690,	2,079, 1,,909	1,834, 1,562,	3,913, 3,471,		
Spinners' stock May 1	97,	326,	423,	170,	272,	442,		
Weekly Consumption. 00s omitted.			-					
In October	68,0	54,0	122,0	58,0	50,0	108,0		
In November	68,0	54,0	122,0	62,0	50,0	112,0		
In December	68,0	54,0	122,0	64,0	51,0	115,0		
In January	68,5	54,5	123,0	65,5	52,0	117,5		
In February	09,0	55,0	124,0	65,5	52,0	117,5		
In March	69,0	55,0	124,0	65,5	52,0	117,5		
In April	69,0	55,0	124.0	65,5	52,0	117,5		

The foregoing shows that the weekly consumption in Enrope for April was 124,000 bales, of 400 pounds each, against 117,500 bales for the same month of 1880.

JUTE BUTTS, BAGGING, &c.—Bagging has met with a good demand, and some transactions are reported for forward delivery on speculative account. The jobbing trade has also been good, and a considerable quantity of stock has been placed. Prices continue steady, and sellers are still quoting 9½c. for 1½ lbs., 10c. for 2 lbs. and 10½@11c. for standard grades. Into butts are in better demand, and there have been sales of about 3,000 bales at 2½@3c., as to quality. The close is firm, and paper quality is quoted at 2 11-16@2¾c., while spinning grades are held at 2½@3c., with most sellers naming the higher figure.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT .-A comparison of the port movement by weeks is not accurate, s the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may onstantly have before him the data for seeing the exact relative movement for the years named. The movement each month since September 1 has been as follows:

Monthly		Year Beginning September 1.						
Receipts.	1880.	1879.	1878.	1877.	1876.	1875.		
Sept'mb'r	458,478	333,643	288,848	98,491	236,868	169,077		
Ootober	968,318	888,492	689,264	578,533	675,260	610,316		
Novemb'r	1,006,501	942,272	779,237	822,493	201,392	740,116-		
Decemb'r	1,020,802			900,119	787,769	821,177		
January .	571,701	647,140	618,727	689,610	500,680	637,067		
February.	,		,	472,054	449,686	479,801		
March	476,582	, ,		340,525	182,937	300,128:		
April	284,246	158,025	167,459	197,965	100,191	163,593		
	5,359,356 of tot. port		4,307,978	4,099,790	3,834,786	3,921,275-		
receipts	April 30	92.74	96.86	94.34	94.96	93.56		

This statement shows that np to April 30 the receipts at theports this year were 720,489 bales more than in 1879-80 and 1,051,378 bales more than at the same time in 1878-79. By adding to the above totals to April 30 the daily receipts since that time, we shall be able to reach an exact comparison of the movement for the different years

200 date of our of

	ts May 13	9	3.69	97.73	95.39	95.79	94.71				

This statement shows that the receipts since Sept. 1 np to-to-night are now 759,759 bales more than they were to the sameday of the month in 1880 and 1,099,833 bales more than they were to the same day of the month in 1879. We add to the table the percentages of total port receipts which had been received to-May 13 in each of the years named.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The figures which are now collected for us, and forwarded by cable each Friday, of the shipments from Calentta, Madras, Tuticorin, Carwar, &c.. enable us, in connection with our previously-received report from Bombay, to furnish our readers with a full and complete India movement for each week. We first give the Bombay statement for the week and year, bringing the figures down to May 12.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

	Shipm	ents this	week.	Shipm	ents since	Receipts.		
Year	Great Brit'n.	Conti- nent.		Great Britain	Conti- nent.	Total.	This Week.	Since Jan. 1.
1880 1879	9,000	18,000 12,000	27,000 12,000	234,000 125,000	325,000 280,000 206,000 290,000	514,000 331,000	50,000 50,000	742,000 730,000 543,000 631,000

According to the foregoing, Bombay appears to show a decrease compared with last year in the week's receipts of 1,000 bales, and an increase in shipments of 11,000 bales, and the shipments since January 1 show a decrease of 14,000 bales. shipments since January 1 show a decrease of 14,000 bales. The movement at Calentta, Madras, Tuticorin, Carwar, &c., for the same week and years has been as follows.

CALCUITA, MADRAS, TUTICORIN, CARWAR, RANGOON AND KURRACHBE.

	Shipm	ents this	week.	Shipments since January 1.				
Year.	Great Britain.	Continent.	Total.	Great Britain.	Conti- nent.	Total.		
1881 1880 1879	8,000 9,000	5,000 4,000	13,000 13,000	144,000 87,000 15,000	47,000 58,000 34,000	191,000 145,000 49,000		

For the past few weeks we have omitted from the above table (Calcutta, Madras, &c.,) this year's weekly figures, as we found there were inacouracies in them as cabled to us. We are, however, making new arrangements, under which we hope not only to prevent errors, but also to greatly improve this feature of our report.

The above totals for this week show that the movement from the ports other than Bombay is — bales — than for the same week last year. For the whole of India, therefore, the total shipments this week and since Jannary 1, 1881, and for the corresponding weeks and periods of the two previous years, are as follows.

EXPORTS TO EUROPE FROM ALL INDIA.

Shipments	18	381.	18	380.	1879.		
to all Europe from-	This week.	Since Jan. 1.	This week.	Since Jan. 1.	This week.	Since Jan. 1.	
Bombay	38,000	500,000	27,000 13,000			331,000 145,000	
Total	38,000	500,000	40,000	703,000	25,000	476,000	

This last statement affords a very interesting comparison of the total movement for the week ending May 12, and for the three years up to date, at all India ports.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, May 12.	1881.		18	380.	1979.		
Receipts (cantars*)— This week Since Sept. 1	2.7	7,000 40,500	3,2	00,500	6,000 1,577,000		
	This week.	Sinee Sept. 1.	This week.	Sinee Sept. 1.	This week.	Since Sepl. 1.	
Exports (bales)— To Llverpool To Continent		227,250 139,632		283,200 169,835		161,000 76,500	
Total Europe	5,052	366,852		453,035	4.000	237,500	

This statement shows that the receipts for the week ending May 12 were 7,000 cantars and the shipments to all Europe were 5,052 bales.

MANCHESTER MARKET.—Onr report received from Manchester to-night states that prices for twists and shirtings are unchanged and that the market is hardening. We give the prices of to-day below, and leave previous weeks' prices for comparison:

	1881.							1480.

THE EXPORTS OF COTTON from New York this week show an increase, as compared with last week, the total reaching 14,134 bales, against 12,449 bales last week. Below we give our usual table showing the exports of cotton from New York, and their direction, for each of the last four weeks; also the total exports and direction since September 1, 1880, and in the last column the total for the same period of the previous year:

EXPORTS OF COTTON (BALES) FROM NEW YORK SINCE SEPT. 1. 1880.

Shipping News.—The exports of cotton from the United States the past week, as per latest mail returns, have reached 60,058 bales. So far as the Sonthern ports are concerned, these are the same exports reported by telegraph, and published in the Chronicle last Friday. With regard to New York, we include the manifests of all vessels cleared up to Wednesday. night of this week:

Tolal	bales.

Included in the above totals are from Mobile to Cork, 1,771 bales; and from Galveston to Vera Cruz, 650 bales.

Below we give all news received to date of disasters to vessels carrying cotton from United States ports, etc.:

CITY OF NEW YORK, steamer, from New York, April 22, for Liverpool, and steamer Palestine, from Boston, at Liverpool, have been in collision. The City of New York had her rail damaged, and the Palestine lost her bowsprit and sustained other damage.

ADRIANNA, ship (Br.), before reported. Barge Howard, engaged for some time wrecking the ship Adrianna, which was wrecked on Galveston bar some mouths since, arrived at Galveston, May 1, with 100 bules of cotton which were taken from the stranded ship. The work of removing the cotton is now more easily accomplished.

Cotton freights the past week have been as follows:

BREADSTUFFS.

FRIDAY, P. M., May 13, 1881.

The changes in the flour market have been quite unimportant during the past week. The demand has continued moderate, the supplies not excessive, some of the low grades are still scarce, and prices vary but little; the teudency, however, being slightly upward for the grades most in request. Rye flour, in better supply, shows further depression. Corn meal is scarce and held higher. To-day the market was dull and weak.

The wheat market has been quite variable iu tone and prices. Extremely low rates of ocean freights—1½d. per bushel to Liverpool and 2d. to London and Glasgow—have continued to stimulate the current export demand, but the speculation in futures has felt the effect of a probable accumulation of supplies in June, and of improving crop reports. Yesterday No. 2 red winter sold at \$1 27@1 27½ on the spot, \$1 24@1 24% for May, \$1 21¼@1 21½ for June, \$1 19@1 19¼ for July, and No. 1 white at \$1 26@1 26½ on the spot, \$1 22¾@1 23 for May and \$1 19¾ for June. Spring wheat remains nearly nominal. No. 2 has sold in a small way at \$1 24@1 26, and yesterday No. 1 spring brought \$1 28. To-day prices of winter wheats fell off one cent on the spot and ½c. for futures; No. 2 Chicago spring was quoted at \$1 22 on the spot and \$1 20 for next week.

Iudian corn on the spot ruled firm until yesterday, when there was a decline, and the whole market was depressed. Exporters held off, and the prospect of the early arrival of large quantities from the Caual had a tendency to unsettle the market. No. 2 mixed sold at 61c. on the spot, 58c. for next week, 56½c, for all May aud 54¼c. for June. The weather, though very warm, has been rather too dry for young corn in Sonthern latitudes. To-day the whole market was easier. Steamer No. 2 mixed sold at 58¼c. on the spot, and sail No. 2 for June at 54c.

Rye has brought very full prices, but has not sold in large quantities.

Barley is entirely nominal. Oats have been variable, and yet without important changes. To-day the market was firmer, and No. 2 graded sold at 45%c. for mixed and 53c. for white, and No. 2 mixed sold at 45%c. for June.

THE DRY GOODS TRADE.

FRIDAY, P. M., May 13, 1881.

A quiet tone has prevailed in the dry goods trade during the past week, and yet a fair average business for the time of year was transacted by package honses and jobbers. The demand at first hands was mostly of a hand-to-mouth character, but some important sales of prints and ginghams were effected by means of price concessions, and fair orders for heavy woolens were placed (for future delivery) by the clothing trade. Large quantities of fabric-gloves and Canton mattings were distributed through the medium of the auction rooms, but the former brought low and unremnnerative prices. The activity of the retail trade in many parts of the country was reflected in a steady demand for re-assortments, and a very fair distribution of seasonable goods was therefore effected by most of the leading jobbers.

Corron Goods.--The exports of cotton goods from this port to foreign markets, for the week ending May 10, were 2,354 packages (making the total shipments since January 1, 48,863 packages, against 32,946 for the corresponding time last year), including 912 to Great Britain, 490 to Brazil, 439 to Argentine Republic, 192 to Hayti, 77 to Venezuela, 73 to Hamburg, &c. There was a moderate movement in leading makes of plain and colored cottons from agents' hands, but low-grade fabrics were mostly quiet, save in the case of brown and bleached goods, in which a fair business was stimulated by price concessions. Prints were in irregular demand, but there was a steady inquiry for small parcels of the best makes, and some large sales of "off styles" were made at relatively low figures. Print cloths were in fair demand, but a fraction lower, closing at 311-16c. for extra 64x64s, 356c. for standard 64x64s and 3/4c. for 56x60s. Printed lawns, wide prints, piques and cotton dress goods were quiet with agents, but a fair business was reported by jobbers. Ginghams continued in good request, and the best standard makes are firmly held because of the light supply.

Domestic Woolen Goods.—There has been a fair inquiry for heavy clothing woolens, resulting in a moderately increased business, considerable orders for fancy cassimeres and suitings, worsted coatings, &c., having been recorded by manufacturers. There was a moderate movement in leading makes of plain and

worsted coatings, &c., having been recorded by manufacturers' agents. Overcoatings continued to move steadily on account of back orders, but new dealings were limited in amount. Spring cassimeres and worsteds ruled quiet in first hands, but a satisfactory distribution of such fabrics was made by cloth jobbers, who now control stocks of many makes that have recently been closed out by agents. Kentucky jeans continued Hardwaro...

quiet, and there was an irregular and, on the whole, singglsh movement in satinets. For colored blankets and flannels there was rather more inquiry by early bnyers, but few transactions were reported. Worsted dress goods, shawls, carpets, hosiery and underwear ruled quiet with the package honses, but a fair trade in these goods was done by jobbers.

FOREIGN DRY GOODS have been mostly quiet with importers, as is usually the case at this advanced stage of the season, but prices of the most staple fabrics are without material change. Grenadines, buntings and other light dress goods were jobbed with more freedom, owing to the prevailing warm weather, but most other imported fabrics were more or less quiet. quiet, and there was an irregular and, on the whole, slngglsh

Importations of Dry Goods.

The importations of dry goods at this port for the week ending May 12, 1881 and since January 1, and the same facts for the corresponding periods of 1880, are as follows:

SALE OF BONDS OF CHOTEAU COUNTY MONTANA TERRITORY.
Pursunnt to an act of the Legislative Assembly of the Territory of Montana, entitled "An Act to provide for the funding of the outstanding indebtedness of Choteau County, Montana Territory, approved February 23, 1881, the Board of County Commissioners of said County will offer for sale at Public Auction, at the County Clerk's Office, at FORT BENTON, CHOTEAU COUNTY, MONTANA TERRITORY, on the first day of June, A. D. 1881, at 1 o'clock P. M., THIRTY THOUSAND DOLLARS of Choteau County Coupon Bonds. Sald bonds are due at the pleasure of said county ufter FIVE years, and redeemable in TEN years, and bear interest at the rate of SEVEN per cent per annum, the interest payable semi-annually, on the presentation of the proper coupon, nt the office of the Treasurer of said County, or at some designated bank in New York City, nt the option'of the holder; said bonds shall be of the denomination of ONE HUNDRED Dollars and ONE THOUSAND Dollars, and will be issued upon the first day of July, A. D. 1881, but will not be sold for less than par.

The said Board of County Commissioners will also, at the same time and place in pursuance of an act of the Legislative Assembly of the Territory of Montana, entitled, "An Act to enable the County of Choteau to erect a jail," approved February 22, 1881, offer for sale to the highest bidder, for each, TWELUE THOUSAND (spears, bearing interest, and interest payable in FITTEEN years, baring interest, and interest payable in the same manner, no the same restrictions as therein provided.

By order of the Board this 24th day of March, A. D. 1881.

Attest: JNO. W. TATTAN,

Ex Off, Clerk of Board.
