NOTICE TO INVESTORS:

Wo offer for sale a limited amount of Richmond & Danville Railroad Six Por Cent Gold Bonds, due in 1915, at par and accrued interest. The honds are In 1915, at par and accrued interest. The honds are secured by the consolidated mortgage on the Richmond & Danville Ric. and the Piedmont Ric., and the lease of the North Carolina Raliroad. We can-confidently recommend these honds, as the aunual report for the year ending Sept. 30, 1830, showed that the company had reduced lis debt over \$450,000 during the two preceding years, besides adding largely to the rolling stock and machinery; also purchasing 6,300 tons of steel rails. For seven months ending 30th April, 1831, the net receipts exceeded \$240,000, equal to about 64 per cent on its capital stock, after paying interest, rents, and all other fixed charges, besides pnying large amounts for equipment, steel rails and additional workshops.

THOS. BRANCH & CO.,

THOS. BRANCH & CO.,

Richmond, Virginia.

The receipts for carrying malis last April show an increase of over 100 per cent over same month last year and from freight of 39 per cent. Previous to 1st of May 40 per cent of the Atlanta & Charlotte freight went via the North Carolina Central RR; now all lis through freights go over the Richmond & Danvillo Rallroad, which will add largely to its

PENNSYLVANIA RAILROAD COMPANY TREASURER'S DEPARTMENT, PHILADELPHIA, May 2, 1881.

The Board of Directors have this dny declared n Semi-Annual Dividend of FOUR PER CENT on the Capital Stock of the Company, clear of all taxes, payable in cash on and after May 23, to stock-

holders as registered on the books at 3 P. M. April 90, 1881. On May 28, dividends will be paid to women only; after that date they must awnit their turn with other stockholders.

The Board have also instructed the Treasurer to give public notice that the stockholders will have he privilego of subscribing at par to the stock of the Company in the proportion of TWELVE AND ONE-HALF PER CENT of the number of shares registered in their names April 30, 1881, and those entitled to n fraction of a share can subscribe for a ful! share. All subscriptions must be made and paid for in full prior to June 15, 1881, and no sub-scriptions will be received after that date. The privilege of taking new stock may be sold by any stockholder, and blank forms of alloiment will be furnished upon application.

JOHN D. TAYLOR,

OFFICE OF THE CANTON COMPANY OF BALTIMORE, 28 SOUTH STREET, BALTIMORE, May 16, 1881.—Notice is hereby given to the slockholders of the Cunton Company of Baltimore that the Annual Meeting (required by their charter and by-laws) will be held at their office No. 28 South Street, in the City of Bultimore, on Wednesday, the Sth day of June next, at 12 o'clock noon, for the election of nine directors for the ensuing year.

The stock ransfer books will be closed on the 11th

nst. and will remain so until after the election.

The Philadelphia & New York Mutual FREIGHT LINE.

A company to be incorporated under the Steamship laws of the State of Now York for the purpose of running a fast freight line daily hetween New York and Philadelphia, in which they have the co-operation of a large proportion of the merchants requiring additional transportation facilities on the route, will bulld two A 1 iron steamships of high rate of speed. especially adapted to the requirements of the trade, and to withstand the heavy ice of the Deiaware River.

The two steamers will be completed by the end of the present year. They will cost, with the necessary terminal facilities, five hundred and fifty thousaud (\$550,000) doifars. To meet this the company has authorized the issue of four hundred thousand doilars (\$100,000) Registered Bonds, maturing after five years, and withiu ten years, from January 2, 1882, bearing SIX Per Cent interest, payahlo annuaily in New York, and secured by a First Mortgage upon

The Mercantile Trust Company lu the city of New York will act as Trustee of the Mortgage and Registrar of the Bonds.

It is confidently believed that the ilne will earn not less than \$300,000 yearly, net profit. The honds will participate in one half of the net earnings of the line, which will be paid as an extra dividend to the hondhoiders in addition to the fixed rate of 6 per cent. The honds wili he received in payment of freight charges at Ten Per Cent premium, after the line has been in operation one year.

The privilege of subscribing to a portion of the bonds at par is offered to those seeking an investment. They are of the denomination of \$500 each, and paymonts to he made as called for in instalments of one-fourth each, as the work progressos upon the vessels. Six per cent interest will be allowed from the date of each payment, and the honds will be delivered hy the trustees when the full amount of the subscription called for is paid in.

The books will be opened at the office of the undersigned on MONDAY, May 23d, and closed SATURDAY, May 28th, at 3. P. M. (with right of earlier closing reserved.)

(The customary preliminary deposit of 10 per cent should in each case accompany the subscription.)

MILEAGE.

Total...... 135·1

CONSTRUCTION AND EQUIPMENT. Fifty pound steel rail, both main line and sidings, iron bridges, solid masonry, rolling stock of the most approved construction.

ROUTE AND RESOURCES

The route of the road is from Lexington, Ky, to Huntington, W. Va., through the rich blue grass region of Kentucky, being the neck of the Chesapeake & Ohio route, and thus the most important link ia that whole vast system which is to-day extending itself to the Far West, Northwest, and particularly the Southwest, via the Paducah & Elizabethtown and the Paducah & Memphis railroads.

THROUGH TRAFFIC.

The Big Sandy and Chesapcake & Ohio route to the sea is not only nearly one huadred miles shorter than three of the older trunk lines, but its grades are for both East and West bound traffic much lighter, and fuel and railroad supplies are obtainable at an almost nominal price.

THE LOCAL TRAFFIC

of the Big Sandy route promises to be enormous. Opening to the world, as it does, a comparatively unsettled region, whose intrinsic treasures will be developed by the many branch roads aiready finished or in process of construction, all of which will be feeders to the main stem.

of workable size in the area tapped by this road are hardly surpassed in their average value by those of any other area of the United States. The carriage of the iron ore to already-existing furnaces will give a large and profitable business to the road.

LIMESTONE AND CHARCOAL add to the trafflo and furnish return hts, thus insuring loaded cars in both

LIMESTONE AND CHARCOAL
will add to the traffic and furnish return
freights, thus insuring loaded cars in both
directions.

Lumber, which abounds in great varieties in
virgin forests, live stock, corn, tobacco, fruit,
products of a rich and prosporous regiou, will
all contribute to swell the receipts.

Neither should the emigration likely to be
stimulated be overlooked, for the richness of
the soil, the healthfulness of the climate of
Kentucky, are proverbial.

The road only needs net receipts of \$210,000
to pay the iuterest on its bouds. We look for
more than that return from the local traffic
alone.

The necessary funds for the completion of this
read are assured, and work is rapidly progressing from Mount Sterling eastward and from
Ashiand westward. From Mount Sterling to
Lexington, and from Huntington to Ashland,
the road is in netive operation, trains running
daily. All the steel rail, fastenings and ties are
bought and on the ground. Fifteen new locomotives have been ordered and four hundred
new cars, preparatory to the opening of the
entire road.

We recommend these bonds as a safe iavestment security.

Chicago Milwaukee & St. Paul

RAILWAY COMPANY

Five Per Cent Gold Forty-Year Bonds. 1921. Due

SECURED. BY FIRST MORTGAGE UPON THE CHICAGO & PACIFIC WESTERN DIVISION SYSTEM OF THE COMPANY.

INTEREST PAYABLE SEMI-ANNUALLY IN NEW YORK IN GOLD ON JAN. 1 & JULY 1.

INTEREST PAYABLE SEMI-ANNUALLY IN NITHE CHICAGO MILWAUKEE & ST. PAUL RAILWAY COMPANY at the heginning of the current year owned and operated about 3,700 miles of railway.

To further complete and consolidate its system, and especially the Sonthwesteru portion of the same, the Company has acquired a number of connecting lines in the State of Iowa and in Dakotn, and is constructing a line of railway from Dubuque and Marion across the State of Iowa to Council Bluffs, opposite Omaha, with branches into Nebraska and Dakota, including three bridges across the Missouri and Mississippi Rivers. To provide means for these purposes the Company has determined to issue its bonds, secured by first mortgages, at the rate of \$20,400 PER MILE OF COMPLETED AND EQUIPPED ROAD, and further issues for three hridges, and for additional rolling stock when required by the increased traffic of the Company; and in case it becomes requisite by increased traffic, the Company may double-track the fine at not to exceed an additional hypothecation of \$3,000 a mile. The deed of trust to the Farmers' Loan & Trust Company STRIN. GENTLY provides that NO BONDS CAN BE ISSUED except for the aforenamed purposes WHEN ACTUALLY ACCOMPLISHED.

The Capital Stock of the Chicago Milwaukee & St. Paul Railway Company is—
In Preferred Stock. \$12,404,483 In Common Shares . \$27,808,744

time dividends on the common stock, which inter for 1879 amounted to 6 per cent, while for 1880 7 per cent was paid upon the common stock.

The A neat file cover is furnished at 50 cents; postage on the same is 18 cents. Volumes bound for subscribers at \$1 00. A complete set of the COMMERCIAL AND FINANCIAL CHRONICLE—July, 1865, to date—can be obtained at the office.

THE FINANCIAL SITUATION.

The extreme abundance of loanable funds the world over is the distinguishing feature of the present period. Ten days since tenders were received at the Bank of England for British Treasury bills for three and six months, and they were placed at so low a figure as to yield for the money only at the rate of 13 per cent per year. The explanation of these low rates there, is the total absence of commercial enterprise, a condition for which we see no cure until some definite settlement has been made of the socalled silver question.

This is of interest to us, chiefly because such a state of the market in London promotes a similar situation here, and furnishes a kind of guaranty of its continuance. For while it lasts, every recurrence of dear money in Wall Street is more than likely to be quickly responded to by an influx of European capital. In this connection the estimate of Mr. Burchard, Director of the Mint, of the gold coin and bullion now in the country, is very interesting.

to these Mint figures, it leaves us with the following gains as compared with 1879.

Gold Coin & Bullion.	May 2, 1881.	July 1, 1879.	Gain since July 1, 1879.
In Treasury In banks In circulation	94,000,000	\$135,000,000 35,000,000 116,000,000	\$35,000,000 59,000,000 140,000,000
Total	\$520,000,000	\$286,000,000	\$234,000,000

In the light of the foregoing the oxtreme case of money is no surprise; and when we add to the above, the disbursements of the Treasury, the constant production of gold which is going on, and the increase in bank circulation, silver certificates, &c., with a return of that period of the year when crop requirements are at a minimum, there seems to be not the slightest reason to anticipate interruption to the present speculation, through any want of loanable funds, for a long time to come. That our readers may have a basis upon which to estimate future additions to the currency, we have prepared the following, showing its past growth and approximately the present condition. Wo have omitted subsidiary silver and some lesser items from the statement.

Currency in United States.	May 2, 1881.	Jan 1, 1881.	July 1, 1879.
Gold	\$520,000,000	\$487,000,000	\$286,000.000
Silver*	33,000,000	30,000,000	15,000,000
Legal Tenders	346,681,000	346,681,000	346,681,000
National Bank Notes	351,501,342	343,219,943	328,224,197
Gold Bank Notes	1,099,225	1,135,260	1,467,500
Gold and Silver Certifi-			
eates outstanding	45,000,000	43,000,000	15,750,000
Total	\$1,297,281,567	\$1,251,036,203	\$993,122,697

* Silver includes only Standard and Trade silver dollars which are in actual circulation in the United States.

Here is an addition to our currency of over 46 millions since January 1, and over 300 millions since July 1, 1879. Bank circulation increased 5 millions last month, but will show a much larger increase this month. Gold production is proceeding at the rate of about 3 millions. monthly. One can scarcely expect to see speculation collapse in such a medium for supporting its life as this affords. During the past week money has loaned freely in Wall Street on stock collaterals at 3 per cent, and on governments at 2@21 per cent, with time loans at 4 per cent. The same or even greater plethora of loanable funds is naturally enough observable at St. Louis, Chicago, and other Western points, and the movement of currency to this centre from those sections is uninterrupted. Boston continues in a very limited way to draw upon New York, but that is the only important interior point to which money is being sent. The Treasury disbursements, in excess of the receipts, are large, chiefly for called bonds. Payments for the week by the Assay Office for domestic bullion-nothing having been received from Europe-We have just had such an influx of gold, and according amount to \$571,123. The Treasury operations for the

week ended May 19, exclusive of transfers of \$2,200,000, resulted in a loss, which is a gain to the banks, of \$2,600,780. The daily receipts by the Treasury for customs have been as follows.

		Consisting of—					
Date.	Dulies.	Gold.	U. S. Notes.	Silver Dollars.	Silver Certificates.		
May 13	\$392,834 64	\$198,000	\$12,000	\$1,000	\$181,000		
" 14	375,015 18	175,000	7,000		194,000		
" 16	504,064 86	251,000	10,000	1,000	242,000		
" 17	388,272 21	143,000	20,000	1,000	224,000		
" 18	495,252 45	207,000	15,000		274,000		
" 19	372,581 29	209,000	8,000		155,000		
Total	\$2,528,020 63	\$1,183,000	\$72,000	\$3,000	\$1,270,000		

The following table shows the net Sub-Treasury movement for the week ended the 19th, and also the receipts and shipments of gold and currency reported by the principal banks of this city. The net result will indicate very closely the gain in reserve by the banks this week, and it should be borne in mind that last week's statement was probably made on rising averages.

	Into Banks.	Out of Banks	Net.
Treasury operations, net	\$2,600,780	\$	\$2,600,780
Interior movement	1,987,000	239,000	1,748,000
· Total	\$4,587,780	\$239,000	\$1,318,780

The interior movement given in the above table embraces all the receipts and shipments of gold and currency reported to us by the banks for the week ended the 19th, which stated in our usual form were as follows.

Receipts at and Shipments from N. Y.	Received.	Shipped.
Currency		\$239,000
Total	\$1,987,000	\$239,000

The Sub-Treasury commenced this week to draw exchange on San Francisco, and two of the Canadian banks, and one or more of the city banks, deposited gold and took out exchange for remittance.

The stock market in its upward movement has, during the week, had several special favoring influences. One intended for the opposite effect (but of very little influence, because the Street estimated it at its true worth) was the entering of the great State of New York into the speculative arena. What good purpose, we would ask, can be served, should the Attorney-General succeed in his action against the elevated railroads. Remember that the people who made the money by issuing watered stock are, as a general thing, enjoying the profits of it, are no longer stockholders, and would delight to see the stock go very low so they can buy it in again. Suppose, then, the State could succeed in its declared purpose of having the charters of these roads adjudged forfeited, the companies pronounced insolvent, the whole system thrown into confusion and the stock a foot-ball in the market—what would not this community lose, and who would profit but these very same or other capitalists, capable of picking up the debris, and breathing into it again the breath of life? If the companies owe taxes which they ought to pay, proceed against them in the ordinary way by judgment and execution; but do not let us drag the name of this great State into the speculations of Wall Street.

As already stated, there have been this week several special influences favoring the market.. The Southwestern stocks were affected by the progress made toward the consolidation of interests; the Northern Pacifics have advanced on the establishment of harmonious relations resulting from a compromise between this company and the Oregon Navigation corporation; the telegraph stocks moved upward on

and the trunk-line stocks have risen in response to the report that the cutting of rates on east-bound business had been stopped. Of course, the speculation has extended to the low-priced properties; in fact, that has been a feature of the week. First one and then another of these stocks has been advanced, in many cases apparently for no other reason than that for the moment it supplied the demand for something in which to trade. The inference is that outside speculators are fully enlisted in the upward movement and that they are liberally buying almost anything that gives promise of a profit without much regard to its intrinsic

The plan for the continuance of the 5 and 6 per cent bonds at $3\frac{1}{2}$ per cent is, of course, proving to be, as every careful observer knew from the first it would, entirely successful. The time expired yesterday during which holders of the 6s could accept the proposition of the Department to extend the bonds, but the exact amount noticed for continuance will probably not be made known for some days. It appears, however, that less than 5 per cent of the whole will be presented for payment on the date of maturity, June 30. The Treasury Department has also been employing a double force of clerks examining the applications from holders of the 5 per cents sent in for continuance, and it is now anticipated that before Tuesday next all of the American holders of coupon bonds and a large proportion of the registered will request an extension. The time fixed in the Department circular for the receipt of applications does not expire until July 1st, but holders are of course anxious to get their notices in early so that their continued bonds will bear high numbers and consequently will be among the last called in for final redemption.

The anxiety to get these extended bonds is well reflected by the condition of the bond market during the week, which has been active and strong, with the principal trading in the 6s and 5s, which are of course wanted for continuance under the influence of the high price of 1033@ 103% for the "Windoms." The movement in the 4s appears to have halted for the moment. Bankers calculate that the "Windoms" will be of two classes—the one bearing date July 1st being continued from 6s, and the other, dated August 1st, continued from the 5 per cents.

The Bank of England lost £384,000 bullion during the week, some of which has gone to France, but probably the greater portion to the interior of Great Britain. The Bank of France gained 9,175,000 francs gold and 537,500 francs silver, and the Bank of Germany reports a decrease of 1,660,000 marks. The following shows the amount of bullion in each of the principal European banks this week, and at the corresponding date in 1880.

	May 19	, 1881.	May 2	0, 1880.
	Gold.	Silver.	Gold.	Silver.
	£	£	£	£
Bank of England	25,842,509		27,323,873	
Bank of France	24,640,232	49,768,030	32,711,423	49,117,412
Bank of Germany	9,118,758	19,180,232	9,735,666	19,471,334
Total this week	59,601,499			
Total previous week	39,638,891	68,795,511	70,425,850	68,451,944

The above gold and silver division of the stock of coin of the Bank of Germany is merely popular estimate, as the Bank itself gives no information on that point.

The foreign exchange market was firm in the early part of the week, grew heavy on Tuesday, and broke down on Wednesday and Thursday, the exceptional demand noticed last week having been supplied and there being more bills drawn against outgoing securities than were required for remittance for bonds imported. Bankers are now sending abroad some round lots of securities of comparathe announcement of a lease of the Northwestern company; tively new roads with a view of placing them in Europe at

the first favorable opportunity, and some of these are already being drawn against. The margin of profit for cable transactions is too small to admit of much being done, and in fact the rise in this market has carried prices above the London equivalent in many cases, as will be seen by the following.

NOTE.—The New York equivalent is based upon the highest rate for eablo transfers, which ordinarily covers nearly all charges, such as interest, insurance and commissions.

THE READING RAILROAD AGAIN.

We have received from a correspondent at Glasgow the following communication, which we give because it reflects in a certain degree the opinion entertained by a large portion of the British public with regard to the unfortunate complications in which the Philadelphia & Reading is at present involved.

To the Editor of the FINANCIAL CHRONICLE, New York:

SIR-I do not know that your columns are open to the uso of corres pondents, but the importance of the subject I am about to deal with emboidens me to offer this letter for insertion.

The remarkable events that have characterized the course of litigation in the U.S. Courts in the matter of the Philadeiphia & Reading Raiiway are subjects of criticism and alarm on this side. This line is undenbtediy earning more than enough to meet ail its interest, and, were it not for the untoward hitch of a year ago, would now be in high repute. True, during the trying time of depression which so severely strained American resources, it accumulated a heavy floating dobt. But it is also true that, with the authority of the supervising court, a scheme was formulated which led the shareholders to come forward with suffieieut monoy honorably to discharge the debt. But at this point, on a mere technicality, and basing their injunction on a single feature which they thought objectionable, and which all concerned were wifiing to ebliterate, the Court withdrew its sanotion, stuitified its own action, locked up all the funds provided against the new issue, and brought about a deadlock in the affairs of the company. This action was so nnealled for, that it is freely canvassed here whether the legal authorities, to whose acumen we are indebted for this decision, have been tampered with, or have uiterior purposes to serve. What makes the matter graver is the fact that the party at whose instigation this step was taken are said to be large holders of the floating obligations, and whose interest it is not to receive payment of the debt at present, when they have such undoubted security. There are other features of the ittlgation that are equally open to remark, but as they partake of the same characteristics, it is needless to refer to them. The whole course of events and the procedure throughout of the auti-Gowen party seem so unaccountable, except on one supposition, that that supposition is reluctantly being mooted on our exchanges. Cau it be that the days of railway "smashers" have not yet goue, and is it possible that an organized attempt is on foot to wreek the company, and let other concerns

Now, sir, I have traveled ou two occasions all over your great country, and have aimost unbounded faith in your future. But, with your valuted success and progress, you are yet too young to be independent of British capital; and the British capitalist is not yet reconciled to seeing his money played "ducks and drakes" with. I do not put the matter one whit too strong, and our leading journals on this side wili, by their comments, bear out the assertion that American railway credit will suffer seriously nuless a speedy way is found out of the ombroglio now existing. It behooves the Superior Courts that will presently weigh and revise the decision of the local benebes to be careful to deal justly and honorably in this matter, or the far-reaching consequences will be most serious to raiway credit in the States.

In reply to the above we wish to remark in the first place that our correspondent's strictures upon the action of the courts, and his insinuations as to the motives that governed that action, are alike unwarranted. The judges who have, in one form or another, had to pass upon this Reading matter, arc one and all absolutely above suspicion. On this side of the water no one has ever questioned their motives or doubted that in their decisions they were unmoved by any consideration except a strict regard for law and equity. Even the bitterest partisan

of Gowen would not think of intimating that their character was not above reproach or that they were not regarded as incapable of being improperly influenced. As for their predilections, it is more likely that the courts would be biased in favor of Gowen rather than against him. By local surroundings by a regard for Gowen whom they had appointed one of the receivers, and perhaps too by a feeling that the old managers might carry the company safely through if they were only given time and allowed to perfect their plans, the inclination of the judges would be apt to run strongly in the direction of the Gowen side. Yet, without doubt, neither bias nor prejudice had the slightest weight with them, and the only purpose they had "to serve" was a correct construction of the law.

Referring to the deferred-bond scheme, our correspondent says that the scheme was formulated under the authority of the Court and that subsequently the Court withdrew from it its sanction. There appears to be a slight mistake here. It cannot be said that the scheme was formulated with the authority of the Court. When the company failed, the property was placed in the hands of receivers by the United States Circuit Court at Philadelphia. It was not competent for the receivers to take any action affecting the company's finances without express authority from that Court. Mr. Gowen, desiring to relieve the company of its embarrassments, devised the deferredbond plan and asked the Court for permission to carry it into execution. Without expressing any opinion as to the plan itself, or even having the power to express any on such an application, the Court granted his petition (November 18, 1880). The application was purely a formal one, such as all receivers have to make, and the permission granted was equally formal. The purpose of the Court was to allow to the company the exercise, in its corporate capacity and upon its own responsibility, of all the privileges and powers conferred upon it by its charter, so as to enable it if possible to extricate itself from the difficulties by which it was surrounded.' As soon as it came to the knowledge of the Court that a different interpretation was being placed on the order, the Court took pains to declare very emphatically its true position, and by the order of February 14 revoked so much of the former order as was interpreted as giving to the measure the Court's approval.

In this later order it is expressly stated, what every lawyer knows, that it was not within the power of the court to authorize the scheme—that the power rested entirely with the stockholders, by and through the board of directors. But even the stockholders could not transcend the limits of their charter rights, or transgress the laws of the State of Pennsylvania. So the legality of the plan was yet to be determined. After mature considerationnecessitating further delay-the Court came to the conclusion that the deferred bonds were unlawful, inasmuch as being practically irredeemable they could not be regarded in the nature of a loan, and all the power the company had was to be found in its general authority to borrow money.

So our correspondent will see that the Court did not withdraw its sanction from the scheme, having never given it, and that therefore it did not "stultify its own action.". But our correspondent further says that the action of the Court in declaring the bonds illegal was uncalled for, which we infer to mean that as the plan seemed to offer an easy way out of the company's difficulties, the Court should not have interfered. There is no force in this argument. No matter how brilliant the idea may have been in itself, if the proposition was

not within the authority the Legislature had granted the company, why that was a fatal objection, and the sooner this flaw in it was discovered and laid bare the better for all concerned. Even our correspondent will have to admit that it is better that the illegality of the plan proposed has been detected now while the money is still intact, than later on when nothing should remain of the money. ing up of the funds of the subscribers is to be deplored, but it is a necessary incident to the work of settling the dispute. It may be, as our correspondent says, that all the subscribers were "willing to obliterate" the "single feature" on which the Court rested its objection to the scheme. It would not, however, have been wise for the Court, even if it had the authority, to have allowed such a change, as it could only have further complicated the affair and involved the company in endless disputes.

We agree with our correspondent that we are not yet in a position to play "ducks and drakes" with British capital, and we will add that we never wish to be. Furthermore, we also agree most heartily with him in thinking that in the interest of our railway credit it is very desirable that a speedy settlement should be arrived at. But, pray, who stands in the way of an adjustment with Mr. Gowen, with whom our correspondent sides? Who, indeed, were the prime movers against Mr. Gowen and his schemes? Certainly, Mr. Gowen has encountered very little opposition from American stockholders. If our-correspondent would blame any one he must blame his own countrymen or, more especially, the McCalmonts, who at the late election voted on over 200,000 shares, or pretty nearly onethird the entire capital of the company, and who have fought Mr. Gowen with a determination equalled only by the stubbornness with which Mr. Gowen has resisted them.

Now, we do not mean to say that the McCalmonts had not good ground for their action. On the contrary, since they were and are of the firm belief that Mr. Gowen is an unsafe man at the head of the enterprise, no other course would appear to have been open to them. Yet it is beyond dispute that it is not the American courts, as our correspondent imagines, which are to be held responsible for the legal webs that have been woven round Gowen and his schemes, but the action of the McCalmonts and their agents, who to protect, as they believed, their interests, made use of the courts, as they had a perfect right to do.

It is not necessary, therefore, to suppose that railroad smashers and wreckers are at work. The objection of the McCalmonts to Mr. Gowen is to be found in the career of that gentleman for ten years as the executive head of the Reading corporation. During that time it has been repeatedly shown that though possessed of great ability, capable of brilliant ideas and not lacking in daring—resolute and undeterred by even great obstacles—he does not always recognize the full import of any particular policy or act, and is often led astray by the extreme hopefulness of his nature. We have great admiration for the man, but, with the Messrs. McCalmonts, we doubt the wisdom of entrusting him any longer with the sole and undivided responsibility of managing this large concern.

One other point, and we have done with our correspondent. He says that the line is undoubtedly earning more than enough to meet all its interest charges. Let us see. According to the statement made by Mr. Gowen in December last, November being estimated (we have seen no later report) the net earnings of the Railroad and the Coal & Iron Company in 1880 amounted to \$8,785,586. The total of the fixed charges—interest, rentals, &c.—was \$9,972,230, showing a deficit of \$1,186,644; but the

relief afforded by scrip payments of interest was \$1,551,441, leaving an actual cash surplus of \$364,797. In the present year the relief on account of scrip will be \$1,257,365, or \$294,076 less than in 1880, and provision will besides have to be made for the sinking funds, which Mr. Gowen estimated at \$837,442. Altogether, then, \$1,131,518 more will have to be paid in cash in 1881 than in 1880. The net earnings of the two companies for the first four months of their fiscal year show an increase of \$288,152 on the corresponding four months of the previous fiscal year. Assuming (merely for the sake of illustration) that the same ratio of gain will hold good for the rest of the year, the Reading will have net earnings about \$850,000 above those for 1880. This would fall almost \$300,000 below the additional payments required, so that instead of a cash surplus on the year's operations, as in 1880, there would be just about enough to make both ends meet. If the increase in the net earnings were less than the amount taken (\$850,000) why there would be a deficit shown on the year's accounts, and this even after the relief afforded by the payment of \$1,257,365 in scrip. As the scrip payments diminish, the company's interest burden will Next year \$628,683 more will have to be earned for this reason, and in 1883 the full \$1,257,365 additional will have to be met. Our correspondent can judge for himself whether the line is undoubtedly earning more than enough to meet all its interest.

SALES OF NATIONAL BANK SHARES.

A well known provision of the National Banking Act forbids associations formed under it to loan upon, purchase or acquire their own stock except to prevent loss upon a debt previously contracted. Of course this provision makes wholly illegal any sale of shares to the bank; such a transaction can therefore be impeached, and in case of insolvency a receiver can recover the purchase money from the seller of the stock, and have him declared still to be a shareholder.

This is a pretty severe experience for one who has parted with his property, in ignorance of the law, when it was valuable, but wakes up to a knowledge of the law when the bank has failed and the stock is not only worthless but the owner liable, in its par value, for debts. A question has, however, arisen, whether an innocent person—that is, one not knowing and having no reason to suspect that a bank was a purchaser—can be proceeded against in this manner. If he can be so proceeded against, and if a transaction of that kind can be inquired into and impeached, all freedom in dealing in bank shares would be destroyed. And yet a very plausible argument was made in favor of that view, and a case has been in the courts ever since 1877 in which it was the sole point raised, and which has only recently been decided by the Supreme Court at Washington.

It seems that prior to May 16, 1877, a person named Lassin was owner of 85 shares of the National Bank of Missouri. He was not a director, and had no personal knowledge of the actual condition of the bank's affairs. On the day named he sold the shares to a broker, to whom he delivered his certificate with a blank transfer power indorsed upon it and signed, after the manner usual in making sales of stocks; and he received payment of the price. He was not informed of the name of the ultimate purchaser; the broker was, however, in fact acting for the president of the bank. The latter received the certificate—the transfer power being still blank—and gave to the broker his individual check for the price, which was duly paid. He was, however, in reality acting for the bank; and caused the transfer power to be filled

with the name of the bank's book-keeper by whom the stock was transferred to the president "as trustee;" and subsequent entries in the books, not necessary to be stated in detail, showed that the president held the stock as trustee of the bank, and was reimbursed for the cost of it out of bank funds. In June following, the bank failed and a receiver was appointed. This receiver, finding by the books that so recent a transfer of shares for the benefit of the bank had been made, without any necessity existing therefor to prevent loss upon a debt previously contracted, brought suit to annul the transaction.

The receiver's counsel argued that notwithstanding these facts this transaction was wholly void; that there was and could be no transfer of the stock, for there was no one who could legally take it, and hence the title remained in the seller. Furthermore, that the defendant being a stockholder had constructive notice of the condition of the bank, and of the part taken by the bank in the transaction, and that it could not therefore be a bona fide sale. Court has now, however, sustained the sale, and declared it valid and sufficient. The opinion by Justice Field states that the transferability of National Bank shares is not governed by different rules from those applicable to other corporations. The fact that he is a shareholder in the bank, or that a transfer power in blank is used, does not render the seller chargeable with knowledge of facts which may be known to the person whose name is ultimately written in the blank, or involve the seller in complicity with any fraudulent or improper purpose which such person may entertain. The name with which the blank may be ultimately filled does not affect the prior sale in any respect, but is a matter which concerns only the purchaser. As between seller and buyer the right to the shares vests on delivery of certificate with blank transfer power and payment of price. Transfer on the books is needful not for passing the title, but for other purposes, such as enabling the bank to identify its shareholders, protecting the seller against subsequent liability as stockholder, and the like. But as between the parties to a sale, delivery of the certificate with authority to the purchaser or any one he may name to make transfer on the books, and payment of price, are sufficient to constitute a sale of corporate shares.

The whole decision, therefore, rests upon the fact that Laffin did not sell his shares to the bank, nor know that they were bought in the interest of the bank, nor receive payment from the funds of the bank. He sold to the broker and was paid by the broker, and this completed the transaction so far as he was concerned. The validity of the sale so far as it affects him can not, consequently, be made to depend on the fact that some time afterward the name of a person was written in the blank transfer power, who was acquainted with the facts rendering the acquisition by the bank unlawful. The validity of a sale and its completeness must be determined by the open relation of the parties at the time.

CHICAGO BURLINGTON & QUINCY EARNINGS.

Since the publication last week of our monthly statement of earnings, we have received an abstract of the earnings and expenses of the Chicago Burlington & Quincy for March and for the first quarter of the year. The figures will be found to be extremely interesting. There is no other corporation of equal magnitude that publishes even occasionally a statement of the net results of its current business-that is, furnishes earnings and expenses eonjointly. The exhibit is especially welcome because

anxiety and great uncertainty as to what the railroads have really lost this year on account of the snow blockade and the other drawbacks of a very severe winter. The present return will remove the uncertainty as to this particular corporation, but is likely to increase the desire of the public to obtain information about other companies. Following is the statement.

	Ма	rch.	Jan. 1 to	March 31.
	1881.	1880.	1881.	1880.
Gross earnings Operating expenses	\$1,418,149 752,863	\$1,732,518 744,319	\$3,760,918 2,176,749	\$4,577,128 2,126,982
Net earnings	\$665,286	\$988,199	\$1,584.169	\$2,450,146

These figures embrace the accounts of the Burlington & Missouri River Railroad in Ncbraska in both years. They show that as compared with last year the company lost \$314,369 gross and \$322,913 net in March, and \$816,-210 gross and \$865,977 nct in the three months. presume there is no very material difference in mileage between the two years. As far as we are able to gather from the information at our command, the loss in net earnings on these lines for the three months in 1881 is thus a little greater than the gain in 1880 over 1879 on the same lines in the corresponding time, including in the latter year the Burlington & Missouri River in Nebraska, which was not then operated by the Burlington & Quincy. In other words, such has been the severity of the weather this year that the roads in the Burlington & Quincy system have not been able to earn as much in 1881 as in 1879.

As our readers know, Iowa is the section of country that appears to have suffered most from the effects of the adverse weather, and out of about 2,800 miles of road operated by the Burlington & Quincy 800 miles are in that Statc. Nebraska, too, suffered severely from the same cause, and here the company has over 800 miles more. Altogether, therefore, the Burlington & Quincy had threefifths of its entire mileage in territory where the conditions were especially unfavorable. In view of this, it is not surprising that the road should have lost heavily both in gross-and nct. Heavy as the loss is, however, it is not so large proportionately as is the loss on either the Burlington Cedar Rapids & Northern or the Des Moines & Fort Dodge, the figures of which we gave last week. Both these latter lie in the same afflicted section. The percentage of loss in net for the three months on the Burlington & Quincy is 351 per cent; on the Burlington Cedar Rapids & Northern it was 59 per cent, and on the Dcs Moines & Fort Dodge 46 pcr cent. Of course the last two are very diminutive concerns alongside of a gigantic corporation like the Burlington & Quincy; but they are useful for illustration and comparison on the point in question.

Inferentially, it might be supposed that other roads have a very poor, if not an equally unfavorable showing to make. But the inference is not warranted by the facts that have thus far come to hand. As regards the Southern, Southwestern, and even the Trunk lines, such a conclusion would be very decidedly at variance with the figures we presented last week. These figures showed. that the Pennsylvania and the Northern Central actually had larger net earnings this year than last, and that the St. Louis Iron Mountain & Southern and the Louisville & Nashville-fair representatives probably of the sections they traverse-fell but little behind. It follows that with reference at least to roads situated as these were during the winter months, there is little basis for apprehensions of very discouraging exhibits. To be sure, if our information were more extended, no doubt would remain about the matter; still it is not probable that we will err greatly there is in the public mind at the present time much if we assume that in general the roads not lying, in

whole or in part, within the stormy district, have done no worse than those already cited or than a few other roads in the same sections, given last week.

Even in the case of roads occupying to a certain extent the same territory as the Burlington & Quincy, it would a ppear likely that we will be on the safe side if we calculate upon their having sustained a much smaller diminution in net receipts, both relatively and absolutely, than it. We have already remarked upon the smaller percentage of decrease on the Burlington & Quincy than on the Burlington Cedar Rapids & Northern. This illustrates the correctness of the opinion, frequently expressed in these columns of late, that the net loss on any one road is to be reckoned not as if there had been a loss upon every part of the line but on the basis of the proportion of its total mileage which that road operated within the stormy section. Thus as the Chicago & Northwestern (taking that road as an example) lost in the first quarter of the year only \$265,372 in gross earnings, or about 7 per cent, while the Burlington & Quincy lost in the same time \$816,210, or pretty nearly 18 per cent, we are led to the conclusion that as respects net earnings too has the former suffered a much smaller falling off both in percentage and amount than the latter. And so the parallel might be extended to other roads-

From our own correspondent.

London, Saturday, May 7, 1881.

The money market has continued in an easy condition. The trade demand for accommodation is still upon a very moderate scale, and consequently, although some heavy instalments upon loans and public companies have been met, the demand for money has been greatly wanting in animation, and the rate of discount for three months' bills is only 2 per cent. The Treasury bills have been sold at a price which is equivalent to a discount rate of 134 per cent per anuum, and there is not at present much to bring forward in favor of dearer mouey. The commitments of the general public in connection with new loans and public companies fail to exercise any perceptible influence, and as the New York exchange has become more favorable to this country, au easy money market is looked forward to dnring the summer months. This fact, and the absence of any disturbing political rumors, more especially as far as colonial and foreign countries are concerned, promote confidence; but they fail to exercise any beneficial inflnence upon trade. The Stock Exchange has, however, been favorably affected, and consols have reached an unusually high point. It is constantly repeated that money is comparatively scarce, and that the low rates of discount are due to the fact that the requirements of the public iu the way of loans are upon a very restricted scale. It is evident, however, that there is a large supply of money seeking investment, for not only has a fair proportion of the public companies which have been introduced to public notice of late been taken up, but any loan for colonial or municipal purposes has been very extensively applied for. No difficulty is experienced in obtaining money for purposes perfectly legitimate,

and very little is encountered if company promoters advance plausible arguments. The ultimate result of the present demand for new loans and the shares of new companies is perhaps difficult to foresee, but there seems to be no doubt of the fact, judging chiefly from the easy condition of the money market, that although the uew company business has been very active during the last six months, the movement is still only in its infancy.

Notwithstanding the past week has embraced the "fourth," business in the discount market has, as we have stated, been extremely quiet, and the rate for three months' bills is not more than 2 to 2½ per cent; short loans on the best security are obtainable at 1½ to 1¾ per cent per annum. Annexed are the rates of discount for bills having various periods to run:

Tenders were received at the Bank of Englaud on Thursday for £1,476,000 in Treasury bills. The whole was allotted in three months' paper, tenders at £99 11s. 3d. receiving in full being equivalent to a discount rate of 134 per cent per annum

The Pennsylvania Railroad Company, through Messrs. Louis Cohen & Sons, anuonnce an issue of \$10,000,000 first mortgage 4½ per cent gold bonds, at the price of £208 per \$1,000 bond. £10 per boud is payable on application, and the last instalment on the 6th of October next. The principal and interest are payable in New York in gold, free of all State and Federal charges.

A meeting has been held this week of the Iron and Steel Institute, and in the address of the President the following statistics were given showing the recent development of the coal and iron trades:

PRODUCTION OF PIG IRON IN THE PRINCIPAL IRON-MAKING COUNTRIES OF THE WORLD IN 1869 AND 1880.

The consumption of spirits in this country and in the world has assumed very large proportions, though of late years, and certainly as far as this country is concerned, there has been a decided falling off, owing to diminished earnings on the part of the working classes, and to the temperance movements, which have effected a vast amount of good. At the same time, however, there is still a large consumption, and it is not new to be reminded of the fact that consumption of certain spirits is greater than the production. Spirits are now extracted from many commodities, and are converted into the marketable article according to the state of the demand. There is never any failure of a supply of Cognac, Irish or Scotch whisky, or gin; but as science has materially assisted the vendor, a large proportion of consumers is easily satisfied with the commodity it buys. On this subject, but in connection with brandy, a firm in the spirit trade has addressed a letter to the Times, of which the following is an extract:

"We venture to call attention to the remarkably small quantity of wine spirit (i. e., gennine brandy,) of late years produced in France; the total yield for the year 1880 is 48,000 hectolitres, equal to 1,056,000 English gallons. This small production is in a great measure due to the still unchecked ravages of the phylloxera.

"France in 1880 distilled spirit, produced from bcot, 9,500,000 English gallons; farinaceous substances, 9,000,000 gallons; molasses, 15,000,000 gallons; and imported from Germany potato spirit, 2,700,000 gallons. Total—36,200,000 English gallons, or about 35 times as much spirit as brandy; yot, in spite of the small quantity of wine spirit distilled. France was in 1880 able to export some 6,000,000 gallons of brandy.

spirit as brandy; yot, in spite of the small quantity of wine spirit distilled. Frunce was In 1830 able to export some 6,000,000 gallons of brandy.

"Now, in order to de this, France must have either heen providing for recent deficiencies in her hrandy vintages by using np accumulated stocks of past productive years, or she must have been shipping as brandy a beverage largely ndulterated with beet, matze or potate spirit,

"Which of these two theories is the more worthy of acceptance we leave to your readers to decide when they learn that since the vintage of 1878 no genuine brandles of the 1879 or 1880 vlutage could be chtained or quoted by the leading Cognae shippers, who have ceased to take orders for link brandy, while less scrupulous firms have been exporting as brandy a mixture of flavored spirit and the inferior growths of genuine brandy.

"Till quite undern times only gennine brandy was imported from Charcute (the port of the Cognae district), but now the well-carned repratation of this particular area in France is utilized to give a fictitious 'hali mark' to a liquid which is in no way entitled to the name of Cognae brandy."

A moderate quantity of vair beg fallen dwing the gallength of the country beginning the same of the cognae of the same of the cognae of the same of the cognae of the

A moderate quantity of rain has fallen during the week, but the weather has now become bright and clear, and there seems to be some prospect of a period of drought. Remarkably little rain has fallen during the last six weeks, and the result has been that the pastnres are very bare, though they have somewhat improved of late. The weather is favorable for the wheat crop, as the plant is, in most localities, well rooted; but should the weather continue dry, the prospect as regards spring corn, roots and grass will be far from enconraging. There has been a liberal importation of wheat and flour during the week, and the trade has in consequence been dull, at a decline in prices of about 1s. per quarter.

During the week ended April 30 the sales of home-grown wheat in the 150 principal markets of England and Wales amounted to 29,917 quarters, against 26,755 quarters last year, and 58,937 quarters in 1879; while it is computed that in the whole kingdom they were 119,700 quarters, against 107,100 quarters in the previous year, and 235,750 quarters in 1879. Since harvest the sales in the 150 principal markets have been 1,289,314 quarters, against 1,071,202 quarters last season and 1,917,801 quarters in 1878-9; the estimate for the whole kingdom being 5,157,300 quarters, against 4,325,020 quarters and 7,671,-200 quarters in the two previous seasons respectively. Without reckoning the supplies of produce furnished ex-granary at the commencement of the season, it is estimated that the following

quantities of wheat and flour have been placed upon the British markets since harvest.

	1880-1. Imports of wheat.ewt.38,439,895	1879-80. 41,731,103	1878-9. 33.093.942	1877-8. 39.193.892

Commercial and Miscellaneous News.

NATIONAL BANKS ORGANIZED.—The following-named national banks were organized this week:

2,524—The German National Bank of Cincinuati, Ohlo. Authorized capital, \$250,000; paid-in capital, \$250,000. Andrew Pfirrman, President; George H. Bohrer, Cashier.

2,525—The Third National Bank of Pittsfield, Mass. Anthorized capital, \$125,000; paid-in capital, \$125,000. Honry W. Taft, President; Ralph B. Bardwell, Cashler,

2,526—The National Bank of Kennett Square, Pa. Authorized capital, \$60,000; paid-in capital, \$40,000. John Marshall, President; D. Duir Philips, Cashier.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports of last week, compared with those of the preceding week, show an increase in dry goods and a decrease in general merchandise. The total imports were \$7,402,387, against \$10,605,789 the preceding week and \$11,638,245 two weeks previons. The exports for the week ended May 17 amounted to \$6,014,041, against \$7,123,664 last week and \$6,911,596 two weeks previous. The following are the imports at New York for the week ending (for dry goods) May 12 and for the week ending (for general merchandise) May 13; also totals since January 1:

FOREIGN IMPORTS AT NEW YORK.

For Week.	1878.	1879.	1880.	1881.
Dry Goods Gen'l mer'dise	\$850,060 3,081,746			\$1,402,217 6,000,170
Total	\$3,931,806	\$5,647,466	\$9,480,455	\$7,402,387
Dry Goods Gen'l mer'dise	\$33,935,310 78,796,827		\$53,915,701 144,031,062	\$44,533,825 115,237,947
Total	\$112.732.137	\$120,847.902	\$197.946,763	\$159,771,772

In onr report of the dry goods trade will be found the imports of dry goods for one week later.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending May 17, and from January 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1878.	1879.	1830.	1881.
For the week Prev. reported				\$6,014,041 141,883,320
Total s'ce Jan. 1	\$133,702,070	\$121,124,235	\$139,706,714	\$147.897.361

The following table shows the exports and imports of specie at the port of New York for the week ending May 14 and since January 1, 1881: EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Of the above imports for the week in 1881, \$9,450 were American gold coin and \$7,916 American silver coin. Of the exports for the same time, \$7,500 were American gold coin.

Chicago Burlington & Quiney.—The statement of this company now includes the Burlington & Missonri River Railroad Company in Nebraska, both this year and last. The gross and net earnings for March and for the first quarter of the year have just been obtained, and the exhibit is most interesting, as being the first of the great Western lines of railroad from which we have yet had a statement of net earnings during the first quarter of 1881. the first quarter of 1881.

South Carolina Railroad.—The decree of sale of the South Carolina Railroad has been put in shape, and the road will be advertised at once. Nearly all the securities have been turned in to the Farmers' Loan & Trust Company, with the assent to the reorganization plan.

the reorganization plan.

Texas & St. Louis.—The St. Louis Republican says: "A special meeting of the stockholders of the Texas & St. Louis Company will be held at Tyler, Tex., on July 27, to vote upon the proposition to increase the capital stock of the company to \$12,000,000. A majority of the shareholders at the annual meeting were in favor of this proposition, but under the law it is required that a special meeting shall be held for this purpose, and it seems to be a foregone conclusion that the stock will be increased to the amount stated."

Western Union Telegraph.—It is announced that an agreement has been made for the lease for ninety-nine years of the lines of the Northwestern Telegraph Company to the Western Union Telegraph Company. The stockholders have yet to ratify the action of the directors in the cases of both companies, but there is little doubt of their approval.

—Mr. James D. Porter, President of the Nashville Chatta-

—Mr. James D. Porter, President of the Nashville Chattanooga & St. Louis Railway, invites proposals for \$1,000,000 6 per cent second mortgage bonds, due 1901. The total bonded debt of the road is \$8,502,000, and the net earnings for the fiscal year 1879-80 amounted to \$865,145. The gross earnings for the first ten months of the current fiscal year show an increase over corresponding period of last year of \$100,285. Proposals will be received by Mr. Porter, at the office of the Lonisville & Nashville RR. Co., No. 52 Wall Street.

Chiesapeake & Ohio—Elizabethtown Lexington & Big Sandy.—The bonds of these connecting railroads are sold by Messrs. Fisk & Hatch bankers, No. 5 Nassau Street. In the Chronicle of last week, page 528, reference was made to the bonds of the Chesapeake & Ohio Road, and since then the price of the purchase money funding bonds has been advanced to 115 and accrued interest. The price of the bonds series A is 105 and interest. The interest on the series B bonds of \$15,-000,000, and the second mortgage currency sixes, is payable partly in preferred stocks and partly in cash. Below is given the interest payable on these in money and stock for successive fiscal years, counting the November coupon as belonging to the fiscal year ending a month earlier, as it must be paid from the profits of that year:

-	-1st mort.,	scries B-	-2d mort.	cur. 68-
	In 1st pref.	In	In 2d pref.	In
	stock.	cash.	stock.	cash.
1880-81		\$	\$607,350	\$
1881-82		450,000	607,350	
1882-83	300,000	600,000	607,350	
1883-84		900,000	607,350	
1884-85		900,000	404.900	202,450
1885-86		900,000	202,450	404,900
1886-87		900,000		607,350

The aggregate of the interest on the prior bonds now ontstanding is about \$261,000, and by adding this to the cash payments of any year, we may find the total burden of interest charges for that year. It will be but \$261,000 for the current year, but the following year will be \$450,000 more, and thereafter the additions will be according to the table above. But it is to be remembered that the second mortgage currency sixes are income bonds and the payment of interest in cash never becomes obligatory. The net earnings of the company in 1879-80 were \$799,609, including \$230,320 put on extraordinary expenses.

in 1879-80 were \$799,609, including \$230,320 pnt on extraordinary expenses.

The Elizabethtown Lexington & Big Sandy Railroad (Eastern Division) first mortgage 6 per cent sinking fund gold bonds are also offered by Messrs. Fisk & Hatch, at 102½ and interest. The mortgage is for \$3,500,000, dne 1902. The mileage will be as follows:—Lexington to Mount Sterling, owned, 33.6; Mount Sterling to Straitsville, owned, 66; Straitsville to Ashland, leased, 20; Ashland to Big Sandy Bridge, owned, 8; Big Sandy Bridge to Huntington, leased, 7.5. Total, 135-1.

The route of the road is from Lexington, Ky., to Huntington, W. Va., through the rich blue grass region of Kentucky, being the neck of the Chesapeake & Ohio route, and thus the most important link in that whole vast system which is to-day extending itself to the Far West, Northwest, and particularly the Southwest, via the Paducah & Elizabethtown and the Paducah & Memphis railroads.

Southwest, via the Paducah & Elizabethtown and the Paducah & Memphis railroads.

"The road only needs net receipts of \$210,000 to pay the interest on its bonds. We look for more than that return from the local traffic alone. The necessary funds for the completion of this road are assured, and work is rapidly progressing from Mount Sterling eastward and from Ashland westward. From Mount Sterling to Lexington, and from Huntington to Ashland, the road is in active operation, trains running daily."

the road is in active operation, trains running daily."

—Messrs. Kuhn, Loeb & Co., of New York, have placed on the market a \$5,000,000 loan of the Chicago Milwaukee & St. Panl Railway Co. in the shape of five per cent 40-year gold bonds, due 1921, and secured by a first mortgage upon the Chicago & Pacific Western Division of the system of the company. The interest is payable semi-annually in gold coin on the first days of January and July. These bonds are issued for the purpose of making important additions to the various lines of the company, more especially the Southwestern portion of the system, and are emitted at the rate of \$20,000 per mile of completed and equipped road and for bridges and rolling stock. The company has paid seven per cent on its preferred stock, and for 1880 paid seven per cent on its common stock. The net earnings last year were \$5,343,692, and, after paying all fixed charges and seven per cent on both classes of stocks, had a balance of \$802,995. The bonds are now offered at 100 and accrued interest, subject to an advance in price and to closing of subscription without notice.

BANKING AND FINANCIAL.

CHESAPEAKE & OHIO RAILWAY.

The price of the "PURCHASE MONEY FUNDING" bonds of this Road is advanced to-day to 115 and accrued interest.

Of the "SERIES A BONDS" less than \$300,000 remain unsold. Price 105 and accrued interest. Full particulars of the above at our office.

FISK & HATCH,

No. 5 Nassau Street.

New York.

The Bankers' Gazette.

FRIDAY, MAY 20, 1881-5 P. M.
The Money Market and Financial Situation.—Another great impetus has been given to the markets by Secretary Windom's 5 per cent circular of last week. He put it very adroitly windom's 5 per cent circular of last week. He put it very adroitly in stating that some \$75,000,000 of the registered bonds would be reserved to be paid off from the surplus revenues of the Government, and the result has been that the holders of the registered 5 per cents have hastened to send their orders to Washington, to have their bonds extended at 3½ per cent. The final period for the extension of the sixes ended to-day, and it is estimated that not over ten or fifteen millions of these bonds will remain to be paid in each.

ington, to have their bonds extended at 3½ per cent. The final period for the extension of the sixes ended to-day, and it is estimated that not over ten or fifteen millions of these bonds will remain to be paid in cash.

The week has not been one of extraordinary activity in speculative stocks, but additional moves have been made on the railroad chess-board which are entitled to rank among', the first-class operations. Col. Cole and his syndicate have bought up the East Tennessee Virginia & Georgia, the Memphis & Charleston, the Selma Rome & Dalton, and other roads, and purpose forming another grand combination in the South. The dispatches from Parsons, Kansas, indicate that the stockholders of the Missonri Kansas & Texas Company ratified the lease of that road to the Missonri Pacific, and voted to increase the capital stock \$47,000,000 for extending into Mexico. From Chicago comes the report, with semblance of anthority, that the Chicago & Rock Island is about to build a branch away northward to an intersection with the Northern Pacific, which may account for the recent talk of a new issne of its stock at par. The Northern Pacific difficulty has been settled and the suits discontinued, so that the Oregon Railway & Navigation Company will now probably control the Northern Pacific, or the two will work in harmony—the \$49,000,000 common stock can now be issned, and at the price of 45 it will represent to the holders just \$22,050,000 of money made without cost to them, and this negatives very decidedly the old maxim in philosophy—ex nihilo nihil fit.

While thoughtful men see these combinations and railroad negotiations entered into on a scale of gigantic proportions, and the stocks and income bonds of railroads yet unborn sold by the millions in our markets, they cannot avoid the reflection that we are moving very fast. It is not necessary to be a croaker as to the future, and no one desires to be considered a prophet of evil, but it is not ont of place for conservative bankers and stockbrokers to suggest to thei

foolhardiness.

foolhardiness.

The money market is very easy, and while Government bond dealers usually pay 2 per cent for call loans, the stock borrowers have paid 2½@4 per cent. Time loans on collateral are qnoted at 2@3 per cent, and prime commercial paper of two to four months at 3½@4½ per cent.

The Bank of England statement on Thursday showed a decrease for the week of £384,000 in specie, and the reserve was down to 45½ per cent of liabilities, against 48½ per cent last week; the discount rate remains at 2½ per cent. The Bank of France showed an increase of 9,175,000 francs gold and 537,500 francs silver.

The last statement of the New York City Clearing-Honse banks, issued May 14, showed an increase in the surplus above legal reserve of \$1,704,575, the total surplus being \$14,817,200, against \$13,112,625 the previous week.

The following table shows the changes from the previous week and a comparison with the two preceding years:

and a comparison with the two preceding years:

	1881. May 14.	Differ'nces fr'm previous week.	1880. May 15.	1879. May 17.

Exchange.—The foreign exchange market has developed a decided weakness, and it is reported to be almost entirely due to the export of stocks and bonds to the foreign market. The extent of this movement is never exactly known, but from the leading banking houses it is learned that it has recently been very large. Sterling bills were weak to-day, and bankers reduced their rates. On actual transactions bankers' prime 60-day sterling bills were sold about 4 84 and demand bills 4 86; cables 4 86 4 and prime commercial bills 4 82.

United States Bonds.—The business of the week has been United States Bonds.—The business of the week has been enormous. The nnsettling of all the fives and sixes of 1881 has led to a great deal of shifting among the holders of those bonds, and the banks are changing off one sort and taking another whenever they can make a little profit by the transaction. Private investors and holders of trust funds are looking now to the 4 per cents, and in spite of their nunprecedented prices, and the low rate of interest which they yield, the demand for these bonds is very heavy, and to-day they close at 117½. The 3½ per cents (Windoms) are quoted at 1035%, carrying no interest till July 1. July 1.

The closing prices at the New York Board have been as follows:

State and Railroad Bonds.—There has been more animation in Sonthern State bonds and nearly all the issues are strong, Louisiana consols sharing now in the better feeling. A good part of the demand for State bonds comes from London, where the holders have in times past made much money in purchasing our Sonthern State bonds at low prices and sending them back to this market on the rise. On reports of an injunction against the new funding law in Tennessee, the Tennessee bonds fell off here to 69@70 this afternoon.

Railroad bonds have been strong and active the great bulk of

Railroad bonds have been strong and active, the great bulk of speculative transactions running on the income bonds of com-paratively recent issues, such as Texas & Pacific, Ohio Central, and it is to be remarked as to these that the more the roads combine and consolidate the better it appears to be for the income bonds of the original roads taken in, since they must stand ahead of all the consolidated stock for dividends.

The following securities were sold at anction:

Railroad and Miscellancons Stocks.—The stock market has not shown a wonderful activity this week, but on a fair volume of business the tone is generally very strong. There may be very different opinions among stock-dealers as to the present range of prices, but however bearish in feeling as to the general condition of affairs, there are very few who would advise their enstomers that the present was a safe time to make short sales to any large extent. It has become a mere truism on the Street that no period like the present has previously been experienced; and, accepting this as a plain statement of the case, we must take a new departure and judge the future of the market by new standards. The gross and net earnings of the Chicago Burlington & Quincy Railroad for March, and for the first quarter of the year, have just been furnished us, and as this is the first and only one of the great leading railroads of the Northwest that has yet published its net earnings for that period, the exhibit is interesting. For the three months from Jannary 1 to April 1 the statement is as follows: statement is as follows:

Net Earnings. \$1,584,169 2,450,145 Three months of 1881 \$3,760,918
Three meuths of 1880 4,577,128
Lucrease 816,916 Expenses. \$2,176,749 2,126,682 49,766 816,210

Rallroad Earnings.—The latest railroad earnings and the totals from Jan. 1 to latest dates are given below. The statement includes the gross earnings of all railroads from which returns can be obtained. The columns under the heading "Jan. 1 to latest date" furnish the gross earnings from Jan. 1 to, and including, the period mentioned in the second column:

-- Latest earnings reported-Jan. 1 to latest date. Week or Mo. 1881. 1890. 1881. 1880. * Including Selma Rome & Dalton.

U. S. Sub-Treasury.—The following table shows the receipts and payments at the Sub-Treasury in this city, as well as the balances in the same, for each day of the past week:

	5 1 /		Balances.				
	Receipts.	Payments.	Coin.	Currency.			
May 14	\$ 824,450 23		\$ 65,957,485 54	\$ 6.855,817 39			
" 16 " 17 " 18	970,491 48		65,603,725 68				
" 19 " 20		894,963 58	66,934,013 19	6.909,618 15			
Total	17,652,941 63	17,554,490 20					

Coins.—The following are quotations in gold for various coins:

| Silvor 48 and 428. — 994@ par. |
| Five frames...... — 93 @ — 95 |
| Mexicar deliars... — 894@ — 90 |
| Do uncommerci!.. — 87 @ — 884@ |
| English silver.... 4 72 @ 4 80 |
| Prus. silv. thalers... — 68 @ — 69 |
| U. S. trade deliars — 994@ — 995@ |
| U. S. silverdeliars — 997@ par.

—Messrs. Lummis & Day, 35 Drexel Building, are offering for sale a few of the Houston & Texas Central Railroad general mortgage 6 per cent gold bonds, running till 1921. The bonds of this company are well known in our market, and some of them have recently advanced very sharply.

—Messrs. William Alexander Smith & Co., 40 Wall Street, are offering \$600,000 of the 7 per cent first mortgage gold bonds of the St. Louis Kansas City & Northern, Omaha Division (now Wabash St. Louis & Pacific), and as the bonds run forty years, and belong to a section of a prominent trunk line, they are apparently entitled to rank very high.

New York City Banks.—The following statement shows condition of the Associated Banks of New York City for the week ending at the commencement of business on May 14,

Investments

STATE, CITY AND CORPORATION FINANCES.

The Investors' Supplement contains a complete exhibit of the Funded Debt of States and Cities and of the Stocks and Bonds of Railroads and other Companies. It is published on the last Saturday of every other month—viz., February, April, June, August, October and December, and is furnished without extra charge to all regular subscribers of the Chronicle. Single copies are sold at \$2 per copy.

ANNUAL REPORTS.

Denver & Rio Grande.

(For the year ending December 31, 1880.)

The annual report for 1880 is just ont, and it supplies the most comprehensive information about this great narrow gauge railroad that has yet been given to the public. The report first touches upon the history of the company, and gives the lines completed up to July 10, 1878, amounting to 337 miles. The subsequent litigation and contest with the Atchison Topeka & Santa Fe is then reviewed, and its termination under the ten years' compromise agreement, which has been fully given in the CHRONICLE. the CHRONICLE.

The report of the President, Mr. Wm. J. Palmer, then con-

"The Denver & Rio Grande Company, free again to continue its work, has since (np to April 14, 1881) completed the follow-

From Canyon City to Leadville	117.5 miles.
From Leadville to Robinson Mine.	16 miles.
From Malta (Leadville Junetion) toward Redcliff	9.6 miles.
From 'South Arkansas' to Silvor Creek, on the Gunnison	
extension	13.5 miles.
From Poncha Springs to Maysville (Monarch Mines)	7 miles.
From Canyon City to Westeliffe	33.5 miles.
From Colorado Springs to Maniton	5.3 miles.
The San Juan Division, from Alamosa westward to Amargo	116.2 miles.
The New Mexican Division, from Antonito (the junction	
28.7 miles south of Alamosa) down the Rio Grando to	
Espanoia, 25 miles north of Santa Fe	91.2 miles.
Coal, stone and spnr tracks.	
Court atono and all at tracks	TT MILICON

"In all 420'8 miles have already been completed, of which 347.5 miles were laid during 1880, and 73'3 miles in 1881 up to date, making the grand total of constructed road (to April 14, 1881) 757'8 miles. In addition to the above, work is being rapidly carried forward on five extensions.

*For five months and twelve days only.

"From December 13, 1878, to June 10, 1879, the road was operated by the Atchison Company. From June 11 to July 15, 1879, it was operated under the Receiver appointed in the interest of the bondholders. From July 16 to August 14, 1879, it was again operated by the Atchison Company. From August 15 to April 4, 1880, it was in the hands of a Receiver appointed by the Court; and not until April 5, 1880, did the company resume permanent possession. The earnings for 1879, shown in the above table as \$903,622 28, only represent the receipts for five months and twelve days, the revenue received by the Atchison Company during the first part of the year not being included or known. In view of the large increase in traffic, which was clearly foreseen, arrangements were made at an early day for the acquisition of the following rolling stock:

ROLLING STOCK.	
Received	Total
during 1880.	in use.
Locomotives	101
Cars and coaches for passenger service 65	89
Box ears710	1.043
Flat and eoal cars	1.424

·Cabooses	38
Construction ears. 54	30
- Wolfsti world Card	9.4

"To furnish the means for meeting such extensive orders, which were largely in excess of anything previously contemplated, the company formed a rolling stock trust, by means of which the payments are distributed over a period of ten

plated, the company formed a rolling stock trust, by means of which the payments are distributed over a period of ten years." ** **

"The power of our narrow gange locomotive engines and the carrying capacity of the cars have been gradually enlarged, nntil at present the standard weight of our freight engines for mountain service is 35 net tons, of which 32 are on the eight driving wheels. For ordinary grades, say 75 feet or less to the mile, the standard freight engine weighs 30 tons, of which 27 tons are on the eight drivers. The weight of passenger engines is 20 net tons, of which 14 are on the driving wheels. The load of the freight cars last adopted is 15 tons of heavy weight, and of the passenger cars a seating capacity of 44 persons." * * *

"The progressive policy as regards extension has been deliberately adopted by the managers, and is a recognition of the exceptional conditions which exist here and which we may briefly review. At a great many different points throughout the monntains, active prospecting has led to the discovery of mines which a few years ago would, from their importance, have been published abroad and all over the country, but which now, owing to their frequency, are rarely made known ontside of the circle of those who are immediately interested as owners or expected owners, or of those whose business it is to keep posted on such matters. The revival of business activity throughout the United States, and the abundance of capital which can be obtained for legitimate enterprise in any direction, has caused the opening of good mines with great rapidity wherever they have been found." * * *

"The contest for the Grand Canyon was in reality a fight for the gateway, not to Leadville only, but to the far more important, because infinitely larger, mineral fields of the Gunnison country, the Blue and Eagle Rivers and Utah. Again, the line known as the San Jnan Division of the Denver & Rio Grande Railway, and especially that portion of it extending from Antonito to Chama River, has been constr

	-								496,767

An increase in gross earnings of 126.02 per cent and net earnings of 144.32 per cent. At the present date, April 15, 757.8 miles of road are completed, of which 683.9 miles are open for traffic. Before the close of the present year the completed line is expected to exceed 1,000 miles. The large ties and 40-pound steel rails for a third rail to carry standard gange cars between Denver and Pueblo were contracted for in November and December and will be laid during this spring and sumber and December, and will be laid during this spring and summer. For all requirements of the Denver & Rio Grande Railway Company in respect of capital needed for future construction, it is the policy of the company to apply to the stockholders of record at the time of such application, who will have preference for the bonds or stock, or both, as the case may be in preparation to their holdings. be, in proportion to their holdings.

Georgia Rallroad & Banking Company. (For the year ending March 31, 1881.)

With the regnlar anunal report for the year ending March 31, 1881, is issued a supplemental report referring to the recent lease of the road to Mr. W. M. Wadley and his associates. Mr. C. H. Phinizy, the President, gives the terms of this lease substantially as follows:

lease of the road to Mr. W. M. Wadley and his associates, Mr. C. H. Phinizy, the President, gives the terms of this lease substantially as follows:

"The term for which the lease is made is 99 years from April 1, 1881. The annual rental stipulated is \$600,000, payable in two eqnal semi-annual instalments. The privilege of using the Georgia Railroad and its branches and our interest in the Western Railroad of Alabama, and all our rolling stock, is granted by the lease. The right to collect the income of our stock in the Atlanta & West Point Railroad, in the Rome Railroad, and in the Port Royal & Augusta Railway, and to vote those stocks is granted to the lessees. The title to all the property remains in the Georgia Railroad & Banking Company. Besides the rental, the lessees pay all taxes except the charter tax on net income, and pay also the interest ou the Western Railroad of Alabama bonds. The lessees are to keep and return the property in first-class condition. The lessees indemnify the company against all claims for damages on account of the use of company's railroad. The lessees deposit \$1,000,000 of bonds in value as security for the performance of their undertaking, which deposit is not to be diminished in amonnt, or impaired in value. Besides other remedies and redress, the company reserves the right to retake possession of its property on the breach of any of the stipulations of the lease. The company is to pay the principal and interest of all its bonds, except the interest of the bonds of the Western Railroad of Alabama. The company retains for its own use its banking building, privileges and business." * * * *

"The directors are so well assured of the soundness and advantages of the situation, and that the annual rental, fogether with the profits of the banking department, will enable the company to meet the interest of the company's bonds and provide a sinking fund for the extinguishment of the principal, and leave a sum sufficient to pay from the present moment annual dividends of ten per centum p

Per cent exps. to carnings	65.20	69.74	4.24	******

This comparison shows an increase in gross earnings of \$200,-440, and in expenditures of \$188,993. The increase in expenditures is largely due to the improvement in equipment. During the year there were built 170 freight cars, purchased 6 conductor's cars, 2 sleeping cars, paid for 4 passenger coaches, and purchased 3 new freight locomotives of large capacity. There has been expended in the extension of the elevator building, machine shop and car shop, \$22,583. The large increase in the volume of tonnage also necessitated the movement of a large number of trains, thereby adding materially to expenses. At the same time the revenue has not increased in proportion to the freight. The mile tonnage for the year was 49,961,644 tons as against 37,085,356 tons for the preceding year, an increase of 34.72 per cent, while the revenue from this source shows an increase of only 16.50 per cent. The average rate for carrying freight was 2.13 cents per ton per mile, and for the previous year 2.46 cents. This is due principally to a reduction in rates by the commissiou, and partly to the low rates at which competition forced this road to haul through freight.

"We have received the usual dividend of 8 per cent from the A. & W. P. RR. Co., \$10,500 from our investment in the Port Royal & Augusta Railway Company, and \$8,936 from the Rome Railroad."

GENERAL INVESTMENT NEWS.

Alliance & Lake Erie.—A controlling interest in the Alliance & Lake Erie Railroad of Ohio has been purchased by Mr. W. R. Bergholz. The road is a narrow gauge and will at once, it is said, be put in running order and extended.

Brooklyn Elevated.—The bill to extend the time for the construction of this road (commonly known as the Brnff Road) has passed both houses of the New York Legislature, and awaits the Governor's signature.

has passed both houses of the New York Legislature, and awaits the Governor's signature.

At the time the reorganization committee was appointed, the statements published in the daily newspapers regarding the stock and bonds outstanding were in many respects quite inaccurate. The amounts actually ont were ascertained to be as follows: First mortgage bonds, \$1,069,000; first mortgage bonds scrip, \$217,700; engraved stock, \$1,852,880; stock scrip, \$1,497,633. The amounts which have assented to the plau of reorganization and paid up the 20 per cent assessment in cash are as follows: First mortgage bonds, \$907,000, and coupons on the same, \$29,130—total, \$936,130; scrip bonds, \$203,700, and interest on the same \$10,693—total, \$214,593; engraved stock, \$1,504,300; scrip stock, \$1,151,300. The cash assessment at 20 per cent paid on the above stock and bonds (and on \$2,005 of nnsecured debts) amounts to \$761,665, and as it will take abont \$1,800,000 to complete the road to East New York, there will be issued about \$1,040,000 of the Receivers' certificates which are exchangeable into the new first mortgage bonds. Parties stand ready to take all these certificates at par and furnish the money issued about \$1,040,000 of the Receivers' certificates which are exchangeable into the new first mortgage bonds. Parties stand ready to take all these certificates at par aud furnish the money to complete the road, but the certificates do not have any priority over the new first mortgage bonds, as the right to exchange them into those bouds is not optional with the holder, but the company has the absolute right to take them up with first mortgage bonds or pay them in cash. A foreclosure suit is already pending and will be carried to a sale in order to foreclose the rights of all parties not assenting to the proposed reorganization. The new company will have a right to issue the following securities only, viz.: \$1,150,723 first mortgage bonds for the old first mortgage bonds and bond scrip assented; \$416,680 of Receivers' certificates in settlement of the cash assessments, according to the proportions allowed in the plau, and in addition, say about \$1,040,000, of Receivers' certificates for the completion of the road—all these certificates being exchangeable by the company into the new first mortgage bonds, of which the whole authorized issue is \$3,500,000; income bonds for assessments paid \$344,584; new stock for old stock and stock scrip assented, \$2,655,600. The total authorized issue of new stock is \$4,000,000, but no more than the above amount of \$2,655,600 can be issued by the reorganization committee.

Brunswick & Albany.—The reported sale of this road to F. Wolff and others by the bondholders who now own it is confirmed. The purchasers say that they mean to extend the road from Albany, Ga., to Montgomery, Ala., running south of the Montgomery & Eufaula Road. The purchasers are interested in the Alabama Great Southern and the Vicksburg & Maridian roads.—Railroad Grantte. Meridian roads.—Railroad Gazette.

Meridian roads.—Railroad Gazette.

Cairo & St. Louis.—In the United States Circuit Court at Springfield, Ill., a final decree has been entered in the case of the Union Trnst Company, of New York, against the Cairo & St. Louis Railroad Company. The suit was originally brought by the Trust Company in 1877 for the first mortgage boudholders, the principal of the indebtedness at that time being \$2,500,000. The total indebtedness has now reached \$4,301,157, and a decree for that sum was given. The sale is to be made and a decree for that sum was given. July 14.

Chicago Rock Island & Pacific.—Chicago, May 18.—Some Chicago Rock Island & Pacific.—Chicago, May 18.—Some days ago the statement was telegraphed from here that the Chicago Rock Island & Pacific Railway Company had determined on au aggressive movement in the Northwest. Information of a semi-official nature obtained to-day shows that the company intends to construct a road from its main line in Iowa through Minnesota and Dakota to a junctiou with the Northern Pacific. Such a line will cross almost at a right angle all the roads in the St. Paul & Northwestern systems and cut the great corn belt of Iowa and the wheat belt of Minnesota and Dako'a. When completed it will enable the Rock Island to compete with the St. Paul and Northwestern companies for the traffic of the Upper Mississippi as an offset to the latter company's competition with the Rock Island for the traffic of Central and Southern Iowa and the Lower Missouri River Valley.

chicago St. Paul Minneapolis & Omaha.—A St. Paul dispatch says:—"A deed of conveyance was filed in the Register of Deeds' office on Saturday last from the St. Paul & Sioux City Railway Company to the Chic. St. Paul Minn. & Omaha RR. Company, transferring the St. Paul & Sioux City Railway to the Chicago St. Paul Minneapolis & Omaha Company. The deed is declared to be made on condition that the party of the second part will pay the 3 per cent due the State and subject to the liens and incumbrances now existing against the road, which include: 1. A deed of trust dated July 1. 1879, to the Central Trust Company of New York as trustees. 2. An extension mortgage dated March 2, 1880, with the same trust company. 3. A further instrument executed between the same parties dated the 30th day of April. 4. A mortgage or trust deed executed by the St. Paul Stillwater & Taylor's Falls Railway Company to Horace Thompson and William B. Dean, trustees, dated Jannary 1, 1879, to secure the sum of \$334,800, according to the terms and conditions of certain bonds denominated first mortgage bonds issued by the company. The deed is dated the 9th day of May, and is executed by the St. Paul & Sioux City Railway Company, by H. H. Porter, President."

Cincinnati Indianapolis St. Louis & Chicago.—At a meeting of the Cincinnati Indianapolis St. Louis & Chicago Railroad Company in Indianapolis. May 16. it was resolved to raise the

Cincinnati Indianapolis St. Louis & Unleago.—At a meeting of the Cincinnati Indianapolis St. Louis & Chicago Railroad Company in Indianapolis, May 16, it was resolved to raise the capital stock from \$4,000,000 to \$6,000,000, and to employ the additional capital in the bnilding and equipment of a road from Kankakee to Seneca, forming a connection with the

Chicago & Rock Island road.

Cincinnati Southern.—The Trustees of the Cincinnati outhern Railway resolved, by a nnanimous vote, to notify the southern Railway resolved, by a manimous vote, to notify the Sinking Fund Commissioners that they will at once, with their approval, proceed to advertise the road for sale or lease. Bids will be asked for on all the plans of lease and on the form of sale. The best bid will then be presented to the Sinking Fund Commissioners for their approval, as required by law. Proposals will be received in Cincinnati, New York and London till August 18, 1881, at noon.

Cleveland Columbus Cincinnati & Indianapolis—Cincinnati Hamilton & Dayton.—The Cincinnati Commercial reports the practical consolidation of the Cincinnati Hamilton & Dayton with the C. C. C. & I., or the Bee Line. The directors of the former road met and heard the report of their Committee on Consolidation. "This committee, which consists of two directors and three outside stockholders of the C. H. & D., reported that they had met the Conference Committee of the Bee Line, consisting of five directors of the latter; that they had examined the property of the road and the situation generally, and had unanimonsly agreed upon a union of the two roads on a basis of share for share. The board, after hearing the report of the committee, resolved to submit the plan to the stockholders for ratification on the 14th day of June next, when a two-thirds vote of the stock will be necessary to a confirmation of the agreement. The Bee Line stockholders will also be called together at as early a date as possible in view of the European residence of some of them."

East Tennessee Virginia & Georgia—Memphis & Charles

East Tennessee Virginia & Georgia—Memphis & Charleston—Macon & Brunswick.—Colonel E. M. Cole, of Tennessee, has formed a powerful syndicate for the purchase of southern railroad interests. Purchases have already been concluded of railroad interests. Purchases have already been concluded of the Macon & Brunswick Road of Georgia, the East Tennessee & Virginia system of roads, embracing 619 miles, the Selma Rome & Dalton and the Memphis & Charleston roads, covering in all about 1,300 miles. Contracts for the building of several hnndred miles will at once be let and the varions systems connected. The syndicate has subscribed \$16,000,000 of capital. Among the well-known capitalists who may be named in the syndicate are George I. Seney, Samnel Thomas, Calvin S. Brice, E. H. R. Lyman and John S. Martin. Colonel Cole will be made President of the whole system of roads, and will have charge of the extension by purchase and building. It is understood that the syndicate is willing to take the one-fifth of the stock of the East Tennessee & Virginia Road yet unpurchased, at the price paid for the four-fifths, if the holders desire it—and that price is reported to have been 150.

Manhattan Elevated—Metropolitan—New York—Instign

pand for the four-nins, it the holders desire it—and that piece is reported to have been 150.

Manhattan Elevated—Metropolitan—New York.—Justice Donohne, in the Supreme Court, Chambers, on Thursday, granted an order to show cause, returnable May 26, in an action begun by the Attorney General in behalf of the State against the Manhattan Railway Company for a decree "dissolving the incorporation of said company and forfeiting its corporate rights and vacating and annulling the charter and existence of said corporation," and for the appointment of a Receiver. The order granting permission to begin the action was made on the affidavit of Attorney General Hamilton Ward, to the effect that facts had come to his knowledge which, in his opinion, made such an action expedient and necessary. The Tribune reports that Attorney-General Ward has been in this city for nearly a week, investigating the affairs of the Manhattan Company. The papers in the case are voluminons, and set forth that the corporation should be dissolved because it has violated its charter, and exercised power not conferred by law. It is alleged that it has been insolvent for more than a year and that it has failed to pay its taxes for more than a year. Accompanying these papers is a complaint of Benton S. Harrison, setting forth these facts and

asking that a Receiver be appointed. The Attorney-General stated to a reporter that the Manhattan Company was incorporated for the purpose of constructing and operating an elevated road upon certain defined routes in the city of New York, and that it has never exercised its full corporate powers, has never constructed a road, but assumes to operate two roads by virtue of leases from the Metropolitan Elevated Railway Company and the New York Elevated Railroad Company. By reason of the leases, the Metropolitan and New York Elevated Railway companies surrender their franchises and privileges and their rights to operate their road to the Manhattan Company for a period of ninety-nine years. The complainant avers that in taking these leases the Manhattan Company assumed certain obligations, among which was that of paying the taxes which shall be imposed upon the New York and Metropolitan companies. This obligation the company has not performed. By its own statement it is now in arrears of taxes to the amount of nearly a million of dollars, and the company concedes in its communication to the Tax Deparcment of New York City that it has been doing a losing business under these leases, that it cannot perform its contracts with the other companies, and is on the verge of bankruptcy. Under the lease above referred to the Metropolitan and New business under these leases, that it cannot perform its contracts with the other companies, and is on the verge of bankruptcy. Under the lease above referred to, the Metropolitan and New York companies took the entire capital stock of the Manhattan and gave the Manhattan the leases. I assume that this was wholly illegal as to all the contracting parties, for the laws of this State do not permit a corporation in this manner to divest itself of its franchises and of its duties to the public. The increase of Manhattan capital stock from \$2,000,000 to \$13,000,000 was wholly illegal, the statute having specifically provided for the increase only in case its capital stock should be found insufficient for constructing and operating its road. But as it had no road, and neither then nor at any time since has contemplated constructing any, of course its capital stock could not have been insufficient for that purpose. But the vice of the whole transaction is putting a corporation to dealing with the public without any actual capital paid in, with nothing but a piece of writing called a lease, under which the annually accrning obligations exceed at the present time by about \$1,250,000 the annual net profits. annual net profits.

-Some days ago a formal demand was made npon the Manattan Company by the New York Elevated Company for a deposit of the amount of taxes which the anthorities insist npon collecting. Under the lease this demand gives the right to enter and take possession of the property on failure to comply with it.

comply with it.

—A demand was served by a bondholder on the trnstees of the New York Elevated mortgage and the Metropolitan first mortgage, respectively. demanding that they begin suits or take other necessary measures to restrain and prevent the payment to or distribution among the stockholders of those companies of any dividend arising from the rents, revenues, income or profits, and also to recover the amonnt of any and all dividends arising from such rents, revenues, income or profits which have been paid to or distributed among said stockholders from the time of the issning of said first mortgage bonds. The notice states: "It is proper to call your attention to the fact that the mortgage contains a covenant on the part of the New York Elevated Railroad Company that until the principal and interest of the bonds have been fully paid, it will not do or suffer any act or thing whereby the lien of the mortgage may be impaired."

Marquette Houghton & Ontonagon.—The Boston Trans-

Marquette Honghton & Ontonagon.—The Boston Transcript reports; "Marquette Honghton & Ontonagon stocks sell at 78 and 125 respectively. The sale of the land grant of 400,000 acres of this company for \$2,500,000 cash is officially announced. The six per cent bonds of the company will now be called at par and canceled. This insures 8 per cent dividends npon the preferred stock, and makes last year's earnings equal to 8 per cent upon the preferred and about 5 per cent upon the common stock.

Midland of New Lorsey —The Times reports that the second

midland of New Jersey.—The Times reports that the second and final conference between the representatives of the Midland Railroad Company of New Jersey and the large coal operators of the Wyoming Valley resulted in the breaking off of the negotiations which had begnn. The operators who desired the extension to Scranton did not meet the terms of the Construction Company, however, and it was decided to extend the road to Tamaqna, as originally contemplated. The contract for the extension from Ogdensburg to Stroudsburg was let this week, and it is expected that this section of the road, eontract for the extension from Ogdensburg to Stroudsburg was let this week, and it is expected that this section of the road, which embraces about 44 miles, will be in operation some time next Fall. Surveyors are now in the field between Stroudsburg and Tamaqna, and this extension, about 45 miles long, will probably be completed by December of next year. The extension will be a single track of steel rails and of the standard gange, and when completed will add greatly to the business of the Midland Railroad. Midland Railroad.

Midland Railroad.'
Missonri Kansas & Texas.—A Parsons, Kansas, press dispatch of May 19 reports that the annual meeting of the stockholders of the Missouri Kansas & Texas took place there on Wednesday, the 18th. A special meeting was held, at which it was resolved that the stockholders of the Missouri Kansas & Texas Road approve all mortgages and contracts made by the Gould management in reference to the Missouri Kansas & Texas Road during the time they have had possession of the same, [and this, it is understood, includes the contract of lease by which the M. K. & T. is leased to the Missouri Pacific for 99 years. See Chronicle of April 16, p. 421.] It was also resolved to continne the construction of the road through to the city of Mexico, the stock of the consolidated company being increased Mexico, the stock of the consolidated company being increased

\$47,000,000 for the purpose. The meeting then adjourned. The regular annual meeting for the election of officers was then called. Following is a list of those elected for the road for the called. Following is a list of those elected for the road for the ensning year: Jay Gould, Sidney Dillon, G. J. Forrest, Thomas T. Eckert, William Bond, N. L. McCready, A. G. Dulman, Samuel Sloan, Thomas W. Pearsall, Frederick L. Ames, Frank S. Bond, R. S. Hayes. The Kansas directors are H. C. Cross of Emporia, C. H. Pratt of Humboldt, and Judge David Kelso of Parsons, Judge Kels: being elected in place of B. P. McDonald of Fort Scott, giving Labetta County a representative with the road, which it has never before enjoyed. Jay Gould continues as President of the company.

Wiscound Pariston A dispatch dated St. Louis May 15

Missonri Pacifie.—A dispatch, dated St. Louis, May 15, says: "General Manager Tallmage, of the Missouri Pacific line, received instructions to-day from New York to proceed at once with the construction of a line of road leaving the main line of the Missonri Pacific at Pacific Junction and thence running through Franklin, Marias, Miller, Camden, Hickory, Dallas, Polk, Dade and Jasper counties to Carthage. This line will open up a new and very rich section of Missonri and will shorten the through line to Texas by about thirty miles."

Northern Pacific Railroad—Oregon Railway & Navigation.—One of the morning jonrnals published a report last week that an agreement had been made by which Mr. Villard, the President of the Oregon Railway & Navigation Company, had bought the Northern Pacific stock owned by President Billings, amounting to \$8,000,000, and consented to the discontinuance of the suits brought against the company to annul its recent issue of stock. This report was somewhat premature at the time, but on Thursday, 19th inst., the negotiations were virtually completed, though the precise terms are not given out. The Times states that the board of directors of the Northern Pacific Railroad Company met in their offices on Fifth Avenne. Mr. Henry Villard, President of the Oregon Railway & Navigation Company, was present by invitation. The resignations of Messrs. Livingston and Dillworth, two members of the board, were received and accepted, and the vacancies were filled by the election of T. F. Oakes and Artemas H. Holmes. Mr. Oakes has been the General Manager of the Oregon Railway & Navigation Company. Mr. Holmes is a member of the board of directors of the same company. Mr. Villard was asked to state his views respecting the future operations of the Northern Pacific Company. He said that he thought the building of the line from Portland to Kalama—the gap which still remains to be closed between Tacoma and the Oregon Railway & Navigation Company's liues—should be first undertaken. This gap was only 60 miles long, and when finished would snpply rail communication between Puget Sonnd and the Pend d'Oreille Division of the road, now nearly completed. After the conclusion of Mr. Villard's remarks the board adopted a resolution providing for the immediate construction of the line between Portland and Kalama. On motion it was also resolved to construct the Cascade branch as soon as practicable.

"Mr. Villard and his friends have recently acquired the Northern Pacific Railroad-Oregon Railway & Naviga-

motion it was also resolved to construct the Cascade branch as soon as practicable.

"Mr. Villard and his friends have recently acquired the Oregon and California lines running south from Portland in the valley of the Willamette River, and these are to be extended sonthward to connect with the California & Oregon Railroad, so as to form a connection with San Francisco by rail. This system has already 300 miles of railway in operation—200 on the east bank of the Willamette River and 100 on the west bank. Under the plan of reorganization adopted at Frankforton-the-Main a few days ago, a new loan of \$5,000,000 was obtained on the security of these 300 miles in operation, and of the extension proposed to be built, and work will be proceeded with immediately."

Richard Pullen, as Trustee of

Richmond & Newcastle.—Mr. Richard Pullen, as Trustee of the bondholders, recently sold \$300,000 of the original Rich-mond & Newcastle bonds (with about twenty years' accumulated interest) to the Pennsylvania, completing the latter's control of the present Cincinnati Richmond & Chicago.

Friday Night, May 20, 1881.

The week has been wet and rather cold, but the rain was needed in some sections, and was not excessive anywhere, while the temperature was not so low as to cause frost. Therefore, good, rather than harm, has been done. The arrival of snpplies of grain from the Eric Canal, and uninterrupted transportation in all sections, have given an impulse to the export of breadstnffs and a stimulus to branches of business having relations with it. The general trade of the country seems to be in good condition, and a very active exchange of commodities is in progress; complaints of the effect of high import duties are on the increase. It is found that there may be an excess of "protection" for those, even, in whose interests it is devised.

The provision market has had a number of reverses during the past week. Several days ago there was a large realizing movement and rapid and marked declines were noted. Since then there has been a recovery, resulting from a revival of speculative confidence and the opening of important "long" accounts. To-day old mess pork sold on the spot at \$15.75@ \$16.25; new mess at \$17; May, June and July quoted \$16.50@ \$16.75, bid and asked; September sold at \$17. Lard on the spot sold at \$11.10@11.15c. for prime Western; June at \$11.10@11.15c., closing at \$11.10.5@11.12½c.; July, \$11.07½@11.15c., closing at \$11.05@11.12½c.; closing \$11.07½c.; September, \$10.30@10.35c., closing at \$10.32½c.; refined to the Continent, \$10.30@10.35c., closing at \$10.32@10.4c. The following is a combetative summary of aggregate exports, from Navember 1 to May \$14:

1880-81. 1879-80. Increase. Decrease. \$13.200

1880-81.
Pork lbs 37,544,860
Baeon lbs 464,418,039
Lard lbs 211,067,898 1879-90. 38,458,000 457,333,719 218,326,768 Increase. 7,084,320

7,084.320 8,172,070 Totallbs. 713,030,737 714,113,487 7,084,320 8,172,070
Rio coffee has been dull, even at a decline to 10½c. for fair cargoes; the supply is more than ample, and the jobbing, like the invoice, business, slow. The steamer "City of Rio" has been withdrawn from the Brazil trade, owing to the fact that the traffic was unprofitable. Mild grades have been dull, and, to a great extent, nominal. Rice has been in fair demand only, most of the time, though on one or two days a brisk trade was done; prices have remained firm. Refining molasses has been less active but quite firm, at 36c. for 50-degrees test, and the grocery grades have sold fairly also at firm prices. Spices have been quiet. Tea has brought steady prices at auction for all grades, except Pingsney greens, which have declined slightly. Raw sugar has been in brisk demand of late, and prices have advanced a trifle; fair refining closed at 75%c., and 96-degrees test centrifugal 856087-16c. The increased sale of late for refined has naturally had a beneficial effect on the market for raw, notwithstanding that the importations on refiners' account continne quite liberal.

Receipts since May 1, 1881. 59,949
Sales since May 1, 1881 42,990
Stock May 18, 1881 60,751
Stock May 19, 1880 112,449 Boxes. Bags. 155,199 175,961 6,844 6,465 1,045,126 806,447 1,966 Refined sugar was in good demand to-day, and closd at 101/4c. for crushed, powdered, cutloaf and cubes, and 10c. for granu-

for crushed, powdered, cutloaf and cubes, and 10c. for granulated.

There has been rather more doing in Kentucky tobacco in the past week, but not enough to give much activity to the trade, and the market may still be said to be quiet. Sales for the week 600 hhds., of which 400 for export and 200 for home consumption. Prices are steady; lugs, 4¾405¾c.; leaf, 60 12½c. Seed leaf has been fairly active, in a general way, but the trade is without features of special interest. Sales for the week, 2,307 cases, as follows: 200 cases 1879 crop, Pennsylvania, 25c.; 267 cases 1879 crop, Pennsylvania, 12@20c.; 600 cases 1878 crop, Pennsylvania, private terms; 140 cases 1879 crop, Ohio, 10c.; 300 cases 1879 crop, New England, 15@22c.; 650 cases 1880 crop, Connecticut Seconds, 10½c. and fillers 5c., and 150 sundries, 9@18c. Also 550 bales Havana, 90c.@\$1 25, duty paid.

In naval stores a good business has been done in rosins at firmer rates; strained is now quoted at \$1 90, and good strained at \$1 95@\$2. Spirits turpentine at the close is lower, as several lots were forced upon the market; Southerns in yard sold at 37c. Petroleum has had a good export demand, and the market is well sustained; refined for export, 8c. Crude certificates have had a fair speculation, and close steady at 82½c. bid. Ingot capper is firm at 19½c. for Lake. All other metals are quiet. Hops are quiet, the result of the lower temperature. Wool has had a fair sale at about steady prices.

Ocean freights have latterly been more active and a firmer and higher range of rates have been current. The supply of tonnage in port have been considerably reduced of late. The engagements were: Grain to Liverpool, by steam, 3¼@3%d.; bacon, 15s.; cheese, 25s.; cotton, 3-16d.; flour, 15s.; grain to Leith, by steam, 5¼@5%d.; do. to Bristol, by steam, 5¼e.

COTTON.
FRIDAY. P. M., May 20, 1881.
THE MOVEMENT OF THE CROP, as indicated by our telegrams from the Sonth to-night, is given below. For the week ending this evening (May 20), the total receipts have reached 42,415 bales, against 49,150 bales last week, 45,535 bales the previous week nd 47,729 bales three weeks since; making the total receipts since the 1st of September, 1880, 5,488,448 bales, against 4,715,678 bales for the same period of 1879-80, showing an increase since September 1, 1880, of 772,770 bales.

*Included in this amount there are 1,300 bales at presses for foreign ports the destination of which we cannot learn.

The speculation in cotton for future delivery was more active during most of the week under review, and there was a considerable advance, not, however, without frequent variations, and exhibiting no marked buoyancy of tone. Liverpool advices were better, except on Wednesday, when tame accounts from that market had for substitute a cold storm in the Atlantic States and rumors of floods in the Mississippi Valley. The foreign advices were not sufficient to support the market, and on Tnesday a buoyant opening was followed by a decline, the close being considerably lower than on Monday, especially for the next crop. Wednesday was quite bnoyant, and so was Thursday till the later dealings, when the demand subsided and prices weakened. To-day there was a further advance, the "bull" party pushing their advantage with considerable vigor. Cotton on the spot has been active, both for export and home consumption. Quotations were advanced 1-16c. on Monday and again on Thursday. Receipts have been pretty free, however, and no material reduction has been made of stocks on hand. To-day prices were again 1-16c, higher, middling uplands closing at 10 11-16c., but less

The total sales for forward delivery for the week are 537,000 bales. For immediate delivery the total sales foot up this week 13,102 bales, including 8,118 for export, 4,331 for consumption, 653 for speculation, and — in transit. Of the above, 175 bales were to arrive. The following are the official quotations and sales for each day of the past week.

Price Mid. Upl., Laverpool 578d. 61318d. 7116d. 618d.

The above figures indicate an increase in the cotton in sight to-night of 462,702 bales as compared with the same date of 1880, an increase of 912,115 bales as compared with 1879 and an increase of 547,740 bales as compared with 1878.

In the preceding visible snpply table we have heretofore only included the interior stocks at the seven original interior towns. As we did not have the record of the new interior towns for the four years, we could not make a comparison in any other way. That difficulty no longer exists, and we therefore make the following comparison, which includes the stocks at the nineteen towns given weekly in our table of interior stocks instead of only the old seven towns. We shall continue this double statement for a time, but finally shall simply substitute the nineteen towns for the seven towns in the preceding table.

Total, new ports	10,294	16,481	67,622	5,539	9,970	74,447
Total, ali	14,610	31,678	158,248	7,543	22,245	161,455

The above totals show that the old interior stocks have decreased during the week 10,881 bales, and are to-night 3,618 bales more than at the same period last year. The receipts at the same towns have been 2,312 bales more than the same week last year.

RECEIPTS FROM THE PLANTATIONS.—The following table is prepared for the purpose of indicating the actual movement each week from the plantations. Receipts at the outports are sometimes misleading, as they are made np more largely one year than another, at the expense of the interior stocks. We reach, therefore, a safer conclusion through a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the out-ports.

RECEIPTS FROM PLANTATIONS.

The above statement shows-

1. That the total receipts from the plantations since Sept. 1 in 1880-81 were 5,613,725 bales; in 1879-80 were 4,865,100 bales; in 1878-79 were 4,418,385 bales.

2. That, although the receipts at the ont-ports the past week were 42,415 bales, the actual movement from plantations was only 25,347 bales, the balance being taken from the stocks at the interior ports. Last year the receipts from the plantations for the same week were 7,615 bales and for 1879 they were 8,853 bales.

WEATHER REPORTS BY TELEGRAPH.—The weather the past week has been fairly favorable for the development of the crop. Some points complain of a want of rain, others that the temperature has been too low, and in Texas dry weather is desired. But on the whole, at the present moment the condition is prom-

Galveston, Texas.-It has been showery on one day the past week with a rainfall of twenty-one hundredths of an inch. Nearly every section of the State has had rain this week, and generally we are having too much rain, as many crops are grassy and require dry weather; otherwise prospects are favorable. It is generally estimated that cotton acreage has been increased ten to fifteen per cent for the State at large. The thermometer has ranged from 70 to 86, averaging 78.

Indianola, Texas.—We have had showers on three days the past week, the rainfall reaching one inch and four hundredths. Dry weather is preferred, but on the whole, prospects are favorable. Average thermometer 76, highest 86 and lowest 68.

Corsicana, Texas.-It has rained hard on one day the past week, the rainfall reaching one iuch and forty-seven hundredths. Crops are promising. The thermometer has averaged 79, ranging from 65 to 93.

Dallas, Texas.—We have had rain on two days the past week, with a rainfall of one inch and eighty-three hundredths. We are having too much rain, but no serious damage has been done. Dry weather is desirable for wheat harvest, now commencing, and to work on cotton and corn, which are somewhat grassy; otherwise the position is favorable, but labor is scarce. Average thermometer 78, highest 93 and lowest 65.

Brenham, Texas.—It has rained hard on two days the past week, the rainfall reaching two inches. Dry weather is wanted, as some sections are grassy and labor is scarce. The thermometer has ranged from 66 to 87, averaging 77.

Waco, Texas.—We have had hard rain on two days the past week, the rainfall reaching two inches. We are having too much rain, otherwise prospects are fair. The thermometer has averaged 77, ranging from 65 to 87.

New Orleans, Louisiana.-We have had no rain during the past week. The thermometer has averaged 80.

Shreveport, Louisiana.—It has been cloudy and rainy on two days the past week, and the balance of the week has been fair, dry and warm. The rainfall reached one inch and forty hundredths. The thermometer has ranged from 65 to 94, averaging 76.

Vicksburg, Mississippi.—We have had no rain the past week. The days have been warm, but the nights have been cold.

Columbus, Mississippi.—The weather has been cold and dry all the past week. Cotton is covered with lice.

Little Rock, Arkansas.—The weather has been fair to clear the past week. The thermometer has ranged from 58 to 85, averaging 70.

Nashville, Tennessee.—The weather has been warm and dry all the past week. The thermometer has averaged 71, ranging from 51 to 91.

Mobile, Alabama.—We have had light rain on two days the past week, the rainfall reaching twenty-three hundredths of an inch. The crop is developing promisingly. The thermometer has ranged from 58 to 94, averaging 76.

Montgomery, Alabama.—It has been showery on one day the past week and the balance of the week has been pleasant, warm and dry. The rainfall reached one hundredth of an inch. The crop is developing promisingly, and the plant looks strong and healthy. Average thermometer 78, highest 96 and lowest 60.

Selma, Alabama.—The weather has been dry all the past week. The days have been warm, but the nights have been cold. The crop is developing promisingly. Average thermometer 76, highest 101 and lowest 53.

Madison. Florida.—We have had dry weather all the past

eter 76, highest 101 and lowest 53.

Madison, Florida.—We have had dry weather all the past week. The days have been warm, but the nights have been cold. The thermometer has ranged from 68 to 90, averaging 79.

Macon, Georgia.—We have had rain on one day the past week. The thermometer has averaged 75, ranging from 56 to 92.

Columbus, Georgia.—It has rained on one day the past week, the rainfall reaching seventy-three hundredths of an inch. The days have been warm and the nights have been cold. Average thermometer 80, highest 95 and lowest 64.

Savannah, Georgia.—We have had rain on one day the past week, with a rainfall of one hundredth of an inch, and the rest of the week has been pleasant. The thermometer has averaged 76, ranging from 57 to 92.

76, ranging from 57 to 92.

Augusta, Georgia.—The weather has been warm and dry all the past week. The crop is developing promisingly, but rain is needed badly. Average thermometer 76, highest 98 and lowest 58.

Charleston, South Carolina.—We have had light showers on two days the past week, with a rainfall of twenty-two hundredths of an inch. The thermometer has ranged from 56 to 91, averaging 74.

JUTE BUTTS, BAGGING, &c -There has not been any change in the position of bagging since our last report. The market is moderately active, but no large transactions are being made, the demand being mostly for the present wants of consumers. There is a steady tone to prices, and some holders are wanting a shade higher figures, but orders can still be filled at our quotations, which are 9½c. for 1¾ lbs., 10@10½c. for 2 lbs. and 10½@11c. for standard qualities. Butts have been taken more freely, and prices are a shade firmer, with some indications of an advance. There have been sales during the week of 5,000 bales at full figures, and at the close sellers will not name less than 2 11-16@2½c. for paper quality and 2½@3c. for spinning than 2 11-16@234c. for paper quality and 21/8@3c. for spinning

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock May 19, 1881, and May 20, 1880.

1		May 1	19, '81.	May Z	0, 80.

į			2	39	4
	NashvilleAbove low-water mark 8brovoportAbove low-water mark VicksburgAbove low-water mark	13	8	11 39	

New Orleans reported below high-water mark of 1871 nntil Sept. 9, 1874, when the zero of gange was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT .-A comparison of the port movement by weeks is not accurate, as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement each month since September 1 has been as follows:

Monthly		· Year	Beginnin	g Septembe	er 1.	
Receipts.	1880.	1879.	1878.	1877.	1876.	1875.
Sept'mb'r	458,478	333,643	288,845	98,491	236,868	169,077
October	968,318	888,492	689,264	578,533	675,260	610,316
Novemb'r	1,006,501	942,272	779.237	822,493	901,392	740,116
Decemb'r	1,020,802	956,464	. 893,664	900,119	787,769	821,177
January .	571,701	647,140	618,727	689,610	500,680	637,067
February.	572,729	447,918	566,824	472,054	449,686	479,801
March	476,582	261,913	303,955	340,525	182,937	300,128
April	284,246	159,025	167,459	197,965	100,194	163,593
		4,639,867	4,307,978	4,099,790	3,834,786	3,921,275
	of tot. port					
receipts	April 301	92.74	96.86	94.34	94.96	93.56

This statement shows that up to April 30 the receipts at the ports this year were 720,489 bales more than in 1879-80 and 1,051,378 bales more than at the same time in 1878-79. By adding to the above totals to April 30 the daily receipts since that time, we shall be able to reach an exact comparison of the movement for the different years.

Tot the different feature

95.84 96.21	95.18					
	8 4,099,790 3,834,786 3 4,145 2,013 5 7,161 1,675 4,512 1 8. 2,032 6 5,164 8. 2,032 6 4,062 5,243 9 3,851 4,187 1 4,257 2,435 3 4,836 1,794 2,925 3,575 8 2,489 4,324 1 3,390 4,167 1 3,619 2,644 3,232 2,075 2,607 2,935 2,607 2,935 4,140 8. 4,140 8. 4,144,995 3,885,021 3					

This statement shows that the receipts since Sept. 1 up to to-night are now 777,866 bales more than they were to the same day of the month in 1880 and 1,121,624 bales more than they were to the same day of the month in 1879. We add to the table the percentages of total port receipts which had been received to May 20 in each of the years named.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The figures which are now collected for us, and forwarded by cable each Friday, of the shipments from Calentta, Madras, Tuticorin, Carwar, &c. enable us, in connection with our previonsly-received report from Bombay, to furnish onr readers with a full and complete India movement for each week. We first give the Bombay statement for the week and year, bringing the figures down to May 19.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

-	Shipments this week.			Shipm	ents since	Receipts.		
	Great Brit'n.		Total.	Great Britain	Conti- nent.	Total.	This Week.	Since Jan. 1.
	$15,000 \\ 40,000$	15,000	30,000	$ 249.000 \\ 165.000$	335,000 295,000 212,000 294,000	544,000 377,000	60,000 45,000	

According to the foregoing, Bombay appears to show a decrease compared with last year in the week's receipts of 5,000 bales, and a decrease in shipments of 16,000 bales, and the shipments since Jannary 1 show a decrease of 30,000 bales. The movement at Calcutta, Madras, Tuticorin, Carwar, &c., for the same week and years has been as follows.

CALCUTTA, MADRAS, TUTICORIN, CARWAR, RANGOON AND KURRACHEE.

	Shipm	ents this	week.	Shipments since January 1.			
Year.	Great Britain.	Continent.	Total.	Great Britain.	Conti- nent.	Total.	
1881 1880 1879	5,000 8,000	1,000 5,000 1,000	6,000 13,000 1,000	149,000 95,000 15,000	48,000 63,000 35,000	197,000 158,000 50,000	

For the past fow weeks we have omitted from the above table (Calentta, Madras, &c.,) this year's weekly figures, as we found there were inaccuracies in them as cabled to us. Wo are, however, making new arrangements, under which we hope not only to prevent errors, but also to greatly improve this feature of our roport.

The above totals for this week show that the movement from the ports other than Bombay is —— bales —— than for the same week last year. For the whole of India, therefore, the total shipments this week and since January 1, 1881, and for the corresponding weeks and periods of the two previous years, are as follows.

EXIORIS TO EUROPE PROM ALL INDIA.						
Shipments	1881.		18	330.	1879.	
to all Europe from—	This week.	Since Jan. 1.	This week.	Since Jan. 1.	This week.	Since Jan. 1.
Bombay. All other p'rts.	14,000	314,000	30,000 6,000			
Total	14,000	514,000	36,000	741,000	59,000	535,000

This last statement affords a very interesting comparison of the total movement for the week ending May 19, and for the three years np to date, at all India ports.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years. of the previous two years.

Alexandria, Egypt, May 19.	1881.	1880.	1979.
Receipts (cantars*)— This week Since Sept. 1	6,500 2,747,000	3,200,500	3,000
	This Since Sept. 1.	This Since Sept. 1.	This Since week. Sept. 1.
Exports (baies)— To Liverpool To Continent	2,300 229,730 139,632		3,000 164,000 76,500
Total Europe	2,500 369,382	1,209 454.244	3,000 240,500
* A cantar is 98 ibs.			

This statement shows that the receipts for the week ending May 19 were 6,500 cantars and the shipments to all Europe were 2,500 bales.

MANCHESTER MARKET.—Our report received from Manchester to-night states that prices for twists and shirtings are unchanged and that the market is quiet and steady. We give the prices of to-day below, and leave previous weeks' prices for comparison:

		1881.

SHIPPING News.—The exports of cotton from the United States the past week, as per latest mail returns, have reached 63,934 bales. So far as the Sonthern ports are concerned, these are the same exports reported by telegraph, and published in the Chronicle last Friday. With regard to New York, we include the manifests of all vessels cleared up to Wednesday night of this week:

Below we give all news received to date of disasters to vessels carrying cotton from United States ports, etc.:

LUMLEY CASTLE, stoamer, before reported sunk on Horn Reef, Denmark.—A salvago steamer arrived at Esbjerg, April 28, with dynamito, for the purpose of blowing up steamship Lumley Castle (Br.), from New Orleans for Reval, sunk on Horn Reef, and afterwards of recovering the cargo of cotton.

FANLEY, steamer (Br.), before reported.—A salvago steamer arrived at Esbjerg, April 28, with dynamito, for the purpose of blowing up steamship Farniey, (Br.) from Savannah for Roval, which sunk at Horn Reef, and afterwards of recovering the enrge of cotton.

WIDDRINGTON, steamer, before reported sunk at Halifax by collision with steamer Canima—The cargo of damaged cotton from steamer Widdrington was sold at auction. Sixty bales of the dryest brought \$36 a bale, and the balance, about 700 bales, sold for \$31.

ENOCH TRAIN, ship (Br.), from New Orleans for Liverpool, before reported, put into Havana May 3, had grounded on the Tortugas, May 1, and sprung a leak, lost her rudder and part of keei. She would be

surveyed, and in ease of condemnation her earge would be transshipped. The steamer Newport, which left New York May 13 for
Havana, took out wreeking materials to be used on the Encel
Train. A special agent was also dispatched by the underwriters.

ISABEL CRAGGS, bark (Br.), loading at Charleston, S. C., for Havre, took
fire midnight of May 13; vessel filled with water, and ou the 14th
the fire was extinguished. There were 1,861 bales of cotton
already on board. She was pumped out and found not to be
materially damaged. All of her eargo is supposed to be more or
less damaged by water.

Cotton freights the past week have been as follows:

BREADSTUFFS.

FRIDAY, P. M., May 20, 1881.

There has been an active flour market during the past week, and prices have had an upward tendency. The export demand has been large, and the home trade very fair. It would appear that orders had been delayed in anticipation of [fuller supplies until they could be put off no longer. A feature of the market has been the urgent demand for medium to prime extras from

winter wheat, and in these the advance has been most decided, large lines having been sold in the range of \$5 25 to \$6 per bbl. Extreme high grades, including choice "patents," have continued slow of sale, but are firmly held. Rye flour and corn meal have been rather dull. To-day wheat flour was firm and in good demand, and rye flour held higher, though quiet.

The wheat market was nnsettled and variable early in the week. Prices for prompt delivery of course gave way under the more liberal supplies, while futures were pretty well sustained. more liberal supplies, while futures were pretty well sustained. Yesterday, however, there was a pretty general improvement in prices, with a large business in both "spots" and "futures." No. 2 red winter sold at \$1 25@\$1 26 on the spot, \$1 25@\$1 25% for May, \$1 23@\$1 23% for June, \$1 20@\$1 20% for July, \$1 16½ for August; No. 1 white at \$1 24@\$1 24½ on the spot and for May, and \$1 21@\$1 21½ for June; and No. 2 Chicago spring on the spot at \$1 19¾. The dronght last antumn, soon after wheat was sown in some sections, has been supplemented by drought this spring, and threatens serious in jury to the crop; but we cannot say how wide is the area affected. To-day the opening was buoyant, but the close about as yesterday. as yesterday.
Indian corn was lower early in the week, especially for

Indian corn was lower early in the week, especially for prompt delivery; but yesterday prices made a pretty general improvement. No. 2 mixed sold at 57½657½c. on the spot, 55%5½c for June, 55¾c. for July and 56c. for August. The corn which has lain all winter in boats in the empty canal comes forward in better condition than was expected. There have been liberal transactions in Western white corn at 60@62½c. for No. 2, the latter figure yesterday. To-day there was some further improvement at the opening, but the close was flat. Rye has been scarce and held for an advance. Barley and barley malt are dull and nominal.

Oats have been rather quiet, with prices showing a declining tendency for both spots and futures. The speculative interest seems to have in a large measure subsided. To-day the market was quiet; No. 2 graded 45¼c. for mixed and 50c. for white, and No. 2 mixed 45¼c. for June and July and 39c. for August.

THE DRY GOODS TRADE.

FRIDAY, P. M., May 20, 1881.

There was a somewhat freer movement in certain descriptions of dry goods the past week, but the market as a whole was devoid of animation. The opening of navigation has induced some of the larger Western jobbers, who avail themselves of cheap water transportation, to auticipate future requirements to some extent, and their operations in the most staple fabrics were conducted on a rather more liberal scale than for some time past. Woolen goods continued in falr demand by the clothing trade, and there was more urgeucy on the part of this class of buyers to obtain deliveries of heavy woolens in execution of previous orders. Foreign goods were mostly quiet in first hands, as is usually the case at this advanced stage of the season. The jobbing trade has been of fair average proportions, notwithstanding the unfavorable

state of the weather, which interrupted the sale of some of the lighter summer fabrics.

Domestic Cotton Goods.—The exports of domestics from this port during the week ending May 17 aggregated 2,597 packages, including 1,312 to China, 230 to British Hondaras, 209 to Great Britain, 209 to Chili, 143 to Haytl, 107 to U.S. of Colombia, 104 to Mexico, and a number of smaller parcels to other destinations. There was an irregular demand for cotton goods by package buyers, but the best makes of plain and colored cottons were distributed in considerable quantities at steady prices, and there was a large movement in printing cloths, which arrested the attention of bnyers in want of low-grade brown and bleached goods, which were more freely taken at the present relatively low prices. Print cloths were in active demand, and there was a sharp advance in prices, extra 64x64s closlug at 31/8@4c. and 56x60s at 31/8@31/2c. Prints were qulet and nnsettled, with the exception of a few of the best makes, which are steadily held. Lawns and piques were in irregular demand, but some considerable sales of "off styles" were made by means of price concessions. Ginghams continued active and firm, in

of price concessions. Ginghams continued active and firm, in both first and second hands, and low prices enabled agents to move fair quantities of cotton dress goods.

Domestic Woolen Goods.—There was a steady movement in heavy cassimeres, snitings, worsted coatings, &c., in execution of former orders, and new business, though spasmodic and irregular, was fairly satisfactory in volume. Leading makes of heavy cassimeres are largely sold to arrive, and prices of such fabries are now firmly maintained on the present low basis; but goods not strictly in accordance with the requirements of the trade are slow of sale and in ample supply. Spring wooleus ruled quiet in agents' hands, but a good business was reported by cloth jobbers having attractive lines to offer at relatively low figures. Kentncky jeans have received more attention, and some fair sales were made (in exceptional cases) by agents disposed to grant price concessions to buyers of round lots. Satinets remained inactive, but fairly steady. There was some inquiry for flannels and blankets by early buyers, but business was light, and worsted dress goods were sluggish; but there was a fair demand for Shetland shawls, and some considerable lots of knit underwear were taken by Western buyers for shipment by canal.

ern buyers for shipment by canal.

Foreign Dry Goods—There was an unimportant demand for foreign goods at first hands, and selections were almost wholly restricted to small lots required for the replenishment of broken stocks. A fair business was, however, reported by job-bers and retailers, and moderate quantities of silks, millinery goods, hosiery and gloves, Canton matting. &c., were distributed through the auction rooms at about their market value.

Importations of Dry Goods.

The importations of dry goods at this port for the week ending May 19, 1881 and since Jannary 1, and the same facts for the corresponding periods of 1880, are as follows:

						0 200	10.10.10.
